These geographic groups overlap and are non-additive analytical views, not separate markets to combine.

Figure 27. Global Crowd Management Software Market Size, by Group, 2025 vs 2026 vs 2032

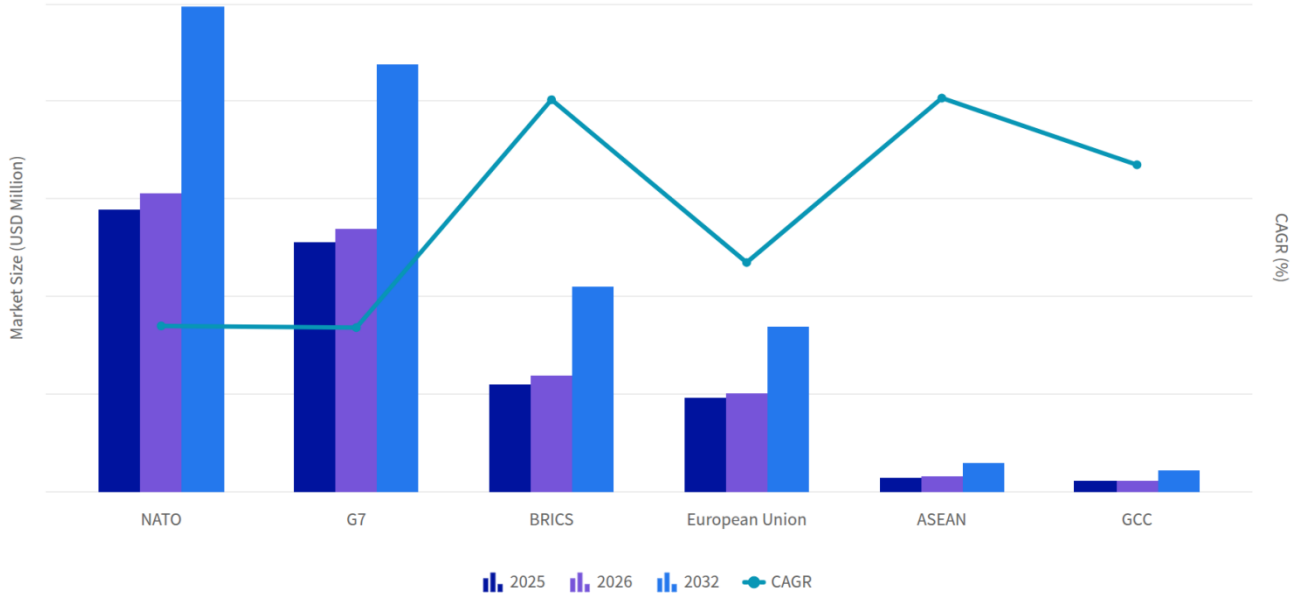

Table 223. Global Crowd Management Software Market Size, by Group, 2017-2040 (USD Million)

Group	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
ASEAN	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
BRICS	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
European Union	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
G7	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
GCC	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
NATO	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx

Sources & Evidence

1. Guidelines 3/2019 on Processing of Personal Data Through Video Devices
   · The guidance establishes personal-video-processing requirements, not procurement eligibility for unrelated EMEA institutions.
   ([edpb.europa.eu](https://www.edpb.europa.eu/sites/default/files/files/file1/edpb_guidelines_201903_video_devices_en_0.pdf))
2. Data Act explained
   · For covered data-processing services, the Data Act addresses contract transparency, open interfaces and customer-generated data export, with provider intellectual-property and trade-secret exclusions.
   ([digital-strategy.ec.europa.eu](https://digital-strategy.ec.europa.eu/en/factpages/data-act-explained))
3. Privacy and outsourcing for businesses - Office of the Privacy Commissioner of Canada
   · Canadian outsourcing guidance illustrates a national accountability condition rather than a uniform Americas authorization.
   ([priv.gc.ca](https://www.priv.gc.ca/en/privacy-topics/employers-and-employees/outsourcing/02_05_d_57_os_01/?wbdisable=true))

4. Find A Qmatic Partner
   · Qmatic lists Renovotec for Sweden, Norway and Denmark, with separate partners in Finland and Iceland; the directory does not establish uniform service terms. ([qmatic.com](https://www.qmatic.com/partner-directory))
5. Personal Data Protection
   · The OAS identifies its updated privacy principles as soft law intended to guide and strengthen national frameworks. ([oas.org](https://www.oas.org/ext/en/democracy/personal-data-protection))
6. ASEAN Model Contractual Clauses for Cross Border Data Flows
   · ASEAN's clauses are voluntary templates covering controller-to-processor and controller-to-controller relationships, with national-law requirements and other transfer mechanisms recognized. ([asean.org](https://asean.org/wp-content/uploads/xx.xx-ASEAN-Model-Contractual-Clauses-for-Cross-Border-Data-Flows_Final.pdf))
7. Procedural Rules for Tenders in the General Secretariat of the Gulf Cooperation Council (GCC) - October 2018
   · The GCC Secretariat's rules distinguish local and international tenders, impose registration conditions and recognize applicable GCC treatment. Their scope is Secretariat procurement, not every member-country buyer. ([gcc-sg.org](https://www.gcc-sg.org/en/GeneralSecretariat/Tenders/Rules/Pages/default.aspx))
8. Do you need to include economic benefits in your contract? | New Zealand Government Procurement
   · New Zealand guidance states that the Australia New Zealand Government Procurement Agreement gives both countries' suppliers equal opportunity and treatment, including in applying the stated below-threshold rule. ([procurement.govt.nz](https://www.procurement.govt.nz/guides/rule-xx.xx-guidance-handbook/economic-benefits-essentials/do-you-need-to-include-economic-benefits-in-your-contract/))
9. Rio de Janeiro Declaration: Strengthening Global South Cooperation for a More Inclusive and Sustainable Governance
   · The 2025 BRICS declaration encourages digital-public-infrastructure cooperation while recognizing national legislative frameworks; it does not establish a crowd-software procurement. ([ndb.int](https://www.ndb.int/wp-content/uploads/2025/xx.xx/xx.xx-BRICS-Leaders-Declaration-EN.pdf))
10. Data free flow with trust | OECD
    · OECD describes G7-supported Data Free Flow with Trust cooperation concerning privacy, security and intellectual property, including institutional work to operationalize that policy direction. ([oecd.org](https://www.oecd.org/en/about/programmes/data-free-flow-with-trust.html))
11. Procurement Opportunities
    · NATO states that eligibility is specified by each procurement call and opportunities are generally reserved for firms registered in member nations, with exceptions possible. ([nato.int](https://www.nato.int/en/work-with-us/business-and-project-opportunities/procurement-opportunities))

Indoor and Outdoor	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Outdoor	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Sources & Evidence

1. FDIC Releases Results of Summary of Deposits Annual Survey
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June 2025 survey covers more than xx.xx domestic offices, constraining the scale of the institutional buyer footprint but not paid software adoption.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June 2025 survey covers more than xx.xx domestic offices, constraining the scale of the institutional buyer footprint but not paid software adoption.

2. Pathfinder Pricing

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))

3. LEGION | Bentley Systems
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))

4. Qmatic Welcomes New CEO and Vice CEO
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate.
   ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate.
   ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))

5. Qmatic | FAQs
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))

6. accesso Technology Group plc - Results for the six months ended 30 June 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts. ([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts. ([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half virtual-queuing revenue fell from USD xx.xx to USD xx.xx, constraining the inherited royalty forecast partly allocated to flow.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed customer-contract-related royalty decline is counterevidence to automatic visitor-software expansion; it does not observe the future purpose mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The royalty decline supports forecast caution despite a broader commercial proposition, without proving the modeled commercial share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half 2026 virtual-queuing revenue was USD xx.xx versus USD xx.xx in first-half 2025, with disclosed contract changes and seasonality. This supports a contraction mechanism, not independent verification of the modeled 2032 royalty amount.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue falls from USD xx.xx in H1 2025 to USD xx.xx in H1 2026 following customer contract changes. This independently supports the inherited royalty contraction as a forecast mix counterforce, not a measured sales-channel percentage.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed royalty change affects the relative economic weight used in the complementary channel forecast. Accesso's separate ticket-distribution revenue is not treated as indirect crowd-software sales.

7. People Counting System Pricing - Nano AI + BoostBI | V-Count
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property monitoring numerator.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property

8. Port of Seattle Commission Agenda Memorandum - Passenger Flow Metrics Project, April 26, 2022
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx ten-year recurring budget. It constrains the inherited complex-contract valuation but does not disclose the underlying application-use duration. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx

9. 5 easy packages to buy Halo for venues
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
10. Pricing | SaaS Pricing for Ticketing & POS | Venue Manager
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))

11. Digital Signage Software Pricing - ScreenCloud

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))

12. Federal Reserve Board - Foreign Exchange Rates, G.5A, January 5, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))

13. Crowd controls inside the venue - HSE
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
14. Event Access Control & Management - We are InSite
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))
15. End of Life Announcement: Qmatic Show
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 announcement schedules support cessation for October xx.xx 2027 and says the application can continue running. It supports a conditional renewal-risk mechanism, not an observed migration cohort or compulsory software-purchasing spike. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced October xx.xx 2027 support cessation supports a replacement condition, not a quantified queue purchasing spike.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No affected paid-cohort count or resource-application conversion is disclosed, supporting restraint against adding automatic staffing monetization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued operation and possible hardware requirements qualify the visitor-display replacement opportunity; replacement does not itself establish incremental software demand.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 notice sets Qmatic Show's support cessation for October xx.xx 2027 while stating that the application can continue running. This supports a conditional renewal trigger, not compulsory abandonment of local execution. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated support deadline creates an opportunity to reconsider delivery arrangements, but the notice provides neither affected software revenue nor a required move to Hosted delivery. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))

16. Gentrack Group - FY25 Investor Presentation
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo reports FY2025 recurring growth of xx.xx%, with different project and hardware movements. This provides a broader commercial comparison for the complex-site forecast, not a crowd-specific market growth rate. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed recurring growth supports ongoing commercial demand but does not identify inseparable crowd-suite contracts or verify the modeled suite mix shift. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
17. Traffic Modelling Guidelines v4
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
18. QtracVR Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
19. Xovis Brings Groundbreaking AI-Powered Solution to NRF 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
20. Why Enterprise Retailers Choose RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
21. Multi-Brand Product Showrooms
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.

22. Compare Workplace Utilization Solutions for Smarter Spaces
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
23. Ouster Accelerates Software Adoption in 2025 with Record Bookings and Global Expansion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
24. A Guide to the Passenger Movement Sensor Landscape
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
25. Location Analytics and Footfall Counting
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.

26. About Crowd Connected
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
27. Halo Solutions to Help Keep People Safe at the Belfast Arena
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
28. Our Impact - Halo Solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
29. accesso LoQueue Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
30. UCLA Facilities - Space Optimization Pilot Programs
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.

31. Health and Safety Executive - Monitor the crowd
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
32. Health and Safety Executive - Planning for incidents and emergencies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
33. Thunderhead Engineering - Pathfinder Crowd Movement Simulation and Egress Software
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
34. Port of Seattle - Spot Saver Virtual Queue Program, Commission Agenda Memorandum, September 28, 2021
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.

35. IMDA - In-Store Analytics Pre-Approval Onboarding Guide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
36. Omnivex - Leverage Digital Signage for Crowd Control
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.

37. accesso Technology Group plc - Annual Report and Accounts 2023

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))

38. The Halo System - Halo Solutions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.

39. Retail Analytics Company | Who We Are | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
40. Xovis - Swiss precision measures people flows worldwide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
41. Holiday 2024 Air Travel a Test for Tech Advances at Global Airports
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
42. TO SUPPLY, DELIVER, INSTALL AND TESTING & COMMISIONING OF AN APPOINTMENT AND QUEUE MANAGEMENT SYSTEM (AQMS) - TMC LIFE
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hospital appointment and queue-system invitation opened February xx.xx 2026 and closed March xx.xx 2026. It supports intended hospital purchasing responsibility, not an award or observed revenue.

43. Capitec Makes Banking Easier for Customers with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
44. Queue Management System at the Poltavavodokanal Customer Service Center
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
45. Simulating pedestrian vision and wayfinding with Oasys MassMotion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
46. Pathfinder Partners
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
47. Virtual Queue Management at Applebee's | Waitwhile
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
48. Telecom Company GTA Redefines its Customer Experience with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
49. SenSource Case Study: Grace Family Church
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.

50. Intuitive appointment scheduling at Sgro’s Barbershop | Waitwhile

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.

51. Attendee tracking | Real-time event attendance and session data

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.

52. Scott County Board of Supervisors, May 14, 2020 Agenda and Enclosures - Customer Queueing Application Upgrade

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))

53. Best Cloud-Based Queue Management Software | Qwaiting

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))

54. Qwaiting Pricing Plans - Queue Management Software

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))

55. Jacksonville Aviation Authority, April 28, 2025 Awards Committee Agenda - Xovis AERO Passenger Flow Management System

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))

56. Crowd watch: DASA funded AI and LiDAR innovation helps enhance crowd safety

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

57. Wavetec's Cutting-Edge Implementation of Kubernetes Architecture

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

58. Cloud vs On-Premise Queue Management Systems: Which Is Better? | Wavetec

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: In its April xx.xx 2026 description of its own offering, Wavetec identifies local queue cores combined with cloud analytics and notifications. The substantive local-plus-external application arrangement supports the Hybrid forecast premise; third-party market-research percentages on the page are not used. ([wavetec.com](https://www.wavetec.com/blog/queue-management/cloud-vs-on-premise-queue-management-systems/))

59. The Wait is Over: How Virtual Queuing is Improving Venue Guest Experiences | accesso

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

60. Software Licenses | GSA
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
61. City and County of Denver-Q-Matic Corporation Agreement, CLERK-201310119-00
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))
62. QueueRite Pricing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))

63. Pricing & Per-Solution ROI Calculators | Zeour Ltd

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))

64. Smart Retail Counter - People Counting and Queue Analytics Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))

65. Pricing and Discounts | Purchasing, Licensing, & Support 2026.1 Docs

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))

66. Bentley Systems, Incorporated - 2025 Form 10-K
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
67. Crowd Connected Pricing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
68. Qminder Terms of Service
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.

69. Business Partnership Opportunities for Queue Management - Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
70. New York City Record - December 23, 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
71. Channel Partner Program | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
72. Become a partner | Xovis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.

73. San Francisco Airport Commission - Minutes, December 2, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
74. Qmatic Welcomes TechConnect as New Solution Partner in Australia
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 Australian solution-partner announcement explicitly combines Qmatic SaaS with partner delivery. It challenges automatic cloud-to-direct attribution without supplying a forecast channel-transfer rate.
75. Partners | WaitTime
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
76. Qmatic Welcomes Corvice AG as New Premier Solution Partner in Switzerland
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2026 announcement assigns Swiss delivery, implementation and support responsibilities to Corvice. It supports continuing intermediary capability, but neither discloses software seller-of-record revenue nor quantifies a channel-share change.
77. OneGov | GSA
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.

78. Zoho Backstage - Terms of Use
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.
79. RetailNext Majority Growth Investment From Battery Ventures
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))
80. RetailNext Integrates Pine59 Mobile Intelligence For A Complete View Inside And Outside Stores
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced integration connects in-store analytics with outside-store mobile intelligence, initially in the United States, with UK coverage planned for early 2027. Availability does not establish eligible crowd-management revenue, an inseparable entitlement or paid adoption; the forecast retains a limited assumed qualifying cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
81. Assess crowd safety risks and identify hazards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))

82. accesso® Powers Virtual Queue for The Philadelphia Museum of Art Cassatt Exhibit
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))
83. accesso LoQueue Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))

16.2. G7

Table 234. G7 Crowd Management Software Market, by Country growth contribution, 2025-2032

Category	2025 value (USD Million)	2032 value (USD Million)	Added value (USD Million)	2025 share (%)	2032 share (%)	Change (pp)	Growth share (%)	CAGR (%)
Canada	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
France	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx

Sources & Evidence

1. FDIC Releases Results of Summary of Deposits Annual Survey
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June 2025 survey covers more than xx.xx domestic offices, constraining the scale of the institutional buyer footprint but not paid software adoption.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June 2025 survey covers more than xx.xx domestic offices, constraining the scale of the institutional buyer footprint but not paid software adoption.

2. Pathfinder Pricing

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))

3. LEGION | Bentley Systems
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))

4. Qmatic Welcomes New CEO and Vice CEO
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate.
   ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate.
   ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))

5. Qmatic | FAQs
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))

6. accesso Technology Group plc - Results for the six months ended 30 June 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts. ([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts. ([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half virtual-queuing revenue fell from USD xx.xx to USD xx.xx, constraining the inherited royalty forecast partly allocated to flow.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed customer-contract-related royalty decline is counterevidence to automatic visitor-software expansion; it does not observe the future purpose mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The royalty decline supports forecast caution despite a broader commercial proposition, without proving the modeled commercial share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half 2026 virtual-queuing revenue was USD xx.xx versus USD xx.xx in first-half 2025, with disclosed contract changes and seasonality. This supports a contraction mechanism, not independent verification of the modeled 2032 royalty amount.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue falls from USD xx.xx in H1 2025 to USD xx.xx in H1 2026 following customer contract changes. This independently supports the inherited royalty contraction as a forecast mix counterforce, not a measured sales-channel percentage.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed royalty change affects the relative economic weight used in the complementary channel forecast. Accesso's separate ticket-distribution revenue is not treated as indirect crowd-software sales.

7. People Counting System Pricing - Nano AI + BoostBI | V-Count
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property monitoring numerator.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property

8. Port of Seattle Commission Agenda Memorandum - Passenger Flow Metrics Project, April 26, 2022
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx ten-year recurring budget. It constrains the inherited complex-contract valuation but does not disclose the underlying application-use duration. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx

9. 5 easy packages to buy Halo for venues
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
10. Pricing | SaaS Pricing for Ticketing & POS | Venue Manager
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))

11. Digital Signage Software Pricing - ScreenCloud

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))

12. Federal Reserve Board - Foreign Exchange Rates, G.5A, January 5, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))

13. Crowd controls inside the venue - HSE
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
14. Event Access Control & Management - We are InSite
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))
15. End of Life Announcement: Qmatic Show
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 announcement schedules support cessation for October xx.xx 2027 and says the application can continue running. It supports a conditional renewal-risk mechanism, not an observed migration cohort or compulsory software-purchasing spike. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced October xx.xx 2027 support cessation supports a replacement condition, not a quantified queue purchasing spike.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No affected paid-cohort count or resource-application conversion is disclosed, supporting restraint against adding automatic staffing monetization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued operation and possible hardware requirements qualify the visitor-display replacement opportunity; replacement does not itself establish incremental software demand.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 notice sets Qmatic Show's support cessation for October xx.xx 2027 while stating that the application can continue running. This supports a conditional renewal trigger, not compulsory abandonment of local execution. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated support deadline creates an opportunity to reconsider delivery arrangements, but the notice provides neither affected software revenue nor a required move to Hosted delivery. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))

16. Gentrack Group - FY25 Investor Presentation
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo reports FY2025 recurring growth of xx.xx%, with different project and hardware movements. This provides a broader commercial comparison for the complex-site forecast, not a crowd-specific market growth rate. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed recurring growth supports ongoing commercial demand but does not identify inseparable crowd-suite contracts or verify the modeled suite mix shift. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
17. Traffic Modelling Guidelines v4
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
18. QtracVR Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
19. Xovis Brings Groundbreaking AI-Powered Solution to NRF 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
20. Why Enterprise Retailers Choose RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
21. Multi-Brand Product Showrooms
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.

22. Compare Workplace Utilization Solutions for Smarter Spaces
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
23. Ouster Accelerates Software Adoption in 2025 with Record Bookings and Global Expansion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
24. A Guide to the Passenger Movement Sensor Landscape
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
25. Location Analytics and Footfall Counting
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.

26. About Crowd Connected
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
27. Halo Solutions to Help Keep People Safe at the Belfast Arena
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
28. Our Impact - Halo Solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
29. accesso LoQueue Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
30. UCLA Facilities - Space Optimization Pilot Programs
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.

31. Health and Safety Executive - Monitor the crowd
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
32. Health and Safety Executive - Planning for incidents and emergencies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
33. Thunderhead Engineering - Pathfinder Crowd Movement Simulation and Egress Software
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
34. Port of Seattle - Spot Saver Virtual Queue Program, Commission Agenda Memorandum, September 28, 2021
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.

35. IMDA - In-Store Analytics Pre-Approval Onboarding Guide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
36. Omnivex - Leverage Digital Signage for Crowd Control
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.

37. accesso Technology Group plc - Annual Report and Accounts 2023
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))
38. The Halo System - Halo Solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.

