59. Music, printed or in manuscript imports by country, 2024 - World Integrated Trade Solution
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official HS xx.xx import observations constrain the music-publication value bridge; domestic supply, physical-book eligibility and the printing-service fraction remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official HS xx.xx import observations constrain the music-publication value bridge; domestic supply, physical-book eligibility and the printing-service fraction remain modeled.
60. Bloomsbury Publishing - 2024/25 Results Presentation
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate Academic & Professional print, digital and rights/service receipts demonstrate the required physical-revenue boundary; company mix is not treated as global market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate Academic & Professional print, digital and rights/service receipts demonstrate the required physical-revenue boundary; company mix is not treated as global market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed physical academic publishing activity supports commercial applicability but does not verify the assumed global research/reference ratio.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed physical academic publishing activity supports commercial applicability but does not verify the assumed global research/reference ratio.
61. HDSB - RFSQ 26-013: Yearbook Software and Printing Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The qualification notice establishes a commissioned yearbook scope including printing, binding and school delivery; it supplies no awarded value and is not used as a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The qualification notice establishes a commissioned yearbook scope including printing, binding and school delivery; it supplies no awarded value and is not used as a sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The yearbook qualification notice restricts supply to prequalified vendors while permitting school bulk orders and individual ordering. It supports separating commissioning authority from ultimate payment, but discloses no fulfilled-order value.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The yearbook qualification notice restricts supply to prequalified vendors while permitting school bulk orders and individual ordering. It supports separating commissioning authority from ultimate payment, but discloses no fulfilled-order value.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The individual-ordering option establishes an attribution uncertainty relevant to the modeled household portion; it does not establish the assumed xx.xx% proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The individual-ordering option establishes an attribution uncertainty relevant to the modeled household portion; it does not establish the assumed xx.xx% proportion.

62. U.S. Census Bureau - 2022 Economic Census, Books Printing Questionnaire MC-32312
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official printing questionnaire supports the distinction between textbook and general-book production; recognition is not treated as a revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official printing questionnaire supports the distinction between textbook and general-book production; recognition is not treated as a revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognized coloring-book output supports treating recreational activity commissions separately from institutional textbooks according to purpose.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognized coloring-book output supports treating recreational activity commissions separately from institutional textbooks according to purpose.
63. Press Information Bureau - Department of School Education & Literacy, Year End Review 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The government review describes substantial NCERT physical-textbook activity, independently qualifying the physical-availability premise without establishing attributable supplier revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The government review describes substantial NCERT physical-textbook activity, independently qualifying the physical-availability premise without establishing attributable supplier revenue.
64. 2022 North American Industry Classification System - United States
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dedicated book-publishing activity is separated from institutional primary activities and printing without publishing, constraining the Publishing Organizations numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dedicated book-publishing activity is separated from institutional primary activities and printing without publishing, constraining the Publishing Organizations numerator.
65. U.S. Census Bureau - Books Printing: 2002
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Table xx.xx reports 2002 U.S. books-printing contract-work costs of USD xx.xx and shipments of USD xx.xx. Their ratio supplies a dated manufacturing-subcontract proxy, held constant within the forecast component.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Table xx.xx reports 2002 U.S. books-printing contract-work costs of USD xx.xx and shipments of USD xx.xx. Their ratio supplies a dated manufacturing-subcontract proxy, held constant within the forecast component.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical subcontract-cost input constrains the modeled transfer from publisher-origin commissioning to performing suppliers, without adding another gross contract value.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical subcontract-cost input constrains the modeled transfer from publisher-origin commissioning to performing suppliers, without adding another gross contract value.
66. Samfine Creation Holdings Group Limited - Form 20-F for the year ended December 31, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports USD xx.xx of 2025 book-product revenue and principally serves book traders that secure printing contracts and outsource production. This is a supplier-specific quantitative role check, not a Global allocation weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports USD xx.xx of 2025 book-product revenue and principally serves book traders that secure printing contracts and outsource production. This is a supplier-specific quantitative role check, not a Global allocation weight.

67. Ministry of Education - NCERT and Amazon Letter of Engagement, October 7, 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2024 announcement targeted xx.xx NCERT books for academic 2025-xx.xx. This is a planned institutional activity anchor; realization, eligible receipts and subsequent growth are modeled separately.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2024 announcement targeted xx.xx NCERT books for academic 2025-xx.xx. This is a planned institutional activity anchor; realization, eligible receipts and subsequent growth are modeled separately.
68. Bangladesh e-GP - NCTB/TEXTBOOK/2025, Package GD.102_SEC_8.031
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The government-funded procurement plan specifies xx.xx academic-2025 textbook copies and an estimated BDT xx.xx for printing, binding and supply. It constrains commercial order scale and local unit-budget plausibility, not realized annual revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The government-funded procurement plan specifies xx.xx academic-2025 textbook copies and an estimated BDT xx.xx for printing, binding and supply. It constrains commercial order scale and local unit-budget plausibility, not realized annual revenue.
69. Students suffer as NCTB fails to deliver books - The Daily Star, January 17, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 report corroborates the dated approximately xx.xx-copy textbook target and early-year delivery disruption. Target realization and supplier receipts remain modeled.
70. Secondary-level students: A new year without full set of books for many - The Daily Star, December 28, 2025
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 report corroborates the approximately xx.xx-copy academic-2026 target and continued delivery slippage. It informs a normalization assumption, not an observed 2032 share.
71. Business Books - Print Professional, Custom Corporate Books | Blurb
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The business-book offering includes organizational presentation and corporate-gift applications. It establishes an in-scope commissioning proposition, not the modeled global copy quantity or spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The business-book offering includes organizational presentation and corporate-gift applications. It establishes an in-scope commissioning proposition, not the modeled global copy quantity or spending.
72. How to Use Lulu to Support Your Nonprofit | Lulu
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform permits an organization or charity to receive creator proceeds. This supports excluding beneficiary-only arrangements from nonprofit commissioning; it does not measure nonprofit printing purchases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform permits an organization or charity to receive creator proceeds. This supports excluding beneficiary-only arrangements from nonprofit commissioning; it does not measure nonprofit printing purchases.

73. News Corp - Form 10-K for the fiscal year ended June 30, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal 2025 consumer backlist revenue of xx.xx% and digital revenue of xx.xx% anchor the assumed physical-backlist bridge and its forecast starting model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2025 consumer backlist revenue of xx.xx% and digital revenue of xx.xx% anchor the assumed physical-backlist bridge and its forecast starting model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed backlist mix constrains recurring-title demand; its division into replenishment and POD remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed backlist mix constrains recurring-title demand; its division into replenishment and POD remains modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The complementary frontlist population supports the launch-stock cohort after physical-format adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The complementary frontlist population supports the launch-stock cohort after physical-format adjustments.
74. News Corp - Form 10-K for the fiscal year ended June 30, 2026
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2026 backlist revenue of xx.xx% and digital revenue of xx.xx% lower the forecast physical-backlist proxy instead of assuming continued backlist expansion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The updated catalog mix changes the forecast population available for repeat inventory releases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The updated frontlist/backlist bridge changes the forecast planned-production weight; no 2032 share is disclosed.
75. How Do Lulu Direct Orders Work?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lulu describes printing after customer purchase and distinguishes production from subsequent shipment, supporting recipient-order attribution rather than technology-based classification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lulu describes printing after customer purchase and distinguishes production from subsequent shipment, supporting recipient-order attribution rather than technology-based classification.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: No minimum order and one-copy ordering establish commercial feasibility, not the number or value of single-copy releases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No minimum order and one-copy ordering establish commercial feasibility, not the number or value of single-copy releases.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: One POD offering accepts hundreds of copies, independently challenging a POD-equals-single-copy allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One POD offering accepts hundreds of copies, independently challenging a POD-equals-single-copy allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Orders can extend into thousands within the same offering; the production trigger therefore does not uniquely identify the working run band.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Orders can extend into thousands within the same offering; the production trigger therefore does not uniquely identify the working run band.

76. Supply Chain - Clays
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Clays describes differentiated backlist arrangements and stock visibility, supporting a separate inventory-replenishment cohort without establishing its numerical prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Clays describes differentiated backlist arrangements and stock visibility, supporting a separate inventory-replenishment cohort without establishing its numerical prevalence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: New-title consolidation and predictable annual backlist demand support retaining planned inventory commitments; short-run printing is explicitly not necessarily POD.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: New-title consolidation and predictable annual backlist demand support retaining planned inventory commitments; short-run printing is explicitly not necessarily POD.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Clays explicitly distinguishes short-run work from POD, supporting category separation rather than a technological proxy for value share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Clays explicitly distinguishes short-run work from POD, supporting category separation rather than a technological proxy for value share.
77. Smart Backlist Management: When to Hold and When to Print-on-Demand
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheridan describes low-volume titles moving to POD while other titles retain inventory, supporting differentiated release-policy assumptions rather than a uniform backlist-to-POD conversion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheridan describes low-volume titles moving to POD while other titles retain inventory, supporting differentiated release-policy assumptions rather than a uniform backlist-to-POD conversion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A disclosed customer example uses a stock threshold to trigger a 2,000-copy replenishment order. It establishes the commercial mechanism, not a market-wide share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A disclosed customer example uses a stock threshold to trigger a 2,000-copy replenishment order. It establishes the commercial mechanism, not a market-wide share.

78. Shortage of NCERT textbooks - Rajya Sabha Unstarred Question No. 1941, December 17, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advance enrollment-based forecasting, academic-session readiness and a fiscal 2025-xx.xx plan for approximately xx.xx textbooks support a substantial calendar-driven stock cohort. The target is not realized production.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advance enrollment-based forecasting, academic-session readiness and a fiscal 2025-xx.xx plan for approximately xx.xx textbooks support a substantial calendar-driven stock cohort. The target is not realized production.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phased supply and inventory monitoring support distinguishing ongoing availability obligations from individual-recipient POD, without quantifying replenishment's global prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phased supply and inventory monitoring support distinguishing ongoing availability obligations from individual-recipient POD, without quantifying replenishment's global prevalence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official answer distinguishes printer empanelment from approximately xx.xx distribution vendors and describes planned fiscal 2025-xx.xx printing of approximately xx.xx textbooks. It supports commissioning-versus-distribution separation, not a realized monetary channel split.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official answer distinguishes printer empanelment from approximately xx.xx distribution vendors and describes planned fiscal 2025-xx.xx printing of approximately xx.xx textbooks. It supports commissioning-versus-distribution separation, not a realized monetary channel split.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phased textbook supply supports treating annual institutional quantities separately from production batches; it does not disclose the medium-run allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phased textbook supply supports treating annual institutional quantities separately from production batches; it does not disclose the medium-run allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 answer identifies a xx.xx-million-copy FY2025-xx.xx printing decision versus approximately xx.xx in recent years, a counterforce to assuming rapid long-run disappearance. Planned copies are not realized service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 answer identifies a xx.xx-million-copy FY2025-xx.xx printing decision versus approximately xx.xx in recent years, a counterforce to assuming rapid long-run disappearance. Planned copies are not realized service revenue.
79. Fulfillment Fee - Lulu Direct
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2026 schedule lists USD xx.xx per order regardless of item count, supporting an order-frequency effect on associated-service value. It does not verify the assumed historical or forecast multiplier.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2026 schedule lists USD xx.xx per order regardless of item count, supporting an order-frequency effect on associated-service value. It does not verify the assumed historical or forecast multiplier.

80. InnerWorkings, Inc. - Form 10-K for the year ended December 31, 2019
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2019 filing reports USD xx.xx gross profit on USD xx.xx revenue and describes purchased-product and direct-service costs. Historical reported margins constrain the modeled xx.xx% retained-fee ratio; they do not directly measure book-channel share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2019 filing reports USD xx.xx gross profit on USD xx.xx revenue and describes purchased-product and direct-service costs. Historical reported margins constrain the modeled xx.xx% retained-fee ratio; they do not directly measure book-channel share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The procurement-service margin comparison supports the fee-to-managed-spending bridge underlying the direct-channel complement. Carrying the normalized ratio into 2032 is explicitly a forecast assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The procurement-service margin comparison supports the fee-to-managed-spending bridge underlying the direct-channel complement. Carrying the normalized ratio into 2032 is explicitly a forecast assumption.
81. Simplified Purchase Agreement - U.S. Government Publishing Office
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SPA permits agency awards directly to certified vendors for purchases up to USD xx.xx while GPO pays vendors and invoices agencies. This supports classifying by the contracting relationship rather than the invoice payer, not a numerical global weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SPA permits agency awards directly to certified vendors for purchases up to USD xx.xx while GPO pays vendors and invoices agencies. This supports classifying by the contracting relationship rather than the invoice payer, not a numerical global weight.
82. Global Print Services | China, Europe, SE Asia, USA & India
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Imago describes sourcing suppliers and coordinating multiple manufacturers for book-related projects. Its cumulative customer relationships establish the offered intermediary role but are not annual revenue or allocation weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Imago describes sourcing suppliers and coordinating multiple manufacturers for book-related projects. Its cumulative customer relationships establish the offered intermediary role but are not annual revenue or allocation weights.
83. Lion Rock Group Limited - Annual Report 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-business 2025 turnover changes of minus xx.xx% for APOL and minus xx.xx% for Regent challenge uniform intermediary growth; Regent's non-book focus limits its relevance. These observations support avoiding an additional adoption uplift.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-business 2025 turnover changes of minus xx.xx% for APOL and minus xx.xx% for Regent challenge uniform intermediary growth; Regent's non-book focus limits its relevance. These observations support avoiding an additional adoption uplift.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Manufacturing turnover changes of minus xx.xx% at xx.xx Printing and plus xx.xx% at Papercraft demonstrate differing supplier trajectories rather than a simple common channel-growth pattern; these are not direct-contracting market shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Manufacturing turnover changes of minus xx.xx% at xx.xx Printing and plus xx.xx% at Papercraft demonstrate differing supplier trajectories rather than a simple common channel-growth pattern; these are not direct-contracting market shares.

84. Imprint Digital - Book Printing Prices UK
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected schedule quotes GBP xx.xx at xx.xx copies for one paperback specification, supporting a relative-price input, not a historical global realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected schedule quotes GBP xx.xx at xx.xx copies for one paperback specification, supporting a relative-price input, not a historical global realization.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: GBP xx.xx at xx.xx copies supplies the medium-run reference index; format and delivery differences require separate treatment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GBP xx.xx at xx.xx copies supplies the medium-run reference index; format and delivery differences require separate treatment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The quantity-price curve anchors the reference from which the long-run discount is assumed; no long-run price or future share is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The quantity-price curve anchors the reference from which the long-run discount is assumed; no long-run price or future share is disclosed.
85. Print Options
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: KDP distinguishes black-and-white from color records and locks ink type after publication. These platform-specific conditions qualify switching assumptions, not market weights. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: KDP distinguishes black-and-white from color records and locks ink type after publication. These platform-specific conditions qualify switching assumptions, not market weights. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The displayed platform menu does not establish designated spot-color availability or sales; a general color option is not used as evidence of spot-color demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The displayed platform menu does not establish designated spot-color availability or sales; a general color option is not used as evidence of spot-color demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Standard color is unavailable for hardcover, but premium color is available. Both process-color tiers belong within the modeled Full-Color Interiors category. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Standard color is unavailable for hardcover, but premium color is available. Both process-color tiers belong within the modeled Full-Color Interiors category. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
86. Synthèse des chiffres de l'édition jeunesse 2024-2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The primary French publishing survey reports a xx.xx% decline in illustrated early-childhood volumes and a xx.xx% decline in youth-fiction volumes in 2024. These differing outcomes challenge an aggressive universal color-growth assumption. ([sne.fr](https://www.sne.fr/actu/synthese-des-chiffres-de-ledition-jeunesse-2024-2025/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The primary French publishing survey reports a xx.xx% decline in illustrated early-childhood volumes and a xx.xx% decline in youth-fiction volumes in 2024. These differing outcomes challenge an aggressive universal color-growth assumption. ([sne.fr](https://www.sne.fr/actu/synthese-des-chiffres-de-ledition-jeunesse-2024-2025/))

19.4. European Union

Table 436. European Union Book Printing & Packaging Services Market, by Country growth contribution, 2025-2032

Category	2025 value (USD Million)	2032 value (USD Million)	Added value (USD Million)	2025 share (%)	2032 share (%)	Change (pp)	Growth share (%)	CAGR (%)
Austria	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx

Sources & Evidence

1. European Book Publishing Statistics 2024

   · Evidence informing the 2024 market-value input; displayed series and growth include calculations: European publishers reported approximately EUR xx.xx of net book-sales revenue in 2024. The disclosed ebook and audiobook proportions inform the modeled xx.xx% physical-book revenue proportion; publisher revenue is an input, not printing-service revenue.

   · Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 publisher-revenue and format observations provide the European demand input carried into the 2025 estimate.

2. The Global Publishing Industry in 2022

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Table xx.xx supplies country-level publishing revenues and identifies differences between retail-value, publisher-revenue, print-only and prior-year observations. Selected non-European country observations are adjusted for physical formats and period before estimating production spending.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The selected country observations contribute to the demand pool underlying the 2025 working estimate. Nielsen retail datasets elsewhere in the publication are not used.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Primary survey sector differences constrain the education-adjusted hardcover proxy.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Primary survey sector differences constrain the education-adjusted hardcover proxy.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Educational/trade differences qualify extrapolation of U.S. consumer-format revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Educational/trade differences qualify extrapolation of U.S. consumer-format revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx of surveyed children's publishing revenue anchors the modeled specialty demand pool, not supplier receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx of surveyed children's publishing revenue anchors the modeled specialty demand pool, not supplier receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sector data constrain the commissioning-pool proxy; mechanical incidence remains assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sector data constrain the commissioning-pool proxy; mechanical incidence remains assumed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Educational demand supplies a common economic anchor; loose-leaf incidence remains modeled.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Educational demand supplies a common economic anchor; loose-leaf incidence remains modeled.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sector observations constrain the educational short-book commissioning pool.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sector observations constrain the educational short-book commissioning pool.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The commissioning-pool anchor supports an explicit sparse-format incidence model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The commissioning-pool anchor supports an explicit sparse-format incidence model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors the accordion working estimate, not observed accordion orders.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors the accordion working estimate, not observed accordion orders.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed textile-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed textile-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed bath-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed bath-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed foam-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed foam-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original publishing survey documents country-level trade/education revenue differences used to constrain the modeled physical-publishing mix; it does not directly measure service shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original publishing survey documents country-level trade/education revenue differences used to constrain the modeled physical-publishing mix; it does not directly measure service shares.

3. 2024 年新闻出版统计公报

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: For 2024, the official table reports xx.xx book copies or sheets and CNY xx.xx of book-publishing revenue. These constrain the demand bridge and historical contraction, rather than directly measuring printing-service sales.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 book-publishing observation supplies the Chinese demand primitive for the 2025 model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official 2024 output of xx.xx copies/sheets constrains total modeled publisher activity; it does not disclose single-copy production.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official 2024 output of xx.xx copies/sheets constrains total modeled publisher activity; it does not disclose single-copy production.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Aggregate copies and annual title output constrain the shared activity model, not an observed short-run share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Aggregate copies and annual title output constrain the shared activity model, not an observed short-run share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Aggregate production provides a scale check for the medium-run assumption; annual copies per title are not individual batches.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Aggregate production provides a scale check for the medium-run assumption; annual copies per title are not individual batches.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx annual copies per title constrain the long-run scenario without proving its batch mix or forecast.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx annual copies per title constrain the long-run scenario without proving its batch mix or forecast.

4. Foreign Exchange Rates - G.5A Annual, January 5, 2026

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: The official 2024 annual-average conversion inputs are USD xx.xx per EUR, CNY xx.xx per USD and CAD xx.xx per USD.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The exchange-rate table establishes the conversion basis of the preceding-year demand inputs used in the 2025 estimate; subsequent effective-USD price assumptions are modeled separately.

5. Book publishing industry, 2024 - Statistics Canada
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Canadian publishers reported CAD xx.xx of print sales outside the online category and CAD xx.xx of online print sales in 2024. Their sum, rather than total operating revenue, supplies the physical-book demand input.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: Reported cost of goods sold of CAD xx.xx, up CAD xx.xx from 2022, supplies a cost-pressure cross-check, not a directly attributable printing-services total.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Canadian online versus other print-sales values constrain parcel exposure, with explicit value-to-unit and geographic limitations.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Canadian online versus other print-sales values constrain parcel exposure, with explicit value-to-unit and geographic limitations.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed envelope purchases.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed envelope purchases.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed bag purchases.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed bag purchases.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Modest observed online-print growth qualifies aggressive parcel-related wrapping assumptions.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Modest observed online-print growth qualifies aggressive parcel-related wrapping assumptions.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring separate protection.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring separate protection.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring closures.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring closures.
6. U.S. Census Bureau - Books Printing: Shipments, annual table
   - Evidence informing the 2017 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2017; this is a national production anchor for the historical model.
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2018.
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2019.
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2020.
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2021.
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2022.
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2024. This national industrial measure is narrower than the composite global service boundary.

7. U.S. Census Bureau - Book Publishers, All Establishments: Revenue, annual table
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: The Census annual series reports USD xx.xx of U.S. book-publisher revenue for 2024. A modeled xx.xx% physical-book proportion excludes digital and other adjacent receipts.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 Census observation replaces an older survey-based U.S. revenue bridge in the demand pool underlying 2025.

8. Scholastic Corporation - Form 10-K for the year ended May 31, 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Scholastic's fiscal 2024 product, service, production and inventory-reserve costs were xx.xx% of revenue; postage, freight, shipping, fulfillment and other costs were xx.xx%. These broad categories constrain, but do not directly establish, eligible outsourced-service spending.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The corresponding fiscal 2025 proportions were xx.xx% and xx.xx%. Royalties and prepublication amortization are separately disclosed, allowing their exclusion from the service-market bridge.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 product, service, production and inventory-reserve costs were xx.xx% of revenue. The broader cost category constrains the manufacturing spending boundary but does not directly disclose printing-service revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 product, service, production and inventory-reserve costs were xx.xx% of revenue. The broader cost category constrains the manufacturing spending boundary but does not directly disclose printing-service revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Prepublication amortization is disclosed separately from production costs, supporting exclusion of adjacent amortization rather than equating it with externally purchased prepress.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Prepublication amortization is disclosed separately from production costs, supporting exclusion of adjacent amortization rather than equating it with externally purchased prepress.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Postage, freight, shipping, fulfillment and other costs were xx.xx% of revenue in fiscal 2025 versus xx.xx% in fiscal 2024. This is a broad buyer-cost check, not an eligible outsourced-fulfillment share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Postage, freight, shipping, fulfillment and other costs were xx.xx% of revenue in fiscal 2025 versus xx.xx% in fiscal 2024. This is a broad buyer-cost check, not an eligible outsourced-fulfillment share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Outsourced manufacturing coexists with company-operated distribution. Fiscal-2025 production-related costs were xx.xx% of revenue, constraining the inherited spending bridge rather than directly measuring the assumed route fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Outsourced manufacturing coexists with company-operated distribution. Fiscal-2025 production-related costs were xx.xx% of revenue, constraining the inherited spending bridge rather than directly measuring the assumed route fraction.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Book-club revenue was xx.xx% online-ordered and xx.xx% parent-ordered, while products typically went to classrooms. This challenges the use of online sales as a proxy for the external contractor's delivery model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Book-club revenue was xx.xx% online-ordered and xx.xx% parent-ordered, while products typically went to classrooms. This challenges the use of online sales as a proxy for the external contractor's delivery model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct printer-to-customer fulfillment is a disclosed option. Broader logistics/other costs were xx.xx% of revenue versus xx.xx% previously, providing a cost-boundary check but no global order-level share or service-price growth observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct printer-to-customer fulfillment is a disclosed option. Broader logistics/other costs were xx.xx% of revenue versus xx.xx% previously, providing a cost-boundary check but no global order-level share or service-price growth observation.

9. CEWE achieves all targets in 2025 and aims to further increase revenue and earnings in 2026

- Evidence informing the 2025 market-value input; displayed series and growth include calculations: CEWE reported xx.xx CEWE PHOTOBOOK copies in 2025 versus xx.xx in 2024, supporting a positive specialty-book volume assumption without establishing global adoption.
- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Observed 2025 photobook growth informs the specialty-demand assumption for 2026; the market value remains modeled.
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The observed specialty-book activity is a starting condition for the forecast, not independent proof of continued growth through 2032.
- Evidence informing the 2040 market-value input; displayed series and growth include calculations: The forecast explicitly slows specialty-demand growth after 2032; this source supplies the initial commercial observation, not the long-term growth rate.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: CEWE reports xx.xx photobooks in 2025 compared with xx.xx in 2024. This independently establishes specialty-book activity underlying the nonpublisher model, without establishing a global expansion factor.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CEWE reports xx.xx photobooks in 2025 compared with xx.xx in 2024. This independently establishes specialty-book activity underlying the nonpublisher model, without establishing a global expansion factor.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports retaining premium specialty commissions in the manufacturing mix; the binding allocation and unchanged future cohort profile remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports retaining premium specialty commissions in the manufacturing mix; the binding allocation and unchanged future cohort profile remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported photobook volumes constrain personal-book activity and the nonpublisher starting condition, not hardcover prevalence or future share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported photobook volumes constrain personal-book activity and the nonpublisher starting condition, not hardcover prevalence or future share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Photobook activity supports the separate personal-book commissioning block; its softcover fraction remains assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Photobook activity supports the separate personal-book commissioning block; its softcover fraction remains assumed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported photobook copies rose from xx.xx to xx.xx; the narrower 2026 target qualifies strong specialty-growth assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported photobook copies rose from xx.xx to xx.xx; the narrower 2026 target qualifies strong specialty-growth assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specialty-book activity constrains the presentation-demand scenario but does not measure gift-box attachment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specialty-book activity constrains the presentation-demand scenario but does not measure gift-box attachment.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CEWE PHOTOBOOK units in 2025 versus xx.xx in 2024, constraining the specialty-book demand budget without establishing a global process split.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CEWE PHOTOBOOK units in 2025 versus xx.xx in 2024, constraining the specialty-book demand budget without establishing a global process split.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports the common photographic-demand input; electrophotographic attribution remains an explicit assumption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports the common photographic-demand input; electrophotographic attribution remains an explicit assumption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The photobook

10. Paperback Printing Cost - Kindle Direct Publishing

- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The inspected U.S. paperback schedule charges USD xx.xx plus USD xx.xx per page for the specified regular-trim black-ink category. It provides a contemporary commercial price comparison for the assumed USD xx.xx self-publishing production receipt, not an observed historical price or volume.
- Evidence informing the 2026 market-value input; displayed series and growth include calculations: The schedule distinguishes printing charges from royalties and retail list prices, supporting the production-receipt boundary used in the estimate.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule uses USD xx.xx plus USD xx.xx per page for the relevant page band, yielding the USD xx.xx representative manufacturing comparator. It anchors relative weights, not an observed global 2025 price or future share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule uses USD xx.xx plus USD xx.xx per page for the relevant page band, yielding the USD xx.xx representative manufacturing comparator. It anchors relative weights, not an observed global 2025 price or future share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The paperback manufacturing comparator supplies the baseline from which the modeled binding component and hardcover increment are separated.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The paperback manufacturing comparator supplies the baseline from which the modeled binding component and hardcover increment are separated.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The separately identified paperback printing charge constrains the self-publishing production-receipt model and its distinction from retail proceeds.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The separately identified paperback printing charge constrains the self-publishing production-receipt model and its distinction from retail proceeds.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page. It is a contemporary production-charge comparison for the modeled USD xx.xx receipt, not an observed historical Global average.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page. It is a contemporary production-charge comparison for the modeled USD xx.xx receipt, not an observed historical Global average.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The relevant current U.S. paperback printing schedule is USD xx.xx plus USD xx.xx per page, giving USD xx.xx at xx.xx pages. This is a commercial price comparison for creator-production receipts, not proof of 2025 realization, volume or fulfillment mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The relevant current U.S. paperback printing schedule is USD xx.xx plus USD xx.xx per page, giving USD xx.xx at xx.xx pages. This is a commercial price comparison for creator-production receipts, not proof of 2025 realization, volume or fulfillment mix.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule of USD xx.xx plus USD xx.xx per page gives USD xx.xx at xx.xx pages, a magnitude check for modeled single-copy receipts. It establishes neither global volume nor historical or forecast share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule of USD xx.xx plus USD xx.xx per page gives USD xx.xx at xx.xx pages, a magnitude check for modeled single-copy receipts. It establishes neither global volume nor historical or forecast share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page, yielding USD xx.xx for xx.xx pages. This is a contemporary price comparator, not a historical global average. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834340))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page, yielding USD xx.xx for xx.xx pages. This is a contemporary price comparator, not a historical global average. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834340))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The comparable standard and premium color charges calculate to USD xx.xx and USD xx.xx. They constrain relative

11. European Book Publishing Statistics 2017

- Evidence informing the 2017 market-value input; displayed series and growth include calculations: The association's primary survey reports approximately EUR xx.xx of European net publisher revenue for 2017, constraining the pre-pandemic demand level.

12. European Book Publishing Statistics 2019

- Evidence informing the 2018 market-value input; displayed series and growth include calculations: The association reports approximately EUR xx.xx of publisher revenue for 2018.
- Evidence informing the 2019 market-value input; displayed series and growth include calculations: The association reports approximately EUR xx.xx for 2019 and identifies a questionnaire change that limits exact comparability with earlier observations.

13. 2021 年新闻出版产业分析报告

- Evidence informing the 2020 market-value input; displayed series and growth include calculations: The official report's 2021 comparison identifies a substantial rebound from 2020, constraining the pandemic-recovery bridge.
- Evidence informing the 2021 market-value input; displayed series and growth include calculations: China reported xx.xx book copies or sheets in 2021, up xx.xx%; the report also distinguishes textbook output and reprints.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: China's official 2021 textbook share was xx.xx% of book copies. It supplies an older educational-activity proxy, not a monochrome share. ([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: China's official 2021 textbook share was xx.xx% of book copies. It supplies an older educational-activity proxy, not a monochrome share. ([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The textbook copy proportion constrains educational exposure; comparable monetary intensity and spot-color incidence are modeled separately. ([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The textbook copy proportion constrains educational exposure; comparable monetary intensity and spot-color incidence are modeled separately. ([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational-activity observation contributes to the shared demand proxy carried into the full-color base and forecast models; no color split is reported. ([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational-activity observation contributes to the shared demand proxy carried into the full-color base and forecast models; no color split is reported. ([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))

14. European Book Publishing Statistics 2023

- Evidence informing the 2022 market-value input; displayed series and growth include calculations: European net publisher revenue was approximately EUR xx.xx in 2022; the association describes paper-cost pressure and price-led growth.

15. Publishing Activities - 2024, National Statistical Institute of Bulgaria

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: xx.xx book titles in 2024 provide the activity input monetized with an explicitly assumed annual receipt equivalent; no service share is directly reported. ([nsi.bg](https://www.nsi.bg/en/file/xx.xx/Press_izd_EN_2024.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: xx.xx book titles in 2024 provide the activity input monetized with an explicitly assumed annual receipt equivalent; no service share is directly reported. ([nsi.bg](https://www.nsi.bg/en/file/xx.xx/Press_izd_EN_2024.pdf))

16. National Library of Luxembourg - Annual Report 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: xx.xx annual individual-or-block ISBN assignments constrain the activity proxy; titles per assignment and commercial monetization are explicit assumptions. ([bnl.public.lu](https://bnl.public.lu/dam-assets/publications/rapports/2024-rapport-annuel-en.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: xx.xx annual individual-or-block ISBN assignments constrain the activity proxy; titles per assignment and commercial monetization are explicit assumptions. ([bnl.public.lu](https://bnl.public.lu/dam-assets/publications/rapports/2024-rapport-annuel-en.pdf))
17. Hardcover Printing Cost - Kindle Direct Publishing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim hardcover schedule uses USD xx.xx plus USD xx.xx per page in the relevant band. Comparison with paperback charges constrains the premium-equivalent manufacturing model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim hardcover schedule uses USD xx.xx plus USD xx.xx per page in the relevant band. Comparison with paperback charges constrains the premium-equivalent manufacturing model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD xx.xx fixed-charge difference supplies the POD premium input; the xx.xx% commercial-run realization and premium incidence are explicitly modeled rather than disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD xx.xx fixed-charge difference supplies the POD premium input; the xx.xx% commercial-run realization and premium incidence are explicitly modeled rather than disclosed.
18. User Fees - University of Wisconsin-Milwaukee Print & Copy Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The university service schedule separately prices preflight/prepress preparation at USD xx.xx per hour, establishing a paid preparation activity rather than an automatic component of every printing-platform purchase.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The university service schedule separately prices preflight/prepress preparation at USD xx.xx per hour, establishing a paid preparation activity rather than an automatic component of every printing-platform purchase.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Perfect binding is listed at USD xx.xx-xx.xx per book. The lower endpoint is the model's basic-binding comparator, not a measured worldwide realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Perfect binding is listed at USD xx.xx-xx.xx per book. The lower endpoint is the model's basic-binding comparator, not a measured worldwide realization.

19. How Much Does It Cost to Print a Book? - QinPrinting
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier's delivered xx.xx-page, xx.xx-copy color-book examples list USD xx.xx for softcover and USD xx.xx for hardcover. They provide a commercial-run countercheck, with delivery and product differences preventing direct substitution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier's delivered xx.xx-page, xx.xx-copy color-book examples list USD xx.xx for softcover and USD xx.xx for hardcover. They provide a commercial-run countercheck, with delivery and product differences preventing direct substitution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The smaller hardcover premium in this offset example qualifies extrapolation of the full POD hardcover increment into binding revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The smaller hardcover premium in this offset example qualifies extrapolation of the full POD hardcover increment into binding revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Comparable hardcover and softcover quotations constrain the assumed relative manufacturing realization after scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Comparable hardcover and softcover quotations constrain the assumed relative manufacturing realization after scope adjustments.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Softcover prices provide a commercial comparison, not a historical global average.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Softcover prices provide a commercial comparison, not a historical global average.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Board-book quotations constrain the assumed production receipt; delivery and duties require adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Board-book quotations constrain the assumed production receipt; delivery and duties require adjustment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Mechanical-binding quotations constrain the unit-receipt assumption, not incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Mechanical-binding quotations constrain the unit-receipt assumption, not incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Short-booklet quotations constrain the lower realization used for eligible saddle-stitched books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Short-booklet quotations constrain the lower realization used for eligible saddle-stitched books.
20. Book Wrap Mailers / Book Boxes - Packaging ONE
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer lists MP2 book mailers at GBP xx.xx each for xx.xx packs of xx.xx excluding VAT. The converted unit price supplies the packaging-creation value proxy, not a global average or a historical quote.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer lists MP2 book mailers at GBP xx.xx each for xx.xx packs of xx.xx excluding VAT. The converted unit price supplies the packaging-creation value proxy, not a global average or a historical quote.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The enclosure price forms the other side of the creation-versus-packing ratio. One comparable enclosure per packing unit is an explicit activity-matching assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The enclosure price forms the other side of the creation-versus-packing ratio. One comparable enclosure per packing unit is an explicit activity-matching assumption.

21. Foreign Exchange Rates - G.5A Annual, January 5, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 annual average is USD xx.xx per GBP. It converts the GBP packaging comparator into the common monetary basis used in the starting allocation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 annual average is USD xx.xx per GBP. It converts the GBP packaging comparator into the common monetary basis used in the starting allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same conversion supports the common-currency packaging/packing denominator inherited by the forecast; no 2032 exchange rate is asserted.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same conversion supports the common-currency packaging/packing denominator inherited by the forecast; no 2032 exchange rate is asserted.

22. Optional Book Publishing Services - InstantPublisher

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider lists layout/typesetting at USD xx.xx per page with a USD xx.xx minimum. This supports the preparation-spending feasibility check, with purchase incidence and copies per job remaining assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider lists layout/typesetting at USD xx.xx per page with a USD xx.xx minimum. This supports the preparation-spending feasibility check, with purchase incidence and copies per job remaining assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Individual shrink-wrapping is listed at USD xx.xx each plus USD xx.xx setup. Amortizing setup over an assumed xx.xx copies gives the USD xx.xx packing comparator.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Individual shrink-wrapping is listed at USD xx.xx each plus USD xx.xx setup. Amortizing setup over an assumed xx.xx copies gives the USD xx.xx packing comparator.

23. How Does Merchant Pricing Work for Ecommerce Stores? - Lulu Direct

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2026 merchant-pricing explanation identifies a USD xx.xx fulfillment fee and separates merchant retail receipts from payments for supplier production, shipping and taxes. The fee is a contemporary feasibility comparator, not verified 2025 penetration or a future charge.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2026 merchant-pricing explanation identifies a USD xx.xx fulfillment fee and separates merchant retail receipts from payments for supplier production, shipping and taxes. The fee is a contemporary feasibility comparator, not verified 2025 penetration or a future charge.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Merchant retail receipts are separate from payments for printing and fulfillment. The current page lists a USD xx.xx fulfillment fee, with shipping and taxes separately calculated. This supports the service-value boundary, not a historical average fee or global order volume.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Merchant retail receipts are separate from payments for printing and fulfillment. The current page lists a USD xx.xx fulfillment fee, with shipping and taxes separately calculated. This supports the service-value boundary, not a historical average fee or global order volume.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lulu identifies separate retail and production/fulfillment transactions and a USD xx.xx fulfillment fee. This supports excluding merchant retail margins from production-service value and avoiding automatic procurement-channel classification from the storefront.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lulu identifies separate retail and production/fulfillment transactions and a USD xx.xx fulfillment fee. This supports excluding merchant retail margins from production-service value and avoiding automatic procurement-channel classification from the storefront.

24. AAP December 2025 StatShot Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The primary monthly reporting panel's full-year 2025 trade figures show paperback revenue down xx.xx%. This qualifies broad physical-book growth assumptions and supplies directional mix evidence only.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The primary monthly reporting panel's full-year 2025 trade figures show paperback revenue down xx.xx%. This qualifies broad physical-book growth assumptions and supplies directional mix evidence only.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same approximately xx.xx-publisher panel shows hardcover revenue up xx.xx%. It supports a modest premium-mix hypothesis but neither measures global binding spending nor proves the forecast.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same approximately xx.xx-publisher panel shows hardcover revenue up xx.xx%. It supports a modest premium-mix hypothesis but neither measures global binding spending nor proves the forecast.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct-participant 2025 hardback revenue of approximately USD xx.xx anchors the adjusted conventional-format model; it is not printing revenue or a global share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct-participant 2025 hardback revenue of approximately USD xx.xx anchors the adjusted conventional-format model; it is not printing revenue or a global share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported paperback revenue of approximately USD xx.xx plus USD xx.xx mass-market revenue supplies the comparison input. Reported annual movements qualify the forecast starting mix, not its future persistence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported paperback revenue of approximately USD xx.xx plus USD xx.xx mass-market revenue supplies the comparison input. Reported annual movements qualify the forecast starting mix, not its future persistence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct publisher-sample religious and trade physical-format receipts provide a category-intensity proxy, subject to explicit geographic and coverage adjustments.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct publisher-sample religious and trade physical-format receipts provide a category-intensity proxy, subject to explicit geographic and coverage adjustments.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported professional-book receipts and their 2025 decline challenge assumptions of automatic growth from recurring reference relationships.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported professional-book receipts and their 2025 decline challenge assumptions of automatic growth from recurring reference relationships.

25. Print and Associated Services Framework - Lot 1 Buyer Guide: Framework Objectives
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The public purchasing framework separately specifies production-management advice. It establishes a purchased responsibility but not a global fee rate or permission to count subcontract pass-through as retained revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The public purchasing framework separately specifies production-management advice. It establishes a purchased responsibility but not a global fee rate or permission to count subcontract pass-through as retained revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The framework also specifies finished-goods stock holding and call-off, with required holding costs included in the print-job price. This supports allocating embedded production-linked fulfillment rather than restricting the category to standalone invoices.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The framework also specifies finished-goods stock holding and call-off, with required holding costs included in the print-job price. This supports allocating embedded production-linked fulfillment rather than restricting the category to standalone invoices.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Finished goods may be held for call-off, with storage included in the print job where required. This supports consolidated releases as a production-linked arrangement without assuming every release is an individual order.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Finished goods may be held for call-off, with storage included in the print job where required. This supports consolidated releases as a production-linked arrangement without assuming every release is an individual order.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contractors maintain designated distribution lists, deliver to nominated addresses and receive job-specific copy allocations, supporting the modeled list-delivery category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contractors maintain designated distribution lists, deliver to nominated addresses and receive job-specific copy allocations, supporting the modeled list-delivery category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The coexistence of stock holding, call-off and distribution-list obligations supports separating production trigger from fulfillment responsibility; call-off alone does not establish transaction-level fulfillment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The coexistence of stock holding, call-off and distribution-list obligations supports separating production trigger from fulfillment responsibility; call-off alone does not establish transaction-level fulfillment.

26. Frequently Asked Questions - IngramSpark
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: IngramSpark states that it does not provide editing, typesetting or design services. This counterexample prevents treating all platform manufacturing commissions as purchases of professional preparation services.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: IngramSpark states that it does not provide editing, typesetting or design services. This counterexample prevents treating all platform manufacturing commissions as purchases of professional preparation services.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider permits nonexclusive sourcing when the customer owns its ISBN and does not offer editing, typesetting or design. These terms constrain the author service boundary, not adoption or revenue growth.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider permits nonexclusive sourcing when the customer owns its ISBN and does not offer editing, typesetting or design. These terms constrain the author service boundary, not adoption or revenue growth.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: IngramSpark permits nonexclusive use of other printers, distributors and fulfillment providers when publishers own their ISBN. This establishes an alternative-sourcing option, not observed switching or a numerical channel allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: IngramSpark permits nonexclusive use of other printers, distributors and fulfillment providers when publishers own their ISBN. This establishes an alternative-sourcing option, not observed switching or a numerical channel allocation.
27. Packaging Printing & Production - Imago Group
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier identifies book slipcases, clamshell cases, tray-and-lid constructions and multicomponent publisher packaging. This supports the enclosure-production boundary and the limitation of a simple mailer-price proxy; it does not supply sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier identifies book slipcases, clamshell cases, tray-and-lid constructions and multicomponent publisher packaging. This supports the enclosure-production boundary and the limitation of a simple mailer-price proxy; it does not supply sales weights.
28. Services - Bridgeport National Bindery
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The short-run book-production portfolio separately lists shrink-wrapping and set packing. It establishes commercial packing activity distinct from enclosure manufacture and binding, without measuring its revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The short-run book-production portfolio separately lists shrink-wrapping and set packing. It establishes commercial packing activity distinct from enclosure manufacture and binding, without measuring its revenue.
29. Terms and Conditions - CPI Print Germany
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published terms distinguish ex-works production prices from packaging, freight and postage and reserve specified input-cost adjustment rights. They support comparable-scope valuation but do not establish realized inflation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published terms distinguish ex-works production prices from packaging, freight and postage and reserve specified input-cost adjustment rights. They support comparable-scope valuation but do not establish realized inflation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate treatment of forwarding and storage responsibilities supports the eligible production-linked service boundary; contractual rights do not prove the assumed future fee-growth rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate treatment of forwarding and storage responsibilities supports the eligible production-linked service boundary; contractual rights do not prove the assumed future fee-growth rate.

30. ONIX Codelists Issue 75 - List 150: Product Form
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BB identifies hardback/cased books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BB identifies hardback/cased books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BC identifies paperback/softback books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BC identifies paperback/softback books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BH distinguishes board-page books from conventional books with rigid covers.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BH distinguishes board-page books from conventional books with rigid covers.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BE groups spiral, comb and coil forms.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BE groups spiral, comb and coil forms.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BD identifies loose-leaf books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BD identifies loose-leaf books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BF includes stapled short books; nonbook uses are excluded from the model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BF includes stapled short books; nonbook uses are excluded from the model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BL recognizes slide-bound books without measuring current sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BL recognizes slide-bound books without measuring current sales.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BO recognizes continuous concertina-fold books; nonbook charts are excluded.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BO recognizes continuous concertina-fold books; nonbook charts are excluded.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BI identifies textile-page books, not cloth-covered paper books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BI identifies textile-page books, not cloth-covered paper books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BJ identifies waterproof bath-book forms.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BJ identifies waterproof bath-book forms.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BP identifies foam-page and foam-cover books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BP identifies foam-page and foam-cover books.

31. Thomson Reuters - Fourth-Quarter and Full-Year 2025 Results
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Global Print revenue and contraction constrain professional-print scale and substitution direction; content receipts are not treated as loose-leaf service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Global Print revenue and contraction constrain professional-print scale and substitution direction; content receipts are not treated as loose-leaf service revenue.
32. Lulu - Discontinuing Saddle Stitch in Global Distribution
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provider-specific wholesale distribution restrictions establish a channel constraint, not a global sales weight or measured forecast decline.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provider-specific wholesale distribution restrictions establish a channel constraint, not a global sales weight or measured forecast decline.
33. MAGACOPY Sofia - Copying and Printing Prices
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A current EUR xx.xx binding-only charge establishes a live commercial service and a price-scope comparison; full-book USD receipts and incidence remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A current EUR xx.xx binding-only charge establishes a live commercial service and a price-scope comparison; full-book USD receipts and incidence remain assumed.
34. Imago Group - Spotlight on Children's Books for National Young Readers Week
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's children's portfolio supports board-book commercial classification, not order volumes.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's children's portfolio supports board-book commercial classification, not order volumes.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cloth-book offerings support the textile-page category premise, not its modeled incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cloth-book offerings support the textile-page category premise, not its modeled incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bath-book offerings support a separate commercial category; sales and service receipts are undisclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bath-book offerings support a separate commercial category; sales and service receipts are undisclosed.
35. Pegasus - My First Book of Shapes: EVA Foam Book
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The dated 2025 product identifies foam pages and supports commercial-status and classification checks, not global volume or supplier realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated 2025 product identifies foam pages and supports commercial-status and classification checks, not global volume or supplier realization.

36. U.S. Consumer Product Safety Commission - Children's Books
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Product classification and intended audience affect commercial compliance accountability; no numerical surcharge is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Product classification and intended audience affect commercial compliance accountability; no numerical surcharge is inferred.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The exemption boundary supports separate classification rather than assumed conventional-book treatment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The exemption boundary supports separate classification rather than assumed conventional-book treatment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Compliance classification is retained as an uncertainty, not an exclusion or measured price premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Compliance classification is retained as an uncertainty, not an exclusion or measured price premium.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specialty construction does not itself establish ordinary-book exemption eligibility or market inactivity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specialty construction does not itself establish ordinary-book exemption eligibility or market inactivity.
37. Puget Bindery - Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider identifies training manuals and reference guides as mechanical-binding applications, supporting the commissioning premise without measuring sales incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider identifies training manuals and reference guides as mechanical-binding applications, supporting the commissioning premise without measuring sales incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists commercial letterpress book plates and specialty inserts, supporting a component-service model rather than attribution of the entire book price.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists commercial letterpress book plates and specialty inserts, supporting a component-service model rather than attribution of the entire book price.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The bindery identifies commercial printers, publishers and corporate print buyers as customers and excludes direct-to-consumer sales. This supports trade-purchasing attribution but supplies no sales percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The bindery identifies commercial printers, publishers and corporate print buyers as customers and excludes direct-to-consumer sales. This supports trade-purchasing attribution but supplies no sales percentage.

38. ONIX Codelists Issue 75 - List 80: Product Packaging Type
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates single-item and multivolume slipcases; supplies classification, not sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates single-item and multivolume slipcases; supplies classification, not sales weights.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes lidded boxes from slipcase-style boxed sets.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes lidded boxes from slipcase-style boxed sets.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-ended wraparound sleeves are distinct from enclosed wrapping.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-ended wraparound sleeves are distinct from enclosed wrapping.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes envelope-like slip-sleeves and wallets or folders.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes envelope-like slip-sleeves and wallets or folders.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes pouch and bag packaging independently.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes pouch and bag packaging independently.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately recognizes shrink-wrapped products and bundles.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately recognizes shrink-wrapped products and bundles.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Defines formed-plastic clamshells and card-backed blister packaging as distinct constructions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Defines formed-plastic clamshells and card-backed blister packaging as distinct constructions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Explicitly recognizes book browse-prevention closures.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Explicitly recognizes book browse-prevention closures.

39. U.S. Government Publishing Office - Program 827-S: Federal Aviation Administration Books, Contract Pricing and Specifications

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Historical evaluation quantities provide a container-heavy institutional purchasing counterexample, not global shipment shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Historical evaluation quantities provide a container-heavy institutional purchasing counterexample, not global shipment shares.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies kraft-envelope packing within the book procurement.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies kraft-envelope packing within the book procurement.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies cushioned shipping bags as an eligible book-order enclosure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies cushioned shipping bags as an eligible book-order enclosure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Includes wrapped shipping bundles as an alternative purchasing configuration.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Includes wrapped shipping bundles as an alternative purchasing configuration.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Requires packing and filler separately from the external enclosure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Requires packing and filler separately from the external enclosure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies closure tape and securing straps independently of container construction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies closure tape and securing straps independently of container construction.

40. U.S. Government Publishing Office - Print Order Form 2511 Instructions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specifies paper-banded sets separately from shrink-wrapped sets.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specifies paper-banded sets separately from shrink-wrapped sets.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes shrink-wrapped units nested within cartons, supporting component attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes shrink-wrapped units nested within cartons, supporting component attribution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes internal packaging, container quantities and pallet requirements.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes internal packaging, container quantities and pallet requirements.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The instructions distinguish nominated delivery addresses and warehouse receiving arrangements, supporting the receiving-point attribution premise, not an observed consolidated market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The instructions distinguish nominated delivery addresses and warehouse receiving arrangements, supporting the receiving-point attribution premise, not an observed consolidated market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supplemental distribution lists accommodate multiple destinations, supporting the distinction between preallocated destination delivery and a single receiving-point handoff.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supplemental distribution lists accommodate multiple destinations, supporting the distinction between preallocated destination delivery and a single receiving-point handoff.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: GPO specifies black interior inks separately from cover inks, supporting the monochrome classification and underlying-book attribution premise, not its modeled sales weight. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GPO specifies black interior inks separately from cover inks, supporting the monochrome classification and underlying-book attribution premise, not its modeled sales weight. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Designated Pantone specifications are recognized for interior inks, supporting a separate spot-color commercial category without measuring its share. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Designated Pantone specifications are recognized for interior inks, supporting a separate spot-color commercial category without measuring its share. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Four-color process is identified as full color for interior pages; cover color is separately specified. This supports classification at both modeled anchors. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Four-color process is identified as full color for interior pages; cover color is separately specified. This supports classification at both modeled anchors. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))

41. GPOExpress Program Pricing Guide - November 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx hand folding provides a handling-cost comparison; the complete band realization remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx hand folding provides a handling-cost comparison; the complete band realization remains modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx per shrink wrap anchors a small-run comparison, not the assumed global realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx per shrink wrap anchors a small-run comparison, not the assumed global realization.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx auxiliary insertion supplies a handling-price comparison, not protective-material sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx auxiliary insertion supplies a handling-price comparison, not protective-material sales.
42. Hardcover Book Protection: Dust Jackets or Slipcases?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-product EXW slipcase prices of USD xx.xx, USD xx.xx and USD xx.xx at xx.xx xx.xx and xx.xx units constrain relative realizations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-product EXW slipcase prices of USD xx.xx, USD xx.xx and USD xx.xx at xx.xx xx.xx and xx.xx units constrain relative realizations.
43. Book Printing Cost in China: How Printing Prices Are Calculated
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately USD xx.xx per export carton including basic packing materials constrains the bulk-package budget; the container allocation is modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately USD xx.xx per export carton including basic packing materials constrains the bulk-package budget; the container allocation is modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its cushioning split is assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its cushioning split is assumed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its closure split is assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its closure split is assumed.
44. Make Believe Ideas - Independent Retail Catalog 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 catalog identifies activity books with cover-mounted blisters, establishing book-specific participation but not packaging revenue or volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 catalog identifies activity books with cover-mounted blisters, establishing book-specific participation but not packaging revenue or volume.
45. Bookmobile - Request Book Printing Quotes the Right Way to Save Money
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The printer's bookstore-oriented purchasing guidance cautions against universal shrink-wrap attachment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The printer's bookstore-oriented purchasing guidance cautions against universal shrink-wrap attachment.

46. Digital Book Printing - Bookmobile
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current book-production portfolio separately offers poly bags, supporting commercial category participation rather than a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current book-production portfolio separately offers poly bags, supporting commercial category participation rather than a sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current portfolio offers shrink-wrap independently of other finishing options.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current portfolio offers shrink-wrap independently of other finishing options.
47. Sell Books on Shopify - Lulu
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The offered storefront-to-print-and-ship route supports an accessible production-linked parcel channel, not assumed demand.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct fulfillment availability supports the parcel-use scenario without establishing envelope mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct fulfillment availability supports the parcel-use scenario without establishing bag mix.
48. European Commission - New EU Rules on Packaging Enter into Application
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional packaging minimization supports a directional right-sizing premise, not a measured global box-price effect.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Waste-reduction requirements inform the bounded substitution scenario; they do not quantify band adoption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional circularity requirements inform lower lightweight-bag exposure without implying a global book-bag ban.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Material substitution remains partly internal to the combined film-and-paper category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional recyclability pressure informs the niche substitution scenario, not an observed blister-sales decline.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Empty-space reduction provides a directional premise for lower cushioning allowance per individual box.
49. Digital Printing - U.S. Government Publishing Office
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Procurement examples allow offset or digital alternatives while restricting some digital variants, supporting an acceptance- and run-mix model rather than a universal quality ranking. This is a modeling premise, not an observed process share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Procurement examples allow offset or digital alternatives while restricting some digital variants, supporting an acceptance- and run-mix model rather than a universal quality ranking. This is a modeling premise, not an observed process share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The purchasing guidance supports conditional digital substitution, not unrestricted interchangeability or an observed forecast allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The purchasing guidance supports conditional digital substitution, not unrestricted interchangeability or an observed forecast allocation.

50. Clays demonstrate dedication to digital investment
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx books annually and xx.xx books of digital capacity in an older investment statement; this constrains scale but is not a 2025 realized output mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx books annually and xx.xx books of digital capacity in an older investment statement; this constrains scale but is not a 2025 realized output mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's inkjet investment supports an existing book-production application and a conditional adoption premise, not a quantified global forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's inkjet investment supports an existing book-production application and a conditional adoption premise, not a quantified global forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The capacity/output comparison is a limited commercial check on continued conventional book production, not a direct offset revenue observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The capacity/output comparison is a limited commercial check on continued conventional book production, not a direct offset revenue observation.
51. ISO/TC 130 - Guidelines for Using Print Production Standards, Version 1.0, 2019
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes packaging use cases and printing processes, supporting allocation of gravure to book-associated components rather than the full value of a book.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes packaging use cases and printing processes, supporting allocation of gravure to book-associated components rather than the full value of a book.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies flexographic packaging applications; the book-specific spending budget and process coefficients remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies flexographic packaging applications; the book-specific spending budget and process coefficients remain modeled.
52. Premium Layflat Photo Books - PhotobookShop
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Offers bound silver-halide photographic books and distinguishes them from digitally printed alternatives, supporting the model's separate photographic category rather than an observed sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Offers bound silver-halide photographic books and distinguishes them from digitally printed alternatives, supporting the model's separate photographic category rather than an observed sales weight.
53. The Cormac McCarthy Collection - The Folio Society
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents screen-printed cloth covers on physical book editions, supporting component-level commercial attribution. It does not measure supplier component receipts or global uptake.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents screen-printed cloth covers on physical book editions, supporting component-level commercial attribution. It does not measure supplier component receipts or global uptake.

54. Risograph Digital Duplicator Order Form, 2026 - Minneapolis College of Art and Design
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2026 institutional form recognizes Risograph book/booklet orders but excludes assembly. It supports a limited application boundary, not 2025 external commercial volume; internal institutional charges are excluded from the numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2026 institutional form recognizes Risograph book/booklet orders but excludes assembly. It supports a limited application boundary, not 2025 external commercial volume; internal institutional charges are excluded from the numerator.
55. American Printing House - 2024 Annual Report
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal 2024 product sales were USD xx.xx; braille publications represented xx.xx% of product sales; xx.xx braille volumes were produced. These inputs constrain an adjusted production-realization proxy, not a global market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The decline from xx.xx braille volumes in 2022 qualifies a uniform physical-demand growth assumption and informs the slower relative forecast activity weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2024 product sales were USD xx.xx; braille publications represented xx.xx% of product sales; xx.xx braille volumes were produced. These inputs constrain an adjusted production-realization proxy, not a global market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The decline from xx.xx braille volumes in 2022 qualifies a uniform physical-demand growth assumption and informs the slower relative forecast activity weight.
56. Kodak Moments Kiosk - Kodak Alaris
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises book-capable retail kiosk equipment and a photographic-printing portfolio. Used only as a commercial-route premise for the thermal working estimate, not as evidence of thermal book-service sales, utilization or the final share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises book-capable retail kiosk equipment and a photographic-printing portfolio. Used only as a commercial-route premise for the thermal working estimate, not as evidence of thermal book-service sales, utilization or the final share.
57. 二〇二一年全国新闻出版业基本情况
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official 2021 aggregate textbook output distinguishes school, tertiary and vocational/adult activity; historical volumes require value and global-scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official 2021 aggregate textbook output distinguishes school, tertiary and vocational/adult activity; historical volumes require value and global-scope adjustments.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Secondary, primary and teaching-book aggregate sheet counts form the school activity weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Secondary, primary and teaching-book aggregate sheet counts form the school activity weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Tertiary textbook aggregate output supplies the higher-education activity input before an assumed relative-service-value adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Tertiary textbook aggregate output supplies the higher-education activity input before an assumed relative-service-value adjustment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Vocational, adult and literacy textbook output supplies the corresponding historical activity input.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Vocational, adult and literacy textbook output supplies the corresponding historical activity input.

58. Music, printed or in manuscript imports by country, 2024 - World Integrated Trade Solution
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official HS xx.xx import observations constrain the music-publication value bridge; domestic supply, physical-book eligibility and the printing-service fraction remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official HS xx.xx import observations constrain the music-publication value bridge; domestic supply, physical-book eligibility and the printing-service fraction remain modeled.
59. Bloomsbury Publishing - 2024/25 Results Presentation
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate Academic & Professional print, digital and rights/service receipts demonstrate the required physical-revenue boundary; company mix is not treated as global market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate Academic & Professional print, digital and rights/service receipts demonstrate the required physical-revenue boundary; company mix is not treated as global market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed physical academic publishing activity supports commercial applicability but does not verify the assumed global research/reference ratio.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed physical academic publishing activity supports commercial applicability but does not verify the assumed global research/reference ratio.
60. HDSB - RFSQ 26-013: Yearbook Software and Printing Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The qualification notice establishes a commissioned yearbook scope including printing, binding and school delivery; it supplies no awarded value and is not used as a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The qualification notice establishes a commissioned yearbook scope including printing, binding and school delivery; it supplies no awarded value and is not used as a sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The yearbook qualification notice restricts supply to prequalified vendors while permitting school bulk orders and individual ordering. It supports separating commissioning authority from ultimate payment, but discloses no fulfilled-order value.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The yearbook qualification notice restricts supply to prequalified vendors while permitting school bulk orders and individual ordering. It supports separating commissioning authority from ultimate payment, but discloses no fulfilled-order value.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The individual-ordering option establishes an attribution uncertainty relevant to the modeled household portion; it does not establish the assumed xx.xx% proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The individual-ordering option establishes an attribution uncertainty relevant to the modeled household portion; it does not establish the assumed xx.xx% proportion.

61. U.S. Census Bureau - 2022 Economic Census, Books Printing Questionnaire MC-32312
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official printing questionnaire supports the distinction between textbook and general-book production; recognition is not treated as a revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official printing questionnaire supports the distinction between textbook and general-book production; recognition is not treated as a revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognized coloring-book output supports treating recreational activity commissions separately from institutional textbooks according to purpose.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognized coloring-book output supports treating recreational activity commissions separately from institutional textbooks according to purpose.
62. Press Information Bureau - Department of School Education & Literacy, Year End Review 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The government review describes substantial NCERT physical-textbook activity, independently qualifying the physical-availability premise without establishing attributable supplier revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The government review describes substantial NCERT physical-textbook activity, independently qualifying the physical-availability premise without establishing attributable supplier revenue.
63. 2022 North American Industry Classification System - United States
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dedicated book-publishing activity is separated from institutional primary activities and printing without publishing, constraining the Publishing Organizations numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dedicated book-publishing activity is separated from institutional primary activities and printing without publishing, constraining the Publishing Organizations numerator.
64. U.S. Census Bureau - Books Printing: 2002
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Table xx.xx reports 2002 U.S. books-printing contract-work costs of USD xx.xx and shipments of USD xx.xx. Their ratio supplies a dated manufacturing-subcontract proxy, held constant within the forecast component.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Table xx.xx reports 2002 U.S. books-printing contract-work costs of USD xx.xx and shipments of USD xx.xx. Their ratio supplies a dated manufacturing-subcontract proxy, held constant within the forecast component.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical subcontract-cost input constrains the modeled transfer from publisher-origin commissioning to performing suppliers, without adding another gross contract value.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical subcontract-cost input constrains the modeled transfer from publisher-origin commissioning to performing suppliers, without adding another gross contract value.
65. Samfine Creation Holdings Group Limited - Form 20-F for the year ended December 31, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports USD xx.xx of 2025 book-product revenue and principally serves book traders that secure printing contracts and outsource production. This is a supplier-specific quantitative role check, not a Global allocation weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports USD xx.xx of 2025 book-product revenue and principally serves book traders that secure printing contracts and outsource production. This is a supplier-specific quantitative role check, not a Global allocation weight.

66. Ministry of Education - NCERT and Amazon Letter of Engagement, October 7, 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2024 announcement targeted xx.xx NCERT books for academic 2025-xx.xx. This is a planned institutional activity anchor; realization, eligible receipts and subsequent growth are modeled separately.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2024 announcement targeted xx.xx NCERT books for academic 2025-xx.xx. This is a planned institutional activity anchor; realization, eligible receipts and subsequent growth are modeled separately.
67. Bangladesh e-GP - NCTB/TEXTBOOK/2025, Package GD.102_SEC_8.031
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The government-funded procurement plan specifies xx.xx academic-2025 textbook copies and an estimated BDT xx.xx for printing, binding and supply. It constrains commercial order scale and local unit-budget plausibility, not realized annual revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The government-funded procurement plan specifies xx.xx academic-2025 textbook copies and an estimated BDT xx.xx for printing, binding and supply. It constrains commercial order scale and local unit-budget plausibility, not realized annual revenue.
68. Students suffer as NCTB fails to deliver books - The Daily Star, January 17, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 report corroborates the dated approximately xx.xx-copy textbook target and early-year delivery disruption. Target realization and supplier receipts remain modeled.
69. Secondary-level students: A new year without full set of books for many - The Daily Star, December 28, 2025
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 report corroborates the approximately xx.xx-copy academic-2026 target and continued delivery slippage. It informs a normalization assumption, not an observed 2032 share.
70. Business Books - Print Professional, Custom Corporate Books | Blurb
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The business-book offering includes organizational presentation and corporate-gift applications. It establishes an in-scope commissioning proposition, not the modeled global copy quantity or spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The business-book offering includes organizational presentation and corporate-gift applications. It establishes an in-scope commissioning proposition, not the modeled global copy quantity or spending.
71. How to Use Lulu to Support Your Nonprofit | Lulu
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform permits an organization or charity to receive creator proceeds. This supports excluding beneficiary-only arrangements from nonprofit commissioning; it does not measure nonprofit printing purchases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform permits an organization or charity to receive creator proceeds. This supports excluding beneficiary-only arrangements from nonprofit commissioning; it does not measure nonprofit printing purchases.

72. News Corp - Form 10-K for the fiscal year ended June 30, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal 2025 consumer backlist revenue of xx.xx% and digital revenue of xx.xx% anchor the assumed physical-backlist bridge and its forecast starting model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2025 consumer backlist revenue of xx.xx% and digital revenue of xx.xx% anchor the assumed physical-backlist bridge and its forecast starting model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed backlist mix constrains recurring-title demand; its division into replenishment and POD remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed backlist mix constrains recurring-title demand; its division into replenishment and POD remains modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The complementary frontlist population supports the launch-stock cohort after physical-format adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The complementary frontlist population supports the launch-stock cohort after physical-format adjustments.
73. News Corp - Form 10-K for the fiscal year ended June 30, 2026
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2026 backlist revenue of xx.xx% and digital revenue of xx.xx% lower the forecast physical-backlist proxy instead of assuming continued backlist expansion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The updated catalog mix changes the forecast population available for repeat inventory releases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The updated frontlist/backlist bridge changes the forecast planned-production weight; no 2032 share is disclosed.
74. How Do Lulu Direct Orders Work?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lulu describes printing after customer purchase and distinguishes production from subsequent shipment, supporting recipient-order attribution rather than technology-based classification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lulu describes printing after customer purchase and distinguishes production from subsequent shipment, supporting recipient-order attribution rather than technology-based classification.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: No minimum order and one-copy ordering establish commercial feasibility, not the number or value of single-copy releases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No minimum order and one-copy ordering establish commercial feasibility, not the number or value of single-copy releases.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: One POD offering accepts hundreds of copies, independently challenging a POD-equals-single-copy allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One POD offering accepts hundreds of copies, independently challenging a POD-equals-single-copy allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Orders can extend into thousands within the same offering; the production trigger therefore does not uniquely identify the working run band.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Orders can extend into thousands within the same offering; the production trigger therefore does not uniquely identify the working run band.

75. Supply Chain - Clays
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Clays describes differentiated backlist arrangements and stock visibility, supporting a separate inventory-replenishment cohort without establishing its numerical prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Clays describes differentiated backlist arrangements and stock visibility, supporting a separate inventory-replenishment cohort without establishing its numerical prevalence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: New-title consolidation and predictable annual backlist demand support retaining planned inventory commitments; short-run printing is explicitly not necessarily POD.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: New-title consolidation and predictable annual backlist demand support retaining planned inventory commitments; short-run printing is explicitly not necessarily POD.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Clays explicitly distinguishes short-run work from POD, supporting category separation rather than a technological proxy for value share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Clays explicitly distinguishes short-run work from POD, supporting category separation rather than a technological proxy for value share.
76. Smart Backlist Management: When to Hold and When to Print-on-Demand
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheridan describes low-volume titles moving to POD while other titles retain inventory, supporting differentiated release-policy assumptions rather than a uniform backlist-to-POD conversion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheridan describes low-volume titles moving to POD while other titles retain inventory, supporting differentiated release-policy assumptions rather than a uniform backlist-to-POD conversion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A disclosed customer example uses a stock threshold to trigger a 2,000-copy replenishment order. It establishes the commercial mechanism, not a market-wide share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A disclosed customer example uses a stock threshold to trigger a 2,000-copy replenishment order. It establishes the commercial mechanism, not a market-wide share.

77. Shortage of NCERT textbooks - Rajya Sabha Unstarred Question No. 1941, December 17, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advance enrollment-based forecasting, academic-session readiness and a fiscal 2025-xx.xx plan for approximately xx.xx textbooks support a substantial calendar-driven stock cohort. The target is not realized production.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advance enrollment-based forecasting, academic-session readiness and a fiscal 2025-xx.xx plan for approximately xx.xx textbooks support a substantial calendar-driven stock cohort. The target is not realized production.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phased supply and inventory monitoring support distinguishing ongoing availability obligations from individual-recipient POD, without quantifying replenishment's global prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phased supply and inventory monitoring support distinguishing ongoing availability obligations from individual-recipient POD, without quantifying replenishment's global prevalence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official answer distinguishes printer empanelment from approximately xx.xx distribution vendors and describes planned fiscal 2025-xx.xx printing of approximately xx.xx textbooks. It supports commissioning-versus-distribution separation, not a realized monetary channel split.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official answer distinguishes printer empanelment from approximately xx.xx distribution vendors and describes planned fiscal 2025-xx.xx printing of approximately xx.xx textbooks. It supports commissioning-versus-distribution separation, not a realized monetary channel split.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phased textbook supply supports treating annual institutional quantities separately from production batches; it does not disclose the medium-run allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phased textbook supply supports treating annual institutional quantities separately from production batches; it does not disclose the medium-run allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 answer identifies a xx.xx-million-copy FY2025-xx.xx printing decision versus approximately xx.xx in recent years, a counterforce to assuming rapid long-run disappearance. Planned copies are not realized service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 answer identifies a xx.xx-million-copy FY2025-xx.xx printing decision versus approximately xx.xx in recent years, a counterforce to assuming rapid long-run disappearance. Planned copies are not realized service revenue.
78. Fulfillment Fee - Lulu Direct
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2026 schedule lists USD xx.xx per order regardless of item count, supporting an order-frequency effect on associated-service value. It does not verify the assumed historical or forecast multiplier.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2026 schedule lists USD xx.xx per order regardless of item count, supporting an order-frequency effect on associated-service value. It does not verify the assumed historical or forecast multiplier.

79. InnerWorkings, Inc. - Form 10-K for the year ended December 31, 2019
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2019 filing reports USD xx.xx gross profit on USD xx.xx revenue and describes purchased-product and direct-service costs. Historical reported margins constrain the modeled xx.xx% retained-fee ratio; they do not directly measure book-channel share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2019 filing reports USD xx.xx gross profit on USD xx.xx revenue and describes purchased-product and direct-service costs. Historical reported margins constrain the modeled xx.xx% retained-fee ratio; they do not directly measure book-channel share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The procurement-service margin comparison supports the fee-to-managed-spending bridge underlying the direct-channel complement. Carrying the normalized ratio into 2032 is explicitly a forecast assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The procurement-service margin comparison supports the fee-to-managed-spending bridge underlying the direct-channel complement. Carrying the normalized ratio into 2032 is explicitly a forecast assumption.
80. Simplified Purchase Agreement - U.S. Government Publishing Office
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SPA permits agency awards directly to certified vendors for purchases up to USD xx.xx while GPO pays vendors and invoices agencies. This supports classifying by the contracting relationship rather than the invoice payer, not a numerical global weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SPA permits agency awards directly to certified vendors for purchases up to USD xx.xx while GPO pays vendors and invoices agencies. This supports classifying by the contracting relationship rather than the invoice payer, not a numerical global weight.
81. Global Print Services | China, Europe, SE Asia, USA & India
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Imago describes sourcing suppliers and coordinating multiple manufacturers for book-related projects. Its cumulative customer relationships establish the offered intermediary role but are not annual revenue or allocation weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Imago describes sourcing suppliers and coordinating multiple manufacturers for book-related projects. Its cumulative customer relationships establish the offered intermediary role but are not annual revenue or allocation weights.
82. Lion Rock Group Limited - Annual Report 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-business 2025 turnover changes of minus xx.xx% for APOL and minus xx.xx% for Regent challenge uniform intermediary growth; Regent's non-book focus limits its relevance. These observations support avoiding an additional adoption uplift.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-business 2025 turnover changes of minus xx.xx% for APOL and minus xx.xx% for Regent challenge uniform intermediary growth; Regent's non-book focus limits its relevance. These observations support avoiding an additional adoption uplift.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Manufacturing turnover changes of minus xx.xx% at xx.xx Printing and plus xx.xx% at Papercraft demonstrate differing supplier trajectories rather than a simple common channel-growth pattern; these are not direct-contracting market shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Manufacturing turnover changes of minus xx.xx% at xx.xx Printing and plus xx.xx% at Papercraft demonstrate differing supplier trajectories rather than a simple common channel-growth pattern; these are not direct-contracting market shares.

83. Imprint Digital - Book Printing Prices UK

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected schedule quotes GBP xx.xx at xx.xx copies for one paperback specification, supporting a relative-price input, not a historical global realization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected schedule quotes GBP xx.xx at xx.xx copies for one paperback specification, supporting a relative-price input, not a historical global realization.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: GBP xx.xx at xx.xx copies supplies the medium-run reference index; format and delivery differences require separate treatment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GBP xx.xx at xx.xx copies supplies the medium-run reference index; format and delivery differences require separate treatment.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The quantity-price curve anchors the reference from which the long-run discount is assumed; no long-run price or future share is disclosed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The quantity-price curve anchors the reference from which the long-run discount is assumed; no long-run price or future share is disclosed.

84. Print Options

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: KDP distinguishes black-and-white from color records and locks ink type after publication. These platform-specific conditions qualify switching assumptions, not market weights. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: KDP distinguishes black-and-white from color records and locks ink type after publication. These platform-specific conditions qualify switching assumptions, not market weights. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The displayed platform menu does not establish designated spot-color availability or sales; a general color option is not used as evidence of spot-color demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The displayed platform menu does not establish designated spot-color availability or sales; a general color option is not used as evidence of spot-color demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Standard color is unavailable for hardcover, but premium color is available. Both process-color tiers belong within the modeled Full-Color Interiors category. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Standard color is unavailable for hardcover, but premium color is available. Both process-color tiers belong within the modeled Full-Color Interiors category. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))

85. Synthèse des chiffres de l'édition jeunesse 2024-2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The primary French publishing survey reports a xx.xx% decline in illustrated early-childhood volumes and a xx.xx% decline in youth-fiction volumes in 2024. These differing outcomes challenge an aggressive universal color-growth assumption. ([sne.fr](https://www.sne.fr/actu/synthese-des-chiffres-de-ledition-jeunesse-2024-2025/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The primary French publishing survey reports a xx.xx% decline in illustrated early-childhood volumes and a xx.xx% decline in youth-fiction volumes in 2024. These differing outcomes challenge an aggressive universal color-growth assumption. ([sne.fr](https://www.sne.fr/actu/synthese-des-chiffres-de-ledition-jeunesse-2024-2025/))

19.5. ASEAN

Table 454. ASEAN Book Printing & Packaging Services Market, by Country growth contribution, 2025-2032

Category	2025 value (USD Million)	2032 value (USD Million)	Added value (USD Million)	2025 share (%)	2032 share (%)	Change (pp)	Growth share (%)	CAGR (%)
Brunei	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Cambodia	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Indonesia	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Lao People's Democratic Republic	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Malaysia	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx

Sources & Evidence

1. European Book Publishing Statistics 2024

   · Evidence informing the 2024 market-value input; displayed series and growth include calculations: European publishers reported approximately EUR xx.xx of net book-sales revenue in 2024. The disclosed ebook and audiobook proportions inform the modeled xx.xx% physical-book revenue proportion; publisher revenue is an input, not printing-service revenue.

   · Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 publisher-revenue and format observations provide the European demand input carried into the 2025 estimate.

2. The Global Publishing Industry in 2022

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Table xx.xx supplies country-level publishing revenues and identifies differences between retail-value, publisher-revenue, print-only and prior-year observations. Selected non-European country observations are adjusted for physical formats and period before estimating production spending.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The selected country observations contribute to the demand pool underlying the 2025 working estimate. Nielsen retail datasets elsewhere in the publication are not used.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Primary survey sector differences constrain the education-adjusted hardcover proxy.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Primary survey sector differences constrain the education-adjusted hardcover proxy.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Educational/trade differences qualify extrapolation of U.S. consumer-format revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Educational/trade differences qualify extrapolation of U.S. consumer-format revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx of surveyed children's publishing revenue anchors the modeled specialty demand pool, not supplier receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx of surveyed children's publishing revenue anchors the modeled specialty demand pool, not supplier receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sector data constrain the commissioning-pool proxy; mechanical incidence remains assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sector data constrain the commissioning-pool proxy; mechanical incidence remains assumed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Educational demand supplies a common economic anchor; loose-leaf incidence remains modeled.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Educational demand supplies a common economic anchor; loose-leaf incidence remains modeled.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sector observations constrain the educational short-book commissioning pool.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sector observations constrain the educational short-book commissioning pool.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The commissioning-pool anchor supports an explicit sparse-format incidence model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The commissioning-pool anchor supports an explicit sparse-format incidence model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors the accordion working estimate, not observed accordion orders.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors the accordion working estimate, not observed accordion orders.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed textile-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed textile-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed bath-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed bath-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed foam-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed foam-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original publishing survey documents country-level trade/education revenue differences used to constrain the modeled physical-publishing mix; it does not directly measure service shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original publishing survey documents country-level trade/education revenue differences used to constrain the modeled physical-publishing mix; it does not directly measure service shares.

3. 2024 年新闻出版统计公报

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: For 2024, the official table reports xx.xx book copies or sheets and CNY xx.xx of book-publishing revenue. These constrain the demand bridge and historical contraction, rather than directly measuring printing-service sales.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 book-publishing observation supplies the Chinese demand primitive for the 2025 model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official 2024 output of xx.xx copies/sheets constrains total modeled publisher activity; it does not disclose single-copy production.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official 2024 output of xx.xx copies/sheets constrains total modeled publisher activity; it does not disclose single-copy production.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Aggregate copies and annual title output constrain the shared activity model, not an observed short-run share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Aggregate copies and annual title output constrain the shared activity model, not an observed short-run share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Aggregate production provides a scale check for the medium-run assumption; annual copies per title are not individual batches.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Aggregate production provides a scale check for the medium-run assumption; annual copies per title are not individual batches.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx annual copies per title constrain the long-run scenario without proving its batch mix or forecast.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx annual copies per title constrain the long-run scenario without proving its batch mix or forecast.

4. Foreign Exchange Rates - G.5A Annual, January 5, 2026

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: The official 2024 annual-average conversion inputs are USD xx.xx per EUR, CNY xx.xx per USD and CAD xx.xx per USD.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The exchange-rate table establishes the conversion basis of the preceding-year demand inputs used in the 2025 estimate; subsequent effective-USD price assumptions are modeled separately.

5. Book publishing industry, 2024 - Statistics Canada
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Canadian publishers reported CAD xx.xx of print sales outside the online category and CAD xx.xx of online print sales in 2024. Their sum, rather than total operating revenue, supplies the physical-book demand input.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: Reported cost of goods sold of CAD xx.xx, up CAD xx.xx from 2022, supplies a cost-pressure cross-check, not a directly attributable printing-services total.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Canadian online versus other print-sales values constrain parcel exposure, with explicit value-to-unit and geographic limitations.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Canadian online versus other print-sales values constrain parcel exposure, with explicit value-to-unit and geographic limitations.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed envelope purchases.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed envelope purchases.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed bag purchases.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed bag purchases.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Modest observed online-print growth qualifies aggressive parcel-related wrapping assumptions.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Modest observed online-print growth qualifies aggressive parcel-related wrapping assumptions.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring separate protection.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring separate protection.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring closures.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring closures.
6. U.S. Census Bureau - Books Printing: Shipments, annual table
   - Evidence informing the 2017 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2017; this is a national production anchor for the historical model.
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2018.
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2019.
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2020.
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2021.
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2022.
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2024. This national industrial measure is narrower than the composite global service boundary.

7. U.S. Census Bureau - Book Publishers, All Establishments: Revenue, annual table
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: The Census annual series reports USD xx.xx of U.S. book-publisher revenue for 2024. A modeled xx.xx% physical-book proportion excludes digital and other adjacent receipts.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 Census observation replaces an older survey-based U.S. revenue bridge in the demand pool underlying 2025.

8. Scholastic Corporation - Form 10-K for the year ended May 31, 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Scholastic's fiscal 2024 product, service, production and inventory-reserve costs were xx.xx% of revenue; postage, freight, shipping, fulfillment and other costs were xx.xx%. These broad categories constrain, but do not directly establish, eligible outsourced-service spending.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The corresponding fiscal 2025 proportions were xx.xx% and xx.xx%. Royalties and prepublication amortization are separately disclosed, allowing their exclusion from the service-market bridge.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 product, service, production and inventory-reserve costs were xx.xx% of revenue. The broader cost category constrains the manufacturing spending boundary but does not directly disclose printing-service revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 product, service, production and inventory-reserve costs were xx.xx% of revenue. The broader cost category constrains the manufacturing spending boundary but does not directly disclose printing-service revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Prepublication amortization is disclosed separately from production costs, supporting exclusion of adjacent amortization rather than equating it with externally purchased prepress.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Prepublication amortization is disclosed separately from production costs, supporting exclusion of adjacent amortization rather than equating it with externally purchased prepress.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Postage, freight, shipping, fulfillment and other costs were xx.xx% of revenue in fiscal 2025 versus xx.xx% in fiscal 2024. This is a broad buyer-cost check, not an eligible outsourced-fulfillment share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Postage, freight, shipping, fulfillment and other costs were xx.xx% of revenue in fiscal 2025 versus xx.xx% in fiscal 2024. This is a broad buyer-cost check, not an eligible outsourced-fulfillment share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Outsourced manufacturing coexists with company-operated distribution. Fiscal-2025 production-related costs were xx.xx% of revenue, constraining the inherited spending bridge rather than directly measuring the assumed route fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Outsourced manufacturing coexists with company-operated distribution. Fiscal-2025 production-related costs were xx.xx% of revenue, constraining the inherited spending bridge rather than directly measuring the assumed route fraction.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Book-club revenue was xx.xx% online-ordered and xx.xx% parent-ordered, while products typically went to classrooms. This challenges the use of online sales as a proxy for the external contractor's delivery model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Book-club revenue was xx.xx% online-ordered and xx.xx% parent-ordered, while products typically went to classrooms. This challenges the use of online sales as a proxy for the external contractor's delivery model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct printer-to-customer fulfillment is a disclosed option. Broader logistics/other costs were xx.xx% of revenue versus xx.xx% previously, providing a cost-boundary check but no global order-level share or service-price growth observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct printer-to-customer fulfillment is a disclosed option. Broader logistics/other costs were xx.xx% of revenue versus xx.xx% previously, providing a cost-boundary check but no global order-level share or service-price growth observation.

9. CEWE achieves all targets in 2025 and aims to further increase revenue and earnings in 2026

- Evidence informing the 2025 market-value input; displayed series and growth include calculations: CEWE reported xx.xx CEWE PHOTOBOOK copies in 2025 versus xx.xx in 2024, supporting a positive specialty-book volume assumption without establishing global adoption.
- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Observed 2025 photobook growth informs the specialty-demand assumption for 2026; the market value remains modeled.
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The observed specialty-book activity is a starting condition for the forecast, not independent proof of continued growth through 2032.
- Evidence informing the 2040 market-value input; displayed series and growth include calculations: The forecast explicitly slows specialty-demand growth after 2032; this source supplies the initial commercial observation, not the long-term growth rate.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: CEWE reports xx.xx photobooks in 2025 compared with xx.xx in 2024. This independently establishes specialty-book activity underlying the nonpublisher model, without establishing a global expansion factor.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CEWE reports xx.xx photobooks in 2025 compared with xx.xx in 2024. This independently establishes specialty-book activity underlying the nonpublisher model, without establishing a global expansion factor.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports retaining premium specialty commissions in the manufacturing mix; the binding allocation and unchanged future cohort profile remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports retaining premium specialty commissions in the manufacturing mix; the binding allocation and unchanged future cohort profile remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported photobook volumes constrain personal-book activity and the nonpublisher starting condition, not hardcover prevalence or future share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported photobook volumes constrain personal-book activity and the nonpublisher starting condition, not hardcover prevalence or future share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Photobook activity supports the separate personal-book commissioning block; its softcover fraction remains assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Photobook activity supports the separate personal-book commissioning block; its softcover fraction remains assumed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported photobook copies rose from xx.xx to xx.xx; the narrower 2026 target qualifies strong specialty-growth assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported photobook copies rose from xx.xx to xx.xx; the narrower 2026 target qualifies strong specialty-growth assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specialty-book activity constrains the presentation-demand scenario but does not measure gift-box attachment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specialty-book activity constrains the presentation-demand scenario but does not measure gift-box attachment.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CEWE PHOTOBOOK units in 2025 versus xx.xx in 2024, constraining the specialty-book demand budget without establishing a global process split.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CEWE PHOTOBOOK units in 2025 versus xx.xx in 2024, constraining the specialty-book demand budget without establishing a global process split.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports the common photographic-demand input; electrophotographic attribution remains an explicit assumption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports the common photographic-demand input; electrophotographic attribution remains an explicit assumption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The photobook

10. Paperback Printing Cost - Kindle Direct Publishing

- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The inspected U.S. paperback schedule charges USD xx.xx plus USD xx.xx per page for the specified regular-trim black-ink category. It provides a contemporary commercial price comparison for the assumed USD xx.xx self-publishing production receipt, not an observed historical price or volume.
- Evidence informing the 2026 market-value input; displayed series and growth include calculations: The schedule distinguishes printing charges from royalties and retail list prices, supporting the production-receipt boundary used in the estimate.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule uses USD xx.xx plus USD xx.xx per page for the relevant page band, yielding the USD xx.xx representative manufacturing comparator. It anchors relative weights, not an observed global 2025 price or future share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule uses USD xx.xx plus USD xx.xx per page for the relevant page band, yielding the USD xx.xx representative manufacturing comparator. It anchors relative weights, not an observed global 2025 price or future share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The paperback manufacturing comparator supplies the baseline from which the modeled binding component and hardcover increment are separated.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The paperback manufacturing comparator supplies the baseline from which the modeled binding component and hardcover increment are separated.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The separately identified paperback printing charge constrains the self-publishing production-receipt model and its distinction from retail proceeds.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The separately identified paperback printing charge constrains the self-publishing production-receipt model and its distinction from retail proceeds.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page. It is a contemporary production-charge comparison for the modeled USD xx.xx receipt, not an observed historical Global average.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page. It is a contemporary production-charge comparison for the modeled USD xx.xx receipt, not an observed historical Global average.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The relevant current U.S. paperback printing schedule is USD xx.xx plus USD xx.xx per page, giving USD xx.xx at xx.xx pages. This is a commercial price comparison for creator-production receipts, not proof of 2025 realization, volume or fulfillment mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The relevant current U.S. paperback printing schedule is USD xx.xx plus USD xx.xx per page, giving USD xx.xx at xx.xx pages. This is a commercial price comparison for creator-production receipts, not proof of 2025 realization, volume or fulfillment mix.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule of USD xx.xx plus USD xx.xx per page gives USD xx.xx at xx.xx pages, a magnitude check for modeled single-copy receipts. It establishes neither global volume nor historical or forecast share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule of USD xx.xx plus USD xx.xx per page gives USD xx.xx at xx.xx pages, a magnitude check for modeled single-copy receipts. It establishes neither global volume nor historical or forecast share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page, yielding USD xx.xx for xx.xx pages. This is a contemporary price comparator, not a historical global average. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834340))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page, yielding USD xx.xx for xx.xx pages. This is a contemporary price comparator, not a historical global average. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834340))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The comparable standard and premium color charges calculate to USD xx.xx and USD xx.xx. They constrain relative

11. European Book Publishing Statistics 2017

- Evidence informing the 2017 market-value input; displayed series and growth include calculations: The association's primary survey reports approximately EUR xx.xx of European net publisher revenue for 2017, constraining the pre-pandemic demand level.

12. European Book Publishing Statistics 2019

- Evidence informing the 2018 market-value input; displayed series and growth include calculations: The association reports approximately EUR xx.xx of publisher revenue for 2018.
- Evidence informing the 2019 market-value input; displayed series and growth include calculations: The association reports approximately EUR xx.xx for 2019 and identifies a questionnaire change that limits exact comparability with earlier observations.

13. 2021 年新闻出版产业分析报告

- Evidence informing the 2020 market-value input; displayed series and growth include calculations: The official report's 2021 comparison identifies a substantial rebound from 2020, constraining the pandemic-recovery bridge.
- Evidence informing the 2021 market-value input; displayed series and growth include calculations: China reported xx.xx book copies or sheets in 2021, up xx.xx%; the report also distinguishes textbook output and reprints.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: China's official 2021 textbook share was xx.xx% of book copies. It supplies an older educational-activity proxy, not a monochrome share.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: China's official 2021 textbook share was xx.xx% of book copies. It supplies an older educational-activity proxy, not a monochrome share.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The textbook copy proportion constrains educational exposure; comparable monetary intensity and spot-color incidence are modeled separately.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The textbook copy proportion constrains educational exposure; comparable monetary intensity and spot-color incidence are modeled separately.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational-activity observation contributes to the shared demand proxy carried into the full-color base and forecast models; no color split is reported.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational-activity observation contributes to the shared demand proxy carried into the full-color base and forecast models; no color split is reported.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))

14. European Book Publishing Statistics 2023

- Evidence informing the 2022 market-value input; displayed series and growth include calculations: European net publisher revenue was approximately EUR xx.xx in 2022; the association describes paper-cost pressure and price-led growth.

15. Urgent Action Needed to Restore Education Funding in Lao PDR
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Education-funding pressure is opposing evidence that restrains the relative commissioning forecast; it does not directly measure book-service revenue. ([worldbank.org](https://www.worldbank.org/en/news/press-release/2024/xx.xx/xx.xx/urgent-action-needed-to-restore-education-funding-in-lao-pdr))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Education-funding pressure is opposing evidence that restrains the relative commissioning forecast; it does not directly measure book-service revenue. ([worldbank.org](https://www.worldbank.org/en/news/press-release/2024/xx.xx/xx.xx/urgent-action-needed-to-restore-education-funding-in-lao-pdr))
16. Global Connect - Ingram Content Group
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local network participation is an access premise, not Singaporean demand or a regional market share. ([resources.ingramcontent.com](https://resources.ingramcontent.com/publishers/global-connect))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local network participation is an access premise, not Singaporean demand or a regional market share. ([resources.ingramcontent.com](https://resources.ingramcontent.com/publishers/global-connect))
17. Hardcover Printing Cost - Kindle Direct Publishing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim hardcover schedule uses USD xx.xx plus USD xx.xx per page in the relevant band. Comparison with paperback charges constrains the premium-equivalent manufacturing model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim hardcover schedule uses USD xx.xx plus USD xx.xx per page in the relevant band. Comparison with paperback charges constrains the premium-equivalent manufacturing model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD xx.xx fixed-charge difference supplies the POD premium input; the xx.xx% commercial-run realization and premium incidence are explicitly modeled rather than disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD xx.xx fixed-charge difference supplies the POD premium input; the xx.xx% commercial-run realization and premium incidence are explicitly modeled rather than disclosed.
18. User Fees - University of Wisconsin-Milwaukee Print & Copy Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The university service schedule separately prices preflight/prepress preparation at USD xx.xx per hour, establishing a paid preparation activity rather than an automatic component of every printing-platform purchase.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The university service schedule separately prices preflight/prepress preparation at USD xx.xx per hour, establishing a paid preparation activity rather than an automatic component of every printing-platform purchase.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Perfect binding is listed at USD xx.xx-xx.xx per book. The lower endpoint is the model's basic-binding comparator, not a measured worldwide realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Perfect binding is listed at USD xx.xx-xx.xx per book. The lower endpoint is the model's basic-binding comparator, not a measured worldwide realization.

19. How Much Does It Cost to Print a Book? - QinPrinting
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier's delivered xx.xx-page, xx.xx-copy color-book examples list USD xx.xx for softcover and USD xx.xx for hardcover. They provide a commercial-run countercheck, with delivery and product differences preventing direct substitution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier's delivered xx.xx-page, xx.xx-copy color-book examples list USD xx.xx for softcover and USD xx.xx for hardcover. They provide a commercial-run countercheck, with delivery and product differences preventing direct substitution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The smaller hardcover premium in this offset example qualifies extrapolation of the full POD hardcover increment into binding revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The smaller hardcover premium in this offset example qualifies extrapolation of the full POD hardcover increment into binding revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Comparable hardcover and softcover quotations constrain the assumed relative manufacturing realization after scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Comparable hardcover and softcover quotations constrain the assumed relative manufacturing realization after scope adjustments.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Softcover prices provide a commercial comparison, not a historical global average.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Softcover prices provide a commercial comparison, not a historical global average.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Board-book quotations constrain the assumed production receipt; delivery and duties require adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Board-book quotations constrain the assumed production receipt; delivery and duties require adjustment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Mechanical-binding quotations constrain the unit-receipt assumption, not incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Mechanical-binding quotations constrain the unit-receipt assumption, not incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Short-booklet quotations constrain the lower realization used for eligible saddle-stitched books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Short-booklet quotations constrain the lower realization used for eligible saddle-stitched books.
20. Book Wrap Mailers / Book Boxes - Packaging ONE
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer lists MP2 book mailers at GBP xx.xx each for xx.xx packs of xx.xx excluding VAT. The converted unit price supplies the packaging-creation value proxy, not a global average or a historical quote.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer lists MP2 book mailers at GBP xx.xx each for xx.xx packs of xx.xx excluding VAT. The converted unit price supplies the packaging-creation value proxy, not a global average or a historical quote.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The enclosure price forms the other side of the creation-versus-packing ratio. One comparable enclosure per packing unit is an explicit activity-matching assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The enclosure price forms the other side of the creation-versus-packing ratio. One comparable enclosure per packing unit is an explicit activity-matching assumption.

21. Foreign Exchange Rates - G.5A Annual, January 5, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 annual average is USD xx.xx per GBP. It converts the GBP packaging comparator into the common monetary basis used in the starting allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 annual average is USD xx.xx per GBP. It converts the GBP packaging comparator into the common monetary basis used in the starting allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same conversion supports the common-currency packaging/packing denominator inherited by the forecast; no 2032 exchange rate is asserted.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same conversion supports the common-currency packaging/packing denominator inherited by the forecast; no 2032 exchange rate is asserted.
22. Optional Book Publishing Services - InstantPublisher
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider lists layout/typesetting at USD xx.xx per page with a USD xx.xx minimum. This supports the preparation-spending feasibility check, with purchase incidence and copies per job remaining assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider lists layout/typesetting at USD xx.xx per page with a USD xx.xx minimum. This supports the preparation-spending feasibility check, with purchase incidence and copies per job remaining assumptions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Individual shrink-wrapping is listed at USD xx.xx each plus USD xx.xx setup. Amortizing setup over an assumed xx.xx copies gives the USD xx.xx packing comparator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Individual shrink-wrapping is listed at USD xx.xx each plus USD xx.xx setup. Amortizing setup over an assumed xx.xx copies gives the USD xx.xx packing comparator.
23. How Does Merchant Pricing Work for Ecommerce Stores? - Lulu Direct
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2026 merchant-pricing explanation identifies a USD xx.xx fulfillment fee and separates merchant retail receipts from payments for supplier production, shipping and taxes. The fee is a contemporary feasibility comparator, not verified 2025 penetration or a future charge.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2026 merchant-pricing explanation identifies a USD xx.xx fulfillment fee and separates merchant retail receipts from payments for supplier production, shipping and taxes. The fee is a contemporary feasibility comparator, not verified 2025 penetration or a future charge.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Merchant retail receipts are separate from payments for printing and fulfillment. The current page lists a USD xx.xx fulfillment fee, with shipping and taxes separately calculated. This supports the service-value boundary, not a historical average fee or global order volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Merchant retail receipts are separate from payments for printing and fulfillment. The current page lists a USD xx.xx fulfillment fee, with shipping and taxes separately calculated. This supports the service-value boundary, not a historical average fee or global order volume.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lulu identifies separate retail and production/fulfillment transactions and a USD xx.xx fulfillment fee. This supports excluding merchant retail margins from production-service value and avoiding automatic procurement-channel classification from the storefront.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lulu identifies separate retail and production/fulfillment transactions and a USD xx.xx fulfillment fee. This supports excluding merchant retail margins from production-service value and avoiding automatic procurement-channel classification from the storefront.

24. AAP December 2025 StatShot Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The primary monthly reporting panel's full-year 2025 trade figures show paperback revenue down xx.xx%. This qualifies broad physical-book growth assumptions and supplies directional mix evidence only.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The primary monthly reporting panel's full-year 2025 trade figures show paperback revenue down xx.xx%. This qualifies broad physical-book growth assumptions and supplies directional mix evidence only.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same approximately xx.xx-publisher panel shows hardcover revenue up xx.xx%. It supports a modest premium-mix hypothesis but neither measures global binding spending nor proves the forecast.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same approximately xx.xx-publisher panel shows hardcover revenue up xx.xx%. It supports a modest premium-mix hypothesis but neither measures global binding spending nor proves the forecast.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct-participant 2025 hardback revenue of approximately USD xx.xx anchors the adjusted conventional-format model; it is not printing revenue or a global share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct-participant 2025 hardback revenue of approximately USD xx.xx anchors the adjusted conventional-format model; it is not printing revenue or a global share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported paperback revenue of approximately USD xx.xx plus USD xx.xx mass-market revenue supplies the comparison input. Reported annual movements qualify the forecast starting mix, not its future persistence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported paperback revenue of approximately USD xx.xx plus USD xx.xx mass-market revenue supplies the comparison input. Reported annual movements qualify the forecast starting mix, not its future persistence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct publisher-sample religious and trade physical-format receipts provide a category-intensity proxy, subject to explicit geographic and coverage adjustments.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct publisher-sample religious and trade physical-format receipts provide a category-intensity proxy, subject to explicit geographic and coverage adjustments.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported professional-book receipts and their 2025 decline challenge assumptions of automatic growth from recurring reference relationships.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported professional-book receipts and their 2025 decline challenge assumptions of automatic growth from recurring reference relationships.

25. Print and Associated Services Framework - Lot 1 Buyer Guide: Framework Objectives
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The public purchasing framework separately specifies production-management advice. It establishes a purchased responsibility but not a global fee rate or permission to count subcontract pass-through as retained revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The public purchasing framework separately specifies production-management advice. It establishes a purchased responsibility but not a global fee rate or permission to count subcontract pass-through as retained revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The framework also specifies finished-goods stock holding and call-off, with required holding costs included in the print-job price. This supports allocating embedded production-linked fulfillment rather than restricting the category to standalone invoices.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The framework also specifies finished-goods stock holding and call-off, with required holding costs included in the print-job price. This supports allocating embedded production-linked fulfillment rather than restricting the category to standalone invoices.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Finished goods may be held for call-off, with storage included in the print job where required. This supports consolidated releases as a production-linked arrangement without assuming every release is an individual order.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Finished goods may be held for call-off, with storage included in the print job where required. This supports consolidated releases as a production-linked arrangement without assuming every release is an individual order.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contractors maintain designated distribution lists, deliver to nominated addresses and receive job-specific copy allocations, supporting the modeled list-delivery category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contractors maintain designated distribution lists, deliver to nominated addresses and receive job-specific copy allocations, supporting the modeled list-delivery category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The coexistence of stock holding, call-off and distribution-list obligations supports separating production trigger from fulfillment responsibility; call-off alone does not establish transaction-level fulfillment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The coexistence of stock holding, call-off and distribution-list obligations supports separating production trigger from fulfillment responsibility; call-off alone does not establish transaction-level fulfillment.

26. Frequently Asked Questions - IngramSpark
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: IngramSpark states that it does not provide editing, typesetting or design services. This counterexample prevents treating all platform manufacturing commissions as purchases of professional preparation services.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: IngramSpark states that it does not provide editing, typesetting or design services. This counterexample prevents treating all platform manufacturing commissions as purchases of professional preparation services.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider permits nonexclusive sourcing when the customer owns its ISBN and does not offer editing, typesetting or design. These terms constrain the author service boundary, not adoption or revenue growth.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider permits nonexclusive sourcing when the customer owns its ISBN and does not offer editing, typesetting or design. These terms constrain the author service boundary, not adoption or revenue growth.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: IngramSpark permits nonexclusive use of other printers, distributors and fulfillment providers when publishers own their ISBN. This establishes an alternative-sourcing option, not observed switching or a numerical channel allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: IngramSpark permits nonexclusive use of other printers, distributors and fulfillment providers when publishers own their ISBN. This establishes an alternative-sourcing option, not observed switching or a numerical channel allocation.
27. Packaging Printing & Production - Imago Group
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier identifies book slipcases, clamshell cases, tray-and-lid constructions and multicomponent publisher packaging. This supports the enclosure-production boundary and the limitation of a simple mailer-price proxy; it does not supply sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier identifies book slipcases, clamshell cases, tray-and-lid constructions and multicomponent publisher packaging. This supports the enclosure-production boundary and the limitation of a simple mailer-price proxy; it does not supply sales weights.
28. Services - Bridgeport National Bindery
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The short-run book-production portfolio separately lists shrink-wrapping and set packing. It establishes commercial packing activity distinct from enclosure manufacture and binding, without measuring its revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The short-run book-production portfolio separately lists shrink-wrapping and set packing. It establishes commercial packing activity distinct from enclosure manufacture and binding, without measuring its revenue.
29. Terms and Conditions - CPI Print Germany
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published terms distinguish ex-works production prices from packaging, freight and postage and reserve specified input-cost adjustment rights. They support comparable-scope valuation but do not establish realized inflation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published terms distinguish ex-works production prices from packaging, freight and postage and reserve specified input-cost adjustment rights. They support comparable-scope valuation but do not establish realized inflation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate treatment of forwarding and storage responsibilities supports the eligible production-linked service boundary; contractual rights do not prove the assumed future fee-growth rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate treatment of forwarding and storage responsibilities supports the eligible production-linked service boundary; contractual rights do not prove the assumed future fee-growth rate.

30. ONIX Codelists Issue 75 - List 150: Product Form
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BB identifies hardback/cased books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BB identifies hardback/cased books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BC identifies paperback/softback books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BC identifies paperback/softback books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BH distinguishes board-page books from conventional books with rigid covers.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BH distinguishes board-page books from conventional books with rigid covers.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BE groups spiral, comb and coil forms.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BE groups spiral, comb and coil forms.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BD identifies loose-leaf books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BD identifies loose-leaf books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BF includes stapled short books; nonbook uses are excluded from the model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BF includes stapled short books; nonbook uses are excluded from the model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BL recognizes slide-bound books without measuring current sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BL recognizes slide-bound books without measuring current sales.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BO recognizes continuous concertina-fold books; nonbook charts are excluded.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BO recognizes continuous concertina-fold books; nonbook charts are excluded.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BI identifies textile-page books, not cloth-covered paper books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BI identifies textile-page books, not cloth-covered paper books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BJ identifies waterproof bath-book forms.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BJ identifies waterproof bath-book forms.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BP identifies foam-page and foam-cover books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BP identifies foam-page and foam-cover books.

31. Thomson Reuters - Fourth-Quarter and Full-Year 2025 Results
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Global Print revenue and contraction constrain professional-print scale and substitution direction; content receipts are not treated as loose-leaf service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Global Print revenue and contraction constrain professional-print scale and substitution direction; content receipts are not treated as loose-leaf service revenue.
32. Lulu - Discontinuing Saddle Stitch in Global Distribution
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provider-specific wholesale distribution restrictions establish a channel constraint, not a global sales weight or measured forecast decline.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provider-specific wholesale distribution restrictions establish a channel constraint, not a global sales weight or measured forecast decline.
33. MAGACOPY Sofia - Copying and Printing Prices
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A current EUR xx.xx binding-only charge establishes a live commercial service and a price-scope comparison; full-book USD receipts and incidence remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A current EUR xx.xx binding-only charge establishes a live commercial service and a price-scope comparison; full-book USD receipts and incidence remain assumed.
34. Imago Group - Spotlight on Children's Books for National Young Readers Week
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's children's portfolio supports board-book commercial classification, not order volumes.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's children's portfolio supports board-book commercial classification, not order volumes.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cloth-book offerings support the textile-page category premise, not its modeled incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cloth-book offerings support the textile-page category premise, not its modeled incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bath-book offerings support a separate commercial category; sales and service receipts are undisclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bath-book offerings support a separate commercial category; sales and service receipts are undisclosed.
35. Pegasus - My First Book of Shapes: EVA Foam Book
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The dated 2025 product identifies foam pages and supports commercial-status and classification checks, not global volume or supplier realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated 2025 product identifies foam pages and supports commercial-status and classification checks, not global volume or supplier realization.

36. U.S. Consumer Product Safety Commission - Children's Books
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Product classification and intended audience affect commercial compliance accountability; no numerical surcharge is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Product classification and intended audience affect commercial compliance accountability; no numerical surcharge is inferred.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The exemption boundary supports separate classification rather than assumed conventional-book treatment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The exemption boundary supports separate classification rather than assumed conventional-book treatment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Compliance classification is retained as an uncertainty, not an exclusion or measured price premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Compliance classification is retained as an uncertainty, not an exclusion or measured price premium.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specialty construction does not itself establish ordinary-book exemption eligibility or market inactivity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specialty construction does not itself establish ordinary-book exemption eligibility or market inactivity.
37. Puget Bindery - Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider identifies training manuals and reference guides as mechanical-binding applications, supporting the commissioning premise without measuring sales incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider identifies training manuals and reference guides as mechanical-binding applications, supporting the commissioning premise without measuring sales incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists commercial letterpress book plates and specialty inserts, supporting a component-service model rather than attribution of the entire book price.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists commercial letterpress book plates and specialty inserts, supporting a component-service model rather than attribution of the entire book price.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The bindery identifies commercial printers, publishers and corporate print buyers as customers and excludes direct-to-consumer sales. This supports trade-purchasing attribution but supplies no sales percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The bindery identifies commercial printers, publishers and corporate print buyers as customers and excludes direct-to-consumer sales. This supports trade-purchasing attribution but supplies no sales percentage.

38. ONIX Codelists Issue 75 - List 80: Product Packaging Type
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates single-item and multivolume slipcases; supplies classification, not sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates single-item and multivolume slipcases; supplies classification, not sales weights.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes lidded boxes from slipcase-style boxed sets.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes lidded boxes from slipcase-style boxed sets.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-ended wraparound sleeves are distinct from enclosed wrapping.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-ended wraparound sleeves are distinct from enclosed wrapping.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes envelope-like slip-sleeves and wallets or folders.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes envelope-like slip-sleeves and wallets or folders.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes pouch and bag packaging independently.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes pouch and bag packaging independently.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately recognizes shrink-wrapped products and bundles.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately recognizes shrink-wrapped products and bundles.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Defines formed-plastic clamshells and card-backed blister packaging as distinct constructions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Defines formed-plastic clamshells and card-backed blister packaging as distinct constructions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Explicitly recognizes book browse-prevention closures.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Explicitly recognizes book browse-prevention closures.

39. U.S. Government Publishing Office - Program 827-S: Federal Aviation Administration Books, Contract Pricing and Specifications

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Historical evaluation quantities provide a container-heavy institutional purchasing counterexample, not global shipment shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Historical evaluation quantities provide a container-heavy institutional purchasing counterexample, not global shipment shares.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies kraft-envelope packing within the book procurement.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies kraft-envelope packing within the book procurement.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies cushioned shipping bags as an eligible book-order enclosure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies cushioned shipping bags as an eligible book-order enclosure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Includes wrapped shipping bundles as an alternative purchasing configuration.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Includes wrapped shipping bundles as an alternative purchasing configuration.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Requires packing and filler separately from the external enclosure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Requires packing and filler separately from the external enclosure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies closure tape and securing straps independently of container construction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies closure tape and securing straps independently of container construction.

40. U.S. Government Publishing Office - Print Order Form 2511 Instructions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specifies paper-banded sets separately from shrink-wrapped sets.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specifies paper-banded sets separately from shrink-wrapped sets.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes shrink-wrapped units nested within cartons, supporting component attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes shrink-wrapped units nested within cartons, supporting component attribution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes internal packaging, container quantities and pallet requirements.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes internal packaging, container quantities and pallet requirements.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The instructions distinguish nominated delivery addresses and warehouse receiving arrangements, supporting the receiving-point attribution premise, not an observed consolidated market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The instructions distinguish nominated delivery addresses and warehouse receiving arrangements, supporting the receiving-point attribution premise, not an observed consolidated market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supplemental distribution lists accommodate multiple destinations, supporting the distinction between preallocated destination delivery and a single receiving-point handoff.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supplemental distribution lists accommodate multiple destinations, supporting the distinction between preallocated destination delivery and a single receiving-point handoff.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: GPO specifies black interior inks separately from cover inks, supporting the monochrome classification and underlying-book attribution premise, not its modeled sales weight. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GPO specifies black interior inks separately from cover inks, supporting the monochrome classification and underlying-book attribution premise, not its modeled sales weight. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Designated Pantone specifications are recognized for interior inks, supporting a separate spot-color commercial category without measuring its share. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Designated Pantone specifications are recognized for interior inks, supporting a separate spot-color commercial category without measuring its share. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Four-color process is identified as full color for interior pages; cover color is separately specified. This supports classification at both modeled anchors. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Four-color process is identified as full color for interior pages; cover color is separately specified. This supports classification at both modeled anchors. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))

41. GPOExpress Program Pricing Guide - November 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx hand folding provides a handling-cost comparison; the complete band realization remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx hand folding provides a handling-cost comparison; the complete band realization remains modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx per shrink wrap anchors a small-run comparison, not the assumed global realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx per shrink wrap anchors a small-run comparison, not the assumed global realization.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx auxiliary insertion supplies a handling-price comparison, not protective-material sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx auxiliary insertion supplies a handling-price comparison, not protective-material sales.
42. Hardcover Book Protection: Dust Jackets or Slipcases?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-product EXW slipcase prices of USD xx.xx, USD xx.xx and USD xx.xx at xx.xx xx.xx and xx.xx units constrain relative realizations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-product EXW slipcase prices of USD xx.xx, USD xx.xx and USD xx.xx at xx.xx xx.xx and xx.xx units constrain relative realizations.
43. Book Printing Cost in China: How Printing Prices Are Calculated
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately USD xx.xx per export carton including basic packing materials constrains the bulk-package budget; the container allocation is modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately USD xx.xx per export carton including basic packing materials constrains the bulk-package budget; the container allocation is modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its cushioning split is assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its cushioning split is assumed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its closure split is assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its closure split is assumed.
44. Make Believe Ideas - Independent Retail Catalog 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 catalog identifies activity books with cover-mounted blisters, establishing book-specific participation but not packaging revenue or volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 catalog identifies activity books with cover-mounted blisters, establishing book-specific participation but not packaging revenue or volume.
45. Bookmobile - Request Book Printing Quotes the Right Way to Save Money
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The printer's bookstore-oriented purchasing guidance cautions against universal shrink-wrap attachment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The printer's bookstore-oriented purchasing guidance cautions against universal shrink-wrap attachment.

46. Digital Book Printing - Bookmobile
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current book-production portfolio separately offers poly bags, supporting commercial category participation rather than a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current book-production portfolio separately offers poly bags, supporting commercial category participation rather than a sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current portfolio offers shrink-wrap independently of other finishing options.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current portfolio offers shrink-wrap independently of other finishing options.
47. Sell Books on Shopify - Lulu
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The offered storefront-to-print-and-ship route supports an accessible production-linked parcel channel, not assumed demand.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct fulfillment availability supports the parcel-use scenario without establishing envelope mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct fulfillment availability supports the parcel-use scenario without establishing bag mix.
48. European Commission - New EU Rules on Packaging Enter into Application
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional packaging minimization supports a directional right-sizing premise, not a measured global box-price effect.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Waste-reduction requirements inform the bounded substitution scenario; they do not quantify band adoption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional circularity requirements inform lower lightweight-bag exposure without implying a global book-bag ban.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Material substitution remains partly internal to the combined film-and-paper category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional recyclability pressure informs the niche substitution scenario, not an observed blister-sales decline.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Empty-space reduction provides a directional premise for lower cushioning allowance per individual box.
49. Digital Printing - U.S. Government Publishing Office
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Procurement examples allow offset or digital alternatives while restricting some digital variants, supporting an acceptance- and run-mix model rather than a universal quality ranking. This is a modeling premise, not an observed process share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Procurement examples allow offset or digital alternatives while restricting some digital variants, supporting an acceptance- and run-mix model rather than a universal quality ranking. This is a modeling premise, not an observed process share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The purchasing guidance supports conditional digital substitution, not unrestricted interchangeability or an observed forecast allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The purchasing guidance supports conditional digital substitution, not unrestricted interchangeability or an observed forecast allocation.

50. Clays demonstrate dedication to digital investment
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx books annually and xx.xx books of digital capacity in an older investment statement; this constrains scale but is not a 2025 realized output mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx books annually and xx.xx books of digital capacity in an older investment statement; this constrains scale but is not a 2025 realized output mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's inkjet investment supports an existing book-production application and a conditional adoption premise, not a quantified global forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's inkjet investment supports an existing book-production application and a conditional adoption premise, not a quantified global forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The capacity/output comparison is a limited commercial check on continued conventional book production, not a direct offset revenue observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The capacity/output comparison is a limited commercial check on continued conventional book production, not a direct offset revenue observation.
51. ISO/TC 130 - Guidelines for Using Print Production Standards, Version 1.0, 2019
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes packaging use cases and printing processes, supporting allocation of gravure to book-associated components rather than the full value of a book.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes packaging use cases and printing processes, supporting allocation of gravure to book-associated components rather than the full value of a book.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies flexographic packaging applications; the book-specific spending budget and process coefficients remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies flexographic packaging applications; the book-specific spending budget and process coefficients remain modeled.
52. Premium Layflat Photo Books - PhotobookShop
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Offers bound silver-halide photographic books and distinguishes them from digitally printed alternatives, supporting the model's separate photographic category rather than an observed sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Offers bound silver-halide photographic books and distinguishes them from digitally printed alternatives, supporting the model's separate photographic category rather than an observed sales weight.
53. The Cormac McCarthy Collection - The Folio Society
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents screen-printed cloth covers on physical book editions, supporting component-level commercial attribution. It does not measure supplier component receipts or global uptake.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents screen-printed cloth covers on physical book editions, supporting component-level commercial attribution. It does not measure supplier component receipts or global uptake.

54. Risograph Digital Duplicator Order Form, 2026 - Minneapolis College of Art and Design
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2026 institutional form recognizes Risograph book/booklet orders but excludes assembly. It supports a limited application boundary, not 2025 external commercial volume; internal institutional charges are excluded from the numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2026 institutional form recognizes Risograph book/booklet orders but excludes assembly. It supports a limited application boundary, not 2025 external commercial volume; internal institutional charges are excluded from the numerator.
55. American Printing House - 2024 Annual Report
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal 2024 product sales were USD xx.xx; braille publications represented xx.xx% of product sales; xx.xx braille volumes were produced. These inputs constrain an adjusted production-realization proxy, not a global market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The decline from xx.xx braille volumes in 2022 qualifies a uniform physical-demand growth assumption and informs the slower relative forecast activity weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2024 product sales were USD xx.xx; braille publications represented xx.xx% of product sales; xx.xx braille volumes were produced. These inputs constrain an adjusted production-realization proxy, not a global market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The decline from xx.xx braille volumes in 2022 qualifies a uniform physical-demand growth assumption and informs the slower relative forecast activity weight.
56. Kodak Moments Kiosk - Kodak Alaris
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises book-capable retail kiosk equipment and a photographic-printing portfolio. Used only as a commercial-route premise for the thermal working estimate, not as evidence of thermal book-service sales, utilization or the final share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises book-capable retail kiosk equipment and a photographic-printing portfolio. Used only as a commercial-route premise for the thermal working estimate, not as evidence of thermal book-service sales, utilization or the final share.
57. 二〇二一年全国新闻出版业基本情况
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official 2021 aggregate textbook output distinguishes school, tertiary and vocational/adult activity; historical volumes require value and global-scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official 2021 aggregate textbook output distinguishes school, tertiary and vocational/adult activity; historical volumes require value and global-scope adjustments.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Secondary, primary and teaching-book aggregate sheet counts form the school activity weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Secondary, primary and teaching-book aggregate sheet counts form the school activity weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Tertiary textbook aggregate output supplies the higher-education activity input before an assumed relative-service-value adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Tertiary textbook aggregate output supplies the higher-education activity input before an assumed relative-service-value adjustment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Vocational, adult and literacy textbook output supplies the corresponding historical activity input.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Vocational, adult and literacy textbook output supplies the corresponding historical activity input.

58. Music, printed or in manuscript imports by country, 2024 - World Integrated Trade Solution
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official HS xx.xx import observations constrain the music-publication value bridge; domestic supply, physical-book eligibility and the printing-service fraction remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official HS xx.xx import observations constrain the music-publication value bridge; domestic supply, physical-book eligibility and the printing-service fraction remain modeled.
59. Bloomsbury Publishing - 2024/25 Results Presentation
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate Academic & Professional print, digital and rights/service receipts demonstrate the required physical-revenue boundary; company mix is not treated as global market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate Academic & Professional print, digital and rights/service receipts demonstrate the required physical-revenue boundary; company mix is not treated as global market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed physical academic publishing activity supports commercial applicability but does not verify the assumed global research/reference ratio.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed physical academic publishing activity supports commercial applicability but does not verify the assumed global research/reference ratio.
60. HDSB - RFSQ 26-013: Yearbook Software and Printing Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The qualification notice establishes a commissioned yearbook scope including printing, binding and school delivery; it supplies no awarded value and is not used as a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The qualification notice establishes a commissioned yearbook scope including printing, binding and school delivery; it supplies no awarded value and is not used as a sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The yearbook qualification notice restricts supply to prequalified vendors while permitting school bulk orders and individual ordering. It supports separating commissioning authority from ultimate payment, but discloses no fulfilled-order value.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The yearbook qualification notice restricts supply to prequalified vendors while permitting school bulk orders and individual ordering. It supports separating commissioning authority from ultimate payment, but discloses no fulfilled-order value.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The individual-ordering option establishes an attribution uncertainty relevant to the modeled household portion; it does not establish the assumed xx.xx% proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The individual-ordering option establishes an attribution uncertainty relevant to the modeled household portion; it does not establish the assumed xx.xx% proportion.

61. U.S. Census Bureau - 2022 Economic Census, Books Printing Questionnaire MC-32312
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official printing questionnaire supports the distinction between textbook and general-book production; recognition is not treated as a revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official printing questionnaire supports the distinction between textbook and general-book production; recognition is not treated as a revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognized coloring-book output supports treating recreational activity commissions separately from institutional textbooks according to purpose.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognized coloring-book output supports treating recreational activity commissions separately from institutional textbooks according to purpose.
62. Press Information Bureau - Department of School Education & Literacy, Year End Review 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The government review describes substantial NCERT physical-textbook activity, independently qualifying the physical-availability premise without establishing attributable supplier revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The government review describes substantial NCERT physical-textbook activity, independently qualifying the physical-availability premise without establishing attributable supplier revenue.
63. 2022 North American Industry Classification System - United States
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dedicated book-publishing activity is separated from institutional primary activities and printing without publishing, constraining the Publishing Organizations numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dedicated book-publishing activity is separated from institutional primary activities and printing without publishing, constraining the Publishing Organizations numerator.
64. U.S. Census Bureau - Books Printing: 2002
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Table xx.xx reports 2002 U.S. books-printing contract-work costs of USD xx.xx and shipments of USD xx.xx. Their ratio supplies a dated manufacturing-subcontract proxy, held constant within the forecast component.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Table xx.xx reports 2002 U.S. books-printing contract-work costs of USD xx.xx and shipments of USD xx.xx. Their ratio supplies a dated manufacturing-subcontract proxy, held constant within the forecast component.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical subcontract-cost input constrains the modeled transfer from publisher-origin commissioning to performing suppliers, without adding another gross contract value.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical subcontract-cost input constrains the modeled transfer from publisher-origin commissioning to performing suppliers, without adding another gross contract value.
65. Samfine Creation Holdings Group Limited - Form 20-F for the year ended December 31, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports USD xx.xx of 2025 book-product revenue and principally serves book traders that secure printing contracts and outsource production. This is a supplier-specific quantitative role check, not a Global allocation weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports USD xx.xx of 2025 book-product revenue and principally serves book traders that secure printing contracts and outsource production. This is a supplier-specific quantitative role check, not a Global allocation weight.

66. Ministry of Education - NCERT and Amazon Letter of Engagement, October 7, 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2024 announcement targeted xx.xx NCERT books for academic 2025-xx.xx. This is a planned institutional activity anchor; realization, eligible receipts and subsequent growth are modeled separately.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2024 announcement targeted xx.xx NCERT books for academic 2025-xx.xx. This is a planned institutional activity anchor; realization, eligible receipts and subsequent growth are modeled separately.
67. Bangladesh e-GP - NCTB/TEXTBOOK/2025, Package GD.102_SEC_8.031
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The government-funded procurement plan specifies xx.xx academic-2025 textbook copies and an estimated BDT xx.xx for printing, binding and supply. It constrains commercial order scale and local unit-budget plausibility, not realized annual revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The government-funded procurement plan specifies xx.xx academic-2025 textbook copies and an estimated BDT xx.xx for printing, binding and supply. It constrains commercial order scale and local unit-budget plausibility, not realized annual revenue.
68. Students suffer as NCTB fails to deliver books - The Daily Star, January 17, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 report corroborates the dated approximately xx.xx-copy textbook target and early-year delivery disruption. Target realization and supplier receipts remain modeled.
69. Secondary-level students: A new year without full set of books for many - The Daily Star, December 28, 2025
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 report corroborates the approximately xx.xx-copy academic-2026 target and continued delivery slippage. It informs a normalization assumption, not an observed 2032 share.
70. Business Books - Print Professional, Custom Corporate Books | Blurb
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The business-book offering includes organizational presentation and corporate-gift applications. It establishes an in-scope commissioning proposition, not the modeled global copy quantity or spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The business-book offering includes organizational presentation and corporate-gift applications. It establishes an in-scope commissioning proposition, not the modeled global copy quantity or spending.
71. How to Use Lulu to Support Your Nonprofit | Lulu
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform permits an organization or charity to receive creator proceeds. This supports excluding beneficiary-only arrangements from nonprofit commissioning; it does not measure nonprofit printing purchases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform permits an organization or charity to receive creator proceeds. This supports excluding beneficiary-only arrangements from nonprofit commissioning; it does not measure nonprofit printing purchases.

72. News Corp - Form 10-K for the fiscal year ended June 30, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal 2025 consumer backlist revenue of xx.xx% and digital revenue of xx.xx% anchor the assumed physical-backlist bridge and its forecast starting model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2025 consumer backlist revenue of xx.xx% and digital revenue of xx.xx% anchor the assumed physical-backlist bridge and its forecast starting model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed backlist mix constrains recurring-title demand; its division into replenishment and POD remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed backlist mix constrains recurring-title demand; its division into replenishment and POD remains modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The complementary frontlist population supports the launch-stock cohort after physical-format adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The complementary frontlist population supports the launch-stock cohort after physical-format adjustments.
73. News Corp - Form 10-K for the fiscal year ended June 30, 2026
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2026 backlist revenue of xx.xx% and digital revenue of xx.xx% lower the forecast physical-backlist proxy instead of assuming continued backlist expansion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The updated catalog mix changes the forecast population available for repeat inventory releases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The updated frontlist/backlist bridge changes the forecast planned-production weight; no 2032 share is disclosed.
74. How Do Lulu Direct Orders Work?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lulu describes printing after customer purchase and distinguishes production from subsequent shipment, supporting recipient-order attribution rather than technology-based classification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lulu describes printing after customer purchase and distinguishes production from subsequent shipment, supporting recipient-order attribution rather than technology-based classification.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: No minimum order and one-copy ordering establish commercial feasibility, not the number or value of single-copy releases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No minimum order and one-copy ordering establish commercial feasibility, not the number or value of single-copy releases.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: One POD offering accepts hundreds of copies, independently challenging a POD-equals-single-copy allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One POD offering accepts hundreds of copies, independently challenging a POD-equals-single-copy allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Orders can extend into thousands within the same offering; the production trigger therefore does not uniquely identify the working run band.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Orders can extend into thousands within the same offering; the production trigger therefore does not uniquely identify the working run band.

75. Supply Chain - Clays
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Clays describes differentiated backlist arrangements and stock visibility, supporting a separate inventory-replenishment cohort without establishing its numerical prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Clays describes differentiated backlist arrangements and stock visibility, supporting a separate inventory-replenishment cohort without establishing its numerical prevalence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: New-title consolidation and predictable annual backlist demand support retaining planned inventory commitments; short-run printing is explicitly not necessarily POD.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: New-title consolidation and predictable annual backlist demand support retaining planned inventory commitments; short-run printing is explicitly not necessarily POD.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Clays explicitly distinguishes short-run work from POD, supporting category separation rather than a technological proxy for value share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Clays explicitly distinguishes short-run work from POD, supporting category separation rather than a technological proxy for value share.
76. Smart Backlist Management: When to Hold and When to Print-on-Demand
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheridan describes low-volume titles moving to POD while other titles retain inventory, supporting differentiated release-policy assumptions rather than a uniform backlist-to-POD conversion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheridan describes low-volume titles moving to POD while other titles retain inventory, supporting differentiated release-policy assumptions rather than a uniform backlist-to-POD conversion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A disclosed customer example uses a stock threshold to trigger a 2,000-copy replenishment order. It establishes the commercial mechanism, not a market-wide share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A disclosed customer example uses a stock threshold to trigger a 2,000-copy replenishment order. It establishes the commercial mechanism, not a market-wide share.

77. Shortage of NCERT textbooks - Rajya Sabha Unstarred Question No. 1941, December 17, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advance enrollment-based forecasting, academic-session readiness and a fiscal 2025-xx.xx plan for approximately xx.xx textbooks support a substantial calendar-driven stock cohort. The target is not realized production.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advance enrollment-based forecasting, academic-session readiness and a fiscal 2025-xx.xx plan for approximately xx.xx textbooks support a substantial calendar-driven stock cohort. The target is not realized production.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phased supply and inventory monitoring support distinguishing ongoing availability obligations from individual-recipient POD, without quantifying replenishment's global prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phased supply and inventory monitoring support distinguishing ongoing availability obligations from individual-recipient POD, without quantifying replenishment's global prevalence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official answer distinguishes printer empanelment from approximately xx.xx distribution vendors and describes planned fiscal 2025-xx.xx printing of approximately xx.xx textbooks. It supports commissioning-versus-distribution separation, not a realized monetary channel split.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official answer distinguishes printer empanelment from approximately xx.xx distribution vendors and describes planned fiscal 2025-xx.xx printing of approximately xx.xx textbooks. It supports commissioning-versus-distribution separation, not a realized monetary channel split.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phased textbook supply supports treating annual institutional quantities separately from production batches; it does not disclose the medium-run allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phased textbook supply supports treating annual institutional quantities separately from production batches; it does not disclose the medium-run allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 answer identifies a xx.xx-million-copy FY2025-xx.xx printing decision versus approximately xx.xx in recent years, a counterforce to assuming rapid long-run disappearance. Planned copies are not realized service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 answer identifies a xx.xx-million-copy FY2025-xx.xx printing decision versus approximately xx.xx in recent years, a counterforce to assuming rapid long-run disappearance. Planned copies are not realized service revenue.
78. Fulfillment Fee - Lulu Direct
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2026 schedule lists USD xx.xx per order regardless of item count, supporting an order-frequency effect on associated-service value. It does not verify the assumed historical or forecast multiplier.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2026 schedule lists USD xx.xx per order regardless of item count, supporting an order-frequency effect on associated-service value. It does not verify the assumed historical or forecast multiplier.

79. InnerWorkings, Inc. - Form 10-K for the year ended December 31, 2019
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2019 filing reports USD xx.xx gross profit on USD xx.xx revenue and describes purchased-product and direct-service costs. Historical reported margins constrain the modeled xx.xx% retained-fee ratio; they do not directly measure book-channel share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2019 filing reports USD xx.xx gross profit on USD xx.xx revenue and describes purchased-product and direct-service costs. Historical reported margins constrain the modeled xx.xx% retained-fee ratio; they do not directly measure book-channel share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The procurement-service margin comparison supports the fee-to-managed-spending bridge underlying the direct-channel complement. Carrying the normalized ratio into 2032 is explicitly a forecast assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The procurement-service margin comparison supports the fee-to-managed-spending bridge underlying the direct-channel complement. Carrying the normalized ratio into 2032 is explicitly a forecast assumption.
80. Simplified Purchase Agreement - U.S. Government Publishing Office
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SPA permits agency awards directly to certified vendors for purchases up to USD xx.xx while GPO pays vendors and invoices agencies. This supports classifying by the contracting relationship rather than the invoice payer, not a numerical global weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SPA permits agency awards directly to certified vendors for purchases up to USD xx.xx while GPO pays vendors and invoices agencies. This supports classifying by the contracting relationship rather than the invoice payer, not a numerical global weight.
81. Global Print Services | China, Europe, SE Asia, USA & India
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Imago describes sourcing suppliers and coordinating multiple manufacturers for book-related projects. Its cumulative customer relationships establish the offered intermediary role but are not annual revenue or allocation weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Imago describes sourcing suppliers and coordinating multiple manufacturers for book-related projects. Its cumulative customer relationships establish the offered intermediary role but are not annual revenue or allocation weights.
82. Lion Rock Group Limited - Annual Report 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-business 2025 turnover changes of minus xx.xx% for APOL and minus xx.xx% for Regent challenge uniform intermediary growth; Regent's non-book focus limits its relevance. These observations support avoiding an additional adoption uplift.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-business 2025 turnover changes of minus xx.xx% for APOL and minus xx.xx% for Regent challenge uniform intermediary growth; Regent's non-book focus limits its relevance. These observations support avoiding an additional adoption uplift.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Manufacturing turnover changes of minus xx.xx% at xx.xx Printing and plus xx.xx% at Papercraft demonstrate differing supplier trajectories rather than a simple common channel-growth pattern; these are not direct-contracting market shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Manufacturing turnover changes of minus xx.xx% at xx.xx Printing and plus xx.xx% at Papercraft demonstrate differing supplier trajectories rather than a simple common channel-growth pattern; these are not direct-contracting market shares.

83. Imprint Digital - Book Printing Prices UK

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected schedule quotes GBP xx.xx at xx.xx copies for one paperback specification, supporting a relative-price input, not a historical global realization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected schedule quotes GBP xx.xx at xx.xx copies for one paperback specification, supporting a relative-price input, not a historical global realization.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: GBP xx.xx at xx.xx copies supplies the medium-run reference index; format and delivery differences require separate treatment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GBP xx.xx at xx.xx copies supplies the medium-run reference index; format and delivery differences require separate treatment.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The quantity-price curve anchors the reference from which the long-run discount is assumed; no long-run price or future share is disclosed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The quantity-price curve anchors the reference from which the long-run discount is assumed; no long-run price or future share is disclosed.

84. Print Options

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: KDP distinguishes black-and-white from color records and locks ink type after publication. These platform-specific conditions qualify switching assumptions, not market weights. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: KDP distinguishes black-and-white from color records and locks ink type after publication. These platform-specific conditions qualify switching assumptions, not market weights. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The displayed platform menu does not establish designated spot-color availability or sales; a general color option is not used as evidence of spot-color demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The displayed platform menu does not establish designated spot-color availability or sales; a general color option is not used as evidence of spot-color demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Standard color is unavailable for hardcover, but premium color is available. Both process-color tiers belong within the modeled Full-Color Interiors category. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Standard color is unavailable for hardcover, but premium color is available. Both process-color tiers belong within the modeled Full-Color Interiors category. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))

85. Synthèse des chiffres de l'édition jeunesse 2024-2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The primary French publishing survey reports a xx.xx% decline in illustrated early-childhood volumes and a xx.xx% decline in youth-fiction volumes in 2024. These differing outcomes challenge an aggressive universal color-growth assumption. ([sne.fr](https://www.sne.fr/actu/synthese-des-chiffres-de-ledition-jeunesse-2024-2025/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The primary French publishing survey reports a xx.xx% decline in illustrated early-childhood volumes and a xx.xx% decline in youth-fiction volumes in 2024. These differing outcomes challenge an aggressive universal color-growth assumption. ([sne.fr](https://www.sne.fr/actu/synthese-des-chiffres-de-ledition-jeunesse-2024-2025/))

19.6. GCC

Table 472. GCC Book Printing & Packaging Services Market, by Country growth contribution, 2025-2032

Category	2025 value (USD Million)	2032 value (USD Million)	Added value (USD Million)	2025 share (%)	2032 share (%)	Change (pp)	Growth share (%)	CAGR (%)
Bahrain	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx

Sources & Evidence

1. European Book Publishing Statistics 2024
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: European publishers reported approximately EUR xx.xx of net book-sales revenue in 2024. The disclosed ebook and audiobook proportions inform the modeled xx.xx% physical-book revenue proportion; publisher revenue is an input, not printing-service revenue.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 publisher-revenue and format observations provide the European demand input carried into the 2025 estimate.

2. The Global Publishing Industry in 2022

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Table xx.xx supplies country-level publishing revenues and identifies differences between retail-value, publisher-revenue, print-only and prior-year observations. Selected non-European country observations are adjusted for physical formats and period before estimating production spending.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The selected country observations contribute to the demand pool underlying the 2025 working estimate. Nielsen retail datasets elsewhere in the publication are not used.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Primary survey sector differences constrain the education-adjusted hardcover proxy.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Primary survey sector differences constrain the education-adjusted hardcover proxy.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Educational/trade differences qualify extrapolation of U.S. consumer-format revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Educational/trade differences qualify extrapolation of U.S. consumer-format revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx of surveyed children's publishing revenue anchors the modeled specialty demand pool, not supplier receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx of surveyed children's publishing revenue anchors the modeled specialty demand pool, not supplier receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sector data constrain the commissioning-pool proxy; mechanical incidence remains assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sector data constrain the commissioning-pool proxy; mechanical incidence remains assumed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Educational demand supplies a common economic anchor; loose-leaf incidence remains modeled.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Educational demand supplies a common economic anchor; loose-leaf incidence remains modeled.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sector observations constrain the educational short-book commissioning pool.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sector observations constrain the educational short-book commissioning pool.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The commissioning-pool anchor supports an explicit sparse-format incidence model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The commissioning-pool anchor supports an explicit sparse-format incidence model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors the accordion working estimate, not observed accordion orders.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors the accordion working estimate, not observed accordion orders.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed textile-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed textile-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed bath-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed bath-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed foam-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed foam-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original publishing survey documents country-level trade/education revenue differences used to constrain the modeled physical-publishing mix; it does not directly measure service shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original publishing survey documents country-level trade/education revenue differences used to constrain the modeled physical-publishing mix; it does not directly measure service shares.

3. 2024 年新闻出版统计公报

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: For 2024, the official table reports xx.xx book copies or sheets and CNY xx.xx of book-publishing revenue. These constrain the demand bridge and historical contraction, rather than directly measuring printing-service sales.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 book-publishing observation supplies the Chinese demand primitive for the 2025 model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official 2024 output of xx.xx copies/sheets constrains total modeled publisher activity; it does not disclose single-copy production.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official 2024 output of xx.xx copies/sheets constrains total modeled publisher activity; it does not disclose single-copy production.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Aggregate copies and annual title output constrain the shared activity model, not an observed short-run share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Aggregate copies and annual title output constrain the shared activity model, not an observed short-run share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Aggregate production provides a scale check for the medium-run assumption; annual copies per title are not individual batches.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Aggregate production provides a scale check for the medium-run assumption; annual copies per title are not individual batches.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx annual copies per title constrain the long-run scenario without proving its batch mix or forecast.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx annual copies per title constrain the long-run scenario without proving its batch mix or forecast.

4. Foreign Exchange Rates - G.5A Annual, January 5, 2026

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: The official 2024 annual-average conversion inputs are USD xx.xx per EUR, CNY xx.xx per USD and CAD xx.xx per USD.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The exchange-rate table establishes the conversion basis of the preceding-year demand inputs used in the 2025 estimate; subsequent effective-USD price assumptions are modeled separately.

5. Book publishing industry, 2024 - Statistics Canada
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Canadian publishers reported CAD xx.xx of print sales outside the online category and CAD xx.xx of online print sales in 2024. Their sum, rather than total operating revenue, supplies the physical-book demand input.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: Reported cost of goods sold of CAD xx.xx, up CAD xx.xx from 2022, supplies a cost-pressure cross-check, not a directly attributable printing-services total.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Canadian online versus other print-sales values constrain parcel exposure, with explicit value-to-unit and geographic limitations.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Canadian online versus other print-sales values constrain parcel exposure, with explicit value-to-unit and geographic limitations.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed envelope purchases.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed envelope purchases.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed bag purchases.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed bag purchases.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Modest observed online-print growth qualifies aggressive parcel-related wrapping assumptions.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Modest observed online-print growth qualifies aggressive parcel-related wrapping assumptions.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring separate protection.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring separate protection.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring closures.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring closures.
6. U.S. Census Bureau - Books Printing: Shipments, annual table
   - Evidence informing the 2017 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2017; this is a national production anchor for the historical model.
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2018.
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2019.
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2020.
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2021.
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2022.
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2024. This national industrial measure is narrower than the composite global service boundary.

7. U.S. Census Bureau - Book Publishers, All Establishments: Revenue, annual table
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: The Census annual series reports USD xx.xx of U.S. book-publisher revenue for 2024. A modeled xx.xx% physical-book proportion excludes digital and other adjacent receipts.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 Census observation replaces an older survey-based U.S. revenue bridge in the demand pool underlying 2025.

8. Scholastic Corporation - Form 10-K for the year ended May 31, 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Scholastic's fiscal 2024 product, service, production and inventory-reserve costs were xx.xx% of revenue; postage, freight, shipping, fulfillment and other costs were xx.xx%. These broad categories constrain, but do not directly establish, eligible outsourced-service spending.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The corresponding fiscal 2025 proportions were xx.xx% and xx.xx%. Royalties and prepublication amortization are separately disclosed, allowing their exclusion from the service-market bridge.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 product, service, production and inventory-reserve costs were xx.xx% of revenue. The broader cost category constrains the manufacturing spending boundary but does not directly disclose printing-service revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 product, service, production and inventory-reserve costs were xx.xx% of revenue. The broader cost category constrains the manufacturing spending boundary but does not directly disclose printing-service revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Prepublication amortization is disclosed separately from production costs, supporting exclusion of adjacent amortization rather than equating it with externally purchased prepress.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Prepublication amortization is disclosed separately from production costs, supporting exclusion of adjacent amortization rather than equating it with externally purchased prepress.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Postage, freight, shipping, fulfillment and other costs were xx.xx% of revenue in fiscal 2025 versus xx.xx% in fiscal 2024. This is a broad buyer-cost check, not an eligible outsourced-fulfillment share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Postage, freight, shipping, fulfillment and other costs were xx.xx% of revenue in fiscal 2025 versus xx.xx% in fiscal 2024. This is a broad buyer-cost check, not an eligible outsourced-fulfillment share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Outsourced manufacturing coexists with company-operated distribution. Fiscal-2025 production-related costs were xx.xx% of revenue, constraining the inherited spending bridge rather than directly measuring the assumed route fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Outsourced manufacturing coexists with company-operated distribution. Fiscal-2025 production-related costs were xx.xx% of revenue, constraining the inherited spending bridge rather than directly measuring the assumed route fraction.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Book-club revenue was xx.xx% online-ordered and xx.xx% parent-ordered, while products typically went to classrooms. This challenges the use of online sales as a proxy for the external contractor's delivery model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Book-club revenue was xx.xx% online-ordered and xx.xx% parent-ordered, while products typically went to classrooms. This challenges the use of online sales as a proxy for the external contractor's delivery model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct printer-to-customer fulfillment is a disclosed option. Broader logistics/other costs were xx.xx% of revenue versus xx.xx% previously, providing a cost-boundary check but no global order-level share or service-price growth observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct printer-to-customer fulfillment is a disclosed option. Broader logistics/other costs were xx.xx% of revenue versus xx.xx% previously, providing a cost-boundary check but no global order-level share or service-price growth observation.

9. CEWE achieves all targets in 2025 and aims to further increase revenue and earnings in 2026

- Evidence informing the 2025 market-value input; displayed series and growth include calculations: CEWE reported xx.xx CEWE PHOTOBOOK copies in 2025 versus xx.xx in 2024, supporting a positive specialty-book volume assumption without establishing global adoption.
- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Observed 2025 photobook growth informs the specialty-demand assumption for 2026; the market value remains modeled.
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The observed specialty-book activity is a starting condition for the forecast, not independent proof of continued growth through 2032.
- Evidence informing the 2040 market-value input; displayed series and growth include calculations: The forecast explicitly slows specialty-demand growth after 2032; this source supplies the initial commercial observation, not the long-term growth rate.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: CEWE reports xx.xx photobooks in 2025 compared with xx.xx in 2024. This independently establishes specialty-book activity underlying the nonpublisher model, without establishing a global expansion factor.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CEWE reports xx.xx photobooks in 2025 compared with xx.xx in 2024. This independently establishes specialty-book activity underlying the nonpublisher model, without establishing a global expansion factor.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports retaining premium specialty commissions in the manufacturing mix; the binding allocation and unchanged future cohort profile remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports retaining premium specialty commissions in the manufacturing mix; the binding allocation and unchanged future cohort profile remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported photobook volumes constrain personal-book activity and the nonpublisher starting condition, not hardcover prevalence or future share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported photobook volumes constrain personal-book activity and the nonpublisher starting condition, not hardcover prevalence or future share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Photobook activity supports the separate personal-book commissioning block; its softcover fraction remains assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Photobook activity supports the separate personal-book commissioning block; its softcover fraction remains assumed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported photobook copies rose from xx.xx to xx.xx; the narrower 2026 target qualifies strong specialty-growth assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported photobook copies rose from xx.xx to xx.xx; the narrower 2026 target qualifies strong specialty-growth assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specialty-book activity constrains the presentation-demand scenario but does not measure gift-box attachment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specialty-book activity constrains the presentation-demand scenario but does not measure gift-box attachment.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CEWE PHOTOBOOK units in 2025 versus xx.xx in 2024, constraining the specialty-book demand budget without establishing a global process split.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CEWE PHOTOBOOK units in 2025 versus xx.xx in 2024, constraining the specialty-book demand budget without establishing a global process split.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports the common photographic-demand input; electrophotographic attribution remains an explicit assumption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports the common photographic-demand input; electrophotographic attribution remains an explicit assumption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The photobook

10. Paperback Printing Cost - Kindle Direct Publishing

- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The inspected U.S. paperback schedule charges USD xx.xx plus USD xx.xx per page for the specified regular-trim black-ink category. It provides a contemporary commercial price comparison for the assumed USD xx.xx self-publishing production receipt, not an observed historical price or volume.
- Evidence informing the 2026 market-value input; displayed series and growth include calculations: The schedule distinguishes printing charges from royalties and retail list prices, supporting the production-receipt boundary used in the estimate.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule uses USD xx.xx plus USD xx.xx per page for the relevant page band, yielding the USD xx.xx representative manufacturing comparator. It anchors relative weights, not an observed global 2025 price or future share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule uses USD xx.xx plus USD xx.xx per page for the relevant page band, yielding the USD xx.xx representative manufacturing comparator. It anchors relative weights, not an observed global 2025 price or future share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The paperback manufacturing comparator supplies the baseline from which the modeled binding component and hardcover increment are separated.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The paperback manufacturing comparator supplies the baseline from which the modeled binding component and hardcover increment are separated.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The separately identified paperback printing charge constrains the self-publishing production-receipt model and its distinction from retail proceeds.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The separately identified paperback printing charge constrains the self-publishing production-receipt model and its distinction from retail proceeds.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page. It is a contemporary production-charge comparison for the modeled USD xx.xx receipt, not an observed historical Global average.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page. It is a contemporary production-charge comparison for the modeled USD xx.xx receipt, not an observed historical Global average.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The relevant current U.S. paperback printing schedule is USD xx.xx plus USD xx.xx per page, giving USD xx.xx at xx.xx pages. This is a commercial price comparison for creator-production receipts, not proof of 2025 realization, volume or fulfillment mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The relevant current U.S. paperback printing schedule is USD xx.xx plus USD xx.xx per page, giving USD xx.xx at xx.xx pages. This is a commercial price comparison for creator-production receipts, not proof of 2025 realization, volume or fulfillment mix.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule of USD xx.xx plus USD xx.xx per page gives USD xx.xx at xx.xx pages, a magnitude check for modeled single-copy receipts. It establishes neither global volume nor historical or forecast share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule of USD xx.xx plus USD xx.xx per page gives USD xx.xx at xx.xx pages, a magnitude check for modeled single-copy receipts. It establishes neither global volume nor historical or forecast share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page, yielding USD xx.xx for xx.xx pages. This is a contemporary price comparator, not a historical global average. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834340))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page, yielding USD xx.xx for xx.xx pages. This is a contemporary price comparator, not a historical global average. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834340))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The comparable standard and premium color charges calculate to USD xx.xx and USD xx.xx. They constrain relative

11. European Book Publishing Statistics 2017

- Evidence informing the 2017 market-value input; displayed series and growth include calculations: The association's primary survey reports approximately EUR xx.xx of European net publisher revenue for 2017, constraining the pre-pandemic demand level.

12. European Book Publishing Statistics 2019

- Evidence informing the 2018 market-value input; displayed series and growth include calculations: The association reports approximately EUR xx.xx of publisher revenue for 2018.
- Evidence informing the 2019 market-value input; displayed series and growth include calculations: The association reports approximately EUR xx.xx for 2019 and identifies a questionnaire change that limits exact comparability with earlier observations.

13. 2021 年新闻出版产业分析报告

- Evidence informing the 2020 market-value input; displayed series and growth include calculations: The official report's 2021 comparison identifies a substantial rebound from 2020, constraining the pandemic-recovery bridge.
- Evidence informing the 2021 market-value input; displayed series and growth include calculations: China reported xx.xx book copies or sheets in 2021, up xx.xx%; the report also distinguishes textbook output and reprints.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: China's official 2021 textbook share was xx.xx% of book copies. It supplies an older educational-activity proxy, not a monochrome share.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: China's official 2021 textbook share was xx.xx% of book copies. It supplies an older educational-activity proxy, not a monochrome share.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The textbook copy proportion constrains educational exposure; comparable monetary intensity and spot-color incidence are modeled separately.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The textbook copy proportion constrains educational exposure; comparable monetary intensity and spot-color incidence are modeled separately.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational-activity observation contributes to the shared demand proxy carried into the full-color base and forecast models; no color split is reported.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational-activity observation contributes to the shared demand proxy carried into the full-color base and forecast models; no color split is reported.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))

14. European Book Publishing Statistics 2023

- Evidence informing the 2022 market-value input; displayed series and growth include calculations: European net publisher revenue was approximately EUR xx.xx in 2022; the association describes paper-cost pressure and price-led growth.

15. GCC Statistical Center - Education Statistics 2024 announcement, March 23, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Regional pupil-pool anchor only; Bahrain's national weight is modeled. ([gccstat.org](https://www.gccstat.org/news/xx.xx))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional pupil-pool anchor only; Bahrain's national weight is modeled. ([gccstat.org](https://www.gccstat.org/news/xx.xx))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Regional pupil-pool anchor only; Kuwait's national weight is modeled. ([gccstat.org](https://www.gccstat.org/news/xx.xx))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional pupil-pool anchor only; Kuwait's national weight is modeled. ([gccstat.org](https://www.gccstat.org/news/xx.xx))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Regional pupil-pool anchor only; Oman's national weight is modeled. ([gccstat.org](https://www.gccstat.org/news/xx.xx))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional pupil-pool anchor only; Oman's national weight is modeled. ([gccstat.org](https://www.gccstat.org/news/xx.xx))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Regional pupil-pool anchor only; Qatar's national weight is modeled. ([gccstat.org](https://www.gccstat.org/news/xx.xx))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional pupil-pool anchor only; Qatar's national weight is modeled. ([gccstat.org](https://www.gccstat.org/news/xx.xx))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Regional pupil-pool anchor only; Saudi commissioning and service monetization remain assumptions. ([gccstat.org](https://www.gccstat.org/news/xx.xx))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional pupil-pool anchor only; Saudi commissioning and service monetization remain assumptions. ([gccstat.org](https://www.gccstat.org/news/xx.xx))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Regional pupil-pool anchor only; UAE commissioning capture remains assumed. ([gccstat.org](https://www.gccstat.org/news/xx.xx))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional pupil-pool anchor only; UAE commissioning capture remains assumed. ([gccstat.org](https://www.gccstat.org/news/xx.xx))
16. Lightning Source Sharjah Strengthens Local Access through Collaboration with Rushd Bookstore & Libraries
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 Saudi bookseller collaboration establishes an offered route, not Saudi commissioning revenue. ([ingramcontent.com](https://www.ingramcontent.com/news/lightning-source-sharjah-strengthens-local-access-through-collaboration-with-rushd-bookstore-libraries))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2025 Saudi bookseller collaboration establishes an offered route, not Saudi commissioning revenue. ([ingramcontent.com](https://www.ingramcontent.com/news/lightning-source-sharjah-strengthens-local-access-through-collaboration-with-rushd-bookstore-libraries))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: UAE production serving the relationship is not automatically UAE buyer demand; order value and commissioner location remain unmeasured. ([ingramcontent.com](https://www.ingramcontent.com/news/lightning-source-sharjah-strengthens-local-access-through-collaboration-with-rushd-bookstore-libraries))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: UAE production serving the relationship is not automatically UAE buyer demand; order value and commissioner location remain unmeasured. ([ingramcontent.com](https://www.ingramcontent.com/news/lightning-source-sharjah-strengthens-local-access-through-collaboration-with-rushd-bookstore-libraries))

17. Hardcover Printing Cost - Kindle Direct Publishing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim hardcover schedule uses USD xx.xx plus USD xx.xx per page in the relevant band. Comparison with paperback charges constrains the premium-equivalent manufacturing model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim hardcover schedule uses USD xx.xx plus USD xx.xx per page in the relevant band. Comparison with paperback charges constrains the premium-equivalent manufacturing model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD xx.xx fixed-charge difference supplies the POD premium input; the xx.xx% commercial-run realization and premium incidence are explicitly modeled rather than disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD xx.xx fixed-charge difference supplies the POD premium input; the xx.xx% commercial-run realization and premium incidence are explicitly modeled rather than disclosed.
18. User Fees - University of Wisconsin-Milwaukee Print & Copy Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The university service schedule separately prices preflight/prepress preparation at USD xx.xx per hour, establishing a paid preparation activity rather than an automatic component of every printing-platform purchase.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The university service schedule separately prices preflight/prepress preparation at USD xx.xx per hour, establishing a paid preparation activity rather than an automatic component of every printing-platform purchase.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Perfect binding is listed at USD xx.xx-xx.xx per book. The lower endpoint is the model's basic-binding comparator, not a measured worldwide realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Perfect binding is listed at USD xx.xx-xx.xx per book. The lower endpoint is the model's basic-binding comparator, not a measured worldwide realization.

