45. Smiths Detection Delivers Fully Automated International Remote Baggage Screening System Between South Korea and the United States

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2026 disclosure identifies xx.xx software licenses and DICOS V3.xx.xx exchange, and dates operational service to August 2025. Supports commercial standards-based activity and forecast feasibility, not an observed global share or a confirmed 2025 license inventory. ([smithsdetection.com](https://www.smithsdetection.com/press-releases/smiths-detection-delivers-fully-automated-international-remote-baggage-screening-system-between-south-korea-and-the-united-states/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2026 disclosure identifies xx.xx software licenses and DICOS V3.xx.xx exchange, and dates operational service to August 2025. Supports commercial standards-based activity and forecast feasibility, not an observed global share or a confirmed 2025 license inventory. ([smithsdetection.com](https://www.smithsdetection.com/press-releases/smiths-detection-delivers-fully-automated-international-remote-baggage-screening-system-between-south-korea-and-the-united-states/))

46. SeeTrue Marks Milestone with Over 100 X-ray Checkpoint Installations of Advanced AI-Based Threat Detection Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 announcement reports the 100th operational screening lane across airports and other sectors. Provides a limited commercial-adoption scale check; it is neither airport-only nor a census of standards-based entitlements. ([seetrue.ai](https://www.seetrue.ai/seetrue-marks-milestone-with-over-xx.xx-x-ray-checkpoint-installations-of-advanced-ai-based-threat-detection-software/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 announcement reports the 100th operational screening lane across airports and other sectors. Provides a limited commercial-adoption scale check; it is neither airport-only nor a census of standards-based entitlements. ([seetrue.ai](https://www.seetrue.ai/seetrue-marks-milestone-with-over-xx.xx-x-ray-checkpoint-installations-of-advanced-ai-based-threat-detection-software/))

47. Scarabee's Checkpoint Property Screening System to be deployed at DEN

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-lane Denver award combining Scarabee lanes with Smiths scanners. Corroborates a commercial mixed-supplier integration route; an award is not realized annual revenue or proof of unrestricted interoperability. ([daifukuatec.com](https://daifukuatec.com/news/scarabees-checkpoint-property-screening-system-to-be-deployed-at-den))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-lane Denver award combining Scarabee lanes with Smiths scanners. Corroborates a commercial mixed-supplier integration route; an award is not realized annual revenue or proof of unrestricted interoperability. ([daifukuatec.com](https://daifukuatec.com/news/scarabees-checkpoint-property-screening-system-to-be-deployed-at-den))

48. CATSA Annual Report 2024 - Management's Discussion and Analysis

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx pre-board capital appropriations used of C$xx.xx provide the second period in the non-passenger-to-cabin purchasing comparison.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx non-passenger capital appropriations used of C$xx.xx enter the two-period activity proxy; they do not identify the property-only fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx non-passenger capital appropriations used of C$xx.xx enter the two-period activity proxy; they do not identify the property-only fraction.

49. Smiths Detection confirm order of 91 advanced scanners for new terminals at Moscow Sheremetyevo International Airport
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The dated airport deployment includes xx.xx entrance baggage systems and xx.xx cabin-checkpoint systems. Their ratio supplies a historical relative-density proxy, subsequently discounted for assumed global coverage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated airport deployment includes xx.xx entrance baggage systems and xx.xx cabin-checkpoint systems. Their ratio supplies a historical relative-density proxy, subsequently discounted for assumed global coverage.
50. Cochin International Airport Selects Smiths Detection's CTX 9800 for Next-Generation Hold Baggage Screening
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2017 deployment identifies xx.xx customs baggage systems alongside four hold-baggage systems. This supports the customs-intensive historical configuration proxy, not current global fleet or revenue observations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2017 deployment identifies xx.xx customs baggage systems alongside four hold-baggage systems. This supports the customs-intensive historical configuration proxy, not current global fleet or revenue observations.
51. CATSA Functions, Programs and Activities
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Hold-baggage activities include equipment purchase, baggage-handling integration and equipment maintenance, supporting the checked-baggage capital and lifecycle boundary.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Hold-baggage activities include equipment purchase, baggage-handling integration and equipment maintenance, supporting the checked-baggage capital and lifecycle boundary.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-passenger screening covers airport workers and their belongings; only attributable property-screening offerings enter this allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-passenger screening covers airport workers and their belongings; only attributable property-screening offerings enter this allocation.
52. Fraport TAV Antalya Airport - About the security control itself
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The airport operator distinguishes terminal-entry security from a subsequent checkpoint. This supports a separate entrance-screening mission while providing no global prevalence or spending share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport operator distinguishes terminal-entry security from a subsequent checkpoint. This supports a separate entrance-screening mission while providing no global prevalence or spending share.
53. EMSD VoiceLink, Issue 79, June 2026 - EMSD Provides Comprehensive Support for Terminal 2 Commissioning
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June 2026 account identifies baggage-and-parcel equipment procurement and installation for the customs authority at Terminal xx.xx. It supports a separate commissioning mission but does not isolate baggage expenditure.
54. GAO-26-107811 - Guam: Considerations for Evaluating Alternative Customs Models and Potential Economic Effects
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The audit identifies two historical airport-customs baggage systems inactive for years and delayed replacement procurement. This challenges conversion of installed stock or acknowledged need directly into annual equipment and support revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The audit identifies two historical airport-customs baggage systems inactive for years and delayed replacement procurement. This challenges conversion of installed stock or acknowledged need directly into annual equipment and support revenue.

55. Bank of Canada - Annual exchange rates
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual exchange-rate observations support the inherited fiscal-period approximation of xx.xx Canadian dollars per U.S. dollar; this is not a transaction-weighted exchange rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual exchange-rate observations support the inherited fiscal-period approximation of xx.xx Canadian dollars per U.S. dollar; this is not a transaction-weighted exchange rate.
56. Japan’s leading airline revolutionizes check in experience with new Smiths Detection technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The August 2023 announcement identifies JAL as customer for five screening ecosystems and reports xx.xx deployed iLane units across Japan. These are historical commercial-stock anchors, not an airline-only fleet or 2025 sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August 2023 announcement identifies JAL as customer for five screening ecosystems and reports xx.xx deployed iLane units across Japan. These are historical commercial-stock anchors, not an airline-only fleet or 2025 sales observation.
57. Narita International Airport anticipates threats with integrated solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Narita airport as a screening-technology customer and describes xx.xx lane-related installations, qualifying any assumption that the supplier's Japanese installed stock was purchased entirely by airlines.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Narita airport as a screening-technology customer and describes xx.xx lane-related installations, qualifying any assumption that the supplier's Japanese installed stock was purchased entirely by airlines.
58. MLIT - 保安検査の実施主体が変わります！ - June 27, 2025
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement targets transfer of security-screening responsibility from airlines to airport managers, with leading cases targeted in FY2026. Supports a conditional reduction in airline purchasing, not an observed contract-transfer percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transfer direction supports modeled airport-manager purchasing gains. Continued shared financing does not imply equal purchasing shares.
59. ICTS International N.V. - Annual Report for the year ended December 31, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Discloses USD xx.xx company-wide property/equipment purchases and USD xx.xx airport-security revenue in 2025. Supports an asset-light purchasing-intensity proxy; the in-scope fraction and global expansion remain assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Discloses USD xx.xx company-wide property/equipment purchases and USD xx.xx airport-security revenue in 2025. Supports an asset-light purchasing-intensity proxy; the in-scope fraction and global expansion remain assumptions.
60. EU Publications Office - Purchase and maintenance of non-intrusive X-ray inspection equipment for baggage and air cargo volume control
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Autoridade Tributária e Aduaneira as buyer and reports a 2026 award of EUR xx.xx across four lots for baggage/air-cargo inspection equipment and maintenance. Provides a buyer-role and commercial-scale comparator, not 2025 baggage-only annual expenditure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Autoridade Tributária e Aduaneira as buyer and reports a 2026 award of EUR xx.xx across four lots for baggage/air-cargo inspection equipment and maintenance. Provides a buyer-role and commercial-scale comparator, not 2025 baggage-only annual expenditure.

61. ACI World - Busiest Airports in the World
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx international airport passenger movements in 2025. Half provides an approximate arrival-movement scale check before transfer exclusions, not a customs examination or equipment-purchasing weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx international airport passenger movements in 2025. Half provides an approximate arrival-movement scale check before transfer exclusions, not a customs examination or equipment-purchasing weight.
62. Heathrow announces £2.3bn accelerated investment plan to upgrade the UK's international gateway to growth
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports GBP xx.xx invested in security-lane upgrades during 2024, supporting material airport-directed purchasing. Broader infrastructure obligations and historical timing prevent treating the amount as 2025 in-scope market receipts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports GBP xx.xx invested in security-lane upgrades during 2024, supporting material airport-directed purchasing. Broader infrastructure obligations and historical timing prevent treating the amount as 2025 in-scope market receipts.
63. Fraport Assumes Responsibility for Aviation Security Checks at Frankfurt Airport
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents Fraport's checkpoint-management responsibility from January 2023, six initial CT-equipped lanes and three contracted screening providers. Supports distinguishing an airport commissioning role from regulator oversight and contracted screening labor.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents Fraport's checkpoint-management responsibility from January 2023, six initial CT-equipped lanes and three contracted screening providers. Supports distinguishing an airport commissioning role from regulator oversight and contracted screening labor.
64. Advanced Cabin Baggage Screening - Computed Tomography Implementation Guide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes standalone CT, including equipment-local conveyance, from integrated screening-lane configurations; supports attribution boundaries, not a revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes standalone CT, including equipment-local conveyance, from integrated screening-lane configurations; supports attribution boundaries, not a revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies automated tray-return and automated screening-lane integration as commercially distinct configurations; supports the lane-integrated category definition.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies automated tray-return and automated screening-lane integration as commercially distinct configurations; supports the lane-integrated category definition.
65. GAO-12-266 - Checked Baggage Screening: TSA Has Deployed Optimal Systems at the Majority of TSA-Regulated Airports, but Could Strengthen Cost Estimates
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December 2011 table reports xx.xx standalone EDS alongside xx.xx in-line EDS; this historical machine-count comparator constrains, but does not determine, the current global allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December 2011 table reports xx.xx standalone EDS alongside xx.xx in-line EDS; this historical machine-count comparator constrains, but does not determine, the current global allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx in-line EDS across xx.xx in-line systems and distinguishes equipment counts from integrated-system counts; supports the historical configuration bridge.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx in-line EDS across xx.xx in-line systems and distinguishes equipment counts from integrated-system counts; supports the historical configuration bridge.

66. Smiths Detection selected as security technology provider to International Airport Heraklion Crete

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 announcement identifies eight cabin CT scanners and eight automated tray-return systems for Heraklion, with installation planned across late 2025 and mid-2026; supports ongoing integrated procurement, not realized annual revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 announcement identifies eight cabin CT scanners and eight automated tray-return systems for Heraklion, with installation planned across late 2025 and mid-2026; supports ongoing integrated procurement, not realized annual revenue.

67. Centralised Image Processing: The Impact on Security Checkpoints

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes checkpoint-local image review from separate-room arrangements; supports retaining networked local activity rather than automatically assigning it to remote review. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes checkpoint-local image review from separate-room arrangements; supports retaining networked local activity rather than automatically assigning it to remote review. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes separate screening rooms and established remote hold-baggage review at larger airports; supports the cohort-maturity premise, not a numerical global share. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes separate screening rooms and established remote hold-baggage review at larger airports; supports the cohort-maturity premise, not a numerical global share. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes combined checkpoint and remote-room arrangements, establishing a mixed-location commercial configuration without measuring its prevalence or price. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes combined checkpoint and remote-room arrangements, establishing a mixed-location commercial configuration without measuring its prevalence or price. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))

68. Annual Report 2024 - CATSA's Operating Environment

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2023/xx.xx providing the historical comparison rather than a global location allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2023/xx.xx providing the historical comparison rather than a global location allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Together with the subsequent annual report, supports a seven-line deployment increase without a corresponding increase in reported passenger coverage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Together with the subsequent annual report, supports a seven-line deployment increase without a corresponding increase in reported passenger coverage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provides a historical network-enabled deployment anchor, while leaving the physical mixed-location contract share unmeasured. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provides a historical network-enabled deployment anchor, while leaving the physical mixed-location contract share unmeasured. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))

69. L22020-T-TG Upgrades to the Passenger Search Area, body scanners, EDS C3 cabin baggage screening - Contract Award Notice

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2023 Luton award expressly includes construction of a remote screening room at the airport terminal, supporting separate-room commercial procurement. Its broader scope is not treated as baggage-only annual revenue. ([find-tender.service.gov.uk](https://www.find-tender.service.gov.uk/Notice/xx.xx-2023))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2023 Luton award expressly includes construction of a remote screening room at the airport terminal, supporting separate-room commercial procurement. Its broader scope is not treated as baggage-only annual revenue. ([find-tender.service.gov.uk](https://www.find-tender.service.gov.uk/Notice/xx.xx-2023))

70. Greater Orlando Aviation Authority - Minutes of the February 19, 2025 Meeting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Authorizes up to USD xx.xx for baggage-system and Remote Screening Facility network/server separation. Half this ceiling is an explicitly assumed deployment-cost comparator, not observed off-site receipts. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Authorizes up to USD xx.xx for baggage-system and Remote Screening Facility network/server separation. Half this ceiling is an explicitly assumed deployment-cost comparator, not observed off-site receipts. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provides the commercial networking-cost anchor for the modeled transfer from existing on-site pools, avoiding additional market value or duplicate host-equipment attribution. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provides the commercial networking-cost anchor for the modeled transfer from existing on-site pools, avoiding additional market value or duplicate host-equipment attribution. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))

71. American and U.S. Customs and Border Protection pilot innovative baggage screening initiative

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: American's April xx.xx 2025 announcement identifies a daily Sydney-Los Angeles IRBS pilot and unchanged screening requirements. It anchors one sampled connection and an assumed partial-year licensing period, not disclosed revenue. ([s202.q4cdn.com](https://s202.q4cdn.com/xx.xx/files/doc_news/American-and-US-Customs-and-Border-Protection-pilot-innovative-baggage-screening-initiative-OPS-OTH-xx.xx-2025.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: American's April xx.xx 2025 announcement identifies a daily Sydney-Los Angeles IRBS pilot and unchanged screening requirements. It anchors one sampled connection and an assumed partial-year licensing period, not disclosed revenue. ([s202.q4cdn.com](https://s202.q4cdn.com/xx.xx/files/doc_news/American-and-US-Customs-and-Border-Protection-pilot-innovative-baggage-screening-initiative-OPS-OTH-xx.xx-2025.pdf))

72. 델타항공-대한항공, 인천발 애틀랜타 노선 대상 위탁수하물 원격 검색 방식 신규 도입

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2025 announcement identifies the Incheon-Atlanta IRBS arrangement, anchoring a second sampled connection and a partial-year commercial-activity assumption without establishing contract value. ([news.delta.com](https://news.delta.com/delta-and-koreanair-launch-remote-baggage-screening-on-icn-atl-KR))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2025 announcement identifies the Incheon-Atlanta IRBS arrangement, anchoring a second sampled connection and a partial-year commercial-activity assumption without establishing contract value. ([news.delta.com](https://news.delta.com/delta-and-koreanair-launch-remote-baggage-screening-on-icn-atl-KR))

73. United Launches CBP's International Remote Baggage Screening on Select International Flights

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: United's September xx.xx 2025 announcement identifies daily Sydney-San Francisco service and named technology partners, anchoring a third sampled connection. It reports no attributable software or integration receipts. ([united.mediaroom.com](https://united.mediaroom.com/2025-xx.xx-xx.xx-United-Launches-CBPs-International-Remote-Baggage-Screening-on-Select-International-Flights))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: United's September xx.xx 2025 announcement identifies daily Sydney-San Francisco service and named technology partners, anchoring a third sampled connection. It reports no attributable software or integration receipts. ([united.mediaroom.com](https://united.mediaroom.com/2025-xx.xx-xx.xx-United-Launches-CBPs-International-Remote-Baggage-Screening-on-Select-International-Flights))

74. Airline Passengers Face Fewer Bag Checkpoints, Thanks to PNNL, Partners

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2026 laboratory release describes implementation on additional routes, including Seoul arrivals at Minneapolis-St. Paul and Detroit. This supports expansion direction, not the forecast connection count, realization or global share. ([pnnl.gov](https://www.pnnl.gov/news-media/airline-passengers-face-fewer-bag-checkpoints-thanks-pnnl-partners))

75. TSA awards $781.2 million to procure additional CT X-Ray scanners for airport checkpoints

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2022 announcement identifies up to USD xx.xx for procurement and maintenance of up to xx.xx systems from an OEM. This is a historical procurement-scale anchor, not annual 2025 direct-channel revenue. ([content.govdelivery.com](https://content.govdelivery.com/accounts/USDHSTSA/bulletins/30f6e5f))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The award includes full-size automated lanes, cautioning against assigning all automation value to non-OEM integration primes; exact contractual-role attribution is not disclosed. ([content.govdelivery.com](https://content.govdelivery.com/accounts/USDHSTSA/bulletins/30f6e5f))

76. OSI Systems, Inc. - Form 10-K for the fiscal year ended June 30, 2026

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing describes regional direct security-product sales and direct maintenance relationships. Its broader security scope supports route coexistence, not baggage-only sales weights. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing describes regional direct security-product sales and direct maintenance relationships. Its broader security scope supports route coexistence, not baggage-only sales weights. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company identifies a global independent-distributor network, supporting a continuing indirect route without quantifying its value share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company identifies a global independent-distributor network, supporting a continuing indirect route without quantifying its value share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Authorized service providers are identified separately from distributors, supporting distinct technical-service attribution and access limitations. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Authorized service providers are identified separately from distributors, supporting distinct technical-service attribution and access limitations. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

77. SriLankan Airlines - Invitation for Supply, Installation, Commissioning and Maintenance of Dual View Heavy and Medium X-Ray Machines, Reference 202130407

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 purchaser invitation permits an OEM or authorized OEM agent and requires authorization for the latter. It establishes equipment-channel eligibility, not an award or software-resale right. ([srilankan.com](https://www.srilankan.com/download/tender/TN-Invitationforsubmiss-xx.xx.pdf))

78. JFK Millennium Partners Selects K2 to Deliver State-of-the-Art Security Screening Checkpoint at new JFK Terminal 6

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment assigns procurement and deployment coordination across multiple technology suppliers at a future ten-gate terminal. It supports integration-prime participation and a forecast mechanism, not a disclosed share or completed 2025 revenue. ([portauthoritybuilds.com](https://www.portauthoritybuilds.com/redevelopment/us/en/jfk/planned-projects/terminal-xx.xx/news/jfk-millennium-partners-selects-k2-to-deliver-state-of-the-art-s.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment assigns procurement and deployment coordination across multiple technology suppliers at a future ten-gate terminal. It supports integration-prime participation and a forecast mechanism, not a disclosed share or completed 2025 revenue. ([portauthoritybuilds.com](https://www.portauthoritybuilds.com/redevelopment/us/en/jfk/planned-projects/terminal-xx.xx/news/jfk-millennium-partners-selects-k2-to-deliver-state-of-the-art-s.html))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment covers baggage CT and automated bin-return equipment for a future xx.xx-gate terminal, with phased opening planned for 2026-2028. It establishes new-installation activity, not attributable 2025 receipts; wider airport investment and person-only technologies are excluded.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment covers baggage CT and automated bin-return equipment for a future xx.xx-gate terminal, with phased opening planned for 2026-2028. It establishes new-installation activity, not attributable 2025 receipts; wider airport investment and person-only technologies are excluded.

79. CATSA Corporate Plan 2024-25 to 2028-29 Summary - Key Corporate Risks

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The authority reports transferring maintenance of most screening equipment to KPrime in 2023/xx.xx. This establishes a separately contracted maintenance relationship, without a baggage-only payment split. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/key-corporate-risks))

80. Checkpoint Transformation: Malta International Airport Streamlines Passenger Flow with Smiths Detection

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Seven conventional automated lanes were replaced by six CT-equipped lanes, with final commissioning in January 2025. This is a counterexample to equating capacity improvement with net additional equipment.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seven conventional automated lanes were replaced by six CT-equipped lanes, with final commissioning in January 2025. This is a counterexample to equating capacity improvement with net additional equipment.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The complete checkpoint replacement illustrates why an offering described commercially as an upgrade can belong to System Replacement. The seven-year service commitment is not counted wholly as installation-year revenue.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The complete checkpoint replacement illustrates why an offering described commercially as an upgrade can belong to System Replacement. The seven-year service commitment is not counted wholly as installation-year revenue.

81. iCMORE - Smiths Detection

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current commercial offering describes a software-upgrade path while qualifying additional hardware requirements by machine type and age. This constrains forecast eligibility assumptions; product availability does not measure adoption or revenue.

18.2. China

Table 436. China Airport Baggage Screening Systems Market Size, 2017-2040 (USD Million)

Sources & Evidence

1. House Report 119-173 - Department of Homeland Security Appropriations Bill, 2026

   · Evidence informing the 2030 market-value input; displayed series and growth include calculations: The aging installed fleet supports replacement demand, but does not establish the forecast's realization dates or annual purchasing rate. ([govinfo.gov](https://www.govinfo.gov/content/pkg/CRPT-119hrpt173/html/CRPT-119hrpt173.htm))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report identifies xx.xx end-of-life systems within a xx.xx-system checked-baggage fleet. This constrains renewal exposure, not realized annual purchasing or a verified global replacement deadline.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports a TSA checked-baggage fleet of xx.xx EDS, including xx.xx at end-of-life, and assigns purchase, installation and maintenance responsibilities to TSA. Supports agency fleet calibration and renewal pressure, not the assumed forecast uplift.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports a TSA checked-baggage fleet of xx.xx EDS, including xx.xx at end-of-life, and assigns purchase, installation and maintenance responsibilities to TSA. Supports agency fleet calibration and renewal pressure, not the assumed forecast uplift.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report identifies xx.xx end-of-life EDS within a xx.xx-unit U.S. checked-baggage fleet, citing the FY2024 capital plan. The derived xx.xx% backlog constrains the aging-fleet premise, but is neither an annual turnover rate nor a funded global replacement forecast.

2. GAO-24-106573 - DHS Annual Assessment: Most Programs Are Meeting Current Goals, but Some Continue to Face Cost and Schedule Challenges

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports plans for xx.xx checkpoint systems and xx.xx increment-one deployments by September 2023; supports an incomplete replacement cycle rather than universal CT adoption. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx AT/CT, xx.xx base, xx.xx mid-size and xx.xx full-size deployments by September 2023; supplies configuration proxies and an incomplete-renewal constraint, not contractual architecture shares. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx AT/CT, xx.xx base, xx.xx mid-size and xx.xx full-size deployments by September 2023; supplies configuration proxies and an incomplete-renewal constraint, not contractual architecture shares. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The deployed configuration mix underlies the xx.xx/xx.xx newer-cohort and xx.xx/xx.xx older-cohort proxy calculations; global and contractual attribution remain modeled. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The deployed configuration mix underlies the xx.xx/xx.xx newer-cohort and xx.xx/xx.xx older-cohort proxy calculations; global and contractual attribution remain modeled. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The assessment records xx.xx checkpoint systems deployed by September 2023 against an eventual xx.xx-system program. This supports an incomplete replacement cycle and qualifies any assumption of universal CT adoption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The assessment records xx.xx checkpoint systems deployed by September 2023 against an eventual xx.xx-system program. This supports an incomplete replacement cycle and qualifies any assumption of universal CT adoption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports a September 2023 U.S. CT cohort containing xx.xx AT/CT and xx.xx base systems, providing counterevidence to assigning all CT activity automatically to integrated lanes.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports a September 2023 U.S. CT cohort containing xx.xx AT/CT and xx.xx base systems, providing counterevidence to assigning all CT activity automatically to integrated lanes.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx mid-size and xx.xx full-size systems within xx.xx deployed CT systems; supports differentiated configuration assumptions rather than treating technology adoption as an integration-share observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx mid-size and xx.xx full-size systems within xx.xx deployed CT systems; supports differentiated configuration assumptions rather than treating technology adoption as an integration-share observation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2024 assessment records xx.xx checkpoint deployments as of September 2023 against xx.xx planned systems replacing aging equipment. It supports staged renewal, but does not establish current deployment completion or the modeled 2032 share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2024 assessment records xx.xx checkpoint deployments as of September 2023 against xx.xx planned systems replacing aging equipment. It supports staged renewal, but does not establish current deployment completion or the modeled 2032 share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The program separately anticipates enhancements to fielded systems, supporting a retained-equipment commercial pathway without supplying an attributable upgrade-revenue split.

3. Global Airport Passenger Traffic Reaches Record 9.8 Billion in 2025, Airports Council International World reports

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports cooling passenger-growth momentum in 2026, supporting moderation of traffic-driven equipment expansion despite continuing replacement demand.
   ([aci.aero](https://aci.aero/2026/xx.xx/xx.xx/global-airport-passenger-traffic-reaches-record-xx.xx-xx.xx-billion-in-2025-airports-council-international-world-reports/))

4. Smiths Group PLC - Full Year Results for the 12 Months Ended 31 July 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Discloses aviation original-equipment revenue of xx.xx and aftermarket revenue of xx.xx for FY2024; supplies historical cycle proxies. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing the 2027 market-value input; displayed series and growth include calculations: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; supports replacement activity, not an observed global forecast. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2025 aviation original-equipment revenue of GBP xx.xx provides an independent equipment-activity scale check, not a global category share. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025 aviation original-equipment revenue of GBP xx.xx provides an independent equipment-activity scale check, not a global category share. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx cumulative CTiX sales corroborate commercial imaging activity and replacement demand; they do not measure annual global sales. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx cumulative CTiX sales corroborate commercial imaging activity and replacement demand; they do not measure annual global sales. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: GBP xx.xx aviation aftermarket revenue supports lifecycle materiality while qualifying transfer of one supplier's mix to the global service allocation. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GBP xx.xx aviation aftermarket revenue supports lifecycle materiality while qualifying transfer of one supplier's mix to the global service allocation. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; cumulative sales constrain commercial scale but are not annual global shipments. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; cumulative sales constrain commercial scale but are not annual global shipments. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports four operating XDi units as of July 2025 and pending regulatory certification, constraining the small XRD cohort and qualifying aggressive commercialization assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports four operating XDi units as of July 2025 and pending regulatory certification, constraining the small XRD cohort and qualifying aggressive commercialization assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported checkpoint modernization provides a commercial reason to model substitution from discrete legacy offerings; the filing does not disclose standalone configuration revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025

5. Smiths Group PLC - Annual Report & Accounts FY2023
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: Reports FY2022 aviation original-equipment revenue of xx.xx, used as a dimensionless historical capital-cycle proxy. ([www-live.smiths.com](https://www-live.smiths.com/media/phjp1j44/smiths-annual-report-2023.pdf))
   - Evidence informing the 2023 market-value input; displayed series and growth include calculations: Reports FY2023 aviation original-equipment revenue of xx.xx and aftermarket revenue of xx.xx; supports the modeled recovery direction. ([www-live.smiths.com](https://www-live.smiths.com/media/phjp1j44/smiths-annual-report-2023.pdf))
6. Smiths Group PLC - Annual Report FY2022
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: Reports FY2021 aviation revenue of xx.xx, providing a historical purchasing-cycle reference rather than a global observation. ([www-live.smiths.com](https://www-live.smiths.com/media/xjvdpblr/smiths-annual-report-2022-report.pdf))
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: Reports FY2022 aviation revenue of xx.xx and continued weakness in aviation original equipment; supports a delayed capital-spending trough. ([www-live.smiths.com](https://www-live.smiths.com/media/xjvdpblr/smiths-annual-report-2022-report.pdf))
7. Smiths Group PLC - Annual Results for the Year Ended 31 July 2019
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: Reports FY2018 aviation revenue of xx.xx, supplying the historical comparison underlying the backcast. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: Reports FY2019 aviation revenue of xx.xx and customer delivery deferrals, qualifying a traffic-only growth model. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Identifies deliveries deferred into FY2020; supports the possibility of backlog-supported spending despite a contemporaneous traffic shock, not the exact modeled growth rate. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
8. ACI World - The High-Wire Balancing Act: Global Air Transport Demand in 2018 and 2019
   - Evidence informing the 2017 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers and xx.xx% growth in 2018; the growth observation informs the 2017 backcast bridge. ([blog.aci.aero](https://blog.aci.aero/airport-economics/the-high-wire-balancing-act-global-air-transport-demand-in-2018-and-2019/))
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: Provides the observed 2018 traffic-growth reference, not an equipment-market growth observation. ([blog.aci.aero](https://blog.aci.aero/airport-economics/the-high-wire-balancing-act-global-air-transport-demand-in-2018-and-2019/))
9. ICAO A42-WP/556 - State of the Industry and Outlook for Airport Traffic, Presented by ACI
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Records the collapse from xx.xx airport passengers in 2019 to xx.xx in 2020; constrains the shock and funding-risk interpretation. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2021, supporting a prolonged funding and activity shock. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2023 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2023; traffic recovery is distinguished from equipment purchasing. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2024, providing a demand recovery cross-check. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))

10. Port of Seattle - Baggage Handling System Optimization
    - Evidence informing the 2029 market-value input; displayed series and growth include calculations: Seattle plans to consolidate six baggage-screening systems, increase supported passenger capacity, and reduce screening-machine demand. Supports integration spending without one-for-one detector growth. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing the 2032 market-value input; displayed series and growth include calculations: The consolidation example constrains equipment-volume assumptions; its whole baggage-handling project value is excluded from market sizing. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing the 2040 market-value input; displayed series and growth include calculations: Provides a commercial counterexample to extrapolating passenger growth directly into machine counts throughout the long-range forecast. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Consolidation of six systems with reduced machine demand qualifies a traffic-to-detector-volume forecast. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The consolidation project supports integration-driven conveyor demand, but its whole-project value is excluded. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Brownfield consolidation supports the integration-demand premise, not the forecast's exact service growth factor. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport replaces six separate screening systems with centralized screening and expects reduced screening-machine demand while expanding capacity. This supplies a counterforce to volume-only checked-baggage forecasting.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Seattle is consolidating six screening systems, expects reduced screening-machine demand and schedules final-phase completion in 2029. Supports integration demand while constraining detector-volume growth; the whole-project budget is excluded.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seattle is consolidating six screening systems, expects reduced screening-machine demand and schedules final-phase completion in 2029. Supports integration demand while constraining detector-volume growth; the whole-project budget is excluded.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seattle's project combines increased screening capacity with consolidation from six screening systems and reduced screening-machine demand. This constrains the forecast assumption that capacity growth requires proportional equipment additions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement and capacity objectives coexist within the project. Its wider baggage-handling budget is not treated as screening-equipment revenue or assigned additively to multiple purposes.
11. Smiths Group PLC - Half Year Results for the Six Months Ended 31 January 2026
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports xx.xx% organic growth for Smiths Detection in HY2026, with aviation checkpoint upgrades contributing. Supports a positive 2026 nowcast, not a directly observed global growth rate. ([www-live.smiths.com](https://www-live.smiths.com/media/villk35h/smiths-hy26-results-press-release.pdf))
12. CAAC - 2025 Civil Aviation Industry Development Statistical Bulletin, 17 April 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx mainland airport movements and xx.xx transport airports in 2025; the Hong Kong/Macao extension is modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx mainland airport movements and xx.xx transport airports in 2025; the Hong Kong/Macao extension is modeled.

13. CATSA 2025 Annual Report - Notes to the Financial Statements

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx accounts disclose C$xx.xx maintenance/spares and C$xx.xx training/certification, supporting the service-budget calibration but not global baggage-only shares. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx accounts disclose C$xx.xx maintenance/spares and C$xx.xx training/certification, supporting the service-budget calibration but not global baggage-only shares. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintenance and spare parts are combined in the accounts; the labor-versus-goods split therefore remains modeled. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintenance and spare parts are combined in the accounts; the labor-versus-goods split therefore remains modeled. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The C$xx.xx training/certification expense supplies the numerator of the adjusted training-to-capital proxy. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The C$xx.xx training/certification expense supplies the numerator of the adjusted training-to-capital proxy. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: C$xx.xx trace/consumables is distinct from maintenance/spares and supplies the contrary consumables-intensity comparator, not a global observation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: C$xx.xx trace/consumables is distinct from maintenance/spares and supplies the contrary consumables-intensity comparator, not a global observation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately reports C$xx.xx maintenance/spares, C$xx.xx trace/consumables and C$xx.xx training/certification, constraining attributable agency lifecycle expenditure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates screening-contractor payments from equipment support, preventing staffing expenditure from becoming equipment-market purchasing.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately reports C$xx.xx maintenance/spares, C$xx.xx trace/consumables and C$xx.xx training/certification, constraining attributable agency lifecycle expenditure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates screening-contractor payments from equipment support, preventing staffing expenditure from becoming equipment-market purchasing.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited expense disclosure reports C$xx.xx for maintenance and spare parts in the year ended March xx.xx 2025. It constrains support-spending materiality, not the amount attributable to an independent provider. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))

14. CATSA 2025 Annual Report - Management's Discussion and Analysis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: EDS capital expenditure of C$xx.xx includes equipment and installation/integration and supplies the training-calibration denominator, subject to baggage attribution. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EDS capital expenditure of C$xx.xx includes equipment and installation/integration and supplies the training-calibration denominator, subject to baggage attribution. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The capital definition includes associated installation and integration, supporting the distinction between deployment services and equipment value. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The capital definition includes associated installation and integration, supporting the distinction between deployment services and equipment value. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Actual spending, original budget and reprofile amounts constrain the forecast's purchasing-execution interpretation; they are not a global growth rate. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx pre-board capital appropriations used were C$xx.xx. This supplies the Canadian purchasing comparison and a component of the non-passenger-to-cabin activity proxy, not a global share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx pre-board capital appropriations used were C$xx.xx. This supplies the Canadian purchasing comparison and a component of the non-passenger-to-cabin activity proxy, not a global share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx hold-baggage capital appropriations used were C$xx.xx; this constrains the independent application-capital comparison.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx non-passenger capital appropriations used were C$xx.xx, below the original C$xx.xx budget. Actual purchasing informs the proxy and qualifies automatic announcement-to-revenue conversion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx non-passenger capital appropriations used were C$xx.xx, below the original C$xx.xx budget. Actual purchasing informs the proxy and qualifies automatic announcement-to-revenue conversion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports C$xx.xx EDS capital expenditure for FY2024/xx.xx and identifies both baggage equipment and full-body scanners in the capital scope, requiring a baggage-attribution adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports C$xx.xx EDS capital expenditure for FY2024/xx.xx and identifies both baggage equipment and full-body scanners in the capital scope, requiring a baggage-attribution adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EDS outturn was C$xx.xx versus an original C$xx.xx plan and revised C$xx.xx budget. Reprofiling constrains assumed award conversion and deployment timing; it does not measure procurement-channel mix. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The actual capital-project list identifies hold-baggage capacity expansion at Montréal-Trudeau, supporting the expansion classification, not its modeled global revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The actual capital-project list identifies hold-baggage capacity expansion at Montréal-Trudeau, supporting the expansion classification, not its modeled global revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The actual project list includes checkpoint CT deployment and hold-baggage oversize-equipment lifecycle management, supporting renewal activity without disclosing its purpose-specific spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The actual project list includes checkpoint CT deployment and hold-baggage oversize-equipment lifecycle management,

15. Aviation security screening approved equipment list
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Baggage EDS/EDSCB and conventional X-ray classes support the inspection-system boundary, not sales weights. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Baggage EDS/EDSCB and conventional X-ray classes support the inspection-system boundary, not sales weights. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Liquid detectors are a distinct cabin-baggage category; the complete bulk-material extension remains modeled within the captured boundary. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Liquid detectors are a distinct cabin-baggage category; the complete bulk-material extension remains modeled within the captured boundary. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ETD serves baggage and other applications, requiring explicit baggage attribution rather than allocating all detector sales here. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ETD serves baggage and other applications, requiring explicit baggage attribution rather than allocating all detector sales here. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dedicated ETD consumables are separately recognized, supporting goods classification without establishing spending or unrestricted interchangeability. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dedicated ETD consumables are separately recognized, supporting goods classification without establishing spending or unrestricted interchangeability. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
16. Quantifying the Impacts of Delayed Maintenance of Airport Assets: A Guide - Chapter 6, Baggage Handling Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The baggage-handling cost study uses a modeled xx.xx% labor share, adopted only as an adjacent support-cost proxy. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The baggage-handling cost study uses a modeled xx.xx% labor share, adopted only as an adjacent support-cost proxy. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Its corresponding modeled xx.xx% parts share calibrates the labor/goods separation; it is not an observed screening-equipment ratio. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Its corresponding modeled xx.xx% parts share calibrates the labor/goods separation; it is not an observed screening-equipment ratio. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))

17. Procurement of Next Generation Security Checkpoint Equipment - Contract Award Notice

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The seven-system award includes automated tray return, demonstrating bundled purchasing but no separately priced hardware allocation. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The seven-system award includes automated tray return, demonstrating bundled purchasing but no separately priced hardware allocation. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The integrated CT/tray-return scope constrains the automation interface boundary; it does not value general airport conveyors. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The integrated CT/tray-return scope constrains the automation interface boundary; it does not value general airport conveyors. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Central image processing is an explicit purchased function, without a separately disclosed license price. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Central image processing is an explicit purchased function, without a separately disclosed license price. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supply, installation and commissioning are included deliverables, supporting deployment-service attribution without establishing its percentage. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supply, installation and commissioning are included deliverables, supporting deployment-service attribution without establishing its percentage. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2022 award covers seven systems combining cabin CT, tray return, image processing and deployment responsibilities. It supports integrated purchased scope, not completed delivery or a global sales weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2022 award covers seven systems combining cabin CT, tray return, image processing and deployment responsibilities. It supports integrated purchased scope, not completed delivery or a global sales weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The integrated Newcastle procurement reports a GBP xx.xx-xx.xx offer range but no physical review-room location; its value cannot be assigned automatically to local review. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The integrated Newcastle procurement reports a GBP xx.xx-xx.xx offer range but no physical review-room location; its value cannot be assigned automatically to local review. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Central image processing is included, but a separate on-site room is not specified; constrains classification rather than supplying a remote-review sales weight. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Central image processing is included, but a separate on-site room is not specified; constrains classification rather than supplying a remote-review sales weight. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The bundled award does not identify a mixed-location package or its attributable price, preventing automatic hybrid classification. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The bundled award does not identify a mixed-location package or its attributable price, preventing automatic hybrid classification.

18. AI for Monitoring Aviation Security: Fraport and German Federal Police Start Regular Operation of APIDS
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: January xx.xx 2026 APIDS deployment demonstrates additional software adoption, without establishing separate revenue. ([fraport.com](https://www.fraport.com/en/newsroom/press-releases/2026/q1/ai-for-monitoring-aviation-security.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Deployment on more than xx.xx CT scanners is the independent quantitative rollout test; it does not validate the modeled license-growth factor. ([fraport.com](https://www.fraport.com/en/newsroom/press-releases/2026/q1/ai-for-monitoring-aviation-security.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: On January xx.xx 2026, Fraport announced regular APIDS software operation on more than xx.xx existing Smiths CT scanners. This independently supports retained-system enhancement at one buyer, not global penetration or realized license revenue.
19. Smiths Detection - Digital Innovation
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier identifies detection applications as a commercial function; separate fee allocation remains assumed. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier identifies detection applications as a commercial function; separate fee allocation remains assumed. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized screening supports the image-review function, not an observed software revenue weight. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized screening supports the image-review function, not an observed software revenue weight. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Connectivity, multi-vendor integration and equipment-health applications establish the fleet-management function without proving customer-specific rights or prices. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Connectivity, multi-vendor integration and equipment-health applications establish the fleet-management function without proving customer-specific rights or prices. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ELECTORA is offered for integrating multi-vendor devices, datasets and applications; establishes the vendor-platform category but discloses no category revenue or customer-specific substitution entitlement. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ELECTORA is offered for integrating multi-vendor devices, datasets and applications; establishes the vendor-platform category but discloses no category revenue or customer-specific substitution entitlement. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
20. UK Civil Aviation Authority - Threat Image Projection (TIP)
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: TIP library approval and renewal obligations support continuing software commitments, not the modeled global fee or share. ([caa.co.uk](https://www.caa.co.uk/commercial-industry/security/training-and-human-factors/threat-image-projection/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: TIP library approval and renewal obligations support continuing software commitments, not the modeled global fee or share. ([caa.co.uk](https://www.caa.co.uk/commercial-industry/security/training-and-human-factors/threat-image-projection/))

21. Smiths Detection - Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Inclusive capital-equipment support covers labor and parts, requiring a single-count economic allocation across services and goods. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Inclusive capital-equipment support covers labor and parts, requiring a single-count economic allocation across services and goods. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Equipment-specific training and certification are commercial offerings distinct from routine screening staffing. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Equipment-specific training and certification are commercial offerings distinct from routine screening staffing. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The parts-support offering and inclusive contracts corroborate the goods boundary, but not the assumed xx.xx% allocation. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The parts-support offering and inclusive contracts corroborate the goods boundary, but not the assumed xx.xx% allocation. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes inclusive labor-and-parts contracts and manufacturer support, supporting nonduplicative lifecycle attribution to projection equipment, not a verified xx.xx% fee. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes inclusive labor-and-parts contracts and manufacturer support, supporting nonduplicative lifecycle attribution to projection equipment, not a verified xx.xx% fee. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports the existence of manufacturer lifecycle offerings; broad service-footprint counts are not used as CT revenue weights.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports the existence of manufacturer lifecycle offerings; broad service-footprint counts are not used as CT revenue weights.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports commercial maintenance, refurbishment and parts offerings for portable equipment without establishing baggage-specific service receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports commercial maintenance, refurbishment and parts offerings for portable equipment without establishing baggage-specific service receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer markets direct on-site support and inclusive capital-equipment labor-and-parts contracts. This supports a continuing manufacturer-service alternative, without measuring a pricing premium. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer markets direct on-site support and inclusive capital-equipment labor-and-parts contracts. This supports a continuing manufacturer-service alternative, without measuring a pricing premium. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Manufacturer-provided bundled support is a commercial alternative to separate technical-service procurement, limiting assumptions of unrestricted third-party substitution. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Manufacturer-provided bundled support is a commercial alternative to separate technical-service procurement, limiting assumptions of unrestricted third-party substitution. ([smithsdetection.com](https://www.smithsdetection.com/service/))

22. Hold baggage screening upgrade, Dublin and Cork Airports, Ireland

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate professional-service appointments cover project controls, design oversight and interface management; the broader construction budget is not used as screening-service revenue. ([neccontract.com](https://www.neccontract.com/projects/hold-baggage-screening-upgrade-dublin-and-cork-airports-ireland))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate professional-service appointments cover project controls, design oversight and interface management; the broader construction budget is not used as screening-service revenue. ([neccontract.com](https://www.neccontract.com/projects/hold-baggage-screening-upgrade-dublin-and-cork-airports-ireland))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes three upgraded hold-baggage systems delivered through separate construction, baggage-integration and advisory appointments, completed in March 2023. Supports integrated-system attribution without assuming a universal single-prime model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes three upgraded hold-baggage systems delivered through separate construction, baggage-integration and advisory appointments, completed in March 2023. Supports integrated-system attribution without assuming a universal single-prime model.

23. Corporate Plan 2025-26 to 2029-30 Summary - Financial Overview
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CATSA distinguishes major-checkpoint CT replacement from single-view-to-multiview replacement elsewhere, supporting application-specific projection demand and forecast assumptions. It also discloses capital funding subject to reprofile approval. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/corporate-plan-2025-xx.xx-2029-xx.xx/financial-overview))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CATSA distinguishes major-checkpoint CT replacement from single-view-to-multiview replacement elsewhere, supporting application-specific projection demand and forecast assumptions. It also discloses capital funding subject to reprofile approval. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/corporate-plan-2025-xx.xx-2029-xx.xx/financial-overview))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies single-view equipment as a replacement population, supporting the modeled displacement mechanism rather than an observed global share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies single-view equipment as a replacement population, supporting the modeled displacement mechanism rather than an observed global share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Multiview remains a planned purchasing destination at non-passenger checkpoints and Class xx.xx airports, qualifying universal CT substitution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Multiview remains a planned purchasing destination at non-passenger checkpoints and Class xx.xx airports, qualifying universal CT substitution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CT replacement is a stated major-checkpoint investment priority, subject to funding and delivery risks; this supports direction, not the modeled global share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CT replacement is a stated major-checkpoint investment priority, subject to funding and delivery risks; this supports direction, not the modeled global share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The plan includes additional screening equipment and expansion of existing hold-baggage screening capacity. Its FY2025/xx.xx capital budget is C$xx.xx across mixed activities; plans are not recognized supplier revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The plan includes additional screening equipment and expansion of existing hold-baggage screening capacity. Its FY2025/xx.xx capital budget is C$xx.xx across mixed activities; plans are not recognized supplier revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The plan distinguishes replacement of checkpoint X-ray equipment with CT and asset lifecycle renewal from additional capacity. Funding, partner timing and reprofiling qualify forecast realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The plan distinguishes replacement of checkpoint X-ray equipment with CT and asset lifecycle renewal from additional capacity. Funding, partner timing and reprofiling qualify forecast realization.
24. ECAC CEP Public Equipment List - Explosive Detection Systems, Update 18 April 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 list retains XRD xx.xx supporting the legacy commercial-category premise but not the assumed installed cohort or sales volume. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-EDS-equipment_public_list_update_20250418.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 list retains XRD xx.xx supporting the legacy commercial-category premise but not the assumed installed cohort or sales volume. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-EDS-equipment_public_list_update_20250418.pdf))

25. Partners - HALO X-ray Technologies Ltd

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named airport pilots and approximately USD xx.xx and USD xx.xx development programs establish commercialization activity and program scale, not realized annual XRD equipment revenue. ([haloxray.com](https://www.haloxray.com/partners))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named airport pilots and approximately USD xx.xx and USD xx.xx development programs establish commercialization activity and program scale, not realized annual XRD equipment revenue. ([haloxray.com](https://www.haloxray.com/partners))

26. Explosives Trace Detectors (ETDs): Market Survey Report, November 2021

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Historical IONSCAN xx.xx list-price configurations around USD xx.xx-xx.xx constrain the IMS price class; they do not establish 2025 purchasing volumes or realizations. ([dhs.gov](https://dhs.gov/sites/default/files/2021-xx.xx/SAVER_Explosives%20Trace%20Detectors%20MSR_08Nov2021_Final-xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Historical IONSCAN xx.xx list-price configurations around USD xx.xx-xx.xx constrain the IMS price class; they do not establish 2025 purchasing volumes or realizations. ([dhs.gov](https://dhs.gov/sites/default/files/2021-xx.xx/SAVER_Explosives%20Trace%20Detectors%20MSR_08Nov2021_Final-xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The Fido X4 historical USD xx.xx list-price benchmark supports the explicit nominal-price bridge; baggage attribution and unit mix remain modeled.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The Fido X4 historical USD xx.xx list-price benchmark supports the explicit nominal-price bridge; baggage attribution and unit mix remain modeled.

27. Astrotech Corporation - Form 10-K for the Fiscal Year Ended June 30, 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Discloses FY2025 product and service revenue, xx.xx deployment locations, and a six-unit USD xx.xx order. These provide a price comparator and supplier-scale check, not baggage-only revenue. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20250630_10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Discloses FY2025 product and service revenue, xx.xx deployment locations, and a six-unit USD xx.xx order. These provide a price comparator and supplier-scale check, not baggage-only revenue. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20250630_10k.htm))

28. Astrotech Corporation - Form 10-K for the Fiscal Year Ended June 30, 2026

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports eight TRACER units sold in FY2025 versus three in FY2026, identifies grant-related revenue within FY2025 product revenue, and describes a potential subsidiary sale. These constrain MS attribution and forecast optimism. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20260630_10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports eight TRACER units sold in FY2025 versus three in FY2026, identifies grant-related revenue within FY2025 product revenue, and describes a potential subsidiary sale. These constrain MS attribution and forecast optimism. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20260630_10k.htm))

29. Liquid Explosive Detector, Bottle Liquid Scanner, Insight - Agilent

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Raman-based airport resolution products and dated September 2025 launch and May 2026 contract announcements. Supports category continuity and adoption premises, not global unit or revenue shares. ([agilent.com](https://www.agilent.com/en/product/molecular-spectroscopy/raman-spectroscopy/raman-aviation-security-systems/insight-series-alarm-resolution-systems))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Raman-based airport resolution products and dated September 2025 launch and May 2026 contract announcements. Supports category continuity and adoption premises, not global unit or revenue shares. ([agilent.com](https://www.agilent.com/en/product/molecular-spectroscopy/raman-spectroscopy/raman-aviation-security-systems/insight-series-alarm-resolution-systems))

30. Bottle Liquid Scanner for Sale from China - Securina

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Positions microwave-based liquid-screening products for airports and customs. Supports commercial classification only; prices, authorization and purchasing weights remain assumptions. ([securinadetection.com](https://www.securinadetection.com/Bottle-Liquid-Scanner-Manufacturer-China.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Positions microwave-based liquid-screening products for airports and customs. Supports commercial classification only; prices, authorization and purchasing weights remain assumptions. ([securinadetection.com](https://www.securinadetection.com/Bottle-Liquid-Scanner-Manufacturer-China.html))

31. Quick, Accurate Threat-Detection Scanner for Liquid, Aerosol, and Gels Eases and Secures Air Travel Worldwide

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies LS10 as a complete commercial liquid scanner combining RF and ultrasonic capabilities, supporting nonduplicative complete-product attribution. ([battelle.org](https://www.battelle.org/insights/case-studies/case-study-details/quick-accurate-threat-detection-scanner-for-liquid-aerosol-and-gels-eases-and-secures-air-travel-worldwide))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies LS10 as a complete commercial liquid scanner combining RF and ultrasonic capabilities, supporting nonduplicative complete-product attribution. ([battelle.org](https://www.battelle.org/insights/case-studies/case-study-details/quick-accurate-threat-detection-scanner-for-liquid-aerosol-and-gels-eases-and-secures-air-travel-worldwide))

32. ECAC CEP Public Equipment List - Liquid Explosive Detection Systems, Update 10 July 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 list includes One Resonance Sensors MobiLab BLS. This supports retained listed status for a named product, not active supply, paid installed stock or observed receipts. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-LEDS%20equipment%20public%20list-update%xx.xx-xx.xx-rev1.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 list includes One Resonance Sensors MobiLab BLS. This supports retained listed status for a named product, not active supply, paid installed stock or observed receipts. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-LEDS%20equipment%20public%20list-update%xx.xx-xx.xx-rev1.pdf))

33. MobiLab BLS Bottled Liquid Scanner Endorsed By European Civil Aviation Conference

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's May xx.xx 2014 announcement identifies MobiLab BLS as an NMR-based airport liquid scanner and states that orders were being accepted. Establishes historical commercial offering, not 2025 deliveries. ([prnewswire.com](https://www.prnewswire.com/news-releases/mobilab-bls-bottled-liquid-scanner-endorsed-by-european-civil-aviation-conference-xx.xx.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's May xx.xx 2014 announcement identifies MobiLab BLS as an NMR-based airport liquid scanner and states that orders were being accepted. Establishes historical commercial offering, not 2025 deliveries. ([prnewswire.com](https://www.prnewswire.com/news-releases/mobilab-bls-bottled-liquid-scanner-endorsed-by-european-civil-aviation-conference-xx.xx.html))

34. SafePointe BLS Powered by ORS - Bottled Liquid Explosives Detection Solution

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The branded supplier brochure documents an ORS-powered bottled-liquid product channel. Its availability does not establish current orders or support continuity; it supports only the legacy-channel modeling premise. ([uploads-ssl.webflow.com](https://uploads-ssl.webflow.com/608330bcae48962bf6d7ff37/6149f80be6c30d34b5e3debe_BLS-Flyer-Compressed.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The branded supplier brochure documents an ORS-powered bottled-liquid product channel. Its availability does not establish current orders or support continuity; it supports only the legacy-channel modeling premise. ([uploads-ssl.webflow.com](https://uploads-ssl.webflow.com/608330bcae48962bf6d7ff37/6149f80be6c30d34b5e3debe_BLS-Flyer-Compressed.pdf))

35. Florida Division of Corporations - One Resonance Sensors, LLC, Entity Detail

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official registry records One Resonance Sensors, LLC as inactive following administrative dissolution on September xx.xx 2019. This counterevidence constrains continuity assumptions but does not prove zero surviving product support. ([search.sunbiz.org](https://search.sunbiz.org/Inquiry/CorporationSearch/SearchResultDetail?aggregateId=flal-l11000122986-c57f60b3-690d-4c87-836a-9aeb045075e8&directionType=CurrentList&inquirytype=EntityName&listNameOrder=ONERESONANCESENSORS+L110001229860&searchNameOrder=ONERESONANCESENSORS+L110001229860&searchTerm=ONE+RED+AMPERSAND+LLC))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official registry records One Resonance Sensors, LLC as inactive following administrative dissolution on September xx.xx 2019. This counterevidence constrains continuity assumptions but does not prove zero surviving product support. ([search.sunbiz.org](https://search.sunbiz.org/Inquiry/CorporationSearch/SearchResultDetail?aggregateId=flal-l11000122986-c57f60b3-690d-4c87-836a-9aeb045075e8&directionType=CurrentList&inquirytype=EntityName&listNameOrder=ONERESONANCESENSORS+L110001229860&searchNameOrder=ONERESONANCESENSORS+L110001229860&searchTerm=ONE+RED+AMPERSAND+LLC))

36. Explosive Detection - Teledyne FLIR Defense

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists offered Fido X-series products and service support, supporting commercial offering continuity only, not airport-specific eligibility or sales weights. ([flir.com](https://www.flir.com/threat-detection/explosives/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists offered Fido X-series products and service support, supporting commercial offering continuity only, not airport-specific eligibility or sales weights. ([flir.com](https://www.flir.com/threat-detection/explosives/))

37. Scintrex Trace E3500 Explosive Trace Detection Unit - SecurityPro USA

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distributor offers E3500 chemiluminescence equipment and identifies customs/border applications. Supports a commercial category lead, not measured airport purchasing or the assumed price. ([securityprousa.com](https://www.securityprousa.com/collections/explosive-detection/products/scintrex-trace-e3500-explosive-trace-detection-unit))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distributor offers E3500 chemiluminescence equipment and identifies customs/border applications. Supports a commercial category lead, not measured airport purchasing or the assumed price. ([securityprousa.com](https://www.securityprousa.com/collections/explosive-detection/products/scintrex-trace-e3500-explosive-trace-detection-unit))

38. Portable Explosive Detector - Trace Detector EVD-3000+

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distributor offers EVD-xx.xx+ thermo-redox equipment. Supports offered-product classification, not airport authorization, purchasing volume or the modeled realization. ([securityprousa.com](https://www.securityprousa.com/products/scintrex-trace-evd-xx.xx-portable-trace-detection-unit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distributor offers EVD-xx.xx+ thermo-redox equipment. Supports offered-product classification, not airport authorization, purchasing volume or the modeled realization. ([securityprousa.com](https://www.securityprousa.com/products/scintrex-trace-evd-xx.xx-portable-trace-detection-unit))

39. CATSA's Purchase Order Terms and Conditions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contract terms constrain maintenance, parts and consumables escalation, qualifying unrestricted aftermarket pricing assumptions in the projection lifecycle model. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contract terms constrain maintenance, parts and consumables escalation, qualifying unrestricted aftermarket pricing assumptions in the projection lifecycle model. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contractual price limits constrain the pricing premise, but do not verify CT-specific global support receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contractual price limits constrain the pricing premise, but do not verify CT-specific global support receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintenance and consumable escalation limits qualify the trace-platform pricing assumption rather than establishing the modeled IMS share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintenance and consumable escalation limits qualify the trace-platform pricing assumption rather than establishing the modeled IMS share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The pre-existing-software clause grants broad license rights without transferring ownership; proprietary ownership alone therefore cannot establish the Closed revenue numerator. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The pre-existing-software clause grants broad license rights without transferring ownership; proprietary ownership alone therefore cannot establish the Closed revenue numerator. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Software modification rights are not themselves proof of standards-based interfaces or independent component substitution; supports conservative classification. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Software modification rights are not themselves proof of standards-based interfaces or independent component substitution; supports conservative classification. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))

40. Liquids Scanner for Airport Security - UC Davis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2011 account establishes a development contract and licensing relationship. Its development allocation is excluded from 2025 receipts and does not establish a surviving commercial cohort. ([ucdavis.edu](https://www.ucdavis.edu/news/liquids-scanner-airport-security))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2011 account establishes a development contract and licensing relationship. Its development allocation is excluded from 2025 receipts and does not establish a surviving commercial cohort. ([ucdavis.edu](https://www.ucdavis.edu/news/liquids-scanner-airport-security))
41. Open Architecture for Airport Security Systems, Second Edition
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes proprietary integration from interoperable connections, supporting the category boundary rather than an observed revenue share. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes proprietary integration from interoperable connections, supporting the category boundary rather than an observed revenue share. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Integration does not guarantee interoperability; this constrains attribution of vendor-mediated configurations. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Integration does not guarantee interoperability; this constrains attribution of vendor-mediated configurations. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Allows identified partial compliance and discusses accountable integration responsibilities; supports scoped open attribution, not whole-purchase reclassification. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Allows identified partial compliance and discusses accountable integration responsibilities; supports scoped open attribution, not whole-purchase reclassification. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))

42. CATSA 2025 Annual Report - Overview of Activities

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines across xx.xx airports serving more than xx.xx% of passengers in 2024/xx.xx; provides an independent integration-activity check, not a direct value allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines across xx.xx airports serving more than xx.xx% of passengers in 2024/xx.xx; provides an independent integration-activity check, not a direct value allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported modernized passenger coverage constrains an assumption of universally standalone activity, while leaving commercial architecture and revenue attribution unresolved. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported modernized passenger coverage constrains an assumption of universally standalone activity, while leaving commercial architecture and revenue attribution unresolved. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The annual report identifies enhanced non-passenger requirements and implementation planned from spring 2025. This supports a conditional modernization premise, not the modeled global uptake factor.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2024/xx.xx; provides a Canadian adoption comparator, not a global local-review revenue weight. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2024/xx.xx; provides a Canadian adoption comparator, not a global local-review revenue weight. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies remote screening within CATSA Plus and quantifies deployment; constrains the commercial-adoption premise but does not establish each review room's location. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies remote screening within CATSA Plus and quantifies deployment; constrains the commercial-adoption premise but does not establish each review room's location. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Deployment coverage constrains the addressable network-enabled pool; it does not disclose hybrid contracts or justify the modeled hybrid percentage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Deployment coverage constrains the addressable network-enabled pool; it does not disclose hybrid contracts or justify the modeled hybrid percentage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))

43. CATSA - Beyond the Checkpoint, December 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx operational CT machines at eight airports and a modular-line average of xx.xx passengers per hour versus xx.xx for traditional multi-split lines; supports the bounded throughput-to-unit bridge and phased-deployment premise. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/about-us/beyond-checkpoint-2025-december))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx operational CT machines at eight airports and a modular-line average of xx.xx passengers per hour versus xx.xx for traditional multi-split lines; supports the bounded throughput-to-unit bridge and phased-deployment premise. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/about-us/beyond-checkpoint-2025-december))

44. Smiths Detection Delivers Fully Automated International Remote Baggage Screening System Between South Korea and the United States

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2026 disclosure identifies xx.xx software licenses and DICOS V3.xx.xx exchange, and dates operational service to August 2025. Supports commercial standards-based activity and forecast feasibility, not an observed global share or a confirmed 2025 license inventory. ([smithsdetection.com](https://www.smithsdetection.com/press-releases/smiths-detection-delivers-fully-automated-international-remote-baggage-screening-system-between-south-korea-and-the-united-states/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2026 disclosure identifies xx.xx software licenses and DICOS V3.xx.xx exchange, and dates operational service to August 2025. Supports commercial standards-based activity and forecast feasibility, not an observed global share or a confirmed 2025 license inventory. ([smithsdetection.com](https://www.smithsdetection.com/press-releases/smiths-detection-delivers-fully-automated-international-remote-baggage-screening-system-between-south-korea-and-the-united-states/))

45. SeeTrue Marks Milestone with Over 100 X-ray Checkpoint Installations of Advanced AI-Based Threat Detection Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 announcement reports the 100th operational screening lane across airports and other sectors. Provides a limited commercial-adoption scale check; it is neither airport-only nor a census of standards-based entitlements. ([seetrue.ai](https://www.seetrue.ai/seetrue-marks-milestone-with-over-xx.xx-x-ray-checkpoint-installations-of-advanced-ai-based-threat-detection-software/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 announcement reports the 100th operational screening lane across airports and other sectors. Provides a limited commercial-adoption scale check; it is neither airport-only nor a census of standards-based entitlements. ([seetrue.ai](https://www.seetrue.ai/seetrue-marks-milestone-with-over-xx.xx-x-ray-checkpoint-installations-of-advanced-ai-based-threat-detection-software/))

46. Scarabee's Checkpoint Property Screening System to be deployed at DEN

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-lane Denver award combining Scarabee lanes with Smiths scanners. Corroborates a commercial mixed-supplier integration route; an award is not realized annual revenue or proof of unrestricted interoperability. ([daifukuatec.com](https://daifukuatec.com/news/scarabees-checkpoint-property-screening-system-to-be-deployed-at-den))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-lane Denver award combining Scarabee lanes with Smiths scanners. Corroborates a commercial mixed-supplier integration route; an award is not realized annual revenue or proof of unrestricted interoperability. ([daifukuatec.com](https://daifukuatec.com/news/scarabees-checkpoint-property-screening-system-to-be-deployed-at-den))

47. CATSA Annual Report 2024 - Management's Discussion and Analysis

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx pre-board capital appropriations used of C$xx.xx provide the second period in the non-passenger-to-cabin purchasing comparison.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx non-passenger capital appropriations used of C$xx.xx enter the two-period activity proxy; they do not identify the property-only fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx non-passenger capital appropriations used of C$xx.xx enter the two-period activity proxy; they do not identify the property-only fraction.

48. Smiths Detection confirm order of 91 advanced scanners for new terminals at Moscow Sheremetyevo International Airport
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The dated airport deployment includes xx.xx entrance baggage systems and xx.xx cabin-checkpoint systems. Their ratio supplies a historical relative-density proxy, subsequently discounted for assumed global coverage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated airport deployment includes xx.xx entrance baggage systems and xx.xx cabin-checkpoint systems. Their ratio supplies a historical relative-density proxy, subsequently discounted for assumed global coverage.
49. Cochin International Airport Selects Smiths Detection's CTX 9800 for Next-Generation Hold Baggage Screening
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2017 deployment identifies xx.xx customs baggage systems alongside four hold-baggage systems. This supports the customs-intensive historical configuration proxy, not current global fleet or revenue observations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2017 deployment identifies xx.xx customs baggage systems alongside four hold-baggage systems. This supports the customs-intensive historical configuration proxy, not current global fleet or revenue observations.
50. CATSA Functions, Programs and Activities
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Hold-baggage activities include equipment purchase, baggage-handling integration and equipment maintenance, supporting the checked-baggage capital and lifecycle boundary.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Hold-baggage activities include equipment purchase, baggage-handling integration and equipment maintenance, supporting the checked-baggage capital and lifecycle boundary.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-passenger screening covers airport workers and their belongings; only attributable property-screening offerings enter this allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-passenger screening covers airport workers and their belongings; only attributable property-screening offerings enter this allocation.
51. Fraport TAV Antalya Airport - About the security control itself
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The airport operator distinguishes terminal-entry security from a subsequent checkpoint. This supports a separate entrance-screening mission while providing no global prevalence or spending share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport operator distinguishes terminal-entry security from a subsequent checkpoint. This supports a separate entrance-screening mission while providing no global prevalence or spending share.
52. EMSD VoiceLink, Issue 79, June 2026 - EMSD Provides Comprehensive Support for Terminal 2 Commissioning
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June 2026 account identifies baggage-and-parcel equipment procurement and installation for the customs authority at Terminal xx.xx. It supports a separate commissioning mission but does not isolate baggage expenditure.
53. GAO-26-107811 - Guam: Considerations for Evaluating Alternative Customs Models and Potential Economic Effects
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The audit identifies two historical airport-customs baggage systems inactive for years and delayed replacement procurement. This challenges conversion of installed stock or acknowledged need directly into annual equipment and support revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The audit identifies two historical airport-customs baggage systems inactive for years and delayed replacement procurement. This challenges conversion of installed stock or acknowledged need directly into annual equipment and support revenue.

54. Bennet, Moran, Van Hollen, Boozman Introduce Bill to Bolster Aviation Safety
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 official release identifies xx.xx U.S. screening lanes, used as agency purchasing-exposure calibration rather than observed annual equipment sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 official release identifies xx.xx U.S. screening lanes, used as agency purchasing-exposure calibration rather than observed annual equipment sales.
55. Bank of Canada - Annual exchange rates
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual exchange-rate observations support the inherited fiscal-period approximation of xx.xx Canadian dollars per U.S. dollar; this is not a transaction-weighted exchange rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual exchange-rate observations support the inherited fiscal-period approximation of xx.xx Canadian dollars per U.S. dollar; this is not a transaction-weighted exchange rate.
56. Japan’s leading airline revolutionizes check in experience with new Smiths Detection technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The August 2023 announcement identifies JAL as customer for five screening ecosystems and reports xx.xx deployed iLane units across Japan. These are historical commercial-stock anchors, not an airline-only fleet or 2025 sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August 2023 announcement identifies JAL as customer for five screening ecosystems and reports xx.xx deployed iLane units across Japan. These are historical commercial-stock anchors, not an airline-only fleet or 2025 sales observation.
57. Narita International Airport anticipates threats with integrated solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Narita airport as a screening-technology customer and describes xx.xx lane-related installations, qualifying any assumption that the supplier's Japanese installed stock was purchased entirely by airlines.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Narita airport as a screening-technology customer and describes xx.xx lane-related installations, qualifying any assumption that the supplier's Japanese installed stock was purchased entirely by airlines.
58. MLIT - 保安検査の実施主体が変わります！ - June 27, 2025
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement targets transfer of security-screening responsibility from airlines to airport managers, with leading cases targeted in FY2026. Supports a conditional reduction in airline purchasing, not an observed contract-transfer percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transfer direction supports modeled airport-manager purchasing gains. Continued shared financing does not imply equal purchasing shares.
59. ICTS International N.V. - Annual Report for the year ended December 31, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Discloses USD xx.xx company-wide property/equipment purchases and USD xx.xx airport-security revenue in 2025. Supports an asset-light purchasing-intensity proxy; the in-scope fraction and global expansion remain assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Discloses USD xx.xx company-wide property/equipment purchases and USD xx.xx airport-security revenue in 2025. Supports an asset-light purchasing-intensity proxy; the in-scope fraction and global expansion remain assumptions.

60. EU Publications Office - Purchase and maintenance of non-intrusive X-ray inspection equipment for baggage and air cargo volume control
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Autoridade Tributária e Aduaneira as buyer and reports a 2026 award of EUR xx.xx across four lots for baggage/air-cargo inspection equipment and maintenance. Provides a buyer-role and commercial-scale comparator, not 2025 baggage-only annual expenditure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Autoridade Tributária e Aduaneira as buyer and reports a 2026 award of EUR xx.xx across four lots for baggage/air-cargo inspection equipment and maintenance. Provides a buyer-role and commercial-scale comparator, not 2025 baggage-only annual expenditure.
61. ACI World - Busiest Airports in the World
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx international airport passenger movements in 2025. Half provides an approximate arrival-movement scale check before transfer exclusions, not a customs examination or equipment-purchasing weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx international airport passenger movements in 2025. Half provides an approximate arrival-movement scale check before transfer exclusions, not a customs examination or equipment-purchasing weight.
62. Heathrow announces £2.3bn accelerated investment plan to upgrade the UK's international gateway to growth
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports GBP xx.xx invested in security-lane upgrades during 2024, supporting material airport-directed purchasing. Broader infrastructure obligations and historical timing prevent treating the amount as 2025 in-scope market receipts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports GBP xx.xx invested in security-lane upgrades during 2024, supporting material airport-directed purchasing. Broader infrastructure obligations and historical timing prevent treating the amount as 2025 in-scope market receipts.
63. Fraport Assumes Responsibility for Aviation Security Checks at Frankfurt Airport
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents Fraport's checkpoint-management responsibility from January 2023, six initial CT-equipped lanes and three contracted screening providers. Supports distinguishing an airport commissioning role from regulator oversight and contracted screening labor.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents Fraport's checkpoint-management responsibility from January 2023, six initial CT-equipped lanes and three contracted screening providers. Supports distinguishing an airport commissioning role from regulator oversight and contracted screening labor.
64. Advanced Cabin Baggage Screening - Computed Tomography Implementation Guide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes standalone CT, including equipment-local conveyance, from integrated screening-lane configurations; supports attribution boundaries, not a revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes standalone CT, including equipment-local conveyance, from integrated screening-lane configurations; supports attribution boundaries, not a revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies automated tray-return and automated screening-lane integration as commercially distinct configurations; supports the lane-integrated category definition.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies automated tray-return and automated screening-lane integration as commercially distinct configurations; supports the lane-integrated category definition.

65. GAO-12-266 - Checked Baggage Screening: TSA Has Deployed Optimal Systems at the Majority of TSA-Regulated Airports, but Could Strengthen Cost Estimates

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December 2011 table reports xx.xx standalone EDS alongside xx.xx in-line EDS; this historical machine-count comparator constrains, but does not determine, the current global allocation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December 2011 table reports xx.xx standalone EDS alongside xx.xx in-line EDS; this historical machine-count comparator constrains, but does not determine, the current global allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx in-line EDS across xx.xx in-line systems and distinguishes equipment counts from integrated-system counts; supports the historical configuration bridge.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx in-line EDS across xx.xx in-line systems and distinguishes equipment counts from integrated-system counts; supports the historical configuration bridge.

66. Smiths Detection selected as security technology provider to International Airport Heraklion Crete

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 announcement identifies eight cabin CT scanners and eight automated tray-return systems for Heraklion, with installation planned across late 2025 and mid-2026; supports ongoing integrated procurement, not realized annual revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 announcement identifies eight cabin CT scanners and eight automated tray-return systems for Heraklion, with installation planned across late 2025 and mid-2026; supports ongoing integrated procurement, not realized annual revenue.

67. Centralised Image Processing: The Impact on Security Checkpoints

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes checkpoint-local image review from separate-room arrangements; supports retaining networked local activity rather than automatically assigning it to remote review. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes checkpoint-local image review from separate-room arrangements; supports retaining networked local activity rather than automatically assigning it to remote review. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes separate screening rooms and established remote hold-baggage review at larger airports; supports the cohort-maturity premise, not a numerical global share. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes separate screening rooms and established remote hold-baggage review at larger airports; supports the cohort-maturity premise, not a numerical global share. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes combined checkpoint and remote-room arrangements, establishing a mixed-location commercial configuration without measuring its prevalence or price. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes combined checkpoint and remote-room arrangements, establishing a mixed-location commercial configuration without measuring its prevalence or price. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))

68. Annual Report 2024 - CATSA's Operating Environment

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2023/xx.xx providing the historical comparison rather than a global location allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2023/xx.xx providing the historical comparison rather than a global location allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Together with the subsequent annual report, supports a seven-line deployment increase without a corresponding increase in reported passenger coverage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Together with the subsequent annual report, supports a seven-line deployment increase without a corresponding increase in reported passenger coverage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provides a historical network-enabled deployment anchor, while leaving the physical mixed-location contract share unmeasured. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provides a historical network-enabled deployment anchor, while leaving the physical mixed-location contract share unmeasured. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))

69. L22020-T-TG Upgrades to the Passenger Search Area, body scanners, EDS C3 cabin baggage screening - Contract Award Notice

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2023 Luton award expressly includes construction of a remote screening room at the airport terminal, supporting separate-room commercial procurement. Its broader scope is not treated as baggage-only annual revenue. ([find-tender.service.gov.uk](https://www.find-tender.service.gov.uk/Notice/xx.xx-2023))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2023 Luton award expressly includes construction of a remote screening room at the airport terminal, supporting separate-room commercial procurement. Its broader scope is not treated as baggage-only annual revenue. ([find-tender.service.gov.uk](https://www.find-tender.service.gov.uk/Notice/xx.xx-2023))

70. Greater Orlando Aviation Authority - Minutes of the February 19, 2025 Meeting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Authorizes up to USD xx.xx for baggage-system and Remote Screening Facility network/server separation. Half this ceiling is an explicitly assumed deployment-cost comparator, not observed off-site receipts. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Authorizes up to USD xx.xx for baggage-system and Remote Screening Facility network/server separation. Half this ceiling is an explicitly assumed deployment-cost comparator, not observed off-site receipts. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provides the commercial networking-cost anchor for the modeled transfer from existing on-site pools, avoiding additional market value or duplicate host-equipment attribution. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provides the commercial networking-cost anchor for the modeled transfer from existing on-site pools, avoiding additional market value or duplicate host-equipment attribution. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))

71. American and U.S. Customs and Border Protection pilot innovative baggage screening initiative

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: American's April xx.xx 2025 announcement identifies a daily Sydney-Los Angeles IRBS pilot and unchanged screening requirements. It anchors one sampled connection and an assumed partial-year licensing period, not disclosed revenue. ([s202.q4cdn.com](https://s202.q4cdn.com/xx.xx/files/doc_news/American-and-US-Customs-and-Border-Protection-pilot-innovative-baggage-screening-initiative-OPS-OTH-xx.xx-2025.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: American's April xx.xx 2025 announcement identifies a daily Sydney-Los Angeles IRBS pilot and unchanged screening requirements. It anchors one sampled connection and an assumed partial-year licensing period, not disclosed revenue. ([s202.q4cdn.com](https://s202.q4cdn.com/xx.xx/files/doc_news/American-and-US-Customs-and-Border-Protection-pilot-innovative-baggage-screening-initiative-OPS-OTH-xx.xx-2025.pdf))

72. 델타항공-대한항공, 인천발 애틀랜타 노선 대상 위탁수하물 원격 검색 방식 신규 도입

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2025 announcement identifies the Incheon-Atlanta IRBS arrangement, anchoring a second sampled connection and a partial-year commercial-activity assumption without establishing contract value. ([news.delta.com](https://news.delta.com/delta-and-koreanair-launch-remote-baggage-screening-on-icn-atl-KR))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2025 announcement identifies the Incheon-Atlanta IRBS arrangement, anchoring a second sampled connection and a partial-year commercial-activity assumption without establishing contract value. ([news.delta.com](https://news.delta.com/delta-and-koreanair-launch-remote-baggage-screening-on-icn-atl-KR))

73. United Launches CBP's International Remote Baggage Screening on Select International Flights

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: United's September xx.xx 2025 announcement identifies daily Sydney-San Francisco service and named technology partners, anchoring a third sampled connection. It reports no attributable software or integration receipts. ([united.mediaroom.com](https://united.mediaroom.com/2025-xx.xx-xx.xx-United-Launches-CBPs-International-Remote-Baggage-Screening-on-Select-International-Flights))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: United's September xx.xx 2025 announcement identifies daily Sydney-San Francisco service and named technology partners, anchoring a third sampled connection. It reports no attributable software or integration receipts. ([united.mediaroom.com](https://united.mediaroom.com/2025-xx.xx-xx.xx-United-Launches-CBPs-International-Remote-Baggage-Screening-on-Select-International-Flights))

74. Airline Passengers Face Fewer Bag Checkpoints, Thanks to PNNL, Partners

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2026 laboratory release describes implementation on additional routes, including Seoul arrivals at Minneapolis-St. Paul and Detroit. This supports expansion direction, not the forecast connection count, realization or global share. ([pnnl.gov](https://www.pnnl.gov/news-media/airline-passengers-face-fewer-bag-checkpoints-thanks-pnnl-partners))

75. TSA awards $781.2 million to procure additional CT X-Ray scanners for airport checkpoints

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2022 announcement identifies up to USD xx.xx for procurement and maintenance of up to xx.xx systems from an OEM. This is a historical procurement-scale anchor, not annual 2025 direct-channel revenue. ([content.govdelivery.com](https://content.govdelivery.com/accounts/USDHSTSA/bulletins/30f6e5f))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The award includes full-size automated lanes, cautioning against assigning all automation value to non-OEM integration primes; exact contractual-role attribution is not disclosed. ([content.govdelivery.com](https://content.govdelivery.com/accounts/USDHSTSA/bulletins/30f6e5f))

76. OSI Systems, Inc. - Form 10-K for the fiscal year ended June 30, 2026

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing describes regional direct security-product sales and direct maintenance relationships. Its broader security scope supports route coexistence, not baggage-only sales weights. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing describes regional direct security-product sales and direct maintenance relationships. Its broader security scope supports route coexistence, not baggage-only sales weights. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company identifies a global independent-distributor network, supporting a continuing indirect route without quantifying its value share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company identifies a global independent-distributor network, supporting a continuing indirect route without quantifying its value share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Authorized service providers are identified separately from distributors, supporting distinct technical-service attribution and access limitations. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Authorized service providers are identified separately from distributors, supporting distinct technical-service attribution and access limitations. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

77. SriLankan Airlines - Invitation for Supply, Installation, Commissioning and Maintenance of Dual View Heavy and Medium X-Ray Machines, Reference 202130407

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 purchaser invitation permits an OEM or authorized OEM agent and requires authorization for the latter. It establishes equipment-channel eligibility, not an award or software-resale right. ([srilankan.com](https://www.srilankan.com/download/tender/TN-Invitationforsubmiss-xx.xx.pdf))

78. JFK Millennium Partners Selects K2 to Deliver State-of-the-Art Security Screening Checkpoint at new JFK Terminal 6

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment assigns procurement and deployment coordination across multiple technology suppliers at a future ten-gate terminal. It supports integration-prime participation and a forecast mechanism, not a disclosed share or completed 2025 revenue. ([portauthoritybuilds.com](https://www.portauthoritybuilds.com/redevelopment/us/en/jfk/planned-projects/terminal-xx.xx/news/jfk-millennium-partners-selects-k2-to-deliver-state-of-the-art-s.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment assigns procurement and deployment coordination across multiple technology suppliers at a future ten-gate terminal. It supports integration-prime participation and a forecast mechanism, not a disclosed share or completed 2025 revenue. ([portauthoritybuilds.com](https://www.portauthoritybuilds.com/redevelopment/us/en/jfk/planned-projects/terminal-xx.xx/news/jfk-millennium-partners-selects-k2-to-deliver-state-of-the-art-s.html))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment covers baggage CT and automated bin-return equipment for a future xx.xx-gate terminal, with phased opening planned for 2026-2028. It establishes new-installation activity, not attributable 2025 receipts; wider airport investment and person-only technologies are excluded.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment covers baggage CT and automated bin-return equipment for a future xx.xx-gate terminal, with phased opening planned for 2026-2028. It establishes new-installation activity, not attributable 2025 receipts; wider airport investment and person-only technologies are excluded.

79. CATSA Corporate Plan 2024-25 to 2028-29 Summary - Key Corporate Risks

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The authority reports transferring maintenance of most screening equipment to KPrime in 2023/xx.xx. This establishes a separately contracted maintenance relationship, without a baggage-only payment split. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/key-corporate-risks))

80. Leidos wins TSA logistics contract

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 announcement describes an eight-year, USD xx.xx maximum sustainment contract covering xx.xx equipment units at over xx.xx locations with manufacturer coordination. Annualization and baggage/third-party attribution in the model are explicit assumptions. ([leidos.com](https://www.leidos.com/insights/leidos-wins-tsa-logistics-contract))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 announcement describes an eight-year, USD xx.xx maximum sustainment contract covering xx.xx equipment units at over xx.xx locations with manufacturer coordination. Annualization and baggage/third-party attribution in the model are explicit assumptions. ([leidos.com](https://www.leidos.com/insights/leidos-wins-tsa-logistics-contract))

81. Checkpoint Transformation: Malta International Airport Streamlines Passenger Flow with Smiths Detection
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Seven conventional automated lanes were replaced by six CT-equipped lanes, with final commissioning in January 2025. This is a counterexample to equating capacity improvement with net additional equipment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seven conventional automated lanes were replaced by six CT-equipped lanes, with final commissioning in January 2025. This is a counterexample to equating capacity improvement with net additional equipment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The complete checkpoint replacement illustrates why an offering described commercially as an upgrade can belong to System Replacement. The seven-year service commitment is not counted wholly as installation-year revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The complete checkpoint replacement illustrates why an offering described commercially as an upgrade can belong to System Replacement. The seven-year service commitment is not counted wholly as installation-year revenue.
82. iCMORE - Smiths Detection
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current commercial offering describes a software-upgrade path while qualifying additional hardware requirements by machine type and age. This constrains forecast eligibility assumptions; product availability does not measure adoption or revenue.

18.3. United Kingdom

Table 452. United Kingdom Airport Baggage Screening Systems Market Size, 2017-2040 (USD Million)

Country	2017	2024	2025	2026	2027	2032	2040	CAGR (%)

Sources & Evidence

1. House Report 119-173 - Department of Homeland Security Appropriations Bill, 2026

   · Evidence informing the 2030 market-value input; displayed series and growth include calculations: The aging installed fleet supports replacement demand, but does not establish the forecast's realization dates or annual purchasing rate. ([govinfo.gov](https://www.govinfo.gov/content/pkg/CRPT-119hrpt173/html/CRPT-119hrpt173.htm))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report identifies xx.xx end-of-life systems within a xx.xx-system checked-baggage fleet. This constrains renewal exposure, not realized annual purchasing or a verified global replacement deadline.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports a TSA checked-baggage fleet of xx.xx EDS, including xx.xx at end-of-life, and assigns purchase, installation and maintenance responsibilities to TSA. Supports agency fleet calibration and renewal pressure, not the assumed forecast uplift.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports a TSA checked-baggage fleet of xx.xx EDS, including xx.xx at end-of-life, and assigns purchase, installation and maintenance responsibilities to TSA. Supports agency fleet calibration and renewal pressure, not the assumed forecast uplift.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report identifies xx.xx end-of-life EDS within a xx.xx-unit U.S. checked-baggage fleet, citing the FY2024 capital plan. The derived xx.xx% backlog constrains the aging-fleet premise, but is neither an annual turnover rate nor a funded global replacement forecast.

2. GAO-24-106573 - DHS Annual Assessment: Most Programs Are Meeting Current Goals, but Some Continue to Face Cost and Schedule Challenges

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports plans for xx.xx checkpoint systems and xx.xx increment-one deployments by September 2023; supports an incomplete replacement cycle rather than universal CT adoption. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx AT/CT, xx.xx base, xx.xx mid-size and xx.xx full-size deployments by September 2023; supplies configuration proxies and an incomplete-renewal constraint, not contractual architecture shares. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx AT/CT, xx.xx base, xx.xx mid-size and xx.xx full-size deployments by September 2023; supplies configuration proxies and an incomplete-renewal constraint, not contractual architecture shares. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The deployed configuration mix underlies the xx.xx/xx.xx newer-cohort and xx.xx/xx.xx older-cohort proxy calculations; global and contractual attribution remain modeled. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The deployed configuration mix underlies the xx.xx/xx.xx newer-cohort and xx.xx/xx.xx older-cohort proxy calculations; global and contractual attribution remain modeled. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The assessment records xx.xx checkpoint systems deployed by September 2023 against an eventual xx.xx-system program. This supports an incomplete replacement cycle and qualifies any assumption of universal CT adoption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The assessment records xx.xx checkpoint systems deployed by September 2023 against an eventual xx.xx-system program. This supports an incomplete replacement cycle and qualifies any assumption of universal CT adoption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports a September 2023 U.S. CT cohort containing xx.xx AT/CT and xx.xx base systems, providing counterevidence to assigning all CT activity automatically to integrated lanes.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports a September 2023 U.S. CT cohort containing xx.xx AT/CT and xx.xx base systems, providing counterevidence to assigning all CT activity automatically to integrated lanes.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx mid-size and xx.xx full-size systems within xx.xx deployed CT systems; supports differentiated configuration assumptions rather than treating technology adoption as an integration-share observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx mid-size and xx.xx full-size systems within xx.xx deployed CT systems; supports differentiated configuration assumptions rather than treating technology adoption as an integration-share observation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2024 assessment records xx.xx checkpoint deployments as of September 2023 against xx.xx planned systems replacing aging equipment. It supports staged renewal, but does not establish current deployment completion or the modeled 2032 share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2024 assessment records xx.xx checkpoint deployments as of September 2023 against xx.xx planned systems replacing aging equipment. It supports staged renewal, but does not establish current deployment completion or the modeled 2032 share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The program separately anticipates enhancements to fielded systems, supporting a retained-equipment commercial pathway without supplying an attributable upgrade-revenue split.

3. Global Airport Passenger Traffic Reaches Record 9.8 Billion in 2025, Airports Council International World reports

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports cooling passenger-growth momentum in 2026, supporting moderation of traffic-driven equipment expansion despite continuing replacement demand.
   ([aci.aero](https://aci.aero/2026/xx.xx/xx.xx/global-airport-passenger-traffic-reaches-record-xx.xx-xx.xx-billion-in-2025-airports-council-international-world-reports/))

4. Smiths Group PLC - Full Year Results for the 12 Months Ended 31 July 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Discloses aviation original-equipment revenue of xx.xx and aftermarket revenue of xx.xx for FY2024; supplies historical cycle proxies. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing the 2027 market-value input; displayed series and growth include calculations: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; supports replacement activity, not an observed global forecast. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2025 aviation original-equipment revenue of GBP xx.xx provides an independent equipment-activity scale check, not a global category share. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025 aviation original-equipment revenue of GBP xx.xx provides an independent equipment-activity scale check, not a global category share. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx cumulative CTiX sales corroborate commercial imaging activity and replacement demand; they do not measure annual global sales. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx cumulative CTiX sales corroborate commercial imaging activity and replacement demand; they do not measure annual global sales. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: GBP xx.xx aviation aftermarket revenue supports lifecycle materiality while qualifying transfer of one supplier's mix to the global service allocation. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GBP xx.xx aviation aftermarket revenue supports lifecycle materiality while qualifying transfer of one supplier's mix to the global service allocation. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; cumulative sales constrain commercial scale but are not annual global shipments. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; cumulative sales constrain commercial scale but are not annual global shipments. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports four operating XDi units as of July 2025 and pending regulatory certification, constraining the small XRD cohort and qualifying aggressive commercialization assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports four operating XDi units as of July 2025 and pending regulatory certification, constraining the small XRD cohort and qualifying aggressive commercialization assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported checkpoint modernization provides a commercial reason to model substitution from discrete legacy offerings; the filing does not disclose standalone configuration revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025

5. Smiths Group PLC - Annual Report & Accounts FY2023
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: Reports FY2022 aviation original-equipment revenue of xx.xx, used as a dimensionless historical capital-cycle proxy. ([www-live.smiths.com](https://www-live.smiths.com/media/phjp1j44/smiths-annual-report-2023.pdf))
   - Evidence informing the 2023 market-value input; displayed series and growth include calculations: Reports FY2023 aviation original-equipment revenue of xx.xx and aftermarket revenue of xx.xx; supports the modeled recovery direction. ([www-live.smiths.com](https://www-live.smiths.com/media/phjp1j44/smiths-annual-report-2023.pdf))
6. Smiths Group PLC - Annual Report FY2022
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: Reports FY2021 aviation revenue of xx.xx, providing a historical purchasing-cycle reference rather than a global observation. ([www-live.smiths.com](https://www-live.smiths.com/media/xjvdpblr/smiths-annual-report-2022-report.pdf))
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: Reports FY2022 aviation revenue of xx.xx and continued weakness in aviation original equipment; supports a delayed capital-spending trough. ([www-live.smiths.com](https://www-live.smiths.com/media/xjvdpblr/smiths-annual-report-2022-report.pdf))
7. Smiths Group PLC - Annual Results for the Year Ended 31 July 2019
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: Reports FY2018 aviation revenue of xx.xx, supplying the historical comparison underlying the backcast. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: Reports FY2019 aviation revenue of xx.xx and customer delivery deferrals, qualifying a traffic-only growth model. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Identifies deliveries deferred into FY2020; supports the possibility of backlog-supported spending despite a contemporaneous traffic shock, not the exact modeled growth rate. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
8. ACI World - The High-Wire Balancing Act: Global Air Transport Demand in 2018 and 2019
   - Evidence informing the 2017 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers and xx.xx% growth in 2018; the growth observation informs the 2017 backcast bridge. ([blog.aci.aero](https://blog.aci.aero/airport-economics/the-high-wire-balancing-act-global-air-transport-demand-in-2018-and-2019/))
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: Provides the observed 2018 traffic-growth reference, not an equipment-market growth observation. ([blog.aci.aero](https://blog.aci.aero/airport-economics/the-high-wire-balancing-act-global-air-transport-demand-in-2018-and-2019/))
9. ICAO A42-WP/556 - State of the Industry and Outlook for Airport Traffic, Presented by ACI
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Records the collapse from xx.xx airport passengers in 2019 to xx.xx in 2020; constrains the shock and funding-risk interpretation. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2021, supporting a prolonged funding and activity shock. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2023 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2023; traffic recovery is distinguished from equipment purchasing. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2024, providing a demand recovery cross-check. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))

10. Port of Seattle - Baggage Handling System Optimization
    - Evidence informing the 2029 market-value input; displayed series and growth include calculations: Seattle plans to consolidate six baggage-screening systems, increase supported passenger capacity, and reduce screening-machine demand. Supports integration spending without one-for-one detector growth. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing the 2032 market-value input; displayed series and growth include calculations: The consolidation example constrains equipment-volume assumptions; its whole baggage-handling project value is excluded from market sizing. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing the 2040 market-value input; displayed series and growth include calculations: Provides a commercial counterexample to extrapolating passenger growth directly into machine counts throughout the long-range forecast. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Consolidation of six systems with reduced machine demand qualifies a traffic-to-detector-volume forecast. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The consolidation project supports integration-driven conveyor demand, but its whole-project value is excluded. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Brownfield consolidation supports the integration-demand premise, not the forecast's exact service growth factor. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport replaces six separate screening systems with centralized screening and expects reduced screening-machine demand while expanding capacity. This supplies a counterforce to volume-only checked-baggage forecasting.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Seattle is consolidating six screening systems, expects reduced screening-machine demand and schedules final-phase completion in 2029. Supports integration demand while constraining detector-volume growth; the whole-project budget is excluded.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seattle is consolidating six screening systems, expects reduced screening-machine demand and schedules final-phase completion in 2029. Supports integration demand while constraining detector-volume growth; the whole-project budget is excluded.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seattle's project combines increased screening capacity with consolidation from six screening systems and reduced screening-machine demand. This constrains the forecast assumption that capacity growth requires proportional equipment additions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement and capacity objectives coexist within the project. Its wider baggage-handling budget is not treated as screening-equipment revenue or assigned additively to multiple purposes.
11. Smiths Group PLC - Half Year Results for the Six Months Ended 31 January 2026
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports xx.xx% organic growth for Smiths Detection in HY2026, with aviation checkpoint upgrades contributing. Supports a positive 2026 nowcast, not a directly observed global growth rate. ([www-live.smiths.com](https://www-live.smiths.com/media/villk35h/smiths-hy26-results-press-release.pdf))
12. UK Civil Aviation Authority - UK aviation officially breaks records with over 300m passenger journeys in 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx-million UK-and-Crown-Dependency headline constrains the modeled UK country traffic bridge.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx-million UK-and-Crown-Dependency headline constrains the modeled UK country traffic bridge.

13. CATSA 2025 Annual Report - Notes to the Financial Statements

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx accounts disclose C$xx.xx maintenance/spares and C$xx.xx training/certification, supporting the service-budget calibration but not global baggage-only shares. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx accounts disclose C$xx.xx maintenance/spares and C$xx.xx training/certification, supporting the service-budget calibration but not global baggage-only shares. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintenance and spare parts are combined in the accounts; the labor-versus-goods split therefore remains modeled. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintenance and spare parts are combined in the accounts; the labor-versus-goods split therefore remains modeled. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The C$xx.xx training/certification expense supplies the numerator of the adjusted training-to-capital proxy. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The C$xx.xx training/certification expense supplies the numerator of the adjusted training-to-capital proxy. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: C$xx.xx trace/consumables is distinct from maintenance/spares and supplies the contrary consumables-intensity comparator, not a global observation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: C$xx.xx trace/consumables is distinct from maintenance/spares and supplies the contrary consumables-intensity comparator, not a global observation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately reports C$xx.xx maintenance/spares, C$xx.xx trace/consumables and C$xx.xx training/certification, constraining attributable agency lifecycle expenditure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates screening-contractor payments from equipment support, preventing staffing expenditure from becoming equipment-market purchasing.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately reports C$xx.xx maintenance/spares, C$xx.xx trace/consumables and C$xx.xx training/certification, constraining attributable agency lifecycle expenditure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates screening-contractor payments from equipment support, preventing staffing expenditure from becoming equipment-market purchasing.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited expense disclosure reports C$xx.xx for maintenance and spare parts in the year ended March xx.xx 2025. It constrains support-spending materiality, not the amount attributable to an independent provider. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))

14. CATSA 2025 Annual Report - Management's Discussion and Analysis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: EDS capital expenditure of C$xx.xx includes equipment and installation/integration and supplies the training-calibration denominator, subject to baggage attribution. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EDS capital expenditure of C$xx.xx includes equipment and installation/integration and supplies the training-calibration denominator, subject to baggage attribution. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The capital definition includes associated installation and integration, supporting the distinction between deployment services and equipment value. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The capital definition includes associated installation and integration, supporting the distinction between deployment services and equipment value. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Actual spending, original budget and reprofile amounts constrain the forecast's purchasing-execution interpretation; they are not a global growth rate. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx pre-board capital appropriations used were C$xx.xx. This supplies the Canadian purchasing comparison and a component of the non-passenger-to-cabin activity proxy, not a global share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx pre-board capital appropriations used were C$xx.xx. This supplies the Canadian purchasing comparison and a component of the non-passenger-to-cabin activity proxy, not a global share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx hold-baggage capital appropriations used were C$xx.xx; this constrains the independent application-capital comparison.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx non-passenger capital appropriations used were C$xx.xx, below the original C$xx.xx budget. Actual purchasing informs the proxy and qualifies automatic announcement-to-revenue conversion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx non-passenger capital appropriations used were C$xx.xx, below the original C$xx.xx budget. Actual purchasing informs the proxy and qualifies automatic announcement-to-revenue conversion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports C$xx.xx EDS capital expenditure for FY2024/xx.xx and identifies both baggage equipment and full-body scanners in the capital scope, requiring a baggage-attribution adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports C$xx.xx EDS capital expenditure for FY2024/xx.xx and identifies both baggage equipment and full-body scanners in the capital scope, requiring a baggage-attribution adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EDS outturn was C$xx.xx versus an original C$xx.xx plan and revised C$xx.xx budget. Reprofiling constrains assumed award conversion and deployment timing; it does not measure procurement-channel mix. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The actual capital-project list identifies hold-baggage capacity expansion at Montréal-Trudeau, supporting the expansion classification, not its modeled global revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The actual capital-project list identifies hold-baggage capacity expansion at Montréal-Trudeau, supporting the expansion classification, not its modeled global revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The actual project list includes checkpoint CT deployment and hold-baggage oversize-equipment lifecycle management, supporting renewal activity without disclosing its purpose-specific spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The actual project list includes checkpoint CT deployment and hold-baggage oversize-equipment lifecycle management,

15. Aviation security screening approved equipment list
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Baggage EDS/EDSCB and conventional X-ray classes support the inspection-system boundary, not sales weights. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Baggage EDS/EDSCB and conventional X-ray classes support the inspection-system boundary, not sales weights. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Liquid detectors are a distinct cabin-baggage category; the complete bulk-material extension remains modeled within the captured boundary. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Liquid detectors are a distinct cabin-baggage category; the complete bulk-material extension remains modeled within the captured boundary. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ETD serves baggage and other applications, requiring explicit baggage attribution rather than allocating all detector sales here. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ETD serves baggage and other applications, requiring explicit baggage attribution rather than allocating all detector sales here. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dedicated ETD consumables are separately recognized, supporting goods classification without establishing spending or unrestricted interchangeability. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dedicated ETD consumables are separately recognized, supporting goods classification without establishing spending or unrestricted interchangeability. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
16. Quantifying the Impacts of Delayed Maintenance of Airport Assets: A Guide - Chapter 6, Baggage Handling Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The baggage-handling cost study uses a modeled xx.xx% labor share, adopted only as an adjacent support-cost proxy. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The baggage-handling cost study uses a modeled xx.xx% labor share, adopted only as an adjacent support-cost proxy. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Its corresponding modeled xx.xx% parts share calibrates the labor/goods separation; it is not an observed screening-equipment ratio. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Its corresponding modeled xx.xx% parts share calibrates the labor/goods separation; it is not an observed screening-equipment ratio. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))

17. Procurement of Next Generation Security Checkpoint Equipment - Contract Award Notice

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The seven-system award includes automated tray return, demonstrating bundled purchasing but no separately priced hardware allocation. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The seven-system award includes automated tray return, demonstrating bundled purchasing but no separately priced hardware allocation. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The integrated CT/tray-return scope constrains the automation interface boundary; it does not value general airport conveyors. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The integrated CT/tray-return scope constrains the automation interface boundary; it does not value general airport conveyors. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Central image processing is an explicit purchased function, without a separately disclosed license price. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Central image processing is an explicit purchased function, without a separately disclosed license price. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supply, installation and commissioning are included deliverables, supporting deployment-service attribution without establishing its percentage. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supply, installation and commissioning are included deliverables, supporting deployment-service attribution without establishing its percentage. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2022 award covers seven systems combining cabin CT, tray return, image processing and deployment responsibilities. It supports integrated purchased scope, not completed delivery or a global sales weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2022 award covers seven systems combining cabin CT, tray return, image processing and deployment responsibilities. It supports integrated purchased scope, not completed delivery or a global sales weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The integrated Newcastle procurement reports a GBP xx.xx-xx.xx offer range but no physical review-room location; its value cannot be assigned automatically to local review. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The integrated Newcastle procurement reports a GBP xx.xx-xx.xx offer range but no physical review-room location; its value cannot be assigned automatically to local review. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Central image processing is included, but a separate on-site room is not specified; constrains classification rather than supplying a remote-review sales weight. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Central image processing is included, but a separate on-site room is not specified; constrains classification rather than supplying a remote-review sales weight. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The bundled award does not identify a mixed-location package or its attributable price, preventing automatic hybrid classification. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The bundled award does not identify a mixed-location package or its attributable price, preventing automatic hybrid classification.

18. AI for Monitoring Aviation Security: Fraport and German Federal Police Start Regular Operation of APIDS
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: January xx.xx 2026 APIDS deployment demonstrates additional software adoption, without establishing separate revenue. ([fraport.com](https://www.fraport.com/en/newsroom/press-releases/2026/q1/ai-for-monitoring-aviation-security.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Deployment on more than xx.xx CT scanners is the independent quantitative rollout test; it does not validate the modeled license-growth factor. ([fraport.com](https://www.fraport.com/en/newsroom/press-releases/2026/q1/ai-for-monitoring-aviation-security.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: On January xx.xx 2026, Fraport announced regular APIDS software operation on more than xx.xx existing Smiths CT scanners. This independently supports retained-system enhancement at one buyer, not global penetration or realized license revenue.
19. Smiths Detection - Digital Innovation
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier identifies detection applications as a commercial function; separate fee allocation remains assumed. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier identifies detection applications as a commercial function; separate fee allocation remains assumed. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized screening supports the image-review function, not an observed software revenue weight. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized screening supports the image-review function, not an observed software revenue weight. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Connectivity, multi-vendor integration and equipment-health applications establish the fleet-management function without proving customer-specific rights or prices. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Connectivity, multi-vendor integration and equipment-health applications establish the fleet-management function without proving customer-specific rights or prices. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ELECTORA is offered for integrating multi-vendor devices, datasets and applications; establishes the vendor-platform category but discloses no category revenue or customer-specific substitution entitlement. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ELECTORA is offered for integrating multi-vendor devices, datasets and applications; establishes the vendor-platform category but discloses no category revenue or customer-specific substitution entitlement. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
20. UK Civil Aviation Authority - Threat Image Projection (TIP)
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: TIP library approval and renewal obligations support continuing software commitments, not the modeled global fee or share. ([caa.co.uk](https://www.caa.co.uk/commercial-industry/security/training-and-human-factors/threat-image-projection/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: TIP library approval and renewal obligations support continuing software commitments, not the modeled global fee or share. ([caa.co.uk](https://www.caa.co.uk/commercial-industry/security/training-and-human-factors/threat-image-projection/))

21. Smiths Detection - Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Inclusive capital-equipment support covers labor and parts, requiring a single-count economic allocation across services and goods. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Inclusive capital-equipment support covers labor and parts, requiring a single-count economic allocation across services and goods. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Equipment-specific training and certification are commercial offerings distinct from routine screening staffing. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Equipment-specific training and certification are commercial offerings distinct from routine screening staffing. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The parts-support offering and inclusive contracts corroborate the goods boundary, but not the assumed xx.xx% allocation. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The parts-support offering and inclusive contracts corroborate the goods boundary, but not the assumed xx.xx% allocation. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes inclusive labor-and-parts contracts and manufacturer support, supporting nonduplicative lifecycle attribution to projection equipment, not a verified xx.xx% fee. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes inclusive labor-and-parts contracts and manufacturer support, supporting nonduplicative lifecycle attribution to projection equipment, not a verified xx.xx% fee. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports the existence of manufacturer lifecycle offerings; broad service-footprint counts are not used as CT revenue weights.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports the existence of manufacturer lifecycle offerings; broad service-footprint counts are not used as CT revenue weights.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports commercial maintenance, refurbishment and parts offerings for portable equipment without establishing baggage-specific service receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports commercial maintenance, refurbishment and parts offerings for portable equipment without establishing baggage-specific service receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer markets direct on-site support and inclusive capital-equipment labor-and-parts contracts. This supports a continuing manufacturer-service alternative, without measuring a pricing premium. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer markets direct on-site support and inclusive capital-equipment labor-and-parts contracts. This supports a continuing manufacturer-service alternative, without measuring a pricing premium. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Manufacturer-provided bundled support is a commercial alternative to separate technical-service procurement, limiting assumptions of unrestricted third-party substitution. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Manufacturer-provided bundled support is a commercial alternative to separate technical-service procurement, limiting assumptions of unrestricted third-party substitution. ([smithsdetection.com](https://www.smithsdetection.com/service/))

22. Hold baggage screening upgrade, Dublin and Cork Airports, Ireland

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate professional-service appointments cover project controls, design oversight and interface management; the broader construction budget is not used as screening-service revenue. ([neccontract.com](https://www.neccontract.com/projects/hold-baggage-screening-upgrade-dublin-and-cork-airports-ireland))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate professional-service appointments cover project controls, design oversight and interface management; the broader construction budget is not used as screening-service revenue. ([neccontract.com](https://www.neccontract.com/projects/hold-baggage-screening-upgrade-dublin-and-cork-airports-ireland))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes three upgraded hold-baggage systems delivered through separate construction, baggage-integration and advisory appointments, completed in March 2023. Supports integrated-system attribution without assuming a universal single-prime model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes three upgraded hold-baggage systems delivered through separate construction, baggage-integration and advisory appointments, completed in March 2023. Supports integrated-system attribution without assuming a universal single-prime model.

23. Corporate Plan 2025-26 to 2029-30 Summary - Financial Overview
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CATSA distinguishes major-checkpoint CT replacement from single-view-to-multiview replacement elsewhere, supporting application-specific projection demand and forecast assumptions. It also discloses capital funding subject to reprofile approval. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/corporate-plan-2025-xx.xx-2029-xx.xx/financial-overview))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CATSA distinguishes major-checkpoint CT replacement from single-view-to-multiview replacement elsewhere, supporting application-specific projection demand and forecast assumptions. It also discloses capital funding subject to reprofile approval. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/corporate-plan-2025-xx.xx-2029-xx.xx/financial-overview))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies single-view equipment as a replacement population, supporting the modeled displacement mechanism rather than an observed global share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies single-view equipment as a replacement population, supporting the modeled displacement mechanism rather than an observed global share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Multiview remains a planned purchasing destination at non-passenger checkpoints and Class xx.xx airports, qualifying universal CT substitution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Multiview remains a planned purchasing destination at non-passenger checkpoints and Class xx.xx airports, qualifying universal CT substitution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CT replacement is a stated major-checkpoint investment priority, subject to funding and delivery risks; this supports direction, not the modeled global share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CT replacement is a stated major-checkpoint investment priority, subject to funding and delivery risks; this supports direction, not the modeled global share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The plan includes additional screening equipment and expansion of existing hold-baggage screening capacity. Its FY2025/xx.xx capital budget is C$xx.xx across mixed activities; plans are not recognized supplier revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The plan includes additional screening equipment and expansion of existing hold-baggage screening capacity. Its FY2025/xx.xx capital budget is C$xx.xx across mixed activities; plans are not recognized supplier revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The plan distinguishes replacement of checkpoint X-ray equipment with CT and asset lifecycle renewal from additional capacity. Funding, partner timing and reprofiling qualify forecast realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The plan distinguishes replacement of checkpoint X-ray equipment with CT and asset lifecycle renewal from additional capacity. Funding, partner timing and reprofiling qualify forecast realization.
24. ECAC CEP Public Equipment List - Explosive Detection Systems, Update 18 April 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 list retains XRD xx.xx supporting the legacy commercial-category premise but not the assumed installed cohort or sales volume. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-EDS-equipment_public_list_update_20250418.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 list retains XRD xx.xx supporting the legacy commercial-category premise but not the assumed installed cohort or sales volume. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-EDS-equipment_public_list_update_20250418.pdf))

25. Partners - HALO X-ray Technologies Ltd

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named airport pilots and approximately USD xx.xx and USD xx.xx development programs establish commercialization activity and program scale, not realized annual XRD equipment revenue. ([haloxray.com](https://www.haloxray.com/partners))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named airport pilots and approximately USD xx.xx and USD xx.xx development programs establish commercialization activity and program scale, not realized annual XRD equipment revenue. ([haloxray.com](https://www.haloxray.com/partners))

26. Explosives Trace Detectors (ETDs): Market Survey Report, November 2021

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Historical IONSCAN xx.xx list-price configurations around USD xx.xx-xx.xx constrain the IMS price class; they do not establish 2025 purchasing volumes or realizations. ([dhs.gov](https://dhs.gov/sites/default/files/2021-xx.xx/SAVER_Explosives%20Trace%20Detectors%20MSR_08Nov2021_Final-xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Historical IONSCAN xx.xx list-price configurations around USD xx.xx-xx.xx constrain the IMS price class; they do not establish 2025 purchasing volumes or realizations. ([dhs.gov](https://dhs.gov/sites/default/files/2021-xx.xx/SAVER_Explosives%20Trace%20Detectors%20MSR_08Nov2021_Final-xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The Fido X4 historical USD xx.xx list-price benchmark supports the explicit nominal-price bridge; baggage attribution and unit mix remain modeled.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The Fido X4 historical USD xx.xx list-price benchmark supports the explicit nominal-price bridge; baggage attribution and unit mix remain modeled.

27. Astrotech Corporation - Form 10-K for the Fiscal Year Ended June 30, 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Discloses FY2025 product and service revenue, xx.xx deployment locations, and a six-unit USD xx.xx order. These provide a price comparator and supplier-scale check, not baggage-only revenue. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20250630_10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Discloses FY2025 product and service revenue, xx.xx deployment locations, and a six-unit USD xx.xx order. These provide a price comparator and supplier-scale check, not baggage-only revenue. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20250630_10k.htm))

28. Astrotech Corporation - Form 10-K for the Fiscal Year Ended June 30, 2026

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports eight TRACER units sold in FY2025 versus three in FY2026, identifies grant-related revenue within FY2025 product revenue, and describes a potential subsidiary sale. These constrain MS attribution and forecast optimism. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20260630_10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports eight TRACER units sold in FY2025 versus three in FY2026, identifies grant-related revenue within FY2025 product revenue, and describes a potential subsidiary sale. These constrain MS attribution and forecast optimism. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20260630_10k.htm))

29. Liquid Explosive Detector, Bottle Liquid Scanner, Insight - Agilent

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Raman-based airport resolution products and dated September 2025 launch and May 2026 contract announcements. Supports category continuity and adoption premises, not global unit or revenue shares. ([agilent.com](https://www.agilent.com/en/product/molecular-spectroscopy/raman-spectroscopy/raman-aviation-security-systems/insight-series-alarm-resolution-systems))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Raman-based airport resolution products and dated September 2025 launch and May 2026 contract announcements. Supports category continuity and adoption premises, not global unit or revenue shares. ([agilent.com](https://www.agilent.com/en/product/molecular-spectroscopy/raman-spectroscopy/raman-aviation-security-systems/insight-series-alarm-resolution-systems))

30. Bottle Liquid Scanner for Sale from China - Securina

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Positions microwave-based liquid-screening products for airports and customs. Supports commercial classification only; prices, authorization and purchasing weights remain assumptions. ([securinadetection.com](https://www.securinadetection.com/Bottle-Liquid-Scanner-Manufacturer-China.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Positions microwave-based liquid-screening products for airports and customs. Supports commercial classification only; prices, authorization and purchasing weights remain assumptions. ([securinadetection.com](https://www.securinadetection.com/Bottle-Liquid-Scanner-Manufacturer-China.html))

31. Quick, Accurate Threat-Detection Scanner for Liquid, Aerosol, and Gels Eases and Secures Air Travel Worldwide

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies LS10 as a complete commercial liquid scanner combining RF and ultrasonic capabilities, supporting nonduplicative complete-product attribution. ([battelle.org](https://www.battelle.org/insights/case-studies/case-study-details/quick-accurate-threat-detection-scanner-for-liquid-aerosol-and-gels-eases-and-secures-air-travel-worldwide))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies LS10 as a complete commercial liquid scanner combining RF and ultrasonic capabilities, supporting nonduplicative complete-product attribution. ([battelle.org](https://www.battelle.org/insights/case-studies/case-study-details/quick-accurate-threat-detection-scanner-for-liquid-aerosol-and-gels-eases-and-secures-air-travel-worldwide))

32. ECAC CEP Public Equipment List - Liquid Explosive Detection Systems, Update 10 July 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 list includes One Resonance Sensors MobiLab BLS. This supports retained listed status for a named product, not active supply, paid installed stock or observed receipts. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-LEDS%20equipment%20public%20list-update%xx.xx-xx.xx-rev1.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 list includes One Resonance Sensors MobiLab BLS. This supports retained listed status for a named product, not active supply, paid installed stock or observed receipts. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-LEDS%20equipment%20public%20list-update%xx.xx-xx.xx-rev1.pdf))

33. MobiLab BLS Bottled Liquid Scanner Endorsed By European Civil Aviation Conference

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's May xx.xx 2014 announcement identifies MobiLab BLS as an NMR-based airport liquid scanner and states that orders were being accepted. Establishes historical commercial offering, not 2025 deliveries. ([prnewswire.com](https://www.prnewswire.com/news-releases/mobilab-bls-bottled-liquid-scanner-endorsed-by-european-civil-aviation-conference-xx.xx.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's May xx.xx 2014 announcement identifies MobiLab BLS as an NMR-based airport liquid scanner and states that orders were being accepted. Establishes historical commercial offering, not 2025 deliveries. ([prnewswire.com](https://www.prnewswire.com/news-releases/mobilab-bls-bottled-liquid-scanner-endorsed-by-european-civil-aviation-conference-xx.xx.html))

34. SafePointe BLS Powered by ORS - Bottled Liquid Explosives Detection Solution

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The branded supplier brochure documents an ORS-powered bottled-liquid product channel. Its availability does not establish current orders or support continuity; it supports only the legacy-channel modeling premise. ([uploads-ssl.webflow.com](https://uploads-ssl.webflow.com/608330bcae48962bf6d7ff37/6149f80be6c30d34b5e3debe_BLS-Flyer-Compressed.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The branded supplier brochure documents an ORS-powered bottled-liquid product channel. Its availability does not establish current orders or support continuity; it supports only the legacy-channel modeling premise. ([uploads-ssl.webflow.com](https://uploads-ssl.webflow.com/608330bcae48962bf6d7ff37/6149f80be6c30d34b5e3debe_BLS-Flyer-Compressed.pdf))

35. Florida Division of Corporations - One Resonance Sensors, LLC, Entity Detail

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official registry records One Resonance Sensors, LLC as inactive following administrative dissolution on September xx.xx 2019. This counterevidence constrains continuity assumptions but does not prove zero surviving product support. ([search.sunbiz.org](https://search.sunbiz.org/Inquiry/CorporationSearch/SearchResultDetail?aggregateId=flal-l11000122986-c57f60b3-690d-4c87-836a-9aeb045075e8&directionType=CurrentList&inquirytype=EntityName&listNameOrder=ONERESONANCESENSORS+L110001229860&searchNameOrder=ONERESONANCESENSORS+L110001229860&searchTerm=ONE+RED+AMPERSAND+LLC))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official registry records One Resonance Sensors, LLC as inactive following administrative dissolution on September xx.xx 2019. This counterevidence constrains continuity assumptions but does not prove zero surviving product support. ([search.sunbiz.org](https://search.sunbiz.org/Inquiry/CorporationSearch/SearchResultDetail?aggregateId=flal-l11000122986-c57f60b3-690d-4c87-836a-9aeb045075e8&directionType=CurrentList&inquirytype=EntityName&listNameOrder=ONERESONANCESENSORS+L110001229860&searchNameOrder=ONERESONANCESENSORS+L110001229860&searchTerm=ONE+RED+AMPERSAND+LLC))

36. Explosive Detection - Teledyne FLIR Defense

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists offered Fido X-series products and service support, supporting commercial offering continuity only, not airport-specific eligibility or sales weights. ([flir.com](https://www.flir.com/threat-detection/explosives/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists offered Fido X-series products and service support, supporting commercial offering continuity only, not airport-specific eligibility or sales weights. ([flir.com](https://www.flir.com/threat-detection/explosives/))

37. Scintrex Trace E3500 Explosive Trace Detection Unit - SecurityPro USA

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distributor offers E3500 chemiluminescence equipment and identifies customs/border applications. Supports a commercial category lead, not measured airport purchasing or the assumed price. ([securityprousa.com](https://www.securityprousa.com/collections/explosive-detection/products/scintrex-trace-e3500-explosive-trace-detection-unit))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distributor offers E3500 chemiluminescence equipment and identifies customs/border applications. Supports a commercial category lead, not measured airport purchasing or the assumed price. ([securityprousa.com](https://www.securityprousa.com/collections/explosive-detection/products/scintrex-trace-e3500-explosive-trace-detection-unit))

38. Portable Explosive Detector - Trace Detector EVD-3000+

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distributor offers EVD-xx.xx+ thermo-redox equipment. Supports offered-product classification, not airport authorization, purchasing volume or the modeled realization. ([securityprousa.com](https://www.securityprousa.com/products/scintrex-trace-evd-xx.xx-portable-trace-detection-unit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distributor offers EVD-xx.xx+ thermo-redox equipment. Supports offered-product classification, not airport authorization, purchasing volume or the modeled realization. ([securityprousa.com](https://www.securityprousa.com/products/scintrex-trace-evd-xx.xx-portable-trace-detection-unit))

39. CATSA's Purchase Order Terms and Conditions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contract terms constrain maintenance, parts and consumables escalation, qualifying unrestricted aftermarket pricing assumptions in the projection lifecycle model. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contract terms constrain maintenance, parts and consumables escalation, qualifying unrestricted aftermarket pricing assumptions in the projection lifecycle model. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contractual price limits constrain the pricing premise, but do not verify CT-specific global support receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contractual price limits constrain the pricing premise, but do not verify CT-specific global support receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintenance and consumable escalation limits qualify the trace-platform pricing assumption rather than establishing the modeled IMS share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintenance and consumable escalation limits qualify the trace-platform pricing assumption rather than establishing the modeled IMS share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The pre-existing-software clause grants broad license rights without transferring ownership; proprietary ownership alone therefore cannot establish the Closed revenue numerator. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The pre-existing-software clause grants broad license rights without transferring ownership; proprietary ownership alone therefore cannot establish the Closed revenue numerator. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Software modification rights are not themselves proof of standards-based interfaces or independent component substitution; supports conservative classification. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Software modification rights are not themselves proof of standards-based interfaces or independent component substitution; supports conservative classification. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))

40. Liquids Scanner for Airport Security - UC Davis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2011 account establishes a development contract and licensing relationship. Its development allocation is excluded from 2025 receipts and does not establish a surviving commercial cohort. ([ucdavis.edu](https://www.ucdavis.edu/news/liquids-scanner-airport-security))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2011 account establishes a development contract and licensing relationship. Its development allocation is excluded from 2025 receipts and does not establish a surviving commercial cohort. ([ucdavis.edu](https://www.ucdavis.edu/news/liquids-scanner-airport-security))
41. Open Architecture for Airport Security Systems, Second Edition
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes proprietary integration from interoperable connections, supporting the category boundary rather than an observed revenue share. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes proprietary integration from interoperable connections, supporting the category boundary rather than an observed revenue share. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Integration does not guarantee interoperability; this constrains attribution of vendor-mediated configurations. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Integration does not guarantee interoperability; this constrains attribution of vendor-mediated configurations. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Allows identified partial compliance and discusses accountable integration responsibilities; supports scoped open attribution, not whole-purchase reclassification. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Allows identified partial compliance and discusses accountable integration responsibilities; supports scoped open attribution, not whole-purchase reclassification. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))

42. CATSA 2025 Annual Report - Overview of Activities

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines across xx.xx airports serving more than xx.xx% of passengers in 2024/xx.xx; provides an independent integration-activity check, not a direct value allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines across xx.xx airports serving more than xx.xx% of passengers in 2024/xx.xx; provides an independent integration-activity check, not a direct value allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported modernized passenger coverage constrains an assumption of universally standalone activity, while leaving commercial architecture and revenue attribution unresolved. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported modernized passenger coverage constrains an assumption of universally standalone activity, while leaving commercial architecture and revenue attribution unresolved. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The annual report identifies enhanced non-passenger requirements and implementation planned from spring 2025. This supports a conditional modernization premise, not the modeled global uptake factor.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2024/xx.xx; provides a Canadian adoption comparator, not a global local-review revenue weight. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2024/xx.xx; provides a Canadian adoption comparator, not a global local-review revenue weight. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies remote screening within CATSA Plus and quantifies deployment; constrains the commercial-adoption premise but does not establish each review room's location. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies remote screening within CATSA Plus and quantifies deployment; constrains the commercial-adoption premise but does not establish each review room's location. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Deployment coverage constrains the addressable network-enabled pool; it does not disclose hybrid contracts or justify the modeled hybrid percentage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Deployment coverage constrains the addressable network-enabled pool; it does not disclose hybrid contracts or justify the modeled hybrid percentage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))

43. CATSA - Beyond the Checkpoint, December 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx operational CT machines at eight airports and a modular-line average of xx.xx passengers per hour versus xx.xx for traditional multi-split lines; supports the bounded throughput-to-unit bridge and phased-deployment premise. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/about-us/beyond-checkpoint-2025-december))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx operational CT machines at eight airports and a modular-line average of xx.xx passengers per hour versus xx.xx for traditional multi-split lines; supports the bounded throughput-to-unit bridge and phased-deployment premise. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/about-us/beyond-checkpoint-2025-december))

44. Smiths Detection Delivers Fully Automated International Remote Baggage Screening System Between South Korea and the United States

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2026 disclosure identifies xx.xx software licenses and DICOS V3.xx.xx exchange, and dates operational service to August 2025. Supports commercial standards-based activity and forecast feasibility, not an observed global share or a confirmed 2025 license inventory. ([smithsdetection.com](https://www.smithsdetection.com/press-releases/smiths-detection-delivers-fully-automated-international-remote-baggage-screening-system-between-south-korea-and-the-united-states/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2026 disclosure identifies xx.xx software licenses and DICOS V3.xx.xx exchange, and dates operational service to August 2025. Supports commercial standards-based activity and forecast feasibility, not an observed global share or a confirmed 2025 license inventory. ([smithsdetection.com](https://www.smithsdetection.com/press-releases/smiths-detection-delivers-fully-automated-international-remote-baggage-screening-system-between-south-korea-and-the-united-states/))

45. SeeTrue Marks Milestone with Over 100 X-ray Checkpoint Installations of Advanced AI-Based Threat Detection Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 announcement reports the 100th operational screening lane across airports and other sectors. Provides a limited commercial-adoption scale check; it is neither airport-only nor a census of standards-based entitlements. ([seetrue.ai](https://www.seetrue.ai/seetrue-marks-milestone-with-over-xx.xx-x-ray-checkpoint-installations-of-advanced-ai-based-threat-detection-software/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 announcement reports the 100th operational screening lane across airports and other sectors. Provides a limited commercial-adoption scale check; it is neither airport-only nor a census of standards-based entitlements. ([seetrue.ai](https://www.seetrue.ai/seetrue-marks-milestone-with-over-xx.xx-x-ray-checkpoint-installations-of-advanced-ai-based-threat-detection-software/))

46. Scarabee's Checkpoint Property Screening System to be deployed at DEN

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-lane Denver award combining Scarabee lanes with Smiths scanners. Corroborates a commercial mixed-supplier integration route; an award is not realized annual revenue or proof of unrestricted interoperability. ([daifukuatec.com](https://daifukuatec.com/news/scarabees-checkpoint-property-screening-system-to-be-deployed-at-den))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-lane Denver award combining Scarabee lanes with Smiths scanners. Corroborates a commercial mixed-supplier integration route; an award is not realized annual revenue or proof of unrestricted interoperability. ([daifukuatec.com](https://daifukuatec.com/news/scarabees-checkpoint-property-screening-system-to-be-deployed-at-den))

47. CATSA Annual Report 2024 - Management's Discussion and Analysis

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx pre-board capital appropriations used of C$xx.xx provide the second period in the non-passenger-to-cabin purchasing comparison.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx non-passenger capital appropriations used of C$xx.xx enter the two-period activity proxy; they do not identify the property-only fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx non-passenger capital appropriations used of C$xx.xx enter the two-period activity proxy; they do not identify the property-only fraction.

48. Smiths Detection confirm order of 91 advanced scanners for new terminals at Moscow Sheremetyevo International Airport
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The dated airport deployment includes xx.xx entrance baggage systems and xx.xx cabin-checkpoint systems. Their ratio supplies a historical relative-density proxy, subsequently discounted for assumed global coverage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated airport deployment includes xx.xx entrance baggage systems and xx.xx cabin-checkpoint systems. Their ratio supplies a historical relative-density proxy, subsequently discounted for assumed global coverage.
49. Cochin International Airport Selects Smiths Detection's CTX 9800 for Next-Generation Hold Baggage Screening
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2017 deployment identifies xx.xx customs baggage systems alongside four hold-baggage systems. This supports the customs-intensive historical configuration proxy, not current global fleet or revenue observations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2017 deployment identifies xx.xx customs baggage systems alongside four hold-baggage systems. This supports the customs-intensive historical configuration proxy, not current global fleet or revenue observations.
50. CATSA Functions, Programs and Activities
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Hold-baggage activities include equipment purchase, baggage-handling integration and equipment maintenance, supporting the checked-baggage capital and lifecycle boundary.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Hold-baggage activities include equipment purchase, baggage-handling integration and equipment maintenance, supporting the checked-baggage capital and lifecycle boundary.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-passenger screening covers airport workers and their belongings; only attributable property-screening offerings enter this allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-passenger screening covers airport workers and their belongings; only attributable property-screening offerings enter this allocation.
51. Fraport TAV Antalya Airport - About the security control itself
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The airport operator distinguishes terminal-entry security from a subsequent checkpoint. This supports a separate entrance-screening mission while providing no global prevalence or spending share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport operator distinguishes terminal-entry security from a subsequent checkpoint. This supports a separate entrance-screening mission while providing no global prevalence or spending share.
52. EMSD VoiceLink, Issue 79, June 2026 - EMSD Provides Comprehensive Support for Terminal 2 Commissioning
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June 2026 account identifies baggage-and-parcel equipment procurement and installation for the customs authority at Terminal xx.xx. It supports a separate commissioning mission but does not isolate baggage expenditure.
53. GAO-26-107811 - Guam: Considerations for Evaluating Alternative Customs Models and Potential Economic Effects
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The audit identifies two historical airport-customs baggage systems inactive for years and delayed replacement procurement. This challenges conversion of installed stock or acknowledged need directly into annual equipment and support revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The audit identifies two historical airport-customs baggage systems inactive for years and delayed replacement procurement. This challenges conversion of installed stock or acknowledged need directly into annual equipment and support revenue.

54. Bennet, Moran, Van Hollen, Boozman Introduce Bill to Bolster Aviation Safety
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 official release identifies xx.xx U.S. screening lanes, used as agency purchasing-exposure calibration rather than observed annual equipment sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 official release identifies xx.xx U.S. screening lanes, used as agency purchasing-exposure calibration rather than observed annual equipment sales.
55. Bank of Canada - Annual exchange rates
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual exchange-rate observations support the inherited fiscal-period approximation of xx.xx Canadian dollars per U.S. dollar; this is not a transaction-weighted exchange rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual exchange-rate observations support the inherited fiscal-period approximation of xx.xx Canadian dollars per U.S. dollar; this is not a transaction-weighted exchange rate.
56. Japan’s leading airline revolutionizes check in experience with new Smiths Detection technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The August 2023 announcement identifies JAL as customer for five screening ecosystems and reports xx.xx deployed iLane units across Japan. These are historical commercial-stock anchors, not an airline-only fleet or 2025 sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August 2023 announcement identifies JAL as customer for five screening ecosystems and reports xx.xx deployed iLane units across Japan. These are historical commercial-stock anchors, not an airline-only fleet or 2025 sales observation.
57. Narita International Airport anticipates threats with integrated solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Narita airport as a screening-technology customer and describes xx.xx lane-related installations, qualifying any assumption that the supplier's Japanese installed stock was purchased entirely by airlines.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Narita airport as a screening-technology customer and describes xx.xx lane-related installations, qualifying any assumption that the supplier's Japanese installed stock was purchased entirely by airlines.
58. MLIT - 保安検査の実施主体が変わります！ - June 27, 2025
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement targets transfer of security-screening responsibility from airlines to airport managers, with leading cases targeted in FY2026. Supports a conditional reduction in airline purchasing, not an observed contract-transfer percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transfer direction supports modeled airport-manager purchasing gains. Continued shared financing does not imply equal purchasing shares.
59. ICTS International N.V. - Annual Report for the year ended December 31, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Discloses USD xx.xx company-wide property/equipment purchases and USD xx.xx airport-security revenue in 2025. Supports an asset-light purchasing-intensity proxy; the in-scope fraction and global expansion remain assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Discloses USD xx.xx company-wide property/equipment purchases and USD xx.xx airport-security revenue in 2025. Supports an asset-light purchasing-intensity proxy; the in-scope fraction and global expansion remain assumptions.

60. EU Publications Office - Purchase and maintenance of non-intrusive X-ray inspection equipment for baggage and air cargo volume control
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Autoridade Tributária e Aduaneira as buyer and reports a 2026 award of EUR xx.xx across four lots for baggage/air-cargo inspection equipment and maintenance. Provides a buyer-role and commercial-scale comparator, not 2025 baggage-only annual expenditure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Autoridade Tributária e Aduaneira as buyer and reports a 2026 award of EUR xx.xx across four lots for baggage/air-cargo inspection equipment and maintenance. Provides a buyer-role and commercial-scale comparator, not 2025 baggage-only annual expenditure.
61. ACI World - Busiest Airports in the World
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx international airport passenger movements in 2025. Half provides an approximate arrival-movement scale check before transfer exclusions, not a customs examination or equipment-purchasing weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx international airport passenger movements in 2025. Half provides an approximate arrival-movement scale check before transfer exclusions, not a customs examination or equipment-purchasing weight.
62. Heathrow announces £2.3bn accelerated investment plan to upgrade the UK's international gateway to growth
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports GBP xx.xx invested in security-lane upgrades during 2024, supporting material airport-directed purchasing. Broader infrastructure obligations and historical timing prevent treating the amount as 2025 in-scope market receipts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports GBP xx.xx invested in security-lane upgrades during 2024, supporting material airport-directed purchasing. Broader infrastructure obligations and historical timing prevent treating the amount as 2025 in-scope market receipts.
63. Fraport Assumes Responsibility for Aviation Security Checks at Frankfurt Airport
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents Fraport's checkpoint-management responsibility from January 2023, six initial CT-equipped lanes and three contracted screening providers. Supports distinguishing an airport commissioning role from regulator oversight and contracted screening labor.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents Fraport's checkpoint-management responsibility from January 2023, six initial CT-equipped lanes and three contracted screening providers. Supports distinguishing an airport commissioning role from regulator oversight and contracted screening labor.
64. Advanced Cabin Baggage Screening - Computed Tomography Implementation Guide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes standalone CT, including equipment-local conveyance, from integrated screening-lane configurations; supports attribution boundaries, not a revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes standalone CT, including equipment-local conveyance, from integrated screening-lane configurations; supports attribution boundaries, not a revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies automated tray-return and automated screening-lane integration as commercially distinct configurations; supports the lane-integrated category definition.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies automated tray-return and automated screening-lane integration as commercially distinct configurations; supports the lane-integrated category definition.

65. GAO-12-266 - Checked Baggage Screening: TSA Has Deployed Optimal Systems at the Majority of TSA-Regulated Airports, but Could Strengthen Cost Estimates

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December 2011 table reports xx.xx standalone EDS alongside xx.xx in-line EDS; this historical machine-count comparator constrains, but does not determine, the current global allocation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December 2011 table reports xx.xx standalone EDS alongside xx.xx in-line EDS; this historical machine-count comparator constrains, but does not determine, the current global allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx in-line EDS across xx.xx in-line systems and distinguishes equipment counts from integrated-system counts; supports the historical configuration bridge.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx in-line EDS across xx.xx in-line systems and distinguishes equipment counts from integrated-system counts; supports the historical configuration bridge.