39. Retail Analytics Company | Who We Are | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
40. Xovis - Swiss precision measures people flows worldwide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
41. Holiday 2024 Air Travel a Test for Tech Advances at Global Airports
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
42. TO SUPPLY, DELIVER, INSTALL AND TESTING & COMMISIONING OF AN APPOINTMENT AND QUEUE MANAGEMENT SYSTEM (AQMS) - TMC LIFE
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hospital appointment and queue-system invitation opened February xx.xx 2026 and closed March xx.xx 2026. It supports intended hospital purchasing responsibility, not an award or observed revenue.

43. Capitec Makes Banking Easier for Customers with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
44. Queue Management System at the Poltavavodokanal Customer Service Center
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
45. Simulating pedestrian vision and wayfinding with Oasys MassMotion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
46. Pathfinder Partners
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
47. Virtual Queue Management at Applebee's | Waitwhile
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
48. Telecom Company GTA Redefines its Customer Experience with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
49. SenSource Case Study: Grace Family Church
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.

50. Intuitive appointment scheduling at Sgro’s Barbershop | Waitwhile

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.

51. Attendee tracking | Real-time event attendance and session data

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.

52. Scott County Board of Supervisors, May 14, 2020 Agenda and Enclosures - Customer Queueing Application Upgrade

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))

53. Best Cloud-Based Queue Management Software | Qwaiting

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))

54. Qwaiting Pricing Plans - Queue Management Software

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))

55. Jacksonville Aviation Authority, April 28, 2025 Awards Committee Agenda - Xovis AERO Passenger Flow Management System

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))

56. Crowd watch: DASA funded AI and LiDAR innovation helps enhance crowd safety

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

57. Wavetec's Cutting-Edge Implementation of Kubernetes Architecture

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

58. Cloud vs On-Premise Queue Management Systems: Which Is Better? | Wavetec

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: In its April xx.xx 2026 description of its own offering, Wavetec identifies local queue cores combined with cloud analytics and notifications. The substantive local-plus-external application arrangement supports the Hybrid forecast premise; third-party market-research percentages on the page are not used. ([wavetec.com](https://www.wavetec.com/blog/queue-management/cloud-vs-on-premise-queue-management-systems/))

59. The Wait is Over: How Virtual Queuing is Improving Venue Guest Experiences | accesso

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

60. Software Licenses | GSA

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))

61. City and County of Denver-Q-Matic Corporation Agreement, CLERK-201310119-00

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))

62. QueueRite Pricing

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))

63. Pricing & Per-Solution ROI Calculators | Zeour Ltd

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))

64. Smart Retail Counter - People Counting and Queue Analytics Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))

65. Pricing and Discounts | Purchasing, Licensing, & Support 2026.1 Docs

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))

66. Bentley Systems, Incorporated - 2025 Form 10-K
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
67. Crowd Connected Pricing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
68. Qminder Terms of Service
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.

69. Business Partnership Opportunities for Queue Management - Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
70. New York City Record - December 23, 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
71. Channel Partner Program | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
72. Become a partner | Xovis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.

73. San Francisco Airport Commission - Minutes, December 2, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
74. Qmatic Welcomes TechConnect as New Solution Partner in Australia
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 Australian solution-partner announcement explicitly combines Qmatic SaaS with partner delivery. It challenges automatic cloud-to-direct attribution without supplying a forecast channel-transfer rate.
75. Partners | WaitTime
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
76. Qmatic Welcomes Corvice AG as New Premier Solution Partner in Switzerland
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2026 announcement assigns Swiss delivery, implementation and support responsibilities to Corvice. It supports continuing intermediary capability, but neither discloses software seller-of-record revenue nor quantifies a channel-share change.
77. OneGov | GSA
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.

78. Zoho Backstage - Terms of Use
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.
79. RetailNext Majority Growth Investment From Battery Ventures
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))
80. RetailNext Integrates Pine59 Mobile Intelligence For A Complete View Inside And Outside Stores
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced integration connects in-store analytics with outside-store mobile intelligence, initially in the United States, with UK coverage planned for early 2027. Availability does not establish eligible crowd-management revenue, an inseparable entitlement or paid adoption; the forecast retains a limited assumed qualifying cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
81. Assess crowd safety risks and identify hazards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))

82. accesso® Powers Virtual Queue for The Philadelphia Museum of Art Cassatt Exhibit

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))

83. accesso LoQueue Virtual Queuing System

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))

16.3. BRICS

Table 244. BRICS Crowd Management Software Market, by Country growth contribution, 2025-2032

Category	2025 value (USD Million)	2032 value (USD Million)	Added value (USD Million)	2025 share (%)	2032 share (%)	Change (pp)	Growth share (%)	CAGR (%)
Brazil	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
China	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
India	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Russia	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
South Africa	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Scope total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 245. BRICS Crowd Management Software Market Size, by Group, 2017-2040 (USD Million)

Group	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Brazil	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
China	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
India	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Russia	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
South Africa	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx

Table 246. BRICS Crowd Management Software Market Size, by Software Offering, 2017-2040 (USD Million)

Software Offering	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Capacity and Admission Control Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Crowd Guidance and Communication Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Crowd Monitoring and Analytics Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Crowd Operations Coordination Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Crowd Planning and Simulation Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Integrated Crowd Management Suites	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Queue and Arrival Management Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 247. BRICS Crowd Management Software Market Size, by Crowd Data Source, 2017-2040 (USD Million)

Crowd Data Source	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Admission and Queue Records	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Human-Reported Data	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Image and Video Data	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Mobile Location Data	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Multi-Source Data Fusion	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Non-Imaging Sensor Data	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Scenario and Design Inputs	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx

Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 251. BRICS Crowd Management Software Market Size, by License Term, 2017-2040 (USD Million)

License Term	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Perpetual Licenses	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Term Licenses	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 252. BRICS Crowd Management Software Market Size, by Sales Channel, 2017-2040 (USD Million)

Sales Channel	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Direct Sales	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Indirect Sales	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 253. BRICS Crowd Management Software Market Size, by Operating Environment, 2017-2040 (USD Million)

Operating Environment	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Indoor	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Indoor and Outdoor	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Outdoor	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Sources & Evidence

1. The ICT Development Index 2024
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Regional peer calibration only; the Indian score is an explicit assumption.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional peer calibration only; the Indian score is an explicit assumption.
2. Customer stories - Alliar Médicos à Frente
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier describes a Brazilian healthcare organization with more than xx.xx care units; licensed-unit count and revenue are not disclosed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier describes a Brazilian healthcare organization with more than xx.xx care units; licensed-unit count and revenue are not disclosed.

3. Pathfinder Pricing

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))

4. LEGION | Bentley Systems
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))

5. Qmatic Welcomes New CEO and Vice CEO

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))

6. Qmatic | FAQs
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))

7. accesso Technology Group plc - Results for the six months ended 30 June 2026

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts.
([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts.
([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half virtual-queuing revenue fell from USD xx.xx to USD xx.xx, constraining the inherited royalty forecast partly allocated to flow.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed customer-contract-related royalty decline is counterevidence to automatic visitor-software expansion; it does not observe the future purpose mix.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The royalty decline supports forecast caution despite a broader commercial proposition, without proving the modeled commercial share.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half 2026 virtual-queuing revenue was USD xx.xx versus USD xx.xx in first-half 2025, with disclosed contract changes and seasonality. This supports a contraction mechanism, not independent verification of the modeled 2032 royalty amount.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue falls from USD xx.xx in H1 2025 to USD xx.xx in H1 2026 following customer contract changes. This independently supports the inherited royalty contraction as a forecast mix counterforce, not a measured sales-channel percentage.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed royalty change affects the relative economic weight used in the complementary channel forecast. Accesso's separate ticket-distribution revenue is not treated as indirect crowd-software sales.

8. People Counting System Pricing - Nano AI + BoostBI | V-Count
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property monitoring numerator.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property

9. Port of Seattle Commission Agenda Memorandum - Passenger Flow Metrics Project, April 26, 2022
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx ten-year recurring budget. It constrains the inherited complex-contract valuation but does not disclose the underlying application-use duration. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx

10. 5 easy packages to buy Halo for venues
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
11. Pricing | SaaS Pricing for Ticketing & POS | Venue Manager
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))

12. Digital Signage Software Pricing - ScreenCloud

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))

13. Federal Reserve Board - Foreign Exchange Rates, G.5A, January 5, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))

14. Crowd controls inside the venue - HSE
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
15. Event Access Control & Management - We are InSite
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))
16. End of Life Announcement: Qmatic Show
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 announcement schedules support cessation for October xx.xx 2027 and says the application can continue running. It supports a conditional renewal-risk mechanism, not an observed migration cohort or compulsory software-purchasing spike. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced October xx.xx 2027 support cessation supports a replacement condition, not a quantified queue purchasing spike.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No affected paid-cohort count or resource-application conversion is disclosed, supporting restraint against adding automatic staffing monetization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued operation and possible hardware requirements qualify the visitor-display replacement opportunity; replacement does not itself establish incremental software demand.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 notice sets Qmatic Show's support cessation for October xx.xx 2027 while stating that the application can continue running. This supports a conditional renewal trigger, not compulsory abandonment of local execution. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated support deadline creates an opportunity to reconsider delivery arrangements, but the notice provides neither affected software revenue nor a required move to Hosted delivery. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))

17. Gentrack Group - FY25 Investor Presentation
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo reports FY2025 recurring growth of xx.xx%, with different project and hardware movements. This provides a broader commercial comparison for the complex-site forecast, not a crowd-specific market growth rate. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed recurring growth supports ongoing commercial demand but does not identify inseparable crowd-suite contracts or verify the modeled suite mix shift. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
18. Traffic Modelling Guidelines v4
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
19. QtracVR Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
20. Xovis Brings Groundbreaking AI-Powered Solution to NRF 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
21. Why Enterprise Retailers Choose RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
22. Multi-Brand Product Showrooms
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.

23. Compare Workplace Utilization Solutions for Smarter Spaces
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
24. Ouster Accelerates Software Adoption in 2025 with Record Bookings and Global Expansion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
25. A Guide to the Passenger Movement Sensor Landscape
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
26. Location Analytics and Footfall Counting
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.

27. About Crowd Connected
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
28. Halo Solutions to Help Keep People Safe at the Belfast Arena
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
29. Our Impact - Halo Solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
30. accesso LoQueue Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
31. UCLA Facilities - Space Optimization Pilot Programs
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.

32. Health and Safety Executive - Monitor the crowd
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
33. Health and Safety Executive - Planning for incidents and emergencies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
34. Thunderhead Engineering - Pathfinder Crowd Movement Simulation and Egress Software
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
35. Port of Seattle - Spot Saver Virtual Queue Program, Commission Agenda Memorandum, September 28, 2021
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.

36. IMDA - In-Store Analytics Pre-Approval Onboarding Guide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
37. Omnivex - Leverage Digital Signage for Crowd Control
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.

38. accesso Technology Group plc - Annual Report and Accounts 2023
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))
39. The Halo System - Halo Solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.

40. Retail Analytics Company | Who We Are | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
41. Xovis - Swiss precision measures people flows worldwide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
42. Holiday 2024 Air Travel a Test for Tech Advances at Global Airports
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
43. TO SUPPLY, DELIVER, INSTALL AND TESTING & COMMISIONING OF AN APPOINTMENT AND QUEUE MANAGEMENT SYSTEM (AQMS) - TMC LIFE
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hospital appointment and queue-system invitation opened February xx.xx 2026 and closed March xx.xx 2026. It supports intended hospital purchasing responsibility, not an award or observed revenue.

44. Capitec Makes Banking Easier for Customers with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
45. Queue Management System at the Poltavavodokanal Customer Service Center
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
46. Simulating pedestrian vision and wayfinding with Oasys MassMotion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
47. Pathfinder Partners
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
48. Virtual Queue Management at Applebee's | Waitwhile
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
49. Telecom Company GTA Redefines its Customer Experience with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
50. SenSource Case Study: Grace Family Church
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.

51. Intuitive appointment scheduling at Sgro’s Barbershop | Waitwhile

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.

52. Attendee tracking | Real-time event attendance and session data

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.

53. Scott County Board of Supervisors, May 14, 2020 Agenda and Enclosures - Customer Queueing Application Upgrade

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))

54. Best Cloud-Based Queue Management Software | Qwaiting

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))

55. Qwaiting Pricing Plans - Queue Management Software

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))

56. Jacksonville Aviation Authority, April 28, 2025 Awards Committee Agenda - Xovis AERO Passenger Flow Management System

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))

57. Crowd watch: DASA funded AI and LiDAR innovation helps enhance crowd safety

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

58. Wavetec's Cutting-Edge Implementation of Kubernetes Architecture

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

59. Cloud vs On-Premise Queue Management Systems: Which Is Better? | Wavetec

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: In its April xx.xx 2026 description of its own offering, Wavetec identifies local queue cores combined with cloud analytics and notifications. The substantive local-plus-external application arrangement supports the Hybrid forecast premise; third-party market-research percentages on the page are not used. ([wavetec.com](https://www.wavetec.com/blog/queue-management/cloud-vs-on-premise-queue-management-systems/))

60. The Wait is Over: How Virtual Queuing is Improving Venue Guest Experiences | accesso

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

61. Software Licenses | GSA

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))

62. City and County of Denver-Q-Matic Corporation Agreement, CLERK-201310119-00

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))

63. QueueRite Pricing

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))

64. Pricing & Per-Solution ROI Calculators | Zeour Ltd

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))

65. Smart Retail Counter - People Counting and Queue Analytics Software

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))

66. Pricing and Discounts | Purchasing, Licensing, & Support 2026.1 Docs

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))

67. Bentley Systems, Incorporated - 2025 Form 10-K
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
68. Crowd Connected Pricing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
69. Qminder Terms of Service
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.

70. Business Partnership Opportunities for Queue Management - Qmatic

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.

71. New York City Record - December 23, 2024

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.

72. Channel Partner Program | RetailNext

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.

73. Become a partner | Xovis

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.

74. San Francisco Airport Commission - Minutes, December 2, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
75. Qmatic Welcomes TechConnect as New Solution Partner in Australia
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 Australian solution-partner announcement explicitly combines Qmatic SaaS with partner delivery. It challenges automatic cloud-to-direct attribution without supplying a forecast channel-transfer rate.
76. Partners | WaitTime
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
77. Qmatic Welcomes Corvice AG as New Premier Solution Partner in Switzerland
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2026 announcement assigns Swiss delivery, implementation and support responsibilities to Corvice. It supports continuing intermediary capability, but neither discloses software seller-of-record revenue nor quantifies a channel-share change.
78. OneGov | GSA
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.

79. Zoho Backstage - Terms of Use

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.

80. RetailNext Majority Growth Investment From Battery Ventures

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))

81. RetailNext Integrates Pine59 Mobile Intelligence For A Complete View Inside And Outside Stores

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced integration connects in-store analytics with outside-store mobile intelligence, initially in the United States, with UK coverage planned for early 2027. Availability does not establish eligible crowd-management revenue, an inseparable entitlement or paid adoption; the forecast retains a limited assumed qualifying cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))

82. Assess crowd safety risks and identify hazards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))

83. accesso® Powers Virtual Queue for The Philadelphia Museum of Art Cassatt Exhibit

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))

84. accesso LoQueue Virtual Queuing System

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))

16.4. European Union

Table 254. European Union Crowd Management Software Market, by Country growth contribution, 2025-2032

Category	2025 value (USD Million)	2032 value (USD Million)	Added value (USD Million)	2025 share (%)	2032 share (%)	Change (pp)	Growth share (%)	CAGR (%)

Sources & Evidence

1. Pathfinder Pricing

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))

2. LEGION | Bentley Systems

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))

3. Qmatic Welcomes New CEO and Vice CEO

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))

4. Qmatic | FAQs
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))

5. accesso Technology Group plc - Results for the six months ended 30 June 2026

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts.
([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts.
([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half virtual-queuing revenue fell from USD xx.xx to USD xx.xx, constraining the inherited royalty forecast partly allocated to flow.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed customer-contract-related royalty decline is counterevidence to automatic visitor-software expansion; it does not observe the future purpose mix.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The royalty decline supports forecast caution despite a broader commercial proposition, without proving the modeled commercial share.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half 2026 virtual-queuing revenue was USD xx.xx versus USD xx.xx in first-half 2025, with disclosed contract changes and seasonality. This supports a contraction mechanism, not independent verification of the modeled 2032 royalty amount.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue falls from USD xx.xx in H1 2025 to USD xx.xx in H1 2026 following customer contract changes. This independently supports the inherited royalty contraction as a forecast mix counterforce, not a measured sales-channel percentage.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed royalty change affects the relative economic weight used in the complementary channel forecast. Accesso's separate ticket-distribution revenue is not treated as indirect crowd-software sales.

6. People Counting System Pricing - Nano AI + BoostBI | V-Count
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property monitoring numerator.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property

7. Port of Seattle Commission Agenda Memorandum - Passenger Flow Metrics Project, April 26, 2022
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx ten-year recurring budget. It constrains the inherited complex-contract valuation but does not disclose the underlying application-use duration. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx

8. 5 easy packages to buy Halo for venues
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
9. Pricing | SaaS Pricing for Ticketing & POS | Venue Manager
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))

10. Digital Signage Software Pricing - ScreenCloud

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))

11. Federal Reserve Board - Foreign Exchange Rates, G.5A, January 5, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))

12. Crowd controls inside the venue - HSE
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
13. Event Access Control & Management - We are InSite
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))
14. End of Life Announcement: Qmatic Show
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 announcement schedules support cessation for October xx.xx 2027 and says the application can continue running. It supports a conditional renewal-risk mechanism, not an observed migration cohort or compulsory software-purchasing spike. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced October xx.xx 2027 support cessation supports a replacement condition, not a quantified queue purchasing spike.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No affected paid-cohort count or resource-application conversion is disclosed, supporting restraint against adding automatic staffing monetization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued operation and possible hardware requirements qualify the visitor-display replacement opportunity; replacement does not itself establish incremental software demand.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 notice sets Qmatic Show's support cessation for October xx.xx 2027 while stating that the application can continue running. This supports a conditional renewal trigger, not compulsory abandonment of local execution. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated support deadline creates an opportunity to reconsider delivery arrangements, but the notice provides neither affected software revenue nor a required move to Hosted delivery. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))

15. Gentrack Group - FY25 Investor Presentation
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo reports FY2025 recurring growth of xx.xx%, with different project and hardware movements. This provides a broader commercial comparison for the complex-site forecast, not a crowd-specific market growth rate. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed recurring growth supports ongoing commercial demand but does not identify inseparable crowd-suite contracts or verify the modeled suite mix shift. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
16. Traffic Modelling Guidelines v4
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
17. QtracVR Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
18. Xovis Brings Groundbreaking AI-Powered Solution to NRF 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
19. Why Enterprise Retailers Choose RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
20. Multi-Brand Product Showrooms
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.

21. Compare Workplace Utilization Solutions for Smarter Spaces
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
22. Ouster Accelerates Software Adoption in 2025 with Record Bookings and Global Expansion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
23. A Guide to the Passenger Movement Sensor Landscape
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
24. Location Analytics and Footfall Counting
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.

25. About Crowd Connected
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
26. Halo Solutions to Help Keep People Safe at the Belfast Arena
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
27. Our Impact - Halo Solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
28. accesso LoQueue Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
29. UCLA Facilities - Space Optimization Pilot Programs
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.

30. Health and Safety Executive - Monitor the crowd
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
31. Health and Safety Executive - Planning for incidents and emergencies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
32. Thunderhead Engineering - Pathfinder Crowd Movement Simulation and Egress Software
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
33. Port of Seattle - Spot Saver Virtual Queue Program, Commission Agenda Memorandum, September 28, 2021
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.

34. IMDA - In-Store Analytics Pre-Approval Onboarding Guide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
35. Omnivex - Leverage Digital Signage for Crowd Control
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.

36. accesso Technology Group plc - Annual Report and Accounts 2023
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))
37. The Halo System - Halo Solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.

38. Retail Analytics Company | Who We Are | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
39. Xovis - Swiss precision measures people flows worldwide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
40. Holiday 2024 Air Travel a Test for Tech Advances at Global Airports
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
41. TO SUPPLY, DELIVER, INSTALL AND TESTING & COMMISIONING OF AN APPOINTMENT AND QUEUE MANAGEMENT SYSTEM (AQMS) - TMC LIFE
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hospital appointment and queue-system invitation opened February xx.xx 2026 and closed March xx.xx 2026. It supports intended hospital purchasing responsibility, not an award or observed revenue.

42. Capitec Makes Banking Easier for Customers with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
43. Queue Management System at the Poltavavodokanal Customer Service Center
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
44. Simulating pedestrian vision and wayfinding with Oasys MassMotion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
45. Pathfinder Partners
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
46. Virtual Queue Management at Applebee's | Waitwhile
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
47. Telecom Company GTA Redefines its Customer Experience with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
48. SenSource Case Study: Grace Family Church
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.

49. Intuitive appointment scheduling at Sgro’s Barbershop | Waitwhile

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.