19. How Much Does It Cost to Print a Book? - QinPrinting
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier's delivered xx.xx-page, xx.xx-copy color-book examples list USD xx.xx for softcover and USD xx.xx for hardcover. They provide a commercial-run countercheck, with delivery and product differences preventing direct substitution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier's delivered xx.xx-page, xx.xx-copy color-book examples list USD xx.xx for softcover and USD xx.xx for hardcover. They provide a commercial-run countercheck, with delivery and product differences preventing direct substitution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The smaller hardcover premium in this offset example qualifies extrapolation of the full POD hardcover increment into binding revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The smaller hardcover premium in this offset example qualifies extrapolation of the full POD hardcover increment into binding revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Comparable hardcover and softcover quotations constrain the assumed relative manufacturing realization after scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Comparable hardcover and softcover quotations constrain the assumed relative manufacturing realization after scope adjustments.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Softcover prices provide a commercial comparison, not a historical global average.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Softcover prices provide a commercial comparison, not a historical global average.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Board-book quotations constrain the assumed production receipt; delivery and duties require adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Board-book quotations constrain the assumed production receipt; delivery and duties require adjustment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Mechanical-binding quotations constrain the unit-receipt assumption, not incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Mechanical-binding quotations constrain the unit-receipt assumption, not incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Short-booklet quotations constrain the lower realization used for eligible saddle-stitched books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Short-booklet quotations constrain the lower realization used for eligible saddle-stitched books.
20. Book Wrap Mailers / Book Boxes - Packaging ONE
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer lists MP2 book mailers at GBP xx.xx each for xx.xx packs of xx.xx excluding VAT. The converted unit price supplies the packaging-creation value proxy, not a global average or a historical quote.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer lists MP2 book mailers at GBP xx.xx each for xx.xx packs of xx.xx excluding VAT. The converted unit price supplies the packaging-creation value proxy, not a global average or a historical quote.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The enclosure price forms the other side of the creation-versus-packing ratio. One comparable enclosure per packing unit is an explicit activity-matching assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The enclosure price forms the other side of the creation-versus-packing ratio. One comparable enclosure per packing unit is an explicit activity-matching assumption.

21. Foreign Exchange Rates - G.5A Annual, January 5, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 annual average is USD xx.xx per GBP. It converts the GBP packaging comparator into the common monetary basis used in the starting allocation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 annual average is USD xx.xx per GBP. It converts the GBP packaging comparator into the common monetary basis used in the starting allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same conversion supports the common-currency packaging/packing denominator inherited by the forecast; no 2032 exchange rate is asserted.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same conversion supports the common-currency packaging/packing denominator inherited by the forecast; no 2032 exchange rate is asserted.

22. Optional Book Publishing Services - InstantPublisher

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider lists layout/typesetting at USD xx.xx per page with a USD xx.xx minimum. This supports the preparation-spending feasibility check, with purchase incidence and copies per job remaining assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider lists layout/typesetting at USD xx.xx per page with a USD xx.xx minimum. This supports the preparation-spending feasibility check, with purchase incidence and copies per job remaining assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Individual shrink-wrapping is listed at USD xx.xx each plus USD xx.xx setup. Amortizing setup over an assumed xx.xx copies gives the USD xx.xx packing comparator.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Individual shrink-wrapping is listed at USD xx.xx each plus USD xx.xx setup. Amortizing setup over an assumed xx.xx copies gives the USD xx.xx packing comparator.

23. How Does Merchant Pricing Work for Ecommerce Stores? - Lulu Direct

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2026 merchant-pricing explanation identifies a USD xx.xx fulfillment fee and separates merchant retail receipts from payments for supplier production, shipping and taxes. The fee is a contemporary feasibility comparator, not verified 2025 penetration or a future charge.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2026 merchant-pricing explanation identifies a USD xx.xx fulfillment fee and separates merchant retail receipts from payments for supplier production, shipping and taxes. The fee is a contemporary feasibility comparator, not verified 2025 penetration or a future charge.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Merchant retail receipts are separate from payments for printing and fulfillment. The current page lists a USD xx.xx fulfillment fee, with shipping and taxes separately calculated. This supports the service-value boundary, not a historical average fee or global order volume.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Merchant retail receipts are separate from payments for printing and fulfillment. The current page lists a USD xx.xx fulfillment fee, with shipping and taxes separately calculated. This supports the service-value boundary, not a historical average fee or global order volume.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lulu identifies separate retail and production/fulfillment transactions and a USD xx.xx fulfillment fee. This supports excluding merchant retail margins from production-service value and avoiding automatic procurement-channel classification from the storefront.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lulu identifies separate retail and production/fulfillment transactions and a USD xx.xx fulfillment fee. This supports excluding merchant retail margins from production-service value and avoiding automatic procurement-channel classification from the storefront.

24. AAP December 2025 StatShot Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The primary monthly reporting panel's full-year 2025 trade figures show paperback revenue down xx.xx%. This qualifies broad physical-book growth assumptions and supplies directional mix evidence only.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The primary monthly reporting panel's full-year 2025 trade figures show paperback revenue down xx.xx%. This qualifies broad physical-book growth assumptions and supplies directional mix evidence only.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same approximately xx.xx-publisher panel shows hardcover revenue up xx.xx%. It supports a modest premium-mix hypothesis but neither measures global binding spending nor proves the forecast.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same approximately xx.xx-publisher panel shows hardcover revenue up xx.xx%. It supports a modest premium-mix hypothesis but neither measures global binding spending nor proves the forecast.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct-participant 2025 hardback revenue of approximately USD xx.xx anchors the adjusted conventional-format model; it is not printing revenue or a global share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct-participant 2025 hardback revenue of approximately USD xx.xx anchors the adjusted conventional-format model; it is not printing revenue or a global share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported paperback revenue of approximately USD xx.xx plus USD xx.xx mass-market revenue supplies the comparison input. Reported annual movements qualify the forecast starting mix, not its future persistence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported paperback revenue of approximately USD xx.xx plus USD xx.xx mass-market revenue supplies the comparison input. Reported annual movements qualify the forecast starting mix, not its future persistence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct publisher-sample religious and trade physical-format receipts provide a category-intensity proxy, subject to explicit geographic and coverage adjustments.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct publisher-sample religious and trade physical-format receipts provide a category-intensity proxy, subject to explicit geographic and coverage adjustments.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported professional-book receipts and their 2025 decline challenge assumptions of automatic growth from recurring reference relationships.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported professional-book receipts and their 2025 decline challenge assumptions of automatic growth from recurring reference relationships.

25. Print and Associated Services Framework - Lot 1 Buyer Guide: Framework Objectives
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The public purchasing framework separately specifies production-management advice. It establishes a purchased responsibility but not a global fee rate or permission to count subcontract pass-through as retained revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The public purchasing framework separately specifies production-management advice. It establishes a purchased responsibility but not a global fee rate or permission to count subcontract pass-through as retained revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The framework also specifies finished-goods stock holding and call-off, with required holding costs included in the print-job price. This supports allocating embedded production-linked fulfillment rather than restricting the category to standalone invoices.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The framework also specifies finished-goods stock holding and call-off, with required holding costs included in the print-job price. This supports allocating embedded production-linked fulfillment rather than restricting the category to standalone invoices.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Finished goods may be held for call-off, with storage included in the print job where required. This supports consolidated releases as a production-linked arrangement without assuming every release is an individual order.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Finished goods may be held for call-off, with storage included in the print job where required. This supports consolidated releases as a production-linked arrangement without assuming every release is an individual order.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contractors maintain designated distribution lists, deliver to nominated addresses and receive job-specific copy allocations, supporting the modeled list-delivery category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contractors maintain designated distribution lists, deliver to nominated addresses and receive job-specific copy allocations, supporting the modeled list-delivery category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The coexistence of stock holding, call-off and distribution-list obligations supports separating production trigger from fulfillment responsibility; call-off alone does not establish transaction-level fulfillment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The coexistence of stock holding, call-off and distribution-list obligations supports separating production trigger from fulfillment responsibility; call-off alone does not establish transaction-level fulfillment.

26. Frequently Asked Questions - IngramSpark
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: IngramSpark states that it does not provide editing, typesetting or design services. This counterexample prevents treating all platform manufacturing commissions as purchases of professional preparation services.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: IngramSpark states that it does not provide editing, typesetting or design services. This counterexample prevents treating all platform manufacturing commissions as purchases of professional preparation services.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider permits nonexclusive sourcing when the customer owns its ISBN and does not offer editing, typesetting or design. These terms constrain the author service boundary, not adoption or revenue growth.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider permits nonexclusive sourcing when the customer owns its ISBN and does not offer editing, typesetting or design. These terms constrain the author service boundary, not adoption or revenue growth.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: IngramSpark permits nonexclusive use of other printers, distributors and fulfillment providers when publishers own their ISBN. This establishes an alternative-sourcing option, not observed switching or a numerical channel allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: IngramSpark permits nonexclusive use of other printers, distributors and fulfillment providers when publishers own their ISBN. This establishes an alternative-sourcing option, not observed switching or a numerical channel allocation.
27. Packaging Printing & Production - Imago Group
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier identifies book slipcases, clamshell cases, tray-and-lid constructions and multicomponent publisher packaging. This supports the enclosure-production boundary and the limitation of a simple mailer-price proxy; it does not supply sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier identifies book slipcases, clamshell cases, tray-and-lid constructions and multicomponent publisher packaging. This supports the enclosure-production boundary and the limitation of a simple mailer-price proxy; it does not supply sales weights.
28. Services - Bridgeport National Bindery
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The short-run book-production portfolio separately lists shrink-wrapping and set packing. It establishes commercial packing activity distinct from enclosure manufacture and binding, without measuring its revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The short-run book-production portfolio separately lists shrink-wrapping and set packing. It establishes commercial packing activity distinct from enclosure manufacture and binding, without measuring its revenue.
29. Terms and Conditions - CPI Print Germany
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published terms distinguish ex-works production prices from packaging, freight and postage and reserve specified input-cost adjustment rights. They support comparable-scope valuation but do not establish realized inflation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published terms distinguish ex-works production prices from packaging, freight and postage and reserve specified input-cost adjustment rights. They support comparable-scope valuation but do not establish realized inflation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate treatment of forwarding and storage responsibilities supports the eligible production-linked service boundary; contractual rights do not prove the assumed future fee-growth rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate treatment of forwarding and storage responsibilities supports the eligible production-linked service boundary; contractual rights do not prove the assumed future fee-growth rate.

30. ONIX Codelists Issue 75 - List 150: Product Form
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BB identifies hardback/cased books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BB identifies hardback/cased books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BC identifies paperback/softback books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BC identifies paperback/softback books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BH distinguishes board-page books from conventional books with rigid covers.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BH distinguishes board-page books from conventional books with rigid covers.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BE groups spiral, comb and coil forms.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BE groups spiral, comb and coil forms.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BD identifies loose-leaf books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BD identifies loose-leaf books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BF includes stapled short books; nonbook uses are excluded from the model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BF includes stapled short books; nonbook uses are excluded from the model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BL recognizes slide-bound books without measuring current sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BL recognizes slide-bound books without measuring current sales.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BO recognizes continuous concertina-fold books; nonbook charts are excluded.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BO recognizes continuous concertina-fold books; nonbook charts are excluded.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BI identifies textile-page books, not cloth-covered paper books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BI identifies textile-page books, not cloth-covered paper books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BJ identifies waterproof bath-book forms.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BJ identifies waterproof bath-book forms.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BP identifies foam-page and foam-cover books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BP identifies foam-page and foam-cover books.

31. Thomson Reuters - Fourth-Quarter and Full-Year 2025 Results
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Global Print revenue and contraction constrain professional-print scale and substitution direction; content receipts are not treated as loose-leaf service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Global Print revenue and contraction constrain professional-print scale and substitution direction; content receipts are not treated as loose-leaf service revenue.
32. Lulu - Discontinuing Saddle Stitch in Global Distribution
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provider-specific wholesale distribution restrictions establish a channel constraint, not a global sales weight or measured forecast decline.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provider-specific wholesale distribution restrictions establish a channel constraint, not a global sales weight or measured forecast decline.
33. MAGACOPY Sofia - Copying and Printing Prices
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A current EUR xx.xx binding-only charge establishes a live commercial service and a price-scope comparison; full-book USD receipts and incidence remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A current EUR xx.xx binding-only charge establishes a live commercial service and a price-scope comparison; full-book USD receipts and incidence remain assumed.
34. Imago Group - Spotlight on Children's Books for National Young Readers Week
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's children's portfolio supports board-book commercial classification, not order volumes.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's children's portfolio supports board-book commercial classification, not order volumes.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cloth-book offerings support the textile-page category premise, not its modeled incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cloth-book offerings support the textile-page category premise, not its modeled incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bath-book offerings support a separate commercial category; sales and service receipts are undisclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bath-book offerings support a separate commercial category; sales and service receipts are undisclosed.
35. Pegasus - My First Book of Shapes: EVA Foam Book
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The dated 2025 product identifies foam pages and supports commercial-status and classification checks, not global volume or supplier realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated 2025 product identifies foam pages and supports commercial-status and classification checks, not global volume or supplier realization.

36. U.S. Consumer Product Safety Commission - Children's Books
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Product classification and intended audience affect commercial compliance accountability; no numerical surcharge is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Product classification and intended audience affect commercial compliance accountability; no numerical surcharge is inferred.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The exemption boundary supports separate classification rather than assumed conventional-book treatment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The exemption boundary supports separate classification rather than assumed conventional-book treatment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Compliance classification is retained as an uncertainty, not an exclusion or measured price premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Compliance classification is retained as an uncertainty, not an exclusion or measured price premium.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specialty construction does not itself establish ordinary-book exemption eligibility or market inactivity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specialty construction does not itself establish ordinary-book exemption eligibility or market inactivity.
37. Puget Bindery - Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider identifies training manuals and reference guides as mechanical-binding applications, supporting the commissioning premise without measuring sales incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider identifies training manuals and reference guides as mechanical-binding applications, supporting the commissioning premise without measuring sales incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists commercial letterpress book plates and specialty inserts, supporting a component-service model rather than attribution of the entire book price.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists commercial letterpress book plates and specialty inserts, supporting a component-service model rather than attribution of the entire book price.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The bindery identifies commercial printers, publishers and corporate print buyers as customers and excludes direct-to-consumer sales. This supports trade-purchasing attribution but supplies no sales percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The bindery identifies commercial printers, publishers and corporate print buyers as customers and excludes direct-to-consumer sales. This supports trade-purchasing attribution but supplies no sales percentage.

38. ONIX Codelists Issue 75 - List 80: Product Packaging Type
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates single-item and multivolume slipcases; supplies classification, not sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates single-item and multivolume slipcases; supplies classification, not sales weights.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes lidded boxes from slipcase-style boxed sets.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes lidded boxes from slipcase-style boxed sets.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-ended wraparound sleeves are distinct from enclosed wrapping.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-ended wraparound sleeves are distinct from enclosed wrapping.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes envelope-like slip-sleeves and wallets or folders.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes envelope-like slip-sleeves and wallets or folders.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes pouch and bag packaging independently.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes pouch and bag packaging independently.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately recognizes shrink-wrapped products and bundles.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately recognizes shrink-wrapped products and bundles.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Defines formed-plastic clamshells and card-backed blister packaging as distinct constructions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Defines formed-plastic clamshells and card-backed blister packaging as distinct constructions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Explicitly recognizes book browse-prevention closures.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Explicitly recognizes book browse-prevention closures.

39. U.S. Government Publishing Office - Program 827-S: Federal Aviation Administration Books, Contract Pricing and Specifications

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Historical evaluation quantities provide a container-heavy institutional purchasing counterexample, not global shipment shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Historical evaluation quantities provide a container-heavy institutional purchasing counterexample, not global shipment shares.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies kraft-envelope packing within the book procurement.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies kraft-envelope packing within the book procurement.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies cushioned shipping bags as an eligible book-order enclosure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies cushioned shipping bags as an eligible book-order enclosure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Includes wrapped shipping bundles as an alternative purchasing configuration.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Includes wrapped shipping bundles as an alternative purchasing configuration.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Requires packing and filler separately from the external enclosure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Requires packing and filler separately from the external enclosure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies closure tape and securing straps independently of container construction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies closure tape and securing straps independently of container construction.

40. U.S. Government Publishing Office - Print Order Form 2511 Instructions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specifies paper-banded sets separately from shrink-wrapped sets.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specifies paper-banded sets separately from shrink-wrapped sets.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes shrink-wrapped units nested within cartons, supporting component attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes shrink-wrapped units nested within cartons, supporting component attribution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes internal packaging, container quantities and pallet requirements.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes internal packaging, container quantities and pallet requirements.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The instructions distinguish nominated delivery addresses and warehouse receiving arrangements, supporting the receiving-point attribution premise, not an observed consolidated market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The instructions distinguish nominated delivery addresses and warehouse receiving arrangements, supporting the receiving-point attribution premise, not an observed consolidated market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supplemental distribution lists accommodate multiple destinations, supporting the distinction between preallocated destination delivery and a single receiving-point handoff.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supplemental distribution lists accommodate multiple destinations, supporting the distinction between preallocated destination delivery and a single receiving-point handoff.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: GPO specifies black interior inks separately from cover inks, supporting the monochrome classification and underlying-book attribution premise, not its modeled sales weight. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GPO specifies black interior inks separately from cover inks, supporting the monochrome classification and underlying-book attribution premise, not its modeled sales weight. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Designated Pantone specifications are recognized for interior inks, supporting a separate spot-color commercial category without measuring its share. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Designated Pantone specifications are recognized for interior inks, supporting a separate spot-color commercial category without measuring its share. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Four-color process is identified as full color for interior pages; cover color is separately specified. This supports classification at both modeled anchors. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Four-color process is identified as full color for interior pages; cover color is separately specified. This supports classification at both modeled anchors. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))

41. GPOExpress Program Pricing Guide - November 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx hand folding provides a handling-cost comparison; the complete band realization remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx hand folding provides a handling-cost comparison; the complete band realization remains modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx per shrink wrap anchors a small-run comparison, not the assumed global realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx per shrink wrap anchors a small-run comparison, not the assumed global realization.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx auxiliary insertion supplies a handling-price comparison, not protective-material sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx auxiliary insertion supplies a handling-price comparison, not protective-material sales.
42. Hardcover Book Protection: Dust Jackets or Slipcases?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-product EXW slipcase prices of USD xx.xx, USD xx.xx and USD xx.xx at xx.xx xx.xx and xx.xx units constrain relative realizations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-product EXW slipcase prices of USD xx.xx, USD xx.xx and USD xx.xx at xx.xx xx.xx and xx.xx units constrain relative realizations.
43. Book Printing Cost in China: How Printing Prices Are Calculated
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately USD xx.xx per export carton including basic packing materials constrains the bulk-package budget; the container allocation is modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately USD xx.xx per export carton including basic packing materials constrains the bulk-package budget; the container allocation is modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its cushioning split is assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its cushioning split is assumed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its closure split is assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its closure split is assumed.
44. Make Believe Ideas - Independent Retail Catalog 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 catalog identifies activity books with cover-mounted blisters, establishing book-specific participation but not packaging revenue or volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 catalog identifies activity books with cover-mounted blisters, establishing book-specific participation but not packaging revenue or volume.
45. Bookmobile - Request Book Printing Quotes the Right Way to Save Money
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The printer's bookstore-oriented purchasing guidance cautions against universal shrink-wrap attachment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The printer's bookstore-oriented purchasing guidance cautions against universal shrink-wrap attachment.

46. Digital Book Printing - Bookmobile
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current book-production portfolio separately offers poly bags, supporting commercial category participation rather than a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current book-production portfolio separately offers poly bags, supporting commercial category participation rather than a sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current portfolio offers shrink-wrap independently of other finishing options.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current portfolio offers shrink-wrap independently of other finishing options.
47. Sell Books on Shopify - Lulu
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The offered storefront-to-print-and-ship route supports an accessible production-linked parcel channel, not assumed demand.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct fulfillment availability supports the parcel-use scenario without establishing envelope mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct fulfillment availability supports the parcel-use scenario without establishing bag mix.
48. European Commission - New EU Rules on Packaging Enter into Application
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional packaging minimization supports a directional right-sizing premise, not a measured global box-price effect.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Waste-reduction requirements inform the bounded substitution scenario; they do not quantify band adoption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional circularity requirements inform lower lightweight-bag exposure without implying a global book-bag ban.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Material substitution remains partly internal to the combined film-and-paper category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional recyclability pressure informs the niche substitution scenario, not an observed blister-sales decline.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Empty-space reduction provides a directional premise for lower cushioning allowance per individual box.
49. Digital Printing - U.S. Government Publishing Office
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Procurement examples allow offset or digital alternatives while restricting some digital variants, supporting an acceptance- and run-mix model rather than a universal quality ranking. This is a modeling premise, not an observed process share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Procurement examples allow offset or digital alternatives while restricting some digital variants, supporting an acceptance- and run-mix model rather than a universal quality ranking. This is a modeling premise, not an observed process share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The purchasing guidance supports conditional digital substitution, not unrestricted interchangeability or an observed forecast allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The purchasing guidance supports conditional digital substitution, not unrestricted interchangeability or an observed forecast allocation.

50. Clays demonstrate dedication to digital investment
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx books annually and xx.xx books of digital capacity in an older investment statement; this constrains scale but is not a 2025 realized output mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx books annually and xx.xx books of digital capacity in an older investment statement; this constrains scale but is not a 2025 realized output mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's inkjet investment supports an existing book-production application and a conditional adoption premise, not a quantified global forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's inkjet investment supports an existing book-production application and a conditional adoption premise, not a quantified global forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The capacity/output comparison is a limited commercial check on continued conventional book production, not a direct offset revenue observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The capacity/output comparison is a limited commercial check on continued conventional book production, not a direct offset revenue observation.
51. ISO/TC 130 - Guidelines for Using Print Production Standards, Version 1.0, 2019
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes packaging use cases and printing processes, supporting allocation of gravure to book-associated components rather than the full value of a book.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes packaging use cases and printing processes, supporting allocation of gravure to book-associated components rather than the full value of a book.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies flexographic packaging applications; the book-specific spending budget and process coefficients remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies flexographic packaging applications; the book-specific spending budget and process coefficients remain modeled.
52. Premium Layflat Photo Books - PhotobookShop
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Offers bound silver-halide photographic books and distinguishes them from digitally printed alternatives, supporting the model's separate photographic category rather than an observed sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Offers bound silver-halide photographic books and distinguishes them from digitally printed alternatives, supporting the model's separate photographic category rather than an observed sales weight.
53. The Cormac McCarthy Collection - The Folio Society
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents screen-printed cloth covers on physical book editions, supporting component-level commercial attribution. It does not measure supplier component receipts or global uptake.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents screen-printed cloth covers on physical book editions, supporting component-level commercial attribution. It does not measure supplier component receipts or global uptake.

54. Risograph Digital Duplicator Order Form, 2026 - Minneapolis College of Art and Design
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2026 institutional form recognizes Risograph book/booklet orders but excludes assembly. It supports a limited application boundary, not 2025 external commercial volume; internal institutional charges are excluded from the numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2026 institutional form recognizes Risograph book/booklet orders but excludes assembly. It supports a limited application boundary, not 2025 external commercial volume; internal institutional charges are excluded from the numerator.
55. American Printing House - 2024 Annual Report
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal 2024 product sales were USD xx.xx; braille publications represented xx.xx% of product sales; xx.xx braille volumes were produced. These inputs constrain an adjusted production-realization proxy, not a global market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The decline from xx.xx braille volumes in 2022 qualifies a uniform physical-demand growth assumption and informs the slower relative forecast activity weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2024 product sales were USD xx.xx; braille publications represented xx.xx% of product sales; xx.xx braille volumes were produced. These inputs constrain an adjusted production-realization proxy, not a global market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The decline from xx.xx braille volumes in 2022 qualifies a uniform physical-demand growth assumption and informs the slower relative forecast activity weight.
56. Kodak Moments Kiosk - Kodak Alaris
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises book-capable retail kiosk equipment and a photographic-printing portfolio. Used only as a commercial-route premise for the thermal working estimate, not as evidence of thermal book-service sales, utilization or the final share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises book-capable retail kiosk equipment and a photographic-printing portfolio. Used only as a commercial-route premise for the thermal working estimate, not as evidence of thermal book-service sales, utilization or the final share.
57. 二〇二一年全国新闻出版业基本情况
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official 2021 aggregate textbook output distinguishes school, tertiary and vocational/adult activity; historical volumes require value and global-scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official 2021 aggregate textbook output distinguishes school, tertiary and vocational/adult activity; historical volumes require value and global-scope adjustments.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Secondary, primary and teaching-book aggregate sheet counts form the school activity weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Secondary, primary and teaching-book aggregate sheet counts form the school activity weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Tertiary textbook aggregate output supplies the higher-education activity input before an assumed relative-service-value adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Tertiary textbook aggregate output supplies the higher-education activity input before an assumed relative-service-value adjustment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Vocational, adult and literacy textbook output supplies the corresponding historical activity input.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Vocational, adult and literacy textbook output supplies the corresponding historical activity input.

58. Music, printed or in manuscript imports by country, 2024 - World Integrated Trade Solution
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official HS xx.xx import observations constrain the music-publication value bridge; domestic supply, physical-book eligibility and the printing-service fraction remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official HS xx.xx import observations constrain the music-publication value bridge; domestic supply, physical-book eligibility and the printing-service fraction remain modeled.
59. Bloomsbury Publishing - 2024/25 Results Presentation
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate Academic & Professional print, digital and rights/service receipts demonstrate the required physical-revenue boundary; company mix is not treated as global market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate Academic & Professional print, digital and rights/service receipts demonstrate the required physical-revenue boundary; company mix is not treated as global market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed physical academic publishing activity supports commercial applicability but does not verify the assumed global research/reference ratio.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed physical academic publishing activity supports commercial applicability but does not verify the assumed global research/reference ratio.
60. HDSB - RFSQ 26-013: Yearbook Software and Printing Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The qualification notice establishes a commissioned yearbook scope including printing, binding and school delivery; it supplies no awarded value and is not used as a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The qualification notice establishes a commissioned yearbook scope including printing, binding and school delivery; it supplies no awarded value and is not used as a sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The yearbook qualification notice restricts supply to prequalified vendors while permitting school bulk orders and individual ordering. It supports separating commissioning authority from ultimate payment, but discloses no fulfilled-order value.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The yearbook qualification notice restricts supply to prequalified vendors while permitting school bulk orders and individual ordering. It supports separating commissioning authority from ultimate payment, but discloses no fulfilled-order value.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The individual-ordering option establishes an attribution uncertainty relevant to the modeled household portion; it does not establish the assumed xx.xx% proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The individual-ordering option establishes an attribution uncertainty relevant to the modeled household portion; it does not establish the assumed xx.xx% proportion.

61. U.S. Census Bureau - 2022 Economic Census, Books Printing Questionnaire MC-32312
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official printing questionnaire supports the distinction between textbook and general-book production; recognition is not treated as a revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official printing questionnaire supports the distinction between textbook and general-book production; recognition is not treated as a revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognized coloring-book output supports treating recreational activity commissions separately from institutional textbooks according to purpose.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognized coloring-book output supports treating recreational activity commissions separately from institutional textbooks according to purpose.
62. Press Information Bureau - Department of School Education & Literacy, Year End Review 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The government review describes substantial NCERT physical-textbook activity, independently qualifying the physical-availability premise without establishing attributable supplier revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The government review describes substantial NCERT physical-textbook activity, independently qualifying the physical-availability premise without establishing attributable supplier revenue.
63. 2022 North American Industry Classification System - United States
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dedicated book-publishing activity is separated from institutional primary activities and printing without publishing, constraining the Publishing Organizations numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dedicated book-publishing activity is separated from institutional primary activities and printing without publishing, constraining the Publishing Organizations numerator.
64. U.S. Census Bureau - Books Printing: 2002
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Table xx.xx reports 2002 U.S. books-printing contract-work costs of USD xx.xx and shipments of USD xx.xx. Their ratio supplies a dated manufacturing-subcontract proxy, held constant within the forecast component.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Table xx.xx reports 2002 U.S. books-printing contract-work costs of USD xx.xx and shipments of USD xx.xx. Their ratio supplies a dated manufacturing-subcontract proxy, held constant within the forecast component.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical subcontract-cost input constrains the modeled transfer from publisher-origin commissioning to performing suppliers, without adding another gross contract value.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical subcontract-cost input constrains the modeled transfer from publisher-origin commissioning to performing suppliers, without adding another gross contract value.
65. Samfine Creation Holdings Group Limited - Form 20-F for the year ended December 31, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports USD xx.xx of 2025 book-product revenue and principally serves book traders that secure printing contracts and outsource production. This is a supplier-specific quantitative role check, not a Global allocation weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports USD xx.xx of 2025 book-product revenue and principally serves book traders that secure printing contracts and outsource production. This is a supplier-specific quantitative role check, not a Global allocation weight.

66. Ministry of Education - NCERT and Amazon Letter of Engagement, October 7, 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2024 announcement targeted xx.xx NCERT books for academic 2025-xx.xx. This is a planned institutional activity anchor; realization, eligible receipts and subsequent growth are modeled separately.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2024 announcement targeted xx.xx NCERT books for academic 2025-xx.xx. This is a planned institutional activity anchor; realization, eligible receipts and subsequent growth are modeled separately.
67. Bangladesh e-GP - NCTB/TEXTBOOK/2025, Package GD.102_SEC_8.031
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The government-funded procurement plan specifies xx.xx academic-2025 textbook copies and an estimated BDT xx.xx for printing, binding and supply. It constrains commercial order scale and local unit-budget plausibility, not realized annual revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The government-funded procurement plan specifies xx.xx academic-2025 textbook copies and an estimated BDT xx.xx for printing, binding and supply. It constrains commercial order scale and local unit-budget plausibility, not realized annual revenue.
68. Students suffer as NCTB fails to deliver books - The Daily Star, January 17, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 report corroborates the dated approximately xx.xx-copy textbook target and early-year delivery disruption. Target realization and supplier receipts remain modeled.
69. Secondary-level students: A new year without full set of books for many - The Daily Star, December 28, 2025
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 report corroborates the approximately xx.xx-copy academic-2026 target and continued delivery slippage. It informs a normalization assumption, not an observed 2032 share.
70. Business Books - Print Professional, Custom Corporate Books | Blurb
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The business-book offering includes organizational presentation and corporate-gift applications. It establishes an in-scope commissioning proposition, not the modeled global copy quantity or spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The business-book offering includes organizational presentation and corporate-gift applications. It establishes an in-scope commissioning proposition, not the modeled global copy quantity or spending.
71. How to Use Lulu to Support Your Nonprofit | Lulu
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform permits an organization or charity to receive creator proceeds. This supports excluding beneficiary-only arrangements from nonprofit commissioning; it does not measure nonprofit printing purchases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform permits an organization or charity to receive creator proceeds. This supports excluding beneficiary-only arrangements from nonprofit commissioning; it does not measure nonprofit printing purchases.

72. News Corp - Form 10-K for the fiscal year ended June 30, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal 2025 consumer backlist revenue of xx.xx% and digital revenue of xx.xx% anchor the assumed physical-backlist bridge and its forecast starting model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2025 consumer backlist revenue of xx.xx% and digital revenue of xx.xx% anchor the assumed physical-backlist bridge and its forecast starting model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed backlist mix constrains recurring-title demand; its division into replenishment and POD remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed backlist mix constrains recurring-title demand; its division into replenishment and POD remains modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The complementary frontlist population supports the launch-stock cohort after physical-format adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The complementary frontlist population supports the launch-stock cohort after physical-format adjustments.
73. News Corp - Form 10-K for the fiscal year ended June 30, 2026
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2026 backlist revenue of xx.xx% and digital revenue of xx.xx% lower the forecast physical-backlist proxy instead of assuming continued backlist expansion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The updated catalog mix changes the forecast population available for repeat inventory releases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The updated frontlist/backlist bridge changes the forecast planned-production weight; no 2032 share is disclosed.
74. How Do Lulu Direct Orders Work?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lulu describes printing after customer purchase and distinguishes production from subsequent shipment, supporting recipient-order attribution rather than technology-based classification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lulu describes printing after customer purchase and distinguishes production from subsequent shipment, supporting recipient-order attribution rather than technology-based classification.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: No minimum order and one-copy ordering establish commercial feasibility, not the number or value of single-copy releases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No minimum order and one-copy ordering establish commercial feasibility, not the number or value of single-copy releases.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: One POD offering accepts hundreds of copies, independently challenging a POD-equals-single-copy allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One POD offering accepts hundreds of copies, independently challenging a POD-equals-single-copy allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Orders can extend into thousands within the same offering; the production trigger therefore does not uniquely identify the working run band.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Orders can extend into thousands within the same offering; the production trigger therefore does not uniquely identify the working run band.

75. Supply Chain - Clays
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Clays describes differentiated backlist arrangements and stock visibility, supporting a separate inventory-replenishment cohort without establishing its numerical prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Clays describes differentiated backlist arrangements and stock visibility, supporting a separate inventory-replenishment cohort without establishing its numerical prevalence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: New-title consolidation and predictable annual backlist demand support retaining planned inventory commitments; short-run printing is explicitly not necessarily POD.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: New-title consolidation and predictable annual backlist demand support retaining planned inventory commitments; short-run printing is explicitly not necessarily POD.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Clays explicitly distinguishes short-run work from POD, supporting category separation rather than a technological proxy for value share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Clays explicitly distinguishes short-run work from POD, supporting category separation rather than a technological proxy for value share.
76. Smart Backlist Management: When to Hold and When to Print-on-Demand
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheridan describes low-volume titles moving to POD while other titles retain inventory, supporting differentiated release-policy assumptions rather than a uniform backlist-to-POD conversion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheridan describes low-volume titles moving to POD while other titles retain inventory, supporting differentiated release-policy assumptions rather than a uniform backlist-to-POD conversion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A disclosed customer example uses a stock threshold to trigger a 2,000-copy replenishment order. It establishes the commercial mechanism, not a market-wide share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A disclosed customer example uses a stock threshold to trigger a 2,000-copy replenishment order. It establishes the commercial mechanism, not a market-wide share.

77. Shortage of NCERT textbooks - Rajya Sabha Unstarred Question No. 1941, December 17, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advance enrollment-based forecasting, academic-session readiness and a fiscal 2025-xx.xx plan for approximately xx.xx textbooks support a substantial calendar-driven stock cohort. The target is not realized production.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advance enrollment-based forecasting, academic-session readiness and a fiscal 2025-xx.xx plan for approximately xx.xx textbooks support a substantial calendar-driven stock cohort. The target is not realized production.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phased supply and inventory monitoring support distinguishing ongoing availability obligations from individual-recipient POD, without quantifying replenishment's global prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phased supply and inventory monitoring support distinguishing ongoing availability obligations from individual-recipient POD, without quantifying replenishment's global prevalence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official answer distinguishes printer empanelment from approximately xx.xx distribution vendors and describes planned fiscal 2025-xx.xx printing of approximately xx.xx textbooks. It supports commissioning-versus-distribution separation, not a realized monetary channel split.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official answer distinguishes printer empanelment from approximately xx.xx distribution vendors and describes planned fiscal 2025-xx.xx printing of approximately xx.xx textbooks. It supports commissioning-versus-distribution separation, not a realized monetary channel split.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phased textbook supply supports treating annual institutional quantities separately from production batches; it does not disclose the medium-run allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phased textbook supply supports treating annual institutional quantities separately from production batches; it does not disclose the medium-run allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 answer identifies a xx.xx-million-copy FY2025-xx.xx printing decision versus approximately xx.xx in recent years, a counterforce to assuming rapid long-run disappearance. Planned copies are not realized service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 answer identifies a xx.xx-million-copy FY2025-xx.xx printing decision versus approximately xx.xx in recent years, a counterforce to assuming rapid long-run disappearance. Planned copies are not realized service revenue.
78. Fulfillment Fee - Lulu Direct
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2026 schedule lists USD xx.xx per order regardless of item count, supporting an order-frequency effect on associated-service value. It does not verify the assumed historical or forecast multiplier.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2026 schedule lists USD xx.xx per order regardless of item count, supporting an order-frequency effect on associated-service value. It does not verify the assumed historical or forecast multiplier.

79. InnerWorkings, Inc. - Form 10-K for the year ended December 31, 2019
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2019 filing reports USD xx.xx gross profit on USD xx.xx revenue and describes purchased-product and direct-service costs. Historical reported margins constrain the modeled xx.xx% retained-fee ratio; they do not directly measure book-channel share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2019 filing reports USD xx.xx gross profit on USD xx.xx revenue and describes purchased-product and direct-service costs. Historical reported margins constrain the modeled xx.xx% retained-fee ratio; they do not directly measure book-channel share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The procurement-service margin comparison supports the fee-to-managed-spending bridge underlying the direct-channel complement. Carrying the normalized ratio into 2032 is explicitly a forecast assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The procurement-service margin comparison supports the fee-to-managed-spending bridge underlying the direct-channel complement. Carrying the normalized ratio into 2032 is explicitly a forecast assumption.
80. Simplified Purchase Agreement - U.S. Government Publishing Office
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SPA permits agency awards directly to certified vendors for purchases up to USD xx.xx while GPO pays vendors and invoices agencies. This supports classifying by the contracting relationship rather than the invoice payer, not a numerical global weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SPA permits agency awards directly to certified vendors for purchases up to USD xx.xx while GPO pays vendors and invoices agencies. This supports classifying by the contracting relationship rather than the invoice payer, not a numerical global weight.
81. Global Print Services | China, Europe, SE Asia, USA & India
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Imago describes sourcing suppliers and coordinating multiple manufacturers for book-related projects. Its cumulative customer relationships establish the offered intermediary role but are not annual revenue or allocation weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Imago describes sourcing suppliers and coordinating multiple manufacturers for book-related projects. Its cumulative customer relationships establish the offered intermediary role but are not annual revenue or allocation weights.
82. Lion Rock Group Limited - Annual Report 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-business 2025 turnover changes of minus xx.xx% for APOL and minus xx.xx% for Regent challenge uniform intermediary growth; Regent's non-book focus limits its relevance. These observations support avoiding an additional adoption uplift.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-business 2025 turnover changes of minus xx.xx% for APOL and minus xx.xx% for Regent challenge uniform intermediary growth; Regent's non-book focus limits its relevance. These observations support avoiding an additional adoption uplift.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Manufacturing turnover changes of minus xx.xx% at xx.xx Printing and plus xx.xx% at Papercraft demonstrate differing supplier trajectories rather than a simple common channel-growth pattern; these are not direct-contracting market shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Manufacturing turnover changes of minus xx.xx% at xx.xx Printing and plus xx.xx% at Papercraft demonstrate differing supplier trajectories rather than a simple common channel-growth pattern; these are not direct-contracting market shares.

83. Imprint Digital - Book Printing Prices UK

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected schedule quotes GBP xx.xx at xx.xx copies for one paperback specification, supporting a relative-price input, not a historical global realization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected schedule quotes GBP xx.xx at xx.xx copies for one paperback specification, supporting a relative-price input, not a historical global realization.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: GBP xx.xx at xx.xx copies supplies the medium-run reference index; format and delivery differences require separate treatment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GBP xx.xx at xx.xx copies supplies the medium-run reference index; format and delivery differences require separate treatment.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The quantity-price curve anchors the reference from which the long-run discount is assumed; no long-run price or future share is disclosed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The quantity-price curve anchors the reference from which the long-run discount is assumed; no long-run price or future share is disclosed.

84. Print Options

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: KDP distinguishes black-and-white from color records and locks ink type after publication. These platform-specific conditions qualify switching assumptions, not market weights. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: KDP distinguishes black-and-white from color records and locks ink type after publication. These platform-specific conditions qualify switching assumptions, not market weights. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The displayed platform menu does not establish designated spot-color availability or sales; a general color option is not used as evidence of spot-color demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The displayed platform menu does not establish designated spot-color availability or sales; a general color option is not used as evidence of spot-color demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Standard color is unavailable for hardcover, but premium color is available. Both process-color tiers belong within the modeled Full-Color Interiors category. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Standard color is unavailable for hardcover, but premium color is available. Both process-color tiers belong within the modeled Full-Color Interiors category. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))

85. Synthèse des chiffres de l'édition jeunesse 2024-2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The primary French publishing survey reports a xx.xx% decline in illustrated early-childhood volumes and a xx.xx% decline in youth-fiction volumes in 2024. These differing outcomes challenge an aggressive universal color-growth assumption. ([sne.fr](https://www.sne.fr/actu/synthese-des-chiffres-de-ledition-jeunesse-2024-2025/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The primary French publishing survey reports a xx.xx% decline in illustrated early-childhood volumes and a xx.xx% decline in youth-fiction volumes in 2024. These differing outcomes challenge an aggressive universal color-growth assumption. ([sne.fr](https://www.sne.fr/actu/synthese-des-chiffres-de-ledition-jeunesse-2024-2025/))

20. Book Printing & Packaging Services Market, by Country

[illegible] Subsequent invitations reflect contractor evaluation. A book-service supplier should identify the relevant purchasing route and solicitation conditions before investing in account qualification; registration alone does not establish an award or access to every publication requirement.

Brazil's PNLD presents a different entry role. Its supplier-registration service is directed to companies holding rights to the books and educational materials offered. [illegible]

[illegible] A publisher commissioning packed books should identify the reporting entity and require the packaging information needed for its obligations. A compliance scheme can act on the organization's behalf, but the printing contract should not assume that outsourcing physical work settles regulatory responsibility.

The United Arab Emirates distinguishes arrival of books from permission to circulate them commercially. [illegible] A provider can contribute those functions only where its authorization and agreement cover them; a printing-only relationship leaves the remaining access responsibilities to other parties.

South Africa's education purchasing requires identification of the responsible authority, not simply the eventual school recipient. [illegible] National monitoring supports coordination but does not make every textbook requirement a national department contract; the documented allocation should not be generalized to all educational publishing.

[illegible] An overseas publisher should verify the contractor's authorization, rights documentation, and export responsibility. A publisher seeking Chinese reader sales needs a separately compliant domestic or import arrangement, not an assumption that an export-printing contract permits local circulation.

India shows materially different public and institutional purchasing bundles. [illegible] Buyers choosing separate contractors retain supplier choice but must allocate the book-to-packaging handoff themselves.

Singapore distinguishes an advertised local production relationship from imported-book administration. Ingram identifies Markono as a Singapore printing and supply-chain partner, while Singapore Customs requires pre-arrival permits and the appropriate classifications for imported publications, including distinctions between exempted and non-exempted categories. [illegible]

Figure 34. Global Book Printing & Packaging Services Market Size, by Country, 2025 vs 2032 (%)

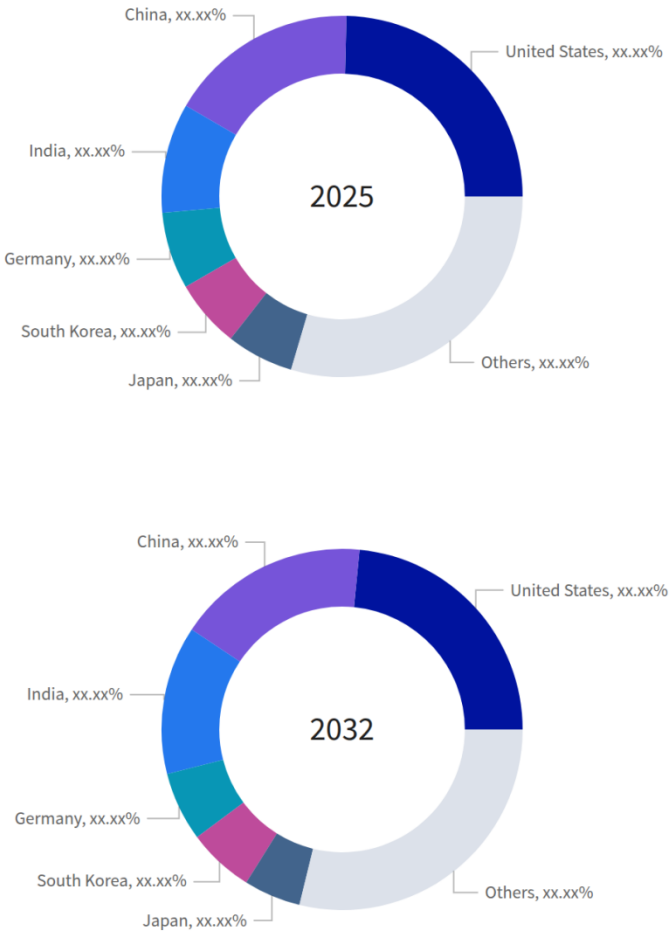

Figure 35. Global Book Printing & Packaging Services Market Size, by Country, 2025 vs 2026 vs 2032

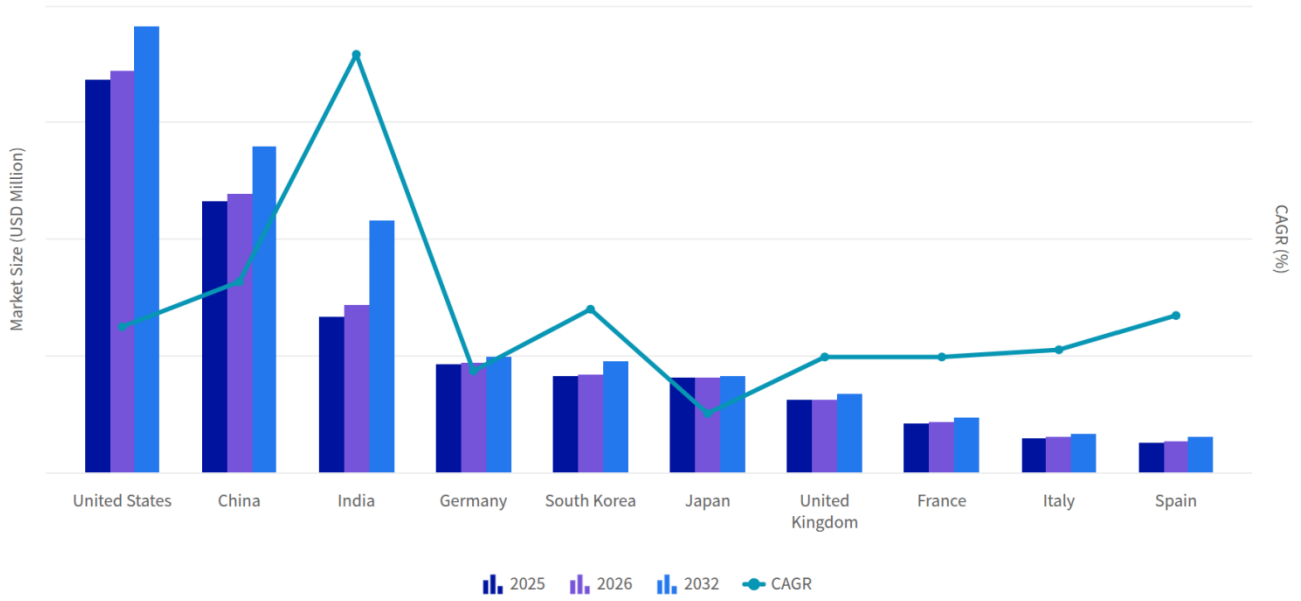

Table 490. Global Book Printing & Packaging Services Market, by Country growth contribution, 2025-2032

Category	2025 value (USD Million)	2032 value (USD Million)	Added value (USD Million)	2025 share (%)	2032 share (%)	Change (pp)	Growth share (%)	CAGR (%)

Sources & Evidence

1. Printing and Publishing Contractors - How to Register
   · Publish registration is required for Small Purchases quotations; other bids and proposals can precede completion, with invitations informed by evaluation. ([gpo.gov](https://www.gpo.gov/how-to-work-with-us/vendors/how-to-register/printing-and-publishing-contractors))
2. Info-communications Media Development Authority (IMDA) - Singapore Customs
   · Singapore Customs requires appropriate publication and consignment classifications, distinguishing exempted and non-exempted categories. ([customs.gov.sg](https://www.customs.gov.sg/doing-business/quick-links-for-traders/tradenet/competent-authorities-requirements-for-controlled-items/info-communications-media-development-authority/))
3. Service of Media Materials Entry Through the Country's Ports
   · Commercial-distribution applicants require relevant licensing; entry approval does not itself authorize circulation. Personal and government routes differ. ([nma.gov.ae](https://www.nma.gov.ae/en/services/service-of-media-materials-entry-through-the-countrys-ports))
4. 出版管理条例 - Regulations on the Administration of Publishing, Revised December 6, 2024
   · The December xx.xx 2024 revision requires authorization and provincial approval for overseas commissions, with export rather than domestic circulation. ([xzfg.moj.gov.cn](https://xzfg.moj.gov.cn/mobile/law/detail?LawID=xx.xx))

5. Realizar Inscrição de Fornecedores de Livros ao PNLD

   · PNLD's service identifies copyright-holding companies as eligible users and requires company and publication registration under the applicable call. ([gov.br](https://www.gov.br/pt-br/servicos/realizar-inscricao-de-fornecedores-de-livros-ao-pnld?id=xx.xx&origem=servico))

6. Extended Producer Responsibility for Packaging: Recycling Obligations and Waste Disposal Fees

   · Affected packaging suppliers and importers have reporting duties; large organizations have additional recycling obligations, and compliance schemes may act on their behalf. ([gov.uk](https://www.gov.uk/guidance/extended-producer-responsibility-for-packaging-recycling-obligations-and-waste-disposal-fees))

7. LTSM Readiness for the 2026 School Calendar - Department of Basic Education

   · South Africa's planning for the 2026 school calendar assigns workbook responsibilities nationally and textbook procurement and distribution provincially, with national monitoring and support. ([education.gov.za](https://www.education.gov.za/ArchivedDocuments/ArchivedArticles/LTSMReadinessfor2026.aspx))

8. Tender for Empanelment of Printers for Printing, Storing and Distribution of Study Material and Member Publications of ICAI

   · ICAI's January xx.xx 2026 notice sought printer empanelment for printing, storing, and distributing study material and member publications. The notice does not establish an award. ([icai.org](https://icai.org/post/xx.xx))

9. Archives - National Book Trust, India Tenders

   · National Book Trust's archive records an April xx.xx 2026 corrugated-carton empanelment notice, supporting a separately commissioned packaging example rather than an award claim. ([nbtindia.gov.in](https://www.nbtindia.gov.in/ONhZm/nccl-images/tenders__30__archives-tenders.nbt))

10. Global Connect Singapore Market FAQ

    · Ingram identifies Markono Singapore as its local network and describes printing and supply-chain services. Only its own commercial relationship is used. ([marketing.ingramcontent.com](https://marketing.ingramcontent.com/mrkng/documents/publishers/global-connect-faq/market-faq-singaporean.pdf))

11. European Book Publishing Statistics 2024

    · Evidence informing the 2024 market-value input; displayed series and growth include calculations: European publishers reported approximately EUR xx.xx of net book-sales revenue in 2024. The disclosed ebook and audiobook proportions inform the modeled xx.xx% physical-book revenue proportion; publisher revenue is an input, not printing-service revenue.

    · Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 publisher-revenue and format observations provide the European demand input carried into the 2025 estimate.

12. The Global Publishing Industry in 2022

    · Evidence informing the 2024 market-value input; displayed series and growth include calculations: Table xx.xx supplies country-level publishing revenues and identifies differences between retail-value, publisher-revenue, print-only and prior-year observations. Selected non-European country observations are adjusted for physical formats and period before estimating production spending.

    · Evidence informing the 2025 market-value input; displayed series and growth include calculations: The selected country observations contribute to the demand pool underlying the 2025 working estimate. Nielsen retail datasets elsewhere in the publication are not used.

13. 2024 年新闻出版统计公报

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: For 2024, the official table reports xx.xx book copies or sheets and CNY xx.xx of book-publishing revenue. These constrain the demand bridge and historical contraction, rather than directly measuring printing-service sales.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 book-publishing observation supplies the Chinese demand primitive for the 2025 model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: 2024 book-publishing revenue of CNY xx.xx supplies the physical-demand proxy; reported output contraction qualifies growth assumptions. ([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020251218382424228218.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: 2024 book-publishing revenue of CNY xx.xx supplies the physical-demand proxy; reported output contraction qualifies growth assumptions. ([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020251218382424228218.pdf))

14. Foreign Exchange Rates - G.5A Annual, January 5, 2026

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: The official 2024 annual-average conversion inputs are USD xx.xx per EUR, CNY xx.xx per USD and CAD xx.xx per USD.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The exchange-rate table establishes the conversion basis of the preceding-year demand inputs used in the 2025 estimate; subsequent effective-USD price assumptions are modeled separately.

15. Book publishing industry, 2024 - Statistics Canada

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Canadian publishers reported CAD xx.xx of print sales outside the online category and CAD xx.xx of online print sales in 2024. Their sum, rather than total operating revenue, supplies the physical-book demand input.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: Reported cost of goods sold of CAD xx.xx, up CAD xx.xx from 2022, supplies a cost-pressure cross-check, not a directly attributable printing-services total.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: CAD xx.xx plus CAD xx.xx of print sales supplies a physical-book commissioning proxy; digital growth constrains the forecast mix. ([www150.statcan.gc.ca](https://www150.statcan.gc.ca/n1/daily-quotidien/xx.xx/dq260205b-eng.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CAD xx.xx plus CAD xx.xx of print sales supplies a physical-book commissioning proxy; digital growth constrains the forecast mix. ([www150.statcan.gc.ca](https://www150.statcan.gc.ca/n1/daily-quotidien/xx.xx/dq260205b-eng.pdf))

16. U.S. Census Bureau - Books Printing: Shipments, annual table

- Evidence informing the 2017 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2017; this is a national production anchor for the historical model.
- Evidence informing the 2018 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2018.
- Evidence informing the 2019 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2019.
- Evidence informing the 2020 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2020.
- Evidence informing the 2021 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2021.
- Evidence informing the 2022 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2022.
- Evidence informing the 2024 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2024. This national industrial measure is narrower than the composite global service boundary.

17. U.S. Census Bureau - Book Publishers, All Establishments: Revenue, annual table
    - Evidence informing the 2024 market-value input; displayed series and growth include calculations: The Census annual series reports USD xx.xx of U.S. book-publisher revenue for 2024. A modeled xx.xx% physical-book proportion excludes digital and other adjacent receipts.
    - Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 Census observation replaces an older survey-based U.S. revenue bridge in the demand pool underlying 2025.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official Census revenue-series page defines the publisher-receipt measure underlying the retained U.S. input; the exact 2024 cell was not independently re-extracted. ([fred.stlouisfed.org](https://fred.stlouisfed.org/data/AIES51113RCT00US))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official Census revenue-series page defines the publisher-receipt measure underlying the retained U.S. input; the exact 2024 cell was not independently re-extracted. ([fred.stlouisfed.org](https://fred.stlouisfed.org/data/AIES51113RCT00US))
18. Scholastic Corporation - Form 10-K for the year ended May 31, 2025
    - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Scholastic's fiscal 2024 product, service, production and inventory-reserve costs were xx.xx% of revenue; postage, freight, shipping, fulfillment and other costs were xx.xx%. These broad categories constrain, but do not directly establish, eligible outsourced-service spending.
    - Evidence informing the 2025 market-value input; displayed series and growth include calculations: The corresponding fiscal 2025 proportions were xx.xx% and xx.xx%. Royalties and prepublication amortization are separately disclosed, allowing their exclusion from the service-market bridge.
19. CEWE achieves all targets in 2025 and aims to further increase revenue and earnings in 2026
    - Evidence informing the 2025 market-value input; displayed series and growth include calculations: CEWE reported xx.xx CEWE PHOTOBOOK copies in 2025 versus xx.xx in 2024, supporting a positive specialty-book volume assumption without establishing global adoption.
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Observed 2025 photobook growth informs the specialty-demand assumption for 2026; the market value remains modeled.
    - Evidence informing the 2032 market-value input; displayed series and growth include calculations: The observed specialty-book activity is a starting condition for the forecast, not independent proof of continued growth through 2032.
    - Evidence informing the 2040 market-value input; displayed series and growth include calculations: The forecast explicitly slows specialty-demand growth after 2032; this source supplies the initial commercial observation, not the long-term growth rate.
20. Paperback Printing Cost - Kindle Direct Publishing
    - Evidence informing the 2025 market-value input; displayed series and growth include calculations: The inspected U.S. paperback schedule charges USD xx.xx plus USD xx.xx per page for the specified regular-trim black-ink category. It provides a contemporary commercial price comparison for the assumed USD xx.xx self-publishing production receipt, not an observed historical price or volume.
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The schedule distinguishes printing charges from royalties and retail list prices, supporting the production-receipt boundary used in the estimate.
21. European Book Publishing Statistics 2017
    - Evidence informing the 2017 market-value input; displayed series and growth include calculations: The association's primary survey reports approximately EUR xx.xx of European net publisher revenue for 2017, constraining the pre-pandemic demand level.
22. European Book Publishing Statistics 2019
    - Evidence informing the 2018 market-value input; displayed series and growth include calculations: The association reports approximately EUR xx.xx of publisher revenue for 2018.
    - Evidence informing the 2019 market-value input; displayed series and growth include calculations: The association reports approximately EUR xx.xx for 2019 and identifies a questionnaire change that limits exact comparability with earlier observations.

23. 2021 年新闻出版产业分析报告

· Evidence informing the 2020 market-value input; displayed series and growth include calculations: The official report's 2021 comparison identifies a substantial rebound from 2020, constraining the pandemic-recovery bridge.

· Evidence informing the 2021 market-value input; displayed series and growth include calculations: China reported xx.xx book copies or sheets in 2021, up xx.xx%; the report also distinguishes textbook output and reprints.

24. European Book Publishing Statistics 2023

· Evidence informing the 2022 market-value input; displayed series and growth include calculations: European net publisher revenue was approximately EUR xx.xx in 2022; the association describes paper-cost pressure and price-led growth.

25. Ministry of Education - Press conference release, December 17, 2024

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The announced increase in annual NCERT textbook printing from xx.xx to xx.xx supports an educational-demand mechanism, not realized supplier receipts or the modeled forecast share. ([education.gov.in](https://www.education.gov.in/sites/upload_files/mhrd/files/PIB%20releae%20of%20the%20Press%20Conference%20held%20today.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced increase in annual NCERT textbook printing from xx.xx to xx.xx supports an educational-demand mechanism, not realized supplier receipts or the modeled forecast share. ([education.gov.in](https://www.education.gov.in/sites/upload_files/mhrd/files/PIB%20releae%20of%20the%20Press%20Conference%20held%20today.pdf))

26. Global Connect - Ingram Content Group

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Agreement-dependent network access does not quantify Brazilian commissions or guarantee institutional awards. ([resources.ingramcontent.com](https://resources.ingramcontent.com/publishers/global-connect))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Agreement-dependent network access does not quantify Brazilian commissions or guarantee institutional awards. ([resources.ingramcontent.com](https://resources.ingramcontent.com/publishers/global-connect))

27. Paperback and Hardcover Distribution Rights - Kindle Direct Publishing

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The marketplace-specific physical-book distribution restriction is not evidence of zero Mexican printing and packaging demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834280))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The marketplace-specific physical-book distribution restriction is not evidence of zero Mexican printing and packaging demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834280))

Sources & Evidence

1. European Book Publishing Statistics 2024

   · Evidence informing the 2024 market-value input; displayed series and growth include calculations: European publishers reported approximately EUR xx.xx of net book-sales revenue in 2024. The disclosed ebook and audiobook proportions inform the modeled xx.xx% physical-book revenue proportion; publisher revenue is an input, not printing-service revenue.

   · Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 publisher-revenue and format observations provide the European demand input carried into the 2025 estimate.

2. The Global Publishing Industry in 2022

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Table xx.xx supplies country-level publishing revenues and identifies differences between retail-value, publisher-revenue, print-only and prior-year observations. Selected non-European country observations are adjusted for physical formats and period before estimating production spending.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The selected country observations contribute to the demand pool underlying the 2025 working estimate. Nielsen retail datasets elsewhere in the publication are not used.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Primary survey sector differences constrain the education-adjusted hardcover proxy.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Primary survey sector differences constrain the education-adjusted hardcover proxy.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Educational/trade differences qualify extrapolation of U.S. consumer-format revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Educational/trade differences qualify extrapolation of U.S. consumer-format revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx of surveyed children's publishing revenue anchors the modeled specialty demand pool, not supplier receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx of surveyed children's publishing revenue anchors the modeled specialty demand pool, not supplier receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sector data constrain the commissioning-pool proxy; mechanical incidence remains assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sector data constrain the commissioning-pool proxy; mechanical incidence remains assumed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Educational demand supplies a common economic anchor; loose-leaf incidence remains modeled.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Educational demand supplies a common economic anchor; loose-leaf incidence remains modeled.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sector observations constrain the educational short-book commissioning pool.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sector observations constrain the educational short-book commissioning pool.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The commissioning-pool anchor supports an explicit sparse-format incidence model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The commissioning-pool anchor supports an explicit sparse-format incidence model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors the accordion working estimate, not observed accordion orders.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors the accordion working estimate, not observed accordion orders.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed textile-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed textile-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed bath-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed bath-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed foam-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed foam-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original publishing survey documents country-level trade/education revenue differences used to constrain the modeled physical-publishing mix; it does not directly measure service shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original publishing survey documents country-level trade/education revenue differences used to constrain the modeled physical-publishing mix; it does not directly measure service shares.

3. 2024 年新闻出版统计公报

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: For 2024, the official table reports xx.xx book copies or sheets and CNY xx.xx of book-publishing revenue. These constrain the demand bridge and historical contraction, rather than directly measuring printing-service sales.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 book-publishing observation supplies the Chinese demand primitive for the 2025 model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official 2024 output of xx.xx copies/sheets constrains total modeled publisher activity; it does not disclose single-copy production.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official 2024 output of xx.xx copies/sheets constrains total modeled publisher activity; it does not disclose single-copy production.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Aggregate copies and annual title output constrain the shared activity model, not an observed short-run share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Aggregate copies and annual title output constrain the shared activity model, not an observed short-run share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Aggregate production provides a scale check for the medium-run assumption; annual copies per title are not individual batches.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Aggregate production provides a scale check for the medium-run assumption; annual copies per title are not individual batches.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx annual copies per title constrain the long-run scenario without proving its batch mix or forecast.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx annual copies per title constrain the long-run scenario without proving its batch mix or forecast.

4. Foreign Exchange Rates - G.5A Annual, January 5, 2026

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: The official 2024 annual-average conversion inputs are USD xx.xx per EUR, CNY xx.xx per USD and CAD xx.xx per USD.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The exchange-rate table establishes the conversion basis of the preceding-year demand inputs used in the 2025 estimate; subsequent effective-USD price assumptions are modeled separately.

5. Book publishing industry, 2024 - Statistics Canada
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Canadian publishers reported CAD xx.xx of print sales outside the online category and CAD xx.xx of online print sales in 2024. Their sum, rather than total operating revenue, supplies the physical-book demand input.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: Reported cost of goods sold of CAD xx.xx, up CAD xx.xx from 2022, supplies a cost-pressure cross-check, not a directly attributable printing-services total.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Canadian online versus other print-sales values constrain parcel exposure, with explicit value-to-unit and geographic limitations.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Canadian online versus other print-sales values constrain parcel exposure, with explicit value-to-unit and geographic limitations.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed envelope purchases.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed envelope purchases.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed bag purchases.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed bag purchases.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Modest observed online-print growth qualifies aggressive parcel-related wrapping assumptions.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Modest observed online-print growth qualifies aggressive parcel-related wrapping assumptions.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring separate protection.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring separate protection.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring closures.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring closures.
6. U.S. Census Bureau - Books Printing: Shipments, annual table
   - Evidence informing the 2017 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2017; this is a national production anchor for the historical model.
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2018.
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2019.
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2020.
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2021.
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2022.
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2024. This national industrial measure is narrower than the composite global service boundary.

7. U.S. Census Bureau - Book Publishers, All Establishments: Revenue, annual table
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: The Census annual series reports USD xx.xx of U.S. book-publisher revenue for 2024. A modeled xx.xx% physical-book proportion excludes digital and other adjacent receipts.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 Census observation replaces an older survey-based U.S. revenue bridge in the demand pool underlying 2025.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official Census revenue-series page defines the publisher-receipt measure underlying the retained U.S. input; the exact 2024 cell was not independently re-extracted. ([fred.stlouisfed.org](https://fred.stlouisfed.org/data/AIES51113RCT00US))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official Census revenue-series page defines the publisher-receipt measure underlying the retained U.S. input; the exact 2024 cell was not independently re-extracted. ([fred.stlouisfed.org](https://fred.stlouisfed.org/data/AIES51113RCT00US))

8. Scholastic Corporation - Form 10-K for the year ended May 31, 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Scholastic's fiscal 2024 product, service, production and inventory-reserve costs were xx.xx% of revenue; postage, freight, shipping, fulfillment and other costs were xx.xx%. These broad categories constrain, but do not directly establish, eligible outsourced-service spending.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The corresponding fiscal 2025 proportions were xx.xx% and xx.xx%. Royalties and prepublication amortization are separately disclosed, allowing their exclusion from the service-market bridge.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 product, service, production and inventory-reserve costs were xx.xx% of revenue. The broader cost category constrains the manufacturing spending boundary but does not directly disclose printing-service revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 product, service, production and inventory-reserve costs were xx.xx% of revenue. The broader cost category constrains the manufacturing spending boundary but does not directly disclose printing-service revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Prepublication amortization is disclosed separately from production costs, supporting exclusion of adjacent amortization rather than equating it with externally purchased prepress.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Prepublication amortization is disclosed separately from production costs, supporting exclusion of adjacent amortization rather than equating it with externally purchased prepress.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Postage, freight, shipping, fulfillment and other costs were xx.xx% of revenue in fiscal 2025 versus xx.xx% in fiscal 2024. This is a broad buyer-cost check, not an eligible outsourced-fulfillment share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Postage, freight, shipping, fulfillment and other costs were xx.xx% of revenue in fiscal 2025 versus xx.xx% in fiscal 2024. This is a broad buyer-cost check, not an eligible outsourced-fulfillment share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Outsourced manufacturing coexists with company-operated distribution. Fiscal-2025 production-related costs were xx.xx% of revenue, constraining the inherited spending bridge rather than directly measuring the assumed route fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Outsourced manufacturing coexists with company-operated distribution. Fiscal-2025 production-related costs were xx.xx% of revenue, constraining the inherited spending bridge rather than directly measuring the assumed route fraction.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Book-club revenue was xx.xx% online-ordered and xx.xx% parent-ordered, while products typically went to classrooms. This challenges the use of online sales as a proxy for the external contractor's delivery model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Book-club revenue was xx.xx% online-ordered and xx.xx% parent-ordered, while products typically went to classrooms. This challenges the use of online sales as a proxy for the external contractor's delivery model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct printer-to-customer fulfillment is a disclosed option. Broader logistics/other costs were xx.xx% of revenue versus xx.xx% previously, providing a cost-boundary check but no global order-level share or service-price growth observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct printer-to-customer fulfillment is a disclosed option. Broader logistics/other costs were xx.xx% of revenue versus xx.xx% previously, providing a cost-boundary check but no global order-level share or service-price growth observation.

9. CEWE achieves all targets in 2025 and aims to further increase revenue and earnings in 2026

- Evidence informing the 2025 market-value input; displayed series and growth include calculations: CEWE reported xx.xx CEWE PHOTOBOOK copies in 2025 versus xx.xx in 2024, supporting a positive specialty-book volume assumption without establishing global adoption.
- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Observed 2025 photobook growth informs the specialty-demand assumption for 2026; the market value remains modeled.
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The observed specialty-book activity is a starting condition for the forecast, not independent proof of continued growth through 2032.
- Evidence informing the 2040 market-value input; displayed series and growth include calculations: The forecast explicitly slows specialty-demand growth after 2032; this source supplies the initial commercial observation, not the long-term growth rate.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: CEWE reports xx.xx photobooks in 2025 compared with xx.xx in 2024. This independently establishes specialty-book activity underlying the nonpublisher model, without establishing a global expansion factor.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CEWE reports xx.xx photobooks in 2025 compared with xx.xx in 2024. This independently establishes specialty-book activity underlying the nonpublisher model, without establishing a global expansion factor.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports retaining premium specialty commissions in the manufacturing mix; the binding allocation and unchanged future cohort profile remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports retaining premium specialty commissions in the manufacturing mix; the binding allocation and unchanged future cohort profile remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported photobook volumes constrain personal-book activity and the nonpublisher starting condition, not hardcover prevalence or future share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported photobook volumes constrain personal-book activity and the nonpublisher starting condition, not hardcover prevalence or future share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Photobook activity supports the separate personal-book commissioning block; its softcover fraction remains assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Photobook activity supports the separate personal-book commissioning block; its softcover fraction remains assumed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported photobook copies rose from xx.xx to xx.xx; the narrower 2026 target qualifies strong specialty-growth assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported photobook copies rose from xx.xx to xx.xx; the narrower 2026 target qualifies strong specialty-growth assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specialty-book activity constrains the presentation-demand scenario but does not measure gift-box attachment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specialty-book activity constrains the presentation-demand scenario but does not measure gift-box attachment.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CEWE PHOTOBOOK units in 2025 versus xx.xx in 2024, constraining the specialty-book demand budget without establishing a global process split.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CEWE PHOTOBOOK units in 2025 versus xx.xx in 2024, constraining the specialty-book demand budget without establishing a global process split.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports the common photographic-demand input; electrophotographic attribution remains an explicit assumption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports the common photographic-demand input; electrophotographic attribution remains an explicit assumption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The photobook

10. Paperback Printing Cost - Kindle Direct Publishing

- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The inspected U.S. paperback schedule charges USD xx.xx plus USD xx.xx per page for the specified regular-trim black-ink category. It provides a contemporary commercial price comparison for the assumed USD xx.xx self-publishing production receipt, not an observed historical price or volume.
- Evidence informing the 2026 market-value input; displayed series and growth include calculations: The schedule distinguishes printing charges from royalties and retail list prices, supporting the production-receipt boundary used in the estimate.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule uses USD xx.xx plus USD xx.xx per page for the relevant page band, yielding the USD xx.xx representative manufacturing comparator. It anchors relative weights, not an observed global 2025 price or future share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule uses USD xx.xx plus USD xx.xx per page for the relevant page band, yielding the USD xx.xx representative manufacturing comparator. It anchors relative weights, not an observed global 2025 price or future share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The paperback manufacturing comparator supplies the baseline from which the modeled binding component and hardcover increment are separated.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The paperback manufacturing comparator supplies the baseline from which the modeled binding component and hardcover increment are separated.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The separately identified paperback printing charge constrains the self-publishing production-receipt model and its distinction from retail proceeds.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The separately identified paperback printing charge constrains the self-publishing production-receipt model and its distinction from retail proceeds.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page. It is a contemporary production-charge comparison for the modeled USD xx.xx receipt, not an observed historical Global average.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page. It is a contemporary production-charge comparison for the modeled USD xx.xx receipt, not an observed historical Global average.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The relevant current U.S. paperback printing schedule is USD xx.xx plus USD xx.xx per page, giving USD xx.xx at xx.xx pages. This is a commercial price comparison for creator-production receipts, not proof of 2025 realization, volume or fulfillment mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The relevant current U.S. paperback printing schedule is USD xx.xx plus USD xx.xx per page, giving USD xx.xx at xx.xx pages. This is a commercial price comparison for creator-production receipts, not proof of 2025 realization, volume or fulfillment mix.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule of USD xx.xx plus USD xx.xx per page gives USD xx.xx at xx.xx pages, a magnitude check for modeled single-copy receipts. It establishes neither global volume nor historical or forecast share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule of USD xx.xx plus USD xx.xx per page gives USD xx.xx at xx.xx pages, a magnitude check for modeled single-copy receipts. It establishes neither global volume nor historical or forecast share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page, yielding USD xx.xx for xx.xx pages. This is a contemporary price comparator, not a historical global average. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834340))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page, yielding USD xx.xx for xx.xx pages. This is a contemporary price comparator, not a historical global average. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834340))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The comparable standard and premium color charges calculate to USD xx.xx and USD xx.xx. They constrain relative

11. European Book Publishing Statistics 2017

- Evidence informing the 2017 market-value input; displayed series and growth include calculations: The association's primary survey reports approximately EUR xx.xx of European net publisher revenue for 2017, constraining the pre-pandemic demand level.

12. European Book Publishing Statistics 2019

- Evidence informing the 2018 market-value input; displayed series and growth include calculations: The association reports approximately EUR xx.xx of publisher revenue for 2018.
- Evidence informing the 2019 market-value input; displayed series and growth include calculations: The association reports approximately EUR xx.xx for 2019 and identifies a questionnaire change that limits exact comparability with earlier observations.

13. 2021 年新闻出版产业分析报告

- Evidence informing the 2020 market-value input; displayed series and growth include calculations: The official report's 2021 comparison identifies a substantial rebound from 2020, constraining the pandemic-recovery bridge.
- Evidence informing the 2021 market-value input; displayed series and growth include calculations: China reported xx.xx book copies or sheets in 2021, up xx.xx%; the report also distinguishes textbook output and reprints.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: China's official 2021 textbook share was xx.xx% of book copies. It supplies an older educational-activity proxy, not a monochrome share.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: China's official 2021 textbook share was xx.xx% of book copies. It supplies an older educational-activity proxy, not a monochrome share.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The textbook copy proportion constrains educational exposure; comparable monetary intensity and spot-color incidence are modeled separately.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The textbook copy proportion constrains educational exposure; comparable monetary intensity and spot-color incidence are modeled separately.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational-activity observation contributes to the shared demand proxy carried into the full-color base and forecast models; no color split is reported.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational-activity observation contributes to the shared demand proxy carried into the full-color base and forecast models; no color split is reported.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))

14. European Book Publishing Statistics 2023

- Evidence informing the 2022 market-value input; displayed series and growth include calculations: European net publisher revenue was approximately EUR xx.xx in 2022; the association describes paper-cost pressure and price-led growth.

15. Hardcover Printing Cost - Kindle Direct Publishing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim hardcover schedule uses USD xx.xx plus USD xx.xx per page in the relevant band. Comparison with paperback charges constrains the premium-equivalent manufacturing model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim hardcover schedule uses USD xx.xx plus USD xx.xx per page in the relevant band. Comparison with paperback charges constrains the premium-equivalent manufacturing model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD xx.xx fixed-charge difference supplies the POD premium input; the xx.xx% commercial-run realization and premium incidence are explicitly modeled rather than disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD xx.xx fixed-charge difference supplies the POD premium input; the xx.xx% commercial-run realization and premium incidence are explicitly modeled rather than disclosed.
16. User Fees - University of Wisconsin-Milwaukee Print & Copy Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The university service schedule separately prices preflight/prepress preparation at USD xx.xx per hour, establishing a paid preparation activity rather than an automatic component of every printing-platform purchase.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The university service schedule separately prices preflight/prepress preparation at USD xx.xx per hour, establishing a paid preparation activity rather than an automatic component of every printing-platform purchase.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Perfect binding is listed at USD xx.xx-xx.xx per book. The lower endpoint is the model's basic-binding comparator, not a measured worldwide realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Perfect binding is listed at USD xx.xx-xx.xx per book. The lower endpoint is the model's basic-binding comparator, not a measured worldwide realization.

17. How Much Does It Cost to Print a Book? - QinPrinting
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier's delivered xx.xx-page, xx.xx-copy color-book examples list USD xx.xx for softcover and USD xx.xx for hardcover. They provide a commercial-run countercheck, with delivery and product differences preventing direct substitution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier's delivered xx.xx-page, xx.xx-copy color-book examples list USD xx.xx for softcover and USD xx.xx for hardcover. They provide a commercial-run countercheck, with delivery and product differences preventing direct substitution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The smaller hardcover premium in this offset example qualifies extrapolation of the full POD hardcover increment into binding revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The smaller hardcover premium in this offset example qualifies extrapolation of the full POD hardcover increment into binding revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Comparable hardcover and softcover quotations constrain the assumed relative manufacturing realization after scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Comparable hardcover and softcover quotations constrain the assumed relative manufacturing realization after scope adjustments.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Softcover prices provide a commercial comparison, not a historical global average.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Softcover prices provide a commercial comparison, not a historical global average.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Board-book quotations constrain the assumed production receipt; delivery and duties require adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Board-book quotations constrain the assumed production receipt; delivery and duties require adjustment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Mechanical-binding quotations constrain the unit-receipt assumption, not incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Mechanical-binding quotations constrain the unit-receipt assumption, not incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Short-booklet quotations constrain the lower realization used for eligible saddle-stitched books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Short-booklet quotations constrain the lower realization used for eligible saddle-stitched books.
18. Book Wrap Mailers / Book Boxes - Packaging ONE
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer lists MP2 book mailers at GBP xx.xx each for xx.xx packs of xx.xx excluding VAT. The converted unit price supplies the packaging-creation value proxy, not a global average or a historical quote.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer lists MP2 book mailers at GBP xx.xx each for xx.xx packs of xx.xx excluding VAT. The converted unit price supplies the packaging-creation value proxy, not a global average or a historical quote.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The enclosure price forms the other side of the creation-versus-packing ratio. One comparable enclosure per packing unit is an explicit activity-matching assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The enclosure price forms the other side of the creation-versus-packing ratio. One comparable enclosure per packing unit is an explicit activity-matching assumption.

19. Foreign Exchange Rates - G.5A Annual, January 5, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 annual average is USD xx.xx per GBP. It converts the GBP packaging comparator into the common monetary basis used in the starting allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 annual average is USD xx.xx per GBP. It converts the GBP packaging comparator into the common monetary basis used in the starting allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same conversion supports the common-currency packaging/packing denominator inherited by the forecast; no 2032 exchange rate is asserted.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same conversion supports the common-currency packaging/packing denominator inherited by the forecast; no 2032 exchange rate is asserted.
20. Optional Book Publishing Services - InstantPublisher
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider lists layout/typesetting at USD xx.xx per page with a USD xx.xx minimum. This supports the preparation-spending feasibility check, with purchase incidence and copies per job remaining assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider lists layout/typesetting at USD xx.xx per page with a USD xx.xx minimum. This supports the preparation-spending feasibility check, with purchase incidence and copies per job remaining assumptions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Individual shrink-wrapping is listed at USD xx.xx each plus USD xx.xx setup. Amortizing setup over an assumed xx.xx copies gives the USD xx.xx packing comparator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Individual shrink-wrapping is listed at USD xx.xx each plus USD xx.xx setup. Amortizing setup over an assumed xx.xx copies gives the USD xx.xx packing comparator.
21. How Does Merchant Pricing Work for Ecommerce Stores? - Lulu Direct
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2026 merchant-pricing explanation identifies a USD xx.xx fulfillment fee and separates merchant retail receipts from payments for supplier production, shipping and taxes. The fee is a contemporary feasibility comparator, not verified 2025 penetration or a future charge.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2026 merchant-pricing explanation identifies a USD xx.xx fulfillment fee and separates merchant retail receipts from payments for supplier production, shipping and taxes. The fee is a contemporary feasibility comparator, not verified 2025 penetration or a future charge.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Merchant retail receipts are separate from payments for printing and fulfillment. The current page lists a USD xx.xx fulfillment fee, with shipping and taxes separately calculated. This supports the service-value boundary, not a historical average fee or global order volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Merchant retail receipts are separate from payments for printing and fulfillment. The current page lists a USD xx.xx fulfillment fee, with shipping and taxes separately calculated. This supports the service-value boundary, not a historical average fee or global order volume.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lulu identifies separate retail and production/fulfillment transactions and a USD xx.xx fulfillment fee. This supports excluding merchant retail margins from production-service value and avoiding automatic procurement-channel classification from the storefront.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lulu identifies separate retail and production/fulfillment transactions and a USD xx.xx fulfillment fee. This supports excluding merchant retail margins from production-service value and avoiding automatic procurement-channel classification from the storefront.

22. AAP December 2025 StatShot Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The primary monthly reporting panel's full-year 2025 trade figures show paperback revenue down xx.xx%. This qualifies broad physical-book growth assumptions and supplies directional mix evidence only.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The primary monthly reporting panel's full-year 2025 trade figures show paperback revenue down xx.xx%. This qualifies broad physical-book growth assumptions and supplies directional mix evidence only.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same approximately xx.xx-publisher panel shows hardcover revenue up xx.xx%. It supports a modest premium-mix hypothesis but neither measures global binding spending nor proves the forecast.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same approximately xx.xx-publisher panel shows hardcover revenue up xx.xx%. It supports a modest premium-mix hypothesis but neither measures global binding spending nor proves the forecast.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct-participant 2025 hardback revenue of approximately USD xx.xx anchors the adjusted conventional-format model; it is not printing revenue or a global share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct-participant 2025 hardback revenue of approximately USD xx.xx anchors the adjusted conventional-format model; it is not printing revenue or a global share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported paperback revenue of approximately USD xx.xx plus USD xx.xx mass-market revenue supplies the comparison input. Reported annual movements qualify the forecast starting mix, not its future persistence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported paperback revenue of approximately USD xx.xx plus USD xx.xx mass-market revenue supplies the comparison input. Reported annual movements qualify the forecast starting mix, not its future persistence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct publisher-sample religious and trade physical-format receipts provide a category-intensity proxy, subject to explicit geographic and coverage adjustments.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct publisher-sample religious and trade physical-format receipts provide a category-intensity proxy, subject to explicit geographic and coverage adjustments.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported professional-book receipts and their 2025 decline challenge assumptions of automatic growth from recurring reference relationships.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported professional-book receipts and their 2025 decline challenge assumptions of automatic growth from recurring reference relationships.

23. Print and Associated Services Framework - Lot 1 Buyer Guide: Framework Objectives
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The public purchasing framework separately specifies production-management advice. It establishes a purchased responsibility but not a global fee rate or permission to count subcontract pass-through as retained revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The public purchasing framework separately specifies production-management advice. It establishes a purchased responsibility but not a global fee rate or permission to count subcontract pass-through as retained revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The framework also specifies finished-goods stock holding and call-off, with required holding costs included in the print-job price. This supports allocating embedded production-linked fulfillment rather than restricting the category to standalone invoices.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The framework also specifies finished-goods stock holding and call-off, with required holding costs included in the print-job price. This supports allocating embedded production-linked fulfillment rather than restricting the category to standalone invoices.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Finished goods may be held for call-off, with storage included in the print job where required. This supports consolidated releases as a production-linked arrangement without assuming every release is an individual order.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Finished goods may be held for call-off, with storage included in the print job where required. This supports consolidated releases as a production-linked arrangement without assuming every release is an individual order.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contractors maintain designated distribution lists, deliver to nominated addresses and receive job-specific copy allocations, supporting the modeled list-delivery category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contractors maintain designated distribution lists, deliver to nominated addresses and receive job-specific copy allocations, supporting the modeled list-delivery category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The coexistence of stock holding, call-off and distribution-list obligations supports separating production trigger from fulfillment responsibility; call-off alone does not establish transaction-level fulfillment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The coexistence of stock holding, call-off and distribution-list obligations supports separating production trigger from fulfillment responsibility; call-off alone does not establish transaction-level fulfillment.

24. Frequently Asked Questions - IngramSpark
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: IngramSpark states that it does not provide editing, typesetting or design services. This counterexample prevents treating all platform manufacturing commissions as purchases of professional preparation services.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: IngramSpark states that it does not provide editing, typesetting or design services. This counterexample prevents treating all platform manufacturing commissions as purchases of professional preparation services.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider permits nonexclusive sourcing when the customer owns its ISBN and does not offer editing, typesetting or design. These terms constrain the author service boundary, not adoption or revenue growth.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider permits nonexclusive sourcing when the customer owns its ISBN and does not offer editing, typesetting or design. These terms constrain the author service boundary, not adoption or revenue growth.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: IngramSpark permits nonexclusive use of other printers, distributors and fulfillment providers when publishers own their ISBN. This establishes an alternative-sourcing option, not observed switching or a numerical channel allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: IngramSpark permits nonexclusive use of other printers, distributors and fulfillment providers when publishers own their ISBN. This establishes an alternative-sourcing option, not observed switching or a numerical channel allocation.
25. Packaging Printing & Production - Imago Group
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier identifies book slipcases, clamshell cases, tray-and-lid constructions and multicomponent publisher packaging. This supports the enclosure-production boundary and the limitation of a simple mailer-price proxy; it does not supply sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier identifies book slipcases, clamshell cases, tray-and-lid constructions and multicomponent publisher packaging. This supports the enclosure-production boundary and the limitation of a simple mailer-price proxy; it does not supply sales weights.
26. Services - Bridgeport National Bindery
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The short-run book-production portfolio separately lists shrink-wrapping and set packing. It establishes commercial packing activity distinct from enclosure manufacture and binding, without measuring its revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The short-run book-production portfolio separately lists shrink-wrapping and set packing. It establishes commercial packing activity distinct from enclosure manufacture and binding, without measuring its revenue.
27. Terms and Conditions - CPI Print Germany
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published terms distinguish ex-works production prices from packaging, freight and postage and reserve specified input-cost adjustment rights. They support comparable-scope valuation but do not establish realized inflation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published terms distinguish ex-works production prices from packaging, freight and postage and reserve specified input-cost adjustment rights. They support comparable-scope valuation but do not establish realized inflation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate treatment of forwarding and storage responsibilities supports the eligible production-linked service boundary; contractual rights do not prove the assumed future fee-growth rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate treatment of forwarding and storage responsibilities supports the eligible production-linked service boundary; contractual rights do not prove the assumed future fee-growth rate.

28. ONIX Codelists Issue 75 - List 150: Product Form
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BB identifies hardback/cased books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BB identifies hardback/cased books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BC identifies paperback/softback books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BC identifies paperback/softback books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BH distinguishes board-page books from conventional books with rigid covers.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BH distinguishes board-page books from conventional books with rigid covers.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BE groups spiral, comb and coil forms.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BE groups spiral, comb and coil forms.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BD identifies loose-leaf books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BD identifies loose-leaf books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BF includes stapled short books; nonbook uses are excluded from the model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BF includes stapled short books; nonbook uses are excluded from the model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BL recognizes slide-bound books without measuring current sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BL recognizes slide-bound books without measuring current sales.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BO recognizes continuous concertina-fold books; nonbook charts are excluded.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BO recognizes continuous concertina-fold books; nonbook charts are excluded.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BI identifies textile-page books, not cloth-covered paper books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BI identifies textile-page books, not cloth-covered paper books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BJ identifies waterproof bath-book forms.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BJ identifies waterproof bath-book forms.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BP identifies foam-page and foam-cover books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BP identifies foam-page and foam-cover books.

29. Thomson Reuters - Fourth-Quarter and Full-Year 2025 Results
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Global Print revenue and contraction constrain professional-print scale and substitution direction; content receipts are not treated as loose-leaf service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Global Print revenue and contraction constrain professional-print scale and substitution direction; content receipts are not treated as loose-leaf service revenue.
30. Lulu - Discontinuing Saddle Stitch in Global Distribution
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provider-specific wholesale distribution restrictions establish a channel constraint, not a global sales weight or measured forecast decline.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provider-specific wholesale distribution restrictions establish a channel constraint, not a global sales weight or measured forecast decline.
31. MAGACOPY Sofia - Copying and Printing Prices
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A current EUR xx.xx binding-only charge establishes a live commercial service and a price-scope comparison; full-book USD receipts and incidence remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A current EUR xx.xx binding-only charge establishes a live commercial service and a price-scope comparison; full-book USD receipts and incidence remain assumed.
32. Imago Group - Spotlight on Children's Books for National Young Readers Week
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's children's portfolio supports board-book commercial classification, not order volumes.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's children's portfolio supports board-book commercial classification, not order volumes.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cloth-book offerings support the textile-page category premise, not its modeled incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cloth-book offerings support the textile-page category premise, not its modeled incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bath-book offerings support a separate commercial category; sales and service receipts are undisclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bath-book offerings support a separate commercial category; sales and service receipts are undisclosed.
33. Pegasus - My First Book of Shapes: EVA Foam Book
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The dated 2025 product identifies foam pages and supports commercial-status and classification checks, not global volume or supplier realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated 2025 product identifies foam pages and supports commercial-status and classification checks, not global volume or supplier realization.

34. U.S. Consumer Product Safety Commission - Children's Books
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Product classification and intended audience affect commercial compliance accountability; no numerical surcharge is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Product classification and intended audience affect commercial compliance accountability; no numerical surcharge is inferred.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The exemption boundary supports separate classification rather than assumed conventional-book treatment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The exemption boundary supports separate classification rather than assumed conventional-book treatment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Compliance classification is retained as an uncertainty, not an exclusion or measured price premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Compliance classification is retained as an uncertainty, not an exclusion or measured price premium.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specialty construction does not itself establish ordinary-book exemption eligibility or market inactivity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specialty construction does not itself establish ordinary-book exemption eligibility or market inactivity.
35. Puget Bindery - Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider identifies training manuals and reference guides as mechanical-binding applications, supporting the commissioning premise without measuring sales incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider identifies training manuals and reference guides as mechanical-binding applications, supporting the commissioning premise without measuring sales incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists commercial letterpress book plates and specialty inserts, supporting a component-service model rather than attribution of the entire book price.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists commercial letterpress book plates and specialty inserts, supporting a component-service model rather than attribution of the entire book price.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The bindery identifies commercial printers, publishers and corporate print buyers as customers and excludes direct-to-consumer sales. This supports trade-purchasing attribution but supplies no sales percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The bindery identifies commercial printers, publishers and corporate print buyers as customers and excludes direct-to-consumer sales. This supports trade-purchasing attribution but supplies no sales percentage.

36. ONIX Codelists Issue 75 - List 80: Product Packaging Type
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates single-item and multivolume slipcases; supplies classification, not sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates single-item and multivolume slipcases; supplies classification, not sales weights.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes lidded boxes from slipcase-style boxed sets.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes lidded boxes from slipcase-style boxed sets.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-ended wraparound sleeves are distinct from enclosed wrapping.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-ended wraparound sleeves are distinct from enclosed wrapping.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes envelope-like slip-sleeves and wallets or folders.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes envelope-like slip-sleeves and wallets or folders.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes pouch and bag packaging independently.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes pouch and bag packaging independently.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately recognizes shrink-wrapped products and bundles.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately recognizes shrink-wrapped products and bundles.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Defines formed-plastic clamshells and card-backed blister packaging as distinct constructions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Defines formed-plastic clamshells and card-backed blister packaging as distinct constructions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Explicitly recognizes book browse-prevention closures.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Explicitly recognizes book browse-prevention closures.

37. U.S. Government Publishing Office - Program 827-S: Federal Aviation Administration Books, Contract Pricing and Specifications

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Historical evaluation quantities provide a container-heavy institutional purchasing counterexample, not global shipment shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Historical evaluation quantities provide a container-heavy institutional purchasing counterexample, not global shipment shares.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies kraft-envelope packing within the book procurement.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies kraft-envelope packing within the book procurement.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies cushioned shipping bags as an eligible book-order enclosure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies cushioned shipping bags as an eligible book-order enclosure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Includes wrapped shipping bundles as an alternative purchasing configuration.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Includes wrapped shipping bundles as an alternative purchasing configuration.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Requires packing and filler separately from the external enclosure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Requires packing and filler separately from the external enclosure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies closure tape and securing straps independently of container construction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies closure tape and securing straps independently of container construction.

38. U.S. Government Publishing Office - Print Order Form 2511 Instructions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specifies paper-banded sets separately from shrink-wrapped sets.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specifies paper-banded sets separately from shrink-wrapped sets.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes shrink-wrapped units nested within cartons, supporting component attribution.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes shrink-wrapped units nested within cartons, supporting component attribution.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes internal packaging, container quantities and pallet requirements.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes internal packaging, container quantities and pallet requirements.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The instructions distinguish nominated delivery addresses and warehouse receiving arrangements, supporting the receiving-point attribution premise, not an observed consolidated market share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The instructions distinguish nominated delivery addresses and warehouse receiving arrangements, supporting the receiving-point attribution premise, not an observed consolidated market share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supplemental distribution lists accommodate multiple destinations, supporting the distinction between preallocated destination delivery and a single receiving-point handoff.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supplemental distribution lists accommodate multiple destinations, supporting the distinction between preallocated destination delivery and a single receiving-point handoff.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: GPO specifies black interior inks separately from cover inks, supporting the monochrome classification and underlying-book attribution premise, not its modeled sales weight. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GPO specifies black interior inks separately from cover inks, supporting the monochrome classification and underlying-book attribution premise, not its modeled sales weight. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Designated Pantone specifications are recognized for interior inks, supporting a separate spot-color commercial category without measuring its share. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Designated Pantone specifications are recognized for interior inks, supporting a separate spot-color commercial category without measuring its share. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Four-color process is identified as full color for interior pages; cover color is separately specified. This supports classification at both modeled anchors. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Four-color process is identified as full color for interior pages; cover color is separately specified. This supports classification at both modeled anchors. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))

39. GPOExpress Program Pricing Guide - November 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx hand folding provides a handling-cost comparison; the complete band realization remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx hand folding provides a handling-cost comparison; the complete band realization remains modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx per shrink wrap anchors a small-run comparison, not the assumed global realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx per shrink wrap anchors a small-run comparison, not the assumed global realization.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx auxiliary insertion supplies a handling-price comparison, not protective-material sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx auxiliary insertion supplies a handling-price comparison, not protective-material sales.
40. Hardcover Book Protection: Dust Jackets or Slipcases?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-product EXW slipcase prices of USD xx.xx, USD xx.xx and USD xx.xx at xx.xx xx.xx and xx.xx units constrain relative realizations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-product EXW slipcase prices of USD xx.xx, USD xx.xx and USD xx.xx at xx.xx xx.xx and xx.xx units constrain relative realizations.
41. Book Printing Cost in China: How Printing Prices Are Calculated
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately USD xx.xx per export carton including basic packing materials constrains the bulk-package budget; the container allocation is modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately USD xx.xx per export carton including basic packing materials constrains the bulk-package budget; the container allocation is modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its cushioning split is assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its cushioning split is assumed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its closure split is assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its closure split is assumed.
42. Make Believe Ideas - Independent Retail Catalog 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 catalog identifies activity books with cover-mounted blisters, establishing book-specific participation but not packaging revenue or volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 catalog identifies activity books with cover-mounted blisters, establishing book-specific participation but not packaging revenue or volume.
43. Bookmobile - Request Book Printing Quotes the Right Way to Save Money
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The printer's bookstore-oriented purchasing guidance cautions against universal shrink-wrap attachment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The printer's bookstore-oriented purchasing guidance cautions against universal shrink-wrap attachment.

44. Digital Book Printing - Bookmobile
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current book-production portfolio separately offers poly bags, supporting commercial category participation rather than a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current book-production portfolio separately offers poly bags, supporting commercial category participation rather than a sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current portfolio offers shrink-wrap independently of other finishing options.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current portfolio offers shrink-wrap independently of other finishing options.
45. Sell Books on Shopify - Lulu
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The offered storefront-to-print-and-ship route supports an accessible production-linked parcel channel, not assumed demand.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct fulfillment availability supports the parcel-use scenario without establishing envelope mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct fulfillment availability supports the parcel-use scenario without establishing bag mix.
46. European Commission - New EU Rules on Packaging Enter into Application
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional packaging minimization supports a directional right-sizing premise, not a measured global box-price effect.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Waste-reduction requirements inform the bounded substitution scenario; they do not quantify band adoption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional circularity requirements inform lower lightweight-bag exposure without implying a global book-bag ban.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Material substitution remains partly internal to the combined film-and-paper category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional recyclability pressure informs the niche substitution scenario, not an observed blister-sales decline.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Empty-space reduction provides a directional premise for lower cushioning allowance per individual box.
47. Digital Printing - U.S. Government Publishing Office
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Procurement examples allow offset or digital alternatives while restricting some digital variants, supporting an acceptance- and run-mix model rather than a universal quality ranking. This is a modeling premise, not an observed process share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Procurement examples allow offset or digital alternatives while restricting some digital variants, supporting an acceptance- and run-mix model rather than a universal quality ranking. This is a modeling premise, not an observed process share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The purchasing guidance supports conditional digital substitution, not unrestricted interchangeability or an observed forecast allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The purchasing guidance supports conditional digital substitution, not unrestricted interchangeability or an observed forecast allocation.

48. Clays demonstrate dedication to digital investment
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx books annually and xx.xx books of digital capacity in an older investment statement; this constrains scale but is not a 2025 realized output mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx books annually and xx.xx books of digital capacity in an older investment statement; this constrains scale but is not a 2025 realized output mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's inkjet investment supports an existing book-production application and a conditional adoption premise, not a quantified global forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's inkjet investment supports an existing book-production application and a conditional adoption premise, not a quantified global forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The capacity/output comparison is a limited commercial check on continued conventional book production, not a direct offset revenue observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The capacity/output comparison is a limited commercial check on continued conventional book production, not a direct offset revenue observation.
49. ISO/TC 130 - Guidelines for Using Print Production Standards, Version 1.0, 2019
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes packaging use cases and printing processes, supporting allocation of gravure to book-associated components rather than the full value of a book.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes packaging use cases and printing processes, supporting allocation of gravure to book-associated components rather than the full value of a book.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies flexographic packaging applications; the book-specific spending budget and process coefficients remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies flexographic packaging applications; the book-specific spending budget and process coefficients remain modeled.
50. Premium Layflat Photo Books - PhotobookShop
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Offers bound silver-halide photographic books and distinguishes them from digitally printed alternatives, supporting the model's separate photographic category rather than an observed sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Offers bound silver-halide photographic books and distinguishes them from digitally printed alternatives, supporting the model's separate photographic category rather than an observed sales weight.
51. The Cormac McCarthy Collection - The Folio Society
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents screen-printed cloth covers on physical book editions, supporting component-level commercial attribution. It does not measure supplier component receipts or global uptake.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents screen-printed cloth covers on physical book editions, supporting component-level commercial attribution. It does not measure supplier component receipts or global uptake.

52. Risograph Digital Duplicator Order Form, 2026 - Minneapolis College of Art and Design
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2026 institutional form recognizes Risograph book/booklet orders but excludes assembly. It supports a limited application boundary, not 2025 external commercial volume; internal institutional charges are excluded from the numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2026 institutional form recognizes Risograph book/booklet orders but excludes assembly. It supports a limited application boundary, not 2025 external commercial volume; internal institutional charges are excluded from the numerator.
53. American Printing House - 2024 Annual Report
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal 2024 product sales were USD xx.xx; braille publications represented xx.xx% of product sales; xx.xx braille volumes were produced. These inputs constrain an adjusted production-realization proxy, not a global market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The decline from xx.xx braille volumes in 2022 qualifies a uniform physical-demand growth assumption and informs the slower relative forecast activity weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2024 product sales were USD xx.xx; braille publications represented xx.xx% of product sales; xx.xx braille volumes were produced. These inputs constrain an adjusted production-realization proxy, not a global market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The decline from xx.xx braille volumes in 2022 qualifies a uniform physical-demand growth assumption and informs the slower relative forecast activity weight.
54. Kodak Moments Kiosk - Kodak Alaris
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises book-capable retail kiosk equipment and a photographic-printing portfolio. Used only as a commercial-route premise for the thermal working estimate, not as evidence of thermal book-service sales, utilization or the final share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises book-capable retail kiosk equipment and a photographic-printing portfolio. Used only as a commercial-route premise for the thermal working estimate, not as evidence of thermal book-service sales, utilization or the final share.
55. 二〇二一年全国新闻出版业基本情况
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official 2021 aggregate textbook output distinguishes school, tertiary and vocational/adult activity; historical volumes require value and global-scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official 2021 aggregate textbook output distinguishes school, tertiary and vocational/adult activity; historical volumes require value and global-scope adjustments.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Secondary, primary and teaching-book aggregate sheet counts form the school activity weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Secondary, primary and teaching-book aggregate sheet counts form the school activity weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Tertiary textbook aggregate output supplies the higher-education activity input before an assumed relative-service-value adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Tertiary textbook aggregate output supplies the higher-education activity input before an assumed relative-service-value adjustment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Vocational, adult and literacy textbook output supplies the corresponding historical activity input.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Vocational, adult and literacy textbook output supplies the corresponding historical activity input.

56. Music, printed or in manuscript imports by country, 2024 - World Integrated Trade Solution
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official HS xx.xx import observations constrain the music-publication value bridge; domestic supply, physical-book eligibility and the printing-service fraction remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official HS xx.xx import observations constrain the music-publication value bridge; domestic supply, physical-book eligibility and the printing-service fraction remain modeled.
57. Bloomsbury Publishing - 2024/25 Results Presentation
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate Academic & Professional print, digital and rights/service receipts demonstrate the required physical-revenue boundary; company mix is not treated as global market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate Academic & Professional print, digital and rights/service receipts demonstrate the required physical-revenue boundary; company mix is not treated as global market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed physical academic publishing activity supports commercial applicability but does not verify the assumed global research/reference ratio.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed physical academic publishing activity supports commercial applicability but does not verify the assumed global research/reference ratio.
58. HDSB - RFSQ 26-013: Yearbook Software and Printing Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The qualification notice establishes a commissioned yearbook scope including printing, binding and school delivery; it supplies no awarded value and is not used as a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The qualification notice establishes a commissioned yearbook scope including printing, binding and school delivery; it supplies no awarded value and is not used as a sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The yearbook qualification notice restricts supply to prequalified vendors while permitting school bulk orders and individual ordering. It supports separating commissioning authority from ultimate payment, but discloses no fulfilled-order value.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The yearbook qualification notice restricts supply to prequalified vendors while permitting school bulk orders and individual ordering. It supports separating commissioning authority from ultimate payment, but discloses no fulfilled-order value.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The individual-ordering option establishes an attribution uncertainty relevant to the modeled household portion; it does not establish the assumed xx.xx% proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The individual-ordering option establishes an attribution uncertainty relevant to the modeled household portion; it does not establish the assumed xx.xx% proportion.

59. U.S. Census Bureau - 2022 Economic Census, Books Printing Questionnaire MC-32312
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official printing questionnaire supports the distinction between textbook and general-book production; recognition is not treated as a revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official printing questionnaire supports the distinction between textbook and general-book production; recognition is not treated as a revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognized coloring-book output supports treating recreational activity commissions separately from institutional textbooks according to purpose.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognized coloring-book output supports treating recreational activity commissions separately from institutional textbooks according to purpose.
60. Press Information Bureau - Department of School Education & Literacy, Year End Review 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The government review describes substantial NCERT physical-textbook activity, independently qualifying the physical-availability premise without establishing attributable supplier revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The government review describes substantial NCERT physical-textbook activity, independently qualifying the physical-availability premise without establishing attributable supplier revenue.
61. 2022 North American Industry Classification System - United States
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dedicated book-publishing activity is separated from institutional primary activities and printing without publishing, constraining the Publishing Organizations numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dedicated book-publishing activity is separated from institutional primary activities and printing without publishing, constraining the Publishing Organizations numerator.
62. U.S. Census Bureau - Books Printing: 2002
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Table xx.xx reports 2002 U.S. books-printing contract-work costs of USD xx.xx and shipments of USD xx.xx. Their ratio supplies a dated manufacturing-subcontract proxy, held constant within the forecast component.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Table xx.xx reports 2002 U.S. books-printing contract-work costs of USD xx.xx and shipments of USD xx.xx. Their ratio supplies a dated manufacturing-subcontract proxy, held constant within the forecast component.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical subcontract-cost input constrains the modeled transfer from publisher-origin commissioning to performing suppliers, without adding another gross contract value.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical subcontract-cost input constrains the modeled transfer from publisher-origin commissioning to performing suppliers, without adding another gross contract value.
63. Samfine Creation Holdings Group Limited - Form 20-F for the year ended December 31, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports USD xx.xx of 2025 book-product revenue and principally serves book traders that secure printing contracts and outsource production. This is a supplier-specific quantitative role check, not a Global allocation weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports USD xx.xx of 2025 book-product revenue and principally serves book traders that secure printing contracts and outsource production. This is a supplier-specific quantitative role check, not a Global allocation weight.

64. Ministry of Education - NCERT and Amazon Letter of Engagement, October 7, 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2024 announcement targeted xx.xx NCERT books for academic 2025-xx.xx. This is a planned institutional activity anchor; realization, eligible receipts and subsequent growth are modeled separately.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2024 announcement targeted xx.xx NCERT books for academic 2025-xx.xx. This is a planned institutional activity anchor; realization, eligible receipts and subsequent growth are modeled separately.
65. Bangladesh e-GP - NCTB/TEXTBOOK/2025, Package GD.102_SEC_8.031
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The government-funded procurement plan specifies xx.xx academic-2025 textbook copies and an estimated BDT xx.xx for printing, binding and supply. It constrains commercial order scale and local unit-budget plausibility, not realized annual revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The government-funded procurement plan specifies xx.xx academic-2025 textbook copies and an estimated BDT xx.xx for printing, binding and supply. It constrains commercial order scale and local unit-budget plausibility, not realized annual revenue.
66. Students suffer as NCTB fails to deliver books - The Daily Star, January 17, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 report corroborates the dated approximately xx.xx-copy textbook target and early-year delivery disruption. Target realization and supplier receipts remain modeled.
67. Secondary-level students: A new year without full set of books for many - The Daily Star, December 28, 2025
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 report corroborates the approximately xx.xx-copy academic-2026 target and continued delivery slippage. It informs a normalization assumption, not an observed 2032 share.
68. Business Books - Print Professional, Custom Corporate Books | Blurb
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The business-book offering includes organizational presentation and corporate-gift applications. It establishes an in-scope commissioning proposition, not the modeled global copy quantity or spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The business-book offering includes organizational presentation and corporate-gift applications. It establishes an in-scope commissioning proposition, not the modeled global copy quantity or spending.
69. How to Use Lulu to Support Your Nonprofit | Lulu
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform permits an organization or charity to receive creator proceeds. This supports excluding beneficiary-only arrangements from nonprofit commissioning; it does not measure nonprofit printing purchases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform permits an organization or charity to receive creator proceeds. This supports excluding beneficiary-only arrangements from nonprofit commissioning; it does not measure nonprofit printing purchases.

70. News Corp - Form 10-K for the fiscal year ended June 30, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal 2025 consumer backlist revenue of xx.xx% and digital revenue of xx.xx% anchor the assumed physical-backlist bridge and its forecast starting model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2025 consumer backlist revenue of xx.xx% and digital revenue of xx.xx% anchor the assumed physical-backlist bridge and its forecast starting model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed backlist mix constrains recurring-title demand; its division into replenishment and POD remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed backlist mix constrains recurring-title demand; its division into replenishment and POD remains modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The complementary frontlist population supports the launch-stock cohort after physical-format adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The complementary frontlist population supports the launch-stock cohort after physical-format adjustments.
71. News Corp - Form 10-K for the fiscal year ended June 30, 2026
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2026 backlist revenue of xx.xx% and digital revenue of xx.xx% lower the forecast physical-backlist proxy instead of assuming continued backlist expansion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The updated catalog mix changes the forecast population available for repeat inventory releases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The updated frontlist/backlist bridge changes the forecast planned-production weight; no 2032 share is disclosed.
72. How Do Lulu Direct Orders Work?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lulu describes printing after customer purchase and distinguishes production from subsequent shipment, supporting recipient-order attribution rather than technology-based classification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lulu describes printing after customer purchase and distinguishes production from subsequent shipment, supporting recipient-order attribution rather than technology-based classification.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: No minimum order and one-copy ordering establish commercial feasibility, not the number or value of single-copy releases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No minimum order and one-copy ordering establish commercial feasibility, not the number or value of single-copy releases.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: One POD offering accepts hundreds of copies, independently challenging a POD-equals-single-copy allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One POD offering accepts hundreds of copies, independently challenging a POD-equals-single-copy allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Orders can extend into thousands within the same offering; the production trigger therefore does not uniquely identify the working run band.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Orders can extend into thousands within the same offering; the production trigger therefore does not uniquely identify the working run band.

73. Supply Chain - Clays
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Clays describes differentiated backlist arrangements and stock visibility, supporting a separate inventory-replenishment cohort without establishing its numerical prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Clays describes differentiated backlist arrangements and stock visibility, supporting a separate inventory-replenishment cohort without establishing its numerical prevalence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: New-title consolidation and predictable annual backlist demand support retaining planned inventory commitments; short-run printing is explicitly not necessarily POD.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: New-title consolidation and predictable annual backlist demand support retaining planned inventory commitments; short-run printing is explicitly not necessarily POD.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Clays explicitly distinguishes short-run work from POD, supporting category separation rather than a technological proxy for value share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Clays explicitly distinguishes short-run work from POD, supporting category separation rather than a technological proxy for value share.
74. Smart Backlist Management: When to Hold and When to Print-on-Demand
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheridan describes low-volume titles moving to POD while other titles retain inventory, supporting differentiated release-policy assumptions rather than a uniform backlist-to-POD conversion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheridan describes low-volume titles moving to POD while other titles retain inventory, supporting differentiated release-policy assumptions rather than a uniform backlist-to-POD conversion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A disclosed customer example uses a stock threshold to trigger a 2,000-copy replenishment order. It establishes the commercial mechanism, not a market-wide share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A disclosed customer example uses a stock threshold to trigger a 2,000-copy replenishment order. It establishes the commercial mechanism, not a market-wide share.

75. Shortage of NCERT textbooks - Rajya Sabha Unstarred Question No. 1941, December 17, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advance enrollment-based forecasting, academic-session readiness and a fiscal 2025-xx.xx plan for approximately xx.xx textbooks support a substantial calendar-driven stock cohort. The target is not realized production.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advance enrollment-based forecasting, academic-session readiness and a fiscal 2025-xx.xx plan for approximately xx.xx textbooks support a substantial calendar-driven stock cohort. The target is not realized production.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phased supply and inventory monitoring support distinguishing ongoing availability obligations from individual-recipient POD, without quantifying replenishment's global prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phased supply and inventory monitoring support distinguishing ongoing availability obligations from individual-recipient POD, without quantifying replenishment's global prevalence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official answer distinguishes printer empanelment from approximately xx.xx distribution vendors and describes planned fiscal 2025-xx.xx printing of approximately xx.xx textbooks. It supports commissioning-versus-distribution separation, not a realized monetary channel split.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official answer distinguishes printer empanelment from approximately xx.xx distribution vendors and describes planned fiscal 2025-xx.xx printing of approximately xx.xx textbooks. It supports commissioning-versus-distribution separation, not a realized monetary channel split.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phased textbook supply supports treating annual institutional quantities separately from production batches; it does not disclose the medium-run allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phased textbook supply supports treating annual institutional quantities separately from production batches; it does not disclose the medium-run allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 answer identifies a xx.xx-million-copy FY2025-xx.xx printing decision versus approximately xx.xx in recent years, a counterforce to assuming rapid long-run disappearance. Planned copies are not realized service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 answer identifies a xx.xx-million-copy FY2025-xx.xx printing decision versus approximately xx.xx in recent years, a counterforce to assuming rapid long-run disappearance. Planned copies are not realized service revenue.
76. Fulfillment Fee - Lulu Direct
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2026 schedule lists USD xx.xx per order regardless of item count, supporting an order-frequency effect on associated-service value. It does not verify the assumed historical or forecast multiplier.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2026 schedule lists USD xx.xx per order regardless of item count, supporting an order-frequency effect on associated-service value. It does not verify the assumed historical or forecast multiplier.

77. InnerWorkings, Inc. - Form 10-K for the year ended December 31, 2019
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2019 filing reports USD xx.xx gross profit on USD xx.xx revenue and describes purchased-product and direct-service costs. Historical reported margins constrain the modeled xx.xx% retained-fee ratio; they do not directly measure book-channel share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2019 filing reports USD xx.xx gross profit on USD xx.xx revenue and describes purchased-product and direct-service costs. Historical reported margins constrain the modeled xx.xx% retained-fee ratio; they do not directly measure book-channel share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The procurement-service margin comparison supports the fee-to-managed-spending bridge underlying the direct-channel complement. Carrying the normalized ratio into 2032 is explicitly a forecast assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The procurement-service margin comparison supports the fee-to-managed-spending bridge underlying the direct-channel complement. Carrying the normalized ratio into 2032 is explicitly a forecast assumption.
78. Simplified Purchase Agreement - U.S. Government Publishing Office
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SPA permits agency awards directly to certified vendors for purchases up to USD xx.xx while GPO pays vendors and invoices agencies. This supports classifying by the contracting relationship rather than the invoice payer, not a numerical global weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SPA permits agency awards directly to certified vendors for purchases up to USD xx.xx while GPO pays vendors and invoices agencies. This supports classifying by the contracting relationship rather than the invoice payer, not a numerical global weight.
79. Global Print Services | China, Europe, SE Asia, USA & India
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Imago describes sourcing suppliers and coordinating multiple manufacturers for book-related projects. Its cumulative customer relationships establish the offered intermediary role but are not annual revenue or allocation weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Imago describes sourcing suppliers and coordinating multiple manufacturers for book-related projects. Its cumulative customer relationships establish the offered intermediary role but are not annual revenue or allocation weights.
80. Lion Rock Group Limited - Annual Report 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-business 2025 turnover changes of minus xx.xx% for APOL and minus xx.xx% for Regent challenge uniform intermediary growth; Regent's non-book focus limits its relevance. These observations support avoiding an additional adoption uplift.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-business 2025 turnover changes of minus xx.xx% for APOL and minus xx.xx% for Regent challenge uniform intermediary growth; Regent's non-book focus limits its relevance. These observations support avoiding an additional adoption uplift.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Manufacturing turnover changes of minus xx.xx% at xx.xx Printing and plus xx.xx% at Papercraft demonstrate differing supplier trajectories rather than a simple common channel-growth pattern; these are not direct-contracting market shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Manufacturing turnover changes of minus xx.xx% at xx.xx Printing and plus xx.xx% at Papercraft demonstrate differing supplier trajectories rather than a simple common channel-growth pattern; these are not direct-contracting market shares.

81. Imprint Digital - Book Printing Prices UK

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected schedule quotes GBP xx.xx at xx.xx copies for one paperback specification, supporting a relative-price input, not a historical global realization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected schedule quotes GBP xx.xx at xx.xx copies for one paperback specification, supporting a relative-price input, not a historical global realization.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: GBP xx.xx at xx.xx copies supplies the medium-run reference index; format and delivery differences require separate treatment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GBP xx.xx at xx.xx copies supplies the medium-run reference index; format and delivery differences require separate treatment.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The quantity-price curve anchors the reference from which the long-run discount is assumed; no long-run price or future share is disclosed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The quantity-price curve anchors the reference from which the long-run discount is assumed; no long-run price or future share is disclosed.

82. Print Options

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: KDP distinguishes black-and-white from color records and locks ink type after publication. These platform-specific conditions qualify switching assumptions, not market weights. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: KDP distinguishes black-and-white from color records and locks ink type after publication. These platform-specific conditions qualify switching assumptions, not market weights. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The displayed platform menu does not establish designated spot-color availability or sales; a general color option is not used as evidence of spot-color demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The displayed platform menu does not establish designated spot-color availability or sales; a general color option is not used as evidence of spot-color demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Standard color is unavailable for hardcover, but premium color is available. Both process-color tiers belong within the modeled Full-Color Interiors category. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Standard color is unavailable for hardcover, but premium color is available. Both process-color tiers belong within the modeled Full-Color Interiors category. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))

83. Synthèse des chiffres de l'édition jeunesse 2024-2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The primary French publishing survey reports a xx.xx% decline in illustrated early-childhood volumes and a xx.xx% decline in youth-fiction volumes in 2024. These differing outcomes challenge an aggressive universal color-growth assumption. ([sne.fr](https://www.sne.fr/actu/synthese-des-chiffres-de-ledition-jeunesse-2024-2025/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The primary French publishing survey reports a xx.xx% decline in illustrated early-childhood volumes and a xx.xx% decline in youth-fiction volumes in 2024. These differing outcomes challenge an aggressive universal color-growth assumption. ([sne.fr](https://www.sne.fr/actu/synthese-des-chiffres-de-ledition-jeunesse-2024-2025/))

Sources & Evidence

1. European Book Publishing Statistics 2024
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: European publishers reported approximately EUR xx.xx of net book-sales revenue in 2024. The disclosed ebook and audiobook proportions inform the modeled xx.xx% physical-book revenue proportion; publisher revenue is an input, not printing-service revenue.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 publisher-revenue and format observations provide the European demand input carried into the 2025 estimate.

2. The Global Publishing Industry in 2022

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Table xx.xx supplies country-level publishing revenues and identifies differences between retail-value, publisher-revenue, print-only and prior-year observations. Selected non-European country observations are adjusted for physical formats and period before estimating production spending.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The selected country observations contribute to the demand pool underlying the 2025 working estimate. Nielsen retail datasets elsewhere in the publication are not used.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Primary survey sector differences constrain the education-adjusted hardcover proxy.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Primary survey sector differences constrain the education-adjusted hardcover proxy.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Educational/trade differences qualify extrapolation of U.S. consumer-format revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Educational/trade differences qualify extrapolation of U.S. consumer-format revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx of surveyed children's publishing revenue anchors the modeled specialty demand pool, not supplier receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx of surveyed children's publishing revenue anchors the modeled specialty demand pool, not supplier receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sector data constrain the commissioning-pool proxy; mechanical incidence remains assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sector data constrain the commissioning-pool proxy; mechanical incidence remains assumed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Educational demand supplies a common economic anchor; loose-leaf incidence remains modeled.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Educational demand supplies a common economic anchor; loose-leaf incidence remains modeled.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sector observations constrain the educational short-book commissioning pool.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sector observations constrain the educational short-book commissioning pool.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The commissioning-pool anchor supports an explicit sparse-format incidence model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The commissioning-pool anchor supports an explicit sparse-format incidence model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors the accordion working estimate, not observed accordion orders.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors the accordion working estimate, not observed accordion orders.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed textile-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed textile-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed bath-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed bath-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed foam-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed foam-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original publishing survey documents country-level trade/education revenue differences used to constrain the modeled physical-publishing mix; it does not directly measure service shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original publishing survey documents country-level trade/education revenue differences used to constrain the modeled physical-publishing mix; it does not directly measure service shares.

3. 2024 年新闻出版统计公报

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: For 2024, the official table reports xx.xx book copies or sheets and CNY xx.xx of book-publishing revenue. These constrain the demand bridge and historical contraction, rather than directly measuring printing-service sales.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 book-publishing observation supplies the Chinese demand primitive for the 2025 model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: 2024 book-publishing revenue of CNY xx.xx supplies the physical-demand proxy; reported output contraction qualifies growth assumptions. ([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020251218382424228218.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: 2024 book-publishing revenue of CNY xx.xx supplies the physical-demand proxy; reported output contraction qualifies growth assumptions. ([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020251218382424228218.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official 2024 output of xx.xx copies/sheets constrains total modeled publisher activity; it does not disclose single-copy production.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official 2024 output of xx.xx copies/sheets constrains total modeled publisher activity; it does not disclose single-copy production.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Aggregate copies and annual title output constrain the shared activity model, not an observed short-run share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Aggregate copies and annual title output constrain the shared activity model, not an observed short-run share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Aggregate production provides a scale check for the medium-run assumption; annual copies per title are not individual batches.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Aggregate production provides a scale check for the medium-run assumption; annual copies per title are not individual batches.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx annual copies per title constrain the long-run scenario without proving its batch mix or forecast.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx annual copies per title constrain the long-run scenario without proving its batch mix or forecast.

4. Foreign Exchange Rates - G.5A Annual, January 5, 2026

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: The official 2024 annual-average conversion inputs are USD xx.xx per EUR, CNY xx.xx per USD and CAD xx.xx per USD.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The exchange-rate table establishes the conversion basis of the preceding-year demand inputs used in the 2025 estimate; subsequent effective-USD price assumptions are modeled separately.

5. Book publishing industry, 2024 - Statistics Canada
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Canadian publishers reported CAD xx.xx of print sales outside the online category and CAD xx.xx of online print sales in 2024. Their sum, rather than total operating revenue, supplies the physical-book demand input.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: Reported cost of goods sold of CAD xx.xx, up CAD xx.xx from 2022, supplies a cost-pressure cross-check, not a directly attributable printing-services total.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Canadian online versus other print-sales values constrain parcel exposure, with explicit value-to-unit and geographic limitations.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Canadian online versus other print-sales values constrain parcel exposure, with explicit value-to-unit and geographic limitations.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed envelope purchases.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed envelope purchases.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed bag purchases.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed bag purchases.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Modest observed online-print growth qualifies aggressive parcel-related wrapping assumptions.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Modest observed online-print growth qualifies aggressive parcel-related wrapping assumptions.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring separate protection.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring separate protection.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring closures.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring closures.
6. U.S. Census Bureau - Books Printing: Shipments, annual table
   - Evidence informing the 2017 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2017; this is a national production anchor for the historical model.
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2018.
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2019.
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2020.
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2021.
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2022.
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2024. This national industrial measure is narrower than the composite global service boundary.

7. U.S. Census Bureau - Book Publishers, All Establishments: Revenue, annual table
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: The Census annual series reports USD xx.xx of U.S. book-publisher revenue for 2024. A modeled xx.xx% physical-book proportion excludes digital and other adjacent receipts.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 Census observation replaces an older survey-based U.S. revenue bridge in the demand pool underlying 2025.

8. Scholastic Corporation - Form 10-K for the year ended May 31, 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Scholastic's fiscal 2024 product, service, production and inventory-reserve costs were xx.xx% of revenue; postage, freight, shipping, fulfillment and other costs were xx.xx%. These broad categories constrain, but do not directly establish, eligible outsourced-service spending.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The corresponding fiscal 2025 proportions were xx.xx% and xx.xx%. Royalties and prepublication amortization are separately disclosed, allowing their exclusion from the service-market bridge.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 product, service, production and inventory-reserve costs were xx.xx% of revenue. The broader cost category constrains the manufacturing spending boundary but does not directly disclose printing-service revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 product, service, production and inventory-reserve costs were xx.xx% of revenue. The broader cost category constrains the manufacturing spending boundary but does not directly disclose printing-service revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Prepublication amortization is disclosed separately from production costs, supporting exclusion of adjacent amortization rather than equating it with externally purchased prepress.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Prepublication amortization is disclosed separately from production costs, supporting exclusion of adjacent amortization rather than equating it with externally purchased prepress.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Postage, freight, shipping, fulfillment and other costs were xx.xx% of revenue in fiscal 2025 versus xx.xx% in fiscal 2024. This is a broad buyer-cost check, not an eligible outsourced-fulfillment share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Postage, freight, shipping, fulfillment and other costs were xx.xx% of revenue in fiscal 2025 versus xx.xx% in fiscal 2024. This is a broad buyer-cost check, not an eligible outsourced-fulfillment share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Outsourced manufacturing coexists with company-operated distribution. Fiscal-2025 production-related costs were xx.xx% of revenue, constraining the inherited spending bridge rather than directly measuring the assumed route fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Outsourced manufacturing coexists with company-operated distribution. Fiscal-2025 production-related costs were xx.xx% of revenue, constraining the inherited spending bridge rather than directly measuring the assumed route fraction.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Book-club revenue was xx.xx% online-ordered and xx.xx% parent-ordered, while products typically went to classrooms. This challenges the use of online sales as a proxy for the external contractor's delivery model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Book-club revenue was xx.xx% online-ordered and xx.xx% parent-ordered, while products typically went to classrooms. This challenges the use of online sales as a proxy for the external contractor's delivery model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct printer-to-customer fulfillment is a disclosed option. Broader logistics/other costs were xx.xx% of revenue versus xx.xx% previously, providing a cost-boundary check but no global order-level share or service-price growth observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct printer-to-customer fulfillment is a disclosed option. Broader logistics/other costs were xx.xx% of revenue versus xx.xx% previously, providing a cost-boundary check but no global order-level share or service-price growth observation.

9. CEWE achieves all targets in 2025 and aims to further increase revenue and earnings in 2026

- Evidence informing the 2025 market-value input; displayed series and growth include calculations: CEWE reported xx.xx CEWE PHOTOBOOK copies in 2025 versus xx.xx in 2024, supporting a positive specialty-book volume assumption without establishing global adoption.
- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Observed 2025 photobook growth informs the specialty-demand assumption for 2026; the market value remains modeled.
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The observed specialty-book activity is a starting condition for the forecast, not independent proof of continued growth through 2032.
- Evidence informing the 2040 market-value input; displayed series and growth include calculations: The forecast explicitly slows specialty-demand growth after 2032; this source supplies the initial commercial observation, not the long-term growth rate.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: CEWE reports xx.xx photobooks in 2025 compared with xx.xx in 2024. This independently establishes specialty-book activity underlying the nonpublisher model, without establishing a global expansion factor.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CEWE reports xx.xx photobooks in 2025 compared with xx.xx in 2024. This independently establishes specialty-book activity underlying the nonpublisher model, without establishing a global expansion factor.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports retaining premium specialty commissions in the manufacturing mix; the binding allocation and unchanged future cohort profile remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports retaining premium specialty commissions in the manufacturing mix; the binding allocation and unchanged future cohort profile remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported photobook volumes constrain personal-book activity and the nonpublisher starting condition, not hardcover prevalence or future share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported photobook volumes constrain personal-book activity and the nonpublisher starting condition, not hardcover prevalence or future share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Photobook activity supports the separate personal-book commissioning block; its softcover fraction remains assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Photobook activity supports the separate personal-book commissioning block; its softcover fraction remains assumed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported photobook copies rose from xx.xx to xx.xx; the narrower 2026 target qualifies strong specialty-growth assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported photobook copies rose from xx.xx to xx.xx; the narrower 2026 target qualifies strong specialty-growth assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specialty-book activity constrains the presentation-demand scenario but does not measure gift-box attachment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specialty-book activity constrains the presentation-demand scenario but does not measure gift-box attachment.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CEWE PHOTOBOOK units in 2025 versus xx.xx in 2024, constraining the specialty-book demand budget without establishing a global process split.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CEWE PHOTOBOOK units in 2025 versus xx.xx in 2024, constraining the specialty-book demand budget without establishing a global process split.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports the common photographic-demand input; electrophotographic attribution remains an explicit assumption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports the common photographic-demand input; electrophotographic attribution remains an explicit assumption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The photobook

10. Paperback Printing Cost - Kindle Direct Publishing

- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The inspected U.S. paperback schedule charges USD xx.xx plus USD xx.xx per page for the specified regular-trim black-ink category. It provides a contemporary commercial price comparison for the assumed USD xx.xx self-publishing production receipt, not an observed historical price or volume.
- Evidence informing the 2026 market-value input; displayed series and growth include calculations: The schedule distinguishes printing charges from royalties and retail list prices, supporting the production-receipt boundary used in the estimate.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule uses USD xx.xx plus USD xx.xx per page for the relevant page band, yielding the USD xx.xx representative manufacturing comparator. It anchors relative weights, not an observed global 2025 price or future share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule uses USD xx.xx plus USD xx.xx per page for the relevant page band, yielding the USD xx.xx representative manufacturing comparator. It anchors relative weights, not an observed global 2025 price or future share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The paperback manufacturing comparator supplies the baseline from which the modeled binding component and hardcover increment are separated.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The paperback manufacturing comparator supplies the baseline from which the modeled binding component and hardcover increment are separated.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The separately identified paperback printing charge constrains the self-publishing production-receipt model and its distinction from retail proceeds.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The separately identified paperback printing charge constrains the self-publishing production-receipt model and its distinction from retail proceeds.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page. It is a contemporary production-charge comparison for the modeled USD xx.xx receipt, not an observed historical Global average.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page. It is a contemporary production-charge comparison for the modeled USD xx.xx receipt, not an observed historical Global average.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The relevant current U.S. paperback printing schedule is USD xx.xx plus USD xx.xx per page, giving USD xx.xx at xx.xx pages. This is a commercial price comparison for creator-production receipts, not proof of 2025 realization, volume or fulfillment mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The relevant current U.S. paperback printing schedule is USD xx.xx plus USD xx.xx per page, giving USD xx.xx at xx.xx pages. This is a commercial price comparison for creator-production receipts, not proof of 2025 realization, volume or fulfillment mix.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule of USD xx.xx plus USD xx.xx per page gives USD xx.xx at xx.xx pages, a magnitude check for modeled single-copy receipts. It establishes neither global volume nor historical or forecast share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule of USD xx.xx plus USD xx.xx per page gives USD xx.xx at xx.xx pages, a magnitude check for modeled single-copy receipts. It establishes neither global volume nor historical or forecast share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page, yielding USD xx.xx for xx.xx pages. This is a contemporary price comparator, not a historical global average. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834340))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page, yielding USD xx.xx for xx.xx pages. This is a contemporary price comparator, not a historical global average. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834340))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The comparable standard and premium color charges calculate to USD xx.xx and USD xx.xx. They constrain relative

11. European Book Publishing Statistics 2017

- Evidence informing the 2017 market-value input; displayed series and growth include calculations: The association's primary survey reports approximately EUR xx.xx of European net publisher revenue for 2017, constraining the pre-pandemic demand level.

12. European Book Publishing Statistics 2019

- Evidence informing the 2018 market-value input; displayed series and growth include calculations: The association reports approximately EUR xx.xx of publisher revenue for 2018.
- Evidence informing the 2019 market-value input; displayed series and growth include calculations: The association reports approximately EUR xx.xx for 2019 and identifies a questionnaire change that limits exact comparability with earlier observations.

13. 2021 年新闻出版产业分析报告

- Evidence informing the 2020 market-value input; displayed series and growth include calculations: The official report's 2021 comparison identifies a substantial rebound from 2020, constraining the pandemic-recovery bridge.
- Evidence informing the 2021 market-value input; displayed series and growth include calculations: China reported xx.xx book copies or sheets in 2021, up xx.xx%; the report also distinguishes textbook output and reprints.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: China's official 2021 textbook share was xx.xx% of book copies. It supplies an older educational-activity proxy, not a monochrome share.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: China's official 2021 textbook share was xx.xx% of book copies. It supplies an older educational-activity proxy, not a monochrome share.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The textbook copy proportion constrains educational exposure; comparable monetary intensity and spot-color incidence are modeled separately.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The textbook copy proportion constrains educational exposure; comparable monetary intensity and spot-color incidence are modeled separately.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational-activity observation contributes to the shared demand proxy carried into the full-color base and forecast models; no color split is reported.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational-activity observation contributes to the shared demand proxy carried into the full-color base and forecast models; no color split is reported.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))

14. European Book Publishing Statistics 2023

- Evidence informing the 2022 market-value input; displayed series and growth include calculations: European net publisher revenue was approximately EUR xx.xx in 2022; the association describes paper-cost pressure and price-led growth.

15. Hardcover Printing Cost - Kindle Direct Publishing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim hardcover schedule uses USD xx.xx plus USD xx.xx per page in the relevant band. Comparison with paperback charges constrains the premium-equivalent manufacturing model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim hardcover schedule uses USD xx.xx plus USD xx.xx per page in the relevant band. Comparison with paperback charges constrains the premium-equivalent manufacturing model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD xx.xx fixed-charge difference supplies the POD premium input; the xx.xx% commercial-run realization and premium incidence are explicitly modeled rather than disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD xx.xx fixed-charge difference supplies the POD premium input; the xx.xx% commercial-run realization and premium incidence are explicitly modeled rather than disclosed.
16. User Fees - University of Wisconsin-Milwaukee Print & Copy Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The university service schedule separately prices preflight/prepress preparation at USD xx.xx per hour, establishing a paid preparation activity rather than an automatic component of every printing-platform purchase.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The university service schedule separately prices preflight/prepress preparation at USD xx.xx per hour, establishing a paid preparation activity rather than an automatic component of every printing-platform purchase.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Perfect binding is listed at USD xx.xx-xx.xx per book. The lower endpoint is the model's basic-binding comparator, not a measured worldwide realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Perfect binding is listed at USD xx.xx-xx.xx per book. The lower endpoint is the model's basic-binding comparator, not a measured worldwide realization.

17. How Much Does It Cost to Print a Book? - QinPrinting
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier's delivered xx.xx-page, xx.xx-copy color-book examples list USD xx.xx for softcover and USD xx.xx for hardcover. They provide a commercial-run countercheck, with delivery and product differences preventing direct substitution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier's delivered xx.xx-page, xx.xx-copy color-book examples list USD xx.xx for softcover and USD xx.xx for hardcover. They provide a commercial-run countercheck, with delivery and product differences preventing direct substitution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The smaller hardcover premium in this offset example qualifies extrapolation of the full POD hardcover increment into binding revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The smaller hardcover premium in this offset example qualifies extrapolation of the full POD hardcover increment into binding revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Comparable hardcover and softcover quotations constrain the assumed relative manufacturing realization after scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Comparable hardcover and softcover quotations constrain the assumed relative manufacturing realization after scope adjustments.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Softcover prices provide a commercial comparison, not a historical global average.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Softcover prices provide a commercial comparison, not a historical global average.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Board-book quotations constrain the assumed production receipt; delivery and duties require adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Board-book quotations constrain the assumed production receipt; delivery and duties require adjustment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Mechanical-binding quotations constrain the unit-receipt assumption, not incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Mechanical-binding quotations constrain the unit-receipt assumption, not incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Short-booklet quotations constrain the lower realization used for eligible saddle-stitched books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Short-booklet quotations constrain the lower realization used for eligible saddle-stitched books.
18. Book Wrap Mailers / Book Boxes - Packaging ONE
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer lists MP2 book mailers at GBP xx.xx each for xx.xx packs of xx.xx excluding VAT. The converted unit price supplies the packaging-creation value proxy, not a global average or a historical quote.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer lists MP2 book mailers at GBP xx.xx each for xx.xx packs of xx.xx excluding VAT. The converted unit price supplies the packaging-creation value proxy, not a global average or a historical quote.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The enclosure price forms the other side of the creation-versus-packing ratio. One comparable enclosure per packing unit is an explicit activity-matching assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The enclosure price forms the other side of the creation-versus-packing ratio. One comparable enclosure per packing unit is an explicit activity-matching assumption.

19. Foreign Exchange Rates - G.5A Annual, January 5, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 annual average is USD xx.xx per GBP. It converts the GBP packaging comparator into the common monetary basis used in the starting allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 annual average is USD xx.xx per GBP. It converts the GBP packaging comparator into the common monetary basis used in the starting allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same conversion supports the common-currency packaging/packing denominator inherited by the forecast; no 2032 exchange rate is asserted.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same conversion supports the common-currency packaging/packing denominator inherited by the forecast; no 2032 exchange rate is asserted.
20. Optional Book Publishing Services - InstantPublisher
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider lists layout/typesetting at USD xx.xx per page with a USD xx.xx minimum. This supports the preparation-spending feasibility check, with purchase incidence and copies per job remaining assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider lists layout/typesetting at USD xx.xx per page with a USD xx.xx minimum. This supports the preparation-spending feasibility check, with purchase incidence and copies per job remaining assumptions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Individual shrink-wrapping is listed at USD xx.xx each plus USD xx.xx setup. Amortizing setup over an assumed xx.xx copies gives the USD xx.xx packing comparator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Individual shrink-wrapping is listed at USD xx.xx each plus USD xx.xx setup. Amortizing setup over an assumed xx.xx copies gives the USD xx.xx packing comparator.
21. How Does Merchant Pricing Work for Ecommerce Stores? - Lulu Direct
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2026 merchant-pricing explanation identifies a USD xx.xx fulfillment fee and separates merchant retail receipts from payments for supplier production, shipping and taxes. The fee is a contemporary feasibility comparator, not verified 2025 penetration or a future charge.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2026 merchant-pricing explanation identifies a USD xx.xx fulfillment fee and separates merchant retail receipts from payments for supplier production, shipping and taxes. The fee is a contemporary feasibility comparator, not verified 2025 penetration or a future charge.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Merchant retail receipts are separate from payments for printing and fulfillment. The current page lists a USD xx.xx fulfillment fee, with shipping and taxes separately calculated. This supports the service-value boundary, not a historical average fee or global order volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Merchant retail receipts are separate from payments for printing and fulfillment. The current page lists a USD xx.xx fulfillment fee, with shipping and taxes separately calculated. This supports the service-value boundary, not a historical average fee or global order volume.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lulu identifies separate retail and production/fulfillment transactions and a USD xx.xx fulfillment fee. This supports excluding merchant retail margins from production-service value and avoiding automatic procurement-channel classification from the storefront.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lulu identifies separate retail and production/fulfillment transactions and a USD xx.xx fulfillment fee. This supports excluding merchant retail margins from production-service value and avoiding automatic procurement-channel classification from the storefront.

22. AAP December 2025 StatShot Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The primary monthly reporting panel's full-year 2025 trade figures show paperback revenue down xx.xx%. This qualifies broad physical-book growth assumptions and supplies directional mix evidence only.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The primary monthly reporting panel's full-year 2025 trade figures show paperback revenue down xx.xx%. This qualifies broad physical-book growth assumptions and supplies directional mix evidence only.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same approximately xx.xx-publisher panel shows hardcover revenue up xx.xx%. It supports a modest premium-mix hypothesis but neither measures global binding spending nor proves the forecast.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same approximately xx.xx-publisher panel shows hardcover revenue up xx.xx%. It supports a modest premium-mix hypothesis but neither measures global binding spending nor proves the forecast.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct-participant 2025 hardback revenue of approximately USD xx.xx anchors the adjusted conventional-format model; it is not printing revenue or a global share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct-participant 2025 hardback revenue of approximately USD xx.xx anchors the adjusted conventional-format model; it is not printing revenue or a global share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported paperback revenue of approximately USD xx.xx plus USD xx.xx mass-market revenue supplies the comparison input. Reported annual movements qualify the forecast starting mix, not its future persistence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported paperback revenue of approximately USD xx.xx plus USD xx.xx mass-market revenue supplies the comparison input. Reported annual movements qualify the forecast starting mix, not its future persistence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct publisher-sample religious and trade physical-format receipts provide a category-intensity proxy, subject to explicit geographic and coverage adjustments.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct publisher-sample religious and trade physical-format receipts provide a category-intensity proxy, subject to explicit geographic and coverage adjustments.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported professional-book receipts and their 2025 decline challenge assumptions of automatic growth from recurring reference relationships.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported professional-book receipts and their 2025 decline challenge assumptions of automatic growth from recurring reference relationships.

23. Print and Associated Services Framework - Lot 1 Buyer Guide: Framework Objectives
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The public purchasing framework separately specifies production-management advice. It establishes a purchased responsibility but not a global fee rate or permission to count subcontract pass-through as retained revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The public purchasing framework separately specifies production-management advice. It establishes a purchased responsibility but not a global fee rate or permission to count subcontract pass-through as retained revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The framework also specifies finished-goods stock holding and call-off, with required holding costs included in the print-job price. This supports allocating embedded production-linked fulfillment rather than restricting the category to standalone invoices.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The framework also specifies finished-goods stock holding and call-off, with required holding costs included in the print-job price. This supports allocating embedded production-linked fulfillment rather than restricting the category to standalone invoices.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Finished goods may be held for call-off, with storage included in the print job where required. This supports consolidated releases as a production-linked arrangement without assuming every release is an individual order.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Finished goods may be held for call-off, with storage included in the print job where required. This supports consolidated releases as a production-linked arrangement without assuming every release is an individual order.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contractors maintain designated distribution lists, deliver to nominated addresses and receive job-specific copy allocations, supporting the modeled list-delivery category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contractors maintain designated distribution lists, deliver to nominated addresses and receive job-specific copy allocations, supporting the modeled list-delivery category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The coexistence of stock holding, call-off and distribution-list obligations supports separating production trigger from fulfillment responsibility; call-off alone does not establish transaction-level fulfillment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The coexistence of stock holding, call-off and distribution-list obligations supports separating production trigger from fulfillment responsibility; call-off alone does not establish transaction-level fulfillment.

24. Frequently Asked Questions - IngramSpark
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: IngramSpark states that it does not provide editing, typesetting or design services. This counterexample prevents treating all platform manufacturing commissions as purchases of professional preparation services.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: IngramSpark states that it does not provide editing, typesetting or design services. This counterexample prevents treating all platform manufacturing commissions as purchases of professional preparation services.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider permits nonexclusive sourcing when the customer owns its ISBN and does not offer editing, typesetting or design. These terms constrain the author service boundary, not adoption or revenue growth.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider permits nonexclusive sourcing when the customer owns its ISBN and does not offer editing, typesetting or design. These terms constrain the author service boundary, not adoption or revenue growth.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: IngramSpark permits nonexclusive use of other printers, distributors and fulfillment providers when publishers own their ISBN. This establishes an alternative-sourcing option, not observed switching or a numerical channel allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: IngramSpark permits nonexclusive use of other printers, distributors and fulfillment providers when publishers own their ISBN. This establishes an alternative-sourcing option, not observed switching or a numerical channel allocation.
25. Packaging Printing & Production - Imago Group
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier identifies book slipcases, clamshell cases, tray-and-lid constructions and multicomponent publisher packaging. This supports the enclosure-production boundary and the limitation of a simple mailer-price proxy; it does not supply sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier identifies book slipcases, clamshell cases, tray-and-lid constructions and multicomponent publisher packaging. This supports the enclosure-production boundary and the limitation of a simple mailer-price proxy; it does not supply sales weights.
26. Services - Bridgeport National Bindery
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The short-run book-production portfolio separately lists shrink-wrapping and set packing. It establishes commercial packing activity distinct from enclosure manufacture and binding, without measuring its revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The short-run book-production portfolio separately lists shrink-wrapping and set packing. It establishes commercial packing activity distinct from enclosure manufacture and binding, without measuring its revenue.
27. Terms and Conditions - CPI Print Germany
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published terms distinguish ex-works production prices from packaging, freight and postage and reserve specified input-cost adjustment rights. They support comparable-scope valuation but do not establish realized inflation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published terms distinguish ex-works production prices from packaging, freight and postage and reserve specified input-cost adjustment rights. They support comparable-scope valuation but do not establish realized inflation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate treatment of forwarding and storage responsibilities supports the eligible production-linked service boundary; contractual rights do not prove the assumed future fee-growth rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate treatment of forwarding and storage responsibilities supports the eligible production-linked service boundary; contractual rights do not prove the assumed future fee-growth rate.

28. ONIX Codelists Issue 75 - List 150: Product Form
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BB identifies hardback/cased books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BB identifies hardback/cased books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BC identifies paperback/softback books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BC identifies paperback/softback books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BH distinguishes board-page books from conventional books with rigid covers.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BH distinguishes board-page books from conventional books with rigid covers.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BE groups spiral, comb and coil forms.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BE groups spiral, comb and coil forms.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BD identifies loose-leaf books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BD identifies loose-leaf books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BF includes stapled short books; nonbook uses are excluded from the model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BF includes stapled short books; nonbook uses are excluded from the model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BL recognizes slide-bound books without measuring current sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BL recognizes slide-bound books without measuring current sales.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BO recognizes continuous concertina-fold books; nonbook charts are excluded.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BO recognizes continuous concertina-fold books; nonbook charts are excluded.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BI identifies textile-page books, not cloth-covered paper books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BI identifies textile-page books, not cloth-covered paper books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BJ identifies waterproof bath-book forms.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BJ identifies waterproof bath-book forms.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BP identifies foam-page and foam-cover books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BP identifies foam-page and foam-cover books.

29. Thomson Reuters - Fourth-Quarter and Full-Year 2025 Results
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Global Print revenue and contraction constrain professional-print scale and substitution direction; content receipts are not treated as loose-leaf service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Global Print revenue and contraction constrain professional-print scale and substitution direction; content receipts are not treated as loose-leaf service revenue.
30. Lulu - Discontinuing Saddle Stitch in Global Distribution
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provider-specific wholesale distribution restrictions establish a channel constraint, not a global sales weight or measured forecast decline.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provider-specific wholesale distribution restrictions establish a channel constraint, not a global sales weight or measured forecast decline.
31. MAGACOPY Sofia - Copying and Printing Prices
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A current EUR xx.xx binding-only charge establishes a live commercial service and a price-scope comparison; full-book USD receipts and incidence remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A current EUR xx.xx binding-only charge establishes a live commercial service and a price-scope comparison; full-book USD receipts and incidence remain assumed.
32. Imago Group - Spotlight on Children's Books for National Young Readers Week
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's children's portfolio supports board-book commercial classification, not order volumes.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's children's portfolio supports board-book commercial classification, not order volumes.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cloth-book offerings support the textile-page category premise, not its modeled incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cloth-book offerings support the textile-page category premise, not its modeled incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bath-book offerings support a separate commercial category; sales and service receipts are undisclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bath-book offerings support a separate commercial category; sales and service receipts are undisclosed.
33. Pegasus - My First Book of Shapes: EVA Foam Book
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The dated 2025 product identifies foam pages and supports commercial-status and classification checks, not global volume or supplier realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated 2025 product identifies foam pages and supports commercial-status and classification checks, not global volume or supplier realization.

34. U.S. Consumer Product Safety Commission - Children's Books
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Product classification and intended audience affect commercial compliance accountability; no numerical surcharge is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Product classification and intended audience affect commercial compliance accountability; no numerical surcharge is inferred.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The exemption boundary supports separate classification rather than assumed conventional-book treatment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The exemption boundary supports separate classification rather than assumed conventional-book treatment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Compliance classification is retained as an uncertainty, not an exclusion or measured price premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Compliance classification is retained as an uncertainty, not an exclusion or measured price premium.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specialty construction does not itself establish ordinary-book exemption eligibility or market inactivity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specialty construction does not itself establish ordinary-book exemption eligibility or market inactivity.
35. Puget Bindery - Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider identifies training manuals and reference guides as mechanical-binding applications, supporting the commissioning premise without measuring sales incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider identifies training manuals and reference guides as mechanical-binding applications, supporting the commissioning premise without measuring sales incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists commercial letterpress book plates and specialty inserts, supporting a component-service model rather than attribution of the entire book price.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists commercial letterpress book plates and specialty inserts, supporting a component-service model rather than attribution of the entire book price.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The bindery identifies commercial printers, publishers and corporate print buyers as customers and excludes direct-to-consumer sales. This supports trade-purchasing attribution but supplies no sales percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The bindery identifies commercial printers, publishers and corporate print buyers as customers and excludes direct-to-consumer sales. This supports trade-purchasing attribution but supplies no sales percentage.

36. ONIX Codelists Issue 75 - List 80: Product Packaging Type
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates single-item and multivolume slipcases; supplies classification, not sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates single-item and multivolume slipcases; supplies classification, not sales weights.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes lidded boxes from slipcase-style boxed sets.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes lidded boxes from slipcase-style boxed sets.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-ended wraparound sleeves are distinct from enclosed wrapping.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-ended wraparound sleeves are distinct from enclosed wrapping.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes envelope-like slip-sleeves and wallets or folders.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes envelope-like slip-sleeves and wallets or folders.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes pouch and bag packaging independently.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes pouch and bag packaging independently.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately recognizes shrink-wrapped products and bundles.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately recognizes shrink-wrapped products and bundles.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Defines formed-plastic clamshells and card-backed blister packaging as distinct constructions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Defines formed-plastic clamshells and card-backed blister packaging as distinct constructions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Explicitly recognizes book browse-prevention closures.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Explicitly recognizes book browse-prevention closures.

37. U.S. Government Publishing Office - Program 827-S: Federal Aviation Administration Books, Contract Pricing and Specifications

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Historical evaluation quantities provide a container-heavy institutional purchasing counterexample, not global shipment shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Historical evaluation quantities provide a container-heavy institutional purchasing counterexample, not global shipment shares.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies kraft-envelope packing within the book procurement.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies kraft-envelope packing within the book procurement.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies cushioned shipping bags as an eligible book-order enclosure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies cushioned shipping bags as an eligible book-order enclosure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Includes wrapped shipping bundles as an alternative purchasing configuration.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Includes wrapped shipping bundles as an alternative purchasing configuration.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Requires packing and filler separately from the external enclosure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Requires packing and filler separately from the external enclosure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies closure tape and securing straps independently of container construction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies closure tape and securing straps independently of container construction.