66. Smiths Detection selected as security technology provider to International Airport Heraklion Crete

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 announcement identifies eight cabin CT scanners and eight automated tray-return systems for Heraklion, with installation planned across late 2025 and mid-2026; supports ongoing integrated procurement, not realized annual revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 announcement identifies eight cabin CT scanners and eight automated tray-return systems for Heraklion, with installation planned across late 2025 and mid-2026; supports ongoing integrated procurement, not realized annual revenue.

67. Centralised Image Processing: The Impact on Security Checkpoints

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes checkpoint-local image review from separate-room arrangements; supports retaining networked local activity rather than automatically assigning it to remote review. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes checkpoint-local image review from separate-room arrangements; supports retaining networked local activity rather than automatically assigning it to remote review. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes separate screening rooms and established remote hold-baggage review at larger airports; supports the cohort-maturity premise, not a numerical global share. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes separate screening rooms and established remote hold-baggage review at larger airports; supports the cohort-maturity premise, not a numerical global share. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes combined checkpoint and remote-room arrangements, establishing a mixed-location commercial configuration without measuring its prevalence or price. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes combined checkpoint and remote-room arrangements, establishing a mixed-location commercial configuration without measuring its prevalence or price. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))

68. Annual Report 2024 - CATSA's Operating Environment

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2023/xx.xx providing the historical comparison rather than a global location allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2023/xx.xx providing the historical comparison rather than a global location allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Together with the subsequent annual report, supports a seven-line deployment increase without a corresponding increase in reported passenger coverage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Together with the subsequent annual report, supports a seven-line deployment increase without a corresponding increase in reported passenger coverage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provides a historical network-enabled deployment anchor, while leaving the physical mixed-location contract share unmeasured. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provides a historical network-enabled deployment anchor, while leaving the physical mixed-location contract share unmeasured. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))

69. L22020-T-TG Upgrades to the Passenger Search Area, body scanners, EDS C3 cabin baggage screening - Contract Award Notice

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2023 Luton award expressly includes construction of a remote screening room at the airport terminal, supporting separate-room commercial procurement. Its broader scope is not treated as baggage-only annual revenue. ([find-tender.service.gov.uk](https://www.find-tender.service.gov.uk/Notice/xx.xx-2023))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2023 Luton award expressly includes construction of a remote screening room at the airport terminal, supporting separate-room commercial procurement. Its broader scope is not treated as baggage-only annual revenue. ([find-tender.service.gov.uk](https://www.find-tender.service.gov.uk/Notice/xx.xx-2023))

70. Greater Orlando Aviation Authority - Minutes of the February 19, 2025 Meeting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Authorizes up to USD xx.xx for baggage-system and Remote Screening Facility network/server separation. Half this ceiling is an explicitly assumed deployment-cost comparator, not observed off-site receipts. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Authorizes up to USD xx.xx for baggage-system and Remote Screening Facility network/server separation. Half this ceiling is an explicitly assumed deployment-cost comparator, not observed off-site receipts. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provides the commercial networking-cost anchor for the modeled transfer from existing on-site pools, avoiding additional market value or duplicate host-equipment attribution. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provides the commercial networking-cost anchor for the modeled transfer from existing on-site pools, avoiding additional market value or duplicate host-equipment attribution. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))

71. American and U.S. Customs and Border Protection pilot innovative baggage screening initiative

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: American's April xx.xx 2025 announcement identifies a daily Sydney-Los Angeles IRBS pilot and unchanged screening requirements. It anchors one sampled connection and an assumed partial-year licensing period, not disclosed revenue. ([s202.q4cdn.com](https://s202.q4cdn.com/xx.xx/files/doc_news/American-and-US-Customs-and-Border-Protection-pilot-innovative-baggage-screening-initiative-OPS-OTH-xx.xx-2025.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: American's April xx.xx 2025 announcement identifies a daily Sydney-Los Angeles IRBS pilot and unchanged screening requirements. It anchors one sampled connection and an assumed partial-year licensing period, not disclosed revenue. ([s202.q4cdn.com](https://s202.q4cdn.com/xx.xx/files/doc_news/American-and-US-Customs-and-Border-Protection-pilot-innovative-baggage-screening-initiative-OPS-OTH-xx.xx-2025.pdf))

72. 델타항공-대한항공, 인천발 애틀랜타 노선 대상 위탁수하물 원격 검색 방식 신규 도입

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2025 announcement identifies the Incheon-Atlanta IRBS arrangement, anchoring a second sampled connection and a partial-year commercial-activity assumption without establishing contract value. ([news.delta.com](https://news.delta.com/delta-and-koreanair-launch-remote-baggage-screening-on-icn-atl-KR))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2025 announcement identifies the Incheon-Atlanta IRBS arrangement, anchoring a second sampled connection and a partial-year commercial-activity assumption without establishing contract value. ([news.delta.com](https://news.delta.com/delta-and-koreanair-launch-remote-baggage-screening-on-icn-atl-KR))

73. United Launches CBP's International Remote Baggage Screening on Select International Flights

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: United's September xx.xx 2025 announcement identifies daily Sydney-San Francisco service and named technology partners, anchoring a third sampled connection. It reports no attributable software or integration receipts. ([united.mediaroom.com](https://united.mediaroom.com/2025-xx.xx-xx.xx-United-Launches-CBPs-International-Remote-Baggage-Screening-on-Select-International-Flights))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: United's September xx.xx 2025 announcement identifies daily Sydney-San Francisco service and named technology partners, anchoring a third sampled connection. It reports no attributable software or integration receipts. ([united.mediaroom.com](https://united.mediaroom.com/2025-xx.xx-xx.xx-United-Launches-CBPs-International-Remote-Baggage-Screening-on-Select-International-Flights))

74. Airline Passengers Face Fewer Bag Checkpoints, Thanks to PNNL, Partners

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2026 laboratory release describes implementation on additional routes, including Seoul arrivals at Minneapolis-St. Paul and Detroit. This supports expansion direction, not the forecast connection count, realization or global share. ([pnnl.gov](https://www.pnnl.gov/news-media/airline-passengers-face-fewer-bag-checkpoints-thanks-pnnl-partners))

75. TSA awards $781.2 million to procure additional CT X-Ray scanners for airport checkpoints

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2022 announcement identifies up to USD xx.xx for procurement and maintenance of up to xx.xx systems from an OEM. This is a historical procurement-scale anchor, not annual 2025 direct-channel revenue. ([content.govdelivery.com](https://content.govdelivery.com/accounts/USDHSTSA/bulletins/30f6e5f))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The award includes full-size automated lanes, cautioning against assigning all automation value to non-OEM integration primes; exact contractual-role attribution is not disclosed. ([content.govdelivery.com](https://content.govdelivery.com/accounts/USDHSTSA/bulletins/30f6e5f))

76. OSI Systems, Inc. - Form 10-K for the fiscal year ended June 30, 2026

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing describes regional direct security-product sales and direct maintenance relationships. Its broader security scope supports route coexistence, not baggage-only sales weights. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing describes regional direct security-product sales and direct maintenance relationships. Its broader security scope supports route coexistence, not baggage-only sales weights. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company identifies a global independent-distributor network, supporting a continuing indirect route without quantifying its value share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company identifies a global independent-distributor network, supporting a continuing indirect route without quantifying its value share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Authorized service providers are identified separately from distributors, supporting distinct technical-service attribution and access limitations. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Authorized service providers are identified separately from distributors, supporting distinct technical-service attribution and access limitations. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

77. SriLankan Airlines - Invitation for Supply, Installation, Commissioning and Maintenance of Dual View Heavy and Medium X-Ray Machines, Reference 202130407

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 purchaser invitation permits an OEM or authorized OEM agent and requires authorization for the latter. It establishes equipment-channel eligibility, not an award or software-resale right. ([srilankan.com](https://www.srilankan.com/download/tender/TN-Invitationforsubmiss-xx.xx.pdf))

78. JFK Millennium Partners Selects K2 to Deliver State-of-the-Art Security Screening Checkpoint at new JFK Terminal 6

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment assigns procurement and deployment coordination across multiple technology suppliers at a future ten-gate terminal. It supports integration-prime participation and a forecast mechanism, not a disclosed share or completed 2025 revenue. ([portauthoritybuilds.com](https://www.portauthoritybuilds.com/redevelopment/us/en/jfk/planned-projects/terminal-xx.xx/news/jfk-millennium-partners-selects-k2-to-deliver-state-of-the-art-s.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment assigns procurement and deployment coordination across multiple technology suppliers at a future ten-gate terminal. It supports integration-prime participation and a forecast mechanism, not a disclosed share or completed 2025 revenue. ([portauthoritybuilds.com](https://www.portauthoritybuilds.com/redevelopment/us/en/jfk/planned-projects/terminal-xx.xx/news/jfk-millennium-partners-selects-k2-to-deliver-state-of-the-art-s.html))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment covers baggage CT and automated bin-return equipment for a future xx.xx-gate terminal, with phased opening planned for 2026-2028. It establishes new-installation activity, not attributable 2025 receipts; wider airport investment and person-only technologies are excluded.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment covers baggage CT and automated bin-return equipment for a future xx.xx-gate terminal, with phased opening planned for 2026-2028. It establishes new-installation activity, not attributable 2025 receipts; wider airport investment and person-only technologies are excluded.

79. CATSA Corporate Plan 2024-25 to 2028-29 Summary - Key Corporate Risks

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The authority reports transferring maintenance of most screening equipment to KPrime in 2023/xx.xx. This establishes a separately contracted maintenance relationship, without a baggage-only payment split. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/key-corporate-risks))

80. Leidos wins TSA logistics contract

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 announcement describes an eight-year, USD xx.xx maximum sustainment contract covering xx.xx equipment units at over xx.xx locations with manufacturer coordination. Annualization and baggage/third-party attribution in the model are explicit assumptions. ([leidos.com](https://www.leidos.com/insights/leidos-wins-tsa-logistics-contract))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 announcement describes an eight-year, USD xx.xx maximum sustainment contract covering xx.xx equipment units at over xx.xx locations with manufacturer coordination. Annualization and baggage/third-party attribution in the model are explicit assumptions. ([leidos.com](https://www.leidos.com/insights/leidos-wins-tsa-logistics-contract))

81. Checkpoint Transformation: Malta International Airport Streamlines Passenger Flow with Smiths Detection
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Seven conventional automated lanes were replaced by six CT-equipped lanes, with final commissioning in January 2025. This is a counterexample to equating capacity improvement with net additional equipment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seven conventional automated lanes were replaced by six CT-equipped lanes, with final commissioning in January 2025. This is a counterexample to equating capacity improvement with net additional equipment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The complete checkpoint replacement illustrates why an offering described commercially as an upgrade can belong to System Replacement. The seven-year service commitment is not counted wholly as installation-year revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The complete checkpoint replacement illustrates why an offering described commercially as an upgrade can belong to System Replacement. The seven-year service commitment is not counted wholly as installation-year revenue.
82. iCMORE - Smiths Detection
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current commercial offering describes a software-upgrade path while qualifying additional hardware requirements by machine type and age. This constrains forecast eligibility assumptions; product availability does not measure adoption or revenue.

18.4. Spain

Table 468. Spain Airport Baggage Screening Systems Market Size, 2017-2040 (USD Million)

Country	2017	2024	2025	2026	2027	2032	2040	CAGR (%)

Sources & Evidence

1. House Report 119-173 - Department of Homeland Security Appropriations Bill, 2026

   · Evidence informing the 2030 market-value input; displayed series and growth include calculations: The aging installed fleet supports replacement demand, but does not establish the forecast's realization dates or annual purchasing rate. ([govinfo.gov](https://www.govinfo.gov/content/pkg/CRPT-119hrpt173/html/CRPT-119hrpt173.htm))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report identifies xx.xx end-of-life systems within a xx.xx-system checked-baggage fleet. This constrains renewal exposure, not realized annual purchasing or a verified global replacement deadline.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports a TSA checked-baggage fleet of xx.xx EDS, including xx.xx at end-of-life, and assigns purchase, installation and maintenance responsibilities to TSA. Supports agency fleet calibration and renewal pressure, not the assumed forecast uplift.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports a TSA checked-baggage fleet of xx.xx EDS, including xx.xx at end-of-life, and assigns purchase, installation and maintenance responsibilities to TSA. Supports agency fleet calibration and renewal pressure, not the assumed forecast uplift.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report identifies xx.xx end-of-life EDS within a xx.xx-unit U.S. checked-baggage fleet, citing the FY2024 capital plan. The derived xx.xx% backlog constrains the aging-fleet premise, but is neither an annual turnover rate nor a funded global replacement forecast.

2. GAO-24-106573 - DHS Annual Assessment: Most Programs Are Meeting Current Goals, but Some Continue to Face Cost and Schedule Challenges

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports plans for xx.xx checkpoint systems and xx.xx increment-one deployments by September 2023; supports an incomplete replacement cycle rather than universal CT adoption. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx AT/CT, xx.xx base, xx.xx mid-size and xx.xx full-size deployments by September 2023; supplies configuration proxies and an incomplete-renewal constraint, not contractual architecture shares. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx AT/CT, xx.xx base, xx.xx mid-size and xx.xx full-size deployments by September 2023; supplies configuration proxies and an incomplete-renewal constraint, not contractual architecture shares. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The deployed configuration mix underlies the xx.xx/xx.xx newer-cohort and xx.xx/xx.xx older-cohort proxy calculations; global and contractual attribution remain modeled. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The deployed configuration mix underlies the xx.xx/xx.xx newer-cohort and xx.xx/xx.xx older-cohort proxy calculations; global and contractual attribution remain modeled. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The assessment records xx.xx checkpoint systems deployed by September 2023 against an eventual xx.xx-system program. This supports an incomplete replacement cycle and qualifies any assumption of universal CT adoption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The assessment records xx.xx checkpoint systems deployed by September 2023 against an eventual xx.xx-system program. This supports an incomplete replacement cycle and qualifies any assumption of universal CT adoption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports a September 2023 U.S. CT cohort containing xx.xx AT/CT and xx.xx base systems, providing counterevidence to assigning all CT activity automatically to integrated lanes.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports a September 2023 U.S. CT cohort containing xx.xx AT/CT and xx.xx base systems, providing counterevidence to assigning all CT activity automatically to integrated lanes.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx mid-size and xx.xx full-size systems within xx.xx deployed CT systems; supports differentiated configuration assumptions rather than treating technology adoption as an integration-share observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx mid-size and xx.xx full-size systems within xx.xx deployed CT systems; supports differentiated configuration assumptions rather than treating technology adoption as an integration-share observation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2024 assessment records xx.xx checkpoint deployments as of September 2023 against xx.xx planned systems replacing aging equipment. It supports staged renewal, but does not establish current deployment completion or the modeled 2032 share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2024 assessment records xx.xx checkpoint deployments as of September 2023 against xx.xx planned systems replacing aging equipment. It supports staged renewal, but does not establish current deployment completion or the modeled 2032 share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The program separately anticipates enhancements to fielded systems, supporting a retained-equipment commercial pathway without supplying an attributable upgrade-revenue split.

3. Global Airport Passenger Traffic Reaches Record 9.8 Billion in 2025, Airports Council International World reports

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports cooling passenger-growth momentum in 2026, supporting moderation of traffic-driven equipment expansion despite continuing replacement demand. ([aci.aero](https://aci.aero/2026/xx.xx/xx.xx/global-airport-passenger-traffic-reaches-record-xx.xx-xx.xx-billion-in-2025-airports-council-international-world-reports/))

4. Smiths Group PLC - Full Year Results for the 12 Months Ended 31 July 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Discloses aviation original-equipment revenue of xx.xx and aftermarket revenue of xx.xx for FY2024; supplies historical cycle proxies. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing the 2027 market-value input; displayed series and growth include calculations: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; supports replacement activity, not an observed global forecast. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2025 aviation original-equipment revenue of GBP xx.xx provides an independent equipment-activity scale check, not a global category share. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025 aviation original-equipment revenue of GBP xx.xx provides an independent equipment-activity scale check, not a global category share. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx cumulative CTiX sales corroborate commercial imaging activity and replacement demand; they do not measure annual global sales. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx cumulative CTiX sales corroborate commercial imaging activity and replacement demand; they do not measure annual global sales. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: GBP xx.xx aviation aftermarket revenue supports lifecycle materiality while qualifying transfer of one supplier's mix to the global service allocation. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GBP xx.xx aviation aftermarket revenue supports lifecycle materiality while qualifying transfer of one supplier's mix to the global service allocation. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; cumulative sales constrain commercial scale but are not annual global shipments. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; cumulative sales constrain commercial scale but are not annual global shipments. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports four operating XDi units as of July 2025 and pending regulatory certification, constraining the small XRD cohort and qualifying aggressive commercialization assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports four operating XDi units as of July 2025 and pending regulatory certification, constraining the small XRD cohort and qualifying aggressive commercialization assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported checkpoint modernization provides a commercial reason to model substitution from discrete legacy offerings; the filing does not disclose standalone configuration revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025

5. Smiths Group PLC - Annual Report & Accounts FY2023
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: Reports FY2022 aviation original-equipment revenue of xx.xx, used as a dimensionless historical capital-cycle proxy. ([www-live.smiths.com](https://www-live.smiths.com/media/phjp1j44/smiths-annual-report-2023.pdf))
   - Evidence informing the 2023 market-value input; displayed series and growth include calculations: Reports FY2023 aviation original-equipment revenue of xx.xx and aftermarket revenue of xx.xx; supports the modeled recovery direction. ([www-live.smiths.com](https://www-live.smiths.com/media/phjp1j44/smiths-annual-report-2023.pdf))
6. Smiths Group PLC - Annual Report FY2022
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: Reports FY2021 aviation revenue of xx.xx, providing a historical purchasing-cycle reference rather than a global observation. ([www-live.smiths.com](https://www-live.smiths.com/media/xjvdpblr/smiths-annual-report-2022-report.pdf))
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: Reports FY2022 aviation revenue of xx.xx and continued weakness in aviation original equipment; supports a delayed capital-spending trough. ([www-live.smiths.com](https://www-live.smiths.com/media/xjvdpblr/smiths-annual-report-2022-report.pdf))
7. Smiths Group PLC - Annual Results for the Year Ended 31 July 2019
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: Reports FY2018 aviation revenue of xx.xx, supplying the historical comparison underlying the backcast. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: Reports FY2019 aviation revenue of xx.xx and customer delivery deferrals, qualifying a traffic-only growth model. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Identifies deliveries deferred into FY2020; supports the possibility of backlog-supported spending despite a contemporaneous traffic shock, not the exact modeled growth rate. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
8. ACI World - The High-Wire Balancing Act: Global Air Transport Demand in 2018 and 2019
   - Evidence informing the 2017 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers and xx.xx% growth in 2018; the growth observation informs the 2017 backcast bridge. ([blog.aci.aero](https://blog.aci.aero/airport-economics/the-high-wire-balancing-act-global-air-transport-demand-in-2018-and-2019/))
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: Provides the observed 2018 traffic-growth reference, not an equipment-market growth observation. ([blog.aci.aero](https://blog.aci.aero/airport-economics/the-high-wire-balancing-act-global-air-transport-demand-in-2018-and-2019/))
9. ICAO A42-WP/556 - State of the Industry and Outlook for Airport Traffic, Presented by ACI
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Records the collapse from xx.xx airport passengers in 2019 to xx.xx in 2020; constrains the shock and funding-risk interpretation. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2021, supporting a prolonged funding and activity shock. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2023 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2023; traffic recovery is distinguished from equipment purchasing. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2024, providing a demand recovery cross-check. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))

10. Port of Seattle - Baggage Handling System Optimization
    - Evidence informing the 2029 market-value input; displayed series and growth include calculations: Seattle plans to consolidate six baggage-screening systems, increase supported passenger capacity, and reduce screening-machine demand. Supports integration spending without one-for-one detector growth. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing the 2032 market-value input; displayed series and growth include calculations: The consolidation example constrains equipment-volume assumptions; its whole baggage-handling project value is excluded from market sizing. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing the 2040 market-value input; displayed series and growth include calculations: Provides a commercial counterexample to extrapolating passenger growth directly into machine counts throughout the long-range forecast. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Consolidation of six systems with reduced machine demand qualifies a traffic-to-detector-volume forecast. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The consolidation project supports integration-driven conveyor demand, but its whole-project value is excluded. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Brownfield consolidation supports the integration-demand premise, not the forecast's exact service growth factor. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport replaces six separate screening systems with centralized screening and expects reduced screening-machine demand while expanding capacity. This supplies a counterforce to volume-only checked-baggage forecasting.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Seattle is consolidating six screening systems, expects reduced screening-machine demand and schedules final-phase completion in 2029. Supports integration demand while constraining detector-volume growth; the whole-project budget is excluded.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seattle is consolidating six screening systems, expects reduced screening-machine demand and schedules final-phase completion in 2029. Supports integration demand while constraining detector-volume growth; the whole-project budget is excluded.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seattle's project combines increased screening capacity with consolidation from six screening systems and reduced screening-machine demand. This constrains the forecast assumption that capacity growth requires proportional equipment additions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement and capacity objectives coexist within the project. Its wider baggage-handling budget is not treated as screening-equipment revenue or assigned additively to multiple purposes.
11. Smiths Group PLC - Half Year Results for the Six Months Ended 31 January 2026
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports xx.xx% organic growth for Smiths Detection in HY2026, with aviation checkpoint upgrades contributing. Supports a positive 2026 nowcast, not a directly observed global growth rate. ([www-live.smiths.com](https://www-live.smiths.com/media/villk35h/smiths-hy26-results-press-release.pdf))
12. Eurostat - Air passenger transport statistics, December 2025, Table 1: 2024 country traffic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Traffic primitive.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Traffic primitive.

13. ACI EUROPE - 2025 all about traffic resilience as Europe's airports welcomed an additional 100 million passengers

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual growth input to the 2025 bridge.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual growth input to the 2025 bridge.

14. CATSA 2025 Annual Report - Notes to the Financial Statements

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx accounts disclose C$xx.xx maintenance/spares and C$xx.xx training/certification, supporting the service-budget calibration but not global baggage-only shares. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx accounts disclose C$xx.xx maintenance/spares and C$xx.xx training/certification, supporting the service-budget calibration but not global baggage-only shares. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintenance and spare parts are combined in the accounts; the labor-versus-goods split therefore remains modeled. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintenance and spare parts are combined in the accounts; the labor-versus-goods split therefore remains modeled. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The C$xx.xx training/certification expense supplies the numerator of the adjusted training-to-capital proxy. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The C$xx.xx training/certification expense supplies the numerator of the adjusted training-to-capital proxy. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: C$xx.xx trace/consumables is distinct from maintenance/spares and supplies the contrary consumables-intensity comparator, not a global observation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: C$xx.xx trace/consumables is distinct from maintenance/spares and supplies the contrary consumables-intensity comparator, not a global observation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately reports C$xx.xx maintenance/spares, C$xx.xx trace/consumables and C$xx.xx training/certification, constraining attributable agency lifecycle expenditure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates screening-contractor payments from equipment support, preventing staffing expenditure from becoming equipment-market purchasing.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately reports C$xx.xx maintenance/spares, C$xx.xx trace/consumables and C$xx.xx training/certification, constraining attributable agency lifecycle expenditure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates screening-contractor payments from equipment support, preventing staffing expenditure from becoming equipment-market purchasing.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited expense disclosure reports C$xx.xx for maintenance and spare parts in the year ended March xx.xx 2025. It constrains support-spending materiality, not the amount attributable to an independent provider. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))

15. CATSA 2025 Annual Report - Management's Discussion and Analysis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: EDS capital expenditure of C$xx.xx includes equipment and installation/integration and supplies the training-calibration denominator, subject to baggage attribution. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EDS capital expenditure of C$xx.xx includes equipment and installation/integration and supplies the training-calibration denominator, subject to baggage attribution. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The capital definition includes associated installation and integration, supporting the distinction between deployment services and equipment value. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The capital definition includes associated installation and integration, supporting the distinction between deployment services and equipment value. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Actual spending, original budget and reprofile amounts constrain the forecast's purchasing-execution interpretation; they are not a global growth rate. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx pre-board capital appropriations used were C$xx.xx. This supplies the Canadian purchasing comparison and a component of the non-passenger-to-cabin activity proxy, not a global share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx pre-board capital appropriations used were C$xx.xx. This supplies the Canadian purchasing comparison and a component of the non-passenger-to-cabin activity proxy, not a global share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx hold-baggage capital appropriations used were C$xx.xx; this constrains the independent application-capital comparison.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx non-passenger capital appropriations used were C$xx.xx, below the original C$xx.xx budget. Actual purchasing informs the proxy and qualifies automatic announcement-to-revenue conversion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx non-passenger capital appropriations used were C$xx.xx, below the original C$xx.xx budget. Actual purchasing informs the proxy and qualifies automatic announcement-to-revenue conversion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports C$xx.xx EDS capital expenditure for FY2024/xx.xx and identifies both baggage equipment and full-body scanners in the capital scope, requiring a baggage-attribution adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports C$xx.xx EDS capital expenditure for FY2024/xx.xx and identifies both baggage equipment and full-body scanners in the capital scope, requiring a baggage-attribution adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EDS outturn was C$xx.xx versus an original C$xx.xx plan and revised C$xx.xx budget. Reprofiling constrains assumed award conversion and deployment timing; it does not measure procurement-channel mix. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The actual capital-project list identifies hold-baggage capacity expansion at Montréal-Trudeau, supporting the expansion classification, not its modeled global revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The actual capital-project list identifies hold-baggage capacity expansion at Montréal-Trudeau, supporting the expansion classification, not its modeled global revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The actual project list includes checkpoint CT deployment and hold-baggage oversize-equipment lifecycle management, supporting renewal activity without disclosing its purpose-specific spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The actual project list includes checkpoint CT deployment and hold-baggage oversize-equipment lifecycle management,

16. Aviation security screening approved equipment list
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Baggage EDS/EDSCB and conventional X-ray classes support the inspection-system boundary, not sales weights. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Baggage EDS/EDSCB and conventional X-ray classes support the inspection-system boundary, not sales weights. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Liquid detectors are a distinct cabin-baggage category; the complete bulk-material extension remains modeled within the captured boundary. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Liquid detectors are a distinct cabin-baggage category; the complete bulk-material extension remains modeled within the captured boundary. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ETD serves baggage and other applications, requiring explicit baggage attribution rather than allocating all detector sales here. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ETD serves baggage and other applications, requiring explicit baggage attribution rather than allocating all detector sales here. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dedicated ETD consumables are separately recognized, supporting goods classification without establishing spending or unrestricted interchangeability. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dedicated ETD consumables are separately recognized, supporting goods classification without establishing spending or unrestricted interchangeability. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
17. Quantifying the Impacts of Delayed Maintenance of Airport Assets: A Guide - Chapter 6, Baggage Handling Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The baggage-handling cost study uses a modeled xx.xx% labor share, adopted only as an adjacent support-cost proxy. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The baggage-handling cost study uses a modeled xx.xx% labor share, adopted only as an adjacent support-cost proxy. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Its corresponding modeled xx.xx% parts share calibrates the labor/goods separation; it is not an observed screening-equipment ratio. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Its corresponding modeled xx.xx% parts share calibrates the labor/goods separation; it is not an observed screening-equipment ratio. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))

18. Procurement of Next Generation Security Checkpoint Equipment - Contract Award Notice

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The seven-system award includes automated tray return, demonstrating bundled purchasing but no separately priced hardware allocation. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The seven-system award includes automated tray return, demonstrating bundled purchasing but no separately priced hardware allocation. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The integrated CT/tray-return scope constrains the automation interface boundary; it does not value general airport conveyors. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The integrated CT/tray-return scope constrains the automation interface boundary; it does not value general airport conveyors. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Central image processing is an explicit purchased function, without a separately disclosed license price. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Central image processing is an explicit purchased function, without a separately disclosed license price. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supply, installation and commissioning are included deliverables, supporting deployment-service attribution without establishing its percentage. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supply, installation and commissioning are included deliverables, supporting deployment-service attribution without establishing its percentage. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2022 award covers seven systems combining cabin CT, tray return, image processing and deployment responsibilities. It supports integrated purchased scope, not completed delivery or a global sales weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2022 award covers seven systems combining cabin CT, tray return, image processing and deployment responsibilities. It supports integrated purchased scope, not completed delivery or a global sales weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The integrated Newcastle procurement reports a GBP xx.xx-xx.xx offer range but no physical review-room location; its value cannot be assigned automatically to local review. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The integrated Newcastle procurement reports a GBP xx.xx-xx.xx offer range but no physical review-room location; its value cannot be assigned automatically to local review. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Central image processing is included, but a separate on-site room is not specified; constrains classification rather than supplying a remote-review sales weight. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Central image processing is included, but a separate on-site room is not specified; constrains classification rather than supplying a remote-review sales weight. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The bundled award does not identify a mixed-location package or its attributable price, preventing automatic hybrid classification. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The bundled award does not identify a mixed-location package or its attributable price, preventing automatic hybrid classification.

19. AI for Monitoring Aviation Security: Fraport and German Federal Police Start Regular Operation of APIDS
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: January xx.xx 2026 APIDS deployment demonstrates additional software adoption, without establishing separate revenue. ([fraport.com](https://www.fraport.com/en/newsroom/press-releases/2026/q1/ai-for-monitoring-aviation-security.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Deployment on more than xx.xx CT scanners is the independent quantitative rollout test; it does not validate the modeled license-growth factor. ([fraport.com](https://www.fraport.com/en/newsroom/press-releases/2026/q1/ai-for-monitoring-aviation-security.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: On January xx.xx 2026, Fraport announced regular APIDS software operation on more than xx.xx existing Smiths CT scanners. This independently supports retained-system enhancement at one buyer, not global penetration or realized license revenue.
20. Smiths Detection - Digital Innovation
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier identifies detection applications as a commercial function; separate fee allocation remains assumed. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier identifies detection applications as a commercial function; separate fee allocation remains assumed. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized screening supports the image-review function, not an observed software revenue weight. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized screening supports the image-review function, not an observed software revenue weight. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Connectivity, multi-vendor integration and equipment-health applications establish the fleet-management function without proving customer-specific rights or prices. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Connectivity, multi-vendor integration and equipment-health applications establish the fleet-management function without proving customer-specific rights or prices. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ELECTORA is offered for integrating multi-vendor devices, datasets and applications; establishes the vendor-platform category but discloses no category revenue or customer-specific substitution entitlement. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ELECTORA is offered for integrating multi-vendor devices, datasets and applications; establishes the vendor-platform category but discloses no category revenue or customer-specific substitution entitlement. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
21. UK Civil Aviation Authority - Threat Image Projection (TIP)
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: TIP library approval and renewal obligations support continuing software commitments, not the modeled global fee or share. ([caa.co.uk](https://www.caa.co.uk/commercial-industry/security/training-and-human-factors/threat-image-projection/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: TIP library approval and renewal obligations support continuing software commitments, not the modeled global fee or share. ([caa.co.uk](https://www.caa.co.uk/commercial-industry/security/training-and-human-factors/threat-image-projection/))

22. Smiths Detection - Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Inclusive capital-equipment support covers labor and parts, requiring a single-count economic allocation across services and goods. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Inclusive capital-equipment support covers labor and parts, requiring a single-count economic allocation across services and goods. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Equipment-specific training and certification are commercial offerings distinct from routine screening staffing. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Equipment-specific training and certification are commercial offerings distinct from routine screening staffing. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The parts-support offering and inclusive contracts corroborate the goods boundary, but not the assumed xx.xx% allocation. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The parts-support offering and inclusive contracts corroborate the goods boundary, but not the assumed xx.xx% allocation. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes inclusive labor-and-parts contracts and manufacturer support, supporting nonduplicative lifecycle attribution to projection equipment, not a verified xx.xx% fee. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes inclusive labor-and-parts contracts and manufacturer support, supporting nonduplicative lifecycle attribution to projection equipment, not a verified xx.xx% fee. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports the existence of manufacturer lifecycle offerings; broad service-footprint counts are not used as CT revenue weights.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports the existence of manufacturer lifecycle offerings; broad service-footprint counts are not used as CT revenue weights.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports commercial maintenance, refurbishment and parts offerings for portable equipment without establishing baggage-specific service receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports commercial maintenance, refurbishment and parts offerings for portable equipment without establishing baggage-specific service receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer markets direct on-site support and inclusive capital-equipment labor-and-parts contracts. This supports a continuing manufacturer-service alternative, without measuring a pricing premium. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer markets direct on-site support and inclusive capital-equipment labor-and-parts contracts. This supports a continuing manufacturer-service alternative, without measuring a pricing premium. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Manufacturer-provided bundled support is a commercial alternative to separate technical-service procurement, limiting assumptions of unrestricted third-party substitution. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Manufacturer-provided bundled support is a commercial alternative to separate technical-service procurement, limiting assumptions of unrestricted third-party substitution. ([smithsdetection.com](https://www.smithsdetection.com/service/))

23. Hold baggage screening upgrade, Dublin and Cork Airports, Ireland

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate professional-service appointments cover project controls, design oversight and interface management; the broader construction budget is not used as screening-service revenue. ([neccontract.com](https://www.neccontract.com/projects/hold-baggage-screening-upgrade-dublin-and-cork-airports-ireland))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate professional-service appointments cover project controls, design oversight and interface management; the broader construction budget is not used as screening-service revenue. ([neccontract.com](https://www.neccontract.com/projects/hold-baggage-screening-upgrade-dublin-and-cork-airports-ireland))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes three upgraded hold-baggage systems delivered through separate construction, baggage-integration and advisory appointments, completed in March 2023. Supports integrated-system attribution without assuming a universal single-prime model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes three upgraded hold-baggage systems delivered through separate construction, baggage-integration and advisory appointments, completed in March 2023. Supports integrated-system attribution without assuming a universal single-prime model.

24. Corporate Plan 2025-26 to 2029-30 Summary - Financial Overview
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CATSA distinguishes major-checkpoint CT replacement from single-view-to-multiview replacement elsewhere, supporting application-specific projection demand and forecast assumptions. It also discloses capital funding subject to reprofile approval. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/corporate-plan-2025-xx.xx-2029-xx.xx/financial-overview))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CATSA distinguishes major-checkpoint CT replacement from single-view-to-multiview replacement elsewhere, supporting application-specific projection demand and forecast assumptions. It also discloses capital funding subject to reprofile approval. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/corporate-plan-2025-xx.xx-2029-xx.xx/financial-overview))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies single-view equipment as a replacement population, supporting the modeled displacement mechanism rather than an observed global share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies single-view equipment as a replacement population, supporting the modeled displacement mechanism rather than an observed global share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Multiview remains a planned purchasing destination at non-passenger checkpoints and Class xx.xx airports, qualifying universal CT substitution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Multiview remains a planned purchasing destination at non-passenger checkpoints and Class xx.xx airports, qualifying universal CT substitution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CT replacement is a stated major-checkpoint investment priority, subject to funding and delivery risks; this supports direction, not the modeled global share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CT replacement is a stated major-checkpoint investment priority, subject to funding and delivery risks; this supports direction, not the modeled global share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The plan includes additional screening equipment and expansion of existing hold-baggage screening capacity. Its FY2025/xx.xx capital budget is C$xx.xx across mixed activities; plans are not recognized supplier revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The plan includes additional screening equipment and expansion of existing hold-baggage screening capacity. Its FY2025/xx.xx capital budget is C$xx.xx across mixed activities; plans are not recognized supplier revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The plan distinguishes replacement of checkpoint X-ray equipment with CT and asset lifecycle renewal from additional capacity. Funding, partner timing and reprofiling qualify forecast realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The plan distinguishes replacement of checkpoint X-ray equipment with CT and asset lifecycle renewal from additional capacity. Funding, partner timing and reprofiling qualify forecast realization.
25. ECAC CEP Public Equipment List - Explosive Detection Systems, Update 18 April 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 list retains XRD xx.xx supporting the legacy commercial-category premise but not the assumed installed cohort or sales volume. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-EDS-equipment_public_list_update_20250418.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 list retains XRD xx.xx supporting the legacy commercial-category premise but not the assumed installed cohort or sales volume. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-EDS-equipment_public_list_update_20250418.pdf))

26. Partners - HALO X-ray Technologies Ltd

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named airport pilots and approximately USD xx.xx and USD xx.xx development programs establish commercialization activity and program scale, not realized annual XRD equipment revenue. ([haloxray.com](https://www.haloxray.com/partners))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named airport pilots and approximately USD xx.xx and USD xx.xx development programs establish commercialization activity and program scale, not realized annual XRD equipment revenue. ([haloxray.com](https://www.haloxray.com/partners))

27. Explosives Trace Detectors (ETDs): Market Survey Report, November 2021

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Historical IONSCAN xx.xx list-price configurations around USD xx.xx-xx.xx constrain the IMS price class; they do not establish 2025 purchasing volumes or realizations. ([dhs.gov](https://dhs.gov/sites/default/files/2021-xx.xx/SAVER_Explosives%20Trace%20Detectors%20MSR_08Nov2021_Final-xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Historical IONSCAN xx.xx list-price configurations around USD xx.xx-xx.xx constrain the IMS price class; they do not establish 2025 purchasing volumes or realizations. ([dhs.gov](https://dhs.gov/sites/default/files/2021-xx.xx/SAVER_Explosives%20Trace%20Detectors%20MSR_08Nov2021_Final-xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The Fido X4 historical USD xx.xx list-price benchmark supports the explicit nominal-price bridge; baggage attribution and unit mix remain modeled.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The Fido X4 historical USD xx.xx list-price benchmark supports the explicit nominal-price bridge; baggage attribution and unit mix remain modeled.

28. Astrotech Corporation - Form 10-K for the Fiscal Year Ended June 30, 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Discloses FY2025 product and service revenue, xx.xx deployment locations, and a six-unit USD xx.xx order. These provide a price comparator and supplier-scale check, not baggage-only revenue. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20250630_10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Discloses FY2025 product and service revenue, xx.xx deployment locations, and a six-unit USD xx.xx order. These provide a price comparator and supplier-scale check, not baggage-only revenue. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20250630_10k.htm))

29. Astrotech Corporation - Form 10-K for the Fiscal Year Ended June 30, 2026

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports eight TRACER units sold in FY2025 versus three in FY2026, identifies grant-related revenue within FY2025 product revenue, and describes a potential subsidiary sale. These constrain MS attribution and forecast optimism. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20260630_10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports eight TRACER units sold in FY2025 versus three in FY2026, identifies grant-related revenue within FY2025 product revenue, and describes a potential subsidiary sale. These constrain MS attribution and forecast optimism. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20260630_10k.htm))

30. Liquid Explosive Detector, Bottle Liquid Scanner, Insight - Agilent

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Raman-based airport resolution products and dated September 2025 launch and May 2026 contract announcements. Supports category continuity and adoption premises, not global unit or revenue shares. ([agilent.com](https://www.agilent.com/en/product/molecular-spectroscopy/raman-spectroscopy/raman-aviation-security-systems/insight-series-alarm-resolution-systems))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Raman-based airport resolution products and dated September 2025 launch and May 2026 contract announcements. Supports category continuity and adoption premises, not global unit or revenue shares. ([agilent.com](https://www.agilent.com/en/product/molecular-spectroscopy/raman-spectroscopy/raman-aviation-security-systems/insight-series-alarm-resolution-systems))

31. Bottle Liquid Scanner for Sale from China - Securina

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Positions microwave-based liquid-screening products for airports and customs. Supports commercial classification only; prices, authorization and purchasing weights remain assumptions. ([securinadetection.com](https://www.securinadetection.com/Bottle-Liquid-Scanner-Manufacturer-China.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Positions microwave-based liquid-screening products for airports and customs. Supports commercial classification only; prices, authorization and purchasing weights remain assumptions. ([securinadetection.com](https://www.securinadetection.com/Bottle-Liquid-Scanner-Manufacturer-China.html))

32. Quick, Accurate Threat-Detection Scanner for Liquid, Aerosol, and Gels Eases and Secures Air Travel Worldwide

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies LS10 as a complete commercial liquid scanner combining RF and ultrasonic capabilities, supporting nonduplicative complete-product attribution. ([battelle.org](https://www.battelle.org/insights/case-studies/case-study-details/quick-accurate-threat-detection-scanner-for-liquid-aerosol-and-gels-eases-and-secures-air-travel-worldwide))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies LS10 as a complete commercial liquid scanner combining RF and ultrasonic capabilities, supporting nonduplicative complete-product attribution. ([battelle.org](https://www.battelle.org/insights/case-studies/case-study-details/quick-accurate-threat-detection-scanner-for-liquid-aerosol-and-gels-eases-and-secures-air-travel-worldwide))

33. ECAC CEP Public Equipment List - Liquid Explosive Detection Systems, Update 10 July 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 list includes One Resonance Sensors MobiLab BLS. This supports retained listed status for a named product, not active supply, paid installed stock or observed receipts. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-LEDS%20equipment%20public%20list-update%xx.xx-xx.xx-rev1.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 list includes One Resonance Sensors MobiLab BLS. This supports retained listed status for a named product, not active supply, paid installed stock or observed receipts. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-LEDS%20equipment%20public%20list-update%xx.xx-xx.xx-rev1.pdf))

34. MobiLab BLS Bottled Liquid Scanner Endorsed By European Civil Aviation Conference

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's May xx.xx 2014 announcement identifies MobiLab BLS as an NMR-based airport liquid scanner and states that orders were being accepted. Establishes historical commercial offering, not 2025 deliveries. ([prnewswire.com](https://www.prnewswire.com/news-releases/mobilab-bls-bottled-liquid-scanner-endorsed-by-european-civil-aviation-conference-xx.xx.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's May xx.xx 2014 announcement identifies MobiLab BLS as an NMR-based airport liquid scanner and states that orders were being accepted. Establishes historical commercial offering, not 2025 deliveries. ([prnewswire.com](https://www.prnewswire.com/news-releases/mobilab-bls-bottled-liquid-scanner-endorsed-by-european-civil-aviation-conference-xx.xx.html))

35. SafePointe BLS Powered by ORS - Bottled Liquid Explosives Detection Solution

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The branded supplier brochure documents an ORS-powered bottled-liquid product channel. Its availability does not establish current orders or support continuity; it supports only the legacy-channel modeling premise. ([uploads-ssl.webflow.com](https://uploads-ssl.webflow.com/608330bcae48962bf6d7ff37/6149f80be6c30d34b5e3debe_BLS-Flyer-Compressed.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The branded supplier brochure documents an ORS-powered bottled-liquid product channel. Its availability does not establish current orders or support continuity; it supports only the legacy-channel modeling premise. ([uploads-ssl.webflow.com](https://uploads-ssl.webflow.com/608330bcae48962bf6d7ff37/6149f80be6c30d34b5e3debe_BLS-Flyer-Compressed.pdf))

36. Florida Division of Corporations - One Resonance Sensors, LLC, Entity Detail

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official registry records One Resonance Sensors, LLC as inactive following administrative dissolution on September xx.xx 2019. This counterevidence constrains continuity assumptions but does not prove zero surviving product support. ([search.sunbiz.org](https://search.sunbiz.org/Inquiry/CorporationSearch/SearchResultDetail?aggregateId=flal-l11000122986-c57f60b3-690d-4c87-836a-9aeb045075e8&directionType=CurrentList&inquirytype=EntityName&listNameOrder=ONERESONANCESENSORS+L110001229860&searchNameOrder=ONERESONANCESENSORS+L110001229860&searchTerm=ONE+RED+AMPERSAND+LLC))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official registry records One Resonance Sensors, LLC as inactive following administrative dissolution on September xx.xx 2019. This counterevidence constrains continuity assumptions but does not prove zero surviving product support. ([search.sunbiz.org](https://search.sunbiz.org/Inquiry/CorporationSearch/SearchResultDetail?aggregateId=flal-l11000122986-c57f60b3-690d-4c87-836a-9aeb045075e8&directionType=CurrentList&inquirytype=EntityName&listNameOrder=ONERESONANCESENSORS+L110001229860&searchNameOrder=ONERESONANCESENSORS+L110001229860&searchTerm=ONE+RED+AMPERSAND+LLC))

37. Explosive Detection - Teledyne FLIR Defense

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists offered Fido X-series products and service support, supporting commercial offering continuity only, not airport-specific eligibility or sales weights. ([flir.com](https://www.flir.com/threat-detection/explosives/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists offered Fido X-series products and service support, supporting commercial offering continuity only, not airport-specific eligibility or sales weights. ([flir.com](https://www.flir.com/threat-detection/explosives/))

38. Scintrex Trace E3500 Explosive Trace Detection Unit - SecurityPro USA

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distributor offers E3500 chemiluminescence equipment and identifies customs/border applications. Supports a commercial category lead, not measured airport purchasing or the assumed price. ([securityprousa.com](https://www.securityprousa.com/collections/explosive-detection/products/scintrex-trace-e3500-explosive-trace-detection-unit))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distributor offers E3500 chemiluminescence equipment and identifies customs/border applications. Supports a commercial category lead, not measured airport purchasing or the assumed price. ([securityprousa.com](https://www.securityprousa.com/collections/explosive-detection/products/scintrex-trace-e3500-explosive-trace-detection-unit))

39. Portable Explosive Detector - Trace Detector EVD-3000+

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distributor offers EVD-xx.xx+ thermo-redox equipment. Supports offered-product classification, not airport authorization, purchasing volume or the modeled realization. ([securityprousa.com](https://www.securityprousa.com/products/scintrex-trace-evd-xx.xx-portable-trace-detection-unit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distributor offers EVD-xx.xx+ thermo-redox equipment. Supports offered-product classification, not airport authorization, purchasing volume or the modeled realization. ([securityprousa.com](https://www.securityprousa.com/products/scintrex-trace-evd-xx.xx-portable-trace-detection-unit))

40. CATSA's Purchase Order Terms and Conditions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contract terms constrain maintenance, parts and consumables escalation, qualifying unrestricted aftermarket pricing assumptions in the projection lifecycle model. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contract terms constrain maintenance, parts and consumables escalation, qualifying unrestricted aftermarket pricing assumptions in the projection lifecycle model. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contractual price limits constrain the pricing premise, but do not verify CT-specific global support receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contractual price limits constrain the pricing premise, but do not verify CT-specific global support receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintenance and consumable escalation limits qualify the trace-platform pricing assumption rather than establishing the modeled IMS share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintenance and consumable escalation limits qualify the trace-platform pricing assumption rather than establishing the modeled IMS share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The pre-existing-software clause grants broad license rights without transferring ownership; proprietary ownership alone therefore cannot establish the Closed revenue numerator. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The pre-existing-software clause grants broad license rights without transferring ownership; proprietary ownership alone therefore cannot establish the Closed revenue numerator. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Software modification rights are not themselves proof of standards-based interfaces or independent component substitution; supports conservative classification. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Software modification rights are not themselves proof of standards-based interfaces or independent component substitution; supports conservative classification. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))

41. Liquids Scanner for Airport Security - UC Davis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2011 account establishes a development contract and licensing relationship. Its development allocation is excluded from 2025 receipts and does not establish a surviving commercial cohort. ([ucdavis.edu](https://www.ucdavis.edu/news/liquids-scanner-airport-security))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2011 account establishes a development contract and licensing relationship. Its development allocation is excluded from 2025 receipts and does not establish a surviving commercial cohort. ([ucdavis.edu](https://www.ucdavis.edu/news/liquids-scanner-airport-security))
42. Open Architecture for Airport Security Systems, Second Edition
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes proprietary integration from interoperable connections, supporting the category boundary rather than an observed revenue share. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes proprietary integration from interoperable connections, supporting the category boundary rather than an observed revenue share. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Integration does not guarantee interoperability; this constrains attribution of vendor-mediated configurations. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Integration does not guarantee interoperability; this constrains attribution of vendor-mediated configurations. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Allows identified partial compliance and discusses accountable integration responsibilities; supports scoped open attribution, not whole-purchase reclassification. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Allows identified partial compliance and discusses accountable integration responsibilities; supports scoped open attribution, not whole-purchase reclassification. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))

43. CATSA 2025 Annual Report - Overview of Activities

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines across xx.xx airports serving more than xx.xx% of passengers in 2024/xx.xx; provides an independent integration-activity check, not a direct value allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines across xx.xx airports serving more than xx.xx% of passengers in 2024/xx.xx; provides an independent integration-activity check, not a direct value allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported modernized passenger coverage constrains an assumption of universally standalone activity, while leaving commercial architecture and revenue attribution unresolved. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported modernized passenger coverage constrains an assumption of universally standalone activity, while leaving commercial architecture and revenue attribution unresolved. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The annual report identifies enhanced non-passenger requirements and implementation planned from spring 2025. This supports a conditional modernization premise, not the modeled global uptake factor.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2024/xx.xx; provides a Canadian adoption comparator, not a global local-review revenue weight. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2024/xx.xx; provides a Canadian adoption comparator, not a global local-review revenue weight. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies remote screening within CATSA Plus and quantifies deployment; constrains the commercial-adoption premise but does not establish each review room's location. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies remote screening within CATSA Plus and quantifies deployment; constrains the commercial-adoption premise but does not establish each review room's location. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Deployment coverage constrains the addressable network-enabled pool; it does not disclose hybrid contracts or justify the modeled hybrid percentage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Deployment coverage constrains the addressable network-enabled pool; it does not disclose hybrid contracts or justify the modeled hybrid percentage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))

44. CATSA - Beyond the Checkpoint, December 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx operational CT machines at eight airports and a modular-line average of xx.xx passengers per hour versus xx.xx for traditional multi-split lines; supports the bounded throughput-to-unit bridge and phased-deployment premise. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/about-us/beyond-checkpoint-2025-december))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx operational CT machines at eight airports and a modular-line average of xx.xx passengers per hour versus xx.xx for traditional multi-split lines; supports the bounded throughput-to-unit bridge and phased-deployment premise. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/about-us/beyond-checkpoint-2025-december))

45. Smiths Detection Delivers Fully Automated International Remote Baggage Screening System Between South Korea and the United States

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2026 disclosure identifies xx.xx software licenses and DICOS V3.xx.xx exchange, and dates operational service to August 2025. Supports commercial standards-based activity and forecast feasibility, not an observed global share or a confirmed 2025 license inventory. ([smithsdetection.com](https://www.smithsdetection.com/press-releases/smiths-detection-delivers-fully-automated-international-remote-baggage-screening-system-between-south-korea-and-the-united-states/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2026 disclosure identifies xx.xx software licenses and DICOS V3.xx.xx exchange, and dates operational service to August 2025. Supports commercial standards-based activity and forecast feasibility, not an observed global share or a confirmed 2025 license inventory. ([smithsdetection.com](https://www.smithsdetection.com/press-releases/smiths-detection-delivers-fully-automated-international-remote-baggage-screening-system-between-south-korea-and-the-united-states/))

46. SeeTrue Marks Milestone with Over 100 X-ray Checkpoint Installations of Advanced AI-Based Threat Detection Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 announcement reports the 100th operational screening lane across airports and other sectors. Provides a limited commercial-adoption scale check; it is neither airport-only nor a census of standards-based entitlements. ([seetrue.ai](https://www.seetrue.ai/seetrue-marks-milestone-with-over-xx.xx-x-ray-checkpoint-installations-of-advanced-ai-based-threat-detection-software/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 announcement reports the 100th operational screening lane across airports and other sectors. Provides a limited commercial-adoption scale check; it is neither airport-only nor a census of standards-based entitlements. ([seetrue.ai](https://www.seetrue.ai/seetrue-marks-milestone-with-over-xx.xx-x-ray-checkpoint-installations-of-advanced-ai-based-threat-detection-software/))

47. Scarabee's Checkpoint Property Screening System to be deployed at DEN

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-lane Denver award combining Scarabee lanes with Smiths scanners. Corroborates a commercial mixed-supplier integration route; an award is not realized annual revenue or proof of unrestricted interoperability. ([daifukuatec.com](https://daifukuatec.com/news/scarabees-checkpoint-property-screening-system-to-be-deployed-at-den))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-lane Denver award combining Scarabee lanes with Smiths scanners. Corroborates a commercial mixed-supplier integration route; an award is not realized annual revenue or proof of unrestricted interoperability. ([daifukuatec.com](https://daifukuatec.com/news/scarabees-checkpoint-property-screening-system-to-be-deployed-at-den))

48. CATSA Annual Report 2024 - Management's Discussion and Analysis

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx pre-board capital appropriations used of C$xx.xx provide the second period in the non-passenger-to-cabin purchasing comparison.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx non-passenger capital appropriations used of C$xx.xx enter the two-period activity proxy; they do not identify the property-only fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx non-passenger capital appropriations used of C$xx.xx enter the two-period activity proxy; they do not identify the property-only fraction.

49. Smiths Detection confirm order of 91 advanced scanners for new terminals at Moscow Sheremetyevo International Airport
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The dated airport deployment includes xx.xx entrance baggage systems and xx.xx cabin-checkpoint systems. Their ratio supplies a historical relative-density proxy, subsequently discounted for assumed global coverage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated airport deployment includes xx.xx entrance baggage systems and xx.xx cabin-checkpoint systems. Their ratio supplies a historical relative-density proxy, subsequently discounted for assumed global coverage.
50. Cochin International Airport Selects Smiths Detection's CTX 9800 for Next-Generation Hold Baggage Screening
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2017 deployment identifies xx.xx customs baggage systems alongside four hold-baggage systems. This supports the customs-intensive historical configuration proxy, not current global fleet or revenue observations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2017 deployment identifies xx.xx customs baggage systems alongside four hold-baggage systems. This supports the customs-intensive historical configuration proxy, not current global fleet or revenue observations.
51. CATSA Functions, Programs and Activities
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Hold-baggage activities include equipment purchase, baggage-handling integration and equipment maintenance, supporting the checked-baggage capital and lifecycle boundary.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Hold-baggage activities include equipment purchase, baggage-handling integration and equipment maintenance, supporting the checked-baggage capital and lifecycle boundary.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-passenger screening covers airport workers and their belongings; only attributable property-screening offerings enter this allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-passenger screening covers airport workers and their belongings; only attributable property-screening offerings enter this allocation.
52. Fraport TAV Antalya Airport - About the security control itself
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The airport operator distinguishes terminal-entry security from a subsequent checkpoint. This supports a separate entrance-screening mission while providing no global prevalence or spending share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport operator distinguishes terminal-entry security from a subsequent checkpoint. This supports a separate entrance-screening mission while providing no global prevalence or spending share.
53. EMSD VoiceLink, Issue 79, June 2026 - EMSD Provides Comprehensive Support for Terminal 2 Commissioning
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June 2026 account identifies baggage-and-parcel equipment procurement and installation for the customs authority at Terminal xx.xx. It supports a separate commissioning mission but does not isolate baggage expenditure.
54. GAO-26-107811 - Guam: Considerations for Evaluating Alternative Customs Models and Potential Economic Effects
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The audit identifies two historical airport-customs baggage systems inactive for years and delayed replacement procurement. This challenges conversion of installed stock or acknowledged need directly into annual equipment and support revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The audit identifies two historical airport-customs baggage systems inactive for years and delayed replacement procurement. This challenges conversion of installed stock or acknowledged need directly into annual equipment and support revenue.

55. Bennet, Moran, Van Hollen, Boozman Introduce Bill to Bolster Aviation Safety
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 official release identifies xx.xx U.S. screening lanes, used as agency purchasing-exposure calibration rather than observed annual equipment sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 official release identifies xx.xx U.S. screening lanes, used as agency purchasing-exposure calibration rather than observed annual equipment sales.
56. Bank of Canada - Annual exchange rates
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual exchange-rate observations support the inherited fiscal-period approximation of xx.xx Canadian dollars per U.S. dollar; this is not a transaction-weighted exchange rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual exchange-rate observations support the inherited fiscal-period approximation of xx.xx Canadian dollars per U.S. dollar; this is not a transaction-weighted exchange rate.
57. Japan’s leading airline revolutionizes check in experience with new Smiths Detection technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The August 2023 announcement identifies JAL as customer for five screening ecosystems and reports xx.xx deployed iLane units across Japan. These are historical commercial-stock anchors, not an airline-only fleet or 2025 sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August 2023 announcement identifies JAL as customer for five screening ecosystems and reports xx.xx deployed iLane units across Japan. These are historical commercial-stock anchors, not an airline-only fleet or 2025 sales observation.
58. Narita International Airport anticipates threats with integrated solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Narita airport as a screening-technology customer and describes xx.xx lane-related installations, qualifying any assumption that the supplier's Japanese installed stock was purchased entirely by airlines.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Narita airport as a screening-technology customer and describes xx.xx lane-related installations, qualifying any assumption that the supplier's Japanese installed stock was purchased entirely by airlines.
59. MLIT - 保安検査の実施主体が変わります！ - June 27, 2025
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement targets transfer of security-screening responsibility from airlines to airport managers, with leading cases targeted in FY2026. Supports a conditional reduction in airline purchasing, not an observed contract-transfer percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transfer direction supports modeled airport-manager purchasing gains. Continued shared financing does not imply equal purchasing shares.
60. ICTS International N.V. - Annual Report for the year ended December 31, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Discloses USD xx.xx company-wide property/equipment purchases and USD xx.xx airport-security revenue in 2025. Supports an asset-light purchasing-intensity proxy; the in-scope fraction and global expansion remain assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Discloses USD xx.xx company-wide property/equipment purchases and USD xx.xx airport-security revenue in 2025. Supports an asset-light purchasing-intensity proxy; the in-scope fraction and global expansion remain assumptions.

61. EU Publications Office - Purchase and maintenance of non-intrusive X-ray inspection equipment for baggage and air cargo volume control
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Autoridade Tributária e Aduaneira as buyer and reports a 2026 award of EUR xx.xx across four lots for baggage/air-cargo inspection equipment and maintenance. Provides a buyer-role and commercial-scale comparator, not 2025 baggage-only annual expenditure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Autoridade Tributária e Aduaneira as buyer and reports a 2026 award of EUR xx.xx across four lots for baggage/air-cargo inspection equipment and maintenance. Provides a buyer-role and commercial-scale comparator, not 2025 baggage-only annual expenditure.
62. ACI World - Busiest Airports in the World
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx international airport passenger movements in 2025. Half provides an approximate arrival-movement scale check before transfer exclusions, not a customs examination or equipment-purchasing weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx international airport passenger movements in 2025. Half provides an approximate arrival-movement scale check before transfer exclusions, not a customs examination or equipment-purchasing weight.
63. Heathrow announces £2.3bn accelerated investment plan to upgrade the UK's international gateway to growth
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports GBP xx.xx invested in security-lane upgrades during 2024, supporting material airport-directed purchasing. Broader infrastructure obligations and historical timing prevent treating the amount as 2025 in-scope market receipts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports GBP xx.xx invested in security-lane upgrades during 2024, supporting material airport-directed purchasing. Broader infrastructure obligations and historical timing prevent treating the amount as 2025 in-scope market receipts.
64. Fraport Assumes Responsibility for Aviation Security Checks at Frankfurt Airport
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents Fraport's checkpoint-management responsibility from January 2023, six initial CT-equipped lanes and three contracted screening providers. Supports distinguishing an airport commissioning role from regulator oversight and contracted screening labor.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents Fraport's checkpoint-management responsibility from January 2023, six initial CT-equipped lanes and three contracted screening providers. Supports distinguishing an airport commissioning role from regulator oversight and contracted screening labor.
65. Advanced Cabin Baggage Screening - Computed Tomography Implementation Guide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes standalone CT, including equipment-local conveyance, from integrated screening-lane configurations; supports attribution boundaries, not a revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes standalone CT, including equipment-local conveyance, from integrated screening-lane configurations; supports attribution boundaries, not a revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies automated tray-return and automated screening-lane integration as commercially distinct configurations; supports the lane-integrated category definition.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies automated tray-return and automated screening-lane integration as commercially distinct configurations; supports the lane-integrated category definition.

66. GAO-12-266 - Checked Baggage Screening: TSA Has Deployed Optimal Systems at the Majority of TSA-Regulated Airports, but Could Strengthen Cost Estimates

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December 2011 table reports xx.xx standalone EDS alongside xx.xx in-line EDS; this historical machine-count comparator constrains, but does not determine, the current global allocation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December 2011 table reports xx.xx standalone EDS alongside xx.xx in-line EDS; this historical machine-count comparator constrains, but does not determine, the current global allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx in-line EDS across xx.xx in-line systems and distinguishes equipment counts from integrated-system counts; supports the historical configuration bridge.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx in-line EDS across xx.xx in-line systems and distinguishes equipment counts from integrated-system counts; supports the historical configuration bridge.

67. Smiths Detection selected as security technology provider to International Airport Heraklion Crete

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 announcement identifies eight cabin CT scanners and eight automated tray-return systems for Heraklion, with installation planned across late 2025 and mid-2026; supports ongoing integrated procurement, not realized annual revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 announcement identifies eight cabin CT scanners and eight automated tray-return systems for Heraklion, with installation planned across late 2025 and mid-2026; supports ongoing integrated procurement, not realized annual revenue.

68. Centralised Image Processing: The Impact on Security Checkpoints

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes checkpoint-local image review from separate-room arrangements; supports retaining networked local activity rather than automatically assigning it to remote review. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes checkpoint-local image review from separate-room arrangements; supports retaining networked local activity rather than automatically assigning it to remote review. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes separate screening rooms and established remote hold-baggage review at larger airports; supports the cohort-maturity premise, not a numerical global share. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes separate screening rooms and established remote hold-baggage review at larger airports; supports the cohort-maturity premise, not a numerical global share. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes combined checkpoint and remote-room arrangements, establishing a mixed-location commercial configuration without measuring its prevalence or price. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes combined checkpoint and remote-room arrangements, establishing a mixed-location commercial configuration without measuring its prevalence or price. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))

69. Annual Report 2024 - CATSA's Operating Environment

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2023/xx.xx providing the historical comparison rather than a global location allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2023/xx.xx providing the historical comparison rather than a global location allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Together with the subsequent annual report, supports a seven-line deployment increase without a corresponding increase in reported passenger coverage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Together with the subsequent annual report, supports a seven-line deployment increase without a corresponding increase in reported passenger coverage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provides a historical network-enabled deployment anchor, while leaving the physical mixed-location contract share unmeasured. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provides a historical network-enabled deployment anchor, while leaving the physical mixed-location contract share unmeasured. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))

70. L22020-T-TG Upgrades to the Passenger Search Area, body scanners, EDS C3 cabin baggage screening - Contract Award Notice

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2023 Luton award expressly includes construction of a remote screening room at the airport terminal, supporting separate-room commercial procurement. Its broader scope is not treated as baggage-only annual revenue. ([find-tender.service.gov.uk](https://www.find-tender.service.gov.uk/Notice/xx.xx-2023))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2023 Luton award expressly includes construction of a remote screening room at the airport terminal, supporting separate-room commercial procurement. Its broader scope is not treated as baggage-only annual revenue. ([find-tender.service.gov.uk](https://www.find-tender.service.gov.uk/Notice/xx.xx-2023))

71. Greater Orlando Aviation Authority - Minutes of the February 19, 2025 Meeting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Authorizes up to USD xx.xx for baggage-system and Remote Screening Facility network/server separation. Half this ceiling is an explicitly assumed deployment-cost comparator, not observed off-site receipts. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Authorizes up to USD xx.xx for baggage-system and Remote Screening Facility network/server separation. Half this ceiling is an explicitly assumed deployment-cost comparator, not observed off-site receipts. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provides the commercial networking-cost anchor for the modeled transfer from existing on-site pools, avoiding additional market value or duplicate host-equipment attribution. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provides the commercial networking-cost anchor for the modeled transfer from existing on-site pools, avoiding additional market value or duplicate host-equipment attribution. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))

72. American and U.S. Customs and Border Protection pilot innovative baggage screening initiative

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: American's April xx.xx 2025 announcement identifies a daily Sydney-Los Angeles IRBS pilot and unchanged screening requirements. It anchors one sampled connection and an assumed partial-year licensing period, not disclosed revenue. ([s202.q4cdn.com](https://s202.q4cdn.com/xx.xx/files/doc_news/American-and-US-Customs-and-Border-Protection-pilot-innovative-baggage-screening-initiative-OPS-OTH-xx.xx-2025.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: American's April xx.xx 2025 announcement identifies a daily Sydney-Los Angeles IRBS pilot and unchanged screening requirements. It anchors one sampled connection and an assumed partial-year licensing period, not disclosed revenue. ([s202.q4cdn.com](https://s202.q4cdn.com/xx.xx/files/doc_news/American-and-US-Customs-and-Border-Protection-pilot-innovative-baggage-screening-initiative-OPS-OTH-xx.xx-2025.pdf))

73. 델타항공-대한항공, 인천발 애틀랜타 노선 대상 위탁수하물 원격 검색 방식 신규 도입

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2025 announcement identifies the Incheon-Atlanta IRBS arrangement, anchoring a second sampled connection and a partial-year commercial-activity assumption without establishing contract value. ([news.delta.com](https://news.delta.com/delta-and-koreanair-launch-remote-baggage-screening-on-icn-atl-KR))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2025 announcement identifies the Incheon-Atlanta IRBS arrangement, anchoring a second sampled connection and a partial-year commercial-activity assumption without establishing contract value. ([news.delta.com](https://news.delta.com/delta-and-koreanair-launch-remote-baggage-screening-on-icn-atl-KR))

74. United Launches CBP's International Remote Baggage Screening on Select International Flights

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: United's September xx.xx 2025 announcement identifies daily Sydney-San Francisco service and named technology partners, anchoring a third sampled connection. It reports no attributable software or integration receipts. ([united.mediaroom.com](https://united.mediaroom.com/2025-xx.xx-xx.xx-United-Launches-CBPs-International-Remote-Baggage-Screening-on-Select-International-Flights))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: United's September xx.xx 2025 announcement identifies daily Sydney-San Francisco service and named technology partners, anchoring a third sampled connection. It reports no attributable software or integration receipts. ([united.mediaroom.com](https://united.mediaroom.com/2025-xx.xx-xx.xx-United-Launches-CBPs-International-Remote-Baggage-Screening-on-Select-International-Flights))

75. Airline Passengers Face Fewer Bag Checkpoints, Thanks to PNNL, Partners

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2026 laboratory release describes implementation on additional routes, including Seoul arrivals at Minneapolis-St. Paul and Detroit. This supports expansion direction, not the forecast connection count, realization or global share. ([pnnl.gov](https://www.pnnl.gov/news-media/airline-passengers-face-fewer-bag-checkpoints-thanks-pnnl-partners))

76. TSA awards $781.2 million to procure additional CT X-Ray scanners for airport checkpoints

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2022 announcement identifies up to USD xx.xx for procurement and maintenance of up to xx.xx systems from an OEM. This is a historical procurement-scale anchor, not annual 2025 direct-channel revenue. ([content.govdelivery.com](https://content.govdelivery.com/accounts/USDHSTSA/bulletins/30f6e5f))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The award includes full-size automated lanes, cautioning against assigning all automation value to non-OEM integration primes; exact contractual-role attribution is not disclosed. ([content.govdelivery.com](https://content.govdelivery.com/accounts/USDHSTSA/bulletins/30f6e5f))

77. OSI Systems, Inc. - Form 10-K for the fiscal year ended June 30, 2026

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing describes regional direct security-product sales and direct maintenance relationships. Its broader security scope supports route coexistence, not baggage-only sales weights. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing describes regional direct security-product sales and direct maintenance relationships. Its broader security scope supports route coexistence, not baggage-only sales weights. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company identifies a global independent-distributor network, supporting a continuing indirect route without quantifying its value share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company identifies a global independent-distributor network, supporting a continuing indirect route without quantifying its value share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Authorized service providers are identified separately from distributors, supporting distinct technical-service attribution and access limitations. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Authorized service providers are identified separately from distributors, supporting distinct technical-service attribution and access limitations. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

78. SriLankan Airlines - Invitation for Supply, Installation, Commissioning and Maintenance of Dual View Heavy and Medium X-Ray Machines, Reference 202130407

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 purchaser invitation permits an OEM or authorized OEM agent and requires authorization for the latter. It establishes equipment-channel eligibility, not an award or software-resale right. ([srilankan.com](https://www.srilankan.com/download/tender/TN-Invitationforsubmiss-xx.xx.pdf))

79. JFK Millennium Partners Selects K2 to Deliver State-of-the-Art Security Screening Checkpoint at new JFK Terminal 6

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment assigns procurement and deployment coordination across multiple technology suppliers at a future ten-gate terminal. It supports integration-prime participation and a forecast mechanism, not a disclosed share or completed 2025 revenue. ([portauthoritybuilds.com](https://www.portauthoritybuilds.com/redevelopment/us/en/jfk/planned-projects/terminal-xx.xx/news/jfk-millennium-partners-selects-k2-to-deliver-state-of-the-art-s.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment assigns procurement and deployment coordination across multiple technology suppliers at a future ten-gate terminal. It supports integration-prime participation and a forecast mechanism, not a disclosed share or completed 2025 revenue. ([portauthoritybuilds.com](https://www.portauthoritybuilds.com/redevelopment/us/en/jfk/planned-projects/terminal-xx.xx/news/jfk-millennium-partners-selects-k2-to-deliver-state-of-the-art-s.html))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment covers baggage CT and automated bin-return equipment for a future xx.xx-gate terminal, with phased opening planned for 2026-2028. It establishes new-installation activity, not attributable 2025 receipts; wider airport investment and person-only technologies are excluded.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment covers baggage CT and automated bin-return equipment for a future xx.xx-gate terminal, with phased opening planned for 2026-2028. It establishes new-installation activity, not attributable 2025 receipts; wider airport investment and person-only technologies are excluded.

80. CATSA Corporate Plan 2024-25 to 2028-29 Summary - Key Corporate Risks

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The authority reports transferring maintenance of most screening equipment to KPrime in 2023/xx.xx. This establishes a separately contracted maintenance relationship, without a baggage-only payment split. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/key-corporate-risks))

81. Leidos wins TSA logistics contract

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 announcement describes an eight-year, USD xx.xx maximum sustainment contract covering xx.xx equipment units at over xx.xx locations with manufacturer coordination. Annualization and baggage/third-party attribution in the model are explicit assumptions. ([leidos.com](https://www.leidos.com/insights/leidos-wins-tsa-logistics-contract))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 announcement describes an eight-year, USD xx.xx maximum sustainment contract covering xx.xx equipment units at over xx.xx locations with manufacturer coordination. Annualization and baggage/third-party attribution in the model are explicit assumptions. ([leidos.com](https://www.leidos.com/insights/leidos-wins-tsa-logistics-contract))

82. Checkpoint Transformation: Malta International Airport Streamlines Passenger Flow with Smiths Detection
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Seven conventional automated lanes were replaced by six CT-equipped lanes, with final commissioning in January 2025. This is a counterexample to equating capacity improvement with net additional equipment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seven conventional automated lanes were replaced by six CT-equipped lanes, with final commissioning in January 2025. This is a counterexample to equating capacity improvement with net additional equipment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The complete checkpoint replacement illustrates why an offering described commercially as an upgrade can belong to System Replacement. The seven-year service commitment is not counted wholly as installation-year revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The complete checkpoint replacement illustrates why an offering described commercially as an upgrade can belong to System Replacement. The seven-year service commitment is not counted wholly as installation-year revenue.
83. iCMORE - Smiths Detection
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current commercial offering describes a software-upgrade path while qualifying additional hardware requirements by machine type and age. This constrains forecast eligibility assumptions; product availability does not measure adoption or revenue.

18.5. Germany

Sources & Evidence

1. House Report 119-173 - Department of Homeland Security Appropriations Bill, 2026

   · Evidence informing the 2030 market-value input; displayed series and growth include calculations: The aging installed fleet supports replacement demand, but does not establish the forecast's realization dates or annual purchasing rate. ([govinfo.gov](https://www.govinfo.gov/content/pkg/CRPT-119hrpt173/html/CRPT-119hrpt173.htm))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report identifies xx.xx end-of-life systems within a xx.xx-system checked-baggage fleet. This constrains renewal exposure, not realized annual purchasing or a verified global replacement deadline.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports a TSA checked-baggage fleet of xx.xx EDS, including xx.xx at end-of-life, and assigns purchase, installation and maintenance responsibilities to TSA. Supports agency fleet calibration and renewal pressure, not the assumed forecast uplift.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports a TSA checked-baggage fleet of xx.xx EDS, including xx.xx at end-of-life, and assigns purchase, installation and maintenance responsibilities to TSA. Supports agency fleet calibration and renewal pressure, not the assumed forecast uplift.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report identifies xx.xx end-of-life EDS within a xx.xx-unit U.S. checked-baggage fleet, citing the FY2024 capital plan. The derived xx.xx% backlog constrains the aging-fleet premise, but is neither an annual turnover rate nor a funded global replacement forecast.

2. GAO-24-106573 - DHS Annual Assessment: Most Programs Are Meeting Current Goals, but Some Continue to Face Cost and Schedule Challenges

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports plans for xx.xx checkpoint systems and xx.xx increment-one deployments by September 2023; supports an incomplete replacement cycle rather than universal CT adoption. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx AT/CT, xx.xx base, xx.xx mid-size and xx.xx full-size deployments by September 2023; supplies configuration proxies and an incomplete-renewal constraint, not contractual architecture shares. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx AT/CT, xx.xx base, xx.xx mid-size and xx.xx full-size deployments by September 2023; supplies configuration proxies and an incomplete-renewal constraint, not contractual architecture shares. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The deployed configuration mix underlies the xx.xx/xx.xx newer-cohort and xx.xx/xx.xx older-cohort proxy calculations; global and contractual attribution remain modeled. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The deployed configuration mix underlies the xx.xx/xx.xx newer-cohort and xx.xx/xx.xx older-cohort proxy calculations; global and contractual attribution remain modeled. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The assessment records xx.xx checkpoint systems deployed by September 2023 against an eventual xx.xx-system program. This supports an incomplete replacement cycle and qualifies any assumption of universal CT adoption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The assessment records xx.xx checkpoint systems deployed by September 2023 against an eventual xx.xx-system program. This supports an incomplete replacement cycle and qualifies any assumption of universal CT adoption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports a September 2023 U.S. CT cohort containing xx.xx AT/CT and xx.xx base systems, providing counterevidence to assigning all CT activity automatically to integrated lanes.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports a September 2023 U.S. CT cohort containing xx.xx AT/CT and xx.xx base systems, providing counterevidence to assigning all CT activity automatically to integrated lanes.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx mid-size and xx.xx full-size systems within xx.xx deployed CT systems; supports differentiated configuration assumptions rather than treating technology adoption as an integration-share observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx mid-size and xx.xx full-size systems within xx.xx deployed CT systems; supports differentiated configuration assumptions rather than treating technology adoption as an integration-share observation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2024 assessment records xx.xx checkpoint deployments as of September 2023 against xx.xx planned systems replacing aging equipment. It supports staged renewal, but does not establish current deployment completion or the modeled 2032 share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2024 assessment records xx.xx checkpoint deployments as of September 2023 against xx.xx planned systems replacing aging equipment. It supports staged renewal, but does not establish current deployment completion or the modeled 2032 share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The program separately anticipates enhancements to fielded systems, supporting a retained-equipment commercial pathway without supplying an attributable upgrade-revenue split.

3. Global Airport Passenger Traffic Reaches Record 9.8 Billion in 2025, Airports Council International World reports

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports cooling passenger-growth momentum in 2026, supporting moderation of traffic-driven equipment expansion despite continuing replacement demand. ([aci.aero](https://aci.aero/2026/xx.xx/xx.xx/global-airport-passenger-traffic-reaches-record-xx.xx-xx.xx-billion-in-2025-airports-council-international-world-reports/))

4. Smiths Group PLC - Full Year Results for the 12 Months Ended 31 July 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Discloses aviation original-equipment revenue of xx.xx and aftermarket revenue of xx.xx for FY2024; supplies historical cycle proxies.
([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing the 2027 market-value input; displayed series and growth include calculations: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; supports replacement activity, not an observed global forecast.
([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2025 aviation original-equipment revenue of GBP xx.xx provides an independent equipment-activity scale check, not a global category share.
([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025 aviation original-equipment revenue of GBP xx.xx provides an independent equipment-activity scale check, not a global category share.
([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx cumulative CTiX sales corroborate commercial imaging activity and replacement demand; they do not measure annual global sales.
([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx cumulative CTiX sales corroborate commercial imaging activity and replacement demand; they do not measure annual global sales.
([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: GBP xx.xx aviation aftermarket revenue supports lifecycle materiality while qualifying transfer of one supplier's mix to the global service allocation.
([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GBP xx.xx aviation aftermarket revenue supports lifecycle materiality while qualifying transfer of one supplier's mix to the global service allocation.
([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; cumulative sales constrain commercial scale but are not annual global shipments.
([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; cumulative sales constrain commercial scale but are not annual global shipments.
([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports four operating XDi units as of July 2025 and pending regulatory certification, constraining the small XRD cohort and qualifying aggressive commercialization assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports four operating XDi units as of July 2025 and pending regulatory certification, constraining the small XRD cohort and qualifying aggressive commercialization assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported checkpoint modernization provides a commercial reason to model substitution from discrete legacy offerings; the filing does not disclose standalone configuration revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025

5. Smiths Group PLC - Annual Report & Accounts FY2023
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: Reports FY2022 aviation original-equipment revenue of xx.xx, used as a dimensionless historical capital-cycle proxy. ([www-live.smiths.com](https://www-live.smiths.com/media/phjp1j44/smiths-annual-report-2023.pdf))
   - Evidence informing the 2023 market-value input; displayed series and growth include calculations: Reports FY2023 aviation original-equipment revenue of xx.xx and aftermarket revenue of xx.xx; supports the modeled recovery direction. ([www-live.smiths.com](https://www-live.smiths.com/media/phjp1j44/smiths-annual-report-2023.pdf))
6. Smiths Group PLC - Annual Report FY2022
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: Reports FY2021 aviation revenue of xx.xx, providing a historical purchasing-cycle reference rather than a global observation. ([www-live.smiths.com](https://www-live.smiths.com/media/xjvdpblr/smiths-annual-report-2022-report.pdf))
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: Reports FY2022 aviation revenue of xx.xx and continued weakness in aviation original equipment; supports a delayed capital-spending trough. ([www-live.smiths.com](https://www-live.smiths.com/media/xjvdpblr/smiths-annual-report-2022-report.pdf))
7. Smiths Group PLC - Annual Results for the Year Ended 31 July 2019
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: Reports FY2018 aviation revenue of xx.xx, supplying the historical comparison underlying the backcast. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: Reports FY2019 aviation revenue of xx.xx and customer delivery deferrals, qualifying a traffic-only growth model. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Identifies deliveries deferred into FY2020; supports the possibility of backlog-supported spending despite a contemporaneous traffic shock, not the exact modeled growth rate. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
8. ACI World - The High-Wire Balancing Act: Global Air Transport Demand in 2018 and 2019
   - Evidence informing the 2017 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers and xx.xx% growth in 2018; the growth observation informs the 2017 backcast bridge. ([blog.aci.aero](https://blog.aci.aero/airport-economics/the-high-wire-balancing-act-global-air-transport-demand-in-2018-and-2019/))
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: Provides the observed 2018 traffic-growth reference, not an equipment-market growth observation. ([blog.aci.aero](https://blog.aci.aero/airport-economics/the-high-wire-balancing-act-global-air-transport-demand-in-2018-and-2019/))
9. ICAO A42-WP/556 - State of the Industry and Outlook for Airport Traffic, Presented by ACI
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Records the collapse from xx.xx airport passengers in 2019 to xx.xx in 2020; constrains the shock and funding-risk interpretation. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2021, supporting a prolonged funding and activity shock. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2023 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2023; traffic recovery is distinguished from equipment purchasing. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2024, providing a demand recovery cross-check. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))

10. Port of Seattle - Baggage Handling System Optimization
    - Evidence informing the 2029 market-value input; displayed series and growth include calculations: Seattle plans to consolidate six baggage-screening systems, increase supported passenger capacity, and reduce screening-machine demand. Supports integration spending without one-for-one detector growth. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing the 2032 market-value input; displayed series and growth include calculations: The consolidation example constrains equipment-volume assumptions; its whole baggage-handling project value is excluded from market sizing. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing the 2040 market-value input; displayed series and growth include calculations: Provides a commercial counterexample to extrapolating passenger growth directly into machine counts throughout the long-range forecast. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Consolidation of six systems with reduced machine demand qualifies a traffic-to-detector-volume forecast. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The consolidation project supports integration-driven conveyor demand, but its whole-project value is excluded. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Brownfield consolidation supports the integration-demand premise, not the forecast's exact service growth factor. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport replaces six separate screening systems with centralized screening and expects reduced screening-machine demand while expanding capacity. This supplies a counterforce to volume-only checked-baggage forecasting.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Seattle is consolidating six screening systems, expects reduced screening-machine demand and schedules final-phase completion in 2029. Supports integration demand while constraining detector-volume growth; the whole-project budget is excluded.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seattle is consolidating six screening systems, expects reduced screening-machine demand and schedules final-phase completion in 2029. Supports integration demand while constraining detector-volume growth; the whole-project budget is excluded.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seattle's project combines increased screening capacity with consolidation from six screening systems and reduced screening-machine demand. This constrains the forecast assumption that capacity growth requires proportional equipment additions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement and capacity objectives coexist within the project. Its wider baggage-handling budget is not treated as screening-equipment revenue or assigned additively to multiple purposes.
11. Smiths Group PLC - Half Year Results for the Six Months Ended 31 January 2026
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports xx.xx% organic growth for Smiths Detection in HY2026, with aviation checkpoint upgrades contributing. Supports a positive 2026 nowcast, not a directly observed global growth rate. ([www-live.smiths.com](https://www-live.smiths.com/media/villk35h/smiths-hy26-results-press-release.pdf))
12. Eurostat - Air passenger transport statistics, December 2025, Table 1: 2024 country traffic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Traffic primitive.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Traffic primitive.

13. ACI EUROPE - 2025 all about traffic resilience as Europe’s airports welcomed an additional 100 million passengers

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual growth input to the 2025 bridge.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual growth input to the 2025 bridge.

14. Fraport - AI for Monitoring Aviation Security, 22 January 2026

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Over xx.xx CT scanners and approximately EUR xx.xx cumulative checkpoint investment support a premium installed-mix premise, not annual national revenue.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Over xx.xx CT scanners and approximately EUR xx.xx cumulative checkpoint investment support a premium installed-mix premise, not annual national revenue.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: January xx.xx 2026 APIDS deployment demonstrates additional software adoption, without establishing separate revenue. ([fraport.com](https://www.fraport.com/en/newsroom/press-releases/2026/q1/ai-for-monitoring-aviation-security.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Deployment on more than xx.xx CT scanners is the independent quantitative rollout test; it does not validate the modeled license-growth factor. ([fraport.com](https://www.fraport.com/en/newsroom/press-releases/2026/q1/ai-for-monitoring-aviation-security.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: On January xx.xx 2026, Fraport announced regular APIDS software operation on more than xx.xx existing Smiths CT scanners. This independently supports retained-system enhancement at one buyer, not global penetration or realized license revenue.

15. CATSA 2025 Annual Report - Notes to the Financial Statements
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx accounts disclose C$xx.xx maintenance/spares and C$xx.xx training/certification, supporting the service-budget calibration but not global baggage-only shares. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx accounts disclose C$xx.xx maintenance/spares and C$xx.xx training/certification, supporting the service-budget calibration but not global baggage-only shares. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintenance and spare parts are combined in the accounts; the labor-versus-goods split therefore remains modeled. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintenance and spare parts are combined in the accounts; the labor-versus-goods split therefore remains modeled. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The C$xx.xx training/certification expense supplies the numerator of the adjusted training-to-capital proxy. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The C$xx.xx training/certification expense supplies the numerator of the adjusted training-to-capital proxy. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: C$xx.xx trace/consumables is distinct from maintenance/spares and supplies the contrary consumables-intensity comparator, not a global observation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: C$xx.xx trace/consumables is distinct from maintenance/spares and supplies the contrary consumables-intensity comparator, not a global observation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately reports C$xx.xx maintenance/spares, C$xx.xx trace/consumables and C$xx.xx training/certification, constraining attributable agency lifecycle expenditure.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates screening-contractor payments from equipment support, preventing staffing expenditure from becoming equipment-market purchasing.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately reports C$xx.xx maintenance/spares, C$xx.xx trace/consumables and C$xx.xx training/certification, constraining attributable agency lifecycle expenditure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates screening-contractor payments from equipment support, preventing staffing expenditure from becoming equipment-market purchasing.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited expense disclosure reports C$xx.xx for maintenance and spare parts in the year ended March xx.xx 2025. It constrains support-spending materiality, not the amount attributable to an independent provider. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))

16. CATSA 2025 Annual Report - Management's Discussion and Analysis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: EDS capital expenditure of C$xx.xx includes equipment and installation/integration and supplies the training-calibration denominator, subject to baggage attribution. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EDS capital expenditure of C$xx.xx includes equipment and installation/integration and supplies the training-calibration denominator, subject to baggage attribution. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The capital definition includes associated installation and integration, supporting the distinction between deployment services and equipment value. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The capital definition includes associated installation and integration, supporting the distinction between deployment services and equipment value. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Actual spending, original budget and reprofile amounts constrain the forecast's purchasing-execution interpretation; they are not a global growth rate. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx pre-board capital appropriations used were C$xx.xx. This supplies the Canadian purchasing comparison and a component of the non-passenger-to-cabin activity proxy, not a global share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx pre-board capital appropriations used were C$xx.xx. This supplies the Canadian purchasing comparison and a component of the non-passenger-to-cabin activity proxy, not a global share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx hold-baggage capital appropriations used were C$xx.xx; this constrains the independent application-capital comparison.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx non-passenger capital appropriations used were C$xx.xx, below the original C$xx.xx budget. Actual purchasing informs the proxy and qualifies automatic announcement-to-revenue conversion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx non-passenger capital appropriations used were C$xx.xx, below the original C$xx.xx budget. Actual purchasing informs the proxy and qualifies automatic announcement-to-revenue conversion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports C$xx.xx EDS capital expenditure for FY2024/xx.xx and identifies both baggage equipment and full-body scanners in the capital scope, requiring a baggage-attribution adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports C$xx.xx EDS capital expenditure for FY2024/xx.xx and identifies both baggage equipment and full-body scanners in the capital scope, requiring a baggage-attribution adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EDS outturn was C$xx.xx versus an original C$xx.xx plan and revised C$xx.xx budget. Reprofiling constrains assumed award conversion and deployment timing; it does not measure procurement-channel mix. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The actual capital-project list identifies hold-baggage capacity expansion at Montréal-Trudeau, supporting the expansion classification, not its modeled global revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The actual capital-project list identifies hold-baggage capacity expansion at Montréal-Trudeau, supporting the expansion classification, not its modeled global revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The actual project list includes checkpoint CT deployment and hold-baggage oversize-equipment lifecycle management, supporting renewal activity without disclosing its purpose-specific spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The actual project list includes checkpoint CT deployment and hold-baggage oversize-equipment lifecycle management,

17. Aviation security screening approved equipment list
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Baggage EDS/EDSCB and conventional X-ray classes support the inspection-system boundary, not sales weights. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Baggage EDS/EDSCB and conventional X-ray classes support the inspection-system boundary, not sales weights. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Liquid detectors are a distinct cabin-baggage category; the complete bulk-material extension remains modeled within the captured boundary. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Liquid detectors are a distinct cabin-baggage category; the complete bulk-material extension remains modeled within the captured boundary. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ETD serves baggage and other applications, requiring explicit baggage attribution rather than allocating all detector sales here. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ETD serves baggage and other applications, requiring explicit baggage attribution rather than allocating all detector sales here. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dedicated ETD consumables are separately recognized, supporting goods classification without establishing spending or unrestricted interchangeability. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dedicated ETD consumables are separately recognized, supporting goods classification without establishing spending or unrestricted interchangeability. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
18. Quantifying the Impacts of Delayed Maintenance of Airport Assets: A Guide - Chapter 6, Baggage Handling Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The baggage-handling cost study uses a modeled xx.xx% labor share, adopted only as an adjacent support-cost proxy. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The baggage-handling cost study uses a modeled xx.xx% labor share, adopted only as an adjacent support-cost proxy. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Its corresponding modeled xx.xx% parts share calibrates the labor/goods separation; it is not an observed screening-equipment ratio. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Its corresponding modeled xx.xx% parts share calibrates the labor/goods separation; it is not an observed screening-equipment ratio. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))

19. Procurement of Next Generation Security Checkpoint Equipment - Contract Award Notice

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The seven-system award includes automated tray return, demonstrating bundled purchasing but no separately priced hardware allocation. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The seven-system award includes automated tray return, demonstrating bundled purchasing but no separately priced hardware allocation. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The integrated CT/tray-return scope constrains the automation interface boundary; it does not value general airport conveyors. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The integrated CT/tray-return scope constrains the automation interface boundary; it does not value general airport conveyors. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Central image processing is an explicit purchased function, without a separately disclosed license price. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Central image processing is an explicit purchased function, without a separately disclosed license price. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supply, installation and commissioning are included deliverables, supporting deployment-service attribution without establishing its percentage. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supply, installation and commissioning are included deliverables, supporting deployment-service attribution without establishing its percentage. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2022 award covers seven systems combining cabin CT, tray return, image processing and deployment responsibilities. It supports integrated purchased scope, not completed delivery or a global sales weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2022 award covers seven systems combining cabin CT, tray return, image processing and deployment responsibilities. It supports integrated purchased scope, not completed delivery or a global sales weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The integrated Newcastle procurement reports a GBP xx.xx-xx.xx offer range but no physical review-room location; its value cannot be assigned automatically to local review. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The integrated Newcastle procurement reports a GBP xx.xx-xx.xx offer range but no physical review-room location; its value cannot be assigned automatically to local review. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Central image processing is included, but a separate on-site room is not specified; constrains classification rather than supplying a remote-review sales weight. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Central image processing is included, but a separate on-site room is not specified; constrains classification rather than supplying a remote-review sales weight. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The bundled award does not identify a mixed-location package or its attributable price, preventing automatic hybrid classification. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The bundled award does not identify a mixed-location package or its attributable price, preventing automatic hybrid classification.

20. Smiths Detection - Digital Innovation
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier identifies detection applications as a commercial function; separate fee allocation remains assumed. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier identifies detection applications as a commercial function; separate fee allocation remains assumed. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized screening supports the image-review function, not an observed software revenue weight. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized screening supports the image-review function, not an observed software revenue weight. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Connectivity, multi-vendor integration and equipment-health applications establish the fleet-management function without proving customer-specific rights or prices. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Connectivity, multi-vendor integration and equipment-health applications establish the fleet-management function without proving customer-specific rights or prices. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ELECTORA is offered for integrating multi-vendor devices, datasets and applications; establishes the vendor-platform category but discloses no category revenue or customer-specific substitution entitlement. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ELECTORA is offered for integrating multi-vendor devices, datasets and applications; establishes the vendor-platform category but discloses no category revenue or customer-specific substitution entitlement. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
21. UK Civil Aviation Authority - Threat Image Projection (TIP)
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: TIP library approval and renewal obligations support continuing software commitments, not the modeled global fee or share. ([caa.co.uk](https://www.caa.co.uk/commercial-industry/security/training-and-human-factors/threat-image-projection/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: TIP library approval and renewal obligations support continuing software commitments, not the modeled global fee or share. ([caa.co.uk](https://www.caa.co.uk/commercial-industry/security/training-and-human-factors/threat-image-projection/))

22. Smiths Detection - Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Inclusive capital-equipment support covers labor and parts, requiring a single-count economic allocation across services and goods. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Inclusive capital-equipment support covers labor and parts, requiring a single-count economic allocation across services and goods. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Equipment-specific training and certification are commercial offerings distinct from routine screening staffing. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Equipment-specific training and certification are commercial offerings distinct from routine screening staffing. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The parts-support offering and inclusive contracts corroborate the goods boundary, but not the assumed xx.xx% allocation. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The parts-support offering and inclusive contracts corroborate the goods boundary, but not the assumed xx.xx% allocation. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes inclusive labor-and-parts contracts and manufacturer support, supporting nonduplicative lifecycle attribution to projection equipment, not a verified xx.xx% fee. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes inclusive labor-and-parts contracts and manufacturer support, supporting nonduplicative lifecycle attribution to projection equipment, not a verified xx.xx% fee. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports the existence of manufacturer lifecycle offerings; broad service-footprint counts are not used as CT revenue weights.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports the existence of manufacturer lifecycle offerings; broad service-footprint counts are not used as CT revenue weights.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports commercial maintenance, refurbishment and parts offerings for portable equipment without establishing baggage-specific service receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports commercial maintenance, refurbishment and parts offerings for portable equipment without establishing baggage-specific service receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer markets direct on-site support and inclusive capital-equipment labor-and-parts contracts. This supports a continuing manufacturer-service alternative, without measuring a pricing premium. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer markets direct on-site support and inclusive capital-equipment labor-and-parts contracts. This supports a continuing manufacturer-service alternative, without measuring a pricing premium. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Manufacturer-provided bundled support is a commercial alternative to separate technical-service procurement, limiting assumptions of unrestricted third-party substitution. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Manufacturer-provided bundled support is a commercial alternative to separate technical-service procurement, limiting assumptions of unrestricted third-party substitution. ([smithsdetection.com](https://www.smithsdetection.com/service/))

23. Hold baggage screening upgrade, Dublin and Cork Airports, Ireland

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate professional-service appointments cover project controls, design oversight and interface management; the broader construction budget is not used as screening-service revenue. ([neccontract.com](https://www.neccontract.com/projects/hold-baggage-screening-upgrade-dublin-and-cork-airports-ireland))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate professional-service appointments cover project controls, design oversight and interface management; the broader construction budget is not used as screening-service revenue. ([neccontract.com](https://www.neccontract.com/projects/hold-baggage-screening-upgrade-dublin-and-cork-airports-ireland))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes three upgraded hold-baggage systems delivered through separate construction, baggage-integration and advisory appointments, completed in March 2023. Supports integrated-system attribution without assuming a universal single-prime model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes three upgraded hold-baggage systems delivered through separate construction, baggage-integration and advisory appointments, completed in March 2023. Supports integrated-system attribution without assuming a universal single-prime model.

24. Corporate Plan 2025-26 to 2029-30 Summary - Financial Overview
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CATSA distinguishes major-checkpoint CT replacement from single-view-to-multiview replacement elsewhere, supporting application-specific projection demand and forecast assumptions. It also discloses capital funding subject to reprofile approval. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/corporate-plan-2025-xx.xx-2029-xx.xx/financial-overview))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CATSA distinguishes major-checkpoint CT replacement from single-view-to-multiview replacement elsewhere, supporting application-specific projection demand and forecast assumptions. It also discloses capital funding subject to reprofile approval. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/corporate-plan-2025-xx.xx-2029-xx.xx/financial-overview))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies single-view equipment as a replacement population, supporting the modeled displacement mechanism rather than an observed global share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies single-view equipment as a replacement population, supporting the modeled displacement mechanism rather than an observed global share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Multiview remains a planned purchasing destination at non-passenger checkpoints and Class xx.xx airports, qualifying universal CT substitution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Multiview remains a planned purchasing destination at non-passenger checkpoints and Class xx.xx airports, qualifying universal CT substitution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CT replacement is a stated major-checkpoint investment priority, subject to funding and delivery risks; this supports direction, not the modeled global share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CT replacement is a stated major-checkpoint investment priority, subject to funding and delivery risks; this supports direction, not the modeled global share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The plan includes additional screening equipment and expansion of existing hold-baggage screening capacity. Its FY2025/xx.xx capital budget is C$xx.xx across mixed activities; plans are not recognized supplier revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The plan includes additional screening equipment and expansion of existing hold-baggage screening capacity. Its FY2025/xx.xx capital budget is C$xx.xx across mixed activities; plans are not recognized supplier revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The plan distinguishes replacement of checkpoint X-ray equipment with CT and asset lifecycle renewal from additional capacity. Funding, partner timing and reprofiling qualify forecast realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The plan distinguishes replacement of checkpoint X-ray equipment with CT and asset lifecycle renewal from additional capacity. Funding, partner timing and reprofiling qualify forecast realization.
25. ECAC CEP Public Equipment List - Explosive Detection Systems, Update 18 April 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 list retains XRD xx.xx supporting the legacy commercial-category premise but not the assumed installed cohort or sales volume. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-EDS-equipment_public_list_update_20250418.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 list retains XRD xx.xx supporting the legacy commercial-category premise but not the assumed installed cohort or sales volume. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-EDS-equipment_public_list_update_20250418.pdf))

26. Partners - HALO X-ray Technologies Ltd

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named airport pilots and approximately USD xx.xx and USD xx.xx development programs establish commercialization activity and program scale, not realized annual XRD equipment revenue. ([haloxray.com](https://www.haloxray.com/partners))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named airport pilots and approximately USD xx.xx and USD xx.xx development programs establish commercialization activity and program scale, not realized annual XRD equipment revenue. ([haloxray.com](https://www.haloxray.com/partners))

27. Explosives Trace Detectors (ETDs): Market Survey Report, November 2021

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Historical IONSCAN xx.xx list-price configurations around USD xx.xx-xx.xx constrain the IMS price class; they do not establish 2025 purchasing volumes or realizations. ([dhs.gov](https://dhs.gov/sites/default/files/2021-xx.xx/SAVER_Explosives%20Trace%20Detectors%20MSR_08Nov2021_Final-xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Historical IONSCAN xx.xx list-price configurations around USD xx.xx-xx.xx constrain the IMS price class; they do not establish 2025 purchasing volumes or realizations. ([dhs.gov](https://dhs.gov/sites/default/files/2021-xx.xx/SAVER_Explosives%20Trace%20Detectors%20MSR_08Nov2021_Final-xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The Fido X4 historical USD xx.xx list-price benchmark supports the explicit nominal-price bridge; baggage attribution and unit mix remain modeled.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The Fido X4 historical USD xx.xx list-price benchmark supports the explicit nominal-price bridge; baggage attribution and unit mix remain modeled.

28. Astrotech Corporation - Form 10-K for the Fiscal Year Ended June 30, 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Discloses FY2025 product and service revenue, xx.xx deployment locations, and a six-unit USD xx.xx order. These provide a price comparator and supplier-scale check, not baggage-only revenue. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20250630_10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Discloses FY2025 product and service revenue, xx.xx deployment locations, and a six-unit USD xx.xx order. These provide a price comparator and supplier-scale check, not baggage-only revenue. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20250630_10k.htm))

29. Astrotech Corporation - Form 10-K for the Fiscal Year Ended June 30, 2026

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports eight TRACER units sold in FY2025 versus three in FY2026, identifies grant-related revenue within FY2025 product revenue, and describes a potential subsidiary sale. These constrain MS attribution and forecast optimism. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20260630_10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports eight TRACER units sold in FY2025 versus three in FY2026, identifies grant-related revenue within FY2025 product revenue, and describes a potential subsidiary sale. These constrain MS attribution and forecast optimism. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20260630_10k.htm))

30. Liquid Explosive Detector, Bottle Liquid Scanner, Insight - Agilent

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Raman-based airport resolution products and dated September 2025 launch and May 2026 contract announcements. Supports category continuity and adoption premises, not global unit or revenue shares. ([agilent.com](https://www.agilent.com/en/product/molecular-spectroscopy/raman-spectroscopy/raman-aviation-security-systems/insight-series-alarm-resolution-systems))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Raman-based airport resolution products and dated September 2025 launch and May 2026 contract announcements. Supports category continuity and adoption premises, not global unit or revenue shares. ([agilent.com](https://www.agilent.com/en/product/molecular-spectroscopy/raman-spectroscopy/raman-aviation-security-systems/insight-series-alarm-resolution-systems))

31. Bottle Liquid Scanner for Sale from China - Securina

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Positions microwave-based liquid-screening products for airports and customs. Supports commercial classification only; prices, authorization and purchasing weights remain assumptions. ([securinadetection.com](https://www.securinadetection.com/Bottle-Liquid-Scanner-Manufacturer-China.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Positions microwave-based liquid-screening products for airports and customs. Supports commercial classification only; prices, authorization and purchasing weights remain assumptions. ([securinadetection.com](https://www.securinadetection.com/Bottle-Liquid-Scanner-Manufacturer-China.html))

32. Quick, Accurate Threat-Detection Scanner for Liquid, Aerosol, and Gels Eases and Secures Air Travel Worldwide

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies LS10 as a complete commercial liquid scanner combining RF and ultrasonic capabilities, supporting nonduplicative complete-product attribution. ([battelle.org](https://www.battelle.org/insights/case-studies/case-study-details/quick-accurate-threat-detection-scanner-for-liquid-aerosol-and-gels-eases-and-secures-air-travel-worldwide))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies LS10 as a complete commercial liquid scanner combining RF and ultrasonic capabilities, supporting nonduplicative complete-product attribution. ([battelle.org](https://www.battelle.org/insights/case-studies/case-study-details/quick-accurate-threat-detection-scanner-for-liquid-aerosol-and-gels-eases-and-secures-air-travel-worldwide))

33. ECAC CEP Public Equipment List - Liquid Explosive Detection Systems, Update 10 July 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 list includes One Resonance Sensors MobiLab BLS. This supports retained listed status for a named product, not active supply, paid installed stock or observed receipts. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-LEDS%20equipment%20public%20list-update%xx.xx-xx.xx-rev1.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 list includes One Resonance Sensors MobiLab BLS. This supports retained listed status for a named product, not active supply, paid installed stock or observed receipts. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-LEDS%20equipment%20public%20list-update%xx.xx-xx.xx-rev1.pdf))

34. MobiLab BLS Bottled Liquid Scanner Endorsed By European Civil Aviation Conference

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's May xx.xx 2014 announcement identifies MobiLab BLS as an NMR-based airport liquid scanner and states that orders were being accepted. Establishes historical commercial offering, not 2025 deliveries. ([prnewswire.com](https://www.prnewswire.com/news-releases/mobilab-bls-bottled-liquid-scanner-endorsed-by-european-civil-aviation-conference-xx.xx.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's May xx.xx 2014 announcement identifies MobiLab BLS as an NMR-based airport liquid scanner and states that orders were being accepted. Establishes historical commercial offering, not 2025 deliveries. ([prnewswire.com](https://www.prnewswire.com/news-releases/mobilab-bls-bottled-liquid-scanner-endorsed-by-european-civil-aviation-conference-xx.xx.html))

35. SafePointe BLS Powered by ORS - Bottled Liquid Explosives Detection Solution

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The branded supplier brochure documents an ORS-powered bottled-liquid product channel. Its availability does not establish current orders or support continuity; it supports only the legacy-channel modeling premise. ([uploads-ssl.webflow.com](https://uploads-ssl.webflow.com/608330bcae48962bf6d7ff37/6149f80be6c30d34b5e3debe_BLS-Flyer-Compressed.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The branded supplier brochure documents an ORS-powered bottled-liquid product channel. Its availability does not establish current orders or support continuity; it supports only the legacy-channel modeling premise. ([uploads-ssl.webflow.com](https://uploads-ssl.webflow.com/608330bcae48962bf6d7ff37/6149f80be6c30d34b5e3debe_BLS-Flyer-Compressed.pdf))

36. Florida Division of Corporations - One Resonance Sensors, LLC, Entity Detail

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official registry records One Resonance Sensors, LLC as inactive following administrative dissolution on September xx.xx 2019. This counterevidence constrains continuity assumptions but does not prove zero surviving product support. ([search.sunbiz.org](https://search.sunbiz.org/Inquiry/CorporationSearch/SearchResultDetail?aggregateId=flal-l11000122986-c57f60b3-690d-4c87-836a-9aeb045075e8&directionType=CurrentList&inquirytype=EntityName&listNameOrder=ONERESONANCESENSORS+L110001229860&searchNameOrder=ONERESONANCESENSORS+L110001229860&searchTerm=ONE+RED+AMPERSAND+LLC))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official registry records One Resonance Sensors, LLC as inactive following administrative dissolution on September xx.xx 2019. This counterevidence constrains continuity assumptions but does not prove zero surviving product support. ([search.sunbiz.org](https://search.sunbiz.org/Inquiry/CorporationSearch/SearchResultDetail?aggregateId=flal-l11000122986-c57f60b3-690d-4c87-836a-9aeb045075e8&directionType=CurrentList&inquirytype=EntityName&listNameOrder=ONERESONANCESENSORS+L110001229860&searchNameOrder=ONERESONANCESENSORS+L110001229860&searchTerm=ONE+RED+AMPERSAND+LLC))

37. Explosive Detection - Teledyne FLIR Defense

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists offered Fido X-series products and service support, supporting commercial offering continuity only, not airport-specific eligibility or sales weights. ([flir.com](https://www.flir.com/threat-detection/explosives/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists offered Fido X-series products and service support, supporting commercial offering continuity only, not airport-specific eligibility or sales weights. ([flir.com](https://www.flir.com/threat-detection/explosives/))

38. Scintrex Trace E3500 Explosive Trace Detection Unit - SecurityPro USA

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distributor offers E3500 chemiluminescence equipment and identifies customs/border applications. Supports a commercial category lead, not measured airport purchasing or the assumed price. ([securityprousa.com](https://www.securityprousa.com/collections/explosive-detection/products/scintrex-trace-e3500-explosive-trace-detection-unit))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distributor offers E3500 chemiluminescence equipment and identifies customs/border applications. Supports a commercial category lead, not measured airport purchasing or the assumed price. ([securityprousa.com](https://www.securityprousa.com/collections/explosive-detection/products/scintrex-trace-e3500-explosive-trace-detection-unit))

39. Portable Explosive Detector - Trace Detector EVD-3000+

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distributor offers EVD-xx.xx+ thermo-redox equipment. Supports offered-product classification, not airport authorization, purchasing volume or the modeled realization. ([securityprousa.com](https://www.securityprousa.com/products/scintrex-trace-evd-xx.xx-portable-trace-detection-unit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distributor offers EVD-xx.xx+ thermo-redox equipment. Supports offered-product classification, not airport authorization, purchasing volume or the modeled realization. ([securityprousa.com](https://www.securityprousa.com/products/scintrex-trace-evd-xx.xx-portable-trace-detection-unit))

40. CATSA's Purchase Order Terms and Conditions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contract terms constrain maintenance, parts and consumables escalation, qualifying unrestricted aftermarket pricing assumptions in the projection lifecycle model. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contract terms constrain maintenance, parts and consumables escalation, qualifying unrestricted aftermarket pricing assumptions in the projection lifecycle model. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contractual price limits constrain the pricing premise, but do not verify CT-specific global support receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contractual price limits constrain the pricing premise, but do not verify CT-specific global support receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintenance and consumable escalation limits qualify the trace-platform pricing assumption rather than establishing the modeled IMS share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintenance and consumable escalation limits qualify the trace-platform pricing assumption rather than establishing the modeled IMS share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The pre-existing-software clause grants broad license rights without transferring ownership; proprietary ownership alone therefore cannot establish the Closed revenue numerator. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The pre-existing-software clause grants broad license rights without transferring ownership; proprietary ownership alone therefore cannot establish the Closed revenue numerator. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Software modification rights are not themselves proof of standards-based interfaces or independent component substitution; supports conservative classification. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Software modification rights are not themselves proof of standards-based interfaces or independent component substitution; supports conservative classification. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))

41. Liquids Scanner for Airport Security - UC Davis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2011 account establishes a development contract and licensing relationship. Its development allocation is excluded from 2025 receipts and does not establish a surviving commercial cohort. ([ucdavis.edu](https://www.ucdavis.edu/news/liquids-scanner-airport-security))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2011 account establishes a development contract and licensing relationship. Its development allocation is excluded from 2025 receipts and does not establish a surviving commercial cohort. ([ucdavis.edu](https://www.ucdavis.edu/news/liquids-scanner-airport-security))
42. Open Architecture for Airport Security Systems, Second Edition
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes proprietary integration from interoperable connections, supporting the category boundary rather than an observed revenue share. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes proprietary integration from interoperable connections, supporting the category boundary rather than an observed revenue share. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Integration does not guarantee interoperability; this constrains attribution of vendor-mediated configurations. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Integration does not guarantee interoperability; this constrains attribution of vendor-mediated configurations. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Allows identified partial compliance and discusses accountable integration responsibilities; supports scoped open attribution, not whole-purchase reclassification. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Allows identified partial compliance and discusses accountable integration responsibilities; supports scoped open attribution, not whole-purchase reclassification. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))

43. CATSA 2025 Annual Report - Overview of Activities

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines across xx.xx airports serving more than xx.xx% of passengers in 2024/xx.xx; provides an independent integration-activity check, not a direct value allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines across xx.xx airports serving more than xx.xx% of passengers in 2024/xx.xx; provides an independent integration-activity check, not a direct value allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported modernized passenger coverage constrains an assumption of universally standalone activity, while leaving commercial architecture and revenue attribution unresolved. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported modernized passenger coverage constrains an assumption of universally standalone activity, while leaving commercial architecture and revenue attribution unresolved. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The annual report identifies enhanced non-passenger requirements and implementation planned from spring 2025. This supports a conditional modernization premise, not the modeled global uptake factor.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2024/xx.xx; provides a Canadian adoption comparator, not a global local-review revenue weight. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2024/xx.xx; provides a Canadian adoption comparator, not a global local-review revenue weight. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies remote screening within CATSA Plus and quantifies deployment; constrains the commercial-adoption premise but does not establish each review room's location. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies remote screening within CATSA Plus and quantifies deployment; constrains the commercial-adoption premise but does not establish each review room's location. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Deployment coverage constrains the addressable network-enabled pool; it does not disclose hybrid contracts or justify the modeled hybrid percentage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Deployment coverage constrains the addressable network-enabled pool; it does not disclose hybrid contracts or justify the modeled hybrid percentage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))

44. CATSA - Beyond the Checkpoint, December 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx operational CT machines at eight airports and a modular-line average of xx.xx passengers per hour versus xx.xx for traditional multi-split lines; supports the bounded throughput-to-unit bridge and phased-deployment premise. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/about-us/beyond-checkpoint-2025-december))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx operational CT machines at eight airports and a modular-line average of xx.xx passengers per hour versus xx.xx for traditional multi-split lines; supports the bounded throughput-to-unit bridge and phased-deployment premise. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/about-us/beyond-checkpoint-2025-december))

45. Smiths Detection Delivers Fully Automated International Remote Baggage Screening System Between South Korea and the United States

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2026 disclosure identifies xx.xx software licenses and DICOS V3.xx.xx exchange, and dates operational service to August 2025. Supports commercial standards-based activity and forecast feasibility, not an observed global share or a confirmed 2025 license inventory. ([smithsdetection.com](https://www.smithsdetection.com/press-releases/smiths-detection-delivers-fully-automated-international-remote-baggage-screening-system-between-south-korea-and-the-united-states/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2026 disclosure identifies xx.xx software licenses and DICOS V3.xx.xx exchange, and dates operational service to August 2025. Supports commercial standards-based activity and forecast feasibility, not an observed global share or a confirmed 2025 license inventory. ([smithsdetection.com](https://www.smithsdetection.com/press-releases/smiths-detection-delivers-fully-automated-international-remote-baggage-screening-system-between-south-korea-and-the-united-states/))

46. SeeTrue Marks Milestone with Over 100 X-ray Checkpoint Installations of Advanced AI-Based Threat Detection Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 announcement reports the 100th operational screening lane across airports and other sectors. Provides a limited commercial-adoption scale check; it is neither airport-only nor a census of standards-based entitlements. ([seetrue.ai](https://www.seetrue.ai/seetrue-marks-milestone-with-over-xx.xx-x-ray-checkpoint-installations-of-advanced-ai-based-threat-detection-software/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 announcement reports the 100th operational screening lane across airports and other sectors. Provides a limited commercial-adoption scale check; it is neither airport-only nor a census of standards-based entitlements. ([seetrue.ai](https://www.seetrue.ai/seetrue-marks-milestone-with-over-xx.xx-x-ray-checkpoint-installations-of-advanced-ai-based-threat-detection-software/))

47. Scarabee's Checkpoint Property Screening System to be deployed at DEN

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-lane Denver award combining Scarabee lanes with Smiths scanners. Corroborates a commercial mixed-supplier integration route; an award is not realized annual revenue or proof of unrestricted interoperability. ([daifukuatec.com](https://daifukuatec.com/news/scarabees-checkpoint-property-screening-system-to-be-deployed-at-den))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-lane Denver award combining Scarabee lanes with Smiths scanners. Corroborates a commercial mixed-supplier integration route; an award is not realized annual revenue or proof of unrestricted interoperability. ([daifukuatec.com](https://daifukuatec.com/news/scarabees-checkpoint-property-screening-system-to-be-deployed-at-den))

48. CATSA Annual Report 2024 - Management's Discussion and Analysis

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx pre-board capital appropriations used of C$xx.xx provide the second period in the non-passenger-to-cabin purchasing comparison.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx non-passenger capital appropriations used of C$xx.xx enter the two-period activity proxy; they do not identify the property-only fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx non-passenger capital appropriations used of C$xx.xx enter the two-period activity proxy; they do not identify the property-only fraction.

49. Smiths Detection confirm order of 91 advanced scanners for new terminals at Moscow Sheremetyevo International Airport
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The dated airport deployment includes xx.xx entrance baggage systems and xx.xx cabin-checkpoint systems. Their ratio supplies a historical relative-density proxy, subsequently discounted for assumed global coverage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated airport deployment includes xx.xx entrance baggage systems and xx.xx cabin-checkpoint systems. Their ratio supplies a historical relative-density proxy, subsequently discounted for assumed global coverage.
50. Cochin International Airport Selects Smiths Detection's CTX 9800 for Next-Generation Hold Baggage Screening
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2017 deployment identifies xx.xx customs baggage systems alongside four hold-baggage systems. This supports the customs-intensive historical configuration proxy, not current global fleet or revenue observations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2017 deployment identifies xx.xx customs baggage systems alongside four hold-baggage systems. This supports the customs-intensive historical configuration proxy, not current global fleet or revenue observations.
51. CATSA Functions, Programs and Activities
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Hold-baggage activities include equipment purchase, baggage-handling integration and equipment maintenance, supporting the checked-baggage capital and lifecycle boundary.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Hold-baggage activities include equipment purchase, baggage-handling integration and equipment maintenance, supporting the checked-baggage capital and lifecycle boundary.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-passenger screening covers airport workers and their belongings; only attributable property-screening offerings enter this allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-passenger screening covers airport workers and their belongings; only attributable property-screening offerings enter this allocation.
52. Fraport TAV Antalya Airport - About the security control itself
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The airport operator distinguishes terminal-entry security from a subsequent checkpoint. This supports a separate entrance-screening mission while providing no global prevalence or spending share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport operator distinguishes terminal-entry security from a subsequent checkpoint. This supports a separate entrance-screening mission while providing no global prevalence or spending share.
53. EMSD VoiceLink, Issue 79, June 2026 - EMSD Provides Comprehensive Support for Terminal 2 Commissioning
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June 2026 account identifies baggage-and-parcel equipment procurement and installation for the customs authority at Terminal xx.xx. It supports a separate commissioning mission but does not isolate baggage expenditure.
54. GAO-26-107811 - Guam: Considerations for Evaluating Alternative Customs Models and Potential Economic Effects
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The audit identifies two historical airport-customs baggage systems inactive for years and delayed replacement procurement. This challenges conversion of installed stock or acknowledged need directly into annual equipment and support revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The audit identifies two historical airport-customs baggage systems inactive for years and delayed replacement procurement. This challenges conversion of installed stock or acknowledged need directly into annual equipment and support revenue.

55. Bennet, Moran, Van Hollen, Boozman Introduce Bill to Bolster Aviation Safety
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 official release identifies xx.xx U.S. screening lanes, used as agency purchasing-exposure calibration rather than observed annual equipment sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 official release identifies xx.xx U.S. screening lanes, used as agency purchasing-exposure calibration rather than observed annual equipment sales.
56. Bank of Canada - Annual exchange rates
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual exchange-rate observations support the inherited fiscal-period approximation of xx.xx Canadian dollars per U.S. dollar; this is not a transaction-weighted exchange rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual exchange-rate observations support the inherited fiscal-period approximation of xx.xx Canadian dollars per U.S. dollar; this is not a transaction-weighted exchange rate.
57. Japan’s leading airline revolutionizes check in experience with new Smiths Detection technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The August 2023 announcement identifies JAL as customer for five screening ecosystems and reports xx.xx deployed iLane units across Japan. These are historical commercial-stock anchors, not an airline-only fleet or 2025 sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August 2023 announcement identifies JAL as customer for five screening ecosystems and reports xx.xx deployed iLane units across Japan. These are historical commercial-stock anchors, not an airline-only fleet or 2025 sales observation.
58. Narita International Airport anticipates threats with integrated solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Narita airport as a screening-technology customer and describes xx.xx lane-related installations, qualifying any assumption that the supplier's Japanese installed stock was purchased entirely by airlines.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Narita airport as a screening-technology customer and describes xx.xx lane-related installations, qualifying any assumption that the supplier's Japanese installed stock was purchased entirely by airlines.
59. MLIT - 保安検査の実施主体が変わります！ - June 27, 2025
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement targets transfer of security-screening responsibility from airlines to airport managers, with leading cases targeted in FY2026. Supports a conditional reduction in airline purchasing, not an observed contract-transfer percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transfer direction supports modeled airport-manager purchasing gains. Continued shared financing does not imply equal purchasing shares.
60. ICTS International N.V. - Annual Report for the year ended December 31, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Discloses USD xx.xx company-wide property/equipment purchases and USD xx.xx airport-security revenue in 2025. Supports an asset-light purchasing-intensity proxy; the in-scope fraction and global expansion remain assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Discloses USD xx.xx company-wide property/equipment purchases and USD xx.xx airport-security revenue in 2025. Supports an asset-light purchasing-intensity proxy; the in-scope fraction and global expansion remain assumptions.

61. EU Publications Office - Purchase and maintenance of non-intrusive X-ray inspection equipment for baggage and air cargo volume control
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Autoridade Tributária e Aduaneira as buyer and reports a 2026 award of EUR xx.xx across four lots for baggage/air-cargo inspection equipment and maintenance. Provides a buyer-role and commercial-scale comparator, not 2025 baggage-only annual expenditure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Autoridade Tributária e Aduaneira as buyer and reports a 2026 award of EUR xx.xx across four lots for baggage/air-cargo inspection equipment and maintenance. Provides a buyer-role and commercial-scale comparator, not 2025 baggage-only annual expenditure.
62. ACI World - Busiest Airports in the World
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx international airport passenger movements in 2025. Half provides an approximate arrival-movement scale check before transfer exclusions, not a customs examination or equipment-purchasing weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx international airport passenger movements in 2025. Half provides an approximate arrival-movement scale check before transfer exclusions, not a customs examination or equipment-purchasing weight.
63. Heathrow announces £2.3bn accelerated investment plan to upgrade the UK's international gateway to growth
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports GBP xx.xx invested in security-lane upgrades during 2024, supporting material airport-directed purchasing. Broader infrastructure obligations and historical timing prevent treating the amount as 2025 in-scope market receipts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports GBP xx.xx invested in security-lane upgrades during 2024, supporting material airport-directed purchasing. Broader infrastructure obligations and historical timing prevent treating the amount as 2025 in-scope market receipts.
64. Fraport Assumes Responsibility for Aviation Security Checks at Frankfurt Airport
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents Fraport's checkpoint-management responsibility from January 2023, six initial CT-equipped lanes and three contracted screening providers. Supports distinguishing an airport commissioning role from regulator oversight and contracted screening labor.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents Fraport's checkpoint-management responsibility from January 2023, six initial CT-equipped lanes and three contracted screening providers. Supports distinguishing an airport commissioning role from regulator oversight and contracted screening labor.
65. Advanced Cabin Baggage Screening - Computed Tomography Implementation Guide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes standalone CT, including equipment-local conveyance, from integrated screening-lane configurations; supports attribution boundaries, not a revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes standalone CT, including equipment-local conveyance, from integrated screening-lane configurations; supports attribution boundaries, not a revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies automated tray-return and automated screening-lane integration as commercially distinct configurations; supports the lane-integrated category definition.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies automated tray-return and automated screening-lane integration as commercially distinct configurations; supports the lane-integrated category definition.

66. GAO-12-266 - Checked Baggage Screening: TSA Has Deployed Optimal Systems at the Majority of TSA-Regulated Airports, but Could Strengthen Cost Estimates

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December 2011 table reports xx.xx standalone EDS alongside xx.xx in-line EDS; this historical machine-count comparator constrains, but does not determine, the current global allocation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December 2011 table reports xx.xx standalone EDS alongside xx.xx in-line EDS; this historical machine-count comparator constrains, but does not determine, the current global allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx in-line EDS across xx.xx in-line systems and distinguishes equipment counts from integrated-system counts; supports the historical configuration bridge.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx in-line EDS across xx.xx in-line systems and distinguishes equipment counts from integrated-system counts; supports the historical configuration bridge.

67. Smiths Detection selected as security technology provider to International Airport Heraklion Crete

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 announcement identifies eight cabin CT scanners and eight automated tray-return systems for Heraklion, with installation planned across late 2025 and mid-2026; supports ongoing integrated procurement, not realized annual revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 announcement identifies eight cabin CT scanners and eight automated tray-return systems for Heraklion, with installation planned across late 2025 and mid-2026; supports ongoing integrated procurement, not realized annual revenue.

68. Centralised Image Processing: The Impact on Security Checkpoints

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes checkpoint-local image review from separate-room arrangements; supports retaining networked local activity rather than automatically assigning it to remote review. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes checkpoint-local image review from separate-room arrangements; supports retaining networked local activity rather than automatically assigning it to remote review. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes separate screening rooms and established remote hold-baggage review at larger airports; supports the cohort-maturity premise, not a numerical global share. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes separate screening rooms and established remote hold-baggage review at larger airports; supports the cohort-maturity premise, not a numerical global share. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes combined checkpoint and remote-room arrangements, establishing a mixed-location commercial configuration without measuring its prevalence or price. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes combined checkpoint and remote-room arrangements, establishing a mixed-location commercial configuration without measuring its prevalence or price. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))

69. Annual Report 2024 - CATSA's Operating Environment

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2023/xx.xx providing the historical comparison rather than a global location allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2023/xx.xx providing the historical comparison rather than a global location allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Together with the subsequent annual report, supports a seven-line deployment increase without a corresponding increase in reported passenger coverage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Together with the subsequent annual report, supports a seven-line deployment increase without a corresponding increase in reported passenger coverage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provides a historical network-enabled deployment anchor, while leaving the physical mixed-location contract share unmeasured. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provides a historical network-enabled deployment anchor, while leaving the physical mixed-location contract share unmeasured. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))

70. L22020-T-TG Upgrades to the Passenger Search Area, body scanners, EDS C3 cabin baggage screening - Contract Award Notice

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2023 Luton award expressly includes construction of a remote screening room at the airport terminal, supporting separate-room commercial procurement. Its broader scope is not treated as baggage-only annual revenue. ([find-tender.service.gov.uk](https://www.find-tender.service.gov.uk/Notice/xx.xx-2023))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2023 Luton award expressly includes construction of a remote screening room at the airport terminal, supporting separate-room commercial procurement. Its broader scope is not treated as baggage-only annual revenue. ([find-tender.service.gov.uk](https://www.find-tender.service.gov.uk/Notice/xx.xx-2023))

71. Greater Orlando Aviation Authority - Minutes of the February 19, 2025 Meeting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Authorizes up to USD xx.xx for baggage-system and Remote Screening Facility network/server separation. Half this ceiling is an explicitly assumed deployment-cost comparator, not observed off-site receipts. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Authorizes up to USD xx.xx for baggage-system and Remote Screening Facility network/server separation. Half this ceiling is an explicitly assumed deployment-cost comparator, not observed off-site receipts. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provides the commercial networking-cost anchor for the modeled transfer from existing on-site pools, avoiding additional market value or duplicate host-equipment attribution. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provides the commercial networking-cost anchor for the modeled transfer from existing on-site pools, avoiding additional market value or duplicate host-equipment attribution. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))

72. American and U.S. Customs and Border Protection pilot innovative baggage screening initiative

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: American's April xx.xx 2025 announcement identifies a daily Sydney-Los Angeles IRBS pilot and unchanged screening requirements. It anchors one sampled connection and an assumed partial-year licensing period, not disclosed revenue. ([s202.q4cdn.com](https://s202.q4cdn.com/xx.xx/files/doc_news/American-and-US-Customs-and-Border-Protection-pilot-innovative-baggage-screening-initiative-OPS-OTH-xx.xx-2025.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: American's April xx.xx 2025 announcement identifies a daily Sydney-Los Angeles IRBS pilot and unchanged screening requirements. It anchors one sampled connection and an assumed partial-year licensing period, not disclosed revenue. ([s202.q4cdn.com](https://s202.q4cdn.com/xx.xx/files/doc_news/American-and-US-Customs-and-Border-Protection-pilot-innovative-baggage-screening-initiative-OPS-OTH-xx.xx-2025.pdf))

73. 델타항공-대한항공, 인천발 애틀랜타 노선 대상 위탁수하물 원격 검색 방식 신규 도입

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2025 announcement identifies the Incheon-Atlanta IRBS arrangement, anchoring a second sampled connection and a partial-year commercial-activity assumption without establishing contract value. ([news.delta.com](https://news.delta.com/delta-and-koreanair-launch-remote-baggage-screening-on-icn-atl-KR))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2025 announcement identifies the Incheon-Atlanta IRBS arrangement, anchoring a second sampled connection and a partial-year commercial-activity assumption without establishing contract value. ([news.delta.com](https://news.delta.com/delta-and-koreanair-launch-remote-baggage-screening-on-icn-atl-KR))

74. United Launches CBP's International Remote Baggage Screening on Select International Flights

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: United's September xx.xx 2025 announcement identifies daily Sydney-San Francisco service and named technology partners, anchoring a third sampled connection. It reports no attributable software or integration receipts. ([united.mediaroom.com](https://united.mediaroom.com/2025-xx.xx-xx.xx-United-Launches-CBPs-International-Remote-Baggage-Screening-on-Select-International-Flights))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: United's September xx.xx 2025 announcement identifies daily Sydney-San Francisco service and named technology partners, anchoring a third sampled connection. It reports no attributable software or integration receipts. ([united.mediaroom.com](https://united.mediaroom.com/2025-xx.xx-xx.xx-United-Launches-CBPs-International-Remote-Baggage-Screening-on-Select-International-Flights))

75. Airline Passengers Face Fewer Bag Checkpoints, Thanks to PNNL, Partners

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2026 laboratory release describes implementation on additional routes, including Seoul arrivals at Minneapolis-St. Paul and Detroit. This supports expansion direction, not the forecast connection count, realization or global share. ([pnnl.gov](https://www.pnnl.gov/news-media/airline-passengers-face-fewer-bag-checkpoints-thanks-pnnl-partners))

76. TSA awards $781.2 million to procure additional CT X-Ray scanners for airport checkpoints

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2022 announcement identifies up to USD xx.xx for procurement and maintenance of up to xx.xx systems from an OEM. This is a historical procurement-scale anchor, not annual 2025 direct-channel revenue. ([content.govdelivery.com](https://content.govdelivery.com/accounts/USDHSTSA/bulletins/30f6e5f))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The award includes full-size automated lanes, cautioning against assigning all automation value to non-OEM integration primes; exact contractual-role attribution is not disclosed. ([content.govdelivery.com](https://content.govdelivery.com/accounts/USDHSTSA/bulletins/30f6e5f))

77. OSI Systems, Inc. - Form 10-K for the fiscal year ended June 30, 2026

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing describes regional direct security-product sales and direct maintenance relationships. Its broader security scope supports route coexistence, not baggage-only sales weights. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing describes regional direct security-product sales and direct maintenance relationships. Its broader security scope supports route coexistence, not baggage-only sales weights. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company identifies a global independent-distributor network, supporting a continuing indirect route without quantifying its value share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company identifies a global independent-distributor network, supporting a continuing indirect route without quantifying its value share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Authorized service providers are identified separately from distributors, supporting distinct technical-service attribution and access limitations. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Authorized service providers are identified separately from distributors, supporting distinct technical-service attribution and access limitations. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

78. SriLankan Airlines - Invitation for Supply, Installation, Commissioning and Maintenance of Dual View Heavy and Medium X-Ray Machines, Reference 202130407

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 purchaser invitation permits an OEM or authorized OEM agent and requires authorization for the latter. It establishes equipment-channel eligibility, not an award or software-resale right. ([srilankan.com](https://www.srilankan.com/download/tender/TN-Invitationforsubmiss-xx.xx.pdf))

79. JFK Millennium Partners Selects K2 to Deliver State-of-the-Art Security Screening Checkpoint at new JFK Terminal 6

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment assigns procurement and deployment coordination across multiple technology suppliers at a future ten-gate terminal. It supports integration-prime participation and a forecast mechanism, not a disclosed share or completed 2025 revenue. ([portauthoritybuilds.com](https://www.portauthoritybuilds.com/redevelopment/us/en/jfk/planned-projects/terminal-xx.xx/news/jfk-millennium-partners-selects-k2-to-deliver-state-of-the-art-s.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment assigns procurement and deployment coordination across multiple technology suppliers at a future ten-gate terminal. It supports integration-prime participation and a forecast mechanism, not a disclosed share or completed 2025 revenue. ([portauthoritybuilds.com](https://www.portauthoritybuilds.com/redevelopment/us/en/jfk/planned-projects/terminal-xx.xx/news/jfk-millennium-partners-selects-k2-to-deliver-state-of-the-art-s.html))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment covers baggage CT and automated bin-return equipment for a future xx.xx-gate terminal, with phased opening planned for 2026-2028. It establishes new-installation activity, not attributable 2025 receipts; wider airport investment and person-only technologies are excluded.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment covers baggage CT and automated bin-return equipment for a future xx.xx-gate terminal, with phased opening planned for 2026-2028. It establishes new-installation activity, not attributable 2025 receipts; wider airport investment and person-only technologies are excluded.