50. Attendee tracking | Real-time event attendance and session data

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.

51. Scott County Board of Supervisors, May 14, 2020 Agenda and Enclosures - Customer Queueing Application Upgrade

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))

52. Best Cloud-Based Queue Management Software | Qwaiting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))

53. Qwaiting Pricing Plans - Queue Management Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))

54. Jacksonville Aviation Authority, April 28, 2025 Awards Committee Agenda - Xovis AERO Passenger Flow Management System

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))

55. Crowd watch: DASA funded AI and LiDAR innovation helps enhance crowd safety

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

56. Wavetec's Cutting-Edge Implementation of Kubernetes Architecture

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

57. Cloud vs On-Premise Queue Management Systems: Which Is Better? | Wavetec

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: In its April xx.xx 2026 description of its own offering, Wavetec identifies local queue cores combined with cloud analytics and notifications. The substantive local-plus-external application arrangement supports the Hybrid forecast premise; third-party market-research percentages on the page are not used. ([wavetec.com](https://www.wavetec.com/blog/queue-management/cloud-vs-on-premise-queue-management-systems/))

58. The Wait is Over: How Virtual Queuing is Improving Venue Guest Experiences | accesso

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

59. Software Licenses | GSA

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))

60. City and County of Denver-Q-Matic Corporation Agreement, CLERK-201310119-00

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))

61. QueueRite Pricing

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))

62. Pricing & Per-Solution ROI Calculators | Zeour Ltd

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))

63. Smart Retail Counter - People Counting and Queue Analytics Software

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))

64. Pricing and Discounts | Purchasing, Licensing, & Support 2026.1 Docs

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))

65. Bentley Systems, Incorporated - 2025 Form 10-K
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
66. Crowd Connected Pricing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
67. Qminder Terms of Service
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.

68. Business Partnership Opportunities for Queue Management - Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
69. New York City Record - December 23, 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
70. Channel Partner Program | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
71. Become a partner | Xovis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.

72. San Francisco Airport Commission - Minutes, December 2, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
73. Qmatic Welcomes TechConnect as New Solution Partner in Australia
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 Australian solution-partner announcement explicitly combines Qmatic SaaS with partner delivery. It challenges automatic cloud-to-direct attribution without supplying a forecast channel-transfer rate.
74. Partners | WaitTime
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
75. Qmatic Welcomes Corvice AG as New Premier Solution Partner in Switzerland
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2026 announcement assigns Swiss delivery, implementation and support responsibilities to Corvice. It supports continuing intermediary capability, but neither discloses software seller-of-record revenue nor quantifies a channel-share change.
76. OneGov | GSA
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.

77. Zoho Backstage - Terms of Use

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.

78. RetailNext Majority Growth Investment From Battery Ventures

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))

79. RetailNext Integrates Pine59 Mobile Intelligence For A Complete View Inside And Outside Stores

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced integration connects in-store analytics with outside-store mobile intelligence, initially in the United States, with UK coverage planned for early 2027. Availability does not establish eligible crowd-management revenue, an inseparable entitlement or paid adoption; the forecast retains a limited assumed qualifying cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))

80. Assess crowd safety risks and identify hazards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))

81. accesso® Powers Virtual Queue for The Philadelphia Museum of Art Cassatt Exhibit

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))

82. accesso LoQueue Virtual Queuing System

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))

16.5. ASEAN

Table 264. ASEAN Crowd Management Software Market, by Country growth contribution, 2025-2032

Category	2025 value (USD Million)	2032 value (USD Million)	Added value (USD Million)	2025 share (%)	2032 share (%)	Change (pp)	Growth share (%)	CAGR (%)
Brunei	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Cambodia	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Indonesia	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Lao People's Democratic Republic	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Malaysia	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Myanmar	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Philippines	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Singapore	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Thailand	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Vietnam	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Scope total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 265. ASEAN Crowd Management Software Market Size, by Group, 2017-2040 (USD Million)

Group	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Brunei	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Cambodia	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Indonesia	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Lao People's Democratic Republic	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Malaysia	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx

Table 271. ASEAN Crowd Management Software Market Size, by License Term, 2017-2040 (USD Million)

License Term	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Perpetual Licenses	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Term Licenses	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 272. ASEAN Crowd Management Software Market Size, by Sales Channel, 2017-2040 (USD Million)

Sales Channel	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Direct Sales	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Indirect Sales	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 273. ASEAN Crowd Management Software Market Size, by Operating Environment, 2017-2040 (USD Million)

Operating Environment	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Indoor	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Indoor and Outdoor	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Outdoor	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Sources & Evidence

1. Find A Qmatic Partner
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The Brunei partner entry establishes a commercial route, not a deployment count or sales observation.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The Brunei partner entry establishes a commercial route, not a deployment count or sales observation.

2. Pathfinder Pricing

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))

3. LEGION | Bentley Systems
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))

4. Qmatic Welcomes New CEO and Vice CEO
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate.
   ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate.
   ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))

5. Qmatic | FAQs
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))

6. accesso Technology Group plc - Results for the six months ended 30 June 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts. ([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts. ([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half virtual-queuing revenue fell from USD xx.xx to USD xx.xx, constraining the inherited royalty forecast partly allocated to flow.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed customer-contract-related royalty decline is counterevidence to automatic visitor-software expansion; it does not observe the future purpose mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The royalty decline supports forecast caution despite a broader commercial proposition, without proving the modeled commercial share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half 2026 virtual-queuing revenue was USD xx.xx versus USD xx.xx in first-half 2025, with disclosed contract changes and seasonality. This supports a contraction mechanism, not independent verification of the modeled 2032 royalty amount.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue falls from USD xx.xx in H1 2025 to USD xx.xx in H1 2026 following customer contract changes. This independently supports the inherited royalty contraction as a forecast mix counterforce, not a measured sales-channel percentage.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed royalty change affects the relative economic weight used in the complementary channel forecast. Accesso's separate ticket-distribution revenue is not treated as indirect crowd-software sales.

7. People Counting System Pricing - Nano AI + BoostBI | V-Count
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property monitoring numerator.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property

8. Port of Seattle Commission Agenda Memorandum - Passenger Flow Metrics Project, April 26, 2022
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx ten-year recurring budget. It constrains the inherited complex-contract valuation but does not disclose the underlying application-use duration. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx

9. 5 easy packages to buy Halo for venues
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
10. Pricing | SaaS Pricing for Ticketing & POS | Venue Manager
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))

11. Digital Signage Software Pricing - ScreenCloud

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))

12. Federal Reserve Board - Foreign Exchange Rates, G.5A, January 5, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))

13. Crowd controls inside the venue - HSE
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
14. Event Access Control & Management - We are InSite
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))
15. End of Life Announcement: Qmatic Show
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 announcement schedules support cessation for October xx.xx 2027 and says the application can continue running. It supports a conditional renewal-risk mechanism, not an observed migration cohort or compulsory software-purchasing spike. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced October xx.xx 2027 support cessation supports a replacement condition, not a quantified queue purchasing spike.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No affected paid-cohort count or resource-application conversion is disclosed, supporting restraint against adding automatic staffing monetization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued operation and possible hardware requirements qualify the visitor-display replacement opportunity; replacement does not itself establish incremental software demand.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 notice sets Qmatic Show's support cessation for October xx.xx 2027 while stating that the application can continue running. This supports a conditional renewal trigger, not compulsory abandonment of local execution. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated support deadline creates an opportunity to reconsider delivery arrangements, but the notice provides neither affected software revenue nor a required move to Hosted delivery. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))

16. Gentrack Group - FY25 Investor Presentation
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo reports FY2025 recurring growth of xx.xx%, with different project and hardware movements. This provides a broader commercial comparison for the complex-site forecast, not a crowd-specific market growth rate. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed recurring growth supports ongoing commercial demand but does not identify inseparable crowd-suite contracts or verify the modeled suite mix shift. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
17. Traffic Modelling Guidelines v4
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
18. QtracVR Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
19. Xovis Brings Groundbreaking AI-Powered Solution to NRF 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
20. Why Enterprise Retailers Choose RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
21. Multi-Brand Product Showrooms
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.

22. Compare Workplace Utilization Solutions for Smarter Spaces
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
23. Ouster Accelerates Software Adoption in 2025 with Record Bookings and Global Expansion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
24. A Guide to the Passenger Movement Sensor Landscape
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
25. Location Analytics and Footfall Counting
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.

26. About Crowd Connected
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
27. Halo Solutions to Help Keep People Safe at the Belfast Arena
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
28. Our Impact - Halo Solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
29. accesso LoQueue Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
30. UCLA Facilities - Space Optimization Pilot Programs
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.

31. Health and Safety Executive - Monitor the crowd
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
32. Health and Safety Executive - Planning for incidents and emergencies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
33. Thunderhead Engineering - Pathfinder Crowd Movement Simulation and Egress Software
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
34. Port of Seattle - Spot Saver Virtual Queue Program, Commission Agenda Memorandum, September 28, 2021
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.

35. IMDA - In-Store Analytics Pre-Approval Onboarding Guide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
36. Omnivex - Leverage Digital Signage for Crowd Control
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.

37. accesso Technology Group plc - Annual Report and Accounts 2023
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))
38. The Halo System - Halo Solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.

39. Retail Analytics Company | Who We Are | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
40. Xovis - Swiss precision measures people flows worldwide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
41. Holiday 2024 Air Travel a Test for Tech Advances at Global Airports
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
42. TO SUPPLY, DELIVER, INSTALL AND TESTING & COMMISIONING OF AN APPOINTMENT AND QUEUE MANAGEMENT SYSTEM (AQMS) - TMC LIFE
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hospital appointment and queue-system invitation opened February xx.xx 2026 and closed March xx.xx 2026. It supports intended hospital purchasing responsibility, not an award or observed revenue.

43. Capitec Makes Banking Easier for Customers with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
44. Queue Management System at the Poltavavodokanal Customer Service Center
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
45. Simulating pedestrian vision and wayfinding with Oasys MassMotion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
46. Pathfinder Partners
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
47. Virtual Queue Management at Applebee's | Waitwhile
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
48. Telecom Company GTA Redefines its Customer Experience with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
49. SenSource Case Study: Grace Family Church
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.

50. Intuitive appointment scheduling at Sgro’s Barbershop | Waitwhile

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.

51. Attendee tracking | Real-time event attendance and session data

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.

52. Scott County Board of Supervisors, May 14, 2020 Agenda and Enclosures - Customer Queueing Application Upgrade

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))

53. Best Cloud-Based Queue Management Software | Qwaiting

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))

54. Qwaiting Pricing Plans - Queue Management Software

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))

55. Jacksonville Aviation Authority, April 28, 2025 Awards Committee Agenda - Xovis AERO Passenger Flow Management System

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))

56. Crowd watch: DASA funded AI and LiDAR innovation helps enhance crowd safety

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

57. Wavetec's Cutting-Edge Implementation of Kubernetes Architecture

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

58. Cloud vs On-Premise Queue Management Systems: Which Is Better? | Wavetec

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: In its April xx.xx 2026 description of its own offering, Wavetec identifies local queue cores combined with cloud analytics and notifications. The substantive local-plus-external application arrangement supports the Hybrid forecast premise; third-party market-research percentages on the page are not used. ([wavetec.com](https://www.wavetec.com/blog/queue-management/cloud-vs-on-premise-queue-management-systems/))

59. The Wait is Over: How Virtual Queuing is Improving Venue Guest Experiences | accesso

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

60. Software Licenses | GSA

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))

61. City and County of Denver-Q-Matic Corporation Agreement, CLERK-201310119-00

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))

62. QueueRite Pricing

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))

63. Pricing & Per-Solution ROI Calculators | Zeour Ltd

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))

64. Smart Retail Counter - People Counting and Queue Analytics Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))

65. Pricing and Discounts | Purchasing, Licensing, & Support 2026.1 Docs

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))

66. Bentley Systems, Incorporated - 2025 Form 10-K
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
67. Crowd Connected Pricing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
68. Qminder Terms of Service
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.

69. Business Partnership Opportunities for Queue Management - Qmatic

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.

70. New York City Record - December 23, 2024

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.

71. Channel Partner Program | RetailNext

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.

72. Become a partner | Xovis

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.

73. San Francisco Airport Commission - Minutes, December 2, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
74. Qmatic Welcomes TechConnect as New Solution Partner in Australia
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 Australian solution-partner announcement explicitly combines Qmatic SaaS with partner delivery. It challenges automatic cloud-to-direct attribution without supplying a forecast channel-transfer rate.
75. Partners | WaitTime
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
76. Qmatic Welcomes Corvice AG as New Premier Solution Partner in Switzerland
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2026 announcement assigns Swiss delivery, implementation and support responsibilities to Corvice. It supports continuing intermediary capability, but neither discloses software seller-of-record revenue nor quantifies a channel-share change.
77. OneGov | GSA
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.

78. Zoho Backstage - Terms of Use

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.

79. RetailNext Majority Growth Investment From Battery Ventures

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))

80. RetailNext Integrates Pine59 Mobile Intelligence For A Complete View Inside And Outside Stores

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced integration connects in-store analytics with outside-store mobile intelligence, initially in the United States, with UK coverage planned for early 2027. Availability does not establish eligible crowd-management revenue, an inseparable entitlement or paid adoption; the forecast retains a limited assumed qualifying cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))

81. Assess crowd safety risks and identify hazards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))

82. accesso® Powers Virtual Queue for The Philadelphia Museum of Art Cassatt Exhibit

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))

83. accesso LoQueue Virtual Queuing System

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))

Sources & Evidence

1. Pathfinder Pricing

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))

2. LEGION | Bentley Systems

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))

3. Qmatic Welcomes New CEO and Vice CEO

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))

4. Qmatic | FAQs
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))

5. accesso Technology Group plc - Results for the six months ended 30 June 2026

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts. ([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts. ([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half virtual-queuing revenue fell from USD xx.xx to USD xx.xx, constraining the inherited royalty forecast partly allocated to flow.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed customer-contract-related royalty decline is counterevidence to automatic visitor-software expansion; it does not observe the future purpose mix.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The royalty decline supports forecast caution despite a broader commercial proposition, without proving the modeled commercial share.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half 2026 virtual-queuing revenue was USD xx.xx versus USD xx.xx in first-half 2025, with disclosed contract changes and seasonality. This supports a contraction mechanism, not independent verification of the modeled 2032 royalty amount.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue falls from USD xx.xx in H1 2025 to USD xx.xx in H1 2026 following customer contract changes. This independently supports the inherited royalty contraction as a forecast mix counterforce, not a measured sales-channel percentage.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed royalty change affects the relative economic weight used in the complementary channel forecast. Accesso's separate ticket-distribution revenue is not treated as indirect crowd-software sales.

6. People Counting System Pricing - Nano AI + BoostBI | V-Count

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property monitoring numerator.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property

7. Port of Seattle Commission Agenda Memorandum - Passenger Flow Metrics Project, April 26, 2022
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx ten-year recurring budget. It constrains the inherited complex-contract valuation but does not disclose the underlying application-use duration. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx

8. 5 easy packages to buy Halo for venues

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))

9. Pricing | SaaS Pricing for Ticketing & POS | Venue Manager

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))

10. Digital Signage Software Pricing - ScreenCloud

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))

11. Federal Reserve Board - Foreign Exchange Rates, G.5A, January 5, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))

12. Crowd controls inside the venue - HSE
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
13. Event Access Control & Management - We are InSite
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))
14. End of Life Announcement: Qmatic Show
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 announcement schedules support cessation for October xx.xx 2027 and says the application can continue running. It supports a conditional renewal-risk mechanism, not an observed migration cohort or compulsory software-purchasing spike. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced October xx.xx 2027 support cessation supports a replacement condition, not a quantified queue purchasing spike.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No affected paid-cohort count or resource-application conversion is disclosed, supporting restraint against adding automatic staffing monetization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued operation and possible hardware requirements qualify the visitor-display replacement opportunity; replacement does not itself establish incremental software demand.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 notice sets Qmatic Show's support cessation for October xx.xx 2027 while stating that the application can continue running. This supports a conditional renewal trigger, not compulsory abandonment of local execution. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated support deadline creates an opportunity to reconsider delivery arrangements, but the notice provides neither affected software revenue nor a required move to Hosted delivery. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))

15. Gentrack Group - FY25 Investor Presentation
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo reports FY2025 recurring growth of xx.xx%, with different project and hardware movements. This provides a broader commercial comparison for the complex-site forecast, not a crowd-specific market growth rate. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed recurring growth supports ongoing commercial demand but does not identify inseparable crowd-suite contracts or verify the modeled suite mix shift. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
16. Traffic Modelling Guidelines v4
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
17. QtracVR Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
18. Xovis Brings Groundbreaking AI-Powered Solution to NRF 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
19. Why Enterprise Retailers Choose RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
20. Multi-Brand Product Showrooms
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.

21. Compare Workplace Utilization Solutions for Smarter Spaces
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
22. Ouster Accelerates Software Adoption in 2025 with Record Bookings and Global Expansion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
23. A Guide to the Passenger Movement Sensor Landscape
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
24. Location Analytics and Footfall Counting
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.

25. About Crowd Connected
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
26. Halo Solutions to Help Keep People Safe at the Belfast Arena
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
27. Our Impact - Halo Solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
28. accesso LoQueue Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
29. UCLA Facilities - Space Optimization Pilot Programs
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.

30. Health and Safety Executive - Monitor the crowd
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
31. Health and Safety Executive - Planning for incidents and emergencies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
32. Thunderhead Engineering - Pathfinder Crowd Movement Simulation and Egress Software
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
33. Port of Seattle - Spot Saver Virtual Queue Program, Commission Agenda Memorandum, September 28, 2021
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.

34. IMDA - In-Store Analytics Pre-Approval Onboarding Guide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
35. Omnivex - Leverage Digital Signage for Crowd Control
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.

36. accesso Technology Group plc - Annual Report and Accounts 2023
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))
37. The Halo System - Halo Solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.

38. Retail Analytics Company | Who We Are | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
39. Xovis - Swiss precision measures people flows worldwide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
40. Holiday 2024 Air Travel a Test for Tech Advances at Global Airports
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
41. TO SUPPLY, DELIVER, INSTALL AND TESTING & COMMISIONING OF AN APPOINTMENT AND QUEUE MANAGEMENT SYSTEM (AQMS) - TMC LIFE
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hospital appointment and queue-system invitation opened February xx.xx 2026 and closed March xx.xx 2026. It supports intended hospital purchasing responsibility, not an award or observed revenue.

42. Capitec Makes Banking Easier for Customers with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
43. Queue Management System at the Poltavavodokanal Customer Service Center
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
44. Simulating pedestrian vision and wayfinding with Oasys MassMotion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
45. Pathfinder Partners
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
46. Virtual Queue Management at Applebee's | Waitwhile
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
47. Telecom Company GTA Redefines its Customer Experience with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
48. SenSource Case Study: Grace Family Church
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.

49. Intuitive appointment scheduling at Sgro’s Barbershop | Waitwhile

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.

50. Attendee tracking | Real-time event attendance and session data

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.

51. Scott County Board of Supervisors, May 14, 2020 Agenda and Enclosures - Customer Queueing Application Upgrade

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))

52. Best Cloud-Based Queue Management Software | Qwaiting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))

53. Qwaiting Pricing Plans - Queue Management Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))

54. Jacksonville Aviation Authority, April 28, 2025 Awards Committee Agenda - Xovis AERO Passenger Flow Management System

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))

55. Crowd watch: DASA funded AI and LiDAR innovation helps enhance crowd safety

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

56. Wavetec's Cutting-Edge Implementation of Kubernetes Architecture

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

57. Cloud vs On-Premise Queue Management Systems: Which Is Better? | Wavetec

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: In its April xx.xx 2026 description of its own offering, Wavetec identifies local queue cores combined with cloud analytics and notifications. The substantive local-plus-external application arrangement supports the Hybrid forecast premise; third-party market-research percentages on the page are not used. ([wavetec.com](https://www.wavetec.com/blog/queue-management/cloud-vs-on-premise-queue-management-systems/))

58. The Wait is Over: How Virtual Queuing is Improving Venue Guest Experiences | accesso

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

59. Software Licenses | GSA
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
60. City and County of Denver-Q-Matic Corporation Agreement, CLERK-201310119-00
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))
61. QueueRite Pricing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))

62. Pricing & Per-Solution ROI Calculators | Zeour Ltd

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))

63. Smart Retail Counter - People Counting and Queue Analytics Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))

64. Pricing and Discounts | Purchasing, Licensing, & Support 2026.1 Docs

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))

65. Bentley Systems, Incorporated - 2025 Form 10-K
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
66. Crowd Connected Pricing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
67. Qminder Terms of Service
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.

68. Business Partnership Opportunities for Queue Management - Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
69. New York City Record - December 23, 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
70. Channel Partner Program | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
71. Become a partner | Xovis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.