38. U.S. Government Publishing Office - Print Order Form 2511 Instructions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specifies paper-banded sets separately from shrink-wrapped sets.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specifies paper-banded sets separately from shrink-wrapped sets.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes shrink-wrapped units nested within cartons, supporting component attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes shrink-wrapped units nested within cartons, supporting component attribution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes internal packaging, container quantities and pallet requirements.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes internal packaging, container quantities and pallet requirements.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The instructions distinguish nominated delivery addresses and warehouse receiving arrangements, supporting the receiving-point attribution premise, not an observed consolidated market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The instructions distinguish nominated delivery addresses and warehouse receiving arrangements, supporting the receiving-point attribution premise, not an observed consolidated market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supplemental distribution lists accommodate multiple destinations, supporting the distinction between preallocated destination delivery and a single receiving-point handoff.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supplemental distribution lists accommodate multiple destinations, supporting the distinction between preallocated destination delivery and a single receiving-point handoff.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: GPO specifies black interior inks separately from cover inks, supporting the monochrome classification and underlying-book attribution premise, not its modeled sales weight. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GPO specifies black interior inks separately from cover inks, supporting the monochrome classification and underlying-book attribution premise, not its modeled sales weight. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Designated Pantone specifications are recognized for interior inks, supporting a separate spot-color commercial category without measuring its share. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Designated Pantone specifications are recognized for interior inks, supporting a separate spot-color commercial category without measuring its share. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Four-color process is identified as full color for interior pages; cover color is separately specified. This supports classification at both modeled anchors. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Four-color process is identified as full color for interior pages; cover color is separately specified. This supports classification at both modeled anchors. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))

39. GPOExpress Program Pricing Guide - November 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx hand folding provides a handling-cost comparison; the complete band realization remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx hand folding provides a handling-cost comparison; the complete band realization remains modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx per shrink wrap anchors a small-run comparison, not the assumed global realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx per shrink wrap anchors a small-run comparison, not the assumed global realization.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx auxiliary insertion supplies a handling-price comparison, not protective-material sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx auxiliary insertion supplies a handling-price comparison, not protective-material sales.
40. Hardcover Book Protection: Dust Jackets or Slipcases?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-product EXW slipcase prices of USD xx.xx, USD xx.xx and USD xx.xx at xx.xx xx.xx and xx.xx units constrain relative realizations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-product EXW slipcase prices of USD xx.xx, USD xx.xx and USD xx.xx at xx.xx xx.xx and xx.xx units constrain relative realizations.
41. Book Printing Cost in China: How Printing Prices Are Calculated
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately USD xx.xx per export carton including basic packing materials constrains the bulk-package budget; the container allocation is modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately USD xx.xx per export carton including basic packing materials constrains the bulk-package budget; the container allocation is modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its cushioning split is assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its cushioning split is assumed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its closure split is assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its closure split is assumed.
42. Make Believe Ideas - Independent Retail Catalog 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 catalog identifies activity books with cover-mounted blisters, establishing book-specific participation but not packaging revenue or volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 catalog identifies activity books with cover-mounted blisters, establishing book-specific participation but not packaging revenue or volume.
43. Bookmobile - Request Book Printing Quotes the Right Way to Save Money
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The printer's bookstore-oriented purchasing guidance cautions against universal shrink-wrap attachment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The printer's bookstore-oriented purchasing guidance cautions against universal shrink-wrap attachment.

44. Digital Book Printing - Bookmobile
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current book-production portfolio separately offers poly bags, supporting commercial category participation rather than a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current book-production portfolio separately offers poly bags, supporting commercial category participation rather than a sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current portfolio offers shrink-wrap independently of other finishing options.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current portfolio offers shrink-wrap independently of other finishing options.
45. Sell Books on Shopify - Lulu
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The offered storefront-to-print-and-ship route supports an accessible production-linked parcel channel, not assumed demand.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct fulfillment availability supports the parcel-use scenario without establishing envelope mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct fulfillment availability supports the parcel-use scenario without establishing bag mix.
46. European Commission - New EU Rules on Packaging Enter into Application
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional packaging minimization supports a directional right-sizing premise, not a measured global box-price effect.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Waste-reduction requirements inform the bounded substitution scenario; they do not quantify band adoption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional circularity requirements inform lower lightweight-bag exposure without implying a global book-bag ban.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Material substitution remains partly internal to the combined film-and-paper category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional recyclability pressure informs the niche substitution scenario, not an observed blister-sales decline.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Empty-space reduction provides a directional premise for lower cushioning allowance per individual box.
47. Digital Printing - U.S. Government Publishing Office
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Procurement examples allow offset or digital alternatives while restricting some digital variants, supporting an acceptance- and run-mix model rather than a universal quality ranking. This is a modeling premise, not an observed process share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Procurement examples allow offset or digital alternatives while restricting some digital variants, supporting an acceptance- and run-mix model rather than a universal quality ranking. This is a modeling premise, not an observed process share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The purchasing guidance supports conditional digital substitution, not unrestricted interchangeability or an observed forecast allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The purchasing guidance supports conditional digital substitution, not unrestricted interchangeability or an observed forecast allocation.

48. Clays demonstrate dedication to digital investment
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx books annually and xx.xx books of digital capacity in an older investment statement; this constrains scale but is not a 2025 realized output mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx books annually and xx.xx books of digital capacity in an older investment statement; this constrains scale but is not a 2025 realized output mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's inkjet investment supports an existing book-production application and a conditional adoption premise, not a quantified global forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's inkjet investment supports an existing book-production application and a conditional adoption premise, not a quantified global forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The capacity/output comparison is a limited commercial check on continued conventional book production, not a direct offset revenue observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The capacity/output comparison is a limited commercial check on continued conventional book production, not a direct offset revenue observation.
49. ISO/TC 130 - Guidelines for Using Print Production Standards, Version 1.0, 2019
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes packaging use cases and printing processes, supporting allocation of gravure to book-associated components rather than the full value of a book.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes packaging use cases and printing processes, supporting allocation of gravure to book-associated components rather than the full value of a book.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies flexographic packaging applications; the book-specific spending budget and process coefficients remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies flexographic packaging applications; the book-specific spending budget and process coefficients remain modeled.
50. Premium Layflat Photo Books - PhotobookShop
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Offers bound silver-halide photographic books and distinguishes them from digitally printed alternatives, supporting the model's separate photographic category rather than an observed sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Offers bound silver-halide photographic books and distinguishes them from digitally printed alternatives, supporting the model's separate photographic category rather than an observed sales weight.
51. The Cormac McCarthy Collection - The Folio Society
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents screen-printed cloth covers on physical book editions, supporting component-level commercial attribution. It does not measure supplier component receipts or global uptake.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents screen-printed cloth covers on physical book editions, supporting component-level commercial attribution. It does not measure supplier component receipts or global uptake.

52. Risograph Digital Duplicator Order Form, 2026 - Minneapolis College of Art and Design
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2026 institutional form recognizes Risograph book/booklet orders but excludes assembly. It supports a limited application boundary, not 2025 external commercial volume; internal institutional charges are excluded from the numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2026 institutional form recognizes Risograph book/booklet orders but excludes assembly. It supports a limited application boundary, not 2025 external commercial volume; internal institutional charges are excluded from the numerator.
53. American Printing House - 2024 Annual Report
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal 2024 product sales were USD xx.xx; braille publications represented xx.xx% of product sales; xx.xx braille volumes were produced. These inputs constrain an adjusted production-realization proxy, not a global market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The decline from xx.xx braille volumes in 2022 qualifies a uniform physical-demand growth assumption and informs the slower relative forecast activity weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2024 product sales were USD xx.xx; braille publications represented xx.xx% of product sales; xx.xx braille volumes were produced. These inputs constrain an adjusted production-realization proxy, not a global market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The decline from xx.xx braille volumes in 2022 qualifies a uniform physical-demand growth assumption and informs the slower relative forecast activity weight.
54. Kodak Moments Kiosk - Kodak Alaris
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises book-capable retail kiosk equipment and a photographic-printing portfolio. Used only as a commercial-route premise for the thermal working estimate, not as evidence of thermal book-service sales, utilization or the final share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises book-capable retail kiosk equipment and a photographic-printing portfolio. Used only as a commercial-route premise for the thermal working estimate, not as evidence of thermal book-service sales, utilization or the final share.
55. 二〇二一年全国新闻出版业基本情况
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official 2021 aggregate textbook output distinguishes school, tertiary and vocational/adult activity; historical volumes require value and global-scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official 2021 aggregate textbook output distinguishes school, tertiary and vocational/adult activity; historical volumes require value and global-scope adjustments.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Secondary, primary and teaching-book aggregate sheet counts form the school activity weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Secondary, primary and teaching-book aggregate sheet counts form the school activity weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Tertiary textbook aggregate output supplies the higher-education activity input before an assumed relative-service-value adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Tertiary textbook aggregate output supplies the higher-education activity input before an assumed relative-service-value adjustment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Vocational, adult and literacy textbook output supplies the corresponding historical activity input.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Vocational, adult and literacy textbook output supplies the corresponding historical activity input.

56. Music, printed or in manuscript imports by country, 2024 - World Integrated Trade Solution
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official HS xx.xx import observations constrain the music-publication value bridge; domestic supply, physical-book eligibility and the printing-service fraction remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official HS xx.xx import observations constrain the music-publication value bridge; domestic supply, physical-book eligibility and the printing-service fraction remain modeled.
57. Bloomsbury Publishing - 2024/25 Results Presentation
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate Academic & Professional print, digital and rights/service receipts demonstrate the required physical-revenue boundary; company mix is not treated as global market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate Academic & Professional print, digital and rights/service receipts demonstrate the required physical-revenue boundary; company mix is not treated as global market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed physical academic publishing activity supports commercial applicability but does not verify the assumed global research/reference ratio.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed physical academic publishing activity supports commercial applicability but does not verify the assumed global research/reference ratio.
58. HDSB - RFSQ 26-013: Yearbook Software and Printing Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The qualification notice establishes a commissioned yearbook scope including printing, binding and school delivery; it supplies no awarded value and is not used as a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The qualification notice establishes a commissioned yearbook scope including printing, binding and school delivery; it supplies no awarded value and is not used as a sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The yearbook qualification notice restricts supply to prequalified vendors while permitting school bulk orders and individual ordering. It supports separating commissioning authority from ultimate payment, but discloses no fulfilled-order value.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The yearbook qualification notice restricts supply to prequalified vendors while permitting school bulk orders and individual ordering. It supports separating commissioning authority from ultimate payment, but discloses no fulfilled-order value.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The individual-ordering option establishes an attribution uncertainty relevant to the modeled household portion; it does not establish the assumed xx.xx% proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The individual-ordering option establishes an attribution uncertainty relevant to the modeled household portion; it does not establish the assumed xx.xx% proportion.

59. U.S. Census Bureau - 2022 Economic Census, Books Printing Questionnaire MC-32312
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official printing questionnaire supports the distinction between textbook and general-book production; recognition is not treated as a revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official printing questionnaire supports the distinction between textbook and general-book production; recognition is not treated as a revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognized coloring-book output supports treating recreational activity commissions separately from institutional textbooks according to purpose.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognized coloring-book output supports treating recreational activity commissions separately from institutional textbooks according to purpose.
60. Press Information Bureau - Department of School Education & Literacy, Year End Review 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The government review describes substantial NCERT physical-textbook activity, independently qualifying the physical-availability premise without establishing attributable supplier revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The government review describes substantial NCERT physical-textbook activity, independently qualifying the physical-availability premise without establishing attributable supplier revenue.
61. 2022 North American Industry Classification System - United States
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dedicated book-publishing activity is separated from institutional primary activities and printing without publishing, constraining the Publishing Organizations numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dedicated book-publishing activity is separated from institutional primary activities and printing without publishing, constraining the Publishing Organizations numerator.
62. U.S. Census Bureau - Books Printing: 2002
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Table xx.xx reports 2002 U.S. books-printing contract-work costs of USD xx.xx and shipments of USD xx.xx. Their ratio supplies a dated manufacturing-subcontract proxy, held constant within the forecast component.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Table xx.xx reports 2002 U.S. books-printing contract-work costs of USD xx.xx and shipments of USD xx.xx. Their ratio supplies a dated manufacturing-subcontract proxy, held constant within the forecast component.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical subcontract-cost input constrains the modeled transfer from publisher-origin commissioning to performing suppliers, without adding another gross contract value.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical subcontract-cost input constrains the modeled transfer from publisher-origin commissioning to performing suppliers, without adding another gross contract value.
63. Samfine Creation Holdings Group Limited - Form 20-F for the year ended December 31, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports USD xx.xx of 2025 book-product revenue and principally serves book traders that secure printing contracts and outsource production. This is a supplier-specific quantitative role check, not a Global allocation weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports USD xx.xx of 2025 book-product revenue and principally serves book traders that secure printing contracts and outsource production. This is a supplier-specific quantitative role check, not a Global allocation weight.

64. Ministry of Education - NCERT and Amazon Letter of Engagement, October 7, 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2024 announcement targeted xx.xx NCERT books for academic 2025-xx.xx. This is a planned institutional activity anchor; realization, eligible receipts and subsequent growth are modeled separately.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2024 announcement targeted xx.xx NCERT books for academic 2025-xx.xx. This is a planned institutional activity anchor; realization, eligible receipts and subsequent growth are modeled separately.
65. Bangladesh e-GP - NCTB/TEXTBOOK/2025, Package GD.102_SEC_8.031
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The government-funded procurement plan specifies xx.xx academic-2025 textbook copies and an estimated BDT xx.xx for printing, binding and supply. It constrains commercial order scale and local unit-budget plausibility, not realized annual revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The government-funded procurement plan specifies xx.xx academic-2025 textbook copies and an estimated BDT xx.xx for printing, binding and supply. It constrains commercial order scale and local unit-budget plausibility, not realized annual revenue.
66. Students suffer as NCTB fails to deliver books - The Daily Star, January 17, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 report corroborates the dated approximately xx.xx-copy textbook target and early-year delivery disruption. Target realization and supplier receipts remain modeled.
67. Secondary-level students: A new year without full set of books for many - The Daily Star, December 28, 2025
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 report corroborates the approximately xx.xx-copy academic-2026 target and continued delivery slippage. It informs a normalization assumption, not an observed 2032 share.
68. Business Books - Print Professional, Custom Corporate Books | Blurb
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The business-book offering includes organizational presentation and corporate-gift applications. It establishes an in-scope commissioning proposition, not the modeled global copy quantity or spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The business-book offering includes organizational presentation and corporate-gift applications. It establishes an in-scope commissioning proposition, not the modeled global copy quantity or spending.
69. How to Use Lulu to Support Your Nonprofit | Lulu
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform permits an organization or charity to receive creator proceeds. This supports excluding beneficiary-only arrangements from nonprofit commissioning; it does not measure nonprofit printing purchases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform permits an organization or charity to receive creator proceeds. This supports excluding beneficiary-only arrangements from nonprofit commissioning; it does not measure nonprofit printing purchases.

70. News Corp - Form 10-K for the fiscal year ended June 30, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal 2025 consumer backlist revenue of xx.xx% and digital revenue of xx.xx% anchor the assumed physical-backlist bridge and its forecast starting model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2025 consumer backlist revenue of xx.xx% and digital revenue of xx.xx% anchor the assumed physical-backlist bridge and its forecast starting model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed backlist mix constrains recurring-title demand; its division into replenishment and POD remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed backlist mix constrains recurring-title demand; its division into replenishment and POD remains modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The complementary frontlist population supports the launch-stock cohort after physical-format adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The complementary frontlist population supports the launch-stock cohort after physical-format adjustments.
71. News Corp - Form 10-K for the fiscal year ended June 30, 2026
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2026 backlist revenue of xx.xx% and digital revenue of xx.xx% lower the forecast physical-backlist proxy instead of assuming continued backlist expansion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The updated catalog mix changes the forecast population available for repeat inventory releases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The updated frontlist/backlist bridge changes the forecast planned-production weight; no 2032 share is disclosed.
72. How Do Lulu Direct Orders Work?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lulu describes printing after customer purchase and distinguishes production from subsequent shipment, supporting recipient-order attribution rather than technology-based classification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lulu describes printing after customer purchase and distinguishes production from subsequent shipment, supporting recipient-order attribution rather than technology-based classification.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: No minimum order and one-copy ordering establish commercial feasibility, not the number or value of single-copy releases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No minimum order and one-copy ordering establish commercial feasibility, not the number or value of single-copy releases.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: One POD offering accepts hundreds of copies, independently challenging a POD-equals-single-copy allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One POD offering accepts hundreds of copies, independently challenging a POD-equals-single-copy allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Orders can extend into thousands within the same offering; the production trigger therefore does not uniquely identify the working run band.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Orders can extend into thousands within the same offering; the production trigger therefore does not uniquely identify the working run band.

73. Supply Chain - Clays
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Clays describes differentiated backlist arrangements and stock visibility, supporting a separate inventory-replenishment cohort without establishing its numerical prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Clays describes differentiated backlist arrangements and stock visibility, supporting a separate inventory-replenishment cohort without establishing its numerical prevalence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: New-title consolidation and predictable annual backlist demand support retaining planned inventory commitments; short-run printing is explicitly not necessarily POD.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: New-title consolidation and predictable annual backlist demand support retaining planned inventory commitments; short-run printing is explicitly not necessarily POD.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Clays explicitly distinguishes short-run work from POD, supporting category separation rather than a technological proxy for value share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Clays explicitly distinguishes short-run work from POD, supporting category separation rather than a technological proxy for value share.
74. Smart Backlist Management: When to Hold and When to Print-on-Demand
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheridan describes low-volume titles moving to POD while other titles retain inventory, supporting differentiated release-policy assumptions rather than a uniform backlist-to-POD conversion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheridan describes low-volume titles moving to POD while other titles retain inventory, supporting differentiated release-policy assumptions rather than a uniform backlist-to-POD conversion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A disclosed customer example uses a stock threshold to trigger a 2,000-copy replenishment order. It establishes the commercial mechanism, not a market-wide share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A disclosed customer example uses a stock threshold to trigger a 2,000-copy replenishment order. It establishes the commercial mechanism, not a market-wide share.

75. Shortage of NCERT textbooks - Rajya Sabha Unstarred Question No. 1941, December 17, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advance enrollment-based forecasting, academic-session readiness and a fiscal 2025-xx.xx plan for approximately xx.xx textbooks support a substantial calendar-driven stock cohort. The target is not realized production.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advance enrollment-based forecasting, academic-session readiness and a fiscal 2025-xx.xx plan for approximately xx.xx textbooks support a substantial calendar-driven stock cohort. The target is not realized production.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phased supply and inventory monitoring support distinguishing ongoing availability obligations from individual-recipient POD, without quantifying replenishment's global prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phased supply and inventory monitoring support distinguishing ongoing availability obligations from individual-recipient POD, without quantifying replenishment's global prevalence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official answer distinguishes printer empanelment from approximately xx.xx distribution vendors and describes planned fiscal 2025-xx.xx printing of approximately xx.xx textbooks. It supports commissioning-versus-distribution separation, not a realized monetary channel split.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official answer distinguishes printer empanelment from approximately xx.xx distribution vendors and describes planned fiscal 2025-xx.xx printing of approximately xx.xx textbooks. It supports commissioning-versus-distribution separation, not a realized monetary channel split.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phased textbook supply supports treating annual institutional quantities separately from production batches; it does not disclose the medium-run allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phased textbook supply supports treating annual institutional quantities separately from production batches; it does not disclose the medium-run allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 answer identifies a xx.xx-million-copy FY2025-xx.xx printing decision versus approximately xx.xx in recent years, a counterforce to assuming rapid long-run disappearance. Planned copies are not realized service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 answer identifies a xx.xx-million-copy FY2025-xx.xx printing decision versus approximately xx.xx in recent years, a counterforce to assuming rapid long-run disappearance. Planned copies are not realized service revenue.
76. Fulfillment Fee - Lulu Direct
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2026 schedule lists USD xx.xx per order regardless of item count, supporting an order-frequency effect on associated-service value. It does not verify the assumed historical or forecast multiplier.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2026 schedule lists USD xx.xx per order regardless of item count, supporting an order-frequency effect on associated-service value. It does not verify the assumed historical or forecast multiplier.

77. InnerWorkings, Inc. - Form 10-K for the year ended December 31, 2019
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2019 filing reports USD xx.xx gross profit on USD xx.xx revenue and describes purchased-product and direct-service costs. Historical reported margins constrain the modeled xx.xx% retained-fee ratio; they do not directly measure book-channel share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2019 filing reports USD xx.xx gross profit on USD xx.xx revenue and describes purchased-product and direct-service costs. Historical reported margins constrain the modeled xx.xx% retained-fee ratio; they do not directly measure book-channel share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The procurement-service margin comparison supports the fee-to-managed-spending bridge underlying the direct-channel complement. Carrying the normalized ratio into 2032 is explicitly a forecast assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The procurement-service margin comparison supports the fee-to-managed-spending bridge underlying the direct-channel complement. Carrying the normalized ratio into 2032 is explicitly a forecast assumption.
78. Simplified Purchase Agreement - U.S. Government Publishing Office
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SPA permits agency awards directly to certified vendors for purchases up to USD xx.xx while GPO pays vendors and invoices agencies. This supports classifying by the contracting relationship rather than the invoice payer, not a numerical global weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SPA permits agency awards directly to certified vendors for purchases up to USD xx.xx while GPO pays vendors and invoices agencies. This supports classifying by the contracting relationship rather than the invoice payer, not a numerical global weight.
79. Global Print Services | China, Europe, SE Asia, USA & India
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Imago describes sourcing suppliers and coordinating multiple manufacturers for book-related projects. Its cumulative customer relationships establish the offered intermediary role but are not annual revenue or allocation weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Imago describes sourcing suppliers and coordinating multiple manufacturers for book-related projects. Its cumulative customer relationships establish the offered intermediary role but are not annual revenue or allocation weights.
80. Lion Rock Group Limited - Annual Report 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-business 2025 turnover changes of minus xx.xx% for APOL and minus xx.xx% for Regent challenge uniform intermediary growth; Regent's non-book focus limits its relevance. These observations support avoiding an additional adoption uplift.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-business 2025 turnover changes of minus xx.xx% for APOL and minus xx.xx% for Regent challenge uniform intermediary growth; Regent's non-book focus limits its relevance. These observations support avoiding an additional adoption uplift.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Manufacturing turnover changes of minus xx.xx% at xx.xx Printing and plus xx.xx% at Papercraft demonstrate differing supplier trajectories rather than a simple common channel-growth pattern; these are not direct-contracting market shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Manufacturing turnover changes of minus xx.xx% at xx.xx Printing and plus xx.xx% at Papercraft demonstrate differing supplier trajectories rather than a simple common channel-growth pattern; these are not direct-contracting market shares.

81. Imprint Digital - Book Printing Prices UK

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected schedule quotes GBP xx.xx at xx.xx copies for one paperback specification, supporting a relative-price input, not a historical global realization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected schedule quotes GBP xx.xx at xx.xx copies for one paperback specification, supporting a relative-price input, not a historical global realization.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: GBP xx.xx at xx.xx copies supplies the medium-run reference index; format and delivery differences require separate treatment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GBP xx.xx at xx.xx copies supplies the medium-run reference index; format and delivery differences require separate treatment.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The quantity-price curve anchors the reference from which the long-run discount is assumed; no long-run price or future share is disclosed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The quantity-price curve anchors the reference from which the long-run discount is assumed; no long-run price or future share is disclosed.

82. Print Options

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: KDP distinguishes black-and-white from color records and locks ink type after publication. These platform-specific conditions qualify switching assumptions, not market weights. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: KDP distinguishes black-and-white from color records and locks ink type after publication. These platform-specific conditions qualify switching assumptions, not market weights. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The displayed platform menu does not establish designated spot-color availability or sales; a general color option is not used as evidence of spot-color demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The displayed platform menu does not establish designated spot-color availability or sales; a general color option is not used as evidence of spot-color demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Standard color is unavailable for hardcover, but premium color is available. Both process-color tiers belong within the modeled Full-Color Interiors category. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Standard color is unavailable for hardcover, but premium color is available. Both process-color tiers belong within the modeled Full-Color Interiors category. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))

83. Synthèse des chiffres de l'édition jeunesse 2024-2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The primary French publishing survey reports a xx.xx% decline in illustrated early-childhood volumes and a xx.xx% decline in youth-fiction volumes in 2024. These differing outcomes challenge an aggressive universal color-growth assumption. ([sne.fr](https://www.sne.fr/actu/synthese-des-chiffres-de-ledition-jeunesse-2024-2025/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The primary French publishing survey reports a xx.xx% decline in illustrated early-childhood volumes and a xx.xx% decline in youth-fiction volumes in 2024. These differing outcomes challenge an aggressive universal color-growth assumption. ([sne.fr](https://www.sne.fr/actu/synthese-des-chiffres-de-ledition-jeunesse-2024-2025/))

Sources & Evidence

1. European Book Publishing Statistics 2024
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: European publishers reported approximately EUR xx.xx of net book-sales revenue in 2024. The disclosed ebook and audiobook proportions inform the modeled xx.xx% physical-book revenue proportion; publisher revenue is an input, not printing-service revenue.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 publisher-revenue and format observations provide the European demand input carried into the 2025 estimate.

2. The Global Publishing Industry in 2022

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Table xx.xx supplies country-level publishing revenues and identifies differences between retail-value, publisher-revenue, print-only and prior-year observations. Selected non-European country observations are adjusted for physical formats and period before estimating production spending.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The selected country observations contribute to the demand pool underlying the 2025 working estimate. Nielsen retail datasets elsewhere in the publication are not used.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Primary survey sector differences constrain the education-adjusted hardcover proxy.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Primary survey sector differences constrain the education-adjusted hardcover proxy.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Educational/trade differences qualify extrapolation of U.S. consumer-format revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Educational/trade differences qualify extrapolation of U.S. consumer-format revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx of surveyed children's publishing revenue anchors the modeled specialty demand pool, not supplier receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx of surveyed children's publishing revenue anchors the modeled specialty demand pool, not supplier receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sector data constrain the commissioning-pool proxy; mechanical incidence remains assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sector data constrain the commissioning-pool proxy; mechanical incidence remains assumed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Educational demand supplies a common economic anchor; loose-leaf incidence remains modeled.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Educational demand supplies a common economic anchor; loose-leaf incidence remains modeled.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sector observations constrain the educational short-book commissioning pool.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sector observations constrain the educational short-book commissioning pool.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The commissioning-pool anchor supports an explicit sparse-format incidence model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The commissioning-pool anchor supports an explicit sparse-format incidence model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors the accordion working estimate, not observed accordion orders.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors the accordion working estimate, not observed accordion orders.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed textile-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed textile-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed bath-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed bath-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed foam-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed foam-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original publishing survey documents country-level trade/education revenue differences used to constrain the modeled physical-publishing mix; it does not directly measure service shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original publishing survey documents country-level trade/education revenue differences used to constrain the modeled physical-publishing mix; it does not directly measure service shares.

3. 2024 年新闻出版统计公报

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: For 2024, the official table reports xx.xx book copies or sheets and CNY xx.xx of book-publishing revenue. These constrain the demand bridge and historical contraction, rather than directly measuring printing-service sales.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 book-publishing observation supplies the Chinese demand primitive for the 2025 model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official 2024 output of xx.xx copies/sheets constrains total modeled publisher activity; it does not disclose single-copy production.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official 2024 output of xx.xx copies/sheets constrains total modeled publisher activity; it does not disclose single-copy production.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Aggregate copies and annual title output constrain the shared activity model, not an observed short-run share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Aggregate copies and annual title output constrain the shared activity model, not an observed short-run share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Aggregate production provides a scale check for the medium-run assumption; annual copies per title are not individual batches.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Aggregate production provides a scale check for the medium-run assumption; annual copies per title are not individual batches.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx annual copies per title constrain the long-run scenario without proving its batch mix or forecast.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx annual copies per title constrain the long-run scenario without proving its batch mix or forecast.

4. Foreign Exchange Rates - G.5A Annual, January 5, 2026

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: The official 2024 annual-average conversion inputs are USD xx.xx per EUR, CNY xx.xx per USD and CAD xx.xx per USD.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The exchange-rate table establishes the conversion basis of the preceding-year demand inputs used in the 2025 estimate; subsequent effective-USD price assumptions are modeled separately.

5. Book publishing industry, 2024 - Statistics Canada
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Canadian publishers reported CAD xx.xx of print sales outside the online category and CAD xx.xx of online print sales in 2024. Their sum, rather than total operating revenue, supplies the physical-book demand input.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: Reported cost of goods sold of CAD xx.xx, up CAD xx.xx from 2022, supplies a cost-pressure cross-check, not a directly attributable printing-services total.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Canadian online versus other print-sales values constrain parcel exposure, with explicit value-to-unit and geographic limitations.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Canadian online versus other print-sales values constrain parcel exposure, with explicit value-to-unit and geographic limitations.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed envelope purchases.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed envelope purchases.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed bag purchases.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed bag purchases.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Modest observed online-print growth qualifies aggressive parcel-related wrapping assumptions.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Modest observed online-print growth qualifies aggressive parcel-related wrapping assumptions.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring separate protection.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring separate protection.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring closures.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring closures.
6. U.S. Census Bureau - Books Printing: Shipments, annual table
   - Evidence informing the 2017 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2017; this is a national production anchor for the historical model.
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2018.
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2019.
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2020.
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2021.
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2022.
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2024. This national industrial measure is narrower than the composite global service boundary.

7. U.S. Census Bureau - Book Publishers, All Establishments: Revenue, annual table
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: The Census annual series reports USD xx.xx of U.S. book-publisher revenue for 2024. A modeled xx.xx% physical-book proportion excludes digital and other adjacent receipts.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 Census observation replaces an older survey-based U.S. revenue bridge in the demand pool underlying 2025.

8. Scholastic Corporation - Form 10-K for the year ended May 31, 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Scholastic's fiscal 2024 product, service, production and inventory-reserve costs were xx.xx% of revenue; postage, freight, shipping, fulfillment and other costs were xx.xx%. These broad categories constrain, but do not directly establish, eligible outsourced-service spending.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The corresponding fiscal 2025 proportions were xx.xx% and xx.xx%. Royalties and prepublication amortization are separately disclosed, allowing their exclusion from the service-market bridge.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 product, service, production and inventory-reserve costs were xx.xx% of revenue. The broader cost category constrains the manufacturing spending boundary but does not directly disclose printing-service revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 product, service, production and inventory-reserve costs were xx.xx% of revenue. The broader cost category constrains the manufacturing spending boundary but does not directly disclose printing-service revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Prepublication amortization is disclosed separately from production costs, supporting exclusion of adjacent amortization rather than equating it with externally purchased prepress.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Prepublication amortization is disclosed separately from production costs, supporting exclusion of adjacent amortization rather than equating it with externally purchased prepress.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Postage, freight, shipping, fulfillment and other costs were xx.xx% of revenue in fiscal 2025 versus xx.xx% in fiscal 2024. This is a broad buyer-cost check, not an eligible outsourced-fulfillment share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Postage, freight, shipping, fulfillment and other costs were xx.xx% of revenue in fiscal 2025 versus xx.xx% in fiscal 2024. This is a broad buyer-cost check, not an eligible outsourced-fulfillment share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Outsourced manufacturing coexists with company-operated distribution. Fiscal-2025 production-related costs were xx.xx% of revenue, constraining the inherited spending bridge rather than directly measuring the assumed route fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Outsourced manufacturing coexists with company-operated distribution. Fiscal-2025 production-related costs were xx.xx% of revenue, constraining the inherited spending bridge rather than directly measuring the assumed route fraction.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Book-club revenue was xx.xx% online-ordered and xx.xx% parent-ordered, while products typically went to classrooms. This challenges the use of online sales as a proxy for the external contractor's delivery model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Book-club revenue was xx.xx% online-ordered and xx.xx% parent-ordered, while products typically went to classrooms. This challenges the use of online sales as a proxy for the external contractor's delivery model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct printer-to-customer fulfillment is a disclosed option. Broader logistics/other costs were xx.xx% of revenue versus xx.xx% previously, providing a cost-boundary check but no global order-level share or service-price growth observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct printer-to-customer fulfillment is a disclosed option. Broader logistics/other costs were xx.xx% of revenue versus xx.xx% previously, providing a cost-boundary check but no global order-level share or service-price growth observation.

9. CEWE achieves all targets in 2025 and aims to further increase revenue and earnings in 2026

- Evidence informing the 2025 market-value input; displayed series and growth include calculations: CEWE reported xx.xx CEWE PHOTOBOOK copies in 2025 versus xx.xx in 2024, supporting a positive specialty-book volume assumption without establishing global adoption.
- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Observed 2025 photobook growth informs the specialty-demand assumption for 2026; the market value remains modeled.
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The observed specialty-book activity is a starting condition for the forecast, not independent proof of continued growth through 2032.
- Evidence informing the 2040 market-value input; displayed series and growth include calculations: The forecast explicitly slows specialty-demand growth after 2032; this source supplies the initial commercial observation, not the long-term growth rate.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: CEWE reports xx.xx photobooks in 2025 compared with xx.xx in 2024. This independently establishes specialty-book activity underlying the nonpublisher model, without establishing a global expansion factor.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CEWE reports xx.xx photobooks in 2025 compared with xx.xx in 2024. This independently establishes specialty-book activity underlying the nonpublisher model, without establishing a global expansion factor.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports retaining premium specialty commissions in the manufacturing mix; the binding allocation and unchanged future cohort profile remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports retaining premium specialty commissions in the manufacturing mix; the binding allocation and unchanged future cohort profile remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported photobook volumes constrain personal-book activity and the nonpublisher starting condition, not hardcover prevalence or future share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported photobook volumes constrain personal-book activity and the nonpublisher starting condition, not hardcover prevalence or future share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Photobook activity supports the separate personal-book commissioning block; its softcover fraction remains assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Photobook activity supports the separate personal-book commissioning block; its softcover fraction remains assumed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported photobook copies rose from xx.xx to xx.xx; the narrower 2026 target qualifies strong specialty-growth assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported photobook copies rose from xx.xx to xx.xx; the narrower 2026 target qualifies strong specialty-growth assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specialty-book activity constrains the presentation-demand scenario but does not measure gift-box attachment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specialty-book activity constrains the presentation-demand scenario but does not measure gift-box attachment.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CEWE PHOTOBOOK units in 2025 versus xx.xx in 2024, constraining the specialty-book demand budget without establishing a global process split.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CEWE PHOTOBOOK units in 2025 versus xx.xx in 2024, constraining the specialty-book demand budget without establishing a global process split.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports the common photographic-demand input; electrophotographic attribution remains an explicit assumption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports the common photographic-demand input; electrophotographic attribution remains an explicit assumption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The photobook

10. Paperback Printing Cost - Kindle Direct Publishing

- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The inspected U.S. paperback schedule charges USD xx.xx plus USD xx.xx per page for the specified regular-trim black-ink category. It provides a contemporary commercial price comparison for the assumed USD xx.xx self-publishing production receipt, not an observed historical price or volume.
- Evidence informing the 2026 market-value input; displayed series and growth include calculations: The schedule distinguishes printing charges from royalties and retail list prices, supporting the production-receipt boundary used in the estimate.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule uses USD xx.xx plus USD xx.xx per page for the relevant page band, yielding the USD xx.xx representative manufacturing comparator. It anchors relative weights, not an observed global 2025 price or future share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule uses USD xx.xx plus USD xx.xx per page for the relevant page band, yielding the USD xx.xx representative manufacturing comparator. It anchors relative weights, not an observed global 2025 price or future share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The paperback manufacturing comparator supplies the baseline from which the modeled binding component and hardcover increment are separated.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The paperback manufacturing comparator supplies the baseline from which the modeled binding component and hardcover increment are separated.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The separately identified paperback printing charge constrains the self-publishing production-receipt model and its distinction from retail proceeds.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The separately identified paperback printing charge constrains the self-publishing production-receipt model and its distinction from retail proceeds.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page. It is a contemporary production-charge comparison for the modeled USD xx.xx receipt, not an observed historical Global average.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page. It is a contemporary production-charge comparison for the modeled USD xx.xx receipt, not an observed historical Global average.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The relevant current U.S. paperback printing schedule is USD xx.xx plus USD xx.xx per page, giving USD xx.xx at xx.xx pages. This is a commercial price comparison for creator-production receipts, not proof of 2025 realization, volume or fulfillment mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The relevant current U.S. paperback printing schedule is USD xx.xx plus USD xx.xx per page, giving USD xx.xx at xx.xx pages. This is a commercial price comparison for creator-production receipts, not proof of 2025 realization, volume or fulfillment mix.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule of USD xx.xx plus USD xx.xx per page gives USD xx.xx at xx.xx pages, a magnitude check for modeled single-copy receipts. It establishes neither global volume nor historical or forecast share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule of USD xx.xx plus USD xx.xx per page gives USD xx.xx at xx.xx pages, a magnitude check for modeled single-copy receipts. It establishes neither global volume nor historical or forecast share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page, yielding USD xx.xx for xx.xx pages. This is a contemporary price comparator, not a historical global average. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834340))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page, yielding USD xx.xx for xx.xx pages. This is a contemporary price comparator, not a historical global average. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834340))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The comparable standard and premium color charges calculate to USD xx.xx and USD xx.xx. They constrain relative

11. European Book Publishing Statistics 2017

- Evidence informing the 2017 market-value input; displayed series and growth include calculations: The association's primary survey reports approximately EUR xx.xx of European net publisher revenue for 2017, constraining the pre-pandemic demand level.

12. European Book Publishing Statistics 2019

- Evidence informing the 2018 market-value input; displayed series and growth include calculations: The association reports approximately EUR xx.xx of publisher revenue for 2018.
- Evidence informing the 2019 market-value input; displayed series and growth include calculations: The association reports approximately EUR xx.xx for 2019 and identifies a questionnaire change that limits exact comparability with earlier observations.

13. 2021 年新闻出版产业分析报告

- Evidence informing the 2020 market-value input; displayed series and growth include calculations: The official report's 2021 comparison identifies a substantial rebound from 2020, constraining the pandemic-recovery bridge.
- Evidence informing the 2021 market-value input; displayed series and growth include calculations: China reported xx.xx book copies or sheets in 2021, up xx.xx%; the report also distinguishes textbook output and reprints.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: China's official 2021 textbook share was xx.xx% of book copies. It supplies an older educational-activity proxy, not a monochrome share.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: China's official 2021 textbook share was xx.xx% of book copies. It supplies an older educational-activity proxy, not a monochrome share.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The textbook copy proportion constrains educational exposure; comparable monetary intensity and spot-color incidence are modeled separately.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The textbook copy proportion constrains educational exposure; comparable monetary intensity and spot-color incidence are modeled separately.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational-activity observation contributes to the shared demand proxy carried into the full-color base and forecast models; no color split is reported.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational-activity observation contributes to the shared demand proxy carried into the full-color base and forecast models; no color split is reported.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))

14. European Book Publishing Statistics 2023

- Evidence informing the 2022 market-value input; displayed series and growth include calculations: European net publisher revenue was approximately EUR xx.xx in 2022; the association describes paper-cost pressure and price-led growth.

15. Ministry of Education - Press conference release, December 17, 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The announced increase in annual NCERT textbook printing from xx.xx to xx.xx supports an educational-demand mechanism, not realized supplier receipts or the modeled forecast share. ([education.gov.in](https://www.education.gov.in/sites/upload_files/mhrd/files/PIB%20releae%20of%20the%20Press%20Conference%20held%20today.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced increase in annual NCERT textbook printing from xx.xx to xx.xx supports an educational-demand mechanism, not realized supplier receipts or the modeled forecast share. ([education.gov.in](https://www.education.gov.in/sites/upload_files/mhrd/files/PIB%20releae%20of%20the%20Press%20Conference%20held%20today.pdf))
16. Hardcover Printing Cost - Kindle Direct Publishing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim hardcover schedule uses USD xx.xx plus USD xx.xx per page in the relevant band. Comparison with paperback charges constrains the premium-equivalent manufacturing model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim hardcover schedule uses USD xx.xx plus USD xx.xx per page in the relevant band. Comparison with paperback charges constrains the premium-equivalent manufacturing model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD xx.xx fixed-charge difference supplies the POD premium input; the xx.xx% commercial-run realization and premium incidence are explicitly modeled rather than disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD xx.xx fixed-charge difference supplies the POD premium input; the xx.xx% commercial-run realization and premium incidence are explicitly modeled rather than disclosed.
17. User Fees - University of Wisconsin-Milwaukee Print & Copy Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The university service schedule separately prices preflight/prepress preparation at USD xx.xx per hour, establishing a paid preparation activity rather than an automatic component of every printing-platform purchase.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The university service schedule separately prices preflight/prepress preparation at USD xx.xx per hour, establishing a paid preparation activity rather than an automatic component of every printing-platform purchase.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Perfect binding is listed at USD xx.xx-xx.xx per book. The lower endpoint is the model's basic-binding comparator, not a measured worldwide realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Perfect binding is listed at USD xx.xx-xx.xx per book. The lower endpoint is the model's basic-binding comparator, not a measured worldwide realization.

18. How Much Does It Cost to Print a Book? - QinPrinting
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier's delivered xx.xx-page, xx.xx-copy color-book examples list USD xx.xx for softcover and USD xx.xx for hardcover. They provide a commercial-run countercheck, with delivery and product differences preventing direct substitution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier's delivered xx.xx-page, xx.xx-copy color-book examples list USD xx.xx for softcover and USD xx.xx for hardcover. They provide a commercial-run countercheck, with delivery and product differences preventing direct substitution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The smaller hardcover premium in this offset example qualifies extrapolation of the full POD hardcover increment into binding revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The smaller hardcover premium in this offset example qualifies extrapolation of the full POD hardcover increment into binding revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Comparable hardcover and softcover quotations constrain the assumed relative manufacturing realization after scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Comparable hardcover and softcover quotations constrain the assumed relative manufacturing realization after scope adjustments.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Softcover prices provide a commercial comparison, not a historical global average.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Softcover prices provide a commercial comparison, not a historical global average.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Board-book quotations constrain the assumed production receipt; delivery and duties require adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Board-book quotations constrain the assumed production receipt; delivery and duties require adjustment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Mechanical-binding quotations constrain the unit-receipt assumption, not incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Mechanical-binding quotations constrain the unit-receipt assumption, not incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Short-booklet quotations constrain the lower realization used for eligible saddle-stitched books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Short-booklet quotations constrain the lower realization used for eligible saddle-stitched books.
19. Book Wrap Mailers / Book Boxes - Packaging ONE
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer lists MP2 book mailers at GBP xx.xx each for xx.xx packs of xx.xx excluding VAT. The converted unit price supplies the packaging-creation value proxy, not a global average or a historical quote.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer lists MP2 book mailers at GBP xx.xx each for xx.xx packs of xx.xx excluding VAT. The converted unit price supplies the packaging-creation value proxy, not a global average or a historical quote.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The enclosure price forms the other side of the creation-versus-packing ratio. One comparable enclosure per packing unit is an explicit activity-matching assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The enclosure price forms the other side of the creation-versus-packing ratio. One comparable enclosure per packing unit is an explicit activity-matching assumption.

20. Foreign Exchange Rates - G.5A Annual, January 5, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 annual average is USD xx.xx per GBP. It converts the GBP packaging comparator into the common monetary basis used in the starting allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 annual average is USD xx.xx per GBP. It converts the GBP packaging comparator into the common monetary basis used in the starting allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same conversion supports the common-currency packaging/packing denominator inherited by the forecast; no 2032 exchange rate is asserted.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same conversion supports the common-currency packaging/packing denominator inherited by the forecast; no 2032 exchange rate is asserted.
21. Optional Book Publishing Services - InstantPublisher
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider lists layout/typesetting at USD xx.xx per page with a USD xx.xx minimum. This supports the preparation-spending feasibility check, with purchase incidence and copies per job remaining assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider lists layout/typesetting at USD xx.xx per page with a USD xx.xx minimum. This supports the preparation-spending feasibility check, with purchase incidence and copies per job remaining assumptions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Individual shrink-wrapping is listed at USD xx.xx each plus USD xx.xx setup. Amortizing setup over an assumed xx.xx copies gives the USD xx.xx packing comparator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Individual shrink-wrapping is listed at USD xx.xx each plus USD xx.xx setup. Amortizing setup over an assumed xx.xx copies gives the USD xx.xx packing comparator.
22. How Does Merchant Pricing Work for Ecommerce Stores? - Lulu Direct
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2026 merchant-pricing explanation identifies a USD xx.xx fulfillment fee and separates merchant retail receipts from payments for supplier production, shipping and taxes. The fee is a contemporary feasibility comparator, not verified 2025 penetration or a future charge.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2026 merchant-pricing explanation identifies a USD xx.xx fulfillment fee and separates merchant retail receipts from payments for supplier production, shipping and taxes. The fee is a contemporary feasibility comparator, not verified 2025 penetration or a future charge.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Merchant retail receipts are separate from payments for printing and fulfillment. The current page lists a USD xx.xx fulfillment fee, with shipping and taxes separately calculated. This supports the service-value boundary, not a historical average fee or global order volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Merchant retail receipts are separate from payments for printing and fulfillment. The current page lists a USD xx.xx fulfillment fee, with shipping and taxes separately calculated. This supports the service-value boundary, not a historical average fee or global order volume.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lulu identifies separate retail and production/fulfillment transactions and a USD xx.xx fulfillment fee. This supports excluding merchant retail margins from production-service value and avoiding automatic procurement-channel classification from the storefront.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lulu identifies separate retail and production/fulfillment transactions and a USD xx.xx fulfillment fee. This supports excluding merchant retail margins from production-service value and avoiding automatic procurement-channel classification from the storefront.

23. AAP December 2025 StatShot Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The primary monthly reporting panel's full-year 2025 trade figures show paperback revenue down xx.xx%. This qualifies broad physical-book growth assumptions and supplies directional mix evidence only.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The primary monthly reporting panel's full-year 2025 trade figures show paperback revenue down xx.xx%. This qualifies broad physical-book growth assumptions and supplies directional mix evidence only.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same approximately xx.xx-publisher panel shows hardcover revenue up xx.xx%. It supports a modest premium-mix hypothesis but neither measures global binding spending nor proves the forecast.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same approximately xx.xx-publisher panel shows hardcover revenue up xx.xx%. It supports a modest premium-mix hypothesis but neither measures global binding spending nor proves the forecast.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct-participant 2025 hardback revenue of approximately USD xx.xx anchors the adjusted conventional-format model; it is not printing revenue or a global share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct-participant 2025 hardback revenue of approximately USD xx.xx anchors the adjusted conventional-format model; it is not printing revenue or a global share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported paperback revenue of approximately USD xx.xx plus USD xx.xx mass-market revenue supplies the comparison input. Reported annual movements qualify the forecast starting mix, not its future persistence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported paperback revenue of approximately USD xx.xx plus USD xx.xx mass-market revenue supplies the comparison input. Reported annual movements qualify the forecast starting mix, not its future persistence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct publisher-sample religious and trade physical-format receipts provide a category-intensity proxy, subject to explicit geographic and coverage adjustments.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct publisher-sample religious and trade physical-format receipts provide a category-intensity proxy, subject to explicit geographic and coverage adjustments.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported professional-book receipts and their 2025 decline challenge assumptions of automatic growth from recurring reference relationships.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported professional-book receipts and their 2025 decline challenge assumptions of automatic growth from recurring reference relationships.

24. Print and Associated Services Framework - Lot 1 Buyer Guide: Framework Objectives
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The public purchasing framework separately specifies production-management advice. It establishes a purchased responsibility but not a global fee rate or permission to count subcontract pass-through as retained revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The public purchasing framework separately specifies production-management advice. It establishes a purchased responsibility but not a global fee rate or permission to count subcontract pass-through as retained revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The framework also specifies finished-goods stock holding and call-off, with required holding costs included in the print-job price. This supports allocating embedded production-linked fulfillment rather than restricting the category to standalone invoices.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The framework also specifies finished-goods stock holding and call-off, with required holding costs included in the print-job price. This supports allocating embedded production-linked fulfillment rather than restricting the category to standalone invoices.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Finished goods may be held for call-off, with storage included in the print job where required. This supports consolidated releases as a production-linked arrangement without assuming every release is an individual order.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Finished goods may be held for call-off, with storage included in the print job where required. This supports consolidated releases as a production-linked arrangement without assuming every release is an individual order.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contractors maintain designated distribution lists, deliver to nominated addresses and receive job-specific copy allocations, supporting the modeled list-delivery category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contractors maintain designated distribution lists, deliver to nominated addresses and receive job-specific copy allocations, supporting the modeled list-delivery category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The coexistence of stock holding, call-off and distribution-list obligations supports separating production trigger from fulfillment responsibility; call-off alone does not establish transaction-level fulfillment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The coexistence of stock holding, call-off and distribution-list obligations supports separating production trigger from fulfillment responsibility; call-off alone does not establish transaction-level fulfillment.

25. Frequently Asked Questions - IngramSpark
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: IngramSpark states that it does not provide editing, typesetting or design services. This counterexample prevents treating all platform manufacturing commissions as purchases of professional preparation services.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: IngramSpark states that it does not provide editing, typesetting or design services. This counterexample prevents treating all platform manufacturing commissions as purchases of professional preparation services.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider permits nonexclusive sourcing when the customer owns its ISBN and does not offer editing, typesetting or design. These terms constrain the author service boundary, not adoption or revenue growth.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider permits nonexclusive sourcing when the customer owns its ISBN and does not offer editing, typesetting or design. These terms constrain the author service boundary, not adoption or revenue growth.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: IngramSpark permits nonexclusive use of other printers, distributors and fulfillment providers when publishers own their ISBN. This establishes an alternative-sourcing option, not observed switching or a numerical channel allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: IngramSpark permits nonexclusive use of other printers, distributors and fulfillment providers when publishers own their ISBN. This establishes an alternative-sourcing option, not observed switching or a numerical channel allocation.
26. Packaging Printing & Production - Imago Group
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier identifies book slipcases, clamshell cases, tray-and-lid constructions and multicomponent publisher packaging. This supports the enclosure-production boundary and the limitation of a simple mailer-price proxy; it does not supply sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier identifies book slipcases, clamshell cases, tray-and-lid constructions and multicomponent publisher packaging. This supports the enclosure-production boundary and the limitation of a simple mailer-price proxy; it does not supply sales weights.
27. Services - Bridgeport National Bindery
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The short-run book-production portfolio separately lists shrink-wrapping and set packing. It establishes commercial packing activity distinct from enclosure manufacture and binding, without measuring its revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The short-run book-production portfolio separately lists shrink-wrapping and set packing. It establishes commercial packing activity distinct from enclosure manufacture and binding, without measuring its revenue.
28. Terms and Conditions - CPI Print Germany
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published terms distinguish ex-works production prices from packaging, freight and postage and reserve specified input-cost adjustment rights. They support comparable-scope valuation but do not establish realized inflation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published terms distinguish ex-works production prices from packaging, freight and postage and reserve specified input-cost adjustment rights. They support comparable-scope valuation but do not establish realized inflation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate treatment of forwarding and storage responsibilities supports the eligible production-linked service boundary; contractual rights do not prove the assumed future fee-growth rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate treatment of forwarding and storage responsibilities supports the eligible production-linked service boundary; contractual rights do not prove the assumed future fee-growth rate.

29. ONIX Codelists Issue 75 - List 150: Product Form
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BB identifies hardback/cased books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BB identifies hardback/cased books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BC identifies paperback/softback books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BC identifies paperback/softback books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BH distinguishes board-page books from conventional books with rigid covers.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BH distinguishes board-page books from conventional books with rigid covers.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BE groups spiral, comb and coil forms.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BE groups spiral, comb and coil forms.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BD identifies loose-leaf books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BD identifies loose-leaf books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BF includes stapled short books; nonbook uses are excluded from the model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BF includes stapled short books; nonbook uses are excluded from the model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BL recognizes slide-bound books without measuring current sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BL recognizes slide-bound books without measuring current sales.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BO recognizes continuous concertina-fold books; nonbook charts are excluded.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BO recognizes continuous concertina-fold books; nonbook charts are excluded.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BI identifies textile-page books, not cloth-covered paper books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BI identifies textile-page books, not cloth-covered paper books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BJ identifies waterproof bath-book forms.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BJ identifies waterproof bath-book forms.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BP identifies foam-page and foam-cover books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BP identifies foam-page and foam-cover books.

30. Thomson Reuters - Fourth-Quarter and Full-Year 2025 Results
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Global Print revenue and contraction constrain professional-print scale and substitution direction; content receipts are not treated as loose-leaf service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Global Print revenue and contraction constrain professional-print scale and substitution direction; content receipts are not treated as loose-leaf service revenue.
31. Lulu - Discontinuing Saddle Stitch in Global Distribution
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provider-specific wholesale distribution restrictions establish a channel constraint, not a global sales weight or measured forecast decline.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provider-specific wholesale distribution restrictions establish a channel constraint, not a global sales weight or measured forecast decline.
32. MAGACOPY Sofia - Copying and Printing Prices
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A current EUR xx.xx binding-only charge establishes a live commercial service and a price-scope comparison; full-book USD receipts and incidence remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A current EUR xx.xx binding-only charge establishes a live commercial service and a price-scope comparison; full-book USD receipts and incidence remain assumed.
33. Imago Group - Spotlight on Children's Books for National Young Readers Week
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's children's portfolio supports board-book commercial classification, not order volumes.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's children's portfolio supports board-book commercial classification, not order volumes.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cloth-book offerings support the textile-page category premise, not its modeled incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cloth-book offerings support the textile-page category premise, not its modeled incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bath-book offerings support a separate commercial category; sales and service receipts are undisclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bath-book offerings support a separate commercial category; sales and service receipts are undisclosed.
34. Pegasus - My First Book of Shapes: EVA Foam Book
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The dated 2025 product identifies foam pages and supports commercial-status and classification checks, not global volume or supplier realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated 2025 product identifies foam pages and supports commercial-status and classification checks, not global volume or supplier realization.

35. U.S. Consumer Product Safety Commission - Children's Books
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Product classification and intended audience affect commercial compliance accountability; no numerical surcharge is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Product classification and intended audience affect commercial compliance accountability; no numerical surcharge is inferred.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The exemption boundary supports separate classification rather than assumed conventional-book treatment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The exemption boundary supports separate classification rather than assumed conventional-book treatment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Compliance classification is retained as an uncertainty, not an exclusion or measured price premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Compliance classification is retained as an uncertainty, not an exclusion or measured price premium.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specialty construction does not itself establish ordinary-book exemption eligibility or market inactivity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specialty construction does not itself establish ordinary-book exemption eligibility or market inactivity.
36. Puget Bindery - Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider identifies training manuals and reference guides as mechanical-binding applications, supporting the commissioning premise without measuring sales incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider identifies training manuals and reference guides as mechanical-binding applications, supporting the commissioning premise without measuring sales incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists commercial letterpress book plates and specialty inserts, supporting a component-service model rather than attribution of the entire book price.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists commercial letterpress book plates and specialty inserts, supporting a component-service model rather than attribution of the entire book price.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The bindery identifies commercial printers, publishers and corporate print buyers as customers and excludes direct-to-consumer sales. This supports trade-purchasing attribution but supplies no sales percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The bindery identifies commercial printers, publishers and corporate print buyers as customers and excludes direct-to-consumer sales. This supports trade-purchasing attribution but supplies no sales percentage.

37. ONIX Codelists Issue 75 - List 80: Product Packaging Type
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates single-item and multivolume slipcases; supplies classification, not sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates single-item and multivolume slipcases; supplies classification, not sales weights.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes lidded boxes from slipcase-style boxed sets.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes lidded boxes from slipcase-style boxed sets.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-ended wraparound sleeves are distinct from enclosed wrapping.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-ended wraparound sleeves are distinct from enclosed wrapping.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes envelope-like slip-sleeves and wallets or folders.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes envelope-like slip-sleeves and wallets or folders.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes pouch and bag packaging independently.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes pouch and bag packaging independently.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately recognizes shrink-wrapped products and bundles.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately recognizes shrink-wrapped products and bundles.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Defines formed-plastic clamshells and card-backed blister packaging as distinct constructions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Defines formed-plastic clamshells and card-backed blister packaging as distinct constructions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Explicitly recognizes book browse-prevention closures.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Explicitly recognizes book browse-prevention closures.

38. U.S. Government Publishing Office - Program 827-S: Federal Aviation Administration Books, Contract Pricing and Specifications

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Historical evaluation quantities provide a container-heavy institutional purchasing counterexample, not global shipment shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Historical evaluation quantities provide a container-heavy institutional purchasing counterexample, not global shipment shares.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies kraft-envelope packing within the book procurement.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies kraft-envelope packing within the book procurement.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies cushioned shipping bags as an eligible book-order enclosure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies cushioned shipping bags as an eligible book-order enclosure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Includes wrapped shipping bundles as an alternative purchasing configuration.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Includes wrapped shipping bundles as an alternative purchasing configuration.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Requires packing and filler separately from the external enclosure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Requires packing and filler separately from the external enclosure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies closure tape and securing straps independently of container construction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies closure tape and securing straps independently of container construction.

39. U.S. Government Publishing Office - Print Order Form 2511 Instructions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specifies paper-banded sets separately from shrink-wrapped sets.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specifies paper-banded sets separately from shrink-wrapped sets.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes shrink-wrapped units nested within cartons, supporting component attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes shrink-wrapped units nested within cartons, supporting component attribution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes internal packaging, container quantities and pallet requirements.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes internal packaging, container quantities and pallet requirements.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The instructions distinguish nominated delivery addresses and warehouse receiving arrangements, supporting the receiving-point attribution premise, not an observed consolidated market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The instructions distinguish nominated delivery addresses and warehouse receiving arrangements, supporting the receiving-point attribution premise, not an observed consolidated market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supplemental distribution lists accommodate multiple destinations, supporting the distinction between preallocated destination delivery and a single receiving-point handoff.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supplemental distribution lists accommodate multiple destinations, supporting the distinction between preallocated destination delivery and a single receiving-point handoff.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: GPO specifies black interior inks separately from cover inks, supporting the monochrome classification and underlying-book attribution premise, not its modeled sales weight. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GPO specifies black interior inks separately from cover inks, supporting the monochrome classification and underlying-book attribution premise, not its modeled sales weight. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Designated Pantone specifications are recognized for interior inks, supporting a separate spot-color commercial category without measuring its share. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Designated Pantone specifications are recognized for interior inks, supporting a separate spot-color commercial category without measuring its share. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Four-color process is identified as full color for interior pages; cover color is separately specified. This supports classification at both modeled anchors. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Four-color process is identified as full color for interior pages; cover color is separately specified. This supports classification at both modeled anchors. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))

40. GPOExpress Program Pricing Guide - November 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx hand folding provides a handling-cost comparison; the complete band realization remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx hand folding provides a handling-cost comparison; the complete band realization remains modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx per shrink wrap anchors a small-run comparison, not the assumed global realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx per shrink wrap anchors a small-run comparison, not the assumed global realization.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx auxiliary insertion supplies a handling-price comparison, not protective-material sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx auxiliary insertion supplies a handling-price comparison, not protective-material sales.
41. Hardcover Book Protection: Dust Jackets or Slipcases?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-product EXW slipcase prices of USD xx.xx, USD xx.xx and USD xx.xx at xx.xx xx.xx and xx.xx units constrain relative realizations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-product EXW slipcase prices of USD xx.xx, USD xx.xx and USD xx.xx at xx.xx xx.xx and xx.xx units constrain relative realizations.
42. Book Printing Cost in China: How Printing Prices Are Calculated
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately USD xx.xx per export carton including basic packing materials constrains the bulk-package budget; the container allocation is modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately USD xx.xx per export carton including basic packing materials constrains the bulk-package budget; the container allocation is modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its cushioning split is assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its cushioning split is assumed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its closure split is assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its closure split is assumed.
43. Make Believe Ideas - Independent Retail Catalog 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 catalog identifies activity books with cover-mounted blisters, establishing book-specific participation but not packaging revenue or volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 catalog identifies activity books with cover-mounted blisters, establishing book-specific participation but not packaging revenue or volume.
44. Bookmobile - Request Book Printing Quotes the Right Way to Save Money
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The printer's bookstore-oriented purchasing guidance cautions against universal shrink-wrap attachment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The printer's bookstore-oriented purchasing guidance cautions against universal shrink-wrap attachment.

45. Digital Book Printing - Bookmobile
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current book-production portfolio separately offers poly bags, supporting commercial category participation rather than a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current book-production portfolio separately offers poly bags, supporting commercial category participation rather than a sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current portfolio offers shrink-wrap independently of other finishing options.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current portfolio offers shrink-wrap independently of other finishing options.
46. Sell Books on Shopify - Lulu
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The offered storefront-to-print-and-ship route supports an accessible production-linked parcel channel, not assumed demand.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct fulfillment availability supports the parcel-use scenario without establishing envelope mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct fulfillment availability supports the parcel-use scenario without establishing bag mix.
47. European Commission - New EU Rules on Packaging Enter into Application
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional packaging minimization supports a directional right-sizing premise, not a measured global box-price effect.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Waste-reduction requirements inform the bounded substitution scenario; they do not quantify band adoption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional circularity requirements inform lower lightweight-bag exposure without implying a global book-bag ban.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Material substitution remains partly internal to the combined film-and-paper category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional recyclability pressure informs the niche substitution scenario, not an observed blister-sales decline.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Empty-space reduction provides a directional premise for lower cushioning allowance per individual box.
48. Digital Printing - U.S. Government Publishing Office
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Procurement examples allow offset or digital alternatives while restricting some digital variants, supporting an acceptance- and run-mix model rather than a universal quality ranking. This is a modeling premise, not an observed process share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Procurement examples allow offset or digital alternatives while restricting some digital variants, supporting an acceptance- and run-mix model rather than a universal quality ranking. This is a modeling premise, not an observed process share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The purchasing guidance supports conditional digital substitution, not unrestricted interchangeability or an observed forecast allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The purchasing guidance supports conditional digital substitution, not unrestricted interchangeability or an observed forecast allocation.

49. Clays demonstrate dedication to digital investment
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx books annually and xx.xx books of digital capacity in an older investment statement; this constrains scale but is not a 2025 realized output mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx books annually and xx.xx books of digital capacity in an older investment statement; this constrains scale but is not a 2025 realized output mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's inkjet investment supports an existing book-production application and a conditional adoption premise, not a quantified global forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's inkjet investment supports an existing book-production application and a conditional adoption premise, not a quantified global forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The capacity/output comparison is a limited commercial check on continued conventional book production, not a direct offset revenue observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The capacity/output comparison is a limited commercial check on continued conventional book production, not a direct offset revenue observation.
50. ISO/TC 130 - Guidelines for Using Print Production Standards, Version 1.0, 2019
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes packaging use cases and printing processes, supporting allocation of gravure to book-associated components rather than the full value of a book.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes packaging use cases and printing processes, supporting allocation of gravure to book-associated components rather than the full value of a book.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies flexographic packaging applications; the book-specific spending budget and process coefficients remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies flexographic packaging applications; the book-specific spending budget and process coefficients remain modeled.
51. Premium Layflat Photo Books - PhotobookShop
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Offers bound silver-halide photographic books and distinguishes them from digitally printed alternatives, supporting the model's separate photographic category rather than an observed sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Offers bound silver-halide photographic books and distinguishes them from digitally printed alternatives, supporting the model's separate photographic category rather than an observed sales weight.
52. The Cormac McCarthy Collection - The Folio Society
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents screen-printed cloth covers on physical book editions, supporting component-level commercial attribution. It does not measure supplier component receipts or global uptake.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents screen-printed cloth covers on physical book editions, supporting component-level commercial attribution. It does not measure supplier component receipts or global uptake.

53. Risograph Digital Duplicator Order Form, 2026 - Minneapolis College of Art and Design
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2026 institutional form recognizes Risograph book/booklet orders but excludes assembly. It supports a limited application boundary, not 2025 external commercial volume; internal institutional charges are excluded from the numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2026 institutional form recognizes Risograph book/booklet orders but excludes assembly. It supports a limited application boundary, not 2025 external commercial volume; internal institutional charges are excluded from the numerator.
54. American Printing House - 2024 Annual Report
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal 2024 product sales were USD xx.xx; braille publications represented xx.xx% of product sales; xx.xx braille volumes were produced. These inputs constrain an adjusted production-realization proxy, not a global market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The decline from xx.xx braille volumes in 2022 qualifies a uniform physical-demand growth assumption and informs the slower relative forecast activity weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2024 product sales were USD xx.xx; braille publications represented xx.xx% of product sales; xx.xx braille volumes were produced. These inputs constrain an adjusted production-realization proxy, not a global market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The decline from xx.xx braille volumes in 2022 qualifies a uniform physical-demand growth assumption and informs the slower relative forecast activity weight.
55. Kodak Moments Kiosk - Kodak Alaris
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises book-capable retail kiosk equipment and a photographic-printing portfolio. Used only as a commercial-route premise for the thermal working estimate, not as evidence of thermal book-service sales, utilization or the final share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises book-capable retail kiosk equipment and a photographic-printing portfolio. Used only as a commercial-route premise for the thermal working estimate, not as evidence of thermal book-service sales, utilization or the final share.
56. 二〇二一年全国新闻出版业基本情况
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official 2021 aggregate textbook output distinguishes school, tertiary and vocational/adult activity; historical volumes require value and global-scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official 2021 aggregate textbook output distinguishes school, tertiary and vocational/adult activity; historical volumes require value and global-scope adjustments.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Secondary, primary and teaching-book aggregate sheet counts form the school activity weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Secondary, primary and teaching-book aggregate sheet counts form the school activity weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Tertiary textbook aggregate output supplies the higher-education activity input before an assumed relative-service-value adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Tertiary textbook aggregate output supplies the higher-education activity input before an assumed relative-service-value adjustment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Vocational, adult and literacy textbook output supplies the corresponding historical activity input.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Vocational, adult and literacy textbook output supplies the corresponding historical activity input.

57. Music, printed or in manuscript imports by country, 2024 - World Integrated Trade Solution
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official HS xx.xx import observations constrain the music-publication value bridge; domestic supply, physical-book eligibility and the printing-service fraction remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official HS xx.xx import observations constrain the music-publication value bridge; domestic supply, physical-book eligibility and the printing-service fraction remain modeled.
58. Bloomsbury Publishing - 2024/25 Results Presentation
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate Academic & Professional print, digital and rights/service receipts demonstrate the required physical-revenue boundary; company mix is not treated as global market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate Academic & Professional print, digital and rights/service receipts demonstrate the required physical-revenue boundary; company mix is not treated as global market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed physical academic publishing activity supports commercial applicability but does not verify the assumed global research/reference ratio.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed physical academic publishing activity supports commercial applicability but does not verify the assumed global research/reference ratio.
59. HDSB - RFSQ 26-013: Yearbook Software and Printing Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The qualification notice establishes a commissioned yearbook scope including printing, binding and school delivery; it supplies no awarded value and is not used as a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The qualification notice establishes a commissioned yearbook scope including printing, binding and school delivery; it supplies no awarded value and is not used as a sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The yearbook qualification notice restricts supply to prequalified vendors while permitting school bulk orders and individual ordering. It supports separating commissioning authority from ultimate payment, but discloses no fulfilled-order value.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The yearbook qualification notice restricts supply to prequalified vendors while permitting school bulk orders and individual ordering. It supports separating commissioning authority from ultimate payment, but discloses no fulfilled-order value.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The individual-ordering option establishes an attribution uncertainty relevant to the modeled household portion; it does not establish the assumed xx.xx% proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The individual-ordering option establishes an attribution uncertainty relevant to the modeled household portion; it does not establish the assumed xx.xx% proportion.

60. U.S. Census Bureau - 2022 Economic Census, Books Printing Questionnaire MC-32312
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official printing questionnaire supports the distinction between textbook and general-book production; recognition is not treated as a revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official printing questionnaire supports the distinction between textbook and general-book production; recognition is not treated as a revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognized coloring-book output supports treating recreational activity commissions separately from institutional textbooks according to purpose.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognized coloring-book output supports treating recreational activity commissions separately from institutional textbooks according to purpose.
61. Press Information Bureau - Department of School Education & Literacy, Year End Review 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The government review describes substantial NCERT physical-textbook activity, independently qualifying the physical-availability premise without establishing attributable supplier revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The government review describes substantial NCERT physical-textbook activity, independently qualifying the physical-availability premise without establishing attributable supplier revenue.
62. 2022 North American Industry Classification System - United States
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dedicated book-publishing activity is separated from institutional primary activities and printing without publishing, constraining the Publishing Organizations numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dedicated book-publishing activity is separated from institutional primary activities and printing without publishing, constraining the Publishing Organizations numerator.
63. U.S. Census Bureau - Books Printing: 2002
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Table xx.xx reports 2002 U.S. books-printing contract-work costs of USD xx.xx and shipments of USD xx.xx. Their ratio supplies a dated manufacturing-subcontract proxy, held constant within the forecast component.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Table xx.xx reports 2002 U.S. books-printing contract-work costs of USD xx.xx and shipments of USD xx.xx. Their ratio supplies a dated manufacturing-subcontract proxy, held constant within the forecast component.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical subcontract-cost input constrains the modeled transfer from publisher-origin commissioning to performing suppliers, without adding another gross contract value.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical subcontract-cost input constrains the modeled transfer from publisher-origin commissioning to performing suppliers, without adding another gross contract value.
64. Samfine Creation Holdings Group Limited - Form 20-F for the year ended December 31, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports USD xx.xx of 2025 book-product revenue and principally serves book traders that secure printing contracts and outsource production. This is a supplier-specific quantitative role check, not a Global allocation weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports USD xx.xx of 2025 book-product revenue and principally serves book traders that secure printing contracts and outsource production. This is a supplier-specific quantitative role check, not a Global allocation weight.

65. Ministry of Education - NCERT and Amazon Letter of Engagement, October 7, 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2024 announcement targeted xx.xx NCERT books for academic 2025-xx.xx. This is a planned institutional activity anchor; realization, eligible receipts and subsequent growth are modeled separately.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2024 announcement targeted xx.xx NCERT books for academic 2025-xx.xx. This is a planned institutional activity anchor; realization, eligible receipts and subsequent growth are modeled separately.
66. Bangladesh e-GP - NCTB/TEXTBOOK/2025, Package GD.102_SEC_8.031
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The government-funded procurement plan specifies xx.xx academic-2025 textbook copies and an estimated BDT xx.xx for printing, binding and supply. It constrains commercial order scale and local unit-budget plausibility, not realized annual revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The government-funded procurement plan specifies xx.xx academic-2025 textbook copies and an estimated BDT xx.xx for printing, binding and supply. It constrains commercial order scale and local unit-budget plausibility, not realized annual revenue.
67. Students suffer as NCTB fails to deliver books - The Daily Star, January 17, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 report corroborates the dated approximately xx.xx-copy textbook target and early-year delivery disruption. Target realization and supplier receipts remain modeled.
68. Secondary-level students: A new year without full set of books for many - The Daily Star, December 28, 2025
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 report corroborates the approximately xx.xx-copy academic-2026 target and continued delivery slippage. It informs a normalization assumption, not an observed 2032 share.
69. Business Books - Print Professional, Custom Corporate Books | Blurb
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The business-book offering includes organizational presentation and corporate-gift applications. It establishes an in-scope commissioning proposition, not the modeled global copy quantity or spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The business-book offering includes organizational presentation and corporate-gift applications. It establishes an in-scope commissioning proposition, not the modeled global copy quantity or spending.
70. How to Use Lulu to Support Your Nonprofit | Lulu
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform permits an organization or charity to receive creator proceeds. This supports excluding beneficiary-only arrangements from nonprofit commissioning; it does not measure nonprofit printing purchases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform permits an organization or charity to receive creator proceeds. This supports excluding beneficiary-only arrangements from nonprofit commissioning; it does not measure nonprofit printing purchases.

71. News Corp - Form 10-K for the fiscal year ended June 30, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal 2025 consumer backlist revenue of xx.xx% and digital revenue of xx.xx% anchor the assumed physical-backlist bridge and its forecast starting model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2025 consumer backlist revenue of xx.xx% and digital revenue of xx.xx% anchor the assumed physical-backlist bridge and its forecast starting model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed backlist mix constrains recurring-title demand; its division into replenishment and POD remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed backlist mix constrains recurring-title demand; its division into replenishment and POD remains modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The complementary frontlist population supports the launch-stock cohort after physical-format adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The complementary frontlist population supports the launch-stock cohort after physical-format adjustments.
72. News Corp - Form 10-K for the fiscal year ended June 30, 2026
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2026 backlist revenue of xx.xx% and digital revenue of xx.xx% lower the forecast physical-backlist proxy instead of assuming continued backlist expansion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The updated catalog mix changes the forecast population available for repeat inventory releases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The updated frontlist/backlist bridge changes the forecast planned-production weight; no 2032 share is disclosed.
73. How Do Lulu Direct Orders Work?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lulu describes printing after customer purchase and distinguishes production from subsequent shipment, supporting recipient-order attribution rather than technology-based classification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lulu describes printing after customer purchase and distinguishes production from subsequent shipment, supporting recipient-order attribution rather than technology-based classification.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: No minimum order and one-copy ordering establish commercial feasibility, not the number or value of single-copy releases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No minimum order and one-copy ordering establish commercial feasibility, not the number or value of single-copy releases.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: One POD offering accepts hundreds of copies, independently challenging a POD-equals-single-copy allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One POD offering accepts hundreds of copies, independently challenging a POD-equals-single-copy allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Orders can extend into thousands within the same offering; the production trigger therefore does not uniquely identify the working run band.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Orders can extend into thousands within the same offering; the production trigger therefore does not uniquely identify the working run band.

74. Supply Chain - Clays
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Clays describes differentiated backlist arrangements and stock visibility, supporting a separate inventory-replenishment cohort without establishing its numerical prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Clays describes differentiated backlist arrangements and stock visibility, supporting a separate inventory-replenishment cohort without establishing its numerical prevalence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: New-title consolidation and predictable annual backlist demand support retaining planned inventory commitments; short-run printing is explicitly not necessarily POD.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: New-title consolidation and predictable annual backlist demand support retaining planned inventory commitments; short-run printing is explicitly not necessarily POD.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Clays explicitly distinguishes short-run work from POD, supporting category separation rather than a technological proxy for value share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Clays explicitly distinguishes short-run work from POD, supporting category separation rather than a technological proxy for value share.
75. Smart Backlist Management: When to Hold and When to Print-on-Demand
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheridan describes low-volume titles moving to POD while other titles retain inventory, supporting differentiated release-policy assumptions rather than a uniform backlist-to-POD conversion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheridan describes low-volume titles moving to POD while other titles retain inventory, supporting differentiated release-policy assumptions rather than a uniform backlist-to-POD conversion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A disclosed customer example uses a stock threshold to trigger a 2,000-copy replenishment order. It establishes the commercial mechanism, not a market-wide share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A disclosed customer example uses a stock threshold to trigger a 2,000-copy replenishment order. It establishes the commercial mechanism, not a market-wide share.

76. Shortage of NCERT textbooks - Rajya Sabha Unstarred Question No. 1941, December 17, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advance enrollment-based forecasting, academic-session readiness and a fiscal 2025-xx.xx plan for approximately xx.xx textbooks support a substantial calendar-driven stock cohort. The target is not realized production.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advance enrollment-based forecasting, academic-session readiness and a fiscal 2025-xx.xx plan for approximately xx.xx textbooks support a substantial calendar-driven stock cohort. The target is not realized production.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phased supply and inventory monitoring support distinguishing ongoing availability obligations from individual-recipient POD, without quantifying replenishment's global prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phased supply and inventory monitoring support distinguishing ongoing availability obligations from individual-recipient POD, without quantifying replenishment's global prevalence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official answer distinguishes printer empanelment from approximately xx.xx distribution vendors and describes planned fiscal 2025-xx.xx printing of approximately xx.xx textbooks. It supports commissioning-versus-distribution separation, not a realized monetary channel split.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official answer distinguishes printer empanelment from approximately xx.xx distribution vendors and describes planned fiscal 2025-xx.xx printing of approximately xx.xx textbooks. It supports commissioning-versus-distribution separation, not a realized monetary channel split.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phased textbook supply supports treating annual institutional quantities separately from production batches; it does not disclose the medium-run allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phased textbook supply supports treating annual institutional quantities separately from production batches; it does not disclose the medium-run allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 answer identifies a xx.xx-million-copy FY2025-xx.xx printing decision versus approximately xx.xx in recent years, a counterforce to assuming rapid long-run disappearance. Planned copies are not realized service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 answer identifies a xx.xx-million-copy FY2025-xx.xx printing decision versus approximately xx.xx in recent years, a counterforce to assuming rapid long-run disappearance. Planned copies are not realized service revenue.
77. Fulfillment Fee - Lulu Direct
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2026 schedule lists USD xx.xx per order regardless of item count, supporting an order-frequency effect on associated-service value. It does not verify the assumed historical or forecast multiplier.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2026 schedule lists USD xx.xx per order regardless of item count, supporting an order-frequency effect on associated-service value. It does not verify the assumed historical or forecast multiplier.

78. InnerWorkings, Inc. - Form 10-K for the year ended December 31, 2019
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2019 filing reports USD xx.xx gross profit on USD xx.xx revenue and describes purchased-product and direct-service costs. Historical reported margins constrain the modeled xx.xx% retained-fee ratio; they do not directly measure book-channel share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2019 filing reports USD xx.xx gross profit on USD xx.xx revenue and describes purchased-product and direct-service costs. Historical reported margins constrain the modeled xx.xx% retained-fee ratio; they do not directly measure book-channel share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The procurement-service margin comparison supports the fee-to-managed-spending bridge underlying the direct-channel complement. Carrying the normalized ratio into 2032 is explicitly a forecast assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The procurement-service margin comparison supports the fee-to-managed-spending bridge underlying the direct-channel complement. Carrying the normalized ratio into 2032 is explicitly a forecast assumption.
79. Simplified Purchase Agreement - U.S. Government Publishing Office
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SPA permits agency awards directly to certified vendors for purchases up to USD xx.xx while GPO pays vendors and invoices agencies. This supports classifying by the contracting relationship rather than the invoice payer, not a numerical global weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SPA permits agency awards directly to certified vendors for purchases up to USD xx.xx while GPO pays vendors and invoices agencies. This supports classifying by the contracting relationship rather than the invoice payer, not a numerical global weight.
80. Global Print Services | China, Europe, SE Asia, USA & India
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Imago describes sourcing suppliers and coordinating multiple manufacturers for book-related projects. Its cumulative customer relationships establish the offered intermediary role but are not annual revenue or allocation weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Imago describes sourcing suppliers and coordinating multiple manufacturers for book-related projects. Its cumulative customer relationships establish the offered intermediary role but are not annual revenue or allocation weights.
81. Lion Rock Group Limited - Annual Report 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-business 2025 turnover changes of minus xx.xx% for APOL and minus xx.xx% for Regent challenge uniform intermediary growth; Regent's non-book focus limits its relevance. These observations support avoiding an additional adoption uplift.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-business 2025 turnover changes of minus xx.xx% for APOL and minus xx.xx% for Regent challenge uniform intermediary growth; Regent's non-book focus limits its relevance. These observations support avoiding an additional adoption uplift.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Manufacturing turnover changes of minus xx.xx% at xx.xx Printing and plus xx.xx% at Papercraft demonstrate differing supplier trajectories rather than a simple common channel-growth pattern; these are not direct-contracting market shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Manufacturing turnover changes of minus xx.xx% at xx.xx Printing and plus xx.xx% at Papercraft demonstrate differing supplier trajectories rather than a simple common channel-growth pattern; these are not direct-contracting market shares.

82. Imprint Digital - Book Printing Prices UK

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected schedule quotes GBP xx.xx at xx.xx copies for one paperback specification, supporting a relative-price input, not a historical global realization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected schedule quotes GBP xx.xx at xx.xx copies for one paperback specification, supporting a relative-price input, not a historical global realization.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: GBP xx.xx at xx.xx copies supplies the medium-run reference index; format and delivery differences require separate treatment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GBP xx.xx at xx.xx copies supplies the medium-run reference index; format and delivery differences require separate treatment.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The quantity-price curve anchors the reference from which the long-run discount is assumed; no long-run price or future share is disclosed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The quantity-price curve anchors the reference from which the long-run discount is assumed; no long-run price or future share is disclosed.

83. Print Options

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: KDP distinguishes black-and-white from color records and locks ink type after publication. These platform-specific conditions qualify switching assumptions, not market weights. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: KDP distinguishes black-and-white from color records and locks ink type after publication. These platform-specific conditions qualify switching assumptions, not market weights. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The displayed platform menu does not establish designated spot-color availability or sales; a general color option is not used as evidence of spot-color demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The displayed platform menu does not establish designated spot-color availability or sales; a general color option is not used as evidence of spot-color demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Standard color is unavailable for hardcover, but premium color is available. Both process-color tiers belong within the modeled Full-Color Interiors category. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Standard color is unavailable for hardcover, but premium color is available. Both process-color tiers belong within the modeled Full-Color Interiors category. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))

84. Synthèse des chiffres de l'édition jeunesse 2024-2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The primary French publishing survey reports a xx.xx% decline in illustrated early-childhood volumes and a xx.xx% decline in youth-fiction volumes in 2024. These differing outcomes challenge an aggressive universal color-growth assumption. ([sne.fr](https://www.sne.fr/actu/synthese-des-chiffres-de-ledition-jeunesse-2024-2025/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The primary French publishing survey reports a xx.xx% decline in illustrated early-childhood volumes and a xx.xx% decline in youth-fiction volumes in 2024. These differing outcomes challenge an aggressive universal color-growth assumption. ([sne.fr](https://www.sne.fr/actu/synthese-des-chiffres-de-ledition-jeunesse-2024-2025/))

20.4. Germany

Sources & Evidence

1. European Book Publishing Statistics 2024
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: European publishers reported approximately EUR xx.xx of net book-sales revenue in 2024. The disclosed ebook and audiobook proportions inform the modeled xx.xx% physical-book revenue proportion; publisher revenue is an input, not printing-service revenue.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 publisher-revenue and format observations provide the European demand input carried into the 2025 estimate.

2. The Global Publishing Industry in 2022

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Table xx.xx supplies country-level publishing revenues and identifies differences between retail-value, publisher-revenue, print-only and prior-year observations. Selected non-European country observations are adjusted for physical formats and period before estimating production spending.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The selected country observations contribute to the demand pool underlying the 2025 working estimate. Nielsen retail datasets elsewhere in the publication are not used.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Primary survey sector differences constrain the education-adjusted hardcover proxy.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Primary survey sector differences constrain the education-adjusted hardcover proxy.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Educational/trade differences qualify extrapolation of U.S. consumer-format revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Educational/trade differences qualify extrapolation of U.S. consumer-format revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx of surveyed children's publishing revenue anchors the modeled specialty demand pool, not supplier receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx of surveyed children's publishing revenue anchors the modeled specialty demand pool, not supplier receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sector data constrain the commissioning-pool proxy; mechanical incidence remains assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sector data constrain the commissioning-pool proxy; mechanical incidence remains assumed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Educational demand supplies a common economic anchor; loose-leaf incidence remains modeled.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Educational demand supplies a common economic anchor; loose-leaf incidence remains modeled.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sector observations constrain the educational short-book commissioning pool.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sector observations constrain the educational short-book commissioning pool.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The commissioning-pool anchor supports an explicit sparse-format incidence model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The commissioning-pool anchor supports an explicit sparse-format incidence model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors the accordion working estimate, not observed accordion orders.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors the accordion working estimate, not observed accordion orders.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed textile-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed textile-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed bath-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed bath-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed foam-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed foam-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original publishing survey documents country-level trade/education revenue differences used to constrain the modeled physical-publishing mix; it does not directly measure service shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original publishing survey documents country-level trade/education revenue differences used to constrain the modeled physical-publishing mix; it does not directly measure service shares.

3. 2024 年新闻出版统计公报

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: For 2024, the official table reports xx.xx book copies or sheets and CNY xx.xx of book-publishing revenue. These constrain the demand bridge and historical contraction, rather than directly measuring printing-service sales.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 book-publishing observation supplies the Chinese demand primitive for the 2025 model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official 2024 output of xx.xx copies/sheets constrains total modeled publisher activity; it does not disclose single-copy production.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official 2024 output of xx.xx copies/sheets constrains total modeled publisher activity; it does not disclose single-copy production.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Aggregate copies and annual title output constrain the shared activity model, not an observed short-run share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Aggregate copies and annual title output constrain the shared activity model, not an observed short-run share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Aggregate production provides a scale check for the medium-run assumption; annual copies per title are not individual batches.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Aggregate production provides a scale check for the medium-run assumption; annual copies per title are not individual batches.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx annual copies per title constrain the long-run scenario without proving its batch mix or forecast.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx annual copies per title constrain the long-run scenario without proving its batch mix or forecast.

4. Foreign Exchange Rates - G.5A Annual, January 5, 2026

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: The official 2024 annual-average conversion inputs are USD xx.xx per EUR, CNY xx.xx per USD and CAD xx.xx per USD.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The exchange-rate table establishes the conversion basis of the preceding-year demand inputs used in the 2025 estimate; subsequent effective-USD price assumptions are modeled separately.

5. Book publishing industry, 2024 - Statistics Canada
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Canadian publishers reported CAD xx.xx of print sales outside the online category and CAD xx.xx of online print sales in 2024. Their sum, rather than total operating revenue, supplies the physical-book demand input.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: Reported cost of goods sold of CAD xx.xx, up CAD xx.xx from 2022, supplies a cost-pressure cross-check, not a directly attributable printing-services total.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Canadian online versus other print-sales values constrain parcel exposure, with explicit value-to-unit and geographic limitations.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Canadian online versus other print-sales values constrain parcel exposure, with explicit value-to-unit and geographic limitations.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed envelope purchases.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed envelope purchases.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed bag purchases.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed bag purchases.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Modest observed online-print growth qualifies aggressive parcel-related wrapping assumptions.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Modest observed online-print growth qualifies aggressive parcel-related wrapping assumptions.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring separate protection.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring separate protection.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring closures.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring closures.
6. U.S. Census Bureau - Books Printing: Shipments, annual table
   - Evidence informing the 2017 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2017; this is a national production anchor for the historical model.
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2018.
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2019.
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2020.
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2021.
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2022.
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2024. This national industrial measure is narrower than the composite global service boundary.

7. U.S. Census Bureau - Book Publishers, All Establishments: Revenue, annual table
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: The Census annual series reports USD xx.xx of U.S. book-publisher revenue for 2024. A modeled xx.xx% physical-book proportion excludes digital and other adjacent receipts.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 Census observation replaces an older survey-based U.S. revenue bridge in the demand pool underlying 2025.

8. Scholastic Corporation - Form 10-K for the year ended May 31, 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Scholastic's fiscal 2024 product, service, production and inventory-reserve costs were xx.xx% of revenue; postage, freight, shipping, fulfillment and other costs were xx.xx%. These broad categories constrain, but do not directly establish, eligible outsourced-service spending.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The corresponding fiscal 2025 proportions were xx.xx% and xx.xx%. Royalties and prepublication amortization are separately disclosed, allowing their exclusion from the service-market bridge.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 product, service, production and inventory-reserve costs were xx.xx% of revenue. The broader cost category constrains the manufacturing spending boundary but does not directly disclose printing-service revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 product, service, production and inventory-reserve costs were xx.xx% of revenue. The broader cost category constrains the manufacturing spending boundary but does not directly disclose printing-service revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Prepublication amortization is disclosed separately from production costs, supporting exclusion of adjacent amortization rather than equating it with externally purchased prepress.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Prepublication amortization is disclosed separately from production costs, supporting exclusion of adjacent amortization rather than equating it with externally purchased prepress.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Postage, freight, shipping, fulfillment and other costs were xx.xx% of revenue in fiscal 2025 versus xx.xx% in fiscal 2024. This is a broad buyer-cost check, not an eligible outsourced-fulfillment share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Postage, freight, shipping, fulfillment and other costs were xx.xx% of revenue in fiscal 2025 versus xx.xx% in fiscal 2024. This is a broad buyer-cost check, not an eligible outsourced-fulfillment share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Outsourced manufacturing coexists with company-operated distribution. Fiscal-2025 production-related costs were xx.xx% of revenue, constraining the inherited spending bridge rather than directly measuring the assumed route fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Outsourced manufacturing coexists with company-operated distribution. Fiscal-2025 production-related costs were xx.xx% of revenue, constraining the inherited spending bridge rather than directly measuring the assumed route fraction.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Book-club revenue was xx.xx% online-ordered and xx.xx% parent-ordered, while products typically went to classrooms. This challenges the use of online sales as a proxy for the external contractor's delivery model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Book-club revenue was xx.xx% online-ordered and xx.xx% parent-ordered, while products typically went to classrooms. This challenges the use of online sales as a proxy for the external contractor's delivery model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct printer-to-customer fulfillment is a disclosed option. Broader logistics/other costs were xx.xx% of revenue versus xx.xx% previously, providing a cost-boundary check but no global order-level share or service-price growth observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct printer-to-customer fulfillment is a disclosed option. Broader logistics/other costs were xx.xx% of revenue versus xx.xx% previously, providing a cost-boundary check but no global order-level share or service-price growth observation.

9. CEWE achieves all targets in 2025 and aims to further increase revenue and earnings in 2026

- Evidence informing the 2025 market-value input; displayed series and growth include calculations: CEWE reported xx.xx CEWE PHOTOBOOK copies in 2025 versus xx.xx in 2024, supporting a positive specialty-book volume assumption without establishing global adoption.
- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Observed 2025 photobook growth informs the specialty-demand assumption for 2026; the market value remains modeled.
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The observed specialty-book activity is a starting condition for the forecast, not independent proof of continued growth through 2032.
- Evidence informing the 2040 market-value input; displayed series and growth include calculations: The forecast explicitly slows specialty-demand growth after 2032; this source supplies the initial commercial observation, not the long-term growth rate.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: CEWE reports xx.xx photobooks in 2025 compared with xx.xx in 2024. This independently establishes specialty-book activity underlying the nonpublisher model, without establishing a global expansion factor.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CEWE reports xx.xx photobooks in 2025 compared with xx.xx in 2024. This independently establishes specialty-book activity underlying the nonpublisher model, without establishing a global expansion factor.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports retaining premium specialty commissions in the manufacturing mix; the binding allocation and unchanged future cohort profile remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports retaining premium specialty commissions in the manufacturing mix; the binding allocation and unchanged future cohort profile remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported photobook volumes constrain personal-book activity and the nonpublisher starting condition, not hardcover prevalence or future share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported photobook volumes constrain personal-book activity and the nonpublisher starting condition, not hardcover prevalence or future share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Photobook activity supports the separate personal-book commissioning block; its softcover fraction remains assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Photobook activity supports the separate personal-book commissioning block; its softcover fraction remains assumed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported photobook copies rose from xx.xx to xx.xx; the narrower 2026 target qualifies strong specialty-growth assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported photobook copies rose from xx.xx to xx.xx; the narrower 2026 target qualifies strong specialty-growth assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specialty-book activity constrains the presentation-demand scenario but does not measure gift-box attachment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specialty-book activity constrains the presentation-demand scenario but does not measure gift-box attachment.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CEWE PHOTOBOOK units in 2025 versus xx.xx in 2024, constraining the specialty-book demand budget without establishing a global process split.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CEWE PHOTOBOOK units in 2025 versus xx.xx in 2024, constraining the specialty-book demand budget without establishing a global process split.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports the common photographic-demand input; electrophotographic attribution remains an explicit assumption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports the common photographic-demand input; electrophotographic attribution remains an explicit assumption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The photobook

10. Paperback Printing Cost - Kindle Direct Publishing

- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The inspected U.S. paperback schedule charges USD xx.xx plus USD xx.xx per page for the specified regular-trim black-ink category. It provides a contemporary commercial price comparison for the assumed USD xx.xx self-publishing production receipt, not an observed historical price or volume.
- Evidence informing the 2026 market-value input; displayed series and growth include calculations: The schedule distinguishes printing charges from royalties and retail list prices, supporting the production-receipt boundary used in the estimate.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule uses USD xx.xx plus USD xx.xx per page for the relevant page band, yielding the USD xx.xx representative manufacturing comparator. It anchors relative weights, not an observed global 2025 price or future share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule uses USD xx.xx plus USD xx.xx per page for the relevant page band, yielding the USD xx.xx representative manufacturing comparator. It anchors relative weights, not an observed global 2025 price or future share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The paperback manufacturing comparator supplies the baseline from which the modeled binding component and hardcover increment are separated.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The paperback manufacturing comparator supplies the baseline from which the modeled binding component and hardcover increment are separated.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The separately identified paperback printing charge constrains the self-publishing production-receipt model and its distinction from retail proceeds.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The separately identified paperback printing charge constrains the self-publishing production-receipt model and its distinction from retail proceeds.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page. It is a contemporary production-charge comparison for the modeled USD xx.xx receipt, not an observed historical Global average.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page. It is a contemporary production-charge comparison for the modeled USD xx.xx receipt, not an observed historical Global average.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The relevant current U.S. paperback printing schedule is USD xx.xx plus USD xx.xx per page, giving USD xx.xx at xx.xx pages. This is a commercial price comparison for creator-production receipts, not proof of 2025 realization, volume or fulfillment mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The relevant current U.S. paperback printing schedule is USD xx.xx plus USD xx.xx per page, giving USD xx.xx at xx.xx pages. This is a commercial price comparison for creator-production receipts, not proof of 2025 realization, volume or fulfillment mix.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule of USD xx.xx plus USD xx.xx per page gives USD xx.xx at xx.xx pages, a magnitude check for modeled single-copy receipts. It establishes neither global volume nor historical or forecast share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule of USD xx.xx plus USD xx.xx per page gives USD xx.xx at xx.xx pages, a magnitude check for modeled single-copy receipts. It establishes neither global volume nor historical or forecast share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page, yielding USD xx.xx for xx.xx pages. This is a contemporary price comparator, not a historical global average. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834340))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page, yielding USD xx.xx for xx.xx pages. This is a contemporary price comparator, not a historical global average. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834340))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The comparable standard and premium color charges calculate to USD xx.xx and USD xx.xx. They constrain relative

11. European Book Publishing Statistics 2017

- Evidence informing the 2017 market-value input; displayed series and growth include calculations: The association's primary survey reports approximately EUR xx.xx of European net publisher revenue for 2017, constraining the pre-pandemic demand level.

12. European Book Publishing Statistics 2019

- Evidence informing the 2018 market-value input; displayed series and growth include calculations: The association reports approximately EUR xx.xx of publisher revenue for 2018.
- Evidence informing the 2019 market-value input; displayed series and growth include calculations: The association reports approximately EUR xx.xx for 2019 and identifies a questionnaire change that limits exact comparability with earlier observations.

13. 2021 年新闻出版产业分析报告

- Evidence informing the 2020 market-value input; displayed series and growth include calculations: The official report's 2021 comparison identifies a substantial rebound from 2020, constraining the pandemic-recovery bridge.
- Evidence informing the 2021 market-value input; displayed series and growth include calculations: China reported xx.xx book copies or sheets in 2021, up xx.xx%; the report also distinguishes textbook output and reprints.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: China's official 2021 textbook share was xx.xx% of book copies. It supplies an older educational-activity proxy, not a monochrome share.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: China's official 2021 textbook share was xx.xx% of book copies. It supplies an older educational-activity proxy, not a monochrome share.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The textbook copy proportion constrains educational exposure; comparable monetary intensity and spot-color incidence are modeled separately.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The textbook copy proportion constrains educational exposure; comparable monetary intensity and spot-color incidence are modeled separately.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational-activity observation contributes to the shared demand proxy carried into the full-color base and forecast models; no color split is reported.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational-activity observation contributes to the shared demand proxy carried into the full-color base and forecast models; no color split is reported.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))

14. European Book Publishing Statistics 2023

- Evidence informing the 2022 market-value input; displayed series and growth include calculations: European net publisher revenue was approximately EUR xx.xx in 2022; the association describes paper-cost pressure and price-led growth.

15. Hardcover Printing Cost - Kindle Direct Publishing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim hardcover schedule uses USD xx.xx plus USD xx.xx per page in the relevant band. Comparison with paperback charges constrains the premium-equivalent manufacturing model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim hardcover schedule uses USD xx.xx plus USD xx.xx per page in the relevant band. Comparison with paperback charges constrains the premium-equivalent manufacturing model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD xx.xx fixed-charge difference supplies the POD premium input; the xx.xx% commercial-run realization and premium incidence are explicitly modeled rather than disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD xx.xx fixed-charge difference supplies the POD premium input; the xx.xx% commercial-run realization and premium incidence are explicitly modeled rather than disclosed.
16. User Fees - University of Wisconsin-Milwaukee Print & Copy Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The university service schedule separately prices preflight/prepress preparation at USD xx.xx per hour, establishing a paid preparation activity rather than an automatic component of every printing-platform purchase.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The university service schedule separately prices preflight/prepress preparation at USD xx.xx per hour, establishing a paid preparation activity rather than an automatic component of every printing-platform purchase.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Perfect binding is listed at USD xx.xx-xx.xx per book. The lower endpoint is the model's basic-binding comparator, not a measured worldwide realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Perfect binding is listed at USD xx.xx-xx.xx per book. The lower endpoint is the model's basic-binding comparator, not a measured worldwide realization.

17. How Much Does It Cost to Print a Book? - QinPrinting
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier's delivered xx.xx-page, xx.xx-copy color-book examples list USD xx.xx for softcover and USD xx.xx for hardcover. They provide a commercial-run countercheck, with delivery and product differences preventing direct substitution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier's delivered xx.xx-page, xx.xx-copy color-book examples list USD xx.xx for softcover and USD xx.xx for hardcover. They provide a commercial-run countercheck, with delivery and product differences preventing direct substitution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The smaller hardcover premium in this offset example qualifies extrapolation of the full POD hardcover increment into binding revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The smaller hardcover premium in this offset example qualifies extrapolation of the full POD hardcover increment into binding revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Comparable hardcover and softcover quotations constrain the assumed relative manufacturing realization after scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Comparable hardcover and softcover quotations constrain the assumed relative manufacturing realization after scope adjustments.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Softcover prices provide a commercial comparison, not a historical global average.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Softcover prices provide a commercial comparison, not a historical global average.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Board-book quotations constrain the assumed production receipt; delivery and duties require adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Board-book quotations constrain the assumed production receipt; delivery and duties require adjustment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Mechanical-binding quotations constrain the unit-receipt assumption, not incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Mechanical-binding quotations constrain the unit-receipt assumption, not incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Short-booklet quotations constrain the lower realization used for eligible saddle-stitched books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Short-booklet quotations constrain the lower realization used for eligible saddle-stitched books.
18. Book Wrap Mailers / Book Boxes - Packaging ONE
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer lists MP2 book mailers at GBP xx.xx each for xx.xx packs of xx.xx excluding VAT. The converted unit price supplies the packaging-creation value proxy, not a global average or a historical quote.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer lists MP2 book mailers at GBP xx.xx each for xx.xx packs of xx.xx excluding VAT. The converted unit price supplies the packaging-creation value proxy, not a global average or a historical quote.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The enclosure price forms the other side of the creation-versus-packing ratio. One comparable enclosure per packing unit is an explicit activity-matching assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The enclosure price forms the other side of the creation-versus-packing ratio. One comparable enclosure per packing unit is an explicit activity-matching assumption.

19. Foreign Exchange Rates - G.5A Annual, January 5, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 annual average is USD xx.xx per GBP. It converts the GBP packaging comparator into the common monetary basis used in the starting allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 annual average is USD xx.xx per GBP. It converts the GBP packaging comparator into the common monetary basis used in the starting allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same conversion supports the common-currency packaging/packing denominator inherited by the forecast; no 2032 exchange rate is asserted.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same conversion supports the common-currency packaging/packing denominator inherited by the forecast; no 2032 exchange rate is asserted.
20. Optional Book Publishing Services - InstantPublisher
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider lists layout/typesetting at USD xx.xx per page with a USD xx.xx minimum. This supports the preparation-spending feasibility check, with purchase incidence and copies per job remaining assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider lists layout/typesetting at USD xx.xx per page with a USD xx.xx minimum. This supports the preparation-spending feasibility check, with purchase incidence and copies per job remaining assumptions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Individual shrink-wrapping is listed at USD xx.xx each plus USD xx.xx setup. Amortizing setup over an assumed xx.xx copies gives the USD xx.xx packing comparator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Individual shrink-wrapping is listed at USD xx.xx each plus USD xx.xx setup. Amortizing setup over an assumed xx.xx copies gives the USD xx.xx packing comparator.
21. How Does Merchant Pricing Work for Ecommerce Stores? - Lulu Direct
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2026 merchant-pricing explanation identifies a USD xx.xx fulfillment fee and separates merchant retail receipts from payments for supplier production, shipping and taxes. The fee is a contemporary feasibility comparator, not verified 2025 penetration or a future charge.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2026 merchant-pricing explanation identifies a USD xx.xx fulfillment fee and separates merchant retail receipts from payments for supplier production, shipping and taxes. The fee is a contemporary feasibility comparator, not verified 2025 penetration or a future charge.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Merchant retail receipts are separate from payments for printing and fulfillment. The current page lists a USD xx.xx fulfillment fee, with shipping and taxes separately calculated. This supports the service-value boundary, not a historical average fee or global order volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Merchant retail receipts are separate from payments for printing and fulfillment. The current page lists a USD xx.xx fulfillment fee, with shipping and taxes separately calculated. This supports the service-value boundary, not a historical average fee or global order volume.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lulu identifies separate retail and production/fulfillment transactions and a USD xx.xx fulfillment fee. This supports excluding merchant retail margins from production-service value and avoiding automatic procurement-channel classification from the storefront.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lulu identifies separate retail and production/fulfillment transactions and a USD xx.xx fulfillment fee. This supports excluding merchant retail margins from production-service value and avoiding automatic procurement-channel classification from the storefront.

22. AAP December 2025 StatShot Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The primary monthly reporting panel's full-year 2025 trade figures show paperback revenue down xx.xx%. This qualifies broad physical-book growth assumptions and supplies directional mix evidence only.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The primary monthly reporting panel's full-year 2025 trade figures show paperback revenue down xx.xx%. This qualifies broad physical-book growth assumptions and supplies directional mix evidence only.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same approximately xx.xx-publisher panel shows hardcover revenue up xx.xx%. It supports a modest premium-mix hypothesis but neither measures global binding spending nor proves the forecast.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same approximately xx.xx-publisher panel shows hardcover revenue up xx.xx%. It supports a modest premium-mix hypothesis but neither measures global binding spending nor proves the forecast.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct-participant 2025 hardback revenue of approximately USD xx.xx anchors the adjusted conventional-format model; it is not printing revenue or a global share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct-participant 2025 hardback revenue of approximately USD xx.xx anchors the adjusted conventional-format model; it is not printing revenue or a global share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported paperback revenue of approximately USD xx.xx plus USD xx.xx mass-market revenue supplies the comparison input. Reported annual movements qualify the forecast starting mix, not its future persistence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported paperback revenue of approximately USD xx.xx plus USD xx.xx mass-market revenue supplies the comparison input. Reported annual movements qualify the forecast starting mix, not its future persistence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct publisher-sample religious and trade physical-format receipts provide a category-intensity proxy, subject to explicit geographic and coverage adjustments.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct publisher-sample religious and trade physical-format receipts provide a category-intensity proxy, subject to explicit geographic and coverage adjustments.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported professional-book receipts and their 2025 decline challenge assumptions of automatic growth from recurring reference relationships.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported professional-book receipts and their 2025 decline challenge assumptions of automatic growth from recurring reference relationships.

23. Print and Associated Services Framework - Lot 1 Buyer Guide: Framework Objectives
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The public purchasing framework separately specifies production-management advice. It establishes a purchased responsibility but not a global fee rate or permission to count subcontract pass-through as retained revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The public purchasing framework separately specifies production-management advice. It establishes a purchased responsibility but not a global fee rate or permission to count subcontract pass-through as retained revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The framework also specifies finished-goods stock holding and call-off, with required holding costs included in the print-job price. This supports allocating embedded production-linked fulfillment rather than restricting the category to standalone invoices.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The framework also specifies finished-goods stock holding and call-off, with required holding costs included in the print-job price. This supports allocating embedded production-linked fulfillment rather than restricting the category to standalone invoices.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Finished goods may be held for call-off, with storage included in the print job where required. This supports consolidated releases as a production-linked arrangement without assuming every release is an individual order.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Finished goods may be held for call-off, with storage included in the print job where required. This supports consolidated releases as a production-linked arrangement without assuming every release is an individual order.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contractors maintain designated distribution lists, deliver to nominated addresses and receive job-specific copy allocations, supporting the modeled list-delivery category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contractors maintain designated distribution lists, deliver to nominated addresses and receive job-specific copy allocations, supporting the modeled list-delivery category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The coexistence of stock holding, call-off and distribution-list obligations supports separating production trigger from fulfillment responsibility; call-off alone does not establish transaction-level fulfillment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The coexistence of stock holding, call-off and distribution-list obligations supports separating production trigger from fulfillment responsibility; call-off alone does not establish transaction-level fulfillment.

24. Frequently Asked Questions - IngramSpark
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: IngramSpark states that it does not provide editing, typesetting or design services. This counterexample prevents treating all platform manufacturing commissions as purchases of professional preparation services.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: IngramSpark states that it does not provide editing, typesetting or design services. This counterexample prevents treating all platform manufacturing commissions as purchases of professional preparation services.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider permits nonexclusive sourcing when the customer owns its ISBN and does not offer editing, typesetting or design. These terms constrain the author service boundary, not adoption or revenue growth.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider permits nonexclusive sourcing when the customer owns its ISBN and does not offer editing, typesetting or design. These terms constrain the author service boundary, not adoption or revenue growth.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: IngramSpark permits nonexclusive use of other printers, distributors and fulfillment providers when publishers own their ISBN. This establishes an alternative-sourcing option, not observed switching or a numerical channel allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: IngramSpark permits nonexclusive use of other printers, distributors and fulfillment providers when publishers own their ISBN. This establishes an alternative-sourcing option, not observed switching or a numerical channel allocation.
25. Packaging Printing & Production - Imago Group
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier identifies book slipcases, clamshell cases, tray-and-lid constructions and multicomponent publisher packaging. This supports the enclosure-production boundary and the limitation of a simple mailer-price proxy; it does not supply sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier identifies book slipcases, clamshell cases, tray-and-lid constructions and multicomponent publisher packaging. This supports the enclosure-production boundary and the limitation of a simple mailer-price proxy; it does not supply sales weights.
26. Services - Bridgeport National Bindery
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The short-run book-production portfolio separately lists shrink-wrapping and set packing. It establishes commercial packing activity distinct from enclosure manufacture and binding, without measuring its revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The short-run book-production portfolio separately lists shrink-wrapping and set packing. It establishes commercial packing activity distinct from enclosure manufacture and binding, without measuring its revenue.
27. Terms and Conditions - CPI Print Germany
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published terms distinguish ex-works production prices from packaging, freight and postage and reserve specified input-cost adjustment rights. They support comparable-scope valuation but do not establish realized inflation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published terms distinguish ex-works production prices from packaging, freight and postage and reserve specified input-cost adjustment rights. They support comparable-scope valuation but do not establish realized inflation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate treatment of forwarding and storage responsibilities supports the eligible production-linked service boundary; contractual rights do not prove the assumed future fee-growth rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate treatment of forwarding and storage responsibilities supports the eligible production-linked service boundary; contractual rights do not prove the assumed future fee-growth rate.

28. ONIX Codelists Issue 75 - List 150: Product Form
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BB identifies hardback/cased books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BB identifies hardback/cased books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BC identifies paperback/softback books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BC identifies paperback/softback books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BH distinguishes board-page books from conventional books with rigid covers.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BH distinguishes board-page books from conventional books with rigid covers.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BE groups spiral, comb and coil forms.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BE groups spiral, comb and coil forms.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BD identifies loose-leaf books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BD identifies loose-leaf books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BF includes stapled short books; nonbook uses are excluded from the model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BF includes stapled short books; nonbook uses are excluded from the model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BL recognizes slide-bound books without measuring current sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BL recognizes slide-bound books without measuring current sales.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BO recognizes continuous concertina-fold books; nonbook charts are excluded.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BO recognizes continuous concertina-fold books; nonbook charts are excluded.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BI identifies textile-page books, not cloth-covered paper books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BI identifies textile-page books, not cloth-covered paper books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BJ identifies waterproof bath-book forms.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BJ identifies waterproof bath-book forms.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BP identifies foam-page and foam-cover books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BP identifies foam-page and foam-cover books.

29. Thomson Reuters - Fourth-Quarter and Full-Year 2025 Results
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Global Print revenue and contraction constrain professional-print scale and substitution direction; content receipts are not treated as loose-leaf service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Global Print revenue and contraction constrain professional-print scale and substitution direction; content receipts are not treated as loose-leaf service revenue.
30. Lulu - Discontinuing Saddle Stitch in Global Distribution
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provider-specific wholesale distribution restrictions establish a channel constraint, not a global sales weight or measured forecast decline.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provider-specific wholesale distribution restrictions establish a channel constraint, not a global sales weight or measured forecast decline.
31. MAGACOPY Sofia - Copying and Printing Prices
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A current EUR xx.xx binding-only charge establishes a live commercial service and a price-scope comparison; full-book USD receipts and incidence remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A current EUR xx.xx binding-only charge establishes a live commercial service and a price-scope comparison; full-book USD receipts and incidence remain assumed.
32. Imago Group - Spotlight on Children's Books for National Young Readers Week
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's children's portfolio supports board-book commercial classification, not order volumes.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's children's portfolio supports board-book commercial classification, not order volumes.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cloth-book offerings support the textile-page category premise, not its modeled incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cloth-book offerings support the textile-page category premise, not its modeled incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bath-book offerings support a separate commercial category; sales and service receipts are undisclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bath-book offerings support a separate commercial category; sales and service receipts are undisclosed.
33. Pegasus - My First Book of Shapes: EVA Foam Book
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The dated 2025 product identifies foam pages and supports commercial-status and classification checks, not global volume or supplier realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated 2025 product identifies foam pages and supports commercial-status and classification checks, not global volume or supplier realization.

34. U.S. Consumer Product Safety Commission - Children's Books
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Product classification and intended audience affect commercial compliance accountability; no numerical surcharge is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Product classification and intended audience affect commercial compliance accountability; no numerical surcharge is inferred.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The exemption boundary supports separate classification rather than assumed conventional-book treatment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The exemption boundary supports separate classification rather than assumed conventional-book treatment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Compliance classification is retained as an uncertainty, not an exclusion or measured price premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Compliance classification is retained as an uncertainty, not an exclusion or measured price premium.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specialty construction does not itself establish ordinary-book exemption eligibility or market inactivity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specialty construction does not itself establish ordinary-book exemption eligibility or market inactivity.
35. Puget Bindery - Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider identifies training manuals and reference guides as mechanical-binding applications, supporting the commissioning premise without measuring sales incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider identifies training manuals and reference guides as mechanical-binding applications, supporting the commissioning premise without measuring sales incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists commercial letterpress book plates and specialty inserts, supporting a component-service model rather than attribution of the entire book price.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists commercial letterpress book plates and specialty inserts, supporting a component-service model rather than attribution of the entire book price.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The bindery identifies commercial printers, publishers and corporate print buyers as customers and excludes direct-to-consumer sales. This supports trade-purchasing attribution but supplies no sales percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The bindery identifies commercial printers, publishers and corporate print buyers as customers and excludes direct-to-consumer sales. This supports trade-purchasing attribution but supplies no sales percentage.

36. ONIX Codelists Issue 75 - List 80: Product Packaging Type
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates single-item and multivolume slipcases; supplies classification, not sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates single-item and multivolume slipcases; supplies classification, not sales weights.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes lidded boxes from slipcase-style boxed sets.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes lidded boxes from slipcase-style boxed sets.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-ended wraparound sleeves are distinct from enclosed wrapping.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-ended wraparound sleeves are distinct from enclosed wrapping.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes envelope-like slip-sleeves and wallets or folders.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes envelope-like slip-sleeves and wallets or folders.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes pouch and bag packaging independently.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes pouch and bag packaging independently.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately recognizes shrink-wrapped products and bundles.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately recognizes shrink-wrapped products and bundles.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Defines formed-plastic clamshells and card-backed blister packaging as distinct constructions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Defines formed-plastic clamshells and card-backed blister packaging as distinct constructions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Explicitly recognizes book browse-prevention closures.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Explicitly recognizes book browse-prevention closures.

37. U.S. Government Publishing Office - Program 827-S: Federal Aviation Administration Books, Contract Pricing and Specifications

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Historical evaluation quantities provide a container-heavy institutional purchasing counterexample, not global shipment shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Historical evaluation quantities provide a container-heavy institutional purchasing counterexample, not global shipment shares.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies kraft-envelope packing within the book procurement.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies kraft-envelope packing within the book procurement.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies cushioned shipping bags as an eligible book-order enclosure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies cushioned shipping bags as an eligible book-order enclosure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Includes wrapped shipping bundles as an alternative purchasing configuration.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Includes wrapped shipping bundles as an alternative purchasing configuration.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Requires packing and filler separately from the external enclosure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Requires packing and filler separately from the external enclosure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies closure tape and securing straps independently of container construction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies closure tape and securing straps independently of container construction.

38. U.S. Government Publishing Office - Print Order Form 2511 Instructions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specifies paper-banded sets separately from shrink-wrapped sets.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specifies paper-banded sets separately from shrink-wrapped sets.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes shrink-wrapped units nested within cartons, supporting component attribution.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes shrink-wrapped units nested within cartons, supporting component attribution.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes internal packaging, container quantities and pallet requirements.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes internal packaging, container quantities and pallet requirements.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The instructions distinguish nominated delivery addresses and warehouse receiving arrangements, supporting the receiving-point attribution premise, not an observed consolidated market share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The instructions distinguish nominated delivery addresses and warehouse receiving arrangements, supporting the receiving-point attribution premise, not an observed consolidated market share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supplemental distribution lists accommodate multiple destinations, supporting the distinction between preallocated destination delivery and a single receiving-point handoff.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supplemental distribution lists accommodate multiple destinations, supporting the distinction between preallocated destination delivery and a single receiving-point handoff.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: GPO specifies black interior inks separately from cover inks, supporting the monochrome classification and underlying-book attribution premise, not its modeled sales weight. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GPO specifies black interior inks separately from cover inks, supporting the monochrome classification and underlying-book attribution premise, not its modeled sales weight. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Designated Pantone specifications are recognized for interior inks, supporting a separate spot-color commercial category without measuring its share. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Designated Pantone specifications are recognized for interior inks, supporting a separate spot-color commercial category without measuring its share. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Four-color process is identified as full color for interior pages; cover color is separately specified. This supports classification at both modeled anchors. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Four-color process is identified as full color for interior pages; cover color is separately specified. This supports classification at both modeled anchors. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))

39. GPOExpress Program Pricing Guide - November 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx hand folding provides a handling-cost comparison; the complete band realization remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx hand folding provides a handling-cost comparison; the complete band realization remains modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx per shrink wrap anchors a small-run comparison, not the assumed global realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx per shrink wrap anchors a small-run comparison, not the assumed global realization.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx auxiliary insertion supplies a handling-price comparison, not protective-material sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx auxiliary insertion supplies a handling-price comparison, not protective-material sales.
40. Hardcover Book Protection: Dust Jackets or Slipcases?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-product EXW slipcase prices of USD xx.xx, USD xx.xx and USD xx.xx at xx.xx xx.xx and xx.xx units constrain relative realizations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-product EXW slipcase prices of USD xx.xx, USD xx.xx and USD xx.xx at xx.xx xx.xx and xx.xx units constrain relative realizations.
41. Book Printing Cost in China: How Printing Prices Are Calculated
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately USD xx.xx per export carton including basic packing materials constrains the bulk-package budget; the container allocation is modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately USD xx.xx per export carton including basic packing materials constrains the bulk-package budget; the container allocation is modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its cushioning split is assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its cushioning split is assumed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its closure split is assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its closure split is assumed.
42. Make Believe Ideas - Independent Retail Catalog 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 catalog identifies activity books with cover-mounted blisters, establishing book-specific participation but not packaging revenue or volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 catalog identifies activity books with cover-mounted blisters, establishing book-specific participation but not packaging revenue or volume.
43. Bookmobile - Request Book Printing Quotes the Right Way to Save Money
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The printer's bookstore-oriented purchasing guidance cautions against universal shrink-wrap attachment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The printer's bookstore-oriented purchasing guidance cautions against universal shrink-wrap attachment.

44. Digital Book Printing - Bookmobile
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current book-production portfolio separately offers poly bags, supporting commercial category participation rather than a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current book-production portfolio separately offers poly bags, supporting commercial category participation rather than a sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current portfolio offers shrink-wrap independently of other finishing options.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current portfolio offers shrink-wrap independently of other finishing options.
45. Sell Books on Shopify - Lulu
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The offered storefront-to-print-and-ship route supports an accessible production-linked parcel channel, not assumed demand.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct fulfillment availability supports the parcel-use scenario without establishing envelope mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct fulfillment availability supports the parcel-use scenario without establishing bag mix.
46. European Commission - New EU Rules on Packaging Enter into Application
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional packaging minimization supports a directional right-sizing premise, not a measured global box-price effect.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Waste-reduction requirements inform the bounded substitution scenario; they do not quantify band adoption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional circularity requirements inform lower lightweight-bag exposure without implying a global book-bag ban.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Material substitution remains partly internal to the combined film-and-paper category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional recyclability pressure informs the niche substitution scenario, not an observed blister-sales decline.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Empty-space reduction provides a directional premise for lower cushioning allowance per individual box.
47. Digital Printing - U.S. Government Publishing Office
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Procurement examples allow offset or digital alternatives while restricting some digital variants, supporting an acceptance- and run-mix model rather than a universal quality ranking. This is a modeling premise, not an observed process share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Procurement examples allow offset or digital alternatives while restricting some digital variants, supporting an acceptance- and run-mix model rather than a universal quality ranking. This is a modeling premise, not an observed process share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The purchasing guidance supports conditional digital substitution, not unrestricted interchangeability or an observed forecast allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The purchasing guidance supports conditional digital substitution, not unrestricted interchangeability or an observed forecast allocation.

48. Clays demonstrate dedication to digital investment
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx books annually and xx.xx books of digital capacity in an older investment statement; this constrains scale but is not a 2025 realized output mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx books annually and xx.xx books of digital capacity in an older investment statement; this constrains scale but is not a 2025 realized output mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's inkjet investment supports an existing book-production application and a conditional adoption premise, not a quantified global forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's inkjet investment supports an existing book-production application and a conditional adoption premise, not a quantified global forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The capacity/output comparison is a limited commercial check on continued conventional book production, not a direct offset revenue observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The capacity/output comparison is a limited commercial check on continued conventional book production, not a direct offset revenue observation.
49. ISO/TC 130 - Guidelines for Using Print Production Standards, Version 1.0, 2019
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes packaging use cases and printing processes, supporting allocation of gravure to book-associated components rather than the full value of a book.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes packaging use cases and printing processes, supporting allocation of gravure to book-associated components rather than the full value of a book.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies flexographic packaging applications; the book-specific spending budget and process coefficients remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies flexographic packaging applications; the book-specific spending budget and process coefficients remain modeled.
50. Premium Layflat Photo Books - PhotobookShop
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Offers bound silver-halide photographic books and distinguishes them from digitally printed alternatives, supporting the model's separate photographic category rather than an observed sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Offers bound silver-halide photographic books and distinguishes them from digitally printed alternatives, supporting the model's separate photographic category rather than an observed sales weight.
51. The Cormac McCarthy Collection - The Folio Society
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents screen-printed cloth covers on physical book editions, supporting component-level commercial attribution. It does not measure supplier component receipts or global uptake.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents screen-printed cloth covers on physical book editions, supporting component-level commercial attribution. It does not measure supplier component receipts or global uptake.

52. Risograph Digital Duplicator Order Form, 2026 - Minneapolis College of Art and Design
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2026 institutional form recognizes Risograph book/booklet orders but excludes assembly. It supports a limited application boundary, not 2025 external commercial volume; internal institutional charges are excluded from the numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2026 institutional form recognizes Risograph book/booklet orders but excludes assembly. It supports a limited application boundary, not 2025 external commercial volume; internal institutional charges are excluded from the numerator.
53. American Printing House - 2024 Annual Report
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal 2024 product sales were USD xx.xx; braille publications represented xx.xx% of product sales; xx.xx braille volumes were produced. These inputs constrain an adjusted production-realization proxy, not a global market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The decline from xx.xx braille volumes in 2022 qualifies a uniform physical-demand growth assumption and informs the slower relative forecast activity weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2024 product sales were USD xx.xx; braille publications represented xx.xx% of product sales; xx.xx braille volumes were produced. These inputs constrain an adjusted production-realization proxy, not a global market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The decline from xx.xx braille volumes in 2022 qualifies a uniform physical-demand growth assumption and informs the slower relative forecast activity weight.
54. Kodak Moments Kiosk - Kodak Alaris
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises book-capable retail kiosk equipment and a photographic-printing portfolio. Used only as a commercial-route premise for the thermal working estimate, not as evidence of thermal book-service sales, utilization or the final share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises book-capable retail kiosk equipment and a photographic-printing portfolio. Used only as a commercial-route premise for the thermal working estimate, not as evidence of thermal book-service sales, utilization or the final share.
55. 二〇二一年全国新闻出版业基本情况
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official 2021 aggregate textbook output distinguishes school, tertiary and vocational/adult activity; historical volumes require value and global-scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official 2021 aggregate textbook output distinguishes school, tertiary and vocational/adult activity; historical volumes require value and global-scope adjustments.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Secondary, primary and teaching-book aggregate sheet counts form the school activity weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Secondary, primary and teaching-book aggregate sheet counts form the school activity weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Tertiary textbook aggregate output supplies the higher-education activity input before an assumed relative-service-value adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Tertiary textbook aggregate output supplies the higher-education activity input before an assumed relative-service-value adjustment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Vocational, adult and literacy textbook output supplies the corresponding historical activity input.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Vocational, adult and literacy textbook output supplies the corresponding historical activity input.

56. Music, printed or in manuscript imports by country, 2024 - World Integrated Trade Solution
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official HS xx.xx import observations constrain the music-publication value bridge; domestic supply, physical-book eligibility and the printing-service fraction remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official HS xx.xx import observations constrain the music-publication value bridge; domestic supply, physical-book eligibility and the printing-service fraction remain modeled.
57. Bloomsbury Publishing - 2024/25 Results Presentation
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate Academic & Professional print, digital and rights/service receipts demonstrate the required physical-revenue boundary; company mix is not treated as global market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate Academic & Professional print, digital and rights/service receipts demonstrate the required physical-revenue boundary; company mix is not treated as global market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed physical academic publishing activity supports commercial applicability but does not verify the assumed global research/reference ratio.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed physical academic publishing activity supports commercial applicability but does not verify the assumed global research/reference ratio.
58. HDSB - RFSQ 26-013: Yearbook Software and Printing Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The qualification notice establishes a commissioned yearbook scope including printing, binding and school delivery; it supplies no awarded value and is not used as a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The qualification notice establishes a commissioned yearbook scope including printing, binding and school delivery; it supplies no awarded value and is not used as a sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The yearbook qualification notice restricts supply to prequalified vendors while permitting school bulk orders and individual ordering. It supports separating commissioning authority from ultimate payment, but discloses no fulfilled-order value.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The yearbook qualification notice restricts supply to prequalified vendors while permitting school bulk orders and individual ordering. It supports separating commissioning authority from ultimate payment, but discloses no fulfilled-order value.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The individual-ordering option establishes an attribution uncertainty relevant to the modeled household portion; it does not establish the assumed xx.xx% proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The individual-ordering option establishes an attribution uncertainty relevant to the modeled household portion; it does not establish the assumed xx.xx% proportion.

59. U.S. Census Bureau - 2022 Economic Census, Books Printing Questionnaire MC-32312
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official printing questionnaire supports the distinction between textbook and general-book production; recognition is not treated as a revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official printing questionnaire supports the distinction between textbook and general-book production; recognition is not treated as a revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognized coloring-book output supports treating recreational activity commissions separately from institutional textbooks according to purpose.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognized coloring-book output supports treating recreational activity commissions separately from institutional textbooks according to purpose.
60. Press Information Bureau - Department of School Education & Literacy, Year End Review 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The government review describes substantial NCERT physical-textbook activity, independently qualifying the physical-availability premise without establishing attributable supplier revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The government review describes substantial NCERT physical-textbook activity, independently qualifying the physical-availability premise without establishing attributable supplier revenue.
61. 2022 North American Industry Classification System - United States
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dedicated book-publishing activity is separated from institutional primary activities and printing without publishing, constraining the Publishing Organizations numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dedicated book-publishing activity is separated from institutional primary activities and printing without publishing, constraining the Publishing Organizations numerator.
62. U.S. Census Bureau - Books Printing: 2002
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Table xx.xx reports 2002 U.S. books-printing contract-work costs of USD xx.xx and shipments of USD xx.xx. Their ratio supplies a dated manufacturing-subcontract proxy, held constant within the forecast component.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Table xx.xx reports 2002 U.S. books-printing contract-work costs of USD xx.xx and shipments of USD xx.xx. Their ratio supplies a dated manufacturing-subcontract proxy, held constant within the forecast component.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical subcontract-cost input constrains the modeled transfer from publisher-origin commissioning to performing suppliers, without adding another gross contract value.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical subcontract-cost input constrains the modeled transfer from publisher-origin commissioning to performing suppliers, without adding another gross contract value.
63. Samfine Creation Holdings Group Limited - Form 20-F for the year ended December 31, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports USD xx.xx of 2025 book-product revenue and principally serves book traders that secure printing contracts and outsource production. This is a supplier-specific quantitative role check, not a Global allocation weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports USD xx.xx of 2025 book-product revenue and principally serves book traders that secure printing contracts and outsource production. This is a supplier-specific quantitative role check, not a Global allocation weight.

64. Ministry of Education - NCERT and Amazon Letter of Engagement, October 7, 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2024 announcement targeted xx.xx NCERT books for academic 2025-xx.xx. This is a planned institutional activity anchor; realization, eligible receipts and subsequent growth are modeled separately.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2024 announcement targeted xx.xx NCERT books for academic 2025-xx.xx. This is a planned institutional activity anchor; realization, eligible receipts and subsequent growth are modeled separately.
65. Bangladesh e-GP - NCTB/TEXTBOOK/2025, Package GD.102_SEC_8.031
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The government-funded procurement plan specifies xx.xx academic-2025 textbook copies and an estimated BDT xx.xx for printing, binding and supply. It constrains commercial order scale and local unit-budget plausibility, not realized annual revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The government-funded procurement plan specifies xx.xx academic-2025 textbook copies and an estimated BDT xx.xx for printing, binding and supply. It constrains commercial order scale and local unit-budget plausibility, not realized annual revenue.
66. Students suffer as NCTB fails to deliver books - The Daily Star, January 17, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 report corroborates the dated approximately xx.xx-copy textbook target and early-year delivery disruption. Target realization and supplier receipts remain modeled.
67. Secondary-level students: A new year without full set of books for many - The Daily Star, December 28, 2025
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 report corroborates the approximately xx.xx-copy academic-2026 target and continued delivery slippage. It informs a normalization assumption, not an observed 2032 share.
68. Business Books - Print Professional, Custom Corporate Books | Blurb
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The business-book offering includes organizational presentation and corporate-gift applications. It establishes an in-scope commissioning proposition, not the modeled global copy quantity or spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The business-book offering includes organizational presentation and corporate-gift applications. It establishes an in-scope commissioning proposition, not the modeled global copy quantity or spending.
69. How to Use Lulu to Support Your Nonprofit | Lulu
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform permits an organization or charity to receive creator proceeds. This supports excluding beneficiary-only arrangements from nonprofit commissioning; it does not measure nonprofit printing purchases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform permits an organization or charity to receive creator proceeds. This supports excluding beneficiary-only arrangements from nonprofit commissioning; it does not measure nonprofit printing purchases.

70. News Corp - Form 10-K for the fiscal year ended June 30, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal 2025 consumer backlist revenue of xx.xx% and digital revenue of xx.xx% anchor the assumed physical-backlist bridge and its forecast starting model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2025 consumer backlist revenue of xx.xx% and digital revenue of xx.xx% anchor the assumed physical-backlist bridge and its forecast starting model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed backlist mix constrains recurring-title demand; its division into replenishment and POD remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed backlist mix constrains recurring-title demand; its division into replenishment and POD remains modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The complementary frontlist population supports the launch-stock cohort after physical-format adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The complementary frontlist population supports the launch-stock cohort after physical-format adjustments.
71. News Corp - Form 10-K for the fiscal year ended June 30, 2026
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2026 backlist revenue of xx.xx% and digital revenue of xx.xx% lower the forecast physical-backlist proxy instead of assuming continued backlist expansion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The updated catalog mix changes the forecast population available for repeat inventory releases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The updated frontlist/backlist bridge changes the forecast planned-production weight; no 2032 share is disclosed.
72. How Do Lulu Direct Orders Work?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lulu describes printing after customer purchase and distinguishes production from subsequent shipment, supporting recipient-order attribution rather than technology-based classification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lulu describes printing after customer purchase and distinguishes production from subsequent shipment, supporting recipient-order attribution rather than technology-based classification.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: No minimum order and one-copy ordering establish commercial feasibility, not the number or value of single-copy releases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No minimum order and one-copy ordering establish commercial feasibility, not the number or value of single-copy releases.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: One POD offering accepts hundreds of copies, independently challenging a POD-equals-single-copy allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One POD offering accepts hundreds of copies, independently challenging a POD-equals-single-copy allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Orders can extend into thousands within the same offering; the production trigger therefore does not uniquely identify the working run band.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Orders can extend into thousands within the same offering; the production trigger therefore does not uniquely identify the working run band.

73. Supply Chain - Clays

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Clays describes differentiated backlist arrangements and stock visibility, supporting a separate inventory-replenishment cohort without establishing its numerical prevalence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Clays describes differentiated backlist arrangements and stock visibility, supporting a separate inventory-replenishment cohort without establishing its numerical prevalence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: New-title consolidation and predictable annual backlist demand support retaining planned inventory commitments; short-run printing is explicitly not necessarily POD.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: New-title consolidation and predictable annual backlist demand support retaining planned inventory commitments; short-run printing is explicitly not necessarily POD.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Clays explicitly distinguishes short-run work from POD, supporting category separation rather than a technological proxy for value share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Clays explicitly distinguishes short-run work from POD, supporting category separation rather than a technological proxy for value share.

74. Smart Backlist Management: When to Hold and When to Print-on-Demand

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheridan describes low-volume titles moving to POD while other titles retain inventory, supporting differentiated release-policy assumptions rather than a uniform backlist-to-POD conversion.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheridan describes low-volume titles moving to POD while other titles retain inventory, supporting differentiated release-policy assumptions rather than a uniform backlist-to-POD conversion.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: A disclosed customer example uses a stock threshold to trigger a 2,000-copy replenishment order. It establishes the commercial mechanism, not a market-wide share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A disclosed customer example uses a stock threshold to trigger a 2,000-copy replenishment order. It establishes the commercial mechanism, not a market-wide share.

75. Shortage of NCERT textbooks - Rajya Sabha Unstarred Question No. 1941, December 17, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advance enrollment-based forecasting, academic-session readiness and a fiscal 2025-xx.xx plan for approximately xx.xx textbooks support a substantial calendar-driven stock cohort. The target is not realized production.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advance enrollment-based forecasting, academic-session readiness and a fiscal 2025-xx.xx plan for approximately xx.xx textbooks support a substantial calendar-driven stock cohort. The target is not realized production.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phased supply and inventory monitoring support distinguishing ongoing availability obligations from individual-recipient POD, without quantifying replenishment's global prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phased supply and inventory monitoring support distinguishing ongoing availability obligations from individual-recipient POD, without quantifying replenishment's global prevalence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official answer distinguishes printer empanelment from approximately xx.xx distribution vendors and describes planned fiscal 2025-xx.xx printing of approximately xx.xx textbooks. It supports commissioning-versus-distribution separation, not a realized monetary channel split.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official answer distinguishes printer empanelment from approximately xx.xx distribution vendors and describes planned fiscal 2025-xx.xx printing of approximately xx.xx textbooks. It supports commissioning-versus-distribution separation, not a realized monetary channel split.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phased textbook supply supports treating annual institutional quantities separately from production batches; it does not disclose the medium-run allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phased textbook supply supports treating annual institutional quantities separately from production batches; it does not disclose the medium-run allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 answer identifies a xx.xx-million-copy FY2025-xx.xx printing decision versus approximately xx.xx in recent years, a counterforce to assuming rapid long-run disappearance. Planned copies are not realized service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 answer identifies a xx.xx-million-copy FY2025-xx.xx printing decision versus approximately xx.xx in recent years, a counterforce to assuming rapid long-run disappearance. Planned copies are not realized service revenue.
76. Fulfillment Fee - Lulu Direct
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2026 schedule lists USD xx.xx per order regardless of item count, supporting an order-frequency effect on associated-service value. It does not verify the assumed historical or forecast multiplier.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2026 schedule lists USD xx.xx per order regardless of item count, supporting an order-frequency effect on associated-service value. It does not verify the assumed historical or forecast multiplier.

77. InnerWorkings, Inc. - Form 10-K for the year ended December 31, 2019
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2019 filing reports USD xx.xx gross profit on USD xx.xx revenue and describes purchased-product and direct-service costs. Historical reported margins constrain the modeled xx.xx% retained-fee ratio; they do not directly measure book-channel share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2019 filing reports USD xx.xx gross profit on USD xx.xx revenue and describes purchased-product and direct-service costs. Historical reported margins constrain the modeled xx.xx% retained-fee ratio; they do not directly measure book-channel share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The procurement-service margin comparison supports the fee-to-managed-spending bridge underlying the direct-channel complement. Carrying the normalized ratio into 2032 is explicitly a forecast assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The procurement-service margin comparison supports the fee-to-managed-spending bridge underlying the direct-channel complement. Carrying the normalized ratio into 2032 is explicitly a forecast assumption.
78. Simplified Purchase Agreement - U.S. Government Publishing Office
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SPA permits agency awards directly to certified vendors for purchases up to USD xx.xx while GPO pays vendors and invoices agencies. This supports classifying by the contracting relationship rather than the invoice payer, not a numerical global weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SPA permits agency awards directly to certified vendors for purchases up to USD xx.xx while GPO pays vendors and invoices agencies. This supports classifying by the contracting relationship rather than the invoice payer, not a numerical global weight.
79. Global Print Services | China, Europe, SE Asia, USA & India
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Imago describes sourcing suppliers and coordinating multiple manufacturers for book-related projects. Its cumulative customer relationships establish the offered intermediary role but are not annual revenue or allocation weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Imago describes sourcing suppliers and coordinating multiple manufacturers for book-related projects. Its cumulative customer relationships establish the offered intermediary role but are not annual revenue or allocation weights.
80. Lion Rock Group Limited - Annual Report 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-business 2025 turnover changes of minus xx.xx% for APOL and minus xx.xx% for Regent challenge uniform intermediary growth; Regent's non-book focus limits its relevance. These observations support avoiding an additional adoption uplift.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-business 2025 turnover changes of minus xx.xx% for APOL and minus xx.xx% for Regent challenge uniform intermediary growth; Regent's non-book focus limits its relevance. These observations support avoiding an additional adoption uplift.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Manufacturing turnover changes of minus xx.xx% at xx.xx Printing and plus xx.xx% at Papercraft demonstrate differing supplier trajectories rather than a simple common channel-growth pattern; these are not direct-contracting market shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Manufacturing turnover changes of minus xx.xx% at xx.xx Printing and plus xx.xx% at Papercraft demonstrate differing supplier trajectories rather than a simple common channel-growth pattern; these are not direct-contracting market shares.

81. Imprint Digital - Book Printing Prices UK

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected schedule quotes GBP xx.xx at xx.xx copies for one paperback specification, supporting a relative-price input, not a historical global realization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected schedule quotes GBP xx.xx at xx.xx copies for one paperback specification, supporting a relative-price input, not a historical global realization.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: GBP xx.xx at xx.xx copies supplies the medium-run reference index; format and delivery differences require separate treatment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GBP xx.xx at xx.xx copies supplies the medium-run reference index; format and delivery differences require separate treatment.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The quantity-price curve anchors the reference from which the long-run discount is assumed; no long-run price or future share is disclosed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The quantity-price curve anchors the reference from which the long-run discount is assumed; no long-run price or future share is disclosed.

82. Print Options

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: KDP distinguishes black-and-white from color records and locks ink type after publication. These platform-specific conditions qualify switching assumptions, not market weights. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: KDP distinguishes black-and-white from color records and locks ink type after publication. These platform-specific conditions qualify switching assumptions, not market weights. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The displayed platform menu does not establish designated spot-color availability or sales; a general color option is not used as evidence of spot-color demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The displayed platform menu does not establish designated spot-color availability or sales; a general color option is not used as evidence of spot-color demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Standard color is unavailable for hardcover, but premium color is available. Both process-color tiers belong within the modeled Full-Color Interiors category. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Standard color is unavailable for hardcover, but premium color is available. Both process-color tiers belong within the modeled Full-Color Interiors category. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))

83. Synthèse des chiffres de l'édition jeunesse 2024-2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The primary French publishing survey reports a xx.xx% decline in illustrated early-childhood volumes and a xx.xx% decline in youth-fiction volumes in 2024. These differing outcomes challenge an aggressive universal color-growth assumption. ([sne.fr](https://www.sne.fr/actu/synthese-des-chiffres-de-ledition-jeunesse-2024-2025/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The primary French publishing survey reports a xx.xx% decline in illustrated early-childhood volumes and a xx.xx% decline in youth-fiction volumes in 2024. These differing outcomes challenge an aggressive universal color-growth assumption. ([sne.fr](https://www.sne.fr/actu/synthese-des-chiffres-de-ledition-jeunesse-2024-2025/))

20.5. South Korea

Sources & Evidence

1. European Book Publishing Statistics 2024
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: European publishers reported approximately EUR xx.xx of net book-sales revenue in 2024. The disclosed ebook and audiobook proportions inform the modeled xx.xx% physical-book revenue proportion; publisher revenue is an input, not printing-service revenue.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 publisher-revenue and format observations provide the European demand input carried into the 2025 estimate.

2. The Global Publishing Industry in 2022

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Table xx.xx supplies country-level publishing revenues and identifies differences between retail-value, publisher-revenue, print-only and prior-year observations. Selected non-European country observations are adjusted for physical formats and period before estimating production spending.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The selected country observations contribute to the demand pool underlying the 2025 working estimate. Nielsen retail datasets elsewhere in the publication are not used.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Primary survey sector differences constrain the education-adjusted hardcover proxy.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Primary survey sector differences constrain the education-adjusted hardcover proxy.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Educational/trade differences qualify extrapolation of U.S. consumer-format revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Educational/trade differences qualify extrapolation of U.S. consumer-format revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx of surveyed children's publishing revenue anchors the modeled specialty demand pool, not supplier receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx of surveyed children's publishing revenue anchors the modeled specialty demand pool, not supplier receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sector data constrain the commissioning-pool proxy; mechanical incidence remains assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sector data constrain the commissioning-pool proxy; mechanical incidence remains assumed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Educational demand supplies a common economic anchor; loose-leaf incidence remains modeled.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Educational demand supplies a common economic anchor; loose-leaf incidence remains modeled.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sector observations constrain the educational short-book commissioning pool.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sector observations constrain the educational short-book commissioning pool.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The commissioning-pool anchor supports an explicit sparse-format incidence model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The commissioning-pool anchor supports an explicit sparse-format incidence model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors the accordion working estimate, not observed accordion orders.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors the accordion working estimate, not observed accordion orders.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed textile-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed textile-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed bath-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed bath-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed foam-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed foam-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original publishing survey documents country-level trade/education revenue differences used to constrain the modeled physical-publishing mix; it does not directly measure service shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original publishing survey documents country-level trade/education revenue differences used to constrain the modeled physical-publishing mix; it does not directly measure service shares.

3. 2024 年新闻出版统计公报

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: For 2024, the official table reports xx.xx book copies or sheets and CNY xx.xx of book-publishing revenue. These constrain the demand bridge and historical contraction, rather than directly measuring printing-service sales.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 book-publishing observation supplies the Chinese demand primitive for the 2025 model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official 2024 output of xx.xx copies/sheets constrains total modeled publisher activity; it does not disclose single-copy production.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official 2024 output of xx.xx copies/sheets constrains total modeled publisher activity; it does not disclose single-copy production.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Aggregate copies and annual title output constrain the shared activity model, not an observed short-run share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Aggregate copies and annual title output constrain the shared activity model, not an observed short-run share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Aggregate production provides a scale check for the medium-run assumption; annual copies per title are not individual batches.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Aggregate production provides a scale check for the medium-run assumption; annual copies per title are not individual batches.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx annual copies per title constrain the long-run scenario without proving its batch mix or forecast.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx annual copies per title constrain the long-run scenario without proving its batch mix or forecast.

4. Foreign Exchange Rates - G.5A Annual, January 5, 2026

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: The official 2024 annual-average conversion inputs are USD xx.xx per EUR, CNY xx.xx per USD and CAD xx.xx per USD.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The exchange-rate table establishes the conversion basis of the preceding-year demand inputs used in the 2025 estimate; subsequent effective-USD price assumptions are modeled separately.

5. Book publishing industry, 2024 - Statistics Canada
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Canadian publishers reported CAD xx.xx of print sales outside the online category and CAD xx.xx of online print sales in 2024. Their sum, rather than total operating revenue, supplies the physical-book demand input.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: Reported cost of goods sold of CAD xx.xx, up CAD xx.xx from 2022, supplies a cost-pressure cross-check, not a directly attributable printing-services total.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Canadian online versus other print-sales values constrain parcel exposure, with explicit value-to-unit and geographic limitations.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Canadian online versus other print-sales values constrain parcel exposure, with explicit value-to-unit and geographic limitations.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed envelope purchases.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed envelope purchases.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed bag purchases.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed bag purchases.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Modest observed online-print growth qualifies aggressive parcel-related wrapping assumptions.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Modest observed online-print growth qualifies aggressive parcel-related wrapping assumptions.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring separate protection.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring separate protection.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring closures.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring closures.
6. U.S. Census Bureau - Books Printing: Shipments, annual table
   - Evidence informing the 2017 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2017; this is a national production anchor for the historical model.
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2018.
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2019.
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2020.
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2021.
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2022.
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2024. This national industrial measure is narrower than the composite global service boundary.

7. U.S. Census Bureau - Book Publishers, All Establishments: Revenue, annual table
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: The Census annual series reports USD xx.xx of U.S. book-publisher revenue for 2024. A modeled xx.xx% physical-book proportion excludes digital and other adjacent receipts.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 Census observation replaces an older survey-based U.S. revenue bridge in the demand pool underlying 2025.

8. Scholastic Corporation - Form 10-K for the year ended May 31, 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Scholastic's fiscal 2024 product, service, production and inventory-reserve costs were xx.xx% of revenue; postage, freight, shipping, fulfillment and other costs were xx.xx%. These broad categories constrain, but do not directly establish, eligible outsourced-service spending.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The corresponding fiscal 2025 proportions were xx.xx% and xx.xx%. Royalties and prepublication amortization are separately disclosed, allowing their exclusion from the service-market bridge.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 product, service, production and inventory-reserve costs were xx.xx% of revenue. The broader cost category constrains the manufacturing spending boundary but does not directly disclose printing-service revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 product, service, production and inventory-reserve costs were xx.xx% of revenue. The broader cost category constrains the manufacturing spending boundary but does not directly disclose printing-service revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Prepublication amortization is disclosed separately from production costs, supporting exclusion of adjacent amortization rather than equating it with externally purchased prepress.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Prepublication amortization is disclosed separately from production costs, supporting exclusion of adjacent amortization rather than equating it with externally purchased prepress.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Postage, freight, shipping, fulfillment and other costs were xx.xx% of revenue in fiscal 2025 versus xx.xx% in fiscal 2024. This is a broad buyer-cost check, not an eligible outsourced-fulfillment share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Postage, freight, shipping, fulfillment and other costs were xx.xx% of revenue in fiscal 2025 versus xx.xx% in fiscal 2024. This is a broad buyer-cost check, not an eligible outsourced-fulfillment share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Outsourced manufacturing coexists with company-operated distribution. Fiscal-2025 production-related costs were xx.xx% of revenue, constraining the inherited spending bridge rather than directly measuring the assumed route fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Outsourced manufacturing coexists with company-operated distribution. Fiscal-2025 production-related costs were xx.xx% of revenue, constraining the inherited spending bridge rather than directly measuring the assumed route fraction.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Book-club revenue was xx.xx% online-ordered and xx.xx% parent-ordered, while products typically went to classrooms. This challenges the use of online sales as a proxy for the external contractor's delivery model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Book-club revenue was xx.xx% online-ordered and xx.xx% parent-ordered, while products typically went to classrooms. This challenges the use of online sales as a proxy for the external contractor's delivery model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct printer-to-customer fulfillment is a disclosed option. Broader logistics/other costs were xx.xx% of revenue versus xx.xx% previously, providing a cost-boundary check but no global order-level share or service-price growth observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct printer-to-customer fulfillment is a disclosed option. Broader logistics/other costs were xx.xx% of revenue versus xx.xx% previously, providing a cost-boundary check but no global order-level share or service-price growth observation.

9. CEWE achieves all targets in 2025 and aims to further increase revenue and earnings in 2026

- Evidence informing the 2025 market-value input; displayed series and growth include calculations: CEWE reported xx.xx CEWE PHOTOBOOK copies in 2025 versus xx.xx in 2024, supporting a positive specialty-book volume assumption without establishing global adoption.
- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Observed 2025 photobook growth informs the specialty-demand assumption for 2026; the market value remains modeled.
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The observed specialty-book activity is a starting condition for the forecast, not independent proof of continued growth through 2032.
- Evidence informing the 2040 market-value input; displayed series and growth include calculations: The forecast explicitly slows specialty-demand growth after 2032; this source supplies the initial commercial observation, not the long-term growth rate.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: CEWE reports xx.xx photobooks in 2025 compared with xx.xx in 2024. This independently establishes specialty-book activity underlying the nonpublisher model, without establishing a global expansion factor.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CEWE reports xx.xx photobooks in 2025 compared with xx.xx in 2024. This independently establishes specialty-book activity underlying the nonpublisher model, without establishing a global expansion factor.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports retaining premium specialty commissions in the manufacturing mix; the binding allocation and unchanged future cohort profile remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports retaining premium specialty commissions in the manufacturing mix; the binding allocation and unchanged future cohort profile remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported photobook volumes constrain personal-book activity and the nonpublisher starting condition, not hardcover prevalence or future share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported photobook volumes constrain personal-book activity and the nonpublisher starting condition, not hardcover prevalence or future share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Photobook activity supports the separate personal-book commissioning block; its softcover fraction remains assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Photobook activity supports the separate personal-book commissioning block; its softcover fraction remains assumed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported photobook copies rose from xx.xx to xx.xx; the narrower 2026 target qualifies strong specialty-growth assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported photobook copies rose from xx.xx to xx.xx; the narrower 2026 target qualifies strong specialty-growth assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specialty-book activity constrains the presentation-demand scenario but does not measure gift-box attachment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specialty-book activity constrains the presentation-demand scenario but does not measure gift-box attachment.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CEWE PHOTOBOOK units in 2025 versus xx.xx in 2024, constraining the specialty-book demand budget without establishing a global process split.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CEWE PHOTOBOOK units in 2025 versus xx.xx in 2024, constraining the specialty-book demand budget without establishing a global process split.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports the common photographic-demand input; electrophotographic attribution remains an explicit assumption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports the common photographic-demand input; electrophotographic attribution remains an explicit assumption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The photobook

10. Paperback Printing Cost - Kindle Direct Publishing

- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The inspected U.S. paperback schedule charges USD xx.xx plus USD xx.xx per page for the specified regular-trim black-ink category. It provides a contemporary commercial price comparison for the assumed USD xx.xx self-publishing production receipt, not an observed historical price or volume.
- Evidence informing the 2026 market-value input; displayed series and growth include calculations: The schedule distinguishes printing charges from royalties and retail list prices, supporting the production-receipt boundary used in the estimate.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule uses USD xx.xx plus USD xx.xx per page for the relevant page band, yielding the USD xx.xx representative manufacturing comparator. It anchors relative weights, not an observed global 2025 price or future share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule uses USD xx.xx plus USD xx.xx per page for the relevant page band, yielding the USD xx.xx representative manufacturing comparator. It anchors relative weights, not an observed global 2025 price or future share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The paperback manufacturing comparator supplies the baseline from which the modeled binding component and hardcover increment are separated.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The paperback manufacturing comparator supplies the baseline from which the modeled binding component and hardcover increment are separated.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The separately identified paperback printing charge constrains the self-publishing production-receipt model and its distinction from retail proceeds.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The separately identified paperback printing charge constrains the self-publishing production-receipt model and its distinction from retail proceeds.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page. It is a contemporary production-charge comparison for the modeled USD xx.xx receipt, not an observed historical Global average.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page. It is a contemporary production-charge comparison for the modeled USD xx.xx receipt, not an observed historical Global average.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The relevant current U.S. paperback printing schedule is USD xx.xx plus USD xx.xx per page, giving USD xx.xx at xx.xx pages. This is a commercial price comparison for creator-production receipts, not proof of 2025 realization, volume or fulfillment mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The relevant current U.S. paperback printing schedule is USD xx.xx plus USD xx.xx per page, giving USD xx.xx at xx.xx pages. This is a commercial price comparison for creator-production receipts, not proof of 2025 realization, volume or fulfillment mix.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule of USD xx.xx plus USD xx.xx per page gives USD xx.xx at xx.xx pages, a magnitude check for modeled single-copy receipts. It establishes neither global volume nor historical or forecast share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule of USD xx.xx plus USD xx.xx per page gives USD xx.xx at xx.xx pages, a magnitude check for modeled single-copy receipts. It establishes neither global volume nor historical or forecast share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page, yielding USD xx.xx for xx.xx pages. This is a contemporary price comparator, not a historical global average. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834340))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page, yielding USD xx.xx for xx.xx pages. This is a contemporary price comparator, not a historical global average. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834340))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The comparable standard and premium color charges calculate to USD xx.xx and USD xx.xx. They constrain relative

11. European Book Publishing Statistics 2017

- Evidence informing the 2017 market-value input; displayed series and growth include calculations: The association's primary survey reports approximately EUR xx.xx of European net publisher revenue for 2017, constraining the pre-pandemic demand level.