80. CATSA Corporate Plan 2024-25 to 2028-29 Summary - Key Corporate Risks

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The authority reports transferring maintenance of most screening equipment to KPrime in 2023/xx.xx. This establishes a separately contracted maintenance relationship, without a baggage-only payment split. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/key-corporate-risks))

81. Leidos wins TSA logistics contract

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 announcement describes an eight-year, USD xx.xx maximum sustainment contract covering xx.xx equipment units at over xx.xx locations with manufacturer coordination. Annualization and baggage/third-party attribution in the model are explicit assumptions. ([leidos.com](https://www.leidos.com/insights/leidos-wins-tsa-logistics-contract))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 announcement describes an eight-year, USD xx.xx maximum sustainment contract covering xx.xx equipment units at over xx.xx locations with manufacturer coordination. Annualization and baggage/third-party attribution in the model are explicit assumptions. ([leidos.com](https://www.leidos.com/insights/leidos-wins-tsa-logistics-contract))

82. Checkpoint Transformation: Malta International Airport Streamlines Passenger Flow with Smiths Detection
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Seven conventional automated lanes were replaced by six CT-equipped lanes, with final commissioning in January 2025. This is a counterexample to equating capacity improvement with net additional equipment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seven conventional automated lanes were replaced by six CT-equipped lanes, with final commissioning in January 2025. This is a counterexample to equating capacity improvement with net additional equipment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The complete checkpoint replacement illustrates why an offering described commercially as an upgrade can belong to System Replacement. The seven-year service commitment is not counted wholly as installation-year revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The complete checkpoint replacement illustrates why an offering described commercially as an upgrade can belong to System Replacement. The seven-year service commitment is not counted wholly as installation-year revenue.
83. iCMORE - Smiths Detection
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current commercial offering describes a software-upgrade path while qualifying additional hardware requirements by machine type and age. This constrains forecast eligibility assumptions; product availability does not measure adoption or revenue.

18.6. India

Table 500. India Airport Baggage Screening Systems Market Size, 2017-2040 (USD Million)

Sources & Evidence

1. House Report 119-173 - Department of Homeland Security Appropriations Bill, 2026

   · Evidence informing the 2030 market-value input; displayed series and growth include calculations: The aging installed fleet supports replacement demand, but does not establish the forecast's realization dates or annual purchasing rate. ([govinfo.gov](https://www.govinfo.gov/content/pkg/CRPT-119hrpt173/html/CRPT-119hrpt173.htm))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report identifies xx.xx end-of-life systems within a xx.xx-system checked-baggage fleet. This constrains renewal exposure, not realized annual purchasing or a verified global replacement deadline.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports a TSA checked-baggage fleet of xx.xx EDS, including xx.xx at end-of-life, and assigns purchase, installation and maintenance responsibilities to TSA. Supports agency fleet calibration and renewal pressure, not the assumed forecast uplift.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports a TSA checked-baggage fleet of xx.xx EDS, including xx.xx at end-of-life, and assigns purchase, installation and maintenance responsibilities to TSA. Supports agency fleet calibration and renewal pressure, not the assumed forecast uplift.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report identifies xx.xx end-of-life EDS within a xx.xx-unit U.S. checked-baggage fleet, citing the FY2024 capital plan. The derived xx.xx% backlog constrains the aging-fleet premise, but is neither an annual turnover rate nor a funded global replacement forecast.

2. GAO-24-106573 - DHS Annual Assessment: Most Programs Are Meeting Current Goals, but Some Continue to Face Cost and Schedule Challenges

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports plans for xx.xx checkpoint systems and xx.xx increment-one deployments by September 2023; supports an incomplete replacement cycle rather than universal CT adoption. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx AT/CT, xx.xx base, xx.xx mid-size and xx.xx full-size deployments by September 2023; supplies configuration proxies and an incomplete-renewal constraint, not contractual architecture shares. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx AT/CT, xx.xx base, xx.xx mid-size and xx.xx full-size deployments by September 2023; supplies configuration proxies and an incomplete-renewal constraint, not contractual architecture shares. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The deployed configuration mix underlies the xx.xx/xx.xx newer-cohort and xx.xx/xx.xx older-cohort proxy calculations; global and contractual attribution remain modeled. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The deployed configuration mix underlies the xx.xx/xx.xx newer-cohort and xx.xx/xx.xx older-cohort proxy calculations; global and contractual attribution remain modeled. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The assessment records xx.xx checkpoint systems deployed by September 2023 against an eventual xx.xx-system program. This supports an incomplete replacement cycle and qualifies any assumption of universal CT adoption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The assessment records xx.xx checkpoint systems deployed by September 2023 against an eventual xx.xx-system program. This supports an incomplete replacement cycle and qualifies any assumption of universal CT adoption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports a September 2023 U.S. CT cohort containing xx.xx AT/CT and xx.xx base systems, providing counterevidence to assigning all CT activity automatically to integrated lanes.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports a September 2023 U.S. CT cohort containing xx.xx AT/CT and xx.xx base systems, providing counterevidence to assigning all CT activity automatically to integrated lanes.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx mid-size and xx.xx full-size systems within xx.xx deployed CT systems; supports differentiated configuration assumptions rather than treating technology adoption as an integration-share observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx mid-size and xx.xx full-size systems within xx.xx deployed CT systems; supports differentiated configuration assumptions rather than treating technology adoption as an integration-share observation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2024 assessment records xx.xx checkpoint deployments as of September 2023 against xx.xx planned systems replacing aging equipment. It supports staged renewal, but does not establish current deployment completion or the modeled 2032 share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2024 assessment records xx.xx checkpoint deployments as of September 2023 against xx.xx planned systems replacing aging equipment. It supports staged renewal, but does not establish current deployment completion or the modeled 2032 share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The program separately anticipates enhancements to fielded systems, supporting a retained-equipment commercial pathway without supplying an attributable upgrade-revenue split.

3. Global Airport Passenger Traffic Reaches Record 9.8 Billion in 2025, Airports Council International World reports

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports cooling passenger-growth momentum in 2026, supporting moderation of traffic-driven equipment expansion despite continuing replacement demand.
   ([aci.aero](https://aci.aero/2026/xx.xx/xx.xx/global-airport-passenger-traffic-reaches-record-xx.xx-xx.xx-billion-in-2025-airports-council-international-world-reports/))

4. Smiths Group PLC - Full Year Results for the 12 Months Ended 31 July 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Discloses aviation original-equipment revenue of xx.xx and aftermarket revenue of xx.xx for FY2024; supplies historical cycle proxies. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing the 2027 market-value input; displayed series and growth include calculations: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; supports replacement activity, not an observed global forecast. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2025 aviation original-equipment revenue of GBP xx.xx provides an independent equipment-activity scale check, not a global category share. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025 aviation original-equipment revenue of GBP xx.xx provides an independent equipment-activity scale check, not a global category share. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx cumulative CTiX sales corroborate commercial imaging activity and replacement demand; they do not measure annual global sales. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx cumulative CTiX sales corroborate commercial imaging activity and replacement demand; they do not measure annual global sales. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: GBP xx.xx aviation aftermarket revenue supports lifecycle materiality while qualifying transfer of one supplier's mix to the global service allocation. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GBP xx.xx aviation aftermarket revenue supports lifecycle materiality while qualifying transfer of one supplier's mix to the global service allocation. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; cumulative sales constrain commercial scale but are not annual global shipments. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; cumulative sales constrain commercial scale but are not annual global shipments. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports four operating XDi units as of July 2025 and pending regulatory certification, constraining the small XRD cohort and qualifying aggressive commercialization assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports four operating XDi units as of July 2025 and pending regulatory certification, constraining the small XRD cohort and qualifying aggressive commercialization assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported checkpoint modernization provides a commercial reason to model substitution from discrete legacy offerings; the filing does not disclose standalone configuration revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025

5. Smiths Group PLC - Annual Report & Accounts FY2023
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: Reports FY2022 aviation original-equipment revenue of xx.xx, used as a dimensionless historical capital-cycle proxy. ([www-live.smiths.com](https://www-live.smiths.com/media/phjp1j44/smiths-annual-report-2023.pdf))
   - Evidence informing the 2023 market-value input; displayed series and growth include calculations: Reports FY2023 aviation original-equipment revenue of xx.xx and aftermarket revenue of xx.xx; supports the modeled recovery direction. ([www-live.smiths.com](https://www-live.smiths.com/media/phjp1j44/smiths-annual-report-2023.pdf))
6. Smiths Group PLC - Annual Report FY2022
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: Reports FY2021 aviation revenue of xx.xx, providing a historical purchasing-cycle reference rather than a global observation. ([www-live.smiths.com](https://www-live.smiths.com/media/xjvdpblr/smiths-annual-report-2022-report.pdf))
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: Reports FY2022 aviation revenue of xx.xx and continued weakness in aviation original equipment; supports a delayed capital-spending trough. ([www-live.smiths.com](https://www-live.smiths.com/media/xjvdpblr/smiths-annual-report-2022-report.pdf))
7. Smiths Group PLC - Annual Results for the Year Ended 31 July 2019
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: Reports FY2018 aviation revenue of xx.xx, supplying the historical comparison underlying the backcast. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: Reports FY2019 aviation revenue of xx.xx and customer delivery deferrals, qualifying a traffic-only growth model. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Identifies deliveries deferred into FY2020; supports the possibility of backlog-supported spending despite a contemporaneous traffic shock, not the exact modeled growth rate. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
8. ACI World - The High-Wire Balancing Act: Global Air Transport Demand in 2018 and 2019
   - Evidence informing the 2017 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers and xx.xx% growth in 2018; the growth observation informs the 2017 backcast bridge. ([blog.aci.aero](https://blog.aci.aero/airport-economics/the-high-wire-balancing-act-global-air-transport-demand-in-2018-and-2019/))
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: Provides the observed 2018 traffic-growth reference, not an equipment-market growth observation. ([blog.aci.aero](https://blog.aci.aero/airport-economics/the-high-wire-balancing-act-global-air-transport-demand-in-2018-and-2019/))
9. ICAO A42-WP/556 - State of the Industry and Outlook for Airport Traffic, Presented by ACI
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Records the collapse from xx.xx airport passengers in 2019 to xx.xx in 2020; constrains the shock and funding-risk interpretation. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2021, supporting a prolonged funding and activity shock. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2023 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2023; traffic recovery is distinguished from equipment purchasing. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2024, providing a demand recovery cross-check. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))

10. Port of Seattle - Baggage Handling System Optimization

- Evidence informing the 2029 market-value input; displayed series and growth include calculations: Seattle plans to consolidate six baggage-screening systems, increase supported passenger capacity, and reduce screening-machine demand. Supports integration spending without one-for-one detector growth. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The consolidation example constrains equipment-volume assumptions; its whole baggage-handling project value is excluded from market sizing. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing the 2040 market-value input; displayed series and growth include calculations: Provides a commercial counterexample to extrapolating passenger growth directly into machine counts throughout the long-range forecast. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Consolidation of six systems with reduced machine demand qualifies a traffic-to-detector-volume forecast. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The consolidation project supports integration-driven conveyor demand, but its whole-project value is excluded. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Brownfield consolidation supports the integration-demand premise, not the forecast's exact service growth factor. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport replaces six separate screening systems with centralized screening and expects reduced screening-machine demand while expanding capacity. This supplies a counterforce to volume-only checked-baggage forecasting.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Seattle is consolidating six screening systems, expects reduced screening-machine demand and schedules final-phase completion in 2029. Supports integration demand while constraining detector-volume growth; the whole-project budget is excluded.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seattle is consolidating six screening systems, expects reduced screening-machine demand and schedules final-phase completion in 2029. Supports integration demand while constraining detector-volume growth; the whole-project budget is excluded.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seattle's project combines increased screening capacity with consolidation from six screening systems and reduced screening-machine demand. This constrains the forecast assumption that capacity growth requires proportional equipment additions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement and capacity objectives coexist within the project. Its wider baggage-handling budget is not treated as screening-equipment revenue or assigned additively to multiple purposes.

11. Smiths Group PLC - Half Year Results for the Six Months Ended 31 January 2026

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports xx.xx% organic growth for Smiths Detection in HY2026, with aviation checkpoint upgrades contributing. Supports a positive 2026 nowcast, not a directly observed global growth rate. ([www-live.smiths.com](https://www-live.smiths.com/media/villk35h/smiths-hy26-results-press-release.pdf))

12. CATSA 2025 Annual Report - Notes to the Financial Statements
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx accounts disclose C$xx.xx maintenance/spares and C$xx.xx training/certification, supporting the service-budget calibration but not global baggage-only shares. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx accounts disclose C$xx.xx maintenance/spares and C$xx.xx training/certification, supporting the service-budget calibration but not global baggage-only shares. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintenance and spare parts are combined in the accounts; the labor-versus-goods split therefore remains modeled. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintenance and spare parts are combined in the accounts; the labor-versus-goods split therefore remains modeled. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The C$xx.xx training/certification expense supplies the numerator of the adjusted training-to-capital proxy. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The C$xx.xx training/certification expense supplies the numerator of the adjusted training-to-capital proxy. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: C$xx.xx trace/consumables is distinct from maintenance/spares and supplies the contrary consumables-intensity comparator, not a global observation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: C$xx.xx trace/consumables is distinct from maintenance/spares and supplies the contrary consumables-intensity comparator, not a global observation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately reports C$xx.xx maintenance/spares, C$xx.xx trace/consumables and C$xx.xx training/certification, constraining attributable agency lifecycle expenditure.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates screening-contractor payments from equipment support, preventing staffing expenditure from becoming equipment-market purchasing.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately reports C$xx.xx maintenance/spares, C$xx.xx trace/consumables and C$xx.xx training/certification, constraining attributable agency lifecycle expenditure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates screening-contractor payments from equipment support, preventing staffing expenditure from becoming equipment-market purchasing.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited expense disclosure reports C$xx.xx for maintenance and spare parts in the year ended March xx.xx 2025. It constrains support-spending materiality, not the amount attributable to an independent provider. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))

13. CATSA 2025 Annual Report - Management's Discussion and Analysis

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: EDS capital expenditure of C$xx.xx includes equipment and installation/integration and supplies the training-calibration denominator, subject to baggage attribution. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EDS capital expenditure of C$xx.xx includes equipment and installation/integration and supplies the training-calibration denominator, subject to baggage attribution. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The capital definition includes associated installation and integration, supporting the distinction between deployment services and equipment value. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The capital definition includes associated installation and integration, supporting the distinction between deployment services and equipment value. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Actual spending, original budget and reprofile amounts constrain the forecast's purchasing-execution interpretation; they are not a global growth rate. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx pre-board capital appropriations used were C$xx.xx. This supplies the Canadian purchasing comparison and a component of the non-passenger-to-cabin activity proxy, not a global share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx pre-board capital appropriations used were C$xx.xx. This supplies the Canadian purchasing comparison and a component of the non-passenger-to-cabin activity proxy, not a global share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx hold-baggage capital appropriations used were C$xx.xx; this constrains the independent application-capital comparison.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx non-passenger capital appropriations used were C$xx.xx, below the original C$xx.xx budget. Actual purchasing informs the proxy and qualifies automatic announcement-to-revenue conversion.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx non-passenger capital appropriations used were C$xx.xx, below the original C$xx.xx budget. Actual purchasing informs the proxy and qualifies automatic announcement-to-revenue conversion.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports C$xx.xx EDS capital expenditure for FY2024/xx.xx and identifies both baggage equipment and full-body scanners in the capital scope, requiring a baggage-attribution adjustment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports C$xx.xx EDS capital expenditure for FY2024/xx.xx and identifies both baggage equipment and full-body scanners in the capital scope, requiring a baggage-attribution adjustment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EDS outturn was C$xx.xx versus an original C$xx.xx plan and revised C$xx.xx budget. Reprofiling constrains assumed award conversion and deployment timing; it does not measure procurement-channel mix. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The actual capital-project list identifies hold-baggage capacity expansion at Montréal-Trudeau, supporting the expansion classification, not its modeled global revenue weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The actual capital-project list identifies hold-baggage capacity expansion at Montréal-Trudeau, supporting the expansion classification, not its modeled global revenue weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The actual project list includes checkpoint CT deployment and hold-baggage oversize-equipment lifecycle management, supporting renewal activity without disclosing its purpose-specific spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The actual project list includes checkpoint CT deployment and hold-baggage oversize-equipment lifecycle management,

14. Aviation security screening approved equipment list
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Baggage EDS/EDSCB and conventional X-ray classes support the inspection-system boundary, not sales weights. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Baggage EDS/EDSCB and conventional X-ray classes support the inspection-system boundary, not sales weights. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Liquid detectors are a distinct cabin-baggage category; the complete bulk-material extension remains modeled within the captured boundary. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Liquid detectors are a distinct cabin-baggage category; the complete bulk-material extension remains modeled within the captured boundary. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ETD serves baggage and other applications, requiring explicit baggage attribution rather than allocating all detector sales here. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ETD serves baggage and other applications, requiring explicit baggage attribution rather than allocating all detector sales here. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dedicated ETD consumables are separately recognized, supporting goods classification without establishing spending or unrestricted interchangeability. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dedicated ETD consumables are separately recognized, supporting goods classification without establishing spending or unrestricted interchangeability. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
15. Quantifying the Impacts of Delayed Maintenance of Airport Assets: A Guide - Chapter 6, Baggage Handling Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The baggage-handling cost study uses a modeled xx.xx% labor share, adopted only as an adjacent support-cost proxy. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The baggage-handling cost study uses a modeled xx.xx% labor share, adopted only as an adjacent support-cost proxy. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Its corresponding modeled xx.xx% parts share calibrates the labor/goods separation; it is not an observed screening-equipment ratio. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Its corresponding modeled xx.xx% parts share calibrates the labor/goods separation; it is not an observed screening-equipment ratio. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))

16. Procurement of Next Generation Security Checkpoint Equipment - Contract Award Notice

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The seven-system award includes automated tray return, demonstrating bundled purchasing but no separately priced hardware allocation. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The seven-system award includes automated tray return, demonstrating bundled purchasing but no separately priced hardware allocation. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The integrated CT/tray-return scope constrains the automation interface boundary; it does not value general airport conveyors. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The integrated CT/tray-return scope constrains the automation interface boundary; it does not value general airport conveyors. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Central image processing is an explicit purchased function, without a separately disclosed license price. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Central image processing is an explicit purchased function, without a separately disclosed license price. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supply, installation and commissioning are included deliverables, supporting deployment-service attribution without establishing its percentage. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supply, installation and commissioning are included deliverables, supporting deployment-service attribution without establishing its percentage. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2022 award covers seven systems combining cabin CT, tray return, image processing and deployment responsibilities. It supports integrated purchased scope, not completed delivery or a global sales weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2022 award covers seven systems combining cabin CT, tray return, image processing and deployment responsibilities. It supports integrated purchased scope, not completed delivery or a global sales weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The integrated Newcastle procurement reports a GBP xx.xx-xx.xx offer range but no physical review-room location; its value cannot be assigned automatically to local review. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The integrated Newcastle procurement reports a GBP xx.xx-xx.xx offer range but no physical review-room location; its value cannot be assigned automatically to local review. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Central image processing is included, but a separate on-site room is not specified; constrains classification rather than supplying a remote-review sales weight. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Central image processing is included, but a separate on-site room is not specified; constrains classification rather than supplying a remote-review sales weight. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The bundled award does not identify a mixed-location package or its attributable price, preventing automatic hybrid classification. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The bundled award does not identify a mixed-location package or its attributable price, preventing automatic hybrid classification.

17. AI for Monitoring Aviation Security: Fraport and German Federal Police Start Regular Operation of APIDS
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: January xx.xx 2026 APIDS deployment demonstrates additional software adoption, without establishing separate revenue. ([fraport.com](https://www.fraport.com/en/newsroom/press-releases/2026/q1/ai-for-monitoring-aviation-security.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Deployment on more than xx.xx CT scanners is the independent quantitative rollout test; it does not validate the modeled license-growth factor. ([fraport.com](https://www.fraport.com/en/newsroom/press-releases/2026/q1/ai-for-monitoring-aviation-security.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: On January xx.xx 2026, Fraport announced regular APIDS software operation on more than xx.xx existing Smiths CT scanners. This independently supports retained-system enhancement at one buyer, not global penetration or realized license revenue.
18. Smiths Detection - Digital Innovation
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier identifies detection applications as a commercial function; separate fee allocation remains assumed. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier identifies detection applications as a commercial function; separate fee allocation remains assumed. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized screening supports the image-review function, not an observed software revenue weight. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized screening supports the image-review function, not an observed software revenue weight. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Connectivity, multi-vendor integration and equipment-health applications establish the fleet-management function without proving customer-specific rights or prices. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Connectivity, multi-vendor integration and equipment-health applications establish the fleet-management function without proving customer-specific rights or prices. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ELECTORA is offered for integrating multi-vendor devices, datasets and applications; establishes the vendor-platform category but discloses no category revenue or customer-specific substitution entitlement. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ELECTORA is offered for integrating multi-vendor devices, datasets and applications; establishes the vendor-platform category but discloses no category revenue or customer-specific substitution entitlement. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
19. UK Civil Aviation Authority - Threat Image Projection (TIP)
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: TIP library approval and renewal obligations support continuing software commitments, not the modeled global fee or share. ([caa.co.uk](https://www.caa.co.uk/commercial-industry/security/training-and-human-factors/threat-image-projection/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: TIP library approval and renewal obligations support continuing software commitments, not the modeled global fee or share. ([caa.co.uk](https://www.caa.co.uk/commercial-industry/security/training-and-human-factors/threat-image-projection/))

20. Smiths Detection - Service
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Inclusive capital-equipment support covers labor and parts, requiring a single-count economic allocation across services and goods. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Inclusive capital-equipment support covers labor and parts, requiring a single-count economic allocation across services and goods. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Equipment-specific training and certification are commercial offerings distinct from routine screening staffing. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Equipment-specific training and certification are commercial offerings distinct from routine screening staffing. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The parts-support offering and inclusive contracts corroborate the goods boundary, but not the assumed xx.xx% allocation. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The parts-support offering and inclusive contracts corroborate the goods boundary, but not the assumed xx.xx% allocation. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes inclusive labor-and-parts contracts and manufacturer support, supporting nonduplicative lifecycle attribution to projection equipment, not a verified xx.xx% fee. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes inclusive labor-and-parts contracts and manufacturer support, supporting nonduplicative lifecycle attribution to projection equipment, not a verified xx.xx% fee. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports the existence of manufacturer lifecycle offerings; broad service-footprint counts are not used as CT revenue weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports the existence of manufacturer lifecycle offerings; broad service-footprint counts are not used as CT revenue weights.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports commercial maintenance, refurbishment and parts offerings for portable equipment without establishing baggage-specific service receipts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports commercial maintenance, refurbishment and parts offerings for portable equipment without establishing baggage-specific service receipts.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer markets direct on-site support and inclusive capital-equipment labor-and-parts contracts. This supports a continuing manufacturer-service alternative, without measuring a pricing premium. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer markets direct on-site support and inclusive capital-equipment labor-and-parts contracts. This supports a continuing manufacturer-service alternative, without measuring a pricing premium. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Manufacturer-provided bundled support is a commercial alternative to separate technical-service procurement, limiting assumptions of unrestricted third-party substitution. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Manufacturer-provided bundled support is a commercial alternative to separate technical-service procurement, limiting assumptions of unrestricted third-party substitution. ([smithsdetection.com](https://www.smithsdetection.com/service/))

21. Hold baggage screening upgrade, Dublin and Cork Airports, Ireland

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate professional-service appointments cover project controls, design oversight and interface management; the broader construction budget is not used as screening-service revenue. ([neccontract.com](https://www.neccontract.com/projects/hold-baggage-screening-upgrade-dublin-and-cork-airports-ireland))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate professional-service appointments cover project controls, design oversight and interface management; the broader construction budget is not used as screening-service revenue. ([neccontract.com](https://www.neccontract.com/projects/hold-baggage-screening-upgrade-dublin-and-cork-airports-ireland))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes three upgraded hold-baggage systems delivered through separate construction, baggage-integration and advisory appointments, completed in March 2023. Supports integrated-system attribution without assuming a universal single-prime model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes three upgraded hold-baggage systems delivered through separate construction, baggage-integration and advisory appointments, completed in March 2023. Supports integrated-system attribution without assuming a universal single-prime model.

22. Corporate Plan 2025-26 to 2029-30 Summary - Financial Overview
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CATSA distinguishes major-checkpoint CT replacement from single-view-to-multiview replacement elsewhere, supporting application-specific projection demand and forecast assumptions. It also discloses capital funding subject to reprofile approval. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/corporate-plan-2025-xx.xx-2029-xx.xx/financial-overview))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CATSA distinguishes major-checkpoint CT replacement from single-view-to-multiview replacement elsewhere, supporting application-specific projection demand and forecast assumptions. It also discloses capital funding subject to reprofile approval. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/corporate-plan-2025-xx.xx-2029-xx.xx/financial-overview))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies single-view equipment as a replacement population, supporting the modeled displacement mechanism rather than an observed global share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies single-view equipment as a replacement population, supporting the modeled displacement mechanism rather than an observed global share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Multiview remains a planned purchasing destination at non-passenger checkpoints and Class xx.xx airports, qualifying universal CT substitution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Multiview remains a planned purchasing destination at non-passenger checkpoints and Class xx.xx airports, qualifying universal CT substitution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CT replacement is a stated major-checkpoint investment priority, subject to funding and delivery risks; this supports direction, not the modeled global share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CT replacement is a stated major-checkpoint investment priority, subject to funding and delivery risks; this supports direction, not the modeled global share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The plan includes additional screening equipment and expansion of existing hold-baggage screening capacity. Its FY2025/xx.xx capital budget is C$xx.xx across mixed activities; plans are not recognized supplier revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The plan includes additional screening equipment and expansion of existing hold-baggage screening capacity. Its FY2025/xx.xx capital budget is C$xx.xx across mixed activities; plans are not recognized supplier revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The plan distinguishes replacement of checkpoint X-ray equipment with CT and asset lifecycle renewal from additional capacity. Funding, partner timing and reprofiling qualify forecast realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The plan distinguishes replacement of checkpoint X-ray equipment with CT and asset lifecycle renewal from additional capacity. Funding, partner timing and reprofiling qualify forecast realization.
23. ECAC CEP Public Equipment List - Explosive Detection Systems, Update 18 April 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 list retains XRD xx.xx supporting the legacy commercial-category premise but not the assumed installed cohort or sales volume. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-EDS-equipment_public_list_update_20250418.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 list retains XRD xx.xx supporting the legacy commercial-category premise but not the assumed installed cohort or sales volume. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-EDS-equipment_public_list_update_20250418.pdf))

24. Partners - HALO X-ray Technologies Ltd

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named airport pilots and approximately USD xx.xx and USD xx.xx development programs establish commercialization activity and program scale, not realized annual XRD equipment revenue. ([haloxray.com](https://www.haloxray.com/partners))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named airport pilots and approximately USD xx.xx and USD xx.xx development programs establish commercialization activity and program scale, not realized annual XRD equipment revenue. ([haloxray.com](https://www.haloxray.com/partners))

25. Explosives Trace Detectors (ETDs): Market Survey Report, November 2021

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Historical IONSCAN xx.xx list-price configurations around USD xx.xx-xx.xx constrain the IMS price class; they do not establish 2025 purchasing volumes or realizations. ([dhs.gov](https://dhs.gov/sites/default/files/2021-xx.xx/SAVER_Explosives%20Trace%20Detectors%20MSR_08Nov2021_Final-xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Historical IONSCAN xx.xx list-price configurations around USD xx.xx-xx.xx constrain the IMS price class; they do not establish 2025 purchasing volumes or realizations. ([dhs.gov](https://dhs.gov/sites/default/files/2021-xx.xx/SAVER_Explosives%20Trace%20Detectors%20MSR_08Nov2021_Final-xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The Fido X4 historical USD xx.xx list-price benchmark supports the explicit nominal-price bridge; baggage attribution and unit mix remain modeled.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The Fido X4 historical USD xx.xx list-price benchmark supports the explicit nominal-price bridge; baggage attribution and unit mix remain modeled.

26. Astrotech Corporation - Form 10-K for the Fiscal Year Ended June 30, 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Discloses FY2025 product and service revenue, xx.xx deployment locations, and a six-unit USD xx.xx order. These provide a price comparator and supplier-scale check, not baggage-only revenue. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20250630_10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Discloses FY2025 product and service revenue, xx.xx deployment locations, and a six-unit USD xx.xx order. These provide a price comparator and supplier-scale check, not baggage-only revenue. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20250630_10k.htm))

27. Astrotech Corporation - Form 10-K for the Fiscal Year Ended June 30, 2026

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports eight TRACER units sold in FY2025 versus three in FY2026, identifies grant-related revenue within FY2025 product revenue, and describes a potential subsidiary sale. These constrain MS attribution and forecast optimism. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20260630_10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports eight TRACER units sold in FY2025 versus three in FY2026, identifies grant-related revenue within FY2025 product revenue, and describes a potential subsidiary sale. These constrain MS attribution and forecast optimism. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20260630_10k.htm))

28. Liquid Explosive Detector, Bottle Liquid Scanner, Insight - Agilent

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Raman-based airport resolution products and dated September 2025 launch and May 2026 contract announcements. Supports category continuity and adoption premises, not global unit or revenue shares. ([agilent.com](https://www.agilent.com/en/product/molecular-spectroscopy/raman-spectroscopy/raman-aviation-security-systems/insight-series-alarm-resolution-systems))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Raman-based airport resolution products and dated September 2025 launch and May 2026 contract announcements. Supports category continuity and adoption premises, not global unit or revenue shares. ([agilent.com](https://www.agilent.com/en/product/molecular-spectroscopy/raman-spectroscopy/raman-aviation-security-systems/insight-series-alarm-resolution-systems))

29. Bottle Liquid Scanner for Sale from China - Securina

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Positions microwave-based liquid-screening products for airports and customs. Supports commercial classification only; prices, authorization and purchasing weights remain assumptions. ([securinadetection.com](https://www.securinadetection.com/Bottle-Liquid-Scanner-Manufacturer-China.html))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Positions microwave-based liquid-screening products for airports and customs. Supports commercial classification only; prices, authorization and purchasing weights remain assumptions. ([securinadetection.com](https://www.securinadetection.com/Bottle-Liquid-Scanner-Manufacturer-China.html))

30. Quick, Accurate Threat-Detection Scanner for Liquid, Aerosol, and Gels Eases and Secures Air Travel Worldwide

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies LS10 as a complete commercial liquid scanner combining RF and ultrasonic capabilities, supporting nonduplicative complete-product attribution. ([battelle.org](https://www.battelle.org/insights/case-studies/case-study-details/quick-accurate-threat-detection-scanner-for-liquid-aerosol-and-gels-eases-and-secures-air-travel-worldwide))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies LS10 as a complete commercial liquid scanner combining RF and ultrasonic capabilities, supporting nonduplicative complete-product attribution. ([battelle.org](https://www.battelle.org/insights/case-studies/case-study-details/quick-accurate-threat-detection-scanner-for-liquid-aerosol-and-gels-eases-and-secures-air-travel-worldwide))

31. ECAC CEP Public Equipment List - Liquid Explosive Detection Systems, Update 10 July 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 list includes One Resonance Sensors MobiLab BLS. This supports retained listed status for a named product, not active supply, paid installed stock or observed receipts. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-LEDS%20equipment%20public%20list-update%xx.xx-xx.xx-rev1.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 list includes One Resonance Sensors MobiLab BLS. This supports retained listed status for a named product, not active supply, paid installed stock or observed receipts. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-LEDS%20equipment%20public%20list-update%xx.xx-xx.xx-rev1.pdf))

32. MobiLab BLS Bottled Liquid Scanner Endorsed By European Civil Aviation Conference

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's May xx.xx 2014 announcement identifies MobiLab BLS as an NMR-based airport liquid scanner and states that orders were being accepted. Establishes historical commercial offering, not 2025 deliveries. ([prnewswire.com](https://www.prnewswire.com/news-releases/mobilab-bls-bottled-liquid-scanner-endorsed-by-european-civil-aviation-conference-xx.xx.html))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's May xx.xx 2014 announcement identifies MobiLab BLS as an NMR-based airport liquid scanner and states that orders were being accepted. Establishes historical commercial offering, not 2025 deliveries. ([prnewswire.com](https://www.prnewswire.com/news-releases/mobilab-bls-bottled-liquid-scanner-endorsed-by-european-civil-aviation-conference-xx.xx.html))

33. SafePointe BLS Powered by ORS - Bottled Liquid Explosives Detection Solution

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The branded supplier brochure documents an ORS-powered bottled-liquid product channel. Its availability does not establish current orders or support continuity; it supports only the legacy-channel modeling premise. ([uploads-ssl.webflow.com](https://uploads-ssl.webflow.com/608330bcae48962bf6d7ff37/6149f80be6c30d34b5e3debe_BLS-Flyer-Compressed.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The branded supplier brochure documents an ORS-powered bottled-liquid product channel. Its availability does not establish current orders or support continuity; it supports only the legacy-channel modeling premise. ([uploads-ssl.webflow.com](https://uploads-ssl.webflow.com/608330bcae48962bf6d7ff37/6149f80be6c30d34b5e3debe_BLS-Flyer-Compressed.pdf))

34. Florida Division of Corporations - One Resonance Sensors, LLC, Entity Detail

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official registry records One Resonance Sensors, LLC as inactive following administrative dissolution on September xx.xx 2019. This counterevidence constrains continuity assumptions but does not prove zero surviving product support. ([search.sunbiz.org](https://search.sunbiz.org/Inquiry/CorporationSearch/SearchResultDetail?aggregateId=flal-l11000122986-c57f60b3-690d-4c87-836a-9aeb045075e8&directionType=CurrentList&inquirytype=EntityName&listNameOrder=ONERESONANCESENSORS+L110001229860&searchNameOrder=ONERESONANCESENSORS+L110001229860&searchTerm=ONE+RED+AMPERSAND+LLC))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official registry records One Resonance Sensors, LLC as inactive following administrative dissolution on September xx.xx 2019. This counterevidence constrains continuity assumptions but does not prove zero surviving product support. ([search.sunbiz.org](https://search.sunbiz.org/Inquiry/CorporationSearch/SearchResultDetail?aggregateId=flal-l11000122986-c57f60b3-690d-4c87-836a-9aeb045075e8&directionType=CurrentList&inquirytype=EntityName&listNameOrder=ONERESONANCESENSORS+L110001229860&searchNameOrder=ONERESONANCESENSORS+L110001229860&searchTerm=ONE+RED+AMPERSAND+LLC))

35. Explosive Detection - Teledyne FLIR Defense

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists offered Fido X-series products and service support, supporting commercial offering continuity only, not airport-specific eligibility or sales weights. ([flir.com](https://www.flir.com/threat-detection/explosives/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists offered Fido X-series products and service support, supporting commercial offering continuity only, not airport-specific eligibility or sales weights. ([flir.com](https://www.flir.com/threat-detection/explosives/))

36. Scintrex Trace E3500 Explosive Trace Detection Unit - SecurityPro USA

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distributor offers E3500 chemiluminescence equipment and identifies customs/border applications. Supports a commercial category lead, not measured airport purchasing or the assumed price. ([securityprousa.com](https://www.securityprousa.com/collections/explosive-detection/products/scintrex-trace-e3500-explosive-trace-detection-unit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distributor offers E3500 chemiluminescence equipment and identifies customs/border applications. Supports a commercial category lead, not measured airport purchasing or the assumed price. ([securityprousa.com](https://www.securityprousa.com/collections/explosive-detection/products/scintrex-trace-e3500-explosive-trace-detection-unit))

37. Portable Explosive Detector - Trace Detector EVD-3000+

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distributor offers EVD-xx.xx+ thermo-redox equipment. Supports offered-product classification, not airport authorization, purchasing volume or the modeled realization. ([securityprousa.com](https://www.securityprousa.com/products/scintrex-trace-evd-xx.xx-portable-trace-detection-unit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distributor offers EVD-xx.xx+ thermo-redox equipment. Supports offered-product classification, not airport authorization, purchasing volume or the modeled realization. ([securityprousa.com](https://www.securityprousa.com/products/scintrex-trace-evd-xx.xx-portable-trace-detection-unit))

38. CATSA's Purchase Order Terms and Conditions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contract terms constrain maintenance, parts and consumables escalation, qualifying unrestricted aftermarket pricing assumptions in the projection lifecycle model. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contract terms constrain maintenance, parts and consumables escalation, qualifying unrestricted aftermarket pricing assumptions in the projection lifecycle model. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contractual price limits constrain the pricing premise, but do not verify CT-specific global support receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contractual price limits constrain the pricing premise, but do not verify CT-specific global support receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintenance and consumable escalation limits qualify the trace-platform pricing assumption rather than establishing the modeled IMS share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintenance and consumable escalation limits qualify the trace-platform pricing assumption rather than establishing the modeled IMS share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The pre-existing-software clause grants broad license rights without transferring ownership; proprietary ownership alone therefore cannot establish the Closed revenue numerator. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The pre-existing-software clause grants broad license rights without transferring ownership; proprietary ownership alone therefore cannot establish the Closed revenue numerator. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Software modification rights are not themselves proof of standards-based interfaces or independent component substitution; supports conservative classification. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Software modification rights are not themselves proof of standards-based interfaces or independent component substitution; supports conservative classification. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))

39. Liquids Scanner for Airport Security - UC Davis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2011 account establishes a development contract and licensing relationship. Its development allocation is excluded from 2025 receipts and does not establish a surviving commercial cohort. ([ucdavis.edu](https://www.ucdavis.edu/news/liquids-scanner-airport-security))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2011 account establishes a development contract and licensing relationship. Its development allocation is excluded from 2025 receipts and does not establish a surviving commercial cohort. ([ucdavis.edu](https://www.ucdavis.edu/news/liquids-scanner-airport-security))
40. Open Architecture for Airport Security Systems, Second Edition
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes proprietary integration from interoperable connections, supporting the category boundary rather than an observed revenue share. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes proprietary integration from interoperable connections, supporting the category boundary rather than an observed revenue share. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Integration does not guarantee interoperability; this constrains attribution of vendor-mediated configurations. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Integration does not guarantee interoperability; this constrains attribution of vendor-mediated configurations. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Allows identified partial compliance and discusses accountable integration responsibilities; supports scoped open attribution, not whole-purchase reclassification. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Allows identified partial compliance and discusses accountable integration responsibilities; supports scoped open attribution, not whole-purchase reclassification. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))

41. CATSA 2025 Annual Report - Overview of Activities

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines across xx.xx airports serving more than xx.xx% of passengers in 2024/xx.xx; provides an independent integration-activity check, not a direct value allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines across xx.xx airports serving more than xx.xx% of passengers in 2024/xx.xx; provides an independent integration-activity check, not a direct value allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported modernized passenger coverage constrains an assumption of universally standalone activity, while leaving commercial architecture and revenue attribution unresolved. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported modernized passenger coverage constrains an assumption of universally standalone activity, while leaving commercial architecture and revenue attribution unresolved. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The annual report identifies enhanced non-passenger requirements and implementation planned from spring 2025. This supports a conditional modernization premise, not the modeled global uptake factor.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2024/xx.xx; provides a Canadian adoption comparator, not a global local-review revenue weight. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2024/xx.xx; provides a Canadian adoption comparator, not a global local-review revenue weight. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies remote screening within CATSA Plus and quantifies deployment; constrains the commercial-adoption premise but does not establish each review room's location. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies remote screening within CATSA Plus and quantifies deployment; constrains the commercial-adoption premise but does not establish each review room's location. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Deployment coverage constrains the addressable network-enabled pool; it does not disclose hybrid contracts or justify the modeled hybrid percentage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Deployment coverage constrains the addressable network-enabled pool; it does not disclose hybrid contracts or justify the modeled hybrid percentage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))

42. CATSA - Beyond the Checkpoint, December 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx operational CT machines at eight airports and a modular-line average of xx.xx passengers per hour versus xx.xx for traditional multi-split lines; supports the bounded throughput-to-unit bridge and phased-deployment premise. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/about-us/beyond-checkpoint-2025-december))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx operational CT machines at eight airports and a modular-line average of xx.xx passengers per hour versus xx.xx for traditional multi-split lines; supports the bounded throughput-to-unit bridge and phased-deployment premise. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/about-us/beyond-checkpoint-2025-december))

43. Smiths Detection Delivers Fully Automated International Remote Baggage Screening System Between South Korea and the United States

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2026 disclosure identifies xx.xx software licenses and DICOS V3.xx.xx exchange, and dates operational service to August 2025. Supports commercial standards-based activity and forecast feasibility, not an observed global share or a confirmed 2025 license inventory. ([smithsdetection.com](https://www.smithsdetection.com/press-releases/smiths-detection-delivers-fully-automated-international-remote-baggage-screening-system-between-south-korea-and-the-united-states/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2026 disclosure identifies xx.xx software licenses and DICOS V3.xx.xx exchange, and dates operational service to August 2025. Supports commercial standards-based activity and forecast feasibility, not an observed global share or a confirmed 2025 license inventory. ([smithsdetection.com](https://www.smithsdetection.com/press-releases/smiths-detection-delivers-fully-automated-international-remote-baggage-screening-system-between-south-korea-and-the-united-states/))

44. SeeTrue Marks Milestone with Over 100 X-ray Checkpoint Installations of Advanced AI-Based Threat Detection Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 announcement reports the 100th operational screening lane across airports and other sectors. Provides a limited commercial-adoption scale check; it is neither airport-only nor a census of standards-based entitlements. ([seetrue.ai](https://www.seetrue.ai/seetrue-marks-milestone-with-over-xx.xx-x-ray-checkpoint-installations-of-advanced-ai-based-threat-detection-software/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 announcement reports the 100th operational screening lane across airports and other sectors. Provides a limited commercial-adoption scale check; it is neither airport-only nor a census of standards-based entitlements. ([seetrue.ai](https://www.seetrue.ai/seetrue-marks-milestone-with-over-xx.xx-x-ray-checkpoint-installations-of-advanced-ai-based-threat-detection-software/))

45. Scarabee’s Checkpoint Property Screening System to be deployed at DEN

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-lane Denver award combining Scarabee lanes with Smiths scanners. Corroborates a commercial mixed-supplier integration route; an award is not realized annual revenue or proof of unrestricted interoperability. ([daifukuatec.com](https://daifukuatec.com/news/scarabees-checkpoint-property-screening-system-to-be-deployed-at-den))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-lane Denver award combining Scarabee lanes with Smiths scanners. Corroborates a commercial mixed-supplier integration route; an award is not realized annual revenue or proof of unrestricted interoperability. ([daifukuatec.com](https://daifukuatec.com/news/scarabees-checkpoint-property-screening-system-to-be-deployed-at-den))

46. CATSA Annual Report 2024 - Management’s Discussion and Analysis

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx pre-board capital appropriations used of C$xx.xx provide the second period in the non-passenger-to-cabin purchasing comparison.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx non-passenger capital appropriations used of C$xx.xx enter the two-period activity proxy; they do not identify the property-only fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx non-passenger capital appropriations used of C$xx.xx enter the two-period activity proxy; they do not identify the property-only fraction.

47. Smiths Detection confirm order of 91 advanced scanners for new terminals at Moscow Sheremetyevo International Airport
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The dated airport deployment includes xx.xx entrance baggage systems and xx.xx cabin-checkpoint systems. Their ratio supplies a historical relative-density proxy, subsequently discounted for assumed global coverage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated airport deployment includes xx.xx entrance baggage systems and xx.xx cabin-checkpoint systems. Their ratio supplies a historical relative-density proxy, subsequently discounted for assumed global coverage.
48. Cochin International Airport Selects Smiths Detection's CTX 9800 for Next-Generation Hold Baggage Screening
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2017 deployment identifies xx.xx customs baggage systems alongside four hold-baggage systems. This supports the customs-intensive historical configuration proxy, not current global fleet or revenue observations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2017 deployment identifies xx.xx customs baggage systems alongside four hold-baggage systems. This supports the customs-intensive historical configuration proxy, not current global fleet or revenue observations.
49. CATSA Functions, Programs and Activities
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Hold-baggage activities include equipment purchase, baggage-handling integration and equipment maintenance, supporting the checked-baggage capital and lifecycle boundary.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Hold-baggage activities include equipment purchase, baggage-handling integration and equipment maintenance, supporting the checked-baggage capital and lifecycle boundary.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-passenger screening covers airport workers and their belongings; only attributable property-screening offerings enter this allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-passenger screening covers airport workers and their belongings; only attributable property-screening offerings enter this allocation.
50. Fraport TAV Antalya Airport - About the security control itself
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The airport operator distinguishes terminal-entry security from a subsequent checkpoint. This supports a separate entrance-screening mission while providing no global prevalence or spending share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport operator distinguishes terminal-entry security from a subsequent checkpoint. This supports a separate entrance-screening mission while providing no global prevalence or spending share.
51. EMSD VoiceLink, Issue 79, June 2026 - EMSD Provides Comprehensive Support for Terminal 2 Commissioning
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June 2026 account identifies baggage-and-parcel equipment procurement and installation for the customs authority at Terminal xx.xx. It supports a separate commissioning mission but does not isolate baggage expenditure.
52. GAO-26-107811 - Guam: Considerations for Evaluating Alternative Customs Models and Potential Economic Effects
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The audit identifies two historical airport-customs baggage systems inactive for years and delayed replacement procurement. This challenges conversion of installed stock or acknowledged need directly into annual equipment and support revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The audit identifies two historical airport-customs baggage systems inactive for years and delayed replacement procurement. This challenges conversion of installed stock or acknowledged need directly into annual equipment and support revenue.

53. Bennet, Moran, Van Hollen, Boozman Introduce Bill to Bolster Aviation Safety
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 official release identifies xx.xx U.S. screening lanes, used as agency purchasing-exposure calibration rather than observed annual equipment sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 official release identifies xx.xx U.S. screening lanes, used as agency purchasing-exposure calibration rather than observed annual equipment sales.
54. Bank of Canada - Annual exchange rates
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual exchange-rate observations support the inherited fiscal-period approximation of xx.xx Canadian dollars per U.S. dollar; this is not a transaction-weighted exchange rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual exchange-rate observations support the inherited fiscal-period approximation of xx.xx Canadian dollars per U.S. dollar; this is not a transaction-weighted exchange rate.
55. Japan’s leading airline revolutionizes check in experience with new Smiths Detection technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The August 2023 announcement identifies JAL as customer for five screening ecosystems and reports xx.xx deployed iLane units across Japan. These are historical commercial-stock anchors, not an airline-only fleet or 2025 sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August 2023 announcement identifies JAL as customer for five screening ecosystems and reports xx.xx deployed iLane units across Japan. These are historical commercial-stock anchors, not an airline-only fleet or 2025 sales observation.
56. Narita International Airport anticipates threats with integrated solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Narita airport as a screening-technology customer and describes xx.xx lane-related installations, qualifying any assumption that the supplier's Japanese installed stock was purchased entirely by airlines.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Narita airport as a screening-technology customer and describes xx.xx lane-related installations, qualifying any assumption that the supplier's Japanese installed stock was purchased entirely by airlines.
57. MLIT - 保安検査の実施主体が変わります！ - June 27, 2025
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement targets transfer of security-screening responsibility from airlines to airport managers, with leading cases targeted in FY2026. Supports a conditional reduction in airline purchasing, not an observed contract-transfer percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transfer direction supports modeled airport-manager purchasing gains. Continued shared financing does not imply equal purchasing shares.
58. ICTS International N.V. - Annual Report for the year ended December 31, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Discloses USD xx.xx company-wide property/equipment purchases and USD xx.xx airport-security revenue in 2025. Supports an asset-light purchasing-intensity proxy; the in-scope fraction and global expansion remain assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Discloses USD xx.xx company-wide property/equipment purchases and USD xx.xx airport-security revenue in 2025. Supports an asset-light purchasing-intensity proxy; the in-scope fraction and global expansion remain assumptions.

59. EU Publications Office - Purchase and maintenance of non-intrusive X-ray inspection equipment for baggage and air cargo volume control
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Autoridade Tributária e Aduaneira as buyer and reports a 2026 award of EUR xx.xx across four lots for baggage/air-cargo inspection equipment and maintenance. Provides a buyer-role and commercial-scale comparator, not 2025 baggage-only annual expenditure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Autoridade Tributária e Aduaneira as buyer and reports a 2026 award of EUR xx.xx across four lots for baggage/air-cargo inspection equipment and maintenance. Provides a buyer-role and commercial-scale comparator, not 2025 baggage-only annual expenditure.
60. ACI World - Busiest Airports in the World
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx international airport passenger movements in 2025. Half provides an approximate arrival-movement scale check before transfer exclusions, not a customs examination or equipment-purchasing weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx international airport passenger movements in 2025. Half provides an approximate arrival-movement scale check before transfer exclusions, not a customs examination or equipment-purchasing weight.
61. Heathrow announces £2.3bn accelerated investment plan to upgrade the UK's international gateway to growth
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports GBP xx.xx invested in security-lane upgrades during 2024, supporting material airport-directed purchasing. Broader infrastructure obligations and historical timing prevent treating the amount as 2025 in-scope market receipts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports GBP xx.xx invested in security-lane upgrades during 2024, supporting material airport-directed purchasing. Broader infrastructure obligations and historical timing prevent treating the amount as 2025 in-scope market receipts.
62. Fraport Assumes Responsibility for Aviation Security Checks at Frankfurt Airport
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents Fraport's checkpoint-management responsibility from January 2023, six initial CT-equipped lanes and three contracted screening providers. Supports distinguishing an airport commissioning role from regulator oversight and contracted screening labor.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents Fraport's checkpoint-management responsibility from January 2023, six initial CT-equipped lanes and three contracted screening providers. Supports distinguishing an airport commissioning role from regulator oversight and contracted screening labor.
63. Advanced Cabin Baggage Screening - Computed Tomography Implementation Guide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes standalone CT, including equipment-local conveyance, from integrated screening-lane configurations; supports attribution boundaries, not a revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes standalone CT, including equipment-local conveyance, from integrated screening-lane configurations; supports attribution boundaries, not a revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies automated tray-return and automated screening-lane integration as commercially distinct configurations; supports the lane-integrated category definition.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies automated tray-return and automated screening-lane integration as commercially distinct configurations; supports the lane-integrated category definition.

64. GAO-12-266 - Checked Baggage Screening: TSA Has Deployed Optimal Systems at the Majority of TSA-Regulated Airports, but Could Strengthen Cost Estimates

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December 2011 table reports xx.xx standalone EDS alongside xx.xx in-line EDS; this historical machine-count comparator constrains, but does not determine, the current global allocation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December 2011 table reports xx.xx standalone EDS alongside xx.xx in-line EDS; this historical machine-count comparator constrains, but does not determine, the current global allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx in-line EDS across xx.xx in-line systems and distinguishes equipment counts from integrated-system counts; supports the historical configuration bridge.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx in-line EDS across xx.xx in-line systems and distinguishes equipment counts from integrated-system counts; supports the historical configuration bridge.

65. Smiths Detection selected as security technology provider to International Airport Heraklion Crete

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 announcement identifies eight cabin CT scanners and eight automated tray-return systems for Heraklion, with installation planned across late 2025 and mid-2026; supports ongoing integrated procurement, not realized annual revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 announcement identifies eight cabin CT scanners and eight automated tray-return systems for Heraklion, with installation planned across late 2025 and mid-2026; supports ongoing integrated procurement, not realized annual revenue.

66. Centralised Image Processing: The Impact on Security Checkpoints

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes checkpoint-local image review from separate-room arrangements; supports retaining networked local activity rather than automatically assigning it to remote review. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes checkpoint-local image review from separate-room arrangements; supports retaining networked local activity rather than automatically assigning it to remote review. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes separate screening rooms and established remote hold-baggage review at larger airports; supports the cohort-maturity premise, not a numerical global share. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes separate screening rooms and established remote hold-baggage review at larger airports; supports the cohort-maturity premise, not a numerical global share. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes combined checkpoint and remote-room arrangements, establishing a mixed-location commercial configuration without measuring its prevalence or price. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes combined checkpoint and remote-room arrangements, establishing a mixed-location commercial configuration without measuring its prevalence or price. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))

67. Annual Report 2024 - CATSA's Operating Environment

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2023/xx.xx providing the historical comparison rather than a global location allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2023/xx.xx providing the historical comparison rather than a global location allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Together with the subsequent annual report, supports a seven-line deployment increase without a corresponding increase in reported passenger coverage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Together with the subsequent annual report, supports a seven-line deployment increase without a corresponding increase in reported passenger coverage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provides a historical network-enabled deployment anchor, while leaving the physical mixed-location contract share unmeasured. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provides a historical network-enabled deployment anchor, while leaving the physical mixed-location contract share unmeasured. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))

68. L22020-T-TG Upgrades to the Passenger Search Area, body scanners, EDS C3 cabin baggage screening - Contract Award Notice

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2023 Luton award expressly includes construction of a remote screening room at the airport terminal, supporting separate-room commercial procurement. Its broader scope is not treated as baggage-only annual revenue. ([find-tender.service.gov.uk](https://www.find-tender.service.gov.uk/Notice/xx.xx-2023))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2023 Luton award expressly includes construction of a remote screening room at the airport terminal, supporting separate-room commercial procurement. Its broader scope is not treated as baggage-only annual revenue. ([find-tender.service.gov.uk](https://www.find-tender.service.gov.uk/Notice/xx.xx-2023))

69. Greater Orlando Aviation Authority - Minutes of the February 19, 2025 Meeting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Authorizes up to USD xx.xx for baggage-system and Remote Screening Facility network/server separation. Half this ceiling is an explicitly assumed deployment-cost comparator, not observed off-site receipts. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Authorizes up to USD xx.xx for baggage-system and Remote Screening Facility network/server separation. Half this ceiling is an explicitly assumed deployment-cost comparator, not observed off-site receipts. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provides the commercial networking-cost anchor for the modeled transfer from existing on-site pools, avoiding additional market value or duplicate host-equipment attribution. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provides the commercial networking-cost anchor for the modeled transfer from existing on-site pools, avoiding additional market value or duplicate host-equipment attribution. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))

70. American and U.S. Customs and Border Protection pilot innovative baggage screening initiative

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: American's April xx.xx 2025 announcement identifies a daily Sydney-Los Angeles IRBS pilot and unchanged screening requirements. It anchors one sampled connection and an assumed partial-year licensing period, not disclosed revenue. ([s202.q4cdn.com](https://s202.q4cdn.com/xx.xx/files/doc_news/American-and-US-Customs-and-Border-Protection-pilot-innovative-baggage-screening-initiative-OPS-OTH-xx.xx-2025.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: American's April xx.xx 2025 announcement identifies a daily Sydney-Los Angeles IRBS pilot and unchanged screening requirements. It anchors one sampled connection and an assumed partial-year licensing period, not disclosed revenue. ([s202.q4cdn.com](https://s202.q4cdn.com/xx.xx/files/doc_news/American-and-US-Customs-and-Border-Protection-pilot-innovative-baggage-screening-initiative-OPS-OTH-xx.xx-2025.pdf))

71. 델타항공-대한항공, 인천발 애틀랜타 노선 대상 위탁수하물 원격 검색 방식 신규 도입

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2025 announcement identifies the Incheon-Atlanta IRBS arrangement, anchoring a second sampled connection and a partial-year commercial-activity assumption without establishing contract value. ([news.delta.com](https://news.delta.com/delta-and-koreanair-launch-remote-baggage-screening-on-icn-atl-KR))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2025 announcement identifies the Incheon-Atlanta IRBS arrangement, anchoring a second sampled connection and a partial-year commercial-activity assumption without establishing contract value. ([news.delta.com](https://news.delta.com/delta-and-koreanair-launch-remote-baggage-screening-on-icn-atl-KR))

72. United Launches CBP's International Remote Baggage Screening on Select International Flights

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: United's September xx.xx 2025 announcement identifies daily Sydney-San Francisco service and named technology partners, anchoring a third sampled connection. It reports no attributable software or integration receipts. ([united.mediaroom.com](https://united.mediaroom.com/2025-xx.xx-xx.xx-United-Launches-CBPs-International-Remote-Baggage-Screening-on-Select-International-Flights))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: United's September xx.xx 2025 announcement identifies daily Sydney-San Francisco service and named technology partners, anchoring a third sampled connection. It reports no attributable software or integration receipts. ([united.mediaroom.com](https://united.mediaroom.com/2025-xx.xx-xx.xx-United-Launches-CBPs-International-Remote-Baggage-Screening-on-Select-International-Flights))

73. Airline Passengers Face Fewer Bag Checkpoints, Thanks to PNNL, Partners

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2026 laboratory release describes implementation on additional routes, including Seoul arrivals at Minneapolis-St. Paul and Detroit. This supports expansion direction, not the forecast connection count, realization or global share. ([pnnl.gov](https://www.pnnl.gov/news-media/airline-passengers-face-fewer-bag-checkpoints-thanks-pnnl-partners))

74. TSA awards $781.2 million to procure additional CT X-Ray scanners for airport checkpoints

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2022 announcement identifies up to USD xx.xx for procurement and maintenance of up to xx.xx systems from an OEM. This is a historical procurement-scale anchor, not annual 2025 direct-channel revenue. ([content.govdelivery.com](https://content.govdelivery.com/accounts/USDHSTSA/bulletins/30f6e5f))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The award includes full-size automated lanes, cautioning against assigning all automation value to non-OEM integration primes; exact contractual-role attribution is not disclosed. ([content.govdelivery.com](https://content.govdelivery.com/accounts/USDHSTSA/bulletins/30f6e5f))

75. OSI Systems, Inc. - Form 10-K for the fiscal year ended June 30, 2026

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing describes regional direct security-product sales and direct maintenance relationships. Its broader security scope supports route coexistence, not baggage-only sales weights. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing describes regional direct security-product sales and direct maintenance relationships. Its broader security scope supports route coexistence, not baggage-only sales weights. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company identifies a global independent-distributor network, supporting a continuing indirect route without quantifying its value share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company identifies a global independent-distributor network, supporting a continuing indirect route without quantifying its value share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Authorized service providers are identified separately from distributors, supporting distinct technical-service attribution and access limitations. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Authorized service providers are identified separately from distributors, supporting distinct technical-service attribution and access limitations. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

76. SriLankan Airlines - Invitation for Supply, Installation, Commissioning and Maintenance of Dual View Heavy and Medium X-Ray Machines, Reference 202130407

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 purchaser invitation permits an OEM or authorized OEM agent and requires authorization for the latter. It establishes equipment-channel eligibility, not an award or software-resale right. ([srilankan.com](https://www.srilankan.com/download/tender/TN-Invitationforsubmiss-xx.xx.pdf))

77. JFK Millennium Partners Selects K2 to Deliver State-of-the-Art Security Screening Checkpoint at new JFK Terminal 6

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment assigns procurement and deployment coordination across multiple technology suppliers at a future ten-gate terminal. It supports integration-prime participation and a forecast mechanism, not a disclosed share or completed 2025 revenue. ([portauthoritybuilds.com](https://www.portauthoritybuilds.com/redevelopment/us/en/jfk/planned-projects/terminal-xx.xx/news/jfk-millennium-partners-selects-k2-to-deliver-state-of-the-art-s.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment assigns procurement and deployment coordination across multiple technology suppliers at a future ten-gate terminal. It supports integration-prime participation and a forecast mechanism, not a disclosed share or completed 2025 revenue. ([portauthoritybuilds.com](https://www.portauthoritybuilds.com/redevelopment/us/en/jfk/planned-projects/terminal-xx.xx/news/jfk-millennium-partners-selects-k2-to-deliver-state-of-the-art-s.html))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment covers baggage CT and automated bin-return equipment for a future xx.xx-gate terminal, with phased opening planned for 2026-2028. It establishes new-installation activity, not attributable 2025 receipts; wider airport investment and person-only technologies are excluded.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment covers baggage CT and automated bin-return equipment for a future xx.xx-gate terminal, with phased opening planned for 2026-2028. It establishes new-installation activity, not attributable 2025 receipts; wider airport investment and person-only technologies are excluded.

78. CATSA Corporate Plan 2024-25 to 2028-29 Summary - Key Corporate Risks

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The authority reports transferring maintenance of most screening equipment to KPrime in 2023/xx.xx. This establishes a separately contracted maintenance relationship, without a baggage-only payment split. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/key-corporate-risks))

79. Leidos wins TSA logistics contract

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 announcement describes an eight-year, USD xx.xx maximum sustainment contract covering xx.xx equipment units at over xx.xx locations with manufacturer coordination. Annualization and baggage/third-party attribution in the model are explicit assumptions. ([leidos.com](https://www.leidos.com/insights/leidos-wins-tsa-logistics-contract))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 announcement describes an eight-year, USD xx.xx maximum sustainment contract covering xx.xx equipment units at over xx.xx locations with manufacturer coordination. Annualization and baggage/third-party attribution in the model are explicit assumptions. ([leidos.com](https://www.leidos.com/insights/leidos-wins-tsa-logistics-contract))

80. Checkpoint Transformation: Malta International Airport Streamlines Passenger Flow with Smiths Detection
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Seven conventional automated lanes were replaced by six CT-equipped lanes, with final commissioning in January 2025. This is a counterexample to equating capacity improvement with net additional equipment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seven conventional automated lanes were replaced by six CT-equipped lanes, with final commissioning in January 2025. This is a counterexample to equating capacity improvement with net additional equipment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The complete checkpoint replacement illustrates why an offering described commercially as an upgrade can belong to System Replacement. The seven-year service commitment is not counted wholly as installation-year revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The complete checkpoint replacement illustrates why an offering described commercially as an upgrade can belong to System Replacement. The seven-year service commitment is not counted wholly as installation-year revenue.
81. iCMORE - Smiths Detection
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current commercial offering describes a software-upgrade path while qualifying additional hardware requirements by machine type and age. This constrains forecast eligibility assumptions; product availability does not measure adoption or revenue.

18.7. Japan

Table 516. Japan Airport Baggage Screening Systems Market Size, 2017-2040 (USD Million)

Country	2017	2024	2025	2026	2027	2032	2040	CAGR (%)

System Replacement	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Others	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Sources & Evidence

1. House Report 119-173 - Department of Homeland Security Appropriations Bill, 2026

   · Evidence informing the 2030 market-value input; displayed series and growth include calculations: The aging installed fleet supports replacement demand, but does not establish the forecast's realization dates or annual purchasing rate. ([govinfo.gov](https://www.govinfo.gov/content/pkg/CRPT-119hrpt173/html/CRPT-119hrpt173.htm))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report identifies xx.xx end-of-life systems within a xx.xx-system checked-baggage fleet. This constrains renewal exposure, not realized annual purchasing or a verified global replacement deadline.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports a TSA checked-baggage fleet of xx.xx EDS, including xx.xx at end-of-life, and assigns purchase, installation and maintenance responsibilities to TSA. Supports agency fleet calibration and renewal pressure, not the assumed forecast uplift.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports a TSA checked-baggage fleet of xx.xx EDS, including xx.xx at end-of-life, and assigns purchase, installation and maintenance responsibilities to TSA. Supports agency fleet calibration and renewal pressure, not the assumed forecast uplift.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report identifies xx.xx end-of-life EDS within a xx.xx-unit U.S. checked-baggage fleet, citing the FY2024 capital plan. The derived xx.xx% backlog constrains the aging-fleet premise, but is neither an annual turnover rate nor a funded global replacement forecast.

2. GAO-24-106573 - DHS Annual Assessment: Most Programs Are Meeting Current Goals, but Some Continue to Face Cost and Schedule Challenges
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports plans for xx.xx checkpoint systems and xx.xx increment-one deployments by September 2023; supports an incomplete replacement cycle rather than universal CT adoption. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx AT/CT, xx.xx base, xx.xx mid-size and xx.xx full-size deployments by September 2023; supplies configuration proxies and an incomplete-renewal constraint, not contractual architecture shares. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx AT/CT, xx.xx base, xx.xx mid-size and xx.xx full-size deployments by September 2023; supplies configuration proxies and an incomplete-renewal constraint, not contractual architecture shares. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The deployed configuration mix underlies the xx.xx/xx.xx newer-cohort and xx.xx/xx.xx older-cohort proxy calculations; global and contractual attribution remain modeled. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The deployed configuration mix underlies the xx.xx/xx.xx newer-cohort and xx.xx/xx.xx older-cohort proxy calculations; global and contractual attribution remain modeled. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The assessment records xx.xx checkpoint systems deployed by September 2023 against an eventual xx.xx-system program. This supports an incomplete replacement cycle and qualifies any assumption of universal CT adoption.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The assessment records xx.xx checkpoint systems deployed by September 2023 against an eventual xx.xx-system program. This supports an incomplete replacement cycle and qualifies any assumption of universal CT adoption.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports a September 2023 U.S. CT cohort containing xx.xx AT/CT and xx.xx base systems, providing counterevidence to assigning all CT activity automatically to integrated lanes.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports a September 2023 U.S. CT cohort containing xx.xx AT/CT and xx.xx base systems, providing counterevidence to assigning all CT activity automatically to integrated lanes.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx mid-size and xx.xx full-size systems within xx.xx deployed CT systems; supports differentiated configuration assumptions rather than treating technology adoption as an integration-share observation.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx mid-size and xx.xx full-size systems within xx.xx deployed CT systems; supports differentiated configuration assumptions rather than treating technology adoption as an integration-share observation.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2024 assessment records xx.xx checkpoint deployments as of September 2023 against xx.xx planned systems replacing aging equipment. It supports staged renewal, but does not establish current deployment completion or the modeled 2032 share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2024 assessment records xx.xx checkpoint deployments as of September 2023 against xx.xx planned systems replacing aging equipment. It supports staged renewal, but does not establish current deployment completion or the modeled 2032 share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The program separately anticipates enhancements to fielded systems, supporting a retained-equipment commercial pathway without supplying an attributable upgrade-revenue split.

3. Global Airport Passenger Traffic Reaches Record 9.8 Billion in 2025, Airports Council International World reports

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports cooling passenger-growth momentum in 2026, supporting moderation of traffic-driven equipment expansion despite continuing replacement demand.
   ([aci.aero](https://aci.aero/2026/xx.xx/xx.xx/global-airport-passenger-traffic-reaches-record-xx.xx-xx.xx-billion-in-2025-airports-council-international-world-reports/))

4. Smiths Group PLC - Full Year Results for the 12 Months Ended 31 July 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Discloses aviation original-equipment revenue of xx.xx and aftermarket revenue of xx.xx for FY2024; supplies historical cycle proxies. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing the 2027 market-value input; displayed series and growth include calculations: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; supports replacement activity, not an observed global forecast. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2025 aviation original-equipment revenue of GBP xx.xx provides an independent equipment-activity scale check, not a global category share. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025 aviation original-equipment revenue of GBP xx.xx provides an independent equipment-activity scale check, not a global category share. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx cumulative CTiX sales corroborate commercial imaging activity and replacement demand; they do not measure annual global sales. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx cumulative CTiX sales corroborate commercial imaging activity and replacement demand; they do not measure annual global sales. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: GBP xx.xx aviation aftermarket revenue supports lifecycle materiality while qualifying transfer of one supplier's mix to the global service allocation. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GBP xx.xx aviation aftermarket revenue supports lifecycle materiality while qualifying transfer of one supplier's mix to the global service allocation. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; cumulative sales constrain commercial scale but are not annual global shipments. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; cumulative sales constrain commercial scale but are not annual global shipments. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports four operating XDi units as of July 2025 and pending regulatory certification, constraining the small XRD cohort and qualifying aggressive commercialization assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports four operating XDi units as of July 2025 and pending regulatory certification, constraining the small XRD cohort and qualifying aggressive commercialization assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported checkpoint modernization provides a commercial reason to model substitution from discrete legacy offerings; the filing does not disclose standalone configuration revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025

5. Smiths Group PLC - Annual Report & Accounts FY2023
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: Reports FY2022 aviation original-equipment revenue of xx.xx, used as a dimensionless historical capital-cycle proxy. ([www-live.smiths.com](https://www-live.smiths.com/media/phjp1j44/smiths-annual-report-2023.pdf))
   - Evidence informing the 2023 market-value input; displayed series and growth include calculations: Reports FY2023 aviation original-equipment revenue of xx.xx and aftermarket revenue of xx.xx; supports the modeled recovery direction. ([www-live.smiths.com](https://www-live.smiths.com/media/phjp1j44/smiths-annual-report-2023.pdf))
6. Smiths Group PLC - Annual Report FY2022
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: Reports FY2021 aviation revenue of xx.xx, providing a historical purchasing-cycle reference rather than a global observation. ([www-live.smiths.com](https://www-live.smiths.com/media/xjvdpblr/smiths-annual-report-2022-report.pdf))
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: Reports FY2022 aviation revenue of xx.xx and continued weakness in aviation original equipment; supports a delayed capital-spending trough. ([www-live.smiths.com](https://www-live.smiths.com/media/xjvdpblr/smiths-annual-report-2022-report.pdf))
7. Smiths Group PLC - Annual Results for the Year Ended 31 July 2019
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: Reports FY2018 aviation revenue of xx.xx, supplying the historical comparison underlying the backcast. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: Reports FY2019 aviation revenue of xx.xx and customer delivery deferrals, qualifying a traffic-only growth model. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Identifies deliveries deferred into FY2020; supports the possibility of backlog-supported spending despite a contemporaneous traffic shock, not the exact modeled growth rate. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
8. ACI World - The High-Wire Balancing Act: Global Air Transport Demand in 2018 and 2019
   - Evidence informing the 2017 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers and xx.xx% growth in 2018; the growth observation informs the 2017 backcast bridge. ([blog.aci.aero](https://blog.aci.aero/airport-economics/the-high-wire-balancing-act-global-air-transport-demand-in-2018-and-2019/))
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: Provides the observed 2018 traffic-growth reference, not an equipment-market growth observation. ([blog.aci.aero](https://blog.aci.aero/airport-economics/the-high-wire-balancing-act-global-air-transport-demand-in-2018-and-2019/))
9. ICAO A42-WP/556 - State of the Industry and Outlook for Airport Traffic, Presented by ACI
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Records the collapse from xx.xx airport passengers in 2019 to xx.xx in 2020; constrains the shock and funding-risk interpretation. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2021, supporting a prolonged funding and activity shock. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2023 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2023; traffic recovery is distinguished from equipment purchasing. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2024, providing a demand recovery cross-check. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))

10. Port of Seattle - Baggage Handling System Optimization

- Evidence informing the 2029 market-value input; displayed series and growth include calculations: Seattle plans to consolidate six baggage-screening systems, increase supported passenger capacity, and reduce screening-machine demand. Supports integration spending without one-for-one detector growth. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The consolidation example constrains equipment-volume assumptions; its whole baggage-handling project value is excluded from market sizing. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing the 2040 market-value input; displayed series and growth include calculations: Provides a commercial counterexample to extrapolating passenger growth directly into machine counts throughout the long-range forecast. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Consolidation of six systems with reduced machine demand qualifies a traffic-to-detector-volume forecast. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The consolidation project supports integration-driven conveyor demand, but its whole-project value is excluded. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Brownfield consolidation supports the integration-demand premise, not the forecast's exact service growth factor. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport replaces six separate screening systems with centralized screening and expects reduced screening-machine demand while expanding capacity. This supplies a counterforce to volume-only checked-baggage forecasting.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Seattle is consolidating six screening systems, expects reduced screening-machine demand and schedules final-phase completion in 2029. Supports integration demand while constraining detector-volume growth; the whole-project budget is excluded.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seattle is consolidating six screening systems, expects reduced screening-machine demand and schedules final-phase completion in 2029. Supports integration demand while constraining detector-volume growth; the whole-project budget is excluded.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seattle's project combines increased screening capacity with consolidation from six screening systems and reduced screening-machine demand. This constrains the forecast assumption that capacity growth requires proportional equipment additions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement and capacity objectives coexist within the project. Its wider baggage-handling budget is not treated as screening-equipment revenue or assigned additively to multiple purposes.

11. Smiths Group PLC - Half Year Results for the Six Months Ended 31 January 2026

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports xx.xx% organic growth for Smiths Detection in HY2026, with aviation checkpoint upgrades contributing. Supports a positive 2026 nowcast, not a directly observed global growth rate. ([www-live.smiths.com](https://www-live.smiths.com/media/villk35h/smiths-hy26-results-press-release.pdf))

12. CATSA 2025 Annual Report - Notes to the Financial Statements

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx accounts disclose C$xx.xx maintenance/spares and C$xx.xx training/certification, supporting the service-budget calibration but not global baggage-only shares. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx accounts disclose C$xx.xx maintenance/spares and C$xx.xx training/certification, supporting the service-budget calibration but not global baggage-only shares. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintenance and spare parts are combined in the accounts; the labor-versus-goods split therefore remains modeled. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintenance and spare parts are combined in the accounts; the labor-versus-goods split therefore remains modeled. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The C$xx.xx training/certification expense supplies the numerator of the adjusted training-to-capital proxy. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The C$xx.xx training/certification expense supplies the numerator of the adjusted training-to-capital proxy. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: C$xx.xx trace/consumables is distinct from maintenance/spares and supplies the contrary consumables-intensity comparator, not a global observation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: C$xx.xx trace/consumables is distinct from maintenance/spares and supplies the contrary consumables-intensity comparator, not a global observation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately reports C$xx.xx maintenance/spares, C$xx.xx trace/consumables and C$xx.xx training/certification, constraining attributable agency lifecycle expenditure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates screening-contractor payments from equipment support, preventing staffing expenditure from becoming equipment-market purchasing.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately reports C$xx.xx maintenance/spares, C$xx.xx trace/consumables and C$xx.xx training/certification, constraining attributable agency lifecycle expenditure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates screening-contractor payments from equipment support, preventing staffing expenditure from becoming equipment-market purchasing.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited expense disclosure reports C$xx.xx for maintenance and spare parts in the year ended March xx.xx 2025. It constrains support-spending materiality, not the amount attributable to an independent provider. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))

13. CATSA 2025 Annual Report - Management's Discussion and Analysis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: EDS capital expenditure of C$xx.xx includes equipment and installation/integration and supplies the training-calibration denominator, subject to baggage attribution. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EDS capital expenditure of C$xx.xx includes equipment and installation/integration and supplies the training-calibration denominator, subject to baggage attribution. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The capital definition includes associated installation and integration, supporting the distinction between deployment services and equipment value. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The capital definition includes associated installation and integration, supporting the distinction between deployment services and equipment value. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Actual spending, original budget and reprofile amounts constrain the forecast's purchasing-execution interpretation; they are not a global growth rate. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx pre-board capital appropriations used were C$xx.xx. This supplies the Canadian purchasing comparison and a component of the non-passenger-to-cabin activity proxy, not a global share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx pre-board capital appropriations used were C$xx.xx. This supplies the Canadian purchasing comparison and a component of the non-passenger-to-cabin activity proxy, not a global share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx hold-baggage capital appropriations used were C$xx.xx; this constrains the independent application-capital comparison.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx non-passenger capital appropriations used were C$xx.xx, below the original C$xx.xx budget. Actual purchasing informs the proxy and qualifies automatic announcement-to-revenue conversion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx non-passenger capital appropriations used were C$xx.xx, below the original C$xx.xx budget. Actual purchasing informs the proxy and qualifies automatic announcement-to-revenue conversion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports C$xx.xx EDS capital expenditure for FY2024/xx.xx and identifies both baggage equipment and full-body scanners in the capital scope, requiring a baggage-attribution adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports C$xx.xx EDS capital expenditure for FY2024/xx.xx and identifies both baggage equipment and full-body scanners in the capital scope, requiring a baggage-attribution adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EDS outturn was C$xx.xx versus an original C$xx.xx plan and revised C$xx.xx budget. Reprofiling constrains assumed award conversion and deployment timing; it does not measure procurement-channel mix. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The actual capital-project list identifies hold-baggage capacity expansion at Montréal-Trudeau, supporting the expansion classification, not its modeled global revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The actual capital-project list identifies hold-baggage capacity expansion at Montréal-Trudeau, supporting the expansion classification, not its modeled global revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The actual project list includes checkpoint CT deployment and hold-baggage oversize-equipment lifecycle management, supporting renewal activity without disclosing its purpose-specific spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The actual project list includes checkpoint CT deployment and hold-baggage oversize-equipment lifecycle management,

14. Aviation security screening approved equipment list
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Baggage EDS/EDSCB and conventional X-ray classes support the inspection-system boundary, not sales weights. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Baggage EDS/EDSCB and conventional X-ray classes support the inspection-system boundary, not sales weights. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Liquid detectors are a distinct cabin-baggage category; the complete bulk-material extension remains modeled within the captured boundary. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Liquid detectors are a distinct cabin-baggage category; the complete bulk-material extension remains modeled within the captured boundary. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ETD serves baggage and other applications, requiring explicit baggage attribution rather than allocating all detector sales here. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ETD serves baggage and other applications, requiring explicit baggage attribution rather than allocating all detector sales here. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dedicated ETD consumables are separately recognized, supporting goods classification without establishing spending or unrestricted interchangeability. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dedicated ETD consumables are separately recognized, supporting goods classification without establishing spending or unrestricted interchangeability. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
15. Quantifying the Impacts of Delayed Maintenance of Airport Assets: A Guide - Chapter 6, Baggage Handling Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The baggage-handling cost study uses a modeled xx.xx% labor share, adopted only as an adjacent support-cost proxy. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The baggage-handling cost study uses a modeled xx.xx% labor share, adopted only as an adjacent support-cost proxy. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Its corresponding modeled xx.xx% parts share calibrates the labor/goods separation; it is not an observed screening-equipment ratio. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Its corresponding modeled xx.xx% parts share calibrates the labor/goods separation; it is not an observed screening-equipment ratio. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))

16. Procurement of Next Generation Security Checkpoint Equipment - Contract Award Notice

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The seven-system award includes automated tray return, demonstrating bundled purchasing but no separately priced hardware allocation. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The seven-system award includes automated tray return, demonstrating bundled purchasing but no separately priced hardware allocation. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The integrated CT/tray-return scope constrains the automation interface boundary; it does not value general airport conveyors. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The integrated CT/tray-return scope constrains the automation interface boundary; it does not value general airport conveyors. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Central image processing is an explicit purchased function, without a separately disclosed license price. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Central image processing is an explicit purchased function, without a separately disclosed license price. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supply, installation and commissioning are included deliverables, supporting deployment-service attribution without establishing its percentage. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supply, installation and commissioning are included deliverables, supporting deployment-service attribution without establishing its percentage. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2022 award covers seven systems combining cabin CT, tray return, image processing and deployment responsibilities. It supports integrated purchased scope, not completed delivery or a global sales weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2022 award covers seven systems combining cabin CT, tray return, image processing and deployment responsibilities. It supports integrated purchased scope, not completed delivery or a global sales weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The integrated Newcastle procurement reports a GBP xx.xx-xx.xx offer range but no physical review-room location; its value cannot be assigned automatically to local review. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The integrated Newcastle procurement reports a GBP xx.xx-xx.xx offer range but no physical review-room location; its value cannot be assigned automatically to local review. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Central image processing is included, but a separate on-site room is not specified; constrains classification rather than supplying a remote-review sales weight. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Central image processing is included, but a separate on-site room is not specified; constrains classification rather than supplying a remote-review sales weight. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The bundled award does not identify a mixed-location package or its attributable price, preventing automatic hybrid classification. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The bundled award does not identify a mixed-location package or its attributable price, preventing automatic hybrid classification.

17. AI for Monitoring Aviation Security: Fraport and German Federal Police Start Regular Operation of APIDS
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: January xx.xx 2026 APIDS deployment demonstrates additional software adoption, without establishing separate revenue. ([fraport.com](https://www.fraport.com/en/newsroom/press-releases/2026/q1/ai-for-monitoring-aviation-security.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Deployment on more than xx.xx CT scanners is the independent quantitative rollout test; it does not validate the modeled license-growth factor. ([fraport.com](https://www.fraport.com/en/newsroom/press-releases/2026/q1/ai-for-monitoring-aviation-security.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: On January xx.xx 2026, Fraport announced regular APIDS software operation on more than xx.xx existing Smiths CT scanners. This independently supports retained-system enhancement at one buyer, not global penetration or realized license revenue.
18. Smiths Detection - Digital Innovation
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier identifies detection applications as a commercial function; separate fee allocation remains assumed. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier identifies detection applications as a commercial function; separate fee allocation remains assumed. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized screening supports the image-review function, not an observed software revenue weight. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized screening supports the image-review function, not an observed software revenue weight. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Connectivity, multi-vendor integration and equipment-health applications establish the fleet-management function without proving customer-specific rights or prices. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Connectivity, multi-vendor integration and equipment-health applications establish the fleet-management function without proving customer-specific rights or prices. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ELECTORA is offered for integrating multi-vendor devices, datasets and applications; establishes the vendor-platform category but discloses no category revenue or customer-specific substitution entitlement. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ELECTORA is offered for integrating multi-vendor devices, datasets and applications; establishes the vendor-platform category but discloses no category revenue or customer-specific substitution entitlement. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
19. UK Civil Aviation Authority - Threat Image Projection (TIP)
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: TIP library approval and renewal obligations support continuing software commitments, not the modeled global fee or share. ([caa.co.uk](https://www.caa.co.uk/commercial-industry/security/training-and-human-factors/threat-image-projection/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: TIP library approval and renewal obligations support continuing software commitments, not the modeled global fee or share. ([caa.co.uk](https://www.caa.co.uk/commercial-industry/security/training-and-human-factors/threat-image-projection/))

20. Smiths Detection - Service
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Inclusive capital-equipment support covers labor and parts, requiring a single-count economic allocation across services and goods. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Inclusive capital-equipment support covers labor and parts, requiring a single-count economic allocation across services and goods. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Equipment-specific training and certification are commercial offerings distinct from routine screening staffing. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Equipment-specific training and certification are commercial offerings distinct from routine screening staffing. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The parts-support offering and inclusive contracts corroborate the goods boundary, but not the assumed xx.xx% allocation. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The parts-support offering and inclusive contracts corroborate the goods boundary, but not the assumed xx.xx% allocation. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes inclusive labor-and-parts contracts and manufacturer support, supporting nonduplicative lifecycle attribution to projection equipment, not a verified xx.xx% fee. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes inclusive labor-and-parts contracts and manufacturer support, supporting nonduplicative lifecycle attribution to projection equipment, not a verified xx.xx% fee. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports the existence of manufacturer lifecycle offerings; broad service-footprint counts are not used as CT revenue weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports the existence of manufacturer lifecycle offerings; broad service-footprint counts are not used as CT revenue weights.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports commercial maintenance, refurbishment and parts offerings for portable equipment without establishing baggage-specific service receipts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports commercial maintenance, refurbishment and parts offerings for portable equipment without establishing baggage-specific service receipts.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer markets direct on-site support and inclusive capital-equipment labor-and-parts contracts. This supports a continuing manufacturer-service alternative, without measuring a pricing premium. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer markets direct on-site support and inclusive capital-equipment labor-and-parts contracts. This supports a continuing manufacturer-service alternative, without measuring a pricing premium. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Manufacturer-provided bundled support is a commercial alternative to separate technical-service procurement, limiting assumptions of unrestricted third-party substitution. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Manufacturer-provided bundled support is a commercial alternative to separate technical-service procurement, limiting assumptions of unrestricted third-party substitution. ([smithsdetection.com](https://www.smithsdetection.com/service/))

21. Hold baggage screening upgrade, Dublin and Cork Airports, Ireland

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate professional-service appointments cover project controls, design oversight and interface management; the broader construction budget is not used as screening-service revenue. ([neccontract.com](https://www.neccontract.com/projects/hold-baggage-screening-upgrade-dublin-and-cork-airports-ireland))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate professional-service appointments cover project controls, design oversight and interface management; the broader construction budget is not used as screening-service revenue. ([neccontract.com](https://www.neccontract.com/projects/hold-baggage-screening-upgrade-dublin-and-cork-airports-ireland))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes three upgraded hold-baggage systems delivered through separate construction, baggage-integration and advisory appointments, completed in March 2023. Supports integrated-system attribution without assuming a universal single-prime model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes three upgraded hold-baggage systems delivered through separate construction, baggage-integration and advisory appointments, completed in March 2023. Supports integrated-system attribution without assuming a universal single-prime model.

22. Corporate Plan 2025-26 to 2029-30 Summary - Financial Overview
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CATSA distinguishes major-checkpoint CT replacement from single-view-to-multiview replacement elsewhere, supporting application-specific projection demand and forecast assumptions. It also discloses capital funding subject to reprofile approval. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/corporate-plan-2025-xx.xx-2029-xx.xx/financial-overview))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CATSA distinguishes major-checkpoint CT replacement from single-view-to-multiview replacement elsewhere, supporting application-specific projection demand and forecast assumptions. It also discloses capital funding subject to reprofile approval. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/corporate-plan-2025-xx.xx-2029-xx.xx/financial-overview))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies single-view equipment as a replacement population, supporting the modeled displacement mechanism rather than an observed global share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies single-view equipment as a replacement population, supporting the modeled displacement mechanism rather than an observed global share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Multiview remains a planned purchasing destination at non-passenger checkpoints and Class xx.xx airports, qualifying universal CT substitution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Multiview remains a planned purchasing destination at non-passenger checkpoints and Class xx.xx airports, qualifying universal CT substitution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CT replacement is a stated major-checkpoint investment priority, subject to funding and delivery risks; this supports direction, not the modeled global share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CT replacement is a stated major-checkpoint investment priority, subject to funding and delivery risks; this supports direction, not the modeled global share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The plan includes additional screening equipment and expansion of existing hold-baggage screening capacity. Its FY2025/xx.xx capital budget is C$xx.xx across mixed activities; plans are not recognized supplier revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The plan includes additional screening equipment and expansion of existing hold-baggage screening capacity. Its FY2025/xx.xx capital budget is C$xx.xx across mixed activities; plans are not recognized supplier revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The plan distinguishes replacement of checkpoint X-ray equipment with CT and asset lifecycle renewal from additional capacity. Funding, partner timing and reprofiling qualify forecast realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The plan distinguishes replacement of checkpoint X-ray equipment with CT and asset lifecycle renewal from additional capacity. Funding, partner timing and reprofiling qualify forecast realization.
23. ECAC CEP Public Equipment List - Explosive Detection Systems, Update 18 April 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 list retains XRD xx.xx supporting the legacy commercial-category premise but not the assumed installed cohort or sales volume. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-EDS-equipment_public_list_update_20250418.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 list retains XRD xx.xx supporting the legacy commercial-category premise but not the assumed installed cohort or sales volume. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-EDS-equipment_public_list_update_20250418.pdf))

24. Partners - HALO X-ray Technologies Ltd

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named airport pilots and approximately USD xx.xx and USD xx.xx development programs establish commercialization activity and program scale, not realized annual XRD equipment revenue. ([haloxray.com](https://www.haloxray.com/partners))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named airport pilots and approximately USD xx.xx and USD xx.xx development programs establish commercialization activity and program scale, not realized annual XRD equipment revenue. ([haloxray.com](https://www.haloxray.com/partners))

25. Explosives Trace Detectors (ETDs): Market Survey Report, November 2021

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Historical IONSCAN xx.xx list-price configurations around USD xx.xx-xx.xx constrain the IMS price class; they do not establish 2025 purchasing volumes or realizations. ([dhs.gov](https://dhs.gov/sites/default/files/2021-xx.xx/SAVER_Explosives%20Trace%20Detectors%20MSR_08Nov2021_Final-xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Historical IONSCAN xx.xx list-price configurations around USD xx.xx-xx.xx constrain the IMS price class; they do not establish 2025 purchasing volumes or realizations. ([dhs.gov](https://dhs.gov/sites/default/files/2021-xx.xx/SAVER_Explosives%20Trace%20Detectors%20MSR_08Nov2021_Final-xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The Fido X4 historical USD xx.xx list-price benchmark supports the explicit nominal-price bridge; baggage attribution and unit mix remain modeled.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The Fido X4 historical USD xx.xx list-price benchmark supports the explicit nominal-price bridge; baggage attribution and unit mix remain modeled.

26. Astrotech Corporation - Form 10-K for the Fiscal Year Ended June 30, 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Discloses FY2025 product and service revenue, xx.xx deployment locations, and a six-unit USD xx.xx order. These provide a price comparator and supplier-scale check, not baggage-only revenue. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20250630_10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Discloses FY2025 product and service revenue, xx.xx deployment locations, and a six-unit USD xx.xx order. These provide a price comparator and supplier-scale check, not baggage-only revenue. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20250630_10k.htm))

27. Astrotech Corporation - Form 10-K for the Fiscal Year Ended June 30, 2026

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports eight TRACER units sold in FY2025 versus three in FY2026, identifies grant-related revenue within FY2025 product revenue, and describes a potential subsidiary sale. These constrain MS attribution and forecast optimism. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20260630_10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports eight TRACER units sold in FY2025 versus three in FY2026, identifies grant-related revenue within FY2025 product revenue, and describes a potential subsidiary sale. These constrain MS attribution and forecast optimism. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20260630_10k.htm))

28. Liquid Explosive Detector, Bottle Liquid Scanner, Insight - Agilent

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Raman-based airport resolution products and dated September 2025 launch and May 2026 contract announcements. Supports category continuity and adoption premises, not global unit or revenue shares. ([agilent.com](https://www.agilent.com/en/product/molecular-spectroscopy/raman-spectroscopy/raman-aviation-security-systems/insight-series-alarm-resolution-systems))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Raman-based airport resolution products and dated September 2025 launch and May 2026 contract announcements. Supports category continuity and adoption premises, not global unit or revenue shares. ([agilent.com](https://www.agilent.com/en/product/molecular-spectroscopy/raman-spectroscopy/raman-aviation-security-systems/insight-series-alarm-resolution-systems))

29. Bottle Liquid Scanner for Sale from China - Securina

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Positions microwave-based liquid-screening products for airports and customs. Supports commercial classification only; prices, authorization and purchasing weights remain assumptions. ([securinadetection.com](https://www.securinadetection.com/Bottle-Liquid-Scanner-Manufacturer-China.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Positions microwave-based liquid-screening products for airports and customs. Supports commercial classification only; prices, authorization and purchasing weights remain assumptions. ([securinadetection.com](https://www.securinadetection.com/Bottle-Liquid-Scanner-Manufacturer-China.html))

30. Quick, Accurate Threat-Detection Scanner for Liquid, Aerosol, and Gels Eases and Secures Air Travel Worldwide

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies LS10 as a complete commercial liquid scanner combining RF and ultrasonic capabilities, supporting nonduplicative complete-product attribution. ([battelle.org](https://www.battelle.org/insights/case-studies/case-study-details/quick-accurate-threat-detection-scanner-for-liquid-aerosol-and-gels-eases-and-secures-air-travel-worldwide))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies LS10 as a complete commercial liquid scanner combining RF and ultrasonic capabilities, supporting nonduplicative complete-product attribution. ([battelle.org](https://www.battelle.org/insights/case-studies/case-study-details/quick-accurate-threat-detection-scanner-for-liquid-aerosol-and-gels-eases-and-secures-air-travel-worldwide))

31. ECAC CEP Public Equipment List - Liquid Explosive Detection Systems, Update 10 July 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 list includes One Resonance Sensors MobiLab BLS. This supports retained listed status for a named product, not active supply, paid installed stock or observed receipts. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-LEDS%20equipment%20public%20list-update%xx.xx-xx.xx-rev1.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 list includes One Resonance Sensors MobiLab BLS. This supports retained listed status for a named product, not active supply, paid installed stock or observed receipts. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-LEDS%20equipment%20public%20list-update%xx.xx-xx.xx-rev1.pdf))

32. MobiLab BLS Bottled Liquid Scanner Endorsed By European Civil Aviation Conference

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's May xx.xx 2014 announcement identifies MobiLab BLS as an NMR-based airport liquid scanner and states that orders were being accepted. Establishes historical commercial offering, not 2025 deliveries. ([prnewswire.com](https://www.prnewswire.com/news-releases/mobilab-bls-bottled-liquid-scanner-endorsed-by-european-civil-aviation-conference-xx.xx.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's May xx.xx 2014 announcement identifies MobiLab BLS as an NMR-based airport liquid scanner and states that orders were being accepted. Establishes historical commercial offering, not 2025 deliveries. ([prnewswire.com](https://www.prnewswire.com/news-releases/mobilab-bls-bottled-liquid-scanner-endorsed-by-european-civil-aviation-conference-xx.xx.html))

33. SafePointe BLS Powered by ORS - Bottled Liquid Explosives Detection Solution

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The branded supplier brochure documents an ORS-powered bottled-liquid product channel. Its availability does not establish current orders or support continuity; it supports only the legacy-channel modeling premise. ([uploads-ssl.webflow.com](https://uploads-ssl.webflow.com/608330bcae48962bf6d7ff37/6149f80be6c30d34b5e3debe_BLS-Flyer-Compressed.pdf))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The branded supplier brochure documents an ORS-powered bottled-liquid product channel. Its availability does not establish current orders or support continuity; it supports only the legacy-channel modeling premise. ([uploads-ssl.webflow.com](https://uploads-ssl.webflow.com/608330bcae48962bf6d7ff37/6149f80be6c30d34b5e3debe_BLS-Flyer-Compressed.pdf))

34. Florida Division of Corporations - One Resonance Sensors, LLC, Entity Detail

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official registry records One Resonance Sensors, LLC as inactive following administrative dissolution on September xx.xx 2019. This counterevidence constrains continuity assumptions but does not prove zero surviving product support. ([search.sunbiz.org](https://search.sunbiz.org/Inquiry/CorporationSearch/SearchResultDetail?aggregateId=flal-l11000122986-c57f60b3-690d-4c87-836a-9aeb045075e8&directionType=CurrentList&inquirytype=EntityName&listNameOrder=ONERESONANCESENSORS+L110001229860&searchNameOrder=ONERESONANCESENSORS+L110001229860&searchTerm=ONE+RED+AMPERSAND+LLC))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official registry records One Resonance Sensors, LLC as inactive following administrative dissolution on September xx.xx 2019. This counterevidence constrains continuity assumptions but does not prove zero surviving product support. ([search.sunbiz.org](https://search.sunbiz.org/Inquiry/CorporationSearch/SearchResultDetail?aggregateId=flal-l11000122986-c57f60b3-690d-4c87-836a-9aeb045075e8&directionType=CurrentList&inquirytype=EntityName&listNameOrder=ONERESONANCESENSORS+L110001229860&searchNameOrder=ONERESONANCESENSORS+L110001229860&searchTerm=ONE+RED+AMPERSAND+LLC))

35. Explosive Detection - Teledyne FLIR Defense

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists offered Fido X-series products and service support, supporting commercial offering continuity only, not airport-specific eligibility or sales weights. ([flir.com](https://www.flir.com/threat-detection/explosives/))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists offered Fido X-series products and service support, supporting commercial offering continuity only, not airport-specific eligibility or sales weights. ([flir.com](https://www.flir.com/threat-detection/explosives/))

36. Scintrex Trace E3500 Explosive Trace Detection Unit - SecurityPro USA

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distributor offers E3500 chemiluminescence equipment and identifies customs/border applications. Supports a commercial category lead, not measured airport purchasing or the assumed price. ([securityprousa.com](https://www.securityprousa.com/collections/explosive-detection/products/scintrex-trace-e3500-explosive-trace-detection-unit))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distributor offers E3500 chemiluminescence equipment and identifies customs/border applications. Supports a commercial category lead, not measured airport purchasing or the assumed price. ([securityprousa.com](https://www.securityprousa.com/collections/explosive-detection/products/scintrex-trace-e3500-explosive-trace-detection-unit))

37. Portable Explosive Detector - Trace Detector EVD-3000+

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distributor offers EVD-xx.xx+ thermo-redox equipment. Supports offered-product classification, not airport authorization, purchasing volume or the modeled realization. ([securityprousa.com](https://www.securityprousa.com/products/scintrex-trace-evd-xx.xx-portable-trace-detection-unit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distributor offers EVD-xx.xx+ thermo-redox equipment. Supports offered-product classification, not airport authorization, purchasing volume or the modeled realization. ([securityprousa.com](https://www.securityprousa.com/products/scintrex-trace-evd-xx.xx-portable-trace-detection-unit))

38. CATSA's Purchase Order Terms and Conditions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contract terms constrain maintenance, parts and consumables escalation, qualifying unrestricted aftermarket pricing assumptions in the projection lifecycle model. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contract terms constrain maintenance, parts and consumables escalation, qualifying unrestricted aftermarket pricing assumptions in the projection lifecycle model. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contractual price limits constrain the pricing premise, but do not verify CT-specific global support receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contractual price limits constrain the pricing premise, but do not verify CT-specific global support receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintenance and consumable escalation limits qualify the trace-platform pricing assumption rather than establishing the modeled IMS share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintenance and consumable escalation limits qualify the trace-platform pricing assumption rather than establishing the modeled IMS share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The pre-existing-software clause grants broad license rights without transferring ownership; proprietary ownership alone therefore cannot establish the Closed revenue numerator. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The pre-existing-software clause grants broad license rights without transferring ownership; proprietary ownership alone therefore cannot establish the Closed revenue numerator. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Software modification rights are not themselves proof of standards-based interfaces or independent component substitution; supports conservative classification. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Software modification rights are not themselves proof of standards-based interfaces or independent component substitution; supports conservative classification. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))

39. Liquids Scanner for Airport Security - UC Davis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2011 account establishes a development contract and licensing relationship. Its development allocation is excluded from 2025 receipts and does not establish a surviving commercial cohort. ([ucdavis.edu](https://www.ucdavis.edu/news/liquids-scanner-airport-security))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2011 account establishes a development contract and licensing relationship. Its development allocation is excluded from 2025 receipts and does not establish a surviving commercial cohort. ([ucdavis.edu](https://www.ucdavis.edu/news/liquids-scanner-airport-security))
40. Open Architecture for Airport Security Systems, Second Edition
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes proprietary integration from interoperable connections, supporting the category boundary rather than an observed revenue share. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes proprietary integration from interoperable connections, supporting the category boundary rather than an observed revenue share. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Integration does not guarantee interoperability; this constrains attribution of vendor-mediated configurations. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Integration does not guarantee interoperability; this constrains attribution of vendor-mediated configurations. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Allows identified partial compliance and discusses accountable integration responsibilities; supports scoped open attribution, not whole-purchase reclassification. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Allows identified partial compliance and discusses accountable integration responsibilities; supports scoped open attribution, not whole-purchase reclassification. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))

41. CATSA 2025 Annual Report - Overview of Activities

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines across xx.xx airports serving more than xx.xx% of passengers in 2024/xx.xx; provides an independent integration-activity check, not a direct value allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines across xx.xx airports serving more than xx.xx% of passengers in 2024/xx.xx; provides an independent integration-activity check, not a direct value allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported modernized passenger coverage constrains an assumption of universally standalone activity, while leaving commercial architecture and revenue attribution unresolved. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported modernized passenger coverage constrains an assumption of universally standalone activity, while leaving commercial architecture and revenue attribution unresolved. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The annual report identifies enhanced non-passenger requirements and implementation planned from spring 2025. This supports a conditional modernization premise, not the modeled global uptake factor.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2024/xx.xx; provides a Canadian adoption comparator, not a global local-review revenue weight. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2024/xx.xx; provides a Canadian adoption comparator, not a global local-review revenue weight. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies remote screening within CATSA Plus and quantifies deployment; constrains the commercial-adoption premise but does not establish each review room's location. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies remote screening within CATSA Plus and quantifies deployment; constrains the commercial-adoption premise but does not establish each review room's location. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Deployment coverage constrains the addressable network-enabled pool; it does not disclose hybrid contracts or justify the modeled hybrid percentage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Deployment coverage constrains the addressable network-enabled pool; it does not disclose hybrid contracts or justify the modeled hybrid percentage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))

42. CATSA - Beyond the Checkpoint, December 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx operational CT machines at eight airports and a modular-line average of xx.xx passengers per hour versus xx.xx for traditional multi-split lines; supports the bounded throughput-to-unit bridge and phased-deployment premise. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/about-us/beyond-checkpoint-2025-december))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx operational CT machines at eight airports and a modular-line average of xx.xx passengers per hour versus xx.xx for traditional multi-split lines; supports the bounded throughput-to-unit bridge and phased-deployment premise. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/about-us/beyond-checkpoint-2025-december))

43. Smiths Detection Delivers Fully Automated International Remote Baggage Screening System Between South Korea and the United States

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2026 disclosure identifies xx.xx software licenses and DICOS V3.xx.xx exchange, and dates operational service to August 2025. Supports commercial standards-based activity and forecast feasibility, not an observed global share or a confirmed 2025 license inventory. ([smithsdetection.com](https://www.smithsdetection.com/press-releases/smiths-detection-delivers-fully-automated-international-remote-baggage-screening-system-between-south-korea-and-the-united-states/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2026 disclosure identifies xx.xx software licenses and DICOS V3.xx.xx exchange, and dates operational service to August 2025. Supports commercial standards-based activity and forecast feasibility, not an observed global share or a confirmed 2025 license inventory. ([smithsdetection.com](https://www.smithsdetection.com/press-releases/smiths-detection-delivers-fully-automated-international-remote-baggage-screening-system-between-south-korea-and-the-united-states/))

44. SeeTrue Marks Milestone with Over 100 X-ray Checkpoint Installations of Advanced AI-Based Threat Detection Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 announcement reports the 100th operational screening lane across airports and other sectors. Provides a limited commercial-adoption scale check; it is neither airport-only nor a census of standards-based entitlements. ([seetrue.ai](https://www.seetrue.ai/seetrue-marks-milestone-with-over-xx.xx-x-ray-checkpoint-installations-of-advanced-ai-based-threat-detection-software/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 announcement reports the 100th operational screening lane across airports and other sectors. Provides a limited commercial-adoption scale check; it is neither airport-only nor a census of standards-based entitlements. ([seetrue.ai](https://www.seetrue.ai/seetrue-marks-milestone-with-over-xx.xx-x-ray-checkpoint-installations-of-advanced-ai-based-threat-detection-software/))

45. Scarabee's Checkpoint Property Screening System to be deployed at DEN

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-lane Denver award combining Scarabee lanes with Smiths scanners. Corroborates a commercial mixed-supplier integration route; an award is not realized annual revenue or proof of unrestricted interoperability. ([daifukuatec.com](https://daifukuatec.com/news/scarabees-checkpoint-property-screening-system-to-be-deployed-at-den))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-lane Denver award combining Scarabee lanes with Smiths scanners. Corroborates a commercial mixed-supplier integration route; an award is not realized annual revenue or proof of unrestricted interoperability. ([daifukuatec.com](https://daifukuatec.com/news/scarabees-checkpoint-property-screening-system-to-be-deployed-at-den))

46. CATSA Annual Report 2024 - Management's Discussion and Analysis

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx pre-board capital appropriations used of C$xx.xx provide the second period in the non-passenger-to-cabin purchasing comparison.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx non-passenger capital appropriations used of C$xx.xx enter the two-period activity proxy; they do not identify the property-only fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx non-passenger capital appropriations used of C$xx.xx enter the two-period activity proxy; they do not identify the property-only fraction.

47. Smiths Detection confirm order of 91 advanced scanners for new terminals at Moscow Sheremetyevo International Airport
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The dated airport deployment includes xx.xx entrance baggage systems and xx.xx cabin-checkpoint systems. Their ratio supplies a historical relative-density proxy, subsequently discounted for assumed global coverage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated airport deployment includes xx.xx entrance baggage systems and xx.xx cabin-checkpoint systems. Their ratio supplies a historical relative-density proxy, subsequently discounted for assumed global coverage.
48. Cochin International Airport Selects Smiths Detection's CTX 9800 for Next-Generation Hold Baggage Screening
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2017 deployment identifies xx.xx customs baggage systems alongside four hold-baggage systems. This supports the customs-intensive historical configuration proxy, not current global fleet or revenue observations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2017 deployment identifies xx.xx customs baggage systems alongside four hold-baggage systems. This supports the customs-intensive historical configuration proxy, not current global fleet or revenue observations.
49. CATSA Functions, Programs and Activities
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Hold-baggage activities include equipment purchase, baggage-handling integration and equipment maintenance, supporting the checked-baggage capital and lifecycle boundary.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Hold-baggage activities include equipment purchase, baggage-handling integration and equipment maintenance, supporting the checked-baggage capital and lifecycle boundary.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-passenger screening covers airport workers and their belongings; only attributable property-screening offerings enter this allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-passenger screening covers airport workers and their belongings; only attributable property-screening offerings enter this allocation.
50. Fraport TAV Antalya Airport - About the security control itself
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The airport operator distinguishes terminal-entry security from a subsequent checkpoint. This supports a separate entrance-screening mission while providing no global prevalence or spending share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport operator distinguishes terminal-entry security from a subsequent checkpoint. This supports a separate entrance-screening mission while providing no global prevalence or spending share.
51. EMSD VoiceLink, Issue 79, June 2026 - EMSD Provides Comprehensive Support for Terminal 2 Commissioning
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June 2026 account identifies baggage-and-parcel equipment procurement and installation for the customs authority at Terminal xx.xx. It supports a separate commissioning mission but does not isolate baggage expenditure.
52. GAO-26-107811 - Guam: Considerations for Evaluating Alternative Customs Models and Potential Economic Effects
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The audit identifies two historical airport-customs baggage systems inactive for years and delayed replacement procurement. This challenges conversion of installed stock or acknowledged need directly into annual equipment and support revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The audit identifies two historical airport-customs baggage systems inactive for years and delayed replacement procurement. This challenges conversion of installed stock or acknowledged need directly into annual equipment and support revenue.

53. Bennet, Moran, Van Hollen, Boozman Introduce Bill to Bolster Aviation Safety
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 official release identifies xx.xx U.S. screening lanes, used as agency purchasing-exposure calibration rather than observed annual equipment sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 official release identifies xx.xx U.S. screening lanes, used as agency purchasing-exposure calibration rather than observed annual equipment sales.
54. Bank of Canada - Annual exchange rates
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual exchange-rate observations support the inherited fiscal-period approximation of xx.xx Canadian dollars per U.S. dollar; this is not a transaction-weighted exchange rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual exchange-rate observations support the inherited fiscal-period approximation of xx.xx Canadian dollars per U.S. dollar; this is not a transaction-weighted exchange rate.
55. Japan’s leading airline revolutionizes check in experience with new Smiths Detection technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The August 2023 announcement identifies JAL as customer for five screening ecosystems and reports xx.xx deployed iLane units across Japan. These are historical commercial-stock anchors, not an airline-only fleet or 2025 sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August 2023 announcement identifies JAL as customer for five screening ecosystems and reports xx.xx deployed iLane units across Japan. These are historical commercial-stock anchors, not an airline-only fleet or 2025 sales observation.
56. Narita International Airport anticipates threats with integrated solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Narita airport as a screening-technology customer and describes xx.xx lane-related installations, qualifying any assumption that the supplier's Japanese installed stock was purchased entirely by airlines.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Narita airport as a screening-technology customer and describes xx.xx lane-related installations, qualifying any assumption that the supplier's Japanese installed stock was purchased entirely by airlines.
57. MLIT - 保安検査の実施主体が変わります！ - June 27, 2025
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement targets transfer of security-screening responsibility from airlines to airport managers, with leading cases targeted in FY2026. Supports a conditional reduction in airline purchasing, not an observed contract-transfer percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transfer direction supports modeled airport-manager purchasing gains. Continued shared financing does not imply equal purchasing shares.
58. ICTS International N.V. - Annual Report for the year ended December 31, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Discloses USD xx.xx company-wide property/equipment purchases and USD xx.xx airport-security revenue in 2025. Supports an asset-light purchasing-intensity proxy; the in-scope fraction and global expansion remain assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Discloses USD xx.xx company-wide property/equipment purchases and USD xx.xx airport-security revenue in 2025. Supports an asset-light purchasing-intensity proxy; the in-scope fraction and global expansion remain assumptions.

59. EU Publications Office - Purchase and maintenance of non-intrusive X-ray inspection equipment for baggage and air cargo volume control
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Autoridade Tributária e Aduaneira as buyer and reports a 2026 award of EUR xx.xx across four lots for baggage/air-cargo inspection equipment and maintenance. Provides a buyer-role and commercial-scale comparator, not 2025 baggage-only annual expenditure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Autoridade Tributária e Aduaneira as buyer and reports a 2026 award of EUR xx.xx across four lots for baggage/air-cargo inspection equipment and maintenance. Provides a buyer-role and commercial-scale comparator, not 2025 baggage-only annual expenditure.
60. ACI World - Busiest Airports in the World
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx international airport passenger movements in 2025. Half provides an approximate arrival-movement scale check before transfer exclusions, not a customs examination or equipment-purchasing weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx international airport passenger movements in 2025. Half provides an approximate arrival-movement scale check before transfer exclusions, not a customs examination or equipment-purchasing weight.
61. Heathrow announces £2.3bn accelerated investment plan to upgrade the UK's international gateway to growth
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports GBP xx.xx invested in security-lane upgrades during 2024, supporting material airport-directed purchasing. Broader infrastructure obligations and historical timing prevent treating the amount as 2025 in-scope market receipts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports GBP xx.xx invested in security-lane upgrades during 2024, supporting material airport-directed purchasing. Broader infrastructure obligations and historical timing prevent treating the amount as 2025 in-scope market receipts.
62. Fraport Assumes Responsibility for Aviation Security Checks at Frankfurt Airport
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents Fraport's checkpoint-management responsibility from January 2023, six initial CT-equipped lanes and three contracted screening providers. Supports distinguishing an airport commissioning role from regulator oversight and contracted screening labor.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents Fraport's checkpoint-management responsibility from January 2023, six initial CT-equipped lanes and three contracted screening providers. Supports distinguishing an airport commissioning role from regulator oversight and contracted screening labor.
63. Advanced Cabin Baggage Screening - Computed Tomography Implementation Guide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes standalone CT, including equipment-local conveyance, from integrated screening-lane configurations; supports attribution boundaries, not a revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes standalone CT, including equipment-local conveyance, from integrated screening-lane configurations; supports attribution boundaries, not a revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies automated tray-return and automated screening-lane integration as commercially distinct configurations; supports the lane-integrated category definition.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies automated tray-return and automated screening-lane integration as commercially distinct configurations; supports the lane-integrated category definition.

64. GAO-12-266 - Checked Baggage Screening: TSA Has Deployed Optimal Systems at the Majority of TSA-Regulated Airports, but Could Strengthen Cost Estimates

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December 2011 table reports xx.xx standalone EDS alongside xx.xx in-line EDS; this historical machine-count comparator constrains, but does not determine, the current global allocation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December 2011 table reports xx.xx standalone EDS alongside xx.xx in-line EDS; this historical machine-count comparator constrains, but does not determine, the current global allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx in-line EDS across xx.xx in-line systems and distinguishes equipment counts from integrated-system counts; supports the historical configuration bridge.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx in-line EDS across xx.xx in-line systems and distinguishes equipment counts from integrated-system counts; supports the historical configuration bridge.

65. Smiths Detection selected as security technology provider to International Airport Heraklion Crete

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 announcement identifies eight cabin CT scanners and eight automated tray-return systems for Heraklion, with installation planned across late 2025 and mid-2026; supports ongoing integrated procurement, not realized annual revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 announcement identifies eight cabin CT scanners and eight automated tray-return systems for Heraklion, with installation planned across late 2025 and mid-2026; supports ongoing integrated procurement, not realized annual revenue.

66. Centralised Image Processing: The Impact on Security Checkpoints

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes checkpoint-local image review from separate-room arrangements; supports retaining networked local activity rather than automatically assigning it to remote review. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes checkpoint-local image review from separate-room arrangements; supports retaining networked local activity rather than automatically assigning it to remote review. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes separate screening rooms and established remote hold-baggage review at larger airports; supports the cohort-maturity premise, not a numerical global share. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes separate screening rooms and established remote hold-baggage review at larger airports; supports the cohort-maturity premise, not a numerical global share. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes combined checkpoint and remote-room arrangements, establishing a mixed-location commercial configuration without measuring its prevalence or price. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes combined checkpoint and remote-room arrangements, establishing a mixed-location commercial configuration without measuring its prevalence or price. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))

67. Annual Report 2024 - CATSA's Operating Environment

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2023/xx.xx providing the historical comparison rather than a global location allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2023/xx.xx providing the historical comparison rather than a global location allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Together with the subsequent annual report, supports a seven-line deployment increase without a corresponding increase in reported passenger coverage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Together with the subsequent annual report, supports a seven-line deployment increase without a corresponding increase in reported passenger coverage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provides a historical network-enabled deployment anchor, while leaving the physical mixed-location contract share unmeasured. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provides a historical network-enabled deployment anchor, while leaving the physical mixed-location contract share unmeasured. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))

68. L22020-T-TG Upgrades to the Passenger Search Area, body scanners, EDS C3 cabin baggage screening - Contract Award Notice

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2023 Luton award expressly includes construction of a remote screening room at the airport terminal, supporting separate-room commercial procurement. Its broader scope is not treated as baggage-only annual revenue. ([find-tender.service.gov.uk](https://www.find-tender.service.gov.uk/Notice/xx.xx-2023))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2023 Luton award expressly includes construction of a remote screening room at the airport terminal, supporting separate-room commercial procurement. Its broader scope is not treated as baggage-only annual revenue. ([find-tender.service.gov.uk](https://www.find-tender.service.gov.uk/Notice/xx.xx-2023))

69. Greater Orlando Aviation Authority - Minutes of the February 19, 2025 Meeting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Authorizes up to USD xx.xx for baggage-system and Remote Screening Facility network/server separation. Half this ceiling is an explicitly assumed deployment-cost comparator, not observed off-site receipts. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Authorizes up to USD xx.xx for baggage-system and Remote Screening Facility network/server separation. Half this ceiling is an explicitly assumed deployment-cost comparator, not observed off-site receipts. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provides the commercial networking-cost anchor for the modeled transfer from existing on-site pools, avoiding additional market value or duplicate host-equipment attribution. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provides the commercial networking-cost anchor for the modeled transfer from existing on-site pools, avoiding additional market value or duplicate host-equipment attribution. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))

70. American and U.S. Customs and Border Protection pilot innovative baggage screening initiative

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: American's April xx.xx 2025 announcement identifies a daily Sydney-Los Angeles IRBS pilot and unchanged screening requirements. It anchors one sampled connection and an assumed partial-year licensing period, not disclosed revenue. ([s202.q4cdn.com](https://s202.q4cdn.com/xx.xx/files/doc_news/American-and-US-Customs-and-Border-Protection-pilot-innovative-baggage-screening-initiative-OPS-OTH-xx.xx-2025.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: American's April xx.xx 2025 announcement identifies a daily Sydney-Los Angeles IRBS pilot and unchanged screening requirements. It anchors one sampled connection and an assumed partial-year licensing period, not disclosed revenue. ([s202.q4cdn.com](https://s202.q4cdn.com/xx.xx/files/doc_news/American-and-US-Customs-and-Border-Protection-pilot-innovative-baggage-screening-initiative-OPS-OTH-xx.xx-2025.pdf))

71. 델타항공-대한항공, 인천발 애틀랜타 노선 대상 위탁수하물 원격 검색 방식 신규 도입

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2025 announcement identifies the Incheon-Atlanta IRBS arrangement, anchoring a second sampled connection and a partial-year commercial-activity assumption without establishing contract value. ([news.delta.com](https://news.delta.com/delta-and-koreanair-launch-remote-baggage-screening-on-icn-atl-KR))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2025 announcement identifies the Incheon-Atlanta IRBS arrangement, anchoring a second sampled connection and a partial-year commercial-activity assumption without establishing contract value. ([news.delta.com](https://news.delta.com/delta-and-koreanair-launch-remote-baggage-screening-on-icn-atl-KR))

72. United Launches CBP's International Remote Baggage Screening on Select International Flights

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: United's September xx.xx 2025 announcement identifies daily Sydney-San Francisco service and named technology partners, anchoring a third sampled connection. It reports no attributable software or integration receipts. ([united.mediaroom.com](https://united.mediaroom.com/2025-xx.xx-xx.xx-United-Launches-CBPs-International-Remote-Baggage-Screening-on-Select-International-Flights))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: United's September xx.xx 2025 announcement identifies daily Sydney-San Francisco service and named technology partners, anchoring a third sampled connection. It reports no attributable software or integration receipts. ([united.mediaroom.com](https://united.mediaroom.com/2025-xx.xx-xx.xx-United-Launches-CBPs-International-Remote-Baggage-Screening-on-Select-International-Flights))

73. Airline Passengers Face Fewer Bag Checkpoints, Thanks to PNNL, Partners

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2026 laboratory release describes implementation on additional routes, including Seoul arrivals at Minneapolis-St. Paul and Detroit. This supports expansion direction, not the forecast connection count, realization or global share. ([pnnl.gov](https://www.pnnl.gov/news-media/airline-passengers-face-fewer-bag-checkpoints-thanks-pnnl-partners))

74. TSA awards $781.2 million to procure additional CT X-Ray scanners for airport checkpoints

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2022 announcement identifies up to USD xx.xx for procurement and maintenance of up to xx.xx systems from an OEM. This is a historical procurement-scale anchor, not annual 2025 direct-channel revenue. ([content.govdelivery.com](https://content.govdelivery.com/accounts/USDHSTSA/bulletins/30f6e5f))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The award includes full-size automated lanes, cautioning against assigning all automation value to non-OEM integration primes; exact contractual-role attribution is not disclosed. ([content.govdelivery.com](https://content.govdelivery.com/accounts/USDHSTSA/bulletins/30f6e5f))

75. OSI Systems, Inc. - Form 10-K for the fiscal year ended June 30, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing describes regional direct security-product sales and direct maintenance relationships. Its broader security scope supports route coexistence, not baggage-only sales weights. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing describes regional direct security-product sales and direct maintenance relationships. Its broader security scope supports route coexistence, not baggage-only sales weights. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company identifies a global independent-distributor network, supporting a continuing indirect route without quantifying its value share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company identifies a global independent-distributor network, supporting a continuing indirect route without quantifying its value share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Authorized service providers are identified separately from distributors, supporting distinct technical-service attribution and access limitations. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Authorized service providers are identified separately from distributors, supporting distinct technical-service attribution and access limitations. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

76. SriLankan Airlines - Invitation for Supply, Installation, Commissioning and Maintenance of Dual View Heavy and Medium X-Ray Machines, Reference 202130407

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 purchaser invitation permits an OEM or authorized OEM agent and requires authorization for the latter. It establishes equipment-channel eligibility, not an award or software-resale right. ([srilankan.com](https://www.srilankan.com/download/tender/TN-Invitationforsubmiss-xx.xx.pdf))

77. JFK Millennium Partners Selects K2 to Deliver State-of-the-Art Security Screening Checkpoint at new JFK Terminal 6

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment assigns procurement and deployment coordination across multiple technology suppliers at a future ten-gate terminal. It supports integration-prime participation and a forecast mechanism, not a disclosed share or completed 2025 revenue. ([portauthoritybuilds.com](https://www.portauthoritybuilds.com/redevelopment/us/en/jfk/planned-projects/terminal-xx.xx/news/jfk-millennium-partners-selects-k2-to-deliver-state-of-the-art-s.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment assigns procurement and deployment coordination across multiple technology suppliers at a future ten-gate terminal. It supports integration-prime participation and a forecast mechanism, not a disclosed share or completed 2025 revenue. ([portauthoritybuilds.com](https://www.portauthoritybuilds.com/redevelopment/us/en/jfk/planned-projects/terminal-xx.xx/news/jfk-millennium-partners-selects-k2-to-deliver-state-of-the-art-s.html))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment covers baggage CT and automated bin-return equipment for a future xx.xx-gate terminal, with phased opening planned for 2026-2028. It establishes new-installation activity, not attributable 2025 receipts; wider airport investment and person-only technologies are excluded.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment covers baggage CT and automated bin-return equipment for a future xx.xx-gate terminal, with phased opening planned for 2026-2028. It establishes new-installation activity, not attributable 2025 receipts; wider airport investment and person-only technologies are excluded.

78. CATSA Corporate Plan 2024-25 to 2028-29 Summary - Key Corporate Risks

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The authority reports transferring maintenance of most screening equipment to KPrime in 2023/xx.xx. This establishes a separately contracted maintenance relationship, without a baggage-only payment split. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/key-corporate-risks))

79. Leidos wins TSA logistics contract

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 announcement describes an eight-year, USD xx.xx maximum sustainment contract covering xx.xx equipment units at over xx.xx locations with manufacturer coordination. Annualization and baggage/third-party attribution in the model are explicit assumptions. ([leidos.com](https://www.leidos.com/insights/leidos-wins-tsa-logistics-contract))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 announcement describes an eight-year, USD xx.xx maximum sustainment contract covering xx.xx equipment units at over xx.xx locations with manufacturer coordination. Annualization and baggage/third-party attribution in the model are explicit assumptions. ([leidos.com](https://www.leidos.com/insights/leidos-wins-tsa-logistics-contract))

80. Checkpoint Transformation: Malta International Airport Streamlines Passenger Flow with Smiths Detection
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Seven conventional automated lanes were replaced by six CT-equipped lanes, with final commissioning in January 2025. This is a counterexample to equating capacity improvement with net additional equipment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seven conventional automated lanes were replaced by six CT-equipped lanes, with final commissioning in January 2025. This is a counterexample to equating capacity improvement with net additional equipment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The complete checkpoint replacement illustrates why an offering described commercially as an upgrade can belong to System Replacement. The seven-year service commitment is not counted wholly as installation-year revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The complete checkpoint replacement illustrates why an offering described commercially as an upgrade can belong to System Replacement. The seven-year service commitment is not counted wholly as installation-year revenue.
81. iCMORE - Smiths Detection
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current commercial offering describes a software-upgrade path while qualifying additional hardware requirements by machine type and age. This constrains forecast eligibility assumptions; product availability does not measure adoption or revenue.

18.8. Italy

Table 532. Italy Airport Baggage Screening Systems Market Size, 2017-2040 (USD Million)

Country	2017	2024	2025	2026	2027	2032	2040	CAGR (%)

Sources & Evidence

1. House Report 119-173 - Department of Homeland Security Appropriations Bill, 2026

   · Evidence informing the 2030 market-value input; displayed series and growth include calculations: The aging installed fleet supports replacement demand, but does not establish the forecast's realization dates or annual purchasing rate. ([govinfo.gov](https://www.govinfo.gov/content/pkg/CRPT-119hrpt173/html/CRPT-119hrpt173.htm))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report identifies xx.xx end-of-life systems within a xx.xx-system checked-baggage fleet. This constrains renewal exposure, not realized annual purchasing or a verified global replacement deadline.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports a TSA checked-baggage fleet of xx.xx EDS, including xx.xx at end-of-life, and assigns purchase, installation and maintenance responsibilities to TSA. Supports agency fleet calibration and renewal pressure, not the assumed forecast uplift.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports a TSA checked-baggage fleet of xx.xx EDS, including xx.xx at end-of-life, and assigns purchase, installation and maintenance responsibilities to TSA. Supports agency fleet calibration and renewal pressure, not the assumed forecast uplift.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report identifies xx.xx end-of-life EDS within a xx.xx-unit U.S. checked-baggage fleet, citing the FY2024 capital plan. The derived xx.xx% backlog constrains the aging-fleet premise, but is neither an annual turnover rate nor a funded global replacement forecast.

2. GAO-24-106573 - DHS Annual Assessment: Most Programs Are Meeting Current Goals, but Some Continue to Face Cost and Schedule Challenges

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports plans for xx.xx checkpoint systems and xx.xx increment-one deployments by September 2023; supports an incomplete replacement cycle rather than universal CT adoption. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx AT/CT, xx.xx base, xx.xx mid-size and xx.xx full-size deployments by September 2023; supplies configuration proxies and an incomplete-renewal constraint, not contractual architecture shares. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx AT/CT, xx.xx base, xx.xx mid-size and xx.xx full-size deployments by September 2023; supplies configuration proxies and an incomplete-renewal constraint, not contractual architecture shares. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The deployed configuration mix underlies the xx.xx/xx.xx newer-cohort and xx.xx/xx.xx older-cohort proxy calculations; global and contractual attribution remain modeled. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The deployed configuration mix underlies the xx.xx/xx.xx newer-cohort and xx.xx/xx.xx older-cohort proxy calculations; global and contractual attribution remain modeled. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The assessment records xx.xx checkpoint systems deployed by September 2023 against an eventual xx.xx-system program. This supports an incomplete replacement cycle and qualifies any assumption of universal CT adoption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The assessment records xx.xx checkpoint systems deployed by September 2023 against an eventual xx.xx-system program. This supports an incomplete replacement cycle and qualifies any assumption of universal CT adoption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports a September 2023 U.S. CT cohort containing xx.xx AT/CT and xx.xx base systems, providing counterevidence to assigning all CT activity automatically to integrated lanes.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports a September 2023 U.S. CT cohort containing xx.xx AT/CT and xx.xx base systems, providing counterevidence to assigning all CT activity automatically to integrated lanes.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx mid-size and xx.xx full-size systems within xx.xx deployed CT systems; supports differentiated configuration assumptions rather than treating technology adoption as an integration-share observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx mid-size and xx.xx full-size systems within xx.xx deployed CT systems; supports differentiated configuration assumptions rather than treating technology adoption as an integration-share observation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2024 assessment records xx.xx checkpoint deployments as of September 2023 against xx.xx planned systems replacing aging equipment. It supports staged renewal, but does not establish current deployment completion or the modeled 2032 share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2024 assessment records xx.xx checkpoint deployments as of September 2023 against xx.xx planned systems replacing aging equipment. It supports staged renewal, but does not establish current deployment completion or the modeled 2032 share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The program separately anticipates enhancements to fielded systems, supporting a retained-equipment commercial pathway without supplying an attributable upgrade-revenue split.

3. Global Airport Passenger Traffic Reaches Record 9.8 Billion in 2025, Airports Council International World reports

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports cooling passenger-growth momentum in 2026, supporting moderation of traffic-driven equipment expansion despite continuing replacement demand.
   ([aci.aero](https://aci.aero/2026/xx.xx/xx.xx/global-airport-passenger-traffic-reaches-record-xx.xx-xx.xx-billion-in-2025-airports-council-international-world-reports/))

4. Smiths Group PLC - Full Year Results for the 12 Months Ended 31 July 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Discloses aviation original-equipment revenue of xx.xx and aftermarket revenue of xx.xx for FY2024; supplies historical cycle proxies. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing the 2027 market-value input; displayed series and growth include calculations: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; supports replacement activity, not an observed global forecast. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2025 aviation original-equipment revenue of GBP xx.xx provides an independent equipment-activity scale check, not a global category share. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025 aviation original-equipment revenue of GBP xx.xx provides an independent equipment-activity scale check, not a global category share. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx cumulative CTiX sales corroborate commercial imaging activity and replacement demand; they do not measure annual global sales. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx cumulative CTiX sales corroborate commercial imaging activity and replacement demand; they do not measure annual global sales. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: GBP xx.xx aviation aftermarket revenue supports lifecycle materiality while qualifying transfer of one supplier's mix to the global service allocation. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GBP xx.xx aviation aftermarket revenue supports lifecycle materiality while qualifying transfer of one supplier's mix to the global service allocation. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; cumulative sales constrain commercial scale but are not annual global shipments. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; cumulative sales constrain commercial scale but are not annual global shipments. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports four operating XDi units as of July 2025 and pending regulatory certification, constraining the small XRD cohort and qualifying aggressive commercialization assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports four operating XDi units as of July 2025 and pending regulatory certification, constraining the small XRD cohort and qualifying aggressive commercialization assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported checkpoint modernization provides a commercial reason to model substitution from discrete legacy offerings; the filing does not disclose standalone configuration revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025

5. Smiths Group PLC - Annual Report & Accounts FY2023
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: Reports FY2022 aviation original-equipment revenue of xx.xx, used as a dimensionless historical capital-cycle proxy. ([www-live.smiths.com](https://www-live.smiths.com/media/phjp1j44/smiths-annual-report-2023.pdf))
   - Evidence informing the 2023 market-value input; displayed series and growth include calculations: Reports FY2023 aviation original-equipment revenue of xx.xx and aftermarket revenue of xx.xx; supports the modeled recovery direction. ([www-live.smiths.com](https://www-live.smiths.com/media/phjp1j44/smiths-annual-report-2023.pdf))
6. Smiths Group PLC - Annual Report FY2022
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: Reports FY2021 aviation revenue of xx.xx, providing a historical purchasing-cycle reference rather than a global observation. ([www-live.smiths.com](https://www-live.smiths.com/media/xjvdpblr/smiths-annual-report-2022-report.pdf))
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: Reports FY2022 aviation revenue of xx.xx and continued weakness in aviation original equipment; supports a delayed capital-spending trough. ([www-live.smiths.com](https://www-live.smiths.com/media/xjvdpblr/smiths-annual-report-2022-report.pdf))
7. Smiths Group PLC - Annual Results for the Year Ended 31 July 2019
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: Reports FY2018 aviation revenue of xx.xx, supplying the historical comparison underlying the backcast. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: Reports FY2019 aviation revenue of xx.xx and customer delivery deferrals, qualifying a traffic-only growth model. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Identifies deliveries deferred into FY2020; supports the possibility of backlog-supported spending despite a contemporaneous traffic shock, not the exact modeled growth rate. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
8. ACI World - The High-Wire Balancing Act: Global Air Transport Demand in 2018 and 2019
   - Evidence informing the 2017 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers and xx.xx% growth in 2018; the growth observation informs the 2017 backcast bridge. ([blog.aci.aero](https://blog.aci.aero/airport-economics/the-high-wire-balancing-act-global-air-transport-demand-in-2018-and-2019/))
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: Provides the observed 2018 traffic-growth reference, not an equipment-market growth observation. ([blog.aci.aero](https://blog.aci.aero/airport-economics/the-high-wire-balancing-act-global-air-transport-demand-in-2018-and-2019/))
9. ICAO A42-WP/556 - State of the Industry and Outlook for Airport Traffic, Presented by ACI
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Records the collapse from xx.xx airport passengers in 2019 to xx.xx in 2020; constrains the shock and funding-risk interpretation. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2021, supporting a prolonged funding and activity shock. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2023 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2023; traffic recovery is distinguished from equipment purchasing. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2024, providing a demand recovery cross-check. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))

10. Port of Seattle - Baggage Handling System Optimization
    - Evidence informing the 2029 market-value input; displayed series and growth include calculations: Seattle plans to consolidate six baggage-screening systems, increase supported passenger capacity, and reduce screening-machine demand. Supports integration spending without one-for-one detector growth. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing the 2032 market-value input; displayed series and growth include calculations: The consolidation example constrains equipment-volume assumptions; its whole baggage-handling project value is excluded from market sizing. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing the 2040 market-value input; displayed series and growth include calculations: Provides a commercial counterexample to extrapolating passenger growth directly into machine counts throughout the long-range forecast. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Consolidation of six systems with reduced machine demand qualifies a traffic-to-detector-volume forecast. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The consolidation project supports integration-driven conveyor demand, but its whole-project value is excluded. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Brownfield consolidation supports the integration-demand premise, not the forecast's exact service growth factor. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport replaces six separate screening systems with centralized screening and expects reduced screening-machine demand while expanding capacity. This supplies a counterforce to volume-only checked-baggage forecasting.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Seattle is consolidating six screening systems, expects reduced screening-machine demand and schedules final-phase completion in 2029. Supports integration demand while constraining detector-volume growth; the whole-project budget is excluded.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seattle is consolidating six screening systems, expects reduced screening-machine demand and schedules final-phase completion in 2029. Supports integration demand while constraining detector-volume growth; the whole-project budget is excluded.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seattle's project combines increased screening capacity with consolidation from six screening systems and reduced screening-machine demand. This constrains the forecast assumption that capacity growth requires proportional equipment additions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement and capacity objectives coexist within the project. Its wider baggage-handling budget is not treated as screening-equipment revenue or assigned additively to multiple purposes.
11. Smiths Group PLC - Half Year Results for the Six Months Ended 31 January 2026
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports xx.xx% organic growth for Smiths Detection in HY2026, with aviation checkpoint upgrades contributing. Supports a positive 2026 nowcast, not a directly observed global growth rate. ([www-live.smiths.com](https://www-live.smiths.com/media/villk35h/smiths-hy26-results-press-release.pdf))
12. Eurostat - Air passenger transport statistics, December 2025, Table 1: 2024 country traffic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Traffic primitive.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Traffic primitive.