72. San Francisco Airport Commission - Minutes, December 2, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
73. Qmatic Welcomes TechConnect as New Solution Partner in Australia
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 Australian solution-partner announcement explicitly combines Qmatic SaaS with partner delivery. It challenges automatic cloud-to-direct attribution without supplying a forecast channel-transfer rate.
74. Partners | WaitTime
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
75. Qmatic Welcomes Corvice AG as New Premier Solution Partner in Switzerland
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2026 announcement assigns Swiss delivery, implementation and support responsibilities to Corvice. It supports continuing intermediary capability, but neither discloses software seller-of-record revenue nor quantifies a channel-share change.
76. OneGov | GSA
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.

77. Zoho Backstage - Terms of Use

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.

78. RetailNext Majority Growth Investment From Battery Ventures

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))

79. RetailNext Integrates Pine59 Mobile Intelligence For A Complete View Inside And Outside Stores

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced integration connects in-store analytics with outside-store mobile intelligence, initially in the United States, with UK coverage planned for early 2027. Availability does not establish eligible crowd-management revenue, an inseparable entitlement or paid adoption; the forecast retains a limited assumed qualifying cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))

80. Assess crowd safety risks and identify hazards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))

81. accesso® Powers Virtual Queue for The Philadelphia Museum of Art Cassatt Exhibit

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))

82. accesso LoQueue Virtual Queuing System

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))

17. Crowd Management Software Market, by Country

In the United States, public-facing queue, reservation and visitor applications supplied to state or local governments need an accessibility commitment that follows the contracted interface. ■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■ ■■■ ■■■■■ ■■ ■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■ ■■■■ ■■■■■■■ ■■■■■ ■■■■■ ■■■■■■■■■■ ■■■■■ ■■■ ■■■■■ ■■■ ■■■■ ■■■ ■■■■■■■■ ■■■■ ■■■■■■■■■■■ ■■ ■■ ■■■■■ ■■■■■■ ■■■ ■■■■■ ■■■ ■■■■ ■■■ ■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■ Suppliers should establish the buyer's classification and application scope before contracting; a private-venue reference does not establish suitability for this public-sector requirement.

■■■■■■ ■■■■■■ ■ ■■■■■■■■■■■■■■■■■■■■ ■■■■■■■■■■■■■ ■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■■■ ■■■■■■■■ ■■■■■■■■ ■■ ■■■■■■■■■■■■ ■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■ ■■ ■■■■■■■■ ■■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■ ■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■■ ■■ ■■■ ■■■■■■■■ ■■ ■■■■■■■■■■ ■■■■■■■■■■■■■■■■■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■ A Brazilian crowd-software buyer considering EU-hosted processing should verify the decision's scope, intended recipients and continuing LGPD responsibilities. This can simplify one transfer relationship without approving the application, all onward processing or every alternative hosting destination.

■■ ■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■ ■ ■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■■ ■■ ■■■■■■■■■■■ ■■■■■■■■■■■ ■■ ■■■ ■ ■■■■■ ■■■■■■■■■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■■ ■■ ■■■■■■ ■■■■■ ■■■■ ■■■ ■■■■■ ■■■■ ■■ ■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■■■ ■■■■ ■■■ ■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■ ■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■ Venue buyers should map any proposed coordination or communication functions to their applicable duties before commitment. A compliance label is not a substitute for that assessment or a transfer of responsibility to the publisher.

■■■■■■■■ ■■■■■■■■■■■■ ■■■■■ ■■■■■■■■ ■ ■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■ ■■■■■■■■ ■ ■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■■■ ■■■■■ ■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■ ■■■■■ ■■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■ ■ ■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■ Buyers proposing centralized crowd reporting should establish the information involved and the organization's applicable status before accepting either an unrestricted-export claim or a blanket prohibition. A local-only arrangement may reduce transfer dependencies, but does not itself settle the other permissions needed for the proposed service.

■■■■■■■■■ ■■■■■■■■■ ■■■■■■ ■■ ■■■■■ ■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■ ■■ ■ ■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■ ■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■ ■■■■■ ■■■ ■■■ ■■■■■■■■ ■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■■■ ■■■■ ■■■■■■■■■■ ■■ ■■■ ■■■■■■■■■■■ ■■■■■■■■■■ Crowd-software suppliers should examine the actual tender before selecting a reseller solely for eligibility. Direct participation may be an option, but portal registration does not establish qualification, a local operating right or responsibility for implementation.

Switzerland has a dated local-service route: Qmatic announced Corvice AG in August 2026 to deliver, implement and support its solutions. Buyers can evaluate that route against publisher engagement, but should obtain the proposed contracting and escalation commitments. ■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■■ ■ ■■■■■■■■ ■■■■■ ■■■ ■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■■■■■

Sources & Evidence

1. Qmatic Welcomes Corvice AG as New Premier Solution Partner in Switzerland
   · The announcement establishes Corvice's Swiss partner role, not a customer-specific implementation contract.
   ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-corvice-ag-as-new-premier-solution-partner-in-switzerland))
2. Understanding Martyn's Law and the SIA's Role as Regulator
   · SIA guidance anticipates spring 2027 commencement with the exact date unconfirmed, retains organizational responsibility, and states that government does not endorse particular compliance suppliers.
   ([gov.uk](https://www.gov.uk/guidance/understanding-martyns-law-and-the-sias-role-as-regulator))
3. Fact Sheet: New Rule on the Accessibility of Web Content and Mobile Apps Provided by State and Local Governments
   · DOJ generally requires WCAG xx.xx Level AA for covered state and local-government interfaces, including relevant vendor provision. Compliance dates are April xx.xx 2027 for populations of at least xx.xx and April xx.xx 2028 for smaller entities and special district governments. ([ada.gov](https://www.ada.gov/resources/2024-xx.xx-xx.xx-web-rule/))
4. GeBIZ | Getting Started
   · The non-ACRA registration route supports evaluating direct participation without assuming that every supplier needs a local reseller.
   ([gebiz.gov.sg](https://www.gebiz.gov.sg/cmw/content/getstart.html?current=xx.xx))

5. GeBIZ | FAQ
   - GeBIZ explains that Government Supplier Registration and associated financial assessment apply when required by the tender documents. ([gebiz.gov.sg](https://www.gebiz.gov.sg/faq.html))
6. 《促进和规范数据跨境流动规定》答记者问
   - CAC's March 2024 explanation describes controls concerning personal information and important data, exemptions, and a narrowed assessment scope. ([cac.gov.cn](https://www.cac.gov.cn/2024-xx.xx/xx.xx/c_1712776611649184.htm))
7. Transferência Internacional de Dados
   - ANPD identifies the European Union as adequate under Resolution xx.xx/2026 and explains that recognized adequate destinations do not require an additional international-transfer mechanism for covered transfers; LGPD responsibilities continue. ([gov.br](https://www.gov.br/anpd/pt-br/assuntos/assuntos-internacionais/transferencia-internacional-de-dados))
8. The ICT Development Index 2024
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Regional peer calibration only; the Indian score is an explicit assumption.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional peer calibration only; the Indian score is an explicit assumption.
9. FDIC Releases Results of Summary of Deposits Annual Survey
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June 2025 survey covers more than xx.xx domestic offices, constraining the scale of the institutional buyer footprint but not paid software adoption.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June 2025 survey covers more than xx.xx domestic offices, constraining the scale of the institutional buyer footprint but not paid software adoption.
10. Customer stories - Alliar Médicos à Frente
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier describes a Brazilian healthcare organization with more than xx.xx care units; licensed-unit count and revenue are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier describes a Brazilian healthcare organization with more than xx.xx care units; licensed-unit count and revenue are not disclosed.

Sources & Evidence

1. FDIC Releases Results of Summary of Deposits Annual Survey

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June 2025 survey covers more than xx.xx domestic offices, constraining the scale of the institutional buyer footprint but not paid software adoption.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June 2025 survey covers more than xx.xx domestic offices, constraining the scale of the institutional buyer footprint but not paid software adoption.

2. Pathfinder Pricing

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))

3. LEGION | Bentley Systems

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))

4. Qmatic Welcomes New CEO and Vice CEO
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate.
   ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate.
   ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))

5. Qmatic | FAQs
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))

6. accesso Technology Group plc - Results for the six months ended 30 June 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts. ([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts. ([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half virtual-queuing revenue fell from USD xx.xx to USD xx.xx, constraining the inherited royalty forecast partly allocated to flow.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed customer-contract-related royalty decline is counterevidence to automatic visitor-software expansion; it does not observe the future purpose mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The royalty decline supports forecast caution despite a broader commercial proposition, without proving the modeled commercial share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half 2026 virtual-queuing revenue was USD xx.xx versus USD xx.xx in first-half 2025, with disclosed contract changes and seasonality. This supports a contraction mechanism, not independent verification of the modeled 2032 royalty amount.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue falls from USD xx.xx in H1 2025 to USD xx.xx in H1 2026 following customer contract changes. This independently supports the inherited royalty contraction as a forecast mix counterforce, not a measured sales-channel percentage.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed royalty change affects the relative economic weight used in the complementary channel forecast. Accesso's separate ticket-distribution revenue is not treated as indirect crowd-software sales.

7. People Counting System Pricing - Nano AI + BoostBI | V-Count
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property monitoring numerator.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property

8. Port of Seattle Commission Agenda Memorandum - Passenger Flow Metrics Project, April 26, 2022
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx ten-year recurring budget. It constrains the inherited complex-contract valuation but does not disclose the underlying application-use duration. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx

9. 5 easy packages to buy Halo for venues
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
10. Pricing | SaaS Pricing for Ticketing & POS | Venue Manager
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))

11. Digital Signage Software Pricing - ScreenCloud

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))

12. Federal Reserve Board - Foreign Exchange Rates, G.5A, January 5, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))

13. Crowd controls inside the venue - HSE
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
14. Event Access Control & Management - We are InSite
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))
15. End of Life Announcement: Qmatic Show
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 announcement schedules support cessation for October xx.xx 2027 and says the application can continue running. It supports a conditional renewal-risk mechanism, not an observed migration cohort or compulsory software-purchasing spike. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced October xx.xx 2027 support cessation supports a replacement condition, not a quantified queue purchasing spike.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No affected paid-cohort count or resource-application conversion is disclosed, supporting restraint against adding automatic staffing monetization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued operation and possible hardware requirements qualify the visitor-display replacement opportunity; replacement does not itself establish incremental software demand.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 notice sets Qmatic Show's support cessation for October xx.xx 2027 while stating that the application can continue running. This supports a conditional renewal trigger, not compulsory abandonment of local execution. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated support deadline creates an opportunity to reconsider delivery arrangements, but the notice provides neither affected software revenue nor a required move to Hosted delivery. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))

16. Gentrack Group - FY25 Investor Presentation
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo reports FY2025 recurring growth of xx.xx%, with different project and hardware movements. This provides a broader commercial comparison for the complex-site forecast, not a crowd-specific market growth rate. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed recurring growth supports ongoing commercial demand but does not identify inseparable crowd-suite contracts or verify the modeled suite mix shift. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
17. Traffic Modelling Guidelines v4
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
18. QtracVR Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
19. Xovis Brings Groundbreaking AI-Powered Solution to NRF 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
20. Why Enterprise Retailers Choose RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
21. Multi-Brand Product Showrooms
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.

22. Compare Workplace Utilization Solutions for Smarter Spaces
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
23. Ouster Accelerates Software Adoption in 2025 with Record Bookings and Global Expansion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
24. A Guide to the Passenger Movement Sensor Landscape
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
25. Location Analytics and Footfall Counting
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.

26. About Crowd Connected
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
27. Halo Solutions to Help Keep People Safe at the Belfast Arena
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
28. Our Impact - Halo Solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
29. accesso LoQueue Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
30. UCLA Facilities - Space Optimization Pilot Programs
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.

31. Health and Safety Executive - Monitor the crowd
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
32. Health and Safety Executive - Planning for incidents and emergencies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
33. Thunderhead Engineering - Pathfinder Crowd Movement Simulation and Egress Software
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
34. Port of Seattle - Spot Saver Virtual Queue Program, Commission Agenda Memorandum, September 28, 2021
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.

35. IMDA - In-Store Analytics Pre-Approval Onboarding Guide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
36. Omnivex - Leverage Digital Signage for Crowd Control
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.

37. accesso Technology Group plc - Annual Report and Accounts 2023
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))
38. The Halo System - Halo Solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.

39. Retail Analytics Company | Who We Are | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
40. Xovis - Swiss precision measures people flows worldwide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
41. Holiday 2024 Air Travel a Test for Tech Advances at Global Airports
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
42. TO SUPPLY, DELIVER, INSTALL AND TESTING & COMMISIONING OF AN APPOINTMENT AND QUEUE MANAGEMENT SYSTEM (AQMS) - TMC LIFE
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hospital appointment and queue-system invitation opened February xx.xx 2026 and closed March xx.xx 2026. It supports intended hospital purchasing responsibility, not an award or observed revenue.

43. Capitec Makes Banking Easier for Customers with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
44. Queue Management System at the Poltavavodokanal Customer Service Center
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
45. Simulating pedestrian vision and wayfinding with Oasys MassMotion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
46. Pathfinder Partners
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
47. Virtual Queue Management at Applebee's | Waitwhile
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
48. Telecom Company GTA Redefines its Customer Experience with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
49. SenSource Case Study: Grace Family Church
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.

50. Intuitive appointment scheduling at Sgro’s Barbershop | Waitwhile

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.

51. Attendee tracking | Real-time event attendance and session data

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.

52. Scott County Board of Supervisors, May 14, 2020 Agenda and Enclosures - Customer Queueing Application Upgrade

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))

53. Best Cloud-Based Queue Management Software | Qwaiting

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))

54. Qwaiting Pricing Plans - Queue Management Software

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))

55. Jacksonville Aviation Authority, April 28, 2025 Awards Committee Agenda - Xovis AERO Passenger Flow Management System

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))

56. Crowd watch: DASA funded AI and LiDAR innovation helps enhance crowd safety

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

57. Wavetec's Cutting-Edge Implementation of Kubernetes Architecture

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

58. Cloud vs On-Premise Queue Management Systems: Which Is Better? | Wavetec

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: In its April xx.xx 2026 description of its own offering, Wavetec identifies local queue cores combined with cloud analytics and notifications. The substantive local-plus-external application arrangement supports the Hybrid forecast premise; third-party market-research percentages on the page are not used. ([wavetec.com](https://www.wavetec.com/blog/queue-management/cloud-vs-on-premise-queue-management-systems/))

59. The Wait is Over: How Virtual Queuing is Improving Venue Guest Experiences | accesso

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

60. Software Licenses | GSA
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
61. City and County of Denver-Q-Matic Corporation Agreement, CLERK-201310119-00
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))
62. QueueRite Pricing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))

63. Pricing & Per-Solution ROI Calculators | Zeour Ltd

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))

64. Smart Retail Counter - People Counting and Queue Analytics Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))

65. Pricing and Discounts | Purchasing, Licensing, & Support 2026.1 Docs

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))

66. Bentley Systems, Incorporated - 2025 Form 10-K
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
67. Crowd Connected Pricing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
68. Qminder Terms of Service
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.

69. Business Partnership Opportunities for Queue Management - Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
70. New York City Record - December 23, 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
71. Channel Partner Program | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
72. Become a partner | Xovis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.

73. San Francisco Airport Commission - Minutes, December 2, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
74. Qmatic Welcomes TechConnect as New Solution Partner in Australia
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 Australian solution-partner announcement explicitly combines Qmatic SaaS with partner delivery. It challenges automatic cloud-to-direct attribution without supplying a forecast channel-transfer rate.
75. Partners | WaitTime
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
76. Qmatic Welcomes Corvice AG as New Premier Solution Partner in Switzerland
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2026 announcement assigns Swiss delivery, implementation and support responsibilities to Corvice. It supports continuing intermediary capability, but neither discloses software seller-of-record revenue nor quantifies a channel-share change.
77. OneGov | GSA
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.

78. Zoho Backstage - Terms of Use

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.

79. RetailNext Majority Growth Investment From Battery Ventures

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))

80. RetailNext Integrates Pine59 Mobile Intelligence For A Complete View Inside And Outside Stores

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced integration connects in-store analytics with outside-store mobile intelligence, initially in the United States, with UK coverage planned for early 2027. Availability does not establish eligible crowd-management revenue, an inseparable entitlement or paid adoption; the forecast retains a limited assumed qualifying cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))

81. Assess crowd safety risks and identify hazards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))

82. accesso® Powers Virtual Queue for The Philadelphia Museum of Art Cassatt Exhibit
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))
83. accesso LoQueue Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))

17.2. China

Table 295. China Crowd Management Software Market Size, 2017-2040 (USD Million)

Country	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
China	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 296. China Crowd Management Software Market Size, by Software Offering, 2017-2040 (USD Million)

Software Offering	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Capacity and Admission Control Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Crowd Guidance and Communication Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Crowd Monitoring and Analytics Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Crowd Operations Coordination Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Crowd Planning and Simulation Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Integrated Crowd Management Suites	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Queue and Arrival Management Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 297. China Crowd Management Software Market Size, by Crowd Data Source, 2017-2040 (USD Million)

Crowd Data Source	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Admission and Queue Records	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Human-Reported Data	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Image and Video Data	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Mobile Location Data	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Multi-Source Data Fusion	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Non-Imaging Sensor Data	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Scenario and Design Inputs	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Wireless Signal Data	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 298. China Crowd Management Software Market Size, by Application, 2017-2040 (USD Million)

Application	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Capacity and Space Planning	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Commercial Performance Optimization	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Crowd Safety and Security	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Emergency Preparedness and Response	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Flow and Queue Efficiency	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Staffing and Resource Optimization	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Visitor Guidance and Experience	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 299. China Crowd Management Software Market Size, by End User, 2017-2040 (USD Million)

End User	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Accommodation and Food Services	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Education and Libraries	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Finance and Insurance	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Government and Public Safety	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Healthcare and Social Assistance	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Industrial and Infrastructure Operators	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Information and Telecommunications	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Leisure Attractions and Cultural Institutions	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Personal Services	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Professional and Business Services	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Real Estate and Facilities Management	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Religious and Membership Organizations	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Sports and Live Events	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Transportation and Logistics	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Wholesale and Retail Trade	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 300. China Crowd Management Software Market Size, by Deployment Model, 2017-2040 (USD Million)

Deployment Model	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Hosted	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Hybrid	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
On-Premises	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 301. China Crowd Management Software Market Size, by License Term, 2017-2040 (USD Million)

License Term	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Perpetual Licenses	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Term Licenses	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 302. China Crowd Management Software Market Size, by Sales Channel, 2017-2040 (USD Million)

Sales Channel	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Direct Sales	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Indirect Sales	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 303. China Crowd Management Software Market Size, by Operating Environment, 2017-2040 (USD Million)

Operating Environment	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Indoor	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Indoor and Outdoor	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Outdoor	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Sources & Evidence

1. Pathfinder Pricing

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))

2. LEGION | Bentley Systems

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))

3. Qmatic Welcomes New CEO and Vice CEO

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))

4. Qmatic | FAQs
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))

5. accesso Technology Group plc - Results for the six months ended 30 June 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts. ([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts. ([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half virtual-queuing revenue fell from USD xx.xx to USD xx.xx, constraining the inherited royalty forecast partly allocated to flow.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed customer-contract-related royalty decline is counterevidence to automatic visitor-software expansion; it does not observe the future purpose mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The royalty decline supports forecast caution despite a broader commercial proposition, without proving the modeled commercial share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half 2026 virtual-queuing revenue was USD xx.xx versus USD xx.xx in first-half 2025, with disclosed contract changes and seasonality. This supports a contraction mechanism, not independent verification of the modeled 2032 royalty amount.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue falls from USD xx.xx in H1 2025 to USD xx.xx in H1 2026 following customer contract changes. This independently supports the inherited royalty contraction as a forecast mix counterforce, not a measured sales-channel percentage.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed royalty change affects the relative economic weight used in the complementary channel forecast. Accesso's separate ticket-distribution revenue is not treated as indirect crowd-software sales.