12. European Book Publishing Statistics 2019

- Evidence informing the 2018 market-value input; displayed series and growth include calculations: The association reports approximately EUR xx.xx of publisher revenue for 2018.
- Evidence informing the 2019 market-value input; displayed series and growth include calculations: The association reports approximately EUR xx.xx for 2019 and identifies a questionnaire change that limits exact comparability with earlier observations.

13. 2021 年新闻出版产业分析报告

- Evidence informing the 2020 market-value input; displayed series and growth include calculations: The official report's 2021 comparison identifies a substantial rebound from 2020, constraining the pandemic-recovery bridge.
- Evidence informing the 2021 market-value input; displayed series and growth include calculations: China reported xx.xx book copies or sheets in 2021, up xx.xx%; the report also distinguishes textbook output and reprints.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: China's official 2021 textbook share was xx.xx% of book copies. It supplies an older educational-activity proxy, not a monochrome share.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: China's official 2021 textbook share was xx.xx% of book copies. It supplies an older educational-activity proxy, not a monochrome share.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The textbook copy proportion constrains educational exposure; comparable monetary intensity and spot-color incidence are modeled separately.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The textbook copy proportion constrains educational exposure; comparable monetary intensity and spot-color incidence are modeled separately.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational-activity observation contributes to the shared demand proxy carried into the full-color base and forecast models; no color split is reported.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational-activity observation contributes to the shared demand proxy carried into the full-color base and forecast models; no color split is reported.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))

14. European Book Publishing Statistics 2023

- Evidence informing the 2022 market-value input; displayed series and growth include calculations: European net publisher revenue was approximately EUR xx.xx in 2022; the association describes paper-cost pressure and price-led growth.

15. Hardcover Printing Cost - Kindle Direct Publishing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim hardcover schedule uses USD xx.xx plus USD xx.xx per page in the relevant band. Comparison with paperback charges constrains the premium-equivalent manufacturing model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim hardcover schedule uses USD xx.xx plus USD xx.xx per page in the relevant band. Comparison with paperback charges constrains the premium-equivalent manufacturing model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD xx.xx fixed-charge difference supplies the POD premium input; the xx.xx% commercial-run realization and premium incidence are explicitly modeled rather than disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD xx.xx fixed-charge difference supplies the POD premium input; the xx.xx% commercial-run realization and premium incidence are explicitly modeled rather than disclosed.
16. User Fees - University of Wisconsin-Milwaukee Print & Copy Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The university service schedule separately prices preflight/prepress preparation at USD xx.xx per hour, establishing a paid preparation activity rather than an automatic component of every printing-platform purchase.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The university service schedule separately prices preflight/prepress preparation at USD xx.xx per hour, establishing a paid preparation activity rather than an automatic component of every printing-platform purchase.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Perfect binding is listed at USD xx.xx-xx.xx per book. The lower endpoint is the model's basic-binding comparator, not a measured worldwide realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Perfect binding is listed at USD xx.xx-xx.xx per book. The lower endpoint is the model's basic-binding comparator, not a measured worldwide realization.

17. How Much Does It Cost to Print a Book? - QinPrinting
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier's delivered xx.xx-page, xx.xx-copy color-book examples list USD xx.xx for softcover and USD xx.xx for hardcover. They provide a commercial-run countercheck, with delivery and product differences preventing direct substitution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier's delivered xx.xx-page, xx.xx-copy color-book examples list USD xx.xx for softcover and USD xx.xx for hardcover. They provide a commercial-run countercheck, with delivery and product differences preventing direct substitution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The smaller hardcover premium in this offset example qualifies extrapolation of the full POD hardcover increment into binding revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The smaller hardcover premium in this offset example qualifies extrapolation of the full POD hardcover increment into binding revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Comparable hardcover and softcover quotations constrain the assumed relative manufacturing realization after scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Comparable hardcover and softcover quotations constrain the assumed relative manufacturing realization after scope adjustments.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Softcover prices provide a commercial comparison, not a historical global average.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Softcover prices provide a commercial comparison, not a historical global average.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Board-book quotations constrain the assumed production receipt; delivery and duties require adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Board-book quotations constrain the assumed production receipt; delivery and duties require adjustment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Mechanical-binding quotations constrain the unit-receipt assumption, not incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Mechanical-binding quotations constrain the unit-receipt assumption, not incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Short-booklet quotations constrain the lower realization used for eligible saddle-stitched books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Short-booklet quotations constrain the lower realization used for eligible saddle-stitched books.
18. Book Wrap Mailers / Book Boxes - Packaging ONE
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer lists MP2 book mailers at GBP xx.xx each for xx.xx packs of xx.xx excluding VAT. The converted unit price supplies the packaging-creation value proxy, not a global average or a historical quote.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer lists MP2 book mailers at GBP xx.xx each for xx.xx packs of xx.xx excluding VAT. The converted unit price supplies the packaging-creation value proxy, not a global average or a historical quote.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The enclosure price forms the other side of the creation-versus-packing ratio. One comparable enclosure per packing unit is an explicit activity-matching assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The enclosure price forms the other side of the creation-versus-packing ratio. One comparable enclosure per packing unit is an explicit activity-matching assumption.

19. Foreign Exchange Rates - G.5A Annual, January 5, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 annual average is USD xx.xx per GBP. It converts the GBP packaging comparator into the common monetary basis used in the starting allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 annual average is USD xx.xx per GBP. It converts the GBP packaging comparator into the common monetary basis used in the starting allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same conversion supports the common-currency packaging/packing denominator inherited by the forecast; no 2032 exchange rate is asserted.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same conversion supports the common-currency packaging/packing denominator inherited by the forecast; no 2032 exchange rate is asserted.
20. Optional Book Publishing Services - InstantPublisher
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider lists layout/typesetting at USD xx.xx per page with a USD xx.xx minimum. This supports the preparation-spending feasibility check, with purchase incidence and copies per job remaining assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider lists layout/typesetting at USD xx.xx per page with a USD xx.xx minimum. This supports the preparation-spending feasibility check, with purchase incidence and copies per job remaining assumptions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Individual shrink-wrapping is listed at USD xx.xx each plus USD xx.xx setup. Amortizing setup over an assumed xx.xx copies gives the USD xx.xx packing comparator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Individual shrink-wrapping is listed at USD xx.xx each plus USD xx.xx setup. Amortizing setup over an assumed xx.xx copies gives the USD xx.xx packing comparator.
21. How Does Merchant Pricing Work for Ecommerce Stores? - Lulu Direct
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2026 merchant-pricing explanation identifies a USD xx.xx fulfillment fee and separates merchant retail receipts from payments for supplier production, shipping and taxes. The fee is a contemporary feasibility comparator, not verified 2025 penetration or a future charge.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2026 merchant-pricing explanation identifies a USD xx.xx fulfillment fee and separates merchant retail receipts from payments for supplier production, shipping and taxes. The fee is a contemporary feasibility comparator, not verified 2025 penetration or a future charge.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Merchant retail receipts are separate from payments for printing and fulfillment. The current page lists a USD xx.xx fulfillment fee, with shipping and taxes separately calculated. This supports the service-value boundary, not a historical average fee or global order volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Merchant retail receipts are separate from payments for printing and fulfillment. The current page lists a USD xx.xx fulfillment fee, with shipping and taxes separately calculated. This supports the service-value boundary, not a historical average fee or global order volume.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lulu identifies separate retail and production/fulfillment transactions and a USD xx.xx fulfillment fee. This supports excluding merchant retail margins from production-service value and avoiding automatic procurement-channel classification from the storefront.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lulu identifies separate retail and production/fulfillment transactions and a USD xx.xx fulfillment fee. This supports excluding merchant retail margins from production-service value and avoiding automatic procurement-channel classification from the storefront.

22. AAP December 2025 StatShot Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The primary monthly reporting panel's full-year 2025 trade figures show paperback revenue down xx.xx%. This qualifies broad physical-book growth assumptions and supplies directional mix evidence only.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The primary monthly reporting panel's full-year 2025 trade figures show paperback revenue down xx.xx%. This qualifies broad physical-book growth assumptions and supplies directional mix evidence only.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same approximately xx.xx-publisher panel shows hardcover revenue up xx.xx%. It supports a modest premium-mix hypothesis but neither measures global binding spending nor proves the forecast.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same approximately xx.xx-publisher panel shows hardcover revenue up xx.xx%. It supports a modest premium-mix hypothesis but neither measures global binding spending nor proves the forecast.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct-participant 2025 hardback revenue of approximately USD xx.xx anchors the adjusted conventional-format model; it is not printing revenue or a global share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct-participant 2025 hardback revenue of approximately USD xx.xx anchors the adjusted conventional-format model; it is not printing revenue or a global share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported paperback revenue of approximately USD xx.xx plus USD xx.xx mass-market revenue supplies the comparison input. Reported annual movements qualify the forecast starting mix, not its future persistence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported paperback revenue of approximately USD xx.xx plus USD xx.xx mass-market revenue supplies the comparison input. Reported annual movements qualify the forecast starting mix, not its future persistence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct publisher-sample religious and trade physical-format receipts provide a category-intensity proxy, subject to explicit geographic and coverage adjustments.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct publisher-sample religious and trade physical-format receipts provide a category-intensity proxy, subject to explicit geographic and coverage adjustments.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported professional-book receipts and their 2025 decline challenge assumptions of automatic growth from recurring reference relationships.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported professional-book receipts and their 2025 decline challenge assumptions of automatic growth from recurring reference relationships.

23. Print and Associated Services Framework - Lot 1 Buyer Guide: Framework Objectives
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The public purchasing framework separately specifies production-management advice. It establishes a purchased responsibility but not a global fee rate or permission to count subcontract pass-through as retained revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The public purchasing framework separately specifies production-management advice. It establishes a purchased responsibility but not a global fee rate or permission to count subcontract pass-through as retained revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The framework also specifies finished-goods stock holding and call-off, with required holding costs included in the print-job price. This supports allocating embedded production-linked fulfillment rather than restricting the category to standalone invoices.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The framework also specifies finished-goods stock holding and call-off, with required holding costs included in the print-job price. This supports allocating embedded production-linked fulfillment rather than restricting the category to standalone invoices.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Finished goods may be held for call-off, with storage included in the print job where required. This supports consolidated releases as a production-linked arrangement without assuming every release is an individual order.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Finished goods may be held for call-off, with storage included in the print job where required. This supports consolidated releases as a production-linked arrangement without assuming every release is an individual order.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contractors maintain designated distribution lists, deliver to nominated addresses and receive job-specific copy allocations, supporting the modeled list-delivery category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contractors maintain designated distribution lists, deliver to nominated addresses and receive job-specific copy allocations, supporting the modeled list-delivery category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The coexistence of stock holding, call-off and distribution-list obligations supports separating production trigger from fulfillment responsibility; call-off alone does not establish transaction-level fulfillment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The coexistence of stock holding, call-off and distribution-list obligations supports separating production trigger from fulfillment responsibility; call-off alone does not establish transaction-level fulfillment.

24. Frequently Asked Questions - IngramSpark
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: IngramSpark states that it does not provide editing, typesetting or design services. This counterexample prevents treating all platform manufacturing commissions as purchases of professional preparation services.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: IngramSpark states that it does not provide editing, typesetting or design services. This counterexample prevents treating all platform manufacturing commissions as purchases of professional preparation services.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider permits nonexclusive sourcing when the customer owns its ISBN and does not offer editing, typesetting or design. These terms constrain the author service boundary, not adoption or revenue growth.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider permits nonexclusive sourcing when the customer owns its ISBN and does not offer editing, typesetting or design. These terms constrain the author service boundary, not adoption or revenue growth.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: IngramSpark permits nonexclusive use of other printers, distributors and fulfillment providers when publishers own their ISBN. This establishes an alternative-sourcing option, not observed switching or a numerical channel allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: IngramSpark permits nonexclusive use of other printers, distributors and fulfillment providers when publishers own their ISBN. This establishes an alternative-sourcing option, not observed switching or a numerical channel allocation.
25. Packaging Printing & Production - Imago Group
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier identifies book slipcases, clamshell cases, tray-and-lid constructions and multicomponent publisher packaging. This supports the enclosure-production boundary and the limitation of a simple mailer-price proxy; it does not supply sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier identifies book slipcases, clamshell cases, tray-and-lid constructions and multicomponent publisher packaging. This supports the enclosure-production boundary and the limitation of a simple mailer-price proxy; it does not supply sales weights.
26. Services - Bridgeport National Bindery
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The short-run book-production portfolio separately lists shrink-wrapping and set packing. It establishes commercial packing activity distinct from enclosure manufacture and binding, without measuring its revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The short-run book-production portfolio separately lists shrink-wrapping and set packing. It establishes commercial packing activity distinct from enclosure manufacture and binding, without measuring its revenue.
27. Terms and Conditions - CPI Print Germany
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published terms distinguish ex-works production prices from packaging, freight and postage and reserve specified input-cost adjustment rights. They support comparable-scope valuation but do not establish realized inflation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published terms distinguish ex-works production prices from packaging, freight and postage and reserve specified input-cost adjustment rights. They support comparable-scope valuation but do not establish realized inflation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate treatment of forwarding and storage responsibilities supports the eligible production-linked service boundary; contractual rights do not prove the assumed future fee-growth rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate treatment of forwarding and storage responsibilities supports the eligible production-linked service boundary; contractual rights do not prove the assumed future fee-growth rate.

28. ONIX Codelists Issue 75 - List 150: Product Form
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BB identifies hardback/cased books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BB identifies hardback/cased books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BC identifies paperback/softback books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BC identifies paperback/softback books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BH distinguishes board-page books from conventional books with rigid covers.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BH distinguishes board-page books from conventional books with rigid covers.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BE groups spiral, comb and coil forms.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BE groups spiral, comb and coil forms.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BD identifies loose-leaf books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BD identifies loose-leaf books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BF includes stapled short books; nonbook uses are excluded from the model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BF includes stapled short books; nonbook uses are excluded from the model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BL recognizes slide-bound books without measuring current sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BL recognizes slide-bound books without measuring current sales.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BO recognizes continuous concertina-fold books; nonbook charts are excluded.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BO recognizes continuous concertina-fold books; nonbook charts are excluded.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BI identifies textile-page books, not cloth-covered paper books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BI identifies textile-page books, not cloth-covered paper books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BJ identifies waterproof bath-book forms.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BJ identifies waterproof bath-book forms.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BP identifies foam-page and foam-cover books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BP identifies foam-page and foam-cover books.

29. Thomson Reuters - Fourth-Quarter and Full-Year 2025 Results
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Global Print revenue and contraction constrain professional-print scale and substitution direction; content receipts are not treated as loose-leaf service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Global Print revenue and contraction constrain professional-print scale and substitution direction; content receipts are not treated as loose-leaf service revenue.
30. Lulu - Discontinuing Saddle Stitch in Global Distribution
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provider-specific wholesale distribution restrictions establish a channel constraint, not a global sales weight or measured forecast decline.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provider-specific wholesale distribution restrictions establish a channel constraint, not a global sales weight or measured forecast decline.
31. MAGACOPY Sofia - Copying and Printing Prices
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A current EUR xx.xx binding-only charge establishes a live commercial service and a price-scope comparison; full-book USD receipts and incidence remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A current EUR xx.xx binding-only charge establishes a live commercial service and a price-scope comparison; full-book USD receipts and incidence remain assumed.
32. Imago Group - Spotlight on Children's Books for National Young Readers Week
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's children's portfolio supports board-book commercial classification, not order volumes.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's children's portfolio supports board-book commercial classification, not order volumes.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cloth-book offerings support the textile-page category premise, not its modeled incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cloth-book offerings support the textile-page category premise, not its modeled incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bath-book offerings support a separate commercial category; sales and service receipts are undisclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bath-book offerings support a separate commercial category; sales and service receipts are undisclosed.
33. Pegasus - My First Book of Shapes: EVA Foam Book
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The dated 2025 product identifies foam pages and supports commercial-status and classification checks, not global volume or supplier realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated 2025 product identifies foam pages and supports commercial-status and classification checks, not global volume or supplier realization.

34. U.S. Consumer Product Safety Commission - Children's Books
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Product classification and intended audience affect commercial compliance accountability; no numerical surcharge is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Product classification and intended audience affect commercial compliance accountability; no numerical surcharge is inferred.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The exemption boundary supports separate classification rather than assumed conventional-book treatment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The exemption boundary supports separate classification rather than assumed conventional-book treatment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Compliance classification is retained as an uncertainty, not an exclusion or measured price premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Compliance classification is retained as an uncertainty, not an exclusion or measured price premium.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specialty construction does not itself establish ordinary-book exemption eligibility or market inactivity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specialty construction does not itself establish ordinary-book exemption eligibility or market inactivity.
35. Puget Bindery - Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider identifies training manuals and reference guides as mechanical-binding applications, supporting the commissioning premise without measuring sales incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider identifies training manuals and reference guides as mechanical-binding applications, supporting the commissioning premise without measuring sales incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists commercial letterpress book plates and specialty inserts, supporting a component-service model rather than attribution of the entire book price.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists commercial letterpress book plates and specialty inserts, supporting a component-service model rather than attribution of the entire book price.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The bindery identifies commercial printers, publishers and corporate print buyers as customers and excludes direct-to-consumer sales. This supports trade-purchasing attribution but supplies no sales percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The bindery identifies commercial printers, publishers and corporate print buyers as customers and excludes direct-to-consumer sales. This supports trade-purchasing attribution but supplies no sales percentage.

36. ONIX Codelists Issue 75 - List 80: Product Packaging Type
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates single-item and multivolume slipcases; supplies classification, not sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates single-item and multivolume slipcases; supplies classification, not sales weights.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes lidded boxes from slipcase-style boxed sets.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes lidded boxes from slipcase-style boxed sets.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-ended wraparound sleeves are distinct from enclosed wrapping.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-ended wraparound sleeves are distinct from enclosed wrapping.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes envelope-like slip-sleeves and wallets or folders.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes envelope-like slip-sleeves and wallets or folders.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes pouch and bag packaging independently.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes pouch and bag packaging independently.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately recognizes shrink-wrapped products and bundles.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately recognizes shrink-wrapped products and bundles.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Defines formed-plastic clamshells and card-backed blister packaging as distinct constructions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Defines formed-plastic clamshells and card-backed blister packaging as distinct constructions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Explicitly recognizes book browse-prevention closures.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Explicitly recognizes book browse-prevention closures.

37. U.S. Government Publishing Office - Program 827-S: Federal Aviation Administration Books, Contract Pricing and Specifications

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Historical evaluation quantities provide a container-heavy institutional purchasing counterexample, not global shipment shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Historical evaluation quantities provide a container-heavy institutional purchasing counterexample, not global shipment shares.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies kraft-envelope packing within the book procurement.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies kraft-envelope packing within the book procurement.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies cushioned shipping bags as an eligible book-order enclosure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies cushioned shipping bags as an eligible book-order enclosure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Includes wrapped shipping bundles as an alternative purchasing configuration.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Includes wrapped shipping bundles as an alternative purchasing configuration.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Requires packing and filler separately from the external enclosure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Requires packing and filler separately from the external enclosure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies closure tape and securing straps independently of container construction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies closure tape and securing straps independently of container construction.

38. U.S. Government Publishing Office - Print Order Form 2511 Instructions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specifies paper-banded sets separately from shrink-wrapped sets.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specifies paper-banded sets separately from shrink-wrapped sets.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes shrink-wrapped units nested within cartons, supporting component attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes shrink-wrapped units nested within cartons, supporting component attribution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes internal packaging, container quantities and pallet requirements.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes internal packaging, container quantities and pallet requirements.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The instructions distinguish nominated delivery addresses and warehouse receiving arrangements, supporting the receiving-point attribution premise, not an observed consolidated market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The instructions distinguish nominated delivery addresses and warehouse receiving arrangements, supporting the receiving-point attribution premise, not an observed consolidated market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supplemental distribution lists accommodate multiple destinations, supporting the distinction between preallocated destination delivery and a single receiving-point handoff.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supplemental distribution lists accommodate multiple destinations, supporting the distinction between preallocated destination delivery and a single receiving-point handoff.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: GPO specifies black interior inks separately from cover inks, supporting the monochrome classification and underlying-book attribution premise, not its modeled sales weight. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GPO specifies black interior inks separately from cover inks, supporting the monochrome classification and underlying-book attribution premise, not its modeled sales weight. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Designated Pantone specifications are recognized for interior inks, supporting a separate spot-color commercial category without measuring its share. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Designated Pantone specifications are recognized for interior inks, supporting a separate spot-color commercial category without measuring its share. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Four-color process is identified as full color for interior pages; cover color is separately specified. This supports classification at both modeled anchors. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Four-color process is identified as full color for interior pages; cover color is separately specified. This supports classification at both modeled anchors. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))

39. GPOExpress Program Pricing Guide - November 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx hand folding provides a handling-cost comparison; the complete band realization remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx hand folding provides a handling-cost comparison; the complete band realization remains modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx per shrink wrap anchors a small-run comparison, not the assumed global realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx per shrink wrap anchors a small-run comparison, not the assumed global realization.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx auxiliary insertion supplies a handling-price comparison, not protective-material sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx auxiliary insertion supplies a handling-price comparison, not protective-material sales.
40. Hardcover Book Protection: Dust Jackets or Slipcases?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-product EXW slipcase prices of USD xx.xx, USD xx.xx and USD xx.xx at xx.xx xx.xx and xx.xx units constrain relative realizations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-product EXW slipcase prices of USD xx.xx, USD xx.xx and USD xx.xx at xx.xx xx.xx and xx.xx units constrain relative realizations.
41. Book Printing Cost in China: How Printing Prices Are Calculated
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately USD xx.xx per export carton including basic packing materials constrains the bulk-package budget; the container allocation is modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately USD xx.xx per export carton including basic packing materials constrains the bulk-package budget; the container allocation is modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its cushioning split is assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its cushioning split is assumed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its closure split is assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its closure split is assumed.
42. Make Believe Ideas - Independent Retail Catalog 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 catalog identifies activity books with cover-mounted blisters, establishing book-specific participation but not packaging revenue or volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 catalog identifies activity books with cover-mounted blisters, establishing book-specific participation but not packaging revenue or volume.
43. Bookmobile - Request Book Printing Quotes the Right Way to Save Money
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The printer's bookstore-oriented purchasing guidance cautions against universal shrink-wrap attachment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The printer's bookstore-oriented purchasing guidance cautions against universal shrink-wrap attachment.

44. Digital Book Printing - Bookmobile
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current book-production portfolio separately offers poly bags, supporting commercial category participation rather than a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current book-production portfolio separately offers poly bags, supporting commercial category participation rather than a sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current portfolio offers shrink-wrap independently of other finishing options.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current portfolio offers shrink-wrap independently of other finishing options.
45. Sell Books on Shopify - Lulu
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The offered storefront-to-print-and-ship route supports an accessible production-linked parcel channel, not assumed demand.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct fulfillment availability supports the parcel-use scenario without establishing envelope mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct fulfillment availability supports the parcel-use scenario without establishing bag mix.
46. European Commission - New EU Rules on Packaging Enter into Application
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional packaging minimization supports a directional right-sizing premise, not a measured global box-price effect.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Waste-reduction requirements inform the bounded substitution scenario; they do not quantify band adoption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional circularity requirements inform lower lightweight-bag exposure without implying a global book-bag ban.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Material substitution remains partly internal to the combined film-and-paper category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional recyclability pressure informs the niche substitution scenario, not an observed blister-sales decline.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Empty-space reduction provides a directional premise for lower cushioning allowance per individual box.
47. Digital Printing - U.S. Government Publishing Office
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Procurement examples allow offset or digital alternatives while restricting some digital variants, supporting an acceptance- and run-mix model rather than a universal quality ranking. This is a modeling premise, not an observed process share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Procurement examples allow offset or digital alternatives while restricting some digital variants, supporting an acceptance- and run-mix model rather than a universal quality ranking. This is a modeling premise, not an observed process share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The purchasing guidance supports conditional digital substitution, not unrestricted interchangeability or an observed forecast allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The purchasing guidance supports conditional digital substitution, not unrestricted interchangeability or an observed forecast allocation.

48. Clays demonstrate dedication to digital investment
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx books annually and xx.xx books of digital capacity in an older investment statement; this constrains scale but is not a 2025 realized output mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx books annually and xx.xx books of digital capacity in an older investment statement; this constrains scale but is not a 2025 realized output mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's inkjet investment supports an existing book-production application and a conditional adoption premise, not a quantified global forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's inkjet investment supports an existing book-production application and a conditional adoption premise, not a quantified global forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The capacity/output comparison is a limited commercial check on continued conventional book production, not a direct offset revenue observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The capacity/output comparison is a limited commercial check on continued conventional book production, not a direct offset revenue observation.
49. ISO/TC 130 - Guidelines for Using Print Production Standards, Version 1.0, 2019
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes packaging use cases and printing processes, supporting allocation of gravure to book-associated components rather than the full value of a book.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes packaging use cases and printing processes, supporting allocation of gravure to book-associated components rather than the full value of a book.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies flexographic packaging applications; the book-specific spending budget and process coefficients remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies flexographic packaging applications; the book-specific spending budget and process coefficients remain modeled.
50. Premium Layflat Photo Books - PhotobookShop
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Offers bound silver-halide photographic books and distinguishes them from digitally printed alternatives, supporting the model's separate photographic category rather than an observed sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Offers bound silver-halide photographic books and distinguishes them from digitally printed alternatives, supporting the model's separate photographic category rather than an observed sales weight.
51. The Cormac McCarthy Collection - The Folio Society
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents screen-printed cloth covers on physical book editions, supporting component-level commercial attribution. It does not measure supplier component receipts or global uptake.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents screen-printed cloth covers on physical book editions, supporting component-level commercial attribution. It does not measure supplier component receipts or global uptake.

52. Risograph Digital Duplicator Order Form, 2026 - Minneapolis College of Art and Design
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2026 institutional form recognizes Risograph book/booklet orders but excludes assembly. It supports a limited application boundary, not 2025 external commercial volume; internal institutional charges are excluded from the numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2026 institutional form recognizes Risograph book/booklet orders but excludes assembly. It supports a limited application boundary, not 2025 external commercial volume; internal institutional charges are excluded from the numerator.
53. American Printing House - 2024 Annual Report
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal 2024 product sales were USD xx.xx; braille publications represented xx.xx% of product sales; xx.xx braille volumes were produced. These inputs constrain an adjusted production-realization proxy, not a global market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The decline from xx.xx braille volumes in 2022 qualifies a uniform physical-demand growth assumption and informs the slower relative forecast activity weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2024 product sales were USD xx.xx; braille publications represented xx.xx% of product sales; xx.xx braille volumes were produced. These inputs constrain an adjusted production-realization proxy, not a global market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The decline from xx.xx braille volumes in 2022 qualifies a uniform physical-demand growth assumption and informs the slower relative forecast activity weight.
54. Kodak Moments Kiosk - Kodak Alaris
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises book-capable retail kiosk equipment and a photographic-printing portfolio. Used only as a commercial-route premise for the thermal working estimate, not as evidence of thermal book-service sales, utilization or the final share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises book-capable retail kiosk equipment and a photographic-printing portfolio. Used only as a commercial-route premise for the thermal working estimate, not as evidence of thermal book-service sales, utilization or the final share.
55. 二〇二一年全国新闻出版业基本情况
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official 2021 aggregate textbook output distinguishes school, tertiary and vocational/adult activity; historical volumes require value and global-scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official 2021 aggregate textbook output distinguishes school, tertiary and vocational/adult activity; historical volumes require value and global-scope adjustments.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Secondary, primary and teaching-book aggregate sheet counts form the school activity weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Secondary, primary and teaching-book aggregate sheet counts form the school activity weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Tertiary textbook aggregate output supplies the higher-education activity input before an assumed relative-service-value adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Tertiary textbook aggregate output supplies the higher-education activity input before an assumed relative-service-value adjustment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Vocational, adult and literacy textbook output supplies the corresponding historical activity input.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Vocational, adult and literacy textbook output supplies the corresponding historical activity input.

56. Music, printed or in manuscript imports by country, 2024 - World Integrated Trade Solution
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official HS xx.xx import observations constrain the music-publication value bridge; domestic supply, physical-book eligibility and the printing-service fraction remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official HS xx.xx import observations constrain the music-publication value bridge; domestic supply, physical-book eligibility and the printing-service fraction remain modeled.
57. Bloomsbury Publishing - 2024/25 Results Presentation
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate Academic & Professional print, digital and rights/service receipts demonstrate the required physical-revenue boundary; company mix is not treated as global market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate Academic & Professional print, digital and rights/service receipts demonstrate the required physical-revenue boundary; company mix is not treated as global market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed physical academic publishing activity supports commercial applicability but does not verify the assumed global research/reference ratio.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed physical academic publishing activity supports commercial applicability but does not verify the assumed global research/reference ratio.
58. HDSB - RFSQ 26-013: Yearbook Software and Printing Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The qualification notice establishes a commissioned yearbook scope including printing, binding and school delivery; it supplies no awarded value and is not used as a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The qualification notice establishes a commissioned yearbook scope including printing, binding and school delivery; it supplies no awarded value and is not used as a sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The yearbook qualification notice restricts supply to prequalified vendors while permitting school bulk orders and individual ordering. It supports separating commissioning authority from ultimate payment, but discloses no fulfilled-order value.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The yearbook qualification notice restricts supply to prequalified vendors while permitting school bulk orders and individual ordering. It supports separating commissioning authority from ultimate payment, but discloses no fulfilled-order value.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The individual-ordering option establishes an attribution uncertainty relevant to the modeled household portion; it does not establish the assumed xx.xx% proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The individual-ordering option establishes an attribution uncertainty relevant to the modeled household portion; it does not establish the assumed xx.xx% proportion.

59. U.S. Census Bureau - 2022 Economic Census, Books Printing Questionnaire MC-32312
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official printing questionnaire supports the distinction between textbook and general-book production; recognition is not treated as a revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official printing questionnaire supports the distinction between textbook and general-book production; recognition is not treated as a revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognized coloring-book output supports treating recreational activity commissions separately from institutional textbooks according to purpose.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognized coloring-book output supports treating recreational activity commissions separately from institutional textbooks according to purpose.
60. Press Information Bureau - Department of School Education & Literacy, Year End Review 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The government review describes substantial NCERT physical-textbook activity, independently qualifying the physical-availability premise without establishing attributable supplier revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The government review describes substantial NCERT physical-textbook activity, independently qualifying the physical-availability premise without establishing attributable supplier revenue.
61. 2022 North American Industry Classification System - United States
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dedicated book-publishing activity is separated from institutional primary activities and printing without publishing, constraining the Publishing Organizations numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dedicated book-publishing activity is separated from institutional primary activities and printing without publishing, constraining the Publishing Organizations numerator.
62. U.S. Census Bureau - Books Printing: 2002
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Table xx.xx reports 2002 U.S. books-printing contract-work costs of USD xx.xx and shipments of USD xx.xx. Their ratio supplies a dated manufacturing-subcontract proxy, held constant within the forecast component.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Table xx.xx reports 2002 U.S. books-printing contract-work costs of USD xx.xx and shipments of USD xx.xx. Their ratio supplies a dated manufacturing-subcontract proxy, held constant within the forecast component.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical subcontract-cost input constrains the modeled transfer from publisher-origin commissioning to performing suppliers, without adding another gross contract value.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical subcontract-cost input constrains the modeled transfer from publisher-origin commissioning to performing suppliers, without adding another gross contract value.
63. Samfine Creation Holdings Group Limited - Form 20-F for the year ended December 31, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports USD xx.xx of 2025 book-product revenue and principally serves book traders that secure printing contracts and outsource production. This is a supplier-specific quantitative role check, not a Global allocation weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports USD xx.xx of 2025 book-product revenue and principally serves book traders that secure printing contracts and outsource production. This is a supplier-specific quantitative role check, not a Global allocation weight.

64. Ministry of Education - NCERT and Amazon Letter of Engagement, October 7, 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2024 announcement targeted xx.xx NCERT books for academic 2025-xx.xx. This is a planned institutional activity anchor; realization, eligible receipts and subsequent growth are modeled separately.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2024 announcement targeted xx.xx NCERT books for academic 2025-xx.xx. This is a planned institutional activity anchor; realization, eligible receipts and subsequent growth are modeled separately.
65. Bangladesh e-GP - NCTB/TEXTBOOK/2025, Package GD.102_SEC_8.031
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The government-funded procurement plan specifies xx.xx academic-2025 textbook copies and an estimated BDT xx.xx for printing, binding and supply. It constrains commercial order scale and local unit-budget plausibility, not realized annual revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The government-funded procurement plan specifies xx.xx academic-2025 textbook copies and an estimated BDT xx.xx for printing, binding and supply. It constrains commercial order scale and local unit-budget plausibility, not realized annual revenue.
66. Students suffer as NCTB fails to deliver books - The Daily Star, January 17, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 report corroborates the dated approximately xx.xx-copy textbook target and early-year delivery disruption. Target realization and supplier receipts remain modeled.
67. Secondary-level students: A new year without full set of books for many - The Daily Star, December 28, 2025
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 report corroborates the approximately xx.xx-copy academic-2026 target and continued delivery slippage. It informs a normalization assumption, not an observed 2032 share.
68. Business Books - Print Professional, Custom Corporate Books | Blurb
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The business-book offering includes organizational presentation and corporate-gift applications. It establishes an in-scope commissioning proposition, not the modeled global copy quantity or spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The business-book offering includes organizational presentation and corporate-gift applications. It establishes an in-scope commissioning proposition, not the modeled global copy quantity or spending.
69. How to Use Lulu to Support Your Nonprofit | Lulu
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform permits an organization or charity to receive creator proceeds. This supports excluding beneficiary-only arrangements from nonprofit commissioning; it does not measure nonprofit printing purchases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform permits an organization or charity to receive creator proceeds. This supports excluding beneficiary-only arrangements from nonprofit commissioning; it does not measure nonprofit printing purchases.

70. News Corp - Form 10-K for the fiscal year ended June 30, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal 2025 consumer backlist revenue of xx.xx% and digital revenue of xx.xx% anchor the assumed physical-backlist bridge and its forecast starting model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2025 consumer backlist revenue of xx.xx% and digital revenue of xx.xx% anchor the assumed physical-backlist bridge and its forecast starting model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed backlist mix constrains recurring-title demand; its division into replenishment and POD remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed backlist mix constrains recurring-title demand; its division into replenishment and POD remains modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The complementary frontlist population supports the launch-stock cohort after physical-format adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The complementary frontlist population supports the launch-stock cohort after physical-format adjustments.
71. News Corp - Form 10-K for the fiscal year ended June 30, 2026
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2026 backlist revenue of xx.xx% and digital revenue of xx.xx% lower the forecast physical-backlist proxy instead of assuming continued backlist expansion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The updated catalog mix changes the forecast population available for repeat inventory releases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The updated frontlist/backlist bridge changes the forecast planned-production weight; no 2032 share is disclosed.
72. How Do Lulu Direct Orders Work?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lulu describes printing after customer purchase and distinguishes production from subsequent shipment, supporting recipient-order attribution rather than technology-based classification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lulu describes printing after customer purchase and distinguishes production from subsequent shipment, supporting recipient-order attribution rather than technology-based classification.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: No minimum order and one-copy ordering establish commercial feasibility, not the number or value of single-copy releases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No minimum order and one-copy ordering establish commercial feasibility, not the number or value of single-copy releases.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: One POD offering accepts hundreds of copies, independently challenging a POD-equals-single-copy allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One POD offering accepts hundreds of copies, independently challenging a POD-equals-single-copy allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Orders can extend into thousands within the same offering; the production trigger therefore does not uniquely identify the working run band.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Orders can extend into thousands within the same offering; the production trigger therefore does not uniquely identify the working run band.

73. Supply Chain - Clays

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Clays describes differentiated backlist arrangements and stock visibility, supporting a separate inventory-replenishment cohort without establishing its numerical prevalence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Clays describes differentiated backlist arrangements and stock visibility, supporting a separate inventory-replenishment cohort without establishing its numerical prevalence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: New-title consolidation and predictable annual backlist demand support retaining planned inventory commitments; short-run printing is explicitly not necessarily POD.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: New-title consolidation and predictable annual backlist demand support retaining planned inventory commitments; short-run printing is explicitly not necessarily POD.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Clays explicitly distinguishes short-run work from POD, supporting category separation rather than a technological proxy for value share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Clays explicitly distinguishes short-run work from POD, supporting category separation rather than a technological proxy for value share.

74. Smart Backlist Management: When to Hold and When to Print-on-Demand

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheridan describes low-volume titles moving to POD while other titles retain inventory, supporting differentiated release-policy assumptions rather than a uniform backlist-to-POD conversion.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheridan describes low-volume titles moving to POD while other titles retain inventory, supporting differentiated release-policy assumptions rather than a uniform backlist-to-POD conversion.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: A disclosed customer example uses a stock threshold to trigger a 2,000-copy replenishment order. It establishes the commercial mechanism, not a market-wide share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A disclosed customer example uses a stock threshold to trigger a 2,000-copy replenishment order. It establishes the commercial mechanism, not a market-wide share.

75. Shortage of NCERT textbooks - Rajya Sabha Unstarred Question No. 1941, December 17, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advance enrollment-based forecasting, academic-session readiness and a fiscal 2025-xx.xx plan for approximately xx.xx textbooks support a substantial calendar-driven stock cohort. The target is not realized production.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advance enrollment-based forecasting, academic-session readiness and a fiscal 2025-xx.xx plan for approximately xx.xx textbooks support a substantial calendar-driven stock cohort. The target is not realized production.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phased supply and inventory monitoring support distinguishing ongoing availability obligations from individual-recipient POD, without quantifying replenishment's global prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phased supply and inventory monitoring support distinguishing ongoing availability obligations from individual-recipient POD, without quantifying replenishment's global prevalence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official answer distinguishes printer empanelment from approximately xx.xx distribution vendors and describes planned fiscal 2025-xx.xx printing of approximately xx.xx textbooks. It supports commissioning-versus-distribution separation, not a realized monetary channel split.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official answer distinguishes printer empanelment from approximately xx.xx distribution vendors and describes planned fiscal 2025-xx.xx printing of approximately xx.xx textbooks. It supports commissioning-versus-distribution separation, not a realized monetary channel split.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phased textbook supply supports treating annual institutional quantities separately from production batches; it does not disclose the medium-run allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phased textbook supply supports treating annual institutional quantities separately from production batches; it does not disclose the medium-run allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 answer identifies a xx.xx-million-copy FY2025-xx.xx printing decision versus approximately xx.xx in recent years, a counterforce to assuming rapid long-run disappearance. Planned copies are not realized service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 answer identifies a xx.xx-million-copy FY2025-xx.xx printing decision versus approximately xx.xx in recent years, a counterforce to assuming rapid long-run disappearance. Planned copies are not realized service revenue.
76. Fulfillment Fee - Lulu Direct
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2026 schedule lists USD xx.xx per order regardless of item count, supporting an order-frequency effect on associated-service value. It does not verify the assumed historical or forecast multiplier.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2026 schedule lists USD xx.xx per order regardless of item count, supporting an order-frequency effect on associated-service value. It does not verify the assumed historical or forecast multiplier.

77. InnerWorkings, Inc. - Form 10-K for the year ended December 31, 2019
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2019 filing reports USD xx.xx gross profit on USD xx.xx revenue and describes purchased-product and direct-service costs. Historical reported margins constrain the modeled xx.xx% retained-fee ratio; they do not directly measure book-channel share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2019 filing reports USD xx.xx gross profit on USD xx.xx revenue and describes purchased-product and direct-service costs. Historical reported margins constrain the modeled xx.xx% retained-fee ratio; they do not directly measure book-channel share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The procurement-service margin comparison supports the fee-to-managed-spending bridge underlying the direct-channel complement. Carrying the normalized ratio into 2032 is explicitly a forecast assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The procurement-service margin comparison supports the fee-to-managed-spending bridge underlying the direct-channel complement. Carrying the normalized ratio into 2032 is explicitly a forecast assumption.
78. Simplified Purchase Agreement - U.S. Government Publishing Office
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SPA permits agency awards directly to certified vendors for purchases up to USD xx.xx while GPO pays vendors and invoices agencies. This supports classifying by the contracting relationship rather than the invoice payer, not a numerical global weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SPA permits agency awards directly to certified vendors for purchases up to USD xx.xx while GPO pays vendors and invoices agencies. This supports classifying by the contracting relationship rather than the invoice payer, not a numerical global weight.
79. Global Print Services | China, Europe, SE Asia, USA & India
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Imago describes sourcing suppliers and coordinating multiple manufacturers for book-related projects. Its cumulative customer relationships establish the offered intermediary role but are not annual revenue or allocation weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Imago describes sourcing suppliers and coordinating multiple manufacturers for book-related projects. Its cumulative customer relationships establish the offered intermediary role but are not annual revenue or allocation weights.
80. Lion Rock Group Limited - Annual Report 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-business 2025 turnover changes of minus xx.xx% for APOL and minus xx.xx% for Regent challenge uniform intermediary growth; Regent's non-book focus limits its relevance. These observations support avoiding an additional adoption uplift.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-business 2025 turnover changes of minus xx.xx% for APOL and minus xx.xx% for Regent challenge uniform intermediary growth; Regent's non-book focus limits its relevance. These observations support avoiding an additional adoption uplift.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Manufacturing turnover changes of minus xx.xx% at xx.xx Printing and plus xx.xx% at Papercraft demonstrate differing supplier trajectories rather than a simple common channel-growth pattern; these are not direct-contracting market shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Manufacturing turnover changes of minus xx.xx% at xx.xx Printing and plus xx.xx% at Papercraft demonstrate differing supplier trajectories rather than a simple common channel-growth pattern; these are not direct-contracting market shares.

81. Imprint Digital - Book Printing Prices UK

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected schedule quotes GBP xx.xx at xx.xx copies for one paperback specification, supporting a relative-price input, not a historical global realization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected schedule quotes GBP xx.xx at xx.xx copies for one paperback specification, supporting a relative-price input, not a historical global realization.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: GBP xx.xx at xx.xx copies supplies the medium-run reference index; format and delivery differences require separate treatment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GBP xx.xx at xx.xx copies supplies the medium-run reference index; format and delivery differences require separate treatment.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The quantity-price curve anchors the reference from which the long-run discount is assumed; no long-run price or future share is disclosed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The quantity-price curve anchors the reference from which the long-run discount is assumed; no long-run price or future share is disclosed.

82. Print Options

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: KDP distinguishes black-and-white from color records and locks ink type after publication. These platform-specific conditions qualify switching assumptions, not market weights. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: KDP distinguishes black-and-white from color records and locks ink type after publication. These platform-specific conditions qualify switching assumptions, not market weights. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The displayed platform menu does not establish designated spot-color availability or sales; a general color option is not used as evidence of spot-color demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The displayed platform menu does not establish designated spot-color availability or sales; a general color option is not used as evidence of spot-color demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Standard color is unavailable for hardcover, but premium color is available. Both process-color tiers belong within the modeled Full-Color Interiors category. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Standard color is unavailable for hardcover, but premium color is available. Both process-color tiers belong within the modeled Full-Color Interiors category. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))

83. Synthèse des chiffres de l'édition jeunesse 2024-2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The primary French publishing survey reports a xx.xx% decline in illustrated early-childhood volumes and a xx.xx% decline in youth-fiction volumes in 2024. These differing outcomes challenge an aggressive universal color-growth assumption. ([sne.fr](https://www.sne.fr/actu/synthese-des-chiffres-de-ledition-jeunesse-2024-2025/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The primary French publishing survey reports a xx.xx% decline in illustrated early-childhood volumes and a xx.xx% decline in youth-fiction volumes in 2024. These differing outcomes challenge an aggressive universal color-growth assumption. ([sne.fr](https://www.sne.fr/actu/synthese-des-chiffres-de-ledition-jeunesse-2024-2025/))

Sources & Evidence

1. European Book Publishing Statistics 2024
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: European publishers reported approximately EUR xx.xx of net book-sales revenue in 2024. The disclosed ebook and audiobook proportions inform the modeled xx.xx% physical-book revenue proportion; publisher revenue is an input, not printing-service revenue.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 publisher-revenue and format observations provide the European demand input carried into the 2025 estimate.

2. The Global Publishing Industry in 2022

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Table xx.xx supplies country-level publishing revenues and identifies differences between retail-value, publisher-revenue, print-only and prior-year observations. Selected non-European country observations are adjusted for physical formats and period before estimating production spending.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The selected country observations contribute to the demand pool underlying the 2025 working estimate. Nielsen retail datasets elsewhere in the publication are not used.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Primary survey sector differences constrain the education-adjusted hardcover proxy.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Primary survey sector differences constrain the education-adjusted hardcover proxy.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Educational/trade differences qualify extrapolation of U.S. consumer-format revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Educational/trade differences qualify extrapolation of U.S. consumer-format revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx of surveyed children's publishing revenue anchors the modeled specialty demand pool, not supplier receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx of surveyed children's publishing revenue anchors the modeled specialty demand pool, not supplier receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sector data constrain the commissioning-pool proxy; mechanical incidence remains assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sector data constrain the commissioning-pool proxy; mechanical incidence remains assumed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Educational demand supplies a common economic anchor; loose-leaf incidence remains modeled.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Educational demand supplies a common economic anchor; loose-leaf incidence remains modeled.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sector observations constrain the educational short-book commissioning pool.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sector observations constrain the educational short-book commissioning pool.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The commissioning-pool anchor supports an explicit sparse-format incidence model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The commissioning-pool anchor supports an explicit sparse-format incidence model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors the accordion working estimate, not observed accordion orders.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors the accordion working estimate, not observed accordion orders.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed textile-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed textile-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed bath-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed bath-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed foam-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed foam-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original publishing survey documents country-level trade/education revenue differences used to constrain the modeled physical-publishing mix; it does not directly measure service shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original publishing survey documents country-level trade/education revenue differences used to constrain the modeled physical-publishing mix; it does not directly measure service shares.

3. 2024 年新闻出版统计公报

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: For 2024, the official table reports xx.xx book copies or sheets and CNY xx.xx of book-publishing revenue. These constrain the demand bridge and historical contraction, rather than directly measuring printing-service sales.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 book-publishing observation supplies the Chinese demand primitive for the 2025 model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official 2024 output of xx.xx copies/sheets constrains total modeled publisher activity; it does not disclose single-copy production.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official 2024 output of xx.xx copies/sheets constrains total modeled publisher activity; it does not disclose single-copy production.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Aggregate copies and annual title output constrain the shared activity model, not an observed short-run share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Aggregate copies and annual title output constrain the shared activity model, not an observed short-run share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Aggregate production provides a scale check for the medium-run assumption; annual copies per title are not individual batches.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Aggregate production provides a scale check for the medium-run assumption; annual copies per title are not individual batches.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx annual copies per title constrain the long-run scenario without proving its batch mix or forecast.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx annual copies per title constrain the long-run scenario without proving its batch mix or forecast.

4. Foreign Exchange Rates - G.5A Annual, January 5, 2026

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: The official 2024 annual-average conversion inputs are USD xx.xx per EUR, CNY xx.xx per USD and CAD xx.xx per USD.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The exchange-rate table establishes the conversion basis of the preceding-year demand inputs used in the 2025 estimate; subsequent effective-USD price assumptions are modeled separately.

5. Book publishing industry, 2024 - Statistics Canada
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Canadian publishers reported CAD xx.xx of print sales outside the online category and CAD xx.xx of online print sales in 2024. Their sum, rather than total operating revenue, supplies the physical-book demand input.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: Reported cost of goods sold of CAD xx.xx, up CAD xx.xx from 2022, supplies a cost-pressure cross-check, not a directly attributable printing-services total.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Canadian online versus other print-sales values constrain parcel exposure, with explicit value-to-unit and geographic limitations.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Canadian online versus other print-sales values constrain parcel exposure, with explicit value-to-unit and geographic limitations.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed envelope purchases.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed envelope purchases.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed bag purchases.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed bag purchases.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Modest observed online-print growth qualifies aggressive parcel-related wrapping assumptions.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Modest observed online-print growth qualifies aggressive parcel-related wrapping assumptions.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring separate protection.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring separate protection.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring closures.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring closures.
6. U.S. Census Bureau - Books Printing: Shipments, annual table
   - Evidence informing the 2017 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2017; this is a national production anchor for the historical model.
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2018.
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2019.
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2020.
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2021.
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2022.
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2024. This national industrial measure is narrower than the composite global service boundary.

7. U.S. Census Bureau - Book Publishers, All Establishments: Revenue, annual table
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: The Census annual series reports USD xx.xx of U.S. book-publisher revenue for 2024. A modeled xx.xx% physical-book proportion excludes digital and other adjacent receipts.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 Census observation replaces an older survey-based U.S. revenue bridge in the demand pool underlying 2025.

8. Scholastic Corporation - Form 10-K for the year ended May 31, 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Scholastic's fiscal 2024 product, service, production and inventory-reserve costs were xx.xx% of revenue; postage, freight, shipping, fulfillment and other costs were xx.xx%. These broad categories constrain, but do not directly establish, eligible outsourced-service spending.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The corresponding fiscal 2025 proportions were xx.xx% and xx.xx%. Royalties and prepublication amortization are separately disclosed, allowing their exclusion from the service-market bridge.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 product, service, production and inventory-reserve costs were xx.xx% of revenue. The broader cost category constrains the manufacturing spending boundary but does not directly disclose printing-service revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 product, service, production and inventory-reserve costs were xx.xx% of revenue. The broader cost category constrains the manufacturing spending boundary but does not directly disclose printing-service revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Prepublication amortization is disclosed separately from production costs, supporting exclusion of adjacent amortization rather than equating it with externally purchased prepress.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Prepublication amortization is disclosed separately from production costs, supporting exclusion of adjacent amortization rather than equating it with externally purchased prepress.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Postage, freight, shipping, fulfillment and other costs were xx.xx% of revenue in fiscal 2025 versus xx.xx% in fiscal 2024. This is a broad buyer-cost check, not an eligible outsourced-fulfillment share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Postage, freight, shipping, fulfillment and other costs were xx.xx% of revenue in fiscal 2025 versus xx.xx% in fiscal 2024. This is a broad buyer-cost check, not an eligible outsourced-fulfillment share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Outsourced manufacturing coexists with company-operated distribution. Fiscal-2025 production-related costs were xx.xx% of revenue, constraining the inherited spending bridge rather than directly measuring the assumed route fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Outsourced manufacturing coexists with company-operated distribution. Fiscal-2025 production-related costs were xx.xx% of revenue, constraining the inherited spending bridge rather than directly measuring the assumed route fraction.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Book-club revenue was xx.xx% online-ordered and xx.xx% parent-ordered, while products typically went to classrooms. This challenges the use of online sales as a proxy for the external contractor's delivery model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Book-club revenue was xx.xx% online-ordered and xx.xx% parent-ordered, while products typically went to classrooms. This challenges the use of online sales as a proxy for the external contractor's delivery model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct printer-to-customer fulfillment is a disclosed option. Broader logistics/other costs were xx.xx% of revenue versus xx.xx% previously, providing a cost-boundary check but no global order-level share or service-price growth observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct printer-to-customer fulfillment is a disclosed option. Broader logistics/other costs were xx.xx% of revenue versus xx.xx% previously, providing a cost-boundary check but no global order-level share or service-price growth observation.

9. CEWE achieves all targets in 2025 and aims to further increase revenue and earnings in 2026

- Evidence informing the 2025 market-value input; displayed series and growth include calculations: CEWE reported xx.xx CEWE PHOTOBOOK copies in 2025 versus xx.xx in 2024, supporting a positive specialty-book volume assumption without establishing global adoption.
- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Observed 2025 photobook growth informs the specialty-demand assumption for 2026; the market value remains modeled.
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The observed specialty-book activity is a starting condition for the forecast, not independent proof of continued growth through 2032.
- Evidence informing the 2040 market-value input; displayed series and growth include calculations: The forecast explicitly slows specialty-demand growth after 2032; this source supplies the initial commercial observation, not the long-term growth rate.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: CEWE reports xx.xx photobooks in 2025 compared with xx.xx in 2024. This independently establishes specialty-book activity underlying the nonpublisher model, without establishing a global expansion factor.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CEWE reports xx.xx photobooks in 2025 compared with xx.xx in 2024. This independently establishes specialty-book activity underlying the nonpublisher model, without establishing a global expansion factor.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports retaining premium specialty commissions in the manufacturing mix; the binding allocation and unchanged future cohort profile remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports retaining premium specialty commissions in the manufacturing mix; the binding allocation and unchanged future cohort profile remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported photobook volumes constrain personal-book activity and the nonpublisher starting condition, not hardcover prevalence or future share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported photobook volumes constrain personal-book activity and the nonpublisher starting condition, not hardcover prevalence or future share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Photobook activity supports the separate personal-book commissioning block; its softcover fraction remains assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Photobook activity supports the separate personal-book commissioning block; its softcover fraction remains assumed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported photobook copies rose from xx.xx to xx.xx; the narrower 2026 target qualifies strong specialty-growth assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported photobook copies rose from xx.xx to xx.xx; the narrower 2026 target qualifies strong specialty-growth assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specialty-book activity constrains the presentation-demand scenario but does not measure gift-box attachment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specialty-book activity constrains the presentation-demand scenario but does not measure gift-box attachment.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CEWE PHOTOBOOK units in 2025 versus xx.xx in 2024, constraining the specialty-book demand budget without establishing a global process split.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CEWE PHOTOBOOK units in 2025 versus xx.xx in 2024, constraining the specialty-book demand budget without establishing a global process split.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports the common photographic-demand input; electrophotographic attribution remains an explicit assumption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports the common photographic-demand input; electrophotographic attribution remains an explicit assumption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The photobook

10. Paperback Printing Cost - Kindle Direct Publishing

- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The inspected U.S. paperback schedule charges USD xx.xx plus USD xx.xx per page for the specified regular-trim black-ink category. It provides a contemporary commercial price comparison for the assumed USD xx.xx self-publishing production receipt, not an observed historical price or volume.
- Evidence informing the 2026 market-value input; displayed series and growth include calculations: The schedule distinguishes printing charges from royalties and retail list prices, supporting the production-receipt boundary used in the estimate.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule uses USD xx.xx plus USD xx.xx per page for the relevant page band, yielding the USD xx.xx representative manufacturing comparator. It anchors relative weights, not an observed global 2025 price or future share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule uses USD xx.xx plus USD xx.xx per page for the relevant page band, yielding the USD xx.xx representative manufacturing comparator. It anchors relative weights, not an observed global 2025 price or future share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The paperback manufacturing comparator supplies the baseline from which the modeled binding component and hardcover increment are separated.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The paperback manufacturing comparator supplies the baseline from which the modeled binding component and hardcover increment are separated.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The separately identified paperback printing charge constrains the self-publishing production-receipt model and its distinction from retail proceeds.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The separately identified paperback printing charge constrains the self-publishing production-receipt model and its distinction from retail proceeds.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page. It is a contemporary production-charge comparison for the modeled USD xx.xx receipt, not an observed historical Global average.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page. It is a contemporary production-charge comparison for the modeled USD xx.xx receipt, not an observed historical Global average.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The relevant current U.S. paperback printing schedule is USD xx.xx plus USD xx.xx per page, giving USD xx.xx at xx.xx pages. This is a commercial price comparison for creator-production receipts, not proof of 2025 realization, volume or fulfillment mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The relevant current U.S. paperback printing schedule is USD xx.xx plus USD xx.xx per page, giving USD xx.xx at xx.xx pages. This is a commercial price comparison for creator-production receipts, not proof of 2025 realization, volume or fulfillment mix.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule of USD xx.xx plus USD xx.xx per page gives USD xx.xx at xx.xx pages, a magnitude check for modeled single-copy receipts. It establishes neither global volume nor historical or forecast share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule of USD xx.xx plus USD xx.xx per page gives USD xx.xx at xx.xx pages, a magnitude check for modeled single-copy receipts. It establishes neither global volume nor historical or forecast share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page, yielding USD xx.xx for xx.xx pages. This is a contemporary price comparator, not a historical global average. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834340))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page, yielding USD xx.xx for xx.xx pages. This is a contemporary price comparator, not a historical global average. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834340))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The comparable standard and premium color charges calculate to USD xx.xx and USD xx.xx. They constrain relative

11. European Book Publishing Statistics 2017

- Evidence informing the 2017 market-value input; displayed series and growth include calculations: The association's primary survey reports approximately EUR xx.xx of European net publisher revenue for 2017, constraining the pre-pandemic demand level.

12. European Book Publishing Statistics 2019

- Evidence informing the 2018 market-value input; displayed series and growth include calculations: The association reports approximately EUR xx.xx of publisher revenue for 2018.
- Evidence informing the 2019 market-value input; displayed series and growth include calculations: The association reports approximately EUR xx.xx for 2019 and identifies a questionnaire change that limits exact comparability with earlier observations.

13. 2021 年新闻出版产业分析报告

- Evidence informing the 2020 market-value input; displayed series and growth include calculations: The official report's 2021 comparison identifies a substantial rebound from 2020, constraining the pandemic-recovery bridge.
- Evidence informing the 2021 market-value input; displayed series and growth include calculations: China reported xx.xx book copies or sheets in 2021, up xx.xx%; the report also distinguishes textbook output and reprints.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: China's official 2021 textbook share was xx.xx% of book copies. It supplies an older educational-activity proxy, not a monochrome share.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: China's official 2021 textbook share was xx.xx% of book copies. It supplies an older educational-activity proxy, not a monochrome share.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The textbook copy proportion constrains educational exposure; comparable monetary intensity and spot-color incidence are modeled separately.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The textbook copy proportion constrains educational exposure; comparable monetary intensity and spot-color incidence are modeled separately.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational-activity observation contributes to the shared demand proxy carried into the full-color base and forecast models; no color split is reported.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational-activity observation contributes to the shared demand proxy carried into the full-color base and forecast models; no color split is reported.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))

14. European Book Publishing Statistics 2023

- Evidence informing the 2022 market-value input; displayed series and growth include calculations: European net publisher revenue was approximately EUR xx.xx in 2022; the association describes paper-cost pressure and price-led growth.

15. Hardcover Printing Cost - Kindle Direct Publishing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim hardcover schedule uses USD xx.xx plus USD xx.xx per page in the relevant band. Comparison with paperback charges constrains the premium-equivalent manufacturing model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim hardcover schedule uses USD xx.xx plus USD xx.xx per page in the relevant band. Comparison with paperback charges constrains the premium-equivalent manufacturing model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD xx.xx fixed-charge difference supplies the POD premium input; the xx.xx% commercial-run realization and premium incidence are explicitly modeled rather than disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD xx.xx fixed-charge difference supplies the POD premium input; the xx.xx% commercial-run realization and premium incidence are explicitly modeled rather than disclosed.
16. User Fees - University of Wisconsin-Milwaukee Print & Copy Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The university service schedule separately prices preflight/prepress preparation at USD xx.xx per hour, establishing a paid preparation activity rather than an automatic component of every printing-platform purchase.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The university service schedule separately prices preflight/prepress preparation at USD xx.xx per hour, establishing a paid preparation activity rather than an automatic component of every printing-platform purchase.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Perfect binding is listed at USD xx.xx-xx.xx per book. The lower endpoint is the model's basic-binding comparator, not a measured worldwide realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Perfect binding is listed at USD xx.xx-xx.xx per book. The lower endpoint is the model's basic-binding comparator, not a measured worldwide realization.

17. How Much Does It Cost to Print a Book? - QinPrinting
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier's delivered xx.xx-page, xx.xx-copy color-book examples list USD xx.xx for softcover and USD xx.xx for hardcover. They provide a commercial-run countercheck, with delivery and product differences preventing direct substitution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier's delivered xx.xx-page, xx.xx-copy color-book examples list USD xx.xx for softcover and USD xx.xx for hardcover. They provide a commercial-run countercheck, with delivery and product differences preventing direct substitution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The smaller hardcover premium in this offset example qualifies extrapolation of the full POD hardcover increment into binding revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The smaller hardcover premium in this offset example qualifies extrapolation of the full POD hardcover increment into binding revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Comparable hardcover and softcover quotations constrain the assumed relative manufacturing realization after scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Comparable hardcover and softcover quotations constrain the assumed relative manufacturing realization after scope adjustments.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Softcover prices provide a commercial comparison, not a historical global average.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Softcover prices provide a commercial comparison, not a historical global average.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Board-book quotations constrain the assumed production receipt; delivery and duties require adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Board-book quotations constrain the assumed production receipt; delivery and duties require adjustment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Mechanical-binding quotations constrain the unit-receipt assumption, not incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Mechanical-binding quotations constrain the unit-receipt assumption, not incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Short-booklet quotations constrain the lower realization used for eligible saddle-stitched books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Short-booklet quotations constrain the lower realization used for eligible saddle-stitched books.
18. Book Wrap Mailers / Book Boxes - Packaging ONE
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer lists MP2 book mailers at GBP xx.xx each for xx.xx packs of xx.xx excluding VAT. The converted unit price supplies the packaging-creation value proxy, not a global average or a historical quote.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer lists MP2 book mailers at GBP xx.xx each for xx.xx packs of xx.xx excluding VAT. The converted unit price supplies the packaging-creation value proxy, not a global average or a historical quote.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The enclosure price forms the other side of the creation-versus-packing ratio. One comparable enclosure per packing unit is an explicit activity-matching assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The enclosure price forms the other side of the creation-versus-packing ratio. One comparable enclosure per packing unit is an explicit activity-matching assumption.

19. Foreign Exchange Rates - G.5A Annual, January 5, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 annual average is USD xx.xx per GBP. It converts the GBP packaging comparator into the common monetary basis used in the starting allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 annual average is USD xx.xx per GBP. It converts the GBP packaging comparator into the common monetary basis used in the starting allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same conversion supports the common-currency packaging/packing denominator inherited by the forecast; no 2032 exchange rate is asserted.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same conversion supports the common-currency packaging/packing denominator inherited by the forecast; no 2032 exchange rate is asserted.
20. Optional Book Publishing Services - InstantPublisher
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider lists layout/typesetting at USD xx.xx per page with a USD xx.xx minimum. This supports the preparation-spending feasibility check, with purchase incidence and copies per job remaining assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider lists layout/typesetting at USD xx.xx per page with a USD xx.xx minimum. This supports the preparation-spending feasibility check, with purchase incidence and copies per job remaining assumptions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Individual shrink-wrapping is listed at USD xx.xx each plus USD xx.xx setup. Amortizing setup over an assumed xx.xx copies gives the USD xx.xx packing comparator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Individual shrink-wrapping is listed at USD xx.xx each plus USD xx.xx setup. Amortizing setup over an assumed xx.xx copies gives the USD xx.xx packing comparator.
21. How Does Merchant Pricing Work for Ecommerce Stores? - Lulu Direct
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2026 merchant-pricing explanation identifies a USD xx.xx fulfillment fee and separates merchant retail receipts from payments for supplier production, shipping and taxes. The fee is a contemporary feasibility comparator, not verified 2025 penetration or a future charge.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2026 merchant-pricing explanation identifies a USD xx.xx fulfillment fee and separates merchant retail receipts from payments for supplier production, shipping and taxes. The fee is a contemporary feasibility comparator, not verified 2025 penetration or a future charge.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Merchant retail receipts are separate from payments for printing and fulfillment. The current page lists a USD xx.xx fulfillment fee, with shipping and taxes separately calculated. This supports the service-value boundary, not a historical average fee or global order volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Merchant retail receipts are separate from payments for printing and fulfillment. The current page lists a USD xx.xx fulfillment fee, with shipping and taxes separately calculated. This supports the service-value boundary, not a historical average fee or global order volume.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lulu identifies separate retail and production/fulfillment transactions and a USD xx.xx fulfillment fee. This supports excluding merchant retail margins from production-service value and avoiding automatic procurement-channel classification from the storefront.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lulu identifies separate retail and production/fulfillment transactions and a USD xx.xx fulfillment fee. This supports excluding merchant retail margins from production-service value and avoiding automatic procurement-channel classification from the storefront.

22. AAP December 2025 StatShot Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The primary monthly reporting panel's full-year 2025 trade figures show paperback revenue down xx.xx%. This qualifies broad physical-book growth assumptions and supplies directional mix evidence only.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The primary monthly reporting panel's full-year 2025 trade figures show paperback revenue down xx.xx%. This qualifies broad physical-book growth assumptions and supplies directional mix evidence only.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same approximately xx.xx-publisher panel shows hardcover revenue up xx.xx%. It supports a modest premium-mix hypothesis but neither measures global binding spending nor proves the forecast.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same approximately xx.xx-publisher panel shows hardcover revenue up xx.xx%. It supports a modest premium-mix hypothesis but neither measures global binding spending nor proves the forecast.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct-participant 2025 hardback revenue of approximately USD xx.xx anchors the adjusted conventional-format model; it is not printing revenue or a global share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct-participant 2025 hardback revenue of approximately USD xx.xx anchors the adjusted conventional-format model; it is not printing revenue or a global share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported paperback revenue of approximately USD xx.xx plus USD xx.xx mass-market revenue supplies the comparison input. Reported annual movements qualify the forecast starting mix, not its future persistence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported paperback revenue of approximately USD xx.xx plus USD xx.xx mass-market revenue supplies the comparison input. Reported annual movements qualify the forecast starting mix, not its future persistence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct publisher-sample religious and trade physical-format receipts provide a category-intensity proxy, subject to explicit geographic and coverage adjustments.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct publisher-sample religious and trade physical-format receipts provide a category-intensity proxy, subject to explicit geographic and coverage adjustments.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported professional-book receipts and their 2025 decline challenge assumptions of automatic growth from recurring reference relationships.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported professional-book receipts and their 2025 decline challenge assumptions of automatic growth from recurring reference relationships.

23. Print and Associated Services Framework - Lot 1 Buyer Guide: Framework Objectives
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The public purchasing framework separately specifies production-management advice. It establishes a purchased responsibility but not a global fee rate or permission to count subcontract pass-through as retained revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The public purchasing framework separately specifies production-management advice. It establishes a purchased responsibility but not a global fee rate or permission to count subcontract pass-through as retained revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The framework also specifies finished-goods stock holding and call-off, with required holding costs included in the print-job price. This supports allocating embedded production-linked fulfillment rather than restricting the category to standalone invoices.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The framework also specifies finished-goods stock holding and call-off, with required holding costs included in the print-job price. This supports allocating embedded production-linked fulfillment rather than restricting the category to standalone invoices.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Finished goods may be held for call-off, with storage included in the print job where required. This supports consolidated releases as a production-linked arrangement without assuming every release is an individual order.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Finished goods may be held for call-off, with storage included in the print job where required. This supports consolidated releases as a production-linked arrangement without assuming every release is an individual order.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contractors maintain designated distribution lists, deliver to nominated addresses and receive job-specific copy allocations, supporting the modeled list-delivery category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contractors maintain designated distribution lists, deliver to nominated addresses and receive job-specific copy allocations, supporting the modeled list-delivery category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The coexistence of stock holding, call-off and distribution-list obligations supports separating production trigger from fulfillment responsibility; call-off alone does not establish transaction-level fulfillment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The coexistence of stock holding, call-off and distribution-list obligations supports separating production trigger from fulfillment responsibility; call-off alone does not establish transaction-level fulfillment.

24. Frequently Asked Questions - IngramSpark
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: IngramSpark states that it does not provide editing, typesetting or design services. This counterexample prevents treating all platform manufacturing commissions as purchases of professional preparation services.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: IngramSpark states that it does not provide editing, typesetting or design services. This counterexample prevents treating all platform manufacturing commissions as purchases of professional preparation services.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider permits nonexclusive sourcing when the customer owns its ISBN and does not offer editing, typesetting or design. These terms constrain the author service boundary, not adoption or revenue growth.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider permits nonexclusive sourcing when the customer owns its ISBN and does not offer editing, typesetting or design. These terms constrain the author service boundary, not adoption or revenue growth.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: IngramSpark permits nonexclusive use of other printers, distributors and fulfillment providers when publishers own their ISBN. This establishes an alternative-sourcing option, not observed switching or a numerical channel allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: IngramSpark permits nonexclusive use of other printers, distributors and fulfillment providers when publishers own their ISBN. This establishes an alternative-sourcing option, not observed switching or a numerical channel allocation.
25. Packaging Printing & Production - Imago Group
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier identifies book slipcases, clamshell cases, tray-and-lid constructions and multicomponent publisher packaging. This supports the enclosure-production boundary and the limitation of a simple mailer-price proxy; it does not supply sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier identifies book slipcases, clamshell cases, tray-and-lid constructions and multicomponent publisher packaging. This supports the enclosure-production boundary and the limitation of a simple mailer-price proxy; it does not supply sales weights.
26. Services - Bridgeport National Bindery
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The short-run book-production portfolio separately lists shrink-wrapping and set packing. It establishes commercial packing activity distinct from enclosure manufacture and binding, without measuring its revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The short-run book-production portfolio separately lists shrink-wrapping and set packing. It establishes commercial packing activity distinct from enclosure manufacture and binding, without measuring its revenue.
27. Terms and Conditions - CPI Print Germany
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published terms distinguish ex-works production prices from packaging, freight and postage and reserve specified input-cost adjustment rights. They support comparable-scope valuation but do not establish realized inflation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published terms distinguish ex-works production prices from packaging, freight and postage and reserve specified input-cost adjustment rights. They support comparable-scope valuation but do not establish realized inflation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate treatment of forwarding and storage responsibilities supports the eligible production-linked service boundary; contractual rights do not prove the assumed future fee-growth rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate treatment of forwarding and storage responsibilities supports the eligible production-linked service boundary; contractual rights do not prove the assumed future fee-growth rate.

28. ONIX Codelists Issue 75 - List 150: Product Form
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BB identifies hardback/cased books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BB identifies hardback/cased books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BC identifies paperback/softback books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BC identifies paperback/softback books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BH distinguishes board-page books from conventional books with rigid covers.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BH distinguishes board-page books from conventional books with rigid covers.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BE groups spiral, comb and coil forms.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BE groups spiral, comb and coil forms.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BD identifies loose-leaf books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BD identifies loose-leaf books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BF includes stapled short books; nonbook uses are excluded from the model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BF includes stapled short books; nonbook uses are excluded from the model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BL recognizes slide-bound books without measuring current sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BL recognizes slide-bound books without measuring current sales.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BO recognizes continuous concertina-fold books; nonbook charts are excluded.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BO recognizes continuous concertina-fold books; nonbook charts are excluded.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BI identifies textile-page books, not cloth-covered paper books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BI identifies textile-page books, not cloth-covered paper books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BJ identifies waterproof bath-book forms.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BJ identifies waterproof bath-book forms.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BP identifies foam-page and foam-cover books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BP identifies foam-page and foam-cover books.

29. Thomson Reuters - Fourth-Quarter and Full-Year 2025 Results
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Global Print revenue and contraction constrain professional-print scale and substitution direction; content receipts are not treated as loose-leaf service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Global Print revenue and contraction constrain professional-print scale and substitution direction; content receipts are not treated as loose-leaf service revenue.
30. Lulu - Discontinuing Saddle Stitch in Global Distribution
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provider-specific wholesale distribution restrictions establish a channel constraint, not a global sales weight or measured forecast decline.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provider-specific wholesale distribution restrictions establish a channel constraint, not a global sales weight or measured forecast decline.
31. MAGACOPY Sofia - Copying and Printing Prices
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A current EUR xx.xx binding-only charge establishes a live commercial service and a price-scope comparison; full-book USD receipts and incidence remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A current EUR xx.xx binding-only charge establishes a live commercial service and a price-scope comparison; full-book USD receipts and incidence remain assumed.
32. Imago Group - Spotlight on Children's Books for National Young Readers Week
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's children's portfolio supports board-book commercial classification, not order volumes.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's children's portfolio supports board-book commercial classification, not order volumes.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cloth-book offerings support the textile-page category premise, not its modeled incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cloth-book offerings support the textile-page category premise, not its modeled incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bath-book offerings support a separate commercial category; sales and service receipts are undisclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bath-book offerings support a separate commercial category; sales and service receipts are undisclosed.
33. Pegasus - My First Book of Shapes: EVA Foam Book
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The dated 2025 product identifies foam pages and supports commercial-status and classification checks, not global volume or supplier realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated 2025 product identifies foam pages and supports commercial-status and classification checks, not global volume or supplier realization.

34. U.S. Consumer Product Safety Commission - Children's Books
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Product classification and intended audience affect commercial compliance accountability; no numerical surcharge is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Product classification and intended audience affect commercial compliance accountability; no numerical surcharge is inferred.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The exemption boundary supports separate classification rather than assumed conventional-book treatment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The exemption boundary supports separate classification rather than assumed conventional-book treatment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Compliance classification is retained as an uncertainty, not an exclusion or measured price premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Compliance classification is retained as an uncertainty, not an exclusion or measured price premium.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specialty construction does not itself establish ordinary-book exemption eligibility or market inactivity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specialty construction does not itself establish ordinary-book exemption eligibility or market inactivity.
35. Puget Bindery - Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider identifies training manuals and reference guides as mechanical-binding applications, supporting the commissioning premise without measuring sales incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider identifies training manuals and reference guides as mechanical-binding applications, supporting the commissioning premise without measuring sales incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists commercial letterpress book plates and specialty inserts, supporting a component-service model rather than attribution of the entire book price.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists commercial letterpress book plates and specialty inserts, supporting a component-service model rather than attribution of the entire book price.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The bindery identifies commercial printers, publishers and corporate print buyers as customers and excludes direct-to-consumer sales. This supports trade-purchasing attribution but supplies no sales percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The bindery identifies commercial printers, publishers and corporate print buyers as customers and excludes direct-to-consumer sales. This supports trade-purchasing attribution but supplies no sales percentage.

36. ONIX Codelists Issue 75 - List 80: Product Packaging Type
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates single-item and multivolume slipcases; supplies classification, not sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates single-item and multivolume slipcases; supplies classification, not sales weights.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes lidded boxes from slipcase-style boxed sets.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes lidded boxes from slipcase-style boxed sets.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-ended wraparound sleeves are distinct from enclosed wrapping.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-ended wraparound sleeves are distinct from enclosed wrapping.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes envelope-like slip-sleeves and wallets or folders.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes envelope-like slip-sleeves and wallets or folders.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes pouch and bag packaging independently.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes pouch and bag packaging independently.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately recognizes shrink-wrapped products and bundles.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately recognizes shrink-wrapped products and bundles.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Defines formed-plastic clamshells and card-backed blister packaging as distinct constructions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Defines formed-plastic clamshells and card-backed blister packaging as distinct constructions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Explicitly recognizes book browse-prevention closures.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Explicitly recognizes book browse-prevention closures.

37. U.S. Government Publishing Office - Program 827-S: Federal Aviation Administration Books, Contract Pricing and Specifications

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Historical evaluation quantities provide a container-heavy institutional purchasing counterexample, not global shipment shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Historical evaluation quantities provide a container-heavy institutional purchasing counterexample, not global shipment shares.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies kraft-envelope packing within the book procurement.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies kraft-envelope packing within the book procurement.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies cushioned shipping bags as an eligible book-order enclosure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies cushioned shipping bags as an eligible book-order enclosure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Includes wrapped shipping bundles as an alternative purchasing configuration.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Includes wrapped shipping bundles as an alternative purchasing configuration.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Requires packing and filler separately from the external enclosure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Requires packing and filler separately from the external enclosure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies closure tape and securing straps independently of container construction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies closure tape and securing straps independently of container construction.

38. U.S. Government Publishing Office - Print Order Form 2511 Instructions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specifies paper-banded sets separately from shrink-wrapped sets.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specifies paper-banded sets separately from shrink-wrapped sets.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes shrink-wrapped units nested within cartons, supporting component attribution.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes shrink-wrapped units nested within cartons, supporting component attribution.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes internal packaging, container quantities and pallet requirements.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes internal packaging, container quantities and pallet requirements.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The instructions distinguish nominated delivery addresses and warehouse receiving arrangements, supporting the receiving-point attribution premise, not an observed consolidated market share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The instructions distinguish nominated delivery addresses and warehouse receiving arrangements, supporting the receiving-point attribution premise, not an observed consolidated market share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supplemental distribution lists accommodate multiple destinations, supporting the distinction between preallocated destination delivery and a single receiving-point handoff.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supplemental distribution lists accommodate multiple destinations, supporting the distinction between preallocated destination delivery and a single receiving-point handoff.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: GPO specifies black interior inks separately from cover inks, supporting the monochrome classification and underlying-book attribution premise, not its modeled sales weight. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GPO specifies black interior inks separately from cover inks, supporting the monochrome classification and underlying-book attribution premise, not its modeled sales weight. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Designated Pantone specifications are recognized for interior inks, supporting a separate spot-color commercial category without measuring its share. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Designated Pantone specifications are recognized for interior inks, supporting a separate spot-color commercial category without measuring its share. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Four-color process is identified as full color for interior pages; cover color is separately specified. This supports classification at both modeled anchors. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Four-color process is identified as full color for interior pages; cover color is separately specified. This supports classification at both modeled anchors. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))

39. GPOExpress Program Pricing Guide - November 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx hand folding provides a handling-cost comparison; the complete band realization remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx hand folding provides a handling-cost comparison; the complete band realization remains modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx per shrink wrap anchors a small-run comparison, not the assumed global realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx per shrink wrap anchors a small-run comparison, not the assumed global realization.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx auxiliary insertion supplies a handling-price comparison, not protective-material sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx auxiliary insertion supplies a handling-price comparison, not protective-material sales.
40. Hardcover Book Protection: Dust Jackets or Slipcases?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-product EXW slipcase prices of USD xx.xx, USD xx.xx and USD xx.xx at xx.xx xx.xx and xx.xx units constrain relative realizations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-product EXW slipcase prices of USD xx.xx, USD xx.xx and USD xx.xx at xx.xx xx.xx and xx.xx units constrain relative realizations.
41. Book Printing Cost in China: How Printing Prices Are Calculated
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately USD xx.xx per export carton including basic packing materials constrains the bulk-package budget; the container allocation is modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately USD xx.xx per export carton including basic packing materials constrains the bulk-package budget; the container allocation is modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its cushioning split is assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its cushioning split is assumed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its closure split is assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its closure split is assumed.
42. Make Believe Ideas - Independent Retail Catalog 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 catalog identifies activity books with cover-mounted blisters, establishing book-specific participation but not packaging revenue or volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 catalog identifies activity books with cover-mounted blisters, establishing book-specific participation but not packaging revenue or volume.
43. Bookmobile - Request Book Printing Quotes the Right Way to Save Money
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The printer's bookstore-oriented purchasing guidance cautions against universal shrink-wrap attachment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The printer's bookstore-oriented purchasing guidance cautions against universal shrink-wrap attachment.

44. Digital Book Printing - Bookmobile
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current book-production portfolio separately offers poly bags, supporting commercial category participation rather than a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current book-production portfolio separately offers poly bags, supporting commercial category participation rather than a sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current portfolio offers shrink-wrap independently of other finishing options.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current portfolio offers shrink-wrap independently of other finishing options.
45. Sell Books on Shopify - Lulu
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The offered storefront-to-print-and-ship route supports an accessible production-linked parcel channel, not assumed demand.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct fulfillment availability supports the parcel-use scenario without establishing envelope mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct fulfillment availability supports the parcel-use scenario without establishing bag mix.
46. European Commission - New EU Rules on Packaging Enter into Application
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional packaging minimization supports a directional right-sizing premise, not a measured global box-price effect.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Waste-reduction requirements inform the bounded substitution scenario; they do not quantify band adoption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional circularity requirements inform lower lightweight-bag exposure without implying a global book-bag ban.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Material substitution remains partly internal to the combined film-and-paper category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional recyclability pressure informs the niche substitution scenario, not an observed blister-sales decline.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Empty-space reduction provides a directional premise for lower cushioning allowance per individual box.
47. Digital Printing - U.S. Government Publishing Office
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Procurement examples allow offset or digital alternatives while restricting some digital variants, supporting an acceptance- and run-mix model rather than a universal quality ranking. This is a modeling premise, not an observed process share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Procurement examples allow offset or digital alternatives while restricting some digital variants, supporting an acceptance- and run-mix model rather than a universal quality ranking. This is a modeling premise, not an observed process share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The purchasing guidance supports conditional digital substitution, not unrestricted interchangeability or an observed forecast allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The purchasing guidance supports conditional digital substitution, not unrestricted interchangeability or an observed forecast allocation.

48. Clays demonstrate dedication to digital investment
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx books annually and xx.xx books of digital capacity in an older investment statement; this constrains scale but is not a 2025 realized output mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx books annually and xx.xx books of digital capacity in an older investment statement; this constrains scale but is not a 2025 realized output mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's inkjet investment supports an existing book-production application and a conditional adoption premise, not a quantified global forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's inkjet investment supports an existing book-production application and a conditional adoption premise, not a quantified global forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The capacity/output comparison is a limited commercial check on continued conventional book production, not a direct offset revenue observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The capacity/output comparison is a limited commercial check on continued conventional book production, not a direct offset revenue observation.
49. ISO/TC 130 - Guidelines for Using Print Production Standards, Version 1.0, 2019
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes packaging use cases and printing processes, supporting allocation of gravure to book-associated components rather than the full value of a book.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes packaging use cases and printing processes, supporting allocation of gravure to book-associated components rather than the full value of a book.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies flexographic packaging applications; the book-specific spending budget and process coefficients remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies flexographic packaging applications; the book-specific spending budget and process coefficients remain modeled.
50. Premium Layflat Photo Books - PhotobookShop
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Offers bound silver-halide photographic books and distinguishes them from digitally printed alternatives, supporting the model's separate photographic category rather than an observed sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Offers bound silver-halide photographic books and distinguishes them from digitally printed alternatives, supporting the model's separate photographic category rather than an observed sales weight.
51. The Cormac McCarthy Collection - The Folio Society
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents screen-printed cloth covers on physical book editions, supporting component-level commercial attribution. It does not measure supplier component receipts or global uptake.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents screen-printed cloth covers on physical book editions, supporting component-level commercial attribution. It does not measure supplier component receipts or global uptake.

52. Risograph Digital Duplicator Order Form, 2026 - Minneapolis College of Art and Design
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2026 institutional form recognizes Risograph book/booklet orders but excludes assembly. It supports a limited application boundary, not 2025 external commercial volume; internal institutional charges are excluded from the numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2026 institutional form recognizes Risograph book/booklet orders but excludes assembly. It supports a limited application boundary, not 2025 external commercial volume; internal institutional charges are excluded from the numerator.
53. American Printing House - 2024 Annual Report
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal 2024 product sales were USD xx.xx; braille publications represented xx.xx% of product sales; xx.xx braille volumes were produced. These inputs constrain an adjusted production-realization proxy, not a global market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The decline from xx.xx braille volumes in 2022 qualifies a uniform physical-demand growth assumption and informs the slower relative forecast activity weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2024 product sales were USD xx.xx; braille publications represented xx.xx% of product sales; xx.xx braille volumes were produced. These inputs constrain an adjusted production-realization proxy, not a global market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The decline from xx.xx braille volumes in 2022 qualifies a uniform physical-demand growth assumption and informs the slower relative forecast activity weight.
54. Kodak Moments Kiosk - Kodak Alaris
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises book-capable retail kiosk equipment and a photographic-printing portfolio. Used only as a commercial-route premise for the thermal working estimate, not as evidence of thermal book-service sales, utilization or the final share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises book-capable retail kiosk equipment and a photographic-printing portfolio. Used only as a commercial-route premise for the thermal working estimate, not as evidence of thermal book-service sales, utilization or the final share.
55. 二〇二一年全国新闻出版业基本情况
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official 2021 aggregate textbook output distinguishes school, tertiary and vocational/adult activity; historical volumes require value and global-scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official 2021 aggregate textbook output distinguishes school, tertiary and vocational/adult activity; historical volumes require value and global-scope adjustments.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Secondary, primary and teaching-book aggregate sheet counts form the school activity weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Secondary, primary and teaching-book aggregate sheet counts form the school activity weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Tertiary textbook aggregate output supplies the higher-education activity input before an assumed relative-service-value adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Tertiary textbook aggregate output supplies the higher-education activity input before an assumed relative-service-value adjustment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Vocational, adult and literacy textbook output supplies the corresponding historical activity input.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Vocational, adult and literacy textbook output supplies the corresponding historical activity input.

56. Music, printed or in manuscript imports by country, 2024 - World Integrated Trade Solution
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official HS xx.xx import observations constrain the music-publication value bridge; domestic supply, physical-book eligibility and the printing-service fraction remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official HS xx.xx import observations constrain the music-publication value bridge; domestic supply, physical-book eligibility and the printing-service fraction remain modeled.
57. Bloomsbury Publishing - 2024/25 Results Presentation
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate Academic & Professional print, digital and rights/service receipts demonstrate the required physical-revenue boundary; company mix is not treated as global market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate Academic & Professional print, digital and rights/service receipts demonstrate the required physical-revenue boundary; company mix is not treated as global market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed physical academic publishing activity supports commercial applicability but does not verify the assumed global research/reference ratio.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed physical academic publishing activity supports commercial applicability but does not verify the assumed global research/reference ratio.
58. HDSB - RFSQ 26-013: Yearbook Software and Printing Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The qualification notice establishes a commissioned yearbook scope including printing, binding and school delivery; it supplies no awarded value and is not used as a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The qualification notice establishes a commissioned yearbook scope including printing, binding and school delivery; it supplies no awarded value and is not used as a sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The yearbook qualification notice restricts supply to prequalified vendors while permitting school bulk orders and individual ordering. It supports separating commissioning authority from ultimate payment, but discloses no fulfilled-order value.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The yearbook qualification notice restricts supply to prequalified vendors while permitting school bulk orders and individual ordering. It supports separating commissioning authority from ultimate payment, but discloses no fulfilled-order value.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The individual-ordering option establishes an attribution uncertainty relevant to the modeled household portion; it does not establish the assumed xx.xx% proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The individual-ordering option establishes an attribution uncertainty relevant to the modeled household portion; it does not establish the assumed xx.xx% proportion.

59. U.S. Census Bureau - 2022 Economic Census, Books Printing Questionnaire MC-32312
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official printing questionnaire supports the distinction between textbook and general-book production; recognition is not treated as a revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official printing questionnaire supports the distinction between textbook and general-book production; recognition is not treated as a revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognized coloring-book output supports treating recreational activity commissions separately from institutional textbooks according to purpose.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognized coloring-book output supports treating recreational activity commissions separately from institutional textbooks according to purpose.
60. Press Information Bureau - Department of School Education & Literacy, Year End Review 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The government review describes substantial NCERT physical-textbook activity, independently qualifying the physical-availability premise without establishing attributable supplier revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The government review describes substantial NCERT physical-textbook activity, independently qualifying the physical-availability premise without establishing attributable supplier revenue.
61. 2022 North American Industry Classification System - United States
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dedicated book-publishing activity is separated from institutional primary activities and printing without publishing, constraining the Publishing Organizations numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dedicated book-publishing activity is separated from institutional primary activities and printing without publishing, constraining the Publishing Organizations numerator.
62. U.S. Census Bureau - Books Printing: 2002
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Table xx.xx reports 2002 U.S. books-printing contract-work costs of USD xx.xx and shipments of USD xx.xx. Their ratio supplies a dated manufacturing-subcontract proxy, held constant within the forecast component.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Table xx.xx reports 2002 U.S. books-printing contract-work costs of USD xx.xx and shipments of USD xx.xx. Their ratio supplies a dated manufacturing-subcontract proxy, held constant within the forecast component.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical subcontract-cost input constrains the modeled transfer from publisher-origin commissioning to performing suppliers, without adding another gross contract value.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical subcontract-cost input constrains the modeled transfer from publisher-origin commissioning to performing suppliers, without adding another gross contract value.
63. Samfine Creation Holdings Group Limited - Form 20-F for the year ended December 31, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports USD xx.xx of 2025 book-product revenue and principally serves book traders that secure printing contracts and outsource production. This is a supplier-specific quantitative role check, not a Global allocation weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports USD xx.xx of 2025 book-product revenue and principally serves book traders that secure printing contracts and outsource production. This is a supplier-specific quantitative role check, not a Global allocation weight.

64. Ministry of Education - NCERT and Amazon Letter of Engagement, October 7, 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2024 announcement targeted xx.xx NCERT books for academic 2025-xx.xx. This is a planned institutional activity anchor; realization, eligible receipts and subsequent growth are modeled separately.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2024 announcement targeted xx.xx NCERT books for academic 2025-xx.xx. This is a planned institutional activity anchor; realization, eligible receipts and subsequent growth are modeled separately.
65. Bangladesh e-GP - NCTB/TEXTBOOK/2025, Package GD.102_SEC_8.031
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The government-funded procurement plan specifies xx.xx academic-2025 textbook copies and an estimated BDT xx.xx for printing, binding and supply. It constrains commercial order scale and local unit-budget plausibility, not realized annual revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The government-funded procurement plan specifies xx.xx academic-2025 textbook copies and an estimated BDT xx.xx for printing, binding and supply. It constrains commercial order scale and local unit-budget plausibility, not realized annual revenue.
66. Students suffer as NCTB fails to deliver books - The Daily Star, January 17, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 report corroborates the dated approximately xx.xx-copy textbook target and early-year delivery disruption. Target realization and supplier receipts remain modeled.
67. Secondary-level students: A new year without full set of books for many - The Daily Star, December 28, 2025
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 report corroborates the approximately xx.xx-copy academic-2026 target and continued delivery slippage. It informs a normalization assumption, not an observed 2032 share.
68. Business Books - Print Professional, Custom Corporate Books | Blurb
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The business-book offering includes organizational presentation and corporate-gift applications. It establishes an in-scope commissioning proposition, not the modeled global copy quantity or spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The business-book offering includes organizational presentation and corporate-gift applications. It establishes an in-scope commissioning proposition, not the modeled global copy quantity or spending.
69. How to Use Lulu to Support Your Nonprofit | Lulu
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform permits an organization or charity to receive creator proceeds. This supports excluding beneficiary-only arrangements from nonprofit commissioning; it does not measure nonprofit printing purchases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform permits an organization or charity to receive creator proceeds. This supports excluding beneficiary-only arrangements from nonprofit commissioning; it does not measure nonprofit printing purchases.

70. News Corp - Form 10-K for the fiscal year ended June 30, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal 2025 consumer backlist revenue of xx.xx% and digital revenue of xx.xx% anchor the assumed physical-backlist bridge and its forecast starting model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2025 consumer backlist revenue of xx.xx% and digital revenue of xx.xx% anchor the assumed physical-backlist bridge and its forecast starting model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed backlist mix constrains recurring-title demand; its division into replenishment and POD remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed backlist mix constrains recurring-title demand; its division into replenishment and POD remains modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The complementary frontlist population supports the launch-stock cohort after physical-format adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The complementary frontlist population supports the launch-stock cohort after physical-format adjustments.
71. News Corp - Form 10-K for the fiscal year ended June 30, 2026
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2026 backlist revenue of xx.xx% and digital revenue of xx.xx% lower the forecast physical-backlist proxy instead of assuming continued backlist expansion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The updated catalog mix changes the forecast population available for repeat inventory releases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The updated frontlist/backlist bridge changes the forecast planned-production weight; no 2032 share is disclosed.
72. How Do Lulu Direct Orders Work?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lulu describes printing after customer purchase and distinguishes production from subsequent shipment, supporting recipient-order attribution rather than technology-based classification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lulu describes printing after customer purchase and distinguishes production from subsequent shipment, supporting recipient-order attribution rather than technology-based classification.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: No minimum order and one-copy ordering establish commercial feasibility, not the number or value of single-copy releases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No minimum order and one-copy ordering establish commercial feasibility, not the number or value of single-copy releases.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: One POD offering accepts hundreds of copies, independently challenging a POD-equals-single-copy allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One POD offering accepts hundreds of copies, independently challenging a POD-equals-single-copy allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Orders can extend into thousands within the same offering; the production trigger therefore does not uniquely identify the working run band.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Orders can extend into thousands within the same offering; the production trigger therefore does not uniquely identify the working run band.

73. Supply Chain - Clays
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Clays describes differentiated backlist arrangements and stock visibility, supporting a separate inventory-replenishment cohort without establishing its numerical prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Clays describes differentiated backlist arrangements and stock visibility, supporting a separate inventory-replenishment cohort without establishing its numerical prevalence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: New-title consolidation and predictable annual backlist demand support retaining planned inventory commitments; short-run printing is explicitly not necessarily POD.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: New-title consolidation and predictable annual backlist demand support retaining planned inventory commitments; short-run printing is explicitly not necessarily POD.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Clays explicitly distinguishes short-run work from POD, supporting category separation rather than a technological proxy for value share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Clays explicitly distinguishes short-run work from POD, supporting category separation rather than a technological proxy for value share.
74. Smart Backlist Management: When to Hold and When to Print-on-Demand
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheridan describes low-volume titles moving to POD while other titles retain inventory, supporting differentiated release-policy assumptions rather than a uniform backlist-to-POD conversion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheridan describes low-volume titles moving to POD while other titles retain inventory, supporting differentiated release-policy assumptions rather than a uniform backlist-to-POD conversion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A disclosed customer example uses a stock threshold to trigger a 2,000-copy replenishment order. It establishes the commercial mechanism, not a market-wide share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A disclosed customer example uses a stock threshold to trigger a 2,000-copy replenishment order. It establishes the commercial mechanism, not a market-wide share.

75. Shortage of NCERT textbooks - Rajya Sabha Unstarred Question No. 1941, December 17, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advance enrollment-based forecasting, academic-session readiness and a fiscal 2025-xx.xx plan for approximately xx.xx textbooks support a substantial calendar-driven stock cohort. The target is not realized production.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advance enrollment-based forecasting, academic-session readiness and a fiscal 2025-xx.xx plan for approximately xx.xx textbooks support a substantial calendar-driven stock cohort. The target is not realized production.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phased supply and inventory monitoring support distinguishing ongoing availability obligations from individual-recipient POD, without quantifying replenishment's global prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phased supply and inventory monitoring support distinguishing ongoing availability obligations from individual-recipient POD, without quantifying replenishment's global prevalence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official answer distinguishes printer empanelment from approximately xx.xx distribution vendors and describes planned fiscal 2025-xx.xx printing of approximately xx.xx textbooks. It supports commissioning-versus-distribution separation, not a realized monetary channel split.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official answer distinguishes printer empanelment from approximately xx.xx distribution vendors and describes planned fiscal 2025-xx.xx printing of approximately xx.xx textbooks. It supports commissioning-versus-distribution separation, not a realized monetary channel split.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phased textbook supply supports treating annual institutional quantities separately from production batches; it does not disclose the medium-run allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phased textbook supply supports treating annual institutional quantities separately from production batches; it does not disclose the medium-run allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 answer identifies a xx.xx-million-copy FY2025-xx.xx printing decision versus approximately xx.xx in recent years, a counterforce to assuming rapid long-run disappearance. Planned copies are not realized service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 answer identifies a xx.xx-million-copy FY2025-xx.xx printing decision versus approximately xx.xx in recent years, a counterforce to assuming rapid long-run disappearance. Planned copies are not realized service revenue.
76. Fulfillment Fee - Lulu Direct
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2026 schedule lists USD xx.xx per order regardless of item count, supporting an order-frequency effect on associated-service value. It does not verify the assumed historical or forecast multiplier.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2026 schedule lists USD xx.xx per order regardless of item count, supporting an order-frequency effect on associated-service value. It does not verify the assumed historical or forecast multiplier.

77. InnerWorkings, Inc. - Form 10-K for the year ended December 31, 2019
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2019 filing reports USD xx.xx gross profit on USD xx.xx revenue and describes purchased-product and direct-service costs. Historical reported margins constrain the modeled xx.xx% retained-fee ratio; they do not directly measure book-channel share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2019 filing reports USD xx.xx gross profit on USD xx.xx revenue and describes purchased-product and direct-service costs. Historical reported margins constrain the modeled xx.xx% retained-fee ratio; they do not directly measure book-channel share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The procurement-service margin comparison supports the fee-to-managed-spending bridge underlying the direct-channel complement. Carrying the normalized ratio into 2032 is explicitly a forecast assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The procurement-service margin comparison supports the fee-to-managed-spending bridge underlying the direct-channel complement. Carrying the normalized ratio into 2032 is explicitly a forecast assumption.
78. Simplified Purchase Agreement - U.S. Government Publishing Office
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SPA permits agency awards directly to certified vendors for purchases up to USD xx.xx while GPO pays vendors and invoices agencies. This supports classifying by the contracting relationship rather than the invoice payer, not a numerical global weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SPA permits agency awards directly to certified vendors for purchases up to USD xx.xx while GPO pays vendors and invoices agencies. This supports classifying by the contracting relationship rather than the invoice payer, not a numerical global weight.
79. Global Print Services | China, Europe, SE Asia, USA & India
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Imago describes sourcing suppliers and coordinating multiple manufacturers for book-related projects. Its cumulative customer relationships establish the offered intermediary role but are not annual revenue or allocation weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Imago describes sourcing suppliers and coordinating multiple manufacturers for book-related projects. Its cumulative customer relationships establish the offered intermediary role but are not annual revenue or allocation weights.
80. Lion Rock Group Limited - Annual Report 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-business 2025 turnover changes of minus xx.xx% for APOL and minus xx.xx% for Regent challenge uniform intermediary growth; Regent's non-book focus limits its relevance. These observations support avoiding an additional adoption uplift.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-business 2025 turnover changes of minus xx.xx% for APOL and minus xx.xx% for Regent challenge uniform intermediary growth; Regent's non-book focus limits its relevance. These observations support avoiding an additional adoption uplift.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Manufacturing turnover changes of minus xx.xx% at xx.xx Printing and plus xx.xx% at Papercraft demonstrate differing supplier trajectories rather than a simple common channel-growth pattern; these are not direct-contracting market shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Manufacturing turnover changes of minus xx.xx% at xx.xx Printing and plus xx.xx% at Papercraft demonstrate differing supplier trajectories rather than a simple common channel-growth pattern; these are not direct-contracting market shares.

81. Imprint Digital - Book Printing Prices UK

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected schedule quotes GBP xx.xx at xx.xx copies for one paperback specification, supporting a relative-price input, not a historical global realization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected schedule quotes GBP xx.xx at xx.xx copies for one paperback specification, supporting a relative-price input, not a historical global realization.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: GBP xx.xx at xx.xx copies supplies the medium-run reference index; format and delivery differences require separate treatment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GBP xx.xx at xx.xx copies supplies the medium-run reference index; format and delivery differences require separate treatment.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The quantity-price curve anchors the reference from which the long-run discount is assumed; no long-run price or future share is disclosed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The quantity-price curve anchors the reference from which the long-run discount is assumed; no long-run price or future share is disclosed.

82. Print Options

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: KDP distinguishes black-and-white from color records and locks ink type after publication. These platform-specific conditions qualify switching assumptions, not market weights. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: KDP distinguishes black-and-white from color records and locks ink type after publication. These platform-specific conditions qualify switching assumptions, not market weights. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The displayed platform menu does not establish designated spot-color availability or sales; a general color option is not used as evidence of spot-color demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The displayed platform menu does not establish designated spot-color availability or sales; a general color option is not used as evidence of spot-color demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Standard color is unavailable for hardcover, but premium color is available. Both process-color tiers belong within the modeled Full-Color Interiors category. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Standard color is unavailable for hardcover, but premium color is available. Both process-color tiers belong within the modeled Full-Color Interiors category. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))

83. Synthèse des chiffres de l'édition jeunesse 2024-2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The primary French publishing survey reports a xx.xx% decline in illustrated early-childhood volumes and a xx.xx% decline in youth-fiction volumes in 2024. These differing outcomes challenge an aggressive universal color-growth assumption. ([sne.fr](https://www.sne.fr/actu/synthese-des-chiffres-de-ledition-jeunesse-2024-2025/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The primary French publishing survey reports a xx.xx% decline in illustrated early-childhood volumes and a xx.xx% decline in youth-fiction volumes in 2024. These differing outcomes challenge an aggressive universal color-growth assumption. ([sne.fr](https://www.sne.fr/actu/synthese-des-chiffres-de-ledition-jeunesse-2024-2025/))

Sources & Evidence

1. European Book Publishing Statistics 2024
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: European publishers reported approximately EUR xx.xx of net book-sales revenue in 2024. The disclosed ebook and audiobook proportions inform the modeled xx.xx% physical-book revenue proportion; publisher revenue is an input, not printing-service revenue.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 publisher-revenue and format observations provide the European demand input carried into the 2025 estimate.

2. The Global Publishing Industry in 2022

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Table xx.xx supplies country-level publishing revenues and identifies differences between retail-value, publisher-revenue, print-only and prior-year observations. Selected non-European country observations are adjusted for physical formats and period before estimating production spending.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The selected country observations contribute to the demand pool underlying the 2025 working estimate. Nielsen retail datasets elsewhere in the publication are not used.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Primary survey sector differences constrain the education-adjusted hardcover proxy.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Primary survey sector differences constrain the education-adjusted hardcover proxy.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Educational/trade differences qualify extrapolation of U.S. consumer-format revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Educational/trade differences qualify extrapolation of U.S. consumer-format revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx of surveyed children's publishing revenue anchors the modeled specialty demand pool, not supplier receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx of surveyed children's publishing revenue anchors the modeled specialty demand pool, not supplier receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sector data constrain the commissioning-pool proxy; mechanical incidence remains assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sector data constrain the commissioning-pool proxy; mechanical incidence remains assumed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Educational demand supplies a common economic anchor; loose-leaf incidence remains modeled.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Educational demand supplies a common economic anchor; loose-leaf incidence remains modeled.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sector observations constrain the educational short-book commissioning pool.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sector observations constrain the educational short-book commissioning pool.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The commissioning-pool anchor supports an explicit sparse-format incidence model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The commissioning-pool anchor supports an explicit sparse-format incidence model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors the accordion working estimate, not observed accordion orders.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors the accordion working estimate, not observed accordion orders.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed textile-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed textile-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed bath-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed bath-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed foam-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed foam-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original publishing survey documents country-level trade/education revenue differences used to constrain the modeled physical-publishing mix; it does not directly measure service shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original publishing survey documents country-level trade/education revenue differences used to constrain the modeled physical-publishing mix; it does not directly measure service shares.

3. 2024 年新闻出版统计公报

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: For 2024, the official table reports xx.xx book copies or sheets and CNY xx.xx of book-publishing revenue. These constrain the demand bridge and historical contraction, rather than directly measuring printing-service sales.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 book-publishing observation supplies the Chinese demand primitive for the 2025 model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official 2024 output of xx.xx copies/sheets constrains total modeled publisher activity; it does not disclose single-copy production.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official 2024 output of xx.xx copies/sheets constrains total modeled publisher activity; it does not disclose single-copy production.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Aggregate copies and annual title output constrain the shared activity model, not an observed short-run share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Aggregate copies and annual title output constrain the shared activity model, not an observed short-run share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Aggregate production provides a scale check for the medium-run assumption; annual copies per title are not individual batches.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Aggregate production provides a scale check for the medium-run assumption; annual copies per title are not individual batches.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx annual copies per title constrain the long-run scenario without proving its batch mix or forecast.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx annual copies per title constrain the long-run scenario without proving its batch mix or forecast.

4. Foreign Exchange Rates - G.5A Annual, January 5, 2026

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: The official 2024 annual-average conversion inputs are USD xx.xx per EUR, CNY xx.xx per USD and CAD xx.xx per USD.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The exchange-rate table establishes the conversion basis of the preceding-year demand inputs used in the 2025 estimate; subsequent effective-USD price assumptions are modeled separately.

5. Book publishing industry, 2024 - Statistics Canada
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Canadian publishers reported CAD xx.xx of print sales outside the online category and CAD xx.xx of online print sales in 2024. Their sum, rather than total operating revenue, supplies the physical-book demand input.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: Reported cost of goods sold of CAD xx.xx, up CAD xx.xx from 2022, supplies a cost-pressure cross-check, not a directly attributable printing-services total.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Canadian online versus other print-sales values constrain parcel exposure, with explicit value-to-unit and geographic limitations.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Canadian online versus other print-sales values constrain parcel exposure, with explicit value-to-unit and geographic limitations.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed envelope purchases.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed envelope purchases.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed bag purchases.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed bag purchases.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Modest observed online-print growth qualifies aggressive parcel-related wrapping assumptions.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Modest observed online-print growth qualifies aggressive parcel-related wrapping assumptions.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring separate protection.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring separate protection.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring closures.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring closures.
6. U.S. Census Bureau - Books Printing: Shipments, annual table
   - Evidence informing the 2017 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2017; this is a national production anchor for the historical model.
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2018.
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2019.
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2020.
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2021.
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2022.
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2024. This national industrial measure is narrower than the composite global service boundary.

7. U.S. Census Bureau - Book Publishers, All Establishments: Revenue, annual table
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: The Census annual series reports USD xx.xx of U.S. book-publisher revenue for 2024. A modeled xx.xx% physical-book proportion excludes digital and other adjacent receipts.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 Census observation replaces an older survey-based U.S. revenue bridge in the demand pool underlying 2025.

8. Scholastic Corporation - Form 10-K for the year ended May 31, 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Scholastic's fiscal 2024 product, service, production and inventory-reserve costs were xx.xx% of revenue; postage, freight, shipping, fulfillment and other costs were xx.xx%. These broad categories constrain, but do not directly establish, eligible outsourced-service spending.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The corresponding fiscal 2025 proportions were xx.xx% and xx.xx%. Royalties and prepublication amortization are separately disclosed, allowing their exclusion from the service-market bridge.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 product, service, production and inventory-reserve costs were xx.xx% of revenue. The broader cost category constrains the manufacturing spending boundary but does not directly disclose printing-service revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 product, service, production and inventory-reserve costs were xx.xx% of revenue. The broader cost category constrains the manufacturing spending boundary but does not directly disclose printing-service revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Prepublication amortization is disclosed separately from production costs, supporting exclusion of adjacent amortization rather than equating it with externally purchased prepress.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Prepublication amortization is disclosed separately from production costs, supporting exclusion of adjacent amortization rather than equating it with externally purchased prepress.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Postage, freight, shipping, fulfillment and other costs were xx.xx% of revenue in fiscal 2025 versus xx.xx% in fiscal 2024. This is a broad buyer-cost check, not an eligible outsourced-fulfillment share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Postage, freight, shipping, fulfillment and other costs were xx.xx% of revenue in fiscal 2025 versus xx.xx% in fiscal 2024. This is a broad buyer-cost check, not an eligible outsourced-fulfillment share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Outsourced manufacturing coexists with company-operated distribution. Fiscal-2025 production-related costs were xx.xx% of revenue, constraining the inherited spending bridge rather than directly measuring the assumed route fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Outsourced manufacturing coexists with company-operated distribution. Fiscal-2025 production-related costs were xx.xx% of revenue, constraining the inherited spending bridge rather than directly measuring the assumed route fraction.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Book-club revenue was xx.xx% online-ordered and xx.xx% parent-ordered, while products typically went to classrooms. This challenges the use of online sales as a proxy for the external contractor's delivery model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Book-club revenue was xx.xx% online-ordered and xx.xx% parent-ordered, while products typically went to classrooms. This challenges the use of online sales as a proxy for the external contractor's delivery model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct printer-to-customer fulfillment is a disclosed option. Broader logistics/other costs were xx.xx% of revenue versus xx.xx% previously, providing a cost-boundary check but no global order-level share or service-price growth observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct printer-to-customer fulfillment is a disclosed option. Broader logistics/other costs were xx.xx% of revenue versus xx.xx% previously, providing a cost-boundary check but no global order-level share or service-price growth observation.

9. CEWE achieves all targets in 2025 and aims to further increase revenue and earnings in 2026

- Evidence informing the 2025 market-value input; displayed series and growth include calculations: CEWE reported xx.xx CEWE PHOTOBOOK copies in 2025 versus xx.xx in 2024, supporting a positive specialty-book volume assumption without establishing global adoption.
- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Observed 2025 photobook growth informs the specialty-demand assumption for 2026; the market value remains modeled.
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The observed specialty-book activity is a starting condition for the forecast, not independent proof of continued growth through 2032.
- Evidence informing the 2040 market-value input; displayed series and growth include calculations: The forecast explicitly slows specialty-demand growth after 2032; this source supplies the initial commercial observation, not the long-term growth rate.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: CEWE reports xx.xx photobooks in 2025 compared with xx.xx in 2024. This independently establishes specialty-book activity underlying the nonpublisher model, without establishing a global expansion factor.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CEWE reports xx.xx photobooks in 2025 compared with xx.xx in 2024. This independently establishes specialty-book activity underlying the nonpublisher model, without establishing a global expansion factor.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports retaining premium specialty commissions in the manufacturing mix; the binding allocation and unchanged future cohort profile remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports retaining premium specialty commissions in the manufacturing mix; the binding allocation and unchanged future cohort profile remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported photobook volumes constrain personal-book activity and the nonpublisher starting condition, not hardcover prevalence or future share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported photobook volumes constrain personal-book activity and the nonpublisher starting condition, not hardcover prevalence or future share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Photobook activity supports the separate personal-book commissioning block; its softcover fraction remains assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Photobook activity supports the separate personal-book commissioning block; its softcover fraction remains assumed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported photobook copies rose from xx.xx to xx.xx; the narrower 2026 target qualifies strong specialty-growth assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported photobook copies rose from xx.xx to xx.xx; the narrower 2026 target qualifies strong specialty-growth assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specialty-book activity constrains the presentation-demand scenario but does not measure gift-box attachment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specialty-book activity constrains the presentation-demand scenario but does not measure gift-box attachment.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CEWE PHOTOBOOK units in 2025 versus xx.xx in 2024, constraining the specialty-book demand budget without establishing a global process split.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CEWE PHOTOBOOK units in 2025 versus xx.xx in 2024, constraining the specialty-book demand budget without establishing a global process split.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports the common photographic-demand input; electrophotographic attribution remains an explicit assumption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports the common photographic-demand input; electrophotographic attribution remains an explicit assumption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The photobook

10. Paperback Printing Cost - Kindle Direct Publishing

- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The inspected U.S. paperback schedule charges USD xx.xx plus USD xx.xx per page for the specified regular-trim black-ink category. It provides a contemporary commercial price comparison for the assumed USD xx.xx self-publishing production receipt, not an observed historical price or volume.
- Evidence informing the 2026 market-value input; displayed series and growth include calculations: The schedule distinguishes printing charges from royalties and retail list prices, supporting the production-receipt boundary used in the estimate.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule uses USD xx.xx plus USD xx.xx per page for the relevant page band, yielding the USD xx.xx representative manufacturing comparator. It anchors relative weights, not an observed global 2025 price or future share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule uses USD xx.xx plus USD xx.xx per page for the relevant page band, yielding the USD xx.xx representative manufacturing comparator. It anchors relative weights, not an observed global 2025 price or future share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The paperback manufacturing comparator supplies the baseline from which the modeled binding component and hardcover increment are separated.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The paperback manufacturing comparator supplies the baseline from which the modeled binding component and hardcover increment are separated.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The separately identified paperback printing charge constrains the self-publishing production-receipt model and its distinction from retail proceeds.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The separately identified paperback printing charge constrains the self-publishing production-receipt model and its distinction from retail proceeds.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page. It is a contemporary production-charge comparison for the modeled USD xx.xx receipt, not an observed historical Global average.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page. It is a contemporary production-charge comparison for the modeled USD xx.xx receipt, not an observed historical Global average.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The relevant current U.S. paperback printing schedule is USD xx.xx plus USD xx.xx per page, giving USD xx.xx at xx.xx pages. This is a commercial price comparison for creator-production receipts, not proof of 2025 realization, volume or fulfillment mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The relevant current U.S. paperback printing schedule is USD xx.xx plus USD xx.xx per page, giving USD xx.xx at xx.xx pages. This is a commercial price comparison for creator-production receipts, not proof of 2025 realization, volume or fulfillment mix.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule of USD xx.xx plus USD xx.xx per page gives USD xx.xx at xx.xx pages, a magnitude check for modeled single-copy receipts. It establishes neither global volume nor historical or forecast share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule of USD xx.xx plus USD xx.xx per page gives USD xx.xx at xx.xx pages, a magnitude check for modeled single-copy receipts. It establishes neither global volume nor historical or forecast share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page, yielding USD xx.xx for xx.xx pages. This is a contemporary price comparator, not a historical global average. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834340))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page, yielding USD xx.xx for xx.xx pages. This is a contemporary price comparator, not a historical global average. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834340))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The comparable standard and premium color charges calculate to USD xx.xx and USD xx.xx. They constrain relative

11. European Book Publishing Statistics 2017

- Evidence informing the 2017 market-value input; displayed series and growth include calculations: The association's primary survey reports approximately EUR xx.xx of European net publisher revenue for 2017, constraining the pre-pandemic demand level.

12. European Book Publishing Statistics 2019

- Evidence informing the 2018 market-value input; displayed series and growth include calculations: The association reports approximately EUR xx.xx of publisher revenue for 2018.
- Evidence informing the 2019 market-value input; displayed series and growth include calculations: The association reports approximately EUR xx.xx for 2019 and identifies a questionnaire change that limits exact comparability with earlier observations.

13. 2021 年新闻出版产业分析报告

- Evidence informing the 2020 market-value input; displayed series and growth include calculations: The official report's 2021 comparison identifies a substantial rebound from 2020, constraining the pandemic-recovery bridge.
- Evidence informing the 2021 market-value input; displayed series and growth include calculations: China reported xx.xx book copies or sheets in 2021, up xx.xx%; the report also distinguishes textbook output and reprints.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: China's official 2021 textbook share was xx.xx% of book copies. It supplies an older educational-activity proxy, not a monochrome share.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: China's official 2021 textbook share was xx.xx% of book copies. It supplies an older educational-activity proxy, not a monochrome share.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The textbook copy proportion constrains educational exposure; comparable monetary intensity and spot-color incidence are modeled separately.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The textbook copy proportion constrains educational exposure; comparable monetary intensity and spot-color incidence are modeled separately.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational-activity observation contributes to the shared demand proxy carried into the full-color base and forecast models; no color split is reported.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational-activity observation contributes to the shared demand proxy carried into the full-color base and forecast models; no color split is reported.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))

14. European Book Publishing Statistics 2023

- Evidence informing the 2022 market-value input; displayed series and growth include calculations: European net publisher revenue was approximately EUR xx.xx in 2022; the association describes paper-cost pressure and price-led growth.

15. Hardcover Printing Cost - Kindle Direct Publishing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim hardcover schedule uses USD xx.xx plus USD xx.xx per page in the relevant band. Comparison with paperback charges constrains the premium-equivalent manufacturing model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim hardcover schedule uses USD xx.xx plus USD xx.xx per page in the relevant band. Comparison with paperback charges constrains the premium-equivalent manufacturing model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD xx.xx fixed-charge difference supplies the POD premium input; the xx.xx% commercial-run realization and premium incidence are explicitly modeled rather than disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD xx.xx fixed-charge difference supplies the POD premium input; the xx.xx% commercial-run realization and premium incidence are explicitly modeled rather than disclosed.
16. User Fees - University of Wisconsin-Milwaukee Print & Copy Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The university service schedule separately prices preflight/prepress preparation at USD xx.xx per hour, establishing a paid preparation activity rather than an automatic component of every printing-platform purchase.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The university service schedule separately prices preflight/prepress preparation at USD xx.xx per hour, establishing a paid preparation activity rather than an automatic component of every printing-platform purchase.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Perfect binding is listed at USD xx.xx-xx.xx per book. The lower endpoint is the model's basic-binding comparator, not a measured worldwide realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Perfect binding is listed at USD xx.xx-xx.xx per book. The lower endpoint is the model's basic-binding comparator, not a measured worldwide realization.

17. How Much Does It Cost to Print a Book? - QinPrinting
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier's delivered xx.xx-page, xx.xx-copy color-book examples list USD xx.xx for softcover and USD xx.xx for hardcover. They provide a commercial-run countercheck, with delivery and product differences preventing direct substitution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier's delivered xx.xx-page, xx.xx-copy color-book examples list USD xx.xx for softcover and USD xx.xx for hardcover. They provide a commercial-run countercheck, with delivery and product differences preventing direct substitution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The smaller hardcover premium in this offset example qualifies extrapolation of the full POD hardcover increment into binding revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The smaller hardcover premium in this offset example qualifies extrapolation of the full POD hardcover increment into binding revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Comparable hardcover and softcover quotations constrain the assumed relative manufacturing realization after scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Comparable hardcover and softcover quotations constrain the assumed relative manufacturing realization after scope adjustments.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Softcover prices provide a commercial comparison, not a historical global average.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Softcover prices provide a commercial comparison, not a historical global average.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Board-book quotations constrain the assumed production receipt; delivery and duties require adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Board-book quotations constrain the assumed production receipt; delivery and duties require adjustment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Mechanical-binding quotations constrain the unit-receipt assumption, not incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Mechanical-binding quotations constrain the unit-receipt assumption, not incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Short-booklet quotations constrain the lower realization used for eligible saddle-stitched books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Short-booklet quotations constrain the lower realization used for eligible saddle-stitched books.
18. Book Wrap Mailers / Book Boxes - Packaging ONE
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer lists MP2 book mailers at GBP xx.xx each for xx.xx packs of xx.xx excluding VAT. The converted unit price supplies the packaging-creation value proxy, not a global average or a historical quote.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer lists MP2 book mailers at GBP xx.xx each for xx.xx packs of xx.xx excluding VAT. The converted unit price supplies the packaging-creation value proxy, not a global average or a historical quote.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The enclosure price forms the other side of the creation-versus-packing ratio. One comparable enclosure per packing unit is an explicit activity-matching assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The enclosure price forms the other side of the creation-versus-packing ratio. One comparable enclosure per packing unit is an explicit activity-matching assumption.

19. Foreign Exchange Rates - G.5A Annual, January 5, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 annual average is USD xx.xx per GBP. It converts the GBP packaging comparator into the common monetary basis used in the starting allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 annual average is USD xx.xx per GBP. It converts the GBP packaging comparator into the common monetary basis used in the starting allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same conversion supports the common-currency packaging/packing denominator inherited by the forecast; no 2032 exchange rate is asserted.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same conversion supports the common-currency packaging/packing denominator inherited by the forecast; no 2032 exchange rate is asserted.
20. Optional Book Publishing Services - InstantPublisher
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider lists layout/typesetting at USD xx.xx per page with a USD xx.xx minimum. This supports the preparation-spending feasibility check, with purchase incidence and copies per job remaining assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider lists layout/typesetting at USD xx.xx per page with a USD xx.xx minimum. This supports the preparation-spending feasibility check, with purchase incidence and copies per job remaining assumptions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Individual shrink-wrapping is listed at USD xx.xx each plus USD xx.xx setup. Amortizing setup over an assumed xx.xx copies gives the USD xx.xx packing comparator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Individual shrink-wrapping is listed at USD xx.xx each plus USD xx.xx setup. Amortizing setup over an assumed xx.xx copies gives the USD xx.xx packing comparator.
21. How Does Merchant Pricing Work for Ecommerce Stores? - Lulu Direct
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2026 merchant-pricing explanation identifies a USD xx.xx fulfillment fee and separates merchant retail receipts from payments for supplier production, shipping and taxes. The fee is a contemporary feasibility comparator, not verified 2025 penetration or a future charge.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2026 merchant-pricing explanation identifies a USD xx.xx fulfillment fee and separates merchant retail receipts from payments for supplier production, shipping and taxes. The fee is a contemporary feasibility comparator, not verified 2025 penetration or a future charge.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Merchant retail receipts are separate from payments for printing and fulfillment. The current page lists a USD xx.xx fulfillment fee, with shipping and taxes separately calculated. This supports the service-value boundary, not a historical average fee or global order volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Merchant retail receipts are separate from payments for printing and fulfillment. The current page lists a USD xx.xx fulfillment fee, with shipping and taxes separately calculated. This supports the service-value boundary, not a historical average fee or global order volume.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lulu identifies separate retail and production/fulfillment transactions and a USD xx.xx fulfillment fee. This supports excluding merchant retail margins from production-service value and avoiding automatic procurement-channel classification from the storefront.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lulu identifies separate retail and production/fulfillment transactions and a USD xx.xx fulfillment fee. This supports excluding merchant retail margins from production-service value and avoiding automatic procurement-channel classification from the storefront.

22. AAP December 2025 StatShot Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The primary monthly reporting panel's full-year 2025 trade figures show paperback revenue down xx.xx%. This qualifies broad physical-book growth assumptions and supplies directional mix evidence only.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The primary monthly reporting panel's full-year 2025 trade figures show paperback revenue down xx.xx%. This qualifies broad physical-book growth assumptions and supplies directional mix evidence only.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same approximately xx.xx-publisher panel shows hardcover revenue up xx.xx%. It supports a modest premium-mix hypothesis but neither measures global binding spending nor proves the forecast.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same approximately xx.xx-publisher panel shows hardcover revenue up xx.xx%. It supports a modest premium-mix hypothesis but neither measures global binding spending nor proves the forecast.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct-participant 2025 hardback revenue of approximately USD xx.xx anchors the adjusted conventional-format model; it is not printing revenue or a global share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct-participant 2025 hardback revenue of approximately USD xx.xx anchors the adjusted conventional-format model; it is not printing revenue or a global share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported paperback revenue of approximately USD xx.xx plus USD xx.xx mass-market revenue supplies the comparison input. Reported annual movements qualify the forecast starting mix, not its future persistence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported paperback revenue of approximately USD xx.xx plus USD xx.xx mass-market revenue supplies the comparison input. Reported annual movements qualify the forecast starting mix, not its future persistence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct publisher-sample religious and trade physical-format receipts provide a category-intensity proxy, subject to explicit geographic and coverage adjustments.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct publisher-sample religious and trade physical-format receipts provide a category-intensity proxy, subject to explicit geographic and coverage adjustments.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported professional-book receipts and their 2025 decline challenge assumptions of automatic growth from recurring reference relationships.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported professional-book receipts and their 2025 decline challenge assumptions of automatic growth from recurring reference relationships.

23. Print and Associated Services Framework - Lot 1 Buyer Guide: Framework Objectives
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The public purchasing framework separately specifies production-management advice. It establishes a purchased responsibility but not a global fee rate or permission to count subcontract pass-through as retained revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The public purchasing framework separately specifies production-management advice. It establishes a purchased responsibility but not a global fee rate or permission to count subcontract pass-through as retained revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The framework also specifies finished-goods stock holding and call-off, with required holding costs included in the print-job price. This supports allocating embedded production-linked fulfillment rather than restricting the category to standalone invoices.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The framework also specifies finished-goods stock holding and call-off, with required holding costs included in the print-job price. This supports allocating embedded production-linked fulfillment rather than restricting the category to standalone invoices.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Finished goods may be held for call-off, with storage included in the print job where required. This supports consolidated releases as a production-linked arrangement without assuming every release is an individual order.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Finished goods may be held for call-off, with storage included in the print job where required. This supports consolidated releases as a production-linked arrangement without assuming every release is an individual order.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contractors maintain designated distribution lists, deliver to nominated addresses and receive job-specific copy allocations, supporting the modeled list-delivery category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contractors maintain designated distribution lists, deliver to nominated addresses and receive job-specific copy allocations, supporting the modeled list-delivery category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The coexistence of stock holding, call-off and distribution-list obligations supports separating production trigger from fulfillment responsibility; call-off alone does not establish transaction-level fulfillment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The coexistence of stock holding, call-off and distribution-list obligations supports separating production trigger from fulfillment responsibility; call-off alone does not establish transaction-level fulfillment.

24. Frequently Asked Questions - IngramSpark
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: IngramSpark states that it does not provide editing, typesetting or design services. This counterexample prevents treating all platform manufacturing commissions as purchases of professional preparation services.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: IngramSpark states that it does not provide editing, typesetting or design services. This counterexample prevents treating all platform manufacturing commissions as purchases of professional preparation services.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider permits nonexclusive sourcing when the customer owns its ISBN and does not offer editing, typesetting or design. These terms constrain the author service boundary, not adoption or revenue growth.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider permits nonexclusive sourcing when the customer owns its ISBN and does not offer editing, typesetting or design. These terms constrain the author service boundary, not adoption or revenue growth.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: IngramSpark permits nonexclusive use of other printers, distributors and fulfillment providers when publishers own their ISBN. This establishes an alternative-sourcing option, not observed switching or a numerical channel allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: IngramSpark permits nonexclusive use of other printers, distributors and fulfillment providers when publishers own their ISBN. This establishes an alternative-sourcing option, not observed switching or a numerical channel allocation.
25. Packaging Printing & Production - Imago Group
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier identifies book slipcases, clamshell cases, tray-and-lid constructions and multicomponent publisher packaging. This supports the enclosure-production boundary and the limitation of a simple mailer-price proxy; it does not supply sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier identifies book slipcases, clamshell cases, tray-and-lid constructions and multicomponent publisher packaging. This supports the enclosure-production boundary and the limitation of a simple mailer-price proxy; it does not supply sales weights.
26. Services - Bridgeport National Bindery
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The short-run book-production portfolio separately lists shrink-wrapping and set packing. It establishes commercial packing activity distinct from enclosure manufacture and binding, without measuring its revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The short-run book-production portfolio separately lists shrink-wrapping and set packing. It establishes commercial packing activity distinct from enclosure manufacture and binding, without measuring its revenue.
27. Terms and Conditions - CPI Print Germany
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published terms distinguish ex-works production prices from packaging, freight and postage and reserve specified input-cost adjustment rights. They support comparable-scope valuation but do not establish realized inflation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published terms distinguish ex-works production prices from packaging, freight and postage and reserve specified input-cost adjustment rights. They support comparable-scope valuation but do not establish realized inflation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate treatment of forwarding and storage responsibilities supports the eligible production-linked service boundary; contractual rights do not prove the assumed future fee-growth rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate treatment of forwarding and storage responsibilities supports the eligible production-linked service boundary; contractual rights do not prove the assumed future fee-growth rate.

28. ONIX Codelists Issue 75 - List 150: Product Form
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BB identifies hardback/cased books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BB identifies hardback/cased books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BC identifies paperback/softback books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BC identifies paperback/softback books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BH distinguishes board-page books from conventional books with rigid covers.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BH distinguishes board-page books from conventional books with rigid covers.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BE groups spiral, comb and coil forms.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BE groups spiral, comb and coil forms.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BD identifies loose-leaf books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BD identifies loose-leaf books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BF includes stapled short books; nonbook uses are excluded from the model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BF includes stapled short books; nonbook uses are excluded from the model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BL recognizes slide-bound books without measuring current sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BL recognizes slide-bound books without measuring current sales.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BO recognizes continuous concertina-fold books; nonbook charts are excluded.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BO recognizes continuous concertina-fold books; nonbook charts are excluded.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BI identifies textile-page books, not cloth-covered paper books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BI identifies textile-page books, not cloth-covered paper books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BJ identifies waterproof bath-book forms.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BJ identifies waterproof bath-book forms.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BP identifies foam-page and foam-cover books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BP identifies foam-page and foam-cover books.

29. Thomson Reuters - Fourth-Quarter and Full-Year 2025 Results
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Global Print revenue and contraction constrain professional-print scale and substitution direction; content receipts are not treated as loose-leaf service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Global Print revenue and contraction constrain professional-print scale and substitution direction; content receipts are not treated as loose-leaf service revenue.
30. Lulu - Discontinuing Saddle Stitch in Global Distribution
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provider-specific wholesale distribution restrictions establish a channel constraint, not a global sales weight or measured forecast decline.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provider-specific wholesale distribution restrictions establish a channel constraint, not a global sales weight or measured forecast decline.
31. MAGACOPY Sofia - Copying and Printing Prices
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A current EUR xx.xx binding-only charge establishes a live commercial service and a price-scope comparison; full-book USD receipts and incidence remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A current EUR xx.xx binding-only charge establishes a live commercial service and a price-scope comparison; full-book USD receipts and incidence remain assumed.
32. Imago Group - Spotlight on Children's Books for National Young Readers Week
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's children's portfolio supports board-book commercial classification, not order volumes.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's children's portfolio supports board-book commercial classification, not order volumes.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cloth-book offerings support the textile-page category premise, not its modeled incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cloth-book offerings support the textile-page category premise, not its modeled incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bath-book offerings support a separate commercial category; sales and service receipts are undisclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bath-book offerings support a separate commercial category; sales and service receipts are undisclosed.
33. Pegasus - My First Book of Shapes: EVA Foam Book
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The dated 2025 product identifies foam pages and supports commercial-status and classification checks, not global volume or supplier realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated 2025 product identifies foam pages and supports commercial-status and classification checks, not global volume or supplier realization.

34. U.S. Consumer Product Safety Commission - Children's Books
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Product classification and intended audience affect commercial compliance accountability; no numerical surcharge is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Product classification and intended audience affect commercial compliance accountability; no numerical surcharge is inferred.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The exemption boundary supports separate classification rather than assumed conventional-book treatment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The exemption boundary supports separate classification rather than assumed conventional-book treatment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Compliance classification is retained as an uncertainty, not an exclusion or measured price premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Compliance classification is retained as an uncertainty, not an exclusion or measured price premium.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specialty construction does not itself establish ordinary-book exemption eligibility or market inactivity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specialty construction does not itself establish ordinary-book exemption eligibility or market inactivity.
35. Puget Bindery - Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider identifies training manuals and reference guides as mechanical-binding applications, supporting the commissioning premise without measuring sales incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider identifies training manuals and reference guides as mechanical-binding applications, supporting the commissioning premise without measuring sales incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists commercial letterpress book plates and specialty inserts, supporting a component-service model rather than attribution of the entire book price.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists commercial letterpress book plates and specialty inserts, supporting a component-service model rather than attribution of the entire book price.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The bindery identifies commercial printers, publishers and corporate print buyers as customers and excludes direct-to-consumer sales. This supports trade-purchasing attribution but supplies no sales percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The bindery identifies commercial printers, publishers and corporate print buyers as customers and excludes direct-to-consumer sales. This supports trade-purchasing attribution but supplies no sales percentage.

36. ONIX Codelists Issue 75 - List 80: Product Packaging Type
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates single-item and multivolume slipcases; supplies classification, not sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates single-item and multivolume slipcases; supplies classification, not sales weights.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes lidded boxes from slipcase-style boxed sets.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes lidded boxes from slipcase-style boxed sets.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-ended wraparound sleeves are distinct from enclosed wrapping.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-ended wraparound sleeves are distinct from enclosed wrapping.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes envelope-like slip-sleeves and wallets or folders.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes envelope-like slip-sleeves and wallets or folders.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes pouch and bag packaging independently.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes pouch and bag packaging independently.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately recognizes shrink-wrapped products and bundles.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately recognizes shrink-wrapped products and bundles.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Defines formed-plastic clamshells and card-backed blister packaging as distinct constructions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Defines formed-plastic clamshells and card-backed blister packaging as distinct constructions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Explicitly recognizes book browse-prevention closures.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Explicitly recognizes book browse-prevention closures.

37. U.S. Government Publishing Office - Program 827-S: Federal Aviation Administration Books, Contract Pricing and Specifications

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Historical evaluation quantities provide a container-heavy institutional purchasing counterexample, not global shipment shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Historical evaluation quantities provide a container-heavy institutional purchasing counterexample, not global shipment shares.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies kraft-envelope packing within the book procurement.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies kraft-envelope packing within the book procurement.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies cushioned shipping bags as an eligible book-order enclosure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies cushioned shipping bags as an eligible book-order enclosure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Includes wrapped shipping bundles as an alternative purchasing configuration.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Includes wrapped shipping bundles as an alternative purchasing configuration.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Requires packing and filler separately from the external enclosure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Requires packing and filler separately from the external enclosure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies closure tape and securing straps independently of container construction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies closure tape and securing straps independently of container construction.

38. U.S. Government Publishing Office - Print Order Form 2511 Instructions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specifies paper-banded sets separately from shrink-wrapped sets.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specifies paper-banded sets separately from shrink-wrapped sets.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes shrink-wrapped units nested within cartons, supporting component attribution.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes shrink-wrapped units nested within cartons, supporting component attribution.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes internal packaging, container quantities and pallet requirements.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes internal packaging, container quantities and pallet requirements.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The instructions distinguish nominated delivery addresses and warehouse receiving arrangements, supporting the receiving-point attribution premise, not an observed consolidated market share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The instructions distinguish nominated delivery addresses and warehouse receiving arrangements, supporting the receiving-point attribution premise, not an observed consolidated market share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supplemental distribution lists accommodate multiple destinations, supporting the distinction between preallocated destination delivery and a single receiving-point handoff.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supplemental distribution lists accommodate multiple destinations, supporting the distinction between preallocated destination delivery and a single receiving-point handoff.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: GPO specifies black interior inks separately from cover inks, supporting the monochrome classification and underlying-book attribution premise, not its modeled sales weight. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GPO specifies black interior inks separately from cover inks, supporting the monochrome classification and underlying-book attribution premise, not its modeled sales weight. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Designated Pantone specifications are recognized for interior inks, supporting a separate spot-color commercial category without measuring its share. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Designated Pantone specifications are recognized for interior inks, supporting a separate spot-color commercial category without measuring its share. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Four-color process is identified as full color for interior pages; cover color is separately specified. This supports classification at both modeled anchors. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Four-color process is identified as full color for interior pages; cover color is separately specified. This supports classification at both modeled anchors. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))

39. GPOExpress Program Pricing Guide - November 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx hand folding provides a handling-cost comparison; the complete band realization remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx hand folding provides a handling-cost comparison; the complete band realization remains modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx per shrink wrap anchors a small-run comparison, not the assumed global realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx per shrink wrap anchors a small-run comparison, not the assumed global realization.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx auxiliary insertion supplies a handling-price comparison, not protective-material sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx auxiliary insertion supplies a handling-price comparison, not protective-material sales.
40. Hardcover Book Protection: Dust Jackets or Slipcases?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-product EXW slipcase prices of USD xx.xx, USD xx.xx and USD xx.xx at xx.xx xx.xx and xx.xx units constrain relative realizations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-product EXW slipcase prices of USD xx.xx, USD xx.xx and USD xx.xx at xx.xx xx.xx and xx.xx units constrain relative realizations.
41. Book Printing Cost in China: How Printing Prices Are Calculated
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately USD xx.xx per export carton including basic packing materials constrains the bulk-package budget; the container allocation is modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately USD xx.xx per export carton including basic packing materials constrains the bulk-package budget; the container allocation is modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its cushioning split is assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its cushioning split is assumed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its closure split is assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its closure split is assumed.
42. Make Believe Ideas - Independent Retail Catalog 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 catalog identifies activity books with cover-mounted blisters, establishing book-specific participation but not packaging revenue or volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 catalog identifies activity books with cover-mounted blisters, establishing book-specific participation but not packaging revenue or volume.
43. Bookmobile - Request Book Printing Quotes the Right Way to Save Money
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The printer's bookstore-oriented purchasing guidance cautions against universal shrink-wrap attachment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The printer's bookstore-oriented purchasing guidance cautions against universal shrink-wrap attachment.

44. Digital Book Printing - Bookmobile
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current book-production portfolio separately offers poly bags, supporting commercial category participation rather than a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current book-production portfolio separately offers poly bags, supporting commercial category participation rather than a sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current portfolio offers shrink-wrap independently of other finishing options.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current portfolio offers shrink-wrap independently of other finishing options.
45. Sell Books on Shopify - Lulu
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The offered storefront-to-print-and-ship route supports an accessible production-linked parcel channel, not assumed demand.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct fulfillment availability supports the parcel-use scenario without establishing envelope mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct fulfillment availability supports the parcel-use scenario without establishing bag mix.
46. European Commission - New EU Rules on Packaging Enter into Application
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional packaging minimization supports a directional right-sizing premise, not a measured global box-price effect.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Waste-reduction requirements inform the bounded substitution scenario; they do not quantify band adoption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional circularity requirements inform lower lightweight-bag exposure without implying a global book-bag ban.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Material substitution remains partly internal to the combined film-and-paper category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional recyclability pressure informs the niche substitution scenario, not an observed blister-sales decline.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Empty-space reduction provides a directional premise for lower cushioning allowance per individual box.
47. Digital Printing - U.S. Government Publishing Office
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Procurement examples allow offset or digital alternatives while restricting some digital variants, supporting an acceptance- and run-mix model rather than a universal quality ranking. This is a modeling premise, not an observed process share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Procurement examples allow offset or digital alternatives while restricting some digital variants, supporting an acceptance- and run-mix model rather than a universal quality ranking. This is a modeling premise, not an observed process share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The purchasing guidance supports conditional digital substitution, not unrestricted interchangeability or an observed forecast allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The purchasing guidance supports conditional digital substitution, not unrestricted interchangeability or an observed forecast allocation.

48. Clays demonstrate dedication to digital investment
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx books annually and xx.xx books of digital capacity in an older investment statement; this constrains scale but is not a 2025 realized output mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx books annually and xx.xx books of digital capacity in an older investment statement; this constrains scale but is not a 2025 realized output mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's inkjet investment supports an existing book-production application and a conditional adoption premise, not a quantified global forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's inkjet investment supports an existing book-production application and a conditional adoption premise, not a quantified global forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The capacity/output comparison is a limited commercial check on continued conventional book production, not a direct offset revenue observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The capacity/output comparison is a limited commercial check on continued conventional book production, not a direct offset revenue observation.
49. ISO/TC 130 - Guidelines for Using Print Production Standards, Version 1.0, 2019
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes packaging use cases and printing processes, supporting allocation of gravure to book-associated components rather than the full value of a book.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes packaging use cases and printing processes, supporting allocation of gravure to book-associated components rather than the full value of a book.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies flexographic packaging applications; the book-specific spending budget and process coefficients remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies flexographic packaging applications; the book-specific spending budget and process coefficients remain modeled.
50. Premium Layflat Photo Books - PhotobookShop
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Offers bound silver-halide photographic books and distinguishes them from digitally printed alternatives, supporting the model's separate photographic category rather than an observed sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Offers bound silver-halide photographic books and distinguishes them from digitally printed alternatives, supporting the model's separate photographic category rather than an observed sales weight.
51. The Cormac McCarthy Collection - The Folio Society
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents screen-printed cloth covers on physical book editions, supporting component-level commercial attribution. It does not measure supplier component receipts or global uptake.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents screen-printed cloth covers on physical book editions, supporting component-level commercial attribution. It does not measure supplier component receipts or global uptake.

52. Risograph Digital Duplicator Order Form, 2026 - Minneapolis College of Art and Design
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2026 institutional form recognizes Risograph book/booklet orders but excludes assembly. It supports a limited application boundary, not 2025 external commercial volume; internal institutional charges are excluded from the numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2026 institutional form recognizes Risograph book/booklet orders but excludes assembly. It supports a limited application boundary, not 2025 external commercial volume; internal institutional charges are excluded from the numerator.
53. American Printing House - 2024 Annual Report
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal 2024 product sales were USD xx.xx; braille publications represented xx.xx% of product sales; xx.xx braille volumes were produced. These inputs constrain an adjusted production-realization proxy, not a global market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The decline from xx.xx braille volumes in 2022 qualifies a uniform physical-demand growth assumption and informs the slower relative forecast activity weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2024 product sales were USD xx.xx; braille publications represented xx.xx% of product sales; xx.xx braille volumes were produced. These inputs constrain an adjusted production-realization proxy, not a global market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The decline from xx.xx braille volumes in 2022 qualifies a uniform physical-demand growth assumption and informs the slower relative forecast activity weight.
54. Kodak Moments Kiosk - Kodak Alaris
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises book-capable retail kiosk equipment and a photographic-printing portfolio. Used only as a commercial-route premise for the thermal working estimate, not as evidence of thermal book-service sales, utilization or the final share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises book-capable retail kiosk equipment and a photographic-printing portfolio. Used only as a commercial-route premise for the thermal working estimate, not as evidence of thermal book-service sales, utilization or the final share.
55. 二〇二一年全国新闻出版业基本情况
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official 2021 aggregate textbook output distinguishes school, tertiary and vocational/adult activity; historical volumes require value and global-scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official 2021 aggregate textbook output distinguishes school, tertiary and vocational/adult activity; historical volumes require value and global-scope adjustments.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Secondary, primary and teaching-book aggregate sheet counts form the school activity weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Secondary, primary and teaching-book aggregate sheet counts form the school activity weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Tertiary textbook aggregate output supplies the higher-education activity input before an assumed relative-service-value adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Tertiary textbook aggregate output supplies the higher-education activity input before an assumed relative-service-value adjustment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Vocational, adult and literacy textbook output supplies the corresponding historical activity input.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Vocational, adult and literacy textbook output supplies the corresponding historical activity input.

56. Music, printed or in manuscript imports by country, 2024 - World Integrated Trade Solution
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official HS xx.xx import observations constrain the music-publication value bridge; domestic supply, physical-book eligibility and the printing-service fraction remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official HS xx.xx import observations constrain the music-publication value bridge; domestic supply, physical-book eligibility and the printing-service fraction remain modeled.
57. Bloomsbury Publishing - 2024/25 Results Presentation
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate Academic & Professional print, digital and rights/service receipts demonstrate the required physical-revenue boundary; company mix is not treated as global market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate Academic & Professional print, digital and rights/service receipts demonstrate the required physical-revenue boundary; company mix is not treated as global market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed physical academic publishing activity supports commercial applicability but does not verify the assumed global research/reference ratio.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed physical academic publishing activity supports commercial applicability but does not verify the assumed global research/reference ratio.
58. HDSB - RFSQ 26-013: Yearbook Software and Printing Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The qualification notice establishes a commissioned yearbook scope including printing, binding and school delivery; it supplies no awarded value and is not used as a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The qualification notice establishes a commissioned yearbook scope including printing, binding and school delivery; it supplies no awarded value and is not used as a sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The yearbook qualification notice restricts supply to prequalified vendors while permitting school bulk orders and individual ordering. It supports separating commissioning authority from ultimate payment, but discloses no fulfilled-order value.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The yearbook qualification notice restricts supply to prequalified vendors while permitting school bulk orders and individual ordering. It supports separating commissioning authority from ultimate payment, but discloses no fulfilled-order value.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The individual-ordering option establishes an attribution uncertainty relevant to the modeled household portion; it does not establish the assumed xx.xx% proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The individual-ordering option establishes an attribution uncertainty relevant to the modeled household portion; it does not establish the assumed xx.xx% proportion.

59. U.S. Census Bureau - 2022 Economic Census, Books Printing Questionnaire MC-32312
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official printing questionnaire supports the distinction between textbook and general-book production; recognition is not treated as a revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official printing questionnaire supports the distinction between textbook and general-book production; recognition is not treated as a revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognized coloring-book output supports treating recreational activity commissions separately from institutional textbooks according to purpose.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognized coloring-book output supports treating recreational activity commissions separately from institutional textbooks according to purpose.
60. Press Information Bureau - Department of School Education & Literacy, Year End Review 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The government review describes substantial NCERT physical-textbook activity, independently qualifying the physical-availability premise without establishing attributable supplier revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The government review describes substantial NCERT physical-textbook activity, independently qualifying the physical-availability premise without establishing attributable supplier revenue.
61. 2022 North American Industry Classification System - United States
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dedicated book-publishing activity is separated from institutional primary activities and printing without publishing, constraining the Publishing Organizations numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dedicated book-publishing activity is separated from institutional primary activities and printing without publishing, constraining the Publishing Organizations numerator.
62. U.S. Census Bureau - Books Printing: 2002
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Table xx.xx reports 2002 U.S. books-printing contract-work costs of USD xx.xx and shipments of USD xx.xx. Their ratio supplies a dated manufacturing-subcontract proxy, held constant within the forecast component.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Table xx.xx reports 2002 U.S. books-printing contract-work costs of USD xx.xx and shipments of USD xx.xx. Their ratio supplies a dated manufacturing-subcontract proxy, held constant within the forecast component.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical subcontract-cost input constrains the modeled transfer from publisher-origin commissioning to performing suppliers, without adding another gross contract value.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical subcontract-cost input constrains the modeled transfer from publisher-origin commissioning to performing suppliers, without adding another gross contract value.
63. Samfine Creation Holdings Group Limited - Form 20-F for the year ended December 31, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports USD xx.xx of 2025 book-product revenue and principally serves book traders that secure printing contracts and outsource production. This is a supplier-specific quantitative role check, not a Global allocation weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports USD xx.xx of 2025 book-product revenue and principally serves book traders that secure printing contracts and outsource production. This is a supplier-specific quantitative role check, not a Global allocation weight.

64. Ministry of Education - NCERT and Amazon Letter of Engagement, October 7, 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2024 announcement targeted xx.xx NCERT books for academic 2025-xx.xx. This is a planned institutional activity anchor; realization, eligible receipts and subsequent growth are modeled separately.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2024 announcement targeted xx.xx NCERT books for academic 2025-xx.xx. This is a planned institutional activity anchor; realization, eligible receipts and subsequent growth are modeled separately.
65. Bangladesh e-GP - NCTB/TEXTBOOK/2025, Package GD.102_SEC_8.031
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The government-funded procurement plan specifies xx.xx academic-2025 textbook copies and an estimated BDT xx.xx for printing, binding and supply. It constrains commercial order scale and local unit-budget plausibility, not realized annual revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The government-funded procurement plan specifies xx.xx academic-2025 textbook copies and an estimated BDT xx.xx for printing, binding and supply. It constrains commercial order scale and local unit-budget plausibility, not realized annual revenue.
66. Students suffer as NCTB fails to deliver books - The Daily Star, January 17, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 report corroborates the dated approximately xx.xx-copy textbook target and early-year delivery disruption. Target realization and supplier receipts remain modeled.
67. Secondary-level students: A new year without full set of books for many - The Daily Star, December 28, 2025
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 report corroborates the approximately xx.xx-copy academic-2026 target and continued delivery slippage. It informs a normalization assumption, not an observed 2032 share.
68. Business Books - Print Professional, Custom Corporate Books | Blurb
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The business-book offering includes organizational presentation and corporate-gift applications. It establishes an in-scope commissioning proposition, not the modeled global copy quantity or spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The business-book offering includes organizational presentation and corporate-gift applications. It establishes an in-scope commissioning proposition, not the modeled global copy quantity or spending.
69. How to Use Lulu to Support Your Nonprofit | Lulu
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform permits an organization or charity to receive creator proceeds. This supports excluding beneficiary-only arrangements from nonprofit commissioning; it does not measure nonprofit printing purchases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform permits an organization or charity to receive creator proceeds. This supports excluding beneficiary-only arrangements from nonprofit commissioning; it does not measure nonprofit printing purchases.

70. News Corp - Form 10-K for the fiscal year ended June 30, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal 2025 consumer backlist revenue of xx.xx% and digital revenue of xx.xx% anchor the assumed physical-backlist bridge and its forecast starting model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2025 consumer backlist revenue of xx.xx% and digital revenue of xx.xx% anchor the assumed physical-backlist bridge and its forecast starting model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed backlist mix constrains recurring-title demand; its division into replenishment and POD remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed backlist mix constrains recurring-title demand; its division into replenishment and POD remains modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The complementary frontlist population supports the launch-stock cohort after physical-format adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The complementary frontlist population supports the launch-stock cohort after physical-format adjustments.
71. News Corp - Form 10-K for the fiscal year ended June 30, 2026
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2026 backlist revenue of xx.xx% and digital revenue of xx.xx% lower the forecast physical-backlist proxy instead of assuming continued backlist expansion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The updated catalog mix changes the forecast population available for repeat inventory releases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The updated frontlist/backlist bridge changes the forecast planned-production weight; no 2032 share is disclosed.
72. How Do Lulu Direct Orders Work?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lulu describes printing after customer purchase and distinguishes production from subsequent shipment, supporting recipient-order attribution rather than technology-based classification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lulu describes printing after customer purchase and distinguishes production from subsequent shipment, supporting recipient-order attribution rather than technology-based classification.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: No minimum order and one-copy ordering establish commercial feasibility, not the number or value of single-copy releases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No minimum order and one-copy ordering establish commercial feasibility, not the number or value of single-copy releases.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: One POD offering accepts hundreds of copies, independently challenging a POD-equals-single-copy allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One POD offering accepts hundreds of copies, independently challenging a POD-equals-single-copy allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Orders can extend into thousands within the same offering; the production trigger therefore does not uniquely identify the working run band.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Orders can extend into thousands within the same offering; the production trigger therefore does not uniquely identify the working run band.