13. ACI EUROPE - 2025 all about traffic resilience as Europe's airports welcomed an additional 100 million passengers

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual growth input to the 2025 bridge.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual growth input to the 2025 bridge.

14. CATSA 2025 Annual Report - Notes to the Financial Statements

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx accounts disclose C$xx.xx maintenance/spares and C$xx.xx training/certification, supporting the service-budget calibration but not global baggage-only shares. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx accounts disclose C$xx.xx maintenance/spares and C$xx.xx training/certification, supporting the service-budget calibration but not global baggage-only shares. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintenance and spare parts are combined in the accounts; the labor-versus-goods split therefore remains modeled. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintenance and spare parts are combined in the accounts; the labor-versus-goods split therefore remains modeled. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The C$xx.xx training/certification expense supplies the numerator of the adjusted training-to-capital proxy. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The C$xx.xx training/certification expense supplies the numerator of the adjusted training-to-capital proxy. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: C$xx.xx trace/consumables is distinct from maintenance/spares and supplies the contrary consumables-intensity comparator, not a global observation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: C$xx.xx trace/consumables is distinct from maintenance/spares and supplies the contrary consumables-intensity comparator, not a global observation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately reports C$xx.xx maintenance/spares, C$xx.xx trace/consumables and C$xx.xx training/certification, constraining attributable agency lifecycle expenditure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates screening-contractor payments from equipment support, preventing staffing expenditure from becoming equipment-market purchasing.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately reports C$xx.xx maintenance/spares, C$xx.xx trace/consumables and C$xx.xx training/certification, constraining attributable agency lifecycle expenditure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates screening-contractor payments from equipment support, preventing staffing expenditure from becoming equipment-market purchasing.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited expense disclosure reports C$xx.xx for maintenance and spare parts in the year ended March xx.xx 2025. It constrains support-spending materiality, not the amount attributable to an independent provider. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))

15. CATSA 2025 Annual Report - Management's Discussion and Analysis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: EDS capital expenditure of C$xx.xx includes equipment and installation/integration and supplies the training-calibration denominator, subject to baggage attribution. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EDS capital expenditure of C$xx.xx includes equipment and installation/integration and supplies the training-calibration denominator, subject to baggage attribution. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The capital definition includes associated installation and integration, supporting the distinction between deployment services and equipment value. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The capital definition includes associated installation and integration, supporting the distinction between deployment services and equipment value. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Actual spending, original budget and reprofile amounts constrain the forecast's purchasing-execution interpretation; they are not a global growth rate. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx pre-board capital appropriations used were C$xx.xx. This supplies the Canadian purchasing comparison and a component of the non-passenger-to-cabin activity proxy, not a global share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx pre-board capital appropriations used were C$xx.xx. This supplies the Canadian purchasing comparison and a component of the non-passenger-to-cabin activity proxy, not a global share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx hold-baggage capital appropriations used were C$xx.xx; this constrains the independent application-capital comparison.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx non-passenger capital appropriations used were C$xx.xx, below the original C$xx.xx budget. Actual purchasing informs the proxy and qualifies automatic announcement-to-revenue conversion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx non-passenger capital appropriations used were C$xx.xx, below the original C$xx.xx budget. Actual purchasing informs the proxy and qualifies automatic announcement-to-revenue conversion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports C$xx.xx EDS capital expenditure for FY2024/xx.xx and identifies both baggage equipment and full-body scanners in the capital scope, requiring a baggage-attribution adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports C$xx.xx EDS capital expenditure for FY2024/xx.xx and identifies both baggage equipment and full-body scanners in the capital scope, requiring a baggage-attribution adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EDS outturn was C$xx.xx versus an original C$xx.xx plan and revised C$xx.xx budget. Reprofiling constrains assumed award conversion and deployment timing; it does not measure procurement-channel mix. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The actual capital-project list identifies hold-baggage capacity expansion at Montréal-Trudeau, supporting the expansion classification, not its modeled global revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The actual capital-project list identifies hold-baggage capacity expansion at Montréal-Trudeau, supporting the expansion classification, not its modeled global revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The actual project list includes checkpoint CT deployment and hold-baggage oversize-equipment lifecycle management, supporting renewal activity without disclosing its purpose-specific spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The actual project list includes checkpoint CT deployment and hold-baggage oversize-equipment lifecycle management,

16. Aviation security screening approved equipment list
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Baggage EDS/EDSCB and conventional X-ray classes support the inspection-system boundary, not sales weights. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Baggage EDS/EDSCB and conventional X-ray classes support the inspection-system boundary, not sales weights. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Liquid detectors are a distinct cabin-baggage category; the complete bulk-material extension remains modeled within the captured boundary. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Liquid detectors are a distinct cabin-baggage category; the complete bulk-material extension remains modeled within the captured boundary. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ETD serves baggage and other applications, requiring explicit baggage attribution rather than allocating all detector sales here. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ETD serves baggage and other applications, requiring explicit baggage attribution rather than allocating all detector sales here. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dedicated ETD consumables are separately recognized, supporting goods classification without establishing spending or unrestricted interchangeability. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dedicated ETD consumables are separately recognized, supporting goods classification without establishing spending or unrestricted interchangeability. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
17. Quantifying the Impacts of Delayed Maintenance of Airport Assets: A Guide - Chapter 6, Baggage Handling Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The baggage-handling cost study uses a modeled xx.xx% labor share, adopted only as an adjacent support-cost proxy. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The baggage-handling cost study uses a modeled xx.xx% labor share, adopted only as an adjacent support-cost proxy. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Its corresponding modeled xx.xx% parts share calibrates the labor/goods separation; it is not an observed screening-equipment ratio. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Its corresponding modeled xx.xx% parts share calibrates the labor/goods separation; it is not an observed screening-equipment ratio. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))

18. Procurement of Next Generation Security Checkpoint Equipment - Contract Award Notice

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The seven-system award includes automated tray return, demonstrating bundled purchasing but no separately priced hardware allocation. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The seven-system award includes automated tray return, demonstrating bundled purchasing but no separately priced hardware allocation. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The integrated CT/tray-return scope constrains the automation interface boundary; it does not value general airport conveyors. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The integrated CT/tray-return scope constrains the automation interface boundary; it does not value general airport conveyors. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Central image processing is an explicit purchased function, without a separately disclosed license price. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Central image processing is an explicit purchased function, without a separately disclosed license price. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supply, installation and commissioning are included deliverables, supporting deployment-service attribution without establishing its percentage. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supply, installation and commissioning are included deliverables, supporting deployment-service attribution without establishing its percentage. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2022 award covers seven systems combining cabin CT, tray return, image processing and deployment responsibilities. It supports integrated purchased scope, not completed delivery or a global sales weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2022 award covers seven systems combining cabin CT, tray return, image processing and deployment responsibilities. It supports integrated purchased scope, not completed delivery or a global sales weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The integrated Newcastle procurement reports a GBP xx.xx-xx.xx offer range but no physical review-room location; its value cannot be assigned automatically to local review. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The integrated Newcastle procurement reports a GBP xx.xx-xx.xx offer range but no physical review-room location; its value cannot be assigned automatically to local review. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Central image processing is included, but a separate on-site room is not specified; constrains classification rather than supplying a remote-review sales weight. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Central image processing is included, but a separate on-site room is not specified; constrains classification rather than supplying a remote-review sales weight. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The bundled award does not identify a mixed-location package or its attributable price, preventing automatic hybrid classification. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The bundled award does not identify a mixed-location package or its attributable price, preventing automatic hybrid classification.

19. AI for Monitoring Aviation Security: Fraport and German Federal Police Start Regular Operation of APIDS
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: January xx.xx 2026 APIDS deployment demonstrates additional software adoption, without establishing separate revenue. ([fraport.com](https://www.fraport.com/en/newsroom/press-releases/2026/q1/ai-for-monitoring-aviation-security.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Deployment on more than xx.xx CT scanners is the independent quantitative rollout test; it does not validate the modeled license-growth factor. ([fraport.com](https://www.fraport.com/en/newsroom/press-releases/2026/q1/ai-for-monitoring-aviation-security.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: On January xx.xx 2026, Fraport announced regular APIDS software operation on more than xx.xx existing Smiths CT scanners. This independently supports retained-system enhancement at one buyer, not global penetration or realized license revenue.
20. Smiths Detection - Digital Innovation
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier identifies detection applications as a commercial function; separate fee allocation remains assumed. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier identifies detection applications as a commercial function; separate fee allocation remains assumed. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized screening supports the image-review function, not an observed software revenue weight. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized screening supports the image-review function, not an observed software revenue weight. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Connectivity, multi-vendor integration and equipment-health applications establish the fleet-management function without proving customer-specific rights or prices. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Connectivity, multi-vendor integration and equipment-health applications establish the fleet-management function without proving customer-specific rights or prices. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ELECTORA is offered for integrating multi-vendor devices, datasets and applications; establishes the vendor-platform category but discloses no category revenue or customer-specific substitution entitlement. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ELECTORA is offered for integrating multi-vendor devices, datasets and applications; establishes the vendor-platform category but discloses no category revenue or customer-specific substitution entitlement. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
21. UK Civil Aviation Authority - Threat Image Projection (TIP)
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: TIP library approval and renewal obligations support continuing software commitments, not the modeled global fee or share. ([caa.co.uk](https://www.caa.co.uk/commercial-industry/security/training-and-human-factors/threat-image-projection/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: TIP library approval and renewal obligations support continuing software commitments, not the modeled global fee or share. ([caa.co.uk](https://www.caa.co.uk/commercial-industry/security/training-and-human-factors/threat-image-projection/))

22. Smiths Detection - Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Inclusive capital-equipment support covers labor and parts, requiring a single-count economic allocation across services and goods. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Inclusive capital-equipment support covers labor and parts, requiring a single-count economic allocation across services and goods. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Equipment-specific training and certification are commercial offerings distinct from routine screening staffing. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Equipment-specific training and certification are commercial offerings distinct from routine screening staffing. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The parts-support offering and inclusive contracts corroborate the goods boundary, but not the assumed xx.xx% allocation. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The parts-support offering and inclusive contracts corroborate the goods boundary, but not the assumed xx.xx% allocation. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes inclusive labor-and-parts contracts and manufacturer support, supporting nonduplicative lifecycle attribution to projection equipment, not a verified xx.xx% fee. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes inclusive labor-and-parts contracts and manufacturer support, supporting nonduplicative lifecycle attribution to projection equipment, not a verified xx.xx% fee. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports the existence of manufacturer lifecycle offerings; broad service-footprint counts are not used as CT revenue weights.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports the existence of manufacturer lifecycle offerings; broad service-footprint counts are not used as CT revenue weights.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports commercial maintenance, refurbishment and parts offerings for portable equipment without establishing baggage-specific service receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports commercial maintenance, refurbishment and parts offerings for portable equipment without establishing baggage-specific service receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer markets direct on-site support and inclusive capital-equipment labor-and-parts contracts. This supports a continuing manufacturer-service alternative, without measuring a pricing premium. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer markets direct on-site support and inclusive capital-equipment labor-and-parts contracts. This supports a continuing manufacturer-service alternative, without measuring a pricing premium. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Manufacturer-provided bundled support is a commercial alternative to separate technical-service procurement, limiting assumptions of unrestricted third-party substitution. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Manufacturer-provided bundled support is a commercial alternative to separate technical-service procurement, limiting assumptions of unrestricted third-party substitution. ([smithsdetection.com](https://www.smithsdetection.com/service/))

23. Hold baggage screening upgrade, Dublin and Cork Airports, Ireland

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate professional-service appointments cover project controls, design oversight and interface management; the broader construction budget is not used as screening-service revenue. ([neccontract.com](https://www.neccontract.com/projects/hold-baggage-screening-upgrade-dublin-and-cork-airports-ireland))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate professional-service appointments cover project controls, design oversight and interface management; the broader construction budget is not used as screening-service revenue. ([neccontract.com](https://www.neccontract.com/projects/hold-baggage-screening-upgrade-dublin-and-cork-airports-ireland))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes three upgraded hold-baggage systems delivered through separate construction, baggage-integration and advisory appointments, completed in March 2023. Supports integrated-system attribution without assuming a universal single-prime model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes three upgraded hold-baggage systems delivered through separate construction, baggage-integration and advisory appointments, completed in March 2023. Supports integrated-system attribution without assuming a universal single-prime model.

24. Corporate Plan 2025-26 to 2029-30 Summary - Financial Overview
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CATSA distinguishes major-checkpoint CT replacement from single-view-to-multiview replacement elsewhere, supporting application-specific projection demand and forecast assumptions. It also discloses capital funding subject to reprofile approval. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/corporate-plan-2025-xx.xx-2029-xx.xx/financial-overview))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CATSA distinguishes major-checkpoint CT replacement from single-view-to-multiview replacement elsewhere, supporting application-specific projection demand and forecast assumptions. It also discloses capital funding subject to reprofile approval. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/corporate-plan-2025-xx.xx-2029-xx.xx/financial-overview))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies single-view equipment as a replacement population, supporting the modeled displacement mechanism rather than an observed global share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies single-view equipment as a replacement population, supporting the modeled displacement mechanism rather than an observed global share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Multiview remains a planned purchasing destination at non-passenger checkpoints and Class xx.xx airports, qualifying universal CT substitution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Multiview remains a planned purchasing destination at non-passenger checkpoints and Class xx.xx airports, qualifying universal CT substitution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CT replacement is a stated major-checkpoint investment priority, subject to funding and delivery risks; this supports direction, not the modeled global share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CT replacement is a stated major-checkpoint investment priority, subject to funding and delivery risks; this supports direction, not the modeled global share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The plan includes additional screening equipment and expansion of existing hold-baggage screening capacity. Its FY2025/xx.xx capital budget is C$xx.xx across mixed activities; plans are not recognized supplier revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The plan includes additional screening equipment and expansion of existing hold-baggage screening capacity. Its FY2025/xx.xx capital budget is C$xx.xx across mixed activities; plans are not recognized supplier revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The plan distinguishes replacement of checkpoint X-ray equipment with CT and asset lifecycle renewal from additional capacity. Funding, partner timing and reprofiling qualify forecast realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The plan distinguishes replacement of checkpoint X-ray equipment with CT and asset lifecycle renewal from additional capacity. Funding, partner timing and reprofiling qualify forecast realization.
25. ECAC CEP Public Equipment List - Explosive Detection Systems, Update 18 April 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 list retains XRD xx.xx supporting the legacy commercial-category premise but not the assumed installed cohort or sales volume. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-EDS-equipment_public_list_update_20250418.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 list retains XRD xx.xx supporting the legacy commercial-category premise but not the assumed installed cohort or sales volume. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-EDS-equipment_public_list_update_20250418.pdf))

26. Partners - HALO X-ray Technologies Ltd

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named airport pilots and approximately USD xx.xx and USD xx.xx development programs establish commercialization activity and program scale, not realized annual XRD equipment revenue. ([haloxray.com](https://www.haloxray.com/partners))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named airport pilots and approximately USD xx.xx and USD xx.xx development programs establish commercialization activity and program scale, not realized annual XRD equipment revenue. ([haloxray.com](https://www.haloxray.com/partners))

27. Explosives Trace Detectors (ETDs): Market Survey Report, November 2021

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Historical IONSCAN xx.xx list-price configurations around USD xx.xx-xx.xx constrain the IMS price class; they do not establish 2025 purchasing volumes or realizations. ([dhs.gov](https://dhs.gov/sites/default/files/2021-xx.xx/SAVER_Explosives%20Trace%20Detectors%20MSR_08Nov2021_Final-xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Historical IONSCAN xx.xx list-price configurations around USD xx.xx-xx.xx constrain the IMS price class; they do not establish 2025 purchasing volumes or realizations. ([dhs.gov](https://dhs.gov/sites/default/files/2021-xx.xx/SAVER_Explosives%20Trace%20Detectors%20MSR_08Nov2021_Final-xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The Fido X4 historical USD xx.xx list-price benchmark supports the explicit nominal-price bridge; baggage attribution and unit mix remain modeled.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The Fido X4 historical USD xx.xx list-price benchmark supports the explicit nominal-price bridge; baggage attribution and unit mix remain modeled.

28. Astrotech Corporation - Form 10-K for the Fiscal Year Ended June 30, 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Discloses FY2025 product and service revenue, xx.xx deployment locations, and a six-unit USD xx.xx order. These provide a price comparator and supplier-scale check, not baggage-only revenue. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20250630_10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Discloses FY2025 product and service revenue, xx.xx deployment locations, and a six-unit USD xx.xx order. These provide a price comparator and supplier-scale check, not baggage-only revenue. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20250630_10k.htm))

29. Astrotech Corporation - Form 10-K for the Fiscal Year Ended June 30, 2026

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports eight TRACER units sold in FY2025 versus three in FY2026, identifies grant-related revenue within FY2025 product revenue, and describes a potential subsidiary sale. These constrain MS attribution and forecast optimism. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20260630_10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports eight TRACER units sold in FY2025 versus three in FY2026, identifies grant-related revenue within FY2025 product revenue, and describes a potential subsidiary sale. These constrain MS attribution and forecast optimism. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20260630_10k.htm))

30. Liquid Explosive Detector, Bottle Liquid Scanner, Insight - Agilent

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Raman-based airport resolution products and dated September 2025 launch and May 2026 contract announcements. Supports category continuity and adoption premises, not global unit or revenue shares. ([agilent.com](https://www.agilent.com/en/product/molecular-spectroscopy/raman-spectroscopy/raman-aviation-security-systems/insight-series-alarm-resolution-systems))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Raman-based airport resolution products and dated September 2025 launch and May 2026 contract announcements. Supports category continuity and adoption premises, not global unit or revenue shares. ([agilent.com](https://www.agilent.com/en/product/molecular-spectroscopy/raman-spectroscopy/raman-aviation-security-systems/insight-series-alarm-resolution-systems))

31. Bottle Liquid Scanner for Sale from China - Securina

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Positions microwave-based liquid-screening products for airports and customs. Supports commercial classification only; prices, authorization and purchasing weights remain assumptions. ([securinadetection.com](https://www.securinadetection.com/Bottle-Liquid-Scanner-Manufacturer-China.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Positions microwave-based liquid-screening products for airports and customs. Supports commercial classification only; prices, authorization and purchasing weights remain assumptions. ([securinadetection.com](https://www.securinadetection.com/Bottle-Liquid-Scanner-Manufacturer-China.html))

32. Quick, Accurate Threat-Detection Scanner for Liquid, Aerosol, and Gels Eases and Secures Air Travel Worldwide

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies LS10 as a complete commercial liquid scanner combining RF and ultrasonic capabilities, supporting nonduplicative complete-product attribution. ([battelle.org](https://www.battelle.org/insights/case-studies/case-study-details/quick-accurate-threat-detection-scanner-for-liquid-aerosol-and-gels-eases-and-secures-air-travel-worldwide))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies LS10 as a complete commercial liquid scanner combining RF and ultrasonic capabilities, supporting nonduplicative complete-product attribution. ([battelle.org](https://www.battelle.org/insights/case-studies/case-study-details/quick-accurate-threat-detection-scanner-for-liquid-aerosol-and-gels-eases-and-secures-air-travel-worldwide))

33. ECAC CEP Public Equipment List - Liquid Explosive Detection Systems, Update 10 July 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 list includes One Resonance Sensors MobiLab BLS. This supports retained listed status for a named product, not active supply, paid installed stock or observed receipts. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-LEDS%20equipment%20public%20list-update%xx.xx-xx.xx-rev1.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 list includes One Resonance Sensors MobiLab BLS. This supports retained listed status for a named product, not active supply, paid installed stock or observed receipts. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-LEDS%20equipment%20public%20list-update%xx.xx-xx.xx-rev1.pdf))

34. MobiLab BLS Bottled Liquid Scanner Endorsed By European Civil Aviation Conference

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's May xx.xx 2014 announcement identifies MobiLab BLS as an NMR-based airport liquid scanner and states that orders were being accepted. Establishes historical commercial offering, not 2025 deliveries. ([prnewswire.com](https://www.prnewswire.com/news-releases/mobilab-bls-bottled-liquid-scanner-endorsed-by-european-civil-aviation-conference-xx.xx.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's May xx.xx 2014 announcement identifies MobiLab BLS as an NMR-based airport liquid scanner and states that orders were being accepted. Establishes historical commercial offering, not 2025 deliveries. ([prnewswire.com](https://www.prnewswire.com/news-releases/mobilab-bls-bottled-liquid-scanner-endorsed-by-european-civil-aviation-conference-xx.xx.html))

35. SafePointe BLS Powered by ORS - Bottled Liquid Explosives Detection Solution

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The branded supplier brochure documents an ORS-powered bottled-liquid product channel. Its availability does not establish current orders or support continuity; it supports only the legacy-channel modeling premise. ([uploads-ssl.webflow.com](https://uploads-ssl.webflow.com/608330bcae48962bf6d7ff37/6149f80be6c30d34b5e3debe_BLS-Flyer-Compressed.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The branded supplier brochure documents an ORS-powered bottled-liquid product channel. Its availability does not establish current orders or support continuity; it supports only the legacy-channel modeling premise. ([uploads-ssl.webflow.com](https://uploads-ssl.webflow.com/608330bcae48962bf6d7ff37/6149f80be6c30d34b5e3debe_BLS-Flyer-Compressed.pdf))

36. Florida Division of Corporations - One Resonance Sensors, LLC, Entity Detail

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official registry records One Resonance Sensors, LLC as inactive following administrative dissolution on September xx.xx 2019. This counterevidence constrains continuity assumptions but does not prove zero surviving product support. ([search.sunbiz.org](https://search.sunbiz.org/Inquiry/CorporationSearch/SearchResultDetail?aggregateId=flal-l11000122986-c57f60b3-690d-4c87-836a-9aeb045075e8&directionType=CurrentList&inquirytype=EntityName&listNameOrder=ONERESONANCESENSORS+L110001229860&searchNameOrder=ONERESONANCESENSORS+L110001229860&searchTerm=ONE+RED+AMPERSAND+LLC))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official registry records One Resonance Sensors, LLC as inactive following administrative dissolution on September xx.xx 2019. This counterevidence constrains continuity assumptions but does not prove zero surviving product support. ([search.sunbiz.org](https://search.sunbiz.org/Inquiry/CorporationSearch/SearchResultDetail?aggregateId=flal-l11000122986-c57f60b3-690d-4c87-836a-9aeb045075e8&directionType=CurrentList&inquirytype=EntityName&listNameOrder=ONERESONANCESENSORS+L110001229860&searchNameOrder=ONERESONANCESENSORS+L110001229860&searchTerm=ONE+RED+AMPERSAND+LLC))

37. Explosive Detection - Teledyne FLIR Defense

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists offered Fido X-series products and service support, supporting commercial offering continuity only, not airport-specific eligibility or sales weights. ([flir.com](https://www.flir.com/threat-detection/explosives/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists offered Fido X-series products and service support, supporting commercial offering continuity only, not airport-specific eligibility or sales weights. ([flir.com](https://www.flir.com/threat-detection/explosives/))

38. Scintrex Trace E3500 Explosive Trace Detection Unit - SecurityPro USA

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distributor offers E3500 chemiluminescence equipment and identifies customs/border applications. Supports a commercial category lead, not measured airport purchasing or the assumed price. ([securityprousa.com](https://www.securityprousa.com/collections/explosive-detection/products/scintrex-trace-e3500-explosive-trace-detection-unit))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distributor offers E3500 chemiluminescence equipment and identifies customs/border applications. Supports a commercial category lead, not measured airport purchasing or the assumed price. ([securityprousa.com](https://www.securityprousa.com/collections/explosive-detection/products/scintrex-trace-e3500-explosive-trace-detection-unit))

39. Portable Explosive Detector - Trace Detector EVD-3000+

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distributor offers EVD-xx.xx+ thermo-redox equipment. Supports offered-product classification, not airport authorization, purchasing volume or the modeled realization. ([securityprousa.com](https://www.securityprousa.com/products/scintrex-trace-evd-xx.xx-portable-trace-detection-unit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distributor offers EVD-xx.xx+ thermo-redox equipment. Supports offered-product classification, not airport authorization, purchasing volume or the modeled realization. ([securityprousa.com](https://www.securityprousa.com/products/scintrex-trace-evd-xx.xx-portable-trace-detection-unit))

40. CATSA's Purchase Order Terms and Conditions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contract terms constrain maintenance, parts and consumables escalation, qualifying unrestricted aftermarket pricing assumptions in the projection lifecycle model. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contract terms constrain maintenance, parts and consumables escalation, qualifying unrestricted aftermarket pricing assumptions in the projection lifecycle model. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contractual price limits constrain the pricing premise, but do not verify CT-specific global support receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contractual price limits constrain the pricing premise, but do not verify CT-specific global support receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintenance and consumable escalation limits qualify the trace-platform pricing assumption rather than establishing the modeled IMS share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintenance and consumable escalation limits qualify the trace-platform pricing assumption rather than establishing the modeled IMS share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The pre-existing-software clause grants broad license rights without transferring ownership; proprietary ownership alone therefore cannot establish the Closed revenue numerator. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The pre-existing-software clause grants broad license rights without transferring ownership; proprietary ownership alone therefore cannot establish the Closed revenue numerator. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Software modification rights are not themselves proof of standards-based interfaces or independent component substitution; supports conservative classification. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Software modification rights are not themselves proof of standards-based interfaces or independent component substitution; supports conservative classification. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))

41. Liquids Scanner for Airport Security - UC Davis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2011 account establishes a development contract and licensing relationship. Its development allocation is excluded from 2025 receipts and does not establish a surviving commercial cohort. ([ucdavis.edu](https://www.ucdavis.edu/news/liquids-scanner-airport-security))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2011 account establishes a development contract and licensing relationship. Its development allocation is excluded from 2025 receipts and does not establish a surviving commercial cohort. ([ucdavis.edu](https://www.ucdavis.edu/news/liquids-scanner-airport-security))
42. Open Architecture for Airport Security Systems, Second Edition
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes proprietary integration from interoperable connections, supporting the category boundary rather than an observed revenue share. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes proprietary integration from interoperable connections, supporting the category boundary rather than an observed revenue share. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Integration does not guarantee interoperability; this constrains attribution of vendor-mediated configurations. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Integration does not guarantee interoperability; this constrains attribution of vendor-mediated configurations. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Allows identified partial compliance and discusses accountable integration responsibilities; supports scoped open attribution, not whole-purchase reclassification. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Allows identified partial compliance and discusses accountable integration responsibilities; supports scoped open attribution, not whole-purchase reclassification. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))

43. CATSA 2025 Annual Report - Overview of Activities

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines across xx.xx airports serving more than xx.xx% of passengers in 2024/xx.xx; provides an independent integration-activity check, not a direct value allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines across xx.xx airports serving more than xx.xx% of passengers in 2024/xx.xx; provides an independent integration-activity check, not a direct value allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported modernized passenger coverage constrains an assumption of universally standalone activity, while leaving commercial architecture and revenue attribution unresolved. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported modernized passenger coverage constrains an assumption of universally standalone activity, while leaving commercial architecture and revenue attribution unresolved. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The annual report identifies enhanced non-passenger requirements and implementation planned from spring 2025. This supports a conditional modernization premise, not the modeled global uptake factor.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2024/xx.xx; provides a Canadian adoption comparator, not a global local-review revenue weight. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2024/xx.xx; provides a Canadian adoption comparator, not a global local-review revenue weight. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies remote screening within CATSA Plus and quantifies deployment; constrains the commercial-adoption premise but does not establish each review room's location. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies remote screening within CATSA Plus and quantifies deployment; constrains the commercial-adoption premise but does not establish each review room's location. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Deployment coverage constrains the addressable network-enabled pool; it does not disclose hybrid contracts or justify the modeled hybrid percentage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Deployment coverage constrains the addressable network-enabled pool; it does not disclose hybrid contracts or justify the modeled hybrid percentage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))

44. CATSA - Beyond the Checkpoint, December 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx operational CT machines at eight airports and a modular-line average of xx.xx passengers per hour versus xx.xx for traditional multi-split lines; supports the bounded throughput-to-unit bridge and phased-deployment premise. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/about-us/beyond-checkpoint-2025-december))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx operational CT machines at eight airports and a modular-line average of xx.xx passengers per hour versus xx.xx for traditional multi-split lines; supports the bounded throughput-to-unit bridge and phased-deployment premise. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/about-us/beyond-checkpoint-2025-december))

45. Smiths Detection Delivers Fully Automated International Remote Baggage Screening System Between South Korea and the United States

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2026 disclosure identifies xx.xx software licenses and DICOS V3.xx.xx exchange, and dates operational service to August 2025. Supports commercial standards-based activity and forecast feasibility, not an observed global share or a confirmed 2025 license inventory. ([smithsdetection.com](https://www.smithsdetection.com/press-releases/smiths-detection-delivers-fully-automated-international-remote-baggage-screening-system-between-south-korea-and-the-united-states/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2026 disclosure identifies xx.xx software licenses and DICOS V3.xx.xx exchange, and dates operational service to August 2025. Supports commercial standards-based activity and forecast feasibility, not an observed global share or a confirmed 2025 license inventory. ([smithsdetection.com](https://www.smithsdetection.com/press-releases/smiths-detection-delivers-fully-automated-international-remote-baggage-screening-system-between-south-korea-and-the-united-states/))

46. SeeTrue Marks Milestone with Over 100 X-ray Checkpoint Installations of Advanced AI-Based Threat Detection Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 announcement reports the 100th operational screening lane across airports and other sectors. Provides a limited commercial-adoption scale check; it is neither airport-only nor a census of standards-based entitlements. ([seetrue.ai](https://www.seetrue.ai/seetrue-marks-milestone-with-over-xx.xx-x-ray-checkpoint-installations-of-advanced-ai-based-threat-detection-software/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 announcement reports the 100th operational screening lane across airports and other sectors. Provides a limited commercial-adoption scale check; it is neither airport-only nor a census of standards-based entitlements. ([seetrue.ai](https://www.seetrue.ai/seetrue-marks-milestone-with-over-xx.xx-x-ray-checkpoint-installations-of-advanced-ai-based-threat-detection-software/))

47. Scarabee's Checkpoint Property Screening System to be deployed at DEN

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-lane Denver award combining Scarabee lanes with Smiths scanners. Corroborates a commercial mixed-supplier integration route; an award is not realized annual revenue or proof of unrestricted interoperability. ([daifukuatec.com](https://daifukuatec.com/news/scarabees-checkpoint-property-screening-system-to-be-deployed-at-den))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-lane Denver award combining Scarabee lanes with Smiths scanners. Corroborates a commercial mixed-supplier integration route; an award is not realized annual revenue or proof of unrestricted interoperability. ([daifukuatec.com](https://daifukuatec.com/news/scarabees-checkpoint-property-screening-system-to-be-deployed-at-den))

48. CATSA Annual Report 2024 - Management's Discussion and Analysis

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx pre-board capital appropriations used of C$xx.xx provide the second period in the non-passenger-to-cabin purchasing comparison.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx non-passenger capital appropriations used of C$xx.xx enter the two-period activity proxy; they do not identify the property-only fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx non-passenger capital appropriations used of C$xx.xx enter the two-period activity proxy; they do not identify the property-only fraction.

49. Smiths Detection confirm order of 91 advanced scanners for new terminals at Moscow Sheremetyevo International Airport
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The dated airport deployment includes xx.xx entrance baggage systems and xx.xx cabin-checkpoint systems. Their ratio supplies a historical relative-density proxy, subsequently discounted for assumed global coverage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated airport deployment includes xx.xx entrance baggage systems and xx.xx cabin-checkpoint systems. Their ratio supplies a historical relative-density proxy, subsequently discounted for assumed global coverage.
50. Cochin International Airport Selects Smiths Detection's CTX 9800 for Next-Generation Hold Baggage Screening
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2017 deployment identifies xx.xx customs baggage systems alongside four hold-baggage systems. This supports the customs-intensive historical configuration proxy, not current global fleet or revenue observations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2017 deployment identifies xx.xx customs baggage systems alongside four hold-baggage systems. This supports the customs-intensive historical configuration proxy, not current global fleet or revenue observations.
51. CATSA Functions, Programs and Activities
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Hold-baggage activities include equipment purchase, baggage-handling integration and equipment maintenance, supporting the checked-baggage capital and lifecycle boundary.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Hold-baggage activities include equipment purchase, baggage-handling integration and equipment maintenance, supporting the checked-baggage capital and lifecycle boundary.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-passenger screening covers airport workers and their belongings; only attributable property-screening offerings enter this allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-passenger screening covers airport workers and their belongings; only attributable property-screening offerings enter this allocation.
52. Fraport TAV Antalya Airport - About the security control itself
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The airport operator distinguishes terminal-entry security from a subsequent checkpoint. This supports a separate entrance-screening mission while providing no global prevalence or spending share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport operator distinguishes terminal-entry security from a subsequent checkpoint. This supports a separate entrance-screening mission while providing no global prevalence or spending share.
53. EMSD VoiceLink, Issue 79, June 2026 - EMSD Provides Comprehensive Support for Terminal 2 Commissioning
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June 2026 account identifies baggage-and-parcel equipment procurement and installation for the customs authority at Terminal xx.xx. It supports a separate commissioning mission but does not isolate baggage expenditure.
54. GAO-26-107811 - Guam: Considerations for Evaluating Alternative Customs Models and Potential Economic Effects
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The audit identifies two historical airport-customs baggage systems inactive for years and delayed replacement procurement. This challenges conversion of installed stock or acknowledged need directly into annual equipment and support revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The audit identifies two historical airport-customs baggage systems inactive for years and delayed replacement procurement. This challenges conversion of installed stock or acknowledged need directly into annual equipment and support revenue.

55. Bennet, Moran, Van Hollen, Boozman Introduce Bill to Bolster Aviation Safety
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 official release identifies xx.xx U.S. screening lanes, used as agency purchasing-exposure calibration rather than observed annual equipment sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 official release identifies xx.xx U.S. screening lanes, used as agency purchasing-exposure calibration rather than observed annual equipment sales.
56. Bank of Canada - Annual exchange rates
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual exchange-rate observations support the inherited fiscal-period approximation of xx.xx Canadian dollars per U.S. dollar; this is not a transaction-weighted exchange rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual exchange-rate observations support the inherited fiscal-period approximation of xx.xx Canadian dollars per U.S. dollar; this is not a transaction-weighted exchange rate.
57. Japan’s leading airline revolutionizes check in experience with new Smiths Detection technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The August 2023 announcement identifies JAL as customer for five screening ecosystems and reports xx.xx deployed iLane units across Japan. These are historical commercial-stock anchors, not an airline-only fleet or 2025 sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August 2023 announcement identifies JAL as customer for five screening ecosystems and reports xx.xx deployed iLane units across Japan. These are historical commercial-stock anchors, not an airline-only fleet or 2025 sales observation.
58. Narita International Airport anticipates threats with integrated solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Narita airport as a screening-technology customer and describes xx.xx lane-related installations, qualifying any assumption that the supplier's Japanese installed stock was purchased entirely by airlines.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Narita airport as a screening-technology customer and describes xx.xx lane-related installations, qualifying any assumption that the supplier's Japanese installed stock was purchased entirely by airlines.
59. MLIT - 保安検査の実施主体が変わります！ - June 27, 2025
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement targets transfer of security-screening responsibility from airlines to airport managers, with leading cases targeted in FY2026. Supports a conditional reduction in airline purchasing, not an observed contract-transfer percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transfer direction supports modeled airport-manager purchasing gains. Continued shared financing does not imply equal purchasing shares.
60. ICTS International N.V. - Annual Report for the year ended December 31, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Discloses USD xx.xx company-wide property/equipment purchases and USD xx.xx airport-security revenue in 2025. Supports an asset-light purchasing-intensity proxy; the in-scope fraction and global expansion remain assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Discloses USD xx.xx company-wide property/equipment purchases and USD xx.xx airport-security revenue in 2025. Supports an asset-light purchasing-intensity proxy; the in-scope fraction and global expansion remain assumptions.

61. EU Publications Office - Purchase and maintenance of non-intrusive X-ray inspection equipment for baggage and air cargo volume control
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Autoridade Tributária e Aduaneira as buyer and reports a 2026 award of EUR xx.xx across four lots for baggage/air-cargo inspection equipment and maintenance. Provides a buyer-role and commercial-scale comparator, not 2025 baggage-only annual expenditure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Autoridade Tributária e Aduaneira as buyer and reports a 2026 award of EUR xx.xx across four lots for baggage/air-cargo inspection equipment and maintenance. Provides a buyer-role and commercial-scale comparator, not 2025 baggage-only annual expenditure.
62. ACI World - Busiest Airports in the World
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx international airport passenger movements in 2025. Half provides an approximate arrival-movement scale check before transfer exclusions, not a customs examination or equipment-purchasing weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx international airport passenger movements in 2025. Half provides an approximate arrival-movement scale check before transfer exclusions, not a customs examination or equipment-purchasing weight.
63. Heathrow announces £2.3bn accelerated investment plan to upgrade the UK's international gateway to growth
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports GBP xx.xx invested in security-lane upgrades during 2024, supporting material airport-directed purchasing. Broader infrastructure obligations and historical timing prevent treating the amount as 2025 in-scope market receipts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports GBP xx.xx invested in security-lane upgrades during 2024, supporting material airport-directed purchasing. Broader infrastructure obligations and historical timing prevent treating the amount as 2025 in-scope market receipts.
64. Fraport Assumes Responsibility for Aviation Security Checks at Frankfurt Airport
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents Fraport's checkpoint-management responsibility from January 2023, six initial CT-equipped lanes and three contracted screening providers. Supports distinguishing an airport commissioning role from regulator oversight and contracted screening labor.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents Fraport's checkpoint-management responsibility from January 2023, six initial CT-equipped lanes and three contracted screening providers. Supports distinguishing an airport commissioning role from regulator oversight and contracted screening labor.
65. Advanced Cabin Baggage Screening - Computed Tomography Implementation Guide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes standalone CT, including equipment-local conveyance, from integrated screening-lane configurations; supports attribution boundaries, not a revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes standalone CT, including equipment-local conveyance, from integrated screening-lane configurations; supports attribution boundaries, not a revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies automated tray-return and automated screening-lane integration as commercially distinct configurations; supports the lane-integrated category definition.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies automated tray-return and automated screening-lane integration as commercially distinct configurations; supports the lane-integrated category definition.

66. GAO-12-266 - Checked Baggage Screening: TSA Has Deployed Optimal Systems at the Majority of TSA-Regulated Airports, but Could Strengthen Cost Estimates

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December 2011 table reports xx.xx standalone EDS alongside xx.xx in-line EDS; this historical machine-count comparator constrains, but does not determine, the current global allocation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December 2011 table reports xx.xx standalone EDS alongside xx.xx in-line EDS; this historical machine-count comparator constrains, but does not determine, the current global allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx in-line EDS across xx.xx in-line systems and distinguishes equipment counts from integrated-system counts; supports the historical configuration bridge.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx in-line EDS across xx.xx in-line systems and distinguishes equipment counts from integrated-system counts; supports the historical configuration bridge.

67. Smiths Detection selected as security technology provider to International Airport Heraklion Crete

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 announcement identifies eight cabin CT scanners and eight automated tray-return systems for Heraklion, with installation planned across late 2025 and mid-2026; supports ongoing integrated procurement, not realized annual revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 announcement identifies eight cabin CT scanners and eight automated tray-return systems for Heraklion, with installation planned across late 2025 and mid-2026; supports ongoing integrated procurement, not realized annual revenue.

68. Centralised Image Processing: The Impact on Security Checkpoints

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes checkpoint-local image review from separate-room arrangements; supports retaining networked local activity rather than automatically assigning it to remote review. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes checkpoint-local image review from separate-room arrangements; supports retaining networked local activity rather than automatically assigning it to remote review. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes separate screening rooms and established remote hold-baggage review at larger airports; supports the cohort-maturity premise, not a numerical global share. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes separate screening rooms and established remote hold-baggage review at larger airports; supports the cohort-maturity premise, not a numerical global share. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes combined checkpoint and remote-room arrangements, establishing a mixed-location commercial configuration without measuring its prevalence or price. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes combined checkpoint and remote-room arrangements, establishing a mixed-location commercial configuration without measuring its prevalence or price. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))

69. Annual Report 2024 - CATSA's Operating Environment

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2023/xx.xx providing the historical comparison rather than a global location allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2023/xx.xx providing the historical comparison rather than a global location allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Together with the subsequent annual report, supports a seven-line deployment increase without a corresponding increase in reported passenger coverage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Together with the subsequent annual report, supports a seven-line deployment increase without a corresponding increase in reported passenger coverage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provides a historical network-enabled deployment anchor, while leaving the physical mixed-location contract share unmeasured. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provides a historical network-enabled deployment anchor, while leaving the physical mixed-location contract share unmeasured. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))

70. L22020-T-TG Upgrades to the Passenger Search Area, body scanners, EDS C3 cabin baggage screening - Contract Award Notice

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2023 Luton award expressly includes construction of a remote screening room at the airport terminal, supporting separate-room commercial procurement. Its broader scope is not treated as baggage-only annual revenue. ([find-tender.service.gov.uk](https://www.find-tender.service.gov.uk/Notice/xx.xx-2023))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2023 Luton award expressly includes construction of a remote screening room at the airport terminal, supporting separate-room commercial procurement. Its broader scope is not treated as baggage-only annual revenue. ([find-tender.service.gov.uk](https://www.find-tender.service.gov.uk/Notice/xx.xx-2023))

71. Greater Orlando Aviation Authority - Minutes of the February 19, 2025 Meeting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Authorizes up to USD xx.xx for baggage-system and Remote Screening Facility network/server separation. Half this ceiling is an explicitly assumed deployment-cost comparator, not observed off-site receipts. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Authorizes up to USD xx.xx for baggage-system and Remote Screening Facility network/server separation. Half this ceiling is an explicitly assumed deployment-cost comparator, not observed off-site receipts. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provides the commercial networking-cost anchor for the modeled transfer from existing on-site pools, avoiding additional market value or duplicate host-equipment attribution. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provides the commercial networking-cost anchor for the modeled transfer from existing on-site pools, avoiding additional market value or duplicate host-equipment attribution. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))

72. American and U.S. Customs and Border Protection pilot innovative baggage screening initiative

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: American's April xx.xx 2025 announcement identifies a daily Sydney-Los Angeles IRBS pilot and unchanged screening requirements. It anchors one sampled connection and an assumed partial-year licensing period, not disclosed revenue. ([s202.q4cdn.com](https://s202.q4cdn.com/xx.xx/files/doc_news/American-and-US-Customs-and-Border-Protection-pilot-innovative-baggage-screening-initiative-OPS-OTH-xx.xx-2025.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: American's April xx.xx 2025 announcement identifies a daily Sydney-Los Angeles IRBS pilot and unchanged screening requirements. It anchors one sampled connection and an assumed partial-year licensing period, not disclosed revenue. ([s202.q4cdn.com](https://s202.q4cdn.com/xx.xx/files/doc_news/American-and-US-Customs-and-Border-Protection-pilot-innovative-baggage-screening-initiative-OPS-OTH-xx.xx-2025.pdf))

73. 델타항공-대한항공, 인천발 애틀랜타 노선 대상 위탁수하물 원격 검색 방식 신규 도입

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2025 announcement identifies the Incheon-Atlanta IRBS arrangement, anchoring a second sampled connection and a partial-year commercial-activity assumption without establishing contract value. ([news.delta.com](https://news.delta.com/delta-and-koreanair-launch-remote-baggage-screening-on-icn-atl-KR))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2025 announcement identifies the Incheon-Atlanta IRBS arrangement, anchoring a second sampled connection and a partial-year commercial-activity assumption without establishing contract value. ([news.delta.com](https://news.delta.com/delta-and-koreanair-launch-remote-baggage-screening-on-icn-atl-KR))

74. United Launches CBP's International Remote Baggage Screening on Select International Flights

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: United's September xx.xx 2025 announcement identifies daily Sydney-San Francisco service and named technology partners, anchoring a third sampled connection. It reports no attributable software or integration receipts. ([united.mediaroom.com](https://united.mediaroom.com/2025-xx.xx-xx.xx-United-Launches-CBPs-International-Remote-Baggage-Screening-on-Select-International-Flights))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: United's September xx.xx 2025 announcement identifies daily Sydney-San Francisco service and named technology partners, anchoring a third sampled connection. It reports no attributable software or integration receipts. ([united.mediaroom.com](https://united.mediaroom.com/2025-xx.xx-xx.xx-United-Launches-CBPs-International-Remote-Baggage-Screening-on-Select-International-Flights))

75. Airline Passengers Face Fewer Bag Checkpoints, Thanks to PNNL, Partners

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2026 laboratory release describes implementation on additional routes, including Seoul arrivals at Minneapolis-St. Paul and Detroit. This supports expansion direction, not the forecast connection count, realization or global share. ([pnnl.gov](https://www.pnnl.gov/news-media/airline-passengers-face-fewer-bag-checkpoints-thanks-pnnl-partners))

76. TSA awards $781.2 million to procure additional CT X-Ray scanners for airport checkpoints

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2022 announcement identifies up to USD xx.xx for procurement and maintenance of up to xx.xx systems from an OEM. This is a historical procurement-scale anchor, not annual 2025 direct-channel revenue. ([content.govdelivery.com](https://content.govdelivery.com/accounts/USDHSTSA/bulletins/30f6e5f))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The award includes full-size automated lanes, cautioning against assigning all automation value to non-OEM integration primes; exact contractual-role attribution is not disclosed. ([content.govdelivery.com](https://content.govdelivery.com/accounts/USDHSTSA/bulletins/30f6e5f))

77. OSI Systems, Inc. - Form 10-K for the fiscal year ended June 30, 2026

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing describes regional direct security-product sales and direct maintenance relationships. Its broader security scope supports route coexistence, not baggage-only sales weights. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing describes regional direct security-product sales and direct maintenance relationships. Its broader security scope supports route coexistence, not baggage-only sales weights. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company identifies a global independent-distributor network, supporting a continuing indirect route without quantifying its value share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company identifies a global independent-distributor network, supporting a continuing indirect route without quantifying its value share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Authorized service providers are identified separately from distributors, supporting distinct technical-service attribution and access limitations. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Authorized service providers are identified separately from distributors, supporting distinct technical-service attribution and access limitations. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

78. SriLankan Airlines - Invitation for Supply, Installation, Commissioning and Maintenance of Dual View Heavy and Medium X-Ray Machines, Reference 202130407

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 purchaser invitation permits an OEM or authorized OEM agent and requires authorization for the latter. It establishes equipment-channel eligibility, not an award or software-resale right. ([srilankan.com](https://www.srilankan.com/download/tender/TN-Invitationforsubmiss-xx.xx.pdf))

79. JFK Millennium Partners Selects K2 to Deliver State-of-the-Art Security Screening Checkpoint at new JFK Terminal 6

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment assigns procurement and deployment coordination across multiple technology suppliers at a future ten-gate terminal. It supports integration-prime participation and a forecast mechanism, not a disclosed share or completed 2025 revenue. ([portauthoritybuilds.com](https://www.portauthoritybuilds.com/redevelopment/us/en/jfk/planned-projects/terminal-xx.xx/news/jfk-millennium-partners-selects-k2-to-deliver-state-of-the-art-s.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment assigns procurement and deployment coordination across multiple technology suppliers at a future ten-gate terminal. It supports integration-prime participation and a forecast mechanism, not a disclosed share or completed 2025 revenue. ([portauthoritybuilds.com](https://www.portauthoritybuilds.com/redevelopment/us/en/jfk/planned-projects/terminal-xx.xx/news/jfk-millennium-partners-selects-k2-to-deliver-state-of-the-art-s.html))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment covers baggage CT and automated bin-return equipment for a future xx.xx-gate terminal, with phased opening planned for 2026-2028. It establishes new-installation activity, not attributable 2025 receipts; wider airport investment and person-only technologies are excluded.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment covers baggage CT and automated bin-return equipment for a future xx.xx-gate terminal, with phased opening planned for 2026-2028. It establishes new-installation activity, not attributable 2025 receipts; wider airport investment and person-only technologies are excluded.

80. CATSA Corporate Plan 2024-25 to 2028-29 Summary - Key Corporate Risks

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The authority reports transferring maintenance of most screening equipment to KPrime in 2023/xx.xx. This establishes a separately contracted maintenance relationship, without a baggage-only payment split. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/key-corporate-risks))

81. Leidos wins TSA logistics contract

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 announcement describes an eight-year, USD xx.xx maximum sustainment contract covering xx.xx equipment units at over xx.xx locations with manufacturer coordination. Annualization and baggage/third-party attribution in the model are explicit assumptions. ([leidos.com](https://www.leidos.com/insights/leidos-wins-tsa-logistics-contract))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 announcement describes an eight-year, USD xx.xx maximum sustainment contract covering xx.xx equipment units at over xx.xx locations with manufacturer coordination. Annualization and baggage/third-party attribution in the model are explicit assumptions. ([leidos.com](https://www.leidos.com/insights/leidos-wins-tsa-logistics-contract))

82. Checkpoint Transformation: Malta International Airport Streamlines Passenger Flow with Smiths Detection
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Seven conventional automated lanes were replaced by six CT-equipped lanes, with final commissioning in January 2025. This is a counterexample to equating capacity improvement with net additional equipment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seven conventional automated lanes were replaced by six CT-equipped lanes, with final commissioning in January 2025. This is a counterexample to equating capacity improvement with net additional equipment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The complete checkpoint replacement illustrates why an offering described commercially as an upgrade can belong to System Replacement. The seven-year service commitment is not counted wholly as installation-year revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The complete checkpoint replacement illustrates why an offering described commercially as an upgrade can belong to System Replacement. The seven-year service commitment is not counted wholly as installation-year revenue.
83. iCMORE - Smiths Detection
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current commercial offering describes a software-upgrade path while qualifying additional hardware requirements by machine type and age. This constrains forecast eligibility assumptions; product availability does not measure adoption or revenue.

18.9. France

Table 548. France Airport Baggage Screening Systems Market Size, 2017-2040 (USD Million)

Country	2017	2024	2025	2026	2027	2032	2040	CAGR (%)

Sources & Evidence

1. House Report 119-173 - Department of Homeland Security Appropriations Bill, 2026

   · Evidence informing the 2030 market-value input; displayed series and growth include calculations: The aging installed fleet supports replacement demand, but does not establish the forecast's realization dates or annual purchasing rate. ([govinfo.gov](https://www.govinfo.gov/content/pkg/CRPT-119hrpt173/html/CRPT-119hrpt173.htm))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report identifies xx.xx end-of-life systems within a xx.xx-system checked-baggage fleet. This constrains renewal exposure, not realized annual purchasing or a verified global replacement deadline.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports a TSA checked-baggage fleet of xx.xx EDS, including xx.xx at end-of-life, and assigns purchase, installation and maintenance responsibilities to TSA. Supports agency fleet calibration and renewal pressure, not the assumed forecast uplift.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports a TSA checked-baggage fleet of xx.xx EDS, including xx.xx at end-of-life, and assigns purchase, installation and maintenance responsibilities to TSA. Supports agency fleet calibration and renewal pressure, not the assumed forecast uplift.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report identifies xx.xx end-of-life EDS within a xx.xx-unit U.S. checked-baggage fleet, citing the FY2024 capital plan. The derived xx.xx% backlog constrains the aging-fleet premise, but is neither an annual turnover rate nor a funded global replacement forecast.

2. GAO-24-106573 - DHS Annual Assessment: Most Programs Are Meeting Current Goals, but Some Continue to Face Cost and Schedule Challenges

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports plans for xx.xx checkpoint systems and xx.xx increment-one deployments by September 2023; supports an incomplete replacement cycle rather than universal CT adoption. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx AT/CT, xx.xx base, xx.xx mid-size and xx.xx full-size deployments by September 2023; supplies configuration proxies and an incomplete-renewal constraint, not contractual architecture shares. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx AT/CT, xx.xx base, xx.xx mid-size and xx.xx full-size deployments by September 2023; supplies configuration proxies and an incomplete-renewal constraint, not contractual architecture shares. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The deployed configuration mix underlies the xx.xx/xx.xx newer-cohort and xx.xx/xx.xx older-cohort proxy calculations; global and contractual attribution remain modeled. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The deployed configuration mix underlies the xx.xx/xx.xx newer-cohort and xx.xx/xx.xx older-cohort proxy calculations; global and contractual attribution remain modeled. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The assessment records xx.xx checkpoint systems deployed by September 2023 against an eventual xx.xx-system program. This supports an incomplete replacement cycle and qualifies any assumption of universal CT adoption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The assessment records xx.xx checkpoint systems deployed by September 2023 against an eventual xx.xx-system program. This supports an incomplete replacement cycle and qualifies any assumption of universal CT adoption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports a September 2023 U.S. CT cohort containing xx.xx AT/CT and xx.xx base systems, providing counterevidence to assigning all CT activity automatically to integrated lanes.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports a September 2023 U.S. CT cohort containing xx.xx AT/CT and xx.xx base systems, providing counterevidence to assigning all CT activity automatically to integrated lanes.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx mid-size and xx.xx full-size systems within xx.xx deployed CT systems; supports differentiated configuration assumptions rather than treating technology adoption as an integration-share observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx mid-size and xx.xx full-size systems within xx.xx deployed CT systems; supports differentiated configuration assumptions rather than treating technology adoption as an integration-share observation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2024 assessment records xx.xx checkpoint deployments as of September 2023 against xx.xx planned systems replacing aging equipment. It supports staged renewal, but does not establish current deployment completion or the modeled 2032 share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2024 assessment records xx.xx checkpoint deployments as of September 2023 against xx.xx planned systems replacing aging equipment. It supports staged renewal, but does not establish current deployment completion or the modeled 2032 share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The program separately anticipates enhancements to fielded systems, supporting a retained-equipment commercial pathway without supplying an attributable upgrade-revenue split.

3. Global Airport Passenger Traffic Reaches Record 9.8 Billion in 2025, Airports Council International World reports

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports cooling passenger-growth momentum in 2026, supporting moderation of traffic-driven equipment expansion despite continuing replacement demand.
   ([aci.aero](https://aci.aero/2026/xx.xx/xx.xx/global-airport-passenger-traffic-reaches-record-xx.xx-xx.xx-billion-in-2025-airports-council-international-world-reports/))

4. Smiths Group PLC - Full Year Results for the 12 Months Ended 31 July 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Discloses aviation original-equipment revenue of xx.xx and aftermarket revenue of xx.xx for FY2024; supplies historical cycle proxies. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing the 2027 market-value input; displayed series and growth include calculations: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; supports replacement activity, not an observed global forecast. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2025 aviation original-equipment revenue of GBP xx.xx provides an independent equipment-activity scale check, not a global category share. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025 aviation original-equipment revenue of GBP xx.xx provides an independent equipment-activity scale check, not a global category share. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx cumulative CTiX sales corroborate commercial imaging activity and replacement demand; they do not measure annual global sales. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx cumulative CTiX sales corroborate commercial imaging activity and replacement demand; they do not measure annual global sales. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: GBP xx.xx aviation aftermarket revenue supports lifecycle materiality while qualifying transfer of one supplier's mix to the global service allocation. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GBP xx.xx aviation aftermarket revenue supports lifecycle materiality while qualifying transfer of one supplier's mix to the global service allocation. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; cumulative sales constrain commercial scale but are not annual global shipments. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; cumulative sales constrain commercial scale but are not annual global shipments. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports four operating XDi units as of July 2025 and pending regulatory certification, constraining the small XRD cohort and qualifying aggressive commercialization assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports four operating XDi units as of July 2025 and pending regulatory certification, constraining the small XRD cohort and qualifying aggressive commercialization assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported checkpoint modernization provides a commercial reason to model substitution from discrete legacy offerings; the filing does not disclose standalone configuration revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025

5. Smiths Group PLC - Annual Report & Accounts FY2023
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: Reports FY2022 aviation original-equipment revenue of xx.xx, used as a dimensionless historical capital-cycle proxy. ([www-live.smiths.com](https://www-live.smiths.com/media/phjp1j44/smiths-annual-report-2023.pdf))
   - Evidence informing the 2023 market-value input; displayed series and growth include calculations: Reports FY2023 aviation original-equipment revenue of xx.xx and aftermarket revenue of xx.xx; supports the modeled recovery direction. ([www-live.smiths.com](https://www-live.smiths.com/media/phjp1j44/smiths-annual-report-2023.pdf))
6. Smiths Group PLC - Annual Report FY2022
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: Reports FY2021 aviation revenue of xx.xx, providing a historical purchasing-cycle reference rather than a global observation. ([www-live.smiths.com](https://www-live.smiths.com/media/xjvdpblr/smiths-annual-report-2022-report.pdf))
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: Reports FY2022 aviation revenue of xx.xx and continued weakness in aviation original equipment; supports a delayed capital-spending trough. ([www-live.smiths.com](https://www-live.smiths.com/media/xjvdpblr/smiths-annual-report-2022-report.pdf))
7. Smiths Group PLC - Annual Results for the Year Ended 31 July 2019
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: Reports FY2018 aviation revenue of xx.xx, supplying the historical comparison underlying the backcast. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: Reports FY2019 aviation revenue of xx.xx and customer delivery deferrals, qualifying a traffic-only growth model. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Identifies deliveries deferred into FY2020; supports the possibility of backlog-supported spending despite a contemporaneous traffic shock, not the exact modeled growth rate. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
8. ACI World - The High-Wire Balancing Act: Global Air Transport Demand in 2018 and 2019
   - Evidence informing the 2017 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers and xx.xx% growth in 2018; the growth observation informs the 2017 backcast bridge. ([blog.aci.aero](https://blog.aci.aero/airport-economics/the-high-wire-balancing-act-global-air-transport-demand-in-2018-and-2019/))
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: Provides the observed 2018 traffic-growth reference, not an equipment-market growth observation. ([blog.aci.aero](https://blog.aci.aero/airport-economics/the-high-wire-balancing-act-global-air-transport-demand-in-2018-and-2019/))
9. ICAO A42-WP/556 - State of the Industry and Outlook for Airport Traffic, Presented by ACI
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Records the collapse from xx.xx airport passengers in 2019 to xx.xx in 2020; constrains the shock and funding-risk interpretation. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2021, supporting a prolonged funding and activity shock. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2023 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2023; traffic recovery is distinguished from equipment purchasing. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2024, providing a demand recovery cross-check. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))

10. Port of Seattle - Baggage Handling System Optimization
    - Evidence informing the 2029 market-value input; displayed series and growth include calculations: Seattle plans to consolidate six baggage-screening systems, increase supported passenger capacity, and reduce screening-machine demand. Supports integration spending without one-for-one detector growth. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing the 2032 market-value input; displayed series and growth include calculations: The consolidation example constrains equipment-volume assumptions; its whole baggage-handling project value is excluded from market sizing. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing the 2040 market-value input; displayed series and growth include calculations: Provides a commercial counterexample to extrapolating passenger growth directly into machine counts throughout the long-range forecast. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Consolidation of six systems with reduced machine demand qualifies a traffic-to-detector-volume forecast. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The consolidation project supports integration-driven conveyor demand, but its whole-project value is excluded. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Brownfield consolidation supports the integration-demand premise, not the forecast's exact service growth factor. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport replaces six separate screening systems with centralized screening and expects reduced screening-machine demand while expanding capacity. This supplies a counterforce to volume-only checked-baggage forecasting.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Seattle is consolidating six screening systems, expects reduced screening-machine demand and schedules final-phase completion in 2029. Supports integration demand while constraining detector-volume growth; the whole-project budget is excluded.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seattle is consolidating six screening systems, expects reduced screening-machine demand and schedules final-phase completion in 2029. Supports integration demand while constraining detector-volume growth; the whole-project budget is excluded.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seattle's project combines increased screening capacity with consolidation from six screening systems and reduced screening-machine demand. This constrains the forecast assumption that capacity growth requires proportional equipment additions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement and capacity objectives coexist within the project. Its wider baggage-handling budget is not treated as screening-equipment revenue or assigned additively to multiple purposes.
11. Smiths Group PLC - Half Year Results for the Six Months Ended 31 January 2026
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports xx.xx% organic growth for Smiths Detection in HY2026, with aviation checkpoint upgrades contributing. Supports a positive 2026 nowcast, not a directly observed global growth rate. ([www-live.smiths.com](https://www-live.smiths.com/media/villk35h/smiths-hy26-results-press-release.pdf))
12. Eurostat - Air passenger transport statistics, December 2025, Table 1: 2024 country traffic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Traffic primitive.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Traffic primitive.

13. ACI EUROPE - 2025 all about traffic resilience as Europe’s airports welcomed an additional 100 million passengers

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual growth input to the 2025 bridge.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual growth input to the 2025 bridge.

14. CATSA 2025 Annual Report - Notes to the Financial Statements

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx accounts disclose C$xx.xx maintenance/spares and C$xx.xx training/certification, supporting the service-budget calibration but not global baggage-only shares. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx accounts disclose C$xx.xx maintenance/spares and C$xx.xx training/certification, supporting the service-budget calibration but not global baggage-only shares. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintenance and spare parts are combined in the accounts; the labor-versus-goods split therefore remains modeled. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintenance and spare parts are combined in the accounts; the labor-versus-goods split therefore remains modeled. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The C$xx.xx training/certification expense supplies the numerator of the adjusted training-to-capital proxy. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The C$xx.xx training/certification expense supplies the numerator of the adjusted training-to-capital proxy. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: C$xx.xx trace/consumables is distinct from maintenance/spares and supplies the contrary consumables-intensity comparator, not a global observation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: C$xx.xx trace/consumables is distinct from maintenance/spares and supplies the contrary consumables-intensity comparator, not a global observation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately reports C$xx.xx maintenance/spares, C$xx.xx trace/consumables and C$xx.xx training/certification, constraining attributable agency lifecycle expenditure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates screening-contractor payments from equipment support, preventing staffing expenditure from becoming equipment-market purchasing.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately reports C$xx.xx maintenance/spares, C$xx.xx trace/consumables and C$xx.xx training/certification, constraining attributable agency lifecycle expenditure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates screening-contractor payments from equipment support, preventing staffing expenditure from becoming equipment-market purchasing.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited expense disclosure reports C$xx.xx for maintenance and spare parts in the year ended March xx.xx 2025. It constrains support-spending materiality, not the amount attributable to an independent provider. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))

15. CATSA 2025 Annual Report - Management's Discussion and Analysis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: EDS capital expenditure of C$xx.xx includes equipment and installation/integration and supplies the training-calibration denominator, subject to baggage attribution. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EDS capital expenditure of C$xx.xx includes equipment and installation/integration and supplies the training-calibration denominator, subject to baggage attribution. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The capital definition includes associated installation and integration, supporting the distinction between deployment services and equipment value. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The capital definition includes associated installation and integration, supporting the distinction between deployment services and equipment value. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Actual spending, original budget and reprofile amounts constrain the forecast's purchasing-execution interpretation; they are not a global growth rate. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx pre-board capital appropriations used were C$xx.xx. This supplies the Canadian purchasing comparison and a component of the non-passenger-to-cabin activity proxy, not a global share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx pre-board capital appropriations used were C$xx.xx. This supplies the Canadian purchasing comparison and a component of the non-passenger-to-cabin activity proxy, not a global share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx hold-baggage capital appropriations used were C$xx.xx; this constrains the independent application-capital comparison.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx non-passenger capital appropriations used were C$xx.xx, below the original C$xx.xx budget. Actual purchasing informs the proxy and qualifies automatic announcement-to-revenue conversion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx non-passenger capital appropriations used were C$xx.xx, below the original C$xx.xx budget. Actual purchasing informs the proxy and qualifies automatic announcement-to-revenue conversion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports C$xx.xx EDS capital expenditure for FY2024/xx.xx and identifies both baggage equipment and full-body scanners in the capital scope, requiring a baggage-attribution adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports C$xx.xx EDS capital expenditure for FY2024/xx.xx and identifies both baggage equipment and full-body scanners in the capital scope, requiring a baggage-attribution adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EDS outturn was C$xx.xx versus an original C$xx.xx plan and revised C$xx.xx budget. Reprofiling constrains assumed award conversion and deployment timing; it does not measure procurement-channel mix. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The actual capital-project list identifies hold-baggage capacity expansion at Montréal-Trudeau, supporting the expansion classification, not its modeled global revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The actual capital-project list identifies hold-baggage capacity expansion at Montréal-Trudeau, supporting the expansion classification, not its modeled global revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The actual project list includes checkpoint CT deployment and hold-baggage oversize-equipment lifecycle management, supporting renewal activity without disclosing its purpose-specific spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The actual project list includes checkpoint CT deployment and hold-baggage oversize-equipment lifecycle management,

16. Aviation security screening approved equipment list
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Baggage EDS/EDSCB and conventional X-ray classes support the inspection-system boundary, not sales weights. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Baggage EDS/EDSCB and conventional X-ray classes support the inspection-system boundary, not sales weights. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Liquid detectors are a distinct cabin-baggage category; the complete bulk-material extension remains modeled within the captured boundary. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Liquid detectors are a distinct cabin-baggage category; the complete bulk-material extension remains modeled within the captured boundary. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ETD serves baggage and other applications, requiring explicit baggage attribution rather than allocating all detector sales here. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ETD serves baggage and other applications, requiring explicit baggage attribution rather than allocating all detector sales here. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dedicated ETD consumables are separately recognized, supporting goods classification without establishing spending or unrestricted interchangeability. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dedicated ETD consumables are separately recognized, supporting goods classification without establishing spending or unrestricted interchangeability. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
17. Quantifying the Impacts of Delayed Maintenance of Airport Assets: A Guide - Chapter 6, Baggage Handling Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The baggage-handling cost study uses a modeled xx.xx% labor share, adopted only as an adjacent support-cost proxy. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The baggage-handling cost study uses a modeled xx.xx% labor share, adopted only as an adjacent support-cost proxy. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Its corresponding modeled xx.xx% parts share calibrates the labor/goods separation; it is not an observed screening-equipment ratio. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Its corresponding modeled xx.xx% parts share calibrates the labor/goods separation; it is not an observed screening-equipment ratio. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))

18. Procurement of Next Generation Security Checkpoint Equipment - Contract Award Notice

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The seven-system award includes automated tray return, demonstrating bundled purchasing but no separately priced hardware allocation. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The seven-system award includes automated tray return, demonstrating bundled purchasing but no separately priced hardware allocation. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The integrated CT/tray-return scope constrains the automation interface boundary; it does not value general airport conveyors. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The integrated CT/tray-return scope constrains the automation interface boundary; it does not value general airport conveyors. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Central image processing is an explicit purchased function, without a separately disclosed license price. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Central image processing is an explicit purchased function, without a separately disclosed license price. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supply, installation and commissioning are included deliverables, supporting deployment-service attribution without establishing its percentage. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supply, installation and commissioning are included deliverables, supporting deployment-service attribution without establishing its percentage. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2022 award covers seven systems combining cabin CT, tray return, image processing and deployment responsibilities. It supports integrated purchased scope, not completed delivery or a global sales weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2022 award covers seven systems combining cabin CT, tray return, image processing and deployment responsibilities. It supports integrated purchased scope, not completed delivery or a global sales weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The integrated Newcastle procurement reports a GBP xx.xx-xx.xx offer range but no physical review-room location; its value cannot be assigned automatically to local review. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The integrated Newcastle procurement reports a GBP xx.xx-xx.xx offer range but no physical review-room location; its value cannot be assigned automatically to local review. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Central image processing is included, but a separate on-site room is not specified; constrains classification rather than supplying a remote-review sales weight. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Central image processing is included, but a separate on-site room is not specified; constrains classification rather than supplying a remote-review sales weight. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The bundled award does not identify a mixed-location package or its attributable price, preventing automatic hybrid classification. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The bundled award does not identify a mixed-location package or its attributable price, preventing automatic hybrid classification.

19. AI for Monitoring Aviation Security: Fraport and German Federal Police Start Regular Operation of APIDS
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: January xx.xx 2026 APIDS deployment demonstrates additional software adoption, without establishing separate revenue. ([fraport.com](https://www.fraport.com/en/newsroom/press-releases/2026/q1/ai-for-monitoring-aviation-security.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Deployment on more than xx.xx CT scanners is the independent quantitative rollout test; it does not validate the modeled license-growth factor. ([fraport.com](https://www.fraport.com/en/newsroom/press-releases/2026/q1/ai-for-monitoring-aviation-security.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: On January xx.xx 2026, Fraport announced regular APIDS software operation on more than xx.xx existing Smiths CT scanners. This independently supports retained-system enhancement at one buyer, not global penetration or realized license revenue.
20. Smiths Detection - Digital Innovation
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier identifies detection applications as a commercial function; separate fee allocation remains assumed. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier identifies detection applications as a commercial function; separate fee allocation remains assumed. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized screening supports the image-review function, not an observed software revenue weight. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized screening supports the image-review function, not an observed software revenue weight. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Connectivity, multi-vendor integration and equipment-health applications establish the fleet-management function without proving customer-specific rights or prices. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Connectivity, multi-vendor integration and equipment-health applications establish the fleet-management function without proving customer-specific rights or prices. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ELECTORA is offered for integrating multi-vendor devices, datasets and applications; establishes the vendor-platform category but discloses no category revenue or customer-specific substitution entitlement. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ELECTORA is offered for integrating multi-vendor devices, datasets and applications; establishes the vendor-platform category but discloses no category revenue or customer-specific substitution entitlement. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
21. UK Civil Aviation Authority - Threat Image Projection (TIP)
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: TIP library approval and renewal obligations support continuing software commitments, not the modeled global fee or share. ([caa.co.uk](https://www.caa.co.uk/commercial-industry/security/training-and-human-factors/threat-image-projection/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: TIP library approval and renewal obligations support continuing software commitments, not the modeled global fee or share. ([caa.co.uk](https://www.caa.co.uk/commercial-industry/security/training-and-human-factors/threat-image-projection/))

22. Smiths Detection - Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Inclusive capital-equipment support covers labor and parts, requiring a single-count economic allocation across services and goods. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Inclusive capital-equipment support covers labor and parts, requiring a single-count economic allocation across services and goods. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Equipment-specific training and certification are commercial offerings distinct from routine screening staffing. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Equipment-specific training and certification are commercial offerings distinct from routine screening staffing. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The parts-support offering and inclusive contracts corroborate the goods boundary, but not the assumed xx.xx% allocation. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The parts-support offering and inclusive contracts corroborate the goods boundary, but not the assumed xx.xx% allocation. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes inclusive labor-and-parts contracts and manufacturer support, supporting nonduplicative lifecycle attribution to projection equipment, not a verified xx.xx% fee. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes inclusive labor-and-parts contracts and manufacturer support, supporting nonduplicative lifecycle attribution to projection equipment, not a verified xx.xx% fee. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports the existence of manufacturer lifecycle offerings; broad service-footprint counts are not used as CT revenue weights.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports the existence of manufacturer lifecycle offerings; broad service-footprint counts are not used as CT revenue weights.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports commercial maintenance, refurbishment and parts offerings for portable equipment without establishing baggage-specific service receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports commercial maintenance, refurbishment and parts offerings for portable equipment without establishing baggage-specific service receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer markets direct on-site support and inclusive capital-equipment labor-and-parts contracts. This supports a continuing manufacturer-service alternative, without measuring a pricing premium. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer markets direct on-site support and inclusive capital-equipment labor-and-parts contracts. This supports a continuing manufacturer-service alternative, without measuring a pricing premium. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Manufacturer-provided bundled support is a commercial alternative to separate technical-service procurement, limiting assumptions of unrestricted third-party substitution. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Manufacturer-provided bundled support is a commercial alternative to separate technical-service procurement, limiting assumptions of unrestricted third-party substitution. ([smithsdetection.com](https://www.smithsdetection.com/service/))

23. Hold baggage screening upgrade, Dublin and Cork Airports, Ireland

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate professional-service appointments cover project controls, design oversight and interface management; the broader construction budget is not used as screening-service revenue. ([neccontract.com](https://www.neccontract.com/projects/hold-baggage-screening-upgrade-dublin-and-cork-airports-ireland))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate professional-service appointments cover project controls, design oversight and interface management; the broader construction budget is not used as screening-service revenue. ([neccontract.com](https://www.neccontract.com/projects/hold-baggage-screening-upgrade-dublin-and-cork-airports-ireland))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes three upgraded hold-baggage systems delivered through separate construction, baggage-integration and advisory appointments, completed in March 2023. Supports integrated-system attribution without assuming a universal single-prime model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes three upgraded hold-baggage systems delivered through separate construction, baggage-integration and advisory appointments, completed in March 2023. Supports integrated-system attribution without assuming a universal single-prime model.

24. Corporate Plan 2025-26 to 2029-30 Summary - Financial Overview
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CATSA distinguishes major-checkpoint CT replacement from single-view-to-multiview replacement elsewhere, supporting application-specific projection demand and forecast assumptions. It also discloses capital funding subject to reprofile approval. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/corporate-plan-2025-xx.xx-2029-xx.xx/financial-overview))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CATSA distinguishes major-checkpoint CT replacement from single-view-to-multiview replacement elsewhere, supporting application-specific projection demand and forecast assumptions. It also discloses capital funding subject to reprofile approval. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/corporate-plan-2025-xx.xx-2029-xx.xx/financial-overview))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies single-view equipment as a replacement population, supporting the modeled displacement mechanism rather than an observed global share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies single-view equipment as a replacement population, supporting the modeled displacement mechanism rather than an observed global share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Multiview remains a planned purchasing destination at non-passenger checkpoints and Class xx.xx airports, qualifying universal CT substitution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Multiview remains a planned purchasing destination at non-passenger checkpoints and Class xx.xx airports, qualifying universal CT substitution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CT replacement is a stated major-checkpoint investment priority, subject to funding and delivery risks; this supports direction, not the modeled global share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CT replacement is a stated major-checkpoint investment priority, subject to funding and delivery risks; this supports direction, not the modeled global share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The plan includes additional screening equipment and expansion of existing hold-baggage screening capacity. Its FY2025/xx.xx capital budget is C$xx.xx across mixed activities; plans are not recognized supplier revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The plan includes additional screening equipment and expansion of existing hold-baggage screening capacity. Its FY2025/xx.xx capital budget is C$xx.xx across mixed activities; plans are not recognized supplier revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The plan distinguishes replacement of checkpoint X-ray equipment with CT and asset lifecycle renewal from additional capacity. Funding, partner timing and reprofiling qualify forecast realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The plan distinguishes replacement of checkpoint X-ray equipment with CT and asset lifecycle renewal from additional capacity. Funding, partner timing and reprofiling qualify forecast realization.
25. ECAC CEP Public Equipment List - Explosive Detection Systems, Update 18 April 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 list retains XRD xx.xx supporting the legacy commercial-category premise but not the assumed installed cohort or sales volume. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-EDS-equipment_public_list_update_20250418.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 list retains XRD xx.xx supporting the legacy commercial-category premise but not the assumed installed cohort or sales volume. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-EDS-equipment_public_list_update_20250418.pdf))

26. Partners - HALO X-ray Technologies Ltd

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named airport pilots and approximately USD xx.xx and USD xx.xx development programs establish commercialization activity and program scale, not realized annual XRD equipment revenue. ([haloxray.com](https://www.haloxray.com/partners))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named airport pilots and approximately USD xx.xx and USD xx.xx development programs establish commercialization activity and program scale, not realized annual XRD equipment revenue. ([haloxray.com](https://www.haloxray.com/partners))

27. Explosives Trace Detectors (ETDs): Market Survey Report, November 2021

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Historical IONSCAN xx.xx list-price configurations around USD xx.xx-xx.xx constrain the IMS price class; they do not establish 2025 purchasing volumes or realizations. ([dhs.gov](https://dhs.gov/sites/default/files/2021-xx.xx/SAVER_Explosives%20Trace%20Detectors%20MSR_08Nov2021_Final-xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Historical IONSCAN xx.xx list-price configurations around USD xx.xx-xx.xx constrain the IMS price class; they do not establish 2025 purchasing volumes or realizations. ([dhs.gov](https://dhs.gov/sites/default/files/2021-xx.xx/SAVER_Explosives%20Trace%20Detectors%20MSR_08Nov2021_Final-xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The Fido X4 historical USD xx.xx list-price benchmark supports the explicit nominal-price bridge; baggage attribution and unit mix remain modeled.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The Fido X4 historical USD xx.xx list-price benchmark supports the explicit nominal-price bridge; baggage attribution and unit mix remain modeled.

28. Astrotech Corporation - Form 10-K for the Fiscal Year Ended June 30, 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Discloses FY2025 product and service revenue, xx.xx deployment locations, and a six-unit USD xx.xx order. These provide a price comparator and supplier-scale check, not baggage-only revenue. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20250630_10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Discloses FY2025 product and service revenue, xx.xx deployment locations, and a six-unit USD xx.xx order. These provide a price comparator and supplier-scale check, not baggage-only revenue. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20250630_10k.htm))

29. Astrotech Corporation - Form 10-K for the Fiscal Year Ended June 30, 2026

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports eight TRACER units sold in FY2025 versus three in FY2026, identifies grant-related revenue within FY2025 product revenue, and describes a potential subsidiary sale. These constrain MS attribution and forecast optimism. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20260630_10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports eight TRACER units sold in FY2025 versus three in FY2026, identifies grant-related revenue within FY2025 product revenue, and describes a potential subsidiary sale. These constrain MS attribution and forecast optimism. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20260630_10k.htm))

30. Liquid Explosive Detector, Bottle Liquid Scanner, Insight - Agilent

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Raman-based airport resolution products and dated September 2025 launch and May 2026 contract announcements. Supports category continuity and adoption premises, not global unit or revenue shares. ([agilent.com](https://www.agilent.com/en/product/molecular-spectroscopy/raman-spectroscopy/raman-aviation-security-systems/insight-series-alarm-resolution-systems))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Raman-based airport resolution products and dated September 2025 launch and May 2026 contract announcements. Supports category continuity and adoption premises, not global unit or revenue shares. ([agilent.com](https://www.agilent.com/en/product/molecular-spectroscopy/raman-spectroscopy/raman-aviation-security-systems/insight-series-alarm-resolution-systems))

31. Bottle Liquid Scanner for Sale from China - Securina

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Positions microwave-based liquid-screening products for airports and customs. Supports commercial classification only; prices, authorization and purchasing weights remain assumptions. ([securinadetection.com](https://www.securinadetection.com/Bottle-Liquid-Scanner-Manufacturer-China.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Positions microwave-based liquid-screening products for airports and customs. Supports commercial classification only; prices, authorization and purchasing weights remain assumptions. ([securinadetection.com](https://www.securinadetection.com/Bottle-Liquid-Scanner-Manufacturer-China.html))

32. Quick, Accurate Threat-Detection Scanner for Liquid, Aerosol, and Gels Eases and Secures Air Travel Worldwide

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies LS10 as a complete commercial liquid scanner combining RF and ultrasonic capabilities, supporting nonduplicative complete-product attribution. ([battelle.org](https://www.battelle.org/insights/case-studies/case-study-details/quick-accurate-threat-detection-scanner-for-liquid-aerosol-and-gels-eases-and-secures-air-travel-worldwide))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies LS10 as a complete commercial liquid scanner combining RF and ultrasonic capabilities, supporting nonduplicative complete-product attribution. ([battelle.org](https://www.battelle.org/insights/case-studies/case-study-details/quick-accurate-threat-detection-scanner-for-liquid-aerosol-and-gels-eases-and-secures-air-travel-worldwide))

33. ECAC CEP Public Equipment List - Liquid Explosive Detection Systems, Update 10 July 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 list includes One Resonance Sensors MobiLab BLS. This supports retained listed status for a named product, not active supply, paid installed stock or observed receipts. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-LEDS%20equipment%20public%20list-update%xx.xx-xx.xx-rev1.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 list includes One Resonance Sensors MobiLab BLS. This supports retained listed status for a named product, not active supply, paid installed stock or observed receipts. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-LEDS%20equipment%20public%20list-update%xx.xx-xx.xx-rev1.pdf))

34. MobiLab BLS Bottled Liquid Scanner Endorsed By European Civil Aviation Conference

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's May xx.xx 2014 announcement identifies MobiLab BLS as an NMR-based airport liquid scanner and states that orders were being accepted. Establishes historical commercial offering, not 2025 deliveries. ([prnewswire.com](https://www.prnewswire.com/news-releases/mobilab-bls-bottled-liquid-scanner-endorsed-by-european-civil-aviation-conference-xx.xx.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's May xx.xx 2014 announcement identifies MobiLab BLS as an NMR-based airport liquid scanner and states that orders were being accepted. Establishes historical commercial offering, not 2025 deliveries. ([prnewswire.com](https://www.prnewswire.com/news-releases/mobilab-bls-bottled-liquid-scanner-endorsed-by-european-civil-aviation-conference-xx.xx.html))

35. SafePointe BLS Powered by ORS - Bottled Liquid Explosives Detection Solution

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The branded supplier brochure documents an ORS-powered bottled-liquid product channel. Its availability does not establish current orders or support continuity; it supports only the legacy-channel modeling premise. ([uploads-ssl.webflow.com](https://uploads-ssl.webflow.com/608330bcae48962bf6d7ff37/6149f80be6c30d34b5e3debe_BLS-Flyer-Compressed.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The branded supplier brochure documents an ORS-powered bottled-liquid product channel. Its availability does not establish current orders or support continuity; it supports only the legacy-channel modeling premise. ([uploads-ssl.webflow.com](https://uploads-ssl.webflow.com/608330bcae48962bf6d7ff37/6149f80be6c30d34b5e3debe_BLS-Flyer-Compressed.pdf))

36. Florida Division of Corporations - One Resonance Sensors, LLC, Entity Detail

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official registry records One Resonance Sensors, LLC as inactive following administrative dissolution on September xx.xx 2019. This counterevidence constrains continuity assumptions but does not prove zero surviving product support. ([search.sunbiz.org](https://search.sunbiz.org/Inquiry/CorporationSearch/SearchResultDetail?aggregateId=flal-l11000122986-c57f60b3-690d-4c87-836a-9aeb045075e8&directionType=CurrentList&inquirytype=EntityName&listNameOrder=ONERESONANCESENSORS+L110001229860&searchNameOrder=ONERESONANCESENSORS+L110001229860&searchTerm=ONE+RED+AMPERSAND+LLC))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official registry records One Resonance Sensors, LLC as inactive following administrative dissolution on September xx.xx 2019. This counterevidence constrains continuity assumptions but does not prove zero surviving product support. ([search.sunbiz.org](https://search.sunbiz.org/Inquiry/CorporationSearch/SearchResultDetail?aggregateId=flal-l11000122986-c57f60b3-690d-4c87-836a-9aeb045075e8&directionType=CurrentList&inquirytype=EntityName&listNameOrder=ONERESONANCESENSORS+L110001229860&searchNameOrder=ONERESONANCESENSORS+L110001229860&searchTerm=ONE+RED+AMPERSAND+LLC))

37. Explosive Detection - Teledyne FLIR Defense

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists offered Fido X-series products and service support, supporting commercial offering continuity only, not airport-specific eligibility or sales weights. ([flir.com](https://www.flir.com/threat-detection/explosives/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists offered Fido X-series products and service support, supporting commercial offering continuity only, not airport-specific eligibility or sales weights. ([flir.com](https://www.flir.com/threat-detection/explosives/))

38. Scintrex Trace E3500 Explosive Trace Detection Unit - SecurityPro USA

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distributor offers E3500 chemiluminescence equipment and identifies customs/border applications. Supports a commercial category lead, not measured airport purchasing or the assumed price. ([securityprousa.com](https://www.securityprousa.com/collections/explosive-detection/products/scintrex-trace-e3500-explosive-trace-detection-unit))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distributor offers E3500 chemiluminescence equipment and identifies customs/border applications. Supports a commercial category lead, not measured airport purchasing or the assumed price. ([securityprousa.com](https://www.securityprousa.com/collections/explosive-detection/products/scintrex-trace-e3500-explosive-trace-detection-unit))

39. Portable Explosive Detector - Trace Detector EVD-3000+

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distributor offers EVD-xx.xx+ thermo-redox equipment. Supports offered-product classification, not airport authorization, purchasing volume or the modeled realization. ([securityprousa.com](https://www.securityprousa.com/products/scintrex-trace-evd-xx.xx-portable-trace-detection-unit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distributor offers EVD-xx.xx+ thermo-redox equipment. Supports offered-product classification, not airport authorization, purchasing volume or the modeled realization. ([securityprousa.com](https://www.securityprousa.com/products/scintrex-trace-evd-xx.xx-portable-trace-detection-unit))

40. CATSA's Purchase Order Terms and Conditions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contract terms constrain maintenance, parts and consumables escalation, qualifying unrestricted aftermarket pricing assumptions in the projection lifecycle model. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contract terms constrain maintenance, parts and consumables escalation, qualifying unrestricted aftermarket pricing assumptions in the projection lifecycle model. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contractual price limits constrain the pricing premise, but do not verify CT-specific global support receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contractual price limits constrain the pricing premise, but do not verify CT-specific global support receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintenance and consumable escalation limits qualify the trace-platform pricing assumption rather than establishing the modeled IMS share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintenance and consumable escalation limits qualify the trace-platform pricing assumption rather than establishing the modeled IMS share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The pre-existing-software clause grants broad license rights without transferring ownership; proprietary ownership alone therefore cannot establish the Closed revenue numerator. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The pre-existing-software clause grants broad license rights without transferring ownership; proprietary ownership alone therefore cannot establish the Closed revenue numerator. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Software modification rights are not themselves proof of standards-based interfaces or independent component substitution; supports conservative classification. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Software modification rights are not themselves proof of standards-based interfaces or independent component substitution; supports conservative classification. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))

41. Liquids Scanner for Airport Security - UC Davis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2011 account establishes a development contract and licensing relationship. Its development allocation is excluded from 2025 receipts and does not establish a surviving commercial cohort. ([ucdavis.edu](https://www.ucdavis.edu/news/liquids-scanner-airport-security))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2011 account establishes a development contract and licensing relationship. Its development allocation is excluded from 2025 receipts and does not establish a surviving commercial cohort. ([ucdavis.edu](https://www.ucdavis.edu/news/liquids-scanner-airport-security))
42. Open Architecture for Airport Security Systems, Second Edition
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes proprietary integration from interoperable connections, supporting the category boundary rather than an observed revenue share. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes proprietary integration from interoperable connections, supporting the category boundary rather than an observed revenue share. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Integration does not guarantee interoperability; this constrains attribution of vendor-mediated configurations. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Integration does not guarantee interoperability; this constrains attribution of vendor-mediated configurations. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Allows identified partial compliance and discusses accountable integration responsibilities; supports scoped open attribution, not whole-purchase reclassification. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Allows identified partial compliance and discusses accountable integration responsibilities; supports scoped open attribution, not whole-purchase reclassification. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))

43. CATSA 2025 Annual Report - Overview of Activities

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines across xx.xx airports serving more than xx.xx% of passengers in 2024/xx.xx; provides an independent integration-activity check, not a direct value allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines across xx.xx airports serving more than xx.xx% of passengers in 2024/xx.xx; provides an independent integration-activity check, not a direct value allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported modernized passenger coverage constrains an assumption of universally standalone activity, while leaving commercial architecture and revenue attribution unresolved. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported modernized passenger coverage constrains an assumption of universally standalone activity, while leaving commercial architecture and revenue attribution unresolved. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The annual report identifies enhanced non-passenger requirements and implementation planned from spring 2025. This supports a conditional modernization premise, not the modeled global uptake factor.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2024/xx.xx; provides a Canadian adoption comparator, not a global local-review revenue weight. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2024/xx.xx; provides a Canadian adoption comparator, not a global local-review revenue weight. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies remote screening within CATSA Plus and quantifies deployment; constrains the commercial-adoption premise but does not establish each review room's location. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies remote screening within CATSA Plus and quantifies deployment; constrains the commercial-adoption premise but does not establish each review room's location. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Deployment coverage constrains the addressable network-enabled pool; it does not disclose hybrid contracts or justify the modeled hybrid percentage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Deployment coverage constrains the addressable network-enabled pool; it does not disclose hybrid contracts or justify the modeled hybrid percentage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))

44. CATSA - Beyond the Checkpoint, December 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx operational CT machines at eight airports and a modular-line average of xx.xx passengers per hour versus xx.xx for traditional multi-split lines; supports the bounded throughput-to-unit bridge and phased-deployment premise. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/about-us/beyond-checkpoint-2025-december))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx operational CT machines at eight airports and a modular-line average of xx.xx passengers per hour versus xx.xx for traditional multi-split lines; supports the bounded throughput-to-unit bridge and phased-deployment premise. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/about-us/beyond-checkpoint-2025-december))

45. Smiths Detection Delivers Fully Automated International Remote Baggage Screening System Between South Korea and the United States

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2026 disclosure identifies xx.xx software licenses and DICOS V3.xx.xx exchange, and dates operational service to August 2025. Supports commercial standards-based activity and forecast feasibility, not an observed global share or a confirmed 2025 license inventory. ([smithsdetection.com](https://www.smithsdetection.com/press-releases/smiths-detection-delivers-fully-automated-international-remote-baggage-screening-system-between-south-korea-and-the-united-states/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2026 disclosure identifies xx.xx software licenses and DICOS V3.xx.xx exchange, and dates operational service to August 2025. Supports commercial standards-based activity and forecast feasibility, not an observed global share or a confirmed 2025 license inventory. ([smithsdetection.com](https://www.smithsdetection.com/press-releases/smiths-detection-delivers-fully-automated-international-remote-baggage-screening-system-between-south-korea-and-the-united-states/))

46. SeeTrue Marks Milestone with Over 100 X-ray Checkpoint Installations of Advanced AI-Based Threat Detection Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 announcement reports the 100th operational screening lane across airports and other sectors. Provides a limited commercial-adoption scale check; it is neither airport-only nor a census of standards-based entitlements. ([seetrue.ai](https://www.seetrue.ai/seetrue-marks-milestone-with-over-xx.xx-x-ray-checkpoint-installations-of-advanced-ai-based-threat-detection-software/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 announcement reports the 100th operational screening lane across airports and other sectors. Provides a limited commercial-adoption scale check; it is neither airport-only nor a census of standards-based entitlements. ([seetrue.ai](https://www.seetrue.ai/seetrue-marks-milestone-with-over-xx.xx-x-ray-checkpoint-installations-of-advanced-ai-based-threat-detection-software/))

47. Scarabee's Checkpoint Property Screening System to be deployed at DEN

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-lane Denver award combining Scarabee lanes with Smiths scanners. Corroborates a commercial mixed-supplier integration route; an award is not realized annual revenue or proof of unrestricted interoperability. ([daifukuatec.com](https://daifukuatec.com/news/scarabees-checkpoint-property-screening-system-to-be-deployed-at-den))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-lane Denver award combining Scarabee lanes with Smiths scanners. Corroborates a commercial mixed-supplier integration route; an award is not realized annual revenue or proof of unrestricted interoperability. ([daifukuatec.com](https://daifukuatec.com/news/scarabees-checkpoint-property-screening-system-to-be-deployed-at-den))

48. CATSA Annual Report 2024 - Management's Discussion and Analysis

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx pre-board capital appropriations used of C$xx.xx provide the second period in the non-passenger-to-cabin purchasing comparison.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx non-passenger capital appropriations used of C$xx.xx enter the two-period activity proxy; they do not identify the property-only fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx non-passenger capital appropriations used of C$xx.xx enter the two-period activity proxy; they do not identify the property-only fraction.

49. Smiths Detection confirm order of 91 advanced scanners for new terminals at Moscow Sheremetyevo International Airport
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The dated airport deployment includes xx.xx entrance baggage systems and xx.xx cabin-checkpoint systems. Their ratio supplies a historical relative-density proxy, subsequently discounted for assumed global coverage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated airport deployment includes xx.xx entrance baggage systems and xx.xx cabin-checkpoint systems. Their ratio supplies a historical relative-density proxy, subsequently discounted for assumed global coverage.
50. Cochin International Airport Selects Smiths Detection's CTX 9800 for Next-Generation Hold Baggage Screening
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2017 deployment identifies xx.xx customs baggage systems alongside four hold-baggage systems. This supports the customs-intensive historical configuration proxy, not current global fleet or revenue observations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2017 deployment identifies xx.xx customs baggage systems alongside four hold-baggage systems. This supports the customs-intensive historical configuration proxy, not current global fleet or revenue observations.
51. CATSA Functions, Programs and Activities
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Hold-baggage activities include equipment purchase, baggage-handling integration and equipment maintenance, supporting the checked-baggage capital and lifecycle boundary.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Hold-baggage activities include equipment purchase, baggage-handling integration and equipment maintenance, supporting the checked-baggage capital and lifecycle boundary.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-passenger screening covers airport workers and their belongings; only attributable property-screening offerings enter this allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-passenger screening covers airport workers and their belongings; only attributable property-screening offerings enter this allocation.
52. Fraport TAV Antalya Airport - About the security control itself
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The airport operator distinguishes terminal-entry security from a subsequent checkpoint. This supports a separate entrance-screening mission while providing no global prevalence or spending share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport operator distinguishes terminal-entry security from a subsequent checkpoint. This supports a separate entrance-screening mission while providing no global prevalence or spending share.
53. EMSD VoiceLink, Issue 79, June 2026 - EMSD Provides Comprehensive Support for Terminal 2 Commissioning
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June 2026 account identifies baggage-and-parcel equipment procurement and installation for the customs authority at Terminal xx.xx. It supports a separate commissioning mission but does not isolate baggage expenditure.
54. GAO-26-107811 - Guam: Considerations for Evaluating Alternative Customs Models and Potential Economic Effects
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The audit identifies two historical airport-customs baggage systems inactive for years and delayed replacement procurement. This challenges conversion of installed stock or acknowledged need directly into annual equipment and support revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The audit identifies two historical airport-customs baggage systems inactive for years and delayed replacement procurement. This challenges conversion of installed stock or acknowledged need directly into annual equipment and support revenue.

55. Bennet, Moran, Van Hollen, Boozman Introduce Bill to Bolster Aviation Safety
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 official release identifies xx.xx U.S. screening lanes, used as agency purchasing-exposure calibration rather than observed annual equipment sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 official release identifies xx.xx U.S. screening lanes, used as agency purchasing-exposure calibration rather than observed annual equipment sales.
56. Bank of Canada - Annual exchange rates
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual exchange-rate observations support the inherited fiscal-period approximation of xx.xx Canadian dollars per U.S. dollar; this is not a transaction-weighted exchange rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual exchange-rate observations support the inherited fiscal-period approximation of xx.xx Canadian dollars per U.S. dollar; this is not a transaction-weighted exchange rate.
57. Japan’s leading airline revolutionizes check in experience with new Smiths Detection technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The August 2023 announcement identifies JAL as customer for five screening ecosystems and reports xx.xx deployed iLane units across Japan. These are historical commercial-stock anchors, not an airline-only fleet or 2025 sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August 2023 announcement identifies JAL as customer for five screening ecosystems and reports xx.xx deployed iLane units across Japan. These are historical commercial-stock anchors, not an airline-only fleet or 2025 sales observation.
58. Narita International Airport anticipates threats with integrated solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Narita airport as a screening-technology customer and describes xx.xx lane-related installations, qualifying any assumption that the supplier's Japanese installed stock was purchased entirely by airlines.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Narita airport as a screening-technology customer and describes xx.xx lane-related installations, qualifying any assumption that the supplier's Japanese installed stock was purchased entirely by airlines.
59. MLIT - 保安検査の実施主体が変わります！ - June 27, 2025
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement targets transfer of security-screening responsibility from airlines to airport managers, with leading cases targeted in FY2026. Supports a conditional reduction in airline purchasing, not an observed contract-transfer percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transfer direction supports modeled airport-manager purchasing gains. Continued shared financing does not imply equal purchasing shares.
60. ICTS International N.V. - Annual Report for the year ended December 31, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Discloses USD xx.xx company-wide property/equipment purchases and USD xx.xx airport-security revenue in 2025. Supports an asset-light purchasing-intensity proxy; the in-scope fraction and global expansion remain assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Discloses USD xx.xx company-wide property/equipment purchases and USD xx.xx airport-security revenue in 2025. Supports an asset-light purchasing-intensity proxy; the in-scope fraction and global expansion remain assumptions.

61. EU Publications Office - Purchase and maintenance of non-intrusive X-ray inspection equipment for baggage and air cargo volume control
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Autoridade Tributária e Aduaneira as buyer and reports a 2026 award of EUR xx.xx across four lots for baggage/air-cargo inspection equipment and maintenance. Provides a buyer-role and commercial-scale comparator, not 2025 baggage-only annual expenditure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Autoridade Tributária e Aduaneira as buyer and reports a 2026 award of EUR xx.xx across four lots for baggage/air-cargo inspection equipment and maintenance. Provides a buyer-role and commercial-scale comparator, not 2025 baggage-only annual expenditure.
62. ACI World - Busiest Airports in the World
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx international airport passenger movements in 2025. Half provides an approximate arrival-movement scale check before transfer exclusions, not a customs examination or equipment-purchasing weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx international airport passenger movements in 2025. Half provides an approximate arrival-movement scale check before transfer exclusions, not a customs examination or equipment-purchasing weight.
63. Heathrow announces £2.3bn accelerated investment plan to upgrade the UK's international gateway to growth
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports GBP xx.xx invested in security-lane upgrades during 2024, supporting material airport-directed purchasing. Broader infrastructure obligations and historical timing prevent treating the amount as 2025 in-scope market receipts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports GBP xx.xx invested in security-lane upgrades during 2024, supporting material airport-directed purchasing. Broader infrastructure obligations and historical timing prevent treating the amount as 2025 in-scope market receipts.
64. Fraport Assumes Responsibility for Aviation Security Checks at Frankfurt Airport
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents Fraport's checkpoint-management responsibility from January 2023, six initial CT-equipped lanes and three contracted screening providers. Supports distinguishing an airport commissioning role from regulator oversight and contracted screening labor.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents Fraport's checkpoint-management responsibility from January 2023, six initial CT-equipped lanes and three contracted screening providers. Supports distinguishing an airport commissioning role from regulator oversight and contracted screening labor.
65. Advanced Cabin Baggage Screening - Computed Tomography Implementation Guide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes standalone CT, including equipment-local conveyance, from integrated screening-lane configurations; supports attribution boundaries, not a revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes standalone CT, including equipment-local conveyance, from integrated screening-lane configurations; supports attribution boundaries, not a revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies automated tray-return and automated screening-lane integration as commercially distinct configurations; supports the lane-integrated category definition.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies automated tray-return and automated screening-lane integration as commercially distinct configurations; supports the lane-integrated category definition.

66. GAO-12-266 - Checked Baggage Screening: TSA Has Deployed Optimal Systems at the Majority of TSA-Regulated Airports, but Could Strengthen Cost Estimates

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December 2011 table reports xx.xx standalone EDS alongside xx.xx in-line EDS; this historical machine-count comparator constrains, but does not determine, the current global allocation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December 2011 table reports xx.xx standalone EDS alongside xx.xx in-line EDS; this historical machine-count comparator constrains, but does not determine, the current global allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx in-line EDS across xx.xx in-line systems and distinguishes equipment counts from integrated-system counts; supports the historical configuration bridge.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx in-line EDS across xx.xx in-line systems and distinguishes equipment counts from integrated-system counts; supports the historical configuration bridge.

67. Smiths Detection selected as security technology provider to International Airport Heraklion Crete

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 announcement identifies eight cabin CT scanners and eight automated tray-return systems for Heraklion, with installation planned across late 2025 and mid-2026; supports ongoing integrated procurement, not realized annual revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 announcement identifies eight cabin CT scanners and eight automated tray-return systems for Heraklion, with installation planned across late 2025 and mid-2026; supports ongoing integrated procurement, not realized annual revenue.

68. Centralised Image Processing: The Impact on Security Checkpoints

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes checkpoint-local image review from separate-room arrangements; supports retaining networked local activity rather than automatically assigning it to remote review. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes checkpoint-local image review from separate-room arrangements; supports retaining networked local activity rather than automatically assigning it to remote review. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes separate screening rooms and established remote hold-baggage review at larger airports; supports the cohort-maturity premise, not a numerical global share. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes separate screening rooms and established remote hold-baggage review at larger airports; supports the cohort-maturity premise, not a numerical global share. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes combined checkpoint and remote-room arrangements, establishing a mixed-location commercial configuration without measuring its prevalence or price. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes combined checkpoint and remote-room arrangements, establishing a mixed-location commercial configuration without measuring its prevalence or price. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))

69. Annual Report 2024 - CATSA's Operating Environment

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2023/xx.xx providing the historical comparison rather than a global location allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2023/xx.xx providing the historical comparison rather than a global location allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Together with the subsequent annual report, supports a seven-line deployment increase without a corresponding increase in reported passenger coverage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Together with the subsequent annual report, supports a seven-line deployment increase without a corresponding increase in reported passenger coverage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provides a historical network-enabled deployment anchor, while leaving the physical mixed-location contract share unmeasured. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provides a historical network-enabled deployment anchor, while leaving the physical mixed-location contract share unmeasured. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))

70. L22020-T-TG Upgrades to the Passenger Search Area, body scanners, EDS C3 cabin baggage screening - Contract Award Notice

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2023 Luton award expressly includes construction of a remote screening room at the airport terminal, supporting separate-room commercial procurement. Its broader scope is not treated as baggage-only annual revenue. ([find-tender.service.gov.uk](https://www.find-tender.service.gov.uk/Notice/xx.xx-2023))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2023 Luton award expressly includes construction of a remote screening room at the airport terminal, supporting separate-room commercial procurement. Its broader scope is not treated as baggage-only annual revenue. ([find-tender.service.gov.uk](https://www.find-tender.service.gov.uk/Notice/xx.xx-2023))

71. Greater Orlando Aviation Authority - Minutes of the February 19, 2025 Meeting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Authorizes up to USD xx.xx for baggage-system and Remote Screening Facility network/server separation. Half this ceiling is an explicitly assumed deployment-cost comparator, not observed off-site receipts. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Authorizes up to USD xx.xx for baggage-system and Remote Screening Facility network/server separation. Half this ceiling is an explicitly assumed deployment-cost comparator, not observed off-site receipts. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provides the commercial networking-cost anchor for the modeled transfer from existing on-site pools, avoiding additional market value or duplicate host-equipment attribution. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provides the commercial networking-cost anchor for the modeled transfer from existing on-site pools, avoiding additional market value or duplicate host-equipment attribution. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))

72. American and U.S. Customs and Border Protection pilot innovative baggage screening initiative

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: American's April xx.xx 2025 announcement identifies a daily Sydney-Los Angeles IRBS pilot and unchanged screening requirements. It anchors one sampled connection and an assumed partial-year licensing period, not disclosed revenue. ([s202.q4cdn.com](https://s202.q4cdn.com/xx.xx/files/doc_news/American-and-US-Customs-and-Border-Protection-pilot-innovative-baggage-screening-initiative-OPS-OTH-xx.xx-2025.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: American's April xx.xx 2025 announcement identifies a daily Sydney-Los Angeles IRBS pilot and unchanged screening requirements. It anchors one sampled connection and an assumed partial-year licensing period, not disclosed revenue. ([s202.q4cdn.com](https://s202.q4cdn.com/xx.xx/files/doc_news/American-and-US-Customs-and-Border-Protection-pilot-innovative-baggage-screening-initiative-OPS-OTH-xx.xx-2025.pdf))

73. 델타항공-대한항공, 인천발 애틀랜타 노선 대상 위탁수하물 원격 검색 방식 신규 도입

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2025 announcement identifies the Incheon-Atlanta IRBS arrangement, anchoring a second sampled connection and a partial-year commercial-activity assumption without establishing contract value. ([news.delta.com](https://news.delta.com/delta-and-koreanair-launch-remote-baggage-screening-on-icn-atl-KR))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2025 announcement identifies the Incheon-Atlanta IRBS arrangement, anchoring a second sampled connection and a partial-year commercial-activity assumption without establishing contract value. ([news.delta.com](https://news.delta.com/delta-and-koreanair-launch-remote-baggage-screening-on-icn-atl-KR))

74. United Launches CBP's International Remote Baggage Screening on Select International Flights

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: United's September xx.xx 2025 announcement identifies daily Sydney-San Francisco service and named technology partners, anchoring a third sampled connection. It reports no attributable software or integration receipts. ([united.mediaroom.com](https://united.mediaroom.com/2025-xx.xx-xx.xx-United-Launches-CBPs-International-Remote-Baggage-Screening-on-Select-International-Flights))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: United's September xx.xx 2025 announcement identifies daily Sydney-San Francisco service and named technology partners, anchoring a third sampled connection. It reports no attributable software or integration receipts. ([united.mediaroom.com](https://united.mediaroom.com/2025-xx.xx-xx.xx-United-Launches-CBPs-International-Remote-Baggage-Screening-on-Select-International-Flights))

75. Airline Passengers Face Fewer Bag Checkpoints, Thanks to PNNL, Partners

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2026 laboratory release describes implementation on additional routes, including Seoul arrivals at Minneapolis-St. Paul and Detroit. This supports expansion direction, not the forecast connection count, realization or global share. ([pnnl.gov](https://www.pnnl.gov/news-media/airline-passengers-face-fewer-bag-checkpoints-thanks-pnnl-partners))

76. TSA awards $781.2 million to procure additional CT X-Ray scanners for airport checkpoints

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2022 announcement identifies up to USD xx.xx for procurement and maintenance of up to xx.xx systems from an OEM. This is a historical procurement-scale anchor, not annual 2025 direct-channel revenue. ([content.govdelivery.com](https://content.govdelivery.com/accounts/USDHSTSA/bulletins/30f6e5f))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The award includes full-size automated lanes, cautioning against assigning all automation value to non-OEM integration primes; exact contractual-role attribution is not disclosed. ([content.govdelivery.com](https://content.govdelivery.com/accounts/USDHSTSA/bulletins/30f6e5f))

77. OSI Systems, Inc. - Form 10-K for the fiscal year ended June 30, 2026

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing describes regional direct security-product sales and direct maintenance relationships. Its broader security scope supports route coexistence, not baggage-only sales weights. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing describes regional direct security-product sales and direct maintenance relationships. Its broader security scope supports route coexistence, not baggage-only sales weights. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company identifies a global independent-distributor network, supporting a continuing indirect route without quantifying its value share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company identifies a global independent-distributor network, supporting a continuing indirect route without quantifying its value share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Authorized service providers are identified separately from distributors, supporting distinct technical-service attribution and access limitations. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Authorized service providers are identified separately from distributors, supporting distinct technical-service attribution and access limitations. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

78. SriLankan Airlines - Invitation for Supply, Installation, Commissioning and Maintenance of Dual View Heavy and Medium X-Ray Machines, Reference 202130407

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 purchaser invitation permits an OEM or authorized OEM agent and requires authorization for the latter. It establishes equipment-channel eligibility, not an award or software-resale right. ([srilankan.com](https://www.srilankan.com/download/tender/TN-Invitationforsubmiss-xx.xx.pdf))

79. JFK Millennium Partners Selects K2 to Deliver State-of-the-Art Security Screening Checkpoint at new JFK Terminal 6

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment assigns procurement and deployment coordination across multiple technology suppliers at a future ten-gate terminal. It supports integration-prime participation and a forecast mechanism, not a disclosed share or completed 2025 revenue. ([portauthoritybuilds.com](https://www.portauthoritybuilds.com/redevelopment/us/en/jfk/planned-projects/terminal-xx.xx/news/jfk-millennium-partners-selects-k2-to-deliver-state-of-the-art-s.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment assigns procurement and deployment coordination across multiple technology suppliers at a future ten-gate terminal. It supports integration-prime participation and a forecast mechanism, not a disclosed share or completed 2025 revenue. ([portauthoritybuilds.com](https://www.portauthoritybuilds.com/redevelopment/us/en/jfk/planned-projects/terminal-xx.xx/news/jfk-millennium-partners-selects-k2-to-deliver-state-of-the-art-s.html))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment covers baggage CT and automated bin-return equipment for a future xx.xx-gate terminal, with phased opening planned for 2026-2028. It establishes new-installation activity, not attributable 2025 receipts; wider airport investment and person-only technologies are excluded.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment covers baggage CT and automated bin-return equipment for a future xx.xx-gate terminal, with phased opening planned for 2026-2028. It establishes new-installation activity, not attributable 2025 receipts; wider airport investment and person-only technologies are excluded.

80. CATSA Corporate Plan 2024-25 to 2028-29 Summary - Key Corporate Risks

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The authority reports transferring maintenance of most screening equipment to KPrime in 2023/xx.xx. This establishes a separately contracted maintenance relationship, without a baggage-only payment split. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/key-corporate-risks))

81. Leidos wins TSA logistics contract

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 announcement describes an eight-year, USD xx.xx maximum sustainment contract covering xx.xx equipment units at over xx.xx locations with manufacturer coordination. Annualization and baggage/third-party attribution in the model are explicit assumptions. ([leidos.com](https://www.leidos.com/insights/leidos-wins-tsa-logistics-contract))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 announcement describes an eight-year, USD xx.xx maximum sustainment contract covering xx.xx equipment units at over xx.xx locations with manufacturer coordination. Annualization and baggage/third-party attribution in the model are explicit assumptions. ([leidos.com](https://www.leidos.com/insights/leidos-wins-tsa-logistics-contract))

82. Checkpoint Transformation: Malta International Airport Streamlines Passenger Flow with Smiths Detection
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Seven conventional automated lanes were replaced by six CT-equipped lanes, with final commissioning in January 2025. This is a counterexample to equating capacity improvement with net additional equipment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seven conventional automated lanes were replaced by six CT-equipped lanes, with final commissioning in January 2025. This is a counterexample to equating capacity improvement with net additional equipment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The complete checkpoint replacement illustrates why an offering described commercially as an upgrade can belong to System Replacement. The seven-year service commitment is not counted wholly as installation-year revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The complete checkpoint replacement illustrates why an offering described commercially as an upgrade can belong to System Replacement. The seven-year service commitment is not counted wholly as installation-year revenue.
83. iCMORE - Smiths Detection
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current commercial offering describes a software-upgrade path while qualifying additional hardware requirements by machine type and age. This constrains forecast eligibility assumptions; product availability does not measure adoption or revenue.

18.10. Canada

Table 564. Canada Airport Baggage Screening Systems Market Size, 2017-2040 (USD Million)

Country	2017	2024	2025	2026	2027	2032	2040	CAGR (%)

Sources & Evidence

1. House Report 119-173 - Department of Homeland Security Appropriations Bill, 2026

   · Evidence informing the 2030 market-value input; displayed series and growth include calculations: The aging installed fleet supports replacement demand, but does not establish the forecast's realization dates or annual purchasing rate. ([govinfo.gov](https://www.govinfo.gov/content/pkg/CRPT-119hrpt173/html/CRPT-119hrpt173.htm))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report identifies xx.xx end-of-life systems within a xx.xx-system checked-baggage fleet. This constrains renewal exposure, not realized annual purchasing or a verified global replacement deadline.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports a TSA checked-baggage fleet of xx.xx EDS, including xx.xx at end-of-life, and assigns purchase, installation and maintenance responsibilities to TSA. Supports agency fleet calibration and renewal pressure, not the assumed forecast uplift.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports a TSA checked-baggage fleet of xx.xx EDS, including xx.xx at end-of-life, and assigns purchase, installation and maintenance responsibilities to TSA. Supports agency fleet calibration and renewal pressure, not the assumed forecast uplift.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report identifies xx.xx end-of-life EDS within a xx.xx-unit U.S. checked-baggage fleet, citing the FY2024 capital plan. The derived xx.xx% backlog constrains the aging-fleet premise, but is neither an annual turnover rate nor a funded global replacement forecast.

2. GAO-24-106573 - DHS Annual Assessment: Most Programs Are Meeting Current Goals, but Some Continue to Face Cost and Schedule Challenges

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports plans for xx.xx checkpoint systems and xx.xx increment-one deployments by September 2023; supports an incomplete replacement cycle rather than universal CT adoption. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx AT/CT, xx.xx base, xx.xx mid-size and xx.xx full-size deployments by September 2023; supplies configuration proxies and an incomplete-renewal constraint, not contractual architecture shares. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx AT/CT, xx.xx base, xx.xx mid-size and xx.xx full-size deployments by September 2023; supplies configuration proxies and an incomplete-renewal constraint, not contractual architecture shares. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The deployed configuration mix underlies the xx.xx/xx.xx newer-cohort and xx.xx/xx.xx older-cohort proxy calculations; global and contractual attribution remain modeled. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The deployed configuration mix underlies the xx.xx/xx.xx newer-cohort and xx.xx/xx.xx older-cohort proxy calculations; global and contractual attribution remain modeled. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The assessment records xx.xx checkpoint systems deployed by September 2023 against an eventual xx.xx-system program. This supports an incomplete replacement cycle and qualifies any assumption of universal CT adoption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The assessment records xx.xx checkpoint systems deployed by September 2023 against an eventual xx.xx-system program. This supports an incomplete replacement cycle and qualifies any assumption of universal CT adoption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports a September 2023 U.S. CT cohort containing xx.xx AT/CT and xx.xx base systems, providing counterevidence to assigning all CT activity automatically to integrated lanes.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports a September 2023 U.S. CT cohort containing xx.xx AT/CT and xx.xx base systems, providing counterevidence to assigning all CT activity automatically to integrated lanes.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx mid-size and xx.xx full-size systems within xx.xx deployed CT systems; supports differentiated configuration assumptions rather than treating technology adoption as an integration-share observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx mid-size and xx.xx full-size systems within xx.xx deployed CT systems; supports differentiated configuration assumptions rather than treating technology adoption as an integration-share observation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2024 assessment records xx.xx checkpoint deployments as of September 2023 against xx.xx planned systems replacing aging equipment. It supports staged renewal, but does not establish current deployment completion or the modeled 2032 share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2024 assessment records xx.xx checkpoint deployments as of September 2023 against xx.xx planned systems replacing aging equipment. It supports staged renewal, but does not establish current deployment completion or the modeled 2032 share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The program separately anticipates enhancements to fielded systems, supporting a retained-equipment commercial pathway without supplying an attributable upgrade-revenue split.

3. Global Airport Passenger Traffic Reaches Record 9.8 Billion in 2025, Airports Council International World reports

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports cooling passenger-growth momentum in 2026, supporting moderation of traffic-driven equipment expansion despite continuing replacement demand.
   ([aci.aero](https://aci.aero/2026/xx.xx/xx.xx/global-airport-passenger-traffic-reaches-record-xx.xx-xx.xx-billion-in-2025-airports-council-international-world-reports/))

4. Smiths Group PLC - Full Year Results for the 12 Months Ended 31 July 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Discloses aviation original-equipment revenue of xx.xx and aftermarket revenue of xx.xx for FY2024; supplies historical cycle proxies. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing the 2027 market-value input; displayed series and growth include calculations: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; supports replacement activity, not an observed global forecast. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2025 aviation original-equipment revenue of GBP xx.xx provides an independent equipment-activity scale check, not a global category share. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025 aviation original-equipment revenue of GBP xx.xx provides an independent equipment-activity scale check, not a global category share. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx cumulative CTiX sales corroborate commercial imaging activity and replacement demand; they do not measure annual global sales. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx cumulative CTiX sales corroborate commercial imaging activity and replacement demand; they do not measure annual global sales. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: GBP xx.xx aviation aftermarket revenue supports lifecycle materiality while qualifying transfer of one supplier's mix to the global service allocation. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GBP xx.xx aviation aftermarket revenue supports lifecycle materiality while qualifying transfer of one supplier's mix to the global service allocation. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; cumulative sales constrain commercial scale but are not annual global shipments. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; cumulative sales constrain commercial scale but are not annual global shipments. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports four operating XDi units as of July 2025 and pending regulatory certification, constraining the small XRD cohort and qualifying aggressive commercialization assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports four operating XDi units as of July 2025 and pending regulatory certification, constraining the small XRD cohort and qualifying aggressive commercialization assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported checkpoint modernization provides a commercial reason to model substitution from discrete legacy offerings; the filing does not disclose standalone configuration revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025

5. Smiths Group PLC - Annual Report & Accounts FY2023
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: Reports FY2022 aviation original-equipment revenue of xx.xx, used as a dimensionless historical capital-cycle proxy. ([www-live.smiths.com](https://www-live.smiths.com/media/phjp1j44/smiths-annual-report-2023.pdf))
   - Evidence informing the 2023 market-value input; displayed series and growth include calculations: Reports FY2023 aviation original-equipment revenue of xx.xx and aftermarket revenue of xx.xx; supports the modeled recovery direction. ([www-live.smiths.com](https://www-live.smiths.com/media/phjp1j44/smiths-annual-report-2023.pdf))
6. Smiths Group PLC - Annual Report FY2022
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: Reports FY2021 aviation revenue of xx.xx, providing a historical purchasing-cycle reference rather than a global observation. ([www-live.smiths.com](https://www-live.smiths.com/media/xjvdpblr/smiths-annual-report-2022-report.pdf))
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: Reports FY2022 aviation revenue of xx.xx and continued weakness in aviation original equipment; supports a delayed capital-spending trough. ([www-live.smiths.com](https://www-live.smiths.com/media/xjvdpblr/smiths-annual-report-2022-report.pdf))
7. Smiths Group PLC - Annual Results for the Year Ended 31 July 2019
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: Reports FY2018 aviation revenue of xx.xx, supplying the historical comparison underlying the backcast. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: Reports FY2019 aviation revenue of xx.xx and customer delivery deferrals, qualifying a traffic-only growth model. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Identifies deliveries deferred into FY2020; supports the possibility of backlog-supported spending despite a contemporaneous traffic shock, not the exact modeled growth rate. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
8. ACI World - The High-Wire Balancing Act: Global Air Transport Demand in 2018 and 2019
   - Evidence informing the 2017 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers and xx.xx% growth in 2018; the growth observation informs the 2017 backcast bridge. ([blog.aci.aero](https://blog.aci.aero/airport-economics/the-high-wire-balancing-act-global-air-transport-demand-in-2018-and-2019/))
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: Provides the observed 2018 traffic-growth reference, not an equipment-market growth observation. ([blog.aci.aero](https://blog.aci.aero/airport-economics/the-high-wire-balancing-act-global-air-transport-demand-in-2018-and-2019/))
9. ICAO A42-WP/556 - State of the Industry and Outlook for Airport Traffic, Presented by ACI
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Records the collapse from xx.xx airport passengers in 2019 to xx.xx in 2020; constrains the shock and funding-risk interpretation. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2021, supporting a prolonged funding and activity shock. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2023 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2023; traffic recovery is distinguished from equipment purchasing. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2024, providing a demand recovery cross-check. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))

10. Port of Seattle - Baggage Handling System Optimization

- Evidence informing the 2029 market-value input; displayed series and growth include calculations: Seattle plans to consolidate six baggage-screening systems, increase supported passenger capacity, and reduce screening-machine demand. Supports integration spending without one-for-one detector growth. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The consolidation example constrains equipment-volume assumptions; its whole baggage-handling project value is excluded from market sizing. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing the 2040 market-value input; displayed series and growth include calculations: Provides a commercial counterexample to extrapolating passenger growth directly into machine counts throughout the long-range forecast. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Consolidation of six systems with reduced machine demand qualifies a traffic-to-detector-volume forecast. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The consolidation project supports integration-driven conveyor demand, but its whole-project value is excluded. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Brownfield consolidation supports the integration-demand premise, not the forecast's exact service growth factor. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport replaces six separate screening systems with centralized screening and expects reduced screening-machine demand while expanding capacity. This supplies a counterforce to volume-only checked-baggage forecasting.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Seattle is consolidating six screening systems, expects reduced screening-machine demand and schedules final-phase completion in 2029. Supports integration demand while constraining detector-volume growth; the whole-project budget is excluded.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seattle is consolidating six screening systems, expects reduced screening-machine demand and schedules final-phase completion in 2029. Supports integration demand while constraining detector-volume growth; the whole-project budget is excluded.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seattle's project combines increased screening capacity with consolidation from six screening systems and reduced screening-machine demand. This constrains the forecast assumption that capacity growth requires proportional equipment additions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement and capacity objectives coexist within the project. Its wider baggage-handling budget is not treated as screening-equipment revenue or assigned additively to multiple purposes.

11. Smiths Group PLC - Half Year Results for the Six Months Ended 31 January 2026

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports xx.xx% organic growth for Smiths Detection in HY2026, with aviation checkpoint upgrades contributing. Supports a positive 2026 nowcast, not a directly observed global growth rate. ([www-live.smiths.com](https://www-live.smiths.com/media/villk35h/smiths-hy26-results-press-release.pdf))

12. CATSA - 2025 Annual Report, Management’s Discussion and Analysis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: C$xx.xx EDS capital expenditure constrains the Canadian expenditure calibration; baggage attribution is modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: C$xx.xx EDS capital expenditure constrains the Canadian expenditure calibration; baggage attribution is modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: EDS capital expenditure of C$xx.xx includes equipment and installation/integration and supplies the training-calibration denominator, subject to baggage attribution. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EDS capital expenditure of C$xx.xx includes equipment and installation/integration and supplies the training-calibration denominator, subject to baggage attribution. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The capital definition includes associated installation and integration, supporting the distinction between deployment services and equipment value. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The capital definition includes associated installation and integration, supporting the distinction between deployment services and equipment value. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Actual spending, original budget and reprofile amounts constrain the forecast's purchasing-execution interpretation; they are not a global growth rate. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx pre-board capital appropriations used were C$xx.xx. This supplies the Canadian purchasing comparison and a component of the non-passenger-to-cabin activity proxy, not a global share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx pre-board capital appropriations used were C$xx.xx. This supplies the Canadian purchasing comparison and a component of the non-passenger-to-cabin activity proxy, not a global share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx hold-baggage capital appropriations used were C$xx.xx; this constrains the independent application-capital comparison.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx non-passenger capital appropriations used were C$xx.xx, below the original C$xx.xx budget. Actual purchasing informs the proxy and qualifies automatic announcement-to-revenue conversion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx non-passenger capital appropriations used were C$xx.xx, below the original C$xx.xx budget. Actual purchasing informs the proxy and qualifies automatic announcement-to-revenue conversion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports C$xx.xx EDS capital expenditure for FY2024/xx.xx and identifies both baggage equipment and full-body scanners in the capital scope, requiring a baggage-attribution adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports C$xx.xx EDS capital expenditure for FY2024/xx.xx and identifies both baggage equipment and full-body scanners in the capital scope, requiring a baggage-attribution adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EDS outturn was C$xx.xx versus an original C$xx.xx plan and revised C$xx.xx budget. Reprofiling constrains assumed award conversion and deployment timing; it does not measure procurement-channel mix. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The actual capital-project list identifies hold-baggage capacity expansion at Montréal-Trudeau, supporting the expansion classification, not its modeled global revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The actual capital-project list identifies hold-baggage capacity expansion at Montréal-Trudeau, supporting the expansion classification, not its modeled global revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The actual

13. CATSA 2025 Annual Report - Notes to the Financial Statements

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx accounts disclose C$xx.xx maintenance/spares and C$xx.xx training/certification, supporting the service-budget calibration but not global baggage-only shares. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx accounts disclose C$xx.xx maintenance/spares and C$xx.xx training/certification, supporting the service-budget calibration but not global baggage-only shares. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintenance and spare parts are combined in the accounts; the labor-versus-goods split therefore remains modeled. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintenance and spare parts are combined in the accounts; the labor-versus-goods split therefore remains modeled. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The C$xx.xx training/certification expense supplies the numerator of the adjusted training-to-capital proxy. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The C$xx.xx training/certification expense supplies the numerator of the adjusted training-to-capital proxy. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: C$xx.xx trace/consumables is distinct from maintenance/spares and supplies the contrary consumables-intensity comparator, not a global observation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: C$xx.xx trace/consumables is distinct from maintenance/spares and supplies the contrary consumables-intensity comparator, not a global observation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately reports C$xx.xx maintenance/spares, C$xx.xx trace/consumables and C$xx.xx training/certification, constraining attributable agency lifecycle expenditure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates screening-contractor payments from equipment support, preventing staffing expenditure from becoming equipment-market purchasing.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately reports C$xx.xx maintenance/spares, C$xx.xx trace/consumables and C$xx.xx training/certification, constraining attributable agency lifecycle expenditure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates screening-contractor payments from equipment support, preventing staffing expenditure from becoming equipment-market purchasing.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited expense disclosure reports C$xx.xx for maintenance and spare parts in the year ended March xx.xx 2025. It constrains support-spending materiality, not the amount attributable to an independent provider. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))

14. Aviation security screening approved equipment list
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Baggage EDS/EDSCB and conventional X-ray classes support the inspection-system boundary, not sales weights. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Baggage EDS/EDSCB and conventional X-ray classes support the inspection-system boundary, not sales weights. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Liquid detectors are a distinct cabin-baggage category; the complete bulk-material extension remains modeled within the captured boundary. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Liquid detectors are a distinct cabin-baggage category; the complete bulk-material extension remains modeled within the captured boundary. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ETD serves baggage and other applications, requiring explicit baggage attribution rather than allocating all detector sales here. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ETD serves baggage and other applications, requiring explicit baggage attribution rather than allocating all detector sales here. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dedicated ETD consumables are separately recognized, supporting goods classification without establishing spending or unrestricted interchangeability. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dedicated ETD consumables are separately recognized, supporting goods classification without establishing spending or unrestricted interchangeability. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
15. Quantifying the Impacts of Delayed Maintenance of Airport Assets: A Guide - Chapter 6, Baggage Handling Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The baggage-handling cost study uses a modeled xx.xx% labor share, adopted only as an adjacent support-cost proxy. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The baggage-handling cost study uses a modeled xx.xx% labor share, adopted only as an adjacent support-cost proxy. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Its corresponding modeled xx.xx% parts share calibrates the labor/goods separation; it is not an observed screening-equipment ratio. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Its corresponding modeled xx.xx% parts share calibrates the labor/goods separation; it is not an observed screening-equipment ratio. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))

16. Procurement of Next Generation Security Checkpoint Equipment - Contract Award Notice

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The seven-system award includes automated tray return, demonstrating bundled purchasing but no separately priced hardware allocation. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The seven-system award includes automated tray return, demonstrating bundled purchasing but no separately priced hardware allocation. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The integrated CT/tray-return scope constrains the automation interface boundary; it does not value general airport conveyors. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The integrated CT/tray-return scope constrains the automation interface boundary; it does not value general airport conveyors. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Central image processing is an explicit purchased function, without a separately disclosed license price. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Central image processing is an explicit purchased function, without a separately disclosed license price. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supply, installation and commissioning are included deliverables, supporting deployment-service attribution without establishing its percentage. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supply, installation and commissioning are included deliverables, supporting deployment-service attribution without establishing its percentage. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2022 award covers seven systems combining cabin CT, tray return, image processing and deployment responsibilities. It supports integrated purchased scope, not completed delivery or a global sales weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2022 award covers seven systems combining cabin CT, tray return, image processing and deployment responsibilities. It supports integrated purchased scope, not completed delivery or a global sales weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The integrated Newcastle procurement reports a GBP xx.xx-xx.xx offer range but no physical review-room location; its value cannot be assigned automatically to local review. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The integrated Newcastle procurement reports a GBP xx.xx-xx.xx offer range but no physical review-room location; its value cannot be assigned automatically to local review. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Central image processing is included, but a separate on-site room is not specified; constrains classification rather than supplying a remote-review sales weight. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Central image processing is included, but a separate on-site room is not specified; constrains classification rather than supplying a remote-review sales weight. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The bundled award does not identify a mixed-location package or its attributable price, preventing automatic hybrid classification. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The bundled award does not identify a mixed-location package or its attributable price, preventing automatic hybrid classification.