6. People Counting System Pricing - Nano AI + BoostBI | V-Count
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property monitoring numerator.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property

7. Port of Seattle Commission Agenda Memorandum - Passenger Flow Metrics Project, April 26, 2022
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx ten-year recurring budget. It constrains the inherited complex-contract valuation but does not disclose the underlying application-use duration. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx

8. 5 easy packages to buy Halo for venues
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
9. Pricing | SaaS Pricing for Ticketing & POS | Venue Manager
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))

10. Digital Signage Software Pricing - ScreenCloud

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))

11. Federal Reserve Board - Foreign Exchange Rates, G.5A, January 5, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))

12. Crowd controls inside the venue - HSE
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
13. Event Access Control & Management - We are InSite
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))
14. End of Life Announcement: Qmatic Show
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 announcement schedules support cessation for October xx.xx 2027 and says the application can continue running. It supports a conditional renewal-risk mechanism, not an observed migration cohort or compulsory software-purchasing spike. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced October xx.xx 2027 support cessation supports a replacement condition, not a quantified queue purchasing spike.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No affected paid-cohort count or resource-application conversion is disclosed, supporting restraint against adding automatic staffing monetization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued operation and possible hardware requirements qualify the visitor-display replacement opportunity; replacement does not itself establish incremental software demand.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 notice sets Qmatic Show's support cessation for October xx.xx 2027 while stating that the application can continue running. This supports a conditional renewal trigger, not compulsory abandonment of local execution. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated support deadline creates an opportunity to reconsider delivery arrangements, but the notice provides neither affected software revenue nor a required move to Hosted delivery. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))

15. Gentrack Group - FY25 Investor Presentation
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo reports FY2025 recurring growth of xx.xx%, with different project and hardware movements. This provides a broader commercial comparison for the complex-site forecast, not a crowd-specific market growth rate. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed recurring growth supports ongoing commercial demand but does not identify inseparable crowd-suite contracts or verify the modeled suite mix shift. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
16. Traffic Modelling Guidelines v4
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
17. QtracVR Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
18. Xovis Brings Groundbreaking AI-Powered Solution to NRF 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
19. Why Enterprise Retailers Choose RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
20. Multi-Brand Product Showrooms
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.

21. Compare Workplace Utilization Solutions for Smarter Spaces
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
22. Ouster Accelerates Software Adoption in 2025 with Record Bookings and Global Expansion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
23. A Guide to the Passenger Movement Sensor Landscape
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
24. Location Analytics and Footfall Counting
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.

25. About Crowd Connected
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
26. Halo Solutions to Help Keep People Safe at the Belfast Arena
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
27. Our Impact - Halo Solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
28. accesso LoQueue Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
29. UCLA Facilities - Space Optimization Pilot Programs
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.

30. Health and Safety Executive - Monitor the crowd
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
31. Health and Safety Executive - Planning for incidents and emergencies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
32. Thunderhead Engineering - Pathfinder Crowd Movement Simulation and Egress Software
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
33. Port of Seattle - Spot Saver Virtual Queue Program, Commission Agenda Memorandum, September 28, 2021
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.

34. IMDA - In-Store Analytics Pre-Approval Onboarding Guide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
35. Omnivex - Leverage Digital Signage for Crowd Control
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.

36. accesso Technology Group plc - Annual Report and Accounts 2023
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))
37. The Halo System - Halo Solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.

38. Retail Analytics Company | Who We Are | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
39. Xovis - Swiss precision measures people flows worldwide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
40. Holiday 2024 Air Travel a Test for Tech Advances at Global Airports
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
41. TO SUPPLY, DELIVER, INSTALL AND TESTING & COMMISIONING OF AN APPOINTMENT AND QUEUE MANAGEMENT SYSTEM (AQMS) - TMC LIFE
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hospital appointment and queue-system invitation opened February xx.xx 2026 and closed March xx.xx 2026. It supports intended hospital purchasing responsibility, not an award or observed revenue.

42. Capitec Makes Banking Easier for Customers with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
43. Queue Management System at the Poltavavodokanal Customer Service Center
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
44. Simulating pedestrian vision and wayfinding with Oasys MassMotion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
45. Pathfinder Partners
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
46. Virtual Queue Management at Applebee's | Waitwhile
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
47. Telecom Company GTA Redefines its Customer Experience with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
48. SenSource Case Study: Grace Family Church
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.

49. Intuitive appointment scheduling at Sgro’s Barbershop | Waitwhile

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.

50. Attendee tracking | Real-time event attendance and session data

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.

51. Scott County Board of Supervisors, May 14, 2020 Agenda and Enclosures - Customer Queueing Application Upgrade

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))

52. Best Cloud-Based Queue Management Software | Qwaiting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))

53. Qwaiting Pricing Plans - Queue Management Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))

54. Jacksonville Aviation Authority, April 28, 2025 Awards Committee Agenda - Xovis AERO Passenger Flow Management System

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))

55. Crowd watch: DASA funded AI and LiDAR innovation helps enhance crowd safety

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

56. Wavetec's Cutting-Edge Implementation of Kubernetes Architecture

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

57. Cloud vs On-Premise Queue Management Systems: Which Is Better? | Wavetec

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: In its April xx.xx 2026 description of its own offering, Wavetec identifies local queue cores combined with cloud analytics and notifications. The substantive local-plus-external application arrangement supports the Hybrid forecast premise; third-party market-research percentages on the page are not used. ([wavetec.com](https://www.wavetec.com/blog/queue-management/cloud-vs-on-premise-queue-management-systems/))

58. The Wait is Over: How Virtual Queuing is Improving Venue Guest Experiences | accesso

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

59. Software Licenses | GSA

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))

60. City and County of Denver-Q-Matic Corporation Agreement, CLERK-201310119-00

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))

61. QueueRite Pricing

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))

62. Pricing & Per-Solution ROI Calculators | Zeour Ltd

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))

63. Smart Retail Counter - People Counting and Queue Analytics Software

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))

64. Pricing and Discounts | Purchasing, Licensing, & Support 2026.1 Docs

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))

65. Bentley Systems, Incorporated - 2025 Form 10-K
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
66. Crowd Connected Pricing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
67. Qminder Terms of Service
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.

68. Business Partnership Opportunities for Queue Management - Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
69. New York City Record - December 23, 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
70. Channel Partner Program | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
71. Become a partner | Xovis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.

72. San Francisco Airport Commission - Minutes, December 2, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
73. Qmatic Welcomes TechConnect as New Solution Partner in Australia
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 Australian solution-partner announcement explicitly combines Qmatic SaaS with partner delivery. It challenges automatic cloud-to-direct attribution without supplying a forecast channel-transfer rate.
74. Partners | WaitTime
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
75. Qmatic Welcomes Corvice AG as New Premier Solution Partner in Switzerland
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2026 announcement assigns Swiss delivery, implementation and support responsibilities to Corvice. It supports continuing intermediary capability, but neither discloses software seller-of-record revenue nor quantifies a channel-share change.
76. OneGov | GSA
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.

77. Zoho Backstage - Terms of Use
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.
78. RetailNext Majority Growth Investment From Battery Ventures
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))
79. RetailNext Integrates Pine59 Mobile Intelligence For A Complete View Inside And Outside Stores
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced integration connects in-store analytics with outside-store mobile intelligence, initially in the United States, with UK coverage planned for early 2027. Availability does not establish eligible crowd-management revenue, an inseparable entitlement or paid adoption; the forecast retains a limited assumed qualifying cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
80. Assess crowd safety risks and identify hazards
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))

81. accesso® Powers Virtual Queue for The Philadelphia Museum of Art Cassatt Exhibit

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))

82. accesso LoQueue Virtual Queuing System

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))

17.3. Germany

Table 304. Germany Crowd Management Software Market Size, 2017-2040 (USD Million)

Country	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Germany	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 305. Germany Crowd Management Software Market Size, by Software Offering, 2017-2040 (USD Million)

Software Offering	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Capacity and Admission Control Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Crowd Guidance and Communication Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Crowd Monitoring and Analytics Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx

Sources & Evidence

1. Pathfinder Pricing

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))

2. LEGION | Bentley Systems

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))

3. Qmatic Welcomes New CEO and Vice CEO

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))

4. Qmatic | FAQs
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))

5. accesso Technology Group plc - Results for the six months ended 30 June 2026

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts. ([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts. ([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half virtual-queuing revenue fell from USD xx.xx to USD xx.xx, constraining the inherited royalty forecast partly allocated to flow.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed customer-contract-related royalty decline is counterevidence to automatic visitor-software expansion; it does not observe the future purpose mix.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The royalty decline supports forecast caution despite a broader commercial proposition, without proving the modeled commercial share.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half 2026 virtual-queuing revenue was USD xx.xx versus USD xx.xx in first-half 2025, with disclosed contract changes and seasonality. This supports a contraction mechanism, not independent verification of the modeled 2032 royalty amount.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue falls from USD xx.xx in H1 2025 to USD xx.xx in H1 2026 following customer contract changes. This independently supports the inherited royalty contraction as a forecast mix counterforce, not a measured sales-channel percentage.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed royalty change affects the relative economic weight used in the complementary channel forecast. Accesso's separate ticket-distribution revenue is not treated as indirect crowd-software sales.

6. People Counting System Pricing - Nano AI + BoostBI | V-Count
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property monitoring numerator.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property

7. Port of Seattle Commission Agenda Memorandum - Passenger Flow Metrics Project, April 26, 2022
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx ten-year recurring budget. It constrains the inherited complex-contract valuation but does not disclose the underlying application-use duration. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx

8. 5 easy packages to buy Halo for venues
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
9. Pricing | SaaS Pricing for Ticketing & POS | Venue Manager
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))

10. Digital Signage Software Pricing - ScreenCloud

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))

11. Federal Reserve Board - Foreign Exchange Rates, G.5A, January 5, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))

12. Crowd controls inside the venue - HSE
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
13. Event Access Control & Management - We are InSite
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))
14. End of Life Announcement: Qmatic Show
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 announcement schedules support cessation for October xx.xx 2027 and says the application can continue running. It supports a conditional renewal-risk mechanism, not an observed migration cohort or compulsory software-purchasing spike. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced October xx.xx 2027 support cessation supports a replacement condition, not a quantified queue purchasing spike.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No affected paid-cohort count or resource-application conversion is disclosed, supporting restraint against adding automatic staffing monetization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued operation and possible hardware requirements qualify the visitor-display replacement opportunity; replacement does not itself establish incremental software demand.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 notice sets Qmatic Show's support cessation for October xx.xx 2027 while stating that the application can continue running. This supports a conditional renewal trigger, not compulsory abandonment of local execution. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated support deadline creates an opportunity to reconsider delivery arrangements, but the notice provides neither affected software revenue nor a required move to Hosted delivery. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))

15. Gentrack Group - FY25 Investor Presentation
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo reports FY2025 recurring growth of xx.xx%, with different project and hardware movements. This provides a broader commercial comparison for the complex-site forecast, not a crowd-specific market growth rate. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed recurring growth supports ongoing commercial demand but does not identify inseparable crowd-suite contracts or verify the modeled suite mix shift. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
16. Traffic Modelling Guidelines v4
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
17. QtracVR Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
18. Xovis Brings Groundbreaking AI-Powered Solution to NRF 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
19. Why Enterprise Retailers Choose RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
20. Multi-Brand Product Showrooms
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.

21. Compare Workplace Utilization Solutions for Smarter Spaces
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
22. Ouster Accelerates Software Adoption in 2025 with Record Bookings and Global Expansion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
23. A Guide to the Passenger Movement Sensor Landscape
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
24. Location Analytics and Footfall Counting
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.

25. About Crowd Connected
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
26. Halo Solutions to Help Keep People Safe at the Belfast Arena
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
27. Our Impact - Halo Solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
28. accesso LoQueue Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
29. UCLA Facilities - Space Optimization Pilot Programs
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.

30. Health and Safety Executive - Monitor the crowd
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
31. Health and Safety Executive - Planning for incidents and emergencies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
32. Thunderhead Engineering - Pathfinder Crowd Movement Simulation and Egress Software
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
33. Port of Seattle - Spot Saver Virtual Queue Program, Commission Agenda Memorandum, September 28, 2021
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.

34. IMDA - In-Store Analytics Pre-Approval Onboarding Guide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
35. Omnivex - Leverage Digital Signage for Crowd Control
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.

36. accesso Technology Group plc - Annual Report and Accounts 2023

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))

37. The Halo System - Halo Solutions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.

38. Retail Analytics Company | Who We Are | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
39. Xovis - Swiss precision measures people flows worldwide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
40. Holiday 2024 Air Travel a Test for Tech Advances at Global Airports
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
41. TO SUPPLY, DELIVER, INSTALL AND TESTING & COMMISIONING OF AN APPOINTMENT AND QUEUE MANAGEMENT SYSTEM (AQMS) - TMC LIFE
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hospital appointment and queue-system invitation opened February xx.xx 2026 and closed March xx.xx 2026. It supports intended hospital purchasing responsibility, not an award or observed revenue.

42. Capitec Makes Banking Easier for Customers with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
43. Queue Management System at the Poltavavodokanal Customer Service Center
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
44. Simulating pedestrian vision and wayfinding with Oasys MassMotion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
45. Pathfinder Partners
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
46. Virtual Queue Management at Applebee's | Waitwhile
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
47. Telecom Company GTA Redefines its Customer Experience with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
48. SenSource Case Study: Grace Family Church
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.

49. Intuitive appointment scheduling at Sgro’s Barbershop | Waitwhile

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.

50. Attendee tracking | Real-time event attendance and session data

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.

51. Scott County Board of Supervisors, May 14, 2020 Agenda and Enclosures - Customer Queueing Application Upgrade

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))

52. Best Cloud-Based Queue Management Software | Qwaiting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))

53. Qwaiting Pricing Plans - Queue Management Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))

54. Jacksonville Aviation Authority, April 28, 2025 Awards Committee Agenda - Xovis AERO Passenger Flow Management System

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))

55. Crowd watch: DASA funded AI and LiDAR innovation helps enhance crowd safety

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

56. Wavetec's Cutting-Edge Implementation of Kubernetes Architecture

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

57. Cloud vs On-Premise Queue Management Systems: Which Is Better? | Wavetec

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: In its April xx.xx 2026 description of its own offering, Wavetec identifies local queue cores combined with cloud analytics and notifications. The substantive local-plus-external application arrangement supports the Hybrid forecast premise; third-party market-research percentages on the page are not used. ([wavetec.com](https://www.wavetec.com/blog/queue-management/cloud-vs-on-premise-queue-management-systems/))

58. The Wait is Over: How Virtual Queuing is Improving Venue Guest Experiences | accesso

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

59. Software Licenses | GSA

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))

60. City and County of Denver-Q-Matic Corporation Agreement, CLERK-201310119-00

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))

61. QueueRite Pricing

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))

62. Pricing & Per-Solution ROI Calculators | Zeour Ltd

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))

63. Smart Retail Counter - People Counting and Queue Analytics Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))

64. Pricing and Discounts | Purchasing, Licensing, & Support 2026.1 Docs

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))

65. Bentley Systems, Incorporated - 2025 Form 10-K
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
66. Crowd Connected Pricing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
67. Qminder Terms of Service
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.

68. Business Partnership Opportunities for Queue Management - Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
69. New York City Record - December 23, 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
70. Channel Partner Program | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
71. Become a partner | Xovis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.

72. San Francisco Airport Commission - Minutes, December 2, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
73. Qmatic Welcomes TechConnect as New Solution Partner in Australia
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 Australian solution-partner announcement explicitly combines Qmatic SaaS with partner delivery. It challenges automatic cloud-to-direct attribution without supplying a forecast channel-transfer rate.
74. Partners | WaitTime
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
75. Qmatic Welcomes Corvice AG as New Premier Solution Partner in Switzerland
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2026 announcement assigns Swiss delivery, implementation and support responsibilities to Corvice. It supports continuing intermediary capability, but neither discloses software seller-of-record revenue nor quantifies a channel-share change.
76. OneGov | GSA
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.

77. Zoho Backstage - Terms of Use

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.

78. RetailNext Majority Growth Investment From Battery Ventures

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))

79. RetailNext Integrates Pine59 Mobile Intelligence For A Complete View Inside And Outside Stores

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced integration connects in-store analytics with outside-store mobile intelligence, initially in the United States, with UK coverage planned for early 2027. Availability does not establish eligible crowd-management revenue, an inseparable entitlement or paid adoption; the forecast retains a limited assumed qualifying cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))

80. Assess crowd safety risks and identify hazards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))

81. accesso® Powers Virtual Queue for The Philadelphia Museum of Art Cassatt Exhibit
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))
82. accesso LoQueue Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))

Sources & Evidence

1. Pathfinder Pricing

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))

2. LEGION | Bentley Systems

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))

3. Qmatic Welcomes New CEO and Vice CEO

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))

4. Qmatic | FAQs
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))

5. accesso Technology Group plc - Results for the six months ended 30 June 2026

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts.
([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts.
([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half virtual-queuing revenue fell from USD xx.xx to USD xx.xx, constraining the inherited royalty forecast partly allocated to flow.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed customer-contract-related royalty decline is counterevidence to automatic visitor-software expansion; it does not observe the future purpose mix.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The royalty decline supports forecast caution despite a broader commercial proposition, without proving the modeled commercial share.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half 2026 virtual-queuing revenue was USD xx.xx versus USD xx.xx in first-half 2025, with disclosed contract changes and seasonality. This supports a contraction mechanism, not independent verification of the modeled 2032 royalty amount.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue falls from USD xx.xx in H1 2025 to USD xx.xx in H1 2026 following customer contract changes. This independently supports the inherited royalty contraction as a forecast mix counterforce, not a measured sales-channel percentage.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed royalty change affects the relative economic weight used in the complementary channel forecast. Accesso's separate ticket-distribution revenue is not treated as indirect crowd-software sales.

6. People Counting System Pricing - Nano AI + BoostBI | V-Count
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property monitoring numerator.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property

7. Port of Seattle Commission Agenda Memorandum - Passenger Flow Metrics Project, April 26, 2022
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx ten-year recurring budget. It constrains the inherited complex-contract valuation but does not disclose the underlying application-use duration. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx

8. 5 easy packages to buy Halo for venues

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))

9. Pricing | SaaS Pricing for Ticketing & POS | Venue Manager

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))

10. Digital Signage Software Pricing - ScreenCloud

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))

11. Federal Reserve Board - Foreign Exchange Rates, G.5A, January 5, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))

12. Crowd controls inside the venue - HSE
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
13. Event Access Control & Management - We are InSite
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))
14. End of Life Announcement: Qmatic Show
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 announcement schedules support cessation for October xx.xx 2027 and says the application can continue running. It supports a conditional renewal-risk mechanism, not an observed migration cohort or compulsory software-purchasing spike. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced October xx.xx 2027 support cessation supports a replacement condition, not a quantified queue purchasing spike.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No affected paid-cohort count or resource-application conversion is disclosed, supporting restraint against adding automatic staffing monetization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued operation and possible hardware requirements qualify the visitor-display replacement opportunity; replacement does not itself establish incremental software demand.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 notice sets Qmatic Show's support cessation for October xx.xx 2027 while stating that the application can continue running. This supports a conditional renewal trigger, not compulsory abandonment of local execution. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated support deadline creates an opportunity to reconsider delivery arrangements, but the notice provides neither affected software revenue nor a required move to Hosted delivery. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))

15. Gentrack Group - FY25 Investor Presentation
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo reports FY2025 recurring growth of xx.xx%, with different project and hardware movements. This provides a broader commercial comparison for the complex-site forecast, not a crowd-specific market growth rate. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed recurring growth supports ongoing commercial demand but does not identify inseparable crowd-suite contracts or verify the modeled suite mix shift. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
16. Traffic Modelling Guidelines v4
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
17. QtracVR Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
18. Xovis Brings Groundbreaking AI-Powered Solution to NRF 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
19. Why Enterprise Retailers Choose RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
20. Multi-Brand Product Showrooms
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.

21. Compare Workplace Utilization Solutions for Smarter Spaces
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
22. Ouster Accelerates Software Adoption in 2025 with Record Bookings and Global Expansion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
23. A Guide to the Passenger Movement Sensor Landscape
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
24. Location Analytics and Footfall Counting
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.

25. About Crowd Connected
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
26. Halo Solutions to Help Keep People Safe at the Belfast Arena
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
27. Our Impact - Halo Solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
28. accesso LoQueue Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
29. UCLA Facilities - Space Optimization Pilot Programs
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.

30. Health and Safety Executive - Monitor the crowd
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
31. Health and Safety Executive - Planning for incidents and emergencies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
32. Thunderhead Engineering - Pathfinder Crowd Movement Simulation and Egress Software
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
33. Port of Seattle - Spot Saver Virtual Queue Program, Commission Agenda Memorandum, September 28, 2021
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.

34. IMDA - In-Store Analytics Pre-Approval Onboarding Guide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
35. Omnivex - Leverage Digital Signage for Crowd Control
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.

36. accesso Technology Group plc - Annual Report and Accounts 2023
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))
37. The Halo System - Halo Solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.

38. Retail Analytics Company | Who We Are | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
39. Xovis - Swiss precision measures people flows worldwide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
40. Holiday 2024 Air Travel a Test for Tech Advances at Global Airports
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
41. TO SUPPLY, DELIVER, INSTALL AND TESTING & COMMISIONING OF AN APPOINTMENT AND QUEUE MANAGEMENT SYSTEM (AQMS) - TMC LIFE
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hospital appointment and queue-system invitation opened February xx.xx 2026 and closed March xx.xx 2026. It supports intended hospital purchasing responsibility, not an award or observed revenue.

42. Capitec Makes Banking Easier for Customers with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
43. Queue Management System at the Poltavavodokanal Customer Service Center
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
44. Simulating pedestrian vision and wayfinding with Oasys MassMotion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
45. Pathfinder Partners
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
46. Virtual Queue Management at Applebee's | Waitwhile
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
47. Telecom Company GTA Redefines its Customer Experience with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
48. SenSource Case Study: Grace Family Church
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.