73. Supply Chain - Clays
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Clays describes differentiated backlist arrangements and stock visibility, supporting a separate inventory-replenishment cohort without establishing its numerical prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Clays describes differentiated backlist arrangements and stock visibility, supporting a separate inventory-replenishment cohort without establishing its numerical prevalence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: New-title consolidation and predictable annual backlist demand support retaining planned inventory commitments; short-run printing is explicitly not necessarily POD.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: New-title consolidation and predictable annual backlist demand support retaining planned inventory commitments; short-run printing is explicitly not necessarily POD.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Clays explicitly distinguishes short-run work from POD, supporting category separation rather than a technological proxy for value share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Clays explicitly distinguishes short-run work from POD, supporting category separation rather than a technological proxy for value share.
74. Smart Backlist Management: When to Hold and When to Print-on-Demand
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheridan describes low-volume titles moving to POD while other titles retain inventory, supporting differentiated release-policy assumptions rather than a uniform backlist-to-POD conversion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheridan describes low-volume titles moving to POD while other titles retain inventory, supporting differentiated release-policy assumptions rather than a uniform backlist-to-POD conversion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A disclosed customer example uses a stock threshold to trigger a 2,000-copy replenishment order. It establishes the commercial mechanism, not a market-wide share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A disclosed customer example uses a stock threshold to trigger a 2,000-copy replenishment order. It establishes the commercial mechanism, not a market-wide share.

75. Shortage of NCERT textbooks - Rajya Sabha Unstarred Question No. 1941, December 17, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advance enrollment-based forecasting, academic-session readiness and a fiscal 2025-xx.xx plan for approximately xx.xx textbooks support a substantial calendar-driven stock cohort. The target is not realized production.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advance enrollment-based forecasting, academic-session readiness and a fiscal 2025-xx.xx plan for approximately xx.xx textbooks support a substantial calendar-driven stock cohort. The target is not realized production.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phased supply and inventory monitoring support distinguishing ongoing availability obligations from individual-recipient POD, without quantifying replenishment's global prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phased supply and inventory monitoring support distinguishing ongoing availability obligations from individual-recipient POD, without quantifying replenishment's global prevalence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official answer distinguishes printer empanelment from approximately xx.xx distribution vendors and describes planned fiscal 2025-xx.xx printing of approximately xx.xx textbooks. It supports commissioning-versus-distribution separation, not a realized monetary channel split.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official answer distinguishes printer empanelment from approximately xx.xx distribution vendors and describes planned fiscal 2025-xx.xx printing of approximately xx.xx textbooks. It supports commissioning-versus-distribution separation, not a realized monetary channel split.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phased textbook supply supports treating annual institutional quantities separately from production batches; it does not disclose the medium-run allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phased textbook supply supports treating annual institutional quantities separately from production batches; it does not disclose the medium-run allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 answer identifies a xx.xx-million-copy FY2025-xx.xx printing decision versus approximately xx.xx in recent years, a counterforce to assuming rapid long-run disappearance. Planned copies are not realized service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 answer identifies a xx.xx-million-copy FY2025-xx.xx printing decision versus approximately xx.xx in recent years, a counterforce to assuming rapid long-run disappearance. Planned copies are not realized service revenue.
76. Fulfillment Fee - Lulu Direct
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2026 schedule lists USD xx.xx per order regardless of item count, supporting an order-frequency effect on associated-service value. It does not verify the assumed historical or forecast multiplier.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2026 schedule lists USD xx.xx per order regardless of item count, supporting an order-frequency effect on associated-service value. It does not verify the assumed historical or forecast multiplier.

77. InnerWorkings, Inc. - Form 10-K for the year ended December 31, 2019
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2019 filing reports USD xx.xx gross profit on USD xx.xx revenue and describes purchased-product and direct-service costs. Historical reported margins constrain the modeled xx.xx% retained-fee ratio; they do not directly measure book-channel share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2019 filing reports USD xx.xx gross profit on USD xx.xx revenue and describes purchased-product and direct-service costs. Historical reported margins constrain the modeled xx.xx% retained-fee ratio; they do not directly measure book-channel share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The procurement-service margin comparison supports the fee-to-managed-spending bridge underlying the direct-channel complement. Carrying the normalized ratio into 2032 is explicitly a forecast assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The procurement-service margin comparison supports the fee-to-managed-spending bridge underlying the direct-channel complement. Carrying the normalized ratio into 2032 is explicitly a forecast assumption.
78. Simplified Purchase Agreement - U.S. Government Publishing Office
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SPA permits agency awards directly to certified vendors for purchases up to USD xx.xx while GPO pays vendors and invoices agencies. This supports classifying by the contracting relationship rather than the invoice payer, not a numerical global weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SPA permits agency awards directly to certified vendors for purchases up to USD xx.xx while GPO pays vendors and invoices agencies. This supports classifying by the contracting relationship rather than the invoice payer, not a numerical global weight.
79. Global Print Services | China, Europe, SE Asia, USA & India
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Imago describes sourcing suppliers and coordinating multiple manufacturers for book-related projects. Its cumulative customer relationships establish the offered intermediary role but are not annual revenue or allocation weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Imago describes sourcing suppliers and coordinating multiple manufacturers for book-related projects. Its cumulative customer relationships establish the offered intermediary role but are not annual revenue or allocation weights.
80. Lion Rock Group Limited - Annual Report 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-business 2025 turnover changes of minus xx.xx% for APOL and minus xx.xx% for Regent challenge uniform intermediary growth; Regent's non-book focus limits its relevance. These observations support avoiding an additional adoption uplift.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-business 2025 turnover changes of minus xx.xx% for APOL and minus xx.xx% for Regent challenge uniform intermediary growth; Regent's non-book focus limits its relevance. These observations support avoiding an additional adoption uplift.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Manufacturing turnover changes of minus xx.xx% at xx.xx Printing and plus xx.xx% at Papercraft demonstrate differing supplier trajectories rather than a simple common channel-growth pattern; these are not direct-contracting market shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Manufacturing turnover changes of minus xx.xx% at xx.xx Printing and plus xx.xx% at Papercraft demonstrate differing supplier trajectories rather than a simple common channel-growth pattern; these are not direct-contracting market shares.

81. Imprint Digital - Book Printing Prices UK

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected schedule quotes GBP xx.xx at xx.xx copies for one paperback specification, supporting a relative-price input, not a historical global realization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected schedule quotes GBP xx.xx at xx.xx copies for one paperback specification, supporting a relative-price input, not a historical global realization.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: GBP xx.xx at xx.xx copies supplies the medium-run reference index; format and delivery differences require separate treatment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GBP xx.xx at xx.xx copies supplies the medium-run reference index; format and delivery differences require separate treatment.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The quantity-price curve anchors the reference from which the long-run discount is assumed; no long-run price or future share is disclosed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The quantity-price curve anchors the reference from which the long-run discount is assumed; no long-run price or future share is disclosed.

82. Print Options

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: KDP distinguishes black-and-white from color records and locks ink type after publication. These platform-specific conditions qualify switching assumptions, not market weights. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: KDP distinguishes black-and-white from color records and locks ink type after publication. These platform-specific conditions qualify switching assumptions, not market weights. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The displayed platform menu does not establish designated spot-color availability or sales; a general color option is not used as evidence of spot-color demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The displayed platform menu does not establish designated spot-color availability or sales; a general color option is not used as evidence of spot-color demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Standard color is unavailable for hardcover, but premium color is available. Both process-color tiers belong within the modeled Full-Color Interiors category. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Standard color is unavailable for hardcover, but premium color is available. Both process-color tiers belong within the modeled Full-Color Interiors category. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))

83. Synthèse des chiffres de l'édition jeunesse 2024-2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The primary French publishing survey reports a xx.xx% decline in illustrated early-childhood volumes and a xx.xx% decline in youth-fiction volumes in 2024. These differing outcomes challenge an aggressive universal color-growth assumption. ([sne.fr](https://www.sne.fr/actu/synthese-des-chiffres-de-ledition-jeunesse-2024-2025/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The primary French publishing survey reports a xx.xx% decline in illustrated early-childhood volumes and a xx.xx% decline in youth-fiction volumes in 2024. These differing outcomes challenge an aggressive universal color-growth assumption. ([sne.fr](https://www.sne.fr/actu/synthese-des-chiffres-de-ledition-jeunesse-2024-2025/))

Sources & Evidence

1. European Book Publishing Statistics 2024
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: European publishers reported approximately EUR xx.xx of net book-sales revenue in 2024. The disclosed ebook and audiobook proportions inform the modeled xx.xx% physical-book revenue proportion; publisher revenue is an input, not printing-service revenue.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 publisher-revenue and format observations provide the European demand input carried into the 2025 estimate.

2. The Global Publishing Industry in 2022

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Table xx.xx supplies country-level publishing revenues and identifies differences between retail-value, publisher-revenue, print-only and prior-year observations. Selected non-European country observations are adjusted for physical formats and period before estimating production spending.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The selected country observations contribute to the demand pool underlying the 2025 working estimate. Nielsen retail datasets elsewhere in the publication are not used.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Primary survey sector differences constrain the education-adjusted hardcover proxy.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Primary survey sector differences constrain the education-adjusted hardcover proxy.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Educational/trade differences qualify extrapolation of U.S. consumer-format revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Educational/trade differences qualify extrapolation of U.S. consumer-format revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx of surveyed children's publishing revenue anchors the modeled specialty demand pool, not supplier receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx of surveyed children's publishing revenue anchors the modeled specialty demand pool, not supplier receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sector data constrain the commissioning-pool proxy; mechanical incidence remains assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sector data constrain the commissioning-pool proxy; mechanical incidence remains assumed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Educational demand supplies a common economic anchor; loose-leaf incidence remains modeled.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Educational demand supplies a common economic anchor; loose-leaf incidence remains modeled.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sector observations constrain the educational short-book commissioning pool.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sector observations constrain the educational short-book commissioning pool.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The commissioning-pool anchor supports an explicit sparse-format incidence model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The commissioning-pool anchor supports an explicit sparse-format incidence model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors the accordion working estimate, not observed accordion orders.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors the accordion working estimate, not observed accordion orders.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed textile-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed textile-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed bath-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed bath-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed foam-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed foam-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original publishing survey documents country-level trade/education revenue differences used to constrain the modeled physical-publishing mix; it does not directly measure service shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original publishing survey documents country-level trade/education revenue differences used to constrain the modeled physical-publishing mix; it does not directly measure service shares.

3. 2024 年新闻出版统计公报

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: For 2024, the official table reports xx.xx book copies or sheets and CNY xx.xx of book-publishing revenue. These constrain the demand bridge and historical contraction, rather than directly measuring printing-service sales.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 book-publishing observation supplies the Chinese demand primitive for the 2025 model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official 2024 output of xx.xx copies/sheets constrains total modeled publisher activity; it does not disclose single-copy production.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official 2024 output of xx.xx copies/sheets constrains total modeled publisher activity; it does not disclose single-copy production.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Aggregate copies and annual title output constrain the shared activity model, not an observed short-run share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Aggregate copies and annual title output constrain the shared activity model, not an observed short-run share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Aggregate production provides a scale check for the medium-run assumption; annual copies per title are not individual batches.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Aggregate production provides a scale check for the medium-run assumption; annual copies per title are not individual batches.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx annual copies per title constrain the long-run scenario without proving its batch mix or forecast.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx annual copies per title constrain the long-run scenario without proving its batch mix or forecast.

4. Foreign Exchange Rates - G.5A Annual, January 5, 2026

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: The official 2024 annual-average conversion inputs are USD xx.xx per EUR, CNY xx.xx per USD and CAD xx.xx per USD.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The exchange-rate table establishes the conversion basis of the preceding-year demand inputs used in the 2025 estimate; subsequent effective-USD price assumptions are modeled separately.

5. Book publishing industry, 2024 - Statistics Canada
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Canadian publishers reported CAD xx.xx of print sales outside the online category and CAD xx.xx of online print sales in 2024. Their sum, rather than total operating revenue, supplies the physical-book demand input.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: Reported cost of goods sold of CAD xx.xx, up CAD xx.xx from 2022, supplies a cost-pressure cross-check, not a directly attributable printing-services total.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Canadian online versus other print-sales values constrain parcel exposure, with explicit value-to-unit and geographic limitations.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Canadian online versus other print-sales values constrain parcel exposure, with explicit value-to-unit and geographic limitations.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed envelope purchases.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed envelope purchases.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed bag purchases.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed bag purchases.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Modest observed online-print growth qualifies aggressive parcel-related wrapping assumptions.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Modest observed online-print growth qualifies aggressive parcel-related wrapping assumptions.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring separate protection.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring separate protection.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring closures.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring closures.
6. U.S. Census Bureau - Books Printing: Shipments, annual table
   - Evidence informing the 2017 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2017; this is a national production anchor for the historical model.
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2018.
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2019.
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2020.
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2021.
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2022.
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2024. This national industrial measure is narrower than the composite global service boundary.

7. U.S. Census Bureau - Book Publishers, All Establishments: Revenue, annual table
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: The Census annual series reports USD xx.xx of U.S. book-publisher revenue for 2024. A modeled xx.xx% physical-book proportion excludes digital and other adjacent receipts.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 Census observation replaces an older survey-based U.S. revenue bridge in the demand pool underlying 2025.

8. Scholastic Corporation - Form 10-K for the year ended May 31, 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Scholastic's fiscal 2024 product, service, production and inventory-reserve costs were xx.xx% of revenue; postage, freight, shipping, fulfillment and other costs were xx.xx%. These broad categories constrain, but do not directly establish, eligible outsourced-service spending.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The corresponding fiscal 2025 proportions were xx.xx% and xx.xx%. Royalties and prepublication amortization are separately disclosed, allowing their exclusion from the service-market bridge.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 product, service, production and inventory-reserve costs were xx.xx% of revenue. The broader cost category constrains the manufacturing spending boundary but does not directly disclose printing-service revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 product, service, production and inventory-reserve costs were xx.xx% of revenue. The broader cost category constrains the manufacturing spending boundary but does not directly disclose printing-service revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Prepublication amortization is disclosed separately from production costs, supporting exclusion of adjacent amortization rather than equating it with externally purchased prepress.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Prepublication amortization is disclosed separately from production costs, supporting exclusion of adjacent amortization rather than equating it with externally purchased prepress.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Postage, freight, shipping, fulfillment and other costs were xx.xx% of revenue in fiscal 2025 versus xx.xx% in fiscal 2024. This is a broad buyer-cost check, not an eligible outsourced-fulfillment share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Postage, freight, shipping, fulfillment and other costs were xx.xx% of revenue in fiscal 2025 versus xx.xx% in fiscal 2024. This is a broad buyer-cost check, not an eligible outsourced-fulfillment share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Outsourced manufacturing coexists with company-operated distribution. Fiscal-2025 production-related costs were xx.xx% of revenue, constraining the inherited spending bridge rather than directly measuring the assumed route fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Outsourced manufacturing coexists with company-operated distribution. Fiscal-2025 production-related costs were xx.xx% of revenue, constraining the inherited spending bridge rather than directly measuring the assumed route fraction.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Book-club revenue was xx.xx% online-ordered and xx.xx% parent-ordered, while products typically went to classrooms. This challenges the use of online sales as a proxy for the external contractor's delivery model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Book-club revenue was xx.xx% online-ordered and xx.xx% parent-ordered, while products typically went to classrooms. This challenges the use of online sales as a proxy for the external contractor's delivery model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct printer-to-customer fulfillment is a disclosed option. Broader logistics/other costs were xx.xx% of revenue versus xx.xx% previously, providing a cost-boundary check but no global order-level share or service-price growth observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct printer-to-customer fulfillment is a disclosed option. Broader logistics/other costs were xx.xx% of revenue versus xx.xx% previously, providing a cost-boundary check but no global order-level share or service-price growth observation.

9. CEWE achieves all targets in 2025 and aims to further increase revenue and earnings in 2026

- Evidence informing the 2025 market-value input; displayed series and growth include calculations: CEWE reported xx.xx CEWE PHOTOBOOK copies in 2025 versus xx.xx in 2024, supporting a positive specialty-book volume assumption without establishing global adoption.
- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Observed 2025 photobook growth informs the specialty-demand assumption for 2026; the market value remains modeled.
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The observed specialty-book activity is a starting condition for the forecast, not independent proof of continued growth through 2032.
- Evidence informing the 2040 market-value input; displayed series and growth include calculations: The forecast explicitly slows specialty-demand growth after 2032; this source supplies the initial commercial observation, not the long-term growth rate.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: CEWE reports xx.xx photobooks in 2025 compared with xx.xx in 2024. This independently establishes specialty-book activity underlying the nonpublisher model, without establishing a global expansion factor.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CEWE reports xx.xx photobooks in 2025 compared with xx.xx in 2024. This independently establishes specialty-book activity underlying the nonpublisher model, without establishing a global expansion factor.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports retaining premium specialty commissions in the manufacturing mix; the binding allocation and unchanged future cohort profile remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports retaining premium specialty commissions in the manufacturing mix; the binding allocation and unchanged future cohort profile remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported photobook volumes constrain personal-book activity and the nonpublisher starting condition, not hardcover prevalence or future share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported photobook volumes constrain personal-book activity and the nonpublisher starting condition, not hardcover prevalence or future share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Photobook activity supports the separate personal-book commissioning block; its softcover fraction remains assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Photobook activity supports the separate personal-book commissioning block; its softcover fraction remains assumed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported photobook copies rose from xx.xx to xx.xx; the narrower 2026 target qualifies strong specialty-growth assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported photobook copies rose from xx.xx to xx.xx; the narrower 2026 target qualifies strong specialty-growth assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specialty-book activity constrains the presentation-demand scenario but does not measure gift-box attachment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specialty-book activity constrains the presentation-demand scenario but does not measure gift-box attachment.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CEWE PHOTOBOOK units in 2025 versus xx.xx in 2024, constraining the specialty-book demand budget without establishing a global process split.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CEWE PHOTOBOOK units in 2025 versus xx.xx in 2024, constraining the specialty-book demand budget without establishing a global process split.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports the common photographic-demand input; electrophotographic attribution remains an explicit assumption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports the common photographic-demand input; electrophotographic attribution remains an explicit assumption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The photobook

10. Paperback Printing Cost - Kindle Direct Publishing

- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The inspected U.S. paperback schedule charges USD xx.xx plus USD xx.xx per page for the specified regular-trim black-ink category. It provides a contemporary commercial price comparison for the assumed USD xx.xx self-publishing production receipt, not an observed historical price or volume.
- Evidence informing the 2026 market-value input; displayed series and growth include calculations: The schedule distinguishes printing charges from royalties and retail list prices, supporting the production-receipt boundary used in the estimate.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule uses USD xx.xx plus USD xx.xx per page for the relevant page band, yielding the USD xx.xx representative manufacturing comparator. It anchors relative weights, not an observed global 2025 price or future share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule uses USD xx.xx plus USD xx.xx per page for the relevant page band, yielding the USD xx.xx representative manufacturing comparator. It anchors relative weights, not an observed global 2025 price or future share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The paperback manufacturing comparator supplies the baseline from which the modeled binding component and hardcover increment are separated.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The paperback manufacturing comparator supplies the baseline from which the modeled binding component and hardcover increment are separated.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The separately identified paperback printing charge constrains the self-publishing production-receipt model and its distinction from retail proceeds.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The separately identified paperback printing charge constrains the self-publishing production-receipt model and its distinction from retail proceeds.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page. It is a contemporary production-charge comparison for the modeled USD xx.xx receipt, not an observed historical Global average.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page. It is a contemporary production-charge comparison for the modeled USD xx.xx receipt, not an observed historical Global average.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The relevant current U.S. paperback printing schedule is USD xx.xx plus USD xx.xx per page, giving USD xx.xx at xx.xx pages. This is a commercial price comparison for creator-production receipts, not proof of 2025 realization, volume or fulfillment mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The relevant current U.S. paperback printing schedule is USD xx.xx plus USD xx.xx per page, giving USD xx.xx at xx.xx pages. This is a commercial price comparison for creator-production receipts, not proof of 2025 realization, volume or fulfillment mix.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule of USD xx.xx plus USD xx.xx per page gives USD xx.xx at xx.xx pages, a magnitude check for modeled single-copy receipts. It establishes neither global volume nor historical or forecast share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule of USD xx.xx plus USD xx.xx per page gives USD xx.xx at xx.xx pages, a magnitude check for modeled single-copy receipts. It establishes neither global volume nor historical or forecast share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page, yielding USD xx.xx for xx.xx pages. This is a contemporary price comparator, not a historical global average. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834340))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page, yielding USD xx.xx for xx.xx pages. This is a contemporary price comparator, not a historical global average. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834340))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The comparable standard and premium color charges calculate to USD xx.xx and USD xx.xx. They constrain relative

11. European Book Publishing Statistics 2017

- Evidence informing the 2017 market-value input; displayed series and growth include calculations: The association's primary survey reports approximately EUR xx.xx of European net publisher revenue for 2017, constraining the pre-pandemic demand level.

12. European Book Publishing Statistics 2019

- Evidence informing the 2018 market-value input; displayed series and growth include calculations: The association reports approximately EUR xx.xx of publisher revenue for 2018.
- Evidence informing the 2019 market-value input; displayed series and growth include calculations: The association reports approximately EUR xx.xx for 2019 and identifies a questionnaire change that limits exact comparability with earlier observations.

13. 2021 年新闻出版产业分析报告

- Evidence informing the 2020 market-value input; displayed series and growth include calculations: The official report's 2021 comparison identifies a substantial rebound from 2020, constraining the pandemic-recovery bridge.
- Evidence informing the 2021 market-value input; displayed series and growth include calculations: China reported xx.xx book copies or sheets in 2021, up xx.xx%; the report also distinguishes textbook output and reprints.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: China's official 2021 textbook share was xx.xx% of book copies. It supplies an older educational-activity proxy, not a monochrome share.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: China's official 2021 textbook share was xx.xx% of book copies. It supplies an older educational-activity proxy, not a monochrome share.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The textbook copy proportion constrains educational exposure; comparable monetary intensity and spot-color incidence are modeled separately.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The textbook copy proportion constrains educational exposure; comparable monetary intensity and spot-color incidence are modeled separately.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational-activity observation contributes to the shared demand proxy carried into the full-color base and forecast models; no color split is reported.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational-activity observation contributes to the shared demand proxy carried into the full-color base and forecast models; no color split is reported.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))

14. European Book Publishing Statistics 2023

- Evidence informing the 2022 market-value input; displayed series and growth include calculations: European net publisher revenue was approximately EUR xx.xx in 2022; the association describes paper-cost pressure and price-led growth.

15. Hardcover Printing Cost - Kindle Direct Publishing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim hardcover schedule uses USD xx.xx plus USD xx.xx per page in the relevant band. Comparison with paperback charges constrains the premium-equivalent manufacturing model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim hardcover schedule uses USD xx.xx plus USD xx.xx per page in the relevant band. Comparison with paperback charges constrains the premium-equivalent manufacturing model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD xx.xx fixed-charge difference supplies the POD premium input; the xx.xx% commercial-run realization and premium incidence are explicitly modeled rather than disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD xx.xx fixed-charge difference supplies the POD premium input; the xx.xx% commercial-run realization and premium incidence are explicitly modeled rather than disclosed.
16. User Fees - University of Wisconsin-Milwaukee Print & Copy Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The university service schedule separately prices preflight/prepress preparation at USD xx.xx per hour, establishing a paid preparation activity rather than an automatic component of every printing-platform purchase.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The university service schedule separately prices preflight/prepress preparation at USD xx.xx per hour, establishing a paid preparation activity rather than an automatic component of every printing-platform purchase.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Perfect binding is listed at USD xx.xx-xx.xx per book. The lower endpoint is the model's basic-binding comparator, not a measured worldwide realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Perfect binding is listed at USD xx.xx-xx.xx per book. The lower endpoint is the model's basic-binding comparator, not a measured worldwide realization.

17. How Much Does It Cost to Print a Book? - QinPrinting
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier's delivered xx.xx-page, xx.xx-copy color-book examples list USD xx.xx for softcover and USD xx.xx for hardcover. They provide a commercial-run countercheck, with delivery and product differences preventing direct substitution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier's delivered xx.xx-page, xx.xx-copy color-book examples list USD xx.xx for softcover and USD xx.xx for hardcover. They provide a commercial-run countercheck, with delivery and product differences preventing direct substitution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The smaller hardcover premium in this offset example qualifies extrapolation of the full POD hardcover increment into binding revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The smaller hardcover premium in this offset example qualifies extrapolation of the full POD hardcover increment into binding revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Comparable hardcover and softcover quotations constrain the assumed relative manufacturing realization after scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Comparable hardcover and softcover quotations constrain the assumed relative manufacturing realization after scope adjustments.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Softcover prices provide a commercial comparison, not a historical global average.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Softcover prices provide a commercial comparison, not a historical global average.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Board-book quotations constrain the assumed production receipt; delivery and duties require adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Board-book quotations constrain the assumed production receipt; delivery and duties require adjustment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Mechanical-binding quotations constrain the unit-receipt assumption, not incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Mechanical-binding quotations constrain the unit-receipt assumption, not incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Short-booklet quotations constrain the lower realization used for eligible saddle-stitched books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Short-booklet quotations constrain the lower realization used for eligible saddle-stitched books.
18. Book Wrap Mailers / Book Boxes - Packaging ONE
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer lists MP2 book mailers at GBP xx.xx each for xx.xx packs of xx.xx excluding VAT. The converted unit price supplies the packaging-creation value proxy, not a global average or a historical quote.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer lists MP2 book mailers at GBP xx.xx each for xx.xx packs of xx.xx excluding VAT. The converted unit price supplies the packaging-creation value proxy, not a global average or a historical quote.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The enclosure price forms the other side of the creation-versus-packing ratio. One comparable enclosure per packing unit is an explicit activity-matching assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The enclosure price forms the other side of the creation-versus-packing ratio. One comparable enclosure per packing unit is an explicit activity-matching assumption.

19. Foreign Exchange Rates - G.5A Annual, January 5, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 annual average is USD xx.xx per GBP. It converts the GBP packaging comparator into the common monetary basis used in the starting allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 annual average is USD xx.xx per GBP. It converts the GBP packaging comparator into the common monetary basis used in the starting allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same conversion supports the common-currency packaging/packing denominator inherited by the forecast; no 2032 exchange rate is asserted.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same conversion supports the common-currency packaging/packing denominator inherited by the forecast; no 2032 exchange rate is asserted.
20. Optional Book Publishing Services - InstantPublisher
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider lists layout/typesetting at USD xx.xx per page with a USD xx.xx minimum. This supports the preparation-spending feasibility check, with purchase incidence and copies per job remaining assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider lists layout/typesetting at USD xx.xx per page with a USD xx.xx minimum. This supports the preparation-spending feasibility check, with purchase incidence and copies per job remaining assumptions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Individual shrink-wrapping is listed at USD xx.xx each plus USD xx.xx setup. Amortizing setup over an assumed xx.xx copies gives the USD xx.xx packing comparator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Individual shrink-wrapping is listed at USD xx.xx each plus USD xx.xx setup. Amortizing setup over an assumed xx.xx copies gives the USD xx.xx packing comparator.
21. How Does Merchant Pricing Work for Ecommerce Stores? - Lulu Direct
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2026 merchant-pricing explanation identifies a USD xx.xx fulfillment fee and separates merchant retail receipts from payments for supplier production, shipping and taxes. The fee is a contemporary feasibility comparator, not verified 2025 penetration or a future charge.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2026 merchant-pricing explanation identifies a USD xx.xx fulfillment fee and separates merchant retail receipts from payments for supplier production, shipping and taxes. The fee is a contemporary feasibility comparator, not verified 2025 penetration or a future charge.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Merchant retail receipts are separate from payments for printing and fulfillment. The current page lists a USD xx.xx fulfillment fee, with shipping and taxes separately calculated. This supports the service-value boundary, not a historical average fee or global order volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Merchant retail receipts are separate from payments for printing and fulfillment. The current page lists a USD xx.xx fulfillment fee, with shipping and taxes separately calculated. This supports the service-value boundary, not a historical average fee or global order volume.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lulu identifies separate retail and production/fulfillment transactions and a USD xx.xx fulfillment fee. This supports excluding merchant retail margins from production-service value and avoiding automatic procurement-channel classification from the storefront.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lulu identifies separate retail and production/fulfillment transactions and a USD xx.xx fulfillment fee. This supports excluding merchant retail margins from production-service value and avoiding automatic procurement-channel classification from the storefront.

22. AAP December 2025 StatShot Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The primary monthly reporting panel's full-year 2025 trade figures show paperback revenue down xx.xx%. This qualifies broad physical-book growth assumptions and supplies directional mix evidence only.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The primary monthly reporting panel's full-year 2025 trade figures show paperback revenue down xx.xx%. This qualifies broad physical-book growth assumptions and supplies directional mix evidence only.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same approximately xx.xx-publisher panel shows hardcover revenue up xx.xx%. It supports a modest premium-mix hypothesis but neither measures global binding spending nor proves the forecast.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same approximately xx.xx-publisher panel shows hardcover revenue up xx.xx%. It supports a modest premium-mix hypothesis but neither measures global binding spending nor proves the forecast.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct-participant 2025 hardback revenue of approximately USD xx.xx anchors the adjusted conventional-format model; it is not printing revenue or a global share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct-participant 2025 hardback revenue of approximately USD xx.xx anchors the adjusted conventional-format model; it is not printing revenue or a global share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported paperback revenue of approximately USD xx.xx plus USD xx.xx mass-market revenue supplies the comparison input. Reported annual movements qualify the forecast starting mix, not its future persistence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported paperback revenue of approximately USD xx.xx plus USD xx.xx mass-market revenue supplies the comparison input. Reported annual movements qualify the forecast starting mix, not its future persistence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct publisher-sample religious and trade physical-format receipts provide a category-intensity proxy, subject to explicit geographic and coverage adjustments.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct publisher-sample religious and trade physical-format receipts provide a category-intensity proxy, subject to explicit geographic and coverage adjustments.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported professional-book receipts and their 2025 decline challenge assumptions of automatic growth from recurring reference relationships.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported professional-book receipts and their 2025 decline challenge assumptions of automatic growth from recurring reference relationships.

23. Print and Associated Services Framework - Lot 1 Buyer Guide: Framework Objectives
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The public purchasing framework separately specifies production-management advice. It establishes a purchased responsibility but not a global fee rate or permission to count subcontract pass-through as retained revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The public purchasing framework separately specifies production-management advice. It establishes a purchased responsibility but not a global fee rate or permission to count subcontract pass-through as retained revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The framework also specifies finished-goods stock holding and call-off, with required holding costs included in the print-job price. This supports allocating embedded production-linked fulfillment rather than restricting the category to standalone invoices.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The framework also specifies finished-goods stock holding and call-off, with required holding costs included in the print-job price. This supports allocating embedded production-linked fulfillment rather than restricting the category to standalone invoices.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Finished goods may be held for call-off, with storage included in the print job where required. This supports consolidated releases as a production-linked arrangement without assuming every release is an individual order.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Finished goods may be held for call-off, with storage included in the print job where required. This supports consolidated releases as a production-linked arrangement without assuming every release is an individual order.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contractors maintain designated distribution lists, deliver to nominated addresses and receive job-specific copy allocations, supporting the modeled list-delivery category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contractors maintain designated distribution lists, deliver to nominated addresses and receive job-specific copy allocations, supporting the modeled list-delivery category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The coexistence of stock holding, call-off and distribution-list obligations supports separating production trigger from fulfillment responsibility; call-off alone does not establish transaction-level fulfillment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The coexistence of stock holding, call-off and distribution-list obligations supports separating production trigger from fulfillment responsibility; call-off alone does not establish transaction-level fulfillment.

24. Frequently Asked Questions - IngramSpark
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: IngramSpark states that it does not provide editing, typesetting or design services. This counterexample prevents treating all platform manufacturing commissions as purchases of professional preparation services.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: IngramSpark states that it does not provide editing, typesetting or design services. This counterexample prevents treating all platform manufacturing commissions as purchases of professional preparation services.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider permits nonexclusive sourcing when the customer owns its ISBN and does not offer editing, typesetting or design. These terms constrain the author service boundary, not adoption or revenue growth.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider permits nonexclusive sourcing when the customer owns its ISBN and does not offer editing, typesetting or design. These terms constrain the author service boundary, not adoption or revenue growth.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: IngramSpark permits nonexclusive use of other printers, distributors and fulfillment providers when publishers own their ISBN. This establishes an alternative-sourcing option, not observed switching or a numerical channel allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: IngramSpark permits nonexclusive use of other printers, distributors and fulfillment providers when publishers own their ISBN. This establishes an alternative-sourcing option, not observed switching or a numerical channel allocation.
25. Packaging Printing & Production - Imago Group
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier identifies book slipcases, clamshell cases, tray-and-lid constructions and multicomponent publisher packaging. This supports the enclosure-production boundary and the limitation of a simple mailer-price proxy; it does not supply sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier identifies book slipcases, clamshell cases, tray-and-lid constructions and multicomponent publisher packaging. This supports the enclosure-production boundary and the limitation of a simple mailer-price proxy; it does not supply sales weights.
26. Services - Bridgeport National Bindery
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The short-run book-production portfolio separately lists shrink-wrapping and set packing. It establishes commercial packing activity distinct from enclosure manufacture and binding, without measuring its revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The short-run book-production portfolio separately lists shrink-wrapping and set packing. It establishes commercial packing activity distinct from enclosure manufacture and binding, without measuring its revenue.
27. Terms and Conditions - CPI Print Germany
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published terms distinguish ex-works production prices from packaging, freight and postage and reserve specified input-cost adjustment rights. They support comparable-scope valuation but do not establish realized inflation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published terms distinguish ex-works production prices from packaging, freight and postage and reserve specified input-cost adjustment rights. They support comparable-scope valuation but do not establish realized inflation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate treatment of forwarding and storage responsibilities supports the eligible production-linked service boundary; contractual rights do not prove the assumed future fee-growth rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate treatment of forwarding and storage responsibilities supports the eligible production-linked service boundary; contractual rights do not prove the assumed future fee-growth rate.

28. ONIX Codelists Issue 75 - List 150: Product Form
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BB identifies hardback/cased books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BB identifies hardback/cased books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BC identifies paperback/softback books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BC identifies paperback/softback books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BH distinguishes board-page books from conventional books with rigid covers.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BH distinguishes board-page books from conventional books with rigid covers.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BE groups spiral, comb and coil forms.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BE groups spiral, comb and coil forms.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BD identifies loose-leaf books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BD identifies loose-leaf books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BF includes stapled short books; nonbook uses are excluded from the model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BF includes stapled short books; nonbook uses are excluded from the model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BL recognizes slide-bound books without measuring current sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BL recognizes slide-bound books without measuring current sales.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BO recognizes continuous concertina-fold books; nonbook charts are excluded.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BO recognizes continuous concertina-fold books; nonbook charts are excluded.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BI identifies textile-page books, not cloth-covered paper books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BI identifies textile-page books, not cloth-covered paper books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BJ identifies waterproof bath-book forms.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BJ identifies waterproof bath-book forms.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BP identifies foam-page and foam-cover books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BP identifies foam-page and foam-cover books.

29. Thomson Reuters - Fourth-Quarter and Full-Year 2025 Results
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Global Print revenue and contraction constrain professional-print scale and substitution direction; content receipts are not treated as loose-leaf service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Global Print revenue and contraction constrain professional-print scale and substitution direction; content receipts are not treated as loose-leaf service revenue.
30. Lulu - Discontinuing Saddle Stitch in Global Distribution
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provider-specific wholesale distribution restrictions establish a channel constraint, not a global sales weight or measured forecast decline.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provider-specific wholesale distribution restrictions establish a channel constraint, not a global sales weight or measured forecast decline.
31. MAGACOPY Sofia - Copying and Printing Prices
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A current EUR xx.xx binding-only charge establishes a live commercial service and a price-scope comparison; full-book USD receipts and incidence remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A current EUR xx.xx binding-only charge establishes a live commercial service and a price-scope comparison; full-book USD receipts and incidence remain assumed.
32. Imago Group - Spotlight on Children's Books for National Young Readers Week
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's children's portfolio supports board-book commercial classification, not order volumes.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's children's portfolio supports board-book commercial classification, not order volumes.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cloth-book offerings support the textile-page category premise, not its modeled incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cloth-book offerings support the textile-page category premise, not its modeled incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bath-book offerings support a separate commercial category; sales and service receipts are undisclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bath-book offerings support a separate commercial category; sales and service receipts are undisclosed.
33. Pegasus - My First Book of Shapes: EVA Foam Book
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The dated 2025 product identifies foam pages and supports commercial-status and classification checks, not global volume or supplier realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated 2025 product identifies foam pages and supports commercial-status and classification checks, not global volume or supplier realization.

34. U.S. Consumer Product Safety Commission - Children's Books
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Product classification and intended audience affect commercial compliance accountability; no numerical surcharge is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Product classification and intended audience affect commercial compliance accountability; no numerical surcharge is inferred.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The exemption boundary supports separate classification rather than assumed conventional-book treatment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The exemption boundary supports separate classification rather than assumed conventional-book treatment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Compliance classification is retained as an uncertainty, not an exclusion or measured price premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Compliance classification is retained as an uncertainty, not an exclusion or measured price premium.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specialty construction does not itself establish ordinary-book exemption eligibility or market inactivity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specialty construction does not itself establish ordinary-book exemption eligibility or market inactivity.
35. Puget Bindery - Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider identifies training manuals and reference guides as mechanical-binding applications, supporting the commissioning premise without measuring sales incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider identifies training manuals and reference guides as mechanical-binding applications, supporting the commissioning premise without measuring sales incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists commercial letterpress book plates and specialty inserts, supporting a component-service model rather than attribution of the entire book price.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists commercial letterpress book plates and specialty inserts, supporting a component-service model rather than attribution of the entire book price.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The bindery identifies commercial printers, publishers and corporate print buyers as customers and excludes direct-to-consumer sales. This supports trade-purchasing attribution but supplies no sales percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The bindery identifies commercial printers, publishers and corporate print buyers as customers and excludes direct-to-consumer sales. This supports trade-purchasing attribution but supplies no sales percentage.

36. ONIX Codelists Issue 75 - List 80: Product Packaging Type
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates single-item and multivolume slipcases; supplies classification, not sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates single-item and multivolume slipcases; supplies classification, not sales weights.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes lidded boxes from slipcase-style boxed sets.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes lidded boxes from slipcase-style boxed sets.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-ended wraparound sleeves are distinct from enclosed wrapping.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-ended wraparound sleeves are distinct from enclosed wrapping.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes envelope-like slip-sleeves and wallets or folders.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes envelope-like slip-sleeves and wallets or folders.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes pouch and bag packaging independently.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes pouch and bag packaging independently.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately recognizes shrink-wrapped products and bundles.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately recognizes shrink-wrapped products and bundles.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Defines formed-plastic clamshells and card-backed blister packaging as distinct constructions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Defines formed-plastic clamshells and card-backed blister packaging as distinct constructions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Explicitly recognizes book browse-prevention closures.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Explicitly recognizes book browse-prevention closures.

37. U.S. Government Publishing Office - Program 827-S: Federal Aviation Administration Books, Contract Pricing and Specifications

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Historical evaluation quantities provide a container-heavy institutional purchasing counterexample, not global shipment shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Historical evaluation quantities provide a container-heavy institutional purchasing counterexample, not global shipment shares.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies kraft-envelope packing within the book procurement.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies kraft-envelope packing within the book procurement.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies cushioned shipping bags as an eligible book-order enclosure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies cushioned shipping bags as an eligible book-order enclosure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Includes wrapped shipping bundles as an alternative purchasing configuration.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Includes wrapped shipping bundles as an alternative purchasing configuration.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Requires packing and filler separately from the external enclosure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Requires packing and filler separately from the external enclosure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies closure tape and securing straps independently of container construction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies closure tape and securing straps independently of container construction.

38. U.S. Government Publishing Office - Print Order Form 2511 Instructions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specifies paper-banded sets separately from shrink-wrapped sets.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specifies paper-banded sets separately from shrink-wrapped sets.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes shrink-wrapped units nested within cartons, supporting component attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes shrink-wrapped units nested within cartons, supporting component attribution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes internal packaging, container quantities and pallet requirements.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes internal packaging, container quantities and pallet requirements.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The instructions distinguish nominated delivery addresses and warehouse receiving arrangements, supporting the receiving-point attribution premise, not an observed consolidated market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The instructions distinguish nominated delivery addresses and warehouse receiving arrangements, supporting the receiving-point attribution premise, not an observed consolidated market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supplemental distribution lists accommodate multiple destinations, supporting the distinction between preallocated destination delivery and a single receiving-point handoff.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supplemental distribution lists accommodate multiple destinations, supporting the distinction between preallocated destination delivery and a single receiving-point handoff.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: GPO specifies black interior inks separately from cover inks, supporting the monochrome classification and underlying-book attribution premise, not its modeled sales weight. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GPO specifies black interior inks separately from cover inks, supporting the monochrome classification and underlying-book attribution premise, not its modeled sales weight. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Designated Pantone specifications are recognized for interior inks, supporting a separate spot-color commercial category without measuring its share. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Designated Pantone specifications are recognized for interior inks, supporting a separate spot-color commercial category without measuring its share. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Four-color process is identified as full color for interior pages; cover color is separately specified. This supports classification at both modeled anchors. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Four-color process is identified as full color for interior pages; cover color is separately specified. This supports classification at both modeled anchors. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))

39. GPOExpress Program Pricing Guide - November 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx hand folding provides a handling-cost comparison; the complete band realization remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx hand folding provides a handling-cost comparison; the complete band realization remains modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx per shrink wrap anchors a small-run comparison, not the assumed global realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx per shrink wrap anchors a small-run comparison, not the assumed global realization.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx auxiliary insertion supplies a handling-price comparison, not protective-material sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx auxiliary insertion supplies a handling-price comparison, not protective-material sales.
40. Hardcover Book Protection: Dust Jackets or Slipcases?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-product EXW slipcase prices of USD xx.xx, USD xx.xx and USD xx.xx at xx.xx xx.xx and xx.xx units constrain relative realizations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-product EXW slipcase prices of USD xx.xx, USD xx.xx and USD xx.xx at xx.xx xx.xx and xx.xx units constrain relative realizations.
41. Book Printing Cost in China: How Printing Prices Are Calculated
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately USD xx.xx per export carton including basic packing materials constrains the bulk-package budget; the container allocation is modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately USD xx.xx per export carton including basic packing materials constrains the bulk-package budget; the container allocation is modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its cushioning split is assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its cushioning split is assumed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its closure split is assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its closure split is assumed.
42. Make Believe Ideas - Independent Retail Catalog 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 catalog identifies activity books with cover-mounted blisters, establishing book-specific participation but not packaging revenue or volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 catalog identifies activity books with cover-mounted blisters, establishing book-specific participation but not packaging revenue or volume.
43. Bookmobile - Request Book Printing Quotes the Right Way to Save Money
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The printer's bookstore-oriented purchasing guidance cautions against universal shrink-wrap attachment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The printer's bookstore-oriented purchasing guidance cautions against universal shrink-wrap attachment.

44. Digital Book Printing - Bookmobile
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current book-production portfolio separately offers poly bags, supporting commercial category participation rather than a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current book-production portfolio separately offers poly bags, supporting commercial category participation rather than a sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current portfolio offers shrink-wrap independently of other finishing options.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current portfolio offers shrink-wrap independently of other finishing options.
45. Sell Books on Shopify - Lulu
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The offered storefront-to-print-and-ship route supports an accessible production-linked parcel channel, not assumed demand.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct fulfillment availability supports the parcel-use scenario without establishing envelope mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct fulfillment availability supports the parcel-use scenario without establishing bag mix.
46. European Commission - New EU Rules on Packaging Enter into Application
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional packaging minimization supports a directional right-sizing premise, not a measured global box-price effect.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Waste-reduction requirements inform the bounded substitution scenario; they do not quantify band adoption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional circularity requirements inform lower lightweight-bag exposure without implying a global book-bag ban.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Material substitution remains partly internal to the combined film-and-paper category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional recyclability pressure informs the niche substitution scenario, not an observed blister-sales decline.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Empty-space reduction provides a directional premise for lower cushioning allowance per individual box.
47. Digital Printing - U.S. Government Publishing Office
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Procurement examples allow offset or digital alternatives while restricting some digital variants, supporting an acceptance- and run-mix model rather than a universal quality ranking. This is a modeling premise, not an observed process share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Procurement examples allow offset or digital alternatives while restricting some digital variants, supporting an acceptance- and run-mix model rather than a universal quality ranking. This is a modeling premise, not an observed process share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The purchasing guidance supports conditional digital substitution, not unrestricted interchangeability or an observed forecast allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The purchasing guidance supports conditional digital substitution, not unrestricted interchangeability or an observed forecast allocation.

48. Clays demonstrate dedication to digital investment
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx books annually and xx.xx books of digital capacity in an older investment statement; this constrains scale but is not a 2025 realized output mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx books annually and xx.xx books of digital capacity in an older investment statement; this constrains scale but is not a 2025 realized output mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's inkjet investment supports an existing book-production application and a conditional adoption premise, not a quantified global forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's inkjet investment supports an existing book-production application and a conditional adoption premise, not a quantified global forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The capacity/output comparison is a limited commercial check on continued conventional book production, not a direct offset revenue observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The capacity/output comparison is a limited commercial check on continued conventional book production, not a direct offset revenue observation.
49. ISO/TC 130 - Guidelines for Using Print Production Standards, Version 1.0, 2019
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes packaging use cases and printing processes, supporting allocation of gravure to book-associated components rather than the full value of a book.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes packaging use cases and printing processes, supporting allocation of gravure to book-associated components rather than the full value of a book.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies flexographic packaging applications; the book-specific spending budget and process coefficients remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies flexographic packaging applications; the book-specific spending budget and process coefficients remain modeled.
50. Premium Layflat Photo Books - PhotobookShop
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Offers bound silver-halide photographic books and distinguishes them from digitally printed alternatives, supporting the model's separate photographic category rather than an observed sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Offers bound silver-halide photographic books and distinguishes them from digitally printed alternatives, supporting the model's separate photographic category rather than an observed sales weight.
51. The Cormac McCarthy Collection - The Folio Society
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents screen-printed cloth covers on physical book editions, supporting component-level commercial attribution. It does not measure supplier component receipts or global uptake.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents screen-printed cloth covers on physical book editions, supporting component-level commercial attribution. It does not measure supplier component receipts or global uptake.

52. Risograph Digital Duplicator Order Form, 2026 - Minneapolis College of Art and Design
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2026 institutional form recognizes Risograph book/booklet orders but excludes assembly. It supports a limited application boundary, not 2025 external commercial volume; internal institutional charges are excluded from the numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2026 institutional form recognizes Risograph book/booklet orders but excludes assembly. It supports a limited application boundary, not 2025 external commercial volume; internal institutional charges are excluded from the numerator.
53. American Printing House - 2024 Annual Report
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal 2024 product sales were USD xx.xx; braille publications represented xx.xx% of product sales; xx.xx braille volumes were produced. These inputs constrain an adjusted production-realization proxy, not a global market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The decline from xx.xx braille volumes in 2022 qualifies a uniform physical-demand growth assumption and informs the slower relative forecast activity weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2024 product sales were USD xx.xx; braille publications represented xx.xx% of product sales; xx.xx braille volumes were produced. These inputs constrain an adjusted production-realization proxy, not a global market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The decline from xx.xx braille volumes in 2022 qualifies a uniform physical-demand growth assumption and informs the slower relative forecast activity weight.
54. Kodak Moments Kiosk - Kodak Alaris
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises book-capable retail kiosk equipment and a photographic-printing portfolio. Used only as a commercial-route premise for the thermal working estimate, not as evidence of thermal book-service sales, utilization or the final share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises book-capable retail kiosk equipment and a photographic-printing portfolio. Used only as a commercial-route premise for the thermal working estimate, not as evidence of thermal book-service sales, utilization or the final share.
55. 二〇二一年全国新闻出版业基本情况
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official 2021 aggregate textbook output distinguishes school, tertiary and vocational/adult activity; historical volumes require value and global-scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official 2021 aggregate textbook output distinguishes school, tertiary and vocational/adult activity; historical volumes require value and global-scope adjustments.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Secondary, primary and teaching-book aggregate sheet counts form the school activity weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Secondary, primary and teaching-book aggregate sheet counts form the school activity weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Tertiary textbook aggregate output supplies the higher-education activity input before an assumed relative-service-value adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Tertiary textbook aggregate output supplies the higher-education activity input before an assumed relative-service-value adjustment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Vocational, adult and literacy textbook output supplies the corresponding historical activity input.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Vocational, adult and literacy textbook output supplies the corresponding historical activity input.

56. Music, printed or in manuscript imports by country, 2024 - World Integrated Trade Solution
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official HS xx.xx import observations constrain the music-publication value bridge; domestic supply, physical-book eligibility and the printing-service fraction remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official HS xx.xx import observations constrain the music-publication value bridge; domestic supply, physical-book eligibility and the printing-service fraction remain modeled.
57. Bloomsbury Publishing - 2024/25 Results Presentation
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate Academic & Professional print, digital and rights/service receipts demonstrate the required physical-revenue boundary; company mix is not treated as global market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate Academic & Professional print, digital and rights/service receipts demonstrate the required physical-revenue boundary; company mix is not treated as global market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed physical academic publishing activity supports commercial applicability but does not verify the assumed global research/reference ratio.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed physical academic publishing activity supports commercial applicability but does not verify the assumed global research/reference ratio.
58. HDSB - RFSQ 26-013: Yearbook Software and Printing Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The qualification notice establishes a commissioned yearbook scope including printing, binding and school delivery; it supplies no awarded value and is not used as a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The qualification notice establishes a commissioned yearbook scope including printing, binding and school delivery; it supplies no awarded value and is not used as a sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The yearbook qualification notice restricts supply to prequalified vendors while permitting school bulk orders and individual ordering. It supports separating commissioning authority from ultimate payment, but discloses no fulfilled-order value.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The yearbook qualification notice restricts supply to prequalified vendors while permitting school bulk orders and individual ordering. It supports separating commissioning authority from ultimate payment, but discloses no fulfilled-order value.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The individual-ordering option establishes an attribution uncertainty relevant to the modeled household portion; it does not establish the assumed xx.xx% proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The individual-ordering option establishes an attribution uncertainty relevant to the modeled household portion; it does not establish the assumed xx.xx% proportion.

59. U.S. Census Bureau - 2022 Economic Census, Books Printing Questionnaire MC-32312
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official printing questionnaire supports the distinction between textbook and general-book production; recognition is not treated as a revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official printing questionnaire supports the distinction between textbook and general-book production; recognition is not treated as a revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognized coloring-book output supports treating recreational activity commissions separately from institutional textbooks according to purpose.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognized coloring-book output supports treating recreational activity commissions separately from institutional textbooks according to purpose.
60. Press Information Bureau - Department of School Education & Literacy, Year End Review 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The government review describes substantial NCERT physical-textbook activity, independently qualifying the physical-availability premise without establishing attributable supplier revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The government review describes substantial NCERT physical-textbook activity, independently qualifying the physical-availability premise without establishing attributable supplier revenue.
61. 2022 North American Industry Classification System - United States
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dedicated book-publishing activity is separated from institutional primary activities and printing without publishing, constraining the Publishing Organizations numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dedicated book-publishing activity is separated from institutional primary activities and printing without publishing, constraining the Publishing Organizations numerator.
62. U.S. Census Bureau - Books Printing: 2002
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Table xx.xx reports 2002 U.S. books-printing contract-work costs of USD xx.xx and shipments of USD xx.xx. Their ratio supplies a dated manufacturing-subcontract proxy, held constant within the forecast component.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Table xx.xx reports 2002 U.S. books-printing contract-work costs of USD xx.xx and shipments of USD xx.xx. Their ratio supplies a dated manufacturing-subcontract proxy, held constant within the forecast component.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical subcontract-cost input constrains the modeled transfer from publisher-origin commissioning to performing suppliers, without adding another gross contract value.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical subcontract-cost input constrains the modeled transfer from publisher-origin commissioning to performing suppliers, without adding another gross contract value.
63. Samfine Creation Holdings Group Limited - Form 20-F for the year ended December 31, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports USD xx.xx of 2025 book-product revenue and principally serves book traders that secure printing contracts and outsource production. This is a supplier-specific quantitative role check, not a Global allocation weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports USD xx.xx of 2025 book-product revenue and principally serves book traders that secure printing contracts and outsource production. This is a supplier-specific quantitative role check, not a Global allocation weight.

64. Ministry of Education - NCERT and Amazon Letter of Engagement, October 7, 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2024 announcement targeted xx.xx NCERT books for academic 2025-xx.xx. This is a planned institutional activity anchor; realization, eligible receipts and subsequent growth are modeled separately.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2024 announcement targeted xx.xx NCERT books for academic 2025-xx.xx. This is a planned institutional activity anchor; realization, eligible receipts and subsequent growth are modeled separately.
65. Bangladesh e-GP - NCTB/TEXTBOOK/2025, Package GD.102_SEC_8.031
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The government-funded procurement plan specifies xx.xx academic-2025 textbook copies and an estimated BDT xx.xx for printing, binding and supply. It constrains commercial order scale and local unit-budget plausibility, not realized annual revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The government-funded procurement plan specifies xx.xx academic-2025 textbook copies and an estimated BDT xx.xx for printing, binding and supply. It constrains commercial order scale and local unit-budget plausibility, not realized annual revenue.
66. Students suffer as NCTB fails to deliver books - The Daily Star, January 17, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 report corroborates the dated approximately xx.xx-copy textbook target and early-year delivery disruption. Target realization and supplier receipts remain modeled.
67. Secondary-level students: A new year without full set of books for many - The Daily Star, December 28, 2025
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 report corroborates the approximately xx.xx-copy academic-2026 target and continued delivery slippage. It informs a normalization assumption, not an observed 2032 share.
68. Business Books - Print Professional, Custom Corporate Books | Blurb
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The business-book offering includes organizational presentation and corporate-gift applications. It establishes an in-scope commissioning proposition, not the modeled global copy quantity or spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The business-book offering includes organizational presentation and corporate-gift applications. It establishes an in-scope commissioning proposition, not the modeled global copy quantity or spending.
69. How to Use Lulu to Support Your Nonprofit | Lulu
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform permits an organization or charity to receive creator proceeds. This supports excluding beneficiary-only arrangements from nonprofit commissioning; it does not measure nonprofit printing purchases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform permits an organization or charity to receive creator proceeds. This supports excluding beneficiary-only arrangements from nonprofit commissioning; it does not measure nonprofit printing purchases.

70. News Corp - Form 10-K for the fiscal year ended June 30, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal 2025 consumer backlist revenue of xx.xx% and digital revenue of xx.xx% anchor the assumed physical-backlist bridge and its forecast starting model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2025 consumer backlist revenue of xx.xx% and digital revenue of xx.xx% anchor the assumed physical-backlist bridge and its forecast starting model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed backlist mix constrains recurring-title demand; its division into replenishment and POD remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed backlist mix constrains recurring-title demand; its division into replenishment and POD remains modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The complementary frontlist population supports the launch-stock cohort after physical-format adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The complementary frontlist population supports the launch-stock cohort after physical-format adjustments.
71. News Corp - Form 10-K for the fiscal year ended June 30, 2026
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2026 backlist revenue of xx.xx% and digital revenue of xx.xx% lower the forecast physical-backlist proxy instead of assuming continued backlist expansion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The updated catalog mix changes the forecast population available for repeat inventory releases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The updated frontlist/backlist bridge changes the forecast planned-production weight; no 2032 share is disclosed.
72. How Do Lulu Direct Orders Work?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lulu describes printing after customer purchase and distinguishes production from subsequent shipment, supporting recipient-order attribution rather than technology-based classification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lulu describes printing after customer purchase and distinguishes production from subsequent shipment, supporting recipient-order attribution rather than technology-based classification.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: No minimum order and one-copy ordering establish commercial feasibility, not the number or value of single-copy releases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No minimum order and one-copy ordering establish commercial feasibility, not the number or value of single-copy releases.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: One POD offering accepts hundreds of copies, independently challenging a POD-equals-single-copy allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One POD offering accepts hundreds of copies, independently challenging a POD-equals-single-copy allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Orders can extend into thousands within the same offering; the production trigger therefore does not uniquely identify the working run band.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Orders can extend into thousands within the same offering; the production trigger therefore does not uniquely identify the working run band.

73. Supply Chain - Clays
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Clays describes differentiated backlist arrangements and stock visibility, supporting a separate inventory-replenishment cohort without establishing its numerical prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Clays describes differentiated backlist arrangements and stock visibility, supporting a separate inventory-replenishment cohort without establishing its numerical prevalence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: New-title consolidation and predictable annual backlist demand support retaining planned inventory commitments; short-run printing is explicitly not necessarily POD.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: New-title consolidation and predictable annual backlist demand support retaining planned inventory commitments; short-run printing is explicitly not necessarily POD.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Clays explicitly distinguishes short-run work from POD, supporting category separation rather than a technological proxy for value share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Clays explicitly distinguishes short-run work from POD, supporting category separation rather than a technological proxy for value share.
74. Smart Backlist Management: When to Hold and When to Print-on-Demand
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheridan describes low-volume titles moving to POD while other titles retain inventory, supporting differentiated release-policy assumptions rather than a uniform backlist-to-POD conversion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheridan describes low-volume titles moving to POD while other titles retain inventory, supporting differentiated release-policy assumptions rather than a uniform backlist-to-POD conversion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A disclosed customer example uses a stock threshold to trigger a 2,000-copy replenishment order. It establishes the commercial mechanism, not a market-wide share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A disclosed customer example uses a stock threshold to trigger a 2,000-copy replenishment order. It establishes the commercial mechanism, not a market-wide share.

75. Shortage of NCERT textbooks - Rajya Sabha Unstarred Question No. 1941, December 17, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advance enrollment-based forecasting, academic-session readiness and a fiscal 2025-xx.xx plan for approximately xx.xx textbooks support a substantial calendar-driven stock cohort. The target is not realized production.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advance enrollment-based forecasting, academic-session readiness and a fiscal 2025-xx.xx plan for approximately xx.xx textbooks support a substantial calendar-driven stock cohort. The target is not realized production.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phased supply and inventory monitoring support distinguishing ongoing availability obligations from individual-recipient POD, without quantifying replenishment's global prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phased supply and inventory monitoring support distinguishing ongoing availability obligations from individual-recipient POD, without quantifying replenishment's global prevalence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official answer distinguishes printer empanelment from approximately xx.xx distribution vendors and describes planned fiscal 2025-xx.xx printing of approximately xx.xx textbooks. It supports commissioning-versus-distribution separation, not a realized monetary channel split.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official answer distinguishes printer empanelment from approximately xx.xx distribution vendors and describes planned fiscal 2025-xx.xx printing of approximately xx.xx textbooks. It supports commissioning-versus-distribution separation, not a realized monetary channel split.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phased textbook supply supports treating annual institutional quantities separately from production batches; it does not disclose the medium-run allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phased textbook supply supports treating annual institutional quantities separately from production batches; it does not disclose the medium-run allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 answer identifies a xx.xx-million-copy FY2025-xx.xx printing decision versus approximately xx.xx in recent years, a counterforce to assuming rapid long-run disappearance. Planned copies are not realized service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 answer identifies a xx.xx-million-copy FY2025-xx.xx printing decision versus approximately xx.xx in recent years, a counterforce to assuming rapid long-run disappearance. Planned copies are not realized service revenue.
76. Fulfillment Fee - Lulu Direct
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2026 schedule lists USD xx.xx per order regardless of item count, supporting an order-frequency effect on associated-service value. It does not verify the assumed historical or forecast multiplier.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2026 schedule lists USD xx.xx per order regardless of item count, supporting an order-frequency effect on associated-service value. It does not verify the assumed historical or forecast multiplier.

77. InnerWorkings, Inc. - Form 10-K for the year ended December 31, 2019
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2019 filing reports USD xx.xx gross profit on USD xx.xx revenue and describes purchased-product and direct-service costs. Historical reported margins constrain the modeled xx.xx% retained-fee ratio; they do not directly measure book-channel share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2019 filing reports USD xx.xx gross profit on USD xx.xx revenue and describes purchased-product and direct-service costs. Historical reported margins constrain the modeled xx.xx% retained-fee ratio; they do not directly measure book-channel share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The procurement-service margin comparison supports the fee-to-managed-spending bridge underlying the direct-channel complement. Carrying the normalized ratio into 2032 is explicitly a forecast assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The procurement-service margin comparison supports the fee-to-managed-spending bridge underlying the direct-channel complement. Carrying the normalized ratio into 2032 is explicitly a forecast assumption.
78. Simplified Purchase Agreement - U.S. Government Publishing Office
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SPA permits agency awards directly to certified vendors for purchases up to USD xx.xx while GPO pays vendors and invoices agencies. This supports classifying by the contracting relationship rather than the invoice payer, not a numerical global weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SPA permits agency awards directly to certified vendors for purchases up to USD xx.xx while GPO pays vendors and invoices agencies. This supports classifying by the contracting relationship rather than the invoice payer, not a numerical global weight.
79. Global Print Services | China, Europe, SE Asia, USA & India
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Imago describes sourcing suppliers and coordinating multiple manufacturers for book-related projects. Its cumulative customer relationships establish the offered intermediary role but are not annual revenue or allocation weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Imago describes sourcing suppliers and coordinating multiple manufacturers for book-related projects. Its cumulative customer relationships establish the offered intermediary role but are not annual revenue or allocation weights.
80. Lion Rock Group Limited - Annual Report 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-business 2025 turnover changes of minus xx.xx% for APOL and minus xx.xx% for Regent challenge uniform intermediary growth; Regent's non-book focus limits its relevance. These observations support avoiding an additional adoption uplift.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-business 2025 turnover changes of minus xx.xx% for APOL and minus xx.xx% for Regent challenge uniform intermediary growth; Regent's non-book focus limits its relevance. These observations support avoiding an additional adoption uplift.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Manufacturing turnover changes of minus xx.xx% at xx.xx Printing and plus xx.xx% at Papercraft demonstrate differing supplier trajectories rather than a simple common channel-growth pattern; these are not direct-contracting market shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Manufacturing turnover changes of minus xx.xx% at xx.xx Printing and plus xx.xx% at Papercraft demonstrate differing supplier trajectories rather than a simple common channel-growth pattern; these are not direct-contracting market shares.

81. Imprint Digital - Book Printing Prices UK

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected schedule quotes GBP xx.xx at xx.xx copies for one paperback specification, supporting a relative-price input, not a historical global realization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected schedule quotes GBP xx.xx at xx.xx copies for one paperback specification, supporting a relative-price input, not a historical global realization.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: GBP xx.xx at xx.xx copies supplies the medium-run reference index; format and delivery differences require separate treatment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GBP xx.xx at xx.xx copies supplies the medium-run reference index; format and delivery differences require separate treatment.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The quantity-price curve anchors the reference from which the long-run discount is assumed; no long-run price or future share is disclosed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The quantity-price curve anchors the reference from which the long-run discount is assumed; no long-run price or future share is disclosed.

82. Print Options

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: KDP distinguishes black-and-white from color records and locks ink type after publication. These platform-specific conditions qualify switching assumptions, not market weights. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: KDP distinguishes black-and-white from color records and locks ink type after publication. These platform-specific conditions qualify switching assumptions, not market weights. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The displayed platform menu does not establish designated spot-color availability or sales; a general color option is not used as evidence of spot-color demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The displayed platform menu does not establish designated spot-color availability or sales; a general color option is not used as evidence of spot-color demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Standard color is unavailable for hardcover, but premium color is available. Both process-color tiers belong within the modeled Full-Color Interiors category. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Standard color is unavailable for hardcover, but premium color is available. Both process-color tiers belong within the modeled Full-Color Interiors category. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))

83. Synthèse des chiffres de l'édition jeunesse 2024-2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The primary French publishing survey reports a xx.xx% decline in illustrated early-childhood volumes and a xx.xx% decline in youth-fiction volumes in 2024. These differing outcomes challenge an aggressive universal color-growth assumption. ([sne.fr](https://www.sne.fr/actu/synthese-des-chiffres-de-ledition-jeunesse-2024-2025/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The primary French publishing survey reports a xx.xx% decline in illustrated early-childhood volumes and a xx.xx% decline in youth-fiction volumes in 2024. These differing outcomes challenge an aggressive universal color-growth assumption. ([sne.fr](https://www.sne.fr/actu/synthese-des-chiffres-de-ledition-jeunesse-2024-2025/))

20.9. Italy

Sources & Evidence

1. European Book Publishing Statistics 2024
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: European publishers reported approximately EUR xx.xx of net book-sales revenue in 2024. The disclosed ebook and audiobook proportions inform the modeled xx.xx% physical-book revenue proportion; publisher revenue is an input, not printing-service revenue.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 publisher-revenue and format observations provide the European demand input carried into the 2025 estimate.

2. The Global Publishing Industry in 2022

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Table xx.xx supplies country-level publishing revenues and identifies differences between retail-value, publisher-revenue, print-only and prior-year observations. Selected non-European country observations are adjusted for physical formats and period before estimating production spending.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The selected country observations contribute to the demand pool underlying the 2025 working estimate. Nielsen retail datasets elsewhere in the publication are not used.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Primary survey sector differences constrain the education-adjusted hardcover proxy.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Primary survey sector differences constrain the education-adjusted hardcover proxy.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Educational/trade differences qualify extrapolation of U.S. consumer-format revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Educational/trade differences qualify extrapolation of U.S. consumer-format revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx of surveyed children's publishing revenue anchors the modeled specialty demand pool, not supplier receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx of surveyed children's publishing revenue anchors the modeled specialty demand pool, not supplier receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sector data constrain the commissioning-pool proxy; mechanical incidence remains assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sector data constrain the commissioning-pool proxy; mechanical incidence remains assumed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Educational demand supplies a common economic anchor; loose-leaf incidence remains modeled.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Educational demand supplies a common economic anchor; loose-leaf incidence remains modeled.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sector observations constrain the educational short-book commissioning pool.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sector observations constrain the educational short-book commissioning pool.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The commissioning-pool anchor supports an explicit sparse-format incidence model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The commissioning-pool anchor supports an explicit sparse-format incidence model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors the accordion working estimate, not observed accordion orders.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors the accordion working estimate, not observed accordion orders.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed textile-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed textile-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed bath-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed bath-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed foam-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed foam-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original publishing survey documents country-level trade/education revenue differences used to constrain the modeled physical-publishing mix; it does not directly measure service shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original publishing survey documents country-level trade/education revenue differences used to constrain the modeled physical-publishing mix; it does not directly measure service shares.

3. 2024 年新闻出版统计公报

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: For 2024, the official table reports xx.xx book copies or sheets and CNY xx.xx of book-publishing revenue. These constrain the demand bridge and historical contraction, rather than directly measuring printing-service sales.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 book-publishing observation supplies the Chinese demand primitive for the 2025 model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official 2024 output of xx.xx copies/sheets constrains total modeled publisher activity; it does not disclose single-copy production.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official 2024 output of xx.xx copies/sheets constrains total modeled publisher activity; it does not disclose single-copy production.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Aggregate copies and annual title output constrain the shared activity model, not an observed short-run share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Aggregate copies and annual title output constrain the shared activity model, not an observed short-run share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Aggregate production provides a scale check for the medium-run assumption; annual copies per title are not individual batches.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Aggregate production provides a scale check for the medium-run assumption; annual copies per title are not individual batches.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx annual copies per title constrain the long-run scenario without proving its batch mix or forecast.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx annual copies per title constrain the long-run scenario without proving its batch mix or forecast.

4. Foreign Exchange Rates - G.5A Annual, January 5, 2026

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: The official 2024 annual-average conversion inputs are USD xx.xx per EUR, CNY xx.xx per USD and CAD xx.xx per USD.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The exchange-rate table establishes the conversion basis of the preceding-year demand inputs used in the 2025 estimate; subsequent effective-USD price assumptions are modeled separately.

5. Book publishing industry, 2024 - Statistics Canada
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Canadian publishers reported CAD xx.xx of print sales outside the online category and CAD xx.xx of online print sales in 2024. Their sum, rather than total operating revenue, supplies the physical-book demand input.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: Reported cost of goods sold of CAD xx.xx, up CAD xx.xx from 2022, supplies a cost-pressure cross-check, not a directly attributable printing-services total.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Canadian online versus other print-sales values constrain parcel exposure, with explicit value-to-unit and geographic limitations.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Canadian online versus other print-sales values constrain parcel exposure, with explicit value-to-unit and geographic limitations.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed envelope purchases.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed envelope purchases.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed bag purchases.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed bag purchases.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Modest observed online-print growth qualifies aggressive parcel-related wrapping assumptions.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Modest observed online-print growth qualifies aggressive parcel-related wrapping assumptions.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring separate protection.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring separate protection.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring closures.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring closures.
6. U.S. Census Bureau - Books Printing: Shipments, annual table
   - Evidence informing the 2017 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2017; this is a national production anchor for the historical model.
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2018.
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2019.
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2020.
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2021.
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2022.
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2024. This national industrial measure is narrower than the composite global service boundary.

7. U.S. Census Bureau - Book Publishers, All Establishments: Revenue, annual table
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: The Census annual series reports USD xx.xx of U.S. book-publisher revenue for 2024. A modeled xx.xx% physical-book proportion excludes digital and other adjacent receipts.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 Census observation replaces an older survey-based U.S. revenue bridge in the demand pool underlying 2025.

8. Scholastic Corporation - Form 10-K for the year ended May 31, 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Scholastic's fiscal 2024 product, service, production and inventory-reserve costs were xx.xx% of revenue; postage, freight, shipping, fulfillment and other costs were xx.xx%. These broad categories constrain, but do not directly establish, eligible outsourced-service spending.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The corresponding fiscal 2025 proportions were xx.xx% and xx.xx%. Royalties and prepublication amortization are separately disclosed, allowing their exclusion from the service-market bridge.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 product, service, production and inventory-reserve costs were xx.xx% of revenue. The broader cost category constrains the manufacturing spending boundary but does not directly disclose printing-service revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 product, service, production and inventory-reserve costs were xx.xx% of revenue. The broader cost category constrains the manufacturing spending boundary but does not directly disclose printing-service revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Prepublication amortization is disclosed separately from production costs, supporting exclusion of adjacent amortization rather than equating it with externally purchased prepress.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Prepublication amortization is disclosed separately from production costs, supporting exclusion of adjacent amortization rather than equating it with externally purchased prepress.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Postage, freight, shipping, fulfillment and other costs were xx.xx% of revenue in fiscal 2025 versus xx.xx% in fiscal 2024. This is a broad buyer-cost check, not an eligible outsourced-fulfillment share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Postage, freight, shipping, fulfillment and other costs were xx.xx% of revenue in fiscal 2025 versus xx.xx% in fiscal 2024. This is a broad buyer-cost check, not an eligible outsourced-fulfillment share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Outsourced manufacturing coexists with company-operated distribution. Fiscal-2025 production-related costs were xx.xx% of revenue, constraining the inherited spending bridge rather than directly measuring the assumed route fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Outsourced manufacturing coexists with company-operated distribution. Fiscal-2025 production-related costs were xx.xx% of revenue, constraining the inherited spending bridge rather than directly measuring the assumed route fraction.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Book-club revenue was xx.xx% online-ordered and xx.xx% parent-ordered, while products typically went to classrooms. This challenges the use of online sales as a proxy for the external contractor's delivery model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Book-club revenue was xx.xx% online-ordered and xx.xx% parent-ordered, while products typically went to classrooms. This challenges the use of online sales as a proxy for the external contractor's delivery model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct printer-to-customer fulfillment is a disclosed option. Broader logistics/other costs were xx.xx% of revenue versus xx.xx% previously, providing a cost-boundary check but no global order-level share or service-price growth observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct printer-to-customer fulfillment is a disclosed option. Broader logistics/other costs were xx.xx% of revenue versus xx.xx% previously, providing a cost-boundary check but no global order-level share or service-price growth observation.

9. CEWE achieves all targets in 2025 and aims to further increase revenue and earnings in 2026

- Evidence informing the 2025 market-value input; displayed series and growth include calculations: CEWE reported xx.xx CEWE PHOTOBOOK copies in 2025 versus xx.xx in 2024, supporting a positive specialty-book volume assumption without establishing global adoption.
- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Observed 2025 photobook growth informs the specialty-demand assumption for 2026; the market value remains modeled.
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The observed specialty-book activity is a starting condition for the forecast, not independent proof of continued growth through 2032.
- Evidence informing the 2040 market-value input; displayed series and growth include calculations: The forecast explicitly slows specialty-demand growth after 2032; this source supplies the initial commercial observation, not the long-term growth rate.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: CEWE reports xx.xx photobooks in 2025 compared with xx.xx in 2024. This independently establishes specialty-book activity underlying the nonpublisher model, without establishing a global expansion factor.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CEWE reports xx.xx photobooks in 2025 compared with xx.xx in 2024. This independently establishes specialty-book activity underlying the nonpublisher model, without establishing a global expansion factor.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports retaining premium specialty commissions in the manufacturing mix; the binding allocation and unchanged future cohort profile remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports retaining premium specialty commissions in the manufacturing mix; the binding allocation and unchanged future cohort profile remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported photobook volumes constrain personal-book activity and the nonpublisher starting condition, not hardcover prevalence or future share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported photobook volumes constrain personal-book activity and the nonpublisher starting condition, not hardcover prevalence or future share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Photobook activity supports the separate personal-book commissioning block; its softcover fraction remains assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Photobook activity supports the separate personal-book commissioning block; its softcover fraction remains assumed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported photobook copies rose from xx.xx to xx.xx; the narrower 2026 target qualifies strong specialty-growth assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported photobook copies rose from xx.xx to xx.xx; the narrower 2026 target qualifies strong specialty-growth assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specialty-book activity constrains the presentation-demand scenario but does not measure gift-box attachment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specialty-book activity constrains the presentation-demand scenario but does not measure gift-box attachment.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CEWE PHOTOBOOK units in 2025 versus xx.xx in 2024, constraining the specialty-book demand budget without establishing a global process split.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CEWE PHOTOBOOK units in 2025 versus xx.xx in 2024, constraining the specialty-book demand budget without establishing a global process split.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports the common photographic-demand input; electrophotographic attribution remains an explicit assumption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports the common photographic-demand input; electrophotographic attribution remains an explicit assumption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The photobook

10. Paperback Printing Cost - Kindle Direct Publishing

- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The inspected U.S. paperback schedule charges USD xx.xx plus USD xx.xx per page for the specified regular-trim black-ink category. It provides a contemporary commercial price comparison for the assumed USD xx.xx self-publishing production receipt, not an observed historical price or volume.
- Evidence informing the 2026 market-value input; displayed series and growth include calculations: The schedule distinguishes printing charges from royalties and retail list prices, supporting the production-receipt boundary used in the estimate.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule uses USD xx.xx plus USD xx.xx per page for the relevant page band, yielding the USD xx.xx representative manufacturing comparator. It anchors relative weights, not an observed global 2025 price or future share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule uses USD xx.xx plus USD xx.xx per page for the relevant page band, yielding the USD xx.xx representative manufacturing comparator. It anchors relative weights, not an observed global 2025 price or future share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The paperback manufacturing comparator supplies the baseline from which the modeled binding component and hardcover increment are separated.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The paperback manufacturing comparator supplies the baseline from which the modeled binding component and hardcover increment are separated.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The separately identified paperback printing charge constrains the self-publishing production-receipt model and its distinction from retail proceeds.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The separately identified paperback printing charge constrains the self-publishing production-receipt model and its distinction from retail proceeds.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page. It is a contemporary production-charge comparison for the modeled USD xx.xx receipt, not an observed historical Global average.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page. It is a contemporary production-charge comparison for the modeled USD xx.xx receipt, not an observed historical Global average.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The relevant current U.S. paperback printing schedule is USD xx.xx plus USD xx.xx per page, giving USD xx.xx at xx.xx pages. This is a commercial price comparison for creator-production receipts, not proof of 2025 realization, volume or fulfillment mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The relevant current U.S. paperback printing schedule is USD xx.xx plus USD xx.xx per page, giving USD xx.xx at xx.xx pages. This is a commercial price comparison for creator-production receipts, not proof of 2025 realization, volume or fulfillment mix.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule of USD xx.xx plus USD xx.xx per page gives USD xx.xx at xx.xx pages, a magnitude check for modeled single-copy receipts. It establishes neither global volume nor historical or forecast share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule of USD xx.xx plus USD xx.xx per page gives USD xx.xx at xx.xx pages, a magnitude check for modeled single-copy receipts. It establishes neither global volume nor historical or forecast share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page, yielding USD xx.xx for xx.xx pages. This is a contemporary price comparator, not a historical global average. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834340))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page, yielding USD xx.xx for xx.xx pages. This is a contemporary price comparator, not a historical global average. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834340))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The comparable standard and premium color charges calculate to USD xx.xx and USD xx.xx. They constrain relative

11. European Book Publishing Statistics 2017

- Evidence informing the 2017 market-value input; displayed series and growth include calculations: The association's primary survey reports approximately EUR xx.xx of European net publisher revenue for 2017, constraining the pre-pandemic demand level.

12. European Book Publishing Statistics 2019

- Evidence informing the 2018 market-value input; displayed series and growth include calculations: The association reports approximately EUR xx.xx of publisher revenue for 2018.
- Evidence informing the 2019 market-value input; displayed series and growth include calculations: The association reports approximately EUR xx.xx for 2019 and identifies a questionnaire change that limits exact comparability with earlier observations.

13. 2021 年新闻出版产业分析报告

- Evidence informing the 2020 market-value input; displayed series and growth include calculations: The official report's 2021 comparison identifies a substantial rebound from 2020, constraining the pandemic-recovery bridge.
- Evidence informing the 2021 market-value input; displayed series and growth include calculations: China reported xx.xx book copies or sheets in 2021, up xx.xx%; the report also distinguishes textbook output and reprints.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: China's official 2021 textbook share was xx.xx% of book copies. It supplies an older educational-activity proxy, not a monochrome share.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: China's official 2021 textbook share was xx.xx% of book copies. It supplies an older educational-activity proxy, not a monochrome share.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The textbook copy proportion constrains educational exposure; comparable monetary intensity and spot-color incidence are modeled separately.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The textbook copy proportion constrains educational exposure; comparable monetary intensity and spot-color incidence are modeled separately.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational-activity observation contributes to the shared demand proxy carried into the full-color base and forecast models; no color split is reported.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational-activity observation contributes to the shared demand proxy carried into the full-color base and forecast models; no color split is reported.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))

14. European Book Publishing Statistics 2023

- Evidence informing the 2022 market-value input; displayed series and growth include calculations: European net publisher revenue was approximately EUR xx.xx in 2022; the association describes paper-cost pressure and price-led growth.

15. Hardcover Printing Cost - Kindle Direct Publishing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim hardcover schedule uses USD xx.xx plus USD xx.xx per page in the relevant band. Comparison with paperback charges constrains the premium-equivalent manufacturing model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim hardcover schedule uses USD xx.xx plus USD xx.xx per page in the relevant band. Comparison with paperback charges constrains the premium-equivalent manufacturing model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD xx.xx fixed-charge difference supplies the POD premium input; the xx.xx% commercial-run realization and premium incidence are explicitly modeled rather than disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD xx.xx fixed-charge difference supplies the POD premium input; the xx.xx% commercial-run realization and premium incidence are explicitly modeled rather than disclosed.
16. User Fees - University of Wisconsin-Milwaukee Print & Copy Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The university service schedule separately prices preflight/prepress preparation at USD xx.xx per hour, establishing a paid preparation activity rather than an automatic component of every printing-platform purchase.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The university service schedule separately prices preflight/prepress preparation at USD xx.xx per hour, establishing a paid preparation activity rather than an automatic component of every printing-platform purchase.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Perfect binding is listed at USD xx.xx-xx.xx per book. The lower endpoint is the model's basic-binding comparator, not a measured worldwide realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Perfect binding is listed at USD xx.xx-xx.xx per book. The lower endpoint is the model's basic-binding comparator, not a measured worldwide realization.

17. How Much Does It Cost to Print a Book? - QinPrinting
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier's delivered xx.xx-page, xx.xx-copy color-book examples list USD xx.xx for softcover and USD xx.xx for hardcover. They provide a commercial-run countercheck, with delivery and product differences preventing direct substitution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier's delivered xx.xx-page, xx.xx-copy color-book examples list USD xx.xx for softcover and USD xx.xx for hardcover. They provide a commercial-run countercheck, with delivery and product differences preventing direct substitution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The smaller hardcover premium in this offset example qualifies extrapolation of the full POD hardcover increment into binding revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The smaller hardcover premium in this offset example qualifies extrapolation of the full POD hardcover increment into binding revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Comparable hardcover and softcover quotations constrain the assumed relative manufacturing realization after scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Comparable hardcover and softcover quotations constrain the assumed relative manufacturing realization after scope adjustments.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Softcover prices provide a commercial comparison, not a historical global average.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Softcover prices provide a commercial comparison, not a historical global average.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Board-book quotations constrain the assumed production receipt; delivery and duties require adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Board-book quotations constrain the assumed production receipt; delivery and duties require adjustment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Mechanical-binding quotations constrain the unit-receipt assumption, not incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Mechanical-binding quotations constrain the unit-receipt assumption, not incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Short-booklet quotations constrain the lower realization used for eligible saddle-stitched books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Short-booklet quotations constrain the lower realization used for eligible saddle-stitched books.
18. Book Wrap Mailers / Book Boxes - Packaging ONE
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer lists MP2 book mailers at GBP xx.xx each for xx.xx packs of xx.xx excluding VAT. The converted unit price supplies the packaging-creation value proxy, not a global average or a historical quote.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer lists MP2 book mailers at GBP xx.xx each for xx.xx packs of xx.xx excluding VAT. The converted unit price supplies the packaging-creation value proxy, not a global average or a historical quote.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The enclosure price forms the other side of the creation-versus-packing ratio. One comparable enclosure per packing unit is an explicit activity-matching assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The enclosure price forms the other side of the creation-versus-packing ratio. One comparable enclosure per packing unit is an explicit activity-matching assumption.

19. Foreign Exchange Rates - G.5A Annual, January 5, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 annual average is USD xx.xx per GBP. It converts the GBP packaging comparator into the common monetary basis used in the starting allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 annual average is USD xx.xx per GBP. It converts the GBP packaging comparator into the common monetary basis used in the starting allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same conversion supports the common-currency packaging/packing denominator inherited by the forecast; no 2032 exchange rate is asserted.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same conversion supports the common-currency packaging/packing denominator inherited by the forecast; no 2032 exchange rate is asserted.
20. Optional Book Publishing Services - InstantPublisher
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider lists layout/typesetting at USD xx.xx per page with a USD xx.xx minimum. This supports the preparation-spending feasibility check, with purchase incidence and copies per job remaining assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider lists layout/typesetting at USD xx.xx per page with a USD xx.xx minimum. This supports the preparation-spending feasibility check, with purchase incidence and copies per job remaining assumptions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Individual shrink-wrapping is listed at USD xx.xx each plus USD xx.xx setup. Amortizing setup over an assumed xx.xx copies gives the USD xx.xx packing comparator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Individual shrink-wrapping is listed at USD xx.xx each plus USD xx.xx setup. Amortizing setup over an assumed xx.xx copies gives the USD xx.xx packing comparator.
21. How Does Merchant Pricing Work for Ecommerce Stores? - Lulu Direct
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2026 merchant-pricing explanation identifies a USD xx.xx fulfillment fee and separates merchant retail receipts from payments for supplier production, shipping and taxes. The fee is a contemporary feasibility comparator, not verified 2025 penetration or a future charge.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2026 merchant-pricing explanation identifies a USD xx.xx fulfillment fee and separates merchant retail receipts from payments for supplier production, shipping and taxes. The fee is a contemporary feasibility comparator, not verified 2025 penetration or a future charge.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Merchant retail receipts are separate from payments for printing and fulfillment. The current page lists a USD xx.xx fulfillment fee, with shipping and taxes separately calculated. This supports the service-value boundary, not a historical average fee or global order volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Merchant retail receipts are separate from payments for printing and fulfillment. The current page lists a USD xx.xx fulfillment fee, with shipping and taxes separately calculated. This supports the service-value boundary, not a historical average fee or global order volume.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lulu identifies separate retail and production/fulfillment transactions and a USD xx.xx fulfillment fee. This supports excluding merchant retail margins from production-service value and avoiding automatic procurement-channel classification from the storefront.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lulu identifies separate retail and production/fulfillment transactions and a USD xx.xx fulfillment fee. This supports excluding merchant retail margins from production-service value and avoiding automatic procurement-channel classification from the storefront.

22. AAP December 2025 StatShot Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The primary monthly reporting panel's full-year 2025 trade figures show paperback revenue down xx.xx%. This qualifies broad physical-book growth assumptions and supplies directional mix evidence only.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The primary monthly reporting panel's full-year 2025 trade figures show paperback revenue down xx.xx%. This qualifies broad physical-book growth assumptions and supplies directional mix evidence only.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same approximately xx.xx-publisher panel shows hardcover revenue up xx.xx%. It supports a modest premium-mix hypothesis but neither measures global binding spending nor proves the forecast.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same approximately xx.xx-publisher panel shows hardcover revenue up xx.xx%. It supports a modest premium-mix hypothesis but neither measures global binding spending nor proves the forecast.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct-participant 2025 hardback revenue of approximately USD xx.xx anchors the adjusted conventional-format model; it is not printing revenue or a global share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct-participant 2025 hardback revenue of approximately USD xx.xx anchors the adjusted conventional-format model; it is not printing revenue or a global share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported paperback revenue of approximately USD xx.xx plus USD xx.xx mass-market revenue supplies the comparison input. Reported annual movements qualify the forecast starting mix, not its future persistence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported paperback revenue of approximately USD xx.xx plus USD xx.xx mass-market revenue supplies the comparison input. Reported annual movements qualify the forecast starting mix, not its future persistence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct publisher-sample religious and trade physical-format receipts provide a category-intensity proxy, subject to explicit geographic and coverage adjustments.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct publisher-sample religious and trade physical-format receipts provide a category-intensity proxy, subject to explicit geographic and coverage adjustments.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported professional-book receipts and their 2025 decline challenge assumptions of automatic growth from recurring reference relationships.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported professional-book receipts and their 2025 decline challenge assumptions of automatic growth from recurring reference relationships.

23. Print and Associated Services Framework - Lot 1 Buyer Guide: Framework Objectives
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The public purchasing framework separately specifies production-management advice. It establishes a purchased responsibility but not a global fee rate or permission to count subcontract pass-through as retained revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The public purchasing framework separately specifies production-management advice. It establishes a purchased responsibility but not a global fee rate or permission to count subcontract pass-through as retained revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The framework also specifies finished-goods stock holding and call-off, with required holding costs included in the print-job price. This supports allocating embedded production-linked fulfillment rather than restricting the category to standalone invoices.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The framework also specifies finished-goods stock holding and call-off, with required holding costs included in the print-job price. This supports allocating embedded production-linked fulfillment rather than restricting the category to standalone invoices.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Finished goods may be held for call-off, with storage included in the print job where required. This supports consolidated releases as a production-linked arrangement without assuming every release is an individual order.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Finished goods may be held for call-off, with storage included in the print job where required. This supports consolidated releases as a production-linked arrangement without assuming every release is an individual order.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contractors maintain designated distribution lists, deliver to nominated addresses and receive job-specific copy allocations, supporting the modeled list-delivery category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contractors maintain designated distribution lists, deliver to nominated addresses and receive job-specific copy allocations, supporting the modeled list-delivery category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The coexistence of stock holding, call-off and distribution-list obligations supports separating production trigger from fulfillment responsibility; call-off alone does not establish transaction-level fulfillment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The coexistence of stock holding, call-off and distribution-list obligations supports separating production trigger from fulfillment responsibility; call-off alone does not establish transaction-level fulfillment.

24. Frequently Asked Questions - IngramSpark
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: IngramSpark states that it does not provide editing, typesetting or design services. This counterexample prevents treating all platform manufacturing commissions as purchases of professional preparation services.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: IngramSpark states that it does not provide editing, typesetting or design services. This counterexample prevents treating all platform manufacturing commissions as purchases of professional preparation services.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider permits nonexclusive sourcing when the customer owns its ISBN and does not offer editing, typesetting or design. These terms constrain the author service boundary, not adoption or revenue growth.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider permits nonexclusive sourcing when the customer owns its ISBN and does not offer editing, typesetting or design. These terms constrain the author service boundary, not adoption or revenue growth.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: IngramSpark permits nonexclusive use of other printers, distributors and fulfillment providers when publishers own their ISBN. This establishes an alternative-sourcing option, not observed switching or a numerical channel allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: IngramSpark permits nonexclusive use of other printers, distributors and fulfillment providers when publishers own their ISBN. This establishes an alternative-sourcing option, not observed switching or a numerical channel allocation.
25. Packaging Printing & Production - Imago Group
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier identifies book slipcases, clamshell cases, tray-and-lid constructions and multicomponent publisher packaging. This supports the enclosure-production boundary and the limitation of a simple mailer-price proxy; it does not supply sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier identifies book slipcases, clamshell cases, tray-and-lid constructions and multicomponent publisher packaging. This supports the enclosure-production boundary and the limitation of a simple mailer-price proxy; it does not supply sales weights.
26. Services - Bridgeport National Bindery
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The short-run book-production portfolio separately lists shrink-wrapping and set packing. It establishes commercial packing activity distinct from enclosure manufacture and binding, without measuring its revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The short-run book-production portfolio separately lists shrink-wrapping and set packing. It establishes commercial packing activity distinct from enclosure manufacture and binding, without measuring its revenue.
27. Terms and Conditions - CPI Print Germany
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published terms distinguish ex-works production prices from packaging, freight and postage and reserve specified input-cost adjustment rights. They support comparable-scope valuation but do not establish realized inflation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published terms distinguish ex-works production prices from packaging, freight and postage and reserve specified input-cost adjustment rights. They support comparable-scope valuation but do not establish realized inflation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate treatment of forwarding and storage responsibilities supports the eligible production-linked service boundary; contractual rights do not prove the assumed future fee-growth rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate treatment of forwarding and storage responsibilities supports the eligible production-linked service boundary; contractual rights do not prove the assumed future fee-growth rate.

28. ONIX Codelists Issue 75 - List 150: Product Form
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BB identifies hardback/cased books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BB identifies hardback/cased books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BC identifies paperback/softback books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BC identifies paperback/softback books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BH distinguishes board-page books from conventional books with rigid covers.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BH distinguishes board-page books from conventional books with rigid covers.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BE groups spiral, comb and coil forms.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BE groups spiral, comb and coil forms.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BD identifies loose-leaf books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BD identifies loose-leaf books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BF includes stapled short books; nonbook uses are excluded from the model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BF includes stapled short books; nonbook uses are excluded from the model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BL recognizes slide-bound books without measuring current sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BL recognizes slide-bound books without measuring current sales.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BO recognizes continuous concertina-fold books; nonbook charts are excluded.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BO recognizes continuous concertina-fold books; nonbook charts are excluded.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BI identifies textile-page books, not cloth-covered paper books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BI identifies textile-page books, not cloth-covered paper books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BJ identifies waterproof bath-book forms.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BJ identifies waterproof bath-book forms.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BP identifies foam-page and foam-cover books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BP identifies foam-page and foam-cover books.

29. Thomson Reuters - Fourth-Quarter and Full-Year 2025 Results
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Global Print revenue and contraction constrain professional-print scale and substitution direction; content receipts are not treated as loose-leaf service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Global Print revenue and contraction constrain professional-print scale and substitution direction; content receipts are not treated as loose-leaf service revenue.
30. Lulu - Discontinuing Saddle Stitch in Global Distribution
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provider-specific wholesale distribution restrictions establish a channel constraint, not a global sales weight or measured forecast decline.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provider-specific wholesale distribution restrictions establish a channel constraint, not a global sales weight or measured forecast decline.
31. MAGACOPY Sofia - Copying and Printing Prices
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A current EUR xx.xx binding-only charge establishes a live commercial service and a price-scope comparison; full-book USD receipts and incidence remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A current EUR xx.xx binding-only charge establishes a live commercial service and a price-scope comparison; full-book USD receipts and incidence remain assumed.
32. Imago Group - Spotlight on Children's Books for National Young Readers Week
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's children's portfolio supports board-book commercial classification, not order volumes.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's children's portfolio supports board-book commercial classification, not order volumes.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cloth-book offerings support the textile-page category premise, not its modeled incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cloth-book offerings support the textile-page category premise, not its modeled incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bath-book offerings support a separate commercial category; sales and service receipts are undisclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bath-book offerings support a separate commercial category; sales and service receipts are undisclosed.
33. Pegasus - My First Book of Shapes: EVA Foam Book
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The dated 2025 product identifies foam pages and supports commercial-status and classification checks, not global volume or supplier realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated 2025 product identifies foam pages and supports commercial-status and classification checks, not global volume or supplier realization.

34. U.S. Consumer Product Safety Commission - Children's Books
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Product classification and intended audience affect commercial compliance accountability; no numerical surcharge is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Product classification and intended audience affect commercial compliance accountability; no numerical surcharge is inferred.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The exemption boundary supports separate classification rather than assumed conventional-book treatment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The exemption boundary supports separate classification rather than assumed conventional-book treatment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Compliance classification is retained as an uncertainty, not an exclusion or measured price premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Compliance classification is retained as an uncertainty, not an exclusion or measured price premium.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specialty construction does not itself establish ordinary-book exemption eligibility or market inactivity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specialty construction does not itself establish ordinary-book exemption eligibility or market inactivity.
35. Puget Bindery - Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider identifies training manuals and reference guides as mechanical-binding applications, supporting the commissioning premise without measuring sales incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider identifies training manuals and reference guides as mechanical-binding applications, supporting the commissioning premise without measuring sales incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists commercial letterpress book plates and specialty inserts, supporting a component-service model rather than attribution of the entire book price.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists commercial letterpress book plates and specialty inserts, supporting a component-service model rather than attribution of the entire book price.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The bindery identifies commercial printers, publishers and corporate print buyers as customers and excludes direct-to-consumer sales. This supports trade-purchasing attribution but supplies no sales percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The bindery identifies commercial printers, publishers and corporate print buyers as customers and excludes direct-to-consumer sales. This supports trade-purchasing attribution but supplies no sales percentage.

36. ONIX Codelists Issue 75 - List 80: Product Packaging Type
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates single-item and multivolume slipcases; supplies classification, not sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates single-item and multivolume slipcases; supplies classification, not sales weights.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes lidded boxes from slipcase-style boxed sets.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes lidded boxes from slipcase-style boxed sets.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-ended wraparound sleeves are distinct from enclosed wrapping.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-ended wraparound sleeves are distinct from enclosed wrapping.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes envelope-like slip-sleeves and wallets or folders.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes envelope-like slip-sleeves and wallets or folders.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes pouch and bag packaging independently.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes pouch and bag packaging independently.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately recognizes shrink-wrapped products and bundles.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately recognizes shrink-wrapped products and bundles.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Defines formed-plastic clamshells and card-backed blister packaging as distinct constructions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Defines formed-plastic clamshells and card-backed blister packaging as distinct constructions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Explicitly recognizes book browse-prevention closures.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Explicitly recognizes book browse-prevention closures.

37. U.S. Government Publishing Office - Program 827-S: Federal Aviation Administration Books, Contract Pricing and Specifications

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Historical evaluation quantities provide a container-heavy institutional purchasing counterexample, not global shipment shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Historical evaluation quantities provide a container-heavy institutional purchasing counterexample, not global shipment shares.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies kraft-envelope packing within the book procurement.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies kraft-envelope packing within the book procurement.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies cushioned shipping bags as an eligible book-order enclosure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies cushioned shipping bags as an eligible book-order enclosure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Includes wrapped shipping bundles as an alternative purchasing configuration.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Includes wrapped shipping bundles as an alternative purchasing configuration.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Requires packing and filler separately from the external enclosure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Requires packing and filler separately from the external enclosure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies closure tape and securing straps independently of container construction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies closure tape and securing straps independently of container construction.

38. U.S. Government Publishing Office - Print Order Form 2511 Instructions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specifies paper-banded sets separately from shrink-wrapped sets.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specifies paper-banded sets separately from shrink-wrapped sets.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes shrink-wrapped units nested within cartons, supporting component attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes shrink-wrapped units nested within cartons, supporting component attribution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes internal packaging, container quantities and pallet requirements.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes internal packaging, container quantities and pallet requirements.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The instructions distinguish nominated delivery addresses and warehouse receiving arrangements, supporting the receiving-point attribution premise, not an observed consolidated market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The instructions distinguish nominated delivery addresses and warehouse receiving arrangements, supporting the receiving-point attribution premise, not an observed consolidated market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supplemental distribution lists accommodate multiple destinations, supporting the distinction between preallocated destination delivery and a single receiving-point handoff.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supplemental distribution lists accommodate multiple destinations, supporting the distinction between preallocated destination delivery and a single receiving-point handoff.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: GPO specifies black interior inks separately from cover inks, supporting the monochrome classification and underlying-book attribution premise, not its modeled sales weight. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GPO specifies black interior inks separately from cover inks, supporting the monochrome classification and underlying-book attribution premise, not its modeled sales weight. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Designated Pantone specifications are recognized for interior inks, supporting a separate spot-color commercial category without measuring its share. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Designated Pantone specifications are recognized for interior inks, supporting a separate spot-color commercial category without measuring its share. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Four-color process is identified as full color for interior pages; cover color is separately specified. This supports classification at both modeled anchors. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Four-color process is identified as full color for interior pages; cover color is separately specified. This supports classification at both modeled anchors. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))

39. GPOExpress Program Pricing Guide - November 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx hand folding provides a handling-cost comparison; the complete band realization remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx hand folding provides a handling-cost comparison; the complete band realization remains modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx per shrink wrap anchors a small-run comparison, not the assumed global realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx per shrink wrap anchors a small-run comparison, not the assumed global realization.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx auxiliary insertion supplies a handling-price comparison, not protective-material sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx auxiliary insertion supplies a handling-price comparison, not protective-material sales.
40. Hardcover Book Protection: Dust Jackets or Slipcases?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-product EXW slipcase prices of USD xx.xx, USD xx.xx and USD xx.xx at xx.xx xx.xx and xx.xx units constrain relative realizations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-product EXW slipcase prices of USD xx.xx, USD xx.xx and USD xx.xx at xx.xx xx.xx and xx.xx units constrain relative realizations.
41. Book Printing Cost in China: How Printing Prices Are Calculated
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately USD xx.xx per export carton including basic packing materials constrains the bulk-package budget; the container allocation is modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately USD xx.xx per export carton including basic packing materials constrains the bulk-package budget; the container allocation is modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its cushioning split is assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its cushioning split is assumed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its closure split is assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its closure split is assumed.
42. Make Believe Ideas - Independent Retail Catalog 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 catalog identifies activity books with cover-mounted blisters, establishing book-specific participation but not packaging revenue or volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 catalog identifies activity books with cover-mounted blisters, establishing book-specific participation but not packaging revenue or volume.
43. Bookmobile - Request Book Printing Quotes the Right Way to Save Money
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The printer's bookstore-oriented purchasing guidance cautions against universal shrink-wrap attachment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The printer's bookstore-oriented purchasing guidance cautions against universal shrink-wrap attachment.

44. Digital Book Printing - Bookmobile
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current book-production portfolio separately offers poly bags, supporting commercial category participation rather than a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current book-production portfolio separately offers poly bags, supporting commercial category participation rather than a sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current portfolio offers shrink-wrap independently of other finishing options.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current portfolio offers shrink-wrap independently of other finishing options.
45. Sell Books on Shopify - Lulu
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The offered storefront-to-print-and-ship route supports an accessible production-linked parcel channel, not assumed demand.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct fulfillment availability supports the parcel-use scenario without establishing envelope mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct fulfillment availability supports the parcel-use scenario without establishing bag mix.
46. European Commission - New EU Rules on Packaging Enter into Application
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional packaging minimization supports a directional right-sizing premise, not a measured global box-price effect.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Waste-reduction requirements inform the bounded substitution scenario; they do not quantify band adoption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional circularity requirements inform lower lightweight-bag exposure without implying a global book-bag ban.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Material substitution remains partly internal to the combined film-and-paper category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional recyclability pressure informs the niche substitution scenario, not an observed blister-sales decline.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Empty-space reduction provides a directional premise for lower cushioning allowance per individual box.
47. Digital Printing - U.S. Government Publishing Office
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Procurement examples allow offset or digital alternatives while restricting some digital variants, supporting an acceptance- and run-mix model rather than a universal quality ranking. This is a modeling premise, not an observed process share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Procurement examples allow offset or digital alternatives while restricting some digital variants, supporting an acceptance- and run-mix model rather than a universal quality ranking. This is a modeling premise, not an observed process share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The purchasing guidance supports conditional digital substitution, not unrestricted interchangeability or an observed forecast allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The purchasing guidance supports conditional digital substitution, not unrestricted interchangeability or an observed forecast allocation.

48. Clays demonstrate dedication to digital investment
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx books annually and xx.xx books of digital capacity in an older investment statement; this constrains scale but is not a 2025 realized output mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx books annually and xx.xx books of digital capacity in an older investment statement; this constrains scale but is not a 2025 realized output mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's inkjet investment supports an existing book-production application and a conditional adoption premise, not a quantified global forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's inkjet investment supports an existing book-production application and a conditional adoption premise, not a quantified global forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The capacity/output comparison is a limited commercial check on continued conventional book production, not a direct offset revenue observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The capacity/output comparison is a limited commercial check on continued conventional book production, not a direct offset revenue observation.
49. ISO/TC 130 - Guidelines for Using Print Production Standards, Version 1.0, 2019
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes packaging use cases and printing processes, supporting allocation of gravure to book-associated components rather than the full value of a book.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes packaging use cases and printing processes, supporting allocation of gravure to book-associated components rather than the full value of a book.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies flexographic packaging applications; the book-specific spending budget and process coefficients remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies flexographic packaging applications; the book-specific spending budget and process coefficients remain modeled.
50. Premium Layflat Photo Books - PhotobookShop
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Offers bound silver-halide photographic books and distinguishes them from digitally printed alternatives, supporting the model's separate photographic category rather than an observed sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Offers bound silver-halide photographic books and distinguishes them from digitally printed alternatives, supporting the model's separate photographic category rather than an observed sales weight.
51. The Cormac McCarthy Collection - The Folio Society
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents screen-printed cloth covers on physical book editions, supporting component-level commercial attribution. It does not measure supplier component receipts or global uptake.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents screen-printed cloth covers on physical book editions, supporting component-level commercial attribution. It does not measure supplier component receipts or global uptake.

52. Risograph Digital Duplicator Order Form, 2026 - Minneapolis College of Art and Design
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2026 institutional form recognizes Risograph book/booklet orders but excludes assembly. It supports a limited application boundary, not 2025 external commercial volume; internal institutional charges are excluded from the numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2026 institutional form recognizes Risograph book/booklet orders but excludes assembly. It supports a limited application boundary, not 2025 external commercial volume; internal institutional charges are excluded from the numerator.
53. American Printing House - 2024 Annual Report
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal 2024 product sales were USD xx.xx; braille publications represented xx.xx% of product sales; xx.xx braille volumes were produced. These inputs constrain an adjusted production-realization proxy, not a global market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The decline from xx.xx braille volumes in 2022 qualifies a uniform physical-demand growth assumption and informs the slower relative forecast activity weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2024 product sales were USD xx.xx; braille publications represented xx.xx% of product sales; xx.xx braille volumes were produced. These inputs constrain an adjusted production-realization proxy, not a global market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The decline from xx.xx braille volumes in 2022 qualifies a uniform physical-demand growth assumption and informs the slower relative forecast activity weight.
54. Kodak Moments Kiosk - Kodak Alaris
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises book-capable retail kiosk equipment and a photographic-printing portfolio. Used only as a commercial-route premise for the thermal working estimate, not as evidence of thermal book-service sales, utilization or the final share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises book-capable retail kiosk equipment and a photographic-printing portfolio. Used only as a commercial-route premise for the thermal working estimate, not as evidence of thermal book-service sales, utilization or the final share.
55. 二〇二一年全国新闻出版业基本情况
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official 2021 aggregate textbook output distinguishes school, tertiary and vocational/adult activity; historical volumes require value and global-scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official 2021 aggregate textbook output distinguishes school, tertiary and vocational/adult activity; historical volumes require value and global-scope adjustments.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Secondary, primary and teaching-book aggregate sheet counts form the school activity weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Secondary, primary and teaching-book aggregate sheet counts form the school activity weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Tertiary textbook aggregate output supplies the higher-education activity input before an assumed relative-service-value adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Tertiary textbook aggregate output supplies the higher-education activity input before an assumed relative-service-value adjustment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Vocational, adult and literacy textbook output supplies the corresponding historical activity input.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Vocational, adult and literacy textbook output supplies the corresponding historical activity input.

56. Music, printed or in manuscript imports by country, 2024 - World Integrated Trade Solution
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official HS xx.xx import observations constrain the music-publication value bridge; domestic supply, physical-book eligibility and the printing-service fraction remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official HS xx.xx import observations constrain the music-publication value bridge; domestic supply, physical-book eligibility and the printing-service fraction remain modeled.
57. Bloomsbury Publishing - 2024/25 Results Presentation
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate Academic & Professional print, digital and rights/service receipts demonstrate the required physical-revenue boundary; company mix is not treated as global market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate Academic & Professional print, digital and rights/service receipts demonstrate the required physical-revenue boundary; company mix is not treated as global market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed physical academic publishing activity supports commercial applicability but does not verify the assumed global research/reference ratio.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed physical academic publishing activity supports commercial applicability but does not verify the assumed global research/reference ratio.
58. HDSB - RFSQ 26-013: Yearbook Software and Printing Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The qualification notice establishes a commissioned yearbook scope including printing, binding and school delivery; it supplies no awarded value and is not used as a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The qualification notice establishes a commissioned yearbook scope including printing, binding and school delivery; it supplies no awarded value and is not used as a sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The yearbook qualification notice restricts supply to prequalified vendors while permitting school bulk orders and individual ordering. It supports separating commissioning authority from ultimate payment, but discloses no fulfilled-order value.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The yearbook qualification notice restricts supply to prequalified vendors while permitting school bulk orders and individual ordering. It supports separating commissioning authority from ultimate payment, but discloses no fulfilled-order value.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The individual-ordering option establishes an attribution uncertainty relevant to the modeled household portion; it does not establish the assumed xx.xx% proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The individual-ordering option establishes an attribution uncertainty relevant to the modeled household portion; it does not establish the assumed xx.xx% proportion.

59. U.S. Census Bureau - 2022 Economic Census, Books Printing Questionnaire MC-32312
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official printing questionnaire supports the distinction between textbook and general-book production; recognition is not treated as a revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official printing questionnaire supports the distinction between textbook and general-book production; recognition is not treated as a revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognized coloring-book output supports treating recreational activity commissions separately from institutional textbooks according to purpose.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognized coloring-book output supports treating recreational activity commissions separately from institutional textbooks according to purpose.
60. Press Information Bureau - Department of School Education & Literacy, Year End Review 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The government review describes substantial NCERT physical-textbook activity, independently qualifying the physical-availability premise without establishing attributable supplier revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The government review describes substantial NCERT physical-textbook activity, independently qualifying the physical-availability premise without establishing attributable supplier revenue.
61. 2022 North American Industry Classification System - United States
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dedicated book-publishing activity is separated from institutional primary activities and printing without publishing, constraining the Publishing Organizations numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dedicated book-publishing activity is separated from institutional primary activities and printing without publishing, constraining the Publishing Organizations numerator.
62. U.S. Census Bureau - Books Printing: 2002
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Table xx.xx reports 2002 U.S. books-printing contract-work costs of USD xx.xx and shipments of USD xx.xx. Their ratio supplies a dated manufacturing-subcontract proxy, held constant within the forecast component.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Table xx.xx reports 2002 U.S. books-printing contract-work costs of USD xx.xx and shipments of USD xx.xx. Their ratio supplies a dated manufacturing-subcontract proxy, held constant within the forecast component.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical subcontract-cost input constrains the modeled transfer from publisher-origin commissioning to performing suppliers, without adding another gross contract value.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical subcontract-cost input constrains the modeled transfer from publisher-origin commissioning to performing suppliers, without adding another gross contract value.
63. Samfine Creation Holdings Group Limited - Form 20-F for the year ended December 31, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports USD xx.xx of 2025 book-product revenue and principally serves book traders that secure printing contracts and outsource production. This is a supplier-specific quantitative role check, not a Global allocation weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports USD xx.xx of 2025 book-product revenue and principally serves book traders that secure printing contracts and outsource production. This is a supplier-specific quantitative role check, not a Global allocation weight.

64. Ministry of Education - NCERT and Amazon Letter of Engagement, October 7, 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2024 announcement targeted xx.xx NCERT books for academic 2025-xx.xx. This is a planned institutional activity anchor; realization, eligible receipts and subsequent growth are modeled separately.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2024 announcement targeted xx.xx NCERT books for academic 2025-xx.xx. This is a planned institutional activity anchor; realization, eligible receipts and subsequent growth are modeled separately.
65. Bangladesh e-GP - NCTB/TEXTBOOK/2025, Package GD.102_SEC_8.031
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The government-funded procurement plan specifies xx.xx academic-2025 textbook copies and an estimated BDT xx.xx for printing, binding and supply. It constrains commercial order scale and local unit-budget plausibility, not realized annual revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The government-funded procurement plan specifies xx.xx academic-2025 textbook copies and an estimated BDT xx.xx for printing, binding and supply. It constrains commercial order scale and local unit-budget plausibility, not realized annual revenue.
66. Students suffer as NCTB fails to deliver books - The Daily Star, January 17, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 report corroborates the dated approximately xx.xx-copy textbook target and early-year delivery disruption. Target realization and supplier receipts remain modeled.
67. Secondary-level students: A new year without full set of books for many - The Daily Star, December 28, 2025
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 report corroborates the approximately xx.xx-copy academic-2026 target and continued delivery slippage. It informs a normalization assumption, not an observed 2032 share.
68. Business Books - Print Professional, Custom Corporate Books | Blurb
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The business-book offering includes organizational presentation and corporate-gift applications. It establishes an in-scope commissioning proposition, not the modeled global copy quantity or spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The business-book offering includes organizational presentation and corporate-gift applications. It establishes an in-scope commissioning proposition, not the modeled global copy quantity or spending.
69. How to Use Lulu to Support Your Nonprofit | Lulu
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform permits an organization or charity to receive creator proceeds. This supports excluding beneficiary-only arrangements from nonprofit commissioning; it does not measure nonprofit printing purchases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform permits an organization or charity to receive creator proceeds. This supports excluding beneficiary-only arrangements from nonprofit commissioning; it does not measure nonprofit printing purchases.

70. News Corp - Form 10-K for the fiscal year ended June 30, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal 2025 consumer backlist revenue of xx.xx% and digital revenue of xx.xx% anchor the assumed physical-backlist bridge and its forecast starting model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2025 consumer backlist revenue of xx.xx% and digital revenue of xx.xx% anchor the assumed physical-backlist bridge and its forecast starting model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed backlist mix constrains recurring-title demand; its division into replenishment and POD remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed backlist mix constrains recurring-title demand; its division into replenishment and POD remains modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The complementary frontlist population supports the launch-stock cohort after physical-format adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The complementary frontlist population supports the launch-stock cohort after physical-format adjustments.
71. News Corp - Form 10-K for the fiscal year ended June 30, 2026
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2026 backlist revenue of xx.xx% and digital revenue of xx.xx% lower the forecast physical-backlist proxy instead of assuming continued backlist expansion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The updated catalog mix changes the forecast population available for repeat inventory releases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The updated frontlist/backlist bridge changes the forecast planned-production weight; no 2032 share is disclosed.
72. How Do Lulu Direct Orders Work?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lulu describes printing after customer purchase and distinguishes production from subsequent shipment, supporting recipient-order attribution rather than technology-based classification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lulu describes printing after customer purchase and distinguishes production from subsequent shipment, supporting recipient-order attribution rather than technology-based classification.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: No minimum order and one-copy ordering establish commercial feasibility, not the number or value of single-copy releases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No minimum order and one-copy ordering establish commercial feasibility, not the number or value of single-copy releases.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: One POD offering accepts hundreds of copies, independently challenging a POD-equals-single-copy allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One POD offering accepts hundreds of copies, independently challenging a POD-equals-single-copy allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Orders can extend into thousands within the same offering; the production trigger therefore does not uniquely identify the working run band.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Orders can extend into thousands within the same offering; the production trigger therefore does not uniquely identify the working run band.

73. Supply Chain - Clays
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Clays describes differentiated backlist arrangements and stock visibility, supporting a separate inventory-replenishment cohort without establishing its numerical prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Clays describes differentiated backlist arrangements and stock visibility, supporting a separate inventory-replenishment cohort without establishing its numerical prevalence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: New-title consolidation and predictable annual backlist demand support retaining planned inventory commitments; short-run printing is explicitly not necessarily POD.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: New-title consolidation and predictable annual backlist demand support retaining planned inventory commitments; short-run printing is explicitly not necessarily POD.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Clays explicitly distinguishes short-run work from POD, supporting category separation rather than a technological proxy for value share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Clays explicitly distinguishes short-run work from POD, supporting category separation rather than a technological proxy for value share.
74. Smart Backlist Management: When to Hold and When to Print-on-Demand
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheridan describes low-volume titles moving to POD while other titles retain inventory, supporting differentiated release-policy assumptions rather than a uniform backlist-to-POD conversion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheridan describes low-volume titles moving to POD while other titles retain inventory, supporting differentiated release-policy assumptions rather than a uniform backlist-to-POD conversion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A disclosed customer example uses a stock threshold to trigger a 2,000-copy replenishment order. It establishes the commercial mechanism, not a market-wide share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A disclosed customer example uses a stock threshold to trigger a 2,000-copy replenishment order. It establishes the commercial mechanism, not a market-wide share.

75. Shortage of NCERT textbooks - Rajya Sabha Unstarred Question No. 1941, December 17, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advance enrollment-based forecasting, academic-session readiness and a fiscal 2025-xx.xx plan for approximately xx.xx textbooks support a substantial calendar-driven stock cohort. The target is not realized production.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advance enrollment-based forecasting, academic-session readiness and a fiscal 2025-xx.xx plan for approximately xx.xx textbooks support a substantial calendar-driven stock cohort. The target is not realized production.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phased supply and inventory monitoring support distinguishing ongoing availability obligations from individual-recipient POD, without quantifying replenishment's global prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phased supply and inventory monitoring support distinguishing ongoing availability obligations from individual-recipient POD, without quantifying replenishment's global prevalence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official answer distinguishes printer empanelment from approximately xx.xx distribution vendors and describes planned fiscal 2025-xx.xx printing of approximately xx.xx textbooks. It supports commissioning-versus-distribution separation, not a realized monetary channel split.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official answer distinguishes printer empanelment from approximately xx.xx distribution vendors and describes planned fiscal 2025-xx.xx printing of approximately xx.xx textbooks. It supports commissioning-versus-distribution separation, not a realized monetary channel split.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phased textbook supply supports treating annual institutional quantities separately from production batches; it does not disclose the medium-run allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phased textbook supply supports treating annual institutional quantities separately from production batches; it does not disclose the medium-run allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 answer identifies a xx.xx-million-copy FY2025-xx.xx printing decision versus approximately xx.xx in recent years, a counterforce to assuming rapid long-run disappearance. Planned copies are not realized service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 answer identifies a xx.xx-million-copy FY2025-xx.xx printing decision versus approximately xx.xx in recent years, a counterforce to assuming rapid long-run disappearance. Planned copies are not realized service revenue.
76. Fulfillment Fee - Lulu Direct
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2026 schedule lists USD xx.xx per order regardless of item count, supporting an order-frequency effect on associated-service value. It does not verify the assumed historical or forecast multiplier.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2026 schedule lists USD xx.xx per order regardless of item count, supporting an order-frequency effect on associated-service value. It does not verify the assumed historical or forecast multiplier.

77. InnerWorkings, Inc. - Form 10-K for the year ended December 31, 2019
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2019 filing reports USD xx.xx gross profit on USD xx.xx revenue and describes purchased-product and direct-service costs. Historical reported margins constrain the modeled xx.xx% retained-fee ratio; they do not directly measure book-channel share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2019 filing reports USD xx.xx gross profit on USD xx.xx revenue and describes purchased-product and direct-service costs. Historical reported margins constrain the modeled xx.xx% retained-fee ratio; they do not directly measure book-channel share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The procurement-service margin comparison supports the fee-to-managed-spending bridge underlying the direct-channel complement. Carrying the normalized ratio into 2032 is explicitly a forecast assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The procurement-service margin comparison supports the fee-to-managed-spending bridge underlying the direct-channel complement. Carrying the normalized ratio into 2032 is explicitly a forecast assumption.
78. Simplified Purchase Agreement - U.S. Government Publishing Office
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SPA permits agency awards directly to certified vendors for purchases up to USD xx.xx while GPO pays vendors and invoices agencies. This supports classifying by the contracting relationship rather than the invoice payer, not a numerical global weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SPA permits agency awards directly to certified vendors for purchases up to USD xx.xx while GPO pays vendors and invoices agencies. This supports classifying by the contracting relationship rather than the invoice payer, not a numerical global weight.
79. Global Print Services | China, Europe, SE Asia, USA & India
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Imago describes sourcing suppliers and coordinating multiple manufacturers for book-related projects. Its cumulative customer relationships establish the offered intermediary role but are not annual revenue or allocation weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Imago describes sourcing suppliers and coordinating multiple manufacturers for book-related projects. Its cumulative customer relationships establish the offered intermediary role but are not annual revenue or allocation weights.
80. Lion Rock Group Limited - Annual Report 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-business 2025 turnover changes of minus xx.xx% for APOL and minus xx.xx% for Regent challenge uniform intermediary growth; Regent's non-book focus limits its relevance. These observations support avoiding an additional adoption uplift.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-business 2025 turnover changes of minus xx.xx% for APOL and minus xx.xx% for Regent challenge uniform intermediary growth; Regent's non-book focus limits its relevance. These observations support avoiding an additional adoption uplift.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Manufacturing turnover changes of minus xx.xx% at xx.xx Printing and plus xx.xx% at Papercraft demonstrate differing supplier trajectories rather than a simple common channel-growth pattern; these are not direct-contracting market shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Manufacturing turnover changes of minus xx.xx% at xx.xx Printing and plus xx.xx% at Papercraft demonstrate differing supplier trajectories rather than a simple common channel-growth pattern; these are not direct-contracting market shares.

81. Imprint Digital - Book Printing Prices UK

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected schedule quotes GBP xx.xx at xx.xx copies for one paperback specification, supporting a relative-price input, not a historical global realization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected schedule quotes GBP xx.xx at xx.xx copies for one paperback specification, supporting a relative-price input, not a historical global realization.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: GBP xx.xx at xx.xx copies supplies the medium-run reference index; format and delivery differences require separate treatment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GBP xx.xx at xx.xx copies supplies the medium-run reference index; format and delivery differences require separate treatment.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The quantity-price curve anchors the reference from which the long-run discount is assumed; no long-run price or future share is disclosed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The quantity-price curve anchors the reference from which the long-run discount is assumed; no long-run price or future share is disclosed.

82. Print Options

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: KDP distinguishes black-and-white from color records and locks ink type after publication. These platform-specific conditions qualify switching assumptions, not market weights. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: KDP distinguishes black-and-white from color records and locks ink type after publication. These platform-specific conditions qualify switching assumptions, not market weights. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The displayed platform menu does not establish designated spot-color availability or sales; a general color option is not used as evidence of spot-color demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The displayed platform menu does not establish designated spot-color availability or sales; a general color option is not used as evidence of spot-color demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Standard color is unavailable for hardcover, but premium color is available. Both process-color tiers belong within the modeled Full-Color Interiors category. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Standard color is unavailable for hardcover, but premium color is available. Both process-color tiers belong within the modeled Full-Color Interiors category. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))

83. Synthèse des chiffres de l'édition jeunesse 2024-2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The primary French publishing survey reports a xx.xx% decline in illustrated early-childhood volumes and a xx.xx% decline in youth-fiction volumes in 2024. These differing outcomes challenge an aggressive universal color-growth assumption. ([sne.fr](https://www.sne.fr/actu/synthese-des-chiffres-de-ledition-jeunesse-2024-2025/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The primary French publishing survey reports a xx.xx% decline in illustrated early-childhood volumes and a xx.xx% decline in youth-fiction volumes in 2024. These differing outcomes challenge an aggressive universal color-growth assumption. ([sne.fr](https://www.sne.fr/actu/synthese-des-chiffres-de-ledition-jeunesse-2024-2025/))

Table 661. Spain Book Printing & Packaging Services Market Size, by Interior Color, 2017-2040 (USD Million)

Interior Color	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Black-and-White Interiors	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Full-Color Interiors	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Spot-Color Interiors	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Sources & Evidence

1. European Book Publishing Statistics 2024
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: European publishers reported approximately EUR xx.xx of net book-sales revenue in 2024. The disclosed ebook and audiobook proportions inform the modeled xx.xx% physical-book revenue proportion; publisher revenue is an input, not printing-service revenue.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 publisher-revenue and format observations provide the European demand input carried into the 2025 estimate.

2. The Global Publishing Industry in 2022

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Table xx.xx supplies country-level publishing revenues and identifies differences between retail-value, publisher-revenue, print-only and prior-year observations. Selected non-European country observations are adjusted for physical formats and period before estimating production spending.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The selected country observations contribute to the demand pool underlying the 2025 working estimate. Nielsen retail datasets elsewhere in the publication are not used.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Primary survey sector differences constrain the education-adjusted hardcover proxy.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Primary survey sector differences constrain the education-adjusted hardcover proxy.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Educational/trade differences qualify extrapolation of U.S. consumer-format revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Educational/trade differences qualify extrapolation of U.S. consumer-format revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx of surveyed children's publishing revenue anchors the modeled specialty demand pool, not supplier receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx of surveyed children's publishing revenue anchors the modeled specialty demand pool, not supplier receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sector data constrain the commissioning-pool proxy; mechanical incidence remains assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sector data constrain the commissioning-pool proxy; mechanical incidence remains assumed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Educational demand supplies a common economic anchor; loose-leaf incidence remains modeled.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Educational demand supplies a common economic anchor; loose-leaf incidence remains modeled.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sector observations constrain the educational short-book commissioning pool.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sector observations constrain the educational short-book commissioning pool.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The commissioning-pool anchor supports an explicit sparse-format incidence model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The commissioning-pool anchor supports an explicit sparse-format incidence model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors the accordion working estimate, not observed accordion orders.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors the accordion working estimate, not observed accordion orders.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed textile-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed textile-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed bath-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed bath-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed foam-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed foam-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original publishing survey documents country-level trade/education revenue differences used to constrain the modeled physical-publishing mix; it does not directly measure service shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original publishing survey documents country-level trade/education revenue differences used to constrain the modeled physical-publishing mix; it does not directly measure service shares.

3. 2024 年新闻出版统计公报

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: For 2024, the official table reports xx.xx book copies or sheets and CNY xx.xx of book-publishing revenue. These constrain the demand bridge and historical contraction, rather than directly measuring printing-service sales.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 book-publishing observation supplies the Chinese demand primitive for the 2025 model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official 2024 output of xx.xx copies/sheets constrains total modeled publisher activity; it does not disclose single-copy production.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official 2024 output of xx.xx copies/sheets constrains total modeled publisher activity; it does not disclose single-copy production.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Aggregate copies and annual title output constrain the shared activity model, not an observed short-run share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Aggregate copies and annual title output constrain the shared activity model, not an observed short-run share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Aggregate production provides a scale check for the medium-run assumption; annual copies per title are not individual batches.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Aggregate production provides a scale check for the medium-run assumption; annual copies per title are not individual batches.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx annual copies per title constrain the long-run scenario without proving its batch mix or forecast.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx annual copies per title constrain the long-run scenario without proving its batch mix or forecast.

4. Foreign Exchange Rates - G.5A Annual, January 5, 2026

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: The official 2024 annual-average conversion inputs are USD xx.xx per EUR, CNY xx.xx per USD and CAD xx.xx per USD.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The exchange-rate table establishes the conversion basis of the preceding-year demand inputs used in the 2025 estimate; subsequent effective-USD price assumptions are modeled separately.

5. Book publishing industry, 2024 - Statistics Canada
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Canadian publishers reported CAD xx.xx of print sales outside the online category and CAD xx.xx of online print sales in 2024. Their sum, rather than total operating revenue, supplies the physical-book demand input.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: Reported cost of goods sold of CAD xx.xx, up CAD xx.xx from 2022, supplies a cost-pressure cross-check, not a directly attributable printing-services total.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Canadian online versus other print-sales values constrain parcel exposure, with explicit value-to-unit and geographic limitations.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Canadian online versus other print-sales values constrain parcel exposure, with explicit value-to-unit and geographic limitations.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed envelope purchases.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed envelope purchases.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed bag purchases.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed bag purchases.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Modest observed online-print growth qualifies aggressive parcel-related wrapping assumptions.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Modest observed online-print growth qualifies aggressive parcel-related wrapping assumptions.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring separate protection.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring separate protection.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring closures.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring closures.
6. U.S. Census Bureau - Books Printing: Shipments, annual table
   - Evidence informing the 2017 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2017; this is a national production anchor for the historical model.
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2018.
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2019.
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2020.
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2021.
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2022.
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2024. This national industrial measure is narrower than the composite global service boundary.

7. U.S. Census Bureau - Book Publishers, All Establishments: Revenue, annual table
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: The Census annual series reports USD xx.xx of U.S. book-publisher revenue for 2024. A modeled xx.xx% physical-book proportion excludes digital and other adjacent receipts.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 Census observation replaces an older survey-based U.S. revenue bridge in the demand pool underlying 2025.

8. Scholastic Corporation - Form 10-K for the year ended May 31, 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Scholastic's fiscal 2024 product, service, production and inventory-reserve costs were xx.xx% of revenue; postage, freight, shipping, fulfillment and other costs were xx.xx%. These broad categories constrain, but do not directly establish, eligible outsourced-service spending.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The corresponding fiscal 2025 proportions were xx.xx% and xx.xx%. Royalties and prepublication amortization are separately disclosed, allowing their exclusion from the service-market bridge.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 product, service, production and inventory-reserve costs were xx.xx% of revenue. The broader cost category constrains the manufacturing spending boundary but does not directly disclose printing-service revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 product, service, production and inventory-reserve costs were xx.xx% of revenue. The broader cost category constrains the manufacturing spending boundary but does not directly disclose printing-service revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Prepublication amortization is disclosed separately from production costs, supporting exclusion of adjacent amortization rather than equating it with externally purchased prepress.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Prepublication amortization is disclosed separately from production costs, supporting exclusion of adjacent amortization rather than equating it with externally purchased prepress.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Postage, freight, shipping, fulfillment and other costs were xx.xx% of revenue in fiscal 2025 versus xx.xx% in fiscal 2024. This is a broad buyer-cost check, not an eligible outsourced-fulfillment share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Postage, freight, shipping, fulfillment and other costs were xx.xx% of revenue in fiscal 2025 versus xx.xx% in fiscal 2024. This is a broad buyer-cost check, not an eligible outsourced-fulfillment share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Outsourced manufacturing coexists with company-operated distribution. Fiscal-2025 production-related costs were xx.xx% of revenue, constraining the inherited spending bridge rather than directly measuring the assumed route fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Outsourced manufacturing coexists with company-operated distribution. Fiscal-2025 production-related costs were xx.xx% of revenue, constraining the inherited spending bridge rather than directly measuring the assumed route fraction.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Book-club revenue was xx.xx% online-ordered and xx.xx% parent-ordered, while products typically went to classrooms. This challenges the use of online sales as a proxy for the external contractor's delivery model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Book-club revenue was xx.xx% online-ordered and xx.xx% parent-ordered, while products typically went to classrooms. This challenges the use of online sales as a proxy for the external contractor's delivery model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct printer-to-customer fulfillment is a disclosed option. Broader logistics/other costs were xx.xx% of revenue versus xx.xx% previously, providing a cost-boundary check but no global order-level share or service-price growth observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct printer-to-customer fulfillment is a disclosed option. Broader logistics/other costs were xx.xx% of revenue versus xx.xx% previously, providing a cost-boundary check but no global order-level share or service-price growth observation.

9. CEWE achieves all targets in 2025 and aims to further increase revenue and earnings in 2026

- Evidence informing the 2025 market-value input; displayed series and growth include calculations: CEWE reported xx.xx CEWE PHOTOBOOK copies in 2025 versus xx.xx in 2024, supporting a positive specialty-book volume assumption without establishing global adoption.
- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Observed 2025 photobook growth informs the specialty-demand assumption for 2026; the market value remains modeled.
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The observed specialty-book activity is a starting condition for the forecast, not independent proof of continued growth through 2032.
- Evidence informing the 2040 market-value input; displayed series and growth include calculations: The forecast explicitly slows specialty-demand growth after 2032; this source supplies the initial commercial observation, not the long-term growth rate.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: CEWE reports xx.xx photobooks in 2025 compared with xx.xx in 2024. This independently establishes specialty-book activity underlying the nonpublisher model, without establishing a global expansion factor.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CEWE reports xx.xx photobooks in 2025 compared with xx.xx in 2024. This independently establishes specialty-book activity underlying the nonpublisher model, without establishing a global expansion factor.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports retaining premium specialty commissions in the manufacturing mix; the binding allocation and unchanged future cohort profile remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports retaining premium specialty commissions in the manufacturing mix; the binding allocation and unchanged future cohort profile remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported photobook volumes constrain personal-book activity and the nonpublisher starting condition, not hardcover prevalence or future share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported photobook volumes constrain personal-book activity and the nonpublisher starting condition, not hardcover prevalence or future share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Photobook activity supports the separate personal-book commissioning block; its softcover fraction remains assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Photobook activity supports the separate personal-book commissioning block; its softcover fraction remains assumed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported photobook copies rose from xx.xx to xx.xx; the narrower 2026 target qualifies strong specialty-growth assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported photobook copies rose from xx.xx to xx.xx; the narrower 2026 target qualifies strong specialty-growth assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specialty-book activity constrains the presentation-demand scenario but does not measure gift-box attachment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specialty-book activity constrains the presentation-demand scenario but does not measure gift-box attachment.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CEWE PHOTOBOOK units in 2025 versus xx.xx in 2024, constraining the specialty-book demand budget without establishing a global process split.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CEWE PHOTOBOOK units in 2025 versus xx.xx in 2024, constraining the specialty-book demand budget without establishing a global process split.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports the common photographic-demand input; electrophotographic attribution remains an explicit assumption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports the common photographic-demand input; electrophotographic attribution remains an explicit assumption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The photobook

10. Paperback Printing Cost - Kindle Direct Publishing

- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The inspected U.S. paperback schedule charges USD xx.xx plus USD xx.xx per page for the specified regular-trim black-ink category. It provides a contemporary commercial price comparison for the assumed USD xx.xx self-publishing production receipt, not an observed historical price or volume.
- Evidence informing the 2026 market-value input; displayed series and growth include calculations: The schedule distinguishes printing charges from royalties and retail list prices, supporting the production-receipt boundary used in the estimate.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule uses USD xx.xx plus USD xx.xx per page for the relevant page band, yielding the USD xx.xx representative manufacturing comparator. It anchors relative weights, not an observed global 2025 price or future share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule uses USD xx.xx plus USD xx.xx per page for the relevant page band, yielding the USD xx.xx representative manufacturing comparator. It anchors relative weights, not an observed global 2025 price or future share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The paperback manufacturing comparator supplies the baseline from which the modeled binding component and hardcover increment are separated.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The paperback manufacturing comparator supplies the baseline from which the modeled binding component and hardcover increment are separated.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The separately identified paperback printing charge constrains the self-publishing production-receipt model and its distinction from retail proceeds.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The separately identified paperback printing charge constrains the self-publishing production-receipt model and its distinction from retail proceeds.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page. It is a contemporary production-charge comparison for the modeled USD xx.xx receipt, not an observed historical Global average.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page. It is a contemporary production-charge comparison for the modeled USD xx.xx receipt, not an observed historical Global average.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The relevant current U.S. paperback printing schedule is USD xx.xx plus USD xx.xx per page, giving USD xx.xx at xx.xx pages. This is a commercial price comparison for creator-production receipts, not proof of 2025 realization, volume or fulfillment mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The relevant current U.S. paperback printing schedule is USD xx.xx plus USD xx.xx per page, giving USD xx.xx at xx.xx pages. This is a commercial price comparison for creator-production receipts, not proof of 2025 realization, volume or fulfillment mix.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule of USD xx.xx plus USD xx.xx per page gives USD xx.xx at xx.xx pages, a magnitude check for modeled single-copy receipts. It establishes neither global volume nor historical or forecast share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule of USD xx.xx plus USD xx.xx per page gives USD xx.xx at xx.xx pages, a magnitude check for modeled single-copy receipts. It establishes neither global volume nor historical or forecast share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page, yielding USD xx.xx for xx.xx pages. This is a contemporary price comparator, not a historical global average. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834340))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page, yielding USD xx.xx for xx.xx pages. This is a contemporary price comparator, not a historical global average. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834340))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The comparable standard and premium color charges calculate to USD xx.xx and USD xx.xx. They constrain relative

11. European Book Publishing Statistics 2017

- Evidence informing the 2017 market-value input; displayed series and growth include calculations: The association's primary survey reports approximately EUR xx.xx of European net publisher revenue for 2017, constraining the pre-pandemic demand level.

12. European Book Publishing Statistics 2019

- Evidence informing the 2018 market-value input; displayed series and growth include calculations: The association reports approximately EUR xx.xx of publisher revenue for 2018.
- Evidence informing the 2019 market-value input; displayed series and growth include calculations: The association reports approximately EUR xx.xx for 2019 and identifies a questionnaire change that limits exact comparability with earlier observations.

13. 2021 年新闻出版产业分析报告

- Evidence informing the 2020 market-value input; displayed series and growth include calculations: The official report's 2021 comparison identifies a substantial rebound from 2020, constraining the pandemic-recovery bridge.
- Evidence informing the 2021 market-value input; displayed series and growth include calculations: China reported xx.xx book copies or sheets in 2021, up xx.xx%; the report also distinguishes textbook output and reprints.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: China's official 2021 textbook share was xx.xx% of book copies. It supplies an older educational-activity proxy, not a monochrome share.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: China's official 2021 textbook share was xx.xx% of book copies. It supplies an older educational-activity proxy, not a monochrome share.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The textbook copy proportion constrains educational exposure; comparable monetary intensity and spot-color incidence are modeled separately.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The textbook copy proportion constrains educational exposure; comparable monetary intensity and spot-color incidence are modeled separately.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational-activity observation contributes to the shared demand proxy carried into the full-color base and forecast models; no color split is reported.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational-activity observation contributes to the shared demand proxy carried into the full-color base and forecast models; no color split is reported.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))

14. European Book Publishing Statistics 2023

- Evidence informing the 2022 market-value input; displayed series and growth include calculations: European net publisher revenue was approximately EUR xx.xx in 2022; the association describes paper-cost pressure and price-led growth.

15. Hardcover Printing Cost - Kindle Direct Publishing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim hardcover schedule uses USD xx.xx plus USD xx.xx per page in the relevant band. Comparison with paperback charges constrains the premium-equivalent manufacturing model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim hardcover schedule uses USD xx.xx plus USD xx.xx per page in the relevant band. Comparison with paperback charges constrains the premium-equivalent manufacturing model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD xx.xx fixed-charge difference supplies the POD premium input; the xx.xx% commercial-run realization and premium incidence are explicitly modeled rather than disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD xx.xx fixed-charge difference supplies the POD premium input; the xx.xx% commercial-run realization and premium incidence are explicitly modeled rather than disclosed.
16. User Fees - University of Wisconsin-Milwaukee Print & Copy Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The university service schedule separately prices preflight/prepress preparation at USD xx.xx per hour, establishing a paid preparation activity rather than an automatic component of every printing-platform purchase.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The university service schedule separately prices preflight/prepress preparation at USD xx.xx per hour, establishing a paid preparation activity rather than an automatic component of every printing-platform purchase.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Perfect binding is listed at USD xx.xx-xx.xx per book. The lower endpoint is the model's basic-binding comparator, not a measured worldwide realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Perfect binding is listed at USD xx.xx-xx.xx per book. The lower endpoint is the model's basic-binding comparator, not a measured worldwide realization.

17. How Much Does It Cost to Print a Book? - QinPrinting
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier's delivered xx.xx-page, xx.xx-copy color-book examples list USD xx.xx for softcover and USD xx.xx for hardcover. They provide a commercial-run countercheck, with delivery and product differences preventing direct substitution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier's delivered xx.xx-page, xx.xx-copy color-book examples list USD xx.xx for softcover and USD xx.xx for hardcover. They provide a commercial-run countercheck, with delivery and product differences preventing direct substitution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The smaller hardcover premium in this offset example qualifies extrapolation of the full POD hardcover increment into binding revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The smaller hardcover premium in this offset example qualifies extrapolation of the full POD hardcover increment into binding revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Comparable hardcover and softcover quotations constrain the assumed relative manufacturing realization after scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Comparable hardcover and softcover quotations constrain the assumed relative manufacturing realization after scope adjustments.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Softcover prices provide a commercial comparison, not a historical global average.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Softcover prices provide a commercial comparison, not a historical global average.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Board-book quotations constrain the assumed production receipt; delivery and duties require adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Board-book quotations constrain the assumed production receipt; delivery and duties require adjustment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Mechanical-binding quotations constrain the unit-receipt assumption, not incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Mechanical-binding quotations constrain the unit-receipt assumption, not incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Short-booklet quotations constrain the lower realization used for eligible saddle-stitched books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Short-booklet quotations constrain the lower realization used for eligible saddle-stitched books.
18. Book Wrap Mailers / Book Boxes - Packaging ONE
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer lists MP2 book mailers at GBP xx.xx each for xx.xx packs of xx.xx excluding VAT. The converted unit price supplies the packaging-creation value proxy, not a global average or a historical quote.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer lists MP2 book mailers at GBP xx.xx each for xx.xx packs of xx.xx excluding VAT. The converted unit price supplies the packaging-creation value proxy, not a global average or a historical quote.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The enclosure price forms the other side of the creation-versus-packing ratio. One comparable enclosure per packing unit is an explicit activity-matching assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The enclosure price forms the other side of the creation-versus-packing ratio. One comparable enclosure per packing unit is an explicit activity-matching assumption.

19. Foreign Exchange Rates - G.5A Annual, January 5, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 annual average is USD xx.xx per GBP. It converts the GBP packaging comparator into the common monetary basis used in the starting allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 annual average is USD xx.xx per GBP. It converts the GBP packaging comparator into the common monetary basis used in the starting allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same conversion supports the common-currency packaging/packing denominator inherited by the forecast; no 2032 exchange rate is asserted.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same conversion supports the common-currency packaging/packing denominator inherited by the forecast; no 2032 exchange rate is asserted.
20. Optional Book Publishing Services - InstantPublisher
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider lists layout/typesetting at USD xx.xx per page with a USD xx.xx minimum. This supports the preparation-spending feasibility check, with purchase incidence and copies per job remaining assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider lists layout/typesetting at USD xx.xx per page with a USD xx.xx minimum. This supports the preparation-spending feasibility check, with purchase incidence and copies per job remaining assumptions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Individual shrink-wrapping is listed at USD xx.xx each plus USD xx.xx setup. Amortizing setup over an assumed xx.xx copies gives the USD xx.xx packing comparator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Individual shrink-wrapping is listed at USD xx.xx each plus USD xx.xx setup. Amortizing setup over an assumed xx.xx copies gives the USD xx.xx packing comparator.
21. How Does Merchant Pricing Work for Ecommerce Stores? - Lulu Direct
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2026 merchant-pricing explanation identifies a USD xx.xx fulfillment fee and separates merchant retail receipts from payments for supplier production, shipping and taxes. The fee is a contemporary feasibility comparator, not verified 2025 penetration or a future charge.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2026 merchant-pricing explanation identifies a USD xx.xx fulfillment fee and separates merchant retail receipts from payments for supplier production, shipping and taxes. The fee is a contemporary feasibility comparator, not verified 2025 penetration or a future charge.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Merchant retail receipts are separate from payments for printing and fulfillment. The current page lists a USD xx.xx fulfillment fee, with shipping and taxes separately calculated. This supports the service-value boundary, not a historical average fee or global order volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Merchant retail receipts are separate from payments for printing and fulfillment. The current page lists a USD xx.xx fulfillment fee, with shipping and taxes separately calculated. This supports the service-value boundary, not a historical average fee or global order volume.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lulu identifies separate retail and production/fulfillment transactions and a USD xx.xx fulfillment fee. This supports excluding merchant retail margins from production-service value and avoiding automatic procurement-channel classification from the storefront.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lulu identifies separate retail and production/fulfillment transactions and a USD xx.xx fulfillment fee. This supports excluding merchant retail margins from production-service value and avoiding automatic procurement-channel classification from the storefront.

22. AAP December 2025 StatShot Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The primary monthly reporting panel's full-year 2025 trade figures show paperback revenue down xx.xx%. This qualifies broad physical-book growth assumptions and supplies directional mix evidence only.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The primary monthly reporting panel's full-year 2025 trade figures show paperback revenue down xx.xx%. This qualifies broad physical-book growth assumptions and supplies directional mix evidence only.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same approximately xx.xx-publisher panel shows hardcover revenue up xx.xx%. It supports a modest premium-mix hypothesis but neither measures global binding spending nor proves the forecast.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same approximately xx.xx-publisher panel shows hardcover revenue up xx.xx%. It supports a modest premium-mix hypothesis but neither measures global binding spending nor proves the forecast.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct-participant 2025 hardback revenue of approximately USD xx.xx anchors the adjusted conventional-format model; it is not printing revenue or a global share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct-participant 2025 hardback revenue of approximately USD xx.xx anchors the adjusted conventional-format model; it is not printing revenue or a global share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported paperback revenue of approximately USD xx.xx plus USD xx.xx mass-market revenue supplies the comparison input. Reported annual movements qualify the forecast starting mix, not its future persistence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported paperback revenue of approximately USD xx.xx plus USD xx.xx mass-market revenue supplies the comparison input. Reported annual movements qualify the forecast starting mix, not its future persistence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct publisher-sample religious and trade physical-format receipts provide a category-intensity proxy, subject to explicit geographic and coverage adjustments.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct publisher-sample religious and trade physical-format receipts provide a category-intensity proxy, subject to explicit geographic and coverage adjustments.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported professional-book receipts and their 2025 decline challenge assumptions of automatic growth from recurring reference relationships.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported professional-book receipts and their 2025 decline challenge assumptions of automatic growth from recurring reference relationships.

23. Print and Associated Services Framework - Lot 1 Buyer Guide: Framework Objectives
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The public purchasing framework separately specifies production-management advice. It establishes a purchased responsibility but not a global fee rate or permission to count subcontract pass-through as retained revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The public purchasing framework separately specifies production-management advice. It establishes a purchased responsibility but not a global fee rate or permission to count subcontract pass-through as retained revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The framework also specifies finished-goods stock holding and call-off, with required holding costs included in the print-job price. This supports allocating embedded production-linked fulfillment rather than restricting the category to standalone invoices.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The framework also specifies finished-goods stock holding and call-off, with required holding costs included in the print-job price. This supports allocating embedded production-linked fulfillment rather than restricting the category to standalone invoices.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Finished goods may be held for call-off, with storage included in the print job where required. This supports consolidated releases as a production-linked arrangement without assuming every release is an individual order.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Finished goods may be held for call-off, with storage included in the print job where required. This supports consolidated releases as a production-linked arrangement without assuming every release is an individual order.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contractors maintain designated distribution lists, deliver to nominated addresses and receive job-specific copy allocations, supporting the modeled list-delivery category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contractors maintain designated distribution lists, deliver to nominated addresses and receive job-specific copy allocations, supporting the modeled list-delivery category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The coexistence of stock holding, call-off and distribution-list obligations supports separating production trigger from fulfillment responsibility; call-off alone does not establish transaction-level fulfillment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The coexistence of stock holding, call-off and distribution-list obligations supports separating production trigger from fulfillment responsibility; call-off alone does not establish transaction-level fulfillment.

24. Frequently Asked Questions - IngramSpark
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: IngramSpark states that it does not provide editing, typesetting or design services. This counterexample prevents treating all platform manufacturing commissions as purchases of professional preparation services.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: IngramSpark states that it does not provide editing, typesetting or design services. This counterexample prevents treating all platform manufacturing commissions as purchases of professional preparation services.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider permits nonexclusive sourcing when the customer owns its ISBN and does not offer editing, typesetting or design. These terms constrain the author service boundary, not adoption or revenue growth.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider permits nonexclusive sourcing when the customer owns its ISBN and does not offer editing, typesetting or design. These terms constrain the author service boundary, not adoption or revenue growth.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: IngramSpark permits nonexclusive use of other printers, distributors and fulfillment providers when publishers own their ISBN. This establishes an alternative-sourcing option, not observed switching or a numerical channel allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: IngramSpark permits nonexclusive use of other printers, distributors and fulfillment providers when publishers own their ISBN. This establishes an alternative-sourcing option, not observed switching or a numerical channel allocation.
25. Packaging Printing & Production - Imago Group
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier identifies book slipcases, clamshell cases, tray-and-lid constructions and multicomponent publisher packaging. This supports the enclosure-production boundary and the limitation of a simple mailer-price proxy; it does not supply sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier identifies book slipcases, clamshell cases, tray-and-lid constructions and multicomponent publisher packaging. This supports the enclosure-production boundary and the limitation of a simple mailer-price proxy; it does not supply sales weights.
26. Services - Bridgeport National Bindery
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The short-run book-production portfolio separately lists shrink-wrapping and set packing. It establishes commercial packing activity distinct from enclosure manufacture and binding, without measuring its revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The short-run book-production portfolio separately lists shrink-wrapping and set packing. It establishes commercial packing activity distinct from enclosure manufacture and binding, without measuring its revenue.
27. Terms and Conditions - CPI Print Germany
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published terms distinguish ex-works production prices from packaging, freight and postage and reserve specified input-cost adjustment rights. They support comparable-scope valuation but do not establish realized inflation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published terms distinguish ex-works production prices from packaging, freight and postage and reserve specified input-cost adjustment rights. They support comparable-scope valuation but do not establish realized inflation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate treatment of forwarding and storage responsibilities supports the eligible production-linked service boundary; contractual rights do not prove the assumed future fee-growth rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate treatment of forwarding and storage responsibilities supports the eligible production-linked service boundary; contractual rights do not prove the assumed future fee-growth rate.

28. ONIX Codelists Issue 75 - List 150: Product Form
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BB identifies hardback/cased books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BB identifies hardback/cased books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BC identifies paperback/softback books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BC identifies paperback/softback books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BH distinguishes board-page books from conventional books with rigid covers.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BH distinguishes board-page books from conventional books with rigid covers.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BE groups spiral, comb and coil forms.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BE groups spiral, comb and coil forms.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BD identifies loose-leaf books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BD identifies loose-leaf books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BF includes stapled short books; nonbook uses are excluded from the model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BF includes stapled short books; nonbook uses are excluded from the model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BL recognizes slide-bound books without measuring current sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BL recognizes slide-bound books without measuring current sales.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BO recognizes continuous concertina-fold books; nonbook charts are excluded.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BO recognizes continuous concertina-fold books; nonbook charts are excluded.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BI identifies textile-page books, not cloth-covered paper books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BI identifies textile-page books, not cloth-covered paper books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BJ identifies waterproof bath-book forms.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BJ identifies waterproof bath-book forms.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BP identifies foam-page and foam-cover books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BP identifies foam-page and foam-cover books.

29. Thomson Reuters - Fourth-Quarter and Full-Year 2025 Results
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Global Print revenue and contraction constrain professional-print scale and substitution direction; content receipts are not treated as loose-leaf service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Global Print revenue and contraction constrain professional-print scale and substitution direction; content receipts are not treated as loose-leaf service revenue.
30. Lulu - Discontinuing Saddle Stitch in Global Distribution
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provider-specific wholesale distribution restrictions establish a channel constraint, not a global sales weight or measured forecast decline.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provider-specific wholesale distribution restrictions establish a channel constraint, not a global sales weight or measured forecast decline.
31. MAGACOPY Sofia - Copying and Printing Prices
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A current EUR xx.xx binding-only charge establishes a live commercial service and a price-scope comparison; full-book USD receipts and incidence remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A current EUR xx.xx binding-only charge establishes a live commercial service and a price-scope comparison; full-book USD receipts and incidence remain assumed.
32. Imago Group - Spotlight on Children's Books for National Young Readers Week
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's children's portfolio supports board-book commercial classification, not order volumes.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's children's portfolio supports board-book commercial classification, not order volumes.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cloth-book offerings support the textile-page category premise, not its modeled incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cloth-book offerings support the textile-page category premise, not its modeled incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bath-book offerings support a separate commercial category; sales and service receipts are undisclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bath-book offerings support a separate commercial category; sales and service receipts are undisclosed.
33. Pegasus - My First Book of Shapes: EVA Foam Book
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The dated 2025 product identifies foam pages and supports commercial-status and classification checks, not global volume or supplier realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated 2025 product identifies foam pages and supports commercial-status and classification checks, not global volume or supplier realization.