17. AI for Monitoring Aviation Security: Fraport and German Federal Police Start Regular Operation of APIDS
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: January xx.xx 2026 APIDS deployment demonstrates additional software adoption, without establishing separate revenue. ([fraport.com](https://www.fraport.com/en/newsroom/press-releases/2026/q1/ai-for-monitoring-aviation-security.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Deployment on more than xx.xx CT scanners is the independent quantitative rollout test; it does not validate the modeled license-growth factor. ([fraport.com](https://www.fraport.com/en/newsroom/press-releases/2026/q1/ai-for-monitoring-aviation-security.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: On January xx.xx 2026, Fraport announced regular APIDS software operation on more than xx.xx existing Smiths CT scanners. This independently supports retained-system enhancement at one buyer, not global penetration or realized license revenue.
18. Smiths Detection - Digital Innovation
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier identifies detection applications as a commercial function; separate fee allocation remains assumed. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier identifies detection applications as a commercial function; separate fee allocation remains assumed. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized screening supports the image-review function, not an observed software revenue weight. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized screening supports the image-review function, not an observed software revenue weight. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Connectivity, multi-vendor integration and equipment-health applications establish the fleet-management function without proving customer-specific rights or prices. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Connectivity, multi-vendor integration and equipment-health applications establish the fleet-management function without proving customer-specific rights or prices. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ELECTORA is offered for integrating multi-vendor devices, datasets and applications; establishes the vendor-platform category but discloses no category revenue or customer-specific substitution entitlement. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ELECTORA is offered for integrating multi-vendor devices, datasets and applications; establishes the vendor-platform category but discloses no category revenue or customer-specific substitution entitlement. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
19. UK Civil Aviation Authority - Threat Image Projection (TIP)
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: TIP library approval and renewal obligations support continuing software commitments, not the modeled global fee or share. ([caa.co.uk](https://www.caa.co.uk/commercial-industry/security/training-and-human-factors/threat-image-projection/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: TIP library approval and renewal obligations support continuing software commitments, not the modeled global fee or share. ([caa.co.uk](https://www.caa.co.uk/commercial-industry/security/training-and-human-factors/threat-image-projection/))

20. Smiths Detection - Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Inclusive capital-equipment support covers labor and parts, requiring a single-count economic allocation across services and goods. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Inclusive capital-equipment support covers labor and parts, requiring a single-count economic allocation across services and goods. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Equipment-specific training and certification are commercial offerings distinct from routine screening staffing. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Equipment-specific training and certification are commercial offerings distinct from routine screening staffing. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The parts-support offering and inclusive contracts corroborate the goods boundary, but not the assumed xx.xx% allocation. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The parts-support offering and inclusive contracts corroborate the goods boundary, but not the assumed xx.xx% allocation. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes inclusive labor-and-parts contracts and manufacturer support, supporting nonduplicative lifecycle attribution to projection equipment, not a verified xx.xx% fee. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes inclusive labor-and-parts contracts and manufacturer support, supporting nonduplicative lifecycle attribution to projection equipment, not a verified xx.xx% fee. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports the existence of manufacturer lifecycle offerings; broad service-footprint counts are not used as CT revenue weights.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports the existence of manufacturer lifecycle offerings; broad service-footprint counts are not used as CT revenue weights.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports commercial maintenance, refurbishment and parts offerings for portable equipment without establishing baggage-specific service receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports commercial maintenance, refurbishment and parts offerings for portable equipment without establishing baggage-specific service receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer markets direct on-site support and inclusive capital-equipment labor-and-parts contracts. This supports a continuing manufacturer-service alternative, without measuring a pricing premium. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer markets direct on-site support and inclusive capital-equipment labor-and-parts contracts. This supports a continuing manufacturer-service alternative, without measuring a pricing premium. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Manufacturer-provided bundled support is a commercial alternative to separate technical-service procurement, limiting assumptions of unrestricted third-party substitution. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Manufacturer-provided bundled support is a commercial alternative to separate technical-service procurement, limiting assumptions of unrestricted third-party substitution. ([smithsdetection.com](https://www.smithsdetection.com/service/))

21. Hold baggage screening upgrade, Dublin and Cork Airports, Ireland

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate professional-service appointments cover project controls, design oversight and interface management; the broader construction budget is not used as screening-service revenue. ([neccontract.com](https://www.neccontract.com/projects/hold-baggage-screening-upgrade-dublin-and-cork-airports-ireland))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate professional-service appointments cover project controls, design oversight and interface management; the broader construction budget is not used as screening-service revenue. ([neccontract.com](https://www.neccontract.com/projects/hold-baggage-screening-upgrade-dublin-and-cork-airports-ireland))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes three upgraded hold-baggage systems delivered through separate construction, baggage-integration and advisory appointments, completed in March 2023. Supports integrated-system attribution without assuming a universal single-prime model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes three upgraded hold-baggage systems delivered through separate construction, baggage-integration and advisory appointments, completed in March 2023. Supports integrated-system attribution without assuming a universal single-prime model.

22. Corporate Plan 2025-26 to 2029-30 Summary - Financial Overview
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CATSA distinguishes major-checkpoint CT replacement from single-view-to-multiview replacement elsewhere, supporting application-specific projection demand and forecast assumptions. It also discloses capital funding subject to reprofile approval. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/corporate-plan-2025-xx.xx-2029-xx.xx/financial-overview))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CATSA distinguishes major-checkpoint CT replacement from single-view-to-multiview replacement elsewhere, supporting application-specific projection demand and forecast assumptions. It also discloses capital funding subject to reprofile approval. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/corporate-plan-2025-xx.xx-2029-xx.xx/financial-overview))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies single-view equipment as a replacement population, supporting the modeled displacement mechanism rather than an observed global share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies single-view equipment as a replacement population, supporting the modeled displacement mechanism rather than an observed global share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Multiview remains a planned purchasing destination at non-passenger checkpoints and Class xx.xx airports, qualifying universal CT substitution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Multiview remains a planned purchasing destination at non-passenger checkpoints and Class xx.xx airports, qualifying universal CT substitution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CT replacement is a stated major-checkpoint investment priority, subject to funding and delivery risks; this supports direction, not the modeled global share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CT replacement is a stated major-checkpoint investment priority, subject to funding and delivery risks; this supports direction, not the modeled global share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The plan includes additional screening equipment and expansion of existing hold-baggage screening capacity. Its FY2025/xx.xx capital budget is C$xx.xx across mixed activities; plans are not recognized supplier revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The plan includes additional screening equipment and expansion of existing hold-baggage screening capacity. Its FY2025/xx.xx capital budget is C$xx.xx across mixed activities; plans are not recognized supplier revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The plan distinguishes replacement of checkpoint X-ray equipment with CT and asset lifecycle renewal from additional capacity. Funding, partner timing and reprofiling qualify forecast realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The plan distinguishes replacement of checkpoint X-ray equipment with CT and asset lifecycle renewal from additional capacity. Funding, partner timing and reprofiling qualify forecast realization.
23. ECAC CEP Public Equipment List - Explosive Detection Systems, Update 18 April 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 list retains XRD xx.xx supporting the legacy commercial-category premise but not the assumed installed cohort or sales volume. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-EDS-equipment_public_list_update_20250418.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 list retains XRD xx.xx supporting the legacy commercial-category premise but not the assumed installed cohort or sales volume. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-EDS-equipment_public_list_update_20250418.pdf))

24. Partners - HALO X-ray Technologies Ltd

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named airport pilots and approximately USD xx.xx and USD xx.xx development programs establish commercialization activity and program scale, not realized annual XRD equipment revenue. ([haloxray.com](https://www.haloxray.com/partners))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named airport pilots and approximately USD xx.xx and USD xx.xx development programs establish commercialization activity and program scale, not realized annual XRD equipment revenue. ([haloxray.com](https://www.haloxray.com/partners))

25. Explosives Trace Detectors (ETDs): Market Survey Report, November 2021

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Historical IONSCAN xx.xx list-price configurations around USD xx.xx-xx.xx constrain the IMS price class; they do not establish 2025 purchasing volumes or realizations. ([dhs.gov](https://dhs.gov/sites/default/files/2021-xx.xx/SAVER_Explosives%20Trace%20Detectors%20MSR_08Nov2021_Final-xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Historical IONSCAN xx.xx list-price configurations around USD xx.xx-xx.xx constrain the IMS price class; they do not establish 2025 purchasing volumes or realizations. ([dhs.gov](https://dhs.gov/sites/default/files/2021-xx.xx/SAVER_Explosives%20Trace%20Detectors%20MSR_08Nov2021_Final-xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The Fido X4 historical USD xx.xx list-price benchmark supports the explicit nominal-price bridge; baggage attribution and unit mix remain modeled.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The Fido X4 historical USD xx.xx list-price benchmark supports the explicit nominal-price bridge; baggage attribution and unit mix remain modeled.

26. Astrotech Corporation - Form 10-K for the Fiscal Year Ended June 30, 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Discloses FY2025 product and service revenue, xx.xx deployment locations, and a six-unit USD xx.xx order. These provide a price comparator and supplier-scale check, not baggage-only revenue. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20250630_10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Discloses FY2025 product and service revenue, xx.xx deployment locations, and a six-unit USD xx.xx order. These provide a price comparator and supplier-scale check, not baggage-only revenue. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20250630_10k.htm))

27. Astrotech Corporation - Form 10-K for the Fiscal Year Ended June 30, 2026

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports eight TRACER units sold in FY2025 versus three in FY2026, identifies grant-related revenue within FY2025 product revenue, and describes a potential subsidiary sale. These constrain MS attribution and forecast optimism. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20260630_10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports eight TRACER units sold in FY2025 versus three in FY2026, identifies grant-related revenue within FY2025 product revenue, and describes a potential subsidiary sale. These constrain MS attribution and forecast optimism. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20260630_10k.htm))

28. Liquid Explosive Detector, Bottle Liquid Scanner, Insight - Agilent

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Raman-based airport resolution products and dated September 2025 launch and May 2026 contract announcements. Supports category continuity and adoption premises, not global unit or revenue shares. ([agilent.com](https://www.agilent.com/en/product/molecular-spectroscopy/raman-spectroscopy/raman-aviation-security-systems/insight-series-alarm-resolution-systems))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Raman-based airport resolution products and dated September 2025 launch and May 2026 contract announcements. Supports category continuity and adoption premises, not global unit or revenue shares. ([agilent.com](https://www.agilent.com/en/product/molecular-spectroscopy/raman-spectroscopy/raman-aviation-security-systems/insight-series-alarm-resolution-systems))

29. Bottle Liquid Scanner for Sale from China - Securina

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Positions microwave-based liquid-screening products for airports and customs. Supports commercial classification only; prices, authorization and purchasing weights remain assumptions. ([securinadetection.com](https://www.securinadetection.com/Bottle-Liquid-Scanner-Manufacturer-China.html))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Positions microwave-based liquid-screening products for airports and customs. Supports commercial classification only; prices, authorization and purchasing weights remain assumptions. ([securinadetection.com](https://www.securinadetection.com/Bottle-Liquid-Scanner-Manufacturer-China.html))

30. Quick, Accurate Threat-Detection Scanner for Liquid, Aerosol, and Gels Eases and Secures Air Travel Worldwide

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies LS10 as a complete commercial liquid scanner combining RF and ultrasonic capabilities, supporting nonduplicative complete-product attribution. ([battelle.org](https://www.battelle.org/insights/case-studies/case-study-details/quick-accurate-threat-detection-scanner-for-liquid-aerosol-and-gels-eases-and-secures-air-travel-worldwide))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies LS10 as a complete commercial liquid scanner combining RF and ultrasonic capabilities, supporting nonduplicative complete-product attribution. ([battelle.org](https://www.battelle.org/insights/case-studies/case-study-details/quick-accurate-threat-detection-scanner-for-liquid-aerosol-and-gels-eases-and-secures-air-travel-worldwide))

31. ECAC CEP Public Equipment List - Liquid Explosive Detection Systems, Update 10 July 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 list includes One Resonance Sensors MobiLab BLS. This supports retained listed status for a named product, not active supply, paid installed stock or observed receipts. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-LEDS%20equipment%20public%20list-update%xx.xx-xx.xx-rev1.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 list includes One Resonance Sensors MobiLab BLS. This supports retained listed status for a named product, not active supply, paid installed stock or observed receipts. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-LEDS%20equipment%20public%20list-update%xx.xx-xx.xx-rev1.pdf))

32. MobiLab BLS Bottled Liquid Scanner Endorsed By European Civil Aviation Conference

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's May xx.xx 2014 announcement identifies MobiLab BLS as an NMR-based airport liquid scanner and states that orders were being accepted. Establishes historical commercial offering, not 2025 deliveries. ([prnewswire.com](https://www.prnewswire.com/news-releases/mobilab-bls-bottled-liquid-scanner-endorsed-by-european-civil-aviation-conference-xx.xx.html))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's May xx.xx 2014 announcement identifies MobiLab BLS as an NMR-based airport liquid scanner and states that orders were being accepted. Establishes historical commercial offering, not 2025 deliveries. ([prnewswire.com](https://www.prnewswire.com/news-releases/mobilab-bls-bottled-liquid-scanner-endorsed-by-european-civil-aviation-conference-xx.xx.html))

33. SafePointe BLS Powered by ORS - Bottled Liquid Explosives Detection Solution

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The branded supplier brochure documents an ORS-powered bottled-liquid product channel. Its availability does not establish current orders or support continuity; it supports only the legacy-channel modeling premise. ([uploads-ssl.webflow.com](https://uploads-ssl.webflow.com/608330bcae48962bf6d7ff37/6149f80be6c30d34b5e3debe_BLS-Flyer-Compressed.pdf))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The branded supplier brochure documents an ORS-powered bottled-liquid product channel. Its availability does not establish current orders or support continuity; it supports only the legacy-channel modeling premise. ([uploads-ssl.webflow.com](https://uploads-ssl.webflow.com/608330bcae48962bf6d7ff37/6149f80be6c30d34b5e3debe_BLS-Flyer-Compressed.pdf))

34. Florida Division of Corporations - One Resonance Sensors, LLC, Entity Detail

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official registry records One Resonance Sensors, LLC as inactive following administrative dissolution on September xx.xx 2019. This counterevidence constrains continuity assumptions but does not prove zero surviving product support. ([search.sunbiz.org](https://search.sunbiz.org/Inquiry/CorporationSearch/SearchResultDetail?aggregateId=flal-l11000122986-c57f60b3-690d-4c87-836a-9aeb045075e8&directionType=CurrentList&inquirytype=EntityName&listNameOrder=ONERESONANCESENSORS+L110001229860&searchNameOrder=ONERESONANCESENSORS+L110001229860&searchTerm=ONE+RED+AMPERSAND+LLC))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official registry records One Resonance Sensors, LLC as inactive following administrative dissolution on September xx.xx 2019. This counterevidence constrains continuity assumptions but does not prove zero surviving product support. ([search.sunbiz.org](https://search.sunbiz.org/Inquiry/CorporationSearch/SearchResultDetail?aggregateId=flal-l11000122986-c57f60b3-690d-4c87-836a-9aeb045075e8&directionType=CurrentList&inquirytype=EntityName&listNameOrder=ONERESONANCESENSORS+L110001229860&searchNameOrder=ONERESONANCESENSORS+L110001229860&searchTerm=ONE+RED+AMPERSAND+LLC))

35. Explosive Detection - Teledyne FLIR Defense

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists offered Fido X-series products and service support, supporting commercial offering continuity only, not airport-specific eligibility or sales weights. ([flir.com](https://www.flir.com/threat-detection/explosives/))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists offered Fido X-series products and service support, supporting commercial offering continuity only, not airport-specific eligibility or sales weights. ([flir.com](https://www.flir.com/threat-detection/explosives/))

36. Scintrex Trace E3500 Explosive Trace Detection Unit - SecurityPro USA

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distributor offers E3500 chemiluminescence equipment and identifies customs/border applications. Supports a commercial category lead, not measured airport purchasing or the assumed price. ([securityprousa.com](https://www.securityprousa.com/collections/explosive-detection/products/scintrex-trace-e3500-explosive-trace-detection-unit))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distributor offers E3500 chemiluminescence equipment and identifies customs/border applications. Supports a commercial category lead, not measured airport purchasing or the assumed price. ([securityprousa.com](https://www.securityprousa.com/collections/explosive-detection/products/scintrex-trace-e3500-explosive-trace-detection-unit))

37. Portable Explosive Detector - Trace Detector EVD-3000+

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distributor offers EVD-xx.xx+ thermo-redox equipment. Supports offered-product classification, not airport authorization, purchasing volume or the modeled realization. ([securityprousa.com](https://www.securityprousa.com/products/scintrex-trace-evd-xx.xx-portable-trace-detection-unit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distributor offers EVD-xx.xx+ thermo-redox equipment. Supports offered-product classification, not airport authorization, purchasing volume or the modeled realization. ([securityprousa.com](https://www.securityprousa.com/products/scintrex-trace-evd-xx.xx-portable-trace-detection-unit))

38. CATSA's Purchase Order Terms and Conditions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contract terms constrain maintenance, parts and consumables escalation, qualifying unrestricted aftermarket pricing assumptions in the projection lifecycle model. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contract terms constrain maintenance, parts and consumables escalation, qualifying unrestricted aftermarket pricing assumptions in the projection lifecycle model. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contractual price limits constrain the pricing premise, but do not verify CT-specific global support receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contractual price limits constrain the pricing premise, but do not verify CT-specific global support receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintenance and consumable escalation limits qualify the trace-platform pricing assumption rather than establishing the modeled IMS share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintenance and consumable escalation limits qualify the trace-platform pricing assumption rather than establishing the modeled IMS share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The pre-existing-software clause grants broad license rights without transferring ownership; proprietary ownership alone therefore cannot establish the Closed revenue numerator. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The pre-existing-software clause grants broad license rights without transferring ownership; proprietary ownership alone therefore cannot establish the Closed revenue numerator. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Software modification rights are not themselves proof of standards-based interfaces or independent component substitution; supports conservative classification. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Software modification rights are not themselves proof of standards-based interfaces or independent component substitution; supports conservative classification. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))

39. Liquids Scanner for Airport Security - UC Davis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2011 account establishes a development contract and licensing relationship. Its development allocation is excluded from 2025 receipts and does not establish a surviving commercial cohort. ([ucdavis.edu](https://www.ucdavis.edu/news/liquids-scanner-airport-security))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2011 account establishes a development contract and licensing relationship. Its development allocation is excluded from 2025 receipts and does not establish a surviving commercial cohort. ([ucdavis.edu](https://www.ucdavis.edu/news/liquids-scanner-airport-security))
40. Open Architecture for Airport Security Systems, Second Edition
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes proprietary integration from interoperable connections, supporting the category boundary rather than an observed revenue share. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes proprietary integration from interoperable connections, supporting the category boundary rather than an observed revenue share. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Integration does not guarantee interoperability; this constrains attribution of vendor-mediated configurations. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Integration does not guarantee interoperability; this constrains attribution of vendor-mediated configurations. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Allows identified partial compliance and discusses accountable integration responsibilities; supports scoped open attribution, not whole-purchase reclassification. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Allows identified partial compliance and discusses accountable integration responsibilities; supports scoped open attribution, not whole-purchase reclassification. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))

41. CATSA 2025 Annual Report - Overview of Activities

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines across xx.xx airports serving more than xx.xx% of passengers in 2024/xx.xx; provides an independent integration-activity check, not a direct value allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines across xx.xx airports serving more than xx.xx% of passengers in 2024/xx.xx; provides an independent integration-activity check, not a direct value allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported modernized passenger coverage constrains an assumption of universally standalone activity, while leaving commercial architecture and revenue attribution unresolved. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported modernized passenger coverage constrains an assumption of universally standalone activity, while leaving commercial architecture and revenue attribution unresolved. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The annual report identifies enhanced non-passenger requirements and implementation planned from spring 2025. This supports a conditional modernization premise, not the modeled global uptake factor.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2024/xx.xx; provides a Canadian adoption comparator, not a global local-review revenue weight. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2024/xx.xx; provides a Canadian adoption comparator, not a global local-review revenue weight. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies remote screening within CATSA Plus and quantifies deployment; constrains the commercial-adoption premise but does not establish each review room's location. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies remote screening within CATSA Plus and quantifies deployment; constrains the commercial-adoption premise but does not establish each review room's location. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Deployment coverage constrains the addressable network-enabled pool; it does not disclose hybrid contracts or justify the modeled hybrid percentage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Deployment coverage constrains the addressable network-enabled pool; it does not disclose hybrid contracts or justify the modeled hybrid percentage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))

42. CATSA - Beyond the Checkpoint, December 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx operational CT machines at eight airports and a modular-line average of xx.xx passengers per hour versus xx.xx for traditional multi-split lines; supports the bounded throughput-to-unit bridge and phased-deployment premise. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/about-us/beyond-checkpoint-2025-december))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx operational CT machines at eight airports and a modular-line average of xx.xx passengers per hour versus xx.xx for traditional multi-split lines; supports the bounded throughput-to-unit bridge and phased-deployment premise. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/about-us/beyond-checkpoint-2025-december))

43. Smiths Detection Delivers Fully Automated International Remote Baggage Screening System Between South Korea and the United States

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2026 disclosure identifies xx.xx software licenses and DICOS V3.xx.xx exchange, and dates operational service to August 2025. Supports commercial standards-based activity and forecast feasibility, not an observed global share or a confirmed 2025 license inventory. ([smithsdetection.com](https://www.smithsdetection.com/press-releases/smiths-detection-delivers-fully-automated-international-remote-baggage-screening-system-between-south-korea-and-the-united-states/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2026 disclosure identifies xx.xx software licenses and DICOS V3.xx.xx exchange, and dates operational service to August 2025. Supports commercial standards-based activity and forecast feasibility, not an observed global share or a confirmed 2025 license inventory. ([smithsdetection.com](https://www.smithsdetection.com/press-releases/smiths-detection-delivers-fully-automated-international-remote-baggage-screening-system-between-south-korea-and-the-united-states/))

44. SeeTrue Marks Milestone with Over 100 X-ray Checkpoint Installations of Advanced AI-Based Threat Detection Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 announcement reports the 100th operational screening lane across airports and other sectors. Provides a limited commercial-adoption scale check; it is neither airport-only nor a census of standards-based entitlements. ([seetrue.ai](https://www.seetrue.ai/seetrue-marks-milestone-with-over-xx.xx-x-ray-checkpoint-installations-of-advanced-ai-based-threat-detection-software/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 announcement reports the 100th operational screening lane across airports and other sectors. Provides a limited commercial-adoption scale check; it is neither airport-only nor a census of standards-based entitlements. ([seetrue.ai](https://www.seetrue.ai/seetrue-marks-milestone-with-over-xx.xx-x-ray-checkpoint-installations-of-advanced-ai-based-threat-detection-software/))

45. Scarabee’s Checkpoint Property Screening System to be deployed at DEN

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-lane Denver award combining Scarabee lanes with Smiths scanners. Corroborates a commercial mixed-supplier integration route; an award is not realized annual revenue or proof of unrestricted interoperability. ([daifukuatec.com](https://daifukuatec.com/news/scarabees-checkpoint-property-screening-system-to-be-deployed-at-den))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-lane Denver award combining Scarabee lanes with Smiths scanners. Corroborates a commercial mixed-supplier integration route; an award is not realized annual revenue or proof of unrestricted interoperability. ([daifukuatec.com](https://daifukuatec.com/news/scarabees-checkpoint-property-screening-system-to-be-deployed-at-den))

46. CATSA Annual Report 2024 - Management’s Discussion and Analysis

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx pre-board capital appropriations used of C$xx.xx provide the second period in the non-passenger-to-cabin purchasing comparison.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx non-passenger capital appropriations used of C$xx.xx enter the two-period activity proxy; they do not identify the property-only fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx non-passenger capital appropriations used of C$xx.xx enter the two-period activity proxy; they do not identify the property-only fraction.

47. Smiths Detection confirm order of 91 advanced scanners for new terminals at Moscow Sheremetyevo International Airport
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The dated airport deployment includes xx.xx entrance baggage systems and xx.xx cabin-checkpoint systems. Their ratio supplies a historical relative-density proxy, subsequently discounted for assumed global coverage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated airport deployment includes xx.xx entrance baggage systems and xx.xx cabin-checkpoint systems. Their ratio supplies a historical relative-density proxy, subsequently discounted for assumed global coverage.
48. Cochin International Airport Selects Smiths Detection's CTX 9800 for Next-Generation Hold Baggage Screening
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2017 deployment identifies xx.xx customs baggage systems alongside four hold-baggage systems. This supports the customs-intensive historical configuration proxy, not current global fleet or revenue observations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2017 deployment identifies xx.xx customs baggage systems alongside four hold-baggage systems. This supports the customs-intensive historical configuration proxy, not current global fleet or revenue observations.
49. CATSA Functions, Programs and Activities
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Hold-baggage activities include equipment purchase, baggage-handling integration and equipment maintenance, supporting the checked-baggage capital and lifecycle boundary.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Hold-baggage activities include equipment purchase, baggage-handling integration and equipment maintenance, supporting the checked-baggage capital and lifecycle boundary.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-passenger screening covers airport workers and their belongings; only attributable property-screening offerings enter this allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-passenger screening covers airport workers and their belongings; only attributable property-screening offerings enter this allocation.
50. Fraport TAV Antalya Airport - About the security control itself
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The airport operator distinguishes terminal-entry security from a subsequent checkpoint. This supports a separate entrance-screening mission while providing no global prevalence or spending share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport operator distinguishes terminal-entry security from a subsequent checkpoint. This supports a separate entrance-screening mission while providing no global prevalence or spending share.
51. EMSD VoiceLink, Issue 79, June 2026 - EMSD Provides Comprehensive Support for Terminal 2 Commissioning
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June 2026 account identifies baggage-and-parcel equipment procurement and installation for the customs authority at Terminal xx.xx. It supports a separate commissioning mission but does not isolate baggage expenditure.
52. GAO-26-107811 - Guam: Considerations for Evaluating Alternative Customs Models and Potential Economic Effects
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The audit identifies two historical airport-customs baggage systems inactive for years and delayed replacement procurement. This challenges conversion of installed stock or acknowledged need directly into annual equipment and support revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The audit identifies two historical airport-customs baggage systems inactive for years and delayed replacement procurement. This challenges conversion of installed stock or acknowledged need directly into annual equipment and support revenue.

53. Bennet, Moran, Van Hollen, Boozman Introduce Bill to Bolster Aviation Safety
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 official release identifies xx.xx U.S. screening lanes, used as agency purchasing-exposure calibration rather than observed annual equipment sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 official release identifies xx.xx U.S. screening lanes, used as agency purchasing-exposure calibration rather than observed annual equipment sales.
54. Bank of Canada - Annual exchange rates
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual exchange-rate observations support the inherited fiscal-period approximation of xx.xx Canadian dollars per U.S. dollar; this is not a transaction-weighted exchange rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual exchange-rate observations support the inherited fiscal-period approximation of xx.xx Canadian dollars per U.S. dollar; this is not a transaction-weighted exchange rate.
55. Japan’s leading airline revolutionizes check in experience with new Smiths Detection technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The August 2023 announcement identifies JAL as customer for five screening ecosystems and reports xx.xx deployed iLane units across Japan. These are historical commercial-stock anchors, not an airline-only fleet or 2025 sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August 2023 announcement identifies JAL as customer for five screening ecosystems and reports xx.xx deployed iLane units across Japan. These are historical commercial-stock anchors, not an airline-only fleet or 2025 sales observation.
56. Narita International Airport anticipates threats with integrated solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Narita airport as a screening-technology customer and describes xx.xx lane-related installations, qualifying any assumption that the supplier's Japanese installed stock was purchased entirely by airlines.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Narita airport as a screening-technology customer and describes xx.xx lane-related installations, qualifying any assumption that the supplier's Japanese installed stock was purchased entirely by airlines.
57. MLIT - 保安検査の実施主体が変わります！ - June 27, 2025
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement targets transfer of security-screening responsibility from airlines to airport managers, with leading cases targeted in FY2026. Supports a conditional reduction in airline purchasing, not an observed contract-transfer percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transfer direction supports modeled airport-manager purchasing gains. Continued shared financing does not imply equal purchasing shares.
58. ICTS International N.V. - Annual Report for the year ended December 31, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Discloses USD xx.xx company-wide property/equipment purchases and USD xx.xx airport-security revenue in 2025. Supports an asset-light purchasing-intensity proxy; the in-scope fraction and global expansion remain assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Discloses USD xx.xx company-wide property/equipment purchases and USD xx.xx airport-security revenue in 2025. Supports an asset-light purchasing-intensity proxy; the in-scope fraction and global expansion remain assumptions.

59. EU Publications Office - Purchase and maintenance of non-intrusive X-ray inspection equipment for baggage and air cargo volume control
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Autoridade Tributária e Aduaneira as buyer and reports a 2026 award of EUR xx.xx across four lots for baggage/air-cargo inspection equipment and maintenance. Provides a buyer-role and commercial-scale comparator, not 2025 baggage-only annual expenditure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Autoridade Tributária e Aduaneira as buyer and reports a 2026 award of EUR xx.xx across four lots for baggage/air-cargo inspection equipment and maintenance. Provides a buyer-role and commercial-scale comparator, not 2025 baggage-only annual expenditure.
60. ACI World - Busiest Airports in the World
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx international airport passenger movements in 2025. Half provides an approximate arrival-movement scale check before transfer exclusions, not a customs examination or equipment-purchasing weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx international airport passenger movements in 2025. Half provides an approximate arrival-movement scale check before transfer exclusions, not a customs examination or equipment-purchasing weight.
61. Heathrow announces £2.3bn accelerated investment plan to upgrade the UK's international gateway to growth
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports GBP xx.xx invested in security-lane upgrades during 2024, supporting material airport-directed purchasing. Broader infrastructure obligations and historical timing prevent treating the amount as 2025 in-scope market receipts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports GBP xx.xx invested in security-lane upgrades during 2024, supporting material airport-directed purchasing. Broader infrastructure obligations and historical timing prevent treating the amount as 2025 in-scope market receipts.
62. Fraport Assumes Responsibility for Aviation Security Checks at Frankfurt Airport
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents Fraport's checkpoint-management responsibility from January 2023, six initial CT-equipped lanes and three contracted screening providers. Supports distinguishing an airport commissioning role from regulator oversight and contracted screening labor.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents Fraport's checkpoint-management responsibility from January 2023, six initial CT-equipped lanes and three contracted screening providers. Supports distinguishing an airport commissioning role from regulator oversight and contracted screening labor.
63. Advanced Cabin Baggage Screening - Computed Tomography Implementation Guide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes standalone CT, including equipment-local conveyance, from integrated screening-lane configurations; supports attribution boundaries, not a revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes standalone CT, including equipment-local conveyance, from integrated screening-lane configurations; supports attribution boundaries, not a revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies automated tray-return and automated screening-lane integration as commercially distinct configurations; supports the lane-integrated category definition.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies automated tray-return and automated screening-lane integration as commercially distinct configurations; supports the lane-integrated category definition.

64. GAO-12-266 - Checked Baggage Screening: TSA Has Deployed Optimal Systems at the Majority of TSA-Regulated Airports, but Could Strengthen Cost Estimates

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December 2011 table reports xx.xx standalone EDS alongside xx.xx in-line EDS; this historical machine-count comparator constrains, but does not determine, the current global allocation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December 2011 table reports xx.xx standalone EDS alongside xx.xx in-line EDS; this historical machine-count comparator constrains, but does not determine, the current global allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx in-line EDS across xx.xx in-line systems and distinguishes equipment counts from integrated-system counts; supports the historical configuration bridge.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx in-line EDS across xx.xx in-line systems and distinguishes equipment counts from integrated-system counts; supports the historical configuration bridge.

65. Smiths Detection selected as security technology provider to International Airport Heraklion Crete

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 announcement identifies eight cabin CT scanners and eight automated tray-return systems for Heraklion, with installation planned across late 2025 and mid-2026; supports ongoing integrated procurement, not realized annual revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 announcement identifies eight cabin CT scanners and eight automated tray-return systems for Heraklion, with installation planned across late 2025 and mid-2026; supports ongoing integrated procurement, not realized annual revenue.

66. Centralised Image Processing: The Impact on Security Checkpoints

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes checkpoint-local image review from separate-room arrangements; supports retaining networked local activity rather than automatically assigning it to remote review. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes checkpoint-local image review from separate-room arrangements; supports retaining networked local activity rather than automatically assigning it to remote review. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes separate screening rooms and established remote hold-baggage review at larger airports; supports the cohort-maturity premise, not a numerical global share. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes separate screening rooms and established remote hold-baggage review at larger airports; supports the cohort-maturity premise, not a numerical global share. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes combined checkpoint and remote-room arrangements, establishing a mixed-location commercial configuration without measuring its prevalence or price. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes combined checkpoint and remote-room arrangements, establishing a mixed-location commercial configuration without measuring its prevalence or price. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))

67. Annual Report 2024 - CATSA's Operating Environment

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2023/xx.xx providing the historical comparison rather than a global location allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2023/xx.xx providing the historical comparison rather than a global location allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Together with the subsequent annual report, supports a seven-line deployment increase without a corresponding increase in reported passenger coverage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Together with the subsequent annual report, supports a seven-line deployment increase without a corresponding increase in reported passenger coverage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provides a historical network-enabled deployment anchor, while leaving the physical mixed-location contract share unmeasured. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provides a historical network-enabled deployment anchor, while leaving the physical mixed-location contract share unmeasured. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))

68. L22020-T-TG Upgrades to the Passenger Search Area, body scanners, EDS C3 cabin baggage screening - Contract Award Notice

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2023 Luton award expressly includes construction of a remote screening room at the airport terminal, supporting separate-room commercial procurement. Its broader scope is not treated as baggage-only annual revenue. ([find-tender.service.gov.uk](https://www.find-tender.service.gov.uk/Notice/xx.xx-2023))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2023 Luton award expressly includes construction of a remote screening room at the airport terminal, supporting separate-room commercial procurement. Its broader scope is not treated as baggage-only annual revenue. ([find-tender.service.gov.uk](https://www.find-tender.service.gov.uk/Notice/xx.xx-2023))

69. Greater Orlando Aviation Authority - Minutes of the February 19, 2025 Meeting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Authorizes up to USD xx.xx for baggage-system and Remote Screening Facility network/server separation. Half this ceiling is an explicitly assumed deployment-cost comparator, not observed off-site receipts. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Authorizes up to USD xx.xx for baggage-system and Remote Screening Facility network/server separation. Half this ceiling is an explicitly assumed deployment-cost comparator, not observed off-site receipts. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provides the commercial networking-cost anchor for the modeled transfer from existing on-site pools, avoiding additional market value or duplicate host-equipment attribution. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provides the commercial networking-cost anchor for the modeled transfer from existing on-site pools, avoiding additional market value or duplicate host-equipment attribution. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))

70. American and U.S. Customs and Border Protection pilot innovative baggage screening initiative

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: American's April xx.xx 2025 announcement identifies a daily Sydney-Los Angeles IRBS pilot and unchanged screening requirements. It anchors one sampled connection and an assumed partial-year licensing period, not disclosed revenue. ([s202.q4cdn.com](https://s202.q4cdn.com/xx.xx/files/doc_news/American-and-US-Customs-and-Border-Protection-pilot-innovative-baggage-screening-initiative-OPS-OTH-xx.xx-2025.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: American's April xx.xx 2025 announcement identifies a daily Sydney-Los Angeles IRBS pilot and unchanged screening requirements. It anchors one sampled connection and an assumed partial-year licensing period, not disclosed revenue. ([s202.q4cdn.com](https://s202.q4cdn.com/xx.xx/files/doc_news/American-and-US-Customs-and-Border-Protection-pilot-innovative-baggage-screening-initiative-OPS-OTH-xx.xx-2025.pdf))

71. 델타항공-대한항공, 인천발 애틀랜타 노선 대상 위탁수하물 원격 검색 방식 신규 도입

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2025 announcement identifies the Incheon-Atlanta IRBS arrangement, anchoring a second sampled connection and a partial-year commercial-activity assumption without establishing contract value. ([news.delta.com](https://news.delta.com/delta-and-koreanair-launch-remote-baggage-screening-on-icn-atl-KR))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2025 announcement identifies the Incheon-Atlanta IRBS arrangement, anchoring a second sampled connection and a partial-year commercial-activity assumption without establishing contract value. ([news.delta.com](https://news.delta.com/delta-and-koreanair-launch-remote-baggage-screening-on-icn-atl-KR))

72. United Launches CBP's International Remote Baggage Screening on Select International Flights

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: United's September xx.xx 2025 announcement identifies daily Sydney-San Francisco service and named technology partners, anchoring a third sampled connection. It reports no attributable software or integration receipts. ([united.mediaroom.com](https://united.mediaroom.com/2025-xx.xx-xx.xx-United-Launches-CBPs-International-Remote-Baggage-Screening-on-Select-International-Flights))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: United's September xx.xx 2025 announcement identifies daily Sydney-San Francisco service and named technology partners, anchoring a third sampled connection. It reports no attributable software or integration receipts. ([united.mediaroom.com](https://united.mediaroom.com/2025-xx.xx-xx.xx-United-Launches-CBPs-International-Remote-Baggage-Screening-on-Select-International-Flights))

73. Airline Passengers Face Fewer Bag Checkpoints, Thanks to PNNL, Partners

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2026 laboratory release describes implementation on additional routes, including Seoul arrivals at Minneapolis-St. Paul and Detroit. This supports expansion direction, not the forecast connection count, realization or global share. ([pnnl.gov](https://www.pnnl.gov/news-media/airline-passengers-face-fewer-bag-checkpoints-thanks-pnnl-partners))

74. TSA awards $781.2 million to procure additional CT X-Ray scanners for airport checkpoints

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2022 announcement identifies up to USD xx.xx for procurement and maintenance of up to xx.xx systems from an OEM. This is a historical procurement-scale anchor, not annual 2025 direct-channel revenue. ([content.govdelivery.com](https://content.govdelivery.com/accounts/USDHSTSA/bulletins/30f6e5f))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The award includes full-size automated lanes, cautioning against assigning all automation value to non-OEM integration primes; exact contractual-role attribution is not disclosed. ([content.govdelivery.com](https://content.govdelivery.com/accounts/USDHSTSA/bulletins/30f6e5f))

75. OSI Systems, Inc. - Form 10-K for the fiscal year ended June 30, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing describes regional direct security-product sales and direct maintenance relationships. Its broader security scope supports route coexistence, not baggage-only sales weights. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing describes regional direct security-product sales and direct maintenance relationships. Its broader security scope supports route coexistence, not baggage-only sales weights. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company identifies a global independent-distributor network, supporting a continuing indirect route without quantifying its value share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company identifies a global independent-distributor network, supporting a continuing indirect route without quantifying its value share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Authorized service providers are identified separately from distributors, supporting distinct technical-service attribution and access limitations. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Authorized service providers are identified separately from distributors, supporting distinct technical-service attribution and access limitations. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

76. SriLankan Airlines - Invitation for Supply, Installation, Commissioning and Maintenance of Dual View Heavy and Medium X-Ray Machines, Reference 202130407

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 purchaser invitation permits an OEM or authorized OEM agent and requires authorization for the latter. It establishes equipment-channel eligibility, not an award or software-resale right. ([srilankan.com](https://www.srilankan.com/download/tender/TN-Invitationforsubmiss-xx.xx.pdf))

77. JFK Millennium Partners Selects K2 to Deliver State-of-the-Art Security Screening Checkpoint at new JFK Terminal 6

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment assigns procurement and deployment coordination across multiple technology suppliers at a future ten-gate terminal. It supports integration-prime participation and a forecast mechanism, not a disclosed share or completed 2025 revenue. ([portauthoritybuilds.com](https://www.portauthoritybuilds.com/redevelopment/us/en/jfk/planned-projects/terminal-xx.xx/news/jfk-millennium-partners-selects-k2-to-deliver-state-of-the-art-s.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment assigns procurement and deployment coordination across multiple technology suppliers at a future ten-gate terminal. It supports integration-prime participation and a forecast mechanism, not a disclosed share or completed 2025 revenue. ([portauthoritybuilds.com](https://www.portauthoritybuilds.com/redevelopment/us/en/jfk/planned-projects/terminal-xx.xx/news/jfk-millennium-partners-selects-k2-to-deliver-state-of-the-art-s.html))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment covers baggage CT and automated bin-return equipment for a future xx.xx-gate terminal, with phased opening planned for 2026-2028. It establishes new-installation activity, not attributable 2025 receipts; wider airport investment and person-only technologies are excluded.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment covers baggage CT and automated bin-return equipment for a future xx.xx-gate terminal, with phased opening planned for 2026-2028. It establishes new-installation activity, not attributable 2025 receipts; wider airport investment and person-only technologies are excluded.

78. CATSA Corporate Plan 2024-25 to 2028-29 Summary - Key Corporate Risks

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The authority reports transferring maintenance of most screening equipment to KPrime in 2023/xx.xx. This establishes a separately contracted maintenance relationship, without a baggage-only payment split. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/key-corporate-risks))

79. Leidos wins TSA logistics contract

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 announcement describes an eight-year, USD xx.xx maximum sustainment contract covering xx.xx equipment units at over xx.xx locations with manufacturer coordination. Annualization and baggage/third-party attribution in the model are explicit assumptions. ([leidos.com](https://www.leidos.com/insights/leidos-wins-tsa-logistics-contract))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 announcement describes an eight-year, USD xx.xx maximum sustainment contract covering xx.xx equipment units at over xx.xx locations with manufacturer coordination. Annualization and baggage/third-party attribution in the model are explicit assumptions. ([leidos.com](https://www.leidos.com/insights/leidos-wins-tsa-logistics-contract))

80. Checkpoint Transformation: Malta International Airport Streamlines Passenger Flow with Smiths Detection
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Seven conventional automated lanes were replaced by six CT-equipped lanes, with final commissioning in January 2025. This is a counterexample to equating capacity improvement with net additional equipment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seven conventional automated lanes were replaced by six CT-equipped lanes, with final commissioning in January 2025. This is a counterexample to equating capacity improvement with net additional equipment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The complete checkpoint replacement illustrates why an offering described commercially as an upgrade can belong to System Replacement. The seven-year service commitment is not counted wholly as installation-year revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The complete checkpoint replacement illustrates why an offering described commercially as an upgrade can belong to System Replacement. The seven-year service commitment is not counted wholly as installation-year revenue.
81. iCMORE - Smiths Detection
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current commercial offering describes a software-upgrade path while qualifying additional hardware requirements by machine type and age. This constrains forecast eligibility assumptions; product availability does not measure adoption or revenue.

18.11. Australia

Table 580. Australia Airport Baggage Screening Systems Market Size, 2017-2040 (USD Million)

Country	2017	2024	2025	2026	2027	2032	2040	CAGR (%)

Sources & Evidence

1. House Report 119-173 - Department of Homeland Security Appropriations Bill, 2026

   · Evidence informing the 2030 market-value input; displayed series and growth include calculations: The aging installed fleet supports replacement demand, but does not establish the forecast's realization dates or annual purchasing rate. ([govinfo.gov](https://www.govinfo.gov/content/pkg/CRPT-119hrpt173/html/CRPT-119hrpt173.htm))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report identifies xx.xx end-of-life systems within a xx.xx-system checked-baggage fleet. This constrains renewal exposure, not realized annual purchasing or a verified global replacement deadline.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports a TSA checked-baggage fleet of xx.xx EDS, including xx.xx at end-of-life, and assigns purchase, installation and maintenance responsibilities to TSA. Supports agency fleet calibration and renewal pressure, not the assumed forecast uplift.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports a TSA checked-baggage fleet of xx.xx EDS, including xx.xx at end-of-life, and assigns purchase, installation and maintenance responsibilities to TSA. Supports agency fleet calibration and renewal pressure, not the assumed forecast uplift.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report identifies xx.xx end-of-life EDS within a xx.xx-unit U.S. checked-baggage fleet, citing the FY2024 capital plan. The derived xx.xx% backlog constrains the aging-fleet premise, but is neither an annual turnover rate nor a funded global replacement forecast.

2. GAO-24-106573 - DHS Annual Assessment: Most Programs Are Meeting Current Goals, but Some Continue to Face Cost and Schedule Challenges

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports plans for xx.xx checkpoint systems and xx.xx increment-one deployments by September 2023; supports an incomplete replacement cycle rather than universal CT adoption. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx AT/CT, xx.xx base, xx.xx mid-size and xx.xx full-size deployments by September 2023; supplies configuration proxies and an incomplete-renewal constraint, not contractual architecture shares. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx AT/CT, xx.xx base, xx.xx mid-size and xx.xx full-size deployments by September 2023; supplies configuration proxies and an incomplete-renewal constraint, not contractual architecture shares. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The deployed configuration mix underlies the xx.xx/xx.xx newer-cohort and xx.xx/xx.xx older-cohort proxy calculations; global and contractual attribution remain modeled. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The deployed configuration mix underlies the xx.xx/xx.xx newer-cohort and xx.xx/xx.xx older-cohort proxy calculations; global and contractual attribution remain modeled. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The assessment records xx.xx checkpoint systems deployed by September 2023 against an eventual xx.xx-system program. This supports an incomplete replacement cycle and qualifies any assumption of universal CT adoption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The assessment records xx.xx checkpoint systems deployed by September 2023 against an eventual xx.xx-system program. This supports an incomplete replacement cycle and qualifies any assumption of universal CT adoption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports a September 2023 U.S. CT cohort containing xx.xx AT/CT and xx.xx base systems, providing counterevidence to assigning all CT activity automatically to integrated lanes.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports a September 2023 U.S. CT cohort containing xx.xx AT/CT and xx.xx base systems, providing counterevidence to assigning all CT activity automatically to integrated lanes.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx mid-size and xx.xx full-size systems within xx.xx deployed CT systems; supports differentiated configuration assumptions rather than treating technology adoption as an integration-share observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx mid-size and xx.xx full-size systems within xx.xx deployed CT systems; supports differentiated configuration assumptions rather than treating technology adoption as an integration-share observation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2024 assessment records xx.xx checkpoint deployments as of September 2023 against xx.xx planned systems replacing aging equipment. It supports staged renewal, but does not establish current deployment completion or the modeled 2032 share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2024 assessment records xx.xx checkpoint deployments as of September 2023 against xx.xx planned systems replacing aging equipment. It supports staged renewal, but does not establish current deployment completion or the modeled 2032 share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The program separately anticipates enhancements to fielded systems, supporting a retained-equipment commercial pathway without supplying an attributable upgrade-revenue split.

3. Global Airport Passenger Traffic Reaches Record 9.8 Billion in 2025, Airports Council International World reports

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports cooling passenger-growth momentum in 2026, supporting moderation of traffic-driven equipment expansion despite continuing replacement demand.
   ([aci.aero](https://aci.aero/2026/xx.xx/xx.xx/global-airport-passenger-traffic-reaches-record-xx.xx-xx.xx-billion-in-2025-airports-council-international-world-reports/))

4. Smiths Group PLC - Full Year Results for the 12 Months Ended 31 July 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Discloses aviation original-equipment revenue of xx.xx and aftermarket revenue of xx.xx for FY2024; supplies historical cycle proxies. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing the 2027 market-value input; displayed series and growth include calculations: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; supports replacement activity, not an observed global forecast. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2025 aviation original-equipment revenue of GBP xx.xx provides an independent equipment-activity scale check, not a global category share. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025 aviation original-equipment revenue of GBP xx.xx provides an independent equipment-activity scale check, not a global category share. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx cumulative CTiX sales corroborate commercial imaging activity and replacement demand; they do not measure annual global sales. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx cumulative CTiX sales corroborate commercial imaging activity and replacement demand; they do not measure annual global sales. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: GBP xx.xx aviation aftermarket revenue supports lifecycle materiality while qualifying transfer of one supplier's mix to the global service allocation. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GBP xx.xx aviation aftermarket revenue supports lifecycle materiality while qualifying transfer of one supplier's mix to the global service allocation. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; cumulative sales constrain commercial scale but are not annual global shipments. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; cumulative sales constrain commercial scale but are not annual global shipments. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports four operating XDi units as of July 2025 and pending regulatory certification, constraining the small XRD cohort and qualifying aggressive commercialization assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports four operating XDi units as of July 2025 and pending regulatory certification, constraining the small XRD cohort and qualifying aggressive commercialization assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported checkpoint modernization provides a commercial reason to model substitution from discrete legacy offerings; the filing does not disclose standalone configuration revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025

5. Smiths Group PLC - Annual Report & Accounts FY2023
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: Reports FY2022 aviation original-equipment revenue of xx.xx, used as a dimensionless historical capital-cycle proxy. ([www-live.smiths.com](https://www-live.smiths.com/media/phjp1j44/smiths-annual-report-2023.pdf))
   - Evidence informing the 2023 market-value input; displayed series and growth include calculations: Reports FY2023 aviation original-equipment revenue of xx.xx and aftermarket revenue of xx.xx; supports the modeled recovery direction. ([www-live.smiths.com](https://www-live.smiths.com/media/phjp1j44/smiths-annual-report-2023.pdf))
6. Smiths Group PLC - Annual Report FY2022
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: Reports FY2021 aviation revenue of xx.xx, providing a historical purchasing-cycle reference rather than a global observation. ([www-live.smiths.com](https://www-live.smiths.com/media/xjvdpblr/smiths-annual-report-2022-report.pdf))
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: Reports FY2022 aviation revenue of xx.xx and continued weakness in aviation original equipment; supports a delayed capital-spending trough. ([www-live.smiths.com](https://www-live.smiths.com/media/xjvdpblr/smiths-annual-report-2022-report.pdf))
7. Smiths Group PLC - Annual Results for the Year Ended 31 July 2019
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: Reports FY2018 aviation revenue of xx.xx, supplying the historical comparison underlying the backcast. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: Reports FY2019 aviation revenue of xx.xx and customer delivery deferrals, qualifying a traffic-only growth model. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Identifies deliveries deferred into FY2020; supports the possibility of backlog-supported spending despite a contemporaneous traffic shock, not the exact modeled growth rate. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
8. ACI World - The High-Wire Balancing Act: Global Air Transport Demand in 2018 and 2019
   - Evidence informing the 2017 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers and xx.xx% growth in 2018; the growth observation informs the 2017 backcast bridge. ([blog.aci.aero](https://blog.aci.aero/airport-economics/the-high-wire-balancing-act-global-air-transport-demand-in-2018-and-2019/))
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: Provides the observed 2018 traffic-growth reference, not an equipment-market growth observation. ([blog.aci.aero](https://blog.aci.aero/airport-economics/the-high-wire-balancing-act-global-air-transport-demand-in-2018-and-2019/))
9. ICAO A42-WP/556 - State of the Industry and Outlook for Airport Traffic, Presented by ACI
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Records the collapse from xx.xx airport passengers in 2019 to xx.xx in 2020; constrains the shock and funding-risk interpretation. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2021, supporting a prolonged funding and activity shock. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2023 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2023; traffic recovery is distinguished from equipment purchasing. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2024, providing a demand recovery cross-check. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))

10. Port of Seattle - Baggage Handling System Optimization
    - Evidence informing the 2029 market-value input; displayed series and growth include calculations: Seattle plans to consolidate six baggage-screening systems, increase supported passenger capacity, and reduce screening-machine demand. Supports integration spending without one-for-one detector growth. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing the 2032 market-value input; displayed series and growth include calculations: The consolidation example constrains equipment-volume assumptions; its whole baggage-handling project value is excluded from market sizing. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing the 2040 market-value input; displayed series and growth include calculations: Provides a commercial counterexample to extrapolating passenger growth directly into machine counts throughout the long-range forecast. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Consolidation of six systems with reduced machine demand qualifies a traffic-to-detector-volume forecast. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The consolidation project supports integration-driven conveyor demand, but its whole-project value is excluded. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Brownfield consolidation supports the integration-demand premise, not the forecast's exact service growth factor. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport replaces six separate screening systems with centralized screening and expects reduced screening-machine demand while expanding capacity. This supplies a counterforce to volume-only checked-baggage forecasting.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Seattle is consolidating six screening systems, expects reduced screening-machine demand and schedules final-phase completion in 2029. Supports integration demand while constraining detector-volume growth; the whole-project budget is excluded.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seattle is consolidating six screening systems, expects reduced screening-machine demand and schedules final-phase completion in 2029. Supports integration demand while constraining detector-volume growth; the whole-project budget is excluded.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seattle's project combines increased screening capacity with consolidation from six screening systems and reduced screening-machine demand. This constrains the forecast assumption that capacity growth requires proportional equipment additions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement and capacity objectives coexist within the project. Its wider baggage-handling budget is not treated as screening-equipment revenue or assigned additively to multiple purposes.
11. Smiths Group PLC - Half Year Results for the Six Months Ended 31 January 2026
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports xx.xx% organic growth for Smiths Detection in HY2026, with aviation checkpoint upgrades contributing. Supports a positive 2026 nowcast, not a directly observed global growth rate. ([www-live.smiths.com](https://www-live.smiths.com/media/villk35h/smiths-hy26-results-press-release.pdf))
12. Sydney Airport - Traffic and Operational Performance Q4 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sydney's xx.xx-million traffic and staged xx.xx-lane/six-of-seven-lane deployment constrain national scale and modernization assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sydney's xx.xx-million traffic and staged xx.xx-lane/six-of-seven-lane deployment constrain national scale and modernization assumptions.

13. CATSA 2025 Annual Report - Notes to the Financial Statements

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx accounts disclose C$xx.xx maintenance/spares and C$xx.xx training/certification, supporting the service-budget calibration but not global baggage-only shares. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx accounts disclose C$xx.xx maintenance/spares and C$xx.xx training/certification, supporting the service-budget calibration but not global baggage-only shares. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintenance and spare parts are combined in the accounts; the labor-versus-goods split therefore remains modeled. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintenance and spare parts are combined in the accounts; the labor-versus-goods split therefore remains modeled. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The C$xx.xx training/certification expense supplies the numerator of the adjusted training-to-capital proxy. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The C$xx.xx training/certification expense supplies the numerator of the adjusted training-to-capital proxy. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: C$xx.xx trace/consumables is distinct from maintenance/spares and supplies the contrary consumables-intensity comparator, not a global observation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: C$xx.xx trace/consumables is distinct from maintenance/spares and supplies the contrary consumables-intensity comparator, not a global observation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately reports C$xx.xx maintenance/spares, C$xx.xx trace/consumables and C$xx.xx training/certification, constraining attributable agency lifecycle expenditure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates screening-contractor payments from equipment support, preventing staffing expenditure from becoming equipment-market purchasing.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately reports C$xx.xx maintenance/spares, C$xx.xx trace/consumables and C$xx.xx training/certification, constraining attributable agency lifecycle expenditure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates screening-contractor payments from equipment support, preventing staffing expenditure from becoming equipment-market purchasing.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited expense disclosure reports C$xx.xx for maintenance and spare parts in the year ended March xx.xx 2025. It constrains support-spending materiality, not the amount attributable to an independent provider. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))

14. CATSA 2025 Annual Report - Management's Discussion and Analysis

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: EDS capital expenditure of C$xx.xx includes equipment and installation/integration and supplies the training-calibration denominator, subject to baggage attribution. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EDS capital expenditure of C$xx.xx includes equipment and installation/integration and supplies the training-calibration denominator, subject to baggage attribution. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The capital definition includes associated installation and integration, supporting the distinction between deployment services and equipment value. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The capital definition includes associated installation and integration, supporting the distinction between deployment services and equipment value. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Actual spending, original budget and reprofile amounts constrain the forecast's purchasing-execution interpretation; they are not a global growth rate. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx pre-board capital appropriations used were C$xx.xx. This supplies the Canadian purchasing comparison and a component of the non-passenger-to-cabin activity proxy, not a global share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx pre-board capital appropriations used were C$xx.xx. This supplies the Canadian purchasing comparison and a component of the non-passenger-to-cabin activity proxy, not a global share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx hold-baggage capital appropriations used were C$xx.xx; this constrains the independent application-capital comparison.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx non-passenger capital appropriations used were C$xx.xx, below the original C$xx.xx budget. Actual purchasing informs the proxy and qualifies automatic announcement-to-revenue conversion.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx non-passenger capital appropriations used were C$xx.xx, below the original C$xx.xx budget. Actual purchasing informs the proxy and qualifies automatic announcement-to-revenue conversion.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports C$xx.xx EDS capital expenditure for FY2024/xx.xx and identifies both baggage equipment and full-body scanners in the capital scope, requiring a baggage-attribution adjustment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports C$xx.xx EDS capital expenditure for FY2024/xx.xx and identifies both baggage equipment and full-body scanners in the capital scope, requiring a baggage-attribution adjustment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EDS outturn was C$xx.xx versus an original C$xx.xx plan and revised C$xx.xx budget. Reprofiling constrains assumed award conversion and deployment timing; it does not measure procurement-channel mix. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The actual capital-project list identifies hold-baggage capacity expansion at Montréal-Trudeau, supporting the expansion classification, not its modeled global revenue weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The actual capital-project list identifies hold-baggage capacity expansion at Montréal-Trudeau, supporting the expansion classification, not its modeled global revenue weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The actual project list includes checkpoint CT deployment and hold-baggage oversize-equipment lifecycle management, supporting renewal activity without disclosing its purpose-specific spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The actual project list includes checkpoint CT deployment and hold-baggage oversize-equipment lifecycle management,

15. Aviation security screening approved equipment list
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Baggage EDS/EDSCB and conventional X-ray classes support the inspection-system boundary, not sales weights. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Baggage EDS/EDSCB and conventional X-ray classes support the inspection-system boundary, not sales weights. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Liquid detectors are a distinct cabin-baggage category; the complete bulk-material extension remains modeled within the captured boundary. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Liquid detectors are a distinct cabin-baggage category; the complete bulk-material extension remains modeled within the captured boundary. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ETD serves baggage and other applications, requiring explicit baggage attribution rather than allocating all detector sales here. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ETD serves baggage and other applications, requiring explicit baggage attribution rather than allocating all detector sales here. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dedicated ETD consumables are separately recognized, supporting goods classification without establishing spending or unrestricted interchangeability. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dedicated ETD consumables are separately recognized, supporting goods classification without establishing spending or unrestricted interchangeability. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
16. Quantifying the Impacts of Delayed Maintenance of Airport Assets: A Guide - Chapter 6, Baggage Handling Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The baggage-handling cost study uses a modeled xx.xx% labor share, adopted only as an adjacent support-cost proxy. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The baggage-handling cost study uses a modeled xx.xx% labor share, adopted only as an adjacent support-cost proxy. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Its corresponding modeled xx.xx% parts share calibrates the labor/goods separation; it is not an observed screening-equipment ratio. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Its corresponding modeled xx.xx% parts share calibrates the labor/goods separation; it is not an observed screening-equipment ratio. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))

17. Procurement of Next Generation Security Checkpoint Equipment - Contract Award Notice

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The seven-system award includes automated tray return, demonstrating bundled purchasing but no separately priced hardware allocation. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The seven-system award includes automated tray return, demonstrating bundled purchasing but no separately priced hardware allocation. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The integrated CT/tray-return scope constrains the automation interface boundary; it does not value general airport conveyors. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The integrated CT/tray-return scope constrains the automation interface boundary; it does not value general airport conveyors. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Central image processing is an explicit purchased function, without a separately disclosed license price. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Central image processing is an explicit purchased function, without a separately disclosed license price. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supply, installation and commissioning are included deliverables, supporting deployment-service attribution without establishing its percentage. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supply, installation and commissioning are included deliverables, supporting deployment-service attribution without establishing its percentage. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2022 award covers seven systems combining cabin CT, tray return, image processing and deployment responsibilities. It supports integrated purchased scope, not completed delivery or a global sales weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2022 award covers seven systems combining cabin CT, tray return, image processing and deployment responsibilities. It supports integrated purchased scope, not completed delivery or a global sales weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The integrated Newcastle procurement reports a GBP xx.xx-xx.xx offer range but no physical review-room location; its value cannot be assigned automatically to local review. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The integrated Newcastle procurement reports a GBP xx.xx-xx.xx offer range but no physical review-room location; its value cannot be assigned automatically to local review. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Central image processing is included, but a separate on-site room is not specified; constrains classification rather than supplying a remote-review sales weight. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Central image processing is included, but a separate on-site room is not specified; constrains classification rather than supplying a remote-review sales weight. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The bundled award does not identify a mixed-location package or its attributable price, preventing automatic hybrid classification. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The bundled award does not identify a mixed-location package or its attributable price, preventing automatic hybrid classification.

18. AI for Monitoring Aviation Security: Fraport and German Federal Police Start Regular Operation of APIDS
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: January xx.xx 2026 APIDS deployment demonstrates additional software adoption, without establishing separate revenue. ([fraport.com](https://www.fraport.com/en/newsroom/press-releases/2026/q1/ai-for-monitoring-aviation-security.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Deployment on more than xx.xx CT scanners is the independent quantitative rollout test; it does not validate the modeled license-growth factor. ([fraport.com](https://www.fraport.com/en/newsroom/press-releases/2026/q1/ai-for-monitoring-aviation-security.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: On January xx.xx 2026, Fraport announced regular APIDS software operation on more than xx.xx existing Smiths CT scanners. This independently supports retained-system enhancement at one buyer, not global penetration or realized license revenue.
19. Smiths Detection - Digital Innovation
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier identifies detection applications as a commercial function; separate fee allocation remains assumed. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier identifies detection applications as a commercial function; separate fee allocation remains assumed. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized screening supports the image-review function, not an observed software revenue weight. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized screening supports the image-review function, not an observed software revenue weight. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Connectivity, multi-vendor integration and equipment-health applications establish the fleet-management function without proving customer-specific rights or prices. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Connectivity, multi-vendor integration and equipment-health applications establish the fleet-management function without proving customer-specific rights or prices. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ELECTORA is offered for integrating multi-vendor devices, datasets and applications; establishes the vendor-platform category but discloses no category revenue or customer-specific substitution entitlement. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ELECTORA is offered for integrating multi-vendor devices, datasets and applications; establishes the vendor-platform category but discloses no category revenue or customer-specific substitution entitlement. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
20. UK Civil Aviation Authority - Threat Image Projection (TIP)
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: TIP library approval and renewal obligations support continuing software commitments, not the modeled global fee or share. ([caa.co.uk](https://www.caa.co.uk/commercial-industry/security/training-and-human-factors/threat-image-projection/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: TIP library approval and renewal obligations support continuing software commitments, not the modeled global fee or share. ([caa.co.uk](https://www.caa.co.uk/commercial-industry/security/training-and-human-factors/threat-image-projection/))

21. Smiths Detection - Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Inclusive capital-equipment support covers labor and parts, requiring a single-count economic allocation across services and goods. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Inclusive capital-equipment support covers labor and parts, requiring a single-count economic allocation across services and goods. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Equipment-specific training and certification are commercial offerings distinct from routine screening staffing. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Equipment-specific training and certification are commercial offerings distinct from routine screening staffing. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The parts-support offering and inclusive contracts corroborate the goods boundary, but not the assumed xx.xx% allocation. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The parts-support offering and inclusive contracts corroborate the goods boundary, but not the assumed xx.xx% allocation. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes inclusive labor-and-parts contracts and manufacturer support, supporting nonduplicative lifecycle attribution to projection equipment, not a verified xx.xx% fee. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes inclusive labor-and-parts contracts and manufacturer support, supporting nonduplicative lifecycle attribution to projection equipment, not a verified xx.xx% fee. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports the existence of manufacturer lifecycle offerings; broad service-footprint counts are not used as CT revenue weights.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports the existence of manufacturer lifecycle offerings; broad service-footprint counts are not used as CT revenue weights.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports commercial maintenance, refurbishment and parts offerings for portable equipment without establishing baggage-specific service receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports commercial maintenance, refurbishment and parts offerings for portable equipment without establishing baggage-specific service receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer markets direct on-site support and inclusive capital-equipment labor-and-parts contracts. This supports a continuing manufacturer-service alternative, without measuring a pricing premium. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer markets direct on-site support and inclusive capital-equipment labor-and-parts contracts. This supports a continuing manufacturer-service alternative, without measuring a pricing premium. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Manufacturer-provided bundled support is a commercial alternative to separate technical-service procurement, limiting assumptions of unrestricted third-party substitution. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Manufacturer-provided bundled support is a commercial alternative to separate technical-service procurement, limiting assumptions of unrestricted third-party substitution. ([smithsdetection.com](https://www.smithsdetection.com/service/))

22. Hold baggage screening upgrade, Dublin and Cork Airports, Ireland

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate professional-service appointments cover project controls, design oversight and interface management; the broader construction budget is not used as screening-service revenue. ([neccontract.com](https://www.neccontract.com/projects/hold-baggage-screening-upgrade-dublin-and-cork-airports-ireland))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate professional-service appointments cover project controls, design oversight and interface management; the broader construction budget is not used as screening-service revenue. ([neccontract.com](https://www.neccontract.com/projects/hold-baggage-screening-upgrade-dublin-and-cork-airports-ireland))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes three upgraded hold-baggage systems delivered through separate construction, baggage-integration and advisory appointments, completed in March 2023. Supports integrated-system attribution without assuming a universal single-prime model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes three upgraded hold-baggage systems delivered through separate construction, baggage-integration and advisory appointments, completed in March 2023. Supports integrated-system attribution without assuming a universal single-prime model.

23. Corporate Plan 2025-26 to 2029-30 Summary - Financial Overview
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CATSA distinguishes major-checkpoint CT replacement from single-view-to-multiview replacement elsewhere, supporting application-specific projection demand and forecast assumptions. It also discloses capital funding subject to reprofile approval. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/corporate-plan-2025-xx.xx-2029-xx.xx/financial-overview))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CATSA distinguishes major-checkpoint CT replacement from single-view-to-multiview replacement elsewhere, supporting application-specific projection demand and forecast assumptions. It also discloses capital funding subject to reprofile approval. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/corporate-plan-2025-xx.xx-2029-xx.xx/financial-overview))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies single-view equipment as a replacement population, supporting the modeled displacement mechanism rather than an observed global share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies single-view equipment as a replacement population, supporting the modeled displacement mechanism rather than an observed global share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Multiview remains a planned purchasing destination at non-passenger checkpoints and Class xx.xx airports, qualifying universal CT substitution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Multiview remains a planned purchasing destination at non-passenger checkpoints and Class xx.xx airports, qualifying universal CT substitution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CT replacement is a stated major-checkpoint investment priority, subject to funding and delivery risks; this supports direction, not the modeled global share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CT replacement is a stated major-checkpoint investment priority, subject to funding and delivery risks; this supports direction, not the modeled global share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The plan includes additional screening equipment and expansion of existing hold-baggage screening capacity. Its FY2025/xx.xx capital budget is C$xx.xx across mixed activities; plans are not recognized supplier revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The plan includes additional screening equipment and expansion of existing hold-baggage screening capacity. Its FY2025/xx.xx capital budget is C$xx.xx across mixed activities; plans are not recognized supplier revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The plan distinguishes replacement of checkpoint X-ray equipment with CT and asset lifecycle renewal from additional capacity. Funding, partner timing and reprofiling qualify forecast realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The plan distinguishes replacement of checkpoint X-ray equipment with CT and asset lifecycle renewal from additional capacity. Funding, partner timing and reprofiling qualify forecast realization.
24. ECAC CEP Public Equipment List - Explosive Detection Systems, Update 18 April 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 list retains XRD xx.xx supporting the legacy commercial-category premise but not the assumed installed cohort or sales volume. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-EDS-equipment_public_list_update_20250418.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 list retains XRD xx.xx supporting the legacy commercial-category premise but not the assumed installed cohort or sales volume. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-EDS-equipment_public_list_update_20250418.pdf))

25. Partners - HALO X-ray Technologies Ltd

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named airport pilots and approximately USD xx.xx and USD xx.xx development programs establish commercialization activity and program scale, not realized annual XRD equipment revenue. ([haloxray.com](https://www.haloxray.com/partners))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named airport pilots and approximately USD xx.xx and USD xx.xx development programs establish commercialization activity and program scale, not realized annual XRD equipment revenue. ([haloxray.com](https://www.haloxray.com/partners))

26. Explosives Trace Detectors (ETDs): Market Survey Report, November 2021

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Historical IONSCAN xx.xx list-price configurations around USD xx.xx-xx.xx constrain the IMS price class; they do not establish 2025 purchasing volumes or realizations. ([dhs.gov](https://dhs.gov/sites/default/files/2021-xx.xx/SAVER_Explosives%20Trace%20Detectors%20MSR_08Nov2021_Final-xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Historical IONSCAN xx.xx list-price configurations around USD xx.xx-xx.xx constrain the IMS price class; they do not establish 2025 purchasing volumes or realizations. ([dhs.gov](https://dhs.gov/sites/default/files/2021-xx.xx/SAVER_Explosives%20Trace%20Detectors%20MSR_08Nov2021_Final-xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The Fido X4 historical USD xx.xx list-price benchmark supports the explicit nominal-price bridge; baggage attribution and unit mix remain modeled.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The Fido X4 historical USD xx.xx list-price benchmark supports the explicit nominal-price bridge; baggage attribution and unit mix remain modeled.

27. Astrotech Corporation - Form 10-K for the Fiscal Year Ended June 30, 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Discloses FY2025 product and service revenue, xx.xx deployment locations, and a six-unit USD xx.xx order. These provide a price comparator and supplier-scale check, not baggage-only revenue. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20250630_10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Discloses FY2025 product and service revenue, xx.xx deployment locations, and a six-unit USD xx.xx order. These provide a price comparator and supplier-scale check, not baggage-only revenue. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20250630_10k.htm))

28. Astrotech Corporation - Form 10-K for the Fiscal Year Ended June 30, 2026

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports eight TRACER units sold in FY2025 versus three in FY2026, identifies grant-related revenue within FY2025 product revenue, and describes a potential subsidiary sale. These constrain MS attribution and forecast optimism. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20260630_10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports eight TRACER units sold in FY2025 versus three in FY2026, identifies grant-related revenue within FY2025 product revenue, and describes a potential subsidiary sale. These constrain MS attribution and forecast optimism. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20260630_10k.htm))

29. Liquid Explosive Detector, Bottle Liquid Scanner, Insight - Agilent

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Raman-based airport resolution products and dated September 2025 launch and May 2026 contract announcements. Supports category continuity and adoption premises, not global unit or revenue shares. ([agilent.com](https://www.agilent.com/en/product/molecular-spectroscopy/raman-spectroscopy/raman-aviation-security-systems/insight-series-alarm-resolution-systems))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Raman-based airport resolution products and dated September 2025 launch and May 2026 contract announcements. Supports category continuity and adoption premises, not global unit or revenue shares. ([agilent.com](https://www.agilent.com/en/product/molecular-spectroscopy/raman-spectroscopy/raman-aviation-security-systems/insight-series-alarm-resolution-systems))

30. Bottle Liquid Scanner for Sale from China - Securina

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Positions microwave-based liquid-screening products for airports and customs. Supports commercial classification only; prices, authorization and purchasing weights remain assumptions. ([securinadetection.com](https://www.securinadetection.com/Bottle-Liquid-Scanner-Manufacturer-China.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Positions microwave-based liquid-screening products for airports and customs. Supports commercial classification only; prices, authorization and purchasing weights remain assumptions. ([securinadetection.com](https://www.securinadetection.com/Bottle-Liquid-Scanner-Manufacturer-China.html))

31. Quick, Accurate Threat-Detection Scanner for Liquid, Aerosol, and Gels Eases and Secures Air Travel Worldwide

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies LS10 as a complete commercial liquid scanner combining RF and ultrasonic capabilities, supporting nonduplicative complete-product attribution. ([battelle.org](https://www.battelle.org/insights/case-studies/case-study-details/quick-accurate-threat-detection-scanner-for-liquid-aerosol-and-gels-eases-and-secures-air-travel-worldwide))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies LS10 as a complete commercial liquid scanner combining RF and ultrasonic capabilities, supporting nonduplicative complete-product attribution. ([battelle.org](https://www.battelle.org/insights/case-studies/case-study-details/quick-accurate-threat-detection-scanner-for-liquid-aerosol-and-gels-eases-and-secures-air-travel-worldwide))

32. ECAC CEP Public Equipment List - Liquid Explosive Detection Systems, Update 10 July 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 list includes One Resonance Sensors MobiLab BLS. This supports retained listed status for a named product, not active supply, paid installed stock or observed receipts. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-LEDS%20equipment%20public%20list-update%xx.xx-xx.xx-rev1.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 list includes One Resonance Sensors MobiLab BLS. This supports retained listed status for a named product, not active supply, paid installed stock or observed receipts. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-LEDS%20equipment%20public%20list-update%xx.xx-xx.xx-rev1.pdf))

33. MobiLab BLS Bottled Liquid Scanner Endorsed By European Civil Aviation Conference

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's May xx.xx 2014 announcement identifies MobiLab BLS as an NMR-based airport liquid scanner and states that orders were being accepted. Establishes historical commercial offering, not 2025 deliveries. ([prnewswire.com](https://www.prnewswire.com/news-releases/mobilab-bls-bottled-liquid-scanner-endorsed-by-european-civil-aviation-conference-xx.xx.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's May xx.xx 2014 announcement identifies MobiLab BLS as an NMR-based airport liquid scanner and states that orders were being accepted. Establishes historical commercial offering, not 2025 deliveries. ([prnewswire.com](https://www.prnewswire.com/news-releases/mobilab-bls-bottled-liquid-scanner-endorsed-by-european-civil-aviation-conference-xx.xx.html))

34. SafePointe BLS Powered by ORS - Bottled Liquid Explosives Detection Solution

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The branded supplier brochure documents an ORS-powered bottled-liquid product channel. Its availability does not establish current orders or support continuity; it supports only the legacy-channel modeling premise. ([uploads-ssl.webflow.com](https://uploads-ssl.webflow.com/608330bcae48962bf6d7ff37/6149f80be6c30d34b5e3debe_BLS-Flyer-Compressed.pdf))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The branded supplier brochure documents an ORS-powered bottled-liquid product channel. Its availability does not establish current orders or support continuity; it supports only the legacy-channel modeling premise. ([uploads-ssl.webflow.com](https://uploads-ssl.webflow.com/608330bcae48962bf6d7ff37/6149f80be6c30d34b5e3debe_BLS-Flyer-Compressed.pdf))

35. Florida Division of Corporations - One Resonance Sensors, LLC, Entity Detail

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official registry records One Resonance Sensors, LLC as inactive following administrative dissolution on September xx.xx 2019. This counterevidence constrains continuity assumptions but does not prove zero surviving product support. ([search.sunbiz.org](https://search.sunbiz.org/Inquiry/CorporationSearch/SearchResultDetail?aggregateId=flal-l11000122986-c57f60b3-690d-4c87-836a-9aeb045075e8&directionType=CurrentList&inquirytype=EntityName&listNameOrder=ONERESONANCESENSORS+L110001229860&searchNameOrder=ONERESONANCESENSORS+L110001229860&searchTerm=ONE+RED+AMPERSAND+LLC))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official registry records One Resonance Sensors, LLC as inactive following administrative dissolution on September xx.xx 2019. This counterevidence constrains continuity assumptions but does not prove zero surviving product support. ([search.sunbiz.org](https://search.sunbiz.org/Inquiry/CorporationSearch/SearchResultDetail?aggregateId=flal-l11000122986-c57f60b3-690d-4c87-836a-9aeb045075e8&directionType=CurrentList&inquirytype=EntityName&listNameOrder=ONERESONANCESENSORS+L110001229860&searchNameOrder=ONERESONANCESENSORS+L110001229860&searchTerm=ONE+RED+AMPERSAND+LLC))

36. Explosive Detection - Teledyne FLIR Defense

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists offered Fido X-series products and service support, supporting commercial offering continuity only, not airport-specific eligibility or sales weights. ([flir.com](https://www.flir.com/threat-detection/explosives/))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists offered Fido X-series products and service support, supporting commercial offering continuity only, not airport-specific eligibility or sales weights. ([flir.com](https://www.flir.com/threat-detection/explosives/))

37. Scintrex Trace E3500 Explosive Trace Detection Unit - SecurityPro USA

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distributor offers E3500 chemiluminescence equipment and identifies customs/border applications. Supports a commercial category lead, not measured airport purchasing or the assumed price. ([securityprousa.com](https://www.securityprousa.com/collections/explosive-detection/products/scintrex-trace-e3500-explosive-trace-detection-unit))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distributor offers E3500 chemiluminescence equipment and identifies customs/border applications. Supports a commercial category lead, not measured airport purchasing or the assumed price. ([securityprousa.com](https://www.securityprousa.com/collections/explosive-detection/products/scintrex-trace-e3500-explosive-trace-detection-unit))

38. Portable Explosive Detector - Trace Detector EVD-3000+

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distributor offers EVD-xx.xx+ thermo-redox equipment. Supports offered-product classification, not airport authorization, purchasing volume or the modeled realization. ([securityprousa.com](https://www.securityprousa.com/products/scintrex-trace-evd-xx.xx-portable-trace-detection-unit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distributor offers EVD-xx.xx+ thermo-redox equipment. Supports offered-product classification, not airport authorization, purchasing volume or the modeled realization. ([securityprousa.com](https://www.securityprousa.com/products/scintrex-trace-evd-xx.xx-portable-trace-detection-unit))

39. CATSA's Purchase Order Terms and Conditions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contract terms constrain maintenance, parts and consumables escalation, qualifying unrestricted aftermarket pricing assumptions in the projection lifecycle model. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contract terms constrain maintenance, parts and consumables escalation, qualifying unrestricted aftermarket pricing assumptions in the projection lifecycle model. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contractual price limits constrain the pricing premise, but do not verify CT-specific global support receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contractual price limits constrain the pricing premise, but do not verify CT-specific global support receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintenance and consumable escalation limits qualify the trace-platform pricing assumption rather than establishing the modeled IMS share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintenance and consumable escalation limits qualify the trace-platform pricing assumption rather than establishing the modeled IMS share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The pre-existing-software clause grants broad license rights without transferring ownership; proprietary ownership alone therefore cannot establish the Closed revenue numerator. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The pre-existing-software clause grants broad license rights without transferring ownership; proprietary ownership alone therefore cannot establish the Closed revenue numerator. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Software modification rights are not themselves proof of standards-based interfaces or independent component substitution; supports conservative classification. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Software modification rights are not themselves proof of standards-based interfaces or independent component substitution; supports conservative classification. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))

40. Liquids Scanner for Airport Security - UC Davis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2011 account establishes a development contract and licensing relationship. Its development allocation is excluded from 2025 receipts and does not establish a surviving commercial cohort. ([ucdavis.edu](https://www.ucdavis.edu/news/liquids-scanner-airport-security))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2011 account establishes a development contract and licensing relationship. Its development allocation is excluded from 2025 receipts and does not establish a surviving commercial cohort. ([ucdavis.edu](https://www.ucdavis.edu/news/liquids-scanner-airport-security))
41. Open Architecture for Airport Security Systems, Second Edition
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes proprietary integration from interoperable connections, supporting the category boundary rather than an observed revenue share. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes proprietary integration from interoperable connections, supporting the category boundary rather than an observed revenue share. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Integration does not guarantee interoperability; this constrains attribution of vendor-mediated configurations. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Integration does not guarantee interoperability; this constrains attribution of vendor-mediated configurations. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Allows identified partial compliance and discusses accountable integration responsibilities; supports scoped open attribution, not whole-purchase reclassification. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Allows identified partial compliance and discusses accountable integration responsibilities; supports scoped open attribution, not whole-purchase reclassification. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))

42. CATSA 2025 Annual Report - Overview of Activities

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines across xx.xx airports serving more than xx.xx% of passengers in 2024/xx.xx; provides an independent integration-activity check, not a direct value allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines across xx.xx airports serving more than xx.xx% of passengers in 2024/xx.xx; provides an independent integration-activity check, not a direct value allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported modernized passenger coverage constrains an assumption of universally standalone activity, while leaving commercial architecture and revenue attribution unresolved. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported modernized passenger coverage constrains an assumption of universally standalone activity, while leaving commercial architecture and revenue attribution unresolved. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The annual report identifies enhanced non-passenger requirements and implementation planned from spring 2025. This supports a conditional modernization premise, not the modeled global uptake factor.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2024/xx.xx; provides a Canadian adoption comparator, not a global local-review revenue weight. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2024/xx.xx; provides a Canadian adoption comparator, not a global local-review revenue weight. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies remote screening within CATSA Plus and quantifies deployment; constrains the commercial-adoption premise but does not establish each review room's location. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies remote screening within CATSA Plus and quantifies deployment; constrains the commercial-adoption premise but does not establish each review room's location. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Deployment coverage constrains the addressable network-enabled pool; it does not disclose hybrid contracts or justify the modeled hybrid percentage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Deployment coverage constrains the addressable network-enabled pool; it does not disclose hybrid contracts or justify the modeled hybrid percentage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))

43. CATSA - Beyond the Checkpoint, December 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx operational CT machines at eight airports and a modular-line average of xx.xx passengers per hour versus xx.xx for traditional multi-split lines; supports the bounded throughput-to-unit bridge and phased-deployment premise. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/about-us/beyond-checkpoint-2025-december))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx operational CT machines at eight airports and a modular-line average of xx.xx passengers per hour versus xx.xx for traditional multi-split lines; supports the bounded throughput-to-unit bridge and phased-deployment premise. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/about-us/beyond-checkpoint-2025-december))

44. Smiths Detection Delivers Fully Automated International Remote Baggage Screening System Between South Korea and the United States

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2026 disclosure identifies xx.xx software licenses and DICOS V3.xx.xx exchange, and dates operational service to August 2025. Supports commercial standards-based activity and forecast feasibility, not an observed global share or a confirmed 2025 license inventory. ([smithsdetection.com](https://www.smithsdetection.com/press-releases/smiths-detection-delivers-fully-automated-international-remote-baggage-screening-system-between-south-korea-and-the-united-states/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2026 disclosure identifies xx.xx software licenses and DICOS V3.xx.xx exchange, and dates operational service to August 2025. Supports commercial standards-based activity and forecast feasibility, not an observed global share or a confirmed 2025 license inventory. ([smithsdetection.com](https://www.smithsdetection.com/press-releases/smiths-detection-delivers-fully-automated-international-remote-baggage-screening-system-between-south-korea-and-the-united-states/))

45. SeeTrue Marks Milestone with Over 100 X-ray Checkpoint Installations of Advanced AI-Based Threat Detection Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 announcement reports the 100th operational screening lane across airports and other sectors. Provides a limited commercial-adoption scale check; it is neither airport-only nor a census of standards-based entitlements. ([seetrue.ai](https://www.seetrue.ai/seetrue-marks-milestone-with-over-xx.xx-x-ray-checkpoint-installations-of-advanced-ai-based-threat-detection-software/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 announcement reports the 100th operational screening lane across airports and other sectors. Provides a limited commercial-adoption scale check; it is neither airport-only nor a census of standards-based entitlements. ([seetrue.ai](https://www.seetrue.ai/seetrue-marks-milestone-with-over-xx.xx-x-ray-checkpoint-installations-of-advanced-ai-based-threat-detection-software/))

46. Scarabee's Checkpoint Property Screening System to be deployed at DEN

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-lane Denver award combining Scarabee lanes with Smiths scanners. Corroborates a commercial mixed-supplier integration route; an award is not realized annual revenue or proof of unrestricted interoperability. ([daifukuatec.com](https://daifukuatec.com/news/scarabees-checkpoint-property-screening-system-to-be-deployed-at-den))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-lane Denver award combining Scarabee lanes with Smiths scanners. Corroborates a commercial mixed-supplier integration route; an award is not realized annual revenue or proof of unrestricted interoperability. ([daifukuatec.com](https://daifukuatec.com/news/scarabees-checkpoint-property-screening-system-to-be-deployed-at-den))

47. CATSA Annual Report 2024 - Management's Discussion and Analysis

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx pre-board capital appropriations used of C$xx.xx provide the second period in the non-passenger-to-cabin purchasing comparison.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx non-passenger capital appropriations used of C$xx.xx enter the two-period activity proxy; they do not identify the property-only fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx non-passenger capital appropriations used of C$xx.xx enter the two-period activity proxy; they do not identify the property-only fraction.

48. Smiths Detection confirm order of 91 advanced scanners for new terminals at Moscow Sheremetyevo International Airport
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The dated airport deployment includes xx.xx entrance baggage systems and xx.xx cabin-checkpoint systems. Their ratio supplies a historical relative-density proxy, subsequently discounted for assumed global coverage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated airport deployment includes xx.xx entrance baggage systems and xx.xx cabin-checkpoint systems. Their ratio supplies a historical relative-density proxy, subsequently discounted for assumed global coverage.
49. Cochin International Airport Selects Smiths Detection's CTX 9800 for Next-Generation Hold Baggage Screening
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2017 deployment identifies xx.xx customs baggage systems alongside four hold-baggage systems. This supports the customs-intensive historical configuration proxy, not current global fleet or revenue observations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2017 deployment identifies xx.xx customs baggage systems alongside four hold-baggage systems. This supports the customs-intensive historical configuration proxy, not current global fleet or revenue observations.
50. CATSA Functions, Programs and Activities
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Hold-baggage activities include equipment purchase, baggage-handling integration and equipment maintenance, supporting the checked-baggage capital and lifecycle boundary.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Hold-baggage activities include equipment purchase, baggage-handling integration and equipment maintenance, supporting the checked-baggage capital and lifecycle boundary.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-passenger screening covers airport workers and their belongings; only attributable property-screening offerings enter this allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-passenger screening covers airport workers and their belongings; only attributable property-screening offerings enter this allocation.
51. Fraport TAV Antalya Airport - About the security control itself
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The airport operator distinguishes terminal-entry security from a subsequent checkpoint. This supports a separate entrance-screening mission while providing no global prevalence or spending share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport operator distinguishes terminal-entry security from a subsequent checkpoint. This supports a separate entrance-screening mission while providing no global prevalence or spending share.
52. EMSD VoiceLink, Issue 79, June 2026 - EMSD Provides Comprehensive Support for Terminal 2 Commissioning
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June 2026 account identifies baggage-and-parcel equipment procurement and installation for the customs authority at Terminal xx.xx. It supports a separate commissioning mission but does not isolate baggage expenditure.
53. GAO-26-107811 - Guam: Considerations for Evaluating Alternative Customs Models and Potential Economic Effects
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The audit identifies two historical airport-customs baggage systems inactive for years and delayed replacement procurement. This challenges conversion of installed stock or acknowledged need directly into annual equipment and support revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The audit identifies two historical airport-customs baggage systems inactive for years and delayed replacement procurement. This challenges conversion of installed stock or acknowledged need directly into annual equipment and support revenue.

54. Bennet, Moran, Van Hollen, Boozman Introduce Bill to Bolster Aviation Safety
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 official release identifies xx.xx U.S. screening lanes, used as agency purchasing-exposure calibration rather than observed annual equipment sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 official release identifies xx.xx U.S. screening lanes, used as agency purchasing-exposure calibration rather than observed annual equipment sales.
55. Bank of Canada - Annual exchange rates
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual exchange-rate observations support the inherited fiscal-period approximation of xx.xx Canadian dollars per U.S. dollar; this is not a transaction-weighted exchange rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual exchange-rate observations support the inherited fiscal-period approximation of xx.xx Canadian dollars per U.S. dollar; this is not a transaction-weighted exchange rate.
56. Japan’s leading airline revolutionizes check in experience with new Smiths Detection technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The August 2023 announcement identifies JAL as customer for five screening ecosystems and reports xx.xx deployed iLane units across Japan. These are historical commercial-stock anchors, not an airline-only fleet or 2025 sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August 2023 announcement identifies JAL as customer for five screening ecosystems and reports xx.xx deployed iLane units across Japan. These are historical commercial-stock anchors, not an airline-only fleet or 2025 sales observation.
57. Narita International Airport anticipates threats with integrated solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Narita airport as a screening-technology customer and describes xx.xx lane-related installations, qualifying any assumption that the supplier's Japanese installed stock was purchased entirely by airlines.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Narita airport as a screening-technology customer and describes xx.xx lane-related installations, qualifying any assumption that the supplier's Japanese installed stock was purchased entirely by airlines.
58. MLIT - 保安検査の実施主体が変わります！ - June 27, 2025
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement targets transfer of security-screening responsibility from airlines to airport managers, with leading cases targeted in FY2026. Supports a conditional reduction in airline purchasing, not an observed contract-transfer percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transfer direction supports modeled airport-manager purchasing gains. Continued shared financing does not imply equal purchasing shares.
59. ICTS International N.V. - Annual Report for the year ended December 31, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Discloses USD xx.xx company-wide property/equipment purchases and USD xx.xx airport-security revenue in 2025. Supports an asset-light purchasing-intensity proxy; the in-scope fraction and global expansion remain assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Discloses USD xx.xx company-wide property/equipment purchases and USD xx.xx airport-security revenue in 2025. Supports an asset-light purchasing-intensity proxy; the in-scope fraction and global expansion remain assumptions.

60. EU Publications Office - Purchase and maintenance of non-intrusive X-ray inspection equipment for baggage and air cargo volume control
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Autoridade Tributária e Aduaneira as buyer and reports a 2026 award of EUR xx.xx across four lots for baggage/air-cargo inspection equipment and maintenance. Provides a buyer-role and commercial-scale comparator, not 2025 baggage-only annual expenditure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Autoridade Tributária e Aduaneira as buyer and reports a 2026 award of EUR xx.xx across four lots for baggage/air-cargo inspection equipment and maintenance. Provides a buyer-role and commercial-scale comparator, not 2025 baggage-only annual expenditure.
61. ACI World - Busiest Airports in the World
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx international airport passenger movements in 2025. Half provides an approximate arrival-movement scale check before transfer exclusions, not a customs examination or equipment-purchasing weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx international airport passenger movements in 2025. Half provides an approximate arrival-movement scale check before transfer exclusions, not a customs examination or equipment-purchasing weight.
62. Heathrow announces £2.3bn accelerated investment plan to upgrade the UK's international gateway to growth
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports GBP xx.xx invested in security-lane upgrades during 2024, supporting material airport-directed purchasing. Broader infrastructure obligations and historical timing prevent treating the amount as 2025 in-scope market receipts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports GBP xx.xx invested in security-lane upgrades during 2024, supporting material airport-directed purchasing. Broader infrastructure obligations and historical timing prevent treating the amount as 2025 in-scope market receipts.
63. Fraport Assumes Responsibility for Aviation Security Checks at Frankfurt Airport
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents Fraport's checkpoint-management responsibility from January 2023, six initial CT-equipped lanes and three contracted screening providers. Supports distinguishing an airport commissioning role from regulator oversight and contracted screening labor.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents Fraport's checkpoint-management responsibility from January 2023, six initial CT-equipped lanes and three contracted screening providers. Supports distinguishing an airport commissioning role from regulator oversight and contracted screening labor.
64. Advanced Cabin Baggage Screening - Computed Tomography Implementation Guide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes standalone CT, including equipment-local conveyance, from integrated screening-lane configurations; supports attribution boundaries, not a revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes standalone CT, including equipment-local conveyance, from integrated screening-lane configurations; supports attribution boundaries, not a revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies automated tray-return and automated screening-lane integration as commercially distinct configurations; supports the lane-integrated category definition.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies automated tray-return and automated screening-lane integration as commercially distinct configurations; supports the lane-integrated category definition.

65. GAO-12-266 - Checked Baggage Screening: TSA Has Deployed Optimal Systems at the Majority of TSA-Regulated Airports, but Could Strengthen Cost Estimates

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December 2011 table reports xx.xx standalone EDS alongside xx.xx in-line EDS; this historical machine-count comparator constrains, but does not determine, the current global allocation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December 2011 table reports xx.xx standalone EDS alongside xx.xx in-line EDS; this historical machine-count comparator constrains, but does not determine, the current global allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx in-line EDS across xx.xx in-line systems and distinguishes equipment counts from integrated-system counts; supports the historical configuration bridge.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx in-line EDS across xx.xx in-line systems and distinguishes equipment counts from integrated-system counts; supports the historical configuration bridge.

66. Smiths Detection selected as security technology provider to International Airport Heraklion Crete

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 announcement identifies eight cabin CT scanners and eight automated tray-return systems for Heraklion, with installation planned across late 2025 and mid-2026; supports ongoing integrated procurement, not realized annual revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 announcement identifies eight cabin CT scanners and eight automated tray-return systems for Heraklion, with installation planned across late 2025 and mid-2026; supports ongoing integrated procurement, not realized annual revenue.

67. Centralised Image Processing: The Impact on Security Checkpoints

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes checkpoint-local image review from separate-room arrangements; supports retaining networked local activity rather than automatically assigning it to remote review. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes checkpoint-local image review from separate-room arrangements; supports retaining networked local activity rather than automatically assigning it to remote review. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes separate screening rooms and established remote hold-baggage review at larger airports; supports the cohort-maturity premise, not a numerical global share. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes separate screening rooms and established remote hold-baggage review at larger airports; supports the cohort-maturity premise, not a numerical global share. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes combined checkpoint and remote-room arrangements, establishing a mixed-location commercial configuration without measuring its prevalence or price. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes combined checkpoint and remote-room arrangements, establishing a mixed-location commercial configuration without measuring its prevalence or price. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))

68. Annual Report 2024 - CATSA's Operating Environment

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2023/xx.xx providing the historical comparison rather than a global location allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2023/xx.xx providing the historical comparison rather than a global location allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Together with the subsequent annual report, supports a seven-line deployment increase without a corresponding increase in reported passenger coverage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Together with the subsequent annual report, supports a seven-line deployment increase without a corresponding increase in reported passenger coverage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provides a historical network-enabled deployment anchor, while leaving the physical mixed-location contract share unmeasured. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provides a historical network-enabled deployment anchor, while leaving the physical mixed-location contract share unmeasured. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))

69. L22020-T-TG Upgrades to the Passenger Search Area, body scanners, EDS C3 cabin baggage screening - Contract Award Notice

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2023 Luton award expressly includes construction of a remote screening room at the airport terminal, supporting separate-room commercial procurement. Its broader scope is not treated as baggage-only annual revenue. ([find-tender.service.gov.uk](https://www.find-tender.service.gov.uk/Notice/xx.xx-2023))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2023 Luton award expressly includes construction of a remote screening room at the airport terminal, supporting separate-room commercial procurement. Its broader scope is not treated as baggage-only annual revenue. ([find-tender.service.gov.uk](https://www.find-tender.service.gov.uk/Notice/xx.xx-2023))

70. Greater Orlando Aviation Authority - Minutes of the February 19, 2025 Meeting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Authorizes up to USD xx.xx for baggage-system and Remote Screening Facility network/server separation. Half this ceiling is an explicitly assumed deployment-cost comparator, not observed off-site receipts. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Authorizes up to USD xx.xx for baggage-system and Remote Screening Facility network/server separation. Half this ceiling is an explicitly assumed deployment-cost comparator, not observed off-site receipts. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provides the commercial networking-cost anchor for the modeled transfer from existing on-site pools, avoiding additional market value or duplicate host-equipment attribution. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provides the commercial networking-cost anchor for the modeled transfer from existing on-site pools, avoiding additional market value or duplicate host-equipment attribution. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))

71. American and U.S. Customs and Border Protection pilot innovative baggage screening initiative

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: American's April xx.xx 2025 announcement identifies a daily Sydney-Los Angeles IRBS pilot and unchanged screening requirements. It anchors one sampled connection and an assumed partial-year licensing period, not disclosed revenue. ([s202.q4cdn.com](https://s202.q4cdn.com/xx.xx/files/doc_news/American-and-US-Customs-and-Border-Protection-pilot-innovative-baggage-screening-initiative-OPS-OTH-xx.xx-2025.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: American's April xx.xx 2025 announcement identifies a daily Sydney-Los Angeles IRBS pilot and unchanged screening requirements. It anchors one sampled connection and an assumed partial-year licensing period, not disclosed revenue. ([s202.q4cdn.com](https://s202.q4cdn.com/xx.xx/files/doc_news/American-and-US-Customs-and-Border-Protection-pilot-innovative-baggage-screening-initiative-OPS-OTH-xx.xx-2025.pdf))

72. 델타항공-대한항공, 인천발 애틀랜타 노선 대상 위탁수하물 원격 검색 방식 신규 도입

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2025 announcement identifies the Incheon-Atlanta IRBS arrangement, anchoring a second sampled connection and a partial-year commercial-activity assumption without establishing contract value. ([news.delta.com](https://news.delta.com/delta-and-koreanair-launch-remote-baggage-screening-on-icn-atl-KR))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2025 announcement identifies the Incheon-Atlanta IRBS arrangement, anchoring a second sampled connection and a partial-year commercial-activity assumption without establishing contract value. ([news.delta.com](https://news.delta.com/delta-and-koreanair-launch-remote-baggage-screening-on-icn-atl-KR))

73. United Launches CBP's International Remote Baggage Screening on Select International Flights

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: United's September xx.xx 2025 announcement identifies daily Sydney-San Francisco service and named technology partners, anchoring a third sampled connection. It reports no attributable software or integration receipts. ([united.mediaroom.com](https://united.mediaroom.com/2025-xx.xx-xx.xx-United-Launches-CBPs-International-Remote-Baggage-Screening-on-Select-International-Flights))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: United's September xx.xx 2025 announcement identifies daily Sydney-San Francisco service and named technology partners, anchoring a third sampled connection. It reports no attributable software or integration receipts. ([united.mediaroom.com](https://united.mediaroom.com/2025-xx.xx-xx.xx-United-Launches-CBPs-International-Remote-Baggage-Screening-on-Select-International-Flights))

74. Airline Passengers Face Fewer Bag Checkpoints, Thanks to PNNL, Partners

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2026 laboratory release describes implementation on additional routes, including Seoul arrivals at Minneapolis-St. Paul and Detroit. This supports expansion direction, not the forecast connection count, realization or global share. ([pnnl.gov](https://www.pnnl.gov/news-media/airline-passengers-face-fewer-bag-checkpoints-thanks-pnnl-partners))

75. TSA awards $781.2 million to procure additional CT X-Ray scanners for airport checkpoints

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2022 announcement identifies up to USD xx.xx for procurement and maintenance of up to xx.xx systems from an OEM. This is a historical procurement-scale anchor, not annual 2025 direct-channel revenue. ([content.govdelivery.com](https://content.govdelivery.com/accounts/USDHSTSA/bulletins/30f6e5f))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The award includes full-size automated lanes, cautioning against assigning all automation value to non-OEM integration primes; exact contractual-role attribution is not disclosed. ([content.govdelivery.com](https://content.govdelivery.com/accounts/USDHSTSA/bulletins/30f6e5f))

76. OSI Systems, Inc. - Form 10-K for the fiscal year ended June 30, 2026

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing describes regional direct security-product sales and direct maintenance relationships. Its broader security scope supports route coexistence, not baggage-only sales weights. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing describes regional direct security-product sales and direct maintenance relationships. Its broader security scope supports route coexistence, not baggage-only sales weights. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company identifies a global independent-distributor network, supporting a continuing indirect route without quantifying its value share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company identifies a global independent-distributor network, supporting a continuing indirect route without quantifying its value share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Authorized service providers are identified separately from distributors, supporting distinct technical-service attribution and access limitations. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Authorized service providers are identified separately from distributors, supporting distinct technical-service attribution and access limitations. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

77. SriLankan Airlines - Invitation for Supply, Installation, Commissioning and Maintenance of Dual View Heavy and Medium X-Ray Machines, Reference 202130407

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 purchaser invitation permits an OEM or authorized OEM agent and requires authorization for the latter. It establishes equipment-channel eligibility, not an award or software-resale right. ([srilankan.com](https://www.srilankan.com/download/tender/TN-Invitationforsubmiss-xx.xx.pdf))

78. JFK Millennium Partners Selects K2 to Deliver State-of-the-Art Security Screening Checkpoint at new JFK Terminal 6

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment assigns procurement and deployment coordination across multiple technology suppliers at a future ten-gate terminal. It supports integration-prime participation and a forecast mechanism, not a disclosed share or completed 2025 revenue. ([portauthoritybuilds.com](https://www.portauthoritybuilds.com/redevelopment/us/en/jfk/planned-projects/terminal-xx.xx/news/jfk-millennium-partners-selects-k2-to-deliver-state-of-the-art-s.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment assigns procurement and deployment coordination across multiple technology suppliers at a future ten-gate terminal. It supports integration-prime participation and a forecast mechanism, not a disclosed share or completed 2025 revenue. ([portauthoritybuilds.com](https://www.portauthoritybuilds.com/redevelopment/us/en/jfk/planned-projects/terminal-xx.xx/news/jfk-millennium-partners-selects-k2-to-deliver-state-of-the-art-s.html))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment covers baggage CT and automated bin-return equipment for a future xx.xx-gate terminal, with phased opening planned for 2026-2028. It establishes new-installation activity, not attributable 2025 receipts; wider airport investment and person-only technologies are excluded.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment covers baggage CT and automated bin-return equipment for a future xx.xx-gate terminal, with phased opening planned for 2026-2028. It establishes new-installation activity, not attributable 2025 receipts; wider airport investment and person-only technologies are excluded.

79. CATSA Corporate Plan 2024-25 to 2028-29 Summary - Key Corporate Risks

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The authority reports transferring maintenance of most screening equipment to KPrime in 2023/xx.xx. This establishes a separately contracted maintenance relationship, without a baggage-only payment split. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/key-corporate-risks))

80. Leidos wins TSA logistics contract

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 announcement describes an eight-year, USD xx.xx maximum sustainment contract covering xx.xx equipment units at over xx.xx locations with manufacturer coordination. Annualization and baggage/third-party attribution in the model are explicit assumptions. ([leidos.com](https://www.leidos.com/insights/leidos-wins-tsa-logistics-contract))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 announcement describes an eight-year, USD xx.xx maximum sustainment contract covering xx.xx equipment units at over xx.xx locations with manufacturer coordination. Annualization and baggage/third-party attribution in the model are explicit assumptions. ([leidos.com](https://www.leidos.com/insights/leidos-wins-tsa-logistics-contract))

81. Checkpoint Transformation: Malta International Airport Streamlines Passenger Flow with Smiths Detection
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Seven conventional automated lanes were replaced by six CT-equipped lanes, with final commissioning in January 2025. This is a counterexample to equating capacity improvement with net additional equipment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seven conventional automated lanes were replaced by six CT-equipped lanes, with final commissioning in January 2025. This is a counterexample to equating capacity improvement with net additional equipment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The complete checkpoint replacement illustrates why an offering described commercially as an upgrade can belong to System Replacement. The seven-year service commitment is not counted wholly as installation-year revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The complete checkpoint replacement illustrates why an offering described commercially as an upgrade can belong to System Replacement. The seven-year service commitment is not counted wholly as installation-year revenue.
82. iCMORE - Smiths Detection
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current commercial offering describes a software-upgrade path while qualifying additional hardware requirements by machine type and age. This constrains forecast eligibility assumptions; product availability does not measure adoption or revenue.

18.12. Brazil

Table 596. Brazil Airport Baggage Screening Systems Market Size, 2017-2040 (USD Million)

Country	2017	2024	2025	2026	2027	2032	2040	CAGR (%)

Sources & Evidence

1. House Report 119-173 - Department of Homeland Security Appropriations Bill, 2026

   · Evidence informing the 2030 market-value input; displayed series and growth include calculations: The aging installed fleet supports replacement demand, but does not establish the forecast's realization dates or annual purchasing rate. ([govinfo.gov](https://www.govinfo.gov/content/pkg/CRPT-119hrpt173/html/CRPT-119hrpt173.htm))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report identifies xx.xx end-of-life systems within a xx.xx-system checked-baggage fleet. This constrains renewal exposure, not realized annual purchasing or a verified global replacement deadline.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports a TSA checked-baggage fleet of xx.xx EDS, including xx.xx at end-of-life, and assigns purchase, installation and maintenance responsibilities to TSA. Supports agency fleet calibration and renewal pressure, not the assumed forecast uplift.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports a TSA checked-baggage fleet of xx.xx EDS, including xx.xx at end-of-life, and assigns purchase, installation and maintenance responsibilities to TSA. Supports agency fleet calibration and renewal pressure, not the assumed forecast uplift.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report identifies xx.xx end-of-life EDS within a xx.xx-unit U.S. checked-baggage fleet, citing the FY2024 capital plan. The derived xx.xx% backlog constrains the aging-fleet premise, but is neither an annual turnover rate nor a funded global replacement forecast.

2. GAO-24-106573 - DHS Annual Assessment: Most Programs Are Meeting Current Goals, but Some Continue to Face Cost and Schedule Challenges
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports plans for xx.xx checkpoint systems and xx.xx increment-one deployments by September 2023; supports an incomplete replacement cycle rather than universal CT adoption. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx AT/CT, xx.xx base, xx.xx mid-size and xx.xx full-size deployments by September 2023; supplies configuration proxies and an incomplete-renewal constraint, not contractual architecture shares. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx AT/CT, xx.xx base, xx.xx mid-size and xx.xx full-size deployments by September 2023; supplies configuration proxies and an incomplete-renewal constraint, not contractual architecture shares. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The deployed configuration mix underlies the xx.xx/xx.xx newer-cohort and xx.xx/xx.xx older-cohort proxy calculations; global and contractual attribution remain modeled. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The deployed configuration mix underlies the xx.xx/xx.xx newer-cohort and xx.xx/xx.xx older-cohort proxy calculations; global and contractual attribution remain modeled. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The assessment records xx.xx checkpoint systems deployed by September 2023 against an eventual xx.xx-system program. This supports an incomplete replacement cycle and qualifies any assumption of universal CT adoption.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The assessment records xx.xx checkpoint systems deployed by September 2023 against an eventual xx.xx-system program. This supports an incomplete replacement cycle and qualifies any assumption of universal CT adoption.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports a September 2023 U.S. CT cohort containing xx.xx AT/CT and xx.xx base systems, providing counterevidence to assigning all CT activity automatically to integrated lanes.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports a September 2023 U.S. CT cohort containing xx.xx AT/CT and xx.xx base systems, providing counterevidence to assigning all CT activity automatically to integrated lanes.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx mid-size and xx.xx full-size systems within xx.xx deployed CT systems; supports differentiated configuration assumptions rather than treating technology adoption as an integration-share observation.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx mid-size and xx.xx full-size systems within xx.xx deployed CT systems; supports differentiated configuration assumptions rather than treating technology adoption as an integration-share observation.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2024 assessment records xx.xx checkpoint deployments as of September 2023 against xx.xx planned systems replacing aging equipment. It supports staged renewal, but does not establish current deployment completion or the modeled 2032 share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2024 assessment records xx.xx checkpoint deployments as of September 2023 against xx.xx planned systems replacing aging equipment. It supports staged renewal, but does not establish current deployment completion or the modeled 2032 share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The program separately anticipates enhancements to fielded systems, supporting a retained-equipment commercial pathway without supplying an attributable upgrade-revenue split.

3. Global Airport Passenger Traffic Reaches Record 9.8 Billion in 2025, Airports Council International World reports

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports cooling passenger-growth momentum in 2026, supporting moderation of traffic-driven equipment expansion despite continuing replacement demand.
   ([aci.aero](https://aci.aero/2026/xx.xx/xx.xx/global-airport-passenger-traffic-reaches-record-xx.xx-xx.xx-billion-in-2025-airports-council-international-world-reports/))

4. Smiths Group PLC - Full Year Results for the 12 Months Ended 31 July 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Discloses aviation original-equipment revenue of xx.xx and aftermarket revenue of xx.xx for FY2024; supplies historical cycle proxies. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing the 2027 market-value input; displayed series and growth include calculations: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; supports replacement activity, not an observed global forecast. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2025 aviation original-equipment revenue of GBP xx.xx provides an independent equipment-activity scale check, not a global category share. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025 aviation original-equipment revenue of GBP xx.xx provides an independent equipment-activity scale check, not a global category share. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx cumulative CTiX sales corroborate commercial imaging activity and replacement demand; they do not measure annual global sales. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx cumulative CTiX sales corroborate commercial imaging activity and replacement demand; they do not measure annual global sales. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: GBP xx.xx aviation aftermarket revenue supports lifecycle materiality while qualifying transfer of one supplier's mix to the global service allocation. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GBP xx.xx aviation aftermarket revenue supports lifecycle materiality while qualifying transfer of one supplier's mix to the global service allocation. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; cumulative sales constrain commercial scale but are not annual global shipments. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; cumulative sales constrain commercial scale but are not annual global shipments. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports four operating XDi units as of July 2025 and pending regulatory certification, constraining the small XRD cohort and qualifying aggressive commercialization assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports four operating XDi units as of July 2025 and pending regulatory certification, constraining the small XRD cohort and qualifying aggressive commercialization assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported checkpoint modernization provides a commercial reason to model substitution from discrete legacy offerings; the filing does not disclose standalone configuration revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025

5. Smiths Group PLC - Annual Report & Accounts FY2023
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: Reports FY2022 aviation original-equipment revenue of xx.xx, used as a dimensionless historical capital-cycle proxy. ([www-live.smiths.com](https://www-live.smiths.com/media/phjp1j44/smiths-annual-report-2023.pdf))
   - Evidence informing the 2023 market-value input; displayed series and growth include calculations: Reports FY2023 aviation original-equipment revenue of xx.xx and aftermarket revenue of xx.xx; supports the modeled recovery direction. ([www-live.smiths.com](https://www-live.smiths.com/media/phjp1j44/smiths-annual-report-2023.pdf))
6. Smiths Group PLC - Annual Report FY2022
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: Reports FY2021 aviation revenue of xx.xx, providing a historical purchasing-cycle reference rather than a global observation. ([www-live.smiths.com](https://www-live.smiths.com/media/xjvdpblr/smiths-annual-report-2022-report.pdf))
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: Reports FY2022 aviation revenue of xx.xx and continued weakness in aviation original equipment; supports a delayed capital-spending trough. ([www-live.smiths.com](https://www-live.smiths.com/media/xjvdpblr/smiths-annual-report-2022-report.pdf))
7. Smiths Group PLC - Annual Results for the Year Ended 31 July 2019
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: Reports FY2018 aviation revenue of xx.xx, supplying the historical comparison underlying the backcast. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: Reports FY2019 aviation revenue of xx.xx and customer delivery deferrals, qualifying a traffic-only growth model. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Identifies deliveries deferred into FY2020; supports the possibility of backlog-supported spending despite a contemporaneous traffic shock, not the exact modeled growth rate. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
8. ACI World - The High-Wire Balancing Act: Global Air Transport Demand in 2018 and 2019
   - Evidence informing the 2017 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers and xx.xx% growth in 2018; the growth observation informs the 2017 backcast bridge. ([blog.aci.aero](https://blog.aci.aero/airport-economics/the-high-wire-balancing-act-global-air-transport-demand-in-2018-and-2019/))
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: Provides the observed 2018 traffic-growth reference, not an equipment-market growth observation. ([blog.aci.aero](https://blog.aci.aero/airport-economics/the-high-wire-balancing-act-global-air-transport-demand-in-2018-and-2019/))
9. ICAO A42-WP/556 - State of the Industry and Outlook for Airport Traffic, Presented by ACI
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Records the collapse from xx.xx airport passengers in 2019 to xx.xx in 2020; constrains the shock and funding-risk interpretation. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2021, supporting a prolonged funding and activity shock. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2023 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2023; traffic recovery is distinguished from equipment purchasing. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2024, providing a demand recovery cross-check. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))

10. Port of Seattle - Baggage Handling System Optimization

- Evidence informing the 2029 market-value input; displayed series and growth include calculations: Seattle plans to consolidate six baggage-screening systems, increase supported passenger capacity, and reduce screening-machine demand. Supports integration spending without one-for-one detector growth. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The consolidation example constrains equipment-volume assumptions; its whole baggage-handling project value is excluded from market sizing. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing the 2040 market-value input; displayed series and growth include calculations: Provides a commercial counterexample to extrapolating passenger growth directly into machine counts throughout the long-range forecast. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Consolidation of six systems with reduced machine demand qualifies a traffic-to-detector-volume forecast. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The consolidation project supports integration-driven conveyor demand, but its whole-project value is excluded. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Brownfield consolidation supports the integration-demand premise, not the forecast's exact service growth factor. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport replaces six separate screening systems with centralized screening and expects reduced screening-machine demand while expanding capacity. This supplies a counterforce to volume-only checked-baggage forecasting.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Seattle is consolidating six screening systems, expects reduced screening-machine demand and schedules final-phase completion in 2029. Supports integration demand while constraining detector-volume growth; the whole-project budget is excluded.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seattle is consolidating six screening systems, expects reduced screening-machine demand and schedules final-phase completion in 2029. Supports integration demand while constraining detector-volume growth; the whole-project budget is excluded.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seattle's project combines increased screening capacity with consolidation from six screening systems and reduced screening-machine demand. This constrains the forecast assumption that capacity growth requires proportional equipment additions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement and capacity objectives coexist within the project. Its wider baggage-handling budget is not treated as screening-equipment revenue or assigned additively to multiple purposes.

11. Smiths Group PLC - Half Year Results for the Six Months Ended 31 January 2026

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports xx.xx% organic growth for Smiths Detection in HY2026, with aviation checkpoint upgrades contributing. Supports a positive 2026 nowcast, not a directly observed global growth rate. ([www-live.smiths.com](https://www-live.smiths.com/media/villk35h/smiths-hy26-results-press-release.pdf))

12. ACI-LAC - Air Traffic in Latin America and the Caribbean Maintains Growth Trajectory with a 5% Increase in 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Brazil's xx.xx-million airport-traffic aggregate constrains its demand scale; equipment intensity remains modeled.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Brazil's xx.xx-million airport-traffic aggregate constrains its demand scale; equipment intensity remains modeled.

13. CATSA 2025 Annual Report - Notes to the Financial Statements

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx accounts disclose C$xx.xx maintenance/spares and C$xx.xx training/certification, supporting the service-budget calibration but not global baggage-only shares. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx accounts disclose C$xx.xx maintenance/spares and C$xx.xx training/certification, supporting the service-budget calibration but not global baggage-only shares. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintenance and spare parts are combined in the accounts; the labor-versus-goods split therefore remains modeled. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintenance and spare parts are combined in the accounts; the labor-versus-goods split therefore remains modeled. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The C$xx.xx training/certification expense supplies the numerator of the adjusted training-to-capital proxy. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The C$xx.xx training/certification expense supplies the numerator of the adjusted training-to-capital proxy. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: C$xx.xx trace/consumables is distinct from maintenance/spares and supplies the contrary consumables-intensity comparator, not a global observation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: C$xx.xx trace/consumables is distinct from maintenance/spares and supplies the contrary consumables-intensity comparator, not a global observation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately reports C$xx.xx maintenance/spares, C$xx.xx trace/consumables and C$xx.xx training/certification, constraining attributable agency lifecycle expenditure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates screening-contractor payments from equipment support, preventing staffing expenditure from becoming equipment-market purchasing.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately reports C$xx.xx maintenance/spares, C$xx.xx trace/consumables and C$xx.xx training/certification, constraining attributable agency lifecycle expenditure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates screening-contractor payments from equipment support, preventing staffing expenditure from becoming equipment-market purchasing.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited expense disclosure reports C$xx.xx for maintenance and spare parts in the year ended March xx.xx 2025. It constrains support-spending materiality, not the amount attributable to an independent provider. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))

14. CATSA 2025 Annual Report - Management's Discussion and Analysis

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: EDS capital expenditure of C$xx.xx includes equipment and installation/integration and supplies the training-calibration denominator, subject to baggage attribution. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EDS capital expenditure of C$xx.xx includes equipment and installation/integration and supplies the training-calibration denominator, subject to baggage attribution. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The capital definition includes associated installation and integration, supporting the distinction between deployment services and equipment value. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The capital definition includes associated installation and integration, supporting the distinction between deployment services and equipment value. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Actual spending, original budget and reprofile amounts constrain the forecast's purchasing-execution interpretation; they are not a global growth rate. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx pre-board capital appropriations used were C$xx.xx. This supplies the Canadian purchasing comparison and a component of the non-passenger-to-cabin activity proxy, not a global share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx pre-board capital appropriations used were C$xx.xx. This supplies the Canadian purchasing comparison and a component of the non-passenger-to-cabin activity proxy, not a global share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx hold-baggage capital appropriations used were C$xx.xx; this constrains the independent application-capital comparison.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx non-passenger capital appropriations used were C$xx.xx, below the original C$xx.xx budget. Actual purchasing informs the proxy and qualifies automatic announcement-to-revenue conversion.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx non-passenger capital appropriations used were C$xx.xx, below the original C$xx.xx budget. Actual purchasing informs the proxy and qualifies automatic announcement-to-revenue conversion.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports C$xx.xx EDS capital expenditure for FY2024/xx.xx and identifies both baggage equipment and full-body scanners in the capital scope, requiring a baggage-attribution adjustment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports C$xx.xx EDS capital expenditure for FY2024/xx.xx and identifies both baggage equipment and full-body scanners in the capital scope, requiring a baggage-attribution adjustment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EDS outturn was C$xx.xx versus an original C$xx.xx plan and revised C$xx.xx budget. Reprofiling constrains assumed award conversion and deployment timing; it does not measure procurement-channel mix. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The actual capital-project list identifies hold-baggage capacity expansion at Montréal-Trudeau, supporting the expansion classification, not its modeled global revenue weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The actual capital-project list identifies hold-baggage capacity expansion at Montréal-Trudeau, supporting the expansion classification, not its modeled global revenue weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The actual project list includes checkpoint CT deployment and hold-baggage oversize-equipment lifecycle management, supporting renewal activity without disclosing its purpose-specific spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The actual project list includes checkpoint CT deployment and hold-baggage oversize-equipment lifecycle management,

15. Aviation security screening approved equipment list
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Baggage EDS/EDSCB and conventional X-ray classes support the inspection-system boundary, not sales weights. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Baggage EDS/EDSCB and conventional X-ray classes support the inspection-system boundary, not sales weights. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Liquid detectors are a distinct cabin-baggage category; the complete bulk-material extension remains modeled within the captured boundary. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Liquid detectors are a distinct cabin-baggage category; the complete bulk-material extension remains modeled within the captured boundary. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ETD serves baggage and other applications, requiring explicit baggage attribution rather than allocating all detector sales here. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ETD serves baggage and other applications, requiring explicit baggage attribution rather than allocating all detector sales here. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dedicated ETD consumables are separately recognized, supporting goods classification without establishing spending or unrestricted interchangeability. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dedicated ETD consumables are separately recognized, supporting goods classification without establishing spending or unrestricted interchangeability. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
16. Quantifying the Impacts of Delayed Maintenance of Airport Assets: A Guide - Chapter 6, Baggage Handling Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The baggage-handling cost study uses a modeled xx.xx% labor share, adopted only as an adjacent support-cost proxy. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The baggage-handling cost study uses a modeled xx.xx% labor share, adopted only as an adjacent support-cost proxy. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Its corresponding modeled xx.xx% parts share calibrates the labor/goods separation; it is not an observed screening-equipment ratio. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Its corresponding modeled xx.xx% parts share calibrates the labor/goods separation; it is not an observed screening-equipment ratio. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))

17. Procurement of Next Generation Security Checkpoint Equipment - Contract Award Notice

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The seven-system award includes automated tray return, demonstrating bundled purchasing but no separately priced hardware allocation. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The seven-system award includes automated tray return, demonstrating bundled purchasing but no separately priced hardware allocation. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The integrated CT/tray-return scope constrains the automation interface boundary; it does not value general airport conveyors. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The integrated CT/tray-return scope constrains the automation interface boundary; it does not value general airport conveyors. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Central image processing is an explicit purchased function, without a separately disclosed license price. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Central image processing is an explicit purchased function, without a separately disclosed license price. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supply, installation and commissioning are included deliverables, supporting deployment-service attribution without establishing its percentage. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supply, installation and commissioning are included deliverables, supporting deployment-service attribution without establishing its percentage. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2022 award covers seven systems combining cabin CT, tray return, image processing and deployment responsibilities. It supports integrated purchased scope, not completed delivery or a global sales weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2022 award covers seven systems combining cabin CT, tray return, image processing and deployment responsibilities. It supports integrated purchased scope, not completed delivery or a global sales weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The integrated Newcastle procurement reports a GBP xx.xx-xx.xx offer range but no physical review-room location; its value cannot be assigned automatically to local review. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The integrated Newcastle procurement reports a GBP xx.xx-xx.xx offer range but no physical review-room location; its value cannot be assigned automatically to local review. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Central image processing is included, but a separate on-site room is not specified; constrains classification rather than supplying a remote-review sales weight. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Central image processing is included, but a separate on-site room is not specified; constrains classification rather than supplying a remote-review sales weight. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The bundled award does not identify a mixed-location package or its attributable price, preventing automatic hybrid classification. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The bundled award does not identify a mixed-location package or its attributable price, preventing automatic hybrid classification.

18. AI for Monitoring Aviation Security: Fraport and German Federal Police Start Regular Operation of APIDS
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: January xx.xx 2026 APIDS deployment demonstrates additional software adoption, without establishing separate revenue. ([fraport.com](https://www.fraport.com/en/newsroom/press-releases/2026/q1/ai-for-monitoring-aviation-security.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Deployment on more than xx.xx CT scanners is the independent quantitative rollout test; it does not validate the modeled license-growth factor. ([fraport.com](https://www.fraport.com/en/newsroom/press-releases/2026/q1/ai-for-monitoring-aviation-security.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: On January xx.xx 2026, Fraport announced regular APIDS software operation on more than xx.xx existing Smiths CT scanners. This independently supports retained-system enhancement at one buyer, not global penetration or realized license revenue.
19. Smiths Detection - Digital Innovation
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier identifies detection applications as a commercial function; separate fee allocation remains assumed. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier identifies detection applications as a commercial function; separate fee allocation remains assumed. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized screening supports the image-review function, not an observed software revenue weight. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized screening supports the image-review function, not an observed software revenue weight. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Connectivity, multi-vendor integration and equipment-health applications establish the fleet-management function without proving customer-specific rights or prices. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Connectivity, multi-vendor integration and equipment-health applications establish the fleet-management function without proving customer-specific rights or prices. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ELECTORA is offered for integrating multi-vendor devices, datasets and applications; establishes the vendor-platform category but discloses no category revenue or customer-specific substitution entitlement. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ELECTORA is offered for integrating multi-vendor devices, datasets and applications; establishes the vendor-platform category but discloses no category revenue or customer-specific substitution entitlement. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
20. UK Civil Aviation Authority - Threat Image Projection (TIP)
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: TIP library approval and renewal obligations support continuing software commitments, not the modeled global fee or share. ([caa.co.uk](https://www.caa.co.uk/commercial-industry/security/training-and-human-factors/threat-image-projection/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: TIP library approval and renewal obligations support continuing software commitments, not the modeled global fee or share. ([caa.co.uk](https://www.caa.co.uk/commercial-industry/security/training-and-human-factors/threat-image-projection/))

21. Smiths Detection - Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Inclusive capital-equipment support covers labor and parts, requiring a single-count economic allocation across services and goods. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Inclusive capital-equipment support covers labor and parts, requiring a single-count economic allocation across services and goods. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Equipment-specific training and certification are commercial offerings distinct from routine screening staffing. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Equipment-specific training and certification are commercial offerings distinct from routine screening staffing. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The parts-support offering and inclusive contracts corroborate the goods boundary, but not the assumed xx.xx% allocation. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The parts-support offering and inclusive contracts corroborate the goods boundary, but not the assumed xx.xx% allocation. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes inclusive labor-and-parts contracts and manufacturer support, supporting nonduplicative lifecycle attribution to projection equipment, not a verified xx.xx% fee. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes inclusive labor-and-parts contracts and manufacturer support, supporting nonduplicative lifecycle attribution to projection equipment, not a verified xx.xx% fee. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports the existence of manufacturer lifecycle offerings; broad service-footprint counts are not used as CT revenue weights.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports the existence of manufacturer lifecycle offerings; broad service-footprint counts are not used as CT revenue weights.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports commercial maintenance, refurbishment and parts offerings for portable equipment without establishing baggage-specific service receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports commercial maintenance, refurbishment and parts offerings for portable equipment without establishing baggage-specific service receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer markets direct on-site support and inclusive capital-equipment labor-and-parts contracts. This supports a continuing manufacturer-service alternative, without measuring a pricing premium. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer markets direct on-site support and inclusive capital-equipment labor-and-parts contracts. This supports a continuing manufacturer-service alternative, without measuring a pricing premium. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Manufacturer-provided bundled support is a commercial alternative to separate technical-service procurement, limiting assumptions of unrestricted third-party substitution. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Manufacturer-provided bundled support is a commercial alternative to separate technical-service procurement, limiting assumptions of unrestricted third-party substitution. ([smithsdetection.com](https://www.smithsdetection.com/service/))

22. Hold baggage screening upgrade, Dublin and Cork Airports, Ireland

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate professional-service appointments cover project controls, design oversight and interface management; the broader construction budget is not used as screening-service revenue. ([neccontract.com](https://www.neccontract.com/projects/hold-baggage-screening-upgrade-dublin-and-cork-airports-ireland))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate professional-service appointments cover project controls, design oversight and interface management; the broader construction budget is not used as screening-service revenue. ([neccontract.com](https://www.neccontract.com/projects/hold-baggage-screening-upgrade-dublin-and-cork-airports-ireland))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes three upgraded hold-baggage systems delivered through separate construction, baggage-integration and advisory appointments, completed in March 2023. Supports integrated-system attribution without assuming a universal single-prime model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes three upgraded hold-baggage systems delivered through separate construction, baggage-integration and advisory appointments, completed in March 2023. Supports integrated-system attribution without assuming a universal single-prime model.

23. Corporate Plan 2025-26 to 2029-30 Summary - Financial Overview

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: CATSA distinguishes major-checkpoint CT replacement from single-view-to-multiview replacement elsewhere, supporting application-specific projection demand and forecast assumptions. It also discloses capital funding subject to reprofile approval.
([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/corporate-plan-2025-xx.xx-2029-xx.xx/financial-overview))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CATSA distinguishes major-checkpoint CT replacement from single-view-to-multiview replacement elsewhere, supporting application-specific projection demand and forecast assumptions. It also discloses capital funding subject to reprofile approval.
([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/corporate-plan-2025-xx.xx-2029-xx.xx/financial-overview))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies single-view equipment as a replacement population, supporting the modeled displacement mechanism rather than an observed global share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies single-view equipment as a replacement population, supporting the modeled displacement mechanism rather than an observed global share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Multiview remains a planned purchasing destination at non-passenger checkpoints and Class xx.xx airports, qualifying universal CT substitution.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Multiview remains a planned purchasing destination at non-passenger checkpoints and Class xx.xx airports, qualifying universal CT substitution.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: CT replacement is a stated major-checkpoint investment priority, subject to funding and delivery risks; this supports direction, not the modeled global share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CT replacement is a stated major-checkpoint investment priority, subject to funding and delivery risks; this supports direction, not the modeled global share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The plan includes additional screening equipment and expansion of existing hold-baggage screening capacity. Its FY2025/xx.xx capital budget is C$xx.xx across mixed activities; plans are not recognized supplier revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The plan includes additional screening equipment and expansion of existing hold-baggage screening capacity. Its FY2025/xx.xx capital budget is C$xx.xx across mixed activities; plans are not recognized supplier revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The plan distinguishes replacement of checkpoint X-ray equipment with CT and asset lifecycle renewal from additional capacity. Funding, partner timing and reprofiling qualify forecast realization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The plan distinguishes replacement of checkpoint X-ray equipment with CT and asset lifecycle renewal from additional capacity. Funding, partner timing and reprofiling qualify forecast realization.

24. ECAC CEP Public Equipment List - Explosive Detection Systems, Update 18 April 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 list retains XRD xx.xx supporting the legacy commercial-category premise but not the assumed installed cohort or sales volume.
([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-EDS-equipment_public_list_update_20250418.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 list retains XRD xx.xx supporting the legacy commercial-category premise but not the assumed installed cohort or sales volume.
([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-EDS-equipment_public_list_update_20250418.pdf))

25. Partners - HALO X-ray Technologies Ltd

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named airport pilots and approximately USD xx.xx and USD xx.xx development programs establish commercialization activity and program scale, not realized annual XRD equipment revenue. ([haloxray.com](https://www.haloxray.com/partners))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named airport pilots and approximately USD xx.xx and USD xx.xx development programs establish commercialization activity and program scale, not realized annual XRD equipment revenue. ([haloxray.com](https://www.haloxray.com/partners))

26. Explosives Trace Detectors (ETDs): Market Survey Report, November 2021

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Historical IONSCAN xx.xx list-price configurations around USD xx.xx-xx.xx constrain the IMS price class; they do not establish 2025 purchasing volumes or realizations. ([dhs.gov](https://dhs.gov/sites/default/files/2021-xx.xx/SAVER_Explosives%20Trace%20Detectors%20MSR_08Nov2021_Final-xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Historical IONSCAN xx.xx list-price configurations around USD xx.xx-xx.xx constrain the IMS price class; they do not establish 2025 purchasing volumes or realizations. ([dhs.gov](https://dhs.gov/sites/default/files/2021-xx.xx/SAVER_Explosives%20Trace%20Detectors%20MSR_08Nov2021_Final-xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The Fido X4 historical USD xx.xx list-price benchmark supports the explicit nominal-price bridge; baggage attribution and unit mix remain modeled.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The Fido X4 historical USD xx.xx list-price benchmark supports the explicit nominal-price bridge; baggage attribution and unit mix remain modeled.