49. Intuitive appointment scheduling at Sgro’s Barbershop | Waitwhile

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.

50. Attendee tracking | Real-time event attendance and session data

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.

51. Scott County Board of Supervisors, May 14, 2020 Agenda and Enclosures - Customer Queueing Application Upgrade

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))

52. Best Cloud-Based Queue Management Software | Qwaiting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))

53. Qwaiting Pricing Plans - Queue Management Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))

54. Jacksonville Aviation Authority, April 28, 2025 Awards Committee Agenda - Xovis AERO Passenger Flow Management System

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))

55. Crowd watch: DASA funded AI and LiDAR innovation helps enhance crowd safety

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

56. Wavetec's Cutting-Edge Implementation of Kubernetes Architecture

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

57. Cloud vs On-Premise Queue Management Systems: Which Is Better? | Wavetec

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: In its April xx.xx 2026 description of its own offering, Wavetec identifies local queue cores combined with cloud analytics and notifications. The substantive local-plus-external application arrangement supports the Hybrid forecast premise; third-party market-research percentages on the page are not used. ([wavetec.com](https://www.wavetec.com/blog/queue-management/cloud-vs-on-premise-queue-management-systems/))

58. The Wait is Over: How Virtual Queuing is Improving Venue Guest Experiences | accesso

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

59. Software Licenses | GSA

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))

60. City and County of Denver-Q-Matic Corporation Agreement, CLERK-201310119-00

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))

61. QueueRite Pricing

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))

62. Pricing & Per-Solution ROI Calculators | Zeour Ltd

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))

63. Smart Retail Counter - People Counting and Queue Analytics Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))

64. Pricing and Discounts | Purchasing, Licensing, & Support 2026.1 Docs

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))

65. Bentley Systems, Incorporated - 2025 Form 10-K
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
66. Crowd Connected Pricing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
67. Qminder Terms of Service
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.

68. Business Partnership Opportunities for Queue Management - Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
69. New York City Record - December 23, 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
70. Channel Partner Program | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
71. Become a partner | Xovis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.

72. San Francisco Airport Commission - Minutes, December 2, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
73. Qmatic Welcomes TechConnect as New Solution Partner in Australia
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 Australian solution-partner announcement explicitly combines Qmatic SaaS with partner delivery. It challenges automatic cloud-to-direct attribution without supplying a forecast channel-transfer rate.
74. Partners | WaitTime
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
75. Qmatic Welcomes Corvice AG as New Premier Solution Partner in Switzerland
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2026 announcement assigns Swiss delivery, implementation and support responsibilities to Corvice. It supports continuing intermediary capability, but neither discloses software seller-of-record revenue nor quantifies a channel-share change.
76. OneGov | GSA
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.

77. Zoho Backstage - Terms of Use

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.

78. RetailNext Majority Growth Investment From Battery Ventures

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))

79. RetailNext Integrates Pine59 Mobile Intelligence For A Complete View Inside And Outside Stores

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced integration connects in-store analytics with outside-store mobile intelligence, initially in the United States, with UK coverage planned for early 2027. Availability does not establish eligible crowd-management revenue, an inseparable entitlement or paid adoption; the forecast retains a limited assumed qualifying cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))

80. Assess crowd safety risks and identify hazards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))

81. accesso® Powers Virtual Queue for The Philadelphia Museum of Art Cassatt Exhibit
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))
82. accesso LoQueue Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))

17.5. Japan

Table 322. Japan Crowd Management Software Market Size, 2017-2040 (USD Million)

Country	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Japan	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 323. Japan Crowd Management Software Market Size, by Software Offering, 2017-2040 (USD Million)

Software Offering	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Capacity and Admission Control Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Crowd Guidance and Communication Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Crowd Monitoring and Analytics Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Crowd Operations Coordination Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Crowd Planning and Simulation Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Integrated Crowd Management Suites	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Queue and Arrival Management Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 324. Japan Crowd Management Software Market Size, by Crowd Data Source, 2017-2040 (USD Million)

Crowd Data Source	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Admission and Queue Records	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Human-Reported Data	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Image and Video Data	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Mobile Location Data	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Multi-Source Data Fusion	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Non-Imaging Sensor Data	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Scenario and Design Inputs	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Wireless Signal Data	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 325. Japan Crowd Management Software Market Size, by Application, 2017-2040 (USD Million)

Application	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Capacity and Space Planning	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Commercial Performance Optimization	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Crowd Safety and Security	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Emergency Preparedness and Response	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Flow and Queue Efficiency	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Staffing and Resource Optimization	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Visitor Guidance and Experience	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 326. Japan Crowd Management Software Market Size, by End User, 2017-2040 (USD Million)

End User	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Accommodation and Food Services	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Education and Libraries	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Finance and Insurance	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Government and Public Safety	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Healthcare and Social Assistance	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Industrial and Infrastructure Operators	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Information and Telecommunications	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx

Professional and Business Services	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Real Estate and Facilities Management	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Religious and Membership Organizations	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Sports and Live Events	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Transportation and Logistics	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Wholesale and Retail Trade	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 327. Japan Crowd Management Software Market Size, by Deployment Model, 2017-2040 (USD Million)

Deployment Model	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Hosted	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Hybrid	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
On-Premises	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 328. Japan Crowd Management Software Market Size, by License Term, 2017-2040 (USD Million)

License Term	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Perpetual Licenses	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Term Licenses	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 329. Japan Crowd Management Software Market Size, by Sales Channel, 2017-2040 (USD Million)

Sales Channel	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Direct Sales	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Indirect Sales	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 330. Japan Crowd Management Software Market Size, by Operating Environment, 2017-2040 (USD Million)

Operating Environment	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Indoor	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Indoor and Outdoor	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Outdoor	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Sources & Evidence

1. Pathfinder Pricing

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))

2. LEGION | Bentley Systems

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))

3. Qmatic Welcomes New CEO and Vice CEO

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))

4. Qmatic | FAQs
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))

5. accesso Technology Group plc - Results for the six months ended 30 June 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts. ([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts. ([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half virtual-queuing revenue fell from USD xx.xx to USD xx.xx, constraining the inherited royalty forecast partly allocated to flow.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed customer-contract-related royalty decline is counterevidence to automatic visitor-software expansion; it does not observe the future purpose mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The royalty decline supports forecast caution despite a broader commercial proposition, without proving the modeled commercial share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half 2026 virtual-queuing revenue was USD xx.xx versus USD xx.xx in first-half 2025, with disclosed contract changes and seasonality. This supports a contraction mechanism, not independent verification of the modeled 2032 royalty amount.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue falls from USD xx.xx in H1 2025 to USD xx.xx in H1 2026 following customer contract changes. This independently supports the inherited royalty contraction as a forecast mix counterforce, not a measured sales-channel percentage.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed royalty change affects the relative economic weight used in the complementary channel forecast. Accesso's separate ticket-distribution revenue is not treated as indirect crowd-software sales.

6. People Counting System Pricing - Nano AI + BoostBI | V-Count
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property monitoring numerator.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property

7. Port of Seattle Commission Agenda Memorandum - Passenger Flow Metrics Project, April 26, 2022
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx ten-year recurring budget. It constrains the inherited complex-contract valuation but does not disclose the underlying application-use duration. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx

8. 5 easy packages to buy Halo for venues
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
9. Pricing | SaaS Pricing for Ticketing & POS | Venue Manager
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))

10. Digital Signage Software Pricing - ScreenCloud

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))

11. Federal Reserve Board - Foreign Exchange Rates, G.5A, January 5, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))

12. Crowd controls inside the venue - HSE
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
13. Event Access Control & Management - We are InSite
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))
14. End of Life Announcement: Qmatic Show
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 announcement schedules support cessation for October xx.xx 2027 and says the application can continue running. It supports a conditional renewal-risk mechanism, not an observed migration cohort or compulsory software-purchasing spike. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced October xx.xx 2027 support cessation supports a replacement condition, not a quantified queue purchasing spike.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No affected paid-cohort count or resource-application conversion is disclosed, supporting restraint against adding automatic staffing monetization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued operation and possible hardware requirements qualify the visitor-display replacement opportunity; replacement does not itself establish incremental software demand.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 notice sets Qmatic Show's support cessation for October xx.xx 2027 while stating that the application can continue running. This supports a conditional renewal trigger, not compulsory abandonment of local execution. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated support deadline creates an opportunity to reconsider delivery arrangements, but the notice provides neither affected software revenue nor a required move to Hosted delivery. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))

15. Gentrack Group - FY25 Investor Presentation
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo reports FY2025 recurring growth of xx.xx%, with different project and hardware movements. This provides a broader commercial comparison for the complex-site forecast, not a crowd-specific market growth rate. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed recurring growth supports ongoing commercial demand but does not identify inseparable crowd-suite contracts or verify the modeled suite mix shift. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
16. Traffic Modelling Guidelines v4
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
17. QtracVR Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
18. Xovis Brings Groundbreaking AI-Powered Solution to NRF 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
19. Why Enterprise Retailers Choose RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
20. Multi-Brand Product Showrooms
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.

21. Compare Workplace Utilization Solutions for Smarter Spaces
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
22. Ouster Accelerates Software Adoption in 2025 with Record Bookings and Global Expansion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
23. A Guide to the Passenger Movement Sensor Landscape
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
24. Location Analytics and Footfall Counting
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.

25. About Crowd Connected
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
26. Halo Solutions to Help Keep People Safe at the Belfast Arena
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
27. Our Impact - Halo Solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
28. accesso LoQueue Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
29. UCLA Facilities - Space Optimization Pilot Programs
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.

30. Health and Safety Executive - Monitor the crowd
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
31. Health and Safety Executive - Planning for incidents and emergencies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
32. Thunderhead Engineering - Pathfinder Crowd Movement Simulation and Egress Software
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
33. Port of Seattle - Spot Saver Virtual Queue Program, Commission Agenda Memorandum, September 28, 2021
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.

34. IMDA - In-Store Analytics Pre-Approval Onboarding Guide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
35. Omnivex - Leverage Digital Signage for Crowd Control
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.

36. accesso Technology Group plc - Annual Report and Accounts 2023
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))
37. The Halo System - Halo Solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.

38. Retail Analytics Company | Who We Are | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
39. Xovis - Swiss precision measures people flows worldwide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
40. Holiday 2024 Air Travel a Test for Tech Advances at Global Airports
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
41. TO SUPPLY, DELIVER, INSTALL AND TESTING & COMMISIONING OF AN APPOINTMENT AND QUEUE MANAGEMENT SYSTEM (AQMS) - TMC LIFE
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hospital appointment and queue-system invitation opened February xx.xx 2026 and closed March xx.xx 2026. It supports intended hospital purchasing responsibility, not an award or observed revenue.

42. Capitec Makes Banking Easier for Customers with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
43. Queue Management System at the Poltavavodokanal Customer Service Center
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
44. Simulating pedestrian vision and wayfinding with Oasys MassMotion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
45. Pathfinder Partners
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
46. Virtual Queue Management at Applebee's | Waitwhile
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
47. Telecom Company GTA Redefines its Customer Experience with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
48. SenSource Case Study: Grace Family Church
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.

49. Intuitive appointment scheduling at Sgro’s Barbershop | Waitwhile

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.

50. Attendee tracking | Real-time event attendance and session data

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.

51. Scott County Board of Supervisors, May 14, 2020 Agenda and Enclosures - Customer Queueing Application Upgrade

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))

52. Best Cloud-Based Queue Management Software | Qwaiting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))

53. Qwaiting Pricing Plans - Queue Management Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))

54. Jacksonville Aviation Authority, April 28, 2025 Awards Committee Agenda - Xovis AERO Passenger Flow Management System

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))

55. Crowd watch: DASA funded AI and LiDAR innovation helps enhance crowd safety

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

56. Wavetec's Cutting-Edge Implementation of Kubernetes Architecture

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

57. Cloud vs On-Premise Queue Management Systems: Which Is Better? | Wavetec

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: In its April xx.xx 2026 description of its own offering, Wavetec identifies local queue cores combined with cloud analytics and notifications. The substantive local-plus-external application arrangement supports the Hybrid forecast premise; third-party market-research percentages on the page are not used. ([wavetec.com](https://www.wavetec.com/blog/queue-management/cloud-vs-on-premise-queue-management-systems/))

58. The Wait is Over: How Virtual Queuing is Improving Venue Guest Experiences | accesso

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

59. Software Licenses | GSA

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))

60. City and County of Denver-Q-Matic Corporation Agreement, CLERK-201310119-00

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))

61. QueueRite Pricing

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))

62. Pricing & Per-Solution ROI Calculators | Zeour Ltd

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))

63. Smart Retail Counter - People Counting and Queue Analytics Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))

64. Pricing and Discounts | Purchasing, Licensing, & Support 2026.1 Docs

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))

65. Bentley Systems, Incorporated - 2025 Form 10-K
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
66. Crowd Connected Pricing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
67. Qminder Terms of Service
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.

68. Business Partnership Opportunities for Queue Management - Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
69. New York City Record - December 23, 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
70. Channel Partner Program | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
71. Become a partner | Xovis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.

72. San Francisco Airport Commission - Minutes, December 2, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
73. Qmatic Welcomes TechConnect as New Solution Partner in Australia
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 Australian solution-partner announcement explicitly combines Qmatic SaaS with partner delivery. It challenges automatic cloud-to-direct attribution without supplying a forecast channel-transfer rate.
74. Partners | WaitTime
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
75. Qmatic Welcomes Corvice AG as New Premier Solution Partner in Switzerland
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2026 announcement assigns Swiss delivery, implementation and support responsibilities to Corvice. It supports continuing intermediary capability, but neither discloses software seller-of-record revenue nor quantifies a channel-share change.
76. OneGov | GSA
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.

77. Zoho Backstage - Terms of Use

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.

78. RetailNext Majority Growth Investment From Battery Ventures

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))

79. RetailNext Integrates Pine59 Mobile Intelligence For A Complete View Inside And Outside Stores

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced integration connects in-store analytics with outside-store mobile intelligence, initially in the United States, with UK coverage planned for early 2027. Availability does not establish eligible crowd-management revenue, an inseparable entitlement or paid adoption; the forecast retains a limited assumed qualifying cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))

80. Assess crowd safety risks and identify hazards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))

81. accesso® Powers Virtual Queue for The Philadelphia Museum of Art Cassatt Exhibit

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))

82. accesso LoQueue Virtual Queuing System

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))

17.6. France

Table 331. France Crowd Management Software Market Size, 2017-2040 (USD Million)

Country	2017	2024	2025	2026	2027	2032	2040	CAGR (%)

Sources & Evidence

1. Pathfinder Pricing

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))

2. LEGION | Bentley Systems

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))

3. Qmatic Welcomes New CEO and Vice CEO

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))

4. Qmatic | FAQs
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))

5. accesso Technology Group plc - Results for the six months ended 30 June 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts. ([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts. ([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half virtual-queuing revenue fell from USD xx.xx to USD xx.xx, constraining the inherited royalty forecast partly allocated to flow.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed customer-contract-related royalty decline is counterevidence to automatic visitor-software expansion; it does not observe the future purpose mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The royalty decline supports forecast caution despite a broader commercial proposition, without proving the modeled commercial share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half 2026 virtual-queuing revenue was USD xx.xx versus USD xx.xx in first-half 2025, with disclosed contract changes and seasonality. This supports a contraction mechanism, not independent verification of the modeled 2032 royalty amount.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue falls from USD xx.xx in H1 2025 to USD xx.xx in H1 2026 following customer contract changes. This independently supports the inherited royalty contraction as a forecast mix counterforce, not a measured sales-channel percentage.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed royalty change affects the relative economic weight used in the complementary channel forecast. Accesso's separate ticket-distribution revenue is not treated as indirect crowd-software sales.

6. People Counting System Pricing - Nano AI + BoostBI | V-Count
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property monitoring numerator.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property

7. Port of Seattle Commission Agenda Memorandum - Passenger Flow Metrics Project, April 26, 2022
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx ten-year recurring budget. It constrains the inherited complex-contract valuation but does not disclose the underlying application-use duration. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx

8. 5 easy packages to buy Halo for venues
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
9. Pricing | SaaS Pricing for Ticketing & POS | Venue Manager
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))

10. Digital Signage Software Pricing - ScreenCloud

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))

11. Federal Reserve Board - Foreign Exchange Rates, G.5A, January 5, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))

12. Crowd controls inside the venue - HSE
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
13. Event Access Control & Management - We are InSite
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))
14. End of Life Announcement: Qmatic Show
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 announcement schedules support cessation for October xx.xx 2027 and says the application can continue running. It supports a conditional renewal-risk mechanism, not an observed migration cohort or compulsory software-purchasing spike. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced October xx.xx 2027 support cessation supports a replacement condition, not a quantified queue purchasing spike.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No affected paid-cohort count or resource-application conversion is disclosed, supporting restraint against adding automatic staffing monetization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued operation and possible hardware requirements qualify the visitor-display replacement opportunity; replacement does not itself establish incremental software demand.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 notice sets Qmatic Show's support cessation for October xx.xx 2027 while stating that the application can continue running. This supports a conditional renewal trigger, not compulsory abandonment of local execution. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated support deadline creates an opportunity to reconsider delivery arrangements, but the notice provides neither affected software revenue nor a required move to Hosted delivery. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))

15. Gentrack Group - FY25 Investor Presentation
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo reports FY2025 recurring growth of xx.xx%, with different project and hardware movements. This provides a broader commercial comparison for the complex-site forecast, not a crowd-specific market growth rate. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed recurring growth supports ongoing commercial demand but does not identify inseparable crowd-suite contracts or verify the modeled suite mix shift. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
16. Traffic Modelling Guidelines v4
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
17. QtracVR Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
18. Xovis Brings Groundbreaking AI-Powered Solution to NRF 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
19. Why Enterprise Retailers Choose RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
20. Multi-Brand Product Showrooms
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.

21. Compare Workplace Utilization Solutions for Smarter Spaces
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
22. Ouster Accelerates Software Adoption in 2025 with Record Bookings and Global Expansion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
23. A Guide to the Passenger Movement Sensor Landscape
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
24. Location Analytics and Footfall Counting
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.

25. About Crowd Connected
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
26. Halo Solutions to Help Keep People Safe at the Belfast Arena
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
27. Our Impact - Halo Solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
28. accesso LoQueue Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
29. UCLA Facilities - Space Optimization Pilot Programs
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.

30. Health and Safety Executive - Monitor the crowd
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
31. Health and Safety Executive - Planning for incidents and emergencies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
32. Thunderhead Engineering - Pathfinder Crowd Movement Simulation and Egress Software
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
33. Port of Seattle - Spot Saver Virtual Queue Program, Commission Agenda Memorandum, September 28, 2021
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.

34. IMDA - In-Store Analytics Pre-Approval Onboarding Guide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
35. Omnivex - Leverage Digital Signage for Crowd Control
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.

36. accesso Technology Group plc - Annual Report and Accounts 2023
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))
37. The Halo System - Halo Solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.

38. Retail Analytics Company | Who We Are | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
39. Xovis - Swiss precision measures people flows worldwide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
40. Holiday 2024 Air Travel a Test for Tech Advances at Global Airports
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
41. TO SUPPLY, DELIVER, INSTALL AND TESTING & COMMISIONING OF AN APPOINTMENT AND QUEUE MANAGEMENT SYSTEM (AQMS) - TMC LIFE
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hospital appointment and queue-system invitation opened February xx.xx 2026 and closed March xx.xx 2026. It supports intended hospital purchasing responsibility, not an award or observed revenue.

42. Capitec Makes Banking Easier for Customers with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
43. Queue Management System at the Poltavavodokanal Customer Service Center
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
44. Simulating pedestrian vision and wayfinding with Oasys MassMotion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
45. Pathfinder Partners
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
46. Virtual Queue Management at Applebee's | Waitwhile
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
47. Telecom Company GTA Redefines its Customer Experience with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
48. SenSource Case Study: Grace Family Church
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.

49. Intuitive appointment scheduling at Sgro’s Barbershop | Waitwhile

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.

50. Attendee tracking | Real-time event attendance and session data

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.