34. U.S. Consumer Product Safety Commission - Children's Books
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Product classification and intended audience affect commercial compliance accountability; no numerical surcharge is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Product classification and intended audience affect commercial compliance accountability; no numerical surcharge is inferred.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The exemption boundary supports separate classification rather than assumed conventional-book treatment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The exemption boundary supports separate classification rather than assumed conventional-book treatment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Compliance classification is retained as an uncertainty, not an exclusion or measured price premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Compliance classification is retained as an uncertainty, not an exclusion or measured price premium.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specialty construction does not itself establish ordinary-book exemption eligibility or market inactivity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specialty construction does not itself establish ordinary-book exemption eligibility or market inactivity.
35. Puget Bindery - Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider identifies training manuals and reference guides as mechanical-binding applications, supporting the commissioning premise without measuring sales incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider identifies training manuals and reference guides as mechanical-binding applications, supporting the commissioning premise without measuring sales incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists commercial letterpress book plates and specialty inserts, supporting a component-service model rather than attribution of the entire book price.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists commercial letterpress book plates and specialty inserts, supporting a component-service model rather than attribution of the entire book price.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The bindery identifies commercial printers, publishers and corporate print buyers as customers and excludes direct-to-consumer sales. This supports trade-purchasing attribution but supplies no sales percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The bindery identifies commercial printers, publishers and corporate print buyers as customers and excludes direct-to-consumer sales. This supports trade-purchasing attribution but supplies no sales percentage.

36. ONIX Codelists Issue 75 - List 80: Product Packaging Type
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates single-item and multivolume slipcases; supplies classification, not sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates single-item and multivolume slipcases; supplies classification, not sales weights.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes lidded boxes from slipcase-style boxed sets.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes lidded boxes from slipcase-style boxed sets.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-ended wraparound sleeves are distinct from enclosed wrapping.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-ended wraparound sleeves are distinct from enclosed wrapping.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes envelope-like slip-sleeves and wallets or folders.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes envelope-like slip-sleeves and wallets or folders.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes pouch and bag packaging independently.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes pouch and bag packaging independently.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately recognizes shrink-wrapped products and bundles.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately recognizes shrink-wrapped products and bundles.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Defines formed-plastic clamshells and card-backed blister packaging as distinct constructions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Defines formed-plastic clamshells and card-backed blister packaging as distinct constructions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Explicitly recognizes book browse-prevention closures.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Explicitly recognizes book browse-prevention closures.

37. U.S. Government Publishing Office - Program 827-S: Federal Aviation Administration Books, Contract Pricing and Specifications

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Historical evaluation quantities provide a container-heavy institutional purchasing counterexample, not global shipment shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Historical evaluation quantities provide a container-heavy institutional purchasing counterexample, not global shipment shares.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies kraft-envelope packing within the book procurement.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies kraft-envelope packing within the book procurement.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies cushioned shipping bags as an eligible book-order enclosure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies cushioned shipping bags as an eligible book-order enclosure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Includes wrapped shipping bundles as an alternative purchasing configuration.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Includes wrapped shipping bundles as an alternative purchasing configuration.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Requires packing and filler separately from the external enclosure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Requires packing and filler separately from the external enclosure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies closure tape and securing straps independently of container construction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies closure tape and securing straps independently of container construction.

38. U.S. Government Publishing Office - Print Order Form 2511 Instructions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specifies paper-banded sets separately from shrink-wrapped sets.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specifies paper-banded sets separately from shrink-wrapped sets.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes shrink-wrapped units nested within cartons, supporting component attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes shrink-wrapped units nested within cartons, supporting component attribution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes internal packaging, container quantities and pallet requirements.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes internal packaging, container quantities and pallet requirements.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The instructions distinguish nominated delivery addresses and warehouse receiving arrangements, supporting the receiving-point attribution premise, not an observed consolidated market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The instructions distinguish nominated delivery addresses and warehouse receiving arrangements, supporting the receiving-point attribution premise, not an observed consolidated market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supplemental distribution lists accommodate multiple destinations, supporting the distinction between preallocated destination delivery and a single receiving-point handoff.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supplemental distribution lists accommodate multiple destinations, supporting the distinction between preallocated destination delivery and a single receiving-point handoff.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: GPO specifies black interior inks separately from cover inks, supporting the monochrome classification and underlying-book attribution premise, not its modeled sales weight. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GPO specifies black interior inks separately from cover inks, supporting the monochrome classification and underlying-book attribution premise, not its modeled sales weight. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Designated Pantone specifications are recognized for interior inks, supporting a separate spot-color commercial category without measuring its share. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Designated Pantone specifications are recognized for interior inks, supporting a separate spot-color commercial category without measuring its share. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Four-color process is identified as full color for interior pages; cover color is separately specified. This supports classification at both modeled anchors. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Four-color process is identified as full color for interior pages; cover color is separately specified. This supports classification at both modeled anchors. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))

39. GPOExpress Program Pricing Guide - November 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx hand folding provides a handling-cost comparison; the complete band realization remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx hand folding provides a handling-cost comparison; the complete band realization remains modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx per shrink wrap anchors a small-run comparison, not the assumed global realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx per shrink wrap anchors a small-run comparison, not the assumed global realization.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx auxiliary insertion supplies a handling-price comparison, not protective-material sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx auxiliary insertion supplies a handling-price comparison, not protective-material sales.
40. Hardcover Book Protection: Dust Jackets or Slipcases?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-product EXW slipcase prices of USD xx.xx, USD xx.xx and USD xx.xx at xx.xx xx.xx and xx.xx units constrain relative realizations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-product EXW slipcase prices of USD xx.xx, USD xx.xx and USD xx.xx at xx.xx xx.xx and xx.xx units constrain relative realizations.
41. Book Printing Cost in China: How Printing Prices Are Calculated
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately USD xx.xx per export carton including basic packing materials constrains the bulk-package budget; the container allocation is modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately USD xx.xx per export carton including basic packing materials constrains the bulk-package budget; the container allocation is modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its cushioning split is assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its cushioning split is assumed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its closure split is assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its closure split is assumed.
42. Make Believe Ideas - Independent Retail Catalog 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 catalog identifies activity books with cover-mounted blisters, establishing book-specific participation but not packaging revenue or volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 catalog identifies activity books with cover-mounted blisters, establishing book-specific participation but not packaging revenue or volume.
43. Bookmobile - Request Book Printing Quotes the Right Way to Save Money
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The printer's bookstore-oriented purchasing guidance cautions against universal shrink-wrap attachment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The printer's bookstore-oriented purchasing guidance cautions against universal shrink-wrap attachment.

44. Digital Book Printing - Bookmobile
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current book-production portfolio separately offers poly bags, supporting commercial category participation rather than a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current book-production portfolio separately offers poly bags, supporting commercial category participation rather than a sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current portfolio offers shrink-wrap independently of other finishing options.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current portfolio offers shrink-wrap independently of other finishing options.
45. Sell Books on Shopify - Lulu
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The offered storefront-to-print-and-ship route supports an accessible production-linked parcel channel, not assumed demand.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct fulfillment availability supports the parcel-use scenario without establishing envelope mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct fulfillment availability supports the parcel-use scenario without establishing bag mix.
46. European Commission - New EU Rules on Packaging Enter into Application
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional packaging minimization supports a directional right-sizing premise, not a measured global box-price effect.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Waste-reduction requirements inform the bounded substitution scenario; they do not quantify band adoption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional circularity requirements inform lower lightweight-bag exposure without implying a global book-bag ban.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Material substitution remains partly internal to the combined film-and-paper category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional recyclability pressure informs the niche substitution scenario, not an observed blister-sales decline.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Empty-space reduction provides a directional premise for lower cushioning allowance per individual box.
47. Digital Printing - U.S. Government Publishing Office
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Procurement examples allow offset or digital alternatives while restricting some digital variants, supporting an acceptance- and run-mix model rather than a universal quality ranking. This is a modeling premise, not an observed process share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Procurement examples allow offset or digital alternatives while restricting some digital variants, supporting an acceptance- and run-mix model rather than a universal quality ranking. This is a modeling premise, not an observed process share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The purchasing guidance supports conditional digital substitution, not unrestricted interchangeability or an observed forecast allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The purchasing guidance supports conditional digital substitution, not unrestricted interchangeability or an observed forecast allocation.

48. Clays demonstrate dedication to digital investment
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx books annually and xx.xx books of digital capacity in an older investment statement; this constrains scale but is not a 2025 realized output mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx books annually and xx.xx books of digital capacity in an older investment statement; this constrains scale but is not a 2025 realized output mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's inkjet investment supports an existing book-production application and a conditional adoption premise, not a quantified global forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's inkjet investment supports an existing book-production application and a conditional adoption premise, not a quantified global forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The capacity/output comparison is a limited commercial check on continued conventional book production, not a direct offset revenue observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The capacity/output comparison is a limited commercial check on continued conventional book production, not a direct offset revenue observation.
49. ISO/TC 130 - Guidelines for Using Print Production Standards, Version 1.0, 2019
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes packaging use cases and printing processes, supporting allocation of gravure to book-associated components rather than the full value of a book.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes packaging use cases and printing processes, supporting allocation of gravure to book-associated components rather than the full value of a book.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies flexographic packaging applications; the book-specific spending budget and process coefficients remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies flexographic packaging applications; the book-specific spending budget and process coefficients remain modeled.
50. Premium Layflat Photo Books - PhotobookShop
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Offers bound silver-halide photographic books and distinguishes them from digitally printed alternatives, supporting the model's separate photographic category rather than an observed sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Offers bound silver-halide photographic books and distinguishes them from digitally printed alternatives, supporting the model's separate photographic category rather than an observed sales weight.
51. The Cormac McCarthy Collection - The Folio Society
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents screen-printed cloth covers on physical book editions, supporting component-level commercial attribution. It does not measure supplier component receipts or global uptake.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents screen-printed cloth covers on physical book editions, supporting component-level commercial attribution. It does not measure supplier component receipts or global uptake.

52. Risograph Digital Duplicator Order Form, 2026 - Minneapolis College of Art and Design
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2026 institutional form recognizes Risograph book/booklet orders but excludes assembly. It supports a limited application boundary, not 2025 external commercial volume; internal institutional charges are excluded from the numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2026 institutional form recognizes Risograph book/booklet orders but excludes assembly. It supports a limited application boundary, not 2025 external commercial volume; internal institutional charges are excluded from the numerator.
53. American Printing House - 2024 Annual Report
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal 2024 product sales were USD xx.xx; braille publications represented xx.xx% of product sales; xx.xx braille volumes were produced. These inputs constrain an adjusted production-realization proxy, not a global market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The decline from xx.xx braille volumes in 2022 qualifies a uniform physical-demand growth assumption and informs the slower relative forecast activity weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2024 product sales were USD xx.xx; braille publications represented xx.xx% of product sales; xx.xx braille volumes were produced. These inputs constrain an adjusted production-realization proxy, not a global market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The decline from xx.xx braille volumes in 2022 qualifies a uniform physical-demand growth assumption and informs the slower relative forecast activity weight.
54. Kodak Moments Kiosk - Kodak Alaris
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises book-capable retail kiosk equipment and a photographic-printing portfolio. Used only as a commercial-route premise for the thermal working estimate, not as evidence of thermal book-service sales, utilization or the final share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises book-capable retail kiosk equipment and a photographic-printing portfolio. Used only as a commercial-route premise for the thermal working estimate, not as evidence of thermal book-service sales, utilization or the final share.
55. 二〇二一年全国新闻出版业基本情况
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official 2021 aggregate textbook output distinguishes school, tertiary and vocational/adult activity; historical volumes require value and global-scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official 2021 aggregate textbook output distinguishes school, tertiary and vocational/adult activity; historical volumes require value and global-scope adjustments.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Secondary, primary and teaching-book aggregate sheet counts form the school activity weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Secondary, primary and teaching-book aggregate sheet counts form the school activity weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Tertiary textbook aggregate output supplies the higher-education activity input before an assumed relative-service-value adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Tertiary textbook aggregate output supplies the higher-education activity input before an assumed relative-service-value adjustment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Vocational, adult and literacy textbook output supplies the corresponding historical activity input.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Vocational, adult and literacy textbook output supplies the corresponding historical activity input.

56. Music, printed or in manuscript imports by country, 2024 - World Integrated Trade Solution
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official HS xx.xx import observations constrain the music-publication value bridge; domestic supply, physical-book eligibility and the printing-service fraction remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official HS xx.xx import observations constrain the music-publication value bridge; domestic supply, physical-book eligibility and the printing-service fraction remain modeled.
57. Bloomsbury Publishing - 2024/25 Results Presentation
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate Academic & Professional print, digital and rights/service receipts demonstrate the required physical-revenue boundary; company mix is not treated as global market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate Academic & Professional print, digital and rights/service receipts demonstrate the required physical-revenue boundary; company mix is not treated as global market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed physical academic publishing activity supports commercial applicability but does not verify the assumed global research/reference ratio.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed physical academic publishing activity supports commercial applicability but does not verify the assumed global research/reference ratio.
58. HDSB - RFSQ 26-013: Yearbook Software and Printing Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The qualification notice establishes a commissioned yearbook scope including printing, binding and school delivery; it supplies no awarded value and is not used as a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The qualification notice establishes a commissioned yearbook scope including printing, binding and school delivery; it supplies no awarded value and is not used as a sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The yearbook qualification notice restricts supply to prequalified vendors while permitting school bulk orders and individual ordering. It supports separating commissioning authority from ultimate payment, but discloses no fulfilled-order value.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The yearbook qualification notice restricts supply to prequalified vendors while permitting school bulk orders and individual ordering. It supports separating commissioning authority from ultimate payment, but discloses no fulfilled-order value.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The individual-ordering option establishes an attribution uncertainty relevant to the modeled household portion; it does not establish the assumed xx.xx% proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The individual-ordering option establishes an attribution uncertainty relevant to the modeled household portion; it does not establish the assumed xx.xx% proportion.

59. U.S. Census Bureau - 2022 Economic Census, Books Printing Questionnaire MC-32312
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official printing questionnaire supports the distinction between textbook and general-book production; recognition is not treated as a revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official printing questionnaire supports the distinction between textbook and general-book production; recognition is not treated as a revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognized coloring-book output supports treating recreational activity commissions separately from institutional textbooks according to purpose.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognized coloring-book output supports treating recreational activity commissions separately from institutional textbooks according to purpose.
60. Press Information Bureau - Department of School Education & Literacy, Year End Review 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The government review describes substantial NCERT physical-textbook activity, independently qualifying the physical-availability premise without establishing attributable supplier revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The government review describes substantial NCERT physical-textbook activity, independently qualifying the physical-availability premise without establishing attributable supplier revenue.
61. 2022 North American Industry Classification System - United States
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dedicated book-publishing activity is separated from institutional primary activities and printing without publishing, constraining the Publishing Organizations numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dedicated book-publishing activity is separated from institutional primary activities and printing without publishing, constraining the Publishing Organizations numerator.
62. U.S. Census Bureau - Books Printing: 2002
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Table xx.xx reports 2002 U.S. books-printing contract-work costs of USD xx.xx and shipments of USD xx.xx. Their ratio supplies a dated manufacturing-subcontract proxy, held constant within the forecast component.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Table xx.xx reports 2002 U.S. books-printing contract-work costs of USD xx.xx and shipments of USD xx.xx. Their ratio supplies a dated manufacturing-subcontract proxy, held constant within the forecast component.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical subcontract-cost input constrains the modeled transfer from publisher-origin commissioning to performing suppliers, without adding another gross contract value.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical subcontract-cost input constrains the modeled transfer from publisher-origin commissioning to performing suppliers, without adding another gross contract value.
63. Samfine Creation Holdings Group Limited - Form 20-F for the year ended December 31, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports USD xx.xx of 2025 book-product revenue and principally serves book traders that secure printing contracts and outsource production. This is a supplier-specific quantitative role check, not a Global allocation weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports USD xx.xx of 2025 book-product revenue and principally serves book traders that secure printing contracts and outsource production. This is a supplier-specific quantitative role check, not a Global allocation weight.

64. Ministry of Education - NCERT and Amazon Letter of Engagement, October 7, 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2024 announcement targeted xx.xx NCERT books for academic 2025-xx.xx. This is a planned institutional activity anchor; realization, eligible receipts and subsequent growth are modeled separately.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2024 announcement targeted xx.xx NCERT books for academic 2025-xx.xx. This is a planned institutional activity anchor; realization, eligible receipts and subsequent growth are modeled separately.
65. Bangladesh e-GP - NCTB/TEXTBOOK/2025, Package GD.102_SEC_8.031
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The government-funded procurement plan specifies xx.xx academic-2025 textbook copies and an estimated BDT xx.xx for printing, binding and supply. It constrains commercial order scale and local unit-budget plausibility, not realized annual revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The government-funded procurement plan specifies xx.xx academic-2025 textbook copies and an estimated BDT xx.xx for printing, binding and supply. It constrains commercial order scale and local unit-budget plausibility, not realized annual revenue.
66. Students suffer as NCTB fails to deliver books - The Daily Star, January 17, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 report corroborates the dated approximately xx.xx-copy textbook target and early-year delivery disruption. Target realization and supplier receipts remain modeled.
67. Secondary-level students: A new year without full set of books for many - The Daily Star, December 28, 2025
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 report corroborates the approximately xx.xx-copy academic-2026 target and continued delivery slippage. It informs a normalization assumption, not an observed 2032 share.
68. Business Books - Print Professional, Custom Corporate Books | Blurb
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The business-book offering includes organizational presentation and corporate-gift applications. It establishes an in-scope commissioning proposition, not the modeled global copy quantity or spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The business-book offering includes organizational presentation and corporate-gift applications. It establishes an in-scope commissioning proposition, not the modeled global copy quantity or spending.
69. How to Use Lulu to Support Your Nonprofit | Lulu
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform permits an organization or charity to receive creator proceeds. This supports excluding beneficiary-only arrangements from nonprofit commissioning; it does not measure nonprofit printing purchases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform permits an organization or charity to receive creator proceeds. This supports excluding beneficiary-only arrangements from nonprofit commissioning; it does not measure nonprofit printing purchases.

70. News Corp - Form 10-K for the fiscal year ended June 30, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal 2025 consumer backlist revenue of xx.xx% and digital revenue of xx.xx% anchor the assumed physical-backlist bridge and its forecast starting model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2025 consumer backlist revenue of xx.xx% and digital revenue of xx.xx% anchor the assumed physical-backlist bridge and its forecast starting model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed backlist mix constrains recurring-title demand; its division into replenishment and POD remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed backlist mix constrains recurring-title demand; its division into replenishment and POD remains modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The complementary frontlist population supports the launch-stock cohort after physical-format adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The complementary frontlist population supports the launch-stock cohort after physical-format adjustments.
71. News Corp - Form 10-K for the fiscal year ended June 30, 2026
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2026 backlist revenue of xx.xx% and digital revenue of xx.xx% lower the forecast physical-backlist proxy instead of assuming continued backlist expansion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The updated catalog mix changes the forecast population available for repeat inventory releases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The updated frontlist/backlist bridge changes the forecast planned-production weight; no 2032 share is disclosed.
72. How Do Lulu Direct Orders Work?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lulu describes printing after customer purchase and distinguishes production from subsequent shipment, supporting recipient-order attribution rather than technology-based classification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lulu describes printing after customer purchase and distinguishes production from subsequent shipment, supporting recipient-order attribution rather than technology-based classification.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: No minimum order and one-copy ordering establish commercial feasibility, not the number or value of single-copy releases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No minimum order and one-copy ordering establish commercial feasibility, not the number or value of single-copy releases.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: One POD offering accepts hundreds of copies, independently challenging a POD-equals-single-copy allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One POD offering accepts hundreds of copies, independently challenging a POD-equals-single-copy allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Orders can extend into thousands within the same offering; the production trigger therefore does not uniquely identify the working run band.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Orders can extend into thousands within the same offering; the production trigger therefore does not uniquely identify the working run band.

73. Supply Chain - Clays

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Clays describes differentiated backlist arrangements and stock visibility, supporting a separate inventory-replenishment cohort without establishing its numerical prevalence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Clays describes differentiated backlist arrangements and stock visibility, supporting a separate inventory-replenishment cohort without establishing its numerical prevalence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: New-title consolidation and predictable annual backlist demand support retaining planned inventory commitments; short-run printing is explicitly not necessarily POD.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: New-title consolidation and predictable annual backlist demand support retaining planned inventory commitments; short-run printing is explicitly not necessarily POD.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Clays explicitly distinguishes short-run work from POD, supporting category separation rather than a technological proxy for value share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Clays explicitly distinguishes short-run work from POD, supporting category separation rather than a technological proxy for value share.

74. Smart Backlist Management: When to Hold and When to Print-on-Demand

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheridan describes low-volume titles moving to POD while other titles retain inventory, supporting differentiated release-policy assumptions rather than a uniform backlist-to-POD conversion.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheridan describes low-volume titles moving to POD while other titles retain inventory, supporting differentiated release-policy assumptions rather than a uniform backlist-to-POD conversion.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: A disclosed customer example uses a stock threshold to trigger a 2,000-copy replenishment order. It establishes the commercial mechanism, not a market-wide share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A disclosed customer example uses a stock threshold to trigger a 2,000-copy replenishment order. It establishes the commercial mechanism, not a market-wide share.

75. Shortage of NCERT textbooks - Rajya Sabha Unstarred Question No. 1941, December 17, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advance enrollment-based forecasting, academic-session readiness and a fiscal 2025-xx.xx plan for approximately xx.xx textbooks support a substantial calendar-driven stock cohort. The target is not realized production.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advance enrollment-based forecasting, academic-session readiness and a fiscal 2025-xx.xx plan for approximately xx.xx textbooks support a substantial calendar-driven stock cohort. The target is not realized production.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phased supply and inventory monitoring support distinguishing ongoing availability obligations from individual-recipient POD, without quantifying replenishment's global prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phased supply and inventory monitoring support distinguishing ongoing availability obligations from individual-recipient POD, without quantifying replenishment's global prevalence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official answer distinguishes printer empanelment from approximately xx.xx distribution vendors and describes planned fiscal 2025-xx.xx printing of approximately xx.xx textbooks. It supports commissioning-versus-distribution separation, not a realized monetary channel split.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official answer distinguishes printer empanelment from approximately xx.xx distribution vendors and describes planned fiscal 2025-xx.xx printing of approximately xx.xx textbooks. It supports commissioning-versus-distribution separation, not a realized monetary channel split.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phased textbook supply supports treating annual institutional quantities separately from production batches; it does not disclose the medium-run allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phased textbook supply supports treating annual institutional quantities separately from production batches; it does not disclose the medium-run allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 answer identifies a xx.xx-million-copy FY2025-xx.xx printing decision versus approximately xx.xx in recent years, a counterforce to assuming rapid long-run disappearance. Planned copies are not realized service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 answer identifies a xx.xx-million-copy FY2025-xx.xx printing decision versus approximately xx.xx in recent years, a counterforce to assuming rapid long-run disappearance. Planned copies are not realized service revenue.
76. Fulfillment Fee - Lulu Direct
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2026 schedule lists USD xx.xx per order regardless of item count, supporting an order-frequency effect on associated-service value. It does not verify the assumed historical or forecast multiplier.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2026 schedule lists USD xx.xx per order regardless of item count, supporting an order-frequency effect on associated-service value. It does not verify the assumed historical or forecast multiplier.

77. InnerWorkings, Inc. - Form 10-K for the year ended December 31, 2019
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2019 filing reports USD xx.xx gross profit on USD xx.xx revenue and describes purchased-product and direct-service costs. Historical reported margins constrain the modeled xx.xx% retained-fee ratio; they do not directly measure book-channel share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2019 filing reports USD xx.xx gross profit on USD xx.xx revenue and describes purchased-product and direct-service costs. Historical reported margins constrain the modeled xx.xx% retained-fee ratio; they do not directly measure book-channel share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The procurement-service margin comparison supports the fee-to-managed-spending bridge underlying the direct-channel complement. Carrying the normalized ratio into 2032 is explicitly a forecast assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The procurement-service margin comparison supports the fee-to-managed-spending bridge underlying the direct-channel complement. Carrying the normalized ratio into 2032 is explicitly a forecast assumption.
78. Simplified Purchase Agreement - U.S. Government Publishing Office
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SPA permits agency awards directly to certified vendors for purchases up to USD xx.xx while GPO pays vendors and invoices agencies. This supports classifying by the contracting relationship rather than the invoice payer, not a numerical global weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SPA permits agency awards directly to certified vendors for purchases up to USD xx.xx while GPO pays vendors and invoices agencies. This supports classifying by the contracting relationship rather than the invoice payer, not a numerical global weight.
79. Global Print Services | China, Europe, SE Asia, USA & India
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Imago describes sourcing suppliers and coordinating multiple manufacturers for book-related projects. Its cumulative customer relationships establish the offered intermediary role but are not annual revenue or allocation weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Imago describes sourcing suppliers and coordinating multiple manufacturers for book-related projects. Its cumulative customer relationships establish the offered intermediary role but are not annual revenue or allocation weights.
80. Lion Rock Group Limited - Annual Report 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-business 2025 turnover changes of minus xx.xx% for APOL and minus xx.xx% for Regent challenge uniform intermediary growth; Regent's non-book focus limits its relevance. These observations support avoiding an additional adoption uplift.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-business 2025 turnover changes of minus xx.xx% for APOL and minus xx.xx% for Regent challenge uniform intermediary growth; Regent's non-book focus limits its relevance. These observations support avoiding an additional adoption uplift.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Manufacturing turnover changes of minus xx.xx% at xx.xx Printing and plus xx.xx% at Papercraft demonstrate differing supplier trajectories rather than a simple common channel-growth pattern; these are not direct-contracting market shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Manufacturing turnover changes of minus xx.xx% at xx.xx Printing and plus xx.xx% at Papercraft demonstrate differing supplier trajectories rather than a simple common channel-growth pattern; these are not direct-contracting market shares.

81. Imprint Digital - Book Printing Prices UK

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected schedule quotes GBP xx.xx at xx.xx copies for one paperback specification, supporting a relative-price input, not a historical global realization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected schedule quotes GBP xx.xx at xx.xx copies for one paperback specification, supporting a relative-price input, not a historical global realization.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: GBP xx.xx at xx.xx copies supplies the medium-run reference index; format and delivery differences require separate treatment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GBP xx.xx at xx.xx copies supplies the medium-run reference index; format and delivery differences require separate treatment.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The quantity-price curve anchors the reference from which the long-run discount is assumed; no long-run price or future share is disclosed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The quantity-price curve anchors the reference from which the long-run discount is assumed; no long-run price or future share is disclosed.

82. Print Options

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: KDP distinguishes black-and-white from color records and locks ink type after publication. These platform-specific conditions qualify switching assumptions, not market weights. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: KDP distinguishes black-and-white from color records and locks ink type after publication. These platform-specific conditions qualify switching assumptions, not market weights. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The displayed platform menu does not establish designated spot-color availability or sales; a general color option is not used as evidence of spot-color demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The displayed platform menu does not establish designated spot-color availability or sales; a general color option is not used as evidence of spot-color demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Standard color is unavailable for hardcover, but premium color is available. Both process-color tiers belong within the modeled Full-Color Interiors category. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Standard color is unavailable for hardcover, but premium color is available. Both process-color tiers belong within the modeled Full-Color Interiors category. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))

83. Synthèse des chiffres de l'édition jeunesse 2024-2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The primary French publishing survey reports a xx.xx% decline in illustrated early-childhood volumes and a xx.xx% decline in youth-fiction volumes in 2024. These differing outcomes challenge an aggressive universal color-growth assumption. ([sne.fr](https://www.sne.fr/actu/synthese-des-chiffres-de-ledition-jeunesse-2024-2025/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The primary French publishing survey reports a xx.xx% decline in illustrated early-childhood volumes and a xx.xx% decline in youth-fiction volumes in 2024. These differing outcomes challenge an aggressive universal color-growth assumption. ([sne.fr](https://www.sne.fr/actu/synthese-des-chiffres-de-ledition-jeunesse-2024-2025/))

Sources & Evidence

1. European Book Publishing Statistics 2024
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: European publishers reported approximately EUR xx.xx of net book-sales revenue in 2024. The disclosed ebook and audiobook proportions inform the modeled xx.xx% physical-book revenue proportion; publisher revenue is an input, not printing-service revenue.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 publisher-revenue and format observations provide the European demand input carried into the 2025 estimate.

2. The Global Publishing Industry in 2022

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Table xx.xx supplies country-level publishing revenues and identifies differences between retail-value, publisher-revenue, print-only and prior-year observations. Selected non-European country observations are adjusted for physical formats and period before estimating production spending.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The selected country observations contribute to the demand pool underlying the 2025 working estimate. Nielsen retail datasets elsewhere in the publication are not used.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Primary survey sector differences constrain the education-adjusted hardcover proxy.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Primary survey sector differences constrain the education-adjusted hardcover proxy.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Educational/trade differences qualify extrapolation of U.S. consumer-format revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Educational/trade differences qualify extrapolation of U.S. consumer-format revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx of surveyed children's publishing revenue anchors the modeled specialty demand pool, not supplier receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx of surveyed children's publishing revenue anchors the modeled specialty demand pool, not supplier receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sector data constrain the commissioning-pool proxy; mechanical incidence remains assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sector data constrain the commissioning-pool proxy; mechanical incidence remains assumed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Educational demand supplies a common economic anchor; loose-leaf incidence remains modeled.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Educational demand supplies a common economic anchor; loose-leaf incidence remains modeled.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sector observations constrain the educational short-book commissioning pool.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sector observations constrain the educational short-book commissioning pool.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The commissioning-pool anchor supports an explicit sparse-format incidence model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The commissioning-pool anchor supports an explicit sparse-format incidence model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors the accordion working estimate, not observed accordion orders.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors the accordion working estimate, not observed accordion orders.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed textile-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed textile-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed bath-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed bath-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed foam-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed foam-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original publishing survey documents country-level trade/education revenue differences used to constrain the modeled physical-publishing mix; it does not directly measure service shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original publishing survey documents country-level trade/education revenue differences used to constrain the modeled physical-publishing mix; it does not directly measure service shares.

3. 2024 年新闻出版统计公报

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: For 2024, the official table reports xx.xx book copies or sheets and CNY xx.xx of book-publishing revenue. These constrain the demand bridge and historical contraction, rather than directly measuring printing-service sales.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 book-publishing observation supplies the Chinese demand primitive for the 2025 model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official 2024 output of xx.xx copies/sheets constrains total modeled publisher activity; it does not disclose single-copy production.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official 2024 output of xx.xx copies/sheets constrains total modeled publisher activity; it does not disclose single-copy production.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Aggregate copies and annual title output constrain the shared activity model, not an observed short-run share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Aggregate copies and annual title output constrain the shared activity model, not an observed short-run share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Aggregate production provides a scale check for the medium-run assumption; annual copies per title are not individual batches.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Aggregate production provides a scale check for the medium-run assumption; annual copies per title are not individual batches.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx annual copies per title constrain the long-run scenario without proving its batch mix or forecast.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx annual copies per title constrain the long-run scenario without proving its batch mix or forecast.

4. Foreign Exchange Rates - G.5A Annual, January 5, 2026

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: The official 2024 annual-average conversion inputs are USD xx.xx per EUR, CNY xx.xx per USD and CAD xx.xx per USD.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The exchange-rate table establishes the conversion basis of the preceding-year demand inputs used in the 2025 estimate; subsequent effective-USD price assumptions are modeled separately.

5. Book publishing industry, 2024 - Statistics Canada
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Canadian publishers reported CAD xx.xx of print sales outside the online category and CAD xx.xx of online print sales in 2024. Their sum, rather than total operating revenue, supplies the physical-book demand input.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: Reported cost of goods sold of CAD xx.xx, up CAD xx.xx from 2022, supplies a cost-pressure cross-check, not a directly attributable printing-services total.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Canadian online versus other print-sales values constrain parcel exposure, with explicit value-to-unit and geographic limitations.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Canadian online versus other print-sales values constrain parcel exposure, with explicit value-to-unit and geographic limitations.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed envelope purchases.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed envelope purchases.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed bag purchases.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed bag purchases.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Modest observed online-print growth qualifies aggressive parcel-related wrapping assumptions.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Modest observed online-print growth qualifies aggressive parcel-related wrapping assumptions.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring separate protection.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring separate protection.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring closures.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring closures.
6. U.S. Census Bureau - Books Printing: Shipments, annual table
   - Evidence informing the 2017 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2017; this is a national production anchor for the historical model.
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2018.
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2019.
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2020.
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2021.
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2022.
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2024. This national industrial measure is narrower than the composite global service boundary.

7. U.S. Census Bureau - Book Publishers, All Establishments: Revenue, annual table
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: The Census annual series reports USD xx.xx of U.S. book-publisher revenue for 2024. A modeled xx.xx% physical-book proportion excludes digital and other adjacent receipts.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 Census observation replaces an older survey-based U.S. revenue bridge in the demand pool underlying 2025.

8. Scholastic Corporation - Form 10-K for the year ended May 31, 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Scholastic's fiscal 2024 product, service, production and inventory-reserve costs were xx.xx% of revenue; postage, freight, shipping, fulfillment and other costs were xx.xx%. These broad categories constrain, but do not directly establish, eligible outsourced-service spending.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The corresponding fiscal 2025 proportions were xx.xx% and xx.xx%. Royalties and prepublication amortization are separately disclosed, allowing their exclusion from the service-market bridge.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 product, service, production and inventory-reserve costs were xx.xx% of revenue. The broader cost category constrains the manufacturing spending boundary but does not directly disclose printing-service revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 product, service, production and inventory-reserve costs were xx.xx% of revenue. The broader cost category constrains the manufacturing spending boundary but does not directly disclose printing-service revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Prepublication amortization is disclosed separately from production costs, supporting exclusion of adjacent amortization rather than equating it with externally purchased prepress.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Prepublication amortization is disclosed separately from production costs, supporting exclusion of adjacent amortization rather than equating it with externally purchased prepress.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Postage, freight, shipping, fulfillment and other costs were xx.xx% of revenue in fiscal 2025 versus xx.xx% in fiscal 2024. This is a broad buyer-cost check, not an eligible outsourced-fulfillment share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Postage, freight, shipping, fulfillment and other costs were xx.xx% of revenue in fiscal 2025 versus xx.xx% in fiscal 2024. This is a broad buyer-cost check, not an eligible outsourced-fulfillment share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Outsourced manufacturing coexists with company-operated distribution. Fiscal-2025 production-related costs were xx.xx% of revenue, constraining the inherited spending bridge rather than directly measuring the assumed route fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Outsourced manufacturing coexists with company-operated distribution. Fiscal-2025 production-related costs were xx.xx% of revenue, constraining the inherited spending bridge rather than directly measuring the assumed route fraction.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Book-club revenue was xx.xx% online-ordered and xx.xx% parent-ordered, while products typically went to classrooms. This challenges the use of online sales as a proxy for the external contractor's delivery model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Book-club revenue was xx.xx% online-ordered and xx.xx% parent-ordered, while products typically went to classrooms. This challenges the use of online sales as a proxy for the external contractor's delivery model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct printer-to-customer fulfillment is a disclosed option. Broader logistics/other costs were xx.xx% of revenue versus xx.xx% previously, providing a cost-boundary check but no global order-level share or service-price growth observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct printer-to-customer fulfillment is a disclosed option. Broader logistics/other costs were xx.xx% of revenue versus xx.xx% previously, providing a cost-boundary check but no global order-level share or service-price growth observation.

9. CEWE achieves all targets in 2025 and aims to further increase revenue and earnings in 2026

- Evidence informing the 2025 market-value input; displayed series and growth include calculations: CEWE reported xx.xx CEWE PHOTOBOOK copies in 2025 versus xx.xx in 2024, supporting a positive specialty-book volume assumption without establishing global adoption.
- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Observed 2025 photobook growth informs the specialty-demand assumption for 2026; the market value remains modeled.
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The observed specialty-book activity is a starting condition for the forecast, not independent proof of continued growth through 2032.
- Evidence informing the 2040 market-value input; displayed series and growth include calculations: The forecast explicitly slows specialty-demand growth after 2032; this source supplies the initial commercial observation, not the long-term growth rate.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: CEWE reports xx.xx photobooks in 2025 compared with xx.xx in 2024. This independently establishes specialty-book activity underlying the nonpublisher model, without establishing a global expansion factor.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CEWE reports xx.xx photobooks in 2025 compared with xx.xx in 2024. This independently establishes specialty-book activity underlying the nonpublisher model, without establishing a global expansion factor.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports retaining premium specialty commissions in the manufacturing mix; the binding allocation and unchanged future cohort profile remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports retaining premium specialty commissions in the manufacturing mix; the binding allocation and unchanged future cohort profile remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported photobook volumes constrain personal-book activity and the nonpublisher starting condition, not hardcover prevalence or future share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported photobook volumes constrain personal-book activity and the nonpublisher starting condition, not hardcover prevalence or future share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Photobook activity supports the separate personal-book commissioning block; its softcover fraction remains assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Photobook activity supports the separate personal-book commissioning block; its softcover fraction remains assumed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported photobook copies rose from xx.xx to xx.xx; the narrower 2026 target qualifies strong specialty-growth assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported photobook copies rose from xx.xx to xx.xx; the narrower 2026 target qualifies strong specialty-growth assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specialty-book activity constrains the presentation-demand scenario but does not measure gift-box attachment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specialty-book activity constrains the presentation-demand scenario but does not measure gift-box attachment.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CEWE PHOTOBOOK units in 2025 versus xx.xx in 2024, constraining the specialty-book demand budget without establishing a global process split.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CEWE PHOTOBOOK units in 2025 versus xx.xx in 2024, constraining the specialty-book demand budget without establishing a global process split.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports the common photographic-demand input; electrophotographic attribution remains an explicit assumption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports the common photographic-demand input; electrophotographic attribution remains an explicit assumption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The photobook

10. Paperback Printing Cost - Kindle Direct Publishing

- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The inspected U.S. paperback schedule charges USD xx.xx plus USD xx.xx per page for the specified regular-trim black-ink category. It provides a contemporary commercial price comparison for the assumed USD xx.xx self-publishing production receipt, not an observed historical price or volume.
- Evidence informing the 2026 market-value input; displayed series and growth include calculations: The schedule distinguishes printing charges from royalties and retail list prices, supporting the production-receipt boundary used in the estimate.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule uses USD xx.xx plus USD xx.xx per page for the relevant page band, yielding the USD xx.xx representative manufacturing comparator. It anchors relative weights, not an observed global 2025 price or future share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule uses USD xx.xx plus USD xx.xx per page for the relevant page band, yielding the USD xx.xx representative manufacturing comparator. It anchors relative weights, not an observed global 2025 price or future share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The paperback manufacturing comparator supplies the baseline from which the modeled binding component and hardcover increment are separated.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The paperback manufacturing comparator supplies the baseline from which the modeled binding component and hardcover increment are separated.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The separately identified paperback printing charge constrains the self-publishing production-receipt model and its distinction from retail proceeds.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The separately identified paperback printing charge constrains the self-publishing production-receipt model and its distinction from retail proceeds.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page. It is a contemporary production-charge comparison for the modeled USD xx.xx receipt, not an observed historical Global average.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page. It is a contemporary production-charge comparison for the modeled USD xx.xx receipt, not an observed historical Global average.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The relevant current U.S. paperback printing schedule is USD xx.xx plus USD xx.xx per page, giving USD xx.xx at xx.xx pages. This is a commercial price comparison for creator-production receipts, not proof of 2025 realization, volume or fulfillment mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The relevant current U.S. paperback printing schedule is USD xx.xx plus USD xx.xx per page, giving USD xx.xx at xx.xx pages. This is a commercial price comparison for creator-production receipts, not proof of 2025 realization, volume or fulfillment mix.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule of USD xx.xx plus USD xx.xx per page gives USD xx.xx at xx.xx pages, a magnitude check for modeled single-copy receipts. It establishes neither global volume nor historical or forecast share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule of USD xx.xx plus USD xx.xx per page gives USD xx.xx at xx.xx pages, a magnitude check for modeled single-copy receipts. It establishes neither global volume nor historical or forecast share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page, yielding USD xx.xx for xx.xx pages. This is a contemporary price comparator, not a historical global average. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834340))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page, yielding USD xx.xx for xx.xx pages. This is a contemporary price comparator, not a historical global average. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834340))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The comparable standard and premium color charges calculate to USD xx.xx and USD xx.xx. They constrain relative

11. European Book Publishing Statistics 2017

- Evidence informing the 2017 market-value input; displayed series and growth include calculations: The association's primary survey reports approximately EUR xx.xx of European net publisher revenue for 2017, constraining the pre-pandemic demand level.

12. European Book Publishing Statistics 2019

- Evidence informing the 2018 market-value input; displayed series and growth include calculations: The association reports approximately EUR xx.xx of publisher revenue for 2018.
- Evidence informing the 2019 market-value input; displayed series and growth include calculations: The association reports approximately EUR xx.xx for 2019 and identifies a questionnaire change that limits exact comparability with earlier observations.

13. 2021 年新闻出版产业分析报告

- Evidence informing the 2020 market-value input; displayed series and growth include calculations: The official report's 2021 comparison identifies a substantial rebound from 2020, constraining the pandemic-recovery bridge.
- Evidence informing the 2021 market-value input; displayed series and growth include calculations: China reported xx.xx book copies or sheets in 2021, up xx.xx%; the report also distinguishes textbook output and reprints.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: China's official 2021 textbook share was xx.xx% of book copies. It supplies an older educational-activity proxy, not a monochrome share.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: China's official 2021 textbook share was xx.xx% of book copies. It supplies an older educational-activity proxy, not a monochrome share.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The textbook copy proportion constrains educational exposure; comparable monetary intensity and spot-color incidence are modeled separately.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The textbook copy proportion constrains educational exposure; comparable monetary intensity and spot-color incidence are modeled separately.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational-activity observation contributes to the shared demand proxy carried into the full-color base and forecast models; no color split is reported.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational-activity observation contributes to the shared demand proxy carried into the full-color base and forecast models; no color split is reported.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))

14. European Book Publishing Statistics 2023

- Evidence informing the 2022 market-value input; displayed series and growth include calculations: European net publisher revenue was approximately EUR xx.xx in 2022; the association describes paper-cost pressure and price-led growth.

15. Hardcover Printing Cost - Kindle Direct Publishing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim hardcover schedule uses USD xx.xx plus USD xx.xx per page in the relevant band. Comparison with paperback charges constrains the premium-equivalent manufacturing model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim hardcover schedule uses USD xx.xx plus USD xx.xx per page in the relevant band. Comparison with paperback charges constrains the premium-equivalent manufacturing model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD xx.xx fixed-charge difference supplies the POD premium input; the xx.xx% commercial-run realization and premium incidence are explicitly modeled rather than disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD xx.xx fixed-charge difference supplies the POD premium input; the xx.xx% commercial-run realization and premium incidence are explicitly modeled rather than disclosed.
16. User Fees - University of Wisconsin-Milwaukee Print & Copy Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The university service schedule separately prices preflight/prepress preparation at USD xx.xx per hour, establishing a paid preparation activity rather than an automatic component of every printing-platform purchase.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The university service schedule separately prices preflight/prepress preparation at USD xx.xx per hour, establishing a paid preparation activity rather than an automatic component of every printing-platform purchase.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Perfect binding is listed at USD xx.xx-xx.xx per book. The lower endpoint is the model's basic-binding comparator, not a measured worldwide realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Perfect binding is listed at USD xx.xx-xx.xx per book. The lower endpoint is the model's basic-binding comparator, not a measured worldwide realization.

17. How Much Does It Cost to Print a Book? - QinPrinting
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier's delivered xx.xx-page, xx.xx-copy color-book examples list USD xx.xx for softcover and USD xx.xx for hardcover. They provide a commercial-run countercheck, with delivery and product differences preventing direct substitution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier's delivered xx.xx-page, xx.xx-copy color-book examples list USD xx.xx for softcover and USD xx.xx for hardcover. They provide a commercial-run countercheck, with delivery and product differences preventing direct substitution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The smaller hardcover premium in this offset example qualifies extrapolation of the full POD hardcover increment into binding revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The smaller hardcover premium in this offset example qualifies extrapolation of the full POD hardcover increment into binding revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Comparable hardcover and softcover quotations constrain the assumed relative manufacturing realization after scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Comparable hardcover and softcover quotations constrain the assumed relative manufacturing realization after scope adjustments.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Softcover prices provide a commercial comparison, not a historical global average.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Softcover prices provide a commercial comparison, not a historical global average.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Board-book quotations constrain the assumed production receipt; delivery and duties require adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Board-book quotations constrain the assumed production receipt; delivery and duties require adjustment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Mechanical-binding quotations constrain the unit-receipt assumption, not incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Mechanical-binding quotations constrain the unit-receipt assumption, not incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Short-booklet quotations constrain the lower realization used for eligible saddle-stitched books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Short-booklet quotations constrain the lower realization used for eligible saddle-stitched books.
18. Book Wrap Mailers / Book Boxes - Packaging ONE
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer lists MP2 book mailers at GBP xx.xx each for xx.xx packs of xx.xx excluding VAT. The converted unit price supplies the packaging-creation value proxy, not a global average or a historical quote.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer lists MP2 book mailers at GBP xx.xx each for xx.xx packs of xx.xx excluding VAT. The converted unit price supplies the packaging-creation value proxy, not a global average or a historical quote.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The enclosure price forms the other side of the creation-versus-packing ratio. One comparable enclosure per packing unit is an explicit activity-matching assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The enclosure price forms the other side of the creation-versus-packing ratio. One comparable enclosure per packing unit is an explicit activity-matching assumption.

19. Foreign Exchange Rates - G.5A Annual, January 5, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 annual average is USD xx.xx per GBP. It converts the GBP packaging comparator into the common monetary basis used in the starting allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 annual average is USD xx.xx per GBP. It converts the GBP packaging comparator into the common monetary basis used in the starting allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same conversion supports the common-currency packaging/packing denominator inherited by the forecast; no 2032 exchange rate is asserted.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same conversion supports the common-currency packaging/packing denominator inherited by the forecast; no 2032 exchange rate is asserted.
20. Optional Book Publishing Services - InstantPublisher
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider lists layout/typesetting at USD xx.xx per page with a USD xx.xx minimum. This supports the preparation-spending feasibility check, with purchase incidence and copies per job remaining assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider lists layout/typesetting at USD xx.xx per page with a USD xx.xx minimum. This supports the preparation-spending feasibility check, with purchase incidence and copies per job remaining assumptions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Individual shrink-wrapping is listed at USD xx.xx each plus USD xx.xx setup. Amortizing setup over an assumed xx.xx copies gives the USD xx.xx packing comparator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Individual shrink-wrapping is listed at USD xx.xx each plus USD xx.xx setup. Amortizing setup over an assumed xx.xx copies gives the USD xx.xx packing comparator.
21. How Does Merchant Pricing Work for Ecommerce Stores? - Lulu Direct
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2026 merchant-pricing explanation identifies a USD xx.xx fulfillment fee and separates merchant retail receipts from payments for supplier production, shipping and taxes. The fee is a contemporary feasibility comparator, not verified 2025 penetration or a future charge.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2026 merchant-pricing explanation identifies a USD xx.xx fulfillment fee and separates merchant retail receipts from payments for supplier production, shipping and taxes. The fee is a contemporary feasibility comparator, not verified 2025 penetration or a future charge.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Merchant retail receipts are separate from payments for printing and fulfillment. The current page lists a USD xx.xx fulfillment fee, with shipping and taxes separately calculated. This supports the service-value boundary, not a historical average fee or global order volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Merchant retail receipts are separate from payments for printing and fulfillment. The current page lists a USD xx.xx fulfillment fee, with shipping and taxes separately calculated. This supports the service-value boundary, not a historical average fee or global order volume.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lulu identifies separate retail and production/fulfillment transactions and a USD xx.xx fulfillment fee. This supports excluding merchant retail margins from production-service value and avoiding automatic procurement-channel classification from the storefront.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lulu identifies separate retail and production/fulfillment transactions and a USD xx.xx fulfillment fee. This supports excluding merchant retail margins from production-service value and avoiding automatic procurement-channel classification from the storefront.

22. AAP December 2025 StatShot Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The primary monthly reporting panel's full-year 2025 trade figures show paperback revenue down xx.xx%. This qualifies broad physical-book growth assumptions and supplies directional mix evidence only.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The primary monthly reporting panel's full-year 2025 trade figures show paperback revenue down xx.xx%. This qualifies broad physical-book growth assumptions and supplies directional mix evidence only.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same approximately xx.xx-publisher panel shows hardcover revenue up xx.xx%. It supports a modest premium-mix hypothesis but neither measures global binding spending nor proves the forecast.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same approximately xx.xx-publisher panel shows hardcover revenue up xx.xx%. It supports a modest premium-mix hypothesis but neither measures global binding spending nor proves the forecast.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct-participant 2025 hardback revenue of approximately USD xx.xx anchors the adjusted conventional-format model; it is not printing revenue or a global share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct-participant 2025 hardback revenue of approximately USD xx.xx anchors the adjusted conventional-format model; it is not printing revenue or a global share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported paperback revenue of approximately USD xx.xx plus USD xx.xx mass-market revenue supplies the comparison input. Reported annual movements qualify the forecast starting mix, not its future persistence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported paperback revenue of approximately USD xx.xx plus USD xx.xx mass-market revenue supplies the comparison input. Reported annual movements qualify the forecast starting mix, not its future persistence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct publisher-sample religious and trade physical-format receipts provide a category-intensity proxy, subject to explicit geographic and coverage adjustments.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct publisher-sample religious and trade physical-format receipts provide a category-intensity proxy, subject to explicit geographic and coverage adjustments.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported professional-book receipts and their 2025 decline challenge assumptions of automatic growth from recurring reference relationships.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported professional-book receipts and their 2025 decline challenge assumptions of automatic growth from recurring reference relationships.

23. Print and Associated Services Framework - Lot 1 Buyer Guide: Framework Objectives
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The public purchasing framework separately specifies production-management advice. It establishes a purchased responsibility but not a global fee rate or permission to count subcontract pass-through as retained revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The public purchasing framework separately specifies production-management advice. It establishes a purchased responsibility but not a global fee rate or permission to count subcontract pass-through as retained revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The framework also specifies finished-goods stock holding and call-off, with required holding costs included in the print-job price. This supports allocating embedded production-linked fulfillment rather than restricting the category to standalone invoices.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The framework also specifies finished-goods stock holding and call-off, with required holding costs included in the print-job price. This supports allocating embedded production-linked fulfillment rather than restricting the category to standalone invoices.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Finished goods may be held for call-off, with storage included in the print job where required. This supports consolidated releases as a production-linked arrangement without assuming every release is an individual order.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Finished goods may be held for call-off, with storage included in the print job where required. This supports consolidated releases as a production-linked arrangement without assuming every release is an individual order.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contractors maintain designated distribution lists, deliver to nominated addresses and receive job-specific copy allocations, supporting the modeled list-delivery category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contractors maintain designated distribution lists, deliver to nominated addresses and receive job-specific copy allocations, supporting the modeled list-delivery category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The coexistence of stock holding, call-off and distribution-list obligations supports separating production trigger from fulfillment responsibility; call-off alone does not establish transaction-level fulfillment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The coexistence of stock holding, call-off and distribution-list obligations supports separating production trigger from fulfillment responsibility; call-off alone does not establish transaction-level fulfillment.

24. Frequently Asked Questions - IngramSpark
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: IngramSpark states that it does not provide editing, typesetting or design services. This counterexample prevents treating all platform manufacturing commissions as purchases of professional preparation services.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: IngramSpark states that it does not provide editing, typesetting or design services. This counterexample prevents treating all platform manufacturing commissions as purchases of professional preparation services.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider permits nonexclusive sourcing when the customer owns its ISBN and does not offer editing, typesetting or design. These terms constrain the author service boundary, not adoption or revenue growth.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider permits nonexclusive sourcing when the customer owns its ISBN and does not offer editing, typesetting or design. These terms constrain the author service boundary, not adoption or revenue growth.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: IngramSpark permits nonexclusive use of other printers, distributors and fulfillment providers when publishers own their ISBN. This establishes an alternative-sourcing option, not observed switching or a numerical channel allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: IngramSpark permits nonexclusive use of other printers, distributors and fulfillment providers when publishers own their ISBN. This establishes an alternative-sourcing option, not observed switching or a numerical channel allocation.
25. Packaging Printing & Production - Imago Group
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier identifies book slipcases, clamshell cases, tray-and-lid constructions and multicomponent publisher packaging. This supports the enclosure-production boundary and the limitation of a simple mailer-price proxy; it does not supply sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier identifies book slipcases, clamshell cases, tray-and-lid constructions and multicomponent publisher packaging. This supports the enclosure-production boundary and the limitation of a simple mailer-price proxy; it does not supply sales weights.
26. Services - Bridgeport National Bindery
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The short-run book-production portfolio separately lists shrink-wrapping and set packing. It establishes commercial packing activity distinct from enclosure manufacture and binding, without measuring its revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The short-run book-production portfolio separately lists shrink-wrapping and set packing. It establishes commercial packing activity distinct from enclosure manufacture and binding, without measuring its revenue.
27. Terms and Conditions - CPI Print Germany
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published terms distinguish ex-works production prices from packaging, freight and postage and reserve specified input-cost adjustment rights. They support comparable-scope valuation but do not establish realized inflation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published terms distinguish ex-works production prices from packaging, freight and postage and reserve specified input-cost adjustment rights. They support comparable-scope valuation but do not establish realized inflation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate treatment of forwarding and storage responsibilities supports the eligible production-linked service boundary; contractual rights do not prove the assumed future fee-growth rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate treatment of forwarding and storage responsibilities supports the eligible production-linked service boundary; contractual rights do not prove the assumed future fee-growth rate.

28. ONIX Codelists Issue 75 - List 150: Product Form
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BB identifies hardback/cased books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BB identifies hardback/cased books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BC identifies paperback/softback books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BC identifies paperback/softback books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BH distinguishes board-page books from conventional books with rigid covers.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BH distinguishes board-page books from conventional books with rigid covers.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BE groups spiral, comb and coil forms.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BE groups spiral, comb and coil forms.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BD identifies loose-leaf books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BD identifies loose-leaf books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BF includes stapled short books; nonbook uses are excluded from the model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BF includes stapled short books; nonbook uses are excluded from the model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BL recognizes slide-bound books without measuring current sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BL recognizes slide-bound books without measuring current sales.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BO recognizes continuous concertina-fold books; nonbook charts are excluded.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BO recognizes continuous concertina-fold books; nonbook charts are excluded.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BI identifies textile-page books, not cloth-covered paper books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BI identifies textile-page books, not cloth-covered paper books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BJ identifies waterproof bath-book forms.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BJ identifies waterproof bath-book forms.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BP identifies foam-page and foam-cover books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BP identifies foam-page and foam-cover books.

29. Thomson Reuters - Fourth-Quarter and Full-Year 2025 Results
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Global Print revenue and contraction constrain professional-print scale and substitution direction; content receipts are not treated as loose-leaf service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Global Print revenue and contraction constrain professional-print scale and substitution direction; content receipts are not treated as loose-leaf service revenue.
30. Lulu - Discontinuing Saddle Stitch in Global Distribution
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provider-specific wholesale distribution restrictions establish a channel constraint, not a global sales weight or measured forecast decline.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provider-specific wholesale distribution restrictions establish a channel constraint, not a global sales weight or measured forecast decline.
31. MAGACOPY Sofia - Copying and Printing Prices
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A current EUR xx.xx binding-only charge establishes a live commercial service and a price-scope comparison; full-book USD receipts and incidence remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A current EUR xx.xx binding-only charge establishes a live commercial service and a price-scope comparison; full-book USD receipts and incidence remain assumed.
32. Imago Group - Spotlight on Children's Books for National Young Readers Week
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's children's portfolio supports board-book commercial classification, not order volumes.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's children's portfolio supports board-book commercial classification, not order volumes.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cloth-book offerings support the textile-page category premise, not its modeled incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cloth-book offerings support the textile-page category premise, not its modeled incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bath-book offerings support a separate commercial category; sales and service receipts are undisclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bath-book offerings support a separate commercial category; sales and service receipts are undisclosed.
33. Pegasus - My First Book of Shapes: EVA Foam Book
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The dated 2025 product identifies foam pages and supports commercial-status and classification checks, not global volume or supplier realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated 2025 product identifies foam pages and supports commercial-status and classification checks, not global volume or supplier realization.

34. U.S. Consumer Product Safety Commission - Children's Books
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Product classification and intended audience affect commercial compliance accountability; no numerical surcharge is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Product classification and intended audience affect commercial compliance accountability; no numerical surcharge is inferred.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The exemption boundary supports separate classification rather than assumed conventional-book treatment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The exemption boundary supports separate classification rather than assumed conventional-book treatment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Compliance classification is retained as an uncertainty, not an exclusion or measured price premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Compliance classification is retained as an uncertainty, not an exclusion or measured price premium.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specialty construction does not itself establish ordinary-book exemption eligibility or market inactivity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specialty construction does not itself establish ordinary-book exemption eligibility or market inactivity.
35. Puget Bindery - Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider identifies training manuals and reference guides as mechanical-binding applications, supporting the commissioning premise without measuring sales incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider identifies training manuals and reference guides as mechanical-binding applications, supporting the commissioning premise without measuring sales incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists commercial letterpress book plates and specialty inserts, supporting a component-service model rather than attribution of the entire book price.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists commercial letterpress book plates and specialty inserts, supporting a component-service model rather than attribution of the entire book price.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The bindery identifies commercial printers, publishers and corporate print buyers as customers and excludes direct-to-consumer sales. This supports trade-purchasing attribution but supplies no sales percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The bindery identifies commercial printers, publishers and corporate print buyers as customers and excludes direct-to-consumer sales. This supports trade-purchasing attribution but supplies no sales percentage.

36. ONIX Codelists Issue 75 - List 80: Product Packaging Type
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates single-item and multivolume slipcases; supplies classification, not sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates single-item and multivolume slipcases; supplies classification, not sales weights.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes lidded boxes from slipcase-style boxed sets.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes lidded boxes from slipcase-style boxed sets.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-ended wraparound sleeves are distinct from enclosed wrapping.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-ended wraparound sleeves are distinct from enclosed wrapping.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes envelope-like slip-sleeves and wallets or folders.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes envelope-like slip-sleeves and wallets or folders.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes pouch and bag packaging independently.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes pouch and bag packaging independently.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately recognizes shrink-wrapped products and bundles.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately recognizes shrink-wrapped products and bundles.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Defines formed-plastic clamshells and card-backed blister packaging as distinct constructions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Defines formed-plastic clamshells and card-backed blister packaging as distinct constructions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Explicitly recognizes book browse-prevention closures.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Explicitly recognizes book browse-prevention closures.

37. U.S. Government Publishing Office - Program 827-S: Federal Aviation Administration Books, Contract Pricing and Specifications

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Historical evaluation quantities provide a container-heavy institutional purchasing counterexample, not global shipment shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Historical evaluation quantities provide a container-heavy institutional purchasing counterexample, not global shipment shares.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies kraft-envelope packing within the book procurement.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies kraft-envelope packing within the book procurement.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies cushioned shipping bags as an eligible book-order enclosure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies cushioned shipping bags as an eligible book-order enclosure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Includes wrapped shipping bundles as an alternative purchasing configuration.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Includes wrapped shipping bundles as an alternative purchasing configuration.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Requires packing and filler separately from the external enclosure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Requires packing and filler separately from the external enclosure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies closure tape and securing straps independently of container construction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies closure tape and securing straps independently of container construction.

38. U.S. Government Publishing Office - Print Order Form 2511 Instructions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specifies paper-banded sets separately from shrink-wrapped sets.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specifies paper-banded sets separately from shrink-wrapped sets.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes shrink-wrapped units nested within cartons, supporting component attribution.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes shrink-wrapped units nested within cartons, supporting component attribution.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes internal packaging, container quantities and pallet requirements.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes internal packaging, container quantities and pallet requirements.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The instructions distinguish nominated delivery addresses and warehouse receiving arrangements, supporting the receiving-point attribution premise, not an observed consolidated market share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The instructions distinguish nominated delivery addresses and warehouse receiving arrangements, supporting the receiving-point attribution premise, not an observed consolidated market share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supplemental distribution lists accommodate multiple destinations, supporting the distinction between preallocated destination delivery and a single receiving-point handoff.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supplemental distribution lists accommodate multiple destinations, supporting the distinction between preallocated destination delivery and a single receiving-point handoff.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: GPO specifies black interior inks separately from cover inks, supporting the monochrome classification and underlying-book attribution premise, not its modeled sales weight. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GPO specifies black interior inks separately from cover inks, supporting the monochrome classification and underlying-book attribution premise, not its modeled sales weight. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Designated Pantone specifications are recognized for interior inks, supporting a separate spot-color commercial category without measuring its share. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Designated Pantone specifications are recognized for interior inks, supporting a separate spot-color commercial category without measuring its share. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Four-color process is identified as full color for interior pages; cover color is separately specified. This supports classification at both modeled anchors. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Four-color process is identified as full color for interior pages; cover color is separately specified. This supports classification at both modeled anchors. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))

39. GPOExpress Program Pricing Guide - November 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx hand folding provides a handling-cost comparison; the complete band realization remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx hand folding provides a handling-cost comparison; the complete band realization remains modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx per shrink wrap anchors a small-run comparison, not the assumed global realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx per shrink wrap anchors a small-run comparison, not the assumed global realization.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx auxiliary insertion supplies a handling-price comparison, not protective-material sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx auxiliary insertion supplies a handling-price comparison, not protective-material sales.
40. Hardcover Book Protection: Dust Jackets or Slipcases?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-product EXW slipcase prices of USD xx.xx, USD xx.xx and USD xx.xx at xx.xx xx.xx and xx.xx units constrain relative realizations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-product EXW slipcase prices of USD xx.xx, USD xx.xx and USD xx.xx at xx.xx xx.xx and xx.xx units constrain relative realizations.
41. Book Printing Cost in China: How Printing Prices Are Calculated
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately USD xx.xx per export carton including basic packing materials constrains the bulk-package budget; the container allocation is modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately USD xx.xx per export carton including basic packing materials constrains the bulk-package budget; the container allocation is modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its cushioning split is assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its cushioning split is assumed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its closure split is assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its closure split is assumed.
42. Make Believe Ideas - Independent Retail Catalog 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 catalog identifies activity books with cover-mounted blisters, establishing book-specific participation but not packaging revenue or volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 catalog identifies activity books with cover-mounted blisters, establishing book-specific participation but not packaging revenue or volume.
43. Bookmobile - Request Book Printing Quotes the Right Way to Save Money
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The printer's bookstore-oriented purchasing guidance cautions against universal shrink-wrap attachment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The printer's bookstore-oriented purchasing guidance cautions against universal shrink-wrap attachment.

44. Digital Book Printing - Bookmobile
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current book-production portfolio separately offers poly bags, supporting commercial category participation rather than a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current book-production portfolio separately offers poly bags, supporting commercial category participation rather than a sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current portfolio offers shrink-wrap independently of other finishing options.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current portfolio offers shrink-wrap independently of other finishing options.
45. Sell Books on Shopify - Lulu
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The offered storefront-to-print-and-ship route supports an accessible production-linked parcel channel, not assumed demand.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct fulfillment availability supports the parcel-use scenario without establishing envelope mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct fulfillment availability supports the parcel-use scenario without establishing bag mix.
46. European Commission - New EU Rules on Packaging Enter into Application
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional packaging minimization supports a directional right-sizing premise, not a measured global box-price effect.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Waste-reduction requirements inform the bounded substitution scenario; they do not quantify band adoption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional circularity requirements inform lower lightweight-bag exposure without implying a global book-bag ban.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Material substitution remains partly internal to the combined film-and-paper category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional recyclability pressure informs the niche substitution scenario, not an observed blister-sales decline.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Empty-space reduction provides a directional premise for lower cushioning allowance per individual box.
47. Digital Printing - U.S. Government Publishing Office
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Procurement examples allow offset or digital alternatives while restricting some digital variants, supporting an acceptance- and run-mix model rather than a universal quality ranking. This is a modeling premise, not an observed process share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Procurement examples allow offset or digital alternatives while restricting some digital variants, supporting an acceptance- and run-mix model rather than a universal quality ranking. This is a modeling premise, not an observed process share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The purchasing guidance supports conditional digital substitution, not unrestricted interchangeability or an observed forecast allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The purchasing guidance supports conditional digital substitution, not unrestricted interchangeability or an observed forecast allocation.

48. Clays demonstrate dedication to digital investment
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx books annually and xx.xx books of digital capacity in an older investment statement; this constrains scale but is not a 2025 realized output mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx books annually and xx.xx books of digital capacity in an older investment statement; this constrains scale but is not a 2025 realized output mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's inkjet investment supports an existing book-production application and a conditional adoption premise, not a quantified global forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's inkjet investment supports an existing book-production application and a conditional adoption premise, not a quantified global forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The capacity/output comparison is a limited commercial check on continued conventional book production, not a direct offset revenue observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The capacity/output comparison is a limited commercial check on continued conventional book production, not a direct offset revenue observation.
49. ISO/TC 130 - Guidelines for Using Print Production Standards, Version 1.0, 2019
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes packaging use cases and printing processes, supporting allocation of gravure to book-associated components rather than the full value of a book.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes packaging use cases and printing processes, supporting allocation of gravure to book-associated components rather than the full value of a book.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies flexographic packaging applications; the book-specific spending budget and process coefficients remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies flexographic packaging applications; the book-specific spending budget and process coefficients remain modeled.
50. Premium Layflat Photo Books - PhotobookShop
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Offers bound silver-halide photographic books and distinguishes them from digitally printed alternatives, supporting the model's separate photographic category rather than an observed sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Offers bound silver-halide photographic books and distinguishes them from digitally printed alternatives, supporting the model's separate photographic category rather than an observed sales weight.
51. The Cormac McCarthy Collection - The Folio Society
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents screen-printed cloth covers on physical book editions, supporting component-level commercial attribution. It does not measure supplier component receipts or global uptake.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents screen-printed cloth covers on physical book editions, supporting component-level commercial attribution. It does not measure supplier component receipts or global uptake.

52. Risograph Digital Duplicator Order Form, 2026 - Minneapolis College of Art and Design
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2026 institutional form recognizes Risograph book/booklet orders but excludes assembly. It supports a limited application boundary, not 2025 external commercial volume; internal institutional charges are excluded from the numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2026 institutional form recognizes Risograph book/booklet orders but excludes assembly. It supports a limited application boundary, not 2025 external commercial volume; internal institutional charges are excluded from the numerator.
53. American Printing House - 2024 Annual Report
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal 2024 product sales were USD xx.xx; braille publications represented xx.xx% of product sales; xx.xx braille volumes were produced. These inputs constrain an adjusted production-realization proxy, not a global market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The decline from xx.xx braille volumes in 2022 qualifies a uniform physical-demand growth assumption and informs the slower relative forecast activity weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2024 product sales were USD xx.xx; braille publications represented xx.xx% of product sales; xx.xx braille volumes were produced. These inputs constrain an adjusted production-realization proxy, not a global market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The decline from xx.xx braille volumes in 2022 qualifies a uniform physical-demand growth assumption and informs the slower relative forecast activity weight.
54. Kodak Moments Kiosk - Kodak Alaris
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises book-capable retail kiosk equipment and a photographic-printing portfolio. Used only as a commercial-route premise for the thermal working estimate, not as evidence of thermal book-service sales, utilization or the final share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises book-capable retail kiosk equipment and a photographic-printing portfolio. Used only as a commercial-route premise for the thermal working estimate, not as evidence of thermal book-service sales, utilization or the final share.
55. 二〇二一年全国新闻出版业基本情况
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official 2021 aggregate textbook output distinguishes school, tertiary and vocational/adult activity; historical volumes require value and global-scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official 2021 aggregate textbook output distinguishes school, tertiary and vocational/adult activity; historical volumes require value and global-scope adjustments.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Secondary, primary and teaching-book aggregate sheet counts form the school activity weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Secondary, primary and teaching-book aggregate sheet counts form the school activity weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Tertiary textbook aggregate output supplies the higher-education activity input before an assumed relative-service-value adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Tertiary textbook aggregate output supplies the higher-education activity input before an assumed relative-service-value adjustment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Vocational, adult and literacy textbook output supplies the corresponding historical activity input.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Vocational, adult and literacy textbook output supplies the corresponding historical activity input.

56. Music, printed or in manuscript imports by country, 2024 - World Integrated Trade Solution
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official HS xx.xx import observations constrain the music-publication value bridge; domestic supply, physical-book eligibility and the printing-service fraction remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official HS xx.xx import observations constrain the music-publication value bridge; domestic supply, physical-book eligibility and the printing-service fraction remain modeled.
57. Bloomsbury Publishing - 2024/25 Results Presentation
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate Academic & Professional print, digital and rights/service receipts demonstrate the required physical-revenue boundary; company mix is not treated as global market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate Academic & Professional print, digital and rights/service receipts demonstrate the required physical-revenue boundary; company mix is not treated as global market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed physical academic publishing activity supports commercial applicability but does not verify the assumed global research/reference ratio.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed physical academic publishing activity supports commercial applicability but does not verify the assumed global research/reference ratio.
58. HDSB - RFSQ 26-013: Yearbook Software and Printing Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The qualification notice establishes a commissioned yearbook scope including printing, binding and school delivery; it supplies no awarded value and is not used as a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The qualification notice establishes a commissioned yearbook scope including printing, binding and school delivery; it supplies no awarded value and is not used as a sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The yearbook qualification notice restricts supply to prequalified vendors while permitting school bulk orders and individual ordering. It supports separating commissioning authority from ultimate payment, but discloses no fulfilled-order value.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The yearbook qualification notice restricts supply to prequalified vendors while permitting school bulk orders and individual ordering. It supports separating commissioning authority from ultimate payment, but discloses no fulfilled-order value.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The individual-ordering option establishes an attribution uncertainty relevant to the modeled household portion; it does not establish the assumed xx.xx% proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The individual-ordering option establishes an attribution uncertainty relevant to the modeled household portion; it does not establish the assumed xx.xx% proportion.

59. U.S. Census Bureau - 2022 Economic Census, Books Printing Questionnaire MC-32312
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official printing questionnaire supports the distinction between textbook and general-book production; recognition is not treated as a revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official printing questionnaire supports the distinction between textbook and general-book production; recognition is not treated as a revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognized coloring-book output supports treating recreational activity commissions separately from institutional textbooks according to purpose.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognized coloring-book output supports treating recreational activity commissions separately from institutional textbooks according to purpose.
60. Press Information Bureau - Department of School Education & Literacy, Year End Review 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The government review describes substantial NCERT physical-textbook activity, independently qualifying the physical-availability premise without establishing attributable supplier revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The government review describes substantial NCERT physical-textbook activity, independently qualifying the physical-availability premise without establishing attributable supplier revenue.
61. 2022 North American Industry Classification System - United States
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dedicated book-publishing activity is separated from institutional primary activities and printing without publishing, constraining the Publishing Organizations numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dedicated book-publishing activity is separated from institutional primary activities and printing without publishing, constraining the Publishing Organizations numerator.
62. U.S. Census Bureau - Books Printing: 2002
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Table xx.xx reports 2002 U.S. books-printing contract-work costs of USD xx.xx and shipments of USD xx.xx. Their ratio supplies a dated manufacturing-subcontract proxy, held constant within the forecast component.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Table xx.xx reports 2002 U.S. books-printing contract-work costs of USD xx.xx and shipments of USD xx.xx. Their ratio supplies a dated manufacturing-subcontract proxy, held constant within the forecast component.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical subcontract-cost input constrains the modeled transfer from publisher-origin commissioning to performing suppliers, without adding another gross contract value.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical subcontract-cost input constrains the modeled transfer from publisher-origin commissioning to performing suppliers, without adding another gross contract value.
63. Samfine Creation Holdings Group Limited - Form 20-F for the year ended December 31, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports USD xx.xx of 2025 book-product revenue and principally serves book traders that secure printing contracts and outsource production. This is a supplier-specific quantitative role check, not a Global allocation weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports USD xx.xx of 2025 book-product revenue and principally serves book traders that secure printing contracts and outsource production. This is a supplier-specific quantitative role check, not a Global allocation weight.

64. Ministry of Education - NCERT and Amazon Letter of Engagement, October 7, 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2024 announcement targeted xx.xx NCERT books for academic 2025-xx.xx. This is a planned institutional activity anchor; realization, eligible receipts and subsequent growth are modeled separately.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2024 announcement targeted xx.xx NCERT books for academic 2025-xx.xx. This is a planned institutional activity anchor; realization, eligible receipts and subsequent growth are modeled separately.
65. Bangladesh e-GP - NCTB/TEXTBOOK/2025, Package GD.102_SEC_8.031
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The government-funded procurement plan specifies xx.xx academic-2025 textbook copies and an estimated BDT xx.xx for printing, binding and supply. It constrains commercial order scale and local unit-budget plausibility, not realized annual revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The government-funded procurement plan specifies xx.xx academic-2025 textbook copies and an estimated BDT xx.xx for printing, binding and supply. It constrains commercial order scale and local unit-budget plausibility, not realized annual revenue.
66. Students suffer as NCTB fails to deliver books - The Daily Star, January 17, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 report corroborates the dated approximately xx.xx-copy textbook target and early-year delivery disruption. Target realization and supplier receipts remain modeled.
67. Secondary-level students: A new year without full set of books for many - The Daily Star, December 28, 2025
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 report corroborates the approximately xx.xx-copy academic-2026 target and continued delivery slippage. It informs a normalization assumption, not an observed 2032 share.
68. Business Books - Print Professional, Custom Corporate Books | Blurb
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The business-book offering includes organizational presentation and corporate-gift applications. It establishes an in-scope commissioning proposition, not the modeled global copy quantity or spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The business-book offering includes organizational presentation and corporate-gift applications. It establishes an in-scope commissioning proposition, not the modeled global copy quantity or spending.
69. How to Use Lulu to Support Your Nonprofit | Lulu
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform permits an organization or charity to receive creator proceeds. This supports excluding beneficiary-only arrangements from nonprofit commissioning; it does not measure nonprofit printing purchases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform permits an organization or charity to receive creator proceeds. This supports excluding beneficiary-only arrangements from nonprofit commissioning; it does not measure nonprofit printing purchases.

70. News Corp - Form 10-K for the fiscal year ended June 30, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal 2025 consumer backlist revenue of xx.xx% and digital revenue of xx.xx% anchor the assumed physical-backlist bridge and its forecast starting model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2025 consumer backlist revenue of xx.xx% and digital revenue of xx.xx% anchor the assumed physical-backlist bridge and its forecast starting model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed backlist mix constrains recurring-title demand; its division into replenishment and POD remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed backlist mix constrains recurring-title demand; its division into replenishment and POD remains modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The complementary frontlist population supports the launch-stock cohort after physical-format adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The complementary frontlist population supports the launch-stock cohort after physical-format adjustments.
71. News Corp - Form 10-K for the fiscal year ended June 30, 2026
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2026 backlist revenue of xx.xx% and digital revenue of xx.xx% lower the forecast physical-backlist proxy instead of assuming continued backlist expansion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The updated catalog mix changes the forecast population available for repeat inventory releases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The updated frontlist/backlist bridge changes the forecast planned-production weight; no 2032 share is disclosed.
72. How Do Lulu Direct Orders Work?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lulu describes printing after customer purchase and distinguishes production from subsequent shipment, supporting recipient-order attribution rather than technology-based classification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lulu describes printing after customer purchase and distinguishes production from subsequent shipment, supporting recipient-order attribution rather than technology-based classification.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: No minimum order and one-copy ordering establish commercial feasibility, not the number or value of single-copy releases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No minimum order and one-copy ordering establish commercial feasibility, not the number or value of single-copy releases.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: One POD offering accepts hundreds of copies, independently challenging a POD-equals-single-copy allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One POD offering accepts hundreds of copies, independently challenging a POD-equals-single-copy allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Orders can extend into thousands within the same offering; the production trigger therefore does not uniquely identify the working run band.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Orders can extend into thousands within the same offering; the production trigger therefore does not uniquely identify the working run band.

73. Supply Chain - Clays
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Clays describes differentiated backlist arrangements and stock visibility, supporting a separate inventory-replenishment cohort without establishing its numerical prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Clays describes differentiated backlist arrangements and stock visibility, supporting a separate inventory-replenishment cohort without establishing its numerical prevalence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: New-title consolidation and predictable annual backlist demand support retaining planned inventory commitments; short-run printing is explicitly not necessarily POD.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: New-title consolidation and predictable annual backlist demand support retaining planned inventory commitments; short-run printing is explicitly not necessarily POD.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Clays explicitly distinguishes short-run work from POD, supporting category separation rather than a technological proxy for value share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Clays explicitly distinguishes short-run work from POD, supporting category separation rather than a technological proxy for value share.
74. Smart Backlist Management: When to Hold and When to Print-on-Demand
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheridan describes low-volume titles moving to POD while other titles retain inventory, supporting differentiated release-policy assumptions rather than a uniform backlist-to-POD conversion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheridan describes low-volume titles moving to POD while other titles retain inventory, supporting differentiated release-policy assumptions rather than a uniform backlist-to-POD conversion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A disclosed customer example uses a stock threshold to trigger a 2,000-copy replenishment order. It establishes the commercial mechanism, not a market-wide share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A disclosed customer example uses a stock threshold to trigger a 2,000-copy replenishment order. It establishes the commercial mechanism, not a market-wide share.

75. Shortage of NCERT textbooks - Rajya Sabha Unstarred Question No. 1941, December 17, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advance enrollment-based forecasting, academic-session readiness and a fiscal 2025-xx.xx plan for approximately xx.xx textbooks support a substantial calendar-driven stock cohort. The target is not realized production.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advance enrollment-based forecasting, academic-session readiness and a fiscal 2025-xx.xx plan for approximately xx.xx textbooks support a substantial calendar-driven stock cohort. The target is not realized production.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phased supply and inventory monitoring support distinguishing ongoing availability obligations from individual-recipient POD, without quantifying replenishment's global prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phased supply and inventory monitoring support distinguishing ongoing availability obligations from individual-recipient POD, without quantifying replenishment's global prevalence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official answer distinguishes printer empanelment from approximately xx.xx distribution vendors and describes planned fiscal 2025-xx.xx printing of approximately xx.xx textbooks. It supports commissioning-versus-distribution separation, not a realized monetary channel split.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official answer distinguishes printer empanelment from approximately xx.xx distribution vendors and describes planned fiscal 2025-xx.xx printing of approximately xx.xx textbooks. It supports commissioning-versus-distribution separation, not a realized monetary channel split.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phased textbook supply supports treating annual institutional quantities separately from production batches; it does not disclose the medium-run allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phased textbook supply supports treating annual institutional quantities separately from production batches; it does not disclose the medium-run allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 answer identifies a xx.xx-million-copy FY2025-xx.xx printing decision versus approximately xx.xx in recent years, a counterforce to assuming rapid long-run disappearance. Planned copies are not realized service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 answer identifies a xx.xx-million-copy FY2025-xx.xx printing decision versus approximately xx.xx in recent years, a counterforce to assuming rapid long-run disappearance. Planned copies are not realized service revenue.
76. Fulfillment Fee - Lulu Direct
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2026 schedule lists USD xx.xx per order regardless of item count, supporting an order-frequency effect on associated-service value. It does not verify the assumed historical or forecast multiplier.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2026 schedule lists USD xx.xx per order regardless of item count, supporting an order-frequency effect on associated-service value. It does not verify the assumed historical or forecast multiplier.

77. InnerWorkings, Inc. - Form 10-K for the year ended December 31, 2019
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2019 filing reports USD xx.xx gross profit on USD xx.xx revenue and describes purchased-product and direct-service costs. Historical reported margins constrain the modeled xx.xx% retained-fee ratio; they do not directly measure book-channel share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2019 filing reports USD xx.xx gross profit on USD xx.xx revenue and describes purchased-product and direct-service costs. Historical reported margins constrain the modeled xx.xx% retained-fee ratio; they do not directly measure book-channel share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The procurement-service margin comparison supports the fee-to-managed-spending bridge underlying the direct-channel complement. Carrying the normalized ratio into 2032 is explicitly a forecast assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The procurement-service margin comparison supports the fee-to-managed-spending bridge underlying the direct-channel complement. Carrying the normalized ratio into 2032 is explicitly a forecast assumption.
78. Simplified Purchase Agreement - U.S. Government Publishing Office
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SPA permits agency awards directly to certified vendors for purchases up to USD xx.xx while GPO pays vendors and invoices agencies. This supports classifying by the contracting relationship rather than the invoice payer, not a numerical global weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SPA permits agency awards directly to certified vendors for purchases up to USD xx.xx while GPO pays vendors and invoices agencies. This supports classifying by the contracting relationship rather than the invoice payer, not a numerical global weight.
79. Global Print Services | China, Europe, SE Asia, USA & India
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Imago describes sourcing suppliers and coordinating multiple manufacturers for book-related projects. Its cumulative customer relationships establish the offered intermediary role but are not annual revenue or allocation weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Imago describes sourcing suppliers and coordinating multiple manufacturers for book-related projects. Its cumulative customer relationships establish the offered intermediary role but are not annual revenue or allocation weights.
80. Lion Rock Group Limited - Annual Report 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-business 2025 turnover changes of minus xx.xx% for APOL and minus xx.xx% for Regent challenge uniform intermediary growth; Regent's non-book focus limits its relevance. These observations support avoiding an additional adoption uplift.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-business 2025 turnover changes of minus xx.xx% for APOL and minus xx.xx% for Regent challenge uniform intermediary growth; Regent's non-book focus limits its relevance. These observations support avoiding an additional adoption uplift.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Manufacturing turnover changes of minus xx.xx% at xx.xx Printing and plus xx.xx% at Papercraft demonstrate differing supplier trajectories rather than a simple common channel-growth pattern; these are not direct-contracting market shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Manufacturing turnover changes of minus xx.xx% at xx.xx Printing and plus xx.xx% at Papercraft demonstrate differing supplier trajectories rather than a simple common channel-growth pattern; these are not direct-contracting market shares.

81. Imprint Digital - Book Printing Prices UK

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected schedule quotes GBP xx.xx at xx.xx copies for one paperback specification, supporting a relative-price input, not a historical global realization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected schedule quotes GBP xx.xx at xx.xx copies for one paperback specification, supporting a relative-price input, not a historical global realization.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: GBP xx.xx at xx.xx copies supplies the medium-run reference index; format and delivery differences require separate treatment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GBP xx.xx at xx.xx copies supplies the medium-run reference index; format and delivery differences require separate treatment.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The quantity-price curve anchors the reference from which the long-run discount is assumed; no long-run price or future share is disclosed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The quantity-price curve anchors the reference from which the long-run discount is assumed; no long-run price or future share is disclosed.

82. Print Options

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: KDP distinguishes black-and-white from color records and locks ink type after publication. These platform-specific conditions qualify switching assumptions, not market weights. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: KDP distinguishes black-and-white from color records and locks ink type after publication. These platform-specific conditions qualify switching assumptions, not market weights. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The displayed platform menu does not establish designated spot-color availability or sales; a general color option is not used as evidence of spot-color demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The displayed platform menu does not establish designated spot-color availability or sales; a general color option is not used as evidence of spot-color demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Standard color is unavailable for hardcover, but premium color is available. Both process-color tiers belong within the modeled Full-Color Interiors category. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Standard color is unavailable for hardcover, but premium color is available. Both process-color tiers belong within the modeled Full-Color Interiors category. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))

83. Synthèse des chiffres de l'édition jeunesse 2024-2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The primary French publishing survey reports a xx.xx% decline in illustrated early-childhood volumes and a xx.xx% decline in youth-fiction volumes in 2024. These differing outcomes challenge an aggressive universal color-growth assumption. ([sne.fr](https://www.sne.fr/actu/synthese-des-chiffres-de-ledition-jeunesse-2024-2025/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The primary French publishing survey reports a xx.xx% decline in illustrated early-childhood volumes and a xx.xx% decline in youth-fiction volumes in 2024. These differing outcomes challenge an aggressive universal color-growth assumption. ([sne.fr](https://www.sne.fr/actu/synthese-des-chiffres-de-ledition-jeunesse-2024-2025/))

20.12. Australia

Sources & Evidence

1. European Book Publishing Statistics 2024
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: European publishers reported approximately EUR xx.xx of net book-sales revenue in 2024. The disclosed ebook and audiobook proportions inform the modeled xx.xx% physical-book revenue proportion; publisher revenue is an input, not printing-service revenue.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 publisher-revenue and format observations provide the European demand input carried into the 2025 estimate.

2. The Global Publishing Industry in 2022

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Table xx.xx supplies country-level publishing revenues and identifies differences between retail-value, publisher-revenue, print-only and prior-year observations. Selected non-European country observations are adjusted for physical formats and period before estimating production spending.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The selected country observations contribute to the demand pool underlying the 2025 working estimate. Nielsen retail datasets elsewhere in the publication are not used.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Primary survey sector differences constrain the education-adjusted hardcover proxy.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Primary survey sector differences constrain the education-adjusted hardcover proxy.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Educational/trade differences qualify extrapolation of U.S. consumer-format revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Educational/trade differences qualify extrapolation of U.S. consumer-format revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx of surveyed children's publishing revenue anchors the modeled specialty demand pool, not supplier receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx of surveyed children's publishing revenue anchors the modeled specialty demand pool, not supplier receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sector data constrain the commissioning-pool proxy; mechanical incidence remains assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sector data constrain the commissioning-pool proxy; mechanical incidence remains assumed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Educational demand supplies a common economic anchor; loose-leaf incidence remains modeled.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Educational demand supplies a common economic anchor; loose-leaf incidence remains modeled.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sector observations constrain the educational short-book commissioning pool.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sector observations constrain the educational short-book commissioning pool.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The commissioning-pool anchor supports an explicit sparse-format incidence model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The commissioning-pool anchor supports an explicit sparse-format incidence model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors the accordion working estimate, not observed accordion orders.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors the accordion working estimate, not observed accordion orders.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed textile-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed textile-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed bath-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed bath-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed foam-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed foam-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original publishing survey documents country-level trade/education revenue differences used to constrain the modeled physical-publishing mix; it does not directly measure service shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original publishing survey documents country-level trade/education revenue differences used to constrain the modeled physical-publishing mix; it does not directly measure service shares.

3. 2024 年新闻出版统计公报

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: For 2024, the official table reports xx.xx book copies or sheets and CNY xx.xx of book-publishing revenue. These constrain the demand bridge and historical contraction, rather than directly measuring printing-service sales.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 book-publishing observation supplies the Chinese demand primitive for the 2025 model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official 2024 output of xx.xx copies/sheets constrains total modeled publisher activity; it does not disclose single-copy production.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official 2024 output of xx.xx copies/sheets constrains total modeled publisher activity; it does not disclose single-copy production.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Aggregate copies and annual title output constrain the shared activity model, not an observed short-run share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Aggregate copies and annual title output constrain the shared activity model, not an observed short-run share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Aggregate production provides a scale check for the medium-run assumption; annual copies per title are not individual batches.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Aggregate production provides a scale check for the medium-run assumption; annual copies per title are not individual batches.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx annual copies per title constrain the long-run scenario without proving its batch mix or forecast.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx annual copies per title constrain the long-run scenario without proving its batch mix or forecast.

4. Foreign Exchange Rates - G.5A Annual, January 5, 2026

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: The official 2024 annual-average conversion inputs are USD xx.xx per EUR, CNY xx.xx per USD and CAD xx.xx per USD.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The exchange-rate table establishes the conversion basis of the preceding-year demand inputs used in the 2025 estimate; subsequent effective-USD price assumptions are modeled separately.

5. Book publishing industry, 2024 - Statistics Canada
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Canadian publishers reported CAD xx.xx of print sales outside the online category and CAD xx.xx of online print sales in 2024. Their sum, rather than total operating revenue, supplies the physical-book demand input.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: Reported cost of goods sold of CAD xx.xx, up CAD xx.xx from 2022, supplies a cost-pressure cross-check, not a directly attributable printing-services total.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Canadian online versus other print-sales values constrain parcel exposure, with explicit value-to-unit and geographic limitations.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Canadian online versus other print-sales values constrain parcel exposure, with explicit value-to-unit and geographic limitations.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed envelope purchases.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed envelope purchases.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed bag purchases.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed bag purchases.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Modest observed online-print growth qualifies aggressive parcel-related wrapping assumptions.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Modest observed online-print growth qualifies aggressive parcel-related wrapping assumptions.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring separate protection.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring separate protection.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring closures.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring closures.
6. U.S. Census Bureau - Books Printing: Shipments, annual table
   - Evidence informing the 2017 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2017; this is a national production anchor for the historical model.
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2018.
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2019.
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2020.
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2021.
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2022.
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2024. This national industrial measure is narrower than the composite global service boundary.

7. U.S. Census Bureau - Book Publishers, All Establishments: Revenue, annual table
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: The Census annual series reports USD xx.xx of U.S. book-publisher revenue for 2024. A modeled xx.xx% physical-book proportion excludes digital and other adjacent receipts.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 Census observation replaces an older survey-based U.S. revenue bridge in the demand pool underlying 2025.

8. Scholastic Corporation - Form 10-K for the year ended May 31, 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Scholastic's fiscal 2024 product, service, production and inventory-reserve costs were xx.xx% of revenue; postage, freight, shipping, fulfillment and other costs were xx.xx%. These broad categories constrain, but do not directly establish, eligible outsourced-service spending.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The corresponding fiscal 2025 proportions were xx.xx% and xx.xx%. Royalties and prepublication amortization are separately disclosed, allowing their exclusion from the service-market bridge.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 product, service, production and inventory-reserve costs were xx.xx% of revenue. The broader cost category constrains the manufacturing spending boundary but does not directly disclose printing-service revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 product, service, production and inventory-reserve costs were xx.xx% of revenue. The broader cost category constrains the manufacturing spending boundary but does not directly disclose printing-service revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Prepublication amortization is disclosed separately from production costs, supporting exclusion of adjacent amortization rather than equating it with externally purchased prepress.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Prepublication amortization is disclosed separately from production costs, supporting exclusion of adjacent amortization rather than equating it with externally purchased prepress.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Postage, freight, shipping, fulfillment and other costs were xx.xx% of revenue in fiscal 2025 versus xx.xx% in fiscal 2024. This is a broad buyer-cost check, not an eligible outsourced-fulfillment share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Postage, freight, shipping, fulfillment and other costs were xx.xx% of revenue in fiscal 2025 versus xx.xx% in fiscal 2024. This is a broad buyer-cost check, not an eligible outsourced-fulfillment share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Outsourced manufacturing coexists with company-operated distribution. Fiscal-2025 production-related costs were xx.xx% of revenue, constraining the inherited spending bridge rather than directly measuring the assumed route fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Outsourced manufacturing coexists with company-operated distribution. Fiscal-2025 production-related costs were xx.xx% of revenue, constraining the inherited spending bridge rather than directly measuring the assumed route fraction.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Book-club revenue was xx.xx% online-ordered and xx.xx% parent-ordered, while products typically went to classrooms. This challenges the use of online sales as a proxy for the external contractor's delivery model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Book-club revenue was xx.xx% online-ordered and xx.xx% parent-ordered, while products typically went to classrooms. This challenges the use of online sales as a proxy for the external contractor's delivery model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct printer-to-customer fulfillment is a disclosed option. Broader logistics/other costs were xx.xx% of revenue versus xx.xx% previously, providing a cost-boundary check but no global order-level share or service-price growth observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct printer-to-customer fulfillment is a disclosed option. Broader logistics/other costs were xx.xx% of revenue versus xx.xx% previously, providing a cost-boundary check but no global order-level share or service-price growth observation.

9. CEWE achieves all targets in 2025 and aims to further increase revenue and earnings in 2026

- Evidence informing the 2025 market-value input; displayed series and growth include calculations: CEWE reported xx.xx CEWE PHOTOBOOK copies in 2025 versus xx.xx in 2024, supporting a positive specialty-book volume assumption without establishing global adoption.
- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Observed 2025 photobook growth informs the specialty-demand assumption for 2026; the market value remains modeled.
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The observed specialty-book activity is a starting condition for the forecast, not independent proof of continued growth through 2032.
- Evidence informing the 2040 market-value input; displayed series and growth include calculations: The forecast explicitly slows specialty-demand growth after 2032; this source supplies the initial commercial observation, not the long-term growth rate.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: CEWE reports xx.xx photobooks in 2025 compared with xx.xx in 2024. This independently establishes specialty-book activity underlying the nonpublisher model, without establishing a global expansion factor.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CEWE reports xx.xx photobooks in 2025 compared with xx.xx in 2024. This independently establishes specialty-book activity underlying the nonpublisher model, without establishing a global expansion factor.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports retaining premium specialty commissions in the manufacturing mix; the binding allocation and unchanged future cohort profile remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports retaining premium specialty commissions in the manufacturing mix; the binding allocation and unchanged future cohort profile remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported photobook volumes constrain personal-book activity and the nonpublisher starting condition, not hardcover prevalence or future share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported photobook volumes constrain personal-book activity and the nonpublisher starting condition, not hardcover prevalence or future share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Photobook activity supports the separate personal-book commissioning block; its softcover fraction remains assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Photobook activity supports the separate personal-book commissioning block; its softcover fraction remains assumed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported photobook copies rose from xx.xx to xx.xx; the narrower 2026 target qualifies strong specialty-growth assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported photobook copies rose from xx.xx to xx.xx; the narrower 2026 target qualifies strong specialty-growth assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specialty-book activity constrains the presentation-demand scenario but does not measure gift-box attachment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specialty-book activity constrains the presentation-demand scenario but does not measure gift-box attachment.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CEWE PHOTOBOOK units in 2025 versus xx.xx in 2024, constraining the specialty-book demand budget without establishing a global process split.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CEWE PHOTOBOOK units in 2025 versus xx.xx in 2024, constraining the specialty-book demand budget without establishing a global process split.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports the common photographic-demand input; electrophotographic attribution remains an explicit assumption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports the common photographic-demand input; electrophotographic attribution remains an explicit assumption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The photobook

10. Paperback Printing Cost - Kindle Direct Publishing

- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The inspected U.S. paperback schedule charges USD xx.xx plus USD xx.xx per page for the specified regular-trim black-ink category. It provides a contemporary commercial price comparison for the assumed USD xx.xx self-publishing production receipt, not an observed historical price or volume.
- Evidence informing the 2026 market-value input; displayed series and growth include calculations: The schedule distinguishes printing charges from royalties and retail list prices, supporting the production-receipt boundary used in the estimate.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule uses USD xx.xx plus USD xx.xx per page for the relevant page band, yielding the USD xx.xx representative manufacturing comparator. It anchors relative weights, not an observed global 2025 price or future share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule uses USD xx.xx plus USD xx.xx per page for the relevant page band, yielding the USD xx.xx representative manufacturing comparator. It anchors relative weights, not an observed global 2025 price or future share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The paperback manufacturing comparator supplies the baseline from which the modeled binding component and hardcover increment are separated.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The paperback manufacturing comparator supplies the baseline from which the modeled binding component and hardcover increment are separated.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The separately identified paperback printing charge constrains the self-publishing production-receipt model and its distinction from retail proceeds.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The separately identified paperback printing charge constrains the self-publishing production-receipt model and its distinction from retail proceeds.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page. It is a contemporary production-charge comparison for the modeled USD xx.xx receipt, not an observed historical Global average.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page. It is a contemporary production-charge comparison for the modeled USD xx.xx receipt, not an observed historical Global average.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The relevant current U.S. paperback printing schedule is USD xx.xx plus USD xx.xx per page, giving USD xx.xx at xx.xx pages. This is a commercial price comparison for creator-production receipts, not proof of 2025 realization, volume or fulfillment mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The relevant current U.S. paperback printing schedule is USD xx.xx plus USD xx.xx per page, giving USD xx.xx at xx.xx pages. This is a commercial price comparison for creator-production receipts, not proof of 2025 realization, volume or fulfillment mix.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule of USD xx.xx plus USD xx.xx per page gives USD xx.xx at xx.xx pages, a magnitude check for modeled single-copy receipts. It establishes neither global volume nor historical or forecast share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule of USD xx.xx plus USD xx.xx per page gives USD xx.xx at xx.xx pages, a magnitude check for modeled single-copy receipts. It establishes neither global volume nor historical or forecast share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page, yielding USD xx.xx for xx.xx pages. This is a contemporary price comparator, not a historical global average. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834340))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page, yielding USD xx.xx for xx.xx pages. This is a contemporary price comparator, not a historical global average. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834340))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The comparable standard and premium color charges calculate to USD xx.xx and USD xx.xx. They constrain relative

11. European Book Publishing Statistics 2017

- Evidence informing the 2017 market-value input; displayed series and growth include calculations: The association's primary survey reports approximately EUR xx.xx of European net publisher revenue for 2017, constraining the pre-pandemic demand level.

12. European Book Publishing Statistics 2019

- Evidence informing the 2018 market-value input; displayed series and growth include calculations: The association reports approximately EUR xx.xx of publisher revenue for 2018.
- Evidence informing the 2019 market-value input; displayed series and growth include calculations: The association reports approximately EUR xx.xx for 2019 and identifies a questionnaire change that limits exact comparability with earlier observations.

13. 2021 年新闻出版产业分析报告

- Evidence informing the 2020 market-value input; displayed series and growth include calculations: The official report's 2021 comparison identifies a substantial rebound from 2020, constraining the pandemic-recovery bridge.
- Evidence informing the 2021 market-value input; displayed series and growth include calculations: China reported xx.xx book copies or sheets in 2021, up xx.xx%; the report also distinguishes textbook output and reprints.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: China's official 2021 textbook share was xx.xx% of book copies. It supplies an older educational-activity proxy, not a monochrome share.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: China's official 2021 textbook share was xx.xx% of book copies. It supplies an older educational-activity proxy, not a monochrome share.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The textbook copy proportion constrains educational exposure; comparable monetary intensity and spot-color incidence are modeled separately.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The textbook copy proportion constrains educational exposure; comparable monetary intensity and spot-color incidence are modeled separately.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational-activity observation contributes to the shared demand proxy carried into the full-color base and forecast models; no color split is reported.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational-activity observation contributes to the shared demand proxy carried into the full-color base and forecast models; no color split is reported.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))

14. European Book Publishing Statistics 2023

- Evidence informing the 2022 market-value input; displayed series and growth include calculations: European net publisher revenue was approximately EUR xx.xx in 2022; the association describes paper-cost pressure and price-led growth.

15. Hardcover Printing Cost - Kindle Direct Publishing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim hardcover schedule uses USD xx.xx plus USD xx.xx per page in the relevant band. Comparison with paperback charges constrains the premium-equivalent manufacturing model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim hardcover schedule uses USD xx.xx plus USD xx.xx per page in the relevant band. Comparison with paperback charges constrains the premium-equivalent manufacturing model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD xx.xx fixed-charge difference supplies the POD premium input; the xx.xx% commercial-run realization and premium incidence are explicitly modeled rather than disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD xx.xx fixed-charge difference supplies the POD premium input; the xx.xx% commercial-run realization and premium incidence are explicitly modeled rather than disclosed.
16. User Fees - University of Wisconsin-Milwaukee Print & Copy Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The university service schedule separately prices preflight/prepress preparation at USD xx.xx per hour, establishing a paid preparation activity rather than an automatic component of every printing-platform purchase.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The university service schedule separately prices preflight/prepress preparation at USD xx.xx per hour, establishing a paid preparation activity rather than an automatic component of every printing-platform purchase.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Perfect binding is listed at USD xx.xx-xx.xx per book. The lower endpoint is the model's basic-binding comparator, not a measured worldwide realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Perfect binding is listed at USD xx.xx-xx.xx per book. The lower endpoint is the model's basic-binding comparator, not a measured worldwide realization.

17. How Much Does It Cost to Print a Book? - QinPrinting
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier's delivered xx.xx-page, xx.xx-copy color-book examples list USD xx.xx for softcover and USD xx.xx for hardcover. They provide a commercial-run countercheck, with delivery and product differences preventing direct substitution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier's delivered xx.xx-page, xx.xx-copy color-book examples list USD xx.xx for softcover and USD xx.xx for hardcover. They provide a commercial-run countercheck, with delivery and product differences preventing direct substitution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The smaller hardcover premium in this offset example qualifies extrapolation of the full POD hardcover increment into binding revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The smaller hardcover premium in this offset example qualifies extrapolation of the full POD hardcover increment into binding revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Comparable hardcover and softcover quotations constrain the assumed relative manufacturing realization after scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Comparable hardcover and softcover quotations constrain the assumed relative manufacturing realization after scope adjustments.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Softcover prices provide a commercial comparison, not a historical global average.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Softcover prices provide a commercial comparison, not a historical global average.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Board-book quotations constrain the assumed production receipt; delivery and duties require adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Board-book quotations constrain the assumed production receipt; delivery and duties require adjustment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Mechanical-binding quotations constrain the unit-receipt assumption, not incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Mechanical-binding quotations constrain the unit-receipt assumption, not incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Short-booklet quotations constrain the lower realization used for eligible saddle-stitched books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Short-booklet quotations constrain the lower realization used for eligible saddle-stitched books.
18. Book Wrap Mailers / Book Boxes - Packaging ONE
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer lists MP2 book mailers at GBP xx.xx each for xx.xx packs of xx.xx excluding VAT. The converted unit price supplies the packaging-creation value proxy, not a global average or a historical quote.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer lists MP2 book mailers at GBP xx.xx each for xx.xx packs of xx.xx excluding VAT. The converted unit price supplies the packaging-creation value proxy, not a global average or a historical quote.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The enclosure price forms the other side of the creation-versus-packing ratio. One comparable enclosure per packing unit is an explicit activity-matching assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The enclosure price forms the other side of the creation-versus-packing ratio. One comparable enclosure per packing unit is an explicit activity-matching assumption.

19. Foreign Exchange Rates - G.5A Annual, January 5, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 annual average is USD xx.xx per GBP. It converts the GBP packaging comparator into the common monetary basis used in the starting allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 annual average is USD xx.xx per GBP. It converts the GBP packaging comparator into the common monetary basis used in the starting allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same conversion supports the common-currency packaging/packing denominator inherited by the forecast; no 2032 exchange rate is asserted.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same conversion supports the common-currency packaging/packing denominator inherited by the forecast; no 2032 exchange rate is asserted.
20. Optional Book Publishing Services - InstantPublisher
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider lists layout/typesetting at USD xx.xx per page with a USD xx.xx minimum. This supports the preparation-spending feasibility check, with purchase incidence and copies per job remaining assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider lists layout/typesetting at USD xx.xx per page with a USD xx.xx minimum. This supports the preparation-spending feasibility check, with purchase incidence and copies per job remaining assumptions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Individual shrink-wrapping is listed at USD xx.xx each plus USD xx.xx setup. Amortizing setup over an assumed xx.xx copies gives the USD xx.xx packing comparator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Individual shrink-wrapping is listed at USD xx.xx each plus USD xx.xx setup. Amortizing setup over an assumed xx.xx copies gives the USD xx.xx packing comparator.
21. How Does Merchant Pricing Work for Ecommerce Stores? - Lulu Direct
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2026 merchant-pricing explanation identifies a USD xx.xx fulfillment fee and separates merchant retail receipts from payments for supplier production, shipping and taxes. The fee is a contemporary feasibility comparator, not verified 2025 penetration or a future charge.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2026 merchant-pricing explanation identifies a USD xx.xx fulfillment fee and separates merchant retail receipts from payments for supplier production, shipping and taxes. The fee is a contemporary feasibility comparator, not verified 2025 penetration or a future charge.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Merchant retail receipts are separate from payments for printing and fulfillment. The current page lists a USD xx.xx fulfillment fee, with shipping and taxes separately calculated. This supports the service-value boundary, not a historical average fee or global order volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Merchant retail receipts are separate from payments for printing and fulfillment. The current page lists a USD xx.xx fulfillment fee, with shipping and taxes separately calculated. This supports the service-value boundary, not a historical average fee or global order volume.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lulu identifies separate retail and production/fulfillment transactions and a USD xx.xx fulfillment fee. This supports excluding merchant retail margins from production-service value and avoiding automatic procurement-channel classification from the storefront.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lulu identifies separate retail and production/fulfillment transactions and a USD xx.xx fulfillment fee. This supports excluding merchant retail margins from production-service value and avoiding automatic procurement-channel classification from the storefront.

22. AAP December 2025 StatShot Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The primary monthly reporting panel's full-year 2025 trade figures show paperback revenue down xx.xx%. This qualifies broad physical-book growth assumptions and supplies directional mix evidence only.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The primary monthly reporting panel's full-year 2025 trade figures show paperback revenue down xx.xx%. This qualifies broad physical-book growth assumptions and supplies directional mix evidence only.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same approximately xx.xx-publisher panel shows hardcover revenue up xx.xx%. It supports a modest premium-mix hypothesis but neither measures global binding spending nor proves the forecast.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same approximately xx.xx-publisher panel shows hardcover revenue up xx.xx%. It supports a modest premium-mix hypothesis but neither measures global binding spending nor proves the forecast.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct-participant 2025 hardback revenue of approximately USD xx.xx anchors the adjusted conventional-format model; it is not printing revenue or a global share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct-participant 2025 hardback revenue of approximately USD xx.xx anchors the adjusted conventional-format model; it is not printing revenue or a global share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported paperback revenue of approximately USD xx.xx plus USD xx.xx mass-market revenue supplies the comparison input. Reported annual movements qualify the forecast starting mix, not its future persistence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported paperback revenue of approximately USD xx.xx plus USD xx.xx mass-market revenue supplies the comparison input. Reported annual movements qualify the forecast starting mix, not its future persistence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct publisher-sample religious and trade physical-format receipts provide a category-intensity proxy, subject to explicit geographic and coverage adjustments.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct publisher-sample religious and trade physical-format receipts provide a category-intensity proxy, subject to explicit geographic and coverage adjustments.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported professional-book receipts and their 2025 decline challenge assumptions of automatic growth from recurring reference relationships.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported professional-book receipts and their 2025 decline challenge assumptions of automatic growth from recurring reference relationships.

23. Print and Associated Services Framework - Lot 1 Buyer Guide: Framework Objectives
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The public purchasing framework separately specifies production-management advice. It establishes a purchased responsibility but not a global fee rate or permission to count subcontract pass-through as retained revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The public purchasing framework separately specifies production-management advice. It establishes a purchased responsibility but not a global fee rate or permission to count subcontract pass-through as retained revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The framework also specifies finished-goods stock holding and call-off, with required holding costs included in the print-job price. This supports allocating embedded production-linked fulfillment rather than restricting the category to standalone invoices.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The framework also specifies finished-goods stock holding and call-off, with required holding costs included in the print-job price. This supports allocating embedded production-linked fulfillment rather than restricting the category to standalone invoices.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Finished goods may be held for call-off, with storage included in the print job where required. This supports consolidated releases as a production-linked arrangement without assuming every release is an individual order.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Finished goods may be held for call-off, with storage included in the print job where required. This supports consolidated releases as a production-linked arrangement without assuming every release is an individual order.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contractors maintain designated distribution lists, deliver to nominated addresses and receive job-specific copy allocations, supporting the modeled list-delivery category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contractors maintain designated distribution lists, deliver to nominated addresses and receive job-specific copy allocations, supporting the modeled list-delivery category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The coexistence of stock holding, call-off and distribution-list obligations supports separating production trigger from fulfillment responsibility; call-off alone does not establish transaction-level fulfillment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The coexistence of stock holding, call-off and distribution-list obligations supports separating production trigger from fulfillment responsibility; call-off alone does not establish transaction-level fulfillment.

24. Frequently Asked Questions - IngramSpark
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: IngramSpark states that it does not provide editing, typesetting or design services. This counterexample prevents treating all platform manufacturing commissions as purchases of professional preparation services.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: IngramSpark states that it does not provide editing, typesetting or design services. This counterexample prevents treating all platform manufacturing commissions as purchases of professional preparation services.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider permits nonexclusive sourcing when the customer owns its ISBN and does not offer editing, typesetting or design. These terms constrain the author service boundary, not adoption or revenue growth.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider permits nonexclusive sourcing when the customer owns its ISBN and does not offer editing, typesetting or design. These terms constrain the author service boundary, not adoption or revenue growth.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: IngramSpark permits nonexclusive use of other printers, distributors and fulfillment providers when publishers own their ISBN. This establishes an alternative-sourcing option, not observed switching or a numerical channel allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: IngramSpark permits nonexclusive use of other printers, distributors and fulfillment providers when publishers own their ISBN. This establishes an alternative-sourcing option, not observed switching or a numerical channel allocation.
25. Packaging Printing & Production - Imago Group
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier identifies book slipcases, clamshell cases, tray-and-lid constructions and multicomponent publisher packaging. This supports the enclosure-production boundary and the limitation of a simple mailer-price proxy; it does not supply sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier identifies book slipcases, clamshell cases, tray-and-lid constructions and multicomponent publisher packaging. This supports the enclosure-production boundary and the limitation of a simple mailer-price proxy; it does not supply sales weights.
26. Services - Bridgeport National Bindery
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The short-run book-production portfolio separately lists shrink-wrapping and set packing. It establishes commercial packing activity distinct from enclosure manufacture and binding, without measuring its revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The short-run book-production portfolio separately lists shrink-wrapping and set packing. It establishes commercial packing activity distinct from enclosure manufacture and binding, without measuring its revenue.
27. Terms and Conditions - CPI Print Germany
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published terms distinguish ex-works production prices from packaging, freight and postage and reserve specified input-cost adjustment rights. They support comparable-scope valuation but do not establish realized inflation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published terms distinguish ex-works production prices from packaging, freight and postage and reserve specified input-cost adjustment rights. They support comparable-scope valuation but do not establish realized inflation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate treatment of forwarding and storage responsibilities supports the eligible production-linked service boundary; contractual rights do not prove the assumed future fee-growth rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate treatment of forwarding and storage responsibilities supports the eligible production-linked service boundary; contractual rights do not prove the assumed future fee-growth rate.

28. ONIX Codelists Issue 75 - List 150: Product Form
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BB identifies hardback/cased books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BB identifies hardback/cased books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BC identifies paperback/softback books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BC identifies paperback/softback books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BH distinguishes board-page books from conventional books with rigid covers.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BH distinguishes board-page books from conventional books with rigid covers.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BE groups spiral, comb and coil forms.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BE groups spiral, comb and coil forms.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BD identifies loose-leaf books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BD identifies loose-leaf books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BF includes stapled short books; nonbook uses are excluded from the model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BF includes stapled short books; nonbook uses are excluded from the model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BL recognizes slide-bound books without measuring current sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BL recognizes slide-bound books without measuring current sales.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BO recognizes continuous concertina-fold books; nonbook charts are excluded.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BO recognizes continuous concertina-fold books; nonbook charts are excluded.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BI identifies textile-page books, not cloth-covered paper books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BI identifies textile-page books, not cloth-covered paper books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BJ identifies waterproof bath-book forms.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BJ identifies waterproof bath-book forms.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BP identifies foam-page and foam-cover books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BP identifies foam-page and foam-cover books.

29. Thomson Reuters - Fourth-Quarter and Full-Year 2025 Results
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Global Print revenue and contraction constrain professional-print scale and substitution direction; content receipts are not treated as loose-leaf service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Global Print revenue and contraction constrain professional-print scale and substitution direction; content receipts are not treated as loose-leaf service revenue.
30. Lulu - Discontinuing Saddle Stitch in Global Distribution
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provider-specific wholesale distribution restrictions establish a channel constraint, not a global sales weight or measured forecast decline.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provider-specific wholesale distribution restrictions establish a channel constraint, not a global sales weight or measured forecast decline.
31. MAGACOPY Sofia - Copying and Printing Prices
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A current EUR xx.xx binding-only charge establishes a live commercial service and a price-scope comparison; full-book USD receipts and incidence remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A current EUR xx.xx binding-only charge establishes a live commercial service and a price-scope comparison; full-book USD receipts and incidence remain assumed.
32. Imago Group - Spotlight on Children's Books for National Young Readers Week
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's children's portfolio supports board-book commercial classification, not order volumes.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's children's portfolio supports board-book commercial classification, not order volumes.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cloth-book offerings support the textile-page category premise, not its modeled incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cloth-book offerings support the textile-page category premise, not its modeled incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bath-book offerings support a separate commercial category; sales and service receipts are undisclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bath-book offerings support a separate commercial category; sales and service receipts are undisclosed.
33. Pegasus - My First Book of Shapes: EVA Foam Book
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The dated 2025 product identifies foam pages and supports commercial-status and classification checks, not global volume or supplier realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated 2025 product identifies foam pages and supports commercial-status and classification checks, not global volume or supplier realization.

34. U.S. Consumer Product Safety Commission - Children's Books
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Product classification and intended audience affect commercial compliance accountability; no numerical surcharge is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Product classification and intended audience affect commercial compliance accountability; no numerical surcharge is inferred.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The exemption boundary supports separate classification rather than assumed conventional-book treatment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The exemption boundary supports separate classification rather than assumed conventional-book treatment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Compliance classification is retained as an uncertainty, not an exclusion or measured price premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Compliance classification is retained as an uncertainty, not an exclusion or measured price premium.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specialty construction does not itself establish ordinary-book exemption eligibility or market inactivity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specialty construction does not itself establish ordinary-book exemption eligibility or market inactivity.
35. Puget Bindery - Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider identifies training manuals and reference guides as mechanical-binding applications, supporting the commissioning premise without measuring sales incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider identifies training manuals and reference guides as mechanical-binding applications, supporting the commissioning premise without measuring sales incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists commercial letterpress book plates and specialty inserts, supporting a component-service model rather than attribution of the entire book price.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists commercial letterpress book plates and specialty inserts, supporting a component-service model rather than attribution of the entire book price.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The bindery identifies commercial printers, publishers and corporate print buyers as customers and excludes direct-to-consumer sales. This supports trade-purchasing attribution but supplies no sales percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The bindery identifies commercial printers, publishers and corporate print buyers as customers and excludes direct-to-consumer sales. This supports trade-purchasing attribution but supplies no sales percentage.

36. ONIX Codelists Issue 75 - List 80: Product Packaging Type
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates single-item and multivolume slipcases; supplies classification, not sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates single-item and multivolume slipcases; supplies classification, not sales weights.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes lidded boxes from slipcase-style boxed sets.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes lidded boxes from slipcase-style boxed sets.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-ended wraparound sleeves are distinct from enclosed wrapping.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-ended wraparound sleeves are distinct from enclosed wrapping.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes envelope-like slip-sleeves and wallets or folders.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes envelope-like slip-sleeves and wallets or folders.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes pouch and bag packaging independently.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes pouch and bag packaging independently.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately recognizes shrink-wrapped products and bundles.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately recognizes shrink-wrapped products and bundles.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Defines formed-plastic clamshells and card-backed blister packaging as distinct constructions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Defines formed-plastic clamshells and card-backed blister packaging as distinct constructions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Explicitly recognizes book browse-prevention closures.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Explicitly recognizes book browse-prevention closures.

37. U.S. Government Publishing Office - Program 827-S: Federal Aviation Administration Books, Contract Pricing and Specifications

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Historical evaluation quantities provide a container-heavy institutional purchasing counterexample, not global shipment shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Historical evaluation quantities provide a container-heavy institutional purchasing counterexample, not global shipment shares.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies kraft-envelope packing within the book procurement.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies kraft-envelope packing within the book procurement.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies cushioned shipping bags as an eligible book-order enclosure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies cushioned shipping bags as an eligible book-order enclosure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Includes wrapped shipping bundles as an alternative purchasing configuration.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Includes wrapped shipping bundles as an alternative purchasing configuration.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Requires packing and filler separately from the external enclosure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Requires packing and filler separately from the external enclosure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies closure tape and securing straps independently of container construction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies closure tape and securing straps independently of container construction.

38. U.S. Government Publishing Office - Print Order Form 2511 Instructions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specifies paper-banded sets separately from shrink-wrapped sets.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specifies paper-banded sets separately from shrink-wrapped sets.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes shrink-wrapped units nested within cartons, supporting component attribution.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes shrink-wrapped units nested within cartons, supporting component attribution.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes internal packaging, container quantities and pallet requirements.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes internal packaging, container quantities and pallet requirements.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The instructions distinguish nominated delivery addresses and warehouse receiving arrangements, supporting the receiving-point attribution premise, not an observed consolidated market share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The instructions distinguish nominated delivery addresses and warehouse receiving arrangements, supporting the receiving-point attribution premise, not an observed consolidated market share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supplemental distribution lists accommodate multiple destinations, supporting the distinction between preallocated destination delivery and a single receiving-point handoff.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supplemental distribution lists accommodate multiple destinations, supporting the distinction between preallocated destination delivery and a single receiving-point handoff.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: GPO specifies black interior inks separately from cover inks, supporting the monochrome classification and underlying-book attribution premise, not its modeled sales weight. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GPO specifies black interior inks separately from cover inks, supporting the monochrome classification and underlying-book attribution premise, not its modeled sales weight. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Designated Pantone specifications are recognized for interior inks, supporting a separate spot-color commercial category without measuring its share. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Designated Pantone specifications are recognized for interior inks, supporting a separate spot-color commercial category without measuring its share. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Four-color process is identified as full color for interior pages; cover color is separately specified. This supports classification at both modeled anchors. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Four-color process is identified as full color for interior pages; cover color is separately specified. This supports classification at both modeled anchors. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))

39. GPOExpress Program Pricing Guide - November 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx hand folding provides a handling-cost comparison; the complete band realization remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx hand folding provides a handling-cost comparison; the complete band realization remains modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx per shrink wrap anchors a small-run comparison, not the assumed global realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx per shrink wrap anchors a small-run comparison, not the assumed global realization.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx auxiliary insertion supplies a handling-price comparison, not protective-material sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx auxiliary insertion supplies a handling-price comparison, not protective-material sales.
40. Hardcover Book Protection: Dust Jackets or Slipcases?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-product EXW slipcase prices of USD xx.xx, USD xx.xx and USD xx.xx at xx.xx xx.xx and xx.xx units constrain relative realizations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-product EXW slipcase prices of USD xx.xx, USD xx.xx and USD xx.xx at xx.xx xx.xx and xx.xx units constrain relative realizations.
41. Book Printing Cost in China: How Printing Prices Are Calculated
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately USD xx.xx per export carton including basic packing materials constrains the bulk-package budget; the container allocation is modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately USD xx.xx per export carton including basic packing materials constrains the bulk-package budget; the container allocation is modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its cushioning split is assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its cushioning split is assumed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its closure split is assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its closure split is assumed.
42. Make Believe Ideas - Independent Retail Catalog 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 catalog identifies activity books with cover-mounted blisters, establishing book-specific participation but not packaging revenue or volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 catalog identifies activity books with cover-mounted blisters, establishing book-specific participation but not packaging revenue or volume.
43. Bookmobile - Request Book Printing Quotes the Right Way to Save Money
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The printer's bookstore-oriented purchasing guidance cautions against universal shrink-wrap attachment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The printer's bookstore-oriented purchasing guidance cautions against universal shrink-wrap attachment.

44. Digital Book Printing - Bookmobile
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current book-production portfolio separately offers poly bags, supporting commercial category participation rather than a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current book-production portfolio separately offers poly bags, supporting commercial category participation rather than a sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current portfolio offers shrink-wrap independently of other finishing options.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current portfolio offers shrink-wrap independently of other finishing options.
45. Sell Books on Shopify - Lulu
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The offered storefront-to-print-and-ship route supports an accessible production-linked parcel channel, not assumed demand.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct fulfillment availability supports the parcel-use scenario without establishing envelope mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct fulfillment availability supports the parcel-use scenario without establishing bag mix.
46. European Commission - New EU Rules on Packaging Enter into Application
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional packaging minimization supports a directional right-sizing premise, not a measured global box-price effect.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Waste-reduction requirements inform the bounded substitution scenario; they do not quantify band adoption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional circularity requirements inform lower lightweight-bag exposure without implying a global book-bag ban.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Material substitution remains partly internal to the combined film-and-paper category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional recyclability pressure informs the niche substitution scenario, not an observed blister-sales decline.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Empty-space reduction provides a directional premise for lower cushioning allowance per individual box.
47. Digital Printing - U.S. Government Publishing Office
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Procurement examples allow offset or digital alternatives while restricting some digital variants, supporting an acceptance- and run-mix model rather than a universal quality ranking. This is a modeling premise, not an observed process share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Procurement examples allow offset or digital alternatives while restricting some digital variants, supporting an acceptance- and run-mix model rather than a universal quality ranking. This is a modeling premise, not an observed process share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The purchasing guidance supports conditional digital substitution, not unrestricted interchangeability or an observed forecast allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The purchasing guidance supports conditional digital substitution, not unrestricted interchangeability or an observed forecast allocation.

48. Clays demonstrate dedication to digital investment
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx books annually and xx.xx books of digital capacity in an older investment statement; this constrains scale but is not a 2025 realized output mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx books annually and xx.xx books of digital capacity in an older investment statement; this constrains scale but is not a 2025 realized output mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's inkjet investment supports an existing book-production application and a conditional adoption premise, not a quantified global forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's inkjet investment supports an existing book-production application and a conditional adoption premise, not a quantified global forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The capacity/output comparison is a limited commercial check on continued conventional book production, not a direct offset revenue observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The capacity/output comparison is a limited commercial check on continued conventional book production, not a direct offset revenue observation.
49. ISO/TC 130 - Guidelines for Using Print Production Standards, Version 1.0, 2019
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes packaging use cases and printing processes, supporting allocation of gravure to book-associated components rather than the full value of a book.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes packaging use cases and printing processes, supporting allocation of gravure to book-associated components rather than the full value of a book.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies flexographic packaging applications; the book-specific spending budget and process coefficients remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies flexographic packaging applications; the book-specific spending budget and process coefficients remain modeled.
50. Premium Layflat Photo Books - PhotobookShop
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Offers bound silver-halide photographic books and distinguishes them from digitally printed alternatives, supporting the model's separate photographic category rather than an observed sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Offers bound silver-halide photographic books and distinguishes them from digitally printed alternatives, supporting the model's separate photographic category rather than an observed sales weight.
51. The Cormac McCarthy Collection - The Folio Society
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents screen-printed cloth covers on physical book editions, supporting component-level commercial attribution. It does not measure supplier component receipts or global uptake.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents screen-printed cloth covers on physical book editions, supporting component-level commercial attribution. It does not measure supplier component receipts or global uptake.

52. Risograph Digital Duplicator Order Form, 2026 - Minneapolis College of Art and Design
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2026 institutional form recognizes Risograph book/booklet orders but excludes assembly. It supports a limited application boundary, not 2025 external commercial volume; internal institutional charges are excluded from the numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2026 institutional form recognizes Risograph book/booklet orders but excludes assembly. It supports a limited application boundary, not 2025 external commercial volume; internal institutional charges are excluded from the numerator.
53. American Printing House - 2024 Annual Report
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal 2024 product sales were USD xx.xx; braille publications represented xx.xx% of product sales; xx.xx braille volumes were produced. These inputs constrain an adjusted production-realization proxy, not a global market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The decline from xx.xx braille volumes in 2022 qualifies a uniform physical-demand growth assumption and informs the slower relative forecast activity weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2024 product sales were USD xx.xx; braille publications represented xx.xx% of product sales; xx.xx braille volumes were produced. These inputs constrain an adjusted production-realization proxy, not a global market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The decline from xx.xx braille volumes in 2022 qualifies a uniform physical-demand growth assumption and informs the slower relative forecast activity weight.
54. Kodak Moments Kiosk - Kodak Alaris
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises book-capable retail kiosk equipment and a photographic-printing portfolio. Used only as a commercial-route premise for the thermal working estimate, not as evidence of thermal book-service sales, utilization or the final share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises book-capable retail kiosk equipment and a photographic-printing portfolio. Used only as a commercial-route premise for the thermal working estimate, not as evidence of thermal book-service sales, utilization or the final share.
55. 二〇二一年全国新闻出版业基本情况
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official 2021 aggregate textbook output distinguishes school, tertiary and vocational/adult activity; historical volumes require value and global-scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official 2021 aggregate textbook output distinguishes school, tertiary and vocational/adult activity; historical volumes require value and global-scope adjustments.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Secondary, primary and teaching-book aggregate sheet counts form the school activity weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Secondary, primary and teaching-book aggregate sheet counts form the school activity weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Tertiary textbook aggregate output supplies the higher-education activity input before an assumed relative-service-value adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Tertiary textbook aggregate output supplies the higher-education activity input before an assumed relative-service-value adjustment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Vocational, adult and literacy textbook output supplies the corresponding historical activity input.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Vocational, adult and literacy textbook output supplies the corresponding historical activity input.

56. Music, printed or in manuscript imports by country, 2024 - World Integrated Trade Solution
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official HS xx.xx import observations constrain the music-publication value bridge; domestic supply, physical-book eligibility and the printing-service fraction remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official HS xx.xx import observations constrain the music-publication value bridge; domestic supply, physical-book eligibility and the printing-service fraction remain modeled.
57. Bloomsbury Publishing - 2024/25 Results Presentation
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate Academic & Professional print, digital and rights/service receipts demonstrate the required physical-revenue boundary; company mix is not treated as global market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate Academic & Professional print, digital and rights/service receipts demonstrate the required physical-revenue boundary; company mix is not treated as global market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed physical academic publishing activity supports commercial applicability but does not verify the assumed global research/reference ratio.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed physical academic publishing activity supports commercial applicability but does not verify the assumed global research/reference ratio.
58. HDSB - RFSQ 26-013: Yearbook Software and Printing Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The qualification notice establishes a commissioned yearbook scope including printing, binding and school delivery; it supplies no awarded value and is not used as a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The qualification notice establishes a commissioned yearbook scope including printing, binding and school delivery; it supplies no awarded value and is not used as a sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The yearbook qualification notice restricts supply to prequalified vendors while permitting school bulk orders and individual ordering. It supports separating commissioning authority from ultimate payment, but discloses no fulfilled-order value.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The yearbook qualification notice restricts supply to prequalified vendors while permitting school bulk orders and individual ordering. It supports separating commissioning authority from ultimate payment, but discloses no fulfilled-order value.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The individual-ordering option establishes an attribution uncertainty relevant to the modeled household portion; it does not establish the assumed xx.xx% proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The individual-ordering option establishes an attribution uncertainty relevant to the modeled household portion; it does not establish the assumed xx.xx% proportion.

59. U.S. Census Bureau - 2022 Economic Census, Books Printing Questionnaire MC-32312
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official printing questionnaire supports the distinction between textbook and general-book production; recognition is not treated as a revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official printing questionnaire supports the distinction between textbook and general-book production; recognition is not treated as a revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognized coloring-book output supports treating recreational activity commissions separately from institutional textbooks according to purpose.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognized coloring-book output supports treating recreational activity commissions separately from institutional textbooks according to purpose.
60. Press Information Bureau - Department of School Education & Literacy, Year End Review 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The government review describes substantial NCERT physical-textbook activity, independently qualifying the physical-availability premise without establishing attributable supplier revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The government review describes substantial NCERT physical-textbook activity, independently qualifying the physical-availability premise without establishing attributable supplier revenue.
61. 2022 North American Industry Classification System - United States
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dedicated book-publishing activity is separated from institutional primary activities and printing without publishing, constraining the Publishing Organizations numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dedicated book-publishing activity is separated from institutional primary activities and printing without publishing, constraining the Publishing Organizations numerator.
62. U.S. Census Bureau - Books Printing: 2002
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Table xx.xx reports 2002 U.S. books-printing contract-work costs of USD xx.xx and shipments of USD xx.xx. Their ratio supplies a dated manufacturing-subcontract proxy, held constant within the forecast component.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Table xx.xx reports 2002 U.S. books-printing contract-work costs of USD xx.xx and shipments of USD xx.xx. Their ratio supplies a dated manufacturing-subcontract proxy, held constant within the forecast component.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical subcontract-cost input constrains the modeled transfer from publisher-origin commissioning to performing suppliers, without adding another gross contract value.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical subcontract-cost input constrains the modeled transfer from publisher-origin commissioning to performing suppliers, without adding another gross contract value.
63. Samfine Creation Holdings Group Limited - Form 20-F for the year ended December 31, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports USD xx.xx of 2025 book-product revenue and principally serves book traders that secure printing contracts and outsource production. This is a supplier-specific quantitative role check, not a Global allocation weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports USD xx.xx of 2025 book-product revenue and principally serves book traders that secure printing contracts and outsource production. This is a supplier-specific quantitative role check, not a Global allocation weight.

64. Ministry of Education - NCERT and Amazon Letter of Engagement, October 7, 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2024 announcement targeted xx.xx NCERT books for academic 2025-xx.xx. This is a planned institutional activity anchor; realization, eligible receipts and subsequent growth are modeled separately.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2024 announcement targeted xx.xx NCERT books for academic 2025-xx.xx. This is a planned institutional activity anchor; realization, eligible receipts and subsequent growth are modeled separately.
65. Bangladesh e-GP - NCTB/TEXTBOOK/2025, Package GD.102_SEC_8.031
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The government-funded procurement plan specifies xx.xx academic-2025 textbook copies and an estimated BDT xx.xx for printing, binding and supply. It constrains commercial order scale and local unit-budget plausibility, not realized annual revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The government-funded procurement plan specifies xx.xx academic-2025 textbook copies and an estimated BDT xx.xx for printing, binding and supply. It constrains commercial order scale and local unit-budget plausibility, not realized annual revenue.
66. Students suffer as NCTB fails to deliver books - The Daily Star, January 17, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 report corroborates the dated approximately xx.xx-copy textbook target and early-year delivery disruption. Target realization and supplier receipts remain modeled.
67. Secondary-level students: A new year without full set of books for many - The Daily Star, December 28, 2025
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 report corroborates the approximately xx.xx-copy academic-2026 target and continued delivery slippage. It informs a normalization assumption, not an observed 2032 share.
68. Business Books - Print Professional, Custom Corporate Books | Blurb
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The business-book offering includes organizational presentation and corporate-gift applications. It establishes an in-scope commissioning proposition, not the modeled global copy quantity or spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The business-book offering includes organizational presentation and corporate-gift applications. It establishes an in-scope commissioning proposition, not the modeled global copy quantity or spending.
69. How to Use Lulu to Support Your Nonprofit | Lulu
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform permits an organization or charity to receive creator proceeds. This supports excluding beneficiary-only arrangements from nonprofit commissioning; it does not measure nonprofit printing purchases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform permits an organization or charity to receive creator proceeds. This supports excluding beneficiary-only arrangements from nonprofit commissioning; it does not measure nonprofit printing purchases.

70. News Corp - Form 10-K for the fiscal year ended June 30, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal 2025 consumer backlist revenue of xx.xx% and digital revenue of xx.xx% anchor the assumed physical-backlist bridge and its forecast starting model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2025 consumer backlist revenue of xx.xx% and digital revenue of xx.xx% anchor the assumed physical-backlist bridge and its forecast starting model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed backlist mix constrains recurring-title demand; its division into replenishment and POD remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed backlist mix constrains recurring-title demand; its division into replenishment and POD remains modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The complementary frontlist population supports the launch-stock cohort after physical-format adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The complementary frontlist population supports the launch-stock cohort after physical-format adjustments.
71. News Corp - Form 10-K for the fiscal year ended June 30, 2026
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2026 backlist revenue of xx.xx% and digital revenue of xx.xx% lower the forecast physical-backlist proxy instead of assuming continued backlist expansion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The updated catalog mix changes the forecast population available for repeat inventory releases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The updated frontlist/backlist bridge changes the forecast planned-production weight; no 2032 share is disclosed.
72. How Do Lulu Direct Orders Work?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lulu describes printing after customer purchase and distinguishes production from subsequent shipment, supporting recipient-order attribution rather than technology-based classification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lulu describes printing after customer purchase and distinguishes production from subsequent shipment, supporting recipient-order attribution rather than technology-based classification.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: No minimum order and one-copy ordering establish commercial feasibility, not the number or value of single-copy releases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No minimum order and one-copy ordering establish commercial feasibility, not the number or value of single-copy releases.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: One POD offering accepts hundreds of copies, independently challenging a POD-equals-single-copy allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One POD offering accepts hundreds of copies, independently challenging a POD-equals-single-copy allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Orders can extend into thousands within the same offering; the production trigger therefore does not uniquely identify the working run band.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Orders can extend into thousands within the same offering; the production trigger therefore does not uniquely identify the working run band.

73. Supply Chain - Clays
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Clays describes differentiated backlist arrangements and stock visibility, supporting a separate inventory-replenishment cohort without establishing its numerical prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Clays describes differentiated backlist arrangements and stock visibility, supporting a separate inventory-replenishment cohort without establishing its numerical prevalence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: New-title consolidation and predictable annual backlist demand support retaining planned inventory commitments; short-run printing is explicitly not necessarily POD.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: New-title consolidation and predictable annual backlist demand support retaining planned inventory commitments; short-run printing is explicitly not necessarily POD.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Clays explicitly distinguishes short-run work from POD, supporting category separation rather than a technological proxy for value share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Clays explicitly distinguishes short-run work from POD, supporting category separation rather than a technological proxy for value share.
74. Smart Backlist Management: When to Hold and When to Print-on-Demand
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheridan describes low-volume titles moving to POD while other titles retain inventory, supporting differentiated release-policy assumptions rather than a uniform backlist-to-POD conversion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheridan describes low-volume titles moving to POD while other titles retain inventory, supporting differentiated release-policy assumptions rather than a uniform backlist-to-POD conversion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A disclosed customer example uses a stock threshold to trigger a 2,000-copy replenishment order. It establishes the commercial mechanism, not a market-wide share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A disclosed customer example uses a stock threshold to trigger a 2,000-copy replenishment order. It establishes the commercial mechanism, not a market-wide share.

75. Shortage of NCERT textbooks - Rajya Sabha Unstarred Question No. 1941, December 17, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advance enrollment-based forecasting, academic-session readiness and a fiscal 2025-xx.xx plan for approximately xx.xx textbooks support a substantial calendar-driven stock cohort. The target is not realized production.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advance enrollment-based forecasting, academic-session readiness and a fiscal 2025-xx.xx plan for approximately xx.xx textbooks support a substantial calendar-driven stock cohort. The target is not realized production.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phased supply and inventory monitoring support distinguishing ongoing availability obligations from individual-recipient POD, without quantifying replenishment's global prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phased supply and inventory monitoring support distinguishing ongoing availability obligations from individual-recipient POD, without quantifying replenishment's global prevalence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official answer distinguishes printer empanelment from approximately xx.xx distribution vendors and describes planned fiscal 2025-xx.xx printing of approximately xx.xx textbooks. It supports commissioning-versus-distribution separation, not a realized monetary channel split.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official answer distinguishes printer empanelment from approximately xx.xx distribution vendors and describes planned fiscal 2025-xx.xx printing of approximately xx.xx textbooks. It supports commissioning-versus-distribution separation, not a realized monetary channel split.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phased textbook supply supports treating annual institutional quantities separately from production batches; it does not disclose the medium-run allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phased textbook supply supports treating annual institutional quantities separately from production batches; it does not disclose the medium-run allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 answer identifies a xx.xx-million-copy FY2025-xx.xx printing decision versus approximately xx.xx in recent years, a counterforce to assuming rapid long-run disappearance. Planned copies are not realized service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 answer identifies a xx.xx-million-copy FY2025-xx.xx printing decision versus approximately xx.xx in recent years, a counterforce to assuming rapid long-run disappearance. Planned copies are not realized service revenue.
76. Fulfillment Fee - Lulu Direct
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2026 schedule lists USD xx.xx per order regardless of item count, supporting an order-frequency effect on associated-service value. It does not verify the assumed historical or forecast multiplier.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2026 schedule lists USD xx.xx per order regardless of item count, supporting an order-frequency effect on associated-service value. It does not verify the assumed historical or forecast multiplier.

77. InnerWorkings, Inc. - Form 10-K for the year ended December 31, 2019
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2019 filing reports USD xx.xx gross profit on USD xx.xx revenue and describes purchased-product and direct-service costs. Historical reported margins constrain the modeled xx.xx% retained-fee ratio; they do not directly measure book-channel share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2019 filing reports USD xx.xx gross profit on USD xx.xx revenue and describes purchased-product and direct-service costs. Historical reported margins constrain the modeled xx.xx% retained-fee ratio; they do not directly measure book-channel share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The procurement-service margin comparison supports the fee-to-managed-spending bridge underlying the direct-channel complement. Carrying the normalized ratio into 2032 is explicitly a forecast assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The procurement-service margin comparison supports the fee-to-managed-spending bridge underlying the direct-channel complement. Carrying the normalized ratio into 2032 is explicitly a forecast assumption.
78. Simplified Purchase Agreement - U.S. Government Publishing Office
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SPA permits agency awards directly to certified vendors for purchases up to USD xx.xx while GPO pays vendors and invoices agencies. This supports classifying by the contracting relationship rather than the invoice payer, not a numerical global weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SPA permits agency awards directly to certified vendors for purchases up to USD xx.xx while GPO pays vendors and invoices agencies. This supports classifying by the contracting relationship rather than the invoice payer, not a numerical global weight.
79. Global Print Services | China, Europe, SE Asia, USA & India
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Imago describes sourcing suppliers and coordinating multiple manufacturers for book-related projects. Its cumulative customer relationships establish the offered intermediary role but are not annual revenue or allocation weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Imago describes sourcing suppliers and coordinating multiple manufacturers for book-related projects. Its cumulative customer relationships establish the offered intermediary role but are not annual revenue or allocation weights.
80. Lion Rock Group Limited - Annual Report 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-business 2025 turnover changes of minus xx.xx% for APOL and minus xx.xx% for Regent challenge uniform intermediary growth; Regent's non-book focus limits its relevance. These observations support avoiding an additional adoption uplift.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-business 2025 turnover changes of minus xx.xx% for APOL and minus xx.xx% for Regent challenge uniform intermediary growth; Regent's non-book focus limits its relevance. These observations support avoiding an additional adoption uplift.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Manufacturing turnover changes of minus xx.xx% at xx.xx Printing and plus xx.xx% at Papercraft demonstrate differing supplier trajectories rather than a simple common channel-growth pattern; these are not direct-contracting market shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Manufacturing turnover changes of minus xx.xx% at xx.xx Printing and plus xx.xx% at Papercraft demonstrate differing supplier trajectories rather than a simple common channel-growth pattern; these are not direct-contracting market shares.

81. Imprint Digital - Book Printing Prices UK

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected schedule quotes GBP xx.xx at xx.xx copies for one paperback specification, supporting a relative-price input, not a historical global realization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected schedule quotes GBP xx.xx at xx.xx copies for one paperback specification, supporting a relative-price input, not a historical global realization.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: GBP xx.xx at xx.xx copies supplies the medium-run reference index; format and delivery differences require separate treatment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GBP xx.xx at xx.xx copies supplies the medium-run reference index; format and delivery differences require separate treatment.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The quantity-price curve anchors the reference from which the long-run discount is assumed; no long-run price or future share is disclosed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The quantity-price curve anchors the reference from which the long-run discount is assumed; no long-run price or future share is disclosed.

82. Print Options

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: KDP distinguishes black-and-white from color records and locks ink type after publication. These platform-specific conditions qualify switching assumptions, not market weights. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: KDP distinguishes black-and-white from color records and locks ink type after publication. These platform-specific conditions qualify switching assumptions, not market weights. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The displayed platform menu does not establish designated spot-color availability or sales; a general color option is not used as evidence of spot-color demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The displayed platform menu does not establish designated spot-color availability or sales; a general color option is not used as evidence of spot-color demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Standard color is unavailable for hardcover, but premium color is available. Both process-color tiers belong within the modeled Full-Color Interiors category. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Standard color is unavailable for hardcover, but premium color is available. Both process-color tiers belong within the modeled Full-Color Interiors category. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))

83. Synthèse des chiffres de l'édition jeunesse 2024-2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The primary French publishing survey reports a xx.xx% decline in illustrated early-childhood volumes and a xx.xx% decline in youth-fiction volumes in 2024. These differing outcomes challenge an aggressive universal color-growth assumption. ([sne.fr](https://www.sne.fr/actu/synthese-des-chiffres-de-ledition-jeunesse-2024-2025/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The primary French publishing survey reports a xx.xx% decline in illustrated early-childhood volumes and a xx.xx% decline in youth-fiction volumes in 2024. These differing outcomes challenge an aggressive universal color-growth assumption. ([sne.fr](https://www.sne.fr/actu/synthese-des-chiffres-de-ledition-jeunesse-2024-2025/))

Sources & Evidence

1. European Book Publishing Statistics 2024
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: European publishers reported approximately EUR xx.xx of net book-sales revenue in 2024. The disclosed ebook and audiobook proportions inform the modeled xx.xx% physical-book revenue proportion; publisher revenue is an input, not printing-service revenue.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 publisher-revenue and format observations provide the European demand input carried into the 2025 estimate.

2. The Global Publishing Industry in 2022

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Table xx.xx supplies country-level publishing revenues and identifies differences between retail-value, publisher-revenue, print-only and prior-year observations. Selected non-European country observations are adjusted for physical formats and period before estimating production spending.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The selected country observations contribute to the demand pool underlying the 2025 working estimate. Nielsen retail datasets elsewhere in the publication are not used.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Primary survey sector differences constrain the education-adjusted hardcover proxy.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Primary survey sector differences constrain the education-adjusted hardcover proxy.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Educational/trade differences qualify extrapolation of U.S. consumer-format revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Educational/trade differences qualify extrapolation of U.S. consumer-format revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx of surveyed children's publishing revenue anchors the modeled specialty demand pool, not supplier receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx of surveyed children's publishing revenue anchors the modeled specialty demand pool, not supplier receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sector data constrain the commissioning-pool proxy; mechanical incidence remains assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sector data constrain the commissioning-pool proxy; mechanical incidence remains assumed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Educational demand supplies a common economic anchor; loose-leaf incidence remains modeled.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Educational demand supplies a common economic anchor; loose-leaf incidence remains modeled.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sector observations constrain the educational short-book commissioning pool.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sector observations constrain the educational short-book commissioning pool.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The commissioning-pool anchor supports an explicit sparse-format incidence model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The commissioning-pool anchor supports an explicit sparse-format incidence model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors the accordion working estimate, not observed accordion orders.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors the accordion working estimate, not observed accordion orders.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed textile-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed textile-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed bath-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed bath-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed foam-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed foam-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original publishing survey documents country-level trade/education revenue differences used to constrain the modeled physical-publishing mix; it does not directly measure service shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original publishing survey documents country-level trade/education revenue differences used to constrain the modeled physical-publishing mix; it does not directly measure service shares.

3. 2024 年新闻出版统计公报

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: For 2024, the official table reports xx.xx book copies or sheets and CNY xx.xx of book-publishing revenue. These constrain the demand bridge and historical contraction, rather than directly measuring printing-service sales.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 book-publishing observation supplies the Chinese demand primitive for the 2025 model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official 2024 output of xx.xx copies/sheets constrains total modeled publisher activity; it does not disclose single-copy production.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official 2024 output of xx.xx copies/sheets constrains total modeled publisher activity; it does not disclose single-copy production.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Aggregate copies and annual title output constrain the shared activity model, not an observed short-run share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Aggregate copies and annual title output constrain the shared activity model, not an observed short-run share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Aggregate production provides a scale check for the medium-run assumption; annual copies per title are not individual batches.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Aggregate production provides a scale check for the medium-run assumption; annual copies per title are not individual batches.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx annual copies per title constrain the long-run scenario without proving its batch mix or forecast.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx annual copies per title constrain the long-run scenario without proving its batch mix or forecast.

4. Foreign Exchange Rates - G.5A Annual, January 5, 2026

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: The official 2024 annual-average conversion inputs are USD xx.xx per EUR, CNY xx.xx per USD and CAD xx.xx per USD.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The exchange-rate table establishes the conversion basis of the preceding-year demand inputs used in the 2025 estimate; subsequent effective-USD price assumptions are modeled separately.

5. Book publishing industry, 2024 - Statistics Canada
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Canadian publishers reported CAD xx.xx of print sales outside the online category and CAD xx.xx of online print sales in 2024. Their sum, rather than total operating revenue, supplies the physical-book demand input.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: Reported cost of goods sold of CAD xx.xx, up CAD xx.xx from 2022, supplies a cost-pressure cross-check, not a directly attributable printing-services total.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Canadian online versus other print-sales values constrain parcel exposure, with explicit value-to-unit and geographic limitations.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Canadian online versus other print-sales values constrain parcel exposure, with explicit value-to-unit and geographic limitations.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed envelope purchases.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed envelope purchases.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed bag purchases.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed bag purchases.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Modest observed online-print growth qualifies aggressive parcel-related wrapping assumptions.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Modest observed online-print growth qualifies aggressive parcel-related wrapping assumptions.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring separate protection.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring separate protection.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring closures.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring closures.
6. U.S. Census Bureau - Books Printing: Shipments, annual table
   - Evidence informing the 2017 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2017; this is a national production anchor for the historical model.
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2018.
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2019.
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2020.
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2021.
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2022.
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2024. This national industrial measure is narrower than the composite global service boundary.

7. U.S. Census Bureau - Book Publishers, All Establishments: Revenue, annual table
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: The Census annual series reports USD xx.xx of U.S. book-publisher revenue for 2024. A modeled xx.xx% physical-book proportion excludes digital and other adjacent receipts.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 Census observation replaces an older survey-based U.S. revenue bridge in the demand pool underlying 2025.

8. Scholastic Corporation - Form 10-K for the year ended May 31, 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Scholastic's fiscal 2024 product, service, production and inventory-reserve costs were xx.xx% of revenue; postage, freight, shipping, fulfillment and other costs were xx.xx%. These broad categories constrain, but do not directly establish, eligible outsourced-service spending.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The corresponding fiscal 2025 proportions were xx.xx% and xx.xx%. Royalties and prepublication amortization are separately disclosed, allowing their exclusion from the service-market bridge.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 product, service, production and inventory-reserve costs were xx.xx% of revenue. The broader cost category constrains the manufacturing spending boundary but does not directly disclose printing-service revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 product, service, production and inventory-reserve costs were xx.xx% of revenue. The broader cost category constrains the manufacturing spending boundary but does not directly disclose printing-service revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Prepublication amortization is disclosed separately from production costs, supporting exclusion of adjacent amortization rather than equating it with externally purchased prepress.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Prepublication amortization is disclosed separately from production costs, supporting exclusion of adjacent amortization rather than equating it with externally purchased prepress.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Postage, freight, shipping, fulfillment and other costs were xx.xx% of revenue in fiscal 2025 versus xx.xx% in fiscal 2024. This is a broad buyer-cost check, not an eligible outsourced-fulfillment share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Postage, freight, shipping, fulfillment and other costs were xx.xx% of revenue in fiscal 2025 versus xx.xx% in fiscal 2024. This is a broad buyer-cost check, not an eligible outsourced-fulfillment share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Outsourced manufacturing coexists with company-operated distribution. Fiscal-2025 production-related costs were xx.xx% of revenue, constraining the inherited spending bridge rather than directly measuring the assumed route fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Outsourced manufacturing coexists with company-operated distribution. Fiscal-2025 production-related costs were xx.xx% of revenue, constraining the inherited spending bridge rather than directly measuring the assumed route fraction.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Book-club revenue was xx.xx% online-ordered and xx.xx% parent-ordered, while products typically went to classrooms. This challenges the use of online sales as a proxy for the external contractor's delivery model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Book-club revenue was xx.xx% online-ordered and xx.xx% parent-ordered, while products typically went to classrooms. This challenges the use of online sales as a proxy for the external contractor's delivery model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct printer-to-customer fulfillment is a disclosed option. Broader logistics/other costs were xx.xx% of revenue versus xx.xx% previously, providing a cost-boundary check but no global order-level share or service-price growth observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct printer-to-customer fulfillment is a disclosed option. Broader logistics/other costs were xx.xx% of revenue versus xx.xx% previously, providing a cost-boundary check but no global order-level share or service-price growth observation.