27. Astrotech Corporation - Form 10-K for the Fiscal Year Ended June 30, 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Discloses FY2025 product and service revenue, xx.xx deployment locations, and a six-unit USD xx.xx order. These provide a price comparator and supplier-scale check, not baggage-only revenue. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20250630_10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Discloses FY2025 product and service revenue, xx.xx deployment locations, and a six-unit USD xx.xx order. These provide a price comparator and supplier-scale check, not baggage-only revenue. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20250630_10k.htm))

28. Astrotech Corporation - Form 10-K for the Fiscal Year Ended June 30, 2026

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports eight TRACER units sold in FY2025 versus three in FY2026, identifies grant-related revenue within FY2025 product revenue, and describes a potential subsidiary sale. These constrain MS attribution and forecast optimism. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20260630_10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports eight TRACER units sold in FY2025 versus three in FY2026, identifies grant-related revenue within FY2025 product revenue, and describes a potential subsidiary sale. These constrain MS attribution and forecast optimism. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20260630_10k.htm))

29. Liquid Explosive Detector, Bottle Liquid Scanner, Insight - Agilent

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Raman-based airport resolution products and dated September 2025 launch and May 2026 contract announcements. Supports category continuity and adoption premises, not global unit or revenue shares. ([agilent.com](https://www.agilent.com/en/product/molecular-spectroscopy/raman-spectroscopy/raman-aviation-security-systems/insight-series-alarm-resolution-systems))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Raman-based airport resolution products and dated September 2025 launch and May 2026 contract announcements. Supports category continuity and adoption premises, not global unit or revenue shares. ([agilent.com](https://www.agilent.com/en/product/molecular-spectroscopy/raman-spectroscopy/raman-aviation-security-systems/insight-series-alarm-resolution-systems))

30. Bottle Liquid Scanner for Sale from China - Securina

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Positions microwave-based liquid-screening products for airports and customs. Supports commercial classification only; prices, authorization and purchasing weights remain assumptions. ([securinadetection.com](https://www.securinadetection.com/Bottle-Liquid-Scanner-Manufacturer-China.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Positions microwave-based liquid-screening products for airports and customs. Supports commercial classification only; prices, authorization and purchasing weights remain assumptions. ([securinadetection.com](https://www.securinadetection.com/Bottle-Liquid-Scanner-Manufacturer-China.html))

31. Quick, Accurate Threat-Detection Scanner for Liquid, Aerosol, and Gels Eases and Secures Air Travel Worldwide

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies LS10 as a complete commercial liquid scanner combining RF and ultrasonic capabilities, supporting nonduplicative complete-product attribution. ([battelle.org](https://www.battelle.org/insights/case-studies/case-study-details/quick-accurate-threat-detection-scanner-for-liquid-aerosol-and-gels-eases-and-secures-air-travel-worldwide))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies LS10 as a complete commercial liquid scanner combining RF and ultrasonic capabilities, supporting nonduplicative complete-product attribution. ([battelle.org](https://www.battelle.org/insights/case-studies/case-study-details/quick-accurate-threat-detection-scanner-for-liquid-aerosol-and-gels-eases-and-secures-air-travel-worldwide))

32. ECAC CEP Public Equipment List - Liquid Explosive Detection Systems, Update 10 July 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 list includes One Resonance Sensors MobiLab BLS. This supports retained listed status for a named product, not active supply, paid installed stock or observed receipts. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-LEDS%20equipment%20public%20list-update%xx.xx-xx.xx-rev1.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 list includes One Resonance Sensors MobiLab BLS. This supports retained listed status for a named product, not active supply, paid installed stock or observed receipts. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-LEDS%20equipment%20public%20list-update%xx.xx-xx.xx-rev1.pdf))

33. MobiLab BLS Bottled Liquid Scanner Endorsed By European Civil Aviation Conference

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's May xx.xx 2014 announcement identifies MobiLab BLS as an NMR-based airport liquid scanner and states that orders were being accepted. Establishes historical commercial offering, not 2025 deliveries. ([prnewswire.com](https://www.prnewswire.com/news-releases/mobilab-bls-bottled-liquid-scanner-endorsed-by-european-civil-aviation-conference-xx.xx.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's May xx.xx 2014 announcement identifies MobiLab BLS as an NMR-based airport liquid scanner and states that orders were being accepted. Establishes historical commercial offering, not 2025 deliveries. ([prnewswire.com](https://www.prnewswire.com/news-releases/mobilab-bls-bottled-liquid-scanner-endorsed-by-european-civil-aviation-conference-xx.xx.html))

34. SafePointe BLS Powered by ORS - Bottled Liquid Explosives Detection Solution

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The branded supplier brochure documents an ORS-powered bottled-liquid product channel. Its availability does not establish current orders or support continuity; it supports only the legacy-channel modeling premise. ([uploads-ssl.webflow.com](https://uploads-ssl.webflow.com/608330bcae48962bf6d7ff37/6149f80be6c30d34b5e3debe_BLS-Flyer-Compressed.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The branded supplier brochure documents an ORS-powered bottled-liquid product channel. Its availability does not establish current orders or support continuity; it supports only the legacy-channel modeling premise. ([uploads-ssl.webflow.com](https://uploads-ssl.webflow.com/608330bcae48962bf6d7ff37/6149f80be6c30d34b5e3debe_BLS-Flyer-Compressed.pdf))

35. Florida Division of Corporations - One Resonance Sensors, LLC, Entity Detail

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official registry records One Resonance Sensors, LLC as inactive following administrative dissolution on September xx.xx 2019. This counterevidence constrains continuity assumptions but does not prove zero surviving product support. ([search.sunbiz.org](https://search.sunbiz.org/Inquiry/CorporationSearch/SearchResultDetail?aggregateId=flal-l11000122986-c57f60b3-690d-4c87-836a-9aeb045075e8&directionType=CurrentList&inquirytype=EntityName&listNameOrder=ONERESONANCESENSORS+L110001229860&searchNameOrder=ONERESONANCESENSORS+L110001229860&searchTerm=ONE+RED+AMPERSAND+LLC))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official registry records One Resonance Sensors, LLC as inactive following administrative dissolution on September xx.xx 2019. This counterevidence constrains continuity assumptions but does not prove zero surviving product support. ([search.sunbiz.org](https://search.sunbiz.org/Inquiry/CorporationSearch/SearchResultDetail?aggregateId=flal-l11000122986-c57f60b3-690d-4c87-836a-9aeb045075e8&directionType=CurrentList&inquirytype=EntityName&listNameOrder=ONERESONANCESENSORS+L110001229860&searchNameOrder=ONERESONANCESENSORS+L110001229860&searchTerm=ONE+RED+AMPERSAND+LLC))

36. Explosive Detection - Teledyne FLIR Defense

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists offered Fido X-series products and service support, supporting commercial offering continuity only, not airport-specific eligibility or sales weights. ([flir.com](https://www.flir.com/threat-detection/explosives/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists offered Fido X-series products and service support, supporting commercial offering continuity only, not airport-specific eligibility or sales weights. ([flir.com](https://www.flir.com/threat-detection/explosives/))

37. Scintrex Trace E3500 Explosive Trace Detection Unit - SecurityPro USA

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distributor offers E3500 chemiluminescence equipment and identifies customs/border applications. Supports a commercial category lead, not measured airport purchasing or the assumed price. ([securityprousa.com](https://www.securityprousa.com/collections/explosive-detection/products/scintrex-trace-e3500-explosive-trace-detection-unit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distributor offers E3500 chemiluminescence equipment and identifies customs/border applications. Supports a commercial category lead, not measured airport purchasing or the assumed price. ([securityprousa.com](https://www.securityprousa.com/collections/explosive-detection/products/scintrex-trace-e3500-explosive-trace-detection-unit))

38. Portable Explosive Detector - Trace Detector EVD-3000+

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distributor offers EVD-xx.xx+ thermo-redox equipment. Supports offered-product classification, not airport authorization, purchasing volume or the modeled realization. ([securityprousa.com](https://www.securityprousa.com/products/scintrex-trace-evd-xx.xx-portable-trace-detection-unit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distributor offers EVD-xx.xx+ thermo-redox equipment. Supports offered-product classification, not airport authorization, purchasing volume or the modeled realization. ([securityprousa.com](https://www.securityprousa.com/products/scintrex-trace-evd-xx.xx-portable-trace-detection-unit))

39. CATSA's Purchase Order Terms and Conditions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contract terms constrain maintenance, parts and consumables escalation, qualifying unrestricted aftermarket pricing assumptions in the projection lifecycle model. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contract terms constrain maintenance, parts and consumables escalation, qualifying unrestricted aftermarket pricing assumptions in the projection lifecycle model. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contractual price limits constrain the pricing premise, but do not verify CT-specific global support receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contractual price limits constrain the pricing premise, but do not verify CT-specific global support receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintenance and consumable escalation limits qualify the trace-platform pricing assumption rather than establishing the modeled IMS share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintenance and consumable escalation limits qualify the trace-platform pricing assumption rather than establishing the modeled IMS share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The pre-existing-software clause grants broad license rights without transferring ownership; proprietary ownership alone therefore cannot establish the Closed revenue numerator. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The pre-existing-software clause grants broad license rights without transferring ownership; proprietary ownership alone therefore cannot establish the Closed revenue numerator. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Software modification rights are not themselves proof of standards-based interfaces or independent component substitution; supports conservative classification. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Software modification rights are not themselves proof of standards-based interfaces or independent component substitution; supports conservative classification. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))

40. Liquids Scanner for Airport Security - UC Davis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2011 account establishes a development contract and licensing relationship. Its development allocation is excluded from 2025 receipts and does not establish a surviving commercial cohort. ([ucdavis.edu](https://www.ucdavis.edu/news/liquids-scanner-airport-security))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2011 account establishes a development contract and licensing relationship. Its development allocation is excluded from 2025 receipts and does not establish a surviving commercial cohort. ([ucdavis.edu](https://www.ucdavis.edu/news/liquids-scanner-airport-security))
41. Open Architecture for Airport Security Systems, Second Edition
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes proprietary integration from interoperable connections, supporting the category boundary rather than an observed revenue share. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes proprietary integration from interoperable connections, supporting the category boundary rather than an observed revenue share. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Integration does not guarantee interoperability; this constrains attribution of vendor-mediated configurations. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Integration does not guarantee interoperability; this constrains attribution of vendor-mediated configurations. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Allows identified partial compliance and discusses accountable integration responsibilities; supports scoped open attribution, not whole-purchase reclassification. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Allows identified partial compliance and discusses accountable integration responsibilities; supports scoped open attribution, not whole-purchase reclassification. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))

42. CATSA 2025 Annual Report - Overview of Activities

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines across xx.xx airports serving more than xx.xx% of passengers in 2024/xx.xx; provides an independent integration-activity check, not a direct value allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines across xx.xx airports serving more than xx.xx% of passengers in 2024/xx.xx; provides an independent integration-activity check, not a direct value allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported modernized passenger coverage constrains an assumption of universally standalone activity, while leaving commercial architecture and revenue attribution unresolved. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported modernized passenger coverage constrains an assumption of universally standalone activity, while leaving commercial architecture and revenue attribution unresolved. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The annual report identifies enhanced non-passenger requirements and implementation planned from spring 2025. This supports a conditional modernization premise, not the modeled global uptake factor.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2024/xx.xx; provides a Canadian adoption comparator, not a global local-review revenue weight. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2024/xx.xx; provides a Canadian adoption comparator, not a global local-review revenue weight. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies remote screening within CATSA Plus and quantifies deployment; constrains the commercial-adoption premise but does not establish each review room's location. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies remote screening within CATSA Plus and quantifies deployment; constrains the commercial-adoption premise but does not establish each review room's location. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Deployment coverage constrains the addressable network-enabled pool; it does not disclose hybrid contracts or justify the modeled hybrid percentage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Deployment coverage constrains the addressable network-enabled pool; it does not disclose hybrid contracts or justify the modeled hybrid percentage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))

43. CATSA - Beyond the Checkpoint, December 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx operational CT machines at eight airports and a modular-line average of xx.xx passengers per hour versus xx.xx for traditional multi-split lines; supports the bounded throughput-to-unit bridge and phased-deployment premise. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/about-us/beyond-checkpoint-2025-december))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx operational CT machines at eight airports and a modular-line average of xx.xx passengers per hour versus xx.xx for traditional multi-split lines; supports the bounded throughput-to-unit bridge and phased-deployment premise. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/about-us/beyond-checkpoint-2025-december))

44. Smiths Detection Delivers Fully Automated International Remote Baggage Screening System Between South Korea and the United States

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2026 disclosure identifies xx.xx software licenses and DICOS V3.xx.xx exchange, and dates operational service to August 2025. Supports commercial standards-based activity and forecast feasibility, not an observed global share or a confirmed 2025 license inventory. ([smithsdetection.com](https://www.smithsdetection.com/press-releases/smiths-detection-delivers-fully-automated-international-remote-baggage-screening-system-between-south-korea-and-the-united-states/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2026 disclosure identifies xx.xx software licenses and DICOS V3.xx.xx exchange, and dates operational service to August 2025. Supports commercial standards-based activity and forecast feasibility, not an observed global share or a confirmed 2025 license inventory. ([smithsdetection.com](https://www.smithsdetection.com/press-releases/smiths-detection-delivers-fully-automated-international-remote-baggage-screening-system-between-south-korea-and-the-united-states/))

45. SeeTrue Marks Milestone with Over 100 X-ray Checkpoint Installations of Advanced AI-Based Threat Detection Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 announcement reports the 100th operational screening lane across airports and other sectors. Provides a limited commercial-adoption scale check; it is neither airport-only nor a census of standards-based entitlements. ([seetrue.ai](https://www.seetrue.ai/seetrue-marks-milestone-with-over-xx.xx-x-ray-checkpoint-installations-of-advanced-ai-based-threat-detection-software/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 announcement reports the 100th operational screening lane across airports and other sectors. Provides a limited commercial-adoption scale check; it is neither airport-only nor a census of standards-based entitlements. ([seetrue.ai](https://www.seetrue.ai/seetrue-marks-milestone-with-over-xx.xx-x-ray-checkpoint-installations-of-advanced-ai-based-threat-detection-software/))

46. Scarabee's Checkpoint Property Screening System to be deployed at DEN

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-lane Denver award combining Scarabee lanes with Smiths scanners. Corroborates a commercial mixed-supplier integration route; an award is not realized annual revenue or proof of unrestricted interoperability. ([daifukuatec.com](https://daifukuatec.com/news/scarabees-checkpoint-property-screening-system-to-be-deployed-at-den))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-lane Denver award combining Scarabee lanes with Smiths scanners. Corroborates a commercial mixed-supplier integration route; an award is not realized annual revenue or proof of unrestricted interoperability. ([daifukuatec.com](https://daifukuatec.com/news/scarabees-checkpoint-property-screening-system-to-be-deployed-at-den))

47. CATSA Annual Report 2024 - Management's Discussion and Analysis

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx pre-board capital appropriations used of C$xx.xx provide the second period in the non-passenger-to-cabin purchasing comparison.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx non-passenger capital appropriations used of C$xx.xx enter the two-period activity proxy; they do not identify the property-only fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx non-passenger capital appropriations used of C$xx.xx enter the two-period activity proxy; they do not identify the property-only fraction.

48. Smiths Detection confirm order of 91 advanced scanners for new terminals at Moscow Sheremetyevo International Airport
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The dated airport deployment includes xx.xx entrance baggage systems and xx.xx cabin-checkpoint systems. Their ratio supplies a historical relative-density proxy, subsequently discounted for assumed global coverage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated airport deployment includes xx.xx entrance baggage systems and xx.xx cabin-checkpoint systems. Their ratio supplies a historical relative-density proxy, subsequently discounted for assumed global coverage.
49. Cochin International Airport Selects Smiths Detection's CTX 9800 for Next-Generation Hold Baggage Screening
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2017 deployment identifies xx.xx customs baggage systems alongside four hold-baggage systems. This supports the customs-intensive historical configuration proxy, not current global fleet or revenue observations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2017 deployment identifies xx.xx customs baggage systems alongside four hold-baggage systems. This supports the customs-intensive historical configuration proxy, not current global fleet or revenue observations.
50. CATSA Functions, Programs and Activities
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Hold-baggage activities include equipment purchase, baggage-handling integration and equipment maintenance, supporting the checked-baggage capital and lifecycle boundary.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Hold-baggage activities include equipment purchase, baggage-handling integration and equipment maintenance, supporting the checked-baggage capital and lifecycle boundary.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-passenger screening covers airport workers and their belongings; only attributable property-screening offerings enter this allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-passenger screening covers airport workers and their belongings; only attributable property-screening offerings enter this allocation.
51. Fraport TAV Antalya Airport - About the security control itself
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The airport operator distinguishes terminal-entry security from a subsequent checkpoint. This supports a separate entrance-screening mission while providing no global prevalence or spending share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport operator distinguishes terminal-entry security from a subsequent checkpoint. This supports a separate entrance-screening mission while providing no global prevalence or spending share.
52. EMSD VoiceLink, Issue 79, June 2026 - EMSD Provides Comprehensive Support for Terminal 2 Commissioning
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June 2026 account identifies baggage-and-parcel equipment procurement and installation for the customs authority at Terminal xx.xx. It supports a separate commissioning mission but does not isolate baggage expenditure.
53. GAO-26-107811 - Guam: Considerations for Evaluating Alternative Customs Models and Potential Economic Effects
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The audit identifies two historical airport-customs baggage systems inactive for years and delayed replacement procurement. This challenges conversion of installed stock or acknowledged need directly into annual equipment and support revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The audit identifies two historical airport-customs baggage systems inactive for years and delayed replacement procurement. This challenges conversion of installed stock or acknowledged need directly into annual equipment and support revenue.

54. Bennet, Moran, Van Hollen, Boozman Introduce Bill to Bolster Aviation Safety
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 official release identifies xx.xx U.S. screening lanes, used as agency purchasing-exposure calibration rather than observed annual equipment sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 official release identifies xx.xx U.S. screening lanes, used as agency purchasing-exposure calibration rather than observed annual equipment sales.
55. Bank of Canada - Annual exchange rates
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual exchange-rate observations support the inherited fiscal-period approximation of xx.xx Canadian dollars per U.S. dollar; this is not a transaction-weighted exchange rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual exchange-rate observations support the inherited fiscal-period approximation of xx.xx Canadian dollars per U.S. dollar; this is not a transaction-weighted exchange rate.
56. Japan’s leading airline revolutionizes check in experience with new Smiths Detection technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The August 2023 announcement identifies JAL as customer for five screening ecosystems and reports xx.xx deployed iLane units across Japan. These are historical commercial-stock anchors, not an airline-only fleet or 2025 sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August 2023 announcement identifies JAL as customer for five screening ecosystems and reports xx.xx deployed iLane units across Japan. These are historical commercial-stock anchors, not an airline-only fleet or 2025 sales observation.
57. Narita International Airport anticipates threats with integrated solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Narita airport as a screening-technology customer and describes xx.xx lane-related installations, qualifying any assumption that the supplier's Japanese installed stock was purchased entirely by airlines.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Narita airport as a screening-technology customer and describes xx.xx lane-related installations, qualifying any assumption that the supplier's Japanese installed stock was purchased entirely by airlines.
58. MLIT - 保安検査の実施主体が変わります！ - June 27, 2025
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement targets transfer of security-screening responsibility from airlines to airport managers, with leading cases targeted in FY2026. Supports a conditional reduction in airline purchasing, not an observed contract-transfer percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transfer direction supports modeled airport-manager purchasing gains. Continued shared financing does not imply equal purchasing shares.
59. ICTS International N.V. - Annual Report for the year ended December 31, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Discloses USD xx.xx company-wide property/equipment purchases and USD xx.xx airport-security revenue in 2025. Supports an asset-light purchasing-intensity proxy; the in-scope fraction and global expansion remain assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Discloses USD xx.xx company-wide property/equipment purchases and USD xx.xx airport-security revenue in 2025. Supports an asset-light purchasing-intensity proxy; the in-scope fraction and global expansion remain assumptions.

60. EU Publications Office - Purchase and maintenance of non-intrusive X-ray inspection equipment for baggage and air cargo volume control
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Autoridade Tributária e Aduaneira as buyer and reports a 2026 award of EUR xx.xx across four lots for baggage/air-cargo inspection equipment and maintenance. Provides a buyer-role and commercial-scale comparator, not 2025 baggage-only annual expenditure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Autoridade Tributária e Aduaneira as buyer and reports a 2026 award of EUR xx.xx across four lots for baggage/air-cargo inspection equipment and maintenance. Provides a buyer-role and commercial-scale comparator, not 2025 baggage-only annual expenditure.
61. ACI World - Busiest Airports in the World
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx international airport passenger movements in 2025. Half provides an approximate arrival-movement scale check before transfer exclusions, not a customs examination or equipment-purchasing weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx international airport passenger movements in 2025. Half provides an approximate arrival-movement scale check before transfer exclusions, not a customs examination or equipment-purchasing weight.
62. Heathrow announces £2.3bn accelerated investment plan to upgrade the UK's international gateway to growth
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports GBP xx.xx invested in security-lane upgrades during 2024, supporting material airport-directed purchasing. Broader infrastructure obligations and historical timing prevent treating the amount as 2025 in-scope market receipts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports GBP xx.xx invested in security-lane upgrades during 2024, supporting material airport-directed purchasing. Broader infrastructure obligations and historical timing prevent treating the amount as 2025 in-scope market receipts.
63. Fraport Assumes Responsibility for Aviation Security Checks at Frankfurt Airport
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents Fraport's checkpoint-management responsibility from January 2023, six initial CT-equipped lanes and three contracted screening providers. Supports distinguishing an airport commissioning role from regulator oversight and contracted screening labor.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents Fraport's checkpoint-management responsibility from January 2023, six initial CT-equipped lanes and three contracted screening providers. Supports distinguishing an airport commissioning role from regulator oversight and contracted screening labor.
64. Advanced Cabin Baggage Screening - Computed Tomography Implementation Guide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes standalone CT, including equipment-local conveyance, from integrated screening-lane configurations; supports attribution boundaries, not a revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes standalone CT, including equipment-local conveyance, from integrated screening-lane configurations; supports attribution boundaries, not a revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies automated tray-return and automated screening-lane integration as commercially distinct configurations; supports the lane-integrated category definition.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies automated tray-return and automated screening-lane integration as commercially distinct configurations; supports the lane-integrated category definition.

65. GAO-12-266 - Checked Baggage Screening: TSA Has Deployed Optimal Systems at the Majority of TSA-Regulated Airports, but Could Strengthen Cost Estimates

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December 2011 table reports xx.xx standalone EDS alongside xx.xx in-line EDS; this historical machine-count comparator constrains, but does not determine, the current global allocation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December 2011 table reports xx.xx standalone EDS alongside xx.xx in-line EDS; this historical machine-count comparator constrains, but does not determine, the current global allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx in-line EDS across xx.xx in-line systems and distinguishes equipment counts from integrated-system counts; supports the historical configuration bridge.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx in-line EDS across xx.xx in-line systems and distinguishes equipment counts from integrated-system counts; supports the historical configuration bridge.

66. Smiths Detection selected as security technology provider to International Airport Heraklion Crete

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 announcement identifies eight cabin CT scanners and eight automated tray-return systems for Heraklion, with installation planned across late 2025 and mid-2026; supports ongoing integrated procurement, not realized annual revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 announcement identifies eight cabin CT scanners and eight automated tray-return systems for Heraklion, with installation planned across late 2025 and mid-2026; supports ongoing integrated procurement, not realized annual revenue.

67. Centralised Image Processing: The Impact on Security Checkpoints

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes checkpoint-local image review from separate-room arrangements; supports retaining networked local activity rather than automatically assigning it to remote review. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes checkpoint-local image review from separate-room arrangements; supports retaining networked local activity rather than automatically assigning it to remote review. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes separate screening rooms and established remote hold-baggage review at larger airports; supports the cohort-maturity premise, not a numerical global share. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes separate screening rooms and established remote hold-baggage review at larger airports; supports the cohort-maturity premise, not a numerical global share. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes combined checkpoint and remote-room arrangements, establishing a mixed-location commercial configuration without measuring its prevalence or price. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes combined checkpoint and remote-room arrangements, establishing a mixed-location commercial configuration without measuring its prevalence or price. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))

68. Annual Report 2024 - CATSA's Operating Environment

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2023/xx.xx providing the historical comparison rather than a global location allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2023/xx.xx providing the historical comparison rather than a global location allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Together with the subsequent annual report, supports a seven-line deployment increase without a corresponding increase in reported passenger coverage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Together with the subsequent annual report, supports a seven-line deployment increase without a corresponding increase in reported passenger coverage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provides a historical network-enabled deployment anchor, while leaving the physical mixed-location contract share unmeasured. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provides a historical network-enabled deployment anchor, while leaving the physical mixed-location contract share unmeasured. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))

69. L22020-T-TG Upgrades to the Passenger Search Area, body scanners, EDS C3 cabin baggage screening - Contract Award Notice

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2023 Luton award expressly includes construction of a remote screening room at the airport terminal, supporting separate-room commercial procurement. Its broader scope is not treated as baggage-only annual revenue. ([find-tender.service.gov.uk](https://www.find-tender.service.gov.uk/Notice/xx.xx-2023))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2023 Luton award expressly includes construction of a remote screening room at the airport terminal, supporting separate-room commercial procurement. Its broader scope is not treated as baggage-only annual revenue. ([find-tender.service.gov.uk](https://www.find-tender.service.gov.uk/Notice/xx.xx-2023))

70. Greater Orlando Aviation Authority - Minutes of the February 19, 2025 Meeting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Authorizes up to USD xx.xx for baggage-system and Remote Screening Facility network/server separation. Half this ceiling is an explicitly assumed deployment-cost comparator, not observed off-site receipts. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Authorizes up to USD xx.xx for baggage-system and Remote Screening Facility network/server separation. Half this ceiling is an explicitly assumed deployment-cost comparator, not observed off-site receipts. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provides the commercial networking-cost anchor for the modeled transfer from existing on-site pools, avoiding additional market value or duplicate host-equipment attribution. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provides the commercial networking-cost anchor for the modeled transfer from existing on-site pools, avoiding additional market value or duplicate host-equipment attribution. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))

71. American and U.S. Customs and Border Protection pilot innovative baggage screening initiative

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: American's April xx.xx 2025 announcement identifies a daily Sydney-Los Angeles IRBS pilot and unchanged screening requirements. It anchors one sampled connection and an assumed partial-year licensing period, not disclosed revenue. ([s202.q4cdn.com](https://s202.q4cdn.com/xx.xx/files/doc_news/American-and-US-Customs-and-Border-Protection-pilot-innovative-baggage-screening-initiative-OPS-OTH-xx.xx-2025.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: American's April xx.xx 2025 announcement identifies a daily Sydney-Los Angeles IRBS pilot and unchanged screening requirements. It anchors one sampled connection and an assumed partial-year licensing period, not disclosed revenue. ([s202.q4cdn.com](https://s202.q4cdn.com/xx.xx/files/doc_news/American-and-US-Customs-and-Border-Protection-pilot-innovative-baggage-screening-initiative-OPS-OTH-xx.xx-2025.pdf))

72. 델타항공-대한항공, 인천발 애틀랜타 노선 대상 위탁수하물 원격 검색 방식 신규 도입

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2025 announcement identifies the Incheon-Atlanta IRBS arrangement, anchoring a second sampled connection and a partial-year commercial-activity assumption without establishing contract value. ([news.delta.com](https://news.delta.com/delta-and-koreanair-launch-remote-baggage-screening-on-icn-atl-KR))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2025 announcement identifies the Incheon-Atlanta IRBS arrangement, anchoring a second sampled connection and a partial-year commercial-activity assumption without establishing contract value. ([news.delta.com](https://news.delta.com/delta-and-koreanair-launch-remote-baggage-screening-on-icn-atl-KR))

73. United Launches CBP's International Remote Baggage Screening on Select International Flights

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: United's September xx.xx 2025 announcement identifies daily Sydney-San Francisco service and named technology partners, anchoring a third sampled connection. It reports no attributable software or integration receipts. ([united.mediaroom.com](https://united.mediaroom.com/2025-xx.xx-xx.xx-United-Launches-CBPs-International-Remote-Baggage-Screening-on-Select-International-Flights))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: United's September xx.xx 2025 announcement identifies daily Sydney-San Francisco service and named technology partners, anchoring a third sampled connection. It reports no attributable software or integration receipts. ([united.mediaroom.com](https://united.mediaroom.com/2025-xx.xx-xx.xx-United-Launches-CBPs-International-Remote-Baggage-Screening-on-Select-International-Flights))

74. Airline Passengers Face Fewer Bag Checkpoints, Thanks to PNNL, Partners

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2026 laboratory release describes implementation on additional routes, including Seoul arrivals at Minneapolis-St. Paul and Detroit. This supports expansion direction, not the forecast connection count, realization or global share. ([pnnl.gov](https://www.pnnl.gov/news-media/airline-passengers-face-fewer-bag-checkpoints-thanks-pnnl-partners))

75. TSA awards $781.2 million to procure additional CT X-Ray scanners for airport checkpoints

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2022 announcement identifies up to USD xx.xx for procurement and maintenance of up to xx.xx systems from an OEM. This is a historical procurement-scale anchor, not annual 2025 direct-channel revenue. ([content.govdelivery.com](https://content.govdelivery.com/accounts/USDHSTSA/bulletins/30f6e5f))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The award includes full-size automated lanes, cautioning against assigning all automation value to non-OEM integration primes; exact contractual-role attribution is not disclosed. ([content.govdelivery.com](https://content.govdelivery.com/accounts/USDHSTSA/bulletins/30f6e5f))

76. OSI Systems, Inc. - Form 10-K for the fiscal year ended June 30, 2026

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing describes regional direct security-product sales and direct maintenance relationships. Its broader security scope supports route coexistence, not baggage-only sales weights. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing describes regional direct security-product sales and direct maintenance relationships. Its broader security scope supports route coexistence, not baggage-only sales weights. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company identifies a global independent-distributor network, supporting a continuing indirect route without quantifying its value share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company identifies a global independent-distributor network, supporting a continuing indirect route without quantifying its value share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Authorized service providers are identified separately from distributors, supporting distinct technical-service attribution and access limitations. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Authorized service providers are identified separately from distributors, supporting distinct technical-service attribution and access limitations. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

77. SriLankan Airlines - Invitation for Supply, Installation, Commissioning and Maintenance of Dual View Heavy and Medium X-Ray Machines, Reference 202130407

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 purchaser invitation permits an OEM or authorized OEM agent and requires authorization for the latter. It establishes equipment-channel eligibility, not an award or software-resale right. ([srilankan.com](https://www.srilankan.com/download/tender/TN-Invitationforsubmiss-xx.xx.pdf))

78. JFK Millennium Partners Selects K2 to Deliver State-of-the-Art Security Screening Checkpoint at new JFK Terminal 6

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment assigns procurement and deployment coordination across multiple technology suppliers at a future ten-gate terminal. It supports integration-prime participation and a forecast mechanism, not a disclosed share or completed 2025 revenue. ([portauthoritybuilds.com](https://www.portauthoritybuilds.com/redevelopment/us/en/jfk/planned-projects/terminal-xx.xx/news/jfk-millennium-partners-selects-k2-to-deliver-state-of-the-art-s.html))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment assigns procurement and deployment coordination across multiple technology suppliers at a future ten-gate terminal. It supports integration-prime participation and a forecast mechanism, not a disclosed share or completed 2025 revenue. ([portauthoritybuilds.com](https://www.portauthoritybuilds.com/redevelopment/us/en/jfk/planned-projects/terminal-xx.xx/news/jfk-millennium-partners-selects-k2-to-deliver-state-of-the-art-s.html))

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment covers baggage CT and automated bin-return equipment for a future xx.xx-gate terminal, with phased opening planned for 2026-2028. It establishes new-installation activity, not attributable 2025 receipts; wider airport investment and person-only technologies are excluded.

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment covers baggage CT and automated bin-return equipment for a future xx.xx-gate terminal, with phased opening planned for 2026-2028. It establishes new-installation activity, not attributable 2025 receipts; wider airport investment and person-only technologies are excluded.

79. CATSA Corporate Plan 2024-25 to 2028-29 Summary - Key Corporate Risks

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The authority reports transferring maintenance of most screening equipment to KPrime in 2023/xx.xx. This establishes a separately contracted maintenance relationship, without a baggage-only payment split. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/key-corporate-risks))

80. Leidos wins TSA logistics contract

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 announcement describes an eight-year, USD xx.xx maximum sustainment contract covering xx.xx equipment units at over xx.xx locations with manufacturer coordination. Annualization and baggage/third-party attribution in the model are explicit assumptions. ([leidos.com](https://www.leidos.com/insights/leidos-wins-tsa-logistics-contract))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 announcement describes an eight-year, USD xx.xx maximum sustainment contract covering xx.xx equipment units at over xx.xx locations with manufacturer coordination. Annualization and baggage/third-party attribution in the model are explicit assumptions. ([leidos.com](https://www.leidos.com/insights/leidos-wins-tsa-logistics-contract))

81. Checkpoint Transformation: Malta International Airport Streamlines Passenger Flow with Smiths Detection
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Seven conventional automated lanes were replaced by six CT-equipped lanes, with final commissioning in January 2025. This is a counterexample to equating capacity improvement with net additional equipment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seven conventional automated lanes were replaced by six CT-equipped lanes, with final commissioning in January 2025. This is a counterexample to equating capacity improvement with net additional equipment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The complete checkpoint replacement illustrates why an offering described commercially as an upgrade can belong to System Replacement. The seven-year service commitment is not counted wholly as installation-year revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The complete checkpoint replacement illustrates why an offering described commercially as an upgrade can belong to System Replacement. The seven-year service commitment is not counted wholly as installation-year revenue.
82. iCMORE - Smiths Detection
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current commercial offering describes a software-upgrade path while qualifying additional hardware requirements by machine type and age. This constrains forecast eligibility assumptions; product availability does not measure adoption or revenue.

18.13. South Korea

Table 612. South Korea Airport Baggage Screening Systems Market Size, 2017-2040 (USD Million)

Country	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
South Korea	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 613. South Korea Airport Baggage Screening Systems Market Size, by Offering, 2017-2040 (USD Million)

Offering	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Detection Equipment	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Replacement Parts and Consumables	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Screening Automation Equipment	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Screening Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
System Services	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx

Sources & Evidence

1. House Report 119-173 - Department of Homeland Security Appropriations Bill, 2026

   · Evidence informing the 2030 market-value input; displayed series and growth include calculations: The aging installed fleet supports replacement demand, but does not establish the forecast's realization dates or annual purchasing rate. ([govinfo.gov](https://www.govinfo.gov/content/pkg/CRPT-119hrpt173/html/CRPT-119hrpt173.htm))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report identifies xx.xx end-of-life systems within a xx.xx-system checked-baggage fleet. This constrains renewal exposure, not realized annual purchasing or a verified global replacement deadline.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports a TSA checked-baggage fleet of xx.xx EDS, including xx.xx at end-of-life, and assigns purchase, installation and maintenance responsibilities to TSA. Supports agency fleet calibration and renewal pressure, not the assumed forecast uplift.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports a TSA checked-baggage fleet of xx.xx EDS, including xx.xx at end-of-life, and assigns purchase, installation and maintenance responsibilities to TSA. Supports agency fleet calibration and renewal pressure, not the assumed forecast uplift.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report identifies xx.xx end-of-life EDS within a xx.xx-unit U.S. checked-baggage fleet, citing the FY2024 capital plan. The derived xx.xx% backlog constrains the aging-fleet premise, but is neither an annual turnover rate nor a funded global replacement forecast.

2. GAO-24-106573 - DHS Annual Assessment: Most Programs Are Meeting Current Goals, but Some Continue to Face Cost and Schedule Challenges

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports plans for xx.xx checkpoint systems and xx.xx increment-one deployments by September 2023; supports an incomplete replacement cycle rather than universal CT adoption. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx AT/CT, xx.xx base, xx.xx mid-size and xx.xx full-size deployments by September 2023; supplies configuration proxies and an incomplete-renewal constraint, not contractual architecture shares. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx AT/CT, xx.xx base, xx.xx mid-size and xx.xx full-size deployments by September 2023; supplies configuration proxies and an incomplete-renewal constraint, not contractual architecture shares. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The deployed configuration mix underlies the xx.xx/xx.xx newer-cohort and xx.xx/xx.xx older-cohort proxy calculations; global and contractual attribution remain modeled. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The deployed configuration mix underlies the xx.xx/xx.xx newer-cohort and xx.xx/xx.xx older-cohort proxy calculations; global and contractual attribution remain modeled. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The assessment records xx.xx checkpoint systems deployed by September 2023 against an eventual xx.xx-system program. This supports an incomplete replacement cycle and qualifies any assumption of universal CT adoption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The assessment records xx.xx checkpoint systems deployed by September 2023 against an eventual xx.xx-system program. This supports an incomplete replacement cycle and qualifies any assumption of universal CT adoption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports a September 2023 U.S. CT cohort containing xx.xx AT/CT and xx.xx base systems, providing counterevidence to assigning all CT activity automatically to integrated lanes.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports a September 2023 U.S. CT cohort containing xx.xx AT/CT and xx.xx base systems, providing counterevidence to assigning all CT activity automatically to integrated lanes.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx mid-size and xx.xx full-size systems within xx.xx deployed CT systems; supports differentiated configuration assumptions rather than treating technology adoption as an integration-share observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx mid-size and xx.xx full-size systems within xx.xx deployed CT systems; supports differentiated configuration assumptions rather than treating technology adoption as an integration-share observation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2024 assessment records xx.xx checkpoint deployments as of September 2023 against xx.xx planned systems replacing aging equipment. It supports staged renewal, but does not establish current deployment completion or the modeled 2032 share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2024 assessment records xx.xx checkpoint deployments as of September 2023 against xx.xx planned systems replacing aging equipment. It supports staged renewal, but does not establish current deployment completion or the modeled 2032 share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The program separately anticipates enhancements to fielded systems, supporting a retained-equipment commercial pathway without supplying an attributable upgrade-revenue split.

3. Global Airport Passenger Traffic Reaches Record 9.8 Billion in 2025, Airports Council International World reports

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports cooling passenger-growth momentum in 2026, supporting moderation of traffic-driven equipment expansion despite continuing replacement demand.
   ([aci.aero](https://aci.aero/2026/xx.xx/xx.xx/global-airport-passenger-traffic-reaches-record-xx.xx-xx.xx-billion-in-2025-airports-council-international-world-reports/))

4. Smiths Group PLC - Full Year Results for the 12 Months Ended 31 July 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Discloses aviation original-equipment revenue of xx.xx and aftermarket revenue of xx.xx for FY2024; supplies historical cycle proxies. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing the 2027 market-value input; displayed series and growth include calculations: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; supports replacement activity, not an observed global forecast. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2025 aviation original-equipment revenue of GBP xx.xx provides an independent equipment-activity scale check, not a global category share. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025 aviation original-equipment revenue of GBP xx.xx provides an independent equipment-activity scale check, not a global category share. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx cumulative CTiX sales corroborate commercial imaging activity and replacement demand; they do not measure annual global sales. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx cumulative CTiX sales corroborate commercial imaging activity and replacement demand; they do not measure annual global sales. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: GBP xx.xx aviation aftermarket revenue supports lifecycle materiality while qualifying transfer of one supplier's mix to the global service allocation. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GBP xx.xx aviation aftermarket revenue supports lifecycle materiality while qualifying transfer of one supplier's mix to the global service allocation. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; cumulative sales constrain commercial scale but are not annual global shipments. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; cumulative sales constrain commercial scale but are not annual global shipments. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports four operating XDi units as of July 2025 and pending regulatory certification, constraining the small XRD cohort and qualifying aggressive commercialization assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports four operating XDi units as of July 2025 and pending regulatory certification, constraining the small XRD cohort and qualifying aggressive commercialization assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported checkpoint modernization provides a commercial reason to model substitution from discrete legacy offerings; the filing does not disclose standalone configuration revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025

5. Smiths Group PLC - Annual Report & Accounts FY2023
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: Reports FY2022 aviation original-equipment revenue of xx.xx, used as a dimensionless historical capital-cycle proxy. ([www-live.smiths.com](https://www-live.smiths.com/media/phjp1j44/smiths-annual-report-2023.pdf))
   - Evidence informing the 2023 market-value input; displayed series and growth include calculations: Reports FY2023 aviation original-equipment revenue of xx.xx and aftermarket revenue of xx.xx; supports the modeled recovery direction. ([www-live.smiths.com](https://www-live.smiths.com/media/phjp1j44/smiths-annual-report-2023.pdf))
6. Smiths Group PLC - Annual Report FY2022
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: Reports FY2021 aviation revenue of xx.xx, providing a historical purchasing-cycle reference rather than a global observation. ([www-live.smiths.com](https://www-live.smiths.com/media/xjvdpblr/smiths-annual-report-2022-report.pdf))
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: Reports FY2022 aviation revenue of xx.xx and continued weakness in aviation original equipment; supports a delayed capital-spending trough. ([www-live.smiths.com](https://www-live.smiths.com/media/xjvdpblr/smiths-annual-report-2022-report.pdf))
7. Smiths Group PLC - Annual Results for the Year Ended 31 July 2019
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: Reports FY2018 aviation revenue of xx.xx, supplying the historical comparison underlying the backcast. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: Reports FY2019 aviation revenue of xx.xx and customer delivery deferrals, qualifying a traffic-only growth model. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Identifies deliveries deferred into FY2020; supports the possibility of backlog-supported spending despite a contemporaneous traffic shock, not the exact modeled growth rate. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
8. ACI World - The High-Wire Balancing Act: Global Air Transport Demand in 2018 and 2019
   - Evidence informing the 2017 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers and xx.xx% growth in 2018; the growth observation informs the 2017 backcast bridge. ([blog.aci.aero](https://blog.aci.aero/airport-economics/the-high-wire-balancing-act-global-air-transport-demand-in-2018-and-2019/))
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: Provides the observed 2018 traffic-growth reference, not an equipment-market growth observation. ([blog.aci.aero](https://blog.aci.aero/airport-economics/the-high-wire-balancing-act-global-air-transport-demand-in-2018-and-2019/))
9. ICAO A42-WP/556 - State of the Industry and Outlook for Airport Traffic, Presented by ACI
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Records the collapse from xx.xx airport passengers in 2019 to xx.xx in 2020; constrains the shock and funding-risk interpretation. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2021, supporting a prolonged funding and activity shock. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2023 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2023; traffic recovery is distinguished from equipment purchasing. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2024, providing a demand recovery cross-check. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))

10. Port of Seattle - Baggage Handling System Optimization

- Evidence informing the 2029 market-value input; displayed series and growth include calculations: Seattle plans to consolidate six baggage-screening systems, increase supported passenger capacity, and reduce screening-machine demand. Supports integration spending without one-for-one detector growth. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The consolidation example constrains equipment-volume assumptions; its whole baggage-handling project value is excluded from market sizing. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing the 2040 market-value input; displayed series and growth include calculations: Provides a commercial counterexample to extrapolating passenger growth directly into machine counts throughout the long-range forecast. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Consolidation of six systems with reduced machine demand qualifies a traffic-to-detector-volume forecast. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The consolidation project supports integration-driven conveyor demand, but its whole-project value is excluded. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Brownfield consolidation supports the integration-demand premise, not the forecast's exact service growth factor. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport replaces six separate screening systems with centralized screening and expects reduced screening-machine demand while expanding capacity. This supplies a counterforce to volume-only checked-baggage forecasting.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Seattle is consolidating six screening systems, expects reduced screening-machine demand and schedules final-phase completion in 2029. Supports integration demand while constraining detector-volume growth; the whole-project budget is excluded.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seattle is consolidating six screening systems, expects reduced screening-machine demand and schedules final-phase completion in 2029. Supports integration demand while constraining detector-volume growth; the whole-project budget is excluded.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seattle's project combines increased screening capacity with consolidation from six screening systems and reduced screening-machine demand. This constrains the forecast assumption that capacity growth requires proportional equipment additions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement and capacity objectives coexist within the project. Its wider baggage-handling budget is not treated as screening-equipment revenue or assigned additively to multiple purposes.

11. Smiths Group PLC - Half Year Results for the Six Months Ended 31 January 2026

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports xx.xx% organic growth for Smiths Detection in HY2026, with aviation checkpoint upgrades contributing. Supports a positive 2026 nowcast, not a directly observed global growth rate. ([www-live.smiths.com](https://www-live.smiths.com/media/villk35h/smiths-hy26-results-press-release.pdf))

12. CATSA 2025 Annual Report - Notes to the Financial Statements

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx accounts disclose C$xx.xx maintenance/spares and C$xx.xx training/certification, supporting the service-budget calibration but not global baggage-only shares. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx accounts disclose C$xx.xx maintenance/spares and C$xx.xx training/certification, supporting the service-budget calibration but not global baggage-only shares. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintenance and spare parts are combined in the accounts; the labor-versus-goods split therefore remains modeled. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintenance and spare parts are combined in the accounts; the labor-versus-goods split therefore remains modeled. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The C$xx.xx training/certification expense supplies the numerator of the adjusted training-to-capital proxy. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The C$xx.xx training/certification expense supplies the numerator of the adjusted training-to-capital proxy. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: C$xx.xx trace/consumables is distinct from maintenance/spares and supplies the contrary consumables-intensity comparator, not a global observation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: C$xx.xx trace/consumables is distinct from maintenance/spares and supplies the contrary consumables-intensity comparator, not a global observation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately reports C$xx.xx maintenance/spares, C$xx.xx trace/consumables and C$xx.xx training/certification, constraining attributable agency lifecycle expenditure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates screening-contractor payments from equipment support, preventing staffing expenditure from becoming equipment-market purchasing.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately reports C$xx.xx maintenance/spares, C$xx.xx trace/consumables and C$xx.xx training/certification, constraining attributable agency lifecycle expenditure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates screening-contractor payments from equipment support, preventing staffing expenditure from becoming equipment-market purchasing.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited expense disclosure reports C$xx.xx for maintenance and spare parts in the year ended March xx.xx 2025. It constrains support-spending materiality, not the amount attributable to an independent provider. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))

13. CATSA 2025 Annual Report - Management's Discussion and Analysis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: EDS capital expenditure of C$xx.xx includes equipment and installation/integration and supplies the training-calibration denominator, subject to baggage attribution. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EDS capital expenditure of C$xx.xx includes equipment and installation/integration and supplies the training-calibration denominator, subject to baggage attribution. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The capital definition includes associated installation and integration, supporting the distinction between deployment services and equipment value. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The capital definition includes associated installation and integration, supporting the distinction between deployment services and equipment value. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Actual spending, original budget and reprofile amounts constrain the forecast's purchasing-execution interpretation; they are not a global growth rate. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx pre-board capital appropriations used were C$xx.xx. This supplies the Canadian purchasing comparison and a component of the non-passenger-to-cabin activity proxy, not a global share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx pre-board capital appropriations used were C$xx.xx. This supplies the Canadian purchasing comparison and a component of the non-passenger-to-cabin activity proxy, not a global share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx hold-baggage capital appropriations used were C$xx.xx; this constrains the independent application-capital comparison.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx non-passenger capital appropriations used were C$xx.xx, below the original C$xx.xx budget. Actual purchasing informs the proxy and qualifies automatic announcement-to-revenue conversion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx non-passenger capital appropriations used were C$xx.xx, below the original C$xx.xx budget. Actual purchasing informs the proxy and qualifies automatic announcement-to-revenue conversion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports C$xx.xx EDS capital expenditure for FY2024/xx.xx and identifies both baggage equipment and full-body scanners in the capital scope, requiring a baggage-attribution adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports C$xx.xx EDS capital expenditure for FY2024/xx.xx and identifies both baggage equipment and full-body scanners in the capital scope, requiring a baggage-attribution adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EDS outturn was C$xx.xx versus an original C$xx.xx plan and revised C$xx.xx budget. Reprofiling constrains assumed award conversion and deployment timing; it does not measure procurement-channel mix. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The actual capital-project list identifies hold-baggage capacity expansion at Montréal-Trudeau, supporting the expansion classification, not its modeled global revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The actual capital-project list identifies hold-baggage capacity expansion at Montréal-Trudeau, supporting the expansion classification, not its modeled global revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The actual project list includes checkpoint CT deployment and hold-baggage oversize-equipment lifecycle management, supporting renewal activity without disclosing its purpose-specific spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The actual project list includes checkpoint CT deployment and hold-baggage oversize-equipment lifecycle management,

14. Aviation security screening approved equipment list
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Baggage EDS/EDSCB and conventional X-ray classes support the inspection-system boundary, not sales weights. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Baggage EDS/EDSCB and conventional X-ray classes support the inspection-system boundary, not sales weights. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Liquid detectors are a distinct cabin-baggage category; the complete bulk-material extension remains modeled within the captured boundary. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Liquid detectors are a distinct cabin-baggage category; the complete bulk-material extension remains modeled within the captured boundary. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ETD serves baggage and other applications, requiring explicit baggage attribution rather than allocating all detector sales here. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ETD serves baggage and other applications, requiring explicit baggage attribution rather than allocating all detector sales here. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dedicated ETD consumables are separately recognized, supporting goods classification without establishing spending or unrestricted interchangeability. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dedicated ETD consumables are separately recognized, supporting goods classification without establishing spending or unrestricted interchangeability. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
15. Quantifying the Impacts of Delayed Maintenance of Airport Assets: A Guide - Chapter 6, Baggage Handling Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The baggage-handling cost study uses a modeled xx.xx% labor share, adopted only as an adjacent support-cost proxy. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The baggage-handling cost study uses a modeled xx.xx% labor share, adopted only as an adjacent support-cost proxy. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Its corresponding modeled xx.xx% parts share calibrates the labor/goods separation; it is not an observed screening-equipment ratio. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Its corresponding modeled xx.xx% parts share calibrates the labor/goods separation; it is not an observed screening-equipment ratio. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))

16. Procurement of Next Generation Security Checkpoint Equipment - Contract Award Notice

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The seven-system award includes automated tray return, demonstrating bundled purchasing but no separately priced hardware allocation. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The seven-system award includes automated tray return, demonstrating bundled purchasing but no separately priced hardware allocation. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The integrated CT/tray-return scope constrains the automation interface boundary; it does not value general airport conveyors. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The integrated CT/tray-return scope constrains the automation interface boundary; it does not value general airport conveyors. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Central image processing is an explicit purchased function, without a separately disclosed license price. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Central image processing is an explicit purchased function, without a separately disclosed license price. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supply, installation and commissioning are included deliverables, supporting deployment-service attribution without establishing its percentage. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supply, installation and commissioning are included deliverables, supporting deployment-service attribution without establishing its percentage. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2022 award covers seven systems combining cabin CT, tray return, image processing and deployment responsibilities. It supports integrated purchased scope, not completed delivery or a global sales weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2022 award covers seven systems combining cabin CT, tray return, image processing and deployment responsibilities. It supports integrated purchased scope, not completed delivery or a global sales weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The integrated Newcastle procurement reports a GBP xx.xx-xx.xx offer range but no physical review-room location; its value cannot be assigned automatically to local review. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The integrated Newcastle procurement reports a GBP xx.xx-xx.xx offer range but no physical review-room location; its value cannot be assigned automatically to local review. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Central image processing is included, but a separate on-site room is not specified; constrains classification rather than supplying a remote-review sales weight. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Central image processing is included, but a separate on-site room is not specified; constrains classification rather than supplying a remote-review sales weight. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The bundled award does not identify a mixed-location package or its attributable price, preventing automatic hybrid classification. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The bundled award does not identify a mixed-location package or its attributable price, preventing automatic hybrid classification.

17. AI for Monitoring Aviation Security: Fraport and German Federal Police Start Regular Operation of APIDS
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: January xx.xx 2026 APIDS deployment demonstrates additional software adoption, without establishing separate revenue. ([fraport.com](https://www.fraport.com/en/newsroom/press-releases/2026/q1/ai-for-monitoring-aviation-security.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Deployment on more than xx.xx CT scanners is the independent quantitative rollout test; it does not validate the modeled license-growth factor. ([fraport.com](https://www.fraport.com/en/newsroom/press-releases/2026/q1/ai-for-monitoring-aviation-security.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: On January xx.xx 2026, Fraport announced regular APIDS software operation on more than xx.xx existing Smiths CT scanners. This independently supports retained-system enhancement at one buyer, not global penetration or realized license revenue.
18. Smiths Detection - Digital Innovation
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier identifies detection applications as a commercial function; separate fee allocation remains assumed. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier identifies detection applications as a commercial function; separate fee allocation remains assumed. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized screening supports the image-review function, not an observed software revenue weight. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized screening supports the image-review function, not an observed software revenue weight. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Connectivity, multi-vendor integration and equipment-health applications establish the fleet-management function without proving customer-specific rights or prices. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Connectivity, multi-vendor integration and equipment-health applications establish the fleet-management function without proving customer-specific rights or prices. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ELECTORA is offered for integrating multi-vendor devices, datasets and applications; establishes the vendor-platform category but discloses no category revenue or customer-specific substitution entitlement. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ELECTORA is offered for integrating multi-vendor devices, datasets and applications; establishes the vendor-platform category but discloses no category revenue or customer-specific substitution entitlement. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
19. UK Civil Aviation Authority - Threat Image Projection (TIP)
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: TIP library approval and renewal obligations support continuing software commitments, not the modeled global fee or share. ([caa.co.uk](https://www.caa.co.uk/commercial-industry/security/training-and-human-factors/threat-image-projection/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: TIP library approval and renewal obligations support continuing software commitments, not the modeled global fee or share. ([caa.co.uk](https://www.caa.co.uk/commercial-industry/security/training-and-human-factors/threat-image-projection/))

20. Smiths Detection - Service
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Inclusive capital-equipment support covers labor and parts, requiring a single-count economic allocation across services and goods. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Inclusive capital-equipment support covers labor and parts, requiring a single-count economic allocation across services and goods. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Equipment-specific training and certification are commercial offerings distinct from routine screening staffing. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Equipment-specific training and certification are commercial offerings distinct from routine screening staffing. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The parts-support offering and inclusive contracts corroborate the goods boundary, but not the assumed xx.xx% allocation. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The parts-support offering and inclusive contracts corroborate the goods boundary, but not the assumed xx.xx% allocation. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes inclusive labor-and-parts contracts and manufacturer support, supporting nonduplicative lifecycle attribution to projection equipment, not a verified xx.xx% fee. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes inclusive labor-and-parts contracts and manufacturer support, supporting nonduplicative lifecycle attribution to projection equipment, not a verified xx.xx% fee. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports the existence of manufacturer lifecycle offerings; broad service-footprint counts are not used as CT revenue weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports the existence of manufacturer lifecycle offerings; broad service-footprint counts are not used as CT revenue weights.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports commercial maintenance, refurbishment and parts offerings for portable equipment without establishing baggage-specific service receipts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports commercial maintenance, refurbishment and parts offerings for portable equipment without establishing baggage-specific service receipts.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer markets direct on-site support and inclusive capital-equipment labor-and-parts contracts. This supports a continuing manufacturer-service alternative, without measuring a pricing premium. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer markets direct on-site support and inclusive capital-equipment labor-and-parts contracts. This supports a continuing manufacturer-service alternative, without measuring a pricing premium. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Manufacturer-provided bundled support is a commercial alternative to separate technical-service procurement, limiting assumptions of unrestricted third-party substitution. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Manufacturer-provided bundled support is a commercial alternative to separate technical-service procurement, limiting assumptions of unrestricted third-party substitution. ([smithsdetection.com](https://www.smithsdetection.com/service/))

21. Hold baggage screening upgrade, Dublin and Cork Airports, Ireland

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate professional-service appointments cover project controls, design oversight and interface management; the broader construction budget is not used as screening-service revenue. ([neccontract.com](https://www.neccontract.com/projects/hold-baggage-screening-upgrade-dublin-and-cork-airports-ireland))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate professional-service appointments cover project controls, design oversight and interface management; the broader construction budget is not used as screening-service revenue. ([neccontract.com](https://www.neccontract.com/projects/hold-baggage-screening-upgrade-dublin-and-cork-airports-ireland))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes three upgraded hold-baggage systems delivered through separate construction, baggage-integration and advisory appointments, completed in March 2023. Supports integrated-system attribution without assuming a universal single-prime model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes three upgraded hold-baggage systems delivered through separate construction, baggage-integration and advisory appointments, completed in March 2023. Supports integrated-system attribution without assuming a universal single-prime model.

22. Corporate Plan 2025-26 to 2029-30 Summary - Financial Overview
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CATSA distinguishes major-checkpoint CT replacement from single-view-to-multiview replacement elsewhere, supporting application-specific projection demand and forecast assumptions. It also discloses capital funding subject to reprofile approval. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/corporate-plan-2025-xx.xx-2029-xx.xx/financial-overview))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CATSA distinguishes major-checkpoint CT replacement from single-view-to-multiview replacement elsewhere, supporting application-specific projection demand and forecast assumptions. It also discloses capital funding subject to reprofile approval. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/corporate-plan-2025-xx.xx-2029-xx.xx/financial-overview))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies single-view equipment as a replacement population, supporting the modeled displacement mechanism rather than an observed global share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies single-view equipment as a replacement population, supporting the modeled displacement mechanism rather than an observed global share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Multiview remains a planned purchasing destination at non-passenger checkpoints and Class xx.xx airports, qualifying universal CT substitution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Multiview remains a planned purchasing destination at non-passenger checkpoints and Class xx.xx airports, qualifying universal CT substitution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CT replacement is a stated major-checkpoint investment priority, subject to funding and delivery risks; this supports direction, not the modeled global share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CT replacement is a stated major-checkpoint investment priority, subject to funding and delivery risks; this supports direction, not the modeled global share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The plan includes additional screening equipment and expansion of existing hold-baggage screening capacity. Its FY2025/xx.xx capital budget is C$xx.xx across mixed activities; plans are not recognized supplier revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The plan includes additional screening equipment and expansion of existing hold-baggage screening capacity. Its FY2025/xx.xx capital budget is C$xx.xx across mixed activities; plans are not recognized supplier revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The plan distinguishes replacement of checkpoint X-ray equipment with CT and asset lifecycle renewal from additional capacity. Funding, partner timing and reprofiling qualify forecast realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The plan distinguishes replacement of checkpoint X-ray equipment with CT and asset lifecycle renewal from additional capacity. Funding, partner timing and reprofiling qualify forecast realization.
23. ECAC CEP Public Equipment List - Explosive Detection Systems, Update 18 April 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 list retains XRD xx.xx supporting the legacy commercial-category premise but not the assumed installed cohort or sales volume. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-EDS-equipment_public_list_update_20250418.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 list retains XRD xx.xx supporting the legacy commercial-category premise but not the assumed installed cohort or sales volume. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-EDS-equipment_public_list_update_20250418.pdf))

24. Partners - HALO X-ray Technologies Ltd

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named airport pilots and approximately USD xx.xx and USD xx.xx development programs establish commercialization activity and program scale, not realized annual XRD equipment revenue. ([haloxray.com](https://www.haloxray.com/partners))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named airport pilots and approximately USD xx.xx and USD xx.xx development programs establish commercialization activity and program scale, not realized annual XRD equipment revenue. ([haloxray.com](https://www.haloxray.com/partners))

25. Explosives Trace Detectors (ETDs): Market Survey Report, November 2021

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Historical IONSCAN xx.xx list-price configurations around USD xx.xx-xx.xx constrain the IMS price class; they do not establish 2025 purchasing volumes or realizations. ([dhs.gov](https://dhs.gov/sites/default/files/2021-xx.xx/SAVER_Explosives%20Trace%20Detectors%20MSR_08Nov2021_Final-xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Historical IONSCAN xx.xx list-price configurations around USD xx.xx-xx.xx constrain the IMS price class; they do not establish 2025 purchasing volumes or realizations. ([dhs.gov](https://dhs.gov/sites/default/files/2021-xx.xx/SAVER_Explosives%20Trace%20Detectors%20MSR_08Nov2021_Final-xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The Fido X4 historical USD xx.xx list-price benchmark supports the explicit nominal-price bridge; baggage attribution and unit mix remain modeled.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The Fido X4 historical USD xx.xx list-price benchmark supports the explicit nominal-price bridge; baggage attribution and unit mix remain modeled.

26. Astrotech Corporation - Form 10-K for the Fiscal Year Ended June 30, 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Discloses FY2025 product and service revenue, xx.xx deployment locations, and a six-unit USD xx.xx order. These provide a price comparator and supplier-scale check, not baggage-only revenue. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20250630_10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Discloses FY2025 product and service revenue, xx.xx deployment locations, and a six-unit USD xx.xx order. These provide a price comparator and supplier-scale check, not baggage-only revenue. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20250630_10k.htm))

27. Astrotech Corporation - Form 10-K for the Fiscal Year Ended June 30, 2026

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports eight TRACER units sold in FY2025 versus three in FY2026, identifies grant-related revenue within FY2025 product revenue, and describes a potential subsidiary sale. These constrain MS attribution and forecast optimism. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20260630_10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports eight TRACER units sold in FY2025 versus three in FY2026, identifies grant-related revenue within FY2025 product revenue, and describes a potential subsidiary sale. These constrain MS attribution and forecast optimism. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20260630_10k.htm))

28. Liquid Explosive Detector, Bottle Liquid Scanner, Insight - Agilent

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Raman-based airport resolution products and dated September 2025 launch and May 2026 contract announcements. Supports category continuity and adoption premises, not global unit or revenue shares. ([agilent.com](https://www.agilent.com/en/product/molecular-spectroscopy/raman-spectroscopy/raman-aviation-security-systems/insight-series-alarm-resolution-systems))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Raman-based airport resolution products and dated September 2025 launch and May 2026 contract announcements. Supports category continuity and adoption premises, not global unit or revenue shares. ([agilent.com](https://www.agilent.com/en/product/molecular-spectroscopy/raman-spectroscopy/raman-aviation-security-systems/insight-series-alarm-resolution-systems))

29. Bottle Liquid Scanner for Sale from China - Securina

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Positions microwave-based liquid-screening products for airports and customs. Supports commercial classification only; prices, authorization and purchasing weights remain assumptions. ([securinadetection.com](https://www.securinadetection.com/Bottle-Liquid-Scanner-Manufacturer-China.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Positions microwave-based liquid-screening products for airports and customs. Supports commercial classification only; prices, authorization and purchasing weights remain assumptions. ([securinadetection.com](https://www.securinadetection.com/Bottle-Liquid-Scanner-Manufacturer-China.html))

30. Quick, Accurate Threat-Detection Scanner for Liquid, Aerosol, and Gels Eases and Secures Air Travel Worldwide

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies LS10 as a complete commercial liquid scanner combining RF and ultrasonic capabilities, supporting nonduplicative complete-product attribution. ([battelle.org](https://www.battelle.org/insights/case-studies/case-study-details/quick-accurate-threat-detection-scanner-for-liquid-aerosol-and-gels-eases-and-secures-air-travel-worldwide))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies LS10 as a complete commercial liquid scanner combining RF and ultrasonic capabilities, supporting nonduplicative complete-product attribution. ([battelle.org](https://www.battelle.org/insights/case-studies/case-study-details/quick-accurate-threat-detection-scanner-for-liquid-aerosol-and-gels-eases-and-secures-air-travel-worldwide))

31. ECAC CEP Public Equipment List - Liquid Explosive Detection Systems, Update 10 July 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 list includes One Resonance Sensors MobiLab BLS. This supports retained listed status for a named product, not active supply, paid installed stock or observed receipts. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-LEDS%20equipment%20public%20list-update%xx.xx-xx.xx-rev1.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 list includes One Resonance Sensors MobiLab BLS. This supports retained listed status for a named product, not active supply, paid installed stock or observed receipts. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-LEDS%20equipment%20public%20list-update%xx.xx-xx.xx-rev1.pdf))

32. MobiLab BLS Bottled Liquid Scanner Endorsed By European Civil Aviation Conference

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's May xx.xx 2014 announcement identifies MobiLab BLS as an NMR-based airport liquid scanner and states that orders were being accepted. Establishes historical commercial offering, not 2025 deliveries. ([prnewswire.com](https://www.prnewswire.com/news-releases/mobilab-bls-bottled-liquid-scanner-endorsed-by-european-civil-aviation-conference-xx.xx.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's May xx.xx 2014 announcement identifies MobiLab BLS as an NMR-based airport liquid scanner and states that orders were being accepted. Establishes historical commercial offering, not 2025 deliveries. ([prnewswire.com](https://www.prnewswire.com/news-releases/mobilab-bls-bottled-liquid-scanner-endorsed-by-european-civil-aviation-conference-xx.xx.html))

33. SafePointe BLS Powered by ORS - Bottled Liquid Explosives Detection Solution

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The branded supplier brochure documents an ORS-powered bottled-liquid product channel. Its availability does not establish current orders or support continuity; it supports only the legacy-channel modeling premise. ([uploads-ssl.webflow.com](https://uploads-ssl.webflow.com/608330bcae48962bf6d7ff37/6149f80be6c30d34b5e3debe_BLS-Flyer-Compressed.pdf))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The branded supplier brochure documents an ORS-powered bottled-liquid product channel. Its availability does not establish current orders or support continuity; it supports only the legacy-channel modeling premise. ([uploads-ssl.webflow.com](https://uploads-ssl.webflow.com/608330bcae48962bf6d7ff37/6149f80be6c30d34b5e3debe_BLS-Flyer-Compressed.pdf))

34. Florida Division of Corporations - One Resonance Sensors, LLC, Entity Detail

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official registry records One Resonance Sensors, LLC as inactive following administrative dissolution on September xx.xx 2019. This counterevidence constrains continuity assumptions but does not prove zero surviving product support. ([search.sunbiz.org](https://search.sunbiz.org/Inquiry/CorporationSearch/SearchResultDetail?aggregateId=flal-l11000122986-c57f60b3-690d-4c87-836a-9aeb045075e8&directionType=CurrentList&inquirytype=EntityName&listNameOrder=ONERESONANCESENSORS+L110001229860&searchNameOrder=ONERESONANCESENSORS+L110001229860&searchTerm=ONE+RED+AMPERSAND+LLC))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official registry records One Resonance Sensors, LLC as inactive following administrative dissolution on September xx.xx 2019. This counterevidence constrains continuity assumptions but does not prove zero surviving product support. ([search.sunbiz.org](https://search.sunbiz.org/Inquiry/CorporationSearch/SearchResultDetail?aggregateId=flal-l11000122986-c57f60b3-690d-4c87-836a-9aeb045075e8&directionType=CurrentList&inquirytype=EntityName&listNameOrder=ONERESONANCESENSORS+L110001229860&searchNameOrder=ONERESONANCESENSORS+L110001229860&searchTerm=ONE+RED+AMPERSAND+LLC))

35. Explosive Detection - Teledyne FLIR Defense

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists offered Fido X-series products and service support, supporting commercial offering continuity only, not airport-specific eligibility or sales weights. ([flir.com](https://www.flir.com/threat-detection/explosives/))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists offered Fido X-series products and service support, supporting commercial offering continuity only, not airport-specific eligibility or sales weights. ([flir.com](https://www.flir.com/threat-detection/explosives/))

36. Scintrex Trace E3500 Explosive Trace Detection Unit - SecurityPro USA

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distributor offers E3500 chemiluminescence equipment and identifies customs/border applications. Supports a commercial category lead, not measured airport purchasing or the assumed price. ([securityprousa.com](https://www.securityprousa.com/collections/explosive-detection/products/scintrex-trace-e3500-explosive-trace-detection-unit))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distributor offers E3500 chemiluminescence equipment and identifies customs/border applications. Supports a commercial category lead, not measured airport purchasing or the assumed price. ([securityprousa.com](https://www.securityprousa.com/collections/explosive-detection/products/scintrex-trace-e3500-explosive-trace-detection-unit))

37. Portable Explosive Detector - Trace Detector EVD-3000+

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distributor offers EVD-xx.xx+ thermo-redox equipment. Supports offered-product classification, not airport authorization, purchasing volume or the modeled realization. ([securityprousa.com](https://www.securityprousa.com/products/scintrex-trace-evd-xx.xx-portable-trace-detection-unit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distributor offers EVD-xx.xx+ thermo-redox equipment. Supports offered-product classification, not airport authorization, purchasing volume or the modeled realization. ([securityprousa.com](https://www.securityprousa.com/products/scintrex-trace-evd-xx.xx-portable-trace-detection-unit))

38. CATSA's Purchase Order Terms and Conditions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contract terms constrain maintenance, parts and consumables escalation, qualifying unrestricted aftermarket pricing assumptions in the projection lifecycle model. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contract terms constrain maintenance, parts and consumables escalation, qualifying unrestricted aftermarket pricing assumptions in the projection lifecycle model. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contractual price limits constrain the pricing premise, but do not verify CT-specific global support receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contractual price limits constrain the pricing premise, but do not verify CT-specific global support receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintenance and consumable escalation limits qualify the trace-platform pricing assumption rather than establishing the modeled IMS share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintenance and consumable escalation limits qualify the trace-platform pricing assumption rather than establishing the modeled IMS share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The pre-existing-software clause grants broad license rights without transferring ownership; proprietary ownership alone therefore cannot establish the Closed revenue numerator. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The pre-existing-software clause grants broad license rights without transferring ownership; proprietary ownership alone therefore cannot establish the Closed revenue numerator. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Software modification rights are not themselves proof of standards-based interfaces or independent component substitution; supports conservative classification. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Software modification rights are not themselves proof of standards-based interfaces or independent component substitution; supports conservative classification. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))

39. Liquids Scanner for Airport Security - UC Davis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2011 account establishes a development contract and licensing relationship. Its development allocation is excluded from 2025 receipts and does not establish a surviving commercial cohort. ([ucdavis.edu](https://www.ucdavis.edu/news/liquids-scanner-airport-security))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2011 account establishes a development contract and licensing relationship. Its development allocation is excluded from 2025 receipts and does not establish a surviving commercial cohort. ([ucdavis.edu](https://www.ucdavis.edu/news/liquids-scanner-airport-security))
40. Open Architecture for Airport Security Systems, Second Edition
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes proprietary integration from interoperable connections, supporting the category boundary rather than an observed revenue share. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes proprietary integration from interoperable connections, supporting the category boundary rather than an observed revenue share. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Integration does not guarantee interoperability; this constrains attribution of vendor-mediated configurations. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Integration does not guarantee interoperability; this constrains attribution of vendor-mediated configurations. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Allows identified partial compliance and discusses accountable integration responsibilities; supports scoped open attribution, not whole-purchase reclassification. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Allows identified partial compliance and discusses accountable integration responsibilities; supports scoped open attribution, not whole-purchase reclassification. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))

41. CATSA 2025 Annual Report - Overview of Activities

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines across xx.xx airports serving more than xx.xx% of passengers in 2024/xx.xx; provides an independent integration-activity check, not a direct value allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines across xx.xx airports serving more than xx.xx% of passengers in 2024/xx.xx; provides an independent integration-activity check, not a direct value allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported modernized passenger coverage constrains an assumption of universally standalone activity, while leaving commercial architecture and revenue attribution unresolved. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported modernized passenger coverage constrains an assumption of universally standalone activity, while leaving commercial architecture and revenue attribution unresolved. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The annual report identifies enhanced non-passenger requirements and implementation planned from spring 2025. This supports a conditional modernization premise, not the modeled global uptake factor.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2024/xx.xx; provides a Canadian adoption comparator, not a global local-review revenue weight. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2024/xx.xx; provides a Canadian adoption comparator, not a global local-review revenue weight. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies remote screening within CATSA Plus and quantifies deployment; constrains the commercial-adoption premise but does not establish each review room's location. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies remote screening within CATSA Plus and quantifies deployment; constrains the commercial-adoption premise but does not establish each review room's location. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Deployment coverage constrains the addressable network-enabled pool; it does not disclose hybrid contracts or justify the modeled hybrid percentage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Deployment coverage constrains the addressable network-enabled pool; it does not disclose hybrid contracts or justify the modeled hybrid percentage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))

42. CATSA - Beyond the Checkpoint, December 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx operational CT machines at eight airports and a modular-line average of xx.xx passengers per hour versus xx.xx for traditional multi-split lines; supports the bounded throughput-to-unit bridge and phased-deployment premise. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/about-us/beyond-checkpoint-2025-december))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx operational CT machines at eight airports and a modular-line average of xx.xx passengers per hour versus xx.xx for traditional multi-split lines; supports the bounded throughput-to-unit bridge and phased-deployment premise. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/about-us/beyond-checkpoint-2025-december))

43. Smiths Detection Delivers Fully Automated International Remote Baggage Screening System Between South Korea and the United States

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2026 disclosure identifies xx.xx software licenses and DICOS V3.xx.xx exchange, and dates operational service to August 2025. Supports commercial standards-based activity and forecast feasibility, not an observed global share or a confirmed 2025 license inventory. ([smithsdetection.com](https://www.smithsdetection.com/press-releases/smiths-detection-delivers-fully-automated-international-remote-baggage-screening-system-between-south-korea-and-the-united-states/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2026 disclosure identifies xx.xx software licenses and DICOS V3.xx.xx exchange, and dates operational service to August 2025. Supports commercial standards-based activity and forecast feasibility, not an observed global share or a confirmed 2025 license inventory. ([smithsdetection.com](https://www.smithsdetection.com/press-releases/smiths-detection-delivers-fully-automated-international-remote-baggage-screening-system-between-south-korea-and-the-united-states/))

44. SeeTrue Marks Milestone with Over 100 X-ray Checkpoint Installations of Advanced AI-Based Threat Detection Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 announcement reports the 100th operational screening lane across airports and other sectors. Provides a limited commercial-adoption scale check; it is neither airport-only nor a census of standards-based entitlements. ([seetrue.ai](https://www.seetrue.ai/seetrue-marks-milestone-with-over-xx.xx-x-ray-checkpoint-installations-of-advanced-ai-based-threat-detection-software/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 announcement reports the 100th operational screening lane across airports and other sectors. Provides a limited commercial-adoption scale check; it is neither airport-only nor a census of standards-based entitlements. ([seetrue.ai](https://www.seetrue.ai/seetrue-marks-milestone-with-over-xx.xx-x-ray-checkpoint-installations-of-advanced-ai-based-threat-detection-software/))

45. Scarabee's Checkpoint Property Screening System to be deployed at DEN

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-lane Denver award combining Scarabee lanes with Smiths scanners. Corroborates a commercial mixed-supplier integration route; an award is not realized annual revenue or proof of unrestricted interoperability. ([daifukuatec.com](https://daifukuatec.com/news/scarabees-checkpoint-property-screening-system-to-be-deployed-at-den))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-lane Denver award combining Scarabee lanes with Smiths scanners. Corroborates a commercial mixed-supplier integration route; an award is not realized annual revenue or proof of unrestricted interoperability. ([daifukuatec.com](https://daifukuatec.com/news/scarabees-checkpoint-property-screening-system-to-be-deployed-at-den))

46. CATSA Annual Report 2024 - Management's Discussion and Analysis

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx pre-board capital appropriations used of C$xx.xx provide the second period in the non-passenger-to-cabin purchasing comparison.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx non-passenger capital appropriations used of C$xx.xx enter the two-period activity proxy; they do not identify the property-only fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx non-passenger capital appropriations used of C$xx.xx enter the two-period activity proxy; they do not identify the property-only fraction.

47. Smiths Detection confirm order of 91 advanced scanners for new terminals at Moscow Sheremetyevo International Airport
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The dated airport deployment includes xx.xx entrance baggage systems and xx.xx cabin-checkpoint systems. Their ratio supplies a historical relative-density proxy, subsequently discounted for assumed global coverage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated airport deployment includes xx.xx entrance baggage systems and xx.xx cabin-checkpoint systems. Their ratio supplies a historical relative-density proxy, subsequently discounted for assumed global coverage.
48. Cochin International Airport Selects Smiths Detection's CTX 9800 for Next-Generation Hold Baggage Screening
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2017 deployment identifies xx.xx customs baggage systems alongside four hold-baggage systems. This supports the customs-intensive historical configuration proxy, not current global fleet or revenue observations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2017 deployment identifies xx.xx customs baggage systems alongside four hold-baggage systems. This supports the customs-intensive historical configuration proxy, not current global fleet or revenue observations.
49. CATSA Functions, Programs and Activities
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Hold-baggage activities include equipment purchase, baggage-handling integration and equipment maintenance, supporting the checked-baggage capital and lifecycle boundary.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Hold-baggage activities include equipment purchase, baggage-handling integration and equipment maintenance, supporting the checked-baggage capital and lifecycle boundary.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-passenger screening covers airport workers and their belongings; only attributable property-screening offerings enter this allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-passenger screening covers airport workers and their belongings; only attributable property-screening offerings enter this allocation.
50. Fraport TAV Antalya Airport - About the security control itself
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The airport operator distinguishes terminal-entry security from a subsequent checkpoint. This supports a separate entrance-screening mission while providing no global prevalence or spending share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport operator distinguishes terminal-entry security from a subsequent checkpoint. This supports a separate entrance-screening mission while providing no global prevalence or spending share.
51. EMSD VoiceLink, Issue 79, June 2026 - EMSD Provides Comprehensive Support for Terminal 2 Commissioning
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June 2026 account identifies baggage-and-parcel equipment procurement and installation for the customs authority at Terminal xx.xx. It supports a separate commissioning mission but does not isolate baggage expenditure.
52. GAO-26-107811 - Guam: Considerations for Evaluating Alternative Customs Models and Potential Economic Effects
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The audit identifies two historical airport-customs baggage systems inactive for years and delayed replacement procurement. This challenges conversion of installed stock or acknowledged need directly into annual equipment and support revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The audit identifies two historical airport-customs baggage systems inactive for years and delayed replacement procurement. This challenges conversion of installed stock or acknowledged need directly into annual equipment and support revenue.

53. Bennet, Moran, Van Hollen, Boozman Introduce Bill to Bolster Aviation Safety
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 official release identifies xx.xx U.S. screening lanes, used as agency purchasing-exposure calibration rather than observed annual equipment sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 official release identifies xx.xx U.S. screening lanes, used as agency purchasing-exposure calibration rather than observed annual equipment sales.
54. Bank of Canada - Annual exchange rates
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual exchange-rate observations support the inherited fiscal-period approximation of xx.xx Canadian dollars per U.S. dollar; this is not a transaction-weighted exchange rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual exchange-rate observations support the inherited fiscal-period approximation of xx.xx Canadian dollars per U.S. dollar; this is not a transaction-weighted exchange rate.
55. Japan’s leading airline revolutionizes check in experience with new Smiths Detection technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The August 2023 announcement identifies JAL as customer for five screening ecosystems and reports xx.xx deployed iLane units across Japan. These are historical commercial-stock anchors, not an airline-only fleet or 2025 sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August 2023 announcement identifies JAL as customer for five screening ecosystems and reports xx.xx deployed iLane units across Japan. These are historical commercial-stock anchors, not an airline-only fleet or 2025 sales observation.
56. Narita International Airport anticipates threats with integrated solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Narita airport as a screening-technology customer and describes xx.xx lane-related installations, qualifying any assumption that the supplier's Japanese installed stock was purchased entirely by airlines.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Narita airport as a screening-technology customer and describes xx.xx lane-related installations, qualifying any assumption that the supplier's Japanese installed stock was purchased entirely by airlines.
57. MLIT - 保安検査の実施主体が変わります！ - June 27, 2025
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement targets transfer of security-screening responsibility from airlines to airport managers, with leading cases targeted in FY2026. Supports a conditional reduction in airline purchasing, not an observed contract-transfer percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transfer direction supports modeled airport-manager purchasing gains. Continued shared financing does not imply equal purchasing shares.
58. ICTS International N.V. - Annual Report for the year ended December 31, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Discloses USD xx.xx company-wide property/equipment purchases and USD xx.xx airport-security revenue in 2025. Supports an asset-light purchasing-intensity proxy; the in-scope fraction and global expansion remain assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Discloses USD xx.xx company-wide property/equipment purchases and USD xx.xx airport-security revenue in 2025. Supports an asset-light purchasing-intensity proxy; the in-scope fraction and global expansion remain assumptions.

59. EU Publications Office - Purchase and maintenance of non-intrusive X-ray inspection equipment for baggage and air cargo volume control
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Autoridade Tributária e Aduaneira as buyer and reports a 2026 award of EUR xx.xx across four lots for baggage/air-cargo inspection equipment and maintenance. Provides a buyer-role and commercial-scale comparator, not 2025 baggage-only annual expenditure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Autoridade Tributária e Aduaneira as buyer and reports a 2026 award of EUR xx.xx across four lots for baggage/air-cargo inspection equipment and maintenance. Provides a buyer-role and commercial-scale comparator, not 2025 baggage-only annual expenditure.
60. ACI World - Busiest Airports in the World
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx international airport passenger movements in 2025. Half provides an approximate arrival-movement scale check before transfer exclusions, not a customs examination or equipment-purchasing weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx international airport passenger movements in 2025. Half provides an approximate arrival-movement scale check before transfer exclusions, not a customs examination or equipment-purchasing weight.
61. Heathrow announces £2.3bn accelerated investment plan to upgrade the UK's international gateway to growth
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports GBP xx.xx invested in security-lane upgrades during 2024, supporting material airport-directed purchasing. Broader infrastructure obligations and historical timing prevent treating the amount as 2025 in-scope market receipts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports GBP xx.xx invested in security-lane upgrades during 2024, supporting material airport-directed purchasing. Broader infrastructure obligations and historical timing prevent treating the amount as 2025 in-scope market receipts.
62. Fraport Assumes Responsibility for Aviation Security Checks at Frankfurt Airport
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents Fraport's checkpoint-management responsibility from January 2023, six initial CT-equipped lanes and three contracted screening providers. Supports distinguishing an airport commissioning role from regulator oversight and contracted screening labor.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents Fraport's checkpoint-management responsibility from January 2023, six initial CT-equipped lanes and three contracted screening providers. Supports distinguishing an airport commissioning role from regulator oversight and contracted screening labor.
63. Advanced Cabin Baggage Screening - Computed Tomography Implementation Guide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes standalone CT, including equipment-local conveyance, from integrated screening-lane configurations; supports attribution boundaries, not a revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes standalone CT, including equipment-local conveyance, from integrated screening-lane configurations; supports attribution boundaries, not a revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies automated tray-return and automated screening-lane integration as commercially distinct configurations; supports the lane-integrated category definition.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies automated tray-return and automated screening-lane integration as commercially distinct configurations; supports the lane-integrated category definition.

64. GAO-12-266 - Checked Baggage Screening: TSA Has Deployed Optimal Systems at the Majority of TSA-Regulated Airports, but Could Strengthen Cost Estimates

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December 2011 table reports xx.xx standalone EDS alongside xx.xx in-line EDS; this historical machine-count comparator constrains, but does not determine, the current global allocation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December 2011 table reports xx.xx standalone EDS alongside xx.xx in-line EDS; this historical machine-count comparator constrains, but does not determine, the current global allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx in-line EDS across xx.xx in-line systems and distinguishes equipment counts from integrated-system counts; supports the historical configuration bridge.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx in-line EDS across xx.xx in-line systems and distinguishes equipment counts from integrated-system counts; supports the historical configuration bridge.

65. Smiths Detection selected as security technology provider to International Airport Heraklion Crete

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 announcement identifies eight cabin CT scanners and eight automated tray-return systems for Heraklion, with installation planned across late 2025 and mid-2026; supports ongoing integrated procurement, not realized annual revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 announcement identifies eight cabin CT scanners and eight automated tray-return systems for Heraklion, with installation planned across late 2025 and mid-2026; supports ongoing integrated procurement, not realized annual revenue.

66. Centralised Image Processing: The Impact on Security Checkpoints

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes checkpoint-local image review from separate-room arrangements; supports retaining networked local activity rather than automatically assigning it to remote review. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes checkpoint-local image review from separate-room arrangements; supports retaining networked local activity rather than automatically assigning it to remote review. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes separate screening rooms and established remote hold-baggage review at larger airports; supports the cohort-maturity premise, not a numerical global share. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes separate screening rooms and established remote hold-baggage review at larger airports; supports the cohort-maturity premise, not a numerical global share. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes combined checkpoint and remote-room arrangements, establishing a mixed-location commercial configuration without measuring its prevalence or price. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes combined checkpoint and remote-room arrangements, establishing a mixed-location commercial configuration without measuring its prevalence or price. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))

67. Annual Report 2024 - CATSA's Operating Environment

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2023/xx.xx providing the historical comparison rather than a global location allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2023/xx.xx providing the historical comparison rather than a global location allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Together with the subsequent annual report, supports a seven-line deployment increase without a corresponding increase in reported passenger coverage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Together with the subsequent annual report, supports a seven-line deployment increase without a corresponding increase in reported passenger coverage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provides a historical network-enabled deployment anchor, while leaving the physical mixed-location contract share unmeasured. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provides a historical network-enabled deployment anchor, while leaving the physical mixed-location contract share unmeasured. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))

68. L22020-T-TG Upgrades to the Passenger Search Area, body scanners, EDS C3 cabin baggage screening - Contract Award Notice

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2023 Luton award expressly includes construction of a remote screening room at the airport terminal, supporting separate-room commercial procurement. Its broader scope is not treated as baggage-only annual revenue. ([find-tender.service.gov.uk](https://www.find-tender.service.gov.uk/Notice/xx.xx-2023))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2023 Luton award expressly includes construction of a remote screening room at the airport terminal, supporting separate-room commercial procurement. Its broader scope is not treated as baggage-only annual revenue. ([find-tender.service.gov.uk](https://www.find-tender.service.gov.uk/Notice/xx.xx-2023))

69. Greater Orlando Aviation Authority - Minutes of the February 19, 2025 Meeting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Authorizes up to USD xx.xx for baggage-system and Remote Screening Facility network/server separation. Half this ceiling is an explicitly assumed deployment-cost comparator, not observed off-site receipts. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Authorizes up to USD xx.xx for baggage-system and Remote Screening Facility network/server separation. Half this ceiling is an explicitly assumed deployment-cost comparator, not observed off-site receipts. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provides the commercial networking-cost anchor for the modeled transfer from existing on-site pools, avoiding additional market value or duplicate host-equipment attribution. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provides the commercial networking-cost anchor for the modeled transfer from existing on-site pools, avoiding additional market value or duplicate host-equipment attribution. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))

70. American and U.S. Customs and Border Protection pilot innovative baggage screening initiative

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: American's April xx.xx 2025 announcement identifies a daily Sydney-Los Angeles IRBS pilot and unchanged screening requirements. It anchors one sampled connection and an assumed partial-year licensing period, not disclosed revenue. ([s202.q4cdn.com](https://s202.q4cdn.com/xx.xx/files/doc_news/American-and-US-Customs-and-Border-Protection-pilot-innovative-baggage-screening-initiative-OPS-OTH-xx.xx-2025.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: American's April xx.xx 2025 announcement identifies a daily Sydney-Los Angeles IRBS pilot and unchanged screening requirements. It anchors one sampled connection and an assumed partial-year licensing period, not disclosed revenue. ([s202.q4cdn.com](https://s202.q4cdn.com/xx.xx/files/doc_news/American-and-US-Customs-and-Border-Protection-pilot-innovative-baggage-screening-initiative-OPS-OTH-xx.xx-2025.pdf))

71. 델타항공-대한항공, 인천발 애틀랜타 노선 대상 위탁수하물 원격 검색 방식 신규 도입

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2025 announcement identifies the Incheon-Atlanta IRBS arrangement, anchoring a second sampled connection and a partial-year commercial-activity assumption without establishing contract value. ([news.delta.com](https://news.delta.com/delta-and-koreanair-launch-remote-baggage-screening-on-icn-atl-KR))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2025 announcement identifies the Incheon-Atlanta IRBS arrangement, anchoring a second sampled connection and a partial-year commercial-activity assumption without establishing contract value. ([news.delta.com](https://news.delta.com/delta-and-koreanair-launch-remote-baggage-screening-on-icn-atl-KR))

72. United Launches CBP's International Remote Baggage Screening on Select International Flights

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: United's September xx.xx 2025 announcement identifies daily Sydney-San Francisco service and named technology partners, anchoring a third sampled connection. It reports no attributable software or integration receipts. ([united.mediaroom.com](https://united.mediaroom.com/2025-xx.xx-xx.xx-United-Launches-CBPs-International-Remote-Baggage-Screening-on-Select-International-Flights))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: United's September xx.xx 2025 announcement identifies daily Sydney-San Francisco service and named technology partners, anchoring a third sampled connection. It reports no attributable software or integration receipts. ([united.mediaroom.com](https://united.mediaroom.com/2025-xx.xx-xx.xx-United-Launches-CBPs-International-Remote-Baggage-Screening-on-Select-International-Flights))

73. Airline Passengers Face Fewer Bag Checkpoints, Thanks to PNNL, Partners

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2026 laboratory release describes implementation on additional routes, including Seoul arrivals at Minneapolis-St. Paul and Detroit. This supports expansion direction, not the forecast connection count, realization or global share. ([pnnl.gov](https://www.pnnl.gov/news-media/airline-passengers-face-fewer-bag-checkpoints-thanks-pnnl-partners))

74. TSA awards $781.2 million to procure additional CT X-Ray scanners for airport checkpoints

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2022 announcement identifies up to USD xx.xx for procurement and maintenance of up to xx.xx systems from an OEM. This is a historical procurement-scale anchor, not annual 2025 direct-channel revenue. ([content.govdelivery.com](https://content.govdelivery.com/accounts/USDHSTSA/bulletins/30f6e5f))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The award includes full-size automated lanes, cautioning against assigning all automation value to non-OEM integration primes; exact contractual-role attribution is not disclosed. ([content.govdelivery.com](https://content.govdelivery.com/accounts/USDHSTSA/bulletins/30f6e5f))

75. OSI Systems, Inc. - Form 10-K for the fiscal year ended June 30, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing describes regional direct security-product sales and direct maintenance relationships. Its broader security scope supports route coexistence, not baggage-only sales weights. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing describes regional direct security-product sales and direct maintenance relationships. Its broader security scope supports route coexistence, not baggage-only sales weights. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company identifies a global independent-distributor network, supporting a continuing indirect route without quantifying its value share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company identifies a global independent-distributor network, supporting a continuing indirect route without quantifying its value share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Authorized service providers are identified separately from distributors, supporting distinct technical-service attribution and access limitations. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Authorized service providers are identified separately from distributors, supporting distinct technical-service attribution and access limitations. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

76. SriLankan Airlines - Invitation for Supply, Installation, Commissioning and Maintenance of Dual View Heavy and Medium X-Ray Machines, Reference 202130407

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 purchaser invitation permits an OEM or authorized OEM agent and requires authorization for the latter. It establishes equipment-channel eligibility, not an award or software-resale right. ([srilankan.com](https://www.srilankan.com/download/tender/TN-Invitationforsubmiss-xx.xx.pdf))

77. JFK Millennium Partners Selects K2 to Deliver State-of-the-Art Security Screening Checkpoint at new JFK Terminal 6

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment assigns procurement and deployment coordination across multiple technology suppliers at a future ten-gate terminal. It supports integration-prime participation and a forecast mechanism, not a disclosed share or completed 2025 revenue. ([portauthoritybuilds.com](https://www.portauthoritybuilds.com/redevelopment/us/en/jfk/planned-projects/terminal-xx.xx/news/jfk-millennium-partners-selects-k2-to-deliver-state-of-the-art-s.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment assigns procurement and deployment coordination across multiple technology suppliers at a future ten-gate terminal. It supports integration-prime participation and a forecast mechanism, not a disclosed share or completed 2025 revenue. ([portauthoritybuilds.com](https://www.portauthoritybuilds.com/redevelopment/us/en/jfk/planned-projects/terminal-xx.xx/news/jfk-millennium-partners-selects-k2-to-deliver-state-of-the-art-s.html))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment covers baggage CT and automated bin-return equipment for a future xx.xx-gate terminal, with phased opening planned for 2026-2028. It establishes new-installation activity, not attributable 2025 receipts; wider airport investment and person-only technologies are excluded.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment covers baggage CT and automated bin-return equipment for a future xx.xx-gate terminal, with phased opening planned for 2026-2028. It establishes new-installation activity, not attributable 2025 receipts; wider airport investment and person-only technologies are excluded.

78. CATSA Corporate Plan 2024-25 to 2028-29 Summary - Key Corporate Risks

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The authority reports transferring maintenance of most screening equipment to KPrime in 2023/xx.xx. This establishes a separately contracted maintenance relationship, without a baggage-only payment split. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/key-corporate-risks))

79. Leidos wins TSA logistics contract

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 announcement describes an eight-year, USD xx.xx maximum sustainment contract covering xx.xx equipment units at over xx.xx locations with manufacturer coordination. Annualization and baggage/third-party attribution in the model are explicit assumptions. ([leidos.com](https://www.leidos.com/insights/leidos-wins-tsa-logistics-contract))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 announcement describes an eight-year, USD xx.xx maximum sustainment contract covering xx.xx equipment units at over xx.xx locations with manufacturer coordination. Annualization and baggage/third-party attribution in the model are explicit assumptions. ([leidos.com](https://www.leidos.com/insights/leidos-wins-tsa-logistics-contract))

80. Checkpoint Transformation: Malta International Airport Streamlines Passenger Flow with Smiths Detection
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Seven conventional automated lanes were replaced by six CT-equipped lanes, with final commissioning in January 2025. This is a counterexample to equating capacity improvement with net additional equipment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seven conventional automated lanes were replaced by six CT-equipped lanes, with final commissioning in January 2025. This is a counterexample to equating capacity improvement with net additional equipment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The complete checkpoint replacement illustrates why an offering described commercially as an upgrade can belong to System Replacement. The seven-year service commitment is not counted wholly as installation-year revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The complete checkpoint replacement illustrates why an offering described commercially as an upgrade can belong to System Replacement. The seven-year service commitment is not counted wholly as installation-year revenue.
81. iCMORE - Smiths Detection
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current commercial offering describes a software-upgrade path while qualifying additional hardware requirements by machine type and age. This constrains forecast eligibility assumptions; product availability does not measure adoption or revenue.

Sources & Evidence

1. House Report 119-173 - Department of Homeland Security Appropriations Bill, 2026

   · Evidence informing the 2030 market-value input; displayed series and growth include calculations: The aging installed fleet supports replacement demand, but does not establish the forecast's realization dates or annual purchasing rate. ([govinfo.gov](https://www.govinfo.gov/content/pkg/CRPT-119hrpt173/html/CRPT-119hrpt173.htm))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report identifies xx.xx end-of-life systems within a xx.xx-system checked-baggage fleet. This constrains renewal exposure, not realized annual purchasing or a verified global replacement deadline.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports a TSA checked-baggage fleet of xx.xx EDS, including xx.xx at end-of-life, and assigns purchase, installation and maintenance responsibilities to TSA. Supports agency fleet calibration and renewal pressure, not the assumed forecast uplift.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports a TSA checked-baggage fleet of xx.xx EDS, including xx.xx at end-of-life, and assigns purchase, installation and maintenance responsibilities to TSA. Supports agency fleet calibration and renewal pressure, not the assumed forecast uplift.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report identifies xx.xx end-of-life EDS within a xx.xx-unit U.S. checked-baggage fleet, citing the FY2024 capital plan. The derived xx.xx% backlog constrains the aging-fleet premise, but is neither an annual turnover rate nor a funded global replacement forecast.

2. GAO-24-106573 - DHS Annual Assessment: Most Programs Are Meeting Current Goals, but Some Continue to Face Cost and Schedule Challenges

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports plans for xx.xx checkpoint systems and xx.xx increment-one deployments by September 2023; supports an incomplete replacement cycle rather than universal CT adoption. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx AT/CT, xx.xx base, xx.xx mid-size and xx.xx full-size deployments by September 2023; supplies configuration proxies and an incomplete-renewal constraint, not contractual architecture shares. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx AT/CT, xx.xx base, xx.xx mid-size and xx.xx full-size deployments by September 2023; supplies configuration proxies and an incomplete-renewal constraint, not contractual architecture shares. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The deployed configuration mix underlies the xx.xx/xx.xx newer-cohort and xx.xx/xx.xx older-cohort proxy calculations; global and contractual attribution remain modeled. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The deployed configuration mix underlies the xx.xx/xx.xx newer-cohort and xx.xx/xx.xx older-cohort proxy calculations; global and contractual attribution remain modeled. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The assessment records xx.xx checkpoint systems deployed by September 2023 against an eventual xx.xx-system program. This supports an incomplete replacement cycle and qualifies any assumption of universal CT adoption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The assessment records xx.xx checkpoint systems deployed by September 2023 against an eventual xx.xx-system program. This supports an incomplete replacement cycle and qualifies any assumption of universal CT adoption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports a September 2023 U.S. CT cohort containing xx.xx AT/CT and xx.xx base systems, providing counterevidence to assigning all CT activity automatically to integrated lanes.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports a September 2023 U.S. CT cohort containing xx.xx AT/CT and xx.xx base systems, providing counterevidence to assigning all CT activity automatically to integrated lanes.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx mid-size and xx.xx full-size systems within xx.xx deployed CT systems; supports differentiated configuration assumptions rather than treating technology adoption as an integration-share observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx mid-size and xx.xx full-size systems within xx.xx deployed CT systems; supports differentiated configuration assumptions rather than treating technology adoption as an integration-share observation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2024 assessment records xx.xx checkpoint deployments as of September 2023 against xx.xx planned systems replacing aging equipment. It supports staged renewal, but does not establish current deployment completion or the modeled 2032 share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2024 assessment records xx.xx checkpoint deployments as of September 2023 against xx.xx planned systems replacing aging equipment. It supports staged renewal, but does not establish current deployment completion or the modeled 2032 share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The program separately anticipates enhancements to fielded systems, supporting a retained-equipment commercial pathway without supplying an attributable upgrade-revenue split.

3. Global Airport Passenger Traffic Reaches Record 9.8 Billion in 2025, Airports Council International World reports

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports cooling passenger-growth momentum in 2026, supporting moderation of traffic-driven equipment expansion despite continuing replacement demand.
   ([aci.aero](https://aci.aero/2026/xx.xx/xx.xx/global-airport-passenger-traffic-reaches-record-xx.xx-xx.xx-billion-in-2025-airports-council-international-world-reports/))

4. Smiths Group PLC - Full Year Results for the 12 Months Ended 31 July 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Discloses aviation original-equipment revenue of xx.xx and aftermarket revenue of xx.xx for FY2024; supplies historical cycle proxies. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing the 2027 market-value input; displayed series and growth include calculations: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; supports replacement activity, not an observed global forecast. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2025 aviation original-equipment revenue of GBP xx.xx provides an independent equipment-activity scale check, not a global category share. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025 aviation original-equipment revenue of GBP xx.xx provides an independent equipment-activity scale check, not a global category share. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx cumulative CTiX sales corroborate commercial imaging activity and replacement demand; they do not measure annual global sales. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx cumulative CTiX sales corroborate commercial imaging activity and replacement demand; they do not measure annual global sales. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: GBP xx.xx aviation aftermarket revenue supports lifecycle materiality while qualifying transfer of one supplier's mix to the global service allocation. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GBP xx.xx aviation aftermarket revenue supports lifecycle materiality while qualifying transfer of one supplier's mix to the global service allocation. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; cumulative sales constrain commercial scale but are not annual global shipments. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; cumulative sales constrain commercial scale but are not annual global shipments. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports four operating XDi units as of July 2025 and pending regulatory certification, constraining the small XRD cohort and qualifying aggressive commercialization assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports four operating XDi units as of July 2025 and pending regulatory certification, constraining the small XRD cohort and qualifying aggressive commercialization assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported checkpoint modernization provides a commercial reason to model substitution from discrete legacy offerings; the filing does not disclose standalone configuration revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025

5. Smiths Group PLC - Annual Report & Accounts FY2023
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: Reports FY2022 aviation original-equipment revenue of xx.xx, used as a dimensionless historical capital-cycle proxy. ([www-live.smiths.com](https://www-live.smiths.com/media/phjp1j44/smiths-annual-report-2023.pdf))
   - Evidence informing the 2023 market-value input; displayed series and growth include calculations: Reports FY2023 aviation original-equipment revenue of xx.xx and aftermarket revenue of xx.xx; supports the modeled recovery direction. ([www-live.smiths.com](https://www-live.smiths.com/media/phjp1j44/smiths-annual-report-2023.pdf))
6. Smiths Group PLC - Annual Report FY2022
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: Reports FY2021 aviation revenue of xx.xx, providing a historical purchasing-cycle reference rather than a global observation. ([www-live.smiths.com](https://www-live.smiths.com/media/xjvdpblr/smiths-annual-report-2022-report.pdf))
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: Reports FY2022 aviation revenue of xx.xx and continued weakness in aviation original equipment; supports a delayed capital-spending trough. ([www-live.smiths.com](https://www-live.smiths.com/media/xjvdpblr/smiths-annual-report-2022-report.pdf))
7. Smiths Group PLC - Annual Results for the Year Ended 31 July 2019
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: Reports FY2018 aviation revenue of xx.xx, supplying the historical comparison underlying the backcast. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: Reports FY2019 aviation revenue of xx.xx and customer delivery deferrals, qualifying a traffic-only growth model. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Identifies deliveries deferred into FY2020; supports the possibility of backlog-supported spending despite a contemporaneous traffic shock, not the exact modeled growth rate. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
8. ACI World - The High-Wire Balancing Act: Global Air Transport Demand in 2018 and 2019
   - Evidence informing the 2017 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers and xx.xx% growth in 2018; the growth observation informs the 2017 backcast bridge. ([blog.aci.aero](https://blog.aci.aero/airport-economics/the-high-wire-balancing-act-global-air-transport-demand-in-2018-and-2019/))
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: Provides the observed 2018 traffic-growth reference, not an equipment-market growth observation. ([blog.aci.aero](https://blog.aci.aero/airport-economics/the-high-wire-balancing-act-global-air-transport-demand-in-2018-and-2019/))
9. ICAO A42-WP/556 - State of the Industry and Outlook for Airport Traffic, Presented by ACI
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Records the collapse from xx.xx airport passengers in 2019 to xx.xx in 2020; constrains the shock and funding-risk interpretation. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2021, supporting a prolonged funding and activity shock. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2023 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2023; traffic recovery is distinguished from equipment purchasing. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2024, providing a demand recovery cross-check. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))

10. Port of Seattle - Baggage Handling System Optimization

- Evidence informing the 2029 market-value input; displayed series and growth include calculations: Seattle plans to consolidate six baggage-screening systems, increase supported passenger capacity, and reduce screening-machine demand. Supports integration spending without one-for-one detector growth. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The consolidation example constrains equipment-volume assumptions; its whole baggage-handling project value is excluded from market sizing. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing the 2040 market-value input; displayed series and growth include calculations: Provides a commercial counterexample to extrapolating passenger growth directly into machine counts throughout the long-range forecast. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Consolidation of six systems with reduced machine demand qualifies a traffic-to-detector-volume forecast. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The consolidation project supports integration-driven conveyor demand, but its whole-project value is excluded. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Brownfield consolidation supports the integration-demand premise, not the forecast's exact service growth factor. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport replaces six separate screening systems with centralized screening and expects reduced screening-machine demand while expanding capacity. This supplies a counterforce to volume-only checked-baggage forecasting.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Seattle is consolidating six screening systems, expects reduced screening-machine demand and schedules final-phase completion in 2029. Supports integration demand while constraining detector-volume growth; the whole-project budget is excluded.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seattle is consolidating six screening systems, expects reduced screening-machine demand and schedules final-phase completion in 2029. Supports integration demand while constraining detector-volume growth; the whole-project budget is excluded.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seattle's project combines increased screening capacity with consolidation from six screening systems and reduced screening-machine demand. This constrains the forecast assumption that capacity growth requires proportional equipment additions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement and capacity objectives coexist within the project. Its wider baggage-handling budget is not treated as screening-equipment revenue or assigned additively to multiple purposes.

11. Smiths Group PLC - Half Year Results for the Six Months Ended 31 January 2026

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports xx.xx% organic growth for Smiths Detection in HY2026, with aviation checkpoint upgrades contributing. Supports a positive 2026 nowcast, not a directly observed global growth rate. ([www-live.smiths.com](https://www-live.smiths.com/media/villk35h/smiths-hy26-results-press-release.pdf))

12. CATSA 2025 Annual Report - Notes to the Financial Statements

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx accounts disclose C$xx.xx maintenance/spares and C$xx.xx training/certification, supporting the service-budget calibration but not global baggage-only shares. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx accounts disclose C$xx.xx maintenance/spares and C$xx.xx training/certification, supporting the service-budget calibration but not global baggage-only shares. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintenance and spare parts are combined in the accounts; the labor-versus-goods split therefore remains modeled. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintenance and spare parts are combined in the accounts; the labor-versus-goods split therefore remains modeled. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The C$xx.xx training/certification expense supplies the numerator of the adjusted training-to-capital proxy. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The C$xx.xx training/certification expense supplies the numerator of the adjusted training-to-capital proxy. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: C$xx.xx trace/consumables is distinct from maintenance/spares and supplies the contrary consumables-intensity comparator, not a global observation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: C$xx.xx trace/consumables is distinct from maintenance/spares and supplies the contrary consumables-intensity comparator, not a global observation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately reports C$xx.xx maintenance/spares, C$xx.xx trace/consumables and C$xx.xx training/certification, constraining attributable agency lifecycle expenditure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates screening-contractor payments from equipment support, preventing staffing expenditure from becoming equipment-market purchasing.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately reports C$xx.xx maintenance/spares, C$xx.xx trace/consumables and C$xx.xx training/certification, constraining attributable agency lifecycle expenditure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates screening-contractor payments from equipment support, preventing staffing expenditure from becoming equipment-market purchasing.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited expense disclosure reports C$xx.xx for maintenance and spare parts in the year ended March xx.xx 2025. It constrains support-spending materiality, not the amount attributable to an independent provider. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))

13. CATSA 2025 Annual Report - Management's Discussion and Analysis

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: EDS capital expenditure of C$xx.xx includes equipment and installation/integration and supplies the training-calibration denominator, subject to baggage attribution. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EDS capital expenditure of C$xx.xx includes equipment and installation/integration and supplies the training-calibration denominator, subject to baggage attribution. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The capital definition includes associated installation and integration, supporting the distinction between deployment services and equipment value. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The capital definition includes associated installation and integration, supporting the distinction between deployment services and equipment value. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Actual spending, original budget and reprofile amounts constrain the forecast's purchasing-execution interpretation; they are not a global growth rate. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx pre-board capital appropriations used were C$xx.xx. This supplies the Canadian purchasing comparison and a component of the non-passenger-to-cabin activity proxy, not a global share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx pre-board capital appropriations used were C$xx.xx. This supplies the Canadian purchasing comparison and a component of the non-passenger-to-cabin activity proxy, not a global share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx hold-baggage capital appropriations used were C$xx.xx; this constrains the independent application-capital comparison.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx non-passenger capital appropriations used were C$xx.xx, below the original C$xx.xx budget. Actual purchasing informs the proxy and qualifies automatic announcement-to-revenue conversion.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx non-passenger capital appropriations used were C$xx.xx, below the original C$xx.xx budget. Actual purchasing informs the proxy and qualifies automatic announcement-to-revenue conversion.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports C$xx.xx EDS capital expenditure for FY2024/xx.xx and identifies both baggage equipment and full-body scanners in the capital scope, requiring a baggage-attribution adjustment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports C$xx.xx EDS capital expenditure for FY2024/xx.xx and identifies both baggage equipment and full-body scanners in the capital scope, requiring a baggage-attribution adjustment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EDS outturn was C$xx.xx versus an original C$xx.xx plan and revised C$xx.xx budget. Reprofiling constrains assumed award conversion and deployment timing; it does not measure procurement-channel mix. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The actual capital-project list identifies hold-baggage capacity expansion at Montréal-Trudeau, supporting the expansion classification, not its modeled global revenue weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The actual capital-project list identifies hold-baggage capacity expansion at Montréal-Trudeau, supporting the expansion classification, not its modeled global revenue weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The actual project list includes checkpoint CT deployment and hold-baggage oversize-equipment lifecycle management, supporting renewal activity without disclosing its purpose-specific spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The actual project list includes checkpoint CT deployment and hold-baggage oversize-equipment lifecycle management,

14. Aviation security screening approved equipment list
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Baggage EDS/EDSCB and conventional X-ray classes support the inspection-system boundary, not sales weights. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Baggage EDS/EDSCB and conventional X-ray classes support the inspection-system boundary, not sales weights. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Liquid detectors are a distinct cabin-baggage category; the complete bulk-material extension remains modeled within the captured boundary. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Liquid detectors are a distinct cabin-baggage category; the complete bulk-material extension remains modeled within the captured boundary. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ETD serves baggage and other applications, requiring explicit baggage attribution rather than allocating all detector sales here. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ETD serves baggage and other applications, requiring explicit baggage attribution rather than allocating all detector sales here. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dedicated ETD consumables are separately recognized, supporting goods classification without establishing spending or unrestricted interchangeability. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dedicated ETD consumables are separately recognized, supporting goods classification without establishing spending or unrestricted interchangeability. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
15. Quantifying the Impacts of Delayed Maintenance of Airport Assets: A Guide - Chapter 6, Baggage Handling Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The baggage-handling cost study uses a modeled xx.xx% labor share, adopted only as an adjacent support-cost proxy. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The baggage-handling cost study uses a modeled xx.xx% labor share, adopted only as an adjacent support-cost proxy. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Its corresponding modeled xx.xx% parts share calibrates the labor/goods separation; it is not an observed screening-equipment ratio. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Its corresponding modeled xx.xx% parts share calibrates the labor/goods separation; it is not an observed screening-equipment ratio. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))

16. Procurement of Next Generation Security Checkpoint Equipment - Contract Award Notice

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The seven-system award includes automated tray return, demonstrating bundled purchasing but no separately priced hardware allocation. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The seven-system award includes automated tray return, demonstrating bundled purchasing but no separately priced hardware allocation. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The integrated CT/tray-return scope constrains the automation interface boundary; it does not value general airport conveyors. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The integrated CT/tray-return scope constrains the automation interface boundary; it does not value general airport conveyors. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Central image processing is an explicit purchased function, without a separately disclosed license price. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Central image processing is an explicit purchased function, without a separately disclosed license price. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supply, installation and commissioning are included deliverables, supporting deployment-service attribution without establishing its percentage. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supply, installation and commissioning are included deliverables, supporting deployment-service attribution without establishing its percentage. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2022 award covers seven systems combining cabin CT, tray return, image processing and deployment responsibilities. It supports integrated purchased scope, not completed delivery or a global sales weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2022 award covers seven systems combining cabin CT, tray return, image processing and deployment responsibilities. It supports integrated purchased scope, not completed delivery or a global sales weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The integrated Newcastle procurement reports a GBP xx.xx-xx.xx offer range but no physical review-room location; its value cannot be assigned automatically to local review. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The integrated Newcastle procurement reports a GBP xx.xx-xx.xx offer range but no physical review-room location; its value cannot be assigned automatically to local review. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Central image processing is included, but a separate on-site room is not specified; constrains classification rather than supplying a remote-review sales weight. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Central image processing is included, but a separate on-site room is not specified; constrains classification rather than supplying a remote-review sales weight. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The bundled award does not identify a mixed-location package or its attributable price, preventing automatic hybrid classification. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The bundled award does not identify a mixed-location package or its attributable price, preventing automatic hybrid classification.

17. AI for Monitoring Aviation Security: Fraport and German Federal Police Start Regular Operation of APIDS
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: January xx.xx 2026 APIDS deployment demonstrates additional software adoption, without establishing separate revenue. ([fraport.com](https://www.fraport.com/en/newsroom/press-releases/2026/q1/ai-for-monitoring-aviation-security.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Deployment on more than xx.xx CT scanners is the independent quantitative rollout test; it does not validate the modeled license-growth factor. ([fraport.com](https://www.fraport.com/en/newsroom/press-releases/2026/q1/ai-for-monitoring-aviation-security.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: On January xx.xx 2026, Fraport announced regular APIDS software operation on more than xx.xx existing Smiths CT scanners. This independently supports retained-system enhancement at one buyer, not global penetration or realized license revenue.
18. Smiths Detection - Digital Innovation
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier identifies detection applications as a commercial function; separate fee allocation remains assumed. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier identifies detection applications as a commercial function; separate fee allocation remains assumed. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized screening supports the image-review function, not an observed software revenue weight. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized screening supports the image-review function, not an observed software revenue weight. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Connectivity, multi-vendor integration and equipment-health applications establish the fleet-management function without proving customer-specific rights or prices. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Connectivity, multi-vendor integration and equipment-health applications establish the fleet-management function without proving customer-specific rights or prices. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ELECTORA is offered for integrating multi-vendor devices, datasets and applications; establishes the vendor-platform category but discloses no category revenue or customer-specific substitution entitlement. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ELECTORA is offered for integrating multi-vendor devices, datasets and applications; establishes the vendor-platform category but discloses no category revenue or customer-specific substitution entitlement. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
19. UK Civil Aviation Authority - Threat Image Projection (TIP)
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: TIP library approval and renewal obligations support continuing software commitments, not the modeled global fee or share. ([caa.co.uk](https://www.caa.co.uk/commercial-industry/security/training-and-human-factors/threat-image-projection/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: TIP library approval and renewal obligations support continuing software commitments, not the modeled global fee or share. ([caa.co.uk](https://www.caa.co.uk/commercial-industry/security/training-and-human-factors/threat-image-projection/))

20. Smiths Detection - Service
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Inclusive capital-equipment support covers labor and parts, requiring a single-count economic allocation across services and goods. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Inclusive capital-equipment support covers labor and parts, requiring a single-count economic allocation across services and goods. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Equipment-specific training and certification are commercial offerings distinct from routine screening staffing. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Equipment-specific training and certification are commercial offerings distinct from routine screening staffing. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The parts-support offering and inclusive contracts corroborate the goods boundary, but not the assumed xx.xx% allocation. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The parts-support offering and inclusive contracts corroborate the goods boundary, but not the assumed xx.xx% allocation. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes inclusive labor-and-parts contracts and manufacturer support, supporting nonduplicative lifecycle attribution to projection equipment, not a verified xx.xx% fee. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes inclusive labor-and-parts contracts and manufacturer support, supporting nonduplicative lifecycle attribution to projection equipment, not a verified xx.xx% fee. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports the existence of manufacturer lifecycle offerings; broad service-footprint counts are not used as CT revenue weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports the existence of manufacturer lifecycle offerings; broad service-footprint counts are not used as CT revenue weights.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports commercial maintenance, refurbishment and parts offerings for portable equipment without establishing baggage-specific service receipts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports commercial maintenance, refurbishment and parts offerings for portable equipment without establishing baggage-specific service receipts.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer markets direct on-site support and inclusive capital-equipment labor-and-parts contracts. This supports a continuing manufacturer-service alternative, without measuring a pricing premium. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer markets direct on-site support and inclusive capital-equipment labor-and-parts contracts. This supports a continuing manufacturer-service alternative, without measuring a pricing premium. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Manufacturer-provided bundled support is a commercial alternative to separate technical-service procurement, limiting assumptions of unrestricted third-party substitution. ([smithsdetection.com](https://www.smithsdetection.com/service/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Manufacturer-provided bundled support is a commercial alternative to separate technical-service procurement, limiting assumptions of unrestricted third-party substitution. ([smithsdetection.com](https://www.smithsdetection.com/service/))

21. Hold baggage screening upgrade, Dublin and Cork Airports, Ireland

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate professional-service appointments cover project controls, design oversight and interface management; the broader construction budget is not used as screening-service revenue. ([neccontract.com](https://www.neccontract.com/projects/hold-baggage-screening-upgrade-dublin-and-cork-airports-ireland))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate professional-service appointments cover project controls, design oversight and interface management; the broader construction budget is not used as screening-service revenue. ([neccontract.com](https://www.neccontract.com/projects/hold-baggage-screening-upgrade-dublin-and-cork-airports-ireland))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes three upgraded hold-baggage systems delivered through separate construction, baggage-integration and advisory appointments, completed in March 2023. Supports integrated-system attribution without assuming a universal single-prime model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes three upgraded hold-baggage systems delivered through separate construction, baggage-integration and advisory appointments, completed in March 2023. Supports integrated-system attribution without assuming a universal single-prime model.

22. Corporate Plan 2025-26 to 2029-30 Summary - Financial Overview
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CATSA distinguishes major-checkpoint CT replacement from single-view-to-multiview replacement elsewhere, supporting application-specific projection demand and forecast assumptions. It also discloses capital funding subject to reprofile approval. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/corporate-plan-2025-xx.xx-2029-xx.xx/financial-overview))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CATSA distinguishes major-checkpoint CT replacement from single-view-to-multiview replacement elsewhere, supporting application-specific projection demand and forecast assumptions. It also discloses capital funding subject to reprofile approval. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/corporate-plan-2025-xx.xx-2029-xx.xx/financial-overview))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies single-view equipment as a replacement population, supporting the modeled displacement mechanism rather than an observed global share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies single-view equipment as a replacement population, supporting the modeled displacement mechanism rather than an observed global share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Multiview remains a planned purchasing destination at non-passenger checkpoints and Class xx.xx airports, qualifying universal CT substitution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Multiview remains a planned purchasing destination at non-passenger checkpoints and Class xx.xx airports, qualifying universal CT substitution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CT replacement is a stated major-checkpoint investment priority, subject to funding and delivery risks; this supports direction, not the modeled global share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CT replacement is a stated major-checkpoint investment priority, subject to funding and delivery risks; this supports direction, not the modeled global share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The plan includes additional screening equipment and expansion of existing hold-baggage screening capacity. Its FY2025/xx.xx capital budget is C$xx.xx across mixed activities; plans are not recognized supplier revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The plan includes additional screening equipment and expansion of existing hold-baggage screening capacity. Its FY2025/xx.xx capital budget is C$xx.xx across mixed activities; plans are not recognized supplier revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The plan distinguishes replacement of checkpoint X-ray equipment with CT and asset lifecycle renewal from additional capacity. Funding, partner timing and reprofiling qualify forecast realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The plan distinguishes replacement of checkpoint X-ray equipment with CT and asset lifecycle renewal from additional capacity. Funding, partner timing and reprofiling qualify forecast realization.
23. ECAC CEP Public Equipment List - Explosive Detection Systems, Update 18 April 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 list retains XRD xx.xx supporting the legacy commercial-category premise but not the assumed installed cohort or sales volume. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-EDS-equipment_public_list_update_20250418.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 list retains XRD xx.xx supporting the legacy commercial-category premise but not the assumed installed cohort or sales volume. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-EDS-equipment_public_list_update_20250418.pdf))

24. Partners - HALO X-ray Technologies Ltd

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named airport pilots and approximately USD xx.xx and USD xx.xx development programs establish commercialization activity and program scale, not realized annual XRD equipment revenue. ([haloxray.com](https://www.haloxray.com/partners))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named airport pilots and approximately USD xx.xx and USD xx.xx development programs establish commercialization activity and program scale, not realized annual XRD equipment revenue. ([haloxray.com](https://www.haloxray.com/partners))

25. Explosives Trace Detectors (ETDs): Market Survey Report, November 2021

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Historical IONSCAN xx.xx list-price configurations around USD xx.xx-xx.xx constrain the IMS price class; they do not establish 2025 purchasing volumes or realizations. ([dhs.gov](https://dhs.gov/sites/default/files/2021-xx.xx/SAVER_Explosives%20Trace%20Detectors%20MSR_08Nov2021_Final-xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Historical IONSCAN xx.xx list-price configurations around USD xx.xx-xx.xx constrain the IMS price class; they do not establish 2025 purchasing volumes or realizations. ([dhs.gov](https://dhs.gov/sites/default/files/2021-xx.xx/SAVER_Explosives%20Trace%20Detectors%20MSR_08Nov2021_Final-xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The Fido X4 historical USD xx.xx list-price benchmark supports the explicit nominal-price bridge; baggage attribution and unit mix remain modeled.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The Fido X4 historical USD xx.xx list-price benchmark supports the explicit nominal-price bridge; baggage attribution and unit mix remain modeled.

26. Astrotech Corporation - Form 10-K for the Fiscal Year Ended June 30, 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Discloses FY2025 product and service revenue, xx.xx deployment locations, and a six-unit USD xx.xx order. These provide a price comparator and supplier-scale check, not baggage-only revenue. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20250630_10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Discloses FY2025 product and service revenue, xx.xx deployment locations, and a six-unit USD xx.xx order. These provide a price comparator and supplier-scale check, not baggage-only revenue. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20250630_10k.htm))

27. Astrotech Corporation - Form 10-K for the Fiscal Year Ended June 30, 2026

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports eight TRACER units sold in FY2025 versus three in FY2026, identifies grant-related revenue within FY2025 product revenue, and describes a potential subsidiary sale. These constrain MS attribution and forecast optimism. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20260630_10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports eight TRACER units sold in FY2025 versus three in FY2026, identifies grant-related revenue within FY2025 product revenue, and describes a potential subsidiary sale. These constrain MS attribution and forecast optimism. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20260630_10k.htm))

28. Liquid Explosive Detector, Bottle Liquid Scanner, Insight - Agilent

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Raman-based airport resolution products and dated September 2025 launch and May 2026 contract announcements. Supports category continuity and adoption premises, not global unit or revenue shares. ([agilent.com](https://www.agilent.com/en/product/molecular-spectroscopy/raman-spectroscopy/raman-aviation-security-systems/insight-series-alarm-resolution-systems))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Raman-based airport resolution products and dated September 2025 launch and May 2026 contract announcements. Supports category continuity and adoption premises, not global unit or revenue shares. ([agilent.com](https://www.agilent.com/en/product/molecular-spectroscopy/raman-spectroscopy/raman-aviation-security-systems/insight-series-alarm-resolution-systems))

29. Bottle Liquid Scanner for Sale from China - Securina

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Positions microwave-based liquid-screening products for airports and customs. Supports commercial classification only; prices, authorization and purchasing weights remain assumptions. ([securinadetection.com](https://www.securinadetection.com/Bottle-Liquid-Scanner-Manufacturer-China.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Positions microwave-based liquid-screening products for airports and customs. Supports commercial classification only; prices, authorization and purchasing weights remain assumptions. ([securinadetection.com](https://www.securinadetection.com/Bottle-Liquid-Scanner-Manufacturer-China.html))

30. Quick, Accurate Threat-Detection Scanner for Liquid, Aerosol, and Gels Eases and Secures Air Travel Worldwide

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies LS10 as a complete commercial liquid scanner combining RF and ultrasonic capabilities, supporting nonduplicative complete-product attribution. ([battelle.org](https://www.battelle.org/insights/case-studies/case-study-details/quick-accurate-threat-detection-scanner-for-liquid-aerosol-and-gels-eases-and-secures-air-travel-worldwide))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies LS10 as a complete commercial liquid scanner combining RF and ultrasonic capabilities, supporting nonduplicative complete-product attribution. ([battelle.org](https://www.battelle.org/insights/case-studies/case-study-details/quick-accurate-threat-detection-scanner-for-liquid-aerosol-and-gels-eases-and-secures-air-travel-worldwide))

31. ECAC CEP Public Equipment List - Liquid Explosive Detection Systems, Update 10 July 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 list includes One Resonance Sensors MobiLab BLS. This supports retained listed status for a named product, not active supply, paid installed stock or observed receipts. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-LEDS%20equipment%20public%20list-update%xx.xx-xx.xx-rev1.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 list includes One Resonance Sensors MobiLab BLS. This supports retained listed status for a named product, not active supply, paid installed stock or observed receipts. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-LEDS%20equipment%20public%20list-update%xx.xx-xx.xx-rev1.pdf))

32. MobiLab BLS Bottled Liquid Scanner Endorsed By European Civil Aviation Conference

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's May xx.xx 2014 announcement identifies MobiLab BLS as an NMR-based airport liquid scanner and states that orders were being accepted. Establishes historical commercial offering, not 2025 deliveries. ([prnewswire.com](https://www.prnewswire.com/news-releases/mobilab-bls-bottled-liquid-scanner-endorsed-by-european-civil-aviation-conference-xx.xx.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's May xx.xx 2014 announcement identifies MobiLab BLS as an NMR-based airport liquid scanner and states that orders were being accepted. Establishes historical commercial offering, not 2025 deliveries. ([prnewswire.com](https://www.prnewswire.com/news-releases/mobilab-bls-bottled-liquid-scanner-endorsed-by-european-civil-aviation-conference-xx.xx.html))

33. SafePointe BLS Powered by ORS - Bottled Liquid Explosives Detection Solution

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The branded supplier brochure documents an ORS-powered bottled-liquid product channel. Its availability does not establish current orders or support continuity; it supports only the legacy-channel modeling premise. ([uploads-ssl.webflow.com](https://uploads-ssl.webflow.com/608330bcae48962bf6d7ff37/6149f80be6c30d34b5e3debe_BLS-Flyer-Compressed.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The branded supplier brochure documents an ORS-powered bottled-liquid product channel. Its availability does not establish current orders or support continuity; it supports only the legacy-channel modeling premise. ([uploads-ssl.webflow.com](https://uploads-ssl.webflow.com/608330bcae48962bf6d7ff37/6149f80be6c30d34b5e3debe_BLS-Flyer-Compressed.pdf))

34. Florida Division of Corporations - One Resonance Sensors, LLC, Entity Detail

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official registry records One Resonance Sensors, LLC as inactive following administrative dissolution on September xx.xx 2019. This counterevidence constrains continuity assumptions but does not prove zero surviving product support. ([search.sunbiz.org](https://search.sunbiz.org/Inquiry/CorporationSearch/SearchResultDetail?aggregateId=flal-l11000122986-c57f60b3-690d-4c87-836a-9aeb045075e8&directionType=CurrentList&inquirytype=EntityName&listNameOrder=ONERESONANCESENSORS+L110001229860&searchNameOrder=ONERESONANCESENSORS+L110001229860&searchTerm=ONE+RED+AMPERSAND+LLC))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official registry records One Resonance Sensors, LLC as inactive following administrative dissolution on September xx.xx 2019. This counterevidence constrains continuity assumptions but does not prove zero surviving product support. ([search.sunbiz.org](https://search.sunbiz.org/Inquiry/CorporationSearch/SearchResultDetail?aggregateId=flal-l11000122986-c57f60b3-690d-4c87-836a-9aeb045075e8&directionType=CurrentList&inquirytype=EntityName&listNameOrder=ONERESONANCESENSORS+L110001229860&searchNameOrder=ONERESONANCESENSORS+L110001229860&searchTerm=ONE+RED+AMPERSAND+LLC))

35. Explosive Detection - Teledyne FLIR Defense

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists offered Fido X-series products and service support, supporting commercial offering continuity only, not airport-specific eligibility or sales weights. ([flir.com](https://www.flir.com/threat-detection/explosives/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists offered Fido X-series products and service support, supporting commercial offering continuity only, not airport-specific eligibility or sales weights. ([flir.com](https://www.flir.com/threat-detection/explosives/))

36. Scintrex Trace E3500 Explosive Trace Detection Unit - SecurityPro USA

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distributor offers E3500 chemiluminescence equipment and identifies customs/border applications. Supports a commercial category lead, not measured airport purchasing or the assumed price. ([securityprousa.com](https://www.securityprousa.com/collections/explosive-detection/products/scintrex-trace-e3500-explosive-trace-detection-unit))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distributor offers E3500 chemiluminescence equipment and identifies customs/border applications. Supports a commercial category lead, not measured airport purchasing or the assumed price. ([securityprousa.com](https://www.securityprousa.com/collections/explosive-detection/products/scintrex-trace-e3500-explosive-trace-detection-unit))

37. Portable Explosive Detector - Trace Detector EVD-3000+

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distributor offers EVD-xx.xx+ thermo-redox equipment. Supports offered-product classification, not airport authorization, purchasing volume or the modeled realization. ([securityprousa.com](https://www.securityprousa.com/products/scintrex-trace-evd-xx.xx-portable-trace-detection-unit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distributor offers EVD-xx.xx+ thermo-redox equipment. Supports offered-product classification, not airport authorization, purchasing volume or the modeled realization. ([securityprousa.com](https://www.securityprousa.com/products/scintrex-trace-evd-xx.xx-portable-trace-detection-unit))

38. CATSA's Purchase Order Terms and Conditions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contract terms constrain maintenance, parts and consumables escalation, qualifying unrestricted aftermarket pricing assumptions in the projection lifecycle model. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contract terms constrain maintenance, parts and consumables escalation, qualifying unrestricted aftermarket pricing assumptions in the projection lifecycle model. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contractual price limits constrain the pricing premise, but do not verify CT-specific global support receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contractual price limits constrain the pricing premise, but do not verify CT-specific global support receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintenance and consumable escalation limits qualify the trace-platform pricing assumption rather than establishing the modeled IMS share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintenance and consumable escalation limits qualify the trace-platform pricing assumption rather than establishing the modeled IMS share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The pre-existing-software clause grants broad license rights without transferring ownership; proprietary ownership alone therefore cannot establish the Closed revenue numerator. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The pre-existing-software clause grants broad license rights without transferring ownership; proprietary ownership alone therefore cannot establish the Closed revenue numerator. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Software modification rights are not themselves proof of standards-based interfaces or independent component substitution; supports conservative classification. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Software modification rights are not themselves proof of standards-based interfaces or independent component substitution; supports conservative classification. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))

39. Liquids Scanner for Airport Security - UC Davis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2011 account establishes a development contract and licensing relationship. Its development allocation is excluded from 2025 receipts and does not establish a surviving commercial cohort. ([ucdavis.edu](https://www.ucdavis.edu/news/liquids-scanner-airport-security))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2011 account establishes a development contract and licensing relationship. Its development allocation is excluded from 2025 receipts and does not establish a surviving commercial cohort. ([ucdavis.edu](https://www.ucdavis.edu/news/liquids-scanner-airport-security))
40. Open Architecture for Airport Security Systems, Second Edition
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes proprietary integration from interoperable connections, supporting the category boundary rather than an observed revenue share. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes proprietary integration from interoperable connections, supporting the category boundary rather than an observed revenue share. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Integration does not guarantee interoperability; this constrains attribution of vendor-mediated configurations. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Integration does not guarantee interoperability; this constrains attribution of vendor-mediated configurations. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Allows identified partial compliance and discusses accountable integration responsibilities; supports scoped open attribution, not whole-purchase reclassification. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Allows identified partial compliance and discusses accountable integration responsibilities; supports scoped open attribution, not whole-purchase reclassification. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))

41. CATSA 2025 Annual Report - Overview of Activities

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines across xx.xx airports serving more than xx.xx% of passengers in 2024/xx.xx; provides an independent integration-activity check, not a direct value allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines across xx.xx airports serving more than xx.xx% of passengers in 2024/xx.xx; provides an independent integration-activity check, not a direct value allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported modernized passenger coverage constrains an assumption of universally standalone activity, while leaving commercial architecture and revenue attribution unresolved. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported modernized passenger coverage constrains an assumption of universally standalone activity, while leaving commercial architecture and revenue attribution unresolved. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The annual report identifies enhanced non-passenger requirements and implementation planned from spring 2025. This supports a conditional modernization premise, not the modeled global uptake factor.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2024/xx.xx; provides a Canadian adoption comparator, not a global local-review revenue weight. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2024/xx.xx; provides a Canadian adoption comparator, not a global local-review revenue weight. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies remote screening within CATSA Plus and quantifies deployment; constrains the commercial-adoption premise but does not establish each review room's location. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies remote screening within CATSA Plus and quantifies deployment; constrains the commercial-adoption premise but does not establish each review room's location. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Deployment coverage constrains the addressable network-enabled pool; it does not disclose hybrid contracts or justify the modeled hybrid percentage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Deployment coverage constrains the addressable network-enabled pool; it does not disclose hybrid contracts or justify the modeled hybrid percentage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))

42. CATSA - Beyond the Checkpoint, December 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx operational CT machines at eight airports and a modular-line average of xx.xx passengers per hour versus xx.xx for traditional multi-split lines; supports the bounded throughput-to-unit bridge and phased-deployment premise. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/about-us/beyond-checkpoint-2025-december))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx operational CT machines at eight airports and a modular-line average of xx.xx passengers per hour versus xx.xx for traditional multi-split lines; supports the bounded throughput-to-unit bridge and phased-deployment premise. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/about-us/beyond-checkpoint-2025-december))

43. Smiths Detection Delivers Fully Automated International Remote Baggage Screening System Between South Korea and the United States

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2026 disclosure identifies xx.xx software licenses and DICOS V3.xx.xx exchange, and dates operational service to August 2025. Supports commercial standards-based activity and forecast feasibility, not an observed global share or a confirmed 2025 license inventory. ([smithsdetection.com](https://www.smithsdetection.com/press-releases/smiths-detection-delivers-fully-automated-international-remote-baggage-screening-system-between-south-korea-and-the-united-states/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2026 disclosure identifies xx.xx software licenses and DICOS V3.xx.xx exchange, and dates operational service to August 2025. Supports commercial standards-based activity and forecast feasibility, not an observed global share or a confirmed 2025 license inventory. ([smithsdetection.com](https://www.smithsdetection.com/press-releases/smiths-detection-delivers-fully-automated-international-remote-baggage-screening-system-between-south-korea-and-the-united-states/))

44. SeeTrue Marks Milestone with Over 100 X-ray Checkpoint Installations of Advanced AI-Based Threat Detection Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 announcement reports the 100th operational screening lane across airports and other sectors. Provides a limited commercial-adoption scale check; it is neither airport-only nor a census of standards-based entitlements. ([seetrue.ai](https://www.seetrue.ai/seetrue-marks-milestone-with-over-xx.xx-x-ray-checkpoint-installations-of-advanced-ai-based-threat-detection-software/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 announcement reports the 100th operational screening lane across airports and other sectors. Provides a limited commercial-adoption scale check; it is neither airport-only nor a census of standards-based entitlements. ([seetrue.ai](https://www.seetrue.ai/seetrue-marks-milestone-with-over-xx.xx-x-ray-checkpoint-installations-of-advanced-ai-based-threat-detection-software/))

45. Scarabee's Checkpoint Property Screening System to be deployed at DEN

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-lane Denver award combining Scarabee lanes with Smiths scanners. Corroborates a commercial mixed-supplier integration route; an award is not realized annual revenue or proof of unrestricted interoperability. ([daifukuatec.com](https://daifukuatec.com/news/scarabees-checkpoint-property-screening-system-to-be-deployed-at-den))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-lane Denver award combining Scarabee lanes with Smiths scanners. Corroborates a commercial mixed-supplier integration route; an award is not realized annual revenue or proof of unrestricted interoperability. ([daifukuatec.com](https://daifukuatec.com/news/scarabees-checkpoint-property-screening-system-to-be-deployed-at-den))

46. CATSA Annual Report 2024 - Management's Discussion and Analysis

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx pre-board capital appropriations used of C$xx.xx provide the second period in the non-passenger-to-cabin purchasing comparison.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx non-passenger capital appropriations used of C$xx.xx enter the two-period activity proxy; they do not identify the property-only fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx non-passenger capital appropriations used of C$xx.xx enter the two-period activity proxy; they do not identify the property-only fraction.