51. Scott County Board of Supervisors, May 14, 2020 Agenda and Enclosures - Customer Queueing Application Upgrade

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))

52. Best Cloud-Based Queue Management Software | Qwaiting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))

53. Qwaiting Pricing Plans - Queue Management Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))

54. Jacksonville Aviation Authority, April 28, 2025 Awards Committee Agenda - Xovis AERO Passenger Flow Management System

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))

55. Crowd watch: DASA funded AI and LiDAR innovation helps enhance crowd safety

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

56. Wavetec's Cutting-Edge Implementation of Kubernetes Architecture

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

57. Cloud vs On-Premise Queue Management Systems: Which Is Better? | Wavetec

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: In its April xx.xx 2026 description of its own offering, Wavetec identifies local queue cores combined with cloud analytics and notifications. The substantive local-plus-external application arrangement supports the Hybrid forecast premise; third-party market-research percentages on the page are not used. ([wavetec.com](https://www.wavetec.com/blog/queue-management/cloud-vs-on-premise-queue-management-systems/))

58. The Wait is Over: How Virtual Queuing is Improving Venue Guest Experiences | accesso

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

59. Software Licenses | GSA

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))

60. City and County of Denver-Q-Matic Corporation Agreement, CLERK-201310119-00

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))

61. QueueRite Pricing

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))

62. Pricing & Per-Solution ROI Calculators | Zeour Ltd

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))

63. Smart Retail Counter - People Counting and Queue Analytics Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))

64. Pricing and Discounts | Purchasing, Licensing, & Support 2026.1 Docs

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))

65. Bentley Systems, Incorporated - 2025 Form 10-K
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
66. Crowd Connected Pricing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
67. Qminder Terms of Service
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.

68. Business Partnership Opportunities for Queue Management - Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
69. New York City Record - December 23, 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
70. Channel Partner Program | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
71. Become a partner | Xovis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.

72. San Francisco Airport Commission - Minutes, December 2, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
73. Qmatic Welcomes TechConnect as New Solution Partner in Australia
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 Australian solution-partner announcement explicitly combines Qmatic SaaS with partner delivery. It challenges automatic cloud-to-direct attribution without supplying a forecast channel-transfer rate.
74. Partners | WaitTime
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
75. Qmatic Welcomes Corvice AG as New Premier Solution Partner in Switzerland
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2026 announcement assigns Swiss delivery, implementation and support responsibilities to Corvice. It supports continuing intermediary capability, but neither discloses software seller-of-record revenue nor quantifies a channel-share change.
76. OneGov | GSA
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.

77. Zoho Backstage - Terms of Use

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.

78. RetailNext Majority Growth Investment From Battery Ventures

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))

79. RetailNext Integrates Pine59 Mobile Intelligence For A Complete View Inside And Outside Stores

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced integration connects in-store analytics with outside-store mobile intelligence, initially in the United States, with UK coverage planned for early 2027. Availability does not establish eligible crowd-management revenue, an inseparable entitlement or paid adoption; the forecast retains a limited assumed qualifying cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))

80. Assess crowd safety risks and identify hazards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))

81. accesso® Powers Virtual Queue for The Philadelphia Museum of Art Cassatt Exhibit

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))

82. accesso LoQueue Virtual Queuing System

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))

17.7. India

Table 340. India Crowd Management Software Market Size, 2017-2040 (USD Million)

Sources & Evidence

1. The ICT Development Index 2024
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Regional peer calibration only; the Indian score is an explicit assumption.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Regional peer calibration only; the Indian score is an explicit assumption.

2. Pathfinder Pricing

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))

3. LEGION | Bentley Systems
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))

4. Qmatic Welcomes New CEO and Vice CEO
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate.
   ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate.
   ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))

5. Qmatic | FAQs
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))

6. accesso Technology Group plc - Results for the six months ended 30 June 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts. ([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts. ([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half virtual-queuing revenue fell from USD xx.xx to USD xx.xx, constraining the inherited royalty forecast partly allocated to flow.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed customer-contract-related royalty decline is counterevidence to automatic visitor-software expansion; it does not observe the future purpose mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The royalty decline supports forecast caution despite a broader commercial proposition, without proving the modeled commercial share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half 2026 virtual-queuing revenue was USD xx.xx versus USD xx.xx in first-half 2025, with disclosed contract changes and seasonality. This supports a contraction mechanism, not independent verification of the modeled 2032 royalty amount.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue falls from USD xx.xx in H1 2025 to USD xx.xx in H1 2026 following customer contract changes. This independently supports the inherited royalty contraction as a forecast mix counterforce, not a measured sales-channel percentage.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed royalty change affects the relative economic weight used in the complementary channel forecast. Accesso's separate ticket-distribution revenue is not treated as indirect crowd-software sales.

7. People Counting System Pricing - Nano AI + BoostBI | V-Count

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property monitoring numerator.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property

8. Port of Seattle Commission Agenda Memorandum - Passenger Flow Metrics Project, April 26, 2022
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx ten-year recurring budget. It constrains the inherited complex-contract valuation but does not disclose the underlying application-use duration. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx

9. 5 easy packages to buy Halo for venues
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
10. Pricing | SaaS Pricing for Ticketing & POS | Venue Manager
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))

11. Digital Signage Software Pricing - ScreenCloud

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))

12. Federal Reserve Board - Foreign Exchange Rates, G.5A, January 5, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))

13. Crowd controls inside the venue - HSE
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
14. Event Access Control & Management - We are InSite
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))
15. End of Life Announcement: Qmatic Show
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 announcement schedules support cessation for October xx.xx 2027 and says the application can continue running. It supports a conditional renewal-risk mechanism, not an observed migration cohort or compulsory software-purchasing spike. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced October xx.xx 2027 support cessation supports a replacement condition, not a quantified queue purchasing spike.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No affected paid-cohort count or resource-application conversion is disclosed, supporting restraint against adding automatic staffing monetization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued operation and possible hardware requirements qualify the visitor-display replacement opportunity; replacement does not itself establish incremental software demand.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 notice sets Qmatic Show's support cessation for October xx.xx 2027 while stating that the application can continue running. This supports a conditional renewal trigger, not compulsory abandonment of local execution. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated support deadline creates an opportunity to reconsider delivery arrangements, but the notice provides neither affected software revenue nor a required move to Hosted delivery. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))

16. Gentrack Group - FY25 Investor Presentation
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo reports FY2025 recurring growth of xx.xx%, with different project and hardware movements. This provides a broader commercial comparison for the complex-site forecast, not a crowd-specific market growth rate. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed recurring growth supports ongoing commercial demand but does not identify inseparable crowd-suite contracts or verify the modeled suite mix shift. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
17. Traffic Modelling Guidelines v4
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
18. QtracVR Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
19. Xovis Brings Groundbreaking AI-Powered Solution to NRF 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
20. Why Enterprise Retailers Choose RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
21. Multi-Brand Product Showrooms
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.

22. Compare Workplace Utilization Solutions for Smarter Spaces
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
23. Ouster Accelerates Software Adoption in 2025 with Record Bookings and Global Expansion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
24. A Guide to the Passenger Movement Sensor Landscape
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
25. Location Analytics and Footfall Counting
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.

26. About Crowd Connected
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
27. Halo Solutions to Help Keep People Safe at the Belfast Arena
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
28. Our Impact - Halo Solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
29. accesso LoQueue Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
30. UCLA Facilities - Space Optimization Pilot Programs
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.

31. Health and Safety Executive - Monitor the crowd
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
32. Health and Safety Executive - Planning for incidents and emergencies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
33. Thunderhead Engineering - Pathfinder Crowd Movement Simulation and Egress Software
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
34. Port of Seattle - Spot Saver Virtual Queue Program, Commission Agenda Memorandum, September 28, 2021
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.

35. IMDA - In-Store Analytics Pre-Approval Onboarding Guide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
36. Omnivex - Leverage Digital Signage for Crowd Control
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.

37. accesso Technology Group plc - Annual Report and Accounts 2023

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))

38. The Halo System - Halo Solutions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.

39. Retail Analytics Company | Who We Are | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
40. Xovis - Swiss precision measures people flows worldwide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
41. Holiday 2024 Air Travel a Test for Tech Advances at Global Airports
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
42. TO SUPPLY, DELIVER, INSTALL AND TESTING & COMMISIONING OF AN APPOINTMENT AND QUEUE MANAGEMENT SYSTEM (AQMS) - TMC LIFE
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hospital appointment and queue-system invitation opened February xx.xx 2026 and closed March xx.xx 2026. It supports intended hospital purchasing responsibility, not an award or observed revenue.

43. Capitec Makes Banking Easier for Customers with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
44. Queue Management System at the Poltavavodokanal Customer Service Center
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
45. Simulating pedestrian vision and wayfinding with Oasys MassMotion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
46. Pathfinder Partners
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
47. Virtual Queue Management at Applebee's | Waitwhile
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
48. Telecom Company GTA Redefines its Customer Experience with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
49. SenSource Case Study: Grace Family Church
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.

50. Intuitive appointment scheduling at Sgro’s Barbershop | Waitwhile

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.

51. Attendee tracking | Real-time event attendance and session data

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.

52. Scott County Board of Supervisors, May 14, 2020 Agenda and Enclosures - Customer Queueing Application Upgrade

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))

53. Best Cloud-Based Queue Management Software | Qwaiting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))

54. Qwaiting Pricing Plans - Queue Management Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))

55. Jacksonville Aviation Authority, April 28, 2025 Awards Committee Agenda - Xovis AERO Passenger Flow Management System

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))

56. Crowd watch: DASA funded AI and LiDAR innovation helps enhance crowd safety

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

57. Wavetec's Cutting-Edge Implementation of Kubernetes Architecture

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

58. Cloud vs On-Premise Queue Management Systems: Which Is Better? | Wavetec

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: In its April xx.xx 2026 description of its own offering, Wavetec identifies local queue cores combined with cloud analytics and notifications. The substantive local-plus-external application arrangement supports the Hybrid forecast premise; third-party market-research percentages on the page are not used. ([wavetec.com](https://www.wavetec.com/blog/queue-management/cloud-vs-on-premise-queue-management-systems/))

59. The Wait is Over: How Virtual Queuing is Improving Venue Guest Experiences | accesso

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

60. Software Licenses | GSA
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
61. City and County of Denver-Q-Matic Corporation Agreement, CLERK-201310119-00
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))
62. QueueRite Pricing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))

63. Pricing & Per-Solution ROI Calculators | Zeour Ltd

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))

64. Smart Retail Counter - People Counting and Queue Analytics Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))

65. Pricing and Discounts | Purchasing, Licensing, & Support 2026.1 Docs

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))

66. Bentley Systems, Incorporated - 2025 Form 10-K
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
67. Crowd Connected Pricing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
68. Qminder Terms of Service
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.

69. Business Partnership Opportunities for Queue Management - Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
70. New York City Record - December 23, 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
71. Channel Partner Program | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
72. Become a partner | Xovis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.

73. San Francisco Airport Commission - Minutes, December 2, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
74. Qmatic Welcomes TechConnect as New Solution Partner in Australia
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 Australian solution-partner announcement explicitly combines Qmatic SaaS with partner delivery. It challenges automatic cloud-to-direct attribution without supplying a forecast channel-transfer rate.
75. Partners | WaitTime
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
76. Qmatic Welcomes Corvice AG as New Premier Solution Partner in Switzerland
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2026 announcement assigns Swiss delivery, implementation and support responsibilities to Corvice. It supports continuing intermediary capability, but neither discloses software seller-of-record revenue nor quantifies a channel-share change.
77. OneGov | GSA
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.

78. Zoho Backstage - Terms of Use

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.

79. RetailNext Majority Growth Investment From Battery Ventures

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))

80. RetailNext Integrates Pine59 Mobile Intelligence For A Complete View Inside And Outside Stores

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced integration connects in-store analytics with outside-store mobile intelligence, initially in the United States, with UK coverage planned for early 2027. Availability does not establish eligible crowd-management revenue, an inseparable entitlement or paid adoption; the forecast retains a limited assumed qualifying cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))

81. Assess crowd safety risks and identify hazards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))

82. accesso® Powers Virtual Queue for The Philadelphia Museum of Art Cassatt Exhibit

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))

83. accesso LoQueue Virtual Queuing System

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))

17.8. Russia

Table 349. Russia Crowd Management Software Market Size, 2017-2040 (USD Million)

Country	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Russia	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 350. Russia Crowd Management Software Market Size, by Software Offering, 2017-2040 (USD Million)

Software Offering	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Capacity and Admission Control Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Crowd Guidance and Communication Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Crowd Monitoring and Analytics Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Crowd Operations Coordination Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Crowd Planning and Simulation Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Integrated Crowd Management Suites	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Queue and Arrival Management Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 351. Russia Crowd Management Software Market Size, by Crowd Data Source, 2017-2040 (USD Million)

Crowd Data Source	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Admission and Queue Records	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Human-Reported Data	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Image and Video Data	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Mobile Location Data	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Multi-Source Data Fusion	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Non-Imaging Sensor Data	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Scenario and Design Inputs	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Wireless Signal Data	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Sales Channel	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Direct Sales	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Indirect Sales	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 357. Russia Crowd Management Software Market Size, by Operating Environment, 2017-2040 (USD Million)

Operating Environment	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Indoor	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Indoor and Outdoor	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Outdoor	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Sources & Evidence

1. Pathfinder Pricing

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))

2. LEGION | Bentley Systems

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))

3. Qmatic Welcomes New CEO and Vice CEO

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))

4. Qmatic | FAQs
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))

5. accesso Technology Group plc - Results for the six months ended 30 June 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts. ([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts. ([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half virtual-queuing revenue fell from USD xx.xx to USD xx.xx, constraining the inherited royalty forecast partly allocated to flow.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed customer-contract-related royalty decline is counterevidence to automatic visitor-software expansion; it does not observe the future purpose mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The royalty decline supports forecast caution despite a broader commercial proposition, without proving the modeled commercial share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half 2026 virtual-queuing revenue was USD xx.xx versus USD xx.xx in first-half 2025, with disclosed contract changes and seasonality. This supports a contraction mechanism, not independent verification of the modeled 2032 royalty amount.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue falls from USD xx.xx in H1 2025 to USD xx.xx in H1 2026 following customer contract changes. This independently supports the inherited royalty contraction as a forecast mix counterforce, not a measured sales-channel percentage.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed royalty change affects the relative economic weight used in the complementary channel forecast. Accesso's separate ticket-distribution revenue is not treated as indirect crowd-software sales.

6. People Counting System Pricing - Nano AI + BoostBI | V-Count
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property monitoring numerator.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property

7. Port of Seattle Commission Agenda Memorandum - Passenger Flow Metrics Project, April 26, 2022
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx ten-year recurring budget. It constrains the inherited complex-contract valuation but does not disclose the underlying application-use duration. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx

8. 5 easy packages to buy Halo for venues
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
9. Pricing | SaaS Pricing for Ticketing & POS | Venue Manager
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))

10. Digital Signage Software Pricing - ScreenCloud

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))

11. Federal Reserve Board - Foreign Exchange Rates, G.5A, January 5, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))

12. Crowd controls inside the venue - HSE
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
13. Event Access Control & Management - We are InSite
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))
14. End of Life Announcement: Qmatic Show
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 announcement schedules support cessation for October xx.xx 2027 and says the application can continue running. It supports a conditional renewal-risk mechanism, not an observed migration cohort or compulsory software-purchasing spike. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced October xx.xx 2027 support cessation supports a replacement condition, not a quantified queue purchasing spike.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No affected paid-cohort count or resource-application conversion is disclosed, supporting restraint against adding automatic staffing monetization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued operation and possible hardware requirements qualify the visitor-display replacement opportunity; replacement does not itself establish incremental software demand.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 notice sets Qmatic Show's support cessation for October xx.xx 2027 while stating that the application can continue running. This supports a conditional renewal trigger, not compulsory abandonment of local execution. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated support deadline creates an opportunity to reconsider delivery arrangements, but the notice provides neither affected software revenue nor a required move to Hosted delivery. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))

15. Gentrack Group - FY25 Investor Presentation
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo reports FY2025 recurring growth of xx.xx%, with different project and hardware movements. This provides a broader commercial comparison for the complex-site forecast, not a crowd-specific market growth rate. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed recurring growth supports ongoing commercial demand but does not identify inseparable crowd-suite contracts or verify the modeled suite mix shift. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
16. Traffic Modelling Guidelines v4
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
17. QtracVR Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
18. Xovis Brings Groundbreaking AI-Powered Solution to NRF 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
19. Why Enterprise Retailers Choose RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
20. Multi-Brand Product Showrooms
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.

21. Compare Workplace Utilization Solutions for Smarter Spaces
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
22. Ouster Accelerates Software Adoption in 2025 with Record Bookings and Global Expansion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
23. A Guide to the Passenger Movement Sensor Landscape
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
24. Location Analytics and Footfall Counting
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.

25. About Crowd Connected
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
26. Halo Solutions to Help Keep People Safe at the Belfast Arena
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
27. Our Impact - Halo Solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
28. accesso LoQueue Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
29. UCLA Facilities - Space Optimization Pilot Programs
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.

30. Health and Safety Executive - Monitor the crowd
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
31. Health and Safety Executive - Planning for incidents and emergencies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
32. Thunderhead Engineering - Pathfinder Crowd Movement Simulation and Egress Software
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
33. Port of Seattle - Spot Saver Virtual Queue Program, Commission Agenda Memorandum, September 28, 2021
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.

34. IMDA - In-Store Analytics Pre-Approval Onboarding Guide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
35. Omnivex - Leverage Digital Signage for Crowd Control
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.

36. accesso Technology Group plc - Annual Report and Accounts 2023

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))

37. The Halo System - Halo Solutions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.

38. Retail Analytics Company | Who We Are | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
39. Xovis - Swiss precision measures people flows worldwide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
40. Holiday 2024 Air Travel a Test for Tech Advances at Global Airports
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
41. TO SUPPLY, DELIVER, INSTALL AND TESTING & COMMISIONING OF AN APPOINTMENT AND QUEUE MANAGEMENT SYSTEM (AQMS) - TMC LIFE
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hospital appointment and queue-system invitation opened February xx.xx 2026 and closed March xx.xx 2026. It supports intended hospital purchasing responsibility, not an award or observed revenue.

42. Capitec Makes Banking Easier for Customers with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
43. Queue Management System at the Poltavavodokanal Customer Service Center
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
44. Simulating pedestrian vision and wayfinding with Oasys MassMotion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
45. Pathfinder Partners
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
46. Virtual Queue Management at Applebee's | Waitwhile
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
47. Telecom Company GTA Redefines its Customer Experience with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
48. SenSource Case Study: Grace Family Church
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.

49. Intuitive appointment scheduling at Sgro’s Barbershop | Waitwhile

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.

50. Attendee tracking | Real-time event attendance and session data

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.

51. Scott County Board of Supervisors, May 14, 2020 Agenda and Enclosures - Customer Queueing Application Upgrade

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))

52. Best Cloud-Based Queue Management Software | Qwaiting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))

53. Qwaiting Pricing Plans - Queue Management Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))

54. Jacksonville Aviation Authority, April 28, 2025 Awards Committee Agenda - Xovis AERO Passenger Flow Management System

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))

55. Crowd watch: DASA funded AI and LiDAR innovation helps enhance crowd safety

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

56. Wavetec's Cutting-Edge Implementation of Kubernetes Architecture

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

57. Cloud vs On-Premise Queue Management Systems: Which Is Better? | Wavetec

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: In its April xx.xx 2026 description of its own offering, Wavetec identifies local queue cores combined with cloud analytics and notifications. The substantive local-plus-external application arrangement supports the Hybrid forecast premise; third-party market-research percentages on the page are not used. ([wavetec.com](https://www.wavetec.com/blog/queue-management/cloud-vs-on-premise-queue-management-systems/))

58. The Wait is Over: How Virtual Queuing is Improving Venue Guest Experiences | accesso

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

59. Software Licenses | GSA

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))

60. City and County of Denver-Q-Matic Corporation Agreement, CLERK-201310119-00

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))

61. QueueRite Pricing

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))

62. Pricing & Per-Solution ROI Calculators | Zeour Ltd

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))

63. Smart Retail Counter - People Counting and Queue Analytics Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))

64. Pricing and Discounts | Purchasing, Licensing, & Support 2026.1 Docs

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))

65. Bentley Systems, Incorporated - 2025 Form 10-K
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
66. Crowd Connected Pricing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
67. Qminder Terms of Service
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.

68. Business Partnership Opportunities for Queue Management - Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
69. New York City Record - December 23, 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
70. Channel Partner Program | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
71. Become a partner | Xovis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.

72. San Francisco Airport Commission - Minutes, December 2, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
73. Qmatic Welcomes TechConnect as New Solution Partner in Australia
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 Australian solution-partner announcement explicitly combines Qmatic SaaS with partner delivery. It challenges automatic cloud-to-direct attribution without supplying a forecast channel-transfer rate.
74. Partners | WaitTime
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
75. Qmatic Welcomes Corvice AG as New Premier Solution Partner in Switzerland
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2026 announcement assigns Swiss delivery, implementation and support responsibilities to Corvice. It supports continuing intermediary capability, but neither discloses software seller-of-record revenue nor quantifies a channel-share change.
76. OneGov | GSA
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.

77. Zoho Backstage - Terms of Use

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.