9. CEWE achieves all targets in 2025 and aims to further increase revenue and earnings in 2026

- Evidence informing the 2025 market-value input; displayed series and growth include calculations: CEWE reported xx.xx CEWE PHOTOBOOK copies in 2025 versus xx.xx in 2024, supporting a positive specialty-book volume assumption without establishing global adoption.
- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Observed 2025 photobook growth informs the specialty-demand assumption for 2026; the market value remains modeled.
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The observed specialty-book activity is a starting condition for the forecast, not independent proof of continued growth through 2032.
- Evidence informing the 2040 market-value input; displayed series and growth include calculations: The forecast explicitly slows specialty-demand growth after 2032; this source supplies the initial commercial observation, not the long-term growth rate.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: CEWE reports xx.xx photobooks in 2025 compared with xx.xx in 2024. This independently establishes specialty-book activity underlying the nonpublisher model, without establishing a global expansion factor.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CEWE reports xx.xx photobooks in 2025 compared with xx.xx in 2024. This independently establishes specialty-book activity underlying the nonpublisher model, without establishing a global expansion factor.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports retaining premium specialty commissions in the manufacturing mix; the binding allocation and unchanged future cohort profile remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports retaining premium specialty commissions in the manufacturing mix; the binding allocation and unchanged future cohort profile remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported photobook volumes constrain personal-book activity and the nonpublisher starting condition, not hardcover prevalence or future share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported photobook volumes constrain personal-book activity and the nonpublisher starting condition, not hardcover prevalence or future share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Photobook activity supports the separate personal-book commissioning block; its softcover fraction remains assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Photobook activity supports the separate personal-book commissioning block; its softcover fraction remains assumed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported photobook copies rose from xx.xx to xx.xx; the narrower 2026 target qualifies strong specialty-growth assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported photobook copies rose from xx.xx to xx.xx; the narrower 2026 target qualifies strong specialty-growth assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specialty-book activity constrains the presentation-demand scenario but does not measure gift-box attachment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specialty-book activity constrains the presentation-demand scenario but does not measure gift-box attachment.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CEWE PHOTOBOOK units in 2025 versus xx.xx in 2024, constraining the specialty-book demand budget without establishing a global process split.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CEWE PHOTOBOOK units in 2025 versus xx.xx in 2024, constraining the specialty-book demand budget without establishing a global process split.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports the common photographic-demand input; electrophotographic attribution remains an explicit assumption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports the common photographic-demand input; electrophotographic attribution remains an explicit assumption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The photobook

10. Paperback Printing Cost - Kindle Direct Publishing

- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The inspected U.S. paperback schedule charges USD xx.xx plus USD xx.xx per page for the specified regular-trim black-ink category. It provides a contemporary commercial price comparison for the assumed USD xx.xx self-publishing production receipt, not an observed historical price or volume.
- Evidence informing the 2026 market-value input; displayed series and growth include calculations: The schedule distinguishes printing charges from royalties and retail list prices, supporting the production-receipt boundary used in the estimate.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule uses USD xx.xx plus USD xx.xx per page for the relevant page band, yielding the USD xx.xx representative manufacturing comparator. It anchors relative weights, not an observed global 2025 price or future share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule uses USD xx.xx plus USD xx.xx per page for the relevant page band, yielding the USD xx.xx representative manufacturing comparator. It anchors relative weights, not an observed global 2025 price or future share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The paperback manufacturing comparator supplies the baseline from which the modeled binding component and hardcover increment are separated.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The paperback manufacturing comparator supplies the baseline from which the modeled binding component and hardcover increment are separated.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The separately identified paperback printing charge constrains the self-publishing production-receipt model and its distinction from retail proceeds.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The separately identified paperback printing charge constrains the self-publishing production-receipt model and its distinction from retail proceeds.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page. It is a contemporary production-charge comparison for the modeled USD xx.xx receipt, not an observed historical Global average.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page. It is a contemporary production-charge comparison for the modeled USD xx.xx receipt, not an observed historical Global average.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The relevant current U.S. paperback printing schedule is USD xx.xx plus USD xx.xx per page, giving USD xx.xx at xx.xx pages. This is a commercial price comparison for creator-production receipts, not proof of 2025 realization, volume or fulfillment mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The relevant current U.S. paperback printing schedule is USD xx.xx plus USD xx.xx per page, giving USD xx.xx at xx.xx pages. This is a commercial price comparison for creator-production receipts, not proof of 2025 realization, volume or fulfillment mix.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule of USD xx.xx plus USD xx.xx per page gives USD xx.xx at xx.xx pages, a magnitude check for modeled single-copy receipts. It establishes neither global volume nor historical or forecast share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule of USD xx.xx plus USD xx.xx per page gives USD xx.xx at xx.xx pages, a magnitude check for modeled single-copy receipts. It establishes neither global volume nor historical or forecast share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page, yielding USD xx.xx for xx.xx pages. This is a contemporary price comparator, not a historical global average. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834340))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page, yielding USD xx.xx for xx.xx pages. This is a contemporary price comparator, not a historical global average. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834340))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The comparable standard and premium color charges calculate to USD xx.xx and USD xx.xx. They constrain relative

11. European Book Publishing Statistics 2017

- Evidence informing the 2017 market-value input; displayed series and growth include calculations: The association's primary survey reports approximately EUR xx.xx of European net publisher revenue for 2017, constraining the pre-pandemic demand level.

12. European Book Publishing Statistics 2019

- Evidence informing the 2018 market-value input; displayed series and growth include calculations: The association reports approximately EUR xx.xx of publisher revenue for 2018.
- Evidence informing the 2019 market-value input; displayed series and growth include calculations: The association reports approximately EUR xx.xx for 2019 and identifies a questionnaire change that limits exact comparability with earlier observations.

13. 2021 年新闻出版产业分析报告

- Evidence informing the 2020 market-value input; displayed series and growth include calculations: The official report's 2021 comparison identifies a substantial rebound from 2020, constraining the pandemic-recovery bridge.
- Evidence informing the 2021 market-value input; displayed series and growth include calculations: China reported xx.xx book copies or sheets in 2021, up xx.xx%; the report also distinguishes textbook output and reprints.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: China's official 2021 textbook share was xx.xx% of book copies. It supplies an older educational-activity proxy, not a monochrome share. ([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: China's official 2021 textbook share was xx.xx% of book copies. It supplies an older educational-activity proxy, not a monochrome share. ([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The textbook copy proportion constrains educational exposure; comparable monetary intensity and spot-color incidence are modeled separately. ([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The textbook copy proportion constrains educational exposure; comparable monetary intensity and spot-color incidence are modeled separately. ([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational-activity observation contributes to the shared demand proxy carried into the full-color base and forecast models; no color split is reported. ([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational-activity observation contributes to the shared demand proxy carried into the full-color base and forecast models; no color split is reported. ([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))

14. European Book Publishing Statistics 2023

- Evidence informing the 2022 market-value input; displayed series and growth include calculations: European net publisher revenue was approximately EUR xx.xx in 2022; the association describes paper-cost pressure and price-led growth.

15. Global Connect - Ingram Content Group

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Agreement-dependent network access does not quantify Brazilian commissions or guarantee institutional awards. ([resources.ingramcontent.com](https://resources.ingramcontent.com/publishers/global-connect))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Agreement-dependent network access does not quantify Brazilian commissions or guarantee institutional awards. ([resources.ingramcontent.com](https://resources.ingramcontent.com/publishers/global-connect))

16. Hardcover Printing Cost - Kindle Direct Publishing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim hardcover schedule uses USD xx.xx plus USD xx.xx per page in the relevant band. Comparison with paperback charges constrains the premium-equivalent manufacturing model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim hardcover schedule uses USD xx.xx plus USD xx.xx per page in the relevant band. Comparison with paperback charges constrains the premium-equivalent manufacturing model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD xx.xx fixed-charge difference supplies the POD premium input; the xx.xx% commercial-run realization and premium incidence are explicitly modeled rather than disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD xx.xx fixed-charge difference supplies the POD premium input; the xx.xx% commercial-run realization and premium incidence are explicitly modeled rather than disclosed.
17. User Fees - University of Wisconsin-Milwaukee Print & Copy Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The university service schedule separately prices preflight/prepress preparation at USD xx.xx per hour, establishing a paid preparation activity rather than an automatic component of every printing-platform purchase.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The university service schedule separately prices preflight/prepress preparation at USD xx.xx per hour, establishing a paid preparation activity rather than an automatic component of every printing-platform purchase.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Perfect binding is listed at USD xx.xx-xx.xx per book. The lower endpoint is the model's basic-binding comparator, not a measured worldwide realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Perfect binding is listed at USD xx.xx-xx.xx per book. The lower endpoint is the model's basic-binding comparator, not a measured worldwide realization.

18. How Much Does It Cost to Print a Book? - QinPrinting
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier's delivered xx.xx-page, xx.xx-copy color-book examples list USD xx.xx for softcover and USD xx.xx for hardcover. They provide a commercial-run countercheck, with delivery and product differences preventing direct substitution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier's delivered xx.xx-page, xx.xx-copy color-book examples list USD xx.xx for softcover and USD xx.xx for hardcover. They provide a commercial-run countercheck, with delivery and product differences preventing direct substitution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The smaller hardcover premium in this offset example qualifies extrapolation of the full POD hardcover increment into binding revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The smaller hardcover premium in this offset example qualifies extrapolation of the full POD hardcover increment into binding revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Comparable hardcover and softcover quotations constrain the assumed relative manufacturing realization after scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Comparable hardcover and softcover quotations constrain the assumed relative manufacturing realization after scope adjustments.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Softcover prices provide a commercial comparison, not a historical global average.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Softcover prices provide a commercial comparison, not a historical global average.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Board-book quotations constrain the assumed production receipt; delivery and duties require adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Board-book quotations constrain the assumed production receipt; delivery and duties require adjustment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Mechanical-binding quotations constrain the unit-receipt assumption, not incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Mechanical-binding quotations constrain the unit-receipt assumption, not incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Short-booklet quotations constrain the lower realization used for eligible saddle-stitched books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Short-booklet quotations constrain the lower realization used for eligible saddle-stitched books.
19. Book Wrap Mailers / Book Boxes - Packaging ONE
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer lists MP2 book mailers at GBP xx.xx each for xx.xx packs of xx.xx excluding VAT. The converted unit price supplies the packaging-creation value proxy, not a global average or a historical quote.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer lists MP2 book mailers at GBP xx.xx each for xx.xx packs of xx.xx excluding VAT. The converted unit price supplies the packaging-creation value proxy, not a global average or a historical quote.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The enclosure price forms the other side of the creation-versus-packing ratio. One comparable enclosure per packing unit is an explicit activity-matching assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The enclosure price forms the other side of the creation-versus-packing ratio. One comparable enclosure per packing unit is an explicit activity-matching assumption.

20. Foreign Exchange Rates - G.5A Annual, January 5, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 annual average is USD xx.xx per GBP. It converts the GBP packaging comparator into the common monetary basis used in the starting allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 annual average is USD xx.xx per GBP. It converts the GBP packaging comparator into the common monetary basis used in the starting allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same conversion supports the common-currency packaging/packing denominator inherited by the forecast; no 2032 exchange rate is asserted.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same conversion supports the common-currency packaging/packing denominator inherited by the forecast; no 2032 exchange rate is asserted.
21. Optional Book Publishing Services - InstantPublisher
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider lists layout/typesetting at USD xx.xx per page with a USD xx.xx minimum. This supports the preparation-spending feasibility check, with purchase incidence and copies per job remaining assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider lists layout/typesetting at USD xx.xx per page with a USD xx.xx minimum. This supports the preparation-spending feasibility check, with purchase incidence and copies per job remaining assumptions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Individual shrink-wrapping is listed at USD xx.xx each plus USD xx.xx setup. Amortizing setup over an assumed xx.xx copies gives the USD xx.xx packing comparator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Individual shrink-wrapping is listed at USD xx.xx each plus USD xx.xx setup. Amortizing setup over an assumed xx.xx copies gives the USD xx.xx packing comparator.
22. How Does Merchant Pricing Work for Ecommerce Stores? - Lulu Direct
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2026 merchant-pricing explanation identifies a USD xx.xx fulfillment fee and separates merchant retail receipts from payments for supplier production, shipping and taxes. The fee is a contemporary feasibility comparator, not verified 2025 penetration or a future charge.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2026 merchant-pricing explanation identifies a USD xx.xx fulfillment fee and separates merchant retail receipts from payments for supplier production, shipping and taxes. The fee is a contemporary feasibility comparator, not verified 2025 penetration or a future charge.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Merchant retail receipts are separate from payments for printing and fulfillment. The current page lists a USD xx.xx fulfillment fee, with shipping and taxes separately calculated. This supports the service-value boundary, not a historical average fee or global order volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Merchant retail receipts are separate from payments for printing and fulfillment. The current page lists a USD xx.xx fulfillment fee, with shipping and taxes separately calculated. This supports the service-value boundary, not a historical average fee or global order volume.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lulu identifies separate retail and production/fulfillment transactions and a USD xx.xx fulfillment fee. This supports excluding merchant retail margins from production-service value and avoiding automatic procurement-channel classification from the storefront.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lulu identifies separate retail and production/fulfillment transactions and a USD xx.xx fulfillment fee. This supports excluding merchant retail margins from production-service value and avoiding automatic procurement-channel classification from the storefront.

23. AAP December 2025 StatShot Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The primary monthly reporting panel's full-year 2025 trade figures show paperback revenue down xx.xx%. This qualifies broad physical-book growth assumptions and supplies directional mix evidence only.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The primary monthly reporting panel's full-year 2025 trade figures show paperback revenue down xx.xx%. This qualifies broad physical-book growth assumptions and supplies directional mix evidence only.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same approximately xx.xx-publisher panel shows hardcover revenue up xx.xx%. It supports a modest premium-mix hypothesis but neither measures global binding spending nor proves the forecast.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same approximately xx.xx-publisher panel shows hardcover revenue up xx.xx%. It supports a modest premium-mix hypothesis but neither measures global binding spending nor proves the forecast.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct-participant 2025 hardback revenue of approximately USD xx.xx anchors the adjusted conventional-format model; it is not printing revenue or a global share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct-participant 2025 hardback revenue of approximately USD xx.xx anchors the adjusted conventional-format model; it is not printing revenue or a global share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported paperback revenue of approximately USD xx.xx plus USD xx.xx mass-market revenue supplies the comparison input. Reported annual movements qualify the forecast starting mix, not its future persistence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported paperback revenue of approximately USD xx.xx plus USD xx.xx mass-market revenue supplies the comparison input. Reported annual movements qualify the forecast starting mix, not its future persistence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct publisher-sample religious and trade physical-format receipts provide a category-intensity proxy, subject to explicit geographic and coverage adjustments.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct publisher-sample religious and trade physical-format receipts provide a category-intensity proxy, subject to explicit geographic and coverage adjustments.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported professional-book receipts and their 2025 decline challenge assumptions of automatic growth from recurring reference relationships.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported professional-book receipts and their 2025 decline challenge assumptions of automatic growth from recurring reference relationships.

24. Print and Associated Services Framework - Lot 1 Buyer Guide: Framework Objectives
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The public purchasing framework separately specifies production-management advice. It establishes a purchased responsibility but not a global fee rate or permission to count subcontract pass-through as retained revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The public purchasing framework separately specifies production-management advice. It establishes a purchased responsibility but not a global fee rate or permission to count subcontract pass-through as retained revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The framework also specifies finished-goods stock holding and call-off, with required holding costs included in the print-job price. This supports allocating embedded production-linked fulfillment rather than restricting the category to standalone invoices.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The framework also specifies finished-goods stock holding and call-off, with required holding costs included in the print-job price. This supports allocating embedded production-linked fulfillment rather than restricting the category to standalone invoices.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Finished goods may be held for call-off, with storage included in the print job where required. This supports consolidated releases as a production-linked arrangement without assuming every release is an individual order.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Finished goods may be held for call-off, with storage included in the print job where required. This supports consolidated releases as a production-linked arrangement without assuming every release is an individual order.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contractors maintain designated distribution lists, deliver to nominated addresses and receive job-specific copy allocations, supporting the modeled list-delivery category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contractors maintain designated distribution lists, deliver to nominated addresses and receive job-specific copy allocations, supporting the modeled list-delivery category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The coexistence of stock holding, call-off and distribution-list obligations supports separating production trigger from fulfillment responsibility; call-off alone does not establish transaction-level fulfillment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The coexistence of stock holding, call-off and distribution-list obligations supports separating production trigger from fulfillment responsibility; call-off alone does not establish transaction-level fulfillment.

25. Frequently Asked Questions - IngramSpark
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: IngramSpark states that it does not provide editing, typesetting or design services. This counterexample prevents treating all platform manufacturing commissions as purchases of professional preparation services.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: IngramSpark states that it does not provide editing, typesetting or design services. This counterexample prevents treating all platform manufacturing commissions as purchases of professional preparation services.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider permits nonexclusive sourcing when the customer owns its ISBN and does not offer editing, typesetting or design. These terms constrain the author service boundary, not adoption or revenue growth.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider permits nonexclusive sourcing when the customer owns its ISBN and does not offer editing, typesetting or design. These terms constrain the author service boundary, not adoption or revenue growth.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: IngramSpark permits nonexclusive use of other printers, distributors and fulfillment providers when publishers own their ISBN. This establishes an alternative-sourcing option, not observed switching or a numerical channel allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: IngramSpark permits nonexclusive use of other printers, distributors and fulfillment providers when publishers own their ISBN. This establishes an alternative-sourcing option, not observed switching or a numerical channel allocation.
26. Packaging Printing & Production - Imago Group
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier identifies book slipcases, clamshell cases, tray-and-lid constructions and multicomponent publisher packaging. This supports the enclosure-production boundary and the limitation of a simple mailer-price proxy; it does not supply sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier identifies book slipcases, clamshell cases, tray-and-lid constructions and multicomponent publisher packaging. This supports the enclosure-production boundary and the limitation of a simple mailer-price proxy; it does not supply sales weights.
27. Services - Bridgeport National Bindery
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The short-run book-production portfolio separately lists shrink-wrapping and set packing. It establishes commercial packing activity distinct from enclosure manufacture and binding, without measuring its revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The short-run book-production portfolio separately lists shrink-wrapping and set packing. It establishes commercial packing activity distinct from enclosure manufacture and binding, without measuring its revenue.
28. Terms and Conditions - CPI Print Germany
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published terms distinguish ex-works production prices from packaging, freight and postage and reserve specified input-cost adjustment rights. They support comparable-scope valuation but do not establish realized inflation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published terms distinguish ex-works production prices from packaging, freight and postage and reserve specified input-cost adjustment rights. They support comparable-scope valuation but do not establish realized inflation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate treatment of forwarding and storage responsibilities supports the eligible production-linked service boundary; contractual rights do not prove the assumed future fee-growth rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate treatment of forwarding and storage responsibilities supports the eligible production-linked service boundary; contractual rights do not prove the assumed future fee-growth rate.

29. ONIX Codelists Issue 75 - List 150: Product Form
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BB identifies hardback/cased books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BB identifies hardback/cased books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BC identifies paperback/softback books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BC identifies paperback/softback books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BH distinguishes board-page books from conventional books with rigid covers.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BH distinguishes board-page books from conventional books with rigid covers.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BE groups spiral, comb and coil forms.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BE groups spiral, comb and coil forms.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BD identifies loose-leaf books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BD identifies loose-leaf books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BF includes stapled short books; nonbook uses are excluded from the model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BF includes stapled short books; nonbook uses are excluded from the model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BL recognizes slide-bound books without measuring current sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BL recognizes slide-bound books without measuring current sales.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BO recognizes continuous concertina-fold books; nonbook charts are excluded.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BO recognizes continuous concertina-fold books; nonbook charts are excluded.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BI identifies textile-page books, not cloth-covered paper books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BI identifies textile-page books, not cloth-covered paper books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BJ identifies waterproof bath-book forms.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BJ identifies waterproof bath-book forms.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BP identifies foam-page and foam-cover books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BP identifies foam-page and foam-cover books.

30. Thomson Reuters - Fourth-Quarter and Full-Year 2025 Results
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Global Print revenue and contraction constrain professional-print scale and substitution direction; content receipts are not treated as loose-leaf service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Global Print revenue and contraction constrain professional-print scale and substitution direction; content receipts are not treated as loose-leaf service revenue.
31. Lulu - Discontinuing Saddle Stitch in Global Distribution
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provider-specific wholesale distribution restrictions establish a channel constraint, not a global sales weight or measured forecast decline.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provider-specific wholesale distribution restrictions establish a channel constraint, not a global sales weight or measured forecast decline.
32. MAGACOPY Sofia - Copying and Printing Prices
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A current EUR xx.xx binding-only charge establishes a live commercial service and a price-scope comparison; full-book USD receipts and incidence remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A current EUR xx.xx binding-only charge establishes a live commercial service and a price-scope comparison; full-book USD receipts and incidence remain assumed.
33. Imago Group - Spotlight on Children's Books for National Young Readers Week
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's children's portfolio supports board-book commercial classification, not order volumes.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's children's portfolio supports board-book commercial classification, not order volumes.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cloth-book offerings support the textile-page category premise, not its modeled incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cloth-book offerings support the textile-page category premise, not its modeled incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bath-book offerings support a separate commercial category; sales and service receipts are undisclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bath-book offerings support a separate commercial category; sales and service receipts are undisclosed.
34. Pegasus - My First Book of Shapes: EVA Foam Book
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The dated 2025 product identifies foam pages and supports commercial-status and classification checks, not global volume or supplier realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated 2025 product identifies foam pages and supports commercial-status and classification checks, not global volume or supplier realization.

35. U.S. Consumer Product Safety Commission - Children's Books
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Product classification and intended audience affect commercial compliance accountability; no numerical surcharge is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Product classification and intended audience affect commercial compliance accountability; no numerical surcharge is inferred.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The exemption boundary supports separate classification rather than assumed conventional-book treatment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The exemption boundary supports separate classification rather than assumed conventional-book treatment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Compliance classification is retained as an uncertainty, not an exclusion or measured price premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Compliance classification is retained as an uncertainty, not an exclusion or measured price premium.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specialty construction does not itself establish ordinary-book exemption eligibility or market inactivity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specialty construction does not itself establish ordinary-book exemption eligibility or market inactivity.
36. Puget Bindery - Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider identifies training manuals and reference guides as mechanical-binding applications, supporting the commissioning premise without measuring sales incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider identifies training manuals and reference guides as mechanical-binding applications, supporting the commissioning premise without measuring sales incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists commercial letterpress book plates and specialty inserts, supporting a component-service model rather than attribution of the entire book price.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists commercial letterpress book plates and specialty inserts, supporting a component-service model rather than attribution of the entire book price.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The bindery identifies commercial printers, publishers and corporate print buyers as customers and excludes direct-to-consumer sales. This supports trade-purchasing attribution but supplies no sales percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The bindery identifies commercial printers, publishers and corporate print buyers as customers and excludes direct-to-consumer sales. This supports trade-purchasing attribution but supplies no sales percentage.

37. ONIX Codelists Issue 75 - List 80: Product Packaging Type
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates single-item and multivolume slipcases; supplies classification, not sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates single-item and multivolume slipcases; supplies classification, not sales weights.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes lidded boxes from slipcase-style boxed sets.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes lidded boxes from slipcase-style boxed sets.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-ended wraparound sleeves are distinct from enclosed wrapping.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-ended wraparound sleeves are distinct from enclosed wrapping.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes envelope-like slip-sleeves and wallets or folders.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes envelope-like slip-sleeves and wallets or folders.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes pouch and bag packaging independently.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes pouch and bag packaging independently.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately recognizes shrink-wrapped products and bundles.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately recognizes shrink-wrapped products and bundles.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Defines formed-plastic clamshells and card-backed blister packaging as distinct constructions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Defines formed-plastic clamshells and card-backed blister packaging as distinct constructions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Explicitly recognizes book browse-prevention closures.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Explicitly recognizes book browse-prevention closures.

38. U.S. Government Publishing Office - Program 827-S: Federal Aviation Administration Books, Contract Pricing and Specifications

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Historical evaluation quantities provide a container-heavy institutional purchasing counterexample, not global shipment shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Historical evaluation quantities provide a container-heavy institutional purchasing counterexample, not global shipment shares.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies kraft-envelope packing within the book procurement.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies kraft-envelope packing within the book procurement.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies cushioned shipping bags as an eligible book-order enclosure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies cushioned shipping bags as an eligible book-order enclosure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Includes wrapped shipping bundles as an alternative purchasing configuration.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Includes wrapped shipping bundles as an alternative purchasing configuration.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Requires packing and filler separately from the external enclosure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Requires packing and filler separately from the external enclosure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies closure tape and securing straps independently of container construction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies closure tape and securing straps independently of container construction.

39. U.S. Government Publishing Office - Print Order Form 2511 Instructions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specifies paper-banded sets separately from shrink-wrapped sets.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specifies paper-banded sets separately from shrink-wrapped sets.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes shrink-wrapped units nested within cartons, supporting component attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes shrink-wrapped units nested within cartons, supporting component attribution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes internal packaging, container quantities and pallet requirements.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes internal packaging, container quantities and pallet requirements.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The instructions distinguish nominated delivery addresses and warehouse receiving arrangements, supporting the receiving-point attribution premise, not an observed consolidated market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The instructions distinguish nominated delivery addresses and warehouse receiving arrangements, supporting the receiving-point attribution premise, not an observed consolidated market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supplemental distribution lists accommodate multiple destinations, supporting the distinction between preallocated destination delivery and a single receiving-point handoff.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supplemental distribution lists accommodate multiple destinations, supporting the distinction between preallocated destination delivery and a single receiving-point handoff.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: GPO specifies black interior inks separately from cover inks, supporting the monochrome classification and underlying-book attribution premise, not its modeled sales weight. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GPO specifies black interior inks separately from cover inks, supporting the monochrome classification and underlying-book attribution premise, not its modeled sales weight. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Designated Pantone specifications are recognized for interior inks, supporting a separate spot-color commercial category without measuring its share. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Designated Pantone specifications are recognized for interior inks, supporting a separate spot-color commercial category without measuring its share. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Four-color process is identified as full color for interior pages; cover color is separately specified. This supports classification at both modeled anchors. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Four-color process is identified as full color for interior pages; cover color is separately specified. This supports classification at both modeled anchors. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))

40. GPOExpress Program Pricing Guide - November 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx hand folding provides a handling-cost comparison; the complete band realization remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx hand folding provides a handling-cost comparison; the complete band realization remains modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx per shrink wrap anchors a small-run comparison, not the assumed global realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx per shrink wrap anchors a small-run comparison, not the assumed global realization.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx auxiliary insertion supplies a handling-price comparison, not protective-material sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx auxiliary insertion supplies a handling-price comparison, not protective-material sales.
41. Hardcover Book Protection: Dust Jackets or Slipcases?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-product EXW slipcase prices of USD xx.xx, USD xx.xx and USD xx.xx at xx.xx xx.xx and xx.xx units constrain relative realizations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-product EXW slipcase prices of USD xx.xx, USD xx.xx and USD xx.xx at xx.xx xx.xx and xx.xx units constrain relative realizations.
42. Book Printing Cost in China: How Printing Prices Are Calculated
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately USD xx.xx per export carton including basic packing materials constrains the bulk-package budget; the container allocation is modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately USD xx.xx per export carton including basic packing materials constrains the bulk-package budget; the container allocation is modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its cushioning split is assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its cushioning split is assumed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its closure split is assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its closure split is assumed.
43. Make Believe Ideas - Independent Retail Catalog 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 catalog identifies activity books with cover-mounted blisters, establishing book-specific participation but not packaging revenue or volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 catalog identifies activity books with cover-mounted blisters, establishing book-specific participation but not packaging revenue or volume.
44. Bookmobile - Request Book Printing Quotes the Right Way to Save Money
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The printer's bookstore-oriented purchasing guidance cautions against universal shrink-wrap attachment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The printer's bookstore-oriented purchasing guidance cautions against universal shrink-wrap attachment.

45. Digital Book Printing - Bookmobile
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current book-production portfolio separately offers poly bags, supporting commercial category participation rather than a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current book-production portfolio separately offers poly bags, supporting commercial category participation rather than a sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current portfolio offers shrink-wrap independently of other finishing options.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current portfolio offers shrink-wrap independently of other finishing options.
46. Sell Books on Shopify - Lulu
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The offered storefront-to-print-and-ship route supports an accessible production-linked parcel channel, not assumed demand.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct fulfillment availability supports the parcel-use scenario without establishing envelope mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct fulfillment availability supports the parcel-use scenario without establishing bag mix.
47. European Commission - New EU Rules on Packaging Enter into Application
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional packaging minimization supports a directional right-sizing premise, not a measured global box-price effect.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Waste-reduction requirements inform the bounded substitution scenario; they do not quantify band adoption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional circularity requirements inform lower lightweight-bag exposure without implying a global book-bag ban.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Material substitution remains partly internal to the combined film-and-paper category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional recyclability pressure informs the niche substitution scenario, not an observed blister-sales decline.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Empty-space reduction provides a directional premise for lower cushioning allowance per individual box.
48. Digital Printing - U.S. Government Publishing Office
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Procurement examples allow offset or digital alternatives while restricting some digital variants, supporting an acceptance- and run-mix model rather than a universal quality ranking. This is a modeling premise, not an observed process share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Procurement examples allow offset or digital alternatives while restricting some digital variants, supporting an acceptance- and run-mix model rather than a universal quality ranking. This is a modeling premise, not an observed process share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The purchasing guidance supports conditional digital substitution, not unrestricted interchangeability or an observed forecast allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The purchasing guidance supports conditional digital substitution, not unrestricted interchangeability or an observed forecast allocation.

49. Clays demonstrate dedication to digital investment
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx books annually and xx.xx books of digital capacity in an older investment statement; this constrains scale but is not a 2025 realized output mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx books annually and xx.xx books of digital capacity in an older investment statement; this constrains scale but is not a 2025 realized output mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's inkjet investment supports an existing book-production application and a conditional adoption premise, not a quantified global forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's inkjet investment supports an existing book-production application and a conditional adoption premise, not a quantified global forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The capacity/output comparison is a limited commercial check on continued conventional book production, not a direct offset revenue observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The capacity/output comparison is a limited commercial check on continued conventional book production, not a direct offset revenue observation.
50. ISO/TC 130 - Guidelines for Using Print Production Standards, Version 1.0, 2019
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes packaging use cases and printing processes, supporting allocation of gravure to book-associated components rather than the full value of a book.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes packaging use cases and printing processes, supporting allocation of gravure to book-associated components rather than the full value of a book.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies flexographic packaging applications; the book-specific spending budget and process coefficients remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies flexographic packaging applications; the book-specific spending budget and process coefficients remain modeled.
51. Premium Layflat Photo Books - PhotobookShop
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Offers bound silver-halide photographic books and distinguishes them from digitally printed alternatives, supporting the model's separate photographic category rather than an observed sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Offers bound silver-halide photographic books and distinguishes them from digitally printed alternatives, supporting the model's separate photographic category rather than an observed sales weight.
52. The Cormac McCarthy Collection - The Folio Society
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents screen-printed cloth covers on physical book editions, supporting component-level commercial attribution. It does not measure supplier component receipts or global uptake.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents screen-printed cloth covers on physical book editions, supporting component-level commercial attribution. It does not measure supplier component receipts or global uptake.

53. Risograph Digital Duplicator Order Form, 2026 - Minneapolis College of Art and Design
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2026 institutional form recognizes Risograph book/booklet orders but excludes assembly. It supports a limited application boundary, not 2025 external commercial volume; internal institutional charges are excluded from the numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2026 institutional form recognizes Risograph book/booklet orders but excludes assembly. It supports a limited application boundary, not 2025 external commercial volume; internal institutional charges are excluded from the numerator.
54. American Printing House - 2024 Annual Report
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal 2024 product sales were USD xx.xx; braille publications represented xx.xx% of product sales; xx.xx braille volumes were produced. These inputs constrain an adjusted production-realization proxy, not a global market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The decline from xx.xx braille volumes in 2022 qualifies a uniform physical-demand growth assumption and informs the slower relative forecast activity weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2024 product sales were USD xx.xx; braille publications represented xx.xx% of product sales; xx.xx braille volumes were produced. These inputs constrain an adjusted production-realization proxy, not a global market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The decline from xx.xx braille volumes in 2022 qualifies a uniform physical-demand growth assumption and informs the slower relative forecast activity weight.
55. Kodak Moments Kiosk - Kodak Alaris
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises book-capable retail kiosk equipment and a photographic-printing portfolio. Used only as a commercial-route premise for the thermal working estimate, not as evidence of thermal book-service sales, utilization or the final share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises book-capable retail kiosk equipment and a photographic-printing portfolio. Used only as a commercial-route premise for the thermal working estimate, not as evidence of thermal book-service sales, utilization or the final share.
56. 二〇二一年全国新闻出版业基本情况
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official 2021 aggregate textbook output distinguishes school, tertiary and vocational/adult activity; historical volumes require value and global-scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official 2021 aggregate textbook output distinguishes school, tertiary and vocational/adult activity; historical volumes require value and global-scope adjustments.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Secondary, primary and teaching-book aggregate sheet counts form the school activity weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Secondary, primary and teaching-book aggregate sheet counts form the school activity weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Tertiary textbook aggregate output supplies the higher-education activity input before an assumed relative-service-value adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Tertiary textbook aggregate output supplies the higher-education activity input before an assumed relative-service-value adjustment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Vocational, adult and literacy textbook output supplies the corresponding historical activity input.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Vocational, adult and literacy textbook output supplies the corresponding historical activity input.

57. Music, printed or in manuscript imports by country, 2024 - World Integrated Trade Solution
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official HS xx.xx import observations constrain the music-publication value bridge; domestic supply, physical-book eligibility and the printing-service fraction remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official HS xx.xx import observations constrain the music-publication value bridge; domestic supply, physical-book eligibility and the printing-service fraction remain modeled.
58. Bloomsbury Publishing - 2024/25 Results Presentation
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate Academic & Professional print, digital and rights/service receipts demonstrate the required physical-revenue boundary; company mix is not treated as global market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate Academic & Professional print, digital and rights/service receipts demonstrate the required physical-revenue boundary; company mix is not treated as global market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed physical academic publishing activity supports commercial applicability but does not verify the assumed global research/reference ratio.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed physical academic publishing activity supports commercial applicability but does not verify the assumed global research/reference ratio.
59. HDSB - RFSQ 26-013: Yearbook Software and Printing Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The qualification notice establishes a commissioned yearbook scope including printing, binding and school delivery; it supplies no awarded value and is not used as a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The qualification notice establishes a commissioned yearbook scope including printing, binding and school delivery; it supplies no awarded value and is not used as a sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The yearbook qualification notice restricts supply to prequalified vendors while permitting school bulk orders and individual ordering. It supports separating commissioning authority from ultimate payment, but discloses no fulfilled-order value.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The yearbook qualification notice restricts supply to prequalified vendors while permitting school bulk orders and individual ordering. It supports separating commissioning authority from ultimate payment, but discloses no fulfilled-order value.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The individual-ordering option establishes an attribution uncertainty relevant to the modeled household portion; it does not establish the assumed xx.xx% proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The individual-ordering option establishes an attribution uncertainty relevant to the modeled household portion; it does not establish the assumed xx.xx% proportion.

60. U.S. Census Bureau - 2022 Economic Census, Books Printing Questionnaire MC-32312
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official printing questionnaire supports the distinction between textbook and general-book production; recognition is not treated as a revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official printing questionnaire supports the distinction between textbook and general-book production; recognition is not treated as a revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognized coloring-book output supports treating recreational activity commissions separately from institutional textbooks according to purpose.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognized coloring-book output supports treating recreational activity commissions separately from institutional textbooks according to purpose.
61. Press Information Bureau - Department of School Education & Literacy, Year End Review 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The government review describes substantial NCERT physical-textbook activity, independently qualifying the physical-availability premise without establishing attributable supplier revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The government review describes substantial NCERT physical-textbook activity, independently qualifying the physical-availability premise without establishing attributable supplier revenue.
62. 2022 North American Industry Classification System - United States
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dedicated book-publishing activity is separated from institutional primary activities and printing without publishing, constraining the Publishing Organizations numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dedicated book-publishing activity is separated from institutional primary activities and printing without publishing, constraining the Publishing Organizations numerator.
63. U.S. Census Bureau - Books Printing: 2002
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Table xx.xx reports 2002 U.S. books-printing contract-work costs of USD xx.xx and shipments of USD xx.xx. Their ratio supplies a dated manufacturing-subcontract proxy, held constant within the forecast component.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Table xx.xx reports 2002 U.S. books-printing contract-work costs of USD xx.xx and shipments of USD xx.xx. Their ratio supplies a dated manufacturing-subcontract proxy, held constant within the forecast component.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical subcontract-cost input constrains the modeled transfer from publisher-origin commissioning to performing suppliers, without adding another gross contract value.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical subcontract-cost input constrains the modeled transfer from publisher-origin commissioning to performing suppliers, without adding another gross contract value.
64. Samfine Creation Holdings Group Limited - Form 20-F for the year ended December 31, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports USD xx.xx of 2025 book-product revenue and principally serves book traders that secure printing contracts and outsource production. This is a supplier-specific quantitative role check, not a Global allocation weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports USD xx.xx of 2025 book-product revenue and principally serves book traders that secure printing contracts and outsource production. This is a supplier-specific quantitative role check, not a Global allocation weight.

65. Ministry of Education - NCERT and Amazon Letter of Engagement, October 7, 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2024 announcement targeted xx.xx NCERT books for academic 2025-xx.xx. This is a planned institutional activity anchor; realization, eligible receipts and subsequent growth are modeled separately.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2024 announcement targeted xx.xx NCERT books for academic 2025-xx.xx. This is a planned institutional activity anchor; realization, eligible receipts and subsequent growth are modeled separately.
66. Bangladesh e-GP - NCTB/TEXTBOOK/2025, Package GD.102_SEC_8.031
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The government-funded procurement plan specifies xx.xx academic-2025 textbook copies and an estimated BDT xx.xx for printing, binding and supply. It constrains commercial order scale and local unit-budget plausibility, not realized annual revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The government-funded procurement plan specifies xx.xx academic-2025 textbook copies and an estimated BDT xx.xx for printing, binding and supply. It constrains commercial order scale and local unit-budget plausibility, not realized annual revenue.
67. Students suffer as NCTB fails to deliver books - The Daily Star, January 17, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 report corroborates the dated approximately xx.xx-copy textbook target and early-year delivery disruption. Target realization and supplier receipts remain modeled.
68. Secondary-level students: A new year without full set of books for many - The Daily Star, December 28, 2025
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 report corroborates the approximately xx.xx-copy academic-2026 target and continued delivery slippage. It informs a normalization assumption, not an observed 2032 share.
69. Business Books - Print Professional, Custom Corporate Books | Blurb
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The business-book offering includes organizational presentation and corporate-gift applications. It establishes an in-scope commissioning proposition, not the modeled global copy quantity or spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The business-book offering includes organizational presentation and corporate-gift applications. It establishes an in-scope commissioning proposition, not the modeled global copy quantity or spending.
70. How to Use Lulu to Support Your Nonprofit | Lulu
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform permits an organization or charity to receive creator proceeds. This supports excluding beneficiary-only arrangements from nonprofit commissioning; it does not measure nonprofit printing purchases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform permits an organization or charity to receive creator proceeds. This supports excluding beneficiary-only arrangements from nonprofit commissioning; it does not measure nonprofit printing purchases.

71. News Corp - Form 10-K for the fiscal year ended June 30, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal 2025 consumer backlist revenue of xx.xx% and digital revenue of xx.xx% anchor the assumed physical-backlist bridge and its forecast starting model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2025 consumer backlist revenue of xx.xx% and digital revenue of xx.xx% anchor the assumed physical-backlist bridge and its forecast starting model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed backlist mix constrains recurring-title demand; its division into replenishment and POD remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed backlist mix constrains recurring-title demand; its division into replenishment and POD remains modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The complementary frontlist population supports the launch-stock cohort after physical-format adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The complementary frontlist population supports the launch-stock cohort after physical-format adjustments.
72. News Corp - Form 10-K for the fiscal year ended June 30, 2026
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2026 backlist revenue of xx.xx% and digital revenue of xx.xx% lower the forecast physical-backlist proxy instead of assuming continued backlist expansion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The updated catalog mix changes the forecast population available for repeat inventory releases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The updated frontlist/backlist bridge changes the forecast planned-production weight; no 2032 share is disclosed.
73. How Do Lulu Direct Orders Work?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lulu describes printing after customer purchase and distinguishes production from subsequent shipment, supporting recipient-order attribution rather than technology-based classification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lulu describes printing after customer purchase and distinguishes production from subsequent shipment, supporting recipient-order attribution rather than technology-based classification.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: No minimum order and one-copy ordering establish commercial feasibility, not the number or value of single-copy releases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No minimum order and one-copy ordering establish commercial feasibility, not the number or value of single-copy releases.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: One POD offering accepts hundreds of copies, independently challenging a POD-equals-single-copy allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One POD offering accepts hundreds of copies, independently challenging a POD-equals-single-copy allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Orders can extend into thousands within the same offering; the production trigger therefore does not uniquely identify the working run band.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Orders can extend into thousands within the same offering; the production trigger therefore does not uniquely identify the working run band.

74. Supply Chain - Clays
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Clays describes differentiated backlist arrangements and stock visibility, supporting a separate inventory-replenishment cohort without establishing its numerical prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Clays describes differentiated backlist arrangements and stock visibility, supporting a separate inventory-replenishment cohort without establishing its numerical prevalence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: New-title consolidation and predictable annual backlist demand support retaining planned inventory commitments; short-run printing is explicitly not necessarily POD.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: New-title consolidation and predictable annual backlist demand support retaining planned inventory commitments; short-run printing is explicitly not necessarily POD.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Clays explicitly distinguishes short-run work from POD, supporting category separation rather than a technological proxy for value share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Clays explicitly distinguishes short-run work from POD, supporting category separation rather than a technological proxy for value share.
75. Smart Backlist Management: When to Hold and When to Print-on-Demand
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheridan describes low-volume titles moving to POD while other titles retain inventory, supporting differentiated release-policy assumptions rather than a uniform backlist-to-POD conversion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheridan describes low-volume titles moving to POD while other titles retain inventory, supporting differentiated release-policy assumptions rather than a uniform backlist-to-POD conversion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A disclosed customer example uses a stock threshold to trigger a 2,000-copy replenishment order. It establishes the commercial mechanism, not a market-wide share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A disclosed customer example uses a stock threshold to trigger a 2,000-copy replenishment order. It establishes the commercial mechanism, not a market-wide share.

76. Shortage of NCERT textbooks - Rajya Sabha Unstarred Question No. 1941, December 17, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advance enrollment-based forecasting, academic-session readiness and a fiscal 2025-xx.xx plan for approximately xx.xx textbooks support a substantial calendar-driven stock cohort. The target is not realized production.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advance enrollment-based forecasting, academic-session readiness and a fiscal 2025-xx.xx plan for approximately xx.xx textbooks support a substantial calendar-driven stock cohort. The target is not realized production.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phased supply and inventory monitoring support distinguishing ongoing availability obligations from individual-recipient POD, without quantifying replenishment's global prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phased supply and inventory monitoring support distinguishing ongoing availability obligations from individual-recipient POD, without quantifying replenishment's global prevalence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official answer distinguishes printer empanelment from approximately xx.xx distribution vendors and describes planned fiscal 2025-xx.xx printing of approximately xx.xx textbooks. It supports commissioning-versus-distribution separation, not a realized monetary channel split.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official answer distinguishes printer empanelment from approximately xx.xx distribution vendors and describes planned fiscal 2025-xx.xx printing of approximately xx.xx textbooks. It supports commissioning-versus-distribution separation, not a realized monetary channel split.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phased textbook supply supports treating annual institutional quantities separately from production batches; it does not disclose the medium-run allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phased textbook supply supports treating annual institutional quantities separately from production batches; it does not disclose the medium-run allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 answer identifies a xx.xx-million-copy FY2025-xx.xx printing decision versus approximately xx.xx in recent years, a counterforce to assuming rapid long-run disappearance. Planned copies are not realized service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 answer identifies a xx.xx-million-copy FY2025-xx.xx printing decision versus approximately xx.xx in recent years, a counterforce to assuming rapid long-run disappearance. Planned copies are not realized service revenue.
77. Fulfillment Fee - Lulu Direct
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2026 schedule lists USD xx.xx per order regardless of item count, supporting an order-frequency effect on associated-service value. It does not verify the assumed historical or forecast multiplier.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2026 schedule lists USD xx.xx per order regardless of item count, supporting an order-frequency effect on associated-service value. It does not verify the assumed historical or forecast multiplier.

78. InnerWorkings, Inc. - Form 10-K for the year ended December 31, 2019
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2019 filing reports USD xx.xx gross profit on USD xx.xx revenue and describes purchased-product and direct-service costs. Historical reported margins constrain the modeled xx.xx% retained-fee ratio; they do not directly measure book-channel share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2019 filing reports USD xx.xx gross profit on USD xx.xx revenue and describes purchased-product and direct-service costs. Historical reported margins constrain the modeled xx.xx% retained-fee ratio; they do not directly measure book-channel share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The procurement-service margin comparison supports the fee-to-managed-spending bridge underlying the direct-channel complement. Carrying the normalized ratio into 2032 is explicitly a forecast assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The procurement-service margin comparison supports the fee-to-managed-spending bridge underlying the direct-channel complement. Carrying the normalized ratio into 2032 is explicitly a forecast assumption.
79. Simplified Purchase Agreement - U.S. Government Publishing Office
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SPA permits agency awards directly to certified vendors for purchases up to USD xx.xx while GPO pays vendors and invoices agencies. This supports classifying by the contracting relationship rather than the invoice payer, not a numerical global weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SPA permits agency awards directly to certified vendors for purchases up to USD xx.xx while GPO pays vendors and invoices agencies. This supports classifying by the contracting relationship rather than the invoice payer, not a numerical global weight.
80. Global Print Services | China, Europe, SE Asia, USA & India
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Imago describes sourcing suppliers and coordinating multiple manufacturers for book-related projects. Its cumulative customer relationships establish the offered intermediary role but are not annual revenue or allocation weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Imago describes sourcing suppliers and coordinating multiple manufacturers for book-related projects. Its cumulative customer relationships establish the offered intermediary role but are not annual revenue or allocation weights.
81. Lion Rock Group Limited - Annual Report 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-business 2025 turnover changes of minus xx.xx% for APOL and minus xx.xx% for Regent challenge uniform intermediary growth; Regent's non-book focus limits its relevance. These observations support avoiding an additional adoption uplift.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-business 2025 turnover changes of minus xx.xx% for APOL and minus xx.xx% for Regent challenge uniform intermediary growth; Regent's non-book focus limits its relevance. These observations support avoiding an additional adoption uplift.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Manufacturing turnover changes of minus xx.xx% at xx.xx Printing and plus xx.xx% at Papercraft demonstrate differing supplier trajectories rather than a simple common channel-growth pattern; these are not direct-contracting market shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Manufacturing turnover changes of minus xx.xx% at xx.xx Printing and plus xx.xx% at Papercraft demonstrate differing supplier trajectories rather than a simple common channel-growth pattern; these are not direct-contracting market shares.

82. Imprint Digital - Book Printing Prices UK

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected schedule quotes GBP xx.xx at xx.xx copies for one paperback specification, supporting a relative-price input, not a historical global realization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected schedule quotes GBP xx.xx at xx.xx copies for one paperback specification, supporting a relative-price input, not a historical global realization.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: GBP xx.xx at xx.xx copies supplies the medium-run reference index; format and delivery differences require separate treatment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GBP xx.xx at xx.xx copies supplies the medium-run reference index; format and delivery differences require separate treatment.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The quantity-price curve anchors the reference from which the long-run discount is assumed; no long-run price or future share is disclosed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The quantity-price curve anchors the reference from which the long-run discount is assumed; no long-run price or future share is disclosed.

83. Print Options

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: KDP distinguishes black-and-white from color records and locks ink type after publication. These platform-specific conditions qualify switching assumptions, not market weights. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: KDP distinguishes black-and-white from color records and locks ink type after publication. These platform-specific conditions qualify switching assumptions, not market weights. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The displayed platform menu does not establish designated spot-color availability or sales; a general color option is not used as evidence of spot-color demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The displayed platform menu does not establish designated spot-color availability or sales; a general color option is not used as evidence of spot-color demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Standard color is unavailable for hardcover, but premium color is available. Both process-color tiers belong within the modeled Full-Color Interiors category. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Standard color is unavailable for hardcover, but premium color is available. Both process-color tiers belong within the modeled Full-Color Interiors category. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))

84. Synthèse des chiffres de l'édition jeunesse 2024-2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The primary French publishing survey reports a xx.xx% decline in illustrated early-childhood volumes and a xx.xx% decline in youth-fiction volumes in 2024. These differing outcomes challenge an aggressive universal color-growth assumption. ([sne.fr](https://www.sne.fr/actu/synthese-des-chiffres-de-ledition-jeunesse-2024-2025/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The primary French publishing survey reports a xx.xx% decline in illustrated early-childhood volumes and a xx.xx% decline in youth-fiction volumes in 2024. These differing outcomes challenge an aggressive universal color-growth assumption. ([sne.fr](https://www.sne.fr/actu/synthese-des-chiffres-de-ledition-jeunesse-2024-2025/))

Table 728. Canada Book Printing & Packaging Services Market Size, by Print Run Length, 2017-2040 (USD Million)

Print Run Length	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Long Runs	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Medium Runs	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Short Runs	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Single-Copy Runs	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 729. Canada Book Printing & Packaging Services Market Size, by Interior Color, 2017-2040 (USD Million)

Interior Color	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Black-and-White Interiors	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Full-Color Interiors	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Spot-Color Interiors	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Sources & Evidence

1. European Book Publishing Statistics 2024
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: European publishers reported approximately EUR xx.xx of net book-sales revenue in 2024. The disclosed ebook and audiobook proportions inform the modeled xx.xx% physical-book revenue proportion; publisher revenue is an input, not printing-service revenue.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 publisher-revenue and format observations provide the European demand input carried into the 2025 estimate.

2. The Global Publishing Industry in 2022

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Table xx.xx supplies country-level publishing revenues and identifies differences between retail-value, publisher-revenue, print-only and prior-year observations. Selected non-European country observations are adjusted for physical formats and period before estimating production spending.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The selected country observations contribute to the demand pool underlying the 2025 working estimate. Nielsen retail datasets elsewhere in the publication are not used.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Primary survey sector differences constrain the education-adjusted hardcover proxy.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Primary survey sector differences constrain the education-adjusted hardcover proxy.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Educational/trade differences qualify extrapolation of U.S. consumer-format revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Educational/trade differences qualify extrapolation of U.S. consumer-format revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx of surveyed children's publishing revenue anchors the modeled specialty demand pool, not supplier receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx of surveyed children's publishing revenue anchors the modeled specialty demand pool, not supplier receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sector data constrain the commissioning-pool proxy; mechanical incidence remains assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sector data constrain the commissioning-pool proxy; mechanical incidence remains assumed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Educational demand supplies a common economic anchor; loose-leaf incidence remains modeled.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Educational demand supplies a common economic anchor; loose-leaf incidence remains modeled.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sector observations constrain the educational short-book commissioning pool.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sector observations constrain the educational short-book commissioning pool.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The commissioning-pool anchor supports an explicit sparse-format incidence model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The commissioning-pool anchor supports an explicit sparse-format incidence model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors the accordion working estimate, not observed accordion orders.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors the accordion working estimate, not observed accordion orders.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed textile-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed textile-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed bath-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed bath-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed foam-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed foam-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original publishing survey documents country-level trade/education revenue differences used to constrain the modeled physical-publishing mix; it does not directly measure service shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original publishing survey documents country-level trade/education revenue differences used to constrain the modeled physical-publishing mix; it does not directly measure service shares.

3. 2024 年新闻出版统计公报

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: For 2024, the official table reports xx.xx book copies or sheets and CNY xx.xx of book-publishing revenue. These constrain the demand bridge and historical contraction, rather than directly measuring printing-service sales.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 book-publishing observation supplies the Chinese demand primitive for the 2025 model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official 2024 output of xx.xx copies/sheets constrains total modeled publisher activity; it does not disclose single-copy production.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official 2024 output of xx.xx copies/sheets constrains total modeled publisher activity; it does not disclose single-copy production.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Aggregate copies and annual title output constrain the shared activity model, not an observed short-run share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Aggregate copies and annual title output constrain the shared activity model, not an observed short-run share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Aggregate production provides a scale check for the medium-run assumption; annual copies per title are not individual batches.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Aggregate production provides a scale check for the medium-run assumption; annual copies per title are not individual batches.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx annual copies per title constrain the long-run scenario without proving its batch mix or forecast.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx annual copies per title constrain the long-run scenario without proving its batch mix or forecast.

4. Foreign Exchange Rates - G.5A Annual, January 5, 2026

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: The official 2024 annual-average conversion inputs are USD xx.xx per EUR, CNY xx.xx per USD and CAD xx.xx per USD.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The exchange-rate table establishes the conversion basis of the preceding-year demand inputs used in the 2025 estimate; subsequent effective-USD price assumptions are modeled separately.

5. Book publishing industry, 2024 - Statistics Canada
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Canadian publishers reported CAD xx.xx of print sales outside the online category and CAD xx.xx of online print sales in 2024. Their sum, rather than total operating revenue, supplies the physical-book demand input.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: Reported cost of goods sold of CAD xx.xx, up CAD xx.xx from 2022, supplies a cost-pressure cross-check, not a directly attributable printing-services total.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: CAD xx.xx plus CAD xx.xx of print sales supplies a physical-book commissioning proxy; digital growth constrains the forecast mix. ([www150.statcan.gc.ca](https://www150.statcan.gc.ca/n1/daily-quotidien/xx.xx/dq260205b-eng.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CAD xx.xx plus CAD xx.xx of print sales supplies a physical-book commissioning proxy; digital growth constrains the forecast mix. ([www150.statcan.gc.ca](https://www150.statcan.gc.ca/n1/daily-quotidien/xx.xx/dq260205b-eng.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Canadian online versus other print-sales values constrain parcel exposure, with explicit value-to-unit and geographic limitations.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Canadian online versus other print-sales values constrain parcel exposure, with explicit value-to-unit and geographic limitations.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed envelope purchases.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed envelope purchases.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed bag purchases.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed bag purchases.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Modest observed online-print growth qualifies aggressive parcel-related wrapping assumptions.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Modest observed online-print growth qualifies aggressive parcel-related wrapping assumptions.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring separate protection.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring separate protection.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring closures.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring closures.

6. U.S. Census Bureau - Books Printing: Shipments, annual table
   - Evidence informing the 2017 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2017; this is a national production anchor for the historical model.
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2018.
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2019.
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2020.
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2021.
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2022.
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2024. This national industrial measure is narrower than the composite global service boundary.
7. U.S. Census Bureau - Book Publishers, All Establishments: Revenue, annual table
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: The Census annual series reports USD xx.xx of U.S. book-publisher revenue for 2024. A modeled xx.xx% physical-book proportion excludes digital and other adjacent receipts.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 Census observation replaces an older survey-based U.S. revenue bridge in the demand pool underlying 2025.

8. Scholastic Corporation - Form 10-K for the year ended May 31, 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Scholastic's fiscal 2024 product, service, production and inventory-reserve costs were xx.xx% of revenue; postage, freight, shipping, fulfillment and other costs were xx.xx%. These broad categories constrain, but do not directly establish, eligible outsourced-service spending.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The corresponding fiscal 2025 proportions were xx.xx% and xx.xx%. Royalties and prepublication amortization are separately disclosed, allowing their exclusion from the service-market bridge.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 product, service, production and inventory-reserve costs were xx.xx% of revenue. The broader cost category constrains the manufacturing spending boundary but does not directly disclose printing-service revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 product, service, production and inventory-reserve costs were xx.xx% of revenue. The broader cost category constrains the manufacturing spending boundary but does not directly disclose printing-service revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Prepublication amortization is disclosed separately from production costs, supporting exclusion of adjacent amortization rather than equating it with externally purchased prepress.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Prepublication amortization is disclosed separately from production costs, supporting exclusion of adjacent amortization rather than equating it with externally purchased prepress.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Postage, freight, shipping, fulfillment and other costs were xx.xx% of revenue in fiscal 2025 versus xx.xx% in fiscal 2024. This is a broad buyer-cost check, not an eligible outsourced-fulfillment share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Postage, freight, shipping, fulfillment and other costs were xx.xx% of revenue in fiscal 2025 versus xx.xx% in fiscal 2024. This is a broad buyer-cost check, not an eligible outsourced-fulfillment share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Outsourced manufacturing coexists with company-operated distribution. Fiscal-2025 production-related costs were xx.xx% of revenue, constraining the inherited spending bridge rather than directly measuring the assumed route fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Outsourced manufacturing coexists with company-operated distribution. Fiscal-2025 production-related costs were xx.xx% of revenue, constraining the inherited spending bridge rather than directly measuring the assumed route fraction.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Book-club revenue was xx.xx% online-ordered and xx.xx% parent-ordered, while products typically went to classrooms. This challenges the use of online sales as a proxy for the external contractor's delivery model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Book-club revenue was xx.xx% online-ordered and xx.xx% parent-ordered, while products typically went to classrooms. This challenges the use of online sales as a proxy for the external contractor's delivery model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct printer-to-customer fulfillment is a disclosed option. Broader logistics/other costs were xx.xx% of revenue versus xx.xx% previously, providing a cost-boundary check but no global order-level share or service-price growth observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct printer-to-customer fulfillment is a disclosed option. Broader logistics/other costs were xx.xx% of revenue versus xx.xx% previously, providing a cost-boundary check but no global order-level share or service-price growth observation.

9. CEWE achieves all targets in 2025 and aims to further increase revenue and earnings in 2026

- Evidence informing the 2025 market-value input; displayed series and growth include calculations: CEWE reported xx.xx CEWE PHOTOBOOK copies in 2025 versus xx.xx in 2024, supporting a positive specialty-book volume assumption without establishing global adoption.
- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Observed 2025 photobook growth informs the specialty-demand assumption for 2026; the market value remains modeled.
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The observed specialty-book activity is a starting condition for the forecast, not independent proof of continued growth through 2032.
- Evidence informing the 2040 market-value input; displayed series and growth include calculations: The forecast explicitly slows specialty-demand growth after 2032; this source supplies the initial commercial observation, not the long-term growth rate.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: CEWE reports xx.xx photobooks in 2025 compared with xx.xx in 2024. This independently establishes specialty-book activity underlying the nonpublisher model, without establishing a global expansion factor.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CEWE reports xx.xx photobooks in 2025 compared with xx.xx in 2024. This independently establishes specialty-book activity underlying the nonpublisher model, without establishing a global expansion factor.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports retaining premium specialty commissions in the manufacturing mix; the binding allocation and unchanged future cohort profile remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports retaining premium specialty commissions in the manufacturing mix; the binding allocation and unchanged future cohort profile remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported photobook volumes constrain personal-book activity and the nonpublisher starting condition, not hardcover prevalence or future share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported photobook volumes constrain personal-book activity and the nonpublisher starting condition, not hardcover prevalence or future share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Photobook activity supports the separate personal-book commissioning block; its softcover fraction remains assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Photobook activity supports the separate personal-book commissioning block; its softcover fraction remains assumed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported photobook copies rose from xx.xx to xx.xx; the narrower 2026 target qualifies strong specialty-growth assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported photobook copies rose from xx.xx to xx.xx; the narrower 2026 target qualifies strong specialty-growth assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specialty-book activity constrains the presentation-demand scenario but does not measure gift-box attachment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specialty-book activity constrains the presentation-demand scenario but does not measure gift-box attachment.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CEWE PHOTOBOOK units in 2025 versus xx.xx in 2024, constraining the specialty-book demand budget without establishing a global process split.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CEWE PHOTOBOOK units in 2025 versus xx.xx in 2024, constraining the specialty-book demand budget without establishing a global process split.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports the common photographic-demand input; electrophotographic attribution remains an explicit assumption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports the common photographic-demand input; electrophotographic attribution remains an explicit assumption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The photobook

10. Paperback Printing Cost - Kindle Direct Publishing

- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The inspected U.S. paperback schedule charges USD xx.xx plus USD xx.xx per page for the specified regular-trim black-ink category. It provides a contemporary commercial price comparison for the assumed USD xx.xx self-publishing production receipt, not an observed historical price or volume.
- Evidence informing the 2026 market-value input; displayed series and growth include calculations: The schedule distinguishes printing charges from royalties and retail list prices, supporting the production-receipt boundary used in the estimate.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule uses USD xx.xx plus USD xx.xx per page for the relevant page band, yielding the USD xx.xx representative manufacturing comparator. It anchors relative weights, not an observed global 2025 price or future share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule uses USD xx.xx plus USD xx.xx per page for the relevant page band, yielding the USD xx.xx representative manufacturing comparator. It anchors relative weights, not an observed global 2025 price or future share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The paperback manufacturing comparator supplies the baseline from which the modeled binding component and hardcover increment are separated.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The paperback manufacturing comparator supplies the baseline from which the modeled binding component and hardcover increment are separated.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The separately identified paperback printing charge constrains the self-publishing production-receipt model and its distinction from retail proceeds.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The separately identified paperback printing charge constrains the self-publishing production-receipt model and its distinction from retail proceeds.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page. It is a contemporary production-charge comparison for the modeled USD xx.xx receipt, not an observed historical Global average.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page. It is a contemporary production-charge comparison for the modeled USD xx.xx receipt, not an observed historical Global average.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The relevant current U.S. paperback printing schedule is USD xx.xx plus USD xx.xx per page, giving USD xx.xx at xx.xx pages. This is a commercial price comparison for creator-production receipts, not proof of 2025 realization, volume or fulfillment mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The relevant current U.S. paperback printing schedule is USD xx.xx plus USD xx.xx per page, giving USD xx.xx at xx.xx pages. This is a commercial price comparison for creator-production receipts, not proof of 2025 realization, volume or fulfillment mix.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule of USD xx.xx plus USD xx.xx per page gives USD xx.xx at xx.xx pages, a magnitude check for modeled single-copy receipts. It establishes neither global volume nor historical or forecast share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule of USD xx.xx plus USD xx.xx per page gives USD xx.xx at xx.xx pages, a magnitude check for modeled single-copy receipts. It establishes neither global volume nor historical or forecast share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page, yielding USD xx.xx for xx.xx pages. This is a contemporary price comparator, not a historical global average. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834340))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page, yielding USD xx.xx for xx.xx pages. This is a contemporary price comparator, not a historical global average. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834340))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The comparable standard and premium color charges calculate to USD xx.xx and USD xx.xx. They constrain relative

11. European Book Publishing Statistics 2017

- Evidence informing the 2017 market-value input; displayed series and growth include calculations: The association's primary survey reports approximately EUR xx.xx of European net publisher revenue for 2017, constraining the pre-pandemic demand level.

12. European Book Publishing Statistics 2019

- Evidence informing the 2018 market-value input; displayed series and growth include calculations: The association reports approximately EUR xx.xx of publisher revenue for 2018.
- Evidence informing the 2019 market-value input; displayed series and growth include calculations: The association reports approximately EUR xx.xx for 2019 and identifies a questionnaire change that limits exact comparability with earlier observations.

13. 2021 年新闻出版产业分析报告

- Evidence informing the 2020 market-value input; displayed series and growth include calculations: The official report's 2021 comparison identifies a substantial rebound from 2020, constraining the pandemic-recovery bridge.
- Evidence informing the 2021 market-value input; displayed series and growth include calculations: China reported xx.xx book copies or sheets in 2021, up xx.xx%; the report also distinguishes textbook output and reprints.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: China's official 2021 textbook share was xx.xx% of book copies. It supplies an older educational-activity proxy, not a monochrome share.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: China's official 2021 textbook share was xx.xx% of book copies. It supplies an older educational-activity proxy, not a monochrome share.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The textbook copy proportion constrains educational exposure; comparable monetary intensity and spot-color incidence are modeled separately.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The textbook copy proportion constrains educational exposure; comparable monetary intensity and spot-color incidence are modeled separately.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational-activity observation contributes to the shared demand proxy carried into the full-color base and forecast models; no color split is reported.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational-activity observation contributes to the shared demand proxy carried into the full-color base and forecast models; no color split is reported.
([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))

14. European Book Publishing Statistics 2023

- Evidence informing the 2022 market-value input; displayed series and growth include calculations: European net publisher revenue was approximately EUR xx.xx in 2022; the association describes paper-cost pressure and price-led growth.

15. Hardcover Printing Cost - Kindle Direct Publishing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim hardcover schedule uses USD xx.xx plus USD xx.xx per page in the relevant band. Comparison with paperback charges constrains the premium-equivalent manufacturing model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim hardcover schedule uses USD xx.xx plus USD xx.xx per page in the relevant band. Comparison with paperback charges constrains the premium-equivalent manufacturing model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD xx.xx fixed-charge difference supplies the POD premium input; the xx.xx% commercial-run realization and premium incidence are explicitly modeled rather than disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD xx.xx fixed-charge difference supplies the POD premium input; the xx.xx% commercial-run realization and premium incidence are explicitly modeled rather than disclosed.
16. User Fees - University of Wisconsin-Milwaukee Print & Copy Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The university service schedule separately prices preflight/prepress preparation at USD xx.xx per hour, establishing a paid preparation activity rather than an automatic component of every printing-platform purchase.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The university service schedule separately prices preflight/prepress preparation at USD xx.xx per hour, establishing a paid preparation activity rather than an automatic component of every printing-platform purchase.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Perfect binding is listed at USD xx.xx-xx.xx per book. The lower endpoint is the model's basic-binding comparator, not a measured worldwide realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Perfect binding is listed at USD xx.xx-xx.xx per book. The lower endpoint is the model's basic-binding comparator, not a measured worldwide realization.

17. How Much Does It Cost to Print a Book? - QinPrinting
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier's delivered xx.xx-page, xx.xx-copy color-book examples list USD xx.xx for softcover and USD xx.xx for hardcover. They provide a commercial-run countercheck, with delivery and product differences preventing direct substitution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier's delivered xx.xx-page, xx.xx-copy color-book examples list USD xx.xx for softcover and USD xx.xx for hardcover. They provide a commercial-run countercheck, with delivery and product differences preventing direct substitution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The smaller hardcover premium in this offset example qualifies extrapolation of the full POD hardcover increment into binding revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The smaller hardcover premium in this offset example qualifies extrapolation of the full POD hardcover increment into binding revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Comparable hardcover and softcover quotations constrain the assumed relative manufacturing realization after scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Comparable hardcover and softcover quotations constrain the assumed relative manufacturing realization after scope adjustments.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Softcover prices provide a commercial comparison, not a historical global average.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Softcover prices provide a commercial comparison, not a historical global average.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Board-book quotations constrain the assumed production receipt; delivery and duties require adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Board-book quotations constrain the assumed production receipt; delivery and duties require adjustment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Mechanical-binding quotations constrain the unit-receipt assumption, not incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Mechanical-binding quotations constrain the unit-receipt assumption, not incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Short-booklet quotations constrain the lower realization used for eligible saddle-stitched books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Short-booklet quotations constrain the lower realization used for eligible saddle-stitched books.
18. Book Wrap Mailers / Book Boxes - Packaging ONE
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer lists MP2 book mailers at GBP xx.xx each for xx.xx packs of xx.xx excluding VAT. The converted unit price supplies the packaging-creation value proxy, not a global average or a historical quote.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer lists MP2 book mailers at GBP xx.xx each for xx.xx packs of xx.xx excluding VAT. The converted unit price supplies the packaging-creation value proxy, not a global average or a historical quote.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The enclosure price forms the other side of the creation-versus-packing ratio. One comparable enclosure per packing unit is an explicit activity-matching assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The enclosure price forms the other side of the creation-versus-packing ratio. One comparable enclosure per packing unit is an explicit activity-matching assumption.

19. Foreign Exchange Rates - G.5A Annual, January 5, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 annual average is USD xx.xx per GBP. It converts the GBP packaging comparator into the common monetary basis used in the starting allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 annual average is USD xx.xx per GBP. It converts the GBP packaging comparator into the common monetary basis used in the starting allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same conversion supports the common-currency packaging/packing denominator inherited by the forecast; no 2032 exchange rate is asserted.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same conversion supports the common-currency packaging/packing denominator inherited by the forecast; no 2032 exchange rate is asserted.
20. Optional Book Publishing Services - InstantPublisher
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider lists layout/typesetting at USD xx.xx per page with a USD xx.xx minimum. This supports the preparation-spending feasibility check, with purchase incidence and copies per job remaining assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider lists layout/typesetting at USD xx.xx per page with a USD xx.xx minimum. This supports the preparation-spending feasibility check, with purchase incidence and copies per job remaining assumptions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Individual shrink-wrapping is listed at USD xx.xx each plus USD xx.xx setup. Amortizing setup over an assumed xx.xx copies gives the USD xx.xx packing comparator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Individual shrink-wrapping is listed at USD xx.xx each plus USD xx.xx setup. Amortizing setup over an assumed xx.xx copies gives the USD xx.xx packing comparator.
21. How Does Merchant Pricing Work for Ecommerce Stores? - Lulu Direct
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2026 merchant-pricing explanation identifies a USD xx.xx fulfillment fee and separates merchant retail receipts from payments for supplier production, shipping and taxes. The fee is a contemporary feasibility comparator, not verified 2025 penetration or a future charge.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2026 merchant-pricing explanation identifies a USD xx.xx fulfillment fee and separates merchant retail receipts from payments for supplier production, shipping and taxes. The fee is a contemporary feasibility comparator, not verified 2025 penetration or a future charge.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Merchant retail receipts are separate from payments for printing and fulfillment. The current page lists a USD xx.xx fulfillment fee, with shipping and taxes separately calculated. This supports the service-value boundary, not a historical average fee or global order volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Merchant retail receipts are separate from payments for printing and fulfillment. The current page lists a USD xx.xx fulfillment fee, with shipping and taxes separately calculated. This supports the service-value boundary, not a historical average fee or global order volume.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lulu identifies separate retail and production/fulfillment transactions and a USD xx.xx fulfillment fee. This supports excluding merchant retail margins from production-service value and avoiding automatic procurement-channel classification from the storefront.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lulu identifies separate retail and production/fulfillment transactions and a USD xx.xx fulfillment fee. This supports excluding merchant retail margins from production-service value and avoiding automatic procurement-channel classification from the storefront.

22. AAP December 2025 StatShot Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The primary monthly reporting panel's full-year 2025 trade figures show paperback revenue down xx.xx%. This qualifies broad physical-book growth assumptions and supplies directional mix evidence only.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The primary monthly reporting panel's full-year 2025 trade figures show paperback revenue down xx.xx%. This qualifies broad physical-book growth assumptions and supplies directional mix evidence only.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same approximately xx.xx-publisher panel shows hardcover revenue up xx.xx%. It supports a modest premium-mix hypothesis but neither measures global binding spending nor proves the forecast.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same approximately xx.xx-publisher panel shows hardcover revenue up xx.xx%. It supports a modest premium-mix hypothesis but neither measures global binding spending nor proves the forecast.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct-participant 2025 hardback revenue of approximately USD xx.xx anchors the adjusted conventional-format model; it is not printing revenue or a global share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct-participant 2025 hardback revenue of approximately USD xx.xx anchors the adjusted conventional-format model; it is not printing revenue or a global share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported paperback revenue of approximately USD xx.xx plus USD xx.xx mass-market revenue supplies the comparison input. Reported annual movements qualify the forecast starting mix, not its future persistence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported paperback revenue of approximately USD xx.xx plus USD xx.xx mass-market revenue supplies the comparison input. Reported annual movements qualify the forecast starting mix, not its future persistence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct publisher-sample religious and trade physical-format receipts provide a category-intensity proxy, subject to explicit geographic and coverage adjustments.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct publisher-sample religious and trade physical-format receipts provide a category-intensity proxy, subject to explicit geographic and coverage adjustments.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported professional-book receipts and their 2025 decline challenge assumptions of automatic growth from recurring reference relationships.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported professional-book receipts and their 2025 decline challenge assumptions of automatic growth from recurring reference relationships.

23. Print and Associated Services Framework - Lot 1 Buyer Guide: Framework Objectives
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The public purchasing framework separately specifies production-management advice. It establishes a purchased responsibility but not a global fee rate or permission to count subcontract pass-through as retained revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The public purchasing framework separately specifies production-management advice. It establishes a purchased responsibility but not a global fee rate or permission to count subcontract pass-through as retained revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The framework also specifies finished-goods stock holding and call-off, with required holding costs included in the print-job price. This supports allocating embedded production-linked fulfillment rather than restricting the category to standalone invoices.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The framework also specifies finished-goods stock holding and call-off, with required holding costs included in the print-job price. This supports allocating embedded production-linked fulfillment rather than restricting the category to standalone invoices.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Finished goods may be held for call-off, with storage included in the print job where required. This supports consolidated releases as a production-linked arrangement without assuming every release is an individual order.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Finished goods may be held for call-off, with storage included in the print job where required. This supports consolidated releases as a production-linked arrangement without assuming every release is an individual order.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contractors maintain designated distribution lists, deliver to nominated addresses and receive job-specific copy allocations, supporting the modeled list-delivery category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contractors maintain designated distribution lists, deliver to nominated addresses and receive job-specific copy allocations, supporting the modeled list-delivery category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The coexistence of stock holding, call-off and distribution-list obligations supports separating production trigger from fulfillment responsibility; call-off alone does not establish transaction-level fulfillment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The coexistence of stock holding, call-off and distribution-list obligations supports separating production trigger from fulfillment responsibility; call-off alone does not establish transaction-level fulfillment.

24. Frequently Asked Questions - IngramSpark
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: IngramSpark states that it does not provide editing, typesetting or design services. This counterexample prevents treating all platform manufacturing commissions as purchases of professional preparation services.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: IngramSpark states that it does not provide editing, typesetting or design services. This counterexample prevents treating all platform manufacturing commissions as purchases of professional preparation services.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider permits nonexclusive sourcing when the customer owns its ISBN and does not offer editing, typesetting or design. These terms constrain the author service boundary, not adoption or revenue growth.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider permits nonexclusive sourcing when the customer owns its ISBN and does not offer editing, typesetting or design. These terms constrain the author service boundary, not adoption or revenue growth.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: IngramSpark permits nonexclusive use of other printers, distributors and fulfillment providers when publishers own their ISBN. This establishes an alternative-sourcing option, not observed switching or a numerical channel allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: IngramSpark permits nonexclusive use of other printers, distributors and fulfillment providers when publishers own their ISBN. This establishes an alternative-sourcing option, not observed switching or a numerical channel allocation.
25. Packaging Printing & Production - Imago Group
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier identifies book slipcases, clamshell cases, tray-and-lid constructions and multicomponent publisher packaging. This supports the enclosure-production boundary and the limitation of a simple mailer-price proxy; it does not supply sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier identifies book slipcases, clamshell cases, tray-and-lid constructions and multicomponent publisher packaging. This supports the enclosure-production boundary and the limitation of a simple mailer-price proxy; it does not supply sales weights.
26. Services - Bridgeport National Bindery
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The short-run book-production portfolio separately lists shrink-wrapping and set packing. It establishes commercial packing activity distinct from enclosure manufacture and binding, without measuring its revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The short-run book-production portfolio separately lists shrink-wrapping and set packing. It establishes commercial packing activity distinct from enclosure manufacture and binding, without measuring its revenue.
27. Terms and Conditions - CPI Print Germany
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published terms distinguish ex-works production prices from packaging, freight and postage and reserve specified input-cost adjustment rights. They support comparable-scope valuation but do not establish realized inflation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published terms distinguish ex-works production prices from packaging, freight and postage and reserve specified input-cost adjustment rights. They support comparable-scope valuation but do not establish realized inflation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate treatment of forwarding and storage responsibilities supports the eligible production-linked service boundary; contractual rights do not prove the assumed future fee-growth rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate treatment of forwarding and storage responsibilities supports the eligible production-linked service boundary; contractual rights do not prove the assumed future fee-growth rate.

28. ONIX Codelists Issue 75 - List 150: Product Form
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BB identifies hardback/cased books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BB identifies hardback/cased books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BC identifies paperback/softback books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BC identifies paperback/softback books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BH distinguishes board-page books from conventional books with rigid covers.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BH distinguishes board-page books from conventional books with rigid covers.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BE groups spiral, comb and coil forms.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BE groups spiral, comb and coil forms.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BD identifies loose-leaf books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BD identifies loose-leaf books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BF includes stapled short books; nonbook uses are excluded from the model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BF includes stapled short books; nonbook uses are excluded from the model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BL recognizes slide-bound books without measuring current sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BL recognizes slide-bound books without measuring current sales.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BO recognizes continuous concertina-fold books; nonbook charts are excluded.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BO recognizes continuous concertina-fold books; nonbook charts are excluded.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BI identifies textile-page books, not cloth-covered paper books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BI identifies textile-page books, not cloth-covered paper books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BJ identifies waterproof bath-book forms.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BJ identifies waterproof bath-book forms.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BP identifies foam-page and foam-cover books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BP identifies foam-page and foam-cover books.

29. Thomson Reuters - Fourth-Quarter and Full-Year 2025 Results
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Global Print revenue and contraction constrain professional-print scale and substitution direction; content receipts are not treated as loose-leaf service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Global Print revenue and contraction constrain professional-print scale and substitution direction; content receipts are not treated as loose-leaf service revenue.
30. Lulu - Discontinuing Saddle Stitch in Global Distribution
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provider-specific wholesale distribution restrictions establish a channel constraint, not a global sales weight or measured forecast decline.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provider-specific wholesale distribution restrictions establish a channel constraint, not a global sales weight or measured forecast decline.
31. MAGACOPY Sofia - Copying and Printing Prices
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A current EUR xx.xx binding-only charge establishes a live commercial service and a price-scope comparison; full-book USD receipts and incidence remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A current EUR xx.xx binding-only charge establishes a live commercial service and a price-scope comparison; full-book USD receipts and incidence remain assumed.
32. Imago Group - Spotlight on Children's Books for National Young Readers Week
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's children's portfolio supports board-book commercial classification, not order volumes.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's children's portfolio supports board-book commercial classification, not order volumes.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cloth-book offerings support the textile-page category premise, not its modeled incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cloth-book offerings support the textile-page category premise, not its modeled incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bath-book offerings support a separate commercial category; sales and service receipts are undisclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bath-book offerings support a separate commercial category; sales and service receipts are undisclosed.
33. Pegasus - My First Book of Shapes: EVA Foam Book
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The dated 2025 product identifies foam pages and supports commercial-status and classification checks, not global volume or supplier realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated 2025 product identifies foam pages and supports commercial-status and classification checks, not global volume or supplier realization.

34. U.S. Consumer Product Safety Commission - Children's Books
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Product classification and intended audience affect commercial compliance accountability; no numerical surcharge is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Product classification and intended audience affect commercial compliance accountability; no numerical surcharge is inferred.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The exemption boundary supports separate classification rather than assumed conventional-book treatment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The exemption boundary supports separate classification rather than assumed conventional-book treatment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Compliance classification is retained as an uncertainty, not an exclusion or measured price premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Compliance classification is retained as an uncertainty, not an exclusion or measured price premium.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specialty construction does not itself establish ordinary-book exemption eligibility or market inactivity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specialty construction does not itself establish ordinary-book exemption eligibility or market inactivity.
35. Puget Bindery - Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider identifies training manuals and reference guides as mechanical-binding applications, supporting the commissioning premise without measuring sales incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider identifies training manuals and reference guides as mechanical-binding applications, supporting the commissioning premise without measuring sales incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists commercial letterpress book plates and specialty inserts, supporting a component-service model rather than attribution of the entire book price.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists commercial letterpress book plates and specialty inserts, supporting a component-service model rather than attribution of the entire book price.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The bindery identifies commercial printers, publishers and corporate print buyers as customers and excludes direct-to-consumer sales. This supports trade-purchasing attribution but supplies no sales percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The bindery identifies commercial printers, publishers and corporate print buyers as customers and excludes direct-to-consumer sales. This supports trade-purchasing attribution but supplies no sales percentage.

36. ONIX Codelists Issue 75 - List 80: Product Packaging Type
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates single-item and multivolume slipcases; supplies classification, not sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates single-item and multivolume slipcases; supplies classification, not sales weights.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes lidded boxes from slipcase-style boxed sets.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes lidded boxes from slipcase-style boxed sets.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-ended wraparound sleeves are distinct from enclosed wrapping.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-ended wraparound sleeves are distinct from enclosed wrapping.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes envelope-like slip-sleeves and wallets or folders.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes envelope-like slip-sleeves and wallets or folders.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes pouch and bag packaging independently.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes pouch and bag packaging independently.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately recognizes shrink-wrapped products and bundles.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately recognizes shrink-wrapped products and bundles.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Defines formed-plastic clamshells and card-backed blister packaging as distinct constructions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Defines formed-plastic clamshells and card-backed blister packaging as distinct constructions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Explicitly recognizes book browse-prevention closures.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Explicitly recognizes book browse-prevention closures.

37. U.S. Government Publishing Office - Program 827-S: Federal Aviation Administration Books, Contract Pricing and Specifications

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Historical evaluation quantities provide a container-heavy institutional purchasing counterexample, not global shipment shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Historical evaluation quantities provide a container-heavy institutional purchasing counterexample, not global shipment shares.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies kraft-envelope packing within the book procurement.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies kraft-envelope packing within the book procurement.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies cushioned shipping bags as an eligible book-order enclosure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies cushioned shipping bags as an eligible book-order enclosure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Includes wrapped shipping bundles as an alternative purchasing configuration.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Includes wrapped shipping bundles as an alternative purchasing configuration.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Requires packing and filler separately from the external enclosure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Requires packing and filler separately from the external enclosure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies closure tape and securing straps independently of container construction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies closure tape and securing straps independently of container construction.

38. U.S. Government Publishing Office - Print Order Form 2511 Instructions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specifies paper-banded sets separately from shrink-wrapped sets.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specifies paper-banded sets separately from shrink-wrapped sets.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes shrink-wrapped units nested within cartons, supporting component attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes shrink-wrapped units nested within cartons, supporting component attribution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes internal packaging, container quantities and pallet requirements.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes internal packaging, container quantities and pallet requirements.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The instructions distinguish nominated delivery addresses and warehouse receiving arrangements, supporting the receiving-point attribution premise, not an observed consolidated market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The instructions distinguish nominated delivery addresses and warehouse receiving arrangements, supporting the receiving-point attribution premise, not an observed consolidated market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supplemental distribution lists accommodate multiple destinations, supporting the distinction between preallocated destination delivery and a single receiving-point handoff.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supplemental distribution lists accommodate multiple destinations, supporting the distinction between preallocated destination delivery and a single receiving-point handoff.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: GPO specifies black interior inks separately from cover inks, supporting the monochrome classification and underlying-book attribution premise, not its modeled sales weight. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GPO specifies black interior inks separately from cover inks, supporting the monochrome classification and underlying-book attribution premise, not its modeled sales weight. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Designated Pantone specifications are recognized for interior inks, supporting a separate spot-color commercial category without measuring its share. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Designated Pantone specifications are recognized for interior inks, supporting a separate spot-color commercial category without measuring its share. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Four-color process is identified as full color for interior pages; cover color is separately specified. This supports classification at both modeled anchors. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Four-color process is identified as full color for interior pages; cover color is separately specified. This supports classification at both modeled anchors. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))

39. GPOExpress Program Pricing Guide - November 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx hand folding provides a handling-cost comparison; the complete band realization remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx hand folding provides a handling-cost comparison; the complete band realization remains modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx per shrink wrap anchors a small-run comparison, not the assumed global realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx per shrink wrap anchors a small-run comparison, not the assumed global realization.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx auxiliary insertion supplies a handling-price comparison, not protective-material sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx auxiliary insertion supplies a handling-price comparison, not protective-material sales.
40. Hardcover Book Protection: Dust Jackets or Slipcases?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-product EXW slipcase prices of USD xx.xx, USD xx.xx and USD xx.xx at xx.xx xx.xx and xx.xx units constrain relative realizations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-product EXW slipcase prices of USD xx.xx, USD xx.xx and USD xx.xx at xx.xx xx.xx and xx.xx units constrain relative realizations.
41. Book Printing Cost in China: How Printing Prices Are Calculated
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately USD xx.xx per export carton including basic packing materials constrains the bulk-package budget; the container allocation is modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately USD xx.xx per export carton including basic packing materials constrains the bulk-package budget; the container allocation is modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its cushioning split is assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its cushioning split is assumed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its closure split is assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its closure split is assumed.
42. Make Believe Ideas - Independent Retail Catalog 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 catalog identifies activity books with cover-mounted blisters, establishing book-specific participation but not packaging revenue or volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 catalog identifies activity books with cover-mounted blisters, establishing book-specific participation but not packaging revenue or volume.
43. Bookmobile - Request Book Printing Quotes the Right Way to Save Money
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The printer's bookstore-oriented purchasing guidance cautions against universal shrink-wrap attachment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The printer's bookstore-oriented purchasing guidance cautions against universal shrink-wrap attachment.

44. Digital Book Printing - Bookmobile
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current book-production portfolio separately offers poly bags, supporting commercial category participation rather than a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current book-production portfolio separately offers poly bags, supporting commercial category participation rather than a sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current portfolio offers shrink-wrap independently of other finishing options.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current portfolio offers shrink-wrap independently of other finishing options.
45. Sell Books on Shopify - Lulu
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The offered storefront-to-print-and-ship route supports an accessible production-linked parcel channel, not assumed demand.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct fulfillment availability supports the parcel-use scenario without establishing envelope mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct fulfillment availability supports the parcel-use scenario without establishing bag mix.
46. European Commission - New EU Rules on Packaging Enter into Application
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional packaging minimization supports a directional right-sizing premise, not a measured global box-price effect.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Waste-reduction requirements inform the bounded substitution scenario; they do not quantify band adoption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional circularity requirements inform lower lightweight-bag exposure without implying a global book-bag ban.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Material substitution remains partly internal to the combined film-and-paper category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional recyclability pressure informs the niche substitution scenario, not an observed blister-sales decline.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Empty-space reduction provides a directional premise for lower cushioning allowance per individual box.
47. Digital Printing - U.S. Government Publishing Office
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Procurement examples allow offset or digital alternatives while restricting some digital variants, supporting an acceptance- and run-mix model rather than a universal quality ranking. This is a modeling premise, not an observed process share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Procurement examples allow offset or digital alternatives while restricting some digital variants, supporting an acceptance- and run-mix model rather than a universal quality ranking. This is a modeling premise, not an observed process share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The purchasing guidance supports conditional digital substitution, not unrestricted interchangeability or an observed forecast allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The purchasing guidance supports conditional digital substitution, not unrestricted interchangeability or an observed forecast allocation.

48. Clays demonstrate dedication to digital investment
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx books annually and xx.xx books of digital capacity in an older investment statement; this constrains scale but is not a 2025 realized output mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx books annually and xx.xx books of digital capacity in an older investment statement; this constrains scale but is not a 2025 realized output mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's inkjet investment supports an existing book-production application and a conditional adoption premise, not a quantified global forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's inkjet investment supports an existing book-production application and a conditional adoption premise, not a quantified global forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The capacity/output comparison is a limited commercial check on continued conventional book production, not a direct offset revenue observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The capacity/output comparison is a limited commercial check on continued conventional book production, not a direct offset revenue observation.
49. ISO/TC 130 - Guidelines for Using Print Production Standards, Version 1.0, 2019
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes packaging use cases and printing processes, supporting allocation of gravure to book-associated components rather than the full value of a book.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes packaging use cases and printing processes, supporting allocation of gravure to book-associated components rather than the full value of a book.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies flexographic packaging applications; the book-specific spending budget and process coefficients remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies flexographic packaging applications; the book-specific spending budget and process coefficients remain modeled.
50. Premium Layflat Photo Books - PhotobookShop
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Offers bound silver-halide photographic books and distinguishes them from digitally printed alternatives, supporting the model's separate photographic category rather than an observed sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Offers bound silver-halide photographic books and distinguishes them from digitally printed alternatives, supporting the model's separate photographic category rather than an observed sales weight.
51. The Cormac McCarthy Collection - The Folio Society
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents screen-printed cloth covers on physical book editions, supporting component-level commercial attribution. It does not measure supplier component receipts or global uptake.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents screen-printed cloth covers on physical book editions, supporting component-level commercial attribution. It does not measure supplier component receipts or global uptake.

52. Risograph Digital Duplicator Order Form, 2026 - Minneapolis College of Art and Design
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2026 institutional form recognizes Risograph book/booklet orders but excludes assembly. It supports a limited application boundary, not 2025 external commercial volume; internal institutional charges are excluded from the numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2026 institutional form recognizes Risograph book/booklet orders but excludes assembly. It supports a limited application boundary, not 2025 external commercial volume; internal institutional charges are excluded from the numerator.
53. American Printing House - 2024 Annual Report
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal 2024 product sales were USD xx.xx; braille publications represented xx.xx% of product sales; xx.xx braille volumes were produced. These inputs constrain an adjusted production-realization proxy, not a global market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The decline from xx.xx braille volumes in 2022 qualifies a uniform physical-demand growth assumption and informs the slower relative forecast activity weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2024 product sales were USD xx.xx; braille publications represented xx.xx% of product sales; xx.xx braille volumes were produced. These inputs constrain an adjusted production-realization proxy, not a global market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The decline from xx.xx braille volumes in 2022 qualifies a uniform physical-demand growth assumption and informs the slower relative forecast activity weight.
54. Kodak Moments Kiosk - Kodak Alaris
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises book-capable retail kiosk equipment and a photographic-printing portfolio. Used only as a commercial-route premise for the thermal working estimate, not as evidence of thermal book-service sales, utilization or the final share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises book-capable retail kiosk equipment and a photographic-printing portfolio. Used only as a commercial-route premise for the thermal working estimate, not as evidence of thermal book-service sales, utilization or the final share.
55. 二〇二一年全国新闻出版业基本情况
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official 2021 aggregate textbook output distinguishes school, tertiary and vocational/adult activity; historical volumes require value and global-scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official 2021 aggregate textbook output distinguishes school, tertiary and vocational/adult activity; historical volumes require value and global-scope adjustments.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Secondary, primary and teaching-book aggregate sheet counts form the school activity weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Secondary, primary and teaching-book aggregate sheet counts form the school activity weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Tertiary textbook aggregate output supplies the higher-education activity input before an assumed relative-service-value adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Tertiary textbook aggregate output supplies the higher-education activity input before an assumed relative-service-value adjustment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Vocational, adult and literacy textbook output supplies the corresponding historical activity input.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Vocational, adult and literacy textbook output supplies the corresponding historical activity input.

56. Music, printed or in manuscript imports by country, 2024 - World Integrated Trade Solution
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official HS xx.xx import observations constrain the music-publication value bridge; domestic supply, physical-book eligibility and the printing-service fraction remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official HS xx.xx import observations constrain the music-publication value bridge; domestic supply, physical-book eligibility and the printing-service fraction remain modeled.
57. Bloomsbury Publishing - 2024/25 Results Presentation
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate Academic & Professional print, digital and rights/service receipts demonstrate the required physical-revenue boundary; company mix is not treated as global market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate Academic & Professional print, digital and rights/service receipts demonstrate the required physical-revenue boundary; company mix is not treated as global market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed physical academic publishing activity supports commercial applicability but does not verify the assumed global research/reference ratio.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed physical academic publishing activity supports commercial applicability but does not verify the assumed global research/reference ratio.
58. HDSB - RFSQ 26-013: Yearbook Software and Printing Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The qualification notice establishes a commissioned yearbook scope including printing, binding and school delivery; it supplies no awarded value and is not used as a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The qualification notice establishes a commissioned yearbook scope including printing, binding and school delivery; it supplies no awarded value and is not used as a sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The yearbook qualification notice restricts supply to prequalified vendors while permitting school bulk orders and individual ordering. It supports separating commissioning authority from ultimate payment, but discloses no fulfilled-order value.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The yearbook qualification notice restricts supply to prequalified vendors while permitting school bulk orders and individual ordering. It supports separating commissioning authority from ultimate payment, but discloses no fulfilled-order value.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The individual-ordering option establishes an attribution uncertainty relevant to the modeled household portion; it does not establish the assumed xx.xx% proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The individual-ordering option establishes an attribution uncertainty relevant to the modeled household portion; it does not establish the assumed xx.xx% proportion.

59. U.S. Census Bureau - 2022 Economic Census, Books Printing Questionnaire MC-32312
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official printing questionnaire supports the distinction between textbook and general-book production; recognition is not treated as a revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official printing questionnaire supports the distinction between textbook and general-book production; recognition is not treated as a revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognized coloring-book output supports treating recreational activity commissions separately from institutional textbooks according to purpose.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognized coloring-book output supports treating recreational activity commissions separately from institutional textbooks according to purpose.
60. Press Information Bureau - Department of School Education & Literacy, Year End Review 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The government review describes substantial NCERT physical-textbook activity, independently qualifying the physical-availability premise without establishing attributable supplier revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The government review describes substantial NCERT physical-textbook activity, independently qualifying the physical-availability premise without establishing attributable supplier revenue.
61. 2022 North American Industry Classification System - United States
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dedicated book-publishing activity is separated from institutional primary activities and printing without publishing, constraining the Publishing Organizations numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dedicated book-publishing activity is separated from institutional primary activities and printing without publishing, constraining the Publishing Organizations numerator.
62. U.S. Census Bureau - Books Printing: 2002
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Table xx.xx reports 2002 U.S. books-printing contract-work costs of USD xx.xx and shipments of USD xx.xx. Their ratio supplies a dated manufacturing-subcontract proxy, held constant within the forecast component.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Table xx.xx reports 2002 U.S. books-printing contract-work costs of USD xx.xx and shipments of USD xx.xx. Their ratio supplies a dated manufacturing-subcontract proxy, held constant within the forecast component.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical subcontract-cost input constrains the modeled transfer from publisher-origin commissioning to performing suppliers, without adding another gross contract value.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical subcontract-cost input constrains the modeled transfer from publisher-origin commissioning to performing suppliers, without adding another gross contract value.
63. Samfine Creation Holdings Group Limited - Form 20-F for the year ended December 31, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports USD xx.xx of 2025 book-product revenue and principally serves book traders that secure printing contracts and outsource production. This is a supplier-specific quantitative role check, not a Global allocation weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports USD xx.xx of 2025 book-product revenue and principally serves book traders that secure printing contracts and outsource production. This is a supplier-specific quantitative role check, not a Global allocation weight.

64. Ministry of Education - NCERT and Amazon Letter of Engagement, October 7, 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2024 announcement targeted xx.xx NCERT books for academic 2025-xx.xx. This is a planned institutional activity anchor; realization, eligible receipts and subsequent growth are modeled separately.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2024 announcement targeted xx.xx NCERT books for academic 2025-xx.xx. This is a planned institutional activity anchor; realization, eligible receipts and subsequent growth are modeled separately.
65. Bangladesh e-GP - NCTB/TEXTBOOK/2025, Package GD.102_SEC_8.031
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The government-funded procurement plan specifies xx.xx academic-2025 textbook copies and an estimated BDT xx.xx for printing, binding and supply. It constrains commercial order scale and local unit-budget plausibility, not realized annual revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The government-funded procurement plan specifies xx.xx academic-2025 textbook copies and an estimated BDT xx.xx for printing, binding and supply. It constrains commercial order scale and local unit-budget plausibility, not realized annual revenue.
66. Students suffer as NCTB fails to deliver books - The Daily Star, January 17, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 report corroborates the dated approximately xx.xx-copy textbook target and early-year delivery disruption. Target realization and supplier receipts remain modeled.
67. Secondary-level students: A new year without full set of books for many - The Daily Star, December 28, 2025
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 report corroborates the approximately xx.xx-copy academic-2026 target and continued delivery slippage. It informs a normalization assumption, not an observed 2032 share.
68. Business Books - Print Professional, Custom Corporate Books | Blurb
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The business-book offering includes organizational presentation and corporate-gift applications. It establishes an in-scope commissioning proposition, not the modeled global copy quantity or spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The business-book offering includes organizational presentation and corporate-gift applications. It establishes an in-scope commissioning proposition, not the modeled global copy quantity or spending.
69. How to Use Lulu to Support Your Nonprofit | Lulu
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform permits an organization or charity to receive creator proceeds. This supports excluding beneficiary-only arrangements from nonprofit commissioning; it does not measure nonprofit printing purchases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform permits an organization or charity to receive creator proceeds. This supports excluding beneficiary-only arrangements from nonprofit commissioning; it does not measure nonprofit printing purchases.

70. News Corp - Form 10-K for the fiscal year ended June 30, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal 2025 consumer backlist revenue of xx.xx% and digital revenue of xx.xx% anchor the assumed physical-backlist bridge and its forecast starting model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2025 consumer backlist revenue of xx.xx% and digital revenue of xx.xx% anchor the assumed physical-backlist bridge and its forecast starting model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed backlist mix constrains recurring-title demand; its division into replenishment and POD remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed backlist mix constrains recurring-title demand; its division into replenishment and POD remains modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The complementary frontlist population supports the launch-stock cohort after physical-format adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The complementary frontlist population supports the launch-stock cohort after physical-format adjustments.
71. News Corp - Form 10-K for the fiscal year ended June 30, 2026
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2026 backlist revenue of xx.xx% and digital revenue of xx.xx% lower the forecast physical-backlist proxy instead of assuming continued backlist expansion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The updated catalog mix changes the forecast population available for repeat inventory releases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The updated frontlist/backlist bridge changes the forecast planned-production weight; no 2032 share is disclosed.
72. How Do Lulu Direct Orders Work?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lulu describes printing after customer purchase and distinguishes production from subsequent shipment, supporting recipient-order attribution rather than technology-based classification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lulu describes printing after customer purchase and distinguishes production from subsequent shipment, supporting recipient-order attribution rather than technology-based classification.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: No minimum order and one-copy ordering establish commercial feasibility, not the number or value of single-copy releases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No minimum order and one-copy ordering establish commercial feasibility, not the number or value of single-copy releases.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: One POD offering accepts hundreds of copies, independently challenging a POD-equals-single-copy allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One POD offering accepts hundreds of copies, independently challenging a POD-equals-single-copy allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Orders can extend into thousands within the same offering; the production trigger therefore does not uniquely identify the working run band.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Orders can extend into thousands within the same offering; the production trigger therefore does not uniquely identify the working run band.

73. Supply Chain - Clays
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Clays describes differentiated backlist arrangements and stock visibility, supporting a separate inventory-replenishment cohort without establishing its numerical prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Clays describes differentiated backlist arrangements and stock visibility, supporting a separate inventory-replenishment cohort without establishing its numerical prevalence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: New-title consolidation and predictable annual backlist demand support retaining planned inventory commitments; short-run printing is explicitly not necessarily POD.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: New-title consolidation and predictable annual backlist demand support retaining planned inventory commitments; short-run printing is explicitly not necessarily POD.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Clays explicitly distinguishes short-run work from POD, supporting category separation rather than a technological proxy for value share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Clays explicitly distinguishes short-run work from POD, supporting category separation rather than a technological proxy for value share.
74. Smart Backlist Management: When to Hold and When to Print-on-Demand
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheridan describes low-volume titles moving to POD while other titles retain inventory, supporting differentiated release-policy assumptions rather than a uniform backlist-to-POD conversion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheridan describes low-volume titles moving to POD while other titles retain inventory, supporting differentiated release-policy assumptions rather than a uniform backlist-to-POD conversion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A disclosed customer example uses a stock threshold to trigger a 2,000-copy replenishment order. It establishes the commercial mechanism, not a market-wide share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A disclosed customer example uses a stock threshold to trigger a 2,000-copy replenishment order. It establishes the commercial mechanism, not a market-wide share.

75. Shortage of NCERT textbooks - Rajya Sabha Unstarred Question No. 1941, December 17, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advance enrollment-based forecasting, academic-session readiness and a fiscal 2025-xx.xx plan for approximately xx.xx textbooks support a substantial calendar-driven stock cohort. The target is not realized production.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advance enrollment-based forecasting, academic-session readiness and a fiscal 2025-xx.xx plan for approximately xx.xx textbooks support a substantial calendar-driven stock cohort. The target is not realized production.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phased supply and inventory monitoring support distinguishing ongoing availability obligations from individual-recipient POD, without quantifying replenishment's global prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phased supply and inventory monitoring support distinguishing ongoing availability obligations from individual-recipient POD, without quantifying replenishment's global prevalence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official answer distinguishes printer empanelment from approximately xx.xx distribution vendors and describes planned fiscal 2025-xx.xx printing of approximately xx.xx textbooks. It supports commissioning-versus-distribution separation, not a realized monetary channel split.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official answer distinguishes printer empanelment from approximately xx.xx distribution vendors and describes planned fiscal 2025-xx.xx printing of approximately xx.xx textbooks. It supports commissioning-versus-distribution separation, not a realized monetary channel split.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phased textbook supply supports treating annual institutional quantities separately from production batches; it does not disclose the medium-run allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phased textbook supply supports treating annual institutional quantities separately from production batches; it does not disclose the medium-run allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 answer identifies a xx.xx-million-copy FY2025-xx.xx printing decision versus approximately xx.xx in recent years, a counterforce to assuming rapid long-run disappearance. Planned copies are not realized service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 answer identifies a xx.xx-million-copy FY2025-xx.xx printing decision versus approximately xx.xx in recent years, a counterforce to assuming rapid long-run disappearance. Planned copies are not realized service revenue.
76. Fulfillment Fee - Lulu Direct
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2026 schedule lists USD xx.xx per order regardless of item count, supporting an order-frequency effect on associated-service value. It does not verify the assumed historical or forecast multiplier.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2026 schedule lists USD xx.xx per order regardless of item count, supporting an order-frequency effect on associated-service value. It does not verify the assumed historical or forecast multiplier.

77. InnerWorkings, Inc. - Form 10-K for the year ended December 31, 2019
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2019 filing reports USD xx.xx gross profit on USD xx.xx revenue and describes purchased-product and direct-service costs. Historical reported margins constrain the modeled xx.xx% retained-fee ratio; they do not directly measure book-channel share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2019 filing reports USD xx.xx gross profit on USD xx.xx revenue and describes purchased-product and direct-service costs. Historical reported margins constrain the modeled xx.xx% retained-fee ratio; they do not directly measure book-channel share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The procurement-service margin comparison supports the fee-to-managed-spending bridge underlying the direct-channel complement. Carrying the normalized ratio into 2032 is explicitly a forecast assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The procurement-service margin comparison supports the fee-to-managed-spending bridge underlying the direct-channel complement. Carrying the normalized ratio into 2032 is explicitly a forecast assumption.
78. Simplified Purchase Agreement - U.S. Government Publishing Office
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SPA permits agency awards directly to certified vendors for purchases up to USD xx.xx while GPO pays vendors and invoices agencies. This supports classifying by the contracting relationship rather than the invoice payer, not a numerical global weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SPA permits agency awards directly to certified vendors for purchases up to USD xx.xx while GPO pays vendors and invoices agencies. This supports classifying by the contracting relationship rather than the invoice payer, not a numerical global weight.
79. Global Print Services | China, Europe, SE Asia, USA & India
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Imago describes sourcing suppliers and coordinating multiple manufacturers for book-related projects. Its cumulative customer relationships establish the offered intermediary role but are not annual revenue or allocation weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Imago describes sourcing suppliers and coordinating multiple manufacturers for book-related projects. Its cumulative customer relationships establish the offered intermediary role but are not annual revenue or allocation weights.
80. Lion Rock Group Limited - Annual Report 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-business 2025 turnover changes of minus xx.xx% for APOL and minus xx.xx% for Regent challenge uniform intermediary growth; Regent's non-book focus limits its relevance. These observations support avoiding an additional adoption uplift.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-business 2025 turnover changes of minus xx.xx% for APOL and minus xx.xx% for Regent challenge uniform intermediary growth; Regent's non-book focus limits its relevance. These observations support avoiding an additional adoption uplift.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Manufacturing turnover changes of minus xx.xx% at xx.xx Printing and plus xx.xx% at Papercraft demonstrate differing supplier trajectories rather than a simple common channel-growth pattern; these are not direct-contracting market shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Manufacturing turnover changes of minus xx.xx% at xx.xx Printing and plus xx.xx% at Papercraft demonstrate differing supplier trajectories rather than a simple common channel-growth pattern; these are not direct-contracting market shares.

81. Imprint Digital - Book Printing Prices UK

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected schedule quotes GBP xx.xx at xx.xx copies for one paperback specification, supporting a relative-price input, not a historical global realization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected schedule quotes GBP xx.xx at xx.xx copies for one paperback specification, supporting a relative-price input, not a historical global realization.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: GBP xx.xx at xx.xx copies supplies the medium-run reference index; format and delivery differences require separate treatment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GBP xx.xx at xx.xx copies supplies the medium-run reference index; format and delivery differences require separate treatment.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The quantity-price curve anchors the reference from which the long-run discount is assumed; no long-run price or future share is disclosed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The quantity-price curve anchors the reference from which the long-run discount is assumed; no long-run price or future share is disclosed.

82. Print Options

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: KDP distinguishes black-and-white from color records and locks ink type after publication. These platform-specific conditions qualify switching assumptions, not market weights. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: KDP distinguishes black-and-white from color records and locks ink type after publication. These platform-specific conditions qualify switching assumptions, not market weights. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The displayed platform menu does not establish designated spot-color availability or sales; a general color option is not used as evidence of spot-color demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The displayed platform menu does not establish designated spot-color availability or sales; a general color option is not used as evidence of spot-color demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Standard color is unavailable for hardcover, but premium color is available. Both process-color tiers belong within the modeled Full-Color Interiors category. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Standard color is unavailable for hardcover, but premium color is available. Both process-color tiers belong within the modeled Full-Color Interiors category. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))

83. Synthèse des chiffres de l'édition jeunesse 2024-2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The primary French publishing survey reports a xx.xx% decline in illustrated early-childhood volumes and a xx.xx% decline in youth-fiction volumes in 2024. These differing outcomes challenge an aggressive universal color-growth assumption. ([sne.fr](https://www.sne.fr/actu/synthese-des-chiffres-de-ledition-jeunesse-2024-2025/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The primary French publishing survey reports a xx.xx% decline in illustrated early-childhood volumes and a xx.xx% decline in youth-fiction volumes in 2024. These differing outcomes challenge an aggressive universal color-growth assumption. ([sne.fr](https://www.sne.fr/actu/synthese-des-chiffres-de-ledition-jeunesse-2024-2025/))

Sources & Evidence

1. European Book Publishing Statistics 2024
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: European publishers reported approximately EUR xx.xx of net book-sales revenue in 2024. The disclosed ebook and audiobook proportions inform the modeled xx.xx% physical-book revenue proportion; publisher revenue is an input, not printing-service revenue.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 publisher-revenue and format observations provide the European demand input carried into the 2025 estimate.

2. The Global Publishing Industry in 2022

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Table xx.xx supplies country-level publishing revenues and identifies differences between retail-value, publisher-revenue, print-only and prior-year observations. Selected non-European country observations are adjusted for physical formats and period before estimating production spending.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The selected country observations contribute to the demand pool underlying the 2025 working estimate. Nielsen retail datasets elsewhere in the publication are not used.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Primary survey sector differences constrain the education-adjusted hardcover proxy.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Primary survey sector differences constrain the education-adjusted hardcover proxy.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Educational/trade differences qualify extrapolation of U.S. consumer-format revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Educational/trade differences qualify extrapolation of U.S. consumer-format revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx of surveyed children's publishing revenue anchors the modeled specialty demand pool, not supplier receipts.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx of surveyed children's publishing revenue anchors the modeled specialty demand pool, not supplier receipts.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sector data constrain the commissioning-pool proxy; mechanical incidence remains assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sector data constrain the commissioning-pool proxy; mechanical incidence remains assumed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Educational demand supplies a common economic anchor; loose-leaf incidence remains modeled.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Educational demand supplies a common economic anchor; loose-leaf incidence remains modeled.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sector observations constrain the educational short-book commissioning pool.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sector observations constrain the educational short-book commissioning pool.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The commissioning-pool anchor supports an explicit sparse-format incidence model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The commissioning-pool anchor supports an explicit sparse-format incidence model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors the accordion working estimate, not observed accordion orders.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors the accordion working estimate, not observed accordion orders.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed textile-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed textile-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed bath-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed bath-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed foam-book order incidence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Children's demand anchors assumed foam-book order incidence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The original publishing survey documents country-level trade/education revenue differences used to constrain the modeled physical-publishing mix; it does not directly measure service shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The original publishing survey documents country-level trade/education revenue differences used to constrain the modeled physical-publishing mix; it does not directly measure service shares.

3. 2024 年新闻出版统计公报

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: For 2024, the official table reports xx.xx book copies or sheets and CNY xx.xx of book-publishing revenue. These constrain the demand bridge and historical contraction, rather than directly measuring printing-service sales.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 book-publishing observation supplies the Chinese demand primitive for the 2025 model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official 2024 output of xx.xx copies/sheets constrains total modeled publisher activity; it does not disclose single-copy production.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official 2024 output of xx.xx copies/sheets constrains total modeled publisher activity; it does not disclose single-copy production.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Aggregate copies and annual title output constrain the shared activity model, not an observed short-run share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Aggregate copies and annual title output constrain the shared activity model, not an observed short-run share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Aggregate production provides a scale check for the medium-run assumption; annual copies per title are not individual batches.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Aggregate production provides a scale check for the medium-run assumption; annual copies per title are not individual batches.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx annual copies per title constrain the long-run scenario without proving its batch mix or forecast.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately xx.xx annual copies per title constrain the long-run scenario without proving its batch mix or forecast.

4. Foreign Exchange Rates - G.5A Annual, January 5, 2026

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: The official 2024 annual-average conversion inputs are USD xx.xx per EUR, CNY xx.xx per USD and CAD xx.xx per USD.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The exchange-rate table establishes the conversion basis of the preceding-year demand inputs used in the 2025 estimate; subsequent effective-USD price assumptions are modeled separately.

5. Book publishing industry, 2024 - Statistics Canada
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: Canadian publishers reported CAD xx.xx of print sales outside the online category and CAD xx.xx of online print sales in 2024. Their sum, rather than total operating revenue, supplies the physical-book demand input.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: Reported cost of goods sold of CAD xx.xx, up CAD xx.xx from 2022, supplies a cost-pressure cross-check, not a directly attributable printing-services total.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Canadian online versus other print-sales values constrain parcel exposure, with explicit value-to-unit and geographic limitations.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Canadian online versus other print-sales values constrain parcel exposure, with explicit value-to-unit and geographic limitations.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed envelope purchases.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed envelope purchases.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed bag purchases.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The print-channel value mix supplies a limited parcel-demand proxy, not observed bag purchases.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Modest observed online-print growth qualifies aggressive parcel-related wrapping assumptions.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Modest observed online-print growth qualifies aggressive parcel-related wrapping assumptions.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring separate protection.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring separate protection.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring closures.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Channel activity constrains the modeled delivery-pack population requiring closures.
6. U.S. Census Bureau - Books Printing: Shipments, annual table
   - Evidence informing the 2017 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2017; this is a national production anchor for the historical model.
   - Evidence informing the 2018 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2018.
   - Evidence informing the 2019 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2019.
   - Evidence informing the 2020 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2020.
   - Evidence informing the 2021 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2021.
   - Evidence informing the 2022 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2022.
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: U.S. books-printing shipments were USD xx.xx in 2024. This national industrial measure is narrower than the composite global service boundary.

7. U.S. Census Bureau - Book Publishers, All Establishments: Revenue, annual table
   - Evidence informing the 2024 market-value input; displayed series and growth include calculations: The Census annual series reports USD xx.xx of U.S. book-publisher revenue for 2024. A modeled xx.xx% physical-book proportion excludes digital and other adjacent receipts.
   - Evidence informing the 2025 market-value input; displayed series and growth include calculations: The 2024 Census observation replaces an older survey-based U.S. revenue bridge in the demand pool underlying 2025.

8. Scholastic Corporation - Form 10-K for the year ended May 31, 2025

- Evidence informing the 2024 market-value input; displayed series and growth include calculations: Scholastic's fiscal 2024 product, service, production and inventory-reserve costs were xx.xx% of revenue; postage, freight, shipping, fulfillment and other costs were xx.xx%. These broad categories constrain, but do not directly establish, eligible outsourced-service spending.
- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The corresponding fiscal 2025 proportions were xx.xx% and xx.xx%. Royalties and prepublication amortization are separately disclosed, allowing their exclusion from the service-market bridge.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 product, service, production and inventory-reserve costs were xx.xx% of revenue. The broader cost category constrains the manufacturing spending boundary but does not directly disclose printing-service revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal-2025 product, service, production and inventory-reserve costs were xx.xx% of revenue. The broader cost category constrains the manufacturing spending boundary but does not directly disclose printing-service revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Prepublication amortization is disclosed separately from production costs, supporting exclusion of adjacent amortization rather than equating it with externally purchased prepress.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Prepublication amortization is disclosed separately from production costs, supporting exclusion of adjacent amortization rather than equating it with externally purchased prepress.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Postage, freight, shipping, fulfillment and other costs were xx.xx% of revenue in fiscal 2025 versus xx.xx% in fiscal 2024. This is a broad buyer-cost check, not an eligible outsourced-fulfillment share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Postage, freight, shipping, fulfillment and other costs were xx.xx% of revenue in fiscal 2025 versus xx.xx% in fiscal 2024. This is a broad buyer-cost check, not an eligible outsourced-fulfillment share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Outsourced manufacturing coexists with company-operated distribution. Fiscal-2025 production-related costs were xx.xx% of revenue, constraining the inherited spending bridge rather than directly measuring the assumed route fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Outsourced manufacturing coexists with company-operated distribution. Fiscal-2025 production-related costs were xx.xx% of revenue, constraining the inherited spending bridge rather than directly measuring the assumed route fraction.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Book-club revenue was xx.xx% online-ordered and xx.xx% parent-ordered, while products typically went to classrooms. This challenges the use of online sales as a proxy for the external contractor's delivery model.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Book-club revenue was xx.xx% online-ordered and xx.xx% parent-ordered, while products typically went to classrooms. This challenges the use of online sales as a proxy for the external contractor's delivery model.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct printer-to-customer fulfillment is a disclosed option. Broader logistics/other costs were xx.xx% of revenue versus xx.xx% previously, providing a cost-boundary check but no global order-level share or service-price growth observation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct printer-to-customer fulfillment is a disclosed option. Broader logistics/other costs were xx.xx% of revenue versus xx.xx% previously, providing a cost-boundary check but no global order-level share or service-price growth observation.

9. CEWE achieves all targets in 2025 and aims to further increase revenue and earnings in 2026

- Evidence informing the 2025 market-value input; displayed series and growth include calculations: CEWE reported xx.xx CEWE PHOTOBOOK copies in 2025 versus xx.xx in 2024, supporting a positive specialty-book volume assumption without establishing global adoption.
- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Observed 2025 photobook growth informs the specialty-demand assumption for 2026; the market value remains modeled.
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The observed specialty-book activity is a starting condition for the forecast, not independent proof of continued growth through 2032.
- Evidence informing the 2040 market-value input; displayed series and growth include calculations: The forecast explicitly slows specialty-demand growth after 2032; this source supplies the initial commercial observation, not the long-term growth rate.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: CEWE reports xx.xx photobooks in 2025 compared with xx.xx in 2024. This independently establishes specialty-book activity underlying the nonpublisher model, without establishing a global expansion factor.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: CEWE reports xx.xx photobooks in 2025 compared with xx.xx in 2024. This independently establishes specialty-book activity underlying the nonpublisher model, without establishing a global expansion factor.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports retaining premium specialty commissions in the manufacturing mix; the binding allocation and unchanged future cohort profile remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports retaining premium specialty commissions in the manufacturing mix; the binding allocation and unchanged future cohort profile remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported photobook volumes constrain personal-book activity and the nonpublisher starting condition, not hardcover prevalence or future share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported photobook volumes constrain personal-book activity and the nonpublisher starting condition, not hardcover prevalence or future share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Photobook activity supports the separate personal-book commissioning block; its softcover fraction remains assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Photobook activity supports the separate personal-book commissioning block; its softcover fraction remains assumed.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported photobook copies rose from xx.xx to xx.xx; the narrower 2026 target qualifies strong specialty-growth assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported photobook copies rose from xx.xx to xx.xx; the narrower 2026 target qualifies strong specialty-growth assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specialty-book activity constrains the presentation-demand scenario but does not measure gift-box attachment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specialty-book activity constrains the presentation-demand scenario but does not measure gift-box attachment.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CEWE PHOTOBOOK units in 2025 versus xx.xx in 2024, constraining the specialty-book demand budget without establishing a global process split.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx CEWE PHOTOBOOK units in 2025 versus xx.xx in 2024, constraining the specialty-book demand budget without establishing a global process split.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports the common photographic-demand input; electrophotographic attribution remains an explicit assumption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed photobook activity supports the common photographic-demand input; electrophotographic attribution remains an explicit assumption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The photobook

10. Paperback Printing Cost - Kindle Direct Publishing

- Evidence informing the 2025 market-value input; displayed series and growth include calculations: The inspected U.S. paperback schedule charges USD xx.xx plus USD xx.xx per page for the specified regular-trim black-ink category. It provides a contemporary commercial price comparison for the assumed USD xx.xx self-publishing production receipt, not an observed historical price or volume.
- Evidence informing the 2026 market-value input; displayed series and growth include calculations: The schedule distinguishes printing charges from royalties and retail list prices, supporting the production-receipt boundary used in the estimate.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule uses USD xx.xx plus USD xx.xx per page for the relevant page band, yielding the USD xx.xx representative manufacturing comparator. It anchors relative weights, not an observed global 2025 price or future share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule uses USD xx.xx plus USD xx.xx per page for the relevant page band, yielding the USD xx.xx representative manufacturing comparator. It anchors relative weights, not an observed global 2025 price or future share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The paperback manufacturing comparator supplies the baseline from which the modeled binding component and hardcover increment are separated.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The paperback manufacturing comparator supplies the baseline from which the modeled binding component and hardcover increment are separated.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The separately identified paperback printing charge constrains the self-publishing production-receipt model and its distinction from retail proceeds.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The separately identified paperback printing charge constrains the self-publishing production-receipt model and its distinction from retail proceeds.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page. It is a contemporary production-charge comparison for the modeled USD xx.xx receipt, not an observed historical Global average.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page. It is a contemporary production-charge comparison for the modeled USD xx.xx receipt, not an observed historical Global average.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The relevant current U.S. paperback printing schedule is USD xx.xx plus USD xx.xx per page, giving USD xx.xx at xx.xx pages. This is a commercial price comparison for creator-production receipts, not proof of 2025 realization, volume or fulfillment mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The relevant current U.S. paperback printing schedule is USD xx.xx plus USD xx.xx per page, giving USD xx.xx at xx.xx pages. This is a commercial price comparison for creator-production receipts, not proof of 2025 realization, volume or fulfillment mix.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule of USD xx.xx plus USD xx.xx per page gives USD xx.xx at xx.xx pages, a magnitude check for modeled single-copy receipts. It establishes neither global volume nor historical or forecast share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule of USD xx.xx plus USD xx.xx per page gives USD xx.xx at xx.xx pages, a magnitude check for modeled single-copy receipts. It establishes neither global volume nor historical or forecast share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page, yielding USD xx.xx for xx.xx pages. This is a contemporary price comparator, not a historical global average. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834340))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim black-ink schedule charges USD xx.xx plus USD xx.xx per page, yielding USD xx.xx for xx.xx pages. This is a contemporary price comparator, not a historical global average. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834340))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The comparable standard and premium color charges calculate to USD xx.xx and USD xx.xx. They constrain relative

11. European Book Publishing Statistics 2017

- Evidence informing the 2017 market-value input; displayed series and growth include calculations: The association's primary survey reports approximately EUR xx.xx of European net publisher revenue for 2017, constraining the pre-pandemic demand level.

12. European Book Publishing Statistics 2019

- Evidence informing the 2018 market-value input; displayed series and growth include calculations: The association reports approximately EUR xx.xx of publisher revenue for 2018.
- Evidence informing the 2019 market-value input; displayed series and growth include calculations: The association reports approximately EUR xx.xx for 2019 and identifies a questionnaire change that limits exact comparability with earlier observations.

13. 2021 年新闻出版产业分析报告

- Evidence informing the 2020 market-value input; displayed series and growth include calculations: The official report's 2021 comparison identifies a substantial rebound from 2020, constraining the pandemic-recovery bridge.
- Evidence informing the 2021 market-value input; displayed series and growth include calculations: China reported xx.xx book copies or sheets in 2021, up xx.xx%; the report also distinguishes textbook output and reprints.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: China's official 2021 textbook share was xx.xx% of book copies. It supplies an older educational-activity proxy, not a monochrome share. ([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: China's official 2021 textbook share was xx.xx% of book copies. It supplies an older educational-activity proxy, not a monochrome share. ([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The textbook copy proportion constrains educational exposure; comparable monetary intensity and spot-color incidence are modeled separately. ([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The textbook copy proportion constrains educational exposure; comparable monetary intensity and spot-color incidence are modeled separately. ([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The educational-activity observation contributes to the shared demand proxy carried into the full-color base and forecast models; no color split is reported. ([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The educational-activity observation contributes to the shared demand proxy carried into the full-color base and forecast models; no color split is reported. ([nppa.gov.cn](https://www.nppa.gov.cn/xxgk/fdzdgknr/tjxx/xx.xx/P020230530667517704140.pdf))

14. European Book Publishing Statistics 2023

- Evidence informing the 2022 market-value input; displayed series and growth include calculations: European net publisher revenue was approximately EUR xx.xx in 2022; the association describes paper-cost pressure and price-led growth.

15. Paperback and Hardcover Distribution Rights - Kindle Direct Publishing

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The marketplace-specific physical-book distribution restriction is not evidence of zero Mexican printing and packaging demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834280))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The marketplace-specific physical-book distribution restriction is not evidence of zero Mexican printing and packaging demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834280))

16. Hardcover Printing Cost - Kindle Direct Publishing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim hardcover schedule uses USD xx.xx plus USD xx.xx per page in the relevant band. Comparison with paperback charges constrains the premium-equivalent manufacturing model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current U.S. regular-trim hardcover schedule uses USD xx.xx plus USD xx.xx per page in the relevant band. Comparison with paperback charges constrains the premium-equivalent manufacturing model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD xx.xx fixed-charge difference supplies the POD premium input; the xx.xx% commercial-run realization and premium incidence are explicitly modeled rather than disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD xx.xx fixed-charge difference supplies the POD premium input; the xx.xx% commercial-run realization and premium incidence are explicitly modeled rather than disclosed.
17. User Fees - University of Wisconsin-Milwaukee Print & Copy Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The university service schedule separately prices preflight/prepress preparation at USD xx.xx per hour, establishing a paid preparation activity rather than an automatic component of every printing-platform purchase.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The university service schedule separately prices preflight/prepress preparation at USD xx.xx per hour, establishing a paid preparation activity rather than an automatic component of every printing-platform purchase.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Perfect binding is listed at USD xx.xx-xx.xx per book. The lower endpoint is the model's basic-binding comparator, not a measured worldwide realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Perfect binding is listed at USD xx.xx-xx.xx per book. The lower endpoint is the model's basic-binding comparator, not a measured worldwide realization.

18. How Much Does It Cost to Print a Book? - QinPrinting
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier's delivered xx.xx-page, xx.xx-copy color-book examples list USD xx.xx for softcover and USD xx.xx for hardcover. They provide a commercial-run countercheck, with delivery and product differences preventing direct substitution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier's delivered xx.xx-page, xx.xx-copy color-book examples list USD xx.xx for softcover and USD xx.xx for hardcover. They provide a commercial-run countercheck, with delivery and product differences preventing direct substitution.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The smaller hardcover premium in this offset example qualifies extrapolation of the full POD hardcover increment into binding revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The smaller hardcover premium in this offset example qualifies extrapolation of the full POD hardcover increment into binding revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Comparable hardcover and softcover quotations constrain the assumed relative manufacturing realization after scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Comparable hardcover and softcover quotations constrain the assumed relative manufacturing realization after scope adjustments.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Softcover prices provide a commercial comparison, not a historical global average.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Softcover prices provide a commercial comparison, not a historical global average.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Board-book quotations constrain the assumed production receipt; delivery and duties require adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Board-book quotations constrain the assumed production receipt; delivery and duties require adjustment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Mechanical-binding quotations constrain the unit-receipt assumption, not incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Mechanical-binding quotations constrain the unit-receipt assumption, not incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Short-booklet quotations constrain the lower realization used for eligible saddle-stitched books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Short-booklet quotations constrain the lower realization used for eligible saddle-stitched books.
19. Book Wrap Mailers / Book Boxes - Packaging ONE
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer lists MP2 book mailers at GBP xx.xx each for xx.xx packs of xx.xx excluding VAT. The converted unit price supplies the packaging-creation value proxy, not a global average or a historical quote.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer lists MP2 book mailers at GBP xx.xx each for xx.xx packs of xx.xx excluding VAT. The converted unit price supplies the packaging-creation value proxy, not a global average or a historical quote.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The enclosure price forms the other side of the creation-versus-packing ratio. One comparable enclosure per packing unit is an explicit activity-matching assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The enclosure price forms the other side of the creation-versus-packing ratio. One comparable enclosure per packing unit is an explicit activity-matching assumption.

20. Foreign Exchange Rates - G.5A Annual, January 5, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 annual average is USD xx.xx per GBP. It converts the GBP packaging comparator into the common monetary basis used in the starting allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 annual average is USD xx.xx per GBP. It converts the GBP packaging comparator into the common monetary basis used in the starting allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same conversion supports the common-currency packaging/packing denominator inherited by the forecast; no 2032 exchange rate is asserted.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same conversion supports the common-currency packaging/packing denominator inherited by the forecast; no 2032 exchange rate is asserted.
21. Optional Book Publishing Services - InstantPublisher
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider lists layout/typesetting at USD xx.xx per page with a USD xx.xx minimum. This supports the preparation-spending feasibility check, with purchase incidence and copies per job remaining assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider lists layout/typesetting at USD xx.xx per page with a USD xx.xx minimum. This supports the preparation-spending feasibility check, with purchase incidence and copies per job remaining assumptions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Individual shrink-wrapping is listed at USD xx.xx each plus USD xx.xx setup. Amortizing setup over an assumed xx.xx copies gives the USD xx.xx packing comparator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Individual shrink-wrapping is listed at USD xx.xx each plus USD xx.xx setup. Amortizing setup over an assumed xx.xx copies gives the USD xx.xx packing comparator.
22. How Does Merchant Pricing Work for Ecommerce Stores? - Lulu Direct
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2026 merchant-pricing explanation identifies a USD xx.xx fulfillment fee and separates merchant retail receipts from payments for supplier production, shipping and taxes. The fee is a contemporary feasibility comparator, not verified 2025 penetration or a future charge.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2026 merchant-pricing explanation identifies a USD xx.xx fulfillment fee and separates merchant retail receipts from payments for supplier production, shipping and taxes. The fee is a contemporary feasibility comparator, not verified 2025 penetration or a future charge.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Merchant retail receipts are separate from payments for printing and fulfillment. The current page lists a USD xx.xx fulfillment fee, with shipping and taxes separately calculated. This supports the service-value boundary, not a historical average fee or global order volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Merchant retail receipts are separate from payments for printing and fulfillment. The current page lists a USD xx.xx fulfillment fee, with shipping and taxes separately calculated. This supports the service-value boundary, not a historical average fee or global order volume.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lulu identifies separate retail and production/fulfillment transactions and a USD xx.xx fulfillment fee. This supports excluding merchant retail margins from production-service value and avoiding automatic procurement-channel classification from the storefront.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lulu identifies separate retail and production/fulfillment transactions and a USD xx.xx fulfillment fee. This supports excluding merchant retail margins from production-service value and avoiding automatic procurement-channel classification from the storefront.

23. AAP December 2025 StatShot Report

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The primary monthly reporting panel's full-year 2025 trade figures show paperback revenue down xx.xx%. This qualifies broad physical-book growth assumptions and supplies directional mix evidence only.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The primary monthly reporting panel's full-year 2025 trade figures show paperback revenue down xx.xx%. This qualifies broad physical-book growth assumptions and supplies directional mix evidence only.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same approximately xx.xx-publisher panel shows hardcover revenue up xx.xx%. It supports a modest premium-mix hypothesis but neither measures global binding spending nor proves the forecast.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same approximately xx.xx-publisher panel shows hardcover revenue up xx.xx%. It supports a modest premium-mix hypothesis but neither measures global binding spending nor proves the forecast.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct-participant 2025 hardback revenue of approximately USD xx.xx anchors the adjusted conventional-format model; it is not printing revenue or a global share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct-participant 2025 hardback revenue of approximately USD xx.xx anchors the adjusted conventional-format model; it is not printing revenue or a global share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported paperback revenue of approximately USD xx.xx plus USD xx.xx mass-market revenue supplies the comparison input. Reported annual movements qualify the forecast starting mix, not its future persistence.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported paperback revenue of approximately USD xx.xx plus USD xx.xx mass-market revenue supplies the comparison input. Reported annual movements qualify the forecast starting mix, not its future persistence.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct publisher-sample religious and trade physical-format receipts provide a category-intensity proxy, subject to explicit geographic and coverage adjustments.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct publisher-sample religious and trade physical-format receipts provide a category-intensity proxy, subject to explicit geographic and coverage adjustments.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported professional-book receipts and their 2025 decline challenge assumptions of automatic growth from recurring reference relationships.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported professional-book receipts and their 2025 decline challenge assumptions of automatic growth from recurring reference relationships.

24. Print and Associated Services Framework - Lot 1 Buyer Guide: Framework Objectives
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The public purchasing framework separately specifies production-management advice. It establishes a purchased responsibility but not a global fee rate or permission to count subcontract pass-through as retained revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The public purchasing framework separately specifies production-management advice. It establishes a purchased responsibility but not a global fee rate or permission to count subcontract pass-through as retained revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The framework also specifies finished-goods stock holding and call-off, with required holding costs included in the print-job price. This supports allocating embedded production-linked fulfillment rather than restricting the category to standalone invoices.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The framework also specifies finished-goods stock holding and call-off, with required holding costs included in the print-job price. This supports allocating embedded production-linked fulfillment rather than restricting the category to standalone invoices.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Finished goods may be held for call-off, with storage included in the print job where required. This supports consolidated releases as a production-linked arrangement without assuming every release is an individual order.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Finished goods may be held for call-off, with storage included in the print job where required. This supports consolidated releases as a production-linked arrangement without assuming every release is an individual order.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Contractors maintain designated distribution lists, deliver to nominated addresses and receive job-specific copy allocations, supporting the modeled list-delivery category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Contractors maintain designated distribution lists, deliver to nominated addresses and receive job-specific copy allocations, supporting the modeled list-delivery category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The coexistence of stock holding, call-off and distribution-list obligations supports separating production trigger from fulfillment responsibility; call-off alone does not establish transaction-level fulfillment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The coexistence of stock holding, call-off and distribution-list obligations supports separating production trigger from fulfillment responsibility; call-off alone does not establish transaction-level fulfillment.

25. Frequently Asked Questions - IngramSpark
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: IngramSpark states that it does not provide editing, typesetting or design services. This counterexample prevents treating all platform manufacturing commissions as purchases of professional preparation services.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: IngramSpark states that it does not provide editing, typesetting or design services. This counterexample prevents treating all platform manufacturing commissions as purchases of professional preparation services.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider permits nonexclusive sourcing when the customer owns its ISBN and does not offer editing, typesetting or design. These terms constrain the author service boundary, not adoption or revenue growth.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider permits nonexclusive sourcing when the customer owns its ISBN and does not offer editing, typesetting or design. These terms constrain the author service boundary, not adoption or revenue growth.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: IngramSpark permits nonexclusive use of other printers, distributors and fulfillment providers when publishers own their ISBN. This establishes an alternative-sourcing option, not observed switching or a numerical channel allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: IngramSpark permits nonexclusive use of other printers, distributors and fulfillment providers when publishers own their ISBN. This establishes an alternative-sourcing option, not observed switching or a numerical channel allocation.
26. Packaging Printing & Production - Imago Group
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier identifies book slipcases, clamshell cases, tray-and-lid constructions and multicomponent publisher packaging. This supports the enclosure-production boundary and the limitation of a simple mailer-price proxy; it does not supply sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier identifies book slipcases, clamshell cases, tray-and-lid constructions and multicomponent publisher packaging. This supports the enclosure-production boundary and the limitation of a simple mailer-price proxy; it does not supply sales weights.
27. Services - Bridgeport National Bindery
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The short-run book-production portfolio separately lists shrink-wrapping and set packing. It establishes commercial packing activity distinct from enclosure manufacture and binding, without measuring its revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The short-run book-production portfolio separately lists shrink-wrapping and set packing. It establishes commercial packing activity distinct from enclosure manufacture and binding, without measuring its revenue.
28. Terms and Conditions - CPI Print Germany
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published terms distinguish ex-works production prices from packaging, freight and postage and reserve specified input-cost adjustment rights. They support comparable-scope valuation but do not establish realized inflation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published terms distinguish ex-works production prices from packaging, freight and postage and reserve specified input-cost adjustment rights. They support comparable-scope valuation but do not establish realized inflation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate treatment of forwarding and storage responsibilities supports the eligible production-linked service boundary; contractual rights do not prove the assumed future fee-growth rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate treatment of forwarding and storage responsibilities supports the eligible production-linked service boundary; contractual rights do not prove the assumed future fee-growth rate.

29. ONIX Codelists Issue 75 - List 150: Product Form
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BB identifies hardback/cased books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BB identifies hardback/cased books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BC identifies paperback/softback books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BC identifies paperback/softback books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BH distinguishes board-page books from conventional books with rigid covers.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BH distinguishes board-page books from conventional books with rigid covers.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BE groups spiral, comb and coil forms.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BE groups spiral, comb and coil forms.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BD identifies loose-leaf books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BD identifies loose-leaf books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BF includes stapled short books; nonbook uses are excluded from the model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BF includes stapled short books; nonbook uses are excluded from the model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BL recognizes slide-bound books without measuring current sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BL recognizes slide-bound books without measuring current sales.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BO recognizes continuous concertina-fold books; nonbook charts are excluded.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BO recognizes continuous concertina-fold books; nonbook charts are excluded.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BI identifies textile-page books, not cloth-covered paper books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BI identifies textile-page books, not cloth-covered paper books.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BJ identifies waterproof bath-book forms.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BJ identifies waterproof bath-book forms.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BP identifies foam-page and foam-cover books.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BP identifies foam-page and foam-cover books.

30. Thomson Reuters - Fourth-Quarter and Full-Year 2025 Results
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Global Print revenue and contraction constrain professional-print scale and substitution direction; content receipts are not treated as loose-leaf service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Global Print revenue and contraction constrain professional-print scale and substitution direction; content receipts are not treated as loose-leaf service revenue.
31. Lulu - Discontinuing Saddle Stitch in Global Distribution
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Provider-specific wholesale distribution restrictions establish a channel constraint, not a global sales weight or measured forecast decline.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Provider-specific wholesale distribution restrictions establish a channel constraint, not a global sales weight or measured forecast decline.
32. MAGACOPY Sofia - Copying and Printing Prices
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A current EUR xx.xx binding-only charge establishes a live commercial service and a price-scope comparison; full-book USD receipts and incidence remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A current EUR xx.xx binding-only charge establishes a live commercial service and a price-scope comparison; full-book USD receipts and incidence remain assumed.
33. Imago Group - Spotlight on Children's Books for National Young Readers Week
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's children's portfolio supports board-book commercial classification, not order volumes.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's children's portfolio supports board-book commercial classification, not order volumes.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cloth-book offerings support the textile-page category premise, not its modeled incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cloth-book offerings support the textile-page category premise, not its modeled incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bath-book offerings support a separate commercial category; sales and service receipts are undisclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bath-book offerings support a separate commercial category; sales and service receipts are undisclosed.
34. Pegasus - My First Book of Shapes: EVA Foam Book
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The dated 2025 product identifies foam pages and supports commercial-status and classification checks, not global volume or supplier realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated 2025 product identifies foam pages and supports commercial-status and classification checks, not global volume or supplier realization.

35. U.S. Consumer Product Safety Commission - Children's Books
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Product classification and intended audience affect commercial compliance accountability; no numerical surcharge is inferred.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Product classification and intended audience affect commercial compliance accountability; no numerical surcharge is inferred.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The exemption boundary supports separate classification rather than assumed conventional-book treatment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The exemption boundary supports separate classification rather than assumed conventional-book treatment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Compliance classification is retained as an uncertainty, not an exclusion or measured price premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Compliance classification is retained as an uncertainty, not an exclusion or measured price premium.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specialty construction does not itself establish ordinary-book exemption eligibility or market inactivity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specialty construction does not itself establish ordinary-book exemption eligibility or market inactivity.
36. Puget Bindery - Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider identifies training manuals and reference guides as mechanical-binding applications, supporting the commissioning premise without measuring sales incidence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider identifies training manuals and reference guides as mechanical-binding applications, supporting the commissioning premise without measuring sales incidence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lists commercial letterpress book plates and specialty inserts, supporting a component-service model rather than attribution of the entire book price.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lists commercial letterpress book plates and specialty inserts, supporting a component-service model rather than attribution of the entire book price.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The bindery identifies commercial printers, publishers and corporate print buyers as customers and excludes direct-to-consumer sales. This supports trade-purchasing attribution but supplies no sales percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The bindery identifies commercial printers, publishers and corporate print buyers as customers and excludes direct-to-consumer sales. This supports trade-purchasing attribution but supplies no sales percentage.

37. ONIX Codelists Issue 75 - List 80: Product Packaging Type
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separates single-item and multivolume slipcases; supplies classification, not sales weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separates single-item and multivolume slipcases; supplies classification, not sales weights.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes lidded boxes from slipcase-style boxed sets.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes lidded boxes from slipcase-style boxed sets.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-ended wraparound sleeves are distinct from enclosed wrapping.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-ended wraparound sleeves are distinct from enclosed wrapping.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes envelope-like slip-sleeves and wallets or folders.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes envelope-like slip-sleeves and wallets or folders.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognizes pouch and bag packaging independently.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognizes pouch and bag packaging independently.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately recognizes shrink-wrapped products and bundles.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately recognizes shrink-wrapped products and bundles.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Defines formed-plastic clamshells and card-backed blister packaging as distinct constructions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Defines formed-plastic clamshells and card-backed blister packaging as distinct constructions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Explicitly recognizes book browse-prevention closures.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Explicitly recognizes book browse-prevention closures.

38. U.S. Government Publishing Office - Program 827-S: Federal Aviation Administration Books, Contract Pricing and Specifications

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Historical evaluation quantities provide a container-heavy institutional purchasing counterexample, not global shipment shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Historical evaluation quantities provide a container-heavy institutional purchasing counterexample, not global shipment shares.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies kraft-envelope packing within the book procurement.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies kraft-envelope packing within the book procurement.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies cushioned shipping bags as an eligible book-order enclosure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies cushioned shipping bags as an eligible book-order enclosure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Includes wrapped shipping bundles as an alternative purchasing configuration.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Includes wrapped shipping bundles as an alternative purchasing configuration.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Requires packing and filler separately from the external enclosure.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Requires packing and filler separately from the external enclosure.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies closure tape and securing straps independently of container construction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies closure tape and securing straps independently of container construction.

39. U.S. Government Publishing Office - Print Order Form 2511 Instructions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specifies paper-banded sets separately from shrink-wrapped sets.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specifies paper-banded sets separately from shrink-wrapped sets.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes shrink-wrapped units nested within cartons, supporting component attribution.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes shrink-wrapped units nested within cartons, supporting component attribution.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes internal packaging, container quantities and pallet requirements.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes internal packaging, container quantities and pallet requirements.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The instructions distinguish nominated delivery addresses and warehouse receiving arrangements, supporting the receiving-point attribution premise, not an observed consolidated market share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The instructions distinguish nominated delivery addresses and warehouse receiving arrangements, supporting the receiving-point attribution premise, not an observed consolidated market share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supplemental distribution lists accommodate multiple destinations, supporting the distinction between preallocated destination delivery and a single receiving-point handoff.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supplemental distribution lists accommodate multiple destinations, supporting the distinction between preallocated destination delivery and a single receiving-point handoff.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: GPO specifies black interior inks separately from cover inks, supporting the monochrome classification and underlying-book attribution premise, not its modeled sales weight. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GPO specifies black interior inks separately from cover inks, supporting the monochrome classification and underlying-book attribution premise, not its modeled sales weight. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Designated Pantone specifications are recognized for interior inks, supporting a separate spot-color commercial category without measuring its share. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Designated Pantone specifications are recognized for interior inks, supporting a separate spot-color commercial category without measuring its share. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Four-color process is identified as full color for interior pages; cover color is separately specified. This supports classification at both modeled anchors. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Four-color process is identified as full color for interior pages; cover color is separately specified. This supports classification at both modeled anchors. ([gpo.gov](https://www.gpo.gov/docs/default-source/forms-standards-pdf-files/2511_instructions.pdf))

40. GPOExpress Program Pricing Guide - November 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx hand folding provides a handling-cost comparison; the complete band realization remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx hand folding provides a handling-cost comparison; the complete band realization remains modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx per shrink wrap anchors a small-run comparison, not the assumed global realization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx per shrink wrap anchors a small-run comparison, not the assumed global realization.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx auxiliary insertion supplies a handling-price comparison, not protective-material sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx auxiliary insertion supplies a handling-price comparison, not protective-material sales.
41. Hardcover Book Protection: Dust Jackets or Slipcases?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-product EXW slipcase prices of USD xx.xx, USD xx.xx and USD xx.xx at xx.xx xx.xx and xx.xx units constrain relative realizations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-product EXW slipcase prices of USD xx.xx, USD xx.xx and USD xx.xx at xx.xx xx.xx and xx.xx units constrain relative realizations.
42. Book Printing Cost in China: How Printing Prices Are Calculated
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Approximately USD xx.xx per export carton including basic packing materials constrains the bulk-package budget; the container allocation is modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Approximately USD xx.xx per export carton including basic packing materials constrains the bulk-package budget; the container allocation is modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its cushioning split is assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its cushioning split is assumed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its closure split is assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inclusive carton quotation constrains combined spending; its closure split is assumed.
43. Make Believe Ideas - Independent Retail Catalog 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 catalog identifies activity books with cover-mounted blisters, establishing book-specific participation but not packaging revenue or volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 catalog identifies activity books with cover-mounted blisters, establishing book-specific participation but not packaging revenue or volume.
44. Bookmobile - Request Book Printing Quotes the Right Way to Save Money
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The printer's bookstore-oriented purchasing guidance cautions against universal shrink-wrap attachment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The printer's bookstore-oriented purchasing guidance cautions against universal shrink-wrap attachment.

45. Digital Book Printing - Bookmobile
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current book-production portfolio separately offers poly bags, supporting commercial category participation rather than a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current book-production portfolio separately offers poly bags, supporting commercial category participation rather than a sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The current portfolio offers shrink-wrap independently of other finishing options.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The current portfolio offers shrink-wrap independently of other finishing options.
46. Sell Books on Shopify - Lulu
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The offered storefront-to-print-and-ship route supports an accessible production-linked parcel channel, not assumed demand.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct fulfillment availability supports the parcel-use scenario without establishing envelope mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct fulfillment availability supports the parcel-use scenario without establishing bag mix.
47. European Commission - New EU Rules on Packaging Enter into Application
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional packaging minimization supports a directional right-sizing premise, not a measured global box-price effect.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Waste-reduction requirements inform the bounded substitution scenario; they do not quantify band adoption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional circularity requirements inform lower lightweight-bag exposure without implying a global book-bag ban.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Material substitution remains partly internal to the combined film-and-paper category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional recyclability pressure informs the niche substitution scenario, not an observed blister-sales decline.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Empty-space reduction provides a directional premise for lower cushioning allowance per individual box.
48. Digital Printing - U.S. Government Publishing Office
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Procurement examples allow offset or digital alternatives while restricting some digital variants, supporting an acceptance- and run-mix model rather than a universal quality ranking. This is a modeling premise, not an observed process share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Procurement examples allow offset or digital alternatives while restricting some digital variants, supporting an acceptance- and run-mix model rather than a universal quality ranking. This is a modeling premise, not an observed process share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The purchasing guidance supports conditional digital substitution, not unrestricted interchangeability or an observed forecast allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The purchasing guidance supports conditional digital substitution, not unrestricted interchangeability or an observed forecast allocation.

49. Clays demonstrate dedication to digital investment
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reports xx.xx books annually and xx.xx books of digital capacity in an older investment statement; this constrains scale but is not a 2025 realized output mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reports xx.xx books annually and xx.xx books of digital capacity in an older investment statement; this constrains scale but is not a 2025 realized output mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's inkjet investment supports an existing book-production application and a conditional adoption premise, not a quantified global forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's inkjet investment supports an existing book-production application and a conditional adoption premise, not a quantified global forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The capacity/output comparison is a limited commercial check on continued conventional book production, not a direct offset revenue observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The capacity/output comparison is a limited commercial check on continued conventional book production, not a direct offset revenue observation.
50. ISO/TC 130 - Guidelines for Using Print Production Standards, Version 1.0, 2019
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distinguishes packaging use cases and printing processes, supporting allocation of gravure to book-associated components rather than the full value of a book.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distinguishes packaging use cases and printing processes, supporting allocation of gravure to book-associated components rather than the full value of a book.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Identifies flexographic packaging applications; the book-specific spending budget and process coefficients remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Identifies flexographic packaging applications; the book-specific spending budget and process coefficients remain modeled.
51. Premium Layflat Photo Books - PhotobookShop
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Offers bound silver-halide photographic books and distinguishes them from digitally printed alternatives, supporting the model's separate photographic category rather than an observed sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Offers bound silver-halide photographic books and distinguishes them from digitally printed alternatives, supporting the model's separate photographic category rather than an observed sales weight.
52. The Cormac McCarthy Collection - The Folio Society
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Documents screen-printed cloth covers on physical book editions, supporting component-level commercial attribution. It does not measure supplier component receipts or global uptake.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Documents screen-printed cloth covers on physical book editions, supporting component-level commercial attribution. It does not measure supplier component receipts or global uptake.

53. Risograph Digital Duplicator Order Form, 2026 - Minneapolis College of Art and Design
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2026 institutional form recognizes Risograph book/booklet orders but excludes assembly. It supports a limited application boundary, not 2025 external commercial volume; internal institutional charges are excluded from the numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2026 institutional form recognizes Risograph book/booklet orders but excludes assembly. It supports a limited application boundary, not 2025 external commercial volume; internal institutional charges are excluded from the numerator.
54. American Printing House - 2024 Annual Report
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal 2024 product sales were USD xx.xx; braille publications represented xx.xx% of product sales; xx.xx braille volumes were produced. These inputs constrain an adjusted production-realization proxy, not a global market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The decline from xx.xx braille volumes in 2022 qualifies a uniform physical-demand growth assumption and informs the slower relative forecast activity weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2024 product sales were USD xx.xx; braille publications represented xx.xx% of product sales; xx.xx braille volumes were produced. These inputs constrain an adjusted production-realization proxy, not a global market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The decline from xx.xx braille volumes in 2022 qualifies a uniform physical-demand growth assumption and informs the slower relative forecast activity weight.
55. Kodak Moments Kiosk - Kodak Alaris
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises book-capable retail kiosk equipment and a photographic-printing portfolio. Used only as a commercial-route premise for the thermal working estimate, not as evidence of thermal book-service sales, utilization or the final share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises book-capable retail kiosk equipment and a photographic-printing portfolio. Used only as a commercial-route premise for the thermal working estimate, not as evidence of thermal book-service sales, utilization or the final share.
56. 二〇二一年全国新闻出版业基本情况
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official 2021 aggregate textbook output distinguishes school, tertiary and vocational/adult activity; historical volumes require value and global-scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official 2021 aggregate textbook output distinguishes school, tertiary and vocational/adult activity; historical volumes require value and global-scope adjustments.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Secondary, primary and teaching-book aggregate sheet counts form the school activity weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Secondary, primary and teaching-book aggregate sheet counts form the school activity weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Tertiary textbook aggregate output supplies the higher-education activity input before an assumed relative-service-value adjustment.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Tertiary textbook aggregate output supplies the higher-education activity input before an assumed relative-service-value adjustment.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Vocational, adult and literacy textbook output supplies the corresponding historical activity input.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Vocational, adult and literacy textbook output supplies the corresponding historical activity input.

57. Music, printed or in manuscript imports by country, 2024 - World Integrated Trade Solution
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Official HS xx.xx import observations constrain the music-publication value bridge; domestic supply, physical-book eligibility and the printing-service fraction remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Official HS xx.xx import observations constrain the music-publication value bridge; domestic supply, physical-book eligibility and the printing-service fraction remain modeled.
58. Bloomsbury Publishing - 2024/25 Results Presentation
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate Academic & Professional print, digital and rights/service receipts demonstrate the required physical-revenue boundary; company mix is not treated as global market share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate Academic & Professional print, digital and rights/service receipts demonstrate the required physical-revenue boundary; company mix is not treated as global market share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Observed physical academic publishing activity supports commercial applicability but does not verify the assumed global research/reference ratio.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed physical academic publishing activity supports commercial applicability but does not verify the assumed global research/reference ratio.
59. HDSB - RFSQ 26-013: Yearbook Software and Printing Services
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The qualification notice establishes a commissioned yearbook scope including printing, binding and school delivery; it supplies no awarded value and is not used as a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The qualification notice establishes a commissioned yearbook scope including printing, binding and school delivery; it supplies no awarded value and is not used as a sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The yearbook qualification notice restricts supply to prequalified vendors while permitting school bulk orders and individual ordering. It supports separating commissioning authority from ultimate payment, but discloses no fulfilled-order value.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The yearbook qualification notice restricts supply to prequalified vendors while permitting school bulk orders and individual ordering. It supports separating commissioning authority from ultimate payment, but discloses no fulfilled-order value.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The individual-ordering option establishes an attribution uncertainty relevant to the modeled household portion; it does not establish the assumed xx.xx% proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The individual-ordering option establishes an attribution uncertainty relevant to the modeled household portion; it does not establish the assumed xx.xx% proportion.