47. Smiths Detection confirm order of 91 advanced scanners for new terminals at Moscow Sheremetyevo International Airport
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The dated airport deployment includes xx.xx entrance baggage systems and xx.xx cabin-checkpoint systems. Their ratio supplies a historical relative-density proxy, subsequently discounted for assumed global coverage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated airport deployment includes xx.xx entrance baggage systems and xx.xx cabin-checkpoint systems. Their ratio supplies a historical relative-density proxy, subsequently discounted for assumed global coverage.
48. Cochin International Airport Selects Smiths Detection's CTX 9800 for Next-Generation Hold Baggage Screening
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2017 deployment identifies xx.xx customs baggage systems alongside four hold-baggage systems. This supports the customs-intensive historical configuration proxy, not current global fleet or revenue observations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2017 deployment identifies xx.xx customs baggage systems alongside four hold-baggage systems. This supports the customs-intensive historical configuration proxy, not current global fleet or revenue observations.
49. CATSA Functions, Programs and Activities
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Hold-baggage activities include equipment purchase, baggage-handling integration and equipment maintenance, supporting the checked-baggage capital and lifecycle boundary.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Hold-baggage activities include equipment purchase, baggage-handling integration and equipment maintenance, supporting the checked-baggage capital and lifecycle boundary.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-passenger screening covers airport workers and their belongings; only attributable property-screening offerings enter this allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-passenger screening covers airport workers and their belongings; only attributable property-screening offerings enter this allocation.
50. Fraport TAV Antalya Airport - About the security control itself
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The airport operator distinguishes terminal-entry security from a subsequent checkpoint. This supports a separate entrance-screening mission while providing no global prevalence or spending share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport operator distinguishes terminal-entry security from a subsequent checkpoint. This supports a separate entrance-screening mission while providing no global prevalence or spending share.
51. EMSD VoiceLink, Issue 79, June 2026 - EMSD Provides Comprehensive Support for Terminal 2 Commissioning
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June 2026 account identifies baggage-and-parcel equipment procurement and installation for the customs authority at Terminal xx.xx. It supports a separate commissioning mission but does not isolate baggage expenditure.
52. GAO-26-107811 - Guam: Considerations for Evaluating Alternative Customs Models and Potential Economic Effects
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The audit identifies two historical airport-customs baggage systems inactive for years and delayed replacement procurement. This challenges conversion of installed stock or acknowledged need directly into annual equipment and support revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The audit identifies two historical airport-customs baggage systems inactive for years and delayed replacement procurement. This challenges conversion of installed stock or acknowledged need directly into annual equipment and support revenue.

53. Bennet, Moran, Van Hollen, Boozman Introduce Bill to Bolster Aviation Safety
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 official release identifies xx.xx U.S. screening lanes, used as agency purchasing-exposure calibration rather than observed annual equipment sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 official release identifies xx.xx U.S. screening lanes, used as agency purchasing-exposure calibration rather than observed annual equipment sales.
54. Bank of Canada - Annual exchange rates
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual exchange-rate observations support the inherited fiscal-period approximation of xx.xx Canadian dollars per U.S. dollar; this is not a transaction-weighted exchange rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual exchange-rate observations support the inherited fiscal-period approximation of xx.xx Canadian dollars per U.S. dollar; this is not a transaction-weighted exchange rate.
55. Japan’s leading airline revolutionizes check in experience with new Smiths Detection technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The August 2023 announcement identifies JAL as customer for five screening ecosystems and reports xx.xx deployed iLane units across Japan. These are historical commercial-stock anchors, not an airline-only fleet or 2025 sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August 2023 announcement identifies JAL as customer for five screening ecosystems and reports xx.xx deployed iLane units across Japan. These are historical commercial-stock anchors, not an airline-only fleet or 2025 sales observation.
56. Narita International Airport anticipates threats with integrated solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Narita airport as a screening-technology customer and describes xx.xx lane-related installations, qualifying any assumption that the supplier's Japanese installed stock was purchased entirely by airlines.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Narita airport as a screening-technology customer and describes xx.xx lane-related installations, qualifying any assumption that the supplier's Japanese installed stock was purchased entirely by airlines.
57. MLIT - 保安検査の実施主体が変わります！ - June 27, 2025
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement targets transfer of security-screening responsibility from airlines to airport managers, with leading cases targeted in FY2026. Supports a conditional reduction in airline purchasing, not an observed contract-transfer percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transfer direction supports modeled airport-manager purchasing gains. Continued shared financing does not imply equal purchasing shares.
58. ICTS International N.V. - Annual Report for the year ended December 31, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Discloses USD xx.xx company-wide property/equipment purchases and USD xx.xx airport-security revenue in 2025. Supports an asset-light purchasing-intensity proxy; the in-scope fraction and global expansion remain assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Discloses USD xx.xx company-wide property/equipment purchases and USD xx.xx airport-security revenue in 2025. Supports an asset-light purchasing-intensity proxy; the in-scope fraction and global expansion remain assumptions.

59. EU Publications Office - Purchase and maintenance of non-intrusive X-ray inspection equipment for baggage and air cargo volume control
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Autoridade Tributária e Aduaneira as buyer and reports a 2026 award of EUR xx.xx across four lots for baggage/air-cargo inspection equipment and maintenance. Provides a buyer-role and commercial-scale comparator, not 2025 baggage-only annual expenditure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Autoridade Tributária e Aduaneira as buyer and reports a 2026 award of EUR xx.xx across four lots for baggage/air-cargo inspection equipment and maintenance. Provides a buyer-role and commercial-scale comparator, not 2025 baggage-only annual expenditure.
60. ACI World - Busiest Airports in the World
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx international airport passenger movements in 2025. Half provides an approximate arrival-movement scale check before transfer exclusions, not a customs examination or equipment-purchasing weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx international airport passenger movements in 2025. Half provides an approximate arrival-movement scale check before transfer exclusions, not a customs examination or equipment-purchasing weight.
61. Heathrow announces £2.3bn accelerated investment plan to upgrade the UK's international gateway to growth
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports GBP xx.xx invested in security-lane upgrades during 2024, supporting material airport-directed purchasing. Broader infrastructure obligations and historical timing prevent treating the amount as 2025 in-scope market receipts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports GBP xx.xx invested in security-lane upgrades during 2024, supporting material airport-directed purchasing. Broader infrastructure obligations and historical timing prevent treating the amount as 2025 in-scope market receipts.
62. Fraport Assumes Responsibility for Aviation Security Checks at Frankfurt Airport
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents Fraport's checkpoint-management responsibility from January 2023, six initial CT-equipped lanes and three contracted screening providers. Supports distinguishing an airport commissioning role from regulator oversight and contracted screening labor.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents Fraport's checkpoint-management responsibility from January 2023, six initial CT-equipped lanes and three contracted screening providers. Supports distinguishing an airport commissioning role from regulator oversight and contracted screening labor.
63. Advanced Cabin Baggage Screening - Computed Tomography Implementation Guide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes standalone CT, including equipment-local conveyance, from integrated screening-lane configurations; supports attribution boundaries, not a revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes standalone CT, including equipment-local conveyance, from integrated screening-lane configurations; supports attribution boundaries, not a revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies automated tray-return and automated screening-lane integration as commercially distinct configurations; supports the lane-integrated category definition.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies automated tray-return and automated screening-lane integration as commercially distinct configurations; supports the lane-integrated category definition.

64. GAO-12-266 - Checked Baggage Screening: TSA Has Deployed Optimal Systems at the Majority of TSA-Regulated Airports, but Could Strengthen Cost Estimates

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December 2011 table reports xx.xx standalone EDS alongside xx.xx in-line EDS; this historical machine-count comparator constrains, but does not determine, the current global allocation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December 2011 table reports xx.xx standalone EDS alongside xx.xx in-line EDS; this historical machine-count comparator constrains, but does not determine, the current global allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx in-line EDS across xx.xx in-line systems and distinguishes equipment counts from integrated-system counts; supports the historical configuration bridge.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx in-line EDS across xx.xx in-line systems and distinguishes equipment counts from integrated-system counts; supports the historical configuration bridge.

65. Smiths Detection selected as security technology provider to International Airport Heraklion Crete

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 announcement identifies eight cabin CT scanners and eight automated tray-return systems for Heraklion, with installation planned across late 2025 and mid-2026; supports ongoing integrated procurement, not realized annual revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 announcement identifies eight cabin CT scanners and eight automated tray-return systems for Heraklion, with installation planned across late 2025 and mid-2026; supports ongoing integrated procurement, not realized annual revenue.

66. Centralised Image Processing: The Impact on Security Checkpoints

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes checkpoint-local image review from separate-room arrangements; supports retaining networked local activity rather than automatically assigning it to remote review. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes checkpoint-local image review from separate-room arrangements; supports retaining networked local activity rather than automatically assigning it to remote review. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes separate screening rooms and established remote hold-baggage review at larger airports; supports the cohort-maturity premise, not a numerical global share. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes separate screening rooms and established remote hold-baggage review at larger airports; supports the cohort-maturity premise, not a numerical global share. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes combined checkpoint and remote-room arrangements, establishing a mixed-location commercial configuration without measuring its prevalence or price. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes combined checkpoint and remote-room arrangements, establishing a mixed-location commercial configuration without measuring its prevalence or price. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))

67. Annual Report 2024 - CATSA's Operating Environment

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2023/xx.xx providing the historical comparison rather than a global location allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2023/xx.xx providing the historical comparison rather than a global location allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Together with the subsequent annual report, supports a seven-line deployment increase without a corresponding increase in reported passenger coverage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Together with the subsequent annual report, supports a seven-line deployment increase without a corresponding increase in reported passenger coverage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provides a historical network-enabled deployment anchor, while leaving the physical mixed-location contract share unmeasured. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provides a historical network-enabled deployment anchor, while leaving the physical mixed-location contract share unmeasured. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))

68. L22020-T-TG Upgrades to the Passenger Search Area, body scanners, EDS C3 cabin baggage screening - Contract Award Notice

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2023 Luton award expressly includes construction of a remote screening room at the airport terminal, supporting separate-room commercial procurement. Its broader scope is not treated as baggage-only annual revenue. ([find-tender.service.gov.uk](https://www.find-tender.service.gov.uk/Notice/xx.xx-2023))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2023 Luton award expressly includes construction of a remote screening room at the airport terminal, supporting separate-room commercial procurement. Its broader scope is not treated as baggage-only annual revenue. ([find-tender.service.gov.uk](https://www.find-tender.service.gov.uk/Notice/xx.xx-2023))

69. Greater Orlando Aviation Authority - Minutes of the February 19, 2025 Meeting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Authorizes up to USD xx.xx for baggage-system and Remote Screening Facility network/server separation. Half this ceiling is an explicitly assumed deployment-cost comparator, not observed off-site receipts. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Authorizes up to USD xx.xx for baggage-system and Remote Screening Facility network/server separation. Half this ceiling is an explicitly assumed deployment-cost comparator, not observed off-site receipts. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provides the commercial networking-cost anchor for the modeled transfer from existing on-site pools, avoiding additional market value or duplicate host-equipment attribution. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provides the commercial networking-cost anchor for the modeled transfer from existing on-site pools, avoiding additional market value or duplicate host-equipment attribution. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))

70. American and U.S. Customs and Border Protection pilot innovative baggage screening initiative

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: American's April xx.xx 2025 announcement identifies a daily Sydney-Los Angeles IRBS pilot and unchanged screening requirements. It anchors one sampled connection and an assumed partial-year licensing period, not disclosed revenue. ([s202.q4cdn.com](https://s202.q4cdn.com/xx.xx/files/doc_news/American-and-US-Customs-and-Border-Protection-pilot-innovative-baggage-screening-initiative-OPS-OTH-xx.xx-2025.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: American's April xx.xx 2025 announcement identifies a daily Sydney-Los Angeles IRBS pilot and unchanged screening requirements. It anchors one sampled connection and an assumed partial-year licensing period, not disclosed revenue. ([s202.q4cdn.com](https://s202.q4cdn.com/xx.xx/files/doc_news/American-and-US-Customs-and-Border-Protection-pilot-innovative-baggage-screening-initiative-OPS-OTH-xx.xx-2025.pdf))

71. 델타항공-대한항공, 인천발 애틀랜타 노선 대상 위탁수하물 원격 검색 방식 신규 도입

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2025 announcement identifies the Incheon-Atlanta IRBS arrangement, anchoring a second sampled connection and a partial-year commercial-activity assumption without establishing contract value. ([news.delta.com](https://news.delta.com/delta-and-koreanair-launch-remote-baggage-screening-on-icn-atl-KR))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2025 announcement identifies the Incheon-Atlanta IRBS arrangement, anchoring a second sampled connection and a partial-year commercial-activity assumption without establishing contract value. ([news.delta.com](https://news.delta.com/delta-and-koreanair-launch-remote-baggage-screening-on-icn-atl-KR))

72. United Launches CBP's International Remote Baggage Screening on Select International Flights

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: United's September xx.xx 2025 announcement identifies daily Sydney-San Francisco service and named technology partners, anchoring a third sampled connection. It reports no attributable software or integration receipts. ([united.mediaroom.com](https://united.mediaroom.com/2025-xx.xx-xx.xx-United-Launches-CBPs-International-Remote-Baggage-Screening-on-Select-International-Flights))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: United's September xx.xx 2025 announcement identifies daily Sydney-San Francisco service and named technology partners, anchoring a third sampled connection. It reports no attributable software or integration receipts. ([united.mediaroom.com](https://united.mediaroom.com/2025-xx.xx-xx.xx-United-Launches-CBPs-International-Remote-Baggage-Screening-on-Select-International-Flights))

73. Airline Passengers Face Fewer Bag Checkpoints, Thanks to PNNL, Partners

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2026 laboratory release describes implementation on additional routes, including Seoul arrivals at Minneapolis-St. Paul and Detroit. This supports expansion direction, not the forecast connection count, realization or global share. ([pnnl.gov](https://www.pnnl.gov/news-media/airline-passengers-face-fewer-bag-checkpoints-thanks-pnnl-partners))

74. TSA awards $781.2 million to procure additional CT X-Ray scanners for airport checkpoints

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2022 announcement identifies up to USD xx.xx for procurement and maintenance of up to xx.xx systems from an OEM. This is a historical procurement-scale anchor, not annual 2025 direct-channel revenue. ([content.govdelivery.com](https://content.govdelivery.com/accounts/USDHSTSA/bulletins/30f6e5f))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The award includes full-size automated lanes, cautioning against assigning all automation value to non-OEM integration primes; exact contractual-role attribution is not disclosed. ([content.govdelivery.com](https://content.govdelivery.com/accounts/USDHSTSA/bulletins/30f6e5f))

75. OSI Systems, Inc. - Form 10-K for the fiscal year ended June 30, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing describes regional direct security-product sales and direct maintenance relationships. Its broader security scope supports route coexistence, not baggage-only sales weights. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing describes regional direct security-product sales and direct maintenance relationships. Its broader security scope supports route coexistence, not baggage-only sales weights. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company identifies a global independent-distributor network, supporting a continuing indirect route without quantifying its value share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company identifies a global independent-distributor network, supporting a continuing indirect route without quantifying its value share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Authorized service providers are identified separately from distributors, supporting distinct technical-service attribution and access limitations. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Authorized service providers are identified separately from distributors, supporting distinct technical-service attribution and access limitations. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

76. SriLankan Airlines - Invitation for Supply, Installation, Commissioning and Maintenance of Dual View Heavy and Medium X-Ray Machines, Reference 202130407

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 purchaser invitation permits an OEM or authorized OEM agent and requires authorization for the latter. It establishes equipment-channel eligibility, not an award or software-resale right. ([srilankan.com](https://www.srilankan.com/download/tender/TN-Invitationforsubmiss-xx.xx.pdf))

77. JFK Millennium Partners Selects K2 to Deliver State-of-the-Art Security Screening Checkpoint at new JFK Terminal 6

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment assigns procurement and deployment coordination across multiple technology suppliers at a future ten-gate terminal. It supports integration-prime participation and a forecast mechanism, not a disclosed share or completed 2025 revenue. ([portauthoritybuilds.com](https://www.portauthoritybuilds.com/redevelopment/us/en/jfk/planned-projects/terminal-xx.xx/news/jfk-millennium-partners-selects-k2-to-deliver-state-of-the-art-s.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment assigns procurement and deployment coordination across multiple technology suppliers at a future ten-gate terminal. It supports integration-prime participation and a forecast mechanism, not a disclosed share or completed 2025 revenue. ([portauthoritybuilds.com](https://www.portauthoritybuilds.com/redevelopment/us/en/jfk/planned-projects/terminal-xx.xx/news/jfk-millennium-partners-selects-k2-to-deliver-state-of-the-art-s.html))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment covers baggage CT and automated bin-return equipment for a future xx.xx-gate terminal, with phased opening planned for 2026-2028. It establishes new-installation activity, not attributable 2025 receipts; wider airport investment and person-only technologies are excluded.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment covers baggage CT and automated bin-return equipment for a future xx.xx-gate terminal, with phased opening planned for 2026-2028. It establishes new-installation activity, not attributable 2025 receipts; wider airport investment and person-only technologies are excluded.

78. CATSA Corporate Plan 2024-25 to 2028-29 Summary - Key Corporate Risks

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The authority reports transferring maintenance of most screening equipment to KPrime in 2023/xx.xx. This establishes a separately contracted maintenance relationship, without a baggage-only payment split. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/key-corporate-risks))

79. Leidos wins TSA logistics contract

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 announcement describes an eight-year, USD xx.xx maximum sustainment contract covering xx.xx equipment units at over xx.xx locations with manufacturer coordination. Annualization and baggage/third-party attribution in the model are explicit assumptions. ([leidos.com](https://www.leidos.com/insights/leidos-wins-tsa-logistics-contract))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 announcement describes an eight-year, USD xx.xx maximum sustainment contract covering xx.xx equipment units at over xx.xx locations with manufacturer coordination. Annualization and baggage/third-party attribution in the model are explicit assumptions. ([leidos.com](https://www.leidos.com/insights/leidos-wins-tsa-logistics-contract))

80. Checkpoint Transformation: Malta International Airport Streamlines Passenger Flow with Smiths Detection
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Seven conventional automated lanes were replaced by six CT-equipped lanes, with final commissioning in January 2025. This is a counterexample to equating capacity improvement with net additional equipment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seven conventional automated lanes were replaced by six CT-equipped lanes, with final commissioning in January 2025. This is a counterexample to equating capacity improvement with net additional equipment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The complete checkpoint replacement illustrates why an offering described commercially as an upgrade can belong to System Replacement. The seven-year service commitment is not counted wholly as installation-year revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The complete checkpoint replacement illustrates why an offering described commercially as an upgrade can belong to System Replacement. The seven-year service commitment is not counted wholly as installation-year revenue.
81. iCMORE - Smiths Detection
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current commercial offering describes a software-upgrade path while qualifying additional hardware requirements by machine type and age. This constrains forecast eligibility assumptions; product availability does not measure adoption or revenue.

18.15. Russia

Sources & Evidence

1. House Report 119-173 - Department of Homeland Security Appropriations Bill, 2026

   · Evidence informing the 2030 market-value input; displayed series and growth include calculations: The aging installed fleet supports replacement demand, but does not establish the forecast's realization dates or annual purchasing rate. ([govinfo.gov](https://www.govinfo.gov/content/pkg/CRPT-119hrpt173/html/CRPT-119hrpt173.htm))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report identifies xx.xx end-of-life systems within a xx.xx-system checked-baggage fleet. This constrains renewal exposure, not realized annual purchasing or a verified global replacement deadline.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports a TSA checked-baggage fleet of xx.xx EDS, including xx.xx at end-of-life, and assigns purchase, installation and maintenance responsibilities to TSA. Supports agency fleet calibration and renewal pressure, not the assumed forecast uplift.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports a TSA checked-baggage fleet of xx.xx EDS, including xx.xx at end-of-life, and assigns purchase, installation and maintenance responsibilities to TSA. Supports agency fleet calibration and renewal pressure, not the assumed forecast uplift.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report identifies xx.xx end-of-life EDS within a xx.xx-unit U.S. checked-baggage fleet, citing the FY2024 capital plan. The derived xx.xx% backlog constrains the aging-fleet premise, but is neither an annual turnover rate nor a funded global replacement forecast.

2. GAO-24-106573 - DHS Annual Assessment: Most Programs Are Meeting Current Goals, but Some Continue to Face Cost and Schedule Challenges

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports plans for xx.xx checkpoint systems and xx.xx increment-one deployments by September 2023; supports an incomplete replacement cycle rather than universal CT adoption. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx AT/CT, xx.xx base, xx.xx mid-size and xx.xx full-size deployments by September 2023; supplies configuration proxies and an incomplete-renewal constraint, not contractual architecture shares. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx AT/CT, xx.xx base, xx.xx mid-size and xx.xx full-size deployments by September 2023; supplies configuration proxies and an incomplete-renewal constraint, not contractual architecture shares. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The deployed configuration mix underlies the xx.xx/xx.xx newer-cohort and xx.xx/xx.xx older-cohort proxy calculations; global and contractual attribution remain modeled. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The deployed configuration mix underlies the xx.xx/xx.xx newer-cohort and xx.xx/xx.xx older-cohort proxy calculations; global and contractual attribution remain modeled. ([gao.gov](https://www.gao.gov/assets/gao-xx.xx-xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The assessment records xx.xx checkpoint systems deployed by September 2023 against an eventual xx.xx-system program. This supports an incomplete replacement cycle and qualifies any assumption of universal CT adoption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The assessment records xx.xx checkpoint systems deployed by September 2023 against an eventual xx.xx-system program. This supports an incomplete replacement cycle and qualifies any assumption of universal CT adoption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports a September 2023 U.S. CT cohort containing xx.xx AT/CT and xx.xx base systems, providing counterevidence to assigning all CT activity automatically to integrated lanes.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports a September 2023 U.S. CT cohort containing xx.xx AT/CT and xx.xx base systems, providing counterevidence to assigning all CT activity automatically to integrated lanes.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx mid-size and xx.xx full-size systems within xx.xx deployed CT systems; supports differentiated configuration assumptions rather than treating technology adoption as an integration-share observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx mid-size and xx.xx full-size systems within xx.xx deployed CT systems; supports differentiated configuration assumptions rather than treating technology adoption as an integration-share observation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2024 assessment records xx.xx checkpoint deployments as of September 2023 against xx.xx planned systems replacing aging equipment. It supports staged renewal, but does not establish current deployment completion or the modeled 2032 share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2024 assessment records xx.xx checkpoint deployments as of September 2023 against xx.xx planned systems replacing aging equipment. It supports staged renewal, but does not establish current deployment completion or the modeled 2032 share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The program separately anticipates enhancements to fielded systems, supporting a retained-equipment commercial pathway without supplying an attributable upgrade-revenue split.

3. Global Airport Passenger Traffic Reaches Record 9.8 Billion in 2025, Airports Council International World reports

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports cooling passenger-growth momentum in 2026, supporting moderation of traffic-driven equipment expansion despite continuing replacement demand.
   ([aci.aero](https://aci.aero/2026/xx.xx/xx.xx/global-airport-passenger-traffic-reaches-record-xx.xx-xx.xx-billion-in-2025-airports-council-international-world-reports/))

4. Smiths Group PLC - Full Year Results for the 12 Months Ended 31 July 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Discloses aviation original-equipment revenue of xx.xx and aftermarket revenue of xx.xx for FY2024; supplies historical cycle proxies. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing the 2027 market-value input; displayed series and growth include calculations: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; supports replacement activity, not an observed global forecast. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2025 aviation original-equipment revenue of GBP xx.xx provides an independent equipment-activity scale check, not a global category share. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025 aviation original-equipment revenue of GBP xx.xx provides an independent equipment-activity scale check, not a global category share. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx cumulative CTiX sales corroborate commercial imaging activity and replacement demand; they do not measure annual global sales. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx cumulative CTiX sales corroborate commercial imaging activity and replacement demand; they do not measure annual global sales. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: GBP xx.xx aviation aftermarket revenue supports lifecycle materiality while qualifying transfer of one supplier's mix to the global service allocation. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GBP xx.xx aviation aftermarket revenue supports lifecycle materiality while qualifying transfer of one supplier's mix to the global service allocation. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; cumulative sales constrain commercial scale but are not annual global shipments. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx cumulative CTiX sales and continuing aviation upgrade demand; cumulative sales constrain commercial scale but are not annual global shipments. ([www-live.smiths.com](https://www-live.smiths.com/media/snqpxwkd/smiths-group-plc-annual-results-2025-press-release.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports four operating XDi units as of July 2025 and pending regulatory certification, constraining the small XRD cohort and qualifying aggressive commercialization assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports four operating XDi units as of July 2025 and pending regulatory certification, constraining the small XRD cohort and qualifying aggressive commercialization assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported checkpoint modernization provides a commercial reason to model substitution from discrete legacy offerings; the filing does not disclose standalone configuration revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2025

5. Smiths Group PLC - Annual Report & Accounts FY2023
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: Reports FY2022 aviation original-equipment revenue of xx.xx, used as a dimensionless historical capital-cycle proxy. ([www-live.smiths.com](https://www-live.smiths.com/media/phjp1j44/smiths-annual-report-2023.pdf))
   - Evidence informing the 2023 market-value input; displayed series and growth include calculations: Reports FY2023 aviation original-equipment revenue of xx.xx and aftermarket revenue of xx.xx; supports the modeled recovery direction. ([www-live.smiths.com](https://www-live.smiths.com/media/phjp1j44/smiths-annual-report-2023.pdf))
6. Smiths Group PLC - Annual Report FY2022
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: Reports FY2021 aviation revenue of xx.xx, providing a historical purchasing-cycle reference rather than a global observation. ([www-live.smiths.com](https://www-live.smiths.com/media/xjvdpblr/smiths-annual-report-2022-report.pdf))
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: Reports FY2022 aviation revenue of xx.xx and continued weakness in aviation original equipment; supports a delayed capital-spending trough. ([www-live.smiths.com](https://www-live.smiths.com/media/xjvdpblr/smiths-annual-report-2022-report.pdf))
7. Smiths Group PLC - Annual Results for the Year Ended 31 July 2019
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: Reports FY2018 aviation revenue of xx.xx, supplying the historical comparison underlying the backcast. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: Reports FY2019 aviation revenue of xx.xx and customer delivery deferrals, qualifying a traffic-only growth model. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Identifies deliveries deferred into FY2020; supports the possibility of backlog-supported spending despite a contemporaneous traffic shock, not the exact modeled growth rate. ([smiths.com](https://www.smiths.com/media/u4wla1bw/smiths-group-plc-annual-results-2019-press-release.pdf))
8. ACI World - The High-Wire Balancing Act: Global Air Transport Demand in 2018 and 2019
   - Evidence informing the 2017 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers and xx.xx% growth in 2018; the growth observation informs the 2017 backcast bridge. ([blog.aci.aero](https://blog.aci.aero/airport-economics/the-high-wire-balancing-act-global-air-transport-demand-in-2018-and-2019/))
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: Provides the observed 2018 traffic-growth reference, not an equipment-market growth observation. ([blog.aci.aero](https://blog.aci.aero/airport-economics/the-high-wire-balancing-act-global-air-transport-demand-in-2018-and-2019/))
9. ICAO A42-WP/556 - State of the Industry and Outlook for Airport Traffic, Presented by ACI
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: Records the collapse from xx.xx airport passengers in 2019 to xx.xx in 2020; constrains the shock and funding-risk interpretation. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2021, supporting a prolonged funding and activity shock. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2023 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2023; traffic recovery is distinguished from equipment purchasing. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Reports xx.xx airport passengers in 2024, providing a demand recovery cross-check. ([icao.int](https://www.icao.int/sites/default/files/Meetings/a42/Documents/WP/wp_556_en.pdf))

10. Port of Seattle - Baggage Handling System Optimization

- Evidence informing the 2029 market-value input; displayed series and growth include calculations: Seattle plans to consolidate six baggage-screening systems, increase supported passenger capacity, and reduce screening-machine demand. Supports integration spending without one-for-one detector growth. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The consolidation example constrains equipment-volume assumptions; its whole baggage-handling project value is excluded from market sizing. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing the 2040 market-value input; displayed series and growth include calculations: Provides a commercial counterexample to extrapolating passenger growth directly into machine counts throughout the long-range forecast. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Consolidation of six systems with reduced machine demand qualifies a traffic-to-detector-volume forecast. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The consolidation project supports integration-driven conveyor demand, but its whole-project value is excluded. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Brownfield consolidation supports the integration-demand premise, not the forecast's exact service growth factor. ([portseattle.org](https://www.portseattle.org/projects/baggage-handling-system-optimization))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport replaces six separate screening systems with centralized screening and expects reduced screening-machine demand while expanding capacity. This supplies a counterforce to volume-only checked-baggage forecasting.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Seattle is consolidating six screening systems, expects reduced screening-machine demand and schedules final-phase completion in 2029. Supports integration demand while constraining detector-volume growth; the whole-project budget is excluded.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seattle is consolidating six screening systems, expects reduced screening-machine demand and schedules final-phase completion in 2029. Supports integration demand while constraining detector-volume growth; the whole-project budget is excluded.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seattle's project combines increased screening capacity with consolidation from six screening systems and reduced screening-machine demand. This constrains the forecast assumption that capacity growth requires proportional equipment additions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement and capacity objectives coexist within the project. Its wider baggage-handling budget is not treated as screening-equipment revenue or assigned additively to multiple purposes.

11. Smiths Group PLC - Half Year Results for the Six Months Ended 31 January 2026

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Reports xx.xx% organic growth for Smiths Detection in HY2026, with aviation checkpoint upgrades contributing. Supports a positive 2026 nowcast, not a directly observed global growth rate. ([www-live.smiths.com](https://www-live.smiths.com/media/villk35h/smiths-hy26-results-press-release.pdf))

12. ACI EUROPE - 2025 all about traffic resilience as Europe’s airports welcomed an additional 100 million passengers

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published Russian weakness constrains, rather than validates, its working scale.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published Russian weakness constrains, rather than validates, its working scale.

13. CATSA 2025 Annual Report - Notes to the Financial Statements

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx accounts disclose C$xx.xx maintenance/spares and C$xx.xx training/certification, supporting the service-budget calibration but not global baggage-only shares. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx accounts disclose C$xx.xx maintenance/spares and C$xx.xx training/certification, supporting the service-budget calibration but not global baggage-only shares. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintenance and spare parts are combined in the accounts; the labor-versus-goods split therefore remains modeled. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintenance and spare parts are combined in the accounts; the labor-versus-goods split therefore remains modeled. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The C$xx.xx training/certification expense supplies the numerator of the adjusted training-to-capital proxy. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The C$xx.xx training/certification expense supplies the numerator of the adjusted training-to-capital proxy. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: C$xx.xx trace/consumables is distinct from maintenance/spares and supplies the contrary consumables-intensity comparator, not a global observation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: C$xx.xx trace/consumables is distinct from maintenance/spares and supplies the contrary consumables-intensity comparator, not a global observation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately reports C$xx.xx maintenance/spares, C$xx.xx trace/consumables and C$xx.xx training/certification, constraining attributable agency lifecycle expenditure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates screening-contractor payments from equipment support, preventing staffing expenditure from becoming equipment-market purchasing.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately reports C$xx.xx maintenance/spares, C$xx.xx trace/consumables and C$xx.xx training/certification, constraining attributable agency lifecycle expenditure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates screening-contractor payments from equipment support, preventing staffing expenditure from becoming equipment-market purchasing.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited expense disclosure reports C$xx.xx for maintenance and spare parts in the year ended March xx.xx 2025. It constrains support-spending materiality, not the amount attributable to an independent provider. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/notes-financial-statements))

14. CATSA 2025 Annual Report - Management's Discussion and Analysis

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: EDS capital expenditure of C$xx.xx includes equipment and installation/integration and supplies the training-calibration denominator, subject to baggage attribution. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EDS capital expenditure of C$xx.xx includes equipment and installation/integration and supplies the training-calibration denominator, subject to baggage attribution. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The capital definition includes associated installation and integration, supporting the distinction between deployment services and equipment value. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The capital definition includes associated installation and integration, supporting the distinction between deployment services and equipment value. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Actual spending, original budget and reprofile amounts constrain the forecast's purchasing-execution interpretation; they are not a global growth rate. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx pre-board capital appropriations used were C$xx.xx. This supplies the Canadian purchasing comparison and a component of the non-passenger-to-cabin activity proxy, not a global share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx pre-board capital appropriations used were C$xx.xx. This supplies the Canadian purchasing comparison and a component of the non-passenger-to-cabin activity proxy, not a global share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx hold-baggage capital appropriations used were C$xx.xx; this constrains the independent application-capital comparison.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx non-passenger capital appropriations used were C$xx.xx, below the original C$xx.xx budget. Actual purchasing informs the proxy and qualifies automatic announcement-to-revenue conversion.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2024/xx.xx non-passenger capital appropriations used were C$xx.xx, below the original C$xx.xx budget. Actual purchasing informs the proxy and qualifies automatic announcement-to-revenue conversion.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports C$xx.xx EDS capital expenditure for FY2024/xx.xx and identifies both baggage equipment and full-body scanners in the capital scope, requiring a baggage-attribution adjustment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports C$xx.xx EDS capital expenditure for FY2024/xx.xx and identifies both baggage equipment and full-body scanners in the capital scope, requiring a baggage-attribution adjustment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EDS outturn was C$xx.xx versus an original C$xx.xx plan and revised C$xx.xx budget. Reprofiling constrains assumed award conversion and deployment timing; it does not measure procurement-channel mix. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/management-discussion-and-analysis))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The actual capital-project list identifies hold-baggage capacity expansion at Montréal-Trudeau, supporting the expansion classification, not its modeled global revenue weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The actual capital-project list identifies hold-baggage capacity expansion at Montréal-Trudeau, supporting the expansion classification, not its modeled global revenue weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The actual project list includes checkpoint CT deployment and hold-baggage oversize-equipment lifecycle management, supporting renewal activity without disclosing its purpose-specific spending.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The actual project list includes checkpoint CT deployment and hold-baggage oversize-equipment lifecycle management,

15. Aviation security screening approved equipment list
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Baggage EDS/EDSCB and conventional X-ray classes support the inspection-system boundary, not sales weights. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Baggage EDS/EDSCB and conventional X-ray classes support the inspection-system boundary, not sales weights. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Liquid detectors are a distinct cabin-baggage category; the complete bulk-material extension remains modeled within the captured boundary. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Liquid detectors are a distinct cabin-baggage category; the complete bulk-material extension remains modeled within the captured boundary. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ETD serves baggage and other applications, requiring explicit baggage attribution rather than allocating all detector sales here. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ETD serves baggage and other applications, requiring explicit baggage attribution rather than allocating all detector sales here. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dedicated ETD consumables are separately recognized, supporting goods classification without establishing spending or unrestricted interchangeability. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dedicated ETD consumables are separately recognized, supporting goods classification without establishing spending or unrestricted interchangeability. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
16. Quantifying the Impacts of Delayed Maintenance of Airport Assets: A Guide - Chapter 6, Baggage Handling Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The baggage-handling cost study uses a modeled xx.xx% labor share, adopted only as an adjacent support-cost proxy. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The baggage-handling cost study uses a modeled xx.xx% labor share, adopted only as an adjacent support-cost proxy. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Its corresponding modeled xx.xx% parts share calibrates the labor/goods separation; it is not an observed screening-equipment ratio. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Its corresponding modeled xx.xx% parts share calibrates the labor/goods separation; it is not an observed screening-equipment ratio. ([nationalacademies.org](https://www.nationalacademies.org/read/xx.xx/chapter/xx.xx))

17. Procurement of Next Generation Security Checkpoint Equipment - Contract Award Notice

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The seven-system award includes automated tray return, demonstrating bundled purchasing but no separately priced hardware allocation. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The seven-system award includes automated tray return, demonstrating bundled purchasing but no separately priced hardware allocation. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The integrated CT/tray-return scope constrains the automation interface boundary; it does not value general airport conveyors. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The integrated CT/tray-return scope constrains the automation interface boundary; it does not value general airport conveyors. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Central image processing is an explicit purchased function, without a separately disclosed license price. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Central image processing is an explicit purchased function, without a separately disclosed license price. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supply, installation and commissioning are included deliverables, supporting deployment-service attribution without establishing its percentage. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supply, installation and commissioning are included deliverables, supporting deployment-service attribution without establishing its percentage. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2022 award covers seven systems combining cabin CT, tray return, image processing and deployment responsibilities. It supports integrated purchased scope, not completed delivery or a global sales weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2022 award covers seven systems combining cabin CT, tray return, image processing and deployment responsibilities. It supports integrated purchased scope, not completed delivery or a global sales weight.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The integrated Newcastle procurement reports a GBP xx.xx-xx.xx offer range but no physical review-room location; its value cannot be assigned automatically to local review. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The integrated Newcastle procurement reports a GBP xx.xx-xx.xx offer range but no physical review-room location; its value cannot be assigned automatically to local review. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Central image processing is included, but a separate on-site room is not specified; constrains classification rather than supplying a remote-review sales weight. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Central image processing is included, but a separate on-site room is not specified; constrains classification rather than supplying a remote-review sales weight. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The bundled award does not identify a mixed-location package or its attributable price, preventing automatic hybrid classification. ([sell2wales.gov.wales](https://www.sell2wales.gov.wales/search/show/search_view.aspx?ID=NOV417275))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The bundled award does not identify a mixed-location package or its attributable price, preventing automatic hybrid classification.

18. AI for Monitoring Aviation Security: Fraport and German Federal Police Start Regular Operation of APIDS
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: January xx.xx 2026 APIDS deployment demonstrates additional software adoption, without establishing separate revenue. ([fraport.com](https://www.fraport.com/en/newsroom/press-releases/2026/q1/ai-for-monitoring-aviation-security.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Deployment on more than xx.xx CT scanners is the independent quantitative rollout test; it does not validate the modeled license-growth factor. ([fraport.com](https://www.fraport.com/en/newsroom/press-releases/2026/q1/ai-for-monitoring-aviation-security.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: On January xx.xx 2026, Fraport announced regular APIDS software operation on more than xx.xx existing Smiths CT scanners. This independently supports retained-system enhancement at one buyer, not global penetration or realized license revenue.
19. Smiths Detection - Digital Innovation
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier identifies detection applications as a commercial function; separate fee allocation remains assumed. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier identifies detection applications as a commercial function; separate fee allocation remains assumed. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized screening supports the image-review function, not an observed software revenue weight. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized screening supports the image-review function, not an observed software revenue weight. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Connectivity, multi-vendor integration and equipment-health applications establish the fleet-management function without proving customer-specific rights or prices. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Connectivity, multi-vendor integration and equipment-health applications establish the fleet-management function without proving customer-specific rights or prices. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ELECTORA is offered for integrating multi-vendor devices, datasets and applications; establishes the vendor-platform category but discloses no category revenue or customer-specific substitution entitlement. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ELECTORA is offered for integrating multi-vendor devices, datasets and applications; establishes the vendor-platform category but discloses no category revenue or customer-specific substitution entitlement. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
20. UK Civil Aviation Authority - Threat Image Projection (TIP)
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: TIP library approval and renewal obligations support continuing software commitments, not the modeled global fee or share. ([caa.co.uk](https://www.caa.co.uk/commercial-industry/security/training-and-human-factors/threat-image-projection/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: TIP library approval and renewal obligations support continuing software commitments, not the modeled global fee or share. ([caa.co.uk](https://www.caa.co.uk/commercial-industry/security/training-and-human-factors/threat-image-projection/))

21. Smiths Detection - Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Inclusive capital-equipment support covers labor and parts, requiring a single-count economic allocation across services and goods. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Inclusive capital-equipment support covers labor and parts, requiring a single-count economic allocation across services and goods. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Equipment-specific training and certification are commercial offerings distinct from routine screening staffing. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Equipment-specific training and certification are commercial offerings distinct from routine screening staffing. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The parts-support offering and inclusive contracts corroborate the goods boundary, but not the assumed xx.xx% allocation. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The parts-support offering and inclusive contracts corroborate the goods boundary, but not the assumed xx.xx% allocation. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes inclusive labor-and-parts contracts and manufacturer support, supporting nonduplicative lifecycle attribution to projection equipment, not a verified xx.xx% fee. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes inclusive labor-and-parts contracts and manufacturer support, supporting nonduplicative lifecycle attribution to projection equipment, not a verified xx.xx% fee. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports the existence of manufacturer lifecycle offerings; broad service-footprint counts are not used as CT revenue weights.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports the existence of manufacturer lifecycle offerings; broad service-footprint counts are not used as CT revenue weights.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports commercial maintenance, refurbishment and parts offerings for portable equipment without establishing baggage-specific service receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports commercial maintenance, refurbishment and parts offerings for portable equipment without establishing baggage-specific service receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer markets direct on-site support and inclusive capital-equipment labor-and-parts contracts. This supports a continuing manufacturer-service alternative, without measuring a pricing premium. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer markets direct on-site support and inclusive capital-equipment labor-and-parts contracts. This supports a continuing manufacturer-service alternative, without measuring a pricing premium. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Manufacturer-provided bundled support is a commercial alternative to separate technical-service procurement, limiting assumptions of unrestricted third-party substitution. ([smithsdetection.com](https://www.smithsdetection.com/service/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Manufacturer-provided bundled support is a commercial alternative to separate technical-service procurement, limiting assumptions of unrestricted third-party substitution. ([smithsdetection.com](https://www.smithsdetection.com/service/))

22. Hold baggage screening upgrade, Dublin and Cork Airports, Ireland

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate professional-service appointments cover project controls, design oversight and interface management; the broader construction budget is not used as screening-service revenue. ([neccontract.com](https://www.neccontract.com/projects/hold-baggage-screening-upgrade-dublin-and-cork-airports-ireland))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate professional-service appointments cover project controls, design oversight and interface management; the broader construction budget is not used as screening-service revenue. ([neccontract.com](https://www.neccontract.com/projects/hold-baggage-screening-upgrade-dublin-and-cork-airports-ireland))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes three upgraded hold-baggage systems delivered through separate construction, baggage-integration and advisory appointments, completed in March 2023. Supports integrated-system attribution without assuming a universal single-prime model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes three upgraded hold-baggage systems delivered through separate construction, baggage-integration and advisory appointments, completed in March 2023. Supports integrated-system attribution without assuming a universal single-prime model.

23. Corporate Plan 2025-26 to 2029-30 Summary - Financial Overview
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CATSA distinguishes major-checkpoint CT replacement from single-view-to-multiview replacement elsewhere, supporting application-specific projection demand and forecast assumptions. It also discloses capital funding subject to reprofile approval. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/corporate-plan-2025-xx.xx-2029-xx.xx/financial-overview))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CATSA distinguishes major-checkpoint CT replacement from single-view-to-multiview replacement elsewhere, supporting application-specific projection demand and forecast assumptions. It also discloses capital funding subject to reprofile approval. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/corporate-plan-2025-xx.xx-2029-xx.xx/financial-overview))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies single-view equipment as a replacement population, supporting the modeled displacement mechanism rather than an observed global share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies single-view equipment as a replacement population, supporting the modeled displacement mechanism rather than an observed global share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Multiview remains a planned purchasing destination at non-passenger checkpoints and Class xx.xx airports, qualifying universal CT substitution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Multiview remains a planned purchasing destination at non-passenger checkpoints and Class xx.xx airports, qualifying universal CT substitution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CT replacement is a stated major-checkpoint investment priority, subject to funding and delivery risks; this supports direction, not the modeled global share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CT replacement is a stated major-checkpoint investment priority, subject to funding and delivery risks; this supports direction, not the modeled global share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The plan includes additional screening equipment and expansion of existing hold-baggage screening capacity. Its FY2025/xx.xx capital budget is C$xx.xx across mixed activities; plans are not recognized supplier revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The plan includes additional screening equipment and expansion of existing hold-baggage screening capacity. Its FY2025/xx.xx capital budget is C$xx.xx across mixed activities; plans are not recognized supplier revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The plan distinguishes replacement of checkpoint X-ray equipment with CT and asset lifecycle renewal from additional capacity. Funding, partner timing and reprofiling qualify forecast realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The plan distinguishes replacement of checkpoint X-ray equipment with CT and asset lifecycle renewal from additional capacity. Funding, partner timing and reprofiling qualify forecast realization.
24. ECAC CEP Public Equipment List - Explosive Detection Systems, Update 18 April 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 list retains XRD xx.xx supporting the legacy commercial-category premise but not the assumed installed cohort or sales volume. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-EDS-equipment_public_list_update_20250418.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 list retains XRD xx.xx supporting the legacy commercial-category premise but not the assumed installed cohort or sales volume. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-EDS-equipment_public_list_update_20250418.pdf))

25. Partners - HALO X-ray Technologies Ltd

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named airport pilots and approximately USD xx.xx and USD xx.xx development programs establish commercialization activity and program scale, not realized annual XRD equipment revenue. ([haloxray.com](https://www.haloxray.com/partners))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named airport pilots and approximately USD xx.xx and USD xx.xx development programs establish commercialization activity and program scale, not realized annual XRD equipment revenue. ([haloxray.com](https://www.haloxray.com/partners))

26. Explosives Trace Detectors (ETDs): Market Survey Report, November 2021

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Historical IONSCAN xx.xx list-price configurations around USD xx.xx-xx.xx constrain the IMS price class; they do not establish 2025 purchasing volumes or realizations. ([dhs.gov](https://dhs.gov/sites/default/files/2021-xx.xx/SAVER_Explosives%20Trace%20Detectors%20MSR_08Nov2021_Final-xx.xx.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Historical IONSCAN xx.xx list-price configurations around USD xx.xx-xx.xx constrain the IMS price class; they do not establish 2025 purchasing volumes or realizations. ([dhs.gov](https://dhs.gov/sites/default/files/2021-xx.xx/SAVER_Explosives%20Trace%20Detectors%20MSR_08Nov2021_Final-xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The Fido X4 historical USD xx.xx list-price benchmark supports the explicit nominal-price bridge; baggage attribution and unit mix remain modeled.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The Fido X4 historical USD xx.xx list-price benchmark supports the explicit nominal-price bridge; baggage attribution and unit mix remain modeled.

27. Astrotech Corporation - Form 10-K for the Fiscal Year Ended June 30, 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Discloses FY2025 product and service revenue, xx.xx deployment locations, and a six-unit USD xx.xx order. These provide a price comparator and supplier-scale check, not baggage-only revenue. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20250630_10k.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Discloses FY2025 product and service revenue, xx.xx deployment locations, and a six-unit USD xx.xx order. These provide a price comparator and supplier-scale check, not baggage-only revenue. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20250630_10k.htm))

28. Astrotech Corporation - Form 10-K for the Fiscal Year Ended June 30, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports eight TRACER units sold in FY2025 versus three in FY2026, identifies grant-related revenue within FY2025 product revenue, and describes a potential subsidiary sale. These constrain MS attribution and forecast optimism. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20260630_10k.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports eight TRACER units sold in FY2025 versus three in FY2026, identifies grant-related revenue within FY2025 product revenue, and describes a potential subsidiary sale. These constrain MS attribution and forecast optimism. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/astc20260630_10k.htm))

29. Liquid Explosive Detector, Bottle Liquid Scanner, Insight - Agilent

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Raman-based airport resolution products and dated September 2025 launch and May 2026 contract announcements. Supports category continuity and adoption premises, not global unit or revenue shares. ([agilent.com](https://www.agilent.com/en/product/molecular-spectroscopy/raman-spectroscopy/raman-aviation-security-systems/insight-series-alarm-resolution-systems))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Raman-based airport resolution products and dated September 2025 launch and May 2026 contract announcements. Supports category continuity and adoption premises, not global unit or revenue shares. ([agilent.com](https://www.agilent.com/en/product/molecular-spectroscopy/raman-spectroscopy/raman-aviation-security-systems/insight-series-alarm-resolution-systems))

30. Bottle Liquid Scanner for Sale from China - Securina

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Positions microwave-based liquid-screening products for airports and customs. Supports commercial classification only; prices, authorization and purchasing weights remain assumptions. ([securinadetection.com](https://www.securinadetection.com/Bottle-Liquid-Scanner-Manufacturer-China.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Positions microwave-based liquid-screening products for airports and customs. Supports commercial classification only; prices, authorization and purchasing weights remain assumptions. ([securinadetection.com](https://www.securinadetection.com/Bottle-Liquid-Scanner-Manufacturer-China.html))

31. Quick, Accurate Threat-Detection Scanner for Liquid, Aerosol, and Gels Eases and Secures Air Travel Worldwide

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies LS10 as a complete commercial liquid scanner combining RF and ultrasonic capabilities, supporting nonduplicative complete-product attribution. ([battelle.org](https://www.battelle.org/insights/case-studies/case-study-details/quick-accurate-threat-detection-scanner-for-liquid-aerosol-and-gels-eases-and-secures-air-travel-worldwide))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies LS10 as a complete commercial liquid scanner combining RF and ultrasonic capabilities, supporting nonduplicative complete-product attribution. ([battelle.org](https://www.battelle.org/insights/case-studies/case-study-details/quick-accurate-threat-detection-scanner-for-liquid-aerosol-and-gels-eases-and-secures-air-travel-worldwide))

32. ECAC CEP Public Equipment List - Liquid Explosive Detection Systems, Update 10 July 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 list includes One Resonance Sensors MobiLab BLS. This supports retained listed status for a named product, not active supply, paid installed stock or observed receipts. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-LEDS%20equipment%20public%20list-update%xx.xx-xx.xx-rev1.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 list includes One Resonance Sensors MobiLab BLS. This supports retained listed status for a named product, not active supply, paid installed stock or observed receipts. ([ecac-ceac.org](https://www.ecac-ceac.org/images/activities/security/ECAC-CEP-LEDS%20equipment%20public%20list-update%xx.xx-xx.xx-rev1.pdf))

33. MobiLab BLS Bottled Liquid Scanner Endorsed By European Civil Aviation Conference

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's May xx.xx 2014 announcement identifies MobiLab BLS as an NMR-based airport liquid scanner and states that orders were being accepted. Establishes historical commercial offering, not 2025 deliveries. ([prnewswire.com](https://www.prnewswire.com/news-releases/mobilab-bls-bottled-liquid-scanner-endorsed-by-european-civil-aviation-conference-xx.xx.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's May xx.xx 2014 announcement identifies MobiLab BLS as an NMR-based airport liquid scanner and states that orders were being accepted. Establishes historical commercial offering, not 2025 deliveries. ([prnewswire.com](https://www.prnewswire.com/news-releases/mobilab-bls-bottled-liquid-scanner-endorsed-by-european-civil-aviation-conference-xx.xx.html))

34. SafePointe BLS Powered by ORS - Bottled Liquid Explosives Detection Solution

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The branded supplier brochure documents an ORS-powered bottled-liquid product channel. Its availability does not establish current orders or support continuity; it supports only the legacy-channel modeling premise. ([uploads-ssl.webflow.com](https://uploads-ssl.webflow.com/608330bcae48962bf6d7ff37/6149f80be6c30d34b5e3debe_BLS-Flyer-Compressed.pdf))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The branded supplier brochure documents an ORS-powered bottled-liquid product channel. Its availability does not establish current orders or support continuity; it supports only the legacy-channel modeling premise. ([uploads-ssl.webflow.com](https://uploads-ssl.webflow.com/608330bcae48962bf6d7ff37/6149f80be6c30d34b5e3debe_BLS-Flyer-Compressed.pdf))

35. Florida Division of Corporations - One Resonance Sensors, LLC, Entity Detail

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official registry records One Resonance Sensors, LLC as inactive following administrative dissolution on September xx.xx 2019. This counterevidence constrains continuity assumptions but does not prove zero surviving product support. ([search.sunbiz.org](https://search.sunbiz.org/Inquiry/CorporationSearch/SearchResultDetail?aggregateId=flal-l11000122986-c57f60b3-690d-4c87-836a-9aeb045075e8&directionType=CurrentList&inquirytype=EntityName&listNameOrder=ONERESONANCESENSORS+L110001229860&searchNameOrder=ONERESONANCESENSORS+L110001229860&searchTerm=ONE+RED+AMPERSAND+LLC))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official registry records One Resonance Sensors, LLC as inactive following administrative dissolution on September xx.xx 2019. This counterevidence constrains continuity assumptions but does not prove zero surviving product support. ([search.sunbiz.org](https://search.sunbiz.org/Inquiry/CorporationSearch/SearchResultDetail?aggregateId=flal-l11000122986-c57f60b3-690d-4c87-836a-9aeb045075e8&directionType=CurrentList&inquirytype=EntityName&listNameOrder=ONERESONANCESENSORS+L110001229860&searchNameOrder=ONERESONANCESENSORS+L110001229860&searchTerm=ONE+RED+AMPERSAND+LLC))

36. Explosive Detection - Teledyne FLIR Defense

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists offered Fido X-series products and service support, supporting commercial offering continuity only, not airport-specific eligibility or sales weights. ([flir.com](https://www.flir.com/threat-detection/explosives/))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists offered Fido X-series products and service support, supporting commercial offering continuity only, not airport-specific eligibility or sales weights. ([flir.com](https://www.flir.com/threat-detection/explosives/))

37. Scintrex Trace E3500 Explosive Trace Detection Unit - SecurityPro USA

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distributor offers E3500 chemiluminescence equipment and identifies customs/border applications. Supports a commercial category lead, not measured airport purchasing or the assumed price. ([securityprousa.com](https://www.securityprousa.com/collections/explosive-detection/products/scintrex-trace-e3500-explosive-trace-detection-unit))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distributor offers E3500 chemiluminescence equipment and identifies customs/border applications. Supports a commercial category lead, not measured airport purchasing or the assumed price. ([securityprousa.com](https://www.securityprousa.com/collections/explosive-detection/products/scintrex-trace-e3500-explosive-trace-detection-unit))

38. Portable Explosive Detector - Trace Detector EVD-3000+

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The distributor offers EVD-xx.xx+ thermo-redox equipment. Supports offered-product classification, not airport authorization, purchasing volume or the modeled realization. ([securityprousa.com](https://www.securityprousa.com/products/scintrex-trace-evd-xx.xx-portable-trace-detection-unit))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The distributor offers EVD-xx.xx+ thermo-redox equipment. Supports offered-product classification, not airport authorization, purchasing volume or the modeled realization. ([securityprousa.com](https://www.securityprousa.com/products/scintrex-trace-evd-xx.xx-portable-trace-detection-unit))

39. CATSA's Purchase Order Terms and Conditions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contract terms constrain maintenance, parts and consumables escalation, qualifying unrestricted aftermarket pricing assumptions in the projection lifecycle model. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contract terms constrain maintenance, parts and consumables escalation, qualifying unrestricted aftermarket pricing assumptions in the projection lifecycle model. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contractual price limits constrain the pricing premise, but do not verify CT-specific global support receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contractual price limits constrain the pricing premise, but do not verify CT-specific global support receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintenance and consumable escalation limits qualify the trace-platform pricing assumption rather than establishing the modeled IMS share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintenance and consumable escalation limits qualify the trace-platform pricing assumption rather than establishing the modeled IMS share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The pre-existing-software clause grants broad license rights without transferring ownership; proprietary ownership alone therefore cannot establish the Closed revenue numerator. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The pre-existing-software clause grants broad license rights without transferring ownership; proprietary ownership alone therefore cannot establish the Closed revenue numerator. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Software modification rights are not themselves proof of standards-based interfaces or independent component substitution; supports conservative classification. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Software modification rights are not themselves proof of standards-based interfaces or independent component substitution; supports conservative classification. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-purchase-order-terms-and-conditions))

40. Liquids Scanner for Airport Security - UC Davis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2011 account establishes a development contract and licensing relationship. Its development allocation is excluded from 2025 receipts and does not establish a surviving commercial cohort. ([ucdavis.edu](https://www.ucdavis.edu/news/liquids-scanner-airport-security))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2011 account establishes a development contract and licensing relationship. Its development allocation is excluded from 2025 receipts and does not establish a surviving commercial cohort. ([ucdavis.edu](https://www.ucdavis.edu/news/liquids-scanner-airport-security))
41. Open Architecture for Airport Security Systems, Second Edition
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes proprietary integration from interoperable connections, supporting the category boundary rather than an observed revenue share. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes proprietary integration from interoperable connections, supporting the category boundary rather than an observed revenue share. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Integration does not guarantee interoperability; this constrains attribution of vendor-mediated configurations. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Integration does not guarantee interoperability; this constrains attribution of vendor-mediated configurations. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Allows identified partial compliance and discusses accountable integration responsibilities; supports scoped open attribution, not whole-purchase reclassification. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Allows identified partial compliance and discusses accountable integration responsibilities; supports scoped open attribution, not whole-purchase reclassification. ([aci-europe.org](https://aci-europe.org/downloads/resources/Open%20Architecture%20for%20Airport%20Security%20Systems%202nd%20Edition.pdf))

42. CATSA 2025 Annual Report - Overview of Activities

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines across xx.xx airports serving more than xx.xx% of passengers in 2024/xx.xx; provides an independent integration-activity check, not a direct value allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines across xx.xx airports serving more than xx.xx% of passengers in 2024/xx.xx; provides an independent integration-activity check, not a direct value allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported modernized passenger coverage constrains an assumption of universally standalone activity, while leaving commercial architecture and revenue attribution unresolved. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported modernized passenger coverage constrains an assumption of universally standalone activity, while leaving commercial architecture and revenue attribution unresolved. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The annual report identifies enhanced non-passenger requirements and implementation planned from spring 2025. This supports a conditional modernization premise, not the modeled global uptake factor.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2024/xx.xx; provides a Canadian adoption comparator, not a global local-review revenue weight. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2024/xx.xx; provides a Canadian adoption comparator, not a global local-review revenue weight. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies remote screening within CATSA Plus and quantifies deployment; constrains the commercial-adoption premise but does not establish each review room's location. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies remote screening within CATSA Plus and quantifies deployment; constrains the commercial-adoption premise but does not establish each review room's location. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Deployment coverage constrains the addressable network-enabled pool; it does not disclose hybrid contracts or justify the modeled hybrid percentage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Deployment coverage constrains the addressable network-enabled pool; it does not disclose hybrid contracts or justify the modeled hybrid percentage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/2025-annual-report/overview-activities))

43. CATSA - Beyond the Checkpoint, December 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx operational CT machines at eight airports and a modular-line average of xx.xx passengers per hour versus xx.xx for traditional multi-split lines; supports the bounded throughput-to-unit bridge and phased-deployment premise. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/about-us/beyond-checkpoint-2025-december))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx operational CT machines at eight airports and a modular-line average of xx.xx passengers per hour versus xx.xx for traditional multi-split lines; supports the bounded throughput-to-unit bridge and phased-deployment premise. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/about-us/beyond-checkpoint-2025-december))

44. Smiths Detection Delivers Fully Automated International Remote Baggage Screening System Between South Korea and the United States

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2026 disclosure identifies xx.xx software licenses and DICOS V3.xx.xx exchange, and dates operational service to August 2025. Supports commercial standards-based activity and forecast feasibility, not an observed global share or a confirmed 2025 license inventory. ([smithsdetection.com](https://www.smithsdetection.com/press-releases/smiths-detection-delivers-fully-automated-international-remote-baggage-screening-system-between-south-korea-and-the-united-states/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2026 disclosure identifies xx.xx software licenses and DICOS V3.xx.xx exchange, and dates operational service to August 2025. Supports commercial standards-based activity and forecast feasibility, not an observed global share or a confirmed 2025 license inventory. ([smithsdetection.com](https://www.smithsdetection.com/press-releases/smiths-detection-delivers-fully-automated-international-remote-baggage-screening-system-between-south-korea-and-the-united-states/))

45. SeeTrue Marks Milestone with Over 100 X-ray Checkpoint Installations of Advanced AI-Based Threat Detection Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 announcement reports the 100th operational screening lane across airports and other sectors. Provides a limited commercial-adoption scale check; it is neither airport-only nor a census of standards-based entitlements. ([seetrue.ai](https://www.seetrue.ai/seetrue-marks-milestone-with-over-xx.xx-x-ray-checkpoint-installations-of-advanced-ai-based-threat-detection-software/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 announcement reports the 100th operational screening lane across airports and other sectors. Provides a limited commercial-adoption scale check; it is neither airport-only nor a census of standards-based entitlements. ([seetrue.ai](https://www.seetrue.ai/seetrue-marks-milestone-with-over-xx.xx-x-ray-checkpoint-installations-of-advanced-ai-based-threat-detection-software/))

46. Scarabee's Checkpoint Property Screening System to be deployed at DEN

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-lane Denver award combining Scarabee lanes with Smiths scanners. Corroborates a commercial mixed-supplier integration route; an award is not realized annual revenue or proof of unrestricted interoperability. ([daifukuatec.com](https://daifukuatec.com/news/scarabees-checkpoint-property-screening-system-to-be-deployed-at-den))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes a xx.xx-lane Denver award combining Scarabee lanes with Smiths scanners. Corroborates a commercial mixed-supplier integration route; an award is not realized annual revenue or proof of unrestricted interoperability. ([daifukuatec.com](https://daifukuatec.com/news/scarabees-checkpoint-property-screening-system-to-be-deployed-at-den))

47. CATSA Annual Report 2024 - Management's Discussion and Analysis

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx pre-board capital appropriations used of C$xx.xx provide the second period in the non-passenger-to-cabin purchasing comparison.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx non-passenger capital appropriations used of C$xx.xx enter the two-period activity proxy; they do not identify the property-only fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: FY2023/xx.xx non-passenger capital appropriations used of C$xx.xx enter the two-period activity proxy; they do not identify the property-only fraction.

48. Smiths Detection confirm order of 91 advanced scanners for new terminals at Moscow Sheremetyevo International Airport
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The dated airport deployment includes xx.xx entrance baggage systems and xx.xx cabin-checkpoint systems. Their ratio supplies a historical relative-density proxy, subsequently discounted for assumed global coverage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated airport deployment includes xx.xx entrance baggage systems and xx.xx cabin-checkpoint systems. Their ratio supplies a historical relative-density proxy, subsequently discounted for assumed global coverage.
49. Cochin International Airport Selects Smiths Detection's CTX 9800 for Next-Generation Hold Baggage Screening
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2017 deployment identifies xx.xx customs baggage systems alongside four hold-baggage systems. This supports the customs-intensive historical configuration proxy, not current global fleet or revenue observations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2017 deployment identifies xx.xx customs baggage systems alongside four hold-baggage systems. This supports the customs-intensive historical configuration proxy, not current global fleet or revenue observations.
50. CATSA Functions, Programs and Activities
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Hold-baggage activities include equipment purchase, baggage-handling integration and equipment maintenance, supporting the checked-baggage capital and lifecycle boundary.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Hold-baggage activities include equipment purchase, baggage-handling integration and equipment maintenance, supporting the checked-baggage capital and lifecycle boundary.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-passenger screening covers airport workers and their belongings; only attributable property-screening offerings enter this allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-passenger screening covers airport workers and their belongings; only attributable property-screening offerings enter this allocation.
51. Fraport TAV Antalya Airport - About the security control itself
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The airport operator distinguishes terminal-entry security from a subsequent checkpoint. This supports a separate entrance-screening mission while providing no global prevalence or spending share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport operator distinguishes terminal-entry security from a subsequent checkpoint. This supports a separate entrance-screening mission while providing no global prevalence or spending share.
52. EMSD VoiceLink, Issue 79, June 2026 - EMSD Provides Comprehensive Support for Terminal 2 Commissioning
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June 2026 account identifies baggage-and-parcel equipment procurement and installation for the customs authority at Terminal xx.xx. It supports a separate commissioning mission but does not isolate baggage expenditure.
53. GAO-26-107811 - Guam: Considerations for Evaluating Alternative Customs Models and Potential Economic Effects
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The audit identifies two historical airport-customs baggage systems inactive for years and delayed replacement procurement. This challenges conversion of installed stock or acknowledged need directly into annual equipment and support revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The audit identifies two historical airport-customs baggage systems inactive for years and delayed replacement procurement. This challenges conversion of installed stock or acknowledged need directly into annual equipment and support revenue.

54. Bennet, Moran, Van Hollen, Boozman Introduce Bill to Bolster Aviation Safety
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 official release identifies xx.xx U.S. screening lanes, used as agency purchasing-exposure calibration rather than observed annual equipment sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The July xx.xx 2025 official release identifies xx.xx U.S. screening lanes, used as agency purchasing-exposure calibration rather than observed annual equipment sales.
55. Bank of Canada - Annual exchange rates
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual exchange-rate observations support the inherited fiscal-period approximation of xx.xx Canadian dollars per U.S. dollar; this is not a transaction-weighted exchange rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual exchange-rate observations support the inherited fiscal-period approximation of xx.xx Canadian dollars per U.S. dollar; this is not a transaction-weighted exchange rate.
56. Japan’s leading airline revolutionizes check in experience with new Smiths Detection technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The August 2023 announcement identifies JAL as customer for five screening ecosystems and reports xx.xx deployed iLane units across Japan. These are historical commercial-stock anchors, not an airline-only fleet or 2025 sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August 2023 announcement identifies JAL as customer for five screening ecosystems and reports xx.xx deployed iLane units across Japan. These are historical commercial-stock anchors, not an airline-only fleet or 2025 sales observation.
57. Narita International Airport anticipates threats with integrated solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Narita airport as a screening-technology customer and describes xx.xx lane-related installations, qualifying any assumption that the supplier's Japanese installed stock was purchased entirely by airlines.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Narita airport as a screening-technology customer and describes xx.xx lane-related installations, qualifying any assumption that the supplier's Japanese installed stock was purchased entirely by airlines.
58. MLIT - 保安検査の実施主体が変わります！ - June 27, 2025
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement targets transfer of security-screening responsibility from airlines to airport managers, with leading cases targeted in FY2026. Supports a conditional reduction in airline purchasing, not an observed contract-transfer percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transfer direction supports modeled airport-manager purchasing gains. Continued shared financing does not imply equal purchasing shares.
59. ICTS International N.V. - Annual Report for the year ended December 31, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Discloses USD xx.xx company-wide property/equipment purchases and USD xx.xx airport-security revenue in 2025. Supports an asset-light purchasing-intensity proxy; the in-scope fraction and global expansion remain assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Discloses USD xx.xx company-wide property/equipment purchases and USD xx.xx airport-security revenue in 2025. Supports an asset-light purchasing-intensity proxy; the in-scope fraction and global expansion remain assumptions.

60. EU Publications Office - Purchase and maintenance of non-intrusive X-ray inspection equipment for baggage and air cargo volume control
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies Autoridade Tributária e Aduaneira as buyer and reports a 2026 award of EUR xx.xx across four lots for baggage/air-cargo inspection equipment and maintenance. Provides a buyer-role and commercial-scale comparator, not 2025 baggage-only annual expenditure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies Autoridade Tributária e Aduaneira as buyer and reports a 2026 award of EUR xx.xx across four lots for baggage/air-cargo inspection equipment and maintenance. Provides a buyer-role and commercial-scale comparator, not 2025 baggage-only annual expenditure.
61. ACI World - Busiest Airports in the World
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx international airport passenger movements in 2025. Half provides an approximate arrival-movement scale check before transfer exclusions, not a customs examination or equipment-purchasing weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports approximately xx.xx international airport passenger movements in 2025. Half provides an approximate arrival-movement scale check before transfer exclusions, not a customs examination or equipment-purchasing weight.
62. Heathrow announces £2.3bn accelerated investment plan to upgrade the UK's international gateway to growth
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports GBP xx.xx invested in security-lane upgrades during 2024, supporting material airport-directed purchasing. Broader infrastructure obligations and historical timing prevent treating the amount as 2025 in-scope market receipts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports GBP xx.xx invested in security-lane upgrades during 2024, supporting material airport-directed purchasing. Broader infrastructure obligations and historical timing prevent treating the amount as 2025 in-scope market receipts.
63. Fraport Assumes Responsibility for Aviation Security Checks at Frankfurt Airport
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents Fraport's checkpoint-management responsibility from January 2023, six initial CT-equipped lanes and three contracted screening providers. Supports distinguishing an airport commissioning role from regulator oversight and contracted screening labor.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents Fraport's checkpoint-management responsibility from January 2023, six initial CT-equipped lanes and three contracted screening providers. Supports distinguishing an airport commissioning role from regulator oversight and contracted screening labor.
64. Advanced Cabin Baggage Screening - Computed Tomography Implementation Guide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes standalone CT, including equipment-local conveyance, from integrated screening-lane configurations; supports attribution boundaries, not a revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes standalone CT, including equipment-local conveyance, from integrated screening-lane configurations; supports attribution boundaries, not a revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies automated tray-return and automated screening-lane integration as commercially distinct configurations; supports the lane-integrated category definition.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies automated tray-return and automated screening-lane integration as commercially distinct configurations; supports the lane-integrated category definition.

65. GAO-12-266 - Checked Baggage Screening: TSA Has Deployed Optimal Systems at the Majority of TSA-Regulated Airports, but Could Strengthen Cost Estimates

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December 2011 table reports xx.xx standalone EDS alongside xx.xx in-line EDS; this historical machine-count comparator constrains, but does not determine, the current global allocation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December 2011 table reports xx.xx standalone EDS alongside xx.xx in-line EDS; this historical machine-count comparator constrains, but does not determine, the current global allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx in-line EDS across xx.xx in-line systems and distinguishes equipment counts from integrated-system counts; supports the historical configuration bridge.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx in-line EDS across xx.xx in-line systems and distinguishes equipment counts from integrated-system counts; supports the historical configuration bridge.

66. Smiths Detection selected as security technology provider to International Airport Heraklion Crete

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 announcement identifies eight cabin CT scanners and eight automated tray-return systems for Heraklion, with installation planned across late 2025 and mid-2026; supports ongoing integrated procurement, not realized annual revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 announcement identifies eight cabin CT scanners and eight automated tray-return systems for Heraklion, with installation planned across late 2025 and mid-2026; supports ongoing integrated procurement, not realized annual revenue.

67. Centralised Image Processing: The Impact on Security Checkpoints

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes checkpoint-local image review from separate-room arrangements; supports retaining networked local activity rather than automatically assigning it to remote review. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes checkpoint-local image review from separate-room arrangements; supports retaining networked local activity rather than automatically assigning it to remote review. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes separate screening rooms and established remote hold-baggage review at larger airports; supports the cohort-maturity premise, not a numerical global share. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes separate screening rooms and established remote hold-baggage review at larger airports; supports the cohort-maturity premise, not a numerical global share. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes combined checkpoint and remote-room arrangements, establishing a mixed-location commercial configuration without measuring its prevalence or price. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes combined checkpoint and remote-room arrangements, establishing a mixed-location commercial configuration without measuring its prevalence or price. ([casra.ch](https://casra.ch/wp-content/uploads/2021/xx.xx/Kuhn-2017.-Centralised-image-processing.pdf))

68. Annual Report 2024 - CATSA's Operating Environment

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2023/xx.xx providing the historical comparison rather than a global location allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CATSA Plus lines and more than xx.xx% passenger coverage in 2023/xx.xx providing the historical comparison rather than a global location allocation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Together with the subsequent annual report, supports a seven-line deployment increase without a corresponding increase in reported passenger coverage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Together with the subsequent annual report, supports a seven-line deployment increase without a corresponding increase in reported passenger coverage. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provides a historical network-enabled deployment anchor, while leaving the physical mixed-location contract share unmeasured. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provides a historical network-enabled deployment anchor, while leaving the physical mixed-location contract share unmeasured. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/catsa-s-operating-environment))

69. L22020-T-TG Upgrades to the Passenger Search Area, body scanners, EDS C3 cabin baggage screening - Contract Award Notice

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2023 Luton award expressly includes construction of a remote screening room at the airport terminal, supporting separate-room commercial procurement. Its broader scope is not treated as baggage-only annual revenue. ([find-tender.service.gov.uk](https://www.find-tender.service.gov.uk/Notice/xx.xx-2023))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2023 Luton award expressly includes construction of a remote screening room at the airport terminal, supporting separate-room commercial procurement. Its broader scope is not treated as baggage-only annual revenue. ([find-tender.service.gov.uk](https://www.find-tender.service.gov.uk/Notice/xx.xx-2023))

70. Greater Orlando Aviation Authority - Minutes of the February 19, 2025 Meeting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Authorizes up to USD xx.xx for baggage-system and Remote Screening Facility network/server separation. Half this ceiling is an explicitly assumed deployment-cost comparator, not observed off-site receipts. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Authorizes up to USD xx.xx for baggage-system and Remote Screening Facility network/server separation. Half this ceiling is an explicitly assumed deployment-cost comparator, not observed off-site receipts. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provides the commercial networking-cost anchor for the modeled transfer from existing on-site pools, avoiding additional market value or duplicate host-equipment attribution. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provides the commercial networking-cost anchor for the modeled transfer from existing on-site pools, avoiding additional market value or duplicate host-equipment attribution. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/6BCjKImOwJmeZxqtGVdpYR/1e2d759a2c44b5b6d71193cb9927ec75/2025-xx.xx-19_Board_Minutes.pdf))

71. American and U.S. Customs and Border Protection pilot innovative baggage screening initiative

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: American's April xx.xx 2025 announcement identifies a daily Sydney-Los Angeles IRBS pilot and unchanged screening requirements. It anchors one sampled connection and an assumed partial-year licensing period, not disclosed revenue. ([s202.q4cdn.com](https://s202.q4cdn.com/xx.xx/files/doc_news/American-and-US-Customs-and-Border-Protection-pilot-innovative-baggage-screening-initiative-OPS-OTH-xx.xx-2025.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: American's April xx.xx 2025 announcement identifies a daily Sydney-Los Angeles IRBS pilot and unchanged screening requirements. It anchors one sampled connection and an assumed partial-year licensing period, not disclosed revenue. ([s202.q4cdn.com](https://s202.q4cdn.com/xx.xx/files/doc_news/American-and-US-Customs-and-Border-Protection-pilot-innovative-baggage-screening-initiative-OPS-OTH-xx.xx-2025.pdf))

72. 델타항공-대한항공, 인천발 애틀랜타 노선 대상 위탁수하물 원격 검색 방식 신규 도입

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2025 announcement identifies the Incheon-Atlanta IRBS arrangement, anchoring a second sampled connection and a partial-year commercial-activity assumption without establishing contract value. ([news.delta.com](https://news.delta.com/delta-and-koreanair-launch-remote-baggage-screening-on-icn-atl-KR))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2025 announcement identifies the Incheon-Atlanta IRBS arrangement, anchoring a second sampled connection and a partial-year commercial-activity assumption without establishing contract value. ([news.delta.com](https://news.delta.com/delta-and-koreanair-launch-remote-baggage-screening-on-icn-atl-KR))

73. United Launches CBP's International Remote Baggage Screening on Select International Flights

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: United's September xx.xx 2025 announcement identifies daily Sydney-San Francisco service and named technology partners, anchoring a third sampled connection. It reports no attributable software or integration receipts. ([united.mediaroom.com](https://united.mediaroom.com/2025-xx.xx-xx.xx-United-Launches-CBPs-International-Remote-Baggage-Screening-on-Select-International-Flights))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: United's September xx.xx 2025 announcement identifies daily Sydney-San Francisco service and named technology partners, anchoring a third sampled connection. It reports no attributable software or integration receipts. ([united.mediaroom.com](https://united.mediaroom.com/2025-xx.xx-xx.xx-United-Launches-CBPs-International-Remote-Baggage-Screening-on-Select-International-Flights))

74. Airline Passengers Face Fewer Bag Checkpoints, Thanks to PNNL, Partners

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2026 laboratory release describes implementation on additional routes, including Seoul arrivals at Minneapolis-St. Paul and Detroit. This supports expansion direction, not the forecast connection count, realization or global share. ([pnnl.gov](https://www.pnnl.gov/news-media/airline-passengers-face-fewer-bag-checkpoints-thanks-pnnl-partners))

75. TSA awards $781.2 million to procure additional CT X-Ray scanners for airport checkpoints

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2022 announcement identifies up to USD xx.xx for procurement and maintenance of up to xx.xx systems from an OEM. This is a historical procurement-scale anchor, not annual 2025 direct-channel revenue. ([content.govdelivery.com](https://content.govdelivery.com/accounts/USDHSTSA/bulletins/30f6e5f))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The award includes full-size automated lanes, cautioning against assigning all automation value to non-OEM integration primes; exact contractual-role attribution is not disclosed. ([content.govdelivery.com](https://content.govdelivery.com/accounts/USDHSTSA/bulletins/30f6e5f))

76. OSI Systems, Inc. - Form 10-K for the fiscal year ended June 30, 2026

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing describes regional direct security-product sales and direct maintenance relationships. Its broader security scope supports route coexistence, not baggage-only sales weights. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing describes regional direct security-product sales and direct maintenance relationships. Its broader security scope supports route coexistence, not baggage-only sales weights. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company identifies a global independent-distributor network, supporting a continuing indirect route without quantifying its value share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company identifies a global independent-distributor network, supporting a continuing indirect route without quantifying its value share. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Authorized service providers are identified separately from distributors, supporting distinct technical-service attribution and access limitations. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Authorized service providers are identified separately from distributors, supporting distinct technical-service attribution and access limitations. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))

77. SriLankan Airlines - Invitation for Supply, Installation, Commissioning and Maintenance of Dual View Heavy and Medium X-Ray Machines, Reference 202130407

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 purchaser invitation permits an OEM or authorized OEM agent and requires authorization for the latter. It establishes equipment-channel eligibility, not an award or software-resale right. ([srilankan.com](https://www.srilankan.com/download/tender/TN-Invitationforsubmiss-xx.xx.pdf))

78. JFK Millennium Partners Selects K2 to Deliver State-of-the-Art Security Screening Checkpoint at new JFK Terminal 6

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment assigns procurement and deployment coordination across multiple technology suppliers at a future ten-gate terminal. It supports integration-prime participation and a forecast mechanism, not a disclosed share or completed 2025 revenue. ([portauthoritybuilds.com](https://www.portauthoritybuilds.com/redevelopment/us/en/jfk/planned-projects/terminal-xx.xx/news/jfk-millennium-partners-selects-k2-to-deliver-state-of-the-art-s.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment assigns procurement and deployment coordination across multiple technology suppliers at a future ten-gate terminal. It supports integration-prime participation and a forecast mechanism, not a disclosed share or completed 2025 revenue. ([portauthoritybuilds.com](https://www.portauthoritybuilds.com/redevelopment/us/en/jfk/planned-projects/terminal-xx.xx/news/jfk-millennium-partners-selects-k2-to-deliver-state-of-the-art-s.html))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment covers baggage CT and automated bin-return equipment for a future xx.xx-gate terminal, with phased opening planned for 2026-2028. It establishes new-installation activity, not attributable 2025 receipts; wider airport investment and person-only technologies are excluded.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2025 appointment covers baggage CT and automated bin-return equipment for a future xx.xx-gate terminal, with phased opening planned for 2026-2028. It establishes new-installation activity, not attributable 2025 receipts; wider airport investment and person-only technologies are excluded.

79. CATSA Corporate Plan 2024-25 to 2028-29 Summary - Key Corporate Risks

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The authority reports transferring maintenance of most screening equipment to KPrime in 2023/xx.xx. This establishes a separately contracted maintenance relationship, without a baggage-only payment split. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/key-corporate-risks))

80. Leidos wins TSA logistics contract

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 announcement describes an eight-year, USD xx.xx maximum sustainment contract covering xx.xx equipment units at over xx.xx locations with manufacturer coordination. Annualization and baggage/third-party attribution in the model are explicit assumptions. ([leidos.com](https://www.leidos.com/insights/leidos-wins-tsa-logistics-contract))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 announcement describes an eight-year, USD xx.xx maximum sustainment contract covering xx.xx equipment units at over xx.xx locations with manufacturer coordination. Annualization and baggage/third-party attribution in the model are explicit assumptions. ([leidos.com](https://www.leidos.com/insights/leidos-wins-tsa-logistics-contract))

81. Checkpoint Transformation: Malta International Airport Streamlines Passenger Flow with Smiths Detection
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Seven conventional automated lanes were replaced by six CT-equipped lanes, with final commissioning in January 2025. This is a counterexample to equating capacity improvement with net additional equipment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Seven conventional automated lanes were replaced by six CT-equipped lanes, with final commissioning in January 2025. This is a counterexample to equating capacity improvement with net additional equipment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The complete checkpoint replacement illustrates why an offering described commercially as an upgrade can belong to System Replacement. The seven-year service commitment is not counted wholly as installation-year revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The complete checkpoint replacement illustrates why an offering described commercially as an upgrade can belong to System Replacement. The seven-year service commitment is not counted wholly as installation-year revenue.
82. iCMORE - Smiths Detection
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current commercial offering describes a software-upgrade path while qualifying additional hardware requirements by machine type and age. This constrains forecast eligibility assumptions; product availability does not measure adoption or revenue.

19. Competitive Landscape

19.1. Market Share Analysis, 2025

[illegible] ECAC evaluation does not itself settle national deployment approval, and the UK's conventional X-ray exception shows why the access boundary differs by product category. New entrants should pursue the application and contracting role they can substantiate rather than present every airport-security capability as a replacement for an incumbent baggage system.

[illegible] Nimrod Engineering Pte. Ltd. still requires a named offered configuration and current appointment; AERO Corporation Co Limited requires confirmation of its continuing supplier and support relationship; and IPS Securex Holdings Limited requires renewed baggage-specific distribution and airport-contract evidence before its historical portfolio can establish an executable alternative.

Mexico provides a useful contrast between advertised representation and buyer-documented selection. SEGMAN S.A. [illegible]

[illegible] LTDA.'s Ecuador aviation-authority record is historical

and does not establish continuing appointment. Buyers should require country-, product- and site-specific backing before substituting a regional counterparty.

[illegible] A rental or support-led route can suit a temporary or retained-equipment requirement, but its attractiveness depends on the actual equipment, acceptance, continuity and termination obligations. These broad descriptions do not establish identical airport service coverage.

Middle Eastern channel portfolios should be compared by the originating product and the obligations accepted locally. Arabian Business Machines offers Rapiscan baggage and hold-baggage equipment; Qatar Security Systems Company advertises Smiths Detection distribution and integration; Al Fajer Trading L.L.[illegible]

Newly documented regional propositions add sourcing choices without establishing airport adoption. [illegible] A local partnership route is preferable to direct entry only where it contributes enforceable access and delivery obligations that the entrant cannot otherwise provide.

European alternatives include both product channels and integration businesses. HTDS offers Rapiscan RTT110 with hold-baggage planning and integration assistance. [illegible]

[illegible]

Southern African offers demonstrate different equipment-ownership and service routes. HISSCO International describes an airport equipment-and-maintenance lease relationship, HAB International presents a Rapiscan dealer proposition, Parnis Airport Services describes hold-baggage engineering and maintenance experience, and ATL-SA advertises hand- and hold-baggage technology services. [illegible]

In Ghana, Westminster Group Plc identifies AWLS Ghana Limited as an equipment-supply and maintenance contact, supporting a local route without establishing equity ownership or an individual airport award. [illegible] Local presence can facilitate coordination, but it is not a substitute for the relevant appointment and support commitment.

[illegible] Codexpro publishes a Smiths Detection hand-baggage product in Morocco, but the applicable appointment and current airport contract remain to be confirmed. A supplier seeking a regional partner should assess the precise technology, territory and continuing obligations rather than extrapolate a historical airport program into unrestricted current access.

[illegible] For Securex Agencies (K) Limited, KGT Kenya Limited, Achelis Kenya Limited, Radworks Trading Limited, Magenta (K) Ltd and Circuit Business Systems Limited, the unresolved distinction is the executed equipment-and-support responsibility beyond bidding or joint-bid participation. Buyers should establish the contracting entity, manufacturer backing and allocation within any consortium before using those relationships as evidence of a delivered alternative.

[illegible]

■■■■■■■■■■■■ The relevant comparison is the proposed software license and scanner-support arrangement, not the distributor's wider equipment catalog. A separately sourced application can preserve an installed equipment choice, but only where the customer obtains the necessary interface rights, continuing updates and accepted allocation of change responsibility.

Figure 32. Global Airport Baggage Screening Systems Market Share, by Key Player, 2025

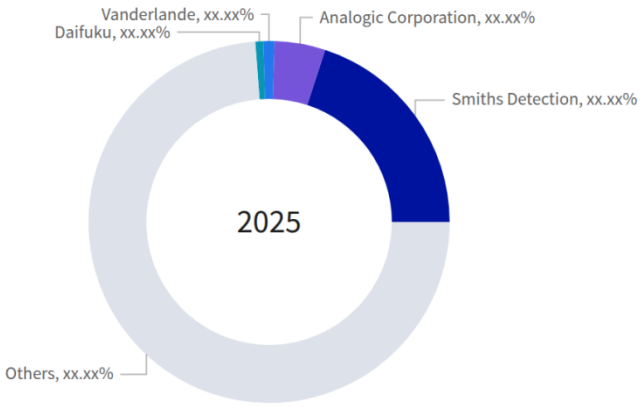

Table 660. Global Airport Baggage Screening Systems Market Share, by Key Player, 2025

Key Player	Share (%)
Agilent Technologies	xx.xx
Alstef Group	xx.xx
Analogic Corporation	xx.xx
Astrophysics Inc.	xx.xx
Brock Solutions	xx.xx
Bruker	xx.xx
Cassioli	xx.xx
Daifuku	xx.xx
K'(Prime) Technologies Inc.	xx.xx
K2 Security Screening Group	xx.xx
SeeTrue	xx.xx
Smiths Detection	xx.xx
SureScan Corporation	xx.xx
Vanderlande	xx.xx
Westminster Group Plc	xx.xx
Others	xx.xx

Sources & Evidence

1. ECAC Common Evaluation Process (CEP) of security equipment
   · ECAC distinguishes configuration evaluation from national equipment approval. ([ecac-ceac.org](https://ecac-ceac.org/activities/security/common-evaluation-process-cep-of-security-equipment))
2. Aviation security screening approved equipment list
   · UK guidance distinguishes approved categories and states that conventional X-ray equipment needs no specific departmental approval. ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
3. SEGMAN S.A. DE C.V. - Smiths Detection
   · SEGMAN advertises Smiths Detection equipment and support; exclusivity is its own representation. ([segman.com](https://segman.com/smithsdetection.html))
4. CT X-ray Machine & SmartLane by SureScan | EBISTRADE
   · EBISTRADE advertises SureScan baggage and checkpoint products as a commercial channel. ([ebistrade.com](https://ebistrade.com/en/solution/security/ct-x-ray-inspection))
5. X 線検査装置 Rapiscan | 全日空商事株式会社
   · ALL NIPPON AIRWAYS TRADING markets Rapiscan equipment with installation and maintenance support. ([anatc.com](https://www.anatc.com/security/))
6. Airport Support Business | JAPAN AEROSPACE
   · JAPAN AEROSPACE presents MV3D, ClearScan and ProPassage with airport support services. ([j-aero.co.jp](https://www.j-aero.co.jp/en/divisions/technical.html))
7. SeeTrue | Paradym
   · Paradym advertises SeeTrue representation and support across Australia, New Zealand and the Pacific. ([paradym.co](https://paradym.co/seetrue/))
8. Mexico City Airport - Award Notice LA-09-KDN-009KDN001-T-31-2024
   · Mexico City's official notice identifies SEGTEC in the May xx.xx 2024 mixed security-equipment award, not completed commissioning. ([sidof.segob.gob.mx](https://sidof.segob.gob.mx/notas/docFuente/xx.xx))
9. Equipos Especializados | CODISEI
   · CODISEI catalogs named baggage scanners without establishing an airport installation. ([codisei.com.mx](https://codisei.com.mx/productos/equipos-especializados/))
10. X-Ray Scanners | Visiontec Systems
    · Visiontec's catalog spans parcel and cargo scanners rather than establishing a specific passenger-property airport offer. ([visiontecsystems.com](https://visiontecsystems.com/product-category/threat-identification/x-ray-scanners/))
11. Equipaje de Mano | Hemiscan
    · Hemiscan lists Rapiscan checkpoint equipment in its cabin-baggage catalog. ([hemiscan.cl](https://www.hemiscan.cl/aeroportuarias-equipaje-mano))
12. EDS CT | Unlimited Systems
    · Unlimited Systems advertises Rapiscan RTT110 in its hold-baggage portfolio. ([unlimited-systems.com](https://www.unlimited-systems.com/edsct))
13. Sistemas de Rayos X | Dainippon
    · Dainippon publishes a Smiths Detection X-ray equipment catalog. ([dainippon.com.ar](https://www.dainippon.com.ar/index.php/productos/sistemas-de-rayos-x))
14. Línea Smiths Detection | Detecta
    · Detecta publishes Smiths Detection inspection products; the catalog does not establish current appointment terms. ([detectacorp.com](https://www.detectacorp.com/linea-smiths-detection))
15. Security Screening | Caribe Service
    · Caribe Service advertises Rapiscan-related airport screening installation, maintenance and spares. ([caribeserviceinc.com](https://www.caribeserviceinc.com/security-screening))

16. Nosotros / About | RexSecurity
    - RexSecurity describes a RexCargo security-division origin and Rapiscan distribution and local support. ([rexsecurity.com](https://www.rexsecurity.com/about.html))
17. Resolución DGAC-YA-2018-0201-R
    - Ecuador's December xx.xx 2018 aviation-authority record documents ELECTROCOMREP's historical equipment-maintenance relationship. ([aviacioncivil.gob.ec](https://www.aviacioncivil.gob.ec/wp-content/uploads/downloads/2019/xx.xx/DGAC-YA-2018-xx.xx-R.pdf))
18. Aeroportos | Aerotech do Brasil
    - Aerotech advertises airport equipment sales, rental, maintenance and training services. ([aerotechdobrasil.com.br](https://www.aerotechdobrasil.com.br/aeroportos/))
19. Servicios | Setronix Rayos X
    - Setronix advertises baggage-inspection sales, maintenance and rental arrangements. ([setronixrayosx.com](https://www.setronixrayosx.com/servicios/))
20. Historia y Trayectoria | AMD Import Uruguay
    - AMD Import describes Uruguayan equipment representation and after-sales activity, including airport operators among customers. ([amdimport.com](https://amdimport.com/historia.html))
21. Mitmir - Security Equipment and Services
    - Mitmir presents Smiths Detection-related security equipment and service activity. ([mitmir.com.uy](https://www.mitmir.com.uy/))
22. Segurança & Inspeção com Raio X | TechScan
    - TechScan advertises X-ray inspection with installation, maintenance, rental and training services. ([techscan.com.br](https://techscan.com.br/solucoes/seguranca-e-inspecao-com-raio-x/))
23. Soluções | Ground Security Systems
    - Ground Security Systems advertises airport X-ray inspection without identifying an originating manufacturer. ([groundsecurity.com.br](https://groundsecurity.com.br/solucoes/))
24. Servicios | ProXcan
    - ProXcan advertises equipment supply and integrated inspection for airport luggage and customs applications. ([proxcan.com](https://www.proxcan.com/servicios.html))
25. Baggage Scanning | Arabian Business Machines
    - Arabian Business Machines offers Rapiscan baggage and hold-baggage screening equipment. ([abmsate.com.sa](https://abmsate.com.sa/products/baggage-scanning/))
26. Detection & Screening | Qatar Security Systems Company
    - Qatar Security Systems advertises Smiths Detection distribution and integration; exclusivity remains a supplier assertion. ([qss.qa](https://www.qss.qa/detection-screening/))
27. Security Screening | Al Fajer Trading
    - Al Fajer advertises baggage-screening equipment and an Astrophysics-related distribution and service proposition. ([fajerest.com](https://fajerest.com/security-screening/))
28. Security and Enforcement | Intercol
    - Intercol presents Rapiscan equipment in its security and enforcement business. ([intercol.com](https://www.intercol.com/Verticals/Technology/SecurityandEnforcement/ArticleHeaderContent.aspx))
29. X-ray & Scanners | HBA System Integrators
    - HBA advertises airport baggage-screening integration expertise without establishing a particular airport work package. ([hba.co.il](https://www.hba.co.il/untitled))
30. Projects Division | Rajab & Silsilah
    - Rajab & Silsilah describes airport projects and equipment integration and maintenance activities. ([rajabandsilsilah.com](https://rajabandsilsilah.com/company-divisions/projects-division/))

31. Checkpoint Inspection | The Integrated Systems
    - The Integrated Systems publishes a checkpoint-inspection proposition without establishing a named airport contract. ([tis.ae](https://www.tis.ae/checkpoint-inspection))
32. Solutions | Arempa
    - Arempa's catalog includes baggage, hold-baggage and tray-return offerings; exact appointment and work-package terms remain unresolved. ([arempa.com](https://arempa.com/solutions/))
33. X-Ray Security Scanner Solutions
    - Security Solutions Experts' site advertises field maintenance, parts and project support, not unrestricted manufacturer access. ([x-raysolutions.com](https://www.x-raysolutions.com/solutions))
34. Leidos and Saudi Arabia's National Security Services Screening Cooperation
    - The May xx.xx 2025 release describes SAFE's memorandum with Leidos as a cooperation framework for Saudi screening and localized services. ([investors.leidos.com](https://investors.leidos.com/node/xx.xx/pdf))
35. X-Ray Baggage Scanner Supplier in UAE | Bharti Technologies
    - Bharti advertises sourced baggage scanners, installation, training and after-sales support in the UAE. ([bhartitec.ae](https://www.bhartitec.ae/detector/xray-baggage-scanner/))
36. About Tuwaiq Technology
    - Tuwaiq advertises baggage-screening and lifecycle services for Saudi Arabia and the GCC without naming an accepted airport deployment. ([tuwaiqtechnology.com](https://tuwaiqtechnology.com/about-us/))
37. Critical Infrastructure Protection | ZiraTrade LLC
    - ZiraTrade advertises airport-oriented prime integration and lifecycle support without substantiating a named airport award on this page. ([ziratrade.com](https://www.ziratrade.com/infrastructure-protection.html))
38. Hold Baggage Screening | HTDS
    - HTDS offers Rapiscan RTT110 with hold-baggage planning and integration assistance. ([htds.fr](https://www.htds.fr/en/security/applications/hold-baggage-screening/))
39. Hold Baggage Screening | EAS Envimet
    - EAS Envimet lists eXaminer hold-baggage products; the catalog does not settle successor appointment or contract continuity. ([envimet.com](https://www.envimet.com/en/security/baggage-screening/))
40. Baggage & Parcel Screening | Detectnology
    - Detectnology advertises Gilardoni baggage equipment and supply, support and maintenance services. ([detectnology.co.uk](https://detectnology.co.uk/baggage-parcel-screening))
41. Our Services | Visiom
    - Visiom describes screening engineering, installation and maintenance services. ([visiom.com](https://www.visiom.com/en/our-group/our-services/))
42. Airports | Danlex
    - Danlex advertises cabin- and hold-baggage solutions and names technology partners. ([danlex.bg](https://www.danlex.bg/airports/))
43. Airport & Aviation Security Solutions | unival group
    - unival group advertises an integrated airport and aviation-security proposition. ([unival-group.com](https://unival-group.com/en/solutions/airports-and-aviation-security))
44. New Security Screening Systems for Rzeszów Airport | Dimark
    - Dimark identifies a Rzeszów airport screening consortium with ANGLOSEC without separating their individual contractual duties. ([dimark.eu](https://dimark.eu/new-security-screening-systems-for-rzeszow-airport/))
45. Trace Detectors and X-Ray Equipment Lease for a South African Airport | HISSCO
    - HISSCO describes an airport equipment lease with maintenance; the record does not establish present site coverage. ([hisscoint.com](https://www.hisscoint.com/trace-detectors-xx.xx-year-lease-of-x-ray-equipment-set-for-south-african-airport/))
46. About Us | HAB International
    - HAB presents a Southern African Rapiscan dealer proposition. ([hab.co.za](https://www.hab.co.za/about-us/))

47. About Us | Parnis Airport Services
· Parnis describes airport engineering and hold-baggage screening maintenance experience. ([parnis.co.za](https://www.parnis.co.za/about-us/))
48. Services | ATL-SA
· ATL-SA advertises hand- and hold-baggage screening technology services. ([atl-sa.com](https://www.atl-sa.com/services))
49. Ghana | Westminster Group
· Westminster lists AWLS Ghana as an equipment-supply, installation and maintenance contact, not an equity-ownership disclosure. ([wg-plc.com](https://www.wg-plc.com/ghana))
50. Products | Modern Digital Electronics Limited
· Modern Digital Electronics publishes screening-equipment offerings. ([mdegh.com](https://mdegh.com/products/))
51. X-Ray Luggage Baggage Scanner | Hiphen Solutions
· Hiphen advertises baggage scanners for intended airport applications, not a named completed airport installation. ([hiphensolutions.com](https://hiphensolutions.com/x-ray-luggage-baggage-scanner/))
52. Our Services | Westport Security Nigeria Limited
· Westport describes equipment supply alongside aviation-security operations, requiring separation of technical supply from labor. ([westportng.com](https://westportng.com/services))
53. Egyptian Ministry of Defence Chooses Smiths Detection Aviation Security Systems
· Smiths Detection's 2016 Egyptian airport announcement identifies Falcon Group and ITI in different commercial roles. ([smithsdetection.com](https://www.smithsdetection.com/press-releases/egyptian-ministry-defence-chooses-smiths-detection-provide-advanced-aviation-security-systems/))
54. HI-SCAN 6040-2is | Codexpro
· Codexpro publishes a Smiths Detection hand-baggage product offering. ([codexpro.ma](https://codexpro.ma/produit/hi-scan-xx.xx-2is/))
55. Public Procurement Administrative Review Board - Application 53/2025
· Application xx.xx/2025 records Blits Proof's procurement review and remedy, not installation acceptance. ([ppra.go.ke](https://ppra.go.ke/?mdocs-file=xx.xx))
56. EyeFox by Neural Guard | Point Security
· Point Security lists NeuralGuard's EyeFox as a commercial software-channel offering. ([pointsecurityinc.com](https://pointsecurityinc.com/eyefox-by-neural-guard/))
57. Equipment / Material Procurement and Supply | Multi-net Group
· Multi-net's general procurement-and-supply description does not establish a separable baggage-screening offer or airport delivery. ([multinetnigeria.com](https://www.multinetnigeria.com/PROCUREMENT.php))
58. SureScan Celebrates 100th x1000 Explosive Detection System (EDS)
· Evidence informing base-year company-share estimates: The April xx.xx 2025 announcement identifies SureScan's 100th x1000 and its intended Bergen Airport destination. This supplies a cumulative commercial-cohort anchor, not xx.xx annual sales or a verified active fleet.
59. SureScan Celebrates a Year of Innovation, Expansion, and Milestone Achievements
· Evidence informing base-year company-share estimates: The December xx.xx 2025 review reports delivery of the 100th x1000 and identifies continuing checkpoint and automation activity.
· Evidence informing base-year company-share estimates: The same review still describes the Las Vegas deployment as being planned, qualifying recognition of the earlier xx.xx-system selection as completed 2025 equipment receipts.

60. SureScan Expands Airport Security Portfolio with Acquisition of WO Airport Interior A/S
    - Evidence informing base-year company-share estimates: The April 2025 acquisition announcement establishes WO Airport Interior's addition to SureScan's automation portfolio, supporting partial-year group attribution rather than full-year consolidation.
    - Evidence informing base-year company-share estimates: The announcement does not disclose acquired-business revenue, annual lane sales or intra-group eliminations; those model inputs remain assumptions.
61. Smiths Group PLC - Full Year Results for the 12 Months Ended 31 July 2025
    - Evidence informing base-year company-share estimates: FY2025 aviation original-equipment revenue of GBP xx.xx and aftermarket revenue of GBP xx.xx anchor the modeled baggage-scope and final-customer adjustments.
62. Smiths Group PLC - Half Year Results for the Six Months Ended 31 January 2026
    - Evidence informing base-year company-share estimates: HY2026 and HY2025 aviation equipment and aftermarket amounts support the approximate five-month calendar-year revenue bridge, not directly observed calendar-2025 receipts.
63. Bank of Canada - Annual Exchange Rates
    - Evidence informing base-year company-share estimates: 2025 annual averages of CAD xx.xx per GBP and CAD xx.xx per USD provide the cross-currency conversion used for the modeled numerator.
    - Evidence informing base-year company-share estimates: Provides the 2025 averages of xx.xx CAD/EUR and xx.xx CAD/USD used to convert the modeled euro numerator.
    - Evidence informing base-year company-share estimates: Provides the calendar-2025 average of xx.xx CAD/USD used to convert attributed Canadian-dollar service and parts receipts.
    - Evidence informing base-year company-share estimates: Provides xx.xx CAD/JPY and xx.xx CAD/USD for the broader airport-segment financial scale check, not as a substitute company-share denominator.
64. Analogic ConneCT Brochure - Version June 22, 2026
    - Evidence informing base-year company-share estimates: The June xx.xx 2026 brochure identifies more than xx.xx awarded TSA checkpoint lanes and distinguishes historical OEM activity from direct sales and service. The award cohort constrains a modeled scale but does not establish 2025 deliveries.
65. Analogic and Leidos Complete Combination of Security Enterprise Solutions Businesses
    - Evidence informing base-year company-share estimates: The combination with the specified Leidos businesses closed on October xx.xx 2026, supporting exclusion of acquired Leidos activity from the modeled historical 2025 Analogic numerator.
66. Astrophysics Inc. - X-Ray Machines and Security Scanning Systems
    - Evidence informing base-year company-share estimates: The company's reported cumulative footprint exceeds xx.xx systems across several markets. The model explicitly discounts that footprint for period, survival, airport scope and final-customer capture rather than treating it as annual airport sales.
67. Astrophysics Inc. - Aviation Security
    - Evidence informing base-year company-share estimates: The aviation portfolio distinguishes passenger checkpoint, hold-baggage and cargo scanners, supporting exclusion of cargo-only activity from the modeled baggage footprint.
68. Flughäfen - Vanderlande
    - Evidence informing base-year company-share estimates: Reports more than xx.xx airport references and more than xx.xx checkpoint lanes, supplying commercial footprint anchors rather than annual sales.
69. Vanderlande completes acquisition of Siemens Logistics in Europe, Asia and Middle East
    - Evidence informing base-year company-share estimates: Corroborates the May xx.xx 2025 completion announcement for Siemens Logistics operations outside the United States; supports the ownership and nonduplication boundary, not revenue.

70. Checkpoint Security Screening - Daifuku
- Evidence informing base-year company-share estimates: The March-2025 brochure lists six airport lane references totaling xx.xx: Schiphol xx.xx Munich xx.xx Houston xx.xx San Francisco xx.xx Denver xx.xx and Portland xx.xx.
- Evidence informing base-year company-share estimates: The referenced lanes support the installed-cohort model; they are not represented as new 2025 deliveries.

71. DAIFUKU PROFILE 2026
- Evidence informing base-year company-share estimates: Reports FY2025 airport-industry sales of JPY xx.xx and identifies airport security-lane offerings; used only to check the narrower modeled screening numerator against the wider airport business.

72. Solutions for Airports and Airlines | Daifuku Airport Solutions
- Evidence informing base-year company-share estimates: Identifies more than xx.xx airport references across a wider portfolio, constraining the model's airport-site scale without establishing screening coverage at every reference.

73. Logis-Tech Tokyo 2024: Daifuku's Latest Technologies and Future Automation Solutions
- Evidence informing base-year company-share estimates: Reports more than xx.xx commercial mobile inspection-table systems across ten U.S. airports, supporting an included screening-automation stock cohort; no technical operating details are used.

74. Alstef Group 2024 CSR Report
- Evidence informing base-year company-share estimates: Reports 2024 turnover of EUR xx.xx with xx.xx% airport activity, providing the business-line anchor for an explicitly modeled 2025 screening-only bridge.

75. Baggage Handling Systems | Airport BHS Solutions - Alstef Group
- Evidence informing base-year company-share estimates: Identifies hold-baggage screening integration within wider BHS projects, including a Bucharest reference with five screening machines and xx.xx check-in conveyors.
- Evidence informing base-year company-share estimates: Supports exclusion of unrelated handling and infrastructure rather than treating all airport revenue as screening revenue.

76. SeeTrue Marks Milestone with Over 100 X-ray Checkpoint Installations of Advanced AI-Based Threat Detection Software
- Evidence informing base-year company-share estimates: The December xx.xx 2024 announcement reports the 100th operational lane across several sectors, constraining the opening installed cohort without establishing airport-only or fully paid licenses.

77. APIDS for CT Screening | ECAC-Approved AI - SeeTrue
- Evidence informing base-year company-share estimates: Identifies separately supplied APIDS software and named CT combinations, supporting software-only attribution rather than primary-scanner revenue.

78. Westminster Group launches AI-enhanced X-ray screening capability with SeeTrue
- Evidence informing base-year company-share estimates: The April xx.xx 2026 partnership announcement establishes a later commercial route; it is excluded as a source of 2025 revenue or proof of paid base-year adoption.

79. Bruker Secures Multi-Year Contracts for Explosives and Chemical Trace Detection in Aviation and Defense Sectors
- Evidence informing base-year company-share estimates: Identifies airport ETD quantities for Brussels, Scandinavia, Saudi Arabia and Incheon, constraining the modeled equipment cohort.
- Evidence informing base-year company-share estimates: The aggregate order figure also includes defense and cargo activity and is not used as baggage-screening revenue.

80. Bruker to Provide 60 Explosives Trace Detectors for Zuerich Airport
- Evidence informing base-year company-share estimates: The 2023 company announcement identifies a xx.xx-unit Zurich ETD program planned across 2024-2025; the model applies an assumed 2025 recognition fraction rather than claiming completed delivery.

81. Nanalysis Announces Fourth Quarter and Full Year 2025 Results
    - Evidence informing base-year company-share estimates: Reports calendar-2025 security-services revenue of C$xx.xx and flow-through inventory revenue of C$xx.xx, supplying the modeled maintenance/parts numerator before baggage attribution.
    - Evidence informing base-year company-share estimates: Reports xx.xx% full-year service gross margin, qualifying any assumption of automatic economic superiority.
82. About Us | K'(Prime) Technologies
    - Evidence informing base-year company-share estimates: Identifies K'(Prime)'s Nanalysis ownership and five-year C$xx.xx CATSA maintenance appointment; the contract ceiling is only a scale comparator, not annual realized revenue.
83. Baggage Handling Systems - Brock Solutions
    - Evidence informing base-year company-share estimates: Reports more than xx.xx sortation/controls projects and over xx.xx years of experience, supplying a historical workload-scale proxy rather than an observed annual screening-revenue figure.
84. Brock Solutions' Automated in-Line EDS Baggage Screening System Technology Recertified With the US Government's Department of Homeland Security
    - Evidence informing base-year company-share estimates: The historical commercial announcement identifies screening-related controls, software, integration and commissioning within Brock's broader baggage portfolio; it does not establish current authorization or all-BHS inclusion.
85. Contract for West Side Baggage Handling System Servers - Software Replacement
    - Evidence informing base-year company-share estimates: The 2017 airport contract identifies Brock Solutions US Systems LLC as a direct software-replacement counterparty; it supports a direct-contract route but supplies no realized 2025 screening revenue.
86. United Launches CBP's International Remote Baggage Screening on Select International Flights
    - Evidence informing base-year company-share estimates: United's September xx.xx 2025 announcement names Brock in the Sydney-San Francisco remote-baggage arrangement, establishing current participation without disclosing Brock's consideration or complete contractual scope.
87. Airport Checkpoint & Passenger Screening Systems | Security Screening
    - Evidence informing base-year company-share estimates: Describes approximately xx.xx years of relevant activity and more than xx.xx projects, constraining the historical annual-workload proxy without establishing the 2025 project count.
88. Security Checkpoint in Airport | Project Security Screening
    - Evidence informing base-year company-share estimates: Identifies property-screening installation examples at LaGuardia, Atlanta and LAX, supporting the lane-workload comparison and separation from person-screening and unrelated programs.
89. Clark County - File 25-2763: Transportation Screening Equipment Deployment
    - Evidence informing base-year company-share estimates: Records the August xx.xx 2025 approval of a USD xx.xx deployment ceiling with expected completion by December xx.xx 2026 and mixed baggage/person scope.
    - Evidence informing base-year company-share estimates: Supports a scope- and realization-adjusted scale check, not direct recognition of the full ceiling as annual revenue.
90. JFK Millennium Partners Selects K2 to Deliver State-of-the-Art Security Screening Checkpoint at new JFK Terminal 6
    - Evidence informing base-year company-share estimates: The March xx.xx 2025 buyer announcement appoints K2 to procure, install and deploy the Terminal xx.xx checkpoint, supporting an integration-prime role without establishing completed delivery or 2025 recognized receipts.
91. Agilent Technologies Acquires Raman Spectroscopy Innovator, Cobalt Light Systems
    - Evidence informing base-year company-share estimates: Reports more than xx.xx checkpoint devices across more than xx.xx airports in 2017; supplies a historical commercial-stock reference, not 2025 sales or a current fleet census.

92. Agilent Deploys Next Generation Explosive Detection System at London Heathrow Airport
· Evidence informing base-year company-share estimates: Documents deployment of a new Insight200M fleet at Heathrow during 2022, supporting continued replacement activity without disclosing the modeled annual quantity.
93. Agilent Announces New Insight Series Alarm Resolution Systems for Airport Security Screening
· Evidence informing base-year company-share estimates: The September xx.xx 2025 launch confirms continuing Insight-family airport alarm-resolution offerings and their supplementary relationship to cabin-baggage imaging; it does not disclose revenue.
94. Cassioli at the heart of the new terminal at Milan Bergamo Airport: security area inaugurated with FAST2CHECK technology
· Evidence informing base-year company-share estimates: Identifies xx.xx Cassioli Fast2Check lanes at the Bergamo security area inaugurated in November 2025, with separately supplied Smiths Detection equipment.
95. Aviation Case Study - Aeroporto G. Marconi di Bologna
· Evidence informing base-year company-share estimates: Specifies eight Cassioli lanes in Bologna's joint checkpoint project and phased commissioning concluding in March 2025; supports the narrower modeled project quantity.
96. Cassioli's Fast2Check at the Heart of Bologna Airport's Security Enhancement: Efficiency and Technology for an Improved Passenger Experience
· Evidence informing base-year company-share estimates: Reports xx.xx new Bologna screening lanes, creating a material scope conflict with the eight-lane joint case study; the conflict is retained rather than treated as verified annual shipments.
97. Cassioli Will Supply the New ATRS Fast2Check Systems for Malta Airport
· Evidence informing base-year company-share estimates: Identifies a six-lane Fast2Check award for Malta in partnership with Smiths Detection; supplies a project quantity but not calendar-2025 recognition or final-seller consideration.
98. Cassioli Airport Division - 2025 Brochure
· Evidence informing base-year company-share estimates: The company-authored airport brochure reports more than xx.xx operating European ATRS lanes and separately describes screening-equipment integration; supports a stock reference and the included commercial scope, not annual revenue.
99. Westminster Group Plc - Interim Results for the Six Months to 31 December 2024
· Evidence informing base-year company-share estimates: Separates technology from managed-service revenue for the six months ended December xx.xx 2024 and describes a USD xx.xx two-airport upgrade nearing completion in March 2025.
· Evidence informing base-year company-share estimates: Describes the four-airport Gabon managed-services contract and expected USD xx.xx first-xx.xx-month revenue; these broader figures are not used as baggage-only realized sales.
100. Westminster Group - News Archive
· Evidence informing base-year company-share estimates: Records the June xx.xx 2025 announcement of Gabon airport-security commencement, supporting the model's approximate seven-month activity bridge rather than full-year realization.
101. Complete Security at Freetown International Airport
· Evidence informing base-year company-share estimates: Describes Freetown's broad airport-security relationship, including passenger and baggage screening; supports separating technical commitments from the wider managed operation, not the assumed equipment count or support fee.

19.2. Market Concentration Analysis, 2025

Control over commercially usable alternatives depends on ownership and contractual rights rather than the number of historical brands. ■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■ ■■■ ■■■■■■■■■ ■■■■■■ ■■■■■■■■■■ ■■■■■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■ ■■■■■ ■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■ ■■

[illegible] Broader group portfolios may simplify procurement, but neither transaction establishes harmonized warranties, licenses or individual contract assignments.

Software and interfaces are important control points, but the evidence does not support an assumption of universally closed supply. [illegible] Buyer bargaining improves only when an alternative is both supported and contractually usable.

Maintenance can be concentrated through a service contract without concentrating equipment origination. CATSA records its maintenance transition to KPrime Technologies, while Leidos' TSA sustainment announcement assigns manufacturer coordination and logistics responsibilities. [illegible] A local channel can contribute installation, language, logistics and support coordination, but manufacturer backing, territory and warranty escalation must be established for the actual offer. Multiple intermediaries are useful negotiating alternatives only where their rights and obligations are independently executable.

[illegible] The venture's executed licensing, contracting allocation and customer access remain unresolved. A prospective partner should establish who can grant the required rights and accept continuing obligations before treating the venture as an account-access route.

[illegible]

[redacted] Preserving both names does not substantiate separate competitive control. Buyers should establish the legal supplier and relevant business rights before relying on either legacy naming or apparent roster breadth.

Sources & Evidence

1. Leidos wins TSA logistics contract
   · Leidos' TSA sustainment announcement assigns manufacturer coordination, maintenance and logistics responsibilities. ([investors.leidos.com](https://investors.leidos.com/news-releases/news-release-details/leidos-wins-tsa-logistics-contract))
2. Analogic and Leidos Complete Combination of Security Enterprise Solutions Businesses
   · Analogic announced completion of the specified Leidos-business combination on October xx.xx 2026, changing common ownership. ([analogic.com](https://www.analogic.com/press-release-analogic-and-leidos-complete-combination-of-security-enterprise-solutions-businesses/))
3. Aviation & Critical Infrastructure
   · ProSight is advertised as connecting screening equipment, algorithms and third-party information. ([analogic.com](https://www.analogic.com/aviation-critical-infrastructure/))
4. Digital Innovation
   · Multi-vendor positioning counters a universally closed-platform assumption without establishing customer-specific contractual rights. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
5. Explosive trace detection (ETD) systems: third party consumables
   · The UK maintains a dedicated third-party consumables list for approved trace-detection systems. ([gov.uk](https://www.gov.uk/government/publications/approved-explosive-trace-detection-systems-consumables))
6. Service
   · Smiths advertises direct manufacturer maintenance and tailored service, not a prospective site's executed coverage. ([smithsdetection.com](https://www.smithsdetection.com/service/))
7. Key Corporate Risks - CATSA
   · CATSA records transition of maintenance for most screening equipment to KPrime Technologies in 2023/xx.xx. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/key-corporate-risks))
8. APIDS for CT Screening | ECAC-Approved AI - SeeTrue
   · Separately supplied APIDS provides a documented alternative to a manufacturer-only application model. ([seetrue.ai](https://www.seetrue.ai/apids-for-ct/))
9. SEGMAN S.A. DE C.V. - Smiths Detection
   · The advertised manufacturer channel is distinct from origination of the Smiths equipment. ([segman.com](https://segman.com/smithsdetection.html))
10. Falcone-Borsellino International Airport Selects SureScan x1000
    · The named partner relationship illustrates a channel distinct from the originating SureScan equipment. ([surescaneds.com](https://surescaneds.com/2023/xx.xx/falcone-borsellino-international-airport-selects-surescan-x1000/))
11. BigBear.ai and Smiths Detection Complete Testing and Integration
    · The named integration supplies counterevidence to an exclusively manufacturer-owned software model. ([bigbear.ai](https://bigbear.ai/newsroom/bigbear-ai-and-smiths-detection-complete-testing-and-integration-advancing-airport-security/))

12. Vanderlande Completes Acquisition of Siemens Logistics in Europe, Asia and Middle East
    · Vanderlande announced acquisition completion for Siemens Logistics in Europe, Asia and the Middle East; local contract succession remains separate.
    ([vanderlande.com](https://www.vanderlande.com/news-insights/vanderlande-completes-acquisition-siemens-logistics/))
13. Detection Technology Announces Rebranding of MultiX
    · Detection Technology's May xx.xx 2019 announcement states that it acquired and rebranded MultiX's business.
    ([deetee.com](https://www.deetee.com/company-release/detection-technology-announces-rebranding-of-multix/))
14. The Chertoff Group, SureScan and VMD Announce Gigaplex Joint Venture
    · The Gigaplex announcement identifies SureScan, VMD and The Chertoff Group as joint-venture participants, without establishing executed customer licensing terms.
    ([xceleratesolutions.com](https://xceleratesolutions.com/about-us/press-releases/vmd-corp-wins-140m-kansas-city-international-airport-recompete-copy/))

19.3. Recent Developments & Impact Analysis, 2025

Completed ownership changes have different competitive consequences. Analogic Corporation announced completion of its combination with the specified Leidos businesses on October xx.xx 2026, changing the independence of historical equipment alternatives. ■■■■■■ ■■■■■■■■■■■ ■■■■ ■■■ ■■■■ ■■■■■■■■■■ ■■■■ ■■■■■■■ ■■■■■ ■■ ■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■ ■■■■■■■■■■■■ ■ ■■■■■■■■■■■ ■■■■ ■■■■■■■■ ■■■■■■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■ ■■■■■■ ■■■■■■■■■■■ ■■■■■ ■■■■■■■■ ■■■ ■■■■■■ ■■■■■■■ ■■■■■■■ ■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■■■ ■■■ ■■■■■■ ■■■■■■■ ■■■■■■■■■■■■ ■■ ■■■ ■■■■■■■■■■■ ■■■■■■ ■■■ ■■■ ■■■■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■ ■■■■■■■■ ■■■ ■■■■■■■

SureScan Corporation's completed IDSS acquisition, announced on April xx.xx 2024, expanded its checkpoint and checked-baggage portfolio. ■■■ ■■■ ■■ ■■■■■ ■■■■■■■■ ■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■ ■■ ■■■■■ ■■■■■ ■■■ ■■■■ ■■ ■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■■■ ■■■ ■■■ ■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■■ ■ ■■■■■■■■ ■■■ ■■■■■ ■■■ ■■■■■■■■■■ ■■■■ ■■■■■ ■■■■■■■■■■■■ ■■■■■ ■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■ ■■ ■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■ ■■ ■■■ ■■■■ ■■■■■■■■ ■■■■■■■ ■■■ ■■■■■■■■■■■■■ ■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■ An airport requiring an operating reference should obtain acceptance confirmation rather than treat either award announcement as completed commissioning.

Software partnerships create more specific equipment-retention options. ■■■■■■■■■■■■ ■■■■■■ ■■■ ■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■■ ■■■■ ■■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■ ■■■■■ ■■■■■ ■■■■■■■■■■■ ■■■■■ ■■■■■ ■■■■■ ■■ ■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■ ■ ■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■ ■■■ ■■ ■■■■■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■ ■■ ■■ ■■■■■■■■■■ ■■■■■ ■■■■■■■■■■■ ■■ ■■■■■■■ ■■■■■■■■■■■■■ ■■■ ■■■■■■■■■■■■ ■■■■■■ ■■ ■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■■■ ■■■ ■■■■■■■■ ■■■■■■ ■■■■■■ ■■■■ ■ ■■■■■■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■ ■■ ■■■ ■■■■■■■ ■■■■■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■ The announcements do not establish equivalent paid airport adoption.

Checkpoint redesign remains a different commitment from an operating replacement reference. BEUMER Group and HÖRMANN Klatt Conveyors GmbH's April xx.xx 2024 SECTRO partnership allocates market-facing and mechanical-supply responsibilities; HÖRMANN's 2025 reporting describes pilot and demonstration activity rather than establishing routine airport operation. ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪

6. Airports of Thailand Awards SureScan Contract for Hold Baggage Screening System
   · The May xx.xx 2026 announcement records a Thai x1000 award for partial hold-baggage redevelopment, not completed acceptance.
   ([surescaneds.com](https://surescaneds.com/2026/xx.xx/airports-of-thailand-awards-surescan-contract-for-hold-baggage-screening-system/))
7. Westminster Group launches AI-enhanced X-ray screening capability with SeeTrue
   · Westminster's April xx.xx 2026 announcement establishes a SeeTrue enhancement partnership, not a named paid airport deployment.
   ([wg-plc.com](https://www.wg-plc.com/news/westminster-group-launches-ai-enhanced-x-ray-screening-capability-with-seetrue))
8. Agilent to Supply Next Generation Alarm Resolution Technology to U.S. Airport Security Screening Checkpoints ahead of FIFA World Cup 2026
   · Agilent's May xx.xx 2026 release reports a TSA bulk alarm-resolution award and intended deployment, not completed commissioning.
   ([agilent.com](https://www.agilent.com/about/newsroom/presrel/2026/19may-gp26010.html))
9. Micro-X Limited - DHS Extension Moves CT Baggage Scanner Towards Commercialisation
   · The extension establishes continuing funded development rather than an airport delivery or routine deployment commitment.
   ([app.sharelinktechnologies.com](https://app.sharelinktechnologies.com/announcement/asx/2024600ba70c54eaf78af19fd5a6b509))
10. BigBear.ai and Smiths Detection Complete Testing and Integration
    · The August xx.xx 2025 announcement establishes the integration proposition, not universal national approval or equivalent paid adoption.
    ([bigbear.ai](https://bigbear.ai/newsroom/bigbear-ai-and-smiths-detection-complete-testing-and-integration-advancing-airport-security/))
11. BEUMER Group and HÖRMANN Klatt Conveyors Strategic Partnership
    · The April xx.xx 2024 SECTRO partnership allocates BEUMER's market-facing responsibilities and HÖRMANN Klatt's mechanical contribution.
    ([hoermann-gruppe.com](https://www.hoermann-gruppe.com/en/news/press-releases/beumer-group-and-hormann-klatt-conveyors-agree-strategic-partnership))
12. HÖRMANN Industries GmbH Annual Report 2025
    · HÖRMANN's 2025 annual report describes SECTRO pilot and demonstration activity, not established routine airport operation.
    ([hoermann-gruppe.com](https://www.hoermann-gruppe.com/sites/gruppe/files/media/downloads/hoermann-geschaeftsbericht-2025-en.pdf))

19.4. Product Portfolio Analysis, 2025

Equipment alternatives must be matched to the baggage-screening application before portfolio breadth becomes commercially meaningful. ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪ ▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ A combined cabin- and

checked-baggage procurement is defensible only when application-specific eligibility and continuing support are separately established.

[illegible] Gilardoni also appears as SureScan's Italian partner in the Palermo selection, illustrating that a company's role can combine product participation with another manufacturer's channel relationship. Buyers should identify the equipment originator and the party accepting delivery obligations rather than infer either from the bidder's name.

VMI Security's airport catalog, FISCAN's TMEX-xx.xx baggage CT listing, Safeway System's advertised security-inspection business, Techik Instrument Co., Ltd.'s baggage-scanner range, Securina Detection System Co., Limited's luggage-screening offering, Krystalvision Image Systems Pvt. Ltd.'s supplier-reported airport-baggage reference and Motwane Security Systems' advertised airport applications provide additional sourcing propositions. [illegible]

[illegible] For ASELSAN, the operating-supplier relationship and airport eligibility of the proposed baggage configuration remain material unresolved distinctions. These are offer-specific comparison limits, not grounds to remove regional suppliers or terminal-entrance screening from the market.

Supplementary detection forms a different purchasing group from complete-baggage imaging. Agilent Technologies markets Insight300M and InsightBLS for checkpoint alarm resolution; Battelle identifies its LS10 liquid-bottle offering with Sellex International; and CEIA documents an EMA liquid-analysis airport relationship. [illegible]

[illegible] A specialist automation package can preserve detector choice, but only if the scanner and automation counterparties accept the proposed interface, commissioning and warranty boundary. A lane catalog is not a commitment to deliver the complete approved checkpoint.