60. U.S. Census Bureau - 2022 Economic Census, Books Printing Questionnaire MC-32312
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official printing questionnaire supports the distinction between textbook and general-book production; recognition is not treated as a revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official printing questionnaire supports the distinction between textbook and general-book production; recognition is not treated as a revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Recognized coloring-book output supports treating recreational activity commissions separately from institutional textbooks according to purpose.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Recognized coloring-book output supports treating recreational activity commissions separately from institutional textbooks according to purpose.
61. Press Information Bureau - Department of School Education & Literacy, Year End Review 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The government review describes substantial NCERT physical-textbook activity, independently qualifying the physical-availability premise without establishing attributable supplier revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The government review describes substantial NCERT physical-textbook activity, independently qualifying the physical-availability premise without establishing attributable supplier revenue.
62. 2022 North American Industry Classification System - United States
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Dedicated book-publishing activity is separated from institutional primary activities and printing without publishing, constraining the Publishing Organizations numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Dedicated book-publishing activity is separated from institutional primary activities and printing without publishing, constraining the Publishing Organizations numerator.
63. U.S. Census Bureau - Books Printing: 2002
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Table xx.xx reports 2002 U.S. books-printing contract-work costs of USD xx.xx and shipments of USD xx.xx. Their ratio supplies a dated manufacturing-subcontract proxy, held constant within the forecast component.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Table xx.xx reports 2002 U.S. books-printing contract-work costs of USD xx.xx and shipments of USD xx.xx. Their ratio supplies a dated manufacturing-subcontract proxy, held constant within the forecast component.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical subcontract-cost input constrains the modeled transfer from publisher-origin commissioning to performing suppliers, without adding another gross contract value.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical subcontract-cost input constrains the modeled transfer from publisher-origin commissioning to performing suppliers, without adding another gross contract value.
64. Samfine Creation Holdings Group Limited - Form 20-F for the year ended December 31, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports USD xx.xx of 2025 book-product revenue and principally serves book traders that secure printing contracts and outsource production. This is a supplier-specific quantitative role check, not a Global allocation weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports USD xx.xx of 2025 book-product revenue and principally serves book traders that secure printing contracts and outsource production. This is a supplier-specific quantitative role check, not a Global allocation weight.

65. Ministry of Education - NCERT and Amazon Letter of Engagement, October 7, 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2024 announcement targeted xx.xx NCERT books for academic 2025-xx.xx. This is a planned institutional activity anchor; realization, eligible receipts and subsequent growth are modeled separately.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2024 announcement targeted xx.xx NCERT books for academic 2025-xx.xx. This is a planned institutional activity anchor; realization, eligible receipts and subsequent growth are modeled separately.
66. Bangladesh e-GP - NCTB/TEXTBOOK/2025, Package GD.102_SEC_8.031
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The government-funded procurement plan specifies xx.xx academic-2025 textbook copies and an estimated BDT xx.xx for printing, binding and supply. It constrains commercial order scale and local unit-budget plausibility, not realized annual revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The government-funded procurement plan specifies xx.xx academic-2025 textbook copies and an estimated BDT xx.xx for printing, binding and supply. It constrains commercial order scale and local unit-budget plausibility, not realized annual revenue.
67. Students suffer as NCTB fails to deliver books - The Daily Star, January 17, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 report corroborates the dated approximately xx.xx-copy textbook target and early-year delivery disruption. Target realization and supplier receipts remain modeled.
68. Secondary-level students: A new year without full set of books for many - The Daily Star, December 28, 2025
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 report corroborates the approximately xx.xx-copy academic-2026 target and continued delivery slippage. It informs a normalization assumption, not an observed 2032 share.
69. Business Books - Print Professional, Custom Corporate Books | Blurb
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The business-book offering includes organizational presentation and corporate-gift applications. It establishes an in-scope commissioning proposition, not the modeled global copy quantity or spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The business-book offering includes organizational presentation and corporate-gift applications. It establishes an in-scope commissioning proposition, not the modeled global copy quantity or spending.
70. How to Use Lulu to Support Your Nonprofit | Lulu
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The platform permits an organization or charity to receive creator proceeds. This supports excluding beneficiary-only arrangements from nonprofit commissioning; it does not measure nonprofit printing purchases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The platform permits an organization or charity to receive creator proceeds. This supports excluding beneficiary-only arrangements from nonprofit commissioning; it does not measure nonprofit printing purchases.

71. News Corp - Form 10-K for the fiscal year ended June 30, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Fiscal 2025 consumer backlist revenue of xx.xx% and digital revenue of xx.xx% anchor the assumed physical-backlist bridge and its forecast starting model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2025 consumer backlist revenue of xx.xx% and digital revenue of xx.xx% anchor the assumed physical-backlist bridge and its forecast starting model.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed backlist mix constrains recurring-title demand; its division into replenishment and POD remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed backlist mix constrains recurring-title demand; its division into replenishment and POD remains modeled.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The complementary frontlist population supports the launch-stock cohort after physical-format adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The complementary frontlist population supports the launch-stock cohort after physical-format adjustments.
72. News Corp - Form 10-K for the fiscal year ended June 30, 2026
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Fiscal 2026 backlist revenue of xx.xx% and digital revenue of xx.xx% lower the forecast physical-backlist proxy instead of assuming continued backlist expansion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The updated catalog mix changes the forecast population available for repeat inventory releases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The updated frontlist/backlist bridge changes the forecast planned-production weight; no 2032 share is disclosed.
73. How Do Lulu Direct Orders Work?
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Lulu describes printing after customer purchase and distinguishes production from subsequent shipment, supporting recipient-order attribution rather than technology-based classification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Lulu describes printing after customer purchase and distinguishes production from subsequent shipment, supporting recipient-order attribution rather than technology-based classification.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: No minimum order and one-copy ordering establish commercial feasibility, not the number or value of single-copy releases.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No minimum order and one-copy ordering establish commercial feasibility, not the number or value of single-copy releases.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: One POD offering accepts hundreds of copies, independently challenging a POD-equals-single-copy allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One POD offering accepts hundreds of copies, independently challenging a POD-equals-single-copy allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Orders can extend into thousands within the same offering; the production trigger therefore does not uniquely identify the working run band.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Orders can extend into thousands within the same offering; the production trigger therefore does not uniquely identify the working run band.

74. Supply Chain - Clays
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Clays describes differentiated backlist arrangements and stock visibility, supporting a separate inventory-replenishment cohort without establishing its numerical prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Clays describes differentiated backlist arrangements and stock visibility, supporting a separate inventory-replenishment cohort without establishing its numerical prevalence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: New-title consolidation and predictable annual backlist demand support retaining planned inventory commitments; short-run printing is explicitly not necessarily POD.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: New-title consolidation and predictable annual backlist demand support retaining planned inventory commitments; short-run printing is explicitly not necessarily POD.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Clays explicitly distinguishes short-run work from POD, supporting category separation rather than a technological proxy for value share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Clays explicitly distinguishes short-run work from POD, supporting category separation rather than a technological proxy for value share.
75. Smart Backlist Management: When to Hold and When to Print-on-Demand
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheridan describes low-volume titles moving to POD while other titles retain inventory, supporting differentiated release-policy assumptions rather than a uniform backlist-to-POD conversion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheridan describes low-volume titles moving to POD while other titles retain inventory, supporting differentiated release-policy assumptions rather than a uniform backlist-to-POD conversion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A disclosed customer example uses a stock threshold to trigger a 2,000-copy replenishment order. It establishes the commercial mechanism, not a market-wide share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A disclosed customer example uses a stock threshold to trigger a 2,000-copy replenishment order. It establishes the commercial mechanism, not a market-wide share.

76. Shortage of NCERT textbooks - Rajya Sabha Unstarred Question No. 1941, December 17, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advance enrollment-based forecasting, academic-session readiness and a fiscal 2025-xx.xx plan for approximately xx.xx textbooks support a substantial calendar-driven stock cohort. The target is not realized production.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advance enrollment-based forecasting, academic-session readiness and a fiscal 2025-xx.xx plan for approximately xx.xx textbooks support a substantial calendar-driven stock cohort. The target is not realized production.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phased supply and inventory monitoring support distinguishing ongoing availability obligations from individual-recipient POD, without quantifying replenishment's global prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phased supply and inventory monitoring support distinguishing ongoing availability obligations from individual-recipient POD, without quantifying replenishment's global prevalence.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official answer distinguishes printer empanelment from approximately xx.xx distribution vendors and describes planned fiscal 2025-xx.xx printing of approximately xx.xx textbooks. It supports commissioning-versus-distribution separation, not a realized monetary channel split.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official answer distinguishes printer empanelment from approximately xx.xx distribution vendors and describes planned fiscal 2025-xx.xx printing of approximately xx.xx textbooks. It supports commissioning-versus-distribution separation, not a realized monetary channel split.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phased textbook supply supports treating annual institutional quantities separately from production batches; it does not disclose the medium-run allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phased textbook supply supports treating annual institutional quantities separately from production batches; it does not disclose the medium-run allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 answer identifies a xx.xx-million-copy FY2025-xx.xx printing decision versus approximately xx.xx in recent years, a counterforce to assuming rapid long-run disappearance. Planned copies are not realized service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 answer identifies a xx.xx-million-copy FY2025-xx.xx printing decision versus approximately xx.xx in recent years, a counterforce to assuming rapid long-run disappearance. Planned copies are not realized service revenue.
77. Fulfillment Fee - Lulu Direct
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September 2026 schedule lists USD xx.xx per order regardless of item count, supporting an order-frequency effect on associated-service value. It does not verify the assumed historical or forecast multiplier.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September 2026 schedule lists USD xx.xx per order regardless of item count, supporting an order-frequency effect on associated-service value. It does not verify the assumed historical or forecast multiplier.

78. InnerWorkings, Inc. - Form 10-K for the year ended December 31, 2019
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2019 filing reports USD xx.xx gross profit on USD xx.xx revenue and describes purchased-product and direct-service costs. Historical reported margins constrain the modeled xx.xx% retained-fee ratio; they do not directly measure book-channel share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2019 filing reports USD xx.xx gross profit on USD xx.xx revenue and describes purchased-product and direct-service costs. Historical reported margins constrain the modeled xx.xx% retained-fee ratio; they do not directly measure book-channel share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The procurement-service margin comparison supports the fee-to-managed-spending bridge underlying the direct-channel complement. Carrying the normalized ratio into 2032 is explicitly a forecast assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The procurement-service margin comparison supports the fee-to-managed-spending bridge underlying the direct-channel complement. Carrying the normalized ratio into 2032 is explicitly a forecast assumption.
79. Simplified Purchase Agreement - U.S. Government Publishing Office
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SPA permits agency awards directly to certified vendors for purchases up to USD xx.xx while GPO pays vendors and invoices agencies. This supports classifying by the contracting relationship rather than the invoice payer, not a numerical global weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SPA permits agency awards directly to certified vendors for purchases up to USD xx.xx while GPO pays vendors and invoices agencies. This supports classifying by the contracting relationship rather than the invoice payer, not a numerical global weight.
80. Global Print Services | China, Europe, SE Asia, USA & India
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Imago describes sourcing suppliers and coordinating multiple manufacturers for book-related projects. Its cumulative customer relationships establish the offered intermediary role but are not annual revenue or allocation weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Imago describes sourcing suppliers and coordinating multiple manufacturers for book-related projects. Its cumulative customer relationships establish the offered intermediary role but are not annual revenue or allocation weights.
81. Lion Rock Group Limited - Annual Report 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own-business 2025 turnover changes of minus xx.xx% for APOL and minus xx.xx% for Regent challenge uniform intermediary growth; Regent's non-book focus limits its relevance. These observations support avoiding an additional adoption uplift.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own-business 2025 turnover changes of minus xx.xx% for APOL and minus xx.xx% for Regent challenge uniform intermediary growth; Regent's non-book focus limits its relevance. These observations support avoiding an additional adoption uplift.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Manufacturing turnover changes of minus xx.xx% at xx.xx Printing and plus xx.xx% at Papercraft demonstrate differing supplier trajectories rather than a simple common channel-growth pattern; these are not direct-contracting market shares.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Manufacturing turnover changes of minus xx.xx% at xx.xx Printing and plus xx.xx% at Papercraft demonstrate differing supplier trajectories rather than a simple common channel-growth pattern; these are not direct-contracting market shares.

82. Imprint Digital - Book Printing Prices UK

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The inspected schedule quotes GBP xx.xx at xx.xx copies for one paperback specification, supporting a relative-price input, not a historical global realization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The inspected schedule quotes GBP xx.xx at xx.xx copies for one paperback specification, supporting a relative-price input, not a historical global realization.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: GBP xx.xx at xx.xx copies supplies the medium-run reference index; format and delivery differences require separate treatment.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: GBP xx.xx at xx.xx copies supplies the medium-run reference index; format and delivery differences require separate treatment.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The quantity-price curve anchors the reference from which the long-run discount is assumed; no long-run price or future share is disclosed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The quantity-price curve anchors the reference from which the long-run discount is assumed; no long-run price or future share is disclosed.

83. Print Options

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: KDP distinguishes black-and-white from color records and locks ink type after publication. These platform-specific conditions qualify switching assumptions, not market weights. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: KDP distinguishes black-and-white from color records and locks ink type after publication. These platform-specific conditions qualify switching assumptions, not market weights. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The displayed platform menu does not establish designated spot-color availability or sales; a general color option is not used as evidence of spot-color demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The displayed platform menu does not establish designated spot-color availability or sales; a general color option is not used as evidence of spot-color demand. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Standard color is unavailable for hardcover, but premium color is available. Both process-color tiers belong within the modeled Full-Color Interiors category. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Standard color is unavailable for hardcover, but premium color is available. Both process-color tiers belong within the modeled Full-Color Interiors category. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834180))

84. Synthèse des chiffres de l'édition jeunesse 2024-2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The primary French publishing survey reports a xx.xx% decline in illustrated early-childhood volumes and a xx.xx% decline in youth-fiction volumes in 2024. These differing outcomes challenge an aggressive universal color-growth assumption. ([sne.fr](https://www.sne.fr/actu/synthese-des-chiffres-de-ledition-jeunesse-2024-2025/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The primary French publishing survey reports a xx.xx% decline in illustrated early-childhood volumes and a xx.xx% decline in youth-fiction volumes in 2024. These differing outcomes challenge an aggressive universal color-growth assumption. ([sne.fr](https://www.sne.fr/actu/synthese-des-chiffres-de-ledition-jeunesse-2024-2025/))

21. Competitive Landscape

21.1. Market Share Analysis, 2025

Competitive positioning in Book Printing & Packaging Services depends on the purchasing barrier a supplier addresses. ▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪ ▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪ Publishers should select them when the missing capability is the applicable ordering route and confirm rights, format eligibility, and the governing agreement before committing.

Amazon, Lulu, and Blurb allocate customer access and retail responsibilities differently. KDP provides an Amazon-linked publishing route, with separate format, territory, and Expanded Distribution conditions. ▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪

Local creator routes can provide alternatives where a particular international marketplace route is unsuitable. ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ Authors should establish the actual book configuration, customer-service allocation, and selling route before transferring a title or customer promise.

▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ A prospective competitor must address the school's or district's provider-selection relationship; access to a family ordering interface is not access to the production contract. The notice does not establish completed performance or a subsequent renewal.

Institutional publication eligibility must also remain separate from production selection. ▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪ ▪▪ ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪▪

[illegible] The defensible entry decision is to identify the actual commissioning party and qualification route before committing resources to an institutional account.

Sources & Evidence

1. Sell Books On Shopify | Lulu
   · Lulu advertises Shopify-connected book printing and shipment, white-label fulfillment, and merchant retention of customer data. ([lulu.com](https://www.lulu.com/sell/sell-on-your-site/shopify))
2. Global Connect | Ingram Content Group
   · Global Connect combines local production partners and bookseller relationships with agreement-based, title-rights-specific market participation. This supports an ordering-access comparison, not guaranteed retailer selection. ([resources.ingramcontent.com](https://resources.ingramcontent.com/publishers/global-connect))
3. Sell Your Books Online in the Blurb Bookstore | Blurb
   · Blurb advertises printing, shipment, fulfillment, and customer service for sales through its Bookstore. These services do not establish demand for an individual book.
   ([photos.blurb.com](https://photos.blurb.com/sell-through-blurb))
4. Paperback and Hardcover Distribution Rights
   · KDP's distribution-rights guidance distinguishes territorial rights, supported marketplaces, and paperback versus hardcover availability. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/G201834280))

5. Expanded Distribution

   · KDP Expanded Distribution applies separate eligibility conditions, excludes hardcovers, restricts previously submitted distribution ISBNs, and does not guarantee distributor acceptance or buyer orders. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/GQTT4W3T5AYK7L45))

6. Realizar inscrição de fornecedores de livros ao PNLD

   · PNLD registration is directed to companies holding relevant copyrights and includes registration of the legal organization and proposed works. This supports separating publication-program eligibility from printer selection. ([gov.br](https://www.gov.br/pt-br/servicos/realizar-inscricao-de-fornecedores-de-livros-ao-pnld))

7. Notice of Intent to Award - RFP 2024-098, RCPS Yearbook Printing Services

   · Roanoke County's July xx.xx 2024 notice of intent for yearbook-printing services names Jostens Inc., Strawbridge Studios, Inc., and Walsworth Publishing Company, Inc. It is not proof of completed performance or exclusivity. ([roanokecountyva.gov](https://www.roanokecountyva.gov/DocumentCenter/View/xx.xx))

8. Libri print-on-demand | Libri GmbH

   · Libri describes demand-driven production by BoD and wholesale delivery to booksellers in Germany, Austria, and Switzerland; publisher notification to the German Books in Print List remains separate. ([libri.de](https://www.libri.de/en/for-publishers/libri-print-on-demand/))

9. UICLAP - Publique seu livro grátis!

   · UICLAP advertises physical-book publication, selling, production, and distribution through print-on-demand, supporting a distinct Brazilian creator-facing route. (uiclap.com)

10. Boek drukken in kleine of grote oplage? | Pumbo

    · Pumbo advertises book printing in multiple binding formats and related distribution services; these establish an advertised Dutch interface rather than equivalence with another platform's channel relationships. ([pumbo.nl](https://www.pumbo.nl/boek-drukken))

11. Working With Us - Varsity.com

    · Varsity Yearbook identifies itself as a Varsity Spirit division within the Varsity Brands family and advertises school-facing classroom resources and local support. ([varsity.com](https://www.varsity.com/yearbook/working-with-us/))

12. 2025 IN NUMBERS - FINIDR.com

    · Evidence informing base-year company-share estimates: The company reports calendar-2025 revenue of CZK xx.xx and annual book output of xx.xx copies, replacing the earlier rounded turnover-growth bridge.

    · Evidence informing base-year company-share estimates: The same annual revenue and output provide a current-year blended book-service realization comparator; they do not establish Livonia's own unit receipts or activity.

13. Czech National Bank - Central Bank Exchange Rates Fixing, Monthly Cumulative Averages, 2025

    · Evidence informing base-year company-share estimates: The official January-December 2025 cumulative average is CZK xx.xx per USD, used to translate annual reported revenue.

    · Evidence informing base-year company-share estimates: The official annual exchange rate converts the current-year comparable revenue-per-book input used in Livonia's modeled realization.

14. Company - High-quality book production - Livonia Print

    · Evidence informing base-year company-share estimates: Livonia reports completed orders for xx.xx publishers from xx.xx countries in 2024, supplying the customer-cohort anchor and supporting international rather than solely Latvian customer attribution.

15. Novus Holdings Limited and its subsidiaries - Annual Financial Statements for the year ended 31 March 2025

    · Evidence informing base-year company-share estimates: The audited fiscal-year revenue note reports ZAR xx.xx external Print revenue and separately identifies educational publishing products, distribution, packaging, waste and other receipts.

    · Evidence informing base-year company-share estimates: The financial statement supplies an external-revenue starting point, not a directly observed calendar-2025 eligible book-services numerator.

16. Novus Holdings - Annual Financial Results Presentation for year ended 31 March 2025
    - Evidence informing base-year company-share estimates: The fiscal-2025 presentation states that Books comprise xx.xx% of Print revenue, separately from Retail and Print Media; this supplies the book-product allocation anchor.
17. Novus Holdings - Unaudited Consolidated Interim Financial Statements for the six months ended 30 September 2025
    - Evidence informing base-year company-share estimates: The interim revenue note reports April-September printing receipts of ZAR xx.xx in 2025 and ZAR xx.xx in 2024.
    - Evidence informing base-year company-share estimates: The statement identifies seasonal revenue recognition and increased DBE-contract recognition, qualifying simple annualization or a mixed-segment growth uplift.
18. Print Products & Services - Novus Holdings
    - Evidence informing base-year company-share estimates: The Books & Directories commercial category includes books alongside diaries, brochures, annual reports and telephone directories, supporting a narrower eligibility adjustment rather than treating every category receipt as eligible.
19. Federal Reserve Board - Foreign Exchange Rates, G.5A Annual, January 5, 2026
    - Evidence informing base-year company-share estimates: The official 2025 average exchange rate is ZAR xx.xx per USD, used to convert the scope-adjusted printing numerator.
    - Evidence informing base-year company-share estimates: The official 2025 annual average HKD xx.xx per USD converts the scope-adjusted printing numerator.
    - Evidence informing base-year company-share estimates: The official 2025 annual average INR xx.xx per USD converts the calendar-year eligible-receipt estimate.
    - Evidence informing base-year company-share estimates: The official 2025 annual average SEK xx.xx per USD converts audited annual consolidated net sales.
    - Evidence informing base-year company-share estimates: Supplies the 2025 annual-average conversion of ZAR xx.xx per USD used for the modeled Caxton numerator.
    - Evidence informing base-year company-share estimates: Supplies the 2025 annual-average conversion of JPY xx.xx per USD used for the modeled Kyodo numerator.
20. Lakeside Book Company - 2024 Sustainability Report
    - Evidence informing base-year company-share estimates: The 2024 company report states annual production above xx.xx books, xx.xx employees and xx.xx manufacturing and xx.xx fulfillment facilities; these constrain the volume-based model, not directly observed 2025 revenue.
    - Evidence informing base-year company-share estimates: The report includes Marquis and Phoenix Color within the operating representation, informing group-level deduplication.
    - Evidence informing base-year company-share estimates: The reported xx.xx-million-book and xx.xx-employee relationship supplies the explicitly approximate commercial activity-per-employee comparator used for Worzalla.
21. KnowledgeWorks Global Ltd. - Corporate repost of Sheridan annual production statement
    - Evidence informing base-year company-share estimates: A historical corporate post reports more than xx.xx books and publications across Sheridan; the mixed scope requires a modeled book-only adjustment and is not a 2025 observation.
22. CJK Group Acquires Worzalla; Adding to its Sheridan Family of Print Facilities
    - Evidence informing base-year company-share estimates: The September 2023 announcement records Worzalla's acquisition into Sheridan and approximately xx.xx employees, supporting the separately modeled acquired book-operation contribution.
23. Arlington County - Rider Contract 21-LIB-R-142, Library Materials, including Ingram MALiA proposal
    - Evidence informing base-year company-share estimates: The retained Ingram proposal states average Lightning Source production of three million books monthly, providing a dated annualized xx.xx-million-copy anchor rather than current realized revenue.

24. IngramSpark - All Markets Products and Pricing
    - Evidence informing base-year company-share estimates: The inspected schedule provides color-production price examples and publisher-direct handling charges used as commercial realization comparators; historical applicability and contract discounts remain assumptions.
25. A Virtual Tour of Our World-Class Printing Facilities - FriesenPress
    - Evidence informing base-year company-share estimates: The July 2024 company-group article reports approximately xx.xx books printed annually, constraining the working production quantity.
26. Friesens - Spring 2025 Newsletter, Book Division Update
    - Evidence informing base-year company-share estimates: The Spring 2025 Book Division update reports fourth-quarter sales growth of xx.xx% and projected first-quarter 2025 growth of xx.xx%; these are not interpreted as completed annual copy growth.
27. A new Group Chief Executive at CPI
    - Evidence informing base-year company-share estimates: The February xx.xx 2023 company announcement reports more than xx.xx books produced annually across xx.xx factories, supplying the historical group production anchor.
28. About - Clays
    - Evidence informing base-year company-share estimates: Clays reports approximately xx.xx books printed annually, supplying the principal book-specific quantity proxy within the Elcograf estimate.
29. Elcograf - News and transaction history
    - Evidence informing base-year company-share estimates: Elcograf's transaction history records its April xx.xx 2018 Clays acquisition, supporting inclusion of Clays within the captured group representation.
30. Elcograf - Products
    - Evidence informing base-year company-share estimates: The company distinguishes monochrome and illustrated books from periodicals and catalogs; its annual figure exceeding xx.xx copies is explicitly periodical activity, not observed book output.
31. Bertelsmann - Facts und Figures, Geschäftsbericht 2025
    - Evidence informing base-year company-share estimates: The fiscal-2025 corporate facts page reports annual production exceeding xx.xx books, constraining the gross book-service activity model before captive-production exclusions.
32. Bertelsmann - Annual Report 2025
    - Evidence informing base-year company-share estimates: The report discloses EUR xx.xx Marketing Services divisional revenue and EUR xx.xx consolidated customer revenue; their difference constrains the modeled internal-activity deduction, not book-only revenue.
33. Federal Reserve - Foreign Exchange Rates, G.5A, January 5, 2026
    - Evidence informing base-year company-share estimates: The official 2025 average exchange rate is USD xx.xx per EUR, used to convert the modeled book-related internal-activity exclusion.
    - Evidence informing base-year company-share estimates: The official 2025 average exchange rate is HKD xx.xx per USD, used to convert the scope-adjusted segment numerator.
34. Hung Hing Printing Group Limited - Annual Report 2025
    - Evidence informing base-year company-share estimates: The mandatory 2025 report discloses HKD xx.xx external Book and Package Printing revenue and separates other segments and internal sales.
    - Evidence informing base-year company-share estimates: Its paper-toy customer reference demonstrates that the mixed segment is broader than book services, requiring the explicit modeled eligibility adjustment.
35. Lion Rock Group Limited - Annual Report 2025
    - Evidence informing base-year company-share estimates: Audited calendar-2025 external printing income of HKD xx.xx supplies the financial starting point; publishing income is separately excluded.
    - Evidence informing base-year company-share estimates: The subsidiary note establishes Asia Pacific Offset within the consolidated perimeter; the report distinguishes manufacturing and print-services-management activities.
    - Evidence informing base-year company-share estimates: The final eligible numerator requires modeled book-scope and intermediary-pass-through adjustments.

36. Repro India Limited - Annual Report 2024-25
- Evidence informing base-year company-share estimates: The issuer's audited FY2024-xx.xx standalone note reports INR xx.xx lakh operating revenue, INR xx.xx lakh product/service revenue excluding scrap, and INR xx.xx lakh outsourcing charges.
- Evidence informing base-year company-share estimates: These financial lines support the modeled eligible-retention ratio; consolidated book resale is not adopted as the numerator.

37. Repro India Limited - Unaudited Financial Results for the Quarter and Nine Months Ended December 31, 2025
- Evidence informing base-year company-share estimates: The issuer-signed standalone results report INR xx.xx lakh operating revenue for April-December 2025 and INR xx.xx lakh for April-December 2024.
- Evidence informing base-year company-share estimates: Together with the audited fiscal-year observation, these inputs derive INR xx.xx lakh calendar-2025 operating revenue before eligibility adjustments.

38. Replika Press: Export Company of the Year - PrintWeek Awards 2024
- Evidence informing base-year company-share estimates: The September xx.xx 2024 company announcement reports annual production of xx.xx books.
- Evidence informing base-year company-share estimates: This is the historical activity anchor, not an observed 2025 revenue or market-share percentage.

39. Company Profile | Replika Press Pvt. Ltd.
- Evidence informing base-year company-share estimates: The commercial profile identifies monochrome and multicolor hardcover/softcover production and domestic/international publisher customers, supporting the modeled copy-receipt basket.
- Evidence informing base-year company-share estimates: Its separate packaging and commercial-print offerings are not automatically added to eligible book receipts.

40. ScandBook Holding AB - Årsredovisning 2025
- Evidence informing base-year company-share estimates: Audited 2025 consolidated net sales of SEK xx.xx supply the numerator before USD conversion.
- Evidence informing base-year company-share estimates: The annual report includes two months of the acquired Danish operations, preventing an unsupported full-year pro-forma addition.

41. Jim Mead - Walsworth
- Evidence informing base-year company-share estimates: The leadership account supplies the more-than-xx.xx-May-yearbook activity reference and an approximate historical mixed-enterprise scale comparison.
- Evidence informing base-year company-share estimates: These observations constrain, but do not directly establish, the modeled 2025 book-service cohorts.

42. Our History - Walsworth
- Evidence informing base-year company-share estimates: The company history distinguishes yearbook and book production from magazine and catalog expansion, supporting explicit nonbook exclusions in the cohort model.

43. Andy Billett - Walsworth
- Evidence informing base-year company-share estimates: The operating account identifies Documation's January xx.xx 2025 acquisition and integration as Walsworth - Eau Claire.
- Evidence informing base-year company-share estimates: It supports including the acquired POD perimeter for 2025, but does not observe the assumed one-million-copy cohort or its revenue.

44. e7 Group FY 2025 Results - Earnings Presentation
- Evidence informing base-year company-share estimates: Reports 2025 Printing and Education Solutions revenue of AED xx.xx and Logistics Solutions revenue of AED xx.xx, providing the business-line anchors for the modeled book-services numerator.

45. Printing Solutions and On-Demand Services in the UAE | e7 Printing
- Evidence informing base-year company-share estimates: Establishes textbooks, printing, binding, finishing and production-linked warehousing and shipment as commercial offerings; supports inclusion premises but does not disclose book-specific sales proportions.

46. Caxton and CTP Publishers and Printers Limited - Integrated Annual Report 2025
    - Evidence informing base-year company-share estimates: Reports fiscal-2025 Publishing, Printing and Distribution revenue of ZAR xx.xx and distinguishes book-and-magazine printing from newspaper, commercial-printing and unrelated packaging activities.
47. Caxton and CTP - Interim Results for the Six Months Ended 31 December 2025
    - Evidence informing base-year company-share estimates: States that expected education-market demand did not materialize in the six months ended December 2025 and describes a further curriculum delay, qualifying the assumed calendar bridge and excluding an automatic demand uplift.
48. Academy Press Plc - Audited Consolidated and Separate Financial Statements for the Year Ended 31 March 2025
    - Evidence informing base-year company-share estimates: Reports audited March-2025 group revenue of NGN xx.xx and Books revenue of NGN xx.xx; supplies the fiscal anchor and the product-classification comparison challenged by the interim filing.
49. Academy Press Plc - Third-Quarter Financial Statements Ended 31 December 2025
    - Evidence informing base-year company-share estimates: Reports nine-month December-2025 revenue of NGN xx.xx comparative revenue of NGN xx.xx and separately identified Books revenue of NGN xx.xx; supports the calendar bridge and contemporaneous product-mix estimate.
    - Evidence informing base-year company-share estimates: Separately identifies substantial Security revenue, exposing an unresolved classification difference from the audited annual Books category.
50. Kyodo Printing - Financial Results Presentation for the Fiscal Year Ended March 31, 2025
    - Evidence informing base-year company-share estimates: Reports Information Communication revenue of JPY xx.xx for the year ended March xx.xx 2025 and identifies books, periodicals, general commercial printing and electronic content within the broader reporting boundary.
51. Kyodo Printing - Financial Results Presentation for the Nine Months Ended December 31, 2025
    - Evidence informing base-year company-share estimates: Reports April-December 2025 Information Communication sales of JPY xx.xx versus JPY xx.xx in the comparative period, enabling the calendar-2025 segment calculation.
    - Evidence informing base-year company-share estimates: Distinguishes publishing-printing, content-related and general commercial businesses; those categories require a modeled physical-book attribution rather than inclusion of all segment receipts.
52. 2025 Convention Program - Jostens Advertisement
    - Evidence informing base-year company-share estimates: The Jostens advertisement states production above five million yearbooks annually; used as a company-reported activity floor, not an audited calendar-2025 shipment total.
53. High School & College Yearbooks | Jostens
    - Evidence informing base-year company-share estimates: Jostens states that it prints millions of yearbooks annually, independently confirming continuing commercial production while supplying no exact annual revenue or shipment count.
54. Visant Holding Corp. - Form 10-K for the Fiscal Year Ended January 3, 2015
    - Evidence informing base-year company-share estimates: Reports fiscal-2014 Memory Book sales of USD xx.xx, providing a historical company-specific scale comparison rather than a current revenue observation or growth rate.

21.2. Market Concentration Analysis, 2025

Competitive control is exercised through customer relationships, ordering interfaces, service coordination, and ownership, rather than through one undifferentiated pool of printing capability. ■■■■■■■■■■■ ■■■■■■ ■■■■■■ ■■■ ■■■■ ■■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■ ■■■ ■■■■■■ ■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■■ ■■■■ ■■■■■ ■■■■■■■■ ■■ ■■■■■■■■■ ■■■■ ■■■■■■■■ ■■■■ ■ ■■■■■ ■■■■■■ Purchasing decisions should therefore identify both the accountable operating company and the wider exposure

relevant to continuity; a parent-level portfolio does not establish a guarantee or uniform capability across facilities.

Several retained identities overlap economically. [redacted] The post-merger contracting representation requires confirmation before relying on a different name as a separate continuity safeguard.

Cooperation can also connect businesses that otherwise compete for direct accounts. CPI Print's Global Print Solutions page names Sheridan, BR Print, Publishers Graphics, Replika Press, and Markono as production partners. [redacted]

Specialists constrain the assumption that one integrated supplier must control the whole commission. [redacted] Their bargaining value depends on actual project acceptance and the buyer's ability to allocate complete-order accountability; the existence of a specialist does not prove immediate substitutability.

[redacted] Similarly, Matsis Matbaa Sistemleri and Matsaş must remain separate captured identities unless a business record establishes their relationship. For supplier diversification, the decisive information is common ownership, common production dependence, and the contracting entity's accepted obligations, rather than the number of brands appearing in a proposal.

Sources & Evidence

1. Global Print Services | China, Europe, SE Asia, USA & India
   - Imago advertises supplier access, local production representation, and coordination of book-related projects across manufacturers, supporting a management role distinct from owning every facility. ([imagogroup.com](https://imagogroup.com/global-print-services/))

2. Celebrating Opposites with Fedrigoni 365 - Bespoke Luxury Packaging
   · Showcase Creative's Fedrigoni publication account separately credits printing, its own slipcases, and binding by Diamond Print Services. This documents modular supplier roles, not an accepted new commission. ([showcasecreative.com](https://showcasecreative.com/blog/celebrating-opposites-with-fedrigoni-xx.xx))
3. Print Finishing for B2B Print | Bubu
   · Bubu's B2B offering expressly accepts customer-supplied printed work for bookbinding and finishing. This supports a separately commissioned specialist alternative. ([bubu.ch](https://www.bubu.ch/en/solutions/b2b-print/))
4. Bertelsmann Marketing Services
   · Bertelsmann identifies Marketing Services as wholly owned and includes German book-printing operations and the U.S. Book Printing Group within that division. ([bertelsmann.com](https://www.bertelsmann.com/en/divisions/bertelsmann-marketing-services/))
5. Privacy Policy - Clays
   · Clays' business privacy disclosure identifies its relationship with Elcograf S.p.A., supporting distinction between the operating supplier and its wider group rather than an inferred group guarantee. ([clays.co.uk](https://www.clays.co.uk/about/additional-information/privacy-policy/))
6. Lion Rock Group Limited - Retirement of Directors, Appointment of Executive Director and Change of Authorised Representative
   · Lion Rock's December xx.xx 2025 mandatory announcement expressly identifies Asia Pacific Offset Limited as a subsidiary, supporting an economic-overlap conclusion. ([lionrock.hk](https://www.lionrock.hk/pdf/investor/xx.xx/EW_Director_retirement_and_appointment_31.xx.xx.pdf))
7. About Prodigi | FAQ
   · Prodigi identifies Peecho as an acquired business and describes a hybrid fulfillment model combining internal production and external manufacturing partners. ([prodigi.com](https://www.prodigi.com/faq/about-prodigi/))
8. Notice of a merger of a company - Tallinna Raamatutrükikoja Osaühing
   · The official Estonian notice names Tallinna Raamatutrükikoja Osaühing, Aktsiaselts Printon, and Arnego OÜ as participants in a merger. It does not settle the proposed customer's current contracting representation. ([ametlikudteadaanded.ee](https://www.ametlikudteadaanded.ee/eng/teadaanne?amp%3Bcaptcha=&pdf=xx.xx&teated_id=xx.xx))
9. Global Print Solutions | Services | CPI Print UK
   · CPI UK describes coordinated international ordering and names Sheridan, BR Print, Publishers Graphics, Replika Press, and Markono among its production partners. Partnership does not establish ownership or exact legal-name equivalence. ([cpi-print.co.uk](https://www.cpi-print.co.uk/services/global-print-solutions/))
10. Over 100 years of book manufacturing experience
    · BindTech identifies its Grand Rapids hardcover-binding operation as formerly Dekker Bookbinding, establishing an operating-name relationship rather than independence of the legacy name. ([bindtechinc.com](https://www.bindtechinc.com/who-we-are/))
11. Kitaplar - Matsis Matbaa Sistemleri
    · A separately presented Matsis book portfolio is insufficient to establish shared entity status or backing with Matsaş. ([matsisprint.com](https://matsisprint.com/tr/kitaplar/))
12. Dergi - Kitap Baskıları - Matsaş
    · Matsaş' independently presented commercial identity does not resolve its relationship with Matsis. ([matsas.com.tr](https://www.matsas.com.tr/hizmetler/dergi-kitap-baskilari-ofset))

21.3. Recent Developments & Impact Analysis, 2025

[redacted]

■■■■■■ ■■■■■ ■■ ■■■■ ■■■■■ ■■■ ■■■■ ■■ ■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■ ■■■■ ■■■■ ■■■ ■■■■■■■■ ■■■■ ■■■■■■■■ ■■■■ ■■■■■ ■■■■■■■■ ■■■■■ ■■■■■■■■ ■■■■■■ ■ ■■■■ ■■■■ ■■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■ ■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■■■■ ■■■■ ■■■■■■■■ ■■ ■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■ ■■■■ ■■■■ ■■■ ■■■ ■■■■■ ■■■■■■ A printing-services framework agreement was entered into at completion. Publishers should confirm the operating seller and continuing service relationships, rather than interpret the transfer alone as a new loss of ownership diversification.

ScandBook's November xx.xx 2025 interim report separately confirms completion of the Nörhaven Book acquisition on October xx.xx 2025. Buyers considering both operations should recognize their common group ownership while checking the particular format, destination, and delivery undertaking. ■■■■■■■■■ ■■■■■■■■■■■ ■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■ ■ ■■■■■ ■■■■■■■■■■

Graphius Group completed its acquisition of NPN Printers in Breda on January xx.xx 2025, according to its January xx.xx announcement. ■■■ ■■■■■■■■■■ ■■■■■■ ■■ ■■ ■■■■■■■■■■ ■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■ ■■■ ■■■■■■ ■■■ ■■■■■ ■■ ■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■ ■■■ ■■■■■■■■ ■■■■ ■■■■■■■■■■■■ ■■■■■■■■ ■■■■■■ ■■■■■■■■■■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■ ■■■■■■■■ ■■■■ ■■■■■■■ ■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■■■■■ A group proposal may simplify coordination while leaving the buyer exposed to a common owner across apparently different brands.

■■■■■■■■■ ■■■■ ■■■ ■■■■ ■■■■■■■■■■■■ ■■■■■■■ ■■■■ ■■■■■■■■ ■■■■■■■■ ■■■ ■■ ■■■ ■■■■■■■ ■■■■■ ■■■■■■■■■ ■■■ ■■■■ ■■■■■■■■ ■■■■■■■■■■■■■ ■■■ ■■■■■ ■■■■■■■■■■ ■■■■■ ■■■■■■■■■ ■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■ ■■■■■ ■ ■■■■■■■ ■■■■■■■■■ ■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■■■ ■■■■■■■ ■■■■■■■■■■■■■■ Music publishers gain a group-connected specialist route to evaluate, not evidence that every District Photo operation can deliver the same score-and-parts commission. The complete legal ownership chain, parent recourse, and project-specific undertaking remain unresolved; deadline-sensitive work should continue to rely on the named seller's accepted obligations.

Production-transfer announcements can change the expected receiving facility without demonstrating disappearance of a service. HF Group, LLC's March xx.xx 2026 notice announced the transfer of North Carolina library-binding work to Indiana following division sales. ■■■■ ■■■■■■■ ■■■■■■■ ■■ ■■■■ ■■■■■■■■■■■ ■■■■■■■■■ ■■■■■■ ■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■ ■■■■■■ ■■■■■■■■ ■■■ ■■■■■ ■■■■■ ■■■ ■■■■■■ ■■■■■■■■■■■■■■ ■■■■■■■■ ■■■■■■ ■■■■ ■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■■ ■■■■■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■■■ ■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■

Sources & Evidence

1. Halstan - Music | Print | Publishing

   · Halstan's published service description advertises sheet-music printing, orchestral works, scores with parts, hire-library material, and binding. These are advertised specialist services, not evidence of identical capability throughout the wider group. ([halstan.co.uk](https://www.halstan.co.uk/))

2. Halstan Becomes Part of the Harrier Group
   · Halstan's June xx.xx 2026 announcement states that Harrier acquired its UK and German print interests and announces continuity of its team, customer relationships, and operations. It names the District Photo Harrier Group without specifying the complete legal ownership chain or parent guarantees. ([halstan.co.uk](https://www.halstan.co.uk/halstan-becomes-part-of-the-harrier-group/))
3. High-quality printing from Die Keure continues at INNI group
   · INNI group's October xx.xx 2025 announcement describes taking over production and personnel from sister company Die Keure after closure of its Bruges printing house. The announcement does not establish every former customer's continuing configuration or contractual commitment. ([innigroup.com](https://www.innigroup.com/en/blog/high-quality-printing-die-keure-inni-group))
4. Lion Rock and Left Field - Joint Announcement of the OPUS Acquisition and Disposal, June 25, 2026
   · The June xx.xx 2026 joint announcement establishes that the OPUS target was already held through Left Field, itself a Lion Rock subsidiary, before the proposed transfer. This was not an acquisition from an independently controlled supplier. ([leftfieldprinting.com](https://www.leftfieldprinting.com/pdf/investor/xx.xx/e1127_%xx.xx%xx.xx.pdf))
5. Joint Announcement - Completion of the OPUS Transaction
   · The completion announcement confirms that the transaction completed September xx.xx 2026, OPUS Book Printing Group Holdings Pty Ltd became wholly owned by Lion Rock, and a printing-services framework agreement was entered into at completion. ([lionrock.hk](https://www.lionrock.hk/pdf/investor/xx.xx/xx.xx.pdf))
6. ScandBook Holding AB - Delårsrapport tredje kvartalet 2025
   · ScandBook's November xx.xx 2025 interim report states that the Nörhaven Book transaction completed in Viborg on October xx.xx 2025. ([mb.cision.com](https://mb.cision.com/Main/xx.xx/xx.xx/xx.xx.pdf))
7. Acquisition NPN Printers | Graphius
   · Graphius' January xx.xx 2025 announcement confirms completion of its NPN Printers acquisition in Breda on January xx.xx 2025. ([graphius.com](https://www.graphius.com/en/news/acquisition-npn-printers-xx.xx))
8. North Carolina Library Bindery Services Move to Indiana | HF Group
   · HF Group's March xx.xx 2026 customer notice announces that library-binding work will transfer from Greensboro to North Manchester, Indiana, following division sales. It does not establish completion of each customer's replacement arrangement. ([hfgroup.com](https://hfgroup.com/2026/xx.xx/xx.xx/north-carolina-library-bindery-services-move-to-indiana/))

21.4. Product Portfolio Analysis, 2025

Integrated production, specialist subcontracting, and production-linked selling address different purchasing requirements. Lakeside Book Company explicitly combines book manufacture with packaging, assembly, and kitting. ■■■ ■■■■■■ ■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■ ■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■ ■■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■■■■■ ■■■■■■■ ■■■■ ■■■■■ ■■■■■■■■■■ ■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■ ■■■■■ ■■■■■■■■■■ ■■ ■■■ ■ ■■■■■■■■■■ ■■■■ ■■■■■ ■■■■■■■ ■■■■ ■■ ■■■■■■■■ ■■■■■■■■ ■■ ■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■ ■■■■■■ ■■■■■■■ ■■ ■■■■■■■■ ■■■■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■ ■■■■ ■■■■■■■ ■■■■■■■■■■ ■■■■■■■ ■■■■■■

Preparation ownership separates otherwise similar manufacturing propositions. Friesens Corporation directs completed-file history projects to its Trade Book Division and projects needing editing, design, or distribution assistance to FriesenPress. ■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■■■■■ ■■■■■■■■ ■■■■ ■■■■■■■■ ■■■■■■ ■■■■■■■■■■ ■■■■■■ ■ ■■■■■■■ ■■■■■■■ ■■■ ■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■ ■■■ ■■■ ■■■■ ■■■■■■■■■■ ■ ■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■ ■■■■■■ ■■ ■■■■■■■■■■■■ ■■ ■■■■■■■■■■■ ■■■■■■■

[illegible] Their overlap gives publishers alternatives to investigate for multicomponent projects; it does not establish interchangeable component coverage, identical compliance responsibility, or acceptance of the same complete package. Artron Art Group instead provides an art-publication and cultural-project comparison, where commissioned production differs from a creator-facing bookstore interface.

[illegible] RR Donnelley's inspected Asia portfolio includes publishing production and fulfillment. A publisher should compare the named service providers, destination commitments, and handoff accountability; these offerings do not establish the same distribution relationship or one interchangeable regional contract.

[illegible] Publishers with an established distributor can preserve that relationship while comparing the required production and delivery undertaking. A supplier's broader commercial-printing or packaging activity should not automatically be included in the book commission.

Baltic alternatives illustrate why export support and local manufacturing must be distinguished. Jelgavas tipogrāfija advertises book production and European delivery. [illegible]

▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪

▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪ ▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ Otavan Kirjapaino Oy offers named hardcover and softcover product families; PBtisk a.s. addresses publishers, galleries, museums, and institutions; gugler* presents nonfiction, children's, and art-book services. A buyer can preserve sourcing choice among these participants, but should compare the complete commissioned publication and accepted service obligations rather than infer equivalence from a shared book-printing label.

Latin American production options should be evaluated independently of international platform availability. Grupo Espinosa presents publishing-industry printing and binding in Mexico; Litoprocess offers art and school books; Milian Editores and CC Impresores advertise book services for authors and publishing customers. ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪

▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪ ▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪S. presents a Dominican and Caribbean-oriented printing route. Buyers should identify which party accepts the delivery destination and complete-order scope before substituting these routes for an established production or distribution relationship.

Middle Eastern alternatives also separate manufacturing breadth from integrated delivery. ▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ The commission must identify the responsible seller, book-associated packaging, warehouse release, and delivery acceptance where those services are required.

Application fit provides another distinction within regional production. [redacted] For Matsis Matbaa Sistemleri and Matsaş, separately advertised book services do not establish a shared entity or common contractual backing.

Asian and Australasian portfolios broaden the direct-production comparison. Dai Nippon Printing Co., Ltd. is represented by its publishing-products business, while Kyodo Printing Co., Ltd. identifies publication-printing services. [redacted]

[redacted] Printing Ventures advertises book printing and binding in Pakistan, and Printcare Agile lists books among its Sri Lankan services. The useful comparison is between the publication requirement, production relationship, and accepted destination undertaking, not the supplier's country label alone.

African portfolios demonstrate both domestic manufacturing and author-facing service routes. [redacted] These differences justify local alternatives, but do not establish equivalent institutional eligibility, packaging coverage, or delivery performance.

Sources & Evidence

1. Paper Products | Leo Paper Group
   · Leo's portfolio lists children's and pop-up books, activity products, gift books, boxes, and packaging. Portfolio adjacency does not establish every complete bundle. ([leo.com.hk](https://www.leo.com.hk/products-services/products.html))
2. Preserve Your History | Friesens
   · Friesens directs completed-file history projects to its Trade Book Division and preparation-dependent work to FriesenPress, supporting comparison by preparation ownership. ([friesens.com](https://www.friesens.com/history-books/))
3. Book Embellishments, Edge Printing & Kitting | Lakeside Book Company
   · Lakeside advertises packaging, kitting, assembly, and design through one vendor alongside book-associated special-edition services. This is an advertised integrated proposition, not project acceptance. ([lakesidebookcompany.com](https://lakesidebookcompany.com/embellishments-packaging-kitting/))
4. Businesses | Markono - Asia's Trusted Print, Fulfilment & Supply Chain Partner
   · Markono assigns printing to Markono Print Media, warehousing and fulfillment to Markono Logistics, and Asian book distribution to Booksmart. The group description does not establish one legal undertaking. ([markono.com](https://www.markono.com/our-businesses))
5. Printing Solutions and On-Demand Services in the UAE | e7 Printing
   · e7 Printing advertises textbooks, printing, binding, finishing, warehousing, packing, and shipment to clients or end users from its UAE service base. ([e7group.ae](https://e7group.ae/business-units/e7printing))
6. Book Printing | CTP Printers
   · CTP Printers advertises educational, general-interest, religious, hardcover, softcover, and associated binding services. This does not establish institutional contract access. ([ctpprinters.co.za](https://www.ctpprinters.co.za/what-we-do/))
7. Sheridan - CJK Group
   · CJK's Sheridan portfolio distinguishes location-specific academic, trade, children's, mechanical-binding, kitting, and fulfillment offerings. Group breadth does not establish identical services at every location. ([cjkgroup.com](https://www.cjkgroup.com/our-companies/sheridan/))
8. Core Print Solutions: Full-service book printer for book publishers
   · Thomson Reuters' Core Print Solutions advertises external book-printing services including binding, kitting, warehousing, distribution, and management. (coreprintsolutions.thomsonreuters.com)
9. Custom Book Printing Services | BookBaby
   · BookBaby advertises hardcover and softcover printing and connects the offering with optional editing, design, and distribution services. ([bookbaby.com](https://www.bookbaby.com/book-printing))
10. Books - Hung Hing Printing Group Limited
    · Hung Hing advertises children's and conventional trade books, book-plus components, and associated sourcing support. Its own performance and leadership claims are not adopted. ([hunghingprinting.com](https://www.hunghingprinting.com/books))
11. 中華商務聯合印刷有限公司 - 書刊與商業印刷
    · C&C advertises conventional and children's books, specialty publication work, and book-plus component sourcing through its printing network. This does not resolve every operating entity or proposed bundle. ([candcprinting.com](https://www.candcprinting.com/tchi/index/alone/ids/xx.xx))
12. Novelty Books & Board Games | Starlite Holdings Limited
    · Starlite advertises children's and novelty books and book kits, supporting specialty-package comparison without establishing identical configurations or compliance allocation. ([hkstarlite.com](https://www.hkstarlite.com/en/print_and_pack/solutions/novelty_books_and_board_games/))
13. Artron - Artron
    · Artron presents art printing and book-related cultural and photography projects, supporting an application-specific commissioned-production comparison. ([artronprint.com](https://www.artronprint.com/))

14. Overview | Repro India
    - Repro advertises offset and on-demand book production, physical distribution, and publisher-facing services. Its broad geographic language does not establish a particular destination contract. ([reproindialtd.com](https://www.reproindialtd.com/about-repro/overview))
15. Printing - Vivar Printing
    - Vivar advertises book-related printing together with kitting, fulfillment, warehousing, and distribution. The published description is not an accepted deadline or complete-order guarantee. ([vivar.com.my](https://vivar.com.my/printing/))
16. MGPS | Manipal Global Print Solutions - Printing Services
    - Manipal Global Print Solutions identifies its Manipal Technologies relationship and advertises book printing, binding, warehousing, and distribution. (manipalglobalprintsolutions.com)
17. RRD Asia: Printing Solutions and Consulting Services
    - RR Donnelley's Asia services portfolio includes publishing production and supply-chain services for cultural, educational, and other publishing customers. ([rrd.com](https://www.rrd.com/global/asia/services))
18. Home - Rotolito
    - Rotolito advertises printing and binding of paperback and hardcover books for Italian and international publishers. Broader commercial-printing activities are not treated as part of every book commission. ([rotolito.com](https://www.rotolito.com/en/))
19. Produzione e Stampa Libri, Editoria Scolastica e per Bambini | GV Group
    - GV Group's Grafica Veneta page advertises book production including educational and children's publishing work. ([gv-group.it](https://gv-group.it/grafica-veneta/))
20. À PROPOS | Imprimerie Pollina
    - Pollina describes its French book-printing and finishing business, supporting direct-production comparison rather than a retail-access claim. ([pollina-imp.fr](https://www.pollina-imp.fr/a-propos))
21. nouvelle imprimerie laballery
    - Nouvelle Imprimerie Laballery advertises book-production services and describes complementary operating relationships. (laballery.fr)

    - Gómez Aparicio advertises book production including hardcover and digital offerings, supporting a direct-manufacturing comparison. ([gomezaparicio.es](https://www.gomezaparicio.es/en/))
23. Regiset - Comunicação e Artes Gráficas
    - Regiset presents books and art catalogs among its Portuguese printing and finishing services. (regiset.com)
24. Book printing and binding - Jelgavas tipogrāfija
    - Jelgavas tipogrāfija advertises book printing, binding, post-processing, and delivery in Latvia and elsewhere in Europe. ([jt.lv](https://jt.lv/en/))
25. PNB Print | Contact Printing House for Books and Magazines
    - PNB Print identifies its Latvian business and sales contacts for several European markets; these contacts do not establish manufacturing in those sales countries. ([pnbprint.eu](https://www.pnbprint.eu/contacts/))
26. Book printing house | Dardedze Holografija
    - Dardedze advertises book production and presents publisher customer accounts, supporting a portfolio relationship rather than independently verified performance. ([dardedze.lv](https://dardedze.lv/book-printing-house/))
27. Print Best | Book Printing in Estonia
    - Print Best OÜ advertises book manufacture with printing, binding, and logistics services. (printbest.eu)
28. Contacts - BALTOprint
    - BALTOprint publishes Lithuanian operating contacts and market-facing staff for several European markets; sales representation is not evidence of local manufacture in each market. ([baltoprint.com](https://baltoprint.com/en/contacts/))

29. Knygos | Kopa
    - KOPA's commercial book page presents hardcover, softcover, and other books with associated cases or accessories for book projects. ([kopa.lt](https://kopa.lt/gaminiai/knygos))
30. Home - Wilco
    - Wilco presents book manufacture with related finishing, inventory-management, and dispatch services. (wilco.nl)
31. Narayana Press
    - Narayana Press describes preparation, printing, and delivery of bound books. Its advertised breadth does not establish a specific new commission. ([narayana.dk](https://www.narayana.dk/sider/narayana-press.php?lang=us))
32. Bücher Drucken Lassen | Himmer
    - Himmer advertises hardcover and paperback book printing for authors, publishers, and businesses. ([himmer.de](https://www.himmer.de/buecher/))
33. Booksfactory - Booksfactory.eu
    - Books Factory advertises book printing, binding, and finishing through its commercial ordering site. (booksfactory.eu)
34. Totem Digital Printing House
    - Totem advertises digital book printing for short and medium runs, supporting a production-service comparison rather than an inferred distribution channel. ([totem.com.pl](https://totem.com.pl/en/))
35. druk dziełowy - Kompap.pl
    - Kompap maintains a dedicated commercial book and publication-printing page; the page does not settle its complete current consolidation perimeter. ([kompap.pl](https://kompap.pl/druk-dzielowy/))
36. Offer - Dimograf
    - Dimograf's offering includes hardcover, paperback, integral-cover, and coil-related binding choices. No operating quantities or performance superiority are adopted. ([dimograf.com](https://www.dimograf.com/en/oferta))
37. POZKAL - Company
    - Pozkal advertises commercial printing and binding, preparation services, and hardcover, softcover, and textbook products. ([pozkal.pl](https://pozkal.pl/en/company))
38. Tuotteet | Otavan Kirjapaino
    - Otavan Kirjapaino identifies named hardcover and softcover book product families and its production contact. ([otavankirjapaino.fi](https://otavankirjapaino.fi/tuotteet/))
39. Printing company - PBtisk a.s.
    - PBtisk advertises complete book production for publishers, galleries, museums, and institutions. Promotional competitive-position claims are not adopted. ([pbtisk.cz](https://www.pbtisk.cz/en/printing-company/))
40. Ausgezeichnete Bücher, gedruckt in Melk - gugler*
    - gugler* advertises nonfiction, children's, and art-book services and related consultation; environmental superiority and technical performance claims are not adopted. ([gugler.at](https://www.gugler.at/drucksinn/leistungen/buecher))
41. Grupo Espinosa
    - Grupo Espinosa describes Mexican publishing-industry printing and binding through its group operations. ([grupoespinosa.com](https://www.grupoespinosa.com/en/home/))
42. Productos | Litoprocess
    - Litoprocess lists art and school books in its commercial portfolio; unrelated packaging is not assumed part of the book commission. ([litoprocess.com](https://www.litoprocess.com/productos/))
43. Impresión de Libros en México | Milian Editores
    - Milian Editores advertises Mexican book printing for authors, publishers, institutions, and brands. (miliandiseno.com.mx)

44. CC Impresores
    - CC Impresores advertises book printing for authors and publishers through digital and offset service routes. (imprentamx.com)
45. A Ipsis - Ipsis
    - Ipsis describes editorial and art-book production, supporting an application-specific Brazilian supplier comparison. ([ipsis.com.br](https://ipsis.com.br/aipsis/))
46. Indústria Gráfica Santa Marta | Página Inicial
    - Indústria Gráfica Santa Marta's editorial portfolio includes art books, educational material, and reading books. ([graficasantamarta.com.br](https://www.graficasantamarta.com.br/))
47. Inicio | docuprint-es
    - Docuprint advertises physical book printing through Livriz, supporting an Argentine book-service interface without resolving all production and distribution entities. ([docuprint.com.ar](https://www.docuprint.com.ar/))
48. Industrias - GRÁFICA MOSCA
    - Gráfica Mosca lists books in its commercial printing portfolio and describes regional customer work. ([graficamosca.com](https://graficamosca.com/industrias/?goto=educacion))
49. AImpresiones - Impresiones digital
    - A Impresores advertises hardcover and softcover book printing from Santiago, Chile. ([aimpresores.cl](https://www.aimpresores.cl/lp/))
50. Ograma - Galería
    - Ograma's book gallery documents publication projects; those examples do not establish acceptance of a new commission. ([ograma.cl](https://www.ograma.cl/galeria/libros2/))
51. Soluciones de Comunicación - Carvajal S.A.
    - Carvajal's communication-solutions portfolio includes digital editorial printing of books and educational publications. ([carvajal.com](https://www.carvajal.com/comunicacion/))
52. Editorial Cimanews - Cimagraf
    - Cimagraf's editorial offering includes educational and other physical books, hardcover work, and on-demand production. ([cimagraf.com.pe](https://cimagraf.com.pe/editorial-cimanews/))
53. Imprenta Mariscal - Productos y Servicios
    - Imprenta Mariscal's commercial portfolio lists art books and school texts separately from other printing and packaging activities. ([imprentamariscal.com](https://www.imprentamariscal.com/productos.html))
54. Inicio - Imprenta y Litografía LIL
    - LIL advertises educational and children's-book production and regional logistics, without establishing a particular new destination undertaking. ([lilcr.com](https://www.lilcr.com/))
55. Masterlitho - Imprenta de calidad certificada
    - Masterlitho advertises book printing through offset and digital services. (masterlithocr.com)
56. Editora Corripio, S.A.S
    - Editora Corripio advertises book printing and describes its Dominican and Caribbean-oriented business presence. (editoracorripio.com.do)
57. Emirates Printing Press - Commercial and Folding Carton Brochure
    - Emirates Printing Press' company brochure includes illustrated-book work and hardcover and softcover binding; it does not establish identical services at similarly named businesses. ([eppdubai.com](https://www.eppdubai.com/pdf/Commercial-folding-carton-broucher.pdf))
58. Oriental Press - Official Website
    - Oriental Press presents colored-book manufacturing within its regional group business. (orientalpress.com)
59. Obeikan Commercial Printing - Obeikan Investment Group
    - Obeikan Investment Group's commercial-printing page expressly advertises book production. ([obeikan.com.sa](https://www.obeikan.com.sa/obeikan-commercial-printing/))

60. Educational Book Printing Services | Mazoon Printing
    - Mazoon maintains an educational-book printing offer; this is not evidence of a complete regional delivery commitment. ([mazoonprinting.com](https://www.mazoonprinting.com/design-agency/educational-books.html))
61. Commercial Printing Press in Kuwait
    - Costa Printing Press advertises book printing and binding within its Kuwaiti commercial-printing offering. ([costaprintingpress.com](https://www.costaprintingpress.com/))
62. Promat - Printing Product Groups
    - Promat's commercial product catalog includes fiction, educational, research, children's, cultural, and hardcover books. ([promat.com.tr](https://www.promat.com.tr/en/printing-product-groups.html))
63. Binding & Finishing - Mega Basım
    - Mega Basım advertises bookbinding and finishing, including hardcover and paperback formats. ([mega.com.tr](https://www.mega.com.tr/en/binding-finishing/))
64. Ofset Yapımevi
    - Ofset Yapımevi presents art, photography, and architecture-book printing and binding. (ofset.com)
65. About Jangal - Jangle Printing House
    - Jangal describes external printing and binding work for domestic and foreign publishers and institutions, rather than solely affiliated publishing. ([jangal.press](https://jangal.press/en/about-us/))
66. □□□□□□□ □□□□ | □□□□□□□ □□□□□
    - Printiv's company profile presents book and album production and an in-house bindery. ([printiv.co.il](https://printiv.co.il/about-us/))
67. Kitaplar - Matsis Matbaa Sistemleri
    - Matsis maintains a commercial book catalog; it does not establish a relationship with Matsaş. ([matsisprint.com](https://matsisprint.com/tr/kitaplar/))
68. Dergi - Kitap Baskıları - Matsaş
    - Matsaş separately advertises book printing and identifies its Istanbul operation; the page does not establish common ownership with Matsis. ([matsas.com.tr](https://www.matsas.com.tr/hizmetler/dergi-kitap-baskilari-ofset))
69. 事業紹介 | 株式会社 DNP 出版プロダクツ
    - DNP's publishing-products business advertises publication printing and demand-oriented physical-book production. This does not resolve all external versus affiliated activity. ([dnp.co.jp](https://www.dnp.co.jp/group/dnp-pub-products/business/))
70. Corporate Profile | TOMOWEL KYODO PRINTING CO., LTD.
    - Kyodo's corporate profile identifies a publication-printing business serving books and magazines. ([kyodoprinting.com](https://www.kyodoprinting.com/company-profile/org.html))
71. Nutech Print Services
    - Nutech advertises paperback and hardcover printing and binding across trade, educational, children's, reference, and religious book categories. (nutechprint.com)
72. TARA - Tara TPS
    - TARA's group page identifies Tara TPS and lists books, textbooks, and educational material among its commercial printing offerings. ([tara.co.kr](https://www.tara.co.kr/mobile_eng/?page=group%7Ctps))
73. Sirivatana - Book Production Services
    - Sirivatana's book-service page advertises commercial book production; historical geographic claims are not used as current service proof. ([sirivatana.co.th](https://www.sirivatana.co.th/siribook))
74. Book Printing Guide: Perfect, Saddle & Hardcover Binding
    - HK Printing Group's official book-service article presents book production for authors, publishers, institutions, and other buyers; full legal-name equivalence remains outside the established claim. ([hkdc.com.tw](https://www.hkdc.com.tw/webls-en-us/msg/msg42.html))

75. Home - CTY CP In Trần Phú
    · In Trần Phú identifies its Vietnamese operating identity and advertises books and bound publications. (intranphu.vn)
76. Custom Book Printing Services | QinPrinting
    · QinPrinting maintains a dedicated custom book-printing service offer. This establishes an advertised service rather than acceptance of every binding or destination. ([qinprinting.com](https://www.qinprinting.com/book-printing/))
77. 江苏凤凰新华印务集团 - Index
    · 江苏凤凰新华印务集团有限公司 lists textbook, book, overseas-book, and digital-print offerings under its Chinese operating identity. External and affiliated activity are not separately established. ([phprinting.com](https://www.phprinting.com/))
78. 創栄図書印刷株式会社
    · 創栄図書印刷株式会社 advertises book production focused on textbooks and reference books; the captured Romanized identity is retained without inventing an official English legal name. ([soei-pb.co.jp](https://www.soei-pb.co.jp/))
79. Commercial Printing & Print Management NZ | Blue Star
    · Blue Star includes books within its New Zealand commercial-printing offering. ([bluestar.co.nz](https://www.bluestar.co.nz/print))
80. The House Printers Corporation - About
    · The House Printers Corporation advertises coffee-table books within its Philippine commercial-printing portfolio. ([houseprinters.com](https://www.houseprinters.com/about.php))
81. Southern Voices Printing Press
    · Southern Voices advertises external book-printing work for institutions, nonprofits, and authors, distinguishing that offer from publishing alone. ([southernvoicespublishing.com](https://www.southernvoicespublishing.com/))
82. Pacific Island Book Printing Services | Book Printing NZ
    · Book Printing NZ advertises an Auckland-based service for Pacific island clients; the destination offer does not establish local manufacture on those islands. ([bookprinting.co.nz](https://www.bookprinting.co.nz/pacific-island-book-printing/))
83. Printing Ventures | Book Printing | Book Publishing
    · Printing Ventures advertises book printing, binding, and on-demand services from its Pakistan business. ([printingventures.com.pk](https://www.printingventures.com.pk/))
84. agile services - Printcare Agile
    · Printcare Agile lists books among its printing services and identifies its Sri Lankan service address. ([printcareagile.com](https://printcareagile.com/agile-services/))
85. About Us | Print On Demand
    · Print On Demand describes book printing, binding, and distribution services for authors and publishers in its South African business. ([printondemand.co.za](https://printondemand.co.za/about-us/))
86. Print-on-demand - InsideData
    · InsideData advertises on-demand services for educational books, published books, and children's readers. ([insidedata.co.za](https://insidedata.co.za/print/print-on-demand/))
87. Tarocube | Print on Demand Solutions Durban | South Africa
    · Tarocube advertises book printing, on-demand production, fulfillment, and national delivery from its South African business. ([tarocube.co.za](https://tarocube.co.za/home))
88. IMPRIMERIE NAJAH EL JADIDA
    · Imprimerie Najah El Jadida advertises school, literary, scientific, and author books. (imprimerienajah.com)

89. livres | Simpact
    · Simpact's official reference portfolio presents named book projects; these references do not establish new-order acceptance. ([simpact.tn](https://www.simpact.tn/fr/references/?filtersupp=xx.xx&id_article=xx.xx))
90. Press review and online kiosk - cameroon | SOPECAM
    · SOPECAM describes commissioned printing and books alongside its publishing activities, supporting separation of external production and publishing roles. ([boutique.sopecam.cm](https://www.boutique.sopecam.cm/quisommesnous/en/page-qui-sommes-nous))
91. Comprehensive Printing Solutions | Printing Press in Kenya
    · English Press advertises trade, reference, educational, children's, art, and religious-book printing. ([englishpress.com](https://englishpress.com/products.html))
92. English Press | Regional Clients
    · English Press describes regional textbook and other printing supply; this is not evidence of manufacture in every destination or a new delivery commitment. ([englishpress.com](https://englishpress.com/regional.html))
93. Customised Books - Picfare
    · Picfare advertises customized books and binding choices through its commercial service. ([picfare.com](https://picfare.com/Service_category/customised-books/))
94. Our Services - Hieroglyphics
    · Hieroglyphics advertises hardcover and softcover book printing and binding from its Namibian business. ([hieroglyphics.com.na](https://www.hieroglyphics.com.na/services.html))
95. TPS Printing - Printing Factory
    · TPS Printing advertises softcover and hardcover book printing in Mauritius. (tpsprinting.mu)

21.5. Benchmarking Analysis, 2025

[illegible] A merchant needing a branded package from stocked editions faces a different trade-off from a publisher seeking to postpone production until an order. The appropriate benchmark is the accepted replenishment, dispatch, and customer-service undertaking, not the supplier's use of an on-demand label.

Published commercial conditions can be more decisive than portfolio breadth. [illegible] A common platform can simplify ordering while narrowing the combinations or reuse rights available.

For North American publishing accounts, manufacturing scope and preparation support create more defensible peer groups than general quality claims. [illegible]

[illegible] Packaging, fulfillment, and destination acceptance must be established separately where required.

[illegible] For each route, the buyer should determine whether approved files, preparation assistance, or supplier coordination is the actual missing capability. Book1One's current contracting and complete-service commitment remains unverified in this comparison.

Canadian alternatives require the same separation. Imprimerie Gauvin Ltée advertises softcover and on-demand work, Hemlock Printers presents artist and photography-book projects, Solisco identifies comic and travel-book work, and Les Impressions Stampa lists books in its catalog. [illegible]

[illegible] INNI group's documented production transfer is not proof that every former customer configuration remains available. NEOGRAFIA's proposed delivery commitment and restructuring implementation position require confirmation before a continuity-sensitive purchase.

[illegible] Colorprinter, EUROPRESS, AQRAT, and Gutenberg Beuys Feindruckerei require clarification of the direct-manufacturing versus coordinated-service

relationship. These alternatives should not be treated as interchangeable backups before those business facts are settled.

In Latin America, a publisher must distinguish an external production service from affiliated publishing activity. For Offset Santiago, Grupo Editorial Lectio, Grupo Reforma, Geográfica, and Plural, that current service boundary and accountable seller remain unverified. ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪ ▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪

Middle Eastern supplier identity should not be inferred from similar names or general printing credentials. For Al Ghurair Printing and Publishing L.L.▪▪ ▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪

For Zhiyan Iraq, Fadaa Services, Dar Raslan, □□□□□□ □□□□□□□ □□□□□ □□□□□, and Jana albelad Group, the unresolved distinction is the legal seller and its actual external book-production or coordination obligation. Emirates Pearl Printing Press must be distinguished from Emirates Printing Press LLC; Al Amrat Print, Inkservice, and Nest Printing require a verified current book-service relationship. ▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪ ▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪ ▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪

▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ Current contracting scope remains the purchasing gate. Delcam Group Africa Ltd, Akonta Printing Works, Alpha &

Omega Publications, Print Innovation Limited, and Dafoko Concepts require a separately verified external book-service relationship.

Other African comparisons remain specific to the commissioning relationship. [redacted] Academy Press Plc and Yaliam Press Ltd require the proposed publication and complete delivery undertaking to be established; a corporate or product-category record is not a commitment to a new commission.

[redacted] Précigraph and Maiden Publishing House Ltd require an explicit externally commissioned production or management undertaking. These limitations prevent a complete current-alternative comparison, not a conclusion of inactivity.

Asian and platform-related identity gaps also affect selection. Thomson Press India Private LTD must be distinguished from Thomson Reuters; CTPS requires a current link to the relevant operating business. [redacted]

[redacted] Braille Works advertises braille transcription and printing, but the inspected offering does not establish a complete physical-book contract. Braille Embossing remains an included category; the unresolved issue is the supplier's accepted book-specific undertaking, not whether the category belongs in the market.

Sources & Evidence

1. Start publishing with KDP
   · KDP supports paperback and hardcover books and explicitly excludes spiral-bound books, establishing a format-specific platform constraint. ([kdp.amazon.com](https://kdp.amazon.com/en_US/help/topic/GHKDSCW2KQ3K4UU4/))
2. Sell Books On Shopify | Lulu
   · The offering links a merchant storefront to production and shipment, supporting comparison with replenishment and inventory-backed fulfillment rather than establishing identical production triggers. ([lulu.com](https://www.lulu.com/sell/sell-on-your-site/shopify))
3. Automatisiertes Lagermanagement | Dienstleistungen | CPI Print Deutschland
   · CPI's German ASR offering lets publishers set inventory thresholds and reprint settings and describes subsequent delivery to distribution centers or another agreed destination. ([cpi-print.de](https://cpi-print.de/de/service/automatisiertes-lagermanagement/))
4. Print On-Demand Books | Just-in-Time vs. Book Printing On Demand | Acutrack
   · Acutrack describes its own inventory-backed production and fulfillment model. Its claims about competitors' quality, suitability, and performance are not adopted. ([acutrack.com](https://www.acutrack.com/book-printing/on-demand/))
5. Book Fulfillment Add-On Services | Marketing Collateral | Acutrack
   · Acutrack advertises book-related collateral, customized packaging, gift wrapping, and bundled merchandise as fulfillment add-ons. ([acutrack.com](https://www.acutrack.com/value-added-services/))
6. Print on Demand Custom Textbooks - Cloudprinter.com
   · Cloudprinter's textbook catalog advertises hardcover, softcover, and ring-bound options. ([cloudprinter.com](https://www.cloudprinter.com/products/textbook-print-online-worldwide))
7. Terms & Conditions - Cloudprinter.com
   · Cloudprinter's posted terms make product, production-location, and shipping-method support subject to production-site acceptance. This supports a configuration-specific access condition, not unrestricted network equivalence. ([cloudprinter.com](https://www.cloudprinter.com/terms-conditions))
8. Jostens Yearbook Agreement Printing Terms
   · Jostens' published agreement prohibits third-party printing and other reuse of production materials created with its digital tools. Executed school terms and exceptions require confirmation. ([jostens.my.salesforce-sites.com](https://jostens.my.salesforce-sites.com/terms?Lid=YBKUS))
9. About Us - Versa Press, Inc.
   · Versa Press describes publishing-oriented book and catalog manufacture and customer coordination through scheduling and shipment. ([versapress.com](https://www.versapress.com/about/))
10. About Data Reproductions Corporation
    · Data Reproductions describes book manufacture for publishers, authors, and corporations and related post-print services. ([datarepro.com](https://datarepro.com/about-data-reproductions-corporation))
11. One-Stop Book Printing | King Printing Co., Inc.
    · King Printing identifies itself as a book printer. The page does not establish every required packaging, fulfillment, or destination combination. ([kingprinting.com](https://www.kingprinting.com/AboutUs.asp))
12. Book Manufacturing - Global Print Services INC
    · Global Print Services INC advertises book manufacture at a Miami facility. The factory statement remains company advertising, not independent establishment verification. ([globalprintservicesinc.com](https://www.globalprintservicesinc.com/services/book-printing))
13. Leading Digital Book Printing NY - Sterling Pierce Co, Inc
    · Sterling Pierce advertises digital books, bound galleys, and advance reader copies. (sterlingpierce.com)
14. Westerfield-Bonte - Book Printers
    · Westerfield-Bonte presents short-run digital book printing for publishing customers. (westerfieldbonte.com)

15. Short Run Book Printing | Greenerprinter
    - Greenerprinter advertises book printing with an in-house bindery. No comparative environmental or production-performance conclusion is adopted. ([greenerprinter.com](https://www.greenerprinter.com/products/short-run-book-printing))
16. About Bookmobile, Serving Book Publishers Since 1982
    - Bookmobile advertises book printing, graphic design, distribution, and other publisher resources, supporting a broader service comparison than manufacture alone. ([bookmobile.com](https://www.bookmobile.com/about-bookmobile/))
17. High-Quality Custom Book Printing | Gorham Printing
    - Gorham Printing advertises book design and printing. Its portfolio does not establish a proposed order's complete service undertaking. (gorhamprinting.com)
18. About DiggyPOD
    - DiggyPOD describes book printing and author-oriented publishing services. ([diggypod.com](https://www.diggypod.com/about-diggypod))
19. InstantPublisher - Self-Publishing & Book Printing Services
    - InstantPublisher advertises physical book printing and self-publishing services. ([instantpublisher.com](https://www.instantpublisher.com/))
20. A Good Day To Print
    - A Good Day To Print advertises online book ordering, binding, finishing, and delivery. These are advertised services rather than a commitment to every proposed configuration. ([agooddaytoprint.com](https://www.agooddaytoprint.com/))
21. About 48 Hour Books
    - xx.xx Hour Books describes author-facing printing, binding, and customization. Its promotional positioning is not used as a substitute for an agreed deadline. ([48hrbooks.com](https://www.48hrbooks.com/about))
22. About Us | PrintNinja
    - PrintNinja describes its international printing business and overseas-linked team; this does not establish U.S. manufacture. ([printninja.com](https://printninja.com/about/))
23. Home :: Imprimerie Gauvin
    - Imprimerie Gauvin advertises softcover books and on-demand production. ([gauvin.ca](https://gauvin.ca/en))
24. Print Portfolio | Hemlock Printers
    - Hemlock's portfolio presents books for artists, photographers, authors, and galleries. ([hemlock.com](https://www.hemlock.com/portfolio/))
25. Printing projects | Solisco printer
    - Solisco's commercial portfolio includes comic-book and travel-book projects. ([solisco.com](https://solisco.com/en/printing-projects/))
26. Les Impressions Stampa - Nos Produits
    - Les Impressions Stampa's catalog lists books; the listing does not establish a complete new-order undertaking. ([stampa.ca](https://stampa.ca/nos-produits))
27. Elanders Print & Packaging - Elanders Group
    - Elanders describes its broader Print & Packaging operation. That divisional description does not identify the complete book-service seller and undertaking in each national market. ([elanders.com](https://www.elanders.com/operations/elanders-print-packaging/))
28. LIST OF PRINTERS IN ACCRA AND KUMASI | GBDC
    - The official Ghana directory lists the named book-related printing, textbook, publishing, and packaging entries. Its undated classifications do not establish present acceptance, common ownership, or equivalent services. ([gbdc.gov.gh](https://gbdc.gov.gh/list-printers-accra-and-kumasi))
29. Welcome to APP - Arab Printing Press
    - Arab Printing Press advertises book-related regional activity; its business presentation does not settle all legal relationships or the ownership of Imprisud. ([arab-printing-press.com](https://www.arab-printing-press.com/))

30. Privacy Policy - Bookvault Shop

    · Bookvault Shop's policy identifies Copytech (UK) Ltd as the operator behind disclosed trading names. It does not establish a proposed international manufacturing commitment. ([shop.bookvault.app](https://shop.bookvault.app/privacy-policy-xx.xx/))

31. How Lollipop Print Turned 15 Years of Research into a Museum-Quality Collector's Book

    · Lollipop Print's collector-book account documents a customer project and identifies a specialist binding relationship. It does not establish acceptance of every future commission. ([lollipopprint.co.uk](https://www.lollipopprint.co.uk/blog/xx.xx/how-lollipop-print-turned-xx.xx-years-of-research-into-a-museum-quality-collectors-book))

32. Generation Press Book - Generation Press Shop

    · Generation Press markets a demonstration book with production credits; the example alone does not establish continuing external-service acceptance. ([generationpress.shop](https://generationpress.shop/products/generation-press-book))

33. Braille Printing and Transcription Services - Braille Works

    · Braille Works advertises commercial braille printing and transcription. The inspected offer does not explicitly establish the complete physical-book undertaking discussed in the comparison. ([brailleworks.com](https://brailleworks.com/solutions/braille/))

34. High-quality printing from Die Keure continues at INNI group

    · The production-transfer announcement supports requiring confirmation of the receiving operation and current book-service commitment rather than assuming all former customer configurations continue unchanged. ([innigroup.com](https://www.innigroup.com/en/blog/high-quality-printing-die-keure-inni-group))

22. Company Profiles

22.1. Lakeside Book Company

[illegible] Slipcases, boxed sets, and kits appear explicitly in its book portfolio, while its packaging service adds assembly and design coordination. This makes it a relevant candidate for a publisher commissioning a finished book-and-pack product rather than purchasing printing alone.

[illegible] Publishers should request an accepted scope covering the book, associated packaging, supplied components, delivery destination, and remedies for an incomplete set. Consolidation is most useful when Lakeside accepts responsibility for those handoffs; separately commissioned binding or packaging remains an alternative when the buyer already controls the interfaces or needs a specialty configuration that Lakeside has not confirmed.

Sources & Evidence

1. Book Printing & Manufacturing Services | Lakeside Book Company
   - Lakeside advertises a North American platform offering offset and digital book printing, hardcover and softcover binding, finishing, slipcases, boxed sets, and kits.
   - Company verification: Lakeside Book Company advertises offset and digital book printing, binding, and finishing.
   - Company verification: Its offering includes slipcases, boxed sets, and kits on a North American production platform.
2. Book Embellishments, Edge Printing & Kitting | Lakeside Book Company
   - Lakeside advertises packaging, kitting, assembly, and design through one vendor, alongside book-associated special-edition services. The page invites project inquiries rather than establishing an accepted project commitment.
3. Lakeside Book Company Acquires Marquis Book Printing, Inc.
   - Company verification: Atlas' June xx.xx 2023 transaction announcement connects Lakeside with Atlas-owned LSC Communications.
   - Company verification: It places Marquis within Lakeside's book-manufacturing representation and identifies the acquired Canadian production business.
4. LAKESIDE BOOK COMPANY ACQUIRES MARQUIS BOOK PRINTING, INC.
   - Company verification: Lakeside announced its acquisition of all outstanding Marquis Book Printing shares on June xx.xx 2023.

22.2. Ingram Content Group

Ingram Content Group combines Lightning Source print-on-demand with wholesale, publisher-direct, and drop-shipping routes. Its distinctive commercial contribution is connecting physical production to ordering channels, rather than simply supplying a printing

location. ■■■■■■ ■■■■■■■ ■■■■■■■ ■■■■ ■■■■■■■■■■ ■■■■■■■ ■■■■■ ■■■■■ ■■■■■■■■ ■■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■ ■■ ■■■■■■■■■■■ ■■■■■■■

■ ■■■■■■■■■ ■■■■■■■ ■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■■■■ ■■■■■■■ ■■■ ■■■■■■ ■■■■■■■ ■■■■■■■■■■ ■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■ ■■■■■■■ Local partners print and ship to the retailer after an order; the arrangement should not be interpreted as an entirely Ingram-owned factory network. It can coordinate access that would otherwise require separate production and channel relationships, but participation remains specific to the applicable agreement.

Orderability still differs from retail selection. Barnes & Noble's guidance specifically tells publishers distributing through LSI that changing purchasing terms does not guarantee shelf placement or an event. ■■■■■■■■■■ ■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■ ■■■■ ■■■■■■■■■■■■■■■■ ■■■■■■ ■■ ■■■ ■■■■■■■ ■■■■■■■■■■■ ■■■ ■■■■■■■■ ■■ ■■ ■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■ ■ ■■■■■■■■■■ ■■■■■ ■■■■ ■■■ ■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■■ ■■■ ■■■■■■■■■■■■

Sources & Evidence

1. Local Interest in Selling Your Book - B&N Press
   - Barnes & Noble directs publishers distributing through LSI to update purchasing terms through their publisher and states that changing terms does not guarantee shelf placement or a store event.
2. Global Connect | Ingram Content Group
   - Global Connect uses local print-on-demand providers with bookseller relationships. Participation requires an agreement and title information, follows territorial rights, and results in local printing and shipment to retailers after orders.
3. Print-On-Demand | Ingram Content Group
   - Ingram advertises Lightning Source print-on-demand linked to wholesale ordering, publisher-direct supply, and drop shipping. Its described model connects customer orders to printing and shipment.
   - Company verification: Ingram offers book print-on-demand through Lightning Source.
   - Company verification: The service combines production with publisher-direct supply, distribution, and drop shipping.
4. Ingram Content Group - About
   - Company verification: Ingram Content Group identifies itself as part of Ingram Industries.
   - Company verification: Its corporate record identifies Lightning Source within its printing and distribution footprint.
5. Share & Sell Terms of Sale
   - Company verification: Terms updated April xx.xx 2026 identify Lightning Source LLC, Ingram Content Group UK Ltd, and Ingram Content Group Australia Pty Ltd as transaction counterparties.
6. Ingram Content Group at Frankfurt Book Fair
   - Company verification: Ingram's October 2026 Frankfurt Book Fair presentation markets print-on-demand and distribution services together.
   - Company verification: The presentation separately identifies the Lightning Source Sharjah joint-venture route, rather than describing every location as wholly owned.

22.3. Friesens Corporation

Friesens Corporation separates manufacturing-ready history-book work from projects needing publishing preparation. ■■■ ■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■ ■■■■■■ ■■■■ ■■■■■■■■■ ■■■■■ ■■

■■■ ■■■■■ ■■■■ ■■■■■■■■ ■■■ ■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■ ■■■■■■■■■■■■ ■■■■■■■■■■ ■■ ■■■■■■■■■■■■■ The commercial distinction is who owns preparation and publishing support, particularly for families, organizational committees, and smaller publishers.

The trade service nevertheless advertises project specialists, prepress assistance, storage, and fulfillment. ■■■■■■■ ■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■ ■■■■■■■■■■■ ■■■■ ■■■■■■■■■■ ■■ ■■■■■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■ ■■■■ ■■ ■■■■ ■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■ A manufacturing-focused purchase therefore need not mean an unsupported handoff, while production assistance should not be mistaken for an included editorial assignment.

Organizations with approved material and their own editorial resources can seek manufacturing and agreed fulfillment without automatically buying broader publishing services. Buyers lacking those resources should establish the FriesenPress scope, approval authority, destination coverage, and contracting party before selecting the assisted route. ■■■■■■■■ ■■■■■■■■■■■ ■■■ ■■■■■■ ■■■■■■■■■■■■ ■■■■ ■■■ ■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■ ■■ ■■■ ■■■■■■ ■■■■■■■ ■■■■■■■■■■ ■■ ■ ■■■ ■■■■■■■■

Sources & Evidence

1. Preserve Your History | Friesens
   - Friesens directs history-book buyers with completed publication files to its Trade Book Division and buyers needing editing, design, or distribution assistance to FriesenPress.
2. Friesens Book Services | Comprehensive Services for Your Printing Needs
   - Friesens advertises trade-book project specialists, prepress support, storage, and fulfillment. MyBooks supports inventory and order visibility; shipping choices include individual or consolidated consignments and Canada Post or USPS.
3. Report to confirm compliance with Bill S-211 - Friesens Corporation - April 29, 2025
   - Company verification: The 2025 statutory supply-chain report identifies Friesens Corporation as a Manitoba-registered, employee-owned company manufacturing printed books in Canada.
   - Company verification: The report identifies two book-manufacturing facilities in Altona and domestic and international sales.
4. Friesens Book Printing | Quality Solutions for Every Project
   - Company verification: Friesens advertises printed-book manufacture for publishing houses, independent publishers, universities, museums, and galleries.
   - Company verification: Its book-business page identifies customer service coverage in Canada and the United States.

22.4. CPI Print

■■■ ■■■■■■■ ■■■■■■ ■■■■ ■■■■■ ■■■■■■■■■■■■■ ■■■■■■■ ■■■■■ ■■■■■■■■■■ ■■ ■■■■■■■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■ ■■■■ ■■■■■■■■ ■■ ■■■■■■■■■■■■ ■■■■■■■ ■■ ■■■■■■■ ■■■■■■ ■■■■■■■■■■■■ It is a stock-replenishment proposition: the publisher preserves a planned inventory position rather than necessarily waiting for each reader's order. Its useful contribution is reducing repeated ordering work while leaving the publisher responsible for appropriate title and replenishment settings.

Automation does not by itself establish a warehouse-arrival guarantee. ■■■ ■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■ ■■■■ ■■■ ■■■■■■■■■■ ■■■■■ ■■■■■ ■■■■■■■■■■ ■■■■■■■

[redacted] These terms must be checked against the actual replenishment agreement rather than assumed to govern every CPI territory.

Sources & Evidence

1. Terms and Conditions | CPI Print Germany
   - The published terms cover named CPI companies, make order confirmation decisive for service scope, permit third-party performance unless otherwise agreed, and measure delivery compliance by dispatch or readiness rather than destination receipt.
2. Automatisiertes Lagermanagement | Dienstleistungen | CPI Print Deutschland
   - CPI's German ASR offering allows publishers to define title-level inventory thresholds and automatic-reprint settings, followed by delivery to distribution centers or another requested destination.
3. Services | CPI Print | From printing to delivery
   - Company verification: CPI offers on-demand book services, stock replenishment, and an international production network.
4. We print books, journals and catalogues
   - Company verification: CPI advertises book printing and binding for trade, self-publishing, academic, and professional publishing customers.
5. A new Group Chief Executive at CPI
   - Company verification: CPI's February xx.xx 2023 announcement identifies Elpis Management Limited as CPI's sole shareholder.
   - Company verification: This establishes a dated group-ownership link, not the complete current multinational legal perimeter.
6. CPI GROUP (UK) LTD persons with significant control
   - Company verification: Companies House lists Elpis 2022 Ltd as CPI Group (UK) Ltd's active person with significant control, notified December xx.xx 2025.
7. ELPIS 2022 LIMITED persons with significant control
   - Company verification: Companies House lists Elpis Management Limited as the active corporate person with significant control of Elpis 2022 Limited.
   - Company verification: The record connects CPI's disclosed owner with the registered controlling entity above its UK business.
8. ELPIS MANAGEMENT LIMITED persons with significant control
   - Company verification: Companies House lists Elpis Finance Limited as the active person with significant control of Elpis Management Limited.
9. ELPIS FINANCE LIMITED persons with significant control
   - Company verification: Companies House lists Elpis Holdings Limited as the active person with significant control of Elpis Finance Limited.
10. ELPIS HOLDINGS LIMITED persons with significant control
    - Company verification: Companies House lists Bidco xx.xx Limited as the active person with significant control of Elpis Holdings Limited.
11. BIDCO 3 LIMITED persons with significant control
    - Company verification: Companies House lists Richard Ian Hughes as the active person with significant control of Bidco xx.xx Limited.
    - Company verification: Together with the separately mapped corporate-control records, this supports an inferred UK CPI control chain to Richard Ian Hughes.

12. Global Print Solutions | Services | CPI Print UK
    - Company verification: CPI UK advertises coordinated international physical-book production through its Global Print Solutions network.
    - Company verification: Its UK roster names Griffin Press and Ligare in Australia, whereas the captured global services roster names Pegasus; these undated rosters do not resolve the precise current Australian partner perimeter.

22.5. Leo Paper Group

[illegible] For a book-plus-activity or gift-book commission requiring components and associated packaging, that breadth supports evaluating coordinated sourcing. It does not establish that every advertised category forms an available book-and-pack bundle.

The published sales terms require written order confirmation and define the seller through Leo Paper Products Ltd. or a subsidiary or associated company of Leo Paper Group (Hong Kong) Limited. They tie product conformity to the agreed order and allocate delivery risk at the shipping point specified in the quotation. [illegible]

[illegible] The trade-off is dependence on the accepted scope and the selected seller's obligations. A conventional book without specialty components may not require that breadth; a complex commission should not proceed on catalog adjacency alone.

Sources & Evidence

1. Paper Products | Leo Paper Group
    - Leo's portfolio lists trade, children's, educational, and pop-up books, activity sets, gift books, boxes, and packaging. It advertises sourcing, manufacturing, and logistics services without confirming every combined configuration.
    - Company verification: Leo Paper Group's catalog includes trade, children's, educational, and pop-up books.
    - Company verification: The same catalog identifies packaging, boxes, gift books, and activity products.
2. Sales Terms and Conditions | Leo Paper Group
    - Leo's terms identify several possible group sellers, require written order confirmation, tie conformity to the agreed order, and transfer delivery risk at the shipping point specified in the quotation.

22.6. Markono Print Media Pte Ltd

[illegible] Markono advertises offset and digital printing, print-on-demand, warehousing, fulfillment, and distribution for publishers reaching readers across Asia. This supports evaluating a regional production-and-delivery relationship, but not assuming local printing facilities or equivalent service coverage in every destination.

The group assigns printing to Markono Print Media, warehousing and fulfillment to Markono Logistics, and Asian distribution to Booksmart. [illegible]

■■■■■■■■ ■■■■■■ ■■■■ ■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■ ■■■ ■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■■■■■■ ■■■■■■ ■■■■■■■■■ ■ ■■■■■■■■ ■■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■■ ■■ ■■■■■■■■ ■■■■■■■■■■■■■■■ Group breadth does not establish that a Markono Print Media quotation automatically includes the other businesses' services or secures retailer purchases.

Sources & Evidence

1. About Us | Markono - Asia’s Trusted Print, Fulfilment & Supply Chain Partner
   - Markono describes a Singapore-based proposition combining offset and digital printing, print-on-demand, warehousing, fulfillment, and distribution for publishers reaching readers across Asia.
   - Company verification: Markono describes Singapore-based book printing, warehousing, fulfillment, and distribution for publishers reaching Asian readers.
   - Company verification: The page identifies Markono Print Media Pte Ltd.
2. Businesses | Markono - Asia’s Trusted Print, Fulfilment & Supply Chain Partner
   - Markono's business description assigns printing to Markono Print Media, Singapore-hub warehousing and fulfillment to Markono Logistics, and Asian book distribution to Booksmart.

22.7. Lulu

■■■■ ■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■ ■■ ■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■ ■■■■ ■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■ ■■■ ■■■■■■■■■ ■■ ■■■■■■■■ ■■■■ ■■ ■■■ ■■■■■■■■■■ Its terms identify Lulu Press, Inc. as the platform provider. The value is production-linked fulfillment for a merchant's existing audience, not an established source of customers.

For Lulu Direct Standard, the merchant remains the merchant of record and handles customer payments, applicable transaction taxes, store connectivity, and buyer support. ■■■ ■■■■■■■■ ■■■■■■■ ■■■ ■■■■■■■ ■■■■■ ■■■■■ ■■■■ ■■■■■■■■ ■■ ■■■■■■■■ ■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■■ ■■■ ■■■■■■■■ ■■ ■■■■■■■■ ■■■■■■■ ■■■■■ ■■■■■■■■■ These routes do not transfer the same retail responsibilities.

■ ■■■■■■■■ ■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■ ■■■■■■■■■■■■■ If delegating payment administration matters more, evaluate Buy Button separately without assuming customer service is outsourced. Before launch, confirm the required book configuration and shipping destination; advertised global fulfillment does not establish every combination or an unconditional delivery promise.

Sources & Evidence

1. Sell Books On Shopify | Lulu
   - Lulu advertises Shopify-connected printing and shipment, white-label fulfillment, merchant retention of customer data, and fulfillment through a global print network.
2. Terms & Conditions | Lulu
   - Lulu's terms identify Lulu Press, Inc. Standard merchants retain payment, tax, connectivity, and buyer-support responsibilities. Buy Button makes Lulu merchant of record, while general creator customer-service responsibilities remain.
3. Create & Custom Print a Book Online | Lulu
   - Company verification: Lulu offers online custom book printing with multiple book formats.

22.8. Amazon

Amazon participates through KDP's print-on-demand route for paperback and hardcover books, linked to Amazon product listings. Spiral-bound books are excluded. ■■■■ ■■ ■ ■■■■■■■■■■■■■■■■ ■■■■■■■■■■■■■■■■■■■■■■■■■■ ■■■■■ ■■■■■■ ■■■■ ■■■■■■■■ ■■ ■■■■■■■■■■■■■■ ■■■■■■■■■ ■■■■ ■■ ■■■■■■■■■ ■■■■■■■■■■■■

Rights and format determine the available marketplace. KDP's distribution-rights guidance excludes paperback and hardcover distribution on the Brazilian, Indian, and Mexican Amazon marketplaces; it separately notes that an Indian marketplace listing may reflect third-party sellers. ■ ■■■■■■■■ ■■■■■■■■ ■■■■■■ ■■■■■■■■■ ■■■ ■■ ■■■■■■■■■■■■ ■■ ■■■ ■■■■■ ■■■■■■■■■■■■■■■■■■■■■■■■■■■■■ ■■■■■ ■■■■■■■■■■■■

Expanded Distribution is a separate access decision: hardcover books are ineligible, a paperback's ISBN must not already have been submitted for distribution through another service, and distributors, booksellers, and libraries retain acceptance or purchasing discretion. Publishers should check format, territory, and ISBN compatibility before combining channels. ■■■ ■■■ ■■■ ■■ ■■■■■■■■ ■■■■■■■■■■■■■■■ ■■■■■■ ■■■ ■ ■■■■■■■■■■■■ ■■■■■■■■ ■■■■■ ■■■■■■■■ ■■■■■■■■■ ■■■ ■ ■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■ ■■ ■■■■■■■■ ■■ ■■■■■■■■ ■■ ■■■■■■■■■■■■

Sources & Evidence

1. Start publishing with KDP
   · KDP offers paperback and hardcover publication with Amazon product detail pages and expressly excludes spiral-bound books.
2. Paperback and Hardcover Distribution Rights
   · KDP distribution depends on territorial rights and format. Its guidance excludes paperback and hardcover distribution on the Brazilian, Indian, and Mexican marketplaces and distinguishes Indian listings supplied by third-party sellers.
3. Expanded Distribution
   · KDP Expanded Distribution excludes hardcover books, requires that the paperback ISBN has not been submitted for distribution through another service, and does not guarantee distributor acceptance or bookseller and library orders.
4. How do I order a proof or author copy?
   · KDP's ordering guidance expressly identifies its business as a print-on-demand model.
5. Amazon.com, Inc. - Form 10-K for the fiscal year ended December 31, 2025
   · Company verification: Amazon's fiscal 2025 Form xx.xx-K establishes Amazon.com, Inc. as the current reporting parent and documents continuing operations.
   · Company verification: The parent-level record supplements, rather than replaces, the captured KDP physical-book printing evidence.
6. Paperback Printing Cost
   · Company verification: Amazon's KDP service prints books on demand and deducts printing charges from author royalties.
   · Company verification: The page explicitly identifies marketplace limitations for paperback and hardcover distribution.

22.9. Posigraf

[illegible] Its book-service portfolio includes binding choices relevant to instructional publications and provides a project quotation route. Publishers can therefore assess a domestic production-and-distribution relationship rather than assuming that international platform procurement is necessary.

Production access must remain separate from access to institutional book purchasing. Brazil's PNLD supplier-registration service is directed to companies holding the relevant copyrights and requires registration of the company and its works. [illegible] Combining printing and distribution may reduce separately managed handoffs when Posigraf accepts the complete assignment. A production-only purchase remains an alternative when the publisher wants to retain its existing distributor; the advertised distribution capability is not a commitment to every destination or fulfillment arrangement.

Sources & Evidence

1. Livros & Materiais didáticos - Posigraf
   - Posigraf advertises printing and distribution of educational, religious, and literary books, lists binding options, and provides a book-project quotation route and Curitiba headquarters contact.
   - Company verification: Posigraf advertises printing and distribution of educational, religious, and literary books.
2. Quem somos - Posigraf
   - Posigraf identifies itself as a Brazilian printing company, states that it is part of Grupo Positivo, and identifies Curitiba as its headquarters.
   - Company verification: Posigraf identifies itself as part of Grupo Positivo.
   - Company verification: The company profile identifies its headquarters in Curitiba, Brazil.
3. Realizar inscrição de fornecedores de livros ao PNLD
   - The federal PNLD registration service is directed to companies holding copyrights in the relevant books and materials and requires registration of the legal entity and works. This supports distinguishing production contracting from participation in the publication purchasing route.

22.10. Blurb

Blurb connects self-service visual-book preparation with a provider-operated selling route. [illegible] For photography, art, corporate, and personal-book buyers, the relevant distinction is between retaining creative preparation and delegating the retail-service interface.

Bookstore listings can be searchable or discoverable through a direct link. This gives creators a choice between public discovery and more targeted circulation to an existing audience. ■■ ■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■ ■■■■■■■■■ ■■ ■■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■ ■■■ ■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■ ■ ■■■■■■■■■■ ■■■ ■■■■■■■■■■■ ■■■■■■■■■■■■■■■ ■■ ■■■■■■■ ■■■■■■■■■

■■■ ■■■■■■ ■■■ ■■■■■ ■■■■■■■■■ ■■■ ■■■■■ ■■■■■ ■■ ■■■■■■ ■■■■■■■■■ ■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■ ■ ■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■■■■ ■■■■■■■■■■■■■ ■■■ ■■■■■■■■■ ■■ ■■■■■■■■ ■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■ ■■■■■■ Buyers should confirm the selected book format, delivery destination, and service responsibilities before publication, and retain responsibility for approved content and promotion. The advertised tools and bookstore services do not establish comparative reproduction quality or successful sales for an individual title.

Sources & Evidence

1. Sell Your Books Online in the Blurb Bookstore | Blurb
   - The Blurb Bookstore advertises printing, shipping, fulfillment, and customer service for bookstore sales.
   - Creators can choose searchable listings or direct-link visibility and are encouraged to promote their books. These choices do not establish audience demand or confidential access.
2. Blurb BookWright: Free Book Design Software | Blurb
   - BookWright is Blurb's self-service book-design offering for photo books, paperback and hardcover books, and professional portfolios. It supports retaining creative preparation with the creator.
3. Company Profile & Timeline | Blurb
   - Company verification: Blurb describes a platform for producing and selling physical printed books, including print-on-demand services.
4. Copyright Infringement. Blurb Inc. book publishing services | Blurb
   - Company verification: Blurb's legal notice identifies Blurb, Inc. as a division of Reischling Press, Inc.

22.11. Acutrack

Acutrack separates order-level fulfillment from order-triggered printing. Its advertised model prints books ahead, holds inventory in the United States, and connects customer orders from ecommerce platforms to warehouse dispatch. ■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■ ■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■■■ ■■■■ ■■ ■■ ■■■■■■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■ ■■ ■■■■■■■■■■■ ■■■■■ ■■■■ ■■■■■■■ ■■■■■■■■■■

The offering also includes inventory visibility, replenishment alerts, returns processing, and account support. Book-related add-ons include collateral, customized packaging, gift wrapping, and merchandise bundled with books. ■■■■■ ■■■■■■■■ ■■■ ■■■■■ ■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■ ■■■■■■■ ■■■ ■■■■■ ■■■■■■■■ ■■ ■■■■■ ■■■■■■■■■■ ■■■ ■■■■ ■■■■■■■■ ■■ ■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■ ■■ ■■■■■■■■■■ ■■■■■■ ■■■■■■■■■ ■■ ■■■■■■■ ■■ ■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■ ■■■■■ ■■■■■■■■ ■■ ■■■■■■■■■■■

■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■ ■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■■ ■■■■ ■■■■■■■■■■ ■ ■■■■■■■■■■ ■■■■■■■■■■■ ■■

■■ ■■■■■■ ■■■■■■■■■■ ■■■■■ ■■■■■■■ ■■■■ ■■■■■■■■■■■■ Merchants should establish the governing commitment, stock-availability conditions, order cutoffs, and remedies before making customer delivery promises; warehouse turnaround is not carrier transit. Order-triggered production remains a defensible alternative when avoiding stocked editions matters more than dispatching an already printed book.

Sources & Evidence

1. Book Printing - Acutrack
   - Acutrack advertises book printing with hardcover, paperback, spiral, and Wire-O choices, alongside U.S. warehousing, ecommerce integration, and fulfillment.
   - Company verification: Advertises Acutrack's commercial book-printing and fulfillment services, including hardcover and paperback production.
   - Company verification: Lists corporate headquarters in Livermore, California.
2. Print On-Demand Books | Just-in-Time vs. Book Printing On Demand | Acutrack
   - Acutrack describes its own model as advance printing with inventory-based fulfillment rather than printing after each customer order.
   - The page identifies its corporate headquarters and fulfillment center in Livermore, California. Comparative claims about other providers are not adopted.
3. Global Book Fulfillment Services | Acutrack
   - Acutrack advertises ecommerce-connected fulfillment, inventory dashboards, replenishment alerts, returns processing, and account support.
   - Although the page emphasizes same-day shipping, its detailed service description advertises a guaranteed turnaround of xx.xx hours, including books shipped with collateral. This is a stated service commitment, not independently measured performance.
4. Book Fulfillment Add-On Services | Marketing Collateral | Acutrack
   - Acutrack advertises book-related collateral, customized packaging, gift wrapping, and merchandise bundled with books as fulfillment add-ons.

22.12. e7 Group

■■ ■■■■■ ■■■■■■■■ ■ ■■■■■■■■■ ■■■■■■■■■■■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■ ■■ ■■■■■■■■■■ Its advertised services include textbooks, offset and on-demand digital printing, file-preparation support, binding and finishing, and integrated warehousing, packing, and shipping to clients or end users. The Abu Dhabi service base gives institutional and publishing buyers a documented regional contracting option beyond a print-only handoff.

The group's 2025 report describes cooperation across printing, packaging, and logistics, with Tawzea supporting distribution across the UAE. ■■■■ ■■■■■■■■ ■■■■■■■■■■■ ■ ■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■ ■■■ ■■■■■■■■■■ ■■■■ ■■■■■ ■■■■■ ■■■■■■■■ ■■ ■■■■■■■■■ ■■ ■ ■■■■■■■■■■■ ■■■■ ■■■■■■ General packaging capability should not be treated as confirmation of a specific book slipcase, boxed set, or recipient-delivery configuration.

For an institutional publication requiring delivery to designated recipients, the buyer should seek a contract that identifies the responsible supplier and assigns warehouse release, packing completeness, delivery acceptance, and remedies. Integration may reduce buyer-managed interfaces if these obligations are accepted together. ■■■■■■■■ ■■■■■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■ ■■■■■■ ■■■■■■■■ ■■ ■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■ ■■■ ■■■■■

■■■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■ ■■■■■■

Sources & Evidence

1. Printing Solutions and On-Demand Services in the UAE | e7 Printing
   - e7 Printing advertises textbooks, offset and on-demand digital printing, file-preparation support, binding and finishing, and integrated warehousing, packing, and shipping to clients or end users.
   - The business page identifies an Abu Dhabi, UAE service address; it does not establish every regional destination or specialist book-pack configuration.
2. e7 Group Integrated Report 2025
   - The 2025 integrated report describes cooperation across printing, packaging, and logistics and identifies Tawzea as supporting distribution across the UAE.
   - The disclosure supports assessing a group-coordinated service proposition, not assuming that all capabilities are incorporated in an individual book contract.
   - Company verification: e7 Group's 2025 integrated report establishes the listed e7 Group PJSC reporting identity and continuing book-printing activities.
   - Company verification: The subsidiary disclosure identifies wholly owned United Printing and Publishing - Sole Proprietorship L.L.C as an operating company printing books and other materials.
   - Company verification: The report describes textbook-printing and educational-customer relationships, providing a book-specific commercial bridge distinct from unrelated security and packaging activities.
3. Printing - Secure Printing and Packaging Solutions in the UAE
   - Company verification: e7 advertises book printing, on-demand printing, hardcover binding and integrated fulfillment.
   - Company verification: The service page identifies publishing and educational customers and gives an Abu Dhabi, UAE business address.

22.13. Caxton and CTP Publishers and Printers Limited

Caxton and CTP Publishers and Printers Limited provides a South African book-manufacturing route, with CTP Printers advertising softcover, hardcover, educational, general-interest, and thin-paper religious books. Its book portfolio also lists Wire-O and spiral binding alongside conventional binding and finishing choices. ■■■■ ■■■■■■■ ■■ ■■■■■■■■ ■■ ■■■■■■■■■■ ■■■■■■■ ■ ■■■■■■■■ ■■■■■■■■ ■■■■■■ ■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■ ■■■ ■■■■■■■ ■■■■ ■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■

■■■■■■■■■■ ■■■■■■■■■■■■ ■■ ■■■■■■■ ■■ ■■■■■■■■■ ■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■ ■■ ■■■ ■■■■ ■■■■■■ ■■■■■■■ ■■■ ■■■■■ ■■■■■■■■■ ■ ■■■■■■■ ■■■■■■■■■■ ■■■■■ ■■■■■■■■■■ ■■■■■■■ ■■■ ■■■■■■■■■ ■■ ■■■■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■ ■■ ■■■ ■■■■ ■■■■■■■ ■■■■■ That historical expectation is not evidence that a particular printing order was subsequently placed. Confirmed publisher commissioning and delivery bookings are therefore more defensible commitment triggers than an anticipated curriculum refresh alone.

Buyers should assess the required book format and finishing combination, identify the contracting operation, and establish the delivery undertaking. A local manufacturing relationship can address production sourcing, but does not itself confer access to the educational publication purchaser. ■■■ ■■■■■■ ■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■ ■■ ■■■■■■■ ■■ ■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■ ■■■ ■ ■■■■■■■■■■ ■■■■ ■■■■■■■■■ ■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■ ■■■■■ ■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■■ ■■■■ ■■ ■■■■■■■■■■ ■■■■■ ■■■■■ ■■■■■■■■■

Sources & Evidence

1. Book Printing | CTP Printers
   - CTP Printers advertises South African production of softcover, hardcover, educational, general-interest, and thin-paper religious books, with conventional, Wire-O, and spiral binding options.
   - Company verification: CTP Printers advertises hardcover, softcover, educational, general-interest, and religious-book printing and binding in South Africa.
2. Caxton and CTP Publishers and Printers Limited - Integrated Annual Report 2025
   - The group's 2025 annual report describes its book-and-magazine printing activity and a delayed Foundation Phase curriculum rewrite, with an expectation concerning the start of the 2026 school year rather than confirmation of a subsequent printing award.
   - The report discusses packaging operations separately, supporting caution against inferring a particular book-and-pack undertaking from group breadth.
   - Company verification: The official 2025 integrated annual report establishes the Caxton and CTP reporting-group identity.

22.14. Imago Group

Imago Group contributes managed supplier access and coordination for book projects rather than requiring the buyer to assemble every manufacturing relationship directly. ■■ ■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■■■■ ■■ ■■■■■■ ■■■ ■■■■■■■■■■■■ ■■ ■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■ ■■■■■■■■ ■■■■■■■■■■■■■■■ ■■■ ■■■ ■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■■ ■■■ ■■■■■■■■■■■ The relevant capability is the managed production relationship, not an assumption that Imago owns every producing facility.

This route may suit a publisher whose book-and-pack project crosses supplier boundaries and who lacks equivalent in-market representation. Imago's sourcing relationships can reduce the number of manufacturer interfaces the publisher manages. ■■■ ■■■■■■■■■ ■■ ■■■■■■■■ ■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■■■■■■■ ■ ■■■■■■ ■■■■ ■■■■■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■■■■■■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■ ■■■■■■■■ ■■■■■■ ■■■■■■■■■■■

The posted UK and European trading conditions make the accountability boundary material. They identify Imago Publishing Limited, require written order acceptance, describe delivery dates as guidance, and place responsibility for lawful market sale and product safety with the customer. ■■■■■■■■■■■■ ■■■■■■ ■■■■■■■■■ ■■■ ■■ ■■■■■■■■■ ■■ ■■ ■■■■■■■■ ■■■■■■■■■ ■■ ■■■■■■■■ ■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■■■■ ■■■■■■■■■■ ■■■■■ ■■■ ■ ■■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■ ■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■ ■■■ ■■■■■■■ ■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■■ ■■■ ■■■■■■■■■■■■■■■ ■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■ ■■■■■ ■■■ ■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■ ■■■■ ■■■ ■■ ■■■■■■■■ ■■ ■■■■■■■■■■■■■■■■■

Sources & Evidence

1. Global Print Services | China, Europe, SE Asia, USA & India
   - Imago advertises international supplier sourcing, production representation in Asia, and coordination of book-related projects involving components from several manufacturers.

2. Global Print Production Services | Imago Group | About Us
   · Imago describes managing book production through an international supplier network, with its own supplier-facing teams and oversight services. This establishes an advertised management role, not ownership of every producing facility.
   · Company verification: Imago Group advertises management of international book production for publishers using a network of suppliers.
   · Company verification: Its commercial role includes book printing and related production management rather than an assertion of ownership of every producing plant.
3. Imago Publishing Limited - Terms & Conditions of Trading
   · The document linked for UK and European trading identifies Imago Publishing Limited and requires written order acceptance.
   · Its stated conditions treat delivery dates as guidance and allocate responsibility for lawful sale and product safety to the customer. Applicability and negotiated variations require confirmation for the proposed contract.

22.15. Cloudprinter.com

[illegible] Its textbook catalog includes hardcover, softcover, and ring-bound options, alongside commercial API and ecommerce integration routes. For platforms and enterprise buyers, the documented contribution is a common ordering and routing interface across production locations, rather than a requirement to negotiate each ordinary order manually.

The commercial boundary is narrower than unrestricted network access. [illegible] Buyers should confirm the version governing their proposed relationship rather than treating the published terms as proof of negotiated coverage.

[illegible] Direct printer contracting may be preferable when a specialist configuration or a single supplier's delivery undertaking is more important than network routing. The catalog and network presence establish an advertised route, not acceptance of every proposed order.

Sources & Evidence

1. Print on Demand Custom Textbooks - Cloudprinter.com
   · Cloudprinter.com's physical-book catalog advertises hardcover, softcover, and ring-bound textbooks and presents commercial API and ecommerce integration routes.
   · Company verification: Cloudprinter.com advertises custom textbook production in hardcover, softcover, and ring-bound formats.
   · Company verification: The page provides a commercial order route for physical books.
2. Global Print Network - Cloudprinter.com
   · Cloudprinter advertises an international network of print-and-ship locations and integration access. The network listing does not establish that every location supports every book configuration.

3. Terms & Conditions - Cloudprinter.com
   - The published terms, effective August xx.xx 2021, identify Cloudprinter.com B.V. in the Netherlands and describe routing orders to connected production sites.
   - Product, production-location, and shipping-method support depend on production-site acceptance; some providers may require direct merchant agreements. The terms also assign integration responsibility to the merchant.

22.16. Showcase Creative

[illegible] It advertises slipcases, presentation boxes, boxed sets, and related inserts and wraps for books, special editions, and collectible releases. The relevant buyer is a publisher or production manager seeking presentation packaging without necessarily replacing the book printer.

Its December xx.xx 2024 account of the Fedrigoni xx.xx publication's 2025 edition identifies Showcase Creative as the slipcase producer and separately credits Pression for printing and Diamond Print Services for binding. [illegible] This provides a concrete example of a modular publication project; it is not evidence of an exclusive relationship or acceptance of a new commission.

Separate packaging procurement preserves the publisher's choice of book printer, but creates a book-to-case handoff that must be allocated commercially. The buyer should name the party approving finished-book and packaging compatibility, accepting transferred books, and delivering the complete order. [illegible]

Sources & Evidence

1. Publishing Packaging - Bespoke Luxury Packaging
   - Showcase Creative advertises publishing-specific slipcases, presentation boxes, boxed sets, inserts, and wraps and describes working directly with publishers, designers, and production managers.
2. Celebrating Opposites with Fedrigoni 365 - Bespoke Luxury Packaging
   - Showcase Creative's December xx.xx 2024 account identifies its slipcase production for the 2025 edition of Fedrigoni xx.xx and separately credits Pression for printing and Diamond Print Services for binding.
   - The example documents distinct supplier roles in a publication project, not an available new contract or an exclusive relationship.
   - Company verification: Showcase Creative describes producing slipcases for the Fedrigoni xx.xx book project.
3. An Ode to Creativity: Fedrigoni 365 and the Beauty of Opposites
   - Fedrigoni's own account of its 2025 publication names Showcase Creative among the project collaborators, independently corroborating participation without establishing the terms of any future commission.

22.17. District Photo

District Photo advertises hardcover and softcover books, lay-flat binding options, e-commerce order integration, and fulfillment. Its distinctive relevance to Music Books & Scores comes

through the documented relationship with specialist Halstan. ■■■■■■■ ■■■■■■■■■■ ■■■■■■■ ■■■■■■■ ■■■■■■■■■■ ■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■ ■■■■ ■■■■■■■■ ■■ ■■■ ■■■■■■ ■■■■■■■ ■■■ ■■■■■■■■ ■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■■■ ■■■■■■■■ ■■■■■ ■■■■■■■■■ ■■■■■■■■■ ■■■■■■■ ■■■■■ ■■■■■■■■ ■■■■■ ■■■■■■■■■

On June xx.xx 2026, Halstan announced that Harrier had acquired all its UK and German print interests and that its team, customer relationships, and daily operations would continue unchanged. The announcement expressly identifies the District Photo Harrier Group. ■■■■ ■■■■■■■■■■■ ■ ■■■■■■■■■■ ■■■■■■■■■■■ ■■■ ■■■ ■■■ ■■■■■■■■ ■■■■■ ■■■■■■■■■ ■■■■■ ■■ ■ ■■■■■■■■ ■■■■■ ■■■■■■■■■ ■■ ■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■ ■■■■■■ ■■■■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■■■■■■■ ■■■■■■■■■ ■■■■ ■■■ ■■■■■ ■■■■■ ■■■■■■■■■

Music publishers can assess Halstan for coordinated score-and-parts printing and binding, subject to confirmation of project acceptance, the seller, destination coverage, and delivery responsibility. The terms linked by Halstan are headed Harrier LLC, characterize quoted delivery times as estimates, and exclude promotional materials from the contract. ■■■■■■■■■■ ■■■■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■ ■■■ ■■■■■■■■■ ■ ■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■ ■■■■ ■■■■■■■■ ■■ ■■■■■ ■■■■■ ■■ ■■■■■■■■■ ■■■■■■■■■■■■■

Sources & Evidence

1. District Photo - Digital Printing & Fulfillment

   · District Photo advertises hardcover and softcover books, lay-flat binding options, e-commerce order integration, and fulfillment. These are company-described offerings rather than evidence that every facility supplies the same configuration. ([districtphoto.com](https://www.districtphoto.com/))

2. Halstan - Music | Print | Publishing

   · Halstan advertises sheet-music printing, orchestral works, scores with parts, hire-library material, and in-house bookbinding. Its contact section identifies offices in the United Kingdom and Germany and lists District Photo among sister operations. ([halstan.co.uk](https://www.halstan.co.uk/))

   · Company verification: Halstan advertises physical book and sheet-music printing with bookbinding and related publisher services.

3. Halstan Becomes Part of the Harrier Group

   · Halstan's June xx.xx 2026 announcement states that Harrier acquired all its UK and German print interests and that its team, customer relationships, and daily operations would continue unchanged. It expressly names the District Photo Harrier Group but does not set out the complete legal ownership chain. ([halstan.co.uk](https://www.halstan.co.uk/halstan-becomes-part-of-the-harrier-group/))

   · Company verification: Halstan's announcement places its business within Harrier and expressly identifies the District Photo Harrier Group.

4. Harrier LLC Terms of Business

   · The business terms linked from Halstan are headed Harrier LLC. They describe quoted delivery times as estimates, exclude promotional materials from the contract, and require signed written variations. Their application to a particular order must be established from that agreement. ([halstan.co.uk](https://www.halstan.co.uk/Terms-And-Conditions.pdf))

22.18. Jostens, Inc.

■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■ ■■■■■■■■■■■■ ■■■■■■■■ ■■■■■ ■■■ ■■■■■■■■■■■■ ■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■■■ ■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■■ ■■■■■ ■■■■■

RESEARCH SAMPLE REPORT

■■■■■■■■ ■■■ ■■■■■■■■ The commercial proposition therefore extends beyond accepting a completed book: it supports the school's publication and ordering program. These advertised functions do not independently establish improved completion or delivery outcomes.

Institutional appointment and individual purchasing remain separate decisions. Roanoke County's July xx.xx 2024 notice of intent to award RCPS Yearbook Printing Services named Jostens alongside other providers. ■■ ■■■■■■■■■ ■ ■■■■■■■■■■■ ■■■■■■■■■ ■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■■■ ■■ ■■ ■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■■■■ ■■■■ ■■■■■■■■■■■■■■■ ■■■ ■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■ ■■■■■■■ ■■■■■■■■■ ■■■■■■■■■ ■■■■ ■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■ ■■■■ ■■■■■■■■ ■■■■■■■ ■■■■■■■ ■■ ■■■ ■■■■■■■■ ■■■■■■■ ■■ ■■■■■■■ ■■ ■■■ ■■■■■■■■ ■■■■■■■■■

■■■ ■■■■■■■■■ ■■■■■■■■■ ■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■ ■■ ■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■ ■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■ ■■■■■■■■ ■■ ■■■ ■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■■ Schools should settle deadlines and reuse permissions before adopting the bundle; integrated coordination can conflict with independent reprinting flexibility. The executed school agreement determines the actual commitment.

Sources & Evidence

1. Yearbooks | Jostens
   - Jostens provides school-linked yearbook ordering for students and families. The offering states that personalization availability and advertising options vary by school. ([jostens.com](https://www.jostens.com/yearbooks/students-and-parents/about-yearbooks))
   - Company verification: Jostens maintains a current commercial school-yearbook offering and ordering route.
2. Yearbook Creation Tools | Jostens
   - Jostens advertises Yearbook Avenue planning, page assignment, progress tracking, and submissions. It also describes distribution tools that track payments and book pickups. These are advertised functions, not independent evidence of better school outcomes. ([jostens.com](https://www.jostens.com/yearbooks/advisers-and-staff/creation-tools))
3. Notice of Intent to Award - RFP 2024-098, RCPS Yearbook Printing Services
   - Roanoke County's July xx.xx 2024 notice of intent to award RFP 2024-xx.xx RCPS Yearbook Printing Services, names Jostens Inc. and other providers. The document is an intent notice, not proof of completed delivery or an exclusive appointment. ([roanokecountyva.gov](https://www.roanokecountyva.gov/DocumentCenter/View/xx.xx))
   - Company verification: A July xx.xx 2024 Roanoke County notice of intent to award yearbook-printing services names Jostens Inc.
   - Company verification: The notice establishes a dated buyer-side supplier relationship, not fulfillment or current sales.
4. Jostens Yearbook Agreement Printing Terms
   - Jostens' published agreement form limits digital tools to Jostens production, prohibits third-party printing of tool-created production materials, and conditions shipment on the deadline schedule and timely customer submissions. It does not establish any school's negotiated terms. ([jostens.my.salesforce-sites.com](https://jostens.my.salesforce-sites.com/terms?Lid=YBKUS))
5. Jostens, A Platinum Equity Portfolio Company
   - Company verification: Platinum Equity identifies Jostens as an active portfolio company acquired from Newell Brands in December 2018.
   - Company verification: The portfolio description explicitly includes yearbooks, establishing ownership context for the captured yearbook offering and buyer notice.

22.19. Bubu

Bubu offers a separately commissioned Bookbinding & Finishing relationship: its B2B Print service expressly accepts customer-supplied printed flat sheets for hardcover books, brochures, and flatbooks. Its legal notice identifies Bubu AG in Mönchaltorf, Switzerland. ■■■ ■■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■■■ ■■■■■■■■ ■■■■■■■■■■■■■ ■■■■ ■■ ■■ ■■■■■■■■■ ■■■■■■■■■■■■■■■■■■■ ■■■■■■ ■■■■■■ ■■■■ ■■ ■■■■■■■■■ ■■■■ ■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■■■

■■■■ ■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■ ■■ ■■■■■■■■ ■ ■■■■■■■■ ■■■■■■■■ ■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■ ■■■■■■■■■■■■■ ■■■ ■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■ The consumer-facing photo-book route should not be treated as an interchangeable trade-binding contract. Swiss production and advertised shipping likewise do not establish destination-specific commitments or coverage of every accepted book format.

Where incorporated, the dpsuisse terms linked by Bubu condition delivery deadlines on timely customer inputs and approvals and do not require the company to inspect customer-delivered materials. Buyers splitting printing from binding should agree the handoff, defect responsibility, and shipment commitments before ordering. ■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■ ■■■■■■■■ ■■ ■■■■■■■■■■ ■■ ■■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■ ■■■■■■■ ■■ ■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■ ■■■■ ■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■■ ■■■ ■■■ ■■■■■■■ ■■■■■■■

Sources & Evidence

1. Print Finishing for B2B Print | Bubu
   · Bubu's B2B Print offering expressly accepts customer-supplied printed flat sheets for hardcover books, brochures, flatbooks, and other printed products. This establishes an advertised external binding and finishing relationship. ([bubu.ch](https://www.bubu.ch/en/solutions/b2b-print/))
2. Divisions | Bubu
   · Bubu describes project-management support, storage, and shipping of finished products. Its divisions page separately presents the Bubu binding business and Bookfactory photo-book offering and identifies Swiss production. It does not establish a specific project's destination coverage. ([bubu.ch](https://www.bubu.ch/en/about-us/divisions/))
3. Legal Information | Bubu
   · Bubu's legal information identifies Bubu AG and its headquarters in Mönchaltorf, Switzerland. This establishes the website's named operating business, not a complete ultimate-ownership assessment. ([bubu.ch](https://www.bubu.ch/en/footer-navigation/legal-information/))
4. T&Cs and Privacy Policy | Bubu
   · Bubu's terms page links to the dpsuisse general terms, establishing the connection between the company offering and the separately inspected commercial conditions. ([bubu.ch](https://www.bubu.ch/en/footer-navigation/agb/))
5. General Terms and Conditions - dpsuisse, July 2023 Version
   · The linked dpsuisse general terms, internally dated July 2023, condition delivery deadlines on timely customer inputs and approvals and disclaim an obligation to inspect customer-delivered materials. Individual contractual arrangements take precedence where these terms are incorporated. ([bubu.ch](https://www.bubu.ch/fileadmin/user_upload/bubu/Downloads/AGB/dpsuisse-AGB_2024_EN.pdf))

6. Bubu - We bind - Bubu
   - Company verification: Bubu's official English business site identifies the Bubu brand and presents a binding business.

Sources & Evidence

1. Report to confirm compliance with Bill S-211 - Friesens Corporation - April 29, 2025
   - Company verification: The 2025 statutory supply-chain report identifies Friesens Corporation as a Manitoba-registered, employee-owned company manufacturing printed books in Canada.
   - Company verification: The report identifies two book-manufacturing facilities in Altona and domestic and international sales.
2. CJK Group Propels Sheridan to New Heights with Strategic Rebranding of Kodi Collective
   - Company verification: The corporate announcement identifies Chris Kurtzman as owner and CEO of CJK Group, Inc.
   - Company verification: It places Sheridan and the integrated Kodi offset facilities within CJK's operating representation.
   - Company verification: CJK describes integrating Kodi Collective offset-print facilities into the Sheridan brand.
   - Company verification: The announcement identifies CJK Group, Inc. as the parent of Sheridan and other service businesses.
3. Sheridan Introduces Next-Generation HP Technology to advance digital print quality
   - Company verification: A June xx.xx 2026 corporate announcement documents continuing investment in Sheridan's digital-print business, corroborating active operations within CJK.
4. Ingram Content Group - About
   - Company verification: Ingram Content Group identifies itself as part of Ingram Industries.
   - Company verification: Its corporate record identifies Lightning Source within its printing and distribution footprint.
5. Share & Sell Terms of Sale
   - Company verification: Terms updated April xx.xx 2026 identify Lightning Source LLC, Ingram Content Group UK Ltd, and Ingram Content Group Australia Pty Ltd as transaction counterparties.
6. Ingram Content Group at Frankfurt Book Fair
   - Company verification: Ingram's October 2026 Frankfurt Book Fair presentation markets print-on-demand and distribution services together.
   - Company verification: The presentation separately identifies the Lightning Source Sharjah joint-venture route, rather than describing every location as wholly owned.
7. Elanders Print & Packaging - Elanders Group
   - Company verification: Elanders' operating-business page supplies fiscal 2025 operating information for Print & Packaging and identifies its European and United States presence.
   - Company verification: This provides dated operating context for the separately captured dedicated book-printing offering; broader division revenue is not treated as book revenue.
   - Company verification: Elanders identifies Print & Packaging as a group operation serving printed-material and packaging customers.
   - Company verification: The operation reports a presence across several European countries and the United States.

8. Bertelsmann Marketing Services
   - Company verification: Bertelsmann's Marketing Services page supplies fiscal 2025 operating information for the division containing its book-printing businesses.
   - Company verification: The division is a consolidated Bertelsmann representation, not a separate additional candidate.
   - Company verification: Bertelsmann identifies wholly owned Marketing Services as including book-printing businesses in Germany and the United States.
   - Company verification: The disclosed operation includes Mohn Media, GGP Media, and the U.S. Book Printing Group.
9. Lakeside Book Company Acquires Marquis Book Printing, Inc.
   - Company verification: Atlas' June xx.xx 2023 transaction announcement connects Lakeside with Atlas-owned LSC Communications.
   - Company verification: It places Marquis within Lakeside's book-manufacturing representation and identifies the acquired Canadian production business.
10. Our History - Walsworth
    - Company verification: Walsworth identifies continuing family ownership, school-yearbook and commercial-book businesses, and multiple Midwest operating facilities.
    - Company verification: Its history distinguishes the printing business from its separately described specialty-publishing activity.
11. Andy Billett - Walsworth
    - Company verification: Walsworth reports acquiring Documation on January xx.xx 2025 and integrating the print-on-demand operation as Walsworth - Eau Claire.
    - Company verification: This supplies a dated operating-perimeter update without creating a separate acquired-company representation.
12. Amazon.com, Inc. - Form 10-K for the fiscal year ended December 31, 2025
    - Company verification: Amazon's fiscal 2025 Form xx.xx-K establishes Amazon.com, Inc. as the current reporting parent and documents continuing operations.
    - Company verification: The parent-level record supplements, rather than replaces, the captured KDP physical-book printing evidence.
13. We've produced our 500,000,000th book!
    - Company verification: FINIDR's June xx.xx 2025 business announcement identifies Jaroslav Drahoš as owner.
    - Company verification: It identifies a recently manufactured book and the external German publishing customer WondaVersum GmbH, corroborating active international book production.
14. ScandBook Holding AB - Delårsrapport tredje kvartalet 2025
    - Company verification: ScandBook Holding AB's November xx.xx 2025 interim report states that the Nörhaven Book transaction closed in Viborg on October xx.xx 2025.
    - Company verification: The report documents the continuing book-production group and the acquired business's integration, resolving the earlier announcement-only closing qualification.
15. e7 Group Integrated Report 2025
    - Company verification: e7 Group's 2025 integrated report establishes the listed e7 Group PJSC reporting identity and continuing book-printing activities.
    - Company verification: The subsidiary disclosure identifies wholly owned United Printing and Publishing - Sole Proprietorship L.L.C as an operating company printing books and other materials.
    - Company verification: The report describes textbook-printing and educational-customer relationships, providing a book-specific commercial bridge distinct from unrelated security and packaging activities.

16. Academy Press Plc - Consolidated and Separate Audited Financial Statements for the year ended March 31, 2025
    - Company verification: Academy Press' audited financial statements for the year ended March xx.xx 2025 establish its Nigerian public-company identity and continuing operations.
    - Company verification: The directors identify educational and general-book printing as company activities and distinguish subsidiaries' security-printing and packaging activities.
    - Company verification: The filing supplies shareholder and consolidation disclosures supporting assessment at the Academy Press reporting level.
17. Kyodo Printing Group Corporate Report 2025
    - Company verification: Kyodo Printing's Corporate Report 2025 establishes continuing group operations and publication printing within its Information & Communication business.
    - Company verification: The report supports the Kyodo Printing parent representation; unrelated industrial and security products are not counted as book services.
18. Jostens, A Platinum Equity Portfolio Company
    - Company verification: Platinum Equity identifies Jostens as an active portfolio company acquired from Newell Brands in December 2018.
    - Company verification: The portfolio description explicitly includes yearbooks, establishing ownership context for the captured yearbook offering and buyer notice.
19. Prodigi acquires cloud printing platform Peecho
    - Company verification: Prodigi's April xx.xx 2024 announcement states that it acquired Peecho and describes Peecho's photo-book print-on-demand business.
    - Company verification: The ownership relationship prevents treating Peecho as an independent economic competitor alongside a consolidated Prodigi representation.
    - Company verification: Prodigi publicly identifies Peecho as an acquired business, establishing overlap between the two staged representations.
20. FAQ: About Prodigi
    - Company verification: Prodigi's current FAQ specifies December 2023 as the acquisition period for Peecho; the April 2024 article is the announcement date.
    - Company verification: The FAQ continues to describe Peecho's personalized photo-book business within the group.
    - Company verification: Prodigi describes a hybrid fulfillment model combining in-house facilities and external manufacturing partners.
    - Company verification: Its FAQ identifies Peecho as an acquired group business, rather than an unrelated platform.
21. About - Kompap.pl
    - Company verification: Kompap's corporate page identifies OZGraf and BZGraf within its group and describes their book, album, and textbook-printing businesses.
    - Company verification: The page supports a group-level book-service role and European customer presence without establishing a market ranking.
22. Druk dziełowy i usługi poligraficzne - Kompap.pl
    - Company verification: Kompap's dedicated commercial page offers book, album, and publication printing through OZGraf and BZGraf.
    - Company verification: This resolves the previously missing inspected book-offering support, but does not itself reconcile current legal reorganization or ownership.
23. Liberdúplex - LinkedIn company profile
    - Company verification: Liberdúplex's company-maintained public profile identifies printing and binding, book-related specialties, and a Barcelona-area headquarters.
    - Company verification: The profile states membership in Grupo Editorial Prensa Ibérica; this is self-reported ownership context, not registry verification or proof of current deliveries.

24. Book Printing & Manufacturing Services | Lakeside Book Company
    - Company verification: Lakeside Book Company advertises offset and digital book printing, binding, and finishing.
    - Company verification: Its offering includes slipcases, boxed sets, and kits on a North American production platform.
25. LAKESIDE BOOK COMPANY ACQUIRES MARQUIS BOOK PRINTING, INC.
    - Company verification: Lakeside announced its acquisition of all outstanding Marquis Book Printing shares on June xx.xx 2023.
26. Sheridan - CJK Group
    - Company verification: CJK identifies Sheridan among its companies and describes book-printing operations at multiple U.S. locations.
    - Company verification: The listed services include book binding, kitting, and fulfillment.
27. Print-On-Demand
    - Company verification: Ingram offers book print-on-demand through Lightning Source.
    - Company verification: The service combines production with publisher-direct supply, distribution, and drop shipping.
28. Friesens Book Printing | Quality Solutions for Every Project
    - Company verification: Friesens advertises printed-book manufacture for publishing houses, independent publishers, universities, museums, and galleries.
    - Company verification: Its book-business page identifies customer service coverage in Canada and the United States.

123. Narayana Press
    - Company verification: Identifies Narayana Press as a graphic business in Gylling, Denmark.
    - Company verification: Offers quality-book production through delivery of bound books.
124. Booksfactory.eu - General terms and conditions
    - Company verification: The commercial terms identify BOOKS FACTORY Sp. z o.o. as the contracting business, with a Szczecin address and Polish registration details.
125. Booksfactory - Booksfactory.eu
    - Company verification: The company's commercial site advertises book printing, bookbinding, and book-finishing services.
126. Totem Digital Printing House | Short- and medium-run book printing
    - Company verification: Totem's official English-language commercial page markets digital book printing for short and medium runs.
127. Regiset - Comunicação e Artes Gráficas
    - Company verification: Identifies Regiset, S.A. as a Portuguese printing and finishing business with a Setúbal address.
    - Company verification: Explicitly includes books and art catalogs among its commercial services.
128. Produzione e Stampa Libri, Editoria Scolastica e per Bambini, Stampa Offset | GV Group
    - Company verification: Grafica Veneta's official web address resolves to a Grafica Veneta page on the GV Group website.
    - Company verification: The commercial page identifies book production and printing, including educational and children's publishing work.
129. Printon Printing House based in Estonia - Printon AS
    - Company verification: Printon AS advertises books among its products and printing, binding, finishing, and logistics among its services.
    - Company verification: Its site displays a notice that two companies have joined forces, without resolving the counterparty in the inspected material.

130. Company Profile | High Quality Printing Press | Emirates Printing Press
    - Company verification: The company profile identifies Emirates Printing Press LLC as a Dubai operation within the Al Shirawi Group and its Oasis holding-company structure.
    - Company verification: The page distinguishes this operation from similarly named regional printing businesses.
131. Emirates Printing Press - Commercial and Folding Carton Brochure
    - Company verification: The company brochure includes illustrated-book work for regional and international clients.
    - Company verification: The advertised services include book finishing and hardcover and softcover binding.
132. Printing - Secure Printing and Packaging Solutions in the UAE
    - Company verification: e7 advertises book printing, on-demand printing, hardcover binding and integrated fulfillment.
    - Company verification: The service page identifies publishing and educational customers and gives an Abu Dhabi, UAE business address.
133. Al Ghurair Printing and Publishing L.L.C
    - Company verification: Intergraf's certification record identifies Al Ghurair Printing and Publishing L.L.C and a Dubai, UAE address.
    - Company verification: The certification record establishes a named printing entity, not a current book-printing portfolio or book-sales record.
134. Oriental Press - Official Website
    - Company verification: Oriental Press describes a Bahrain-founded printing group with Bahrain, Dubai and UK operations.
    - Company verification: Its business presentation advertises colored-book manufacturing and identifies the Dubai book-production business within the group.
135. Obeikan Commercial Printing - Obeikan Investment Group
    - Company verification: Obeikan Investment Group identifies Obeikan Commercial Printing as its original printing business in Saudi Arabia.
    - Company verification: The commercial-printing page expressly presents book production as a business offering.
136. Premium Book Printing Services | Mazoon Printing
    - Company verification: Mazoon maintains a dedicated commercial book-printing product page.
    - Company verification: The company's inspected business presentation identifies its Muscat, Oman operation and the Mazoon Printing, Publishing & Packaging LLC name.
137. Educational Book Printing Services | Mazoon Printing
    - Company verification: Mazoon separately advertises educational-book printing.
    - Company verification: This is a commercial offering, not evidence of independently verified production volume or market leadership.
138. Commercial Printing Press in Kuwait
    - Company verification: Costa Printing Press advertises book printing and binding, including short-run books, alongside other commercial printing services.
    - Company verification: Its business page identifies Kuwait operations and a local industrial-area contact address.
139. Al Jazeera Printing Press
    - Company verification: Al Jazeera Printing Press's portfolio includes an entry labeled National Climate Change Action Plan - BOOK.
    - Company verification: The business page provides a Doha, Qatar address; the portfolio entry does not independently establish current book-service deliveries.

140. Books & Magazines - Central Press
    - Company verification: Central Press maintains a dedicated Books & Magazines service page advertising softcover and hardcover book production.
    - Company verification: The business gives an Amman, Jordan contact address.
141. About Us - Central Press
    - Company verification: Central Press's company description characterizes the business as privately owned and founded by Yousef Hammad.
    - Company verification: This is company-reported ownership context; the site contains unrelated injected links and requires independent corroboration.
142. Welcome to APP - Arab Printing Press
    - Company verification: Arab Printing Press identifies a Beirut operation serving book and magazine customers.
    - Company verification: Its commercial portfolio includes school and art books, binding and delivery.
    - Company verification: The company presentation identifies a Baghdad-related Arab Printing Press business; the precise legal relationship remains unresolved.
143. Raidy Printing Group | LinkedIn
    - Company verification: Raidy's company-maintained profile advertises book and publication printing.
    - Company verification: The profile identifies Beirut-area headquarters and describes the company as privately held; these are self-reported facts.
144. Hima Guideline Manual - Printing Credit
    - Company verification: The archived Hima Guideline Manual credits Chemaly & Chemaly printing press as its printer.
    - Company verification: The credit establishes a customer printing relationship, not current company availability or ownership.
145. Promat - Printing Product Groups
    - Company verification: Promat's commercial product catalog advertises hardcover books and books for fiction, educational, research, children's and cultural publishing.
    - Company verification: The offerings include book printing and binding rather than publishing-only services.
146. Binding & Finishing - Mega Basım
    - Company verification: Mega advertises bookbinding and finishing, including hardcover and paperback formats.
    - Company verification: The service page gives an Istanbul, Turkey business address.
147. İmak Offset - Company Brochure
    - Company verification: İmak's company brochure advertises hardcover-book production and associated packaging and delivery services.
    - Company verification: The brochure provides direct company-origin support for its book-manufacturing role, while current ownership remains unresolved.
148. Ofset Yapımevi
    - Company verification: Ofset Yapımevi advertises printing and binding for art, photography and architecture books.
    - Company verification: Its commercial presentation identifies an Istanbul, Turkey printing business.
149. Kitaplar - Matsis Matbaa Sistemleri
    - Company verification: Matsis Matbaa Sistemleri maintains a Turkish-language book catalog presenting produced books and binding choices.
    - Company verification: The catalog supports an advertised book-production role but does not resolve the legal operator, ownership or operating address.

150. Dergi - Kitap Baskıları - Hizmetler - Matsaş Dijital Ofset ve Matbaa
    - Company verification: Matsaş advertises magazine and book printing for authors and other publishing customers.
    - Company verification: Its service page identifies production and headquarters in Kartal, Istanbul, and service delivery across Turkey.
151. İstanbul Kitap, Dergi ve Katalog Basımı | EGEM Basım Yayın
    - Company verification: EGEM Basım Yayın's business presentation advertises book, magazine and catalog printing in Istanbul.
    - Company verification: The observed commercial name does not establish its complete legal entity or ownership.
152. About Jangal - Jangle Printing House
    - Company verification: Jangal describes printing and binding as a business within the Jangal group.
    - Company verification: It expressly advertises work for outside domestic and foreign publishers and institutions, not solely affiliated publishing.
    - Company verification: The profile identifies Iranian operations and international customer relationships.
153. □□□□□□ □□□□□□ □ □□□□□□□□ □□□□ | □□□□□□ □□□□□□ □ □□□□□□□□ □□□□ □□□□□
    - Company verification: An official Iranian education-bureau history identifies □□□□ □□□□ and describes its textbook-printing role.
    - Company verification: This establishes historical identity and activity, not current commercial availability, ownership or production volume.
154. □□□□□□□ □□□□ | □□□□□□□ □□□□□
    - Company verification: Printiv's Hebrew company profile describes book and album production and an in-house bindery.
    - Company verification: The profile identifies institutional customers, a Jerusalem address and association with the Zamir Bar-Lev business group.
155. Al-Ayyam Printing, Press, Publication & Distribution
    - Company verification: Massar's investment material identifies Al-Ayyam Printing, Press, Publication & Distribution.
    - Company verification: The business description connects the Palestinian operation with printing and distribution of books and other publications; current deliveries are not established.
156. Zhiyan Iraq
    - Company verification: The inspected Arabic business page presents the Zhiyan Iraq identity and printing services.
    - Company verification: The retrieved support does not establish a current external book-printing offering.
157. Fadaa House Library | Professional Printing, Publishing Distribution Services
    - Company verification: A website using the Fadaa Services name advertises book printing, binding and distribution across Iraq.
    - Company verification: The page lists books and hard-case books; inconsistent template content means these are advertising claims rather than independently verified operating facts.
158. □□□□□ □□□□□□□ - □□□□ □□□□□ | □□□□□□ □□□□□□□ □□□□ □□□ □□ □□□□□
    - Company verification: Dar Raslan's Arabic contact page advertises book-printing and publishing services and a Damascus branch alongside Cairo.
    - Company verification: Example-style contact details limit the page's value as proof of a current Syrian operating establishment.
159. Book Printing | CTP Printers
    - Company verification: CTP Printers advertises hardcover, softcover, educational, general-interest, and religious-book printing and binding in South Africa.

160. Caxton & CTP - Integrated Annual Report 2025
    - Company verification: The official 2025 integrated annual report establishes the Caxton and CTP reporting-group identity.
161. About Us | Print On Demand
    - Company verification: Describes book printing, binding, and distribution services for authors and publishers, with a business history serving South African authors.
162. Print-on-demand - InsideData
    - Company verification: Advertises print-on-demand services for educational and published books and children's readers.

247. A new Group Chief Executive at CPI
    - Company verification: CPI's February xx.xx 2023 announcement identifies Elpis Management Limited as CPI's sole shareholder.
    - Company verification: This establishes a dated group-ownership link, not the complete current multinational legal perimeter.
248. CPI GROUP (UK) LTD persons with significant control
    - Company verification: Companies House lists Elpis 2022 Ltd as CPI Group (UK) Ltd's active person with significant control, notified December xx.xx 2025.
249. ELPIS 2022 LIMITED persons with significant control
    - Company verification: Companies House lists Elpis Management Limited as the active corporate person with significant control of Elpis 2022 Limited.
    - Company verification: The record connects CPI's disclosed owner with the registered controlling entity above its UK business.

250. ELPIS MANAGEMENT LIMITED persons with significant control
   - Company verification: Companies House lists Elpis Finance Limited as the active person with significant control of Elpis Management Limited.
251. ELPIS FINANCE LIMITED persons with significant control
   - Company verification: Companies House lists Elpis Holdings Limited as the active person with significant control of Elpis Finance Limited.
252. ELPIS HOLDINGS LIMITED persons with significant control
   - Company verification: Companies House lists Bidco xx.xx Limited as the active person with significant control of Elpis Holdings Limited.
253. BIDCO 3 LIMITED persons with significant control
   - Company verification: Companies House lists Richard Ian Hughes as the active person with significant control of Bidco xx.xx Limited.
   - Company verification: Together with the separately mapped corporate-control records, this supports an inferred UK CPI control chain to Richard Ian Hughes.
254. Global Print Solutions | Services | CPI Print UK
   - Company verification: CPI UK advertises coordinated international physical-book production through its Global Print Solutions network.
   - Company verification: Its UK roster names Griffin Press and Ligare in Australia, whereas the captured global services roster names Pegasus; these undated rosters do not resolve the precise current Australian partner perimeter.
   - Company verification: CPI UK continues to name BR Print as a U.S. production-network partner.
   - Company verification: The page does not establish the legal equivalence of BR Print and BR Printers.
   - Company verification: CPI UK names Publishers Graphics as a U.S. partner for locally produced physical books.
   - Company verification: This corroborates the network role without establishing Publishers Graphics' ownership or Canadian production arrangements.
255. Knihy | Neografia.sk
   - Company verification: NEOGRAFIA's specific commercial portfolio offers illustrated, children's, educational, reference, and other books.
   - Company verification: The advertised portfolio includes hardcover and softcover bookbinding and a Martin-Priekopa, Slovakia business address.
256. O nás | Neografia.sk
   - Company verification: NEOGRAFIA's company profile describes commercial book production and international publisher relationships.
   - Company verification: The page documents named book projects associated with its 2025 awards, but its undated financial and capacity figures are not used as current commercial scale.
257. Oznámenie o potvrdení reštrukturalizácie - NEOGRAFIA
   - Company verification: NEOGRAFIA states that a court confirmed its restructuring plan and identifies continuity of production and customer orders as a continuing objective.
   - Company verification: The same news page includes a creditor notice covering claims arising by December xx.xx 2025, with a February xx.xx 2026 filing deadline.
   - Company verification: The confirmation statement is company-reported and undated; the court order and current implementation position were not independently inspected.
258. BORME-A-2026-16-08 BARCELONA
   - Company verification: The Spanish commercial-register bulletin records LIBERDUPLEX SL under Barcelona registry sheet B xx.xx.
   - Company verification: Entry xx.xx records appointment of GM AUDITORS SL on January xx.xx 2026, providing recent legal-identity corroboration rather than proof of current book deliveries.

259. Lion Rock Group Limited - Annual Report 2024
   - Company verification: Lion Rock's audited 2024 annual report lists Asia Pacific Offset Limited and Asia Pacific Offset Group Limited as wholly owned indirect subsidiaries providing printing services.
   - Company verification: The same subsidiary disclosure places Ligare and Griffin Press Printing within the group's Australian reporting perimeter.
   - Company verification: These records establish an economic reporting overlap with the separately retained Asia Pacific Offset identity.
   - Company verification: Lion Rock's audited 2024 subsidiary disclosure identifies Asia Pacific Offset Limited and Asia Pacific Offset Group Limited within its consolidated printing business.
   - Company verification: The retained Asia Pacific Offset representation therefore cannot be presumed independent of Lion Rock.
260. Lion Rock Group Limited - Retirement of Directors, Appointment of Executive Director and Change of Authorised Representative
   - Company verification: Lion Rock's December xx.xx 2025 announcement expressly identifies Asia Pacific Offset Limited as a subsidiary.
   - Company verification: This later mandatory disclosure corroborates the subsidiary relationship established in the audited 2024 report.
   - Company verification: The December xx.xx 2025 announcement continues to identify Asia Pacific Offset Limited as a Lion Rock subsidiary.
261. OPUS Group - Services
   - Company verification: OPUS's specific services portfolio identifies Ligare, McPherson's Printing Group, and Griffin Press as book-production businesses.
   - Company verification: The offering includes book printing, binding, print-on-demand, warehousing, and fulfillment for publishing customers.
   - Company verification: Combined with the retained completed OPUS transaction, this supports these operating brands within the existing Lion Rock representation rather than as additional independent competitors.

24. Key Experts

The represented publishing houses, book manufacturers, equipment suppliers, industry associations, advisory practices, trade publications, and universities provide professional perspectives relevant to book-service procurement, production partnerships, and the wider publishing value chain. Their listed affiliations span countries in the Americas, Europe, Africa, Asia, the Middle East, and Oceania, providing geographic context without implying uniform representation of every market.

Contributors

Shikha Sachan

Chief Executive Officer

A transformational leader with a strong focus on integrating new technology frameworks into market research. She focuses on reshaping business models in line with evolving technologies and geopolitical shifts, while actively engaging with decision-makers and experts to deliver trustworthy insights, strategic clarity, and lasting business value.

Shraddha Bhirud

Research Manager

With extensive experience in market intelligence, leads complex client engagements by overseeing multiple research projects from initiation to delivery. Strengthens research operations timely through standardized methods, process optimization, and cross-functional collaboration while supporting sales initiatives. Her commitment to quality, and client success ensures the delivery of actionable insights.

Shailesh Sachan

Research Lead

Leads market intelligence projects by guiding research analysts and ensuring accurate, insight-driven deliverables. Specializes in competitive benchmarking, market assessment, research planning, data validation, and project execution. Delivers high-quality outcomes through effective client coordination, structured workflows, and consistent adherence to project timelines and quality standards.

Vivek Paymode

Research Lead

Oversees end-to-end research engagements by mentoring analysts and delivering reliable market intelligence. Specializes in industry analysis, company profiling, trend evaluation, opportunity assessment, and quality assurance. Collaborates closely with clients and internal teams to ensure actionable insights that support informed strategic business decisions.

360iResearch

Founded in 2017, 360iResearch is a market research and business consulting company headquartered in India, with clients and focus markets spanning the globe.

We are a dynamic, nimble company that believes in carving ambitious, purposeful goals and achieving them with the backing of our greatest asset - our people.

Quick on our feet, we have our ear to the ground when it comes to market intelligence and volatility. Our market intelligence is diligent, real-time and tailored to your needs, and arms you with all the insight that empowers strategic decision-making.

Our clientele encompasses about 80% of the Fortune Global 500, and leading consulting and research companies and academic institutions that rely on our expertise in compiling data in niche markets. Our meta-insights are intelligent, impactful and infinite, and translate into actionable data that support your quest for enhanced profitability, tapping into niche markets, and exploring new revenue opportunities.