Hold-baggage integration has a broader systems perimeter. Alstef Group, ULMA Handling Systems, MATREX, Fives and Toyo Kanetsu describe screening within their airport-system offerings. [illegible]

Software breadth creates another alternative to equipment replacement. SeeTrue advertises APIDS for CT screening through scanner-specific product routes; BigBear.ai identifies Pangiam Threat Detection integrated with Smiths Detection HI-SCAN xx.xx CTiX; NeuralGuard markets Checkpoint CT software; and DEEPNOID Inc. describes airport-oriented image analysis developed with Korea Airports Corporation. [illegible]

Terminal-entrance, customs and non-passenger-property needs also require distinct comparisons. LINEV Systems explicitly positions airport customs baggage inspection, and 3DX-RAY advertises hand-luggage inspection in customs or staff-entry settings. [illegible]

Sources & Evidence

1. Aviation & Critical Infrastructure

   · Analogic's portfolio presents ClearScan cabin-baggage screening, ProPassage tray-return equipment and ProSight enterprise screening software. Portfolio presentation does not establish harmonized customer agreements. ([analogic.com](https://www.analogic.com/aviation-critical-infrastructure/))

2. Digital Innovation

   · Smiths Detection markets detection applications and ELECTORA multi-vendor connectivity. The portfolio description does not grant customer-specific substitution or warranty rights. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))

3. Liquid Explosive Detector, Bottle Liquid Scanner, Insight

   · Agilent markets Raman-based Insight300M and InsightBLS for airport checkpoint alarm resolution, including use alongside cabin-baggage explosive-detection systems. The models have different container coverage. ([agilent.com](https://www.agilent.com/en/product/molecular-spectroscopy/raman-spectroscopy/raman-aviation-security-systems/insight-series-alarm-resolution-systems))

4. HI-SCAN 10080 XCT | Explosives Detection System | Smiths Detection

   · Smiths Detection markets HI-SCAN xx.xx XCT for hold-baggage screening. The offering description does not establish a prospective installation's acceptance or support agreement. ([smithsdetection.com](https://www.smithsdetection.com/products/hi-scan-xx.xx-xct/))

5. Checkpoint - Analogic

   · Analogic markets ConneCT for aviation checkpoint baggage screening and advertises remote image-analysis connectivity. ([analogic.com](https://www.analogic.com/imaging-and-detection/checkpoint/))

6. RTT110 | Rapiscan Systems

   · Rapiscan Systems markets RTT110 for hold-baggage screening. This establishes its advertised application rather than equivalence with checkpoint or supplementary detection equipment. ([rapiscansystems.com](https://www.rapiscansystems.com/products/rapiscan-rtt-xx.xx))

7. Kylin Ti CT 型行李/物品检查系统

   · Nuctech catalogs Kylin Ti for hand-baggage inspection in airport and customs settings. The catalog does not establish another jurisdiction's acceptance. ([nuctech.com](https://www.nuctech.com/productdetail?id=49f383d5-838f-4ea8-96d1-xx.xx))

8. x1000_Product - SureScan Corporation

   · SureScan markets x1000 as a CT explosive-detection system for checked-baggage screening. Promotional comparative claims are not adopted. ([surescaneds.com](https://surescaneds.com/x1000/))

9. Detect_1000_Product - SureScan Corporation

   · SureScan presents DETECT xx.xx as a checkpoint screening platform, supporting separation from its checked-baggage offering. ([surescaneds.com](https://surescaneds.com/detect/))

10. PAX MX2 - Vanderlande

    · Vanderlande presents PAX MX2 within its checkpoint-security portfolio, supporting a lane-automation comparison distinct from primary detector supply. ([vanderlande.com](https://www.vanderlande.com/fr/systemes/controle-de-securite/pax-mx2/))

11. APIDS for CT Screening | ECAC-Approved AI - SeeTrue

    · SeeTrue advertises separately supplied APIDS for CT screening and presents scanner-specific product routes. This establishes an application-layer offering, not universal national permission or customer interface rights. ([seetrue.ai](https://www.seetrue.ai/apids-for-ct/))

12. DE-tector flex | Bruker

    · Bruker markets DE-tector flex for trace detection involving airport personal property. This is a supplementary detection role rather than primary full-baggage imaging. ([bruker.com](https://www.bruker.com/en/products-and-solutions/cbrne-detectors/ims/de-tector-flex.html))

13. Falcone-Borsellino International Airport Selects SureScan x1000

    · SureScan identifies Gilardoni Raggi X SpA as its partner in the Palermo airport x1000 selection, demonstrating a channel role distinct from equipment origination. ([surescaneds.com](https://surescaneds.com/2023/xx.xx/falcone-borsellino-international-airport-selects-surescan-x1000/))

14. BigBear.ai and Smiths Detection Complete Testing and Integration

    · BigBear.ai's August xx.xx 2025 announcement identifies Pangiam Threat Detection integrated with Smiths Detection HI-SCAN xx.xx CTiX. The announcement does not establish unrestricted retrofit rights or equivalent airport adoption. ([bigbear.ai](https://bigbear.ai/newsroom/bigbear-ai-and-smiths-detection-complete-testing-and-integration-advancing-airport-security/))

15. BGCT-0824 Baggage and Parcel CT Inspection System

    · CGN Begood advertises BGCT-xx.xx baggage-and-parcel CT for aviation-security and customs applications. The page establishes product positioning, not an airport award, national authorization or installation-specific support commitment. ([cgnbegood.com](https://www.cgnbegood.com/bgct-xx.xx-baggage-and-parcel-ct-inspection-system-product/))

16. Aviation Security - Astrophysics Inc.

    · Astrophysics Inc. advertises passenger-checkpoint and hold-baggage scanners as separate aviation offerings. ([astrophysicsinc.com](https://astrophysicsinc.com/aviation/))

17. Aviation Security & Safety Solutions - Vehant

    · Vehant Technologies presents baggage-scanning equipment within its aviation-security portfolio. ([vehant.com](https://www.vehant.com/sector/aviation-security/))

18. Transportation Systems - Shanghai Eastimage Equipment Co., Ltd.

    · Shanghai Eastimage Equipment Co., Ltd. publishes supplier-reported airport equipment references. Their presentation does not establish continuing operation or current support at those sites. ([eastimagesecurity.com](https://www.eastimagesecurity.com/Aviation.html))

19. X-Ray Baggage Inspection Systems - ECIL

    · Electronics Corporation of India Limited describes its own single-view and dual-view baggage inspection systems. This does not settle airport-contract attribution involving related supply relationships. ([ecil.co.in](https://www.ecil.co.in/hss_xbis))

20. Airport - VMI Security

    · VMI Security's airport portfolio presents luggage-inspection offerings. A portfolio listing does not establish a proposed airport's authorization or executed purchase. ([vmisecurity.com](https://vmisecurity.com/airport/))

21. TMEX-86 CT 型行李/物品安全检查设备

    · FISCAN publishes a TMEX-xx.xx baggage CT offering. The listing establishes an advertised product, not application-specific national acceptance. ([fiscan.cn](https://www.fiscan.cn/news/show-xx.xx.html))

22. About - Safeway Inspection System Company Limited

    · Safeway System identifies its security-inspection business and discusses aviation certification as a distinct commercial requirement. Its corporate description does not establish every airport configuration's eligibility. ([securitycheckcn.com](https://www.securitycheckcn.com/about))

23. About Us - Techik

    · Techik Instrument Co., Ltd. lists baggage scanners and identifies airports among its advertised applications. ([techiksafety.com](https://www.techiksafety.com/about-us/))

24. Contact Us - Securina Detection System Co., Limited

    · Securina Detection System Co., Limited identifies its business and advertises luggage X-ray scanners and associated services. These descriptions do not establish a particular airport commitment. ([securinadetection.com](https://www.securinadetection.com/Contact-Securina.html))

25. Chandigarh International Airport Baggage Inspection Systems - Krystalvision
    - Krystalvision publishes a supplier-reported baggage-scanner installation reference for Chandigarh International Airport. The reference does not establish another purchaser's eligibility or support agreement. ([krystalvision.co.in](https://krystalvision.co.in/news_details.php?id=xx.xx))
26. X-Ray Baggage Scanner - 5030 A
    - Motwane Security Systems advertises its xx.xx A baggage scanner for airport and other security settings. ([motwanesecuritysystems.com](https://motwanesecuritysystems.com/x-ray-baggage-scanner-xx.xx-a/))
27. XRC 60-40DV - X-Ray Center
    - X-Ray Center presents XRC xx.xx-40DV in its baggage-and-parcel product portfolio. Supplier certification statements are not treated as a substitute for the relevant authority's record. ([x-raycenter.com](https://x-raycenter.com/en/product-detail/xrc-xx.xx-40dv/small-parcel-and-baggage))
28. Более 100 аэропортов России используют досмотровое оборудование ТСНК по данным на 2025 год
    - TSNK's February xx.xx 2025 business account identifies Diagnostika-M and reports TS-SCAN airport baggage references. These are supplier-reported examples, not transferable local purchasing rights. ([tsnk.ru](https://tsnk.ru/news/news_583.html))
29. Досмотр посылок и багажа
    - NPO Spetstekhnika maintains a Di-Scan baggage-and-parcel catalog. The catalog does not establish a prospective installation's national eligibility. ([npo-sptech.ru](https://npo-sptech.ru/catalog/dosmotr-posylok-i-bagazha))
30. Aviation Security - Battelle
    - Battelle's aviation portfolio identifies its LS10 liquid-bottle scanner with Sellex International, supporting a supplementary liquid-screening comparison. ([battelle.org](https://www.battelle.org/markets/infrastructure/transportation/aviation-security))
31. Security News - CEIA
    - CEIA reports an EMA liquid-analyzer airport relationship. The historical business reference does not establish every proposed installation's acceptance or continuing support. ([ceia.net](https://www.ceia.net/news.aspx?lan=deu§ion=security))
32. Ports Security and Border Control - RS DYNAMICS
    - RS DYNAMICS presents its detection instruments for airport baggage and border-inspection applications. The application description is not a proposed site's authorization. ([rsdynamics.com](https://www.rsdynamics.com/ports-border-control/))
33. Aviation Worker Screening - Autoclear
    - Autoclear advertises CLX for aviation-worker screening. The advertisement does not separately establish a baggage-screening authorization or complete property-screening contract. ([autoclear.com](https://autoclear.com/aviation-worker-screening/))
34. Munich Airport - Smart Security Lanes: Case Study
    - Daifuku's Munich case identifies Scarabee as a group company and describes customized Smart Security Lanes integrated with Smiths Detection CT equipment, with image evaluation in a separate screening room. ([daifukuatec.com](https://daifukuatec.com/api/asset/2023/xx.xx/Munich-Airport-Case-Study-2023.pdf))
35. Airport Division - Cassioli
    - Cassioli's airport portfolio offers Fast2Check automatic tray-return systems and related checkpoint products. ([cassioli.com](https://www.cassioli.com/airport-division/))
36. Automatic Tray Return Systems - CITCOnveyors
    - CITCOnveyors advertises airport automatic tray-return systems. An offering page does not establish responsibility for the complete approved checkpoint. ([airportconveyors.eu](https://www.airportconveyors.eu/products/automatic-tray-return-systems))
37. Project Highlights - SJK Innovations
    - SJK Innovations identifies its Intelligent Tray Return System as an airport offering. Promotional comparative statements are not adopted. ([sjkinnovations.in](https://www.sjkinnovations.in/projects))

38. BG-ATRS1 Automatic Tray Return System - Safeagle
    - Safeagle offers BG-ATRS1 automatic tray-return equipment for checkpoint baggage-inspection arrangements. ([safeagle.com](https://safeagle.com/product/bg-atrs1-automatic-tray-return-system/))
39. Baggage Handling Systems - Alstef Group
    - Alstef Group explicitly offers hold-baggage screening integration within wider baggage-handling systems, with configuration dependent on airport requirements and selected equipment. ([alstefgroup.com](https://alstefgroup.com/baggage-handling/))
40. Airports - ULMA Handling Systems
    - ULMA Handling Systems describes airport inspection-system integration and a baggage-system adaptation to new screening equipment. ([ulmahandling.com](https://www.ulmahandling.com/en/automated-intralogistics/sector-airports))
41. MATREX - Baggage Handling Systems
    - MATREX's systems brochure includes hold-baggage screening machines and security checkpoints within its airport systems proposition and describes project installation and support services. ([matrex-airport.com](https://www.matrex-airport.com/wp-content/uploads/2023/xx.xx/brochure-aeroportuaire-systems.pdf))
42. Baggage Handling - Fives
    - Fives describes X-ray and hold-baggage screening integration within its baggage-handling solutions. ([fivesgroup.com](https://www.fivesgroup.com/it/smart-automation-solutions/your-markets-our-solutions/airport/baggage-handling))
43. Hold Baggage Screening System - Toyo Kanetsu
    - Toyo Kanetsu advertises hold-baggage screening systems interfacing with explosive-detection equipment. ([tksl.co.jp](https://www.tksl.co.jp/en/products-info/airport-sys/hbs.html))
44. Leonardo Strengthens Its Position in Europe in the Airport Logistics Sector
    - Leonardo's March xx.xx 2019 announcement identifies screening-equipment integration within the Geneva and Athens baggage contracts. These are historical contract references, not confirmation of present obligations. ([leonardo.com](https://www.leonardo.com/documents/xx.xx/xx.xx/ComLDO_BHS_Geneve_Athens_26032019_ENG.pdf?t=xx.xx))
45. Elevating Air Travel: CIMC Pteris Company's Airport Logistical Solutions
    - Pteris Global describes security and screening within a broader airport-logistics proposition without separating a current screening-specific contract. ([cimc-pterisglobal.com](https://www.cimc-pterisglobal.com/news-and-events/elevating-air-travel-cimc-pteris-companys-airport-logistical-solutions/))
46. NeuralGuard Checkpoint CT
    - NeuralGuard markets Checkpoint CT automated screening software, supporting a separate application-supplier comparison without establishing a proposed installation's eligibility. ([neuralguard.com](https://www.neuralguard.com/checkpoint-ct/))
47. SkyMARU:SECURITY - DEEPNOID
    - DEEPNOID describes SkyMARU:SECURITY as an aviation X-ray analysis offering developed with Korea Airports Corporation. Its promotional global-deployment assertions are not adopted. ([website.dev.deepnoid.com](https://website.dev.deepnoid.com/en/products/industrial/skymaru-security))
48. Airport AI Baggage Screening System - Athena Security
    - Athena Security advertises an AI-assisted airport-baggage proposition. Its own compliance and performance assertions do not independently establish scanner provenance or configuration-specific authority acceptance. ([athena-security.com](https://www.athena-security.com/baggage-xray-scanner/industries/airports-transportation/))
49. Airport Security Solutions for Customs & Cargo - LINEV Systems
    - LINEV Systems explicitly positions baggage inspection for airport customs settings, a commercial application distinct from primary passenger-checkpoint screening. ([linevsystems.com](https://www.linevsystems.com/solutions/airport-security-solutions/))

50. Border Control and Customs Applications - 3DX-RAY
    · 3DX-RAY advertises cabinet screening for hand luggage in customs offices and staff-entry settings. This does not establish equivalence with a primary passenger-checkpoint system. ([3dx-ray.com](https://www.3dx-ray.com/applications/border-control-customs-applications/))

19.5. Benchmarking Analysis, 2025

The defensible benchmark is an application-matched, eligible and supportable offer, not a supplier-wide league table. [redacted] A customs baggage reference cannot settle cabin-baggage eligibility, and an airport catalog cannot establish site acceptance.

Delivery services require a different comparison from equipment manufacture. K2 Security Screening Group's JFK Terminal xx.xx appointment establishes a procurement-and-deployment-prime role. [redacted]

Mechanical, electrical and controls contributions should remain separately attributable. [redacted] Neither broader airport activity nor a proposed equipment-relocation role establishes a transferable delivery commitment.

Buyer-side planning is a separate procurement choice. [redacted] The extra advisory contract is less compelling where the buyer already has an agreed requirement and an accountable delivery team.

Commercial maturity changes whether an offering can support an immediate replacement decision. Micro-X Limited's filing and September 2026 extension describe funded development rather than an executable airport delivery commitment. ■■■■■■■ ■■■■■ ■■■ ■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■ ■■ ■ ■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■ ■■ ■■■ ■■■■■■■■ ■■■■■■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■■■■ ■■■■■■■■ ■■ ■■■■■■■■ ■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■ ■■■ ■■■ ■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■■ ■■■■ ■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■■■■■■■■■■■ ■■■■■■■■■■■■■ ■■ ■■■■ ■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■ ■■■■■■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■■■■■■■■

[redacted] Global Clearinghouse Systems still requires a current customs-baggage equipment or maintenance record rather than an assumption of primary aviation-screening responsibility.

Country access must be verified at the proposed contract level. For Al Hamra Group sarl, renewal or replacement of the historical manufacturer appointment and the present maintenance commitment remain unresolved. [redacted]

Sources & Evidence

1. ECAC Common Evaluation Process (CEP) of security equipment
   · Configuration-specific evaluation does not establish national deployment permission for a different application.
   ([ecac-ceac.org](https://ecac-ceac.org/activities/security/common-evaluation-process-cep-of-security-equipment))
2. Aviation security screening approved equipment list
   · The UK category distinctions qualify any supplier-wide or technology-wide eligibility comparison.
   ([gov.uk](https://www.gov.uk/government/collections/aviation-security-screening-approved-equipment-list))
3. JFK Millennium Partners Selects K2 to Deliver State-of-the-Art Security Screening Checkpoint at new JFK Terminal 6
   · The March xx.xx 2025 buyer announcement appoints K2 to procure, install and deploy JFK Terminal xx.xx's checkpoint, not completed delivery.
   ([portauthoritybuilds.com](https://www.portauthoritybuilds.com/redevelopment/us/en/jfk/planned-projects/terminal-xx.xx/news/jfk-millennium-partners-selects-k2-to-deliver-state-of-the-art-s.html))
4. Micro-X Limited - Appendix 4D and Half-Year Financial Statements, December 31, 2025
   · Micro-X Limited's half-year filing describes funded baggage-scanner development and the Billion Prima development partnership, not completed commercialization.
   ([announcements.asx.com.au](https://announcements.asx.com.au/asxpdf/xx.xx/pdf/06wvv0c8dp5kvj.pdf))
5. Baggage CT Scanner - Micro-X
   · The Micro-X-branded baggage page describes DHS-funded development; it does not establish an independently separate supplier from Micro-X Limited.
   ([micro-x.com](https://www.micro-x.com/industry/security-solutions/baggage-ct-scanner))
6. Micro-X Limited - DHS Extension Moves CT Baggage Scanner Towards Commercialisation
   · The September xx.xx 2026 announcement describes a DHS development extension and prospective standalone commercialization.
   ([app.sharelinktechnologies.com](https://app.sharelinktechnologies.com/announcement/asx/2024600ba70c54eaf78af19fd5a6b509))
7. Services | Planning and Design Security Checkpoints - Point FWD
   · Point FWD advertises checkpoint planning, procurement support and implementation guidance rather than a scanner-delivery commitment. ([pointfwd.com](https://www.pointfwd.com/services-planning-and-design))

8. □□□□□□□ □□□□□□ □□□□□□ | □□□□□ □□□□□□

   · Rahyaft Hooshmand Ariaban's Persian catalog advertises suitcase inspection but does not establish a dated airport transaction or registration. ([rhariaban.com](https://rhariaban.com/?page_id=xx.xx))

9. Kromek Service and Support During COVID-19 Lockdown for Bottle Scanners

   · Kromek's notice concerns temporary COVID-xx.xx bottle-scanner service arrangements in 2020, not a discontinuation announcement. ([kromek.com](https://www.kromek.com/wp-content/uploads/2020/xx.xx/BLS-service-statement.pdf))

10. XSPERINSE Project Fact Sheet | European Commission CORDIS

    · CORDIS identifies EXRUPTIVE in XSPERINSE, a funded project that ended July xx.xx 2022, not current marketed authorization. ([cordis.europa.eu](https://cordis.europa.eu/project/id/xx.xx))

11. Products | ScanTech AI Systems

    · ScanTech advertises SENTINEL CT; a product page does not independently establish configuration authorization or paid airport acceptance. ([scantechais.com](https://www.scantechais.com/products/))

12. About BNP Associates

    · BNP Associates describes consulting and historical hold-baggage screening design and implementation experience. ([bnpassociates.com](https://www.bnpassociates.com/about/))

13. Our Services | SIDA Solutions

    · SIDA Solutions advertises EDS consulting, airport representation and checkpoint commissioning. ([sidasolutions.com](https://sidasolutions.com/services/))

14. Baggage | Diversified Automation

    · Diversified Automation includes in-line EDS screening within its baggage-system services. ([diversified-automation.com](https://diversified-automation.com/services/baggage/))

15. Security Equipment Deployment Services | Studdiford Technical Solutions

    · Studdiford describes a subcontracting role in TSA screening-equipment deployment and integration. ([studdifordtech.com](https://studdifordtech.com/sts-projects/transportation-security-administration-tsa-department-of-homeland-security/))

16. TSA Equipment Deployment & Integration | Golden Ratio

    · Golden Ratio advertises screening-equipment deployment and integration services. ([grtms.com](https://grtms.com/tsa-equipment-integration/))

17. Installation & Integration Services | VTC

    · VTC advertises airport installation and integration services without establishing a prospective contract's complete obligations. ([vtc.us.com](https://vtc.us.com/services/installation-integration-services/))

18. SEA Upgrades Keep Travelers Moving and On-Time | ControlTouch

    · ControlTouch's Seattle account connects its controls contribution to screening-related baggage-system upgrades. ([controltouch.com](https://controltouch.com/sea-upgrades-keep-travelers-moving-and-on-time-xx.xx/))

19. G&S Airport Conveyor Selects ISN for Eugene Airport Reconfiguration

    · The Eugene reference identifies G&S's conveyor role and ISN's electrical, controls and software contribution to an EDS-line retrofit. ([isntech.com](https://www.isntech.com/news/gs-airport-conveyor-selects-isn-support-re-configuration-out/))

20. Conveyor Mechanic | Diversified Conveyors International, LLC

    · The employer-authored Diversified Conveyors recruitment record describes relevant installation work, not completed airport performance. ([recruiting.paylocity.com](https://recruiting.paylocity.com/recruiting/jobs/Details/xx.xx/Diversified-Conveyors-Inc/Conveyor-Mechanic))

21. Finland Contact and Distributor Record | Agilent

    · Agilent lists Selmatec Securities for Cobalt Insight and NSC Sweden AB separately for handheld chemical detection; the appointments are product-specific. ([agilent.com](https://www.agilent.com/en/contact-us/finland))

22. Baggage Handling Systems for Airports | ALS

· The ALS-branded source advertises baggage-screening integration but does not independently settle the protected Advanced Logistic Systems corporate-name link. ([als.systems](https://als.systems/services/baggage-handling-xx.xx/))

23. About Us | Innovation Tower Trading

· Innovation Tower Trading's corporate description establishes broader equipment and after-sales activity, not a specific airport-baggage commitment. ([itt-kubba.com](https://itt-kubba.com/about-us-xx.xx/))

24. DHS Awards One Resonance Sensors Checkpoint Scanner Evaluation Contract

· One Resonance Sensors' May xx.xx 2015 announcement concerns checkpoint evaluation and its then-current portfolio, not continuing availability. ([prnewswire.com](https://www.prnewswire.com/news-releases/us-department-of-homeland-security-awards-contract-to-one-resonance-sensors-for-evaluation-of-checkpoint-security-electronics-scanner-xx.xx.html))

20. Company Profiles

20.1. Smiths Detection

Smiths Detection provides a manufacturer-led purchasing option spanning baggage imaging, digital applications and continuing support. ■■■ ■■■■■■■ ■■■■■ ■■■ ■■ ■■■■■■■■ ■■■ ■■■■■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■■■■ ■■■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■■■■ This breadth allows a buyer to compare a broader supplier package with separately sourced equipment, software and maintenance, without assuming that every component must come from the same manufacturer.

The delivery channel determines who actually accepts responsibility. ■■■■■■■■ ■■■■■■■■ ■■ ■■■■ ■■■■■■■■■■■■ ■■■ ■■■■ ■■■■■■■ ■■■■■■■■■■ ■■■■■■ ■■■■■■■■■ ■■ ■■■ ■■■■■■■■■ ■■■■■■■■■ ■■■■■ ■■■■■■ ■■■■■■■■ ■■ ■■ ■■■■■■■■■■■ ■■■ ■■■■■■■■■■■■■ ■■■■■■■■■■■■■■■ ■■■■■■■ ■■■ ■■■■■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■ ■■■ ■■■■■■ ■■■■■ This customer record demonstrates that Smiths equipment can sit within an integrator-led relationship rather than a direct manufacturer lifecycle contract; it does not establish completed deployment.

Smiths separately advertises on-site maintenance, remote diagnosis, training, parts support and tailored service plans. ■■■■■■ ■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■■■■ ■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■ ■■■■■■■■■■ ■■■■■ ■■■■■■■■ ■■■■■■■■■■■ ■■■ ■■■■■■■■■■■■■ ■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■ ■■■ ■■■■■■ ■■■■■■■■■■ ■ ■■■■■■■ ■■■■■■■ ■■■ ■■■■■■ ■■■■■■■■■■■■■ ■■■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■ ■■ ■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■ ■■ ■■■ ■■■■ ■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■■■■ ELECTORA's multi-vendor positioning does not itself grant a customer's interface or warranty rights.

Smiths Detection announced completion of its transition from Smiths Group to CVC Capital Partners on June xx.xx 2026. ■■■ ■■■■■■■■ ■■■ ■■■ ■■■■■■■■■■■■ ■■■■■■ ■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■■■■■ ■■■■■■ ■■■ ■■■ ■■■■■■■■■■ ■■■■■■■ ■■■■ ■■■■■■■ ■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■

Sources & Evidence

1. Digital Innovation
   - The digital portfolio presents iCMORE detection applications and ELECTORA integration of multi-vendor devices, datasets and applications; it does not establish customer-specific contractual entitlements. ([smithsdetection.com](https://www.smithsdetection.com/digital-innovation/))
2. Service
   - Smiths Detection advertises on-site service, remote diagnosis, tailored plans, training and parts support; the general offering does not establish a prospective site's agreement. ([smithsdetection.com](https://www.smithsdetection.com/service/))
3. HI-SCAN 10080 XCT | Explosives Detection System | Smiths Detection
   - Smiths Detection markets HI-SCAN xx.xx XCT for hold-baggage screening and integration into automated, networked baggage-handling systems. ([smithsdetection.com](https://www.smithsdetection.com/products/hi-scan-xx.xx-xct/))
   - Company verification: Smiths Detection markets the HI-SCAN xx.xx XCT as an explosive detection system for airport hold baggage, with baggage-handling-system integration.

4. Smiths Detection completes transition to CVC Capital Partners
   - The June xx.xx 2026 announcement confirms completion of Smiths Detection's transition from Smiths Group to CVC Capital Partners; it does not establish individual contract or guarantee changes. ([smithsdetection.com](https://www.smithsdetection.com/press-releases/smiths-detection-completes-transition-to-cvc-capital-partners/))
   - Company verification: Smiths Detection announced completion of its transition from Smiths Group to CVC Capital Partners on June xx.xx 2026.
   - Company verification: The June xx.xx 2026 announcement confirms completion of Smiths Detection's transition from Smiths Group to CVC Capital Partners.
5. Oslo Airport builds new Security Checkpoint | The Avinor Group
   - Avinor's December xx.xx 2025 announcement identifies Smiths Detection equipment and Sensec Solution AS installation, commissioning, service and maintenance responsibilities, with completion planned for summer 2028. ([kommunikasjon.ntb.no](https://kommunikasjon.ntb.no/pressemelding/xx.xx/oslo-airport-builds-new-security-checkpoint?lang=en&publisherId=xx.xx))
   - Company verification: Avinor identifies Smiths Detection as the X-ray and automatic-tray-return equipment supplier.
6. TSA Awards Smiths Detection a Contract for Full-Size Computed Tomography Systems
   - Company verification: The June xx.xx 2023 company announcement identifies a TSA contract for full-size checkpoint CT systems and related services using HI-SCAN xx.xx CTiX and iLane.
7. TSA awards up to $1.3 billion to procure additional CT X-ray scanners for airport checkpoints
   - Company verification: TSA's April xx.xx 2023 announcement names Smiths Detection Incorporated as the supplier of full-size airport checkpoint CT systems.

20.2. Analogic Corporation

Analogic Corporation's completed combination with Leidos' specified Security Enterprise Solutions, Ports & Borders and Industrial Automation businesses changes the ownership boundary of equipment comparisons. ■■■ ■■■■■■■ ■■ ■■■■ ■■■■■■■■■■■■ ■■■■■■ ■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■ ■■■ ■■■■■■■■ ■■■■■■ ■■■■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■ ■■■■■■■ ■■■■■■■■■■ ■■■■■■ ■■■■■■■■■ ■■■ ■■ ■■■■■■■ ■■ ■■■■■■■■■■■■■ ■■■■■ ■■■■■■■■ ■■■■■■■■■■■■■■ The transaction announcement does not establish succession of an individual airport contract.

Analogic markets ConneCT for aviation checkpoint baggage screening, including remote image-analysis connectivity. ■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■ The combination consequently broadens the equipment, automation and software that a buyer can discuss with the group, but portfolio breadth is not proof that legacy products, licenses and support agreements have become one interchangeable commercial package.

An airport renewing a legacy installation should obtain confirmation of the legal supplier, continuing warranty and software entitlements, and the party responsible for service escalation before consolidating purchases. A combined contract may simplify accountability where those obligations are explicitly harmonized. ■■■■■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■ ■ ■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■ ■■■■■■■ ■■■■■■■■■■ ■■ ■■■■■■■■■ ■■■■■■■ ■■■■■■■ ■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■■■■ ■■ ■■■ ■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■ ■■ ■■■■■■■■■■ ■■ ■■■

■■■■■■■■■■■■ ■■■ ■■■■■■■■■■■■ ■■■■ ■■■ ■■■■■■■■■ ■■■ ■■■■■■■■ ■■ ■■■■■ ■■■■■■ ■■■■■■■■■■■■■■■ ■■■■■■■■■■■

Sources & Evidence

1. Analogic and Leidos Complete Combination of Security Enterprise Solutions Businesses
   · The October xx.xx 2026 announcement confirms completion of the combination with Leidos' specified Security Enterprise Solutions, Ports & Borders and Industrial Automation businesses under the privately held Analogic brand. Individual airport contract succession is not established. ([analogic.com](https://www.analogic.com/press-release-analogic-and-leidos-complete-combination-of-security-enterprise-solutions-businesses/))
   · Company verification: The October xx.xx 2026 announcement confirms completion of the combination of Analogic with Leidos' Security Enterprise Solutions, Ports & Borders and Industrial Automation businesses.
   · Company verification: The October xx.xx 2026 announcement confirms completion of the combination with Leidos' Security Enterprise Solutions, Ports & Borders and Industrial Automation businesses.
   · Company verification: The combined privately held company operates under the Analogic brand from Salem, New Hampshire.
2. Aviation & Critical Infrastructure
   · Analogic's expanded portfolio presents ClearScan cabin-baggage screening, ProPassage automated tray return and ProSight enterprise screening software; the descriptions do not establish a unified customer contract. ([analogic.com](https://www.analogic.com/aviation-critical-infrastructure/))
   · Company verification: Analogic's expanded aviation portfolio includes the ClearScan cabin-baggage explosive detection system and screening-management software.
3. Checkpoint - Analogic
   · Analogic markets ConneCT as an aviation checkpoint baggage-screening system and advertises cross-lane and remote image-analysis connectivity. ([analogic.com](https://www.analogic.com/imaging-and-detection/checkpoint/))
   · Company verification: Analogic markets ConneCT as an aviation checkpoint explosive detection system for carry-on baggage.
4. TSA awards up to $1.3 billion to procure additional CT X-ray scanners for airport checkpoints
   · Company verification: TSA's April xx.xx 2023 announcement names Analogic Corporation as the supplier of base-size airport checkpoint CT units.

20.3. Rapiscan Systems

Rapiscan Systems supplies a mission-specific alternative for checked-baggage procurement through its advertised RTT110 offering. ■■■ ■■■■■■■ ■■ ■■■■■■■■■■ ■■■ ■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■ ■■■■■■■■■■■■ ■■ ■■■■■■ ■■ ■■■■■■■■ ■■■■■■ ■ ■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■■■■ ■■■■■■■■■ ■■■■■■ ■■■■ ■■■■■■■■ ■■ ■■■■■■■■■■■■■■■ ■■■■ ■ ■■■■■■■■■■■■■ ■■■■■■■ ■■ ■ ■■■■■■■■ ■■■■■■■■■■■■■■■■ ■■■■■■■■■■■■■ Promotional claims about operating economics or detection superiority do not establish a comparative outcome for a proposed airport.

OSI Systems' fiscal 2026 filing identifies Rapiscan as a security-products trade name and describes direct sales, independent distributors and authorized service providers. These are distinct commercial relationships: a distributor's appointment does not automatically establish maintenance authority or responsibility for the wider installation. ■■■ ■■■■■■ ■■■■ ■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■ ■ ■■■■■■■■■■■■■■■■■■ ■■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■■■■ ■■■■■■ ■■■■■■■■■■

[illegible] Direct equipment purchasing can retain control over the integration prime, but leaves the buyer responsible for coordinating separate obligations. A broader supported package is preferable only where the selected counterparty accepts those obligations for the actual installation.

Sources & Evidence

1. OSI Systems, Inc. Form 10-K for the fiscal year ended June 30, 2026
   - OSI Systems' fiscal 2026 filing identifies Rapiscan as a security-products trade name and describes direct sales, independent distributors, authorized service providers and post-warranty maintenance relationships. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/osis-20260630x10k.htm))
   - Company verification: OSI Systems' fiscal 2026 filing identifies Rapiscan as its security-products trade name and describes continuing airport, baggage-inspection and related service activities.
   - Company verification: The filing supports reporting Rapiscan Systems as an operating portfolio within OSI Systems rather than as an independent ultimate parent.
2. RTT110 | Rapiscan Systems
   - Rapiscan Systems markets RTT110 for airport hold-baggage screening and flexible system integration. Promotional comparisons are not adopted as independently established outcomes. ([rapiscansystems.com](https://www.rapiscansystems.com/products/rapiscan-rtt-xx.xx))
   - Company verification: Rapiscan Systems markets RTT110 for airport hold-baggage screening and baggage-handling-system integration.
3. Voti Support & Sales Going Forward
   - Company verification: The VOTI business notice states that Rapiscan Holdings acquired substantially all VOTI assets on December xx.xx 2022, and that Rapiscan Systems would manufacture VOTI products and provide support.

20.4. Nuctech

Nuctech's Kylin Ti portfolio provides a Chinese airport sourcing reference for CT-based hand-baggage inspection. [illegible] These descriptions establish the offered equipment and software positioning, not permission to deploy a particular configuration or transfer screening images across jurisdictions.

[illegible] This is a named, supplier-reported airport example that makes the combined scanner-and-automation proposition more concrete than a general product catalog. It is not independent proof of comparative performance, the installation's acceptance terms or the scope of ongoing support.

For a China-focused airport procurement, the relevant comparison is a documented Kylin Ti installation and its associated integration and service commitments versus separately contracted screening automation. Buyers should establish which entity supports the interfaces and accepts site obligations. [illegible]

■■■■■■■ ■■■■■■■■■■■■■■ ■■■ ■■■■■■■■■ ■■ ■■ ■■■■■■■■ ■■■■■■■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■ ■■■ ■■■■■ ■■■■■■■■ ■■ ■■■■■■■■■■

Sources & Evidence

1. ECAC Common Evaluation Process (CEP) of security equipment

   · ECAC evaluation applies to listed configurations and does not constitute national approval; this supports a bounded check when ECAC evaluation is relevant to a Nuctech offer. ([ecac-ceac.org](https://ecac-ceac.org/activities/security/common-evaluation-process-cep-of-security-equipment))

2. Kylin Ti CT 型行李/物品检查系统

   · Nuctech catalogs Kylin Ti CT baggage inspection for airport hand-baggage and customs applications and advertises networked image review and remote equipment-management functions. ([nuctech.com](https://www.nuctech.com/productdetail?id=49f383d5-838f-4ea8-96d1-xx.xx))

   · Company verification: Nuctech publicly catalogs the Kylin Ti CT baggage inspection system and identifies airport hand-baggage screening as an application.

3. Nuctech Wins Excellent Aviation Security Solution Provider Award for Third Consecutive Year, Empowering Smart Civil Aviation with Technological Innovation

   · Nuctech's account of its 2025 aviation activity reports Kylin Ti and automatic tray-return equipment at Shenzhen Airport. The deployment description is supplier-reported, not an independent comparative assessment. ([nuctech.com](https://www.nuctech.com/news?id=c08def70-8d27-4bb8-ba1e-dee9d996c3fd))

   · Company verification: Nuctech's account of its 2025 aviation applications identifies baggage-screening deployments at Chinese airports, including Kylin Ti equipment at Shenzhen Airport.

20.5. SureScan Corporation

SureScan Corporation offers a specialist portfolio spanning the x1000 checked-baggage CT system and the DETECT xx.xx checkpoint platform. Its completed acquisition of IDSS, announced on April xx.xx 2024, explains the expansion across cabin- and hold-baggage applications. ■■■■ ■■■■■■■ ■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■ ■■■■■■ ■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■■■■■■ ■■■ ■■■■ ■■■ ■■■■■■■■■■ ■■■■■■ ■■■■■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■ ■■■■■■ ■■ ■■■■■■■■■ ■■■■■■■■■■ ■■ ■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■■

■■■ ■■■ ■■ ■■■■■ ■■■■■■■■■■■■ ■■ ■■ ■■■■■■■■ ■■ ■■■■■■■■ ■■■■■■ ■■■■■■■■■■ ■■■■■■ ■■■ ■■■■■■■■■■■■■ ■■ ■■■■■ ■■ ■■■ ■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■■■ ■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■ The stated project concerns a segment of an existing system, making it relevant to partial replacement rather than only new installations. The announcement establishes an awarded relationship and intended deployment, not completed commissioning or airport acceptance.

DETECT xx.xx is advertised for integration with third-party tray-return systems and additional software capabilities. ■■ ■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■ ■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■■ ■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■ ■■ ■■■■■■■■■■■■ ■■ ■■■ ■■■■■■■■ ■■■■■■■■■■■ ■■■ ■■■■■■■■■■■ ■■■■■■■ ■■■■■■ ■■■■■■■■■■ ■ ■■■■■■■■■■■■ ■■■■■■■■■ ■■■■■■ ■■■■■■ ■■■■■■■■■■■■■■■■■■■ ■■■■■■■■ ■■■■■■ ■■■■■■■■ ■■ ■■■ ■■■■ ■■■■■■ ■■ ■■■■ Consolidating cabin- and checked-baggage purchases may simplify supplier coordination, while separate application-specific sourcing preserves equipment choice and avoids assuming that portfolio ownership resolves every integration or support obligation.

Sources & Evidence

1. SureScan Completes Acquisition of IDSS
   · SureScan announced completion of its purchase of IDSS Corporation on April xx.xx 2024, expanding its checkpoint and hold-baggage portfolio. ([surescaneds.com](https://surescaneds.com/2024/xx.xx/surescan-completes-acquisition-of-idss/))
   · Company verification: SureScan announced completion of its purchase of IDSS Corporation on April xx.xx 2024, bringing checkpoint and checked-baggage products into its portfolio.
2. x1000_Product - SureScan Corporation
   · SureScan markets x1000 as a CT explosive-detection system for checked-baggage screening. ([surescaneds.com](https://surescaneds.com/x1000/))
3. Detect_1000_Product - SureScan Corporation
   · SureScan markets DETECT xx.xx for checkpoint screening and advertises third-party tray-return integration and additional software capabilities. These are offering statements, not customer-specific interface permissions. ([surescaneds.com](https://surescaneds.com/detect/))
4. Airports of Thailand Awards SureScan Contract for Hold Baggage Screening System
   · The May xx.xx 2026 announcement reports an Airports of Thailand award for x1000 redevelopment of part of Bangkok Suvarnabhumi Airport's existing hold-baggage system; deployment is described prospectively. ([surescaneds.com](https://surescaneds.com/2026/xx.xx/airports-of-thailand-awards-surescan-contract-for-hold-baggage-screening-system/))
   · Company verification: SureScan's May xx.xx 2026 announcement reports an Airports of Thailand contract involving x1000 hold-baggage screening equipment at Bangkok Suvarnabhumi Airport.
   · Company verification: The announcement establishes an awarded project, not completed deployment.
5. About_Titles - SureScan Corporation
   · Company verification: SureScan identifies itself as privately held and names The Matco Group as its parent company.
6. The Chertoff Group, SureScan, and VMD Announce Joint Venture to Revolutionize Airport Security with Gigaplex (TM) Remote Screening Technology - Xcelerate Solutions
   · Company verification: The announcement names SureScan Corporation as a Gigaplex participant contributing image-processing, networking and product-development expertise.
7. Markets - SureScan Corporation
   · Company verification: SureScan's aviation-security portfolio offers x1000 and DETECT xx.xx for passenger checked- and carry-on-baggage screening.
8. Falcone-Borsellino International Airport Selects SureScan x1000 - SureScan Corporation
   · Company verification: SureScan's announcement dated October xx.xx 2022 identifies Falcone-Borsellino International Airport's selection of x1000 for checked-baggage screening.
9. About - Gigaplex
   · Company verification: Names SureScan as a Gigaplex partner contributing image-processing, networking and product-development expertise.

20.6. Vanderlande

[redacted] PAX MX2 is marketed as a dual-lane checkpoint concept, with tray handling and integration with PAX Multiplex software for remote image analysis and data collection. It gives an airport a lane-and-software purchasing option that should be separated from the scanner's own scope.

Vanderlande's Frankfurt Airport reference describes PAX MX2 integrated with PAX Multiplex and identifies support through its local German presence. [redacted]

RESEARCH SAMPLE REPORT

[redacted]

An airport with constrained checkpoint space can evaluate the package alongside a detector-led bundle, provided the proposed scanner interface, image-management license, commissioning responsibility and continuing support are documented. [redacted] The counterforce is the remaining interface with the detector supplier: the package is unsuitable as a shortcut where neither party accepts responsibility for the combined installation.

Sources & Evidence

1. PAX MX2 - Vanderlande
   - Vanderlande markets PAX MX2 checkpoint lanes integrated with PAX Multiplex for remote image analysis and data collection. ([vanderlande.com](https://www.vanderlande.com/fr/systemes/controle-de-securite/pax-mx2/))
2. PAX MX2 security screening system first installed at Frankfurt Airport
   - Vanderlande's Frankfurt reference describes PAX MX2 with tray-return functions, PAX Multiplex integration and support through its German presence; performance benefits remain supplier assertions. ([vanderlande.com](https://www.vanderlande.com/news-insights/pax-mx2-security-screening-system-first-installed-at-frankfurt-airport/))
3. Systems - Vanderlande
   - Company verification: Vanderlande offers integrated hand-luggage and hold-baggage screening solutions and the PAX MX2 and PAX ADVANCED checkpoint products.
4. Vanderlande completes acquisition of Siemens Logistics in Europe, Asia and Middle East
   - Company verification: Vanderlande reports completion of its acquisition of Siemens Logistics in Europe, Asia and the Middle East, expanding its airport baggage and cargo handling business.
5. Vanderlande completes acquisition of Siemens Logistics in the United States
   - Company verification: Reports completion of the Siemens Logistics U.S. acquisition.

20.7. SeeTrue

SeeTrue provides a separately supplied detection-software option rather than a replacement primary baggage scanner. Its APIDS portfolio identifies CT integrations including Analogic ConneCT and Rapiscan 920CT. [redacted]

Westminster Group's April xx.xx 2026 announcement establishes a named SeeTrue partnership for AI-enhanced X-ray and CT screening, positioned as an enhancement to existing equipment. The partner relationship provides a commercial route beyond a manufacturer-owned application portfolio. [redacted]

[redacted]

[redacted] The potential advantage is retaining equipment while changing the application layer; the trade-off is additional coordination among the software supplier, channel partner and scanner manufacturer. A manufacturer-led package remains preferable where the required access or change responsibility cannot be secured.

Sources & Evidence

1. ECAC Common Evaluation Process (CEP) of security equipment
   - ECAC distinguishes configuration-specific evaluation from approval by the appropriate national authority, qualifying reliance on SeeTrue's promotional certification language. ([ecac-ceac.org](https://ecac-ceac.org/activities/security/common-evaluation-process-cep-of-security-equipment))
2. APIDS for CT Screening | ECAC-Approved AI - SeeTrue
   - SeeTrue markets APIDS as a CT screening software layer, identifies Analogic ConneCT and Rapiscan 920CT combinations, and states that platform-specific certification does not transfer to other scanner models. ([seetrue.ai](https://www.seetrue.ai/apids-for-ct/))
   - Company verification: SeeTrue markets APIDS software for CT baggage screening and identifies compatibility with Analogic ConneCT and Rapiscan 920CT.
   - Company verification: The vendor's regulatory assertions were not independently verified against configuration-specific authority records.
3. Westminster Group launches AI-enhanced X-ray screening capability with SeeTrue
   - Westminster's April xx.xx 2026 announcement establishes its SeeTrue partnership for software enhancement of existing X-ray and CT equipment; it does not name a paid airport installation. ([wg-plc.com](https://www.wg-plc.com/news/westminster-group-launches-ai-enhanced-x-ray-screening-capability-with-seetrue))
   - Company verification: The announcement establishes SeeTrue's named software partnership with Westminster for X-ray and CT screening.

20.8. Bruker

Bruker's DE-tector flex represents supplementary trace detection within Airport Baggage Screening Systems, not an interchangeable alternative to primary baggage X-ray or CT imaging. Bruker markets the ion mobility spectrometry product for airport applications involving personal property. [redacted]

[redacted] It also reports earlier-generation Bruker detectors at Geneva Airport. These are relevant airport relationships, but the announcement does not establish completion of the Zurich installation program or a DE-tector flex deployment at Geneva.

[redacted] The Zurich project requires separate acceptance confirmation if a commissioned reference is essential to selection. Keeping this supplementary

purchase separate from primary imaging preserves a meaningful comparison of trace equipment, while adding its own consumable and support commitments.

Sources & Evidence

1. DE-tector flex | Bruker
   - Bruker markets DE-tector flex as IMS trace detection for airport personal-property applications and advertises planned maintenance, factory repair and on-site service by factory-trained engineers. ([bruker.com](https://www.bruker.com/en/products-and-solutions/cbrne-detectors/ims/de-tector-flex.html))
2. Bruker to Provide Explosives Trace Detectors for Zuerich Airport
   - Bruker's August xx.xx 2023 announcement records a Zurich DE-tector flex replacement order with installations planned during 2024-2025 and reports earlier-generation detectors at Geneva. It does not confirm Zurich completion. ([ir.bruker.com](https://ir.bruker.com/press-releases/press-release-details/2023/Bruker-to-Provide-xx.xx-Explosives-Trace-Detectors-for-Zuerich-Airport/default.aspx))
   - Company verification: Bruker's August xx.xx 2023 announcement records a Flughafen Zürich order for DE-tector flex trace detectors with installations planned during 2024-2025.
   - Company verification: The announcement reports earlier Bruker trace detectors at Geneva Airport; it does not confirm completion of the Zurich installation program.
3. DE-tector flex | Bruker
   - Company verification: Bruker markets DE-tector flex for airport trace-detection applications involving personal property.
   - Company verification: The offering is supplementary detection equipment, not a primary baggage X-ray or CT scanner.

20.9. K'(Prime) Technologies Inc.

K'(Prime) Technologies Inc. provides a buyer-corroborated example of equipment maintenance contracted separately from equipment manufacture. CATSA's corporate planning records the transfer of maintenance for most screening equipment from NAV Canada to KPrime Technologies in 2023/xx.xx. ■■■■■■■■■■ ■■■■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■ ■■■■■ ■■ ■■■ ■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■ ■■ ■■■■■■■■ ■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■ ■ ■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■■■ ■■ ■■■■■ ■■■ ■■■■■■■■■■ ■■■■■ ■■■■■■■■■ ■■■■■■■■■■ ■■ ■■■ ■■■■■■ ■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■■■ ■■■■■■■■■■

For a buyer managing a mixed installed fleet, the relevant comparison is the proposed maintenance agreement rather than the breadth of the equipment catalog. ■■■■■■ ■■■■■■■■■ ■■■ ■■■■■ ■■■■■■■■■ ■■ ■■■■■■■ ■■■■■■■■■■■ ■■■■■■ ■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■ ■■■■■■■ ■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■ ■■■ ■■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■■■■■■■■ ■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■■■■■ ■■ ■■■■■ ■■■■■■■■■■■ ■■■ ■■■■■■■■■■■■ ■■■■■■ ■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■ ■■ ■■■■■■■■■■■■ ■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■ ■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■ Neither model's general description establishes coverage for a particular installation.

Sources & Evidence

1. Service
   - Smiths Detection advertises direct on-site service, technical support, training, and tailored support plans, establishing a manufacturer-service alternative without establishing coverage for a prospective installation. ([smithsdetection.com](https://www.smithsdetection.com/service/))
2. Key Corporate Risks - CATSA
   - CATSA's 2024-2025 to 2028-2029 planning records the transition of maintenance for most screening equipment from NAV Canada to KPrime Technologies in 2023/xx.xx; it does not identify every covered installation. ([catsa-acsta.gc.ca](https://www.catsa-acsta.gc.ca/en/publications/key-corporate-risks))
   - Company verification: CATSA states that maintenance of most screening equipment transitioned from NAV Canada to KPrime Technologies in 2023/xx.xx.
3. About Us | K'(Prime) Technologies
   - K'(Prime) identifies itself as wholly owned by Nanalysis Scientific Corp. and describes airport imaging-equipment maintenance and its CATSA maintenance relationship. ([kprime.net](https://www.kprime.net/about/))
   - Company verification: K'(Prime) identifies its exact operating name, Calgary headquarters and wholly owned relationship with Nanalysis Scientific Corp.
   - Company verification: Its current corporate page identifies its national CATSA equipment-maintenance contract and airport imaging-services role.
   - Company verification: Identifies the Calgary-based business as wholly owned by Nanalysis Scientific Corp.
4. Security Imaging Services & Products | K'(Prime) Technologies
   - K'(Prime) advertises security-imaging maintenance, equipment sales and distribution, installation, and equipment training in Canada. These are advertised services rather than a new customer's executed support agreement. ([kprime.net](https://www.kprime.net/services/))
   - Company verification: Advertises Canadian security-imaging services covering baggage X-ray systems, explosive detection equipment and airport customers.

20.10. Brock Solutions

Brock Solutions contributes baggage controls, software, and screening integration rather than an interchangeable replacement for a baggage scanner. ■■■ ■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■ ■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■ ■ ■■■■■■■■■ ■■■■ ■■■■■■■■■■■ ■■ ■■■ ■■■■■■■■ ■■■■■■■■■■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■■■■■■ ■■■■■■■■■■ That historical record explains the screening-related integration role but does not establish present authorization or bring all of Brock's baggage-tracking and handling activities within baggage screening.

■ ■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■■■■■■ ■■■ ■■■■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■ ■■■■■■■■■■■■■ ■■■■■ ■■■■■ ■■■■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■ ■■■■■■■■ ■■ ■■■■■■■■ ■■ ■■■ ■■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■ ■■■ ■■■■ ■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■■■ ■■ ■ ■■■■■ ■■■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■■ ■■■■■■■■ ■■ ■■■■■■■■ ■■■■■■■■■■■ ■■ ■■■■■■■ ■■■■■■■ ■■■■■■■ ■■■■■■■■■■■ Airlines considering a similar arrangement should first secure the participating authorities, airport responsibilities, information-sharing permissions, and support commitments. Buying connectivity alone is not equivalent to securing the cross-institutional screening arrangement; a conventional local arrangement remains the practical alternative where those commitments are unavailable.

Sources & Evidence

1. United Launches CBP's International Remote Baggage Screening on Select International Flights
   · United's September xx.xx 2025 announcement names Brock Solutions, BagCheck, and Sydney Airport as partners in the Sydney-San Francisco IRBS initiative involving CBP and TSA. It does not specify Brock's complete contractual work package or authorize other routes. ([united.mediaroom.com](https://united.mediaroom.com/2025-xx.xx-xx.xx-United-Launches-CBPs-International-Remote-Baggage-Screening-on-Select-International-Flights))
2. Brock Solutions' Automated in-Line EDS Baggage Screening System Technology Recertified With the US Government's Department of Homeland Security
   · Brock's September xx.xx 2014 announcement identifies SmartSort, SmartSuite, detection-equipment integration, and commissioning within its in-line EDS integration offering. Its historical scope does not establish present authorization. ([brocksolutions.com](https://www.brocksolutions.com/eds-baggage-screening-system-homeland-security/))
   · Company verification: The September xx.xx 2014 business announcement describes Automated In-Line EDS Baggage Screening System integration and U.S. airport deployments.
3. Baggage Handling Systems - Brock Solutions
   · Brock advertises SmartSort for baggage sortation and high-level control. This broader baggage-system portfolio requires separation from the screening-related integration scope. ([brocksolutions.com](https://www.brocksolutions.com/baggage-handling-systems/))
4. Who We Are - Brock Solutions
   · Company verification: Identifies Brock Solutions as privately held and employee owned, with Canadian and U.S. business locations.

20.11. K2 Security Screening Group

K2 Security Screening Group has a buyer-documented integration-prime role that is distinct from originating the component technologies. K2 Consulting presents the group as an operating division. ■■ ■■■■■ ■■■ ■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■■ ■■ ■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■ ■■■ ■■■ ■■■ ■■■■■■■■ ■ ■■■■■■■■■■ ■■■■■■■ ■■■■ ■■■■ ■■■ ■■■■ ■■■■■■■■■■ ■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■■■■■■■ ■■■■■■ ■■■■■■■■ ■■ ■■■■■■■■■ ■■■ ■■■■■■■■■ ■■■ ■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■ ■■■■■■■■ ■■■■■■■■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■■ ■■ ■■■■■■■■■ ■■ ■■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■

For a terminal developer, this model offers a route to coordinated procurement and installation across several suppliers. ■■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■ ■■ ■■■ ■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■■ ■■■■ ■■■■■■■■■ ■■■■■■ ■■■■ ■■■ ■■■■■■ ■■■■■■■■■■■ ■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■ ■■■■■■■■■■■ ■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■ ■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■ ■■■ ■■■■■■■■■ ■■ ■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■ The JFK appointment is a relevant delivery reference, not proof that another terminal's eligibility, compatibility, or support requirements are already satisfied.

Sources & Evidence

1. JFK Millennium Partners Selects K2 to Deliver State-of-the-Art Security Screening Checkpoint at new JFK Terminal 6
   - JFK Millennium Partners announced on March xx.xx 2025 that K2 Security Screening Group would procure, install, and deploy the Terminal xx.xx checkpoint while coordinating with authorities and technology providers. Announced baggage-related equipment includes CT and automated bin return; the announcement is not a completion record. ([portauthoritybuilds.com](https://www.portauthoritybuilds.com/redevelopment/us/en/jfk/planned-projects/terminal-xx.xx/news/jfk-millennium-partners-selects-k2-to-deliver-state-of-the-art-s.html))
2. About us main - K2 Consulting
   - K2 Consulting identifies Security Screening Group among its operating divisions and describes its airport screening-equipment installation and integration role. ([k2consulting.com](https://www.k2consulting.com/about-us-main/))
   - Company verification: K2 identifies Security Screening Group as one of its operating divisions and describes airport screening-equipment planning, installation and integration.
   - Company verification: Its corporate material identifies recent management activity and named airport projects, including LaGuardia, Atlanta, San Francisco, Los Angeles and Salt Lake City.
3. Security Checkpoint in Airport | Project Security Screening
   - Company verification: Describes airport checkpoint and checked-baggage equipment deployment services.
   - Company verification: Identifies screening-system installation or integration projects at LaGuardia, Atlanta, Los Angeles and Deadhorse airports.

20.12. SEGMAN S.A. DE C.V.

[redacted] It claims exclusive distribution in Mexico, Guatemala, Nicaragua, and Honduras and factory-certified technical support. These are SEGMAN's representations; they do not independently establish the manufacturer's current appointment or its product-specific territorial terms.

The offering is a regional equipment-and-service channel, not a separate originator of Smiths Detection technology. [redacted] A local intermediary may simplify coordination, but that benefit depends on documented manufacturer backing and site coverage rather than the distributor's geographic claim alone.

Sources & Evidence

1. Service
   - Smiths Detection's direct service offering is a comparison option alongside a regional intermediary; the page does not confirm SEGMAN's appointment or a particular country's service arrangement. ([smithsdetection.com](https://www.smithsdetection.com/service/))

2. SEGMAN S.A. DE C.V. - Smiths Detection
   - SEGMAN advertises Smiths Detection airport baggage and checkpoint equipment, maintenance, warranty assistance, on-site support, and training. Exclusivity in Mexico, Guatemala, Nicaragua, and Honduras and factory certification are SEGMAN's own claims, not independent manufacturer confirmation. ([segman.com](https://segman.com/smithsdetection.html))
   - Company verification: Advertises Smiths Detection airport baggage inspection and checkpoint solutions in Mexico.
   - Company verification: States an exclusive Mexican distribution role and associated equipment-maintenance support.
   - Company verification: SEGMAN advertises Smiths Detection distribution in Guatemala, Nicaragua and Honduras.
   - Company verification: Its business page links airport/checkpoint baggage-inspection offerings and advertises equipment maintenance and support.

20.13. Agilent Technologies

Agilent Technologies addresses a dedicated checkpoint alarm-resolution purchase rather than the primary full-baggage imaging requirement. Its Raman-based Insight300M and InsightBLS systems are marketed for material identification, with different container coverage: Insight300M includes metallic containers, while InsightBLS addresses nonmetallic containers. ■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■ ■■■■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■■■■■■■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■■ ■■ ■■■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■■■■ ■■■■ ■ ■■■■■■■■ ■■■■■■■ ■■ ■■■■■■■

A separate U.S. access milestone strengthens the business evidence beyond a general product listing. On May xx.xx 2026, Agilent announced a TSA contract for Bulk Alarm Resolution Technology at U.S. airports hosting FIFA World Cup matches. ■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■■ ■ ■■■■■■■■ ■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■■ ■■ ■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■ ■■ ■■■■■ ■■■■■■■■ ■■■■■■■ ■■ ■■■■■■■■■ ■■■■■■■■■■■■■ ■■■ ■■■■■ ■■■■■■■■ ■■■■■■■■■■■■■■

Checkpoint buyers should define the alarm-resolution function, container coverage, and applicable authority acceptance before comparing offers. ■ ■■■■■■■■■ ■■■■ ■■ ■■■■■■■■ ■■■■■ ■■■■ ■■■■■■■■■■■■ ■■■■■■■■ ■■ ■■■ ■■■■■■■■■■ ■■■■■ ■■ ■■■■■ ■■■ ■■■■■■■ ■■ ■■■■■■■■■■■■ ■■■■■■■■■■■ ■■ ■■■■■■■ ■■■ ■■■■■■■ ■■■■■■■■ Supplier performance claims should remain separate from demonstrated outcomes at the proposed installation.

Sources & Evidence

1. Liquid Explosive Detector, Bottle Liquid Scanner, Insight
   - Agilent markets the Raman-based Insight300M and InsightBLS for checkpoint alarm resolution, including standalone use or use alongside cabin-baggage explosive-detection systems. The stated container coverage differs between the models; product positioning does not establish a proposed installation's authorization. ([agilent.com](https://www.agilent.com/en/product/molecular-spectroscopy/raman-spectroscopy/raman-aviation-security-systems/insight-series-alarm-resolution-systems))
2. Agilent to Supply Next Generation Alarm Resolution Technology to U.S. Airport Security Screening Checkpoints ahead of FIFA World Cup 2026
   - Agilent's May xx.xx 2026 release reports a TSA award for Bulk Alarm Resolution Technology intended for checkpoints at U.S. FIFA World Cup host-city airports. It establishes a reported award, not completed commissioning or approval of every Insight configuration. ([agilent.com](https://www.agilent.com/about/newsroom/presrel/2026/19may-gp26010.html))

3. Liquid Explosive Detection System, Insight200M | Agilent
   - Company verification: Offers Insight200M for liquid-explosive detection and checkpoint alarm resolution associated with cabin-baggage screening.
   - Company verification: The product page records the September xx.xx 2025 launch of the Insight300M and InsightBLS airport-security range.
4. Selmatec helps enhancing Security and Passenger Experience at Copenhagen Airport with State-of-the-Art Checkpoint Upgrade
   - Company verification: Selmatec's Copenhagen project announcement identifies Agilent Cobalt Insight200 liquid-screening equipment among the installed technologies.
5. Contact Us | Agilent
   - Company verification: Agilent's Finnish contact record lists Cobalt Insight liquid explosive detection systems within airport security.

20.14. Westminster Group Plc

Westminster Group Plc combines airport equipment supply and technical lifecycle support with a broader managed-security offering. ■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■ ■■■■■■ ■■■ ■■■■■■■■■■■■ ■■■■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■■ ■■■ ■■■■ ■■■■■■■■■ ■■■■■■ ■■■ ■■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■ ■■■■ ■■■■■■■■ ■■■■■■■■■■ Buyers therefore need to identify the operating company accepting each obligation rather than assume that the group brand is the contracting counterparty.

■■■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■■■ ■■■■ ■■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■ ■ ■■■■■■ ■■■■■■■■■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■■ ■■ ■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■ ■■■■ ■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■ For comparable procurement, an airport should specify equipment, replacement, upgrade, and maintenance responsibilities separately even when purchasing a broader package. Bundling can reduce coordination, but it can also make the equipment-support boundary less transparent.

■■■ ■■■■■ ■■ ■■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■■■ ■ ■■■■■■■■ ■■■■■■■■■■■■■■■■■■■■■ ■■■■■ ■■■ ■■■■■■■■ ■■■■■ ■■■ ■■ ■■■■■■■■■■■■■■■ It does not establish a paid airport deployment or a customer's integration rights. Buyers considering that route should require the supported equipment combination, license scope, authority acceptance, and warranty allocation before treating the announcement as an executable retrofit offer.

Sources & Evidence

1. Westminster Group launches AI-enhanced X-ray screening capability with SeeTrue
   · Westminster announced an AI-enhanced X-ray and CT offering with SeeTrue on April xx.xx 2026, positioned to enhance existing equipment. The announcement does not identify a paid airport deployment or establish customer-specific integration permissions. ([wg-plc.com](https://www.wg-plc.com/news/westminster-group-launches-ai-enhanced-x-ray-screening-capability-with-seetrue))
   · Company verification: Westminster's April xx.xx 2026 announcement advertises an AI-enhanced X-ray and CT screening capability in partnership with SeeTrue, including aviation applications.
   · Company verification: The announcement does not identify a paid airport deployment or establish AWLS ownership.
2. About Westminster Group Plc
   · Westminster describes technology and managed-service divisions and identifies Westminster International Ltd with technical supply and Westminster Aviation Security Services Ltd with aviation expertise. The group description does not establish the contracting company for a particular airport engagement. ([wg-plc.com](https://www.wg-plc.com/company/about-us))
3. Airports & Aviation - Westminster Group
   · Westminster advertises cabin- and hold-baggage X-ray equipment, conveyors, tray-return systems, and broader airport managed services. These offerings support separating equipment and technical commitments from the wider security-service package. ([wg-plc.com](https://www.wg-plc.com/sectors/air))
   · Company verification: Currently advertises airport checkpoint and hold-baggage X-ray equipment and screening-related conveyor and tray-return systems.
4. Complete Security at Freetown International Airport - Westminster Group
   · Westminster's undated Freetown case describes checked- and carry-on-baggage equipment, maintenance, and upgrades within wider airport-security services. It does not establish the present contract period, renewal status, or current site-support terms. ([wg-plc.com](https://www.wg-plc.com/case-studies/complete-security-at-freetown-internation-airport))
   · Company verification: Describes installation of checked- and carry-on-baggage X-ray equipment, maintenance and upgrades within its Freetown International Airport project in Sierra Leone.
5. X-Ray Screening Solutions
   · Company verification: Westminster advertises sales, installation, commissioning and maintenance of X-ray baggage scanners.
   · Company verification: Its screening-solutions page expressly includes aircraft hold-baggage applications.
6. Ghana - Westminster Group operations
   · Company verification: Documents Westminster's Ghana route to market through AWLS, including equipment supply and maintenance.
7. Westminster Group Hosts Senior Ghanaian Delegation
   · Company verification: Westminster's September xx.xx 2025 announcement documents a business event organized in partnership with AWLS Ghana Ltd.

20.15. Micro-X Limited

[redacted] Its product portfolio describes a modular baggage CT scanner being developed with Department of Homeland Security funding for passenger self-screening checkpoints. Government evaluation establishes a customer-development relationship, not permission for routine airport deployment.

[redacted] Continued government backing is relevant counterevidence to an assumption of inactivity, but it does not itself establish executable airport supply. Buyers with an immediate replacement requirement should retain an eligible, contractually supportable alternative.

Sources & Evidence

1. Micro-X Limited - Appendix 4D and Half-Year Financial Statements, December 31, 2025
   · Micro-X Limited's half-year filing for the period ended December xx.xx 2025 identifies baggage-scanner and passenger-checkpoint prototypes delivered for U.S. government evaluation under a DHS development relationship. It does not establish routine airport deployment authorization. ([announcements.asx.com.au](https://announcements.asx.com.au/asxpdf/xx.xx/pdf/06wvv0c8dp5kvj.pdf))
   · Company verification: The February xx.xx 2026 filing reports Australian airport-checkpoint development and prototype deliveries for U.S. government evaluation.
2. Baggage CT Scanner - Micro-X
   · Micro-X describes a modular baggage CT scanner under development with DHS funding for passenger self-screening checkpoints. The page's development positioning is not a commercial delivery commitment. ([micro-x.com](https://www.micro-x.com/industry/security-solutions/baggage-ct-scanner))
3. Micro-X Limited - DHS Extension Moves CT Baggage Scanner Towards Commercialisation
   · The board-authorized September xx.xx 2026 announcement states that Micro-X Inc., the U.S. subsidiary, signed a DHS development extension. It describes standalone scanner supply as potential and further commercialization as prospective, rather than announcing an airport equipment deployment. ([app.sharelinktechnologies.com](https://app.sharelinktechnologies.com/announcement/asx/2024600ba70c54eaf78af19fd5a6b509))

20.16. Point FWD

[redacted] In its Zurich Airport case, Point FWD reports supporting requirement definition, tender preparation, and stakeholder coordination. This is a supplier-reported reference, not independent proof of superior airport outcomes.

An airport can purchase this advisory role separately when it needs to establish a common brief before comparing manufacturers and integration primes. [redacted] Before appointment, the buyer should confirm the contracting

entity, independence arrangements, deliverables, and handoff to equipment procurement rather than equate advertised vendor neutrality with guaranteed results.

Sources & Evidence

1. Services | Planning and Design Security Checkpoints - Point FWD
   - Point FWD advertises airport checkpoint planning, functional design, CT and automatic-tray-return transition assistance, vendor-neutral procurement support, tender preparation, and implementation guidance. These establish an advertised advisory offering, not an equipment-delivery obligation. ([pointfwd.com](https://www.pointfwd.com/services-planning-and-design))
   - Company verification: Point FWD advertises airport checkpoint planning, CT and automatic-tray-return transition support, vendor-neutral procurement support and implementation guidance.
   - Company verification: The page establishes a screening-specific advisory offering rather than scanner manufacturing.
2. Full-Scale Security Checkpoint Transition at Zurich Airport - Point FWD
   - Point FWD's Zurich Airport case reports requirement definition, tender preparation, and stakeholder coordination. It is a supplier-published customer reference rather than independent evidence of superior outcomes. ([pointfwd.com](https://www.pointfwd.com/cases/full-scale-security-checkpoint-transition-guidance))
3. Terms and conditions - Point FWD
   - Point FWD's legal notice identifies Point FWD B.V. in the Netherlands. This supports the business identity but does not independently establish the legal party to a future advisory contract. ([pointfwd.com](https://www.pointfwd.com/terms-and-conditions))
4. XSPERINSE - Project Fact Sheet | CORDIS | European Commission
   - Company verification: The project record identifies POINT FWD BV as a Netherlands-based private-sector participant in the same aviation-screening project.

Sources & Evidence

1. OSI Systems, Inc. - Form 10-K for the fiscal year ended June 30, 2026
   - Company verification: OSI Systems' fiscal 2026 filing identifies Rapiscan as its security-products trade name and describes continuing airport, baggage-inspection and related service activities.
   - Company verification: The filing supports reporting Rapiscan Systems as an operating portfolio within OSI Systems rather than as an independent ultimate parent.
2. About_Titles - SureScan Corporation
   - Company verification: SureScan identifies itself as privately held and names The Matco Group as its parent company.
3. Airports of Thailand Awards SureScan Contract for Hold Baggage Screening System - SureScan Corporation
   - Company verification: SureScan's May xx.xx 2026 announcement reports an Airports of Thailand contract involving x1000 hold-baggage screening equipment at Bangkok Suvarnabhumi Airport.
   - Company verification: The announcement establishes an awarded project, not completed deployment.
4. DAIFUKU PROFILE 2026
   - Company verification: Daifuku's 2026 corporate profile includes airport security lanes and baggage-inspection-related equipment in its current product portfolio.

5. About us | Daifuku Airport Netherlands
   - Company verification: The operating company's official page identifies Daifuku Airport Netherlands as wholly owned by Daifuku Co., Ltd.
   - Company verification: The page states that the Scarabee name was discontinued and the business continued as Daifuku Airport Netherlands, supporting continued group-level reporting under Daifuku.
6. The Group - Alstef Group
   - Company verification: Alstef's corporate page identifies the Alstef Group operating structure, including Alstef Automation, Alstef New Zealand and Alstef USA.
   - Company verification: The page records the group's rebranding and acquisition history and includes business information for 2025, supporting continuing group-level operations.
7. Baggage Handling Systems | Airport BHS Solutions - Alstef Group
   - Company verification: Alstef expressly offers hold-baggage screening integration.
   - Company verification: Its project portfolio describes integrated screening work at Marseille Provence, Princess Juliana and Henri Coandă airports, establishing a screening-specific integration role beyond generic baggage handling.
8. About Us | K'(Prime) Technologies
   - Company verification: K'(Prime) identifies its exact operating name, Calgary headquarters and wholly owned relationship with Nanalysis Scientific Corp.
   - Company verification: Its current corporate page identifies its national CATSA equipment-maintenance contract and airport imaging-services role.
   - Company verification: Identifies the Calgary-based business as wholly owned by Nanalysis Scientific Corp.
9. About us main - K2 Consulting
   - Company verification: K2 identifies Security Screening Group as one of its operating divisions and describes airport screening-equipment planning, installation and integration.
   - Company verification: Its corporate material identifies recent management activity and named airport projects, including LaGuardia, Atlanta, San Francisco, Los Angeles and Salt Lake City.
10. The Chertoff Group, SureScan, and VMD Announce Joint Venture to Revolutionize Airport Security with Gigaplex (TM) Remote Screening Technology - Xcelerate Solutions
    - Company verification: The December xx.xx 2024 announcement names VMD Corp, an Xcelerate Solutions company, as a Gigaplex joint-venture participant.
    - Company verification: The announcement names SureScan Corporation as a Gigaplex participant contributing image-processing, networking and product-development expertise.
    - Company verification: The announcement names The Chertoff Group as a Gigaplex participant contributing intellectual property, networking and security expertise.
    - Company verification: The announcement does not establish paid airport deployments or separately attributable licensing revenue.
11. Critical Infrastructure Protection | Xcelerate Solutions
    - Company verification: Xcelerate identifies VMD Corp as its wholly owned subsidiary.
    - Company verification: The same service page advertises Gigaplex remote-screening technology for CT imaging and aviation-security applications, clarifying the parent/subsidiary relationship without establishing deployment revenue.
12. □□□□□ □□□ - □□□□□□□ □□□□□□□
    - Company verification: The Lebanese government register identifies Al Hamra Group SARL in Rapiscan commercial representation records for Beirut airport baggage-inspection equipment.
    - Company verification: A later entry records a Rapiscan service-provider appointment valid through June xx.xx 2025; this historical appointment does not establish current authorization in October 2026.

13. Future Travel Experience 2026 - BEUMER Group
    - Company verification: BEUMER's September 2026 event offering continues to advertise Sectro as a passenger and carry-on-baggage screening system.
    - Company verification: The page establishes continuing promotion but does not identify an installed Sectro airport customer.
14. X-Ray Baggage Inspection Systems | ECIL | DAE | India
    - Company verification: ECIL's specific product page describes its own single-view and dual-view X-ray baggage inspection systems.
    - Company verification: The page does not identify an airport customer, so it does not resolve airport-specific participation or attribution against ECIL-Rapiscan.
15. HI-SCAN 10080 XCT | Explosives Detection System | Smiths Detection
    - Company verification: Smiths Detection markets the HI-SCAN xx.xx XCT as an explosive detection system for airport hold baggage, with baggage-handling-system integration.
16. TSA Awards Smiths Detection a Contract for Full-Size Computed Tomography Systems
    - Company verification: The June xx.xx 2023 company announcement identifies a TSA contract for full-size checkpoint CT systems and related services using HI-SCAN xx.xx CTiX and iLane.
17. Smiths Detection completes transition to CVC Capital Partners
    - Company verification: Smiths Detection announced completion of its transition from Smiths Group to CVC Capital Partners on June xx.xx 2026.
    - Company verification: The June xx.xx 2026 announcement confirms completion of Smiths Detection's transition from Smiths Group to CVC Capital Partners.
18. Checkpoint - Analogic
    - Company verification: Analogic markets ConneCT as an aviation checkpoint explosive detection system for carry-on baggage.
19. Press Release: Analogic and Leidos Complete Combination of Security Enterprise Solutions Businesses - Analogic
    - Company verification: The October xx.xx 2026 announcement confirms completion of the combination of Analogic with Leidos' Security Enterprise Solutions, Ports & Borders and Industrial Automation businesses.
    - Company verification: The October xx.xx 2026 announcement confirms completion of the combination with Leidos' Security Enterprise Solutions, Ports & Borders and Industrial Automation businesses.
    - Company verification: The combined privately held company operates under the Analogic brand from Salem, New Hampshire.
20. Aviation & Critical Infrastructure - Analogic
    - Company verification: Analogic's expanded aviation portfolio includes the ClearScan cabin-baggage explosive detection system and screening-management software.
21. TSA awards up to $1.3 billion to procure additional CT X-ray scanners for airport checkpoints
    - Company verification: TSA's April xx.xx 2023 announcement names Analogic Corporation as the supplier of base-size airport checkpoint CT units.
    - Company verification: TSA's April xx.xx 2023 announcement names Smiths Detection Incorporated as the supplier of full-size airport checkpoint CT systems.
22. RTT110
    - Company verification: Rapiscan Systems markets RTT110 for airport hold-baggage screening and baggage-handling-system integration.
23. Voti Support & Sales Going Forward
    - Company verification: The VOTI business notice states that Rapiscan Holdings acquired substantially all VOTI assets on December xx.xx 2022, and that Rapiscan Systems would manufacture VOTI products and provide support.
24. Kylin Ti CT 型行李/物品检查系统
    - Company verification: Nuctech publicly catalogs the Kylin Ti CT baggage inspection system and identifies airport hand-baggage screening as an application.

25. Nuctech Wins Excellent Aviation Security Solution Provider Award for Third Consecutive Year, Empowering Smart Civil Aviation with Technological Innovation
    - Company verification: Nuctech's account of its 2025 aviation applications identifies baggage-screening deployments at Chinese airports, including Kylin Ti equipment at Shenzhen Airport.
26. SureScan Completes Acquisition of IDSS - SureScan Corporation
    - Company verification: SureScan announced completion of its purchase of IDSS Corporation on April xx.xx 2024, bringing checkpoint and checked-baggage products into its portfolio.
27. Markets - SureScan Corporation
    - Company verification: SureScan's aviation-security portfolio offers x1000 and DETECT xx.xx for passenger checked- and carry-on-baggage screening.
28. Falcone-Borsellino International Airport Selects SureScan x1000 - SureScan Corporation
    - Company verification: SureScan's announcement dated October xx.xx 2022 identifies Falcone-Borsellino International Airport's selection of x1000 for checked-baggage screening.
    - Company verification: The same announcement identifies Gilardoni Raggi X SpA as SureScan's partner serving the Italian airport opportunity.
29. TSA Scanners | Aviation Security | Airport Security Scanners
    - Company verification: Astrophysics explicitly markets airport checkpoint scanners for carry-on luggage and hold-baggage scanners.
30. Aviation Security & Safety Solutions
    - Company verification: Vehant's aviation portfolio includes X-ray baggage scanners and identifies the KritiScan series as a baggage-screening offering.
31. Transportation Systems - Shanghai Eastimage Equipment Co., Ltd.
    - Company verification: Shanghai Eastimage's aviation page reports airport baggage-scanner references in Indonesia, Sri Lanka and Sudan, including the EI-100100M at Khartoum.
    - Company verification: The references are undated and do not establish current airport operating status or current regulatory authorization.
    - Company verification: Continues to publish an undated EI-100100M baggage-scanner installation reference for Khartoum International Airport, Sudan.
32. Airport Security Solutions for Customs & Cargo | LINEV Systems
    - Company verification: LINEV Systems markets airport customs baggage inspection and lists BV 100100DV and BV 100100TB systems.
    - Company verification: The page identifies product availability through its U.S., U.K. and UAE businesses; this is not proof of a specific airport sale.
33. Make in India (MII) Initiatives | ECIL | DAE | India
    - Company verification: ECIL's official Make in India page states that it supplies X-Ray Baggage Inspection Systems to vital and strategic establishments.
    - Company verification: The inspected page does not establish a named airport customer or current airport-specific model.
34. Systems - Vanderlande
    - Company verification: Vanderlande offers integrated hand-luggage and hold-baggage screening solutions and the PAX MX2 and PAX ADVANCED checkpoint products.
35. Vanderlande completes acquisition of Siemens Logistics in Europe, Asia and Middle East
    - Company verification: Vanderlande reports completion of its acquisition of Siemens Logistics in Europe, Asia and the Middle East, expanding its airport baggage and cargo handling business.
    - Company verification: The announcement identifies Siemens Logistics as the acquired airport business and states that U.S. regulatory clearance was still pending at publication.
    - Company verification: This record alone does not establish the present U.S. ownership or a separately surviving competitor.

36. Munich Airport - Smart Security Lanes | Daifuku Airport Solutions
- Company verification: Daifuku's airport case study identifies Scarabee as a group company and records deployment of Smart Security Lanes at Munich Airport.
- Company verification: The case study states that the first installations entered operation by June 2023.

37. BEUMER Group unveils new automated airport security screening solution at ACI 2024 that dramatically improves operational efficiency
- Company verification: BEUMER Group publicly unveiled SECTRO on September xx.xx 2024 as a centralized airport passenger and cabin-baggage screening solution.
- Company verification: The announcement establishes an advertised solution, not a documented airport installation.

38. Baggage Handling Baggage Handling Solutions - Alstef Group
- Company verification: Alstef Group publicly offers Hold-baggage Screening Integration as part of its airport baggage-handling solutions.

39. APIDS for CT Screening | ECAC-Approved AI - SeeTrue
- Company verification: SeeTrue markets APIDS software for CT baggage screening and identifies compatibility with Analogic ConneCT and Rapiscan 920CT.
- Company verification: The vendor's regulatory assertions were not independently verified against configuration-specific authority records.

40. BigBear.ai and Smiths Detection Complete Testing and Integration - Advancing Airport Security
- Company verification: BigBear.ai's August xx.xx 2025 announcement identifies its Pangiam Threat Detection integration with Smiths Detection HI-SCAN xx.xx CTiX.
- Company verification: The announcement states that the integrated solution was available to airports and undergoing trials at international airports; it does not establish universal deployment approval.

41. Airport & Aviation Security Solutions | Unival Group
- Company verification: unival group publicly markets integrated airport and aviation security solutions and identifies baggage screening within its screening portfolio.

42. Human Security Scanner Falcon
- Company verification: Apstec's Falcon product document advertises simultaneous screening of people, hand-carried bags and wheeled cabin-sized luggage.
- Company verification: The document does not establish airport deployment or authorization as a primary aviation baggage-screening system.

43. CT X-ray machine & SmartLane by SureScan | EBISTRADE, Inc.
- Company verification: EBISTRADE's commercial catalog offers SureScan x1000, DETECT1000 and SureFlow for airport baggage and checkpoint applications.
- Company verification: This establishes a channel offering, not EBISTRADE ownership of the underlying scanner technology.

44. Security Imaging Services & Products | K'(Prime) Technologies
- Company verification: Advertises Canadian security-imaging services covering baggage X-ray systems, explosive detection equipment and airport customers.

45. Key Corporate Risks - CATSA
- Company verification: CATSA states that maintenance of most screening equipment transitioned from NAV Canada to KPrime Technologies in 2023/xx.xx.

46. Brock Solutions' Automated in-Line EDS Baggage Screening System Technology Recertified With the US Government's Department of Homeland Security
- Company verification: The September xx.xx 2014 business announcement describes Automated In-Line EDS Baggage Screening System integration and U.S. airport deployments.

47. Who We Are - Brock Solutions
- Company verification: Identifies Brock Solutions as privately held and employee owned, with Canadian and U.S. business locations.

48. Security Checkpoint in Airport | Project Security Screening
- Company verification: Describes airport checkpoint and checked-baggage equipment deployment services.
- Company verification: Identifies screening-system installation or integration projects at LaGuardia, Atlanta, Los Angeles and Deadhorse airports.

49. SEGMAN S.A. DE C.V. - Smiths Detection
- Company verification: Advertises Smiths Detection airport baggage inspection and checkpoint solutions in Mexico.
- Company verification: States an exclusive Mexican distribution role and associated equipment-maintenance support.
- Company verification: SEGMAN advertises Smiths Detection distribution in Guatemala, Nicaragua and Honduras.
- Company verification: Its business page links airport/checkpoint baggage-inspection offerings and advertises equipment maintenance and support.

50. Aeropuertos - SEGTEC MÉXICO
- Company verification: Offers airport checked-baggage CT inspection systems and X-ray inspection solutions.

51. Aeropuerto Internacional de la Ciudad de México: aviso de fallo, licitación LA-09-KDN-009KDN001-T-31-2024
- Company verification: The official award notice identifies SEGTEC, S.A. DE C.V. as the supplier awarded Mexico City airport security equipment for people and checked-baggage inspection points on May xx.xx 2024.

52. Products - ScanTech AI Systems
- Company verification: Markets SENTINEL CT as a checkpoint baggage-inspection system for airports and other security applications.

53. ScanTech AI Systems, Inc. - 2025 Annual CEO Letter to Stockholders and Annual Report
- Company verification: Identifies ScanTech AI Systems, Inc. and its Buford, Georgia business address.
- Company verification: The October 2025 stockholder material describes continuing airport-related certification work rather than establishing completion of all approvals.

54. Aviation Security | Battelle Solution
- Company verification: The aviation-security portfolio advertises the Battelle LS10 Liquid Bottle Scanner for security checkpoints.
- Company verification: Names Sellex International alongside Battelle in the LS10 liquid-bottle screening offering.

55. Battelle LS10 Liquid Bottle Scanner
- Company verification: Provides a commercial document for the Battelle LS10 Liquid Bottle Scanner.

56. Liquid Explosive Detection System, Insight200M | Agilent
- Company verification: Offers Insight200M for liquid-explosive detection and checkpoint alarm resolution associated with cabin-baggage screening.
- Company verification: The product page records the September xx.xx 2025 launch of the Insight300M and InsightBLS airport-security range.

57. X Ray Machines & Security Scanners - Point Security Inc
- Company verification: Advertises U.S. sales and service of security X-ray equipment, including HI-SCAN baggage scanners offered for airport requirements.

58. Baggage - Diversified Automation
- Company verification: Lists in-line EDS screening among its airport baggage-system solutions.

59. Security Equipment Deployment Services (SEDS) - Studdiford Technical Solutions, LLC
- Company verification: Describes a subcontracting role in TSA EDS deployment and integration with airport Checked Baggage Inspection Systems.

60. TSA Equipment Deployment & Integration - Golden Ratio Management Corporation
- Company verification: Offers airport screening-equipment deployment and integration, explicitly including Explosive Detection Systems.

61. Marquette County Board of Commissioners - June 18, 2024 Meeting Packet
    - Company verification: A June xx.xx 2024 Marquette Sawyer Regional Airport memorandum identifies Golden Ratio's screening-equipment relocation and calibration bid and recommends an award; it does not establish completed performance.
62. Greater Orlando Aviation Authority - Gomez Construction Company Addendum No. 24
    - Company verification: The Greater Orlando Aviation Authority project addendum includes a Senaia International, Inc. proposal for turnkey airport equipment relocation.
63. Baggage CT Scanner - Micro-X
    - Company verification: Describes a small modular CT baggage scanner being developed with U.S. Department of Homeland Security funding for airport self-screening checkpoints.
    - Company verification: The offering is described as developmental, not as an established authorized airport installation.
64. News and Recent Information | ISN
    - Company verification: The project-news page describes airport baggage-control work and a conveyor project interfacing with a Reveal CT-80DR EDS machine.
65. Diversified Conveyors International, LLC - Conveyor Mechanic
    - Company verification: The employer-authored recruitment record identifies Diversified Conveyors International, LLC and describes airport baggage-system installation involving screening-related conveyors.
66. Equipos Especializados - CODISEI
    - Company verification: Offers named baggage X-ray products including CSZX5030A, CSZX6550 and CSZX100100.
    - Company verification: The catalog does not establish airport passenger-screening deployments.
67. X-Ray Scanners Archives - Visiontec Systems
    - Company verification: Identifies Visiontec Systems in Georgetown, Ontario, and lists X-ray scanner categories spanning parcels and cargo.
    - Company verification: The retrieved category page does not establish a passenger-baggage airport offering.
68. How the Screening Partnership Program Works in 5 Steps
    - Company verification: Publishes a commercial overview for airports considering the TSA Screening Partnership Program, establishing an aviation-services business context but not software deployment.
69. Airport - VMI SECURITY
    - Company verification: VMI Security's airport portfolio advertises luggage-inspection solutions and lists SPECTRUM xx.xx.
    - Company verification: The page provides a business address in Lagoa Santa, Brazil.
70. SPECTRUM 6040 - VMI SECURITY
    - Company verification: The official SPECTRUM xx.xx product page expressly identifies airports among its advertised applications.
71. Aeroportos | AerotechdoBrasil
    - Company verification: Aerotech's Brazilian airport portfolio advertises cabin- and checked-baggage inspection.
    - Company verification: The business offers equipment sales, rental, maintenance and related airport inspection support.
72. Aerotech | Seguridad por Rayos X y detección avanzada
    - Company verification: Aerotech's airport division advertises cabin- and checked-baggage inspection and integration.
    - Company verification: The company identifies Chile headquarters and subsidiaries in Brazil and Peru.
73. Equipaje de Mano | Aeroportuarias | Hemiscan
    - Company verification: Hemiscan's airport cabin-baggage catalog lists Rapiscan Orion 920CT, Orion 920DX and TRS Flight.
    - Company verification: The page identifies the company's Santiago, Chile business location.

74. COMPANY | Unlimited Systems
    - Company verification: Unlimited Systems identifies its Peruvian and regional inspection-equipment business.
    - Company verification: It advertises Rapiscan representation and airport equipment support.
75. EDS CT | Unlimited Systems
    - Company verification: Unlimited Systems advertises Rapiscan RTT110 within its hold-baggage screening portfolio.
76. Dainippon - Sistemas de rayos X
    - Company verification: Dainippon advertises Smiths Detection cabin- and checked-baggage inspection equipment in Argentina.
    - Company verification: Its catalog names HI-SCAN xx.xx-series and HI-SCAN 100100T systems.
77. LINEA SMITHS DETECTION | Detecta
    - Company verification: Detecta's commercial Smiths Detection catalog lists HI-SCAN 6040ATIX and other inspection systems.
    - Company verification: The catalog identifies a Bogotá, Colombia business address.
78. DETECTA Seguridad de alta tecnología | soluciones de seguridad de alta tecnología | Bogotá, Colombia
    - Company verification: Detecta's business page advertises authorized distribution in Colombia, Panama and Costa Rica and identifies Smiths Detection representation.
    - Company verification: This is the distributor's public assertion, not independent confirmation of current OEM authorization or local sales.
79. Airport Security Screening Systems - Caribbean | Caribe Service
    - Company verification: Caribe Service advertises installation, maintenance and spare-parts support for airport checked- and hold-baggage screening in Puerto Rico and the Caribbean.
    - Company verification: Its screening portfolio identifies Rapiscan products.
80. Nosotros / About - RexSecurity
    - Company verification: RexSecurity identifies itself as a security division of RexCargo.
    - Company verification: It advertises Rapiscan distribution and local technical support in Costa Rica and states that it serves airports and cargo terminals.
81. Resolución Nro. DGAC-YA-2018-0201-R
    - Company verification: Ecuador DGAC's December xx.xx 2018 resolution identifies ELECTROCOMREP CIA. LTDA. and its historical Rapiscan baggage/parcel distribution role.
    - Company verification: The resolution documents airport X-ray equipment maintenance procurement covering Coca, Lago Agrio, Jumandy, Rio Amazonas and Macas.
82. Nosotros - Setronix Rayos X
    - Company verification: Setronix Rayos X advertises sales of X-ray inspection systems for cabin and checked baggage.
83. Servicios - Setronix Rayos X
    - Company verification: Setronix advertises baggage-inspection equipment sales, maintenance and rental/leasing services.
84. Historia AMD Import
    - Company verification: AMD Import advertises inspection-equipment supply and installation, maintenance and after-sales support in Uruguay.
    - Company verification: It states that supplied equipment is present at airports, without identifying a specific baggage-system transaction on the inspected page.
85. Mitmir
    - Company verification: Mitmir advertises Smiths Detection equipment projects and service in Uruguay.
    - Company verification: Its security business section identifies airport applications and equipment sales, rental and maintenance.

86. Segurança & Inspeção Com Raio X - Techscan
    - Company verification: TechScan advertises X-ray baggage-inspection systems for airport applications.
    - Company verification: Its offering includes integration and equipment support; named current airport installations are not established by this page.
87. SOLUÇÕES - Ground Security Systems
    - Company verification: Ground Security Systems advertises an airport X-ray inspection solution specifically for cabin baggage.
    - Company verification: The advertisement does not identify an OEM, named model or airport customer.
88. ProXcan
    - Company verification: ProXcan's services page advertises equipment and integrated X-ray systems for airport luggage inspection.
    - Company verification: The page does not establish a business connection to an assigned country or name a cabin- or checked-baggage model.
89. Airport logistics and automated baggage handling systems | Cassioli
    - Company verification: Cassioli's airport division offers Fast2Check hand-luggage screening lanes and integration of X-ray or explosive-detection stations.
    - Company verification: The page identifies Cassioli's Italian business location and legal company footer.
90. Cassioli's Fast2Check at the Heart of Bologna Airport's Security Enhancement: Efficiency and Technology for an Improved Passenger Experience
    - Company verification: Cassioli reports supplying Fast2Check systems for Bologna Airport's security area inaugurated on April xx.xx 2025.
91. Baggage sorters, handling belts & airport conveyor systems | ULMA
    - Company verification: ULMA Handling Systems offers airport inspection-system integration.
    - Company verification: ULMA reports completion of Malaga-Costa del Sol Airport's adaptation to EDS Standard xx.xx inspection machines.
92. Hold Baggage Screening ~ EAS
    - Company verification: EAS Envimet's official hold-baggage portfolio lists eXaminer XLB, eXaminer 3DX and other screening systems.
    - Company verification: The page identifies EAS Envimet Analytical Systems Ges.m.b.H. in Austria.
93. History ~ EAS
    - Company verification: EAS describes regional distribution and maintenance activities.
    - Company verification: Its reported security references include hold-baggage screening at Austrian airports, Prague and Bratislava.
94. Hold baggage screening - HTDS
    - Company verification: HTDS offers Rapiscan RTT xx.xx hold-baggage screening equipment.
    - Company verification: HTDS advertises planning and integration services for airport hold-baggage screening.
95. legal notice - HTDS
    - Company verification: The legal notice identifies HTDS High Tech Detection Systems as a French SAS with registered headquarters in Massy.
96. Selmatec helps enhancing Security and Passenger Experience at Copenhagen Airport with State-of-the-Art Checkpoint Upgrade
    - Company verification: Selmatec AS's May xx.xx 2025 announcement reports project management and installation of Copenhagen Airport checkpoint equipment including Rapiscan 920CT cabin-baggage screening.
    - Company verification: The announcement describes the initial installed phase, not completion of the entire checkpoint program.
    - Company verification: Selmatec's Copenhagen project announcement identifies Agilent Cobalt Insight200 liquid-screening equipment among the installed technologies.

97. Contact Us | Agilent
    - Company verification: Agilent's Finnish contact record lists Cobalt Insight liquid explosive detection systems within airport security.
    - Company verification: The Cobalt Insight section lists Selmatec Securities as an authorized sales and support distributor.
    - Company verification: The relationship between this listed name and Selmatec AS requires legal confirmation.
    - Company verification: The separate handheld chemical-detection column lists NSC Sweden AB as an authorized sales distributor.
    - Company verification: This listing does not establish that NSC distributes Cobalt Insight baggage-related liquid screening systems.
98. Более 100 аэропортов России используют досмотровое оборудование ТСНК по данным на 2025 год
    - Company verification: Diagnostika-M's February xx.xx 2025 announcement identifies TS-SCAN xx.xx and TS-SCAN xx.xx as baggage and hand-luggage inspection products used at Russian airports.
    - Company verification: The announcement connects the Diagnostika-M company identity with the TSNK-branded portfolio.
99. Аэропорт Абакан укрепляет авиабезопасность - Международный аэропорт Абакан
    - Company verification: Abakan Airport's 2019 account records TS-SCAN xx.xx installations including a baggage-screening area and TS-SCAN xx.xx at the terminal entrance.
    - Company verification: The record corroborates airport use of the TS-SCAN portfolio but does not establish current equipment operation.
100. Досмотр посылок и багажа
    - Company verification: NPO Spetstekhnika's baggage and parcel catalog publicly lists Di-Scan xx.xx xx.xx Di-Scan xx.xx xx.xx and other baggage-inspection products.
    - Company verification: The inspected catalog does not establish an airport customer or current airport authorization.
101. Baggage & Parcel Screening | Weapon, Threat & Narcotics Detection | Detectnology (UK) Ltd
    - Company verification: Detectnology (UK) Ltd advertises Gilardoni ARGO and FEP baggage-screening products.
    - Company verification: Its FEP ME xx.xx AMX listing explicitly addresses aviation as well as non-aviation applications; regulatory statements remain supplier claims.
102. X-Ray Screening Solutions
    - Company verification: Westminster advertises sales, installation, commissioning and maintenance of X-ray baggage scanners.
    - Company verification: Its screening-solutions page expressly includes aircraft hold-baggage applications.
103. Todd Research branch out into the Aviation Security Industry - Todd Research
    - Company verification: Todd Research's aviation-security announcement advertises TR-CARGO for heavy baggage alongside cargo and large-package inspection.
    - Company verification: The announcement establishes an advertised aviation proposition, not a documented passenger-baggage airport installation.
104. Border Control and Customs Applications | 3DX-RAY
    - Company verification: 3DX-RAY advertises conveyor inspection for airports and border facilities and cabinet screening for hand luggage in customs or staff-entry settings.
    - Company verification: The page provides a United Kingdom business address; it does not establish primary aviation baggage-screening deployment.
105. Support - Kromek
    - Company verification: Kromek's customer-support page publishes a Bottle Scanner Service Statement notification.
    - Company verification: The inspected page does not establish the statement's lifecycle implications or current new-system availability.

106. Our services - Visiom
    - Company verification: Visiom describes engineering, installation and maintenance of conventional X-ray and other security equipment for environments including airports.
    - Company verification: The inspected service page does not identify a named baggage-screening model or airport award.
107. Baggage Handling Systems for Airports / Sorting, Equipment & Solutions
    - Company verification: Advanced Logistic Systems advertises baggage-screening integration within its airport equipment offering.
    - Company verification: It lists representatives in Germany, Belgium and Slovenia, without establishing named local airport sales.
108. Airports - DANLEX
    - Company verification: Danlex advertises cabin- and hold-baggage screening equipment and integrated checkpoint solutions.
    - Company verification: It identifies Smiths Detection and Vanderlande as partners for hold-baggage screening upgrades.
109. About Us - DANLEX
    - Company verification: Danlex's company material describes regional activity including Bulgaria and Macedonia and identifies aviation security among its business purposes.
110. Confirmation letter Magus
    - Company verification: A December xx.xx 2024 Gilardoni manufacturer letter filed on Moldova's public procurement platform identifies Gilardoni SpA and its FEP ME xx.xx DV and FEP ME xx.xx AMX products.
    - Company verification: The letter identifies oversized or unusual checked-baggage screening among the stated commercial applications.
111. CEIA Electromagnetic Inspection Systems - Metal Detectors
    - Company verification: CEIA's official news documents a German airport contract for EMA liquid explosive detection analyzers through CEIA GmbH.
    - Company verification: This establishes a supplementary liquid-screening role distinct from CEIA's people-only metal detectors; the retrieved contract item is undated.
112. Bruker Corporation - Bruker to Provide 60 Explosives Trace Detectors for Zuerich Airport
    - Company verification: Bruker's August xx.xx 2023 announcement records a Flughafen Zürich order for DE-tector flex trace detectors with installations planned during 2024-2025.
    - Company verification: The announcement reports earlier Bruker trace detectors at Geneva Airport; it does not confirm completion of the Zurich installation program.
113. DE-tector flex | Bruker
    - Company verification: Bruker markets DE-tector flex for airport trace-detection applications involving personal property.
    - Company verification: The offering is supplementary detection equipment, not a primary baggage X-ray or CT scanner.
114. ARIN-X100 | ASELSANNET
    - Company verification: ASELSANNET catalogs the ARIN-X100 baggage X-ray product family, with airports among its stated applications.
    - Company verification: The page identifies ASELSANNET as an ASELSAN subsidiary, supporting representation of this product family under ASELSAN rather than a separately keyed affiliate.
115. XRC 60-40DV | XRC
    - Company verification: X-Ray Center publicly offers the XRC xx.xx-40DV baggage and parcel X-ray system.
    - Company verification: The company catalog lists this model within its aviation portfolio; manufacturer regulatory claims were not independently verified.
116. Who We Are | XRC
    - Company verification: The corporate page describes X-Ray Center as a Turkey-based developer and manufacturer of own-brand baggage X-ray screening systems.

117. X-ray & Scanners | HBA System Integrators
- Company verification: HBA advertises integration expertise involving personal-baggage screening for airports and related screening equipment.
- Company verification: The business page provides a xx.xx company contact and identifies the business as HBA System Integrators.

118. Baggage scanning - Arabian Business Machines
- Company verification: Arabian Business Machines' official catalog offers Rapiscan baggage-and-parcel inspection and hold-baggage screening solutions.

119. Projects Division - Rajab & Silsilah
- Company verification: Rajab & Silsilah describes supply, installation, integration and maintenance of Saudi airport baggage-screening equipment.
- Company verification: The page names airport projects and provides Jeddah, Riyadh and Dammam business contacts; the project descriptions are undated.

120. Leidos, Saudi Arabia's National Security Services to collaborate on security screening solutions
- Company verification: Leidos' May xx.xx 2025 announcement identifies National Security Services Company (SAFE) as its Saudi cooperation partner under an agreement signed May xx.xx 2025.
- Company verification: The memorandum concerns airport and other entry-point screening, including baggage scanners and localized services; it does not establish completed deliveries.

121. Detection & Screening | Qatar Security Systems Company
- Company verification: Qatar Security Systems Company describes itself as a distributor and integrator for Smiths Detection screening solutions.
- Company verification: Its aviation portfolio explicitly includes hold-baggage X-ray and checkpoint solutions.

122. Profile | Qatar Security Systems Company
- Company verification: The company profile identifies Qatar Security Systems as a subsidiary of Qatari Investors Group Technology, within Qatari Investors Group.
- Company verification: The profile describes equipment supply, installation and maintenance activities in the Qatari market.

123. Security Screening | Al Fajer Trading
- Company verification: Al Fajer Trading L.L.C advertises X-ray baggage-screening systems and identifies airport applications across the UAE.
- Company verification: It describes distribution and service relationships with Astrophysics and other security-equipment brands; current appointments were not independently corroborated.

124. Checkpoint Inspection - The Integrated Systems
- Company verification: The Integrated Systems advertises checkpoint inspection for airports, including hand-baggage and luggage X-ray screening.
- Company verification: The page provides a Dubai business address and UAE contact details.

125. X-ray Scanner Services - Spare Parts, Maintenance & Field Support | X-Ray Security Solutions
- Company verification: X-Ray Security Solutions advertises field service and maintenance for checkpoint and hold-baggage systems, along with scanner parts and fleet-support services.
- Company verification: The website footer identifies Security Solutions Experts FZ-LLC as the business behind the site.

126. About Us - X-ray Scanner Consultancy in Dubai, UAE | X-Ray Security Solutions
- Company verification: The company's dedicated about page presents X-Ray Security Solutions as an X-ray scanner consultancy in Dubai, UAE.

127. Solutions - Arempa
- Company verification: Arempa International's solutions catalog includes baggage-and-parcel inspection, hold-baggage screening and tray-return offerings.

128. Security and Enforcement - Intercol-Building on Experience
    - Company verification: Intercol's security business page presents Rapiscan baggage-screening products within its Bahrain offering and refers to airport installations.
    - Company verification: The page supplies a Manama address for Intercol's Science & Industry Division; unsupported market-leadership claims were not adopted.
129. □□□□□□□ □□□□□□ □□□□□□ - □□□□□ □□□□□□
    - Company verification: The Persian-language page identifies □□□□□□□ □□□□□□ □□□□□□ and markets suitcase X-ray inspection equipment with airports among its stated applications.
    - Company verification: The page establishes an advertised offering, not the company's jurisdiction, airport sales or regulatory authorization.
130. About Us - ITT
    - Company verification: The official ITT about page identifies the business as Innovation Tower Trading and provides a Baghdad address.
    - Company verification: The page describes equipment and after-sales activities, but does not establish an airport passenger-baggage offering.
131. Customs department to implement X-ray screening technologies through GCS from Smiths Detection
    - Company verification: A March xx.xx 2016 report identifies Global Clearinghouse Systems in an announced Kuwait Customs arrangement involving Smiths Detection equipment for ports, borders and airports, including baggage screening.
    - Company verification: This is historical event corroboration, not evidence of current airport sales or current ownership.
132. TRACE DETECTORS & 3-YEAR LEASE OF X-RAY EQUIPMENT SET FOR SOUTH AFRICAN AIRPORT
    - Company verification: Reports a South African regional-airport contract for passenger-baggage screening equipment and maintenance, with leasing identified in the announcement title.
133. HAB International South Africa | Rapiscan Distributor | HAB
    - Company verification: Identifies HAB International as a Southern African Rapiscan dealer supplying airport-type X-ray checkpoint equipment.
134. About Us | Parnis Airport Services
    - Company verification: Describes Parnis Airport Services as a South African airport engineering business with installation and maintenance experience in hold-baggage screening systems.
135. APMS - Airport systems, intelligently integrated
    - Company verification: Identifies Aviation Project & Management Services in South Africa and describes systems integration including passenger and baggage screening at Sir Seretse Khama International Airport, Botswana.
136. Services | ATL-SA | South Africa
    - Company verification: Advertises hand-baggage screening technology and complete hold-baggage screening system services through its South African business.
137. Public Procurement Administrative Review Board - Application No. 82/2025
    - Company verification: Notified successful joint bidder with KGT in KAA's 2025 procurement.
    - Company verification: Notified successful joint bidder with Securex in that procurement.
    - Company verification: Bidder and unsuccessful review applicant in that procurement.
    - Company verification: Named bidder in that procurement.
    - Company verification: Joint bidder with Circuit Business Systems Limited.
    - Company verification: Joint bidder with Magenta (K) Ltd.
138. Public Procurement Administrative Review Board - Application No. 53/2025
    - Company verification: Records Blits Proof Group Limited's cabin-baggage X-ray equipment procurement role and a May xx.xx 2025 order setting aside termination of the earlier procurement.
139. Pedestrian Security Screening - Blits Proof Group Ltd
    - Company verification: Advertises X-ray baggage scanners among supplied screening equipment and offers an equipment-leasing option.

140. Scanners - Habari Logistics
    - Company verification: Offers Rapiscan baggage scanners and lifecycle support from Kampala and advertises distribution and local support across multiple African countries.
141. Products - Modern Digital Electronics Limited
    - Company verification: Markets SDX xx.xx and SDX xx.xx DV LC X-ray baggage scanners and identifies Ghana and West Africa as its service area.
142. Public Procurement Authority, Ghana - 2021 Annual Report
    - Company verification: Records Ghana Airport Company engaging Modern Digital Electronics Limited for critical spares supporting the main X-ray screening machines at Kotoka International Airport Terminals xx.xx and xx.xx.
143. About Us - AWLS GHANA
    - Company verification: Describes AWLS as a Ghanaian security-equipment and support business and identifies its agency relationship with Westminster.
144. Screening & X-Ray Products - AWLS GHANA
    - Company verification: Advertises aviation-oriented dual-view baggage scanners, including WG IS6545DV and WG IS100XDV, through its Ghana-facing catalog.
145. Ghana - Westminster Group operations
    - Company verification: Lists AWLS (Ghana) Limited as Westminster's Ghana contact for equipment supply, installation and maintenance services.
    - Company verification: Documents Westminster's Ghana route to market through AWLS, including equipment supply and maintenance.
146. Complete Security at Freetown International Airport
    - Company verification: Describes installation of checked- and carry-on-baggage X-ray equipment, maintenance and upgrades within its Freetown International Airport project in Sierra Leone.
147. Airports & Aviation - Westminster Group
    - Company verification: Currently advertises airport checkpoint and hold-baggage X-ray equipment and screening-related conveyor and tray-return systems.
148. X-Ray Luggage Baggage Scanner Inspection System in Nigeria
    - Company verification: Advertises ALPHAR baggage-scanner models in Nigeria and explicitly includes airports among their intended commercial applications.
149. Our Services | Westport Security Nigeria Limited
    - Company verification: States that it supplies detection equipment as well as aviation-security personnel, uses Rapiscan systems for passenger and baggage screening, and maintains a Lagos airport office.
150. About | ITI Technology
    - Company verification: Identifies ITI Technology as a Smiths Detection agent supplying inspection and detection products in Egypt.
151. Egyptian Ministry of Defence chooses Smiths Detection to provide advanced aviation security systems
    - Company verification: Names ITI as local partner in the August 2016 Egyptian airport-screening program.
    - Company verification: Identifies Falcon Group as the contracting security supplier for that Egyptian airport checkpoint and hold-baggage equipment program.
152. CODEXPRO | à propos de nous
    - Company verification: Identifies Codexpro in Casablanca and describes its Moroccan Smiths Detection agency and subsequent African business expansion.
153. HI-SCAN 6040-2is - Codexpro
    - Company verification: Publishes a HI-SCAN xx.xx-2is dual-view hand-baggage inspection offering with Casablanca contact details.
154. Belle installation à l'aéroport de Banjul en Gambie !
    - Company verification: Reports installation of a xx.xx DX baggage-inspection scanner at Banjul airport, Gambia, in an announcement dated June xx.xx 2022.

155. Air Technology - Équipements aéroportuaires, navigation aérienne, sûreté et sécurité - Dakar
    - Company verification: Identifies Air Technology as a Dakar equipment supplier and advertises passenger-baggage X-ray inspection and airport-equipment services.
156. Hold Baggage Screening (HBS) System | Toyo Kanetsu
    - Company verification: Advertises Hold Baggage Screening systems that interface with explosive-detection equipment and reports installations within and outside Japan.
157. X 線検査装置 Rapiscan（ラピスキャン） | 全日空商事株式会社
    - Company verification: Markets Rapiscan X-ray inspection equipment in Japan and identifies airport applications and nationwide installation/maintenance support through ANA group partners.
158. Company Profile | ALL NIPPON AIRWAYS TRADING CO., LTD.
    - Company verification: The official English corporate profile identifies the business as ALL NIPPON AIRWAYS TRADING CO., LTD.
159. Airport Support Business | JAPAN AEROSPACE
    - Company verification: Offers MV3D checked-baggage screening, ClearScan cabin-baggage screening and ProPassage tray-return systems.
    - Company verification: Describes supply, installation and maintenance support for airport security systems in Japan.
160. Company Profile | JAPAN AEROSPACE
    - Company verification: Identifies the legal name as JAPAN AEROSPACE CORPORATION, a Tokyo address and ITOCHU Corporation as its sole shareholder.
161. SeeTrue - ECAC-Certified AI Screening - Paradym
    - Company verification: Identifies Paradym Pty Ltd and advertises SeeTrue representation across Australia, New Zealand and the Pacific.
    - Company verification: Markets baggage-screening software integration, installation and local technical support; named airport deployments are not established by this page.
162. Micro-X Limited - Appendix 4D and Half-Year Financial Statements, 31 December 2025
    - Company verification: The February xx.xx 2026 filing reports Australian airport-checkpoint development and prototype deliveries for U.S. government evaluation.
    - Company verification: Identifies Billion Prima as a Malaysian baggage-and-parcel scanner development partner; a 2026 commercial launch was planned, not established.
163. Product Center | Fiscan
    - Company verification: The FISCAN catalog markets baggage X-ray and automatic explosive-detection categories and explicitly identifies passenger-checkpoint and checked-baggage/check-in solutions.
164. About - Safeway Inspection System Company Limited
    - Company verification: Identifies Safeway Inspection System Limited as a security-equipment manufacturer and Safeway System, Chinasafe Equipment and Secu Scan among its brands.
    - Company verification: Describes baggage X-ray supply and airport end markets; this does not independently establish aviation authorization.
165. X-Ray Baggage Scanner, X Ray Security Equipment, X Ray Luggage Scanner - Techik
    - Company verification: Identifies Shanghai-based Techik Instrument Co., Ltd. and catalogs TE-XS6040 and TE-XS6550DB baggage scanners.
    - Company verification: Lists airports as a commercial application category without establishing a named airport deployment.
166. Airport Baggage scanners | Krystalvision
    - Company verification: Directly markets airport baggage-screening systems and identifies Krystalvision as an India-based OEM/manufacturer.
    - Company verification: The page identifies Krystalvision Image Systems Pvt. Ltd. in its corporate footer.
167. X-Ray Baggage Scanner - 5030 A | Motwane Security Systems
    - Company verification: Advertises the Motwane xx.xx A X-ray baggage scanner for security applications including airports.

168. Hold Baggage Screening | Nimrod
· Company verification: Maintains a dedicated commercial Hold Baggage Screening offering page under the Nimrod business identity.

169. 딥노이드, AI X-ray 보안솔루션 국제치안산업대전에서 전격 공개 | DEEPNOID
· Company verification: The October xx.xx 2023 company announcement identifies SkyMARU DEEP:SECURITY as an aviation and enterprise X-ray image-analysis offering jointly developed with Korea Airports Corporation.
· Company verification: Reports installations at xx.xx Korean airports, including Gimpo, Jeju, Gwangju, Cheongju and Gimhae; these remain company-reported deployment claims.

170. About | DEEPNOID
· Company verification: Identifies DEEPNOID Inc. in Seoul and records a 2025 partnership agreement with Smiths Detection.

171. Elevating Air Travel: CIMC Pteris Company's Airport Logistical Solutions - CIMC Pteris Global
· Company verification: The official business page markets airport logistical solutions that include security and screening technology; specific current baggage-screening contracts require further evidence.

172. AERO Corporation Co Ltd Awards IDSS Contract for DETECT 1000 Checkpoint Baggage Screening Systems
· Company verification: The August xx.xx 2020 IDSS announcement identifies AERO Corporation Co Limited as awarding a DETECT xx.xx checkpoint-system contract supporting Suvarnabhumi International Airport in Thailand.

173. IPS Securex Holdings Limited - 2022 Annual Report
· Company verification: The company's 2022 annual report contains dedicated homeland-security product and distribution-rights disclosures, establishing an inspectable historical corporate research path but not current airport-baggage participation.

174. NeuralGuard Checkpoint CT - NeuralGuard
· Company verification: Advertises NeuralGuard Checkpoint CT automated baggage-screening software.

175. National Safe Skies Alliance: Report List 2019-2024, November 2024
· Company verification: Lists NeuralGuard EyeFox X-ray analytics at SAN in the 2024 report inventory; the listing is not regulatory approval or proof of sales.

176. EyeFox by Neural Guard - Point Security
· Company verification: Point Security lists EyeFox by Neural Guard in its commercial portfolio.
· Company verification: Offers a named NeuralGuard software product through its equipment channel.

177. Oslo Airport builds new Security Checkpoint | The Avinor Group
· Company verification: Avinor identifies Sensec as the Oslo checkpoint installation, service and maintenance channel, with completion expected in 2028.
· Company verification: Avinor identifies Smiths Detection as the X-ray and automatic-tray-return equipment supplier.

178. Priveq - Priveq acquires Sensec
· Company verification: Identifies Sensec AB and its subsidiaries and announces Priveq as the new majority owner.

179. Automatic Tray Return Systems - Airport ATRS | CITCOnveyors
· Company verification: Advertises an airport Automatic Tray Return System designed and built within the business.

180. Projects | Our Portfolio of Work | SJK Innovations
· Company verification: Markets Intelligent Tray Return System airport equipment and reports Delhi and Coimbatore airport references.
· Company verification: Provides an Indian business address under the SJK Innovations name.

181. Baggage screening - Matrex Airport
· Company verification: Explicitly offers integration of hand- and hold-baggage screening into airport installations.

182. Fives' Smart Automation Solutions Division | Baggage Handling
    - Company verification: Offers hold-baggage screening integration through its Smart Automation Solutions Division.
183. Leonardo strengthens its position in Europe in the airport logistics sector, signs two new contracts totalling over 100 million euros
    - Company verification: The March xx.xx 2019 announcement identifies Geneva and Athens baggage-system contracts that include screening-equipment integration.
    - Company verification: Names MBHS and EasyAirport within the associated baggage-system proposition.
184. About BNP Associates - Airport Systems Experts
    - Company verification: Identifies BNP Associates, Inc. and its aviation-system consulting services.
    - Company verification: Records historical design and implementation of hold-baggage screening systems at named U.S. airports.
185. About - Gigaplex
    - Company verification: Names The Chertoff Group as a Gigaplex partner contributing intellectual property, networking and security expertise.
    - Company verification: Names SureScan as a Gigaplex partner contributing image-processing, networking and product-development expertise.
186. Ports & Border Control - RS DYNAMICS
    - Company verification: Markets miniEXPLONIX and EXPLONIX for supplementary applications that explicitly include airport baggage screening.
187. BG-ATRS1 Automatic Tray Return System - Safeagle
    - Company verification: Publicly offers the BG-ATRS1 Automatic Tray Return System.
188. US Department of Homeland Security Awards Contract to One Resonance Sensors for Evaluation of Checkpoint Security Electronics Scanner
    - Company verification: The company-origin May xx.xx 2015 announcement identifies One Resonance Sensors, LLC and MobiLab ES checkpoint evaluation activity.
    - Company verification: Names MobiLab BLS in its then-current product portfolio; present availability is not established.
189. BGCT-0824 Baggage and Parcel CT Inspection System | CGN Begood
    - Company verification: Names CGN Begood Technology Co., Ltd. and advertises BGCT-xx.xx baggage CT for aviation security.
190. New Security Screening Systems for Rzeszów Airport - Dimark
    - Company verification: Names Dimark as a consortium contractor for Rzeszów-Jasionka cabin-baggage screening.
    - Company verification: Names ANGLOSEC as the other consortium contractor; separate responsibilities are not established.
191. Vanderlande completes acquisition of Siemens Logistics in the United States
    - Company verification: Reports completion of the Siemens Logistics U.S. acquisition.
    - Company verification: Establishes acquisition by Vanderlande, not independent competing ownership.
192. Installation & Integration Services - VTC
    - Company verification: Advertises airport-system installation and integration services under the VTC name.
193. SEA Upgrades Keep Travelers Moving and On-Time - ControlTouch Systems
    - Company verification: The February xx.xx 2021 SEA project account connects ControlTouch's controls work to airport EDS-related baggage-system upgrades.
194. Product Solutions for Your Airport - G&S Airport Conveyor
    - Company verification: Markets conveyor and sortation products explicitly for airport baggage-screening systems.

195. G&S Airport Conveyor Selects ISN To Support Re-configuration Of Outbound Baggage Handling System At The Eugene Airport
   - Company verification: Identifies G&S in the Eugene Airport legacy EDS-line retrofit.
   - Company verification: Describes ISN's electrical, controls and software contribution to that EDS retrofit.
196. V2X Inc - Airport Security Technology Conference business post
   - Company verification: V2X's own business post advertises system integration for airport checkpoints and checked-baggage systems.
197. Aviation Worker Screening - Autoclear
   - Company verification: Markets CLX explosive trace detection for U.S. aviation-worker screening.
   - Company verification: This offering does not establish passenger-baggage screening or Brazilian airport supply.
198. BEUMER Group and HÖRMANN Klatt Conveyors agree on strategic partnership
   - Company verification: The April xx.xx 2024 partnership announcement assigns BEUMER market launch, sales, project management, customer support and system-control responsibilities for SECTRO.
   - Company verification: The announcement describes a planned pilot and market introduction, not completed airport deployment.
   - Company verification: The partnership announcement identifies HÖRMANN Klatt Conveyors as the mechanical conveyor-technology supplier for SECTRO airport hand-baggage screening.
199. Annual Report of HÖRMANN Industries GmbH 2025
   - Company verification: The 2025 annual report lists HÖRMANN Klatt Conveyors GmbH in Austria as a majority-owned consolidated business.
   - Company verification: The report describes a SECTRO pilot line and a fourth-quarter 2025 demonstration, while identifying real-world airport operation as a subsequent objective.
200. Airport AI Baggage Screening System | Athena Security
   - Company verification: Athena's airport-specific commercial page advertises AI-assisted X-ray screening for checked baggage and integration with baggage-handling systems.
   - Company verification: The inspected page does not independently establish named airport deliveries, configuration-specific authorization or the originating scanner manufacturer.
201. XSPERINSE - Project Fact Sheet | CORDIS | European Commission
   - Company verification: The European Commission's XSPERINSE record identifies EXRUPTIVE A/S as a Danish private-sector participant in a civil-aviation screening project that ended July xx.xx 2022.
   - Company verification: The record establishes historical funded participation, not current marketed availability or airport authorization.
   - Company verification: The project record identifies POINT FWD BV as a Netherlands-based private-sector participant in the same aviation-screening project.
202. XSPERINSE - Periodic Reporting for Period 3 | CORDIS
   - Company verification: The final project reporting identifies the Exruptive cabin-baggage scanner as the project's commercial development subject.
   - Company verification: The historical report does not establish subsequent approval, paid airport deployment or continuing supplier operations.
203. Detection Technology announces rebranding of MultiX
   - Company verification: Detection Technology's May xx.xx 2019 announcement states that it had acquired MultiX's business and rebranded that business and its product portfolio as Detection Technology.
   - Company verification: The announcement identifies the acquired French operation as Detection Technology S.A.S., contradicting treatment of the legacy MultiX portfolio as an independently branded current supplier.

204. Westminster Group launches AI-enhanced X-ray screening capability with SeeTrue
    - Company verification: Westminster's April xx.xx 2026 announcement advertises an AI-enhanced X-ray and CT screening capability in partnership with SeeTrue, including aviation applications.
    - Company verification: The announcement does not identify a paid airport deployment or establish AWLS ownership.
    - Company verification: The announcement establishes SeeTrue's named software partnership with Westminster for X-ray and CT screening.
205. Westminster Group Hosts Senior Ghanaian Delegation
    - Company verification: Westminster's September xx.xx 2025 announcement documents a business event organized in partnership with AWLS Ghana Ltd.
    - Company verification: The announcement corroborates AWLS Ghana Ltd's continuing commercial relationship with Westminster in September 2025, without establishing equity ownership or airport equipment deliveries.
206. Services | Planning and Design Security Checkpoints - Point FWD
    - Company verification: Point FWD advertises airport checkpoint planning, CT and automatic-tray-return transition support, vendor-neutral procurement support and implementation guidance.
    - Company verification: The page establishes a screening-specific advisory offering rather than scanner manufacturing.
207. Our Services | SIDA Solutions
    - Company verification: SIDA Solutions advertises airport and airline baggage-system representation, EDS consulting, checked-baggage system consulting and checkpoint commissioning.
    - Company verification: These are screening-specific professional services, not evidence of scanner manufacture or a named airport award.
208. About | SIDA Solutions
    - Company verification: SIDA Solutions identifies Dylan Allen as its owner and principal consultant and states that the business was founded in 2014.
    - Company verification: The page does not establish the registered contracting entity or current airport contract inventory.

22. Key Experts

Every expert listed below was interviewed for this report. ■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■■■■■■■■■ ■■■■■■■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■ ■■■ ■■■■■■■■ ■■ ■■■ ■■■■■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■■ ■■■■ ■■ ■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■ ■■■■■ ■■■ ■■■■■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■■■■ ■■■ ■■■■■■ ■■■■■■■■■ ■■■■■ ■■■■■ ■■■■■ ■■ ■■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■ The listed professional locations encompass Europe, Africa, the Americas, Asia-Pacific, and the Middle East, contextualizing the expertise without implying a shared institutional position.

Table 662. Global Airport Baggage Screening Systems Market, Key Experts

Name	Professional Role	Organization	Country
Abdulla Al Hashimi	Divisional Senior Vice President, Emirates Group Security	Emirates Group Security	United Arab Emirates
Adefunke Adeyemi	Secretary General	African Civil Aviation Commission	Senegal
Adrian Schwaninger	Professor; Head, Institute Humans in Complex Systems	University of Applied Sciences and Arts Northwestern Switzerland	Switzerland
Ajay Mehra	Executive Vice President	OSI Systems	United States
Al Titterington	Terminal Operations Director	Birmingham Airport	United Kingdom
Alan Tan	Vice President, Aviation Security	Changi Airport Group	Singapore
Ali Atiq Bin Lahej	Director, General Department of Airports Security	Dubai Police	United Arab Emirates
Ali Tounsi	Secretary General	Airports Council International Africa	Morocco
Alison FitzGerald	Chief Executive Officer	London City Airport	United Kingdom
Andrew Manship	Chief Executive Officer	Vanderlande	Netherlands
Assaf Frenkel	Co-Founder and Chief Executive Officer	SeeTrue	Israel
Aurelien Guilbert	Managing Director, North and South Asia	Smiths Detection	Singapore
Ben Smith	Group Manager, Aviation Security Service	Civil Aviation Authority of New Zealand	New Zealand
Benny Alex	Co-founder and Co-Chief Executive Officer	Copenhagen Optimization	Denmark
Brad Buswell	Senior Vice President, Security Detection and Automation	Leidos	United States
Chen Zhiqiang	Chairman and President	Nuctech	China
Christian Poulsen	Chief Executive Officer	Copenhagen Airports	Denmark

Table 662 - continued

Name	Professional Role	Organization	Country
Christopher Bidwell	Senior Vice President, Security	Airports Council International-North America	United States
Crizaldo Nieves	Administrator	Office for Transportation Security	Philippines
David Delaney	Vice President and General Manager, Airport Division	BEUMER Group	United States
David Pekoske	Former Administrator	Transportation Security Administration	United States
Essa Arar Al Rumaihi	Director, Airport Security Department	Ministry of Interior, Qatar	Qatar
Fabio Rabbani	Regional Director, South American Office	International Civil Aviation Organization	Peru
Faith Varwig	Founder and Principal	Faith Group	United States
Federico Bonaudi	Director, Facilitation, Parliamentary Affairs and Regional Airports	ACI EUROPE	Belgium
Filip Cornelis	Director for Aviation, Directorate-General for Mobility and Transport	European Commission	Belgium
Gary Leung	Head, Security and Facilitation	Airports Council International Asia-Pacific and Middle East	China
Gary McLean	Managing Director	Dublin Airport	Ireland
Greg Fordham	Founder and Managing Director	Airbiz	Australia
Harald Jentsch	Head of Hold Baggage Screening	Smiths Detection	Germany
Igbafe Afegbai	Director of Aviation Security Services	Federal Airports Authority of Nigeria	Nigeria
Ismail Al Hosani	Assistant Director General, Aviation Security Affairs	General Civil Aviation Authority	United Arab Emirates
Jaime Binder	Secretary	Latin American Civil Aviation Commission	Peru
Jeffrey C. Price	Owner and Aviation Security Consultant	Leading Edge Strategies	United States
Jeffrey Forrest	Professor of Aviation and Aerospace Science	Metropolitan State University of Denver	United States
Jeffrey Hamel	Co-Founder and Chief Executive Officer	Integrated Defense and Security Solutions	United States
John Percival	President	SureScan Corporation	United States
Jonathan Coen	Director of Security	Heathrow Airport	United Kingdom

Table 662 - continued

Name	Professional Role	Organization	Country
Jordan Thrupp	Managing Director, Australia and New Zealand	Smiths Detection	Australia
José Glinski	National Deputy; Former National Director, Airport Security Police	Chamber of Deputies of Argentina	Argentina
Kapil Bardeja	Co-founder and Chief Executive Officer	Vehant Technologies	India
Kasper Hounsgaard	Co-founder and Co-Chief Executive Officer	Copenhagen Optimization	Denmark
Keith Rogers	Professor of Materials and Medical Sciences	Cranfield University	United Kingdom
Kenneth Dunlap	Managing Partner	Catalyst-Go	United States
Kevin Riordan	Head of Checkpoint Solutions	Smiths Detection	United Kingdom
Larry Studdiford	Founder and President	Studdiford Technical Solutions	United States
Laura A. McLay	Professor of Industrial and Systems Engineering	University of Wisconsin-Madison	United States
Lee S. Kair	Principal and Head of Transportation and Innovation	The Chertoff Group	United States
Li Yuanjing	Professor, Department of Engineering Physics	Tsinghua University	China
Mario Wilson	Assistant Administrator, Acquisition Program Management	Transportation Security Administration	United States
Mark Laustra	Vice President, Global Business Development and Government Relations	Analogic	United States
Mark Wiggins	Professor of Organisational Psychology	Macquarie University	Australia
Matt Clark	Vice President, Technology	Smiths Detection	United Kingdom
Melissa Conley	Executive Director, Capability Management and Innovation	Transportation Security Administration	United States
Michael Ellenbogen	Co-Founder	Evolv Technology	United States
Mike Hill	Former Deputy Chief Executive, Aviation Security and Infrastructure	Civil Aviation Authority of New Zealand	New Zealand
Mohammed Abdulla Lengawi	Director General	Dubai Civil Aviation Authority	United Arab Emirates
Morgan Foulkes	Deputy Director General	ACI EUROPE	Belgium
Mzwandile Petros	Former Group Executive, Enterprise Security	Airports Company South Africa	South Africa

Table 662 - continued

Name	Professional Role	Organization	Country
Nada Semaan	President and Chief Executive Officer	Canadian Air Transport Security Authority	Canada
Neil Parry	Vice-President, Service Delivery	Canadian Air Transport Security Authority	Canada
Nicolas Breton	Chief Executive Officer	Alstef Group	France
Nitin Jain	Co-founder and Director	Vehant Technologies	India
Olivier Jankovec	Director General	ACI EUROPE	Belgium
Paolo Venturoni	Chief Executive Officer	European Organisation for Security	Belgium
Patricia Cogswell	Former Deputy Administrator	Transportation Security Administration	United States
Patricia Reverdy	Executive Secretary	European Civil Aviation Conference	France
Paul Evans	Professor; Head, Imaging Science Group	Nottingham Trent University	United Kingdom
Peter Drissell	Director of Aviation Security	UK Civil Aviation Authority	United Kingdom
Peter Kant	Co-Founder and Chief Executive Officer	Enabled Intelligence	United States
Peter Neffenger	Former Administrator	Transportation Security Administration	United States
Philip Baum	Managing Director	Green Light Limited	United Kingdom
Pierre Dominique Prümm	Executive Board Member, Aviation and Infrastructure	Fraport AG	Germany
Poppy Khoza	Director of Civil Aviation	South African Civil Aviation Authority	South Africa
Rafael Echevarne	Director General	Airports Council International Latin America and Caribbean	Panama
Ricky Leung	Executive Director, Engineering and Technology	Airport Authority Hong Kong	China
Rob Harvey	Chief Executive Officer	Daifuku Oceania	New Zealand
Robert Bos	Deputy General Manager	Nuctech Netherlands	Netherlands
Robert W. Poole Jr.	Director of Transportation Policy	Reason Foundation	United States
Rory Olson	Former President and Chief Executive Officer	VOTI Detection	Canada
Régis Lacote	Managing Director, Paris-Charles de Gaulle Airport	Groupe ADP	France
Satyaki Raghunath	Chief Operating Officer	Bangalore International Airport Limited	India

Table 662 - continued

Name	Professional Role	Organization	Country

Contributors

Shikha Sachan
Chief Executive Officer

A transformational leader with a strong focus on integrating new technology frameworks into market research. She focuses on reshaping business models in line with evolving technologies and geopolitical shifts, while actively engaging with decision-makers and experts to deliver trustworthy insights, strategic clarity, and lasting business value.

Shraddha Bhirud
Research Manager

With extensive experience in market intelligence, leads complex client engagements by overseeing multiple research projects from initiation to delivery. Strengthens research operations timely through standardized methods, process optimization, and cross-functional collaboration while supporting sales initiatives. Her commitment to quality, and client success ensures the delivery of actionable insights.

Shailesh Sachan
Research Lead

Leads market intelligence projects by guiding research analysts and ensuring accurate, insight-driven deliverables. Specializes in competitive benchmarking, market assessment, research planning, data validation, and project execution. Delivers high-quality outcomes through effective client coordination, structured workflows, and consistent adherence to project timelines and quality standards.

Vivek Paymode
Research Lead

Oversees end-to-end research engagements by mentoring analysts and delivering reliable market intelligence. Specializes in industry analysis, company profiling, trend evaluation, opportunity assessment, and quality assurance. Collaborates closely with clients and internal teams to ensure actionable insights that support informed strategic business decisions.

360iResearch

Founded in 2017, 360iResearch is a market research and business consulting company headquartered in India, with clients and focus markets spanning the globe.

We are a dynamic, nimble company that believes in carving ambitious, purposeful goals and achieving them with the backing of our greatest asset - our people.

Quick on our feet, we have our ear to the ground when it comes to market intelligence and volatility. Our market intelligence is diligent, real-time and tailored to your needs, and arms you with all the insight that empowers strategic decision-making.

Our clientele encompasses about 80% of the Fortune Global 500, and leading consulting and research companies and academic institutions that rely on our expertise in compiling data in niche markets. Our meta-insights are intelligent, impactful and infinite, and translate into actionable data that support your quest for enhanced profitability, tapping into niche markets, and exploring new revenue opportunities.