78. RetailNext Majority Growth Investment From Battery Ventures

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))

79. RetailNext Integrates Pine59 Mobile Intelligence For A Complete View Inside And Outside Stores

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced integration connects in-store analytics with outside-store mobile intelligence, initially in the United States, with UK coverage planned for early 2027. Availability does not establish eligible crowd-management revenue, an inseparable entitlement or paid adoption; the forecast retains a limited assumed qualifying cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))

80. Assess crowd safety risks and identify hazards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))

81. accesso® Powers Virtual Queue for The Philadelphia Museum of Art Cassatt Exhibit

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))

82. accesso LoQueue Virtual Queuing System

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))

17.9. Italy

Table 358. Italy Crowd Management Software Market Size, 2017-2040 (USD Million)

Sources & Evidence

1. Pathfinder Pricing

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))

2. LEGION | Bentley Systems

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))

3. Qmatic Welcomes New CEO and Vice CEO

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))

4. Qmatic | FAQs
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))

5. accesso Technology Group plc - Results for the six months ended 30 June 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts. ([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts. ([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half virtual-queuing revenue fell from USD xx.xx to USD xx.xx, constraining the inherited royalty forecast partly allocated to flow.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed customer-contract-related royalty decline is counterevidence to automatic visitor-software expansion; it does not observe the future purpose mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The royalty decline supports forecast caution despite a broader commercial proposition, without proving the modeled commercial share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half 2026 virtual-queuing revenue was USD xx.xx versus USD xx.xx in first-half 2025, with disclosed contract changes and seasonality. This supports a contraction mechanism, not independent verification of the modeled 2032 royalty amount.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue falls from USD xx.xx in H1 2025 to USD xx.xx in H1 2026 following customer contract changes. This independently supports the inherited royalty contraction as a forecast mix counterforce, not a measured sales-channel percentage.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed royalty change affects the relative economic weight used in the complementary channel forecast. Accesso's separate ticket-distribution revenue is not treated as indirect crowd-software sales.

6. People Counting System Pricing - Nano AI + BoostBI | V-Count
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property monitoring numerator.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property

7. Port of Seattle Commission Agenda Memorandum - Passenger Flow Metrics Project, April 26, 2022
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx ten-year recurring budget. It constrains the inherited complex-contract valuation but does not disclose the underlying application-use duration. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx

8. 5 easy packages to buy Halo for venues
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
9. Pricing | SaaS Pricing for Ticketing & POS | Venue Manager
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))

10. Digital Signage Software Pricing - ScreenCloud

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))

11. Federal Reserve Board - Foreign Exchange Rates, G.5A, January 5, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))

12. Crowd controls inside the venue - HSE

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))

13. Event Access Control & Management - We are InSite

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))

14. End of Life Announcement: Qmatic Show

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 announcement schedules support cessation for October xx.xx 2027 and says the application can continue running. It supports a conditional renewal-risk mechanism, not an observed migration cohort or compulsory software-purchasing spike. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced October xx.xx 2027 support cessation supports a replacement condition, not a quantified queue purchasing spike.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No affected paid-cohort count or resource-application conversion is disclosed, supporting restraint against adding automatic staffing monetization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued operation and possible hardware requirements qualify the visitor-display replacement opportunity; replacement does not itself establish incremental software demand.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 notice sets Qmatic Show's support cessation for October xx.xx 2027 while stating that the application can continue running. This supports a conditional renewal trigger, not compulsory abandonment of local execution. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated support deadline creates an opportunity to reconsider delivery arrangements, but the notice provides neither affected software revenue nor a required move to Hosted delivery. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))

15. Gentrack Group - FY25 Investor Presentation
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo reports FY2025 recurring growth of xx.xx%, with different project and hardware movements. This provides a broader commercial comparison for the complex-site forecast, not a crowd-specific market growth rate. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed recurring growth supports ongoing commercial demand but does not identify inseparable crowd-suite contracts or verify the modeled suite mix shift. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
16. Traffic Modelling Guidelines v4
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
17. QtracVR Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
18. Xovis Brings Groundbreaking AI-Powered Solution to NRF 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
19. Why Enterprise Retailers Choose RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
20. Multi-Brand Product Showrooms
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.

21. Compare Workplace Utilization Solutions for Smarter Spaces
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
22. Ouster Accelerates Software Adoption in 2025 with Record Bookings and Global Expansion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
23. A Guide to the Passenger Movement Sensor Landscape
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
24. Location Analytics and Footfall Counting
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.

25. About Crowd Connected
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
26. Halo Solutions to Help Keep People Safe at the Belfast Arena
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
27. Our Impact - Halo Solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
28. accesso LoQueue Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
29. UCLA Facilities - Space Optimization Pilot Programs
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.

30. Health and Safety Executive - Monitor the crowd
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
31. Health and Safety Executive - Planning for incidents and emergencies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
32. Thunderhead Engineering - Pathfinder Crowd Movement Simulation and Egress Software
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
33. Port of Seattle - Spot Saver Virtual Queue Program, Commission Agenda Memorandum, September 28, 2021
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.

34. IMDA - In-Store Analytics Pre-Approval Onboarding Guide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
35. Omnivex - Leverage Digital Signage for Crowd Control
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.

36. accesso Technology Group plc - Annual Report and Accounts 2023

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))

37. The Halo System - Halo Solutions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.

38. Retail Analytics Company | Who We Are | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
39. Xovis - Swiss precision measures people flows worldwide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
40. Holiday 2024 Air Travel a Test for Tech Advances at Global Airports
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
41. TO SUPPLY, DELIVER, INSTALL AND TESTING & COMMISIONING OF AN APPOINTMENT AND QUEUE MANAGEMENT SYSTEM (AQMS) - TMC LIFE
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hospital appointment and queue-system invitation opened February xx.xx 2026 and closed March xx.xx 2026. It supports intended hospital purchasing responsibility, not an award or observed revenue.

42. Capitec Makes Banking Easier for Customers with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
43. Queue Management System at the Poltavavodokanal Customer Service Center
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
44. Simulating pedestrian vision and wayfinding with Oasys MassMotion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
45. Pathfinder Partners
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
46. Virtual Queue Management at Applebee's | Waitwhile
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
47. Telecom Company GTA Redefines its Customer Experience with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
48. SenSource Case Study: Grace Family Church
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.

49. Intuitive appointment scheduling at Sgro’s Barbershop | Waitwhile

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.

50. Attendee tracking | Real-time event attendance and session data

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.

51. Scott County Board of Supervisors, May 14, 2020 Agenda and Enclosures - Customer Queueing Application Upgrade

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))

52. Best Cloud-Based Queue Management Software | Qwaiting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))

53. Qwaiting Pricing Plans - Queue Management Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))

54. Jacksonville Aviation Authority, April 28, 2025 Awards Committee Agenda - Xovis AERO Passenger Flow Management System

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))

55. Crowd watch: DASA funded AI and LiDAR innovation helps enhance crowd safety

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

56. Wavetec's Cutting-Edge Implementation of Kubernetes Architecture

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

57. Cloud vs On-Premise Queue Management Systems: Which Is Better? | Wavetec

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: In its April xx.xx 2026 description of its own offering, Wavetec identifies local queue cores combined with cloud analytics and notifications. The substantive local-plus-external application arrangement supports the Hybrid forecast premise; third-party market-research percentages on the page are not used. ([wavetec.com](https://www.wavetec.com/blog/queue-management/cloud-vs-on-premise-queue-management-systems/))

58. The Wait is Over: How Virtual Queuing is Improving Venue Guest Experiences | accesso

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

59. Software Licenses | GSA

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))

60. City and County of Denver-Q-Matic Corporation Agreement, CLERK-201310119-00

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))

61. QueueRite Pricing

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))

62. Pricing & Per-Solution ROI Calculators | Zeour Ltd

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))

63. Smart Retail Counter - People Counting and Queue Analytics Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))

64. Pricing and Discounts | Purchasing, Licensing, & Support 2026.1 Docs

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))

65. Bentley Systems, Incorporated - 2025 Form 10-K

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.

66. Crowd Connected Pricing

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))

67. Qminder Terms of Service

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.

68. Business Partnership Opportunities for Queue Management - Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
69. New York City Record - December 23, 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
70. Channel Partner Program | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
71. Become a partner | Xovis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.

72. San Francisco Airport Commission - Minutes, December 2, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
73. Qmatic Welcomes TechConnect as New Solution Partner in Australia
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 Australian solution-partner announcement explicitly combines Qmatic SaaS with partner delivery. It challenges automatic cloud-to-direct attribution without supplying a forecast channel-transfer rate.
74. Partners | WaitTime
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
75. Qmatic Welcomes Corvice AG as New Premier Solution Partner in Switzerland
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2026 announcement assigns Swiss delivery, implementation and support responsibilities to Corvice. It supports continuing intermediary capability, but neither discloses software seller-of-record revenue nor quantifies a channel-share change.
76. OneGov | GSA
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.

77. Zoho Backstage - Terms of Use

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.

78. RetailNext Majority Growth Investment From Battery Ventures

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))

79. RetailNext Integrates Pine59 Mobile Intelligence For A Complete View Inside And Outside Stores

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced integration connects in-store analytics with outside-store mobile intelligence, initially in the United States, with UK coverage planned for early 2027. Availability does not establish eligible crowd-management revenue, an inseparable entitlement or paid adoption; the forecast retains a limited assumed qualifying cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))

80. Assess crowd safety risks and identify hazards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))

81. accesso® Powers Virtual Queue for The Philadelphia Museum of Art Cassatt Exhibit

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))

82. accesso LoQueue Virtual Queuing System

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))

Sources & Evidence

1. Pathfinder Pricing

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))

2. LEGION | Bentley Systems

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))

3. Qmatic Welcomes New CEO and Vice CEO

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))

4. Qmatic | FAQs
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))

5. accesso Technology Group plc - Results for the six months ended 30 June 2026

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts. ([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts. ([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half virtual-queuing revenue fell from USD xx.xx to USD xx.xx, constraining the inherited royalty forecast partly allocated to flow.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed customer-contract-related royalty decline is counterevidence to automatic visitor-software expansion; it does not observe the future purpose mix.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The royalty decline supports forecast caution despite a broader commercial proposition, without proving the modeled commercial share.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half 2026 virtual-queuing revenue was USD xx.xx versus USD xx.xx in first-half 2025, with disclosed contract changes and seasonality. This supports a contraction mechanism, not independent verification of the modeled 2032 royalty amount.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue falls from USD xx.xx in H1 2025 to USD xx.xx in H1 2026 following customer contract changes. This independently supports the inherited royalty contraction as a forecast mix counterforce, not a measured sales-channel percentage.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed royalty change affects the relative economic weight used in the complementary channel forecast. Accesso's separate ticket-distribution revenue is not treated as indirect crowd-software sales.

6. People Counting System Pricing - Nano AI + BoostBI | V-Count
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property monitoring numerator.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property

7. Port of Seattle Commission Agenda Memorandum - Passenger Flow Metrics Project, April 26, 2022
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx ten-year recurring budget. It constrains the inherited complex-contract valuation but does not disclose the underlying application-use duration. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx

8. 5 easy packages to buy Halo for venues

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))

9. Pricing | SaaS Pricing for Ticketing & POS | Venue Manager

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))

10. Digital Signage Software Pricing - ScreenCloud

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))

11. Federal Reserve Board - Foreign Exchange Rates, G.5A, January 5, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))

12. Crowd controls inside the venue - HSE
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
13. Event Access Control & Management - We are InSite
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))
14. End of Life Announcement: Qmatic Show
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 announcement schedules support cessation for October xx.xx 2027 and says the application can continue running. It supports a conditional renewal-risk mechanism, not an observed migration cohort or compulsory software-purchasing spike. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced October xx.xx 2027 support cessation supports a replacement condition, not a quantified queue purchasing spike.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No affected paid-cohort count or resource-application conversion is disclosed, supporting restraint against adding automatic staffing monetization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued operation and possible hardware requirements qualify the visitor-display replacement opportunity; replacement does not itself establish incremental software demand.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 notice sets Qmatic Show's support cessation for October xx.xx 2027 while stating that the application can continue running. This supports a conditional renewal trigger, not compulsory abandonment of local execution. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated support deadline creates an opportunity to reconsider delivery arrangements, but the notice provides neither affected software revenue nor a required move to Hosted delivery. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))

15. Gentrack Group - FY25 Investor Presentation
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo reports FY2025 recurring growth of xx.xx%, with different project and hardware movements. This provides a broader commercial comparison for the complex-site forecast, not a crowd-specific market growth rate. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed recurring growth supports ongoing commercial demand but does not identify inseparable crowd-suite contracts or verify the modeled suite mix shift. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
16. Traffic Modelling Guidelines v4
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
17. QtracVR Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
18. Xovis Brings Groundbreaking AI-Powered Solution to NRF 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
19. Why Enterprise Retailers Choose RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
20. Multi-Brand Product Showrooms
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.

21. Compare Workplace Utilization Solutions for Smarter Spaces
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
22. Ouster Accelerates Software Adoption in 2025 with Record Bookings and Global Expansion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
23. A Guide to the Passenger Movement Sensor Landscape
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
24. Location Analytics and Footfall Counting
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.

25. About Crowd Connected
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
26. Halo Solutions to Help Keep People Safe at the Belfast Arena
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
27. Our Impact - Halo Solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
28. accesso LoQueue Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
29. UCLA Facilities - Space Optimization Pilot Programs
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.

30. Health and Safety Executive - Monitor the crowd
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
31. Health and Safety Executive - Planning for incidents and emergencies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
32. Thunderhead Engineering - Pathfinder Crowd Movement Simulation and Egress Software
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
33. Port of Seattle - Spot Saver Virtual Queue Program, Commission Agenda Memorandum, September 28, 2021
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.

34. IMDA - In-Store Analytics Pre-Approval Onboarding Guide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
35. Omnivex - Leverage Digital Signage for Crowd Control
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.

36. accesso Technology Group plc - Annual Report and Accounts 2023
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))
37. The Halo System - Halo Solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.

38. Retail Analytics Company | Who We Are | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
39. Xovis - Swiss precision measures people flows worldwide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
40. Holiday 2024 Air Travel a Test for Tech Advances at Global Airports
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
41. TO SUPPLY, DELIVER, INSTALL AND TESTING & COMMISIONING OF AN APPOINTMENT AND QUEUE MANAGEMENT SYSTEM (AQMS) - TMC LIFE
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hospital appointment and queue-system invitation opened February xx.xx 2026 and closed March xx.xx 2026. It supports intended hospital purchasing responsibility, not an award or observed revenue.

42. Capitec Makes Banking Easier for Customers with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
43. Queue Management System at the Poltavavodokanal Customer Service Center
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
44. Simulating pedestrian vision and wayfinding with Oasys MassMotion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
45. Pathfinder Partners
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
46. Virtual Queue Management at Applebee's | Waitwhile
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
47. Telecom Company GTA Redefines its Customer Experience with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
48. SenSource Case Study: Grace Family Church
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.

49. Intuitive appointment scheduling at Sgro’s Barbershop | Waitwhile

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.

50. Attendee tracking | Real-time event attendance and session data

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.

51. Scott County Board of Supervisors, May 14, 2020 Agenda and Enclosures - Customer Queueing Application Upgrade

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))

52. Best Cloud-Based Queue Management Software | Qwaiting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))

53. Qwaiting Pricing Plans - Queue Management Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))

54. Jacksonville Aviation Authority, April 28, 2025 Awards Committee Agenda - Xovis AERO Passenger Flow Management System

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))

55. Crowd watch: DASA funded AI and LiDAR innovation helps enhance crowd safety

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

56. Wavetec's Cutting-Edge Implementation of Kubernetes Architecture

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

57. Cloud vs On-Premise Queue Management Systems: Which Is Better? | Wavetec

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: In its April xx.xx 2026 description of its own offering, Wavetec identifies local queue cores combined with cloud analytics and notifications. The substantive local-plus-external application arrangement supports the Hybrid forecast premise; third-party market-research percentages on the page are not used. ([wavetec.com](https://www.wavetec.com/blog/queue-management/cloud-vs-on-premise-queue-management-systems/))

58. The Wait is Over: How Virtual Queuing is Improving Venue Guest Experiences | accesso

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

59. Software Licenses | GSA
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
60. City and County of Denver-Q-Matic Corporation Agreement, CLERK-201310119-00
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))
61. QueueRite Pricing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))

62. Pricing & Per-Solution ROI Calculators | Zeour Ltd

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))

63. Smart Retail Counter - People Counting and Queue Analytics Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))

64. Pricing and Discounts | Purchasing, Licensing, & Support 2026.1 Docs

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))

65. Bentley Systems, Incorporated - 2025 Form 10-K
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
66. Crowd Connected Pricing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
67. Qminder Terms of Service
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.

68. Business Partnership Opportunities for Queue Management - Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
69. New York City Record - December 23, 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
70. Channel Partner Program | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
71. Become a partner | Xovis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.

72. San Francisco Airport Commission - Minutes, December 2, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
73. Qmatic Welcomes TechConnect as New Solution Partner in Australia
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 Australian solution-partner announcement explicitly combines Qmatic SaaS with partner delivery. It challenges automatic cloud-to-direct attribution without supplying a forecast channel-transfer rate.
74. Partners | WaitTime
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
75. Qmatic Welcomes Corvice AG as New Premier Solution Partner in Switzerland
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2026 announcement assigns Swiss delivery, implementation and support responsibilities to Corvice. It supports continuing intermediary capability, but neither discloses software seller-of-record revenue nor quantifies a channel-share change.
76. OneGov | GSA
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.

77. Zoho Backstage - Terms of Use

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.

78. RetailNext Majority Growth Investment From Battery Ventures

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))

79. RetailNext Integrates Pine59 Mobile Intelligence For A Complete View Inside And Outside Stores

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced integration connects in-store analytics with outside-store mobile intelligence, initially in the United States, with UK coverage planned for early 2027. Availability does not establish eligible crowd-management revenue, an inseparable entitlement or paid adoption; the forecast retains a limited assumed qualifying cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))

80. Assess crowd safety risks and identify hazards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))

81. accesso® Powers Virtual Queue for The Philadelphia Museum of Art Cassatt Exhibit

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))

82. accesso LoQueue Virtual Queuing System

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))

17.11. Spain

Table 376. Spain Crowd Management Software Market Size, 2017-2040 (USD Million)

Country	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Spain	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 377. Spain Crowd Management Software Market Size, by Software Offering, 2017-2040 (USD Million)

Software Offering	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Capacity and Admission Control Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Crowd Guidance and Communication Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Crowd Monitoring and Analytics Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Crowd Operations Coordination Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Crowd Planning and Simulation Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Integrated Crowd Management Suites	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Queue and Arrival Management Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 378. Spain Crowd Management Software Market Size, by Crowd Data Source, 2017-2040 (USD Million)

Crowd Data Source	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Admission and Queue Records	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Human-Reported Data	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Image and Video Data	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Mobile Location Data	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Multi-Source Data Fusion	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Non-Imaging Sensor Data	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Scenario and Design Inputs	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Wireless Signal Data	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 379. Spain Crowd Management Software Market Size, by Application, 2017-2040 (USD Million)

Application	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Capacity and Space Planning	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Commercial Performance Optimization	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Crowd Safety and Security	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Emergency Preparedness and Response	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Flow and Queue Efficiency	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Staffing and Resource Optimization	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Visitor Guidance and Experience	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 380. Spain Crowd Management Software Market Size, by End User, 2017-2040 (USD Million)

End User	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Accommodation and Food Services	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Education and Libraries	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx

Table 384. Spain Crowd Management Software Market Size, by Operating Environment, 2017-2040 (USD Million)

Operating Environment	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Indoor	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Indoor and Outdoor	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Outdoor	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Sources & Evidence

1. Pathfinder Pricing

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))

2. LEGION | Bentley Systems

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))

3. Qmatic Welcomes New CEO and Vice CEO

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))

4. Qmatic | FAQs
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))

5. accesso Technology Group plc - Results for the six months ended 30 June 2026

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts. ([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts. ([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half virtual-queuing revenue fell from USD xx.xx to USD xx.xx, constraining the inherited royalty forecast partly allocated to flow.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed customer-contract-related royalty decline is counterevidence to automatic visitor-software expansion; it does not observe the future purpose mix.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The royalty decline supports forecast caution despite a broader commercial proposition, without proving the modeled commercial share.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half 2026 virtual-queuing revenue was USD xx.xx versus USD xx.xx in first-half 2025, with disclosed contract changes and seasonality. This supports a contraction mechanism, not independent verification of the modeled 2032 royalty amount.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue falls from USD xx.xx in H1 2025 to USD xx.xx in H1 2026 following customer contract changes. This independently supports the inherited royalty contraction as a forecast mix counterforce, not a measured sales-channel percentage.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed royalty change affects the relative economic weight used in the complementary channel forecast. Accesso's separate ticket-distribution revenue is not treated as indirect crowd-software sales.

6. People Counting System Pricing - Nano AI + BoostBI | V-Count
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property monitoring numerator.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property

7. Port of Seattle Commission Agenda Memorandum - Passenger Flow Metrics Project, April 26, 2022
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx ten-year recurring budget. It constrains the inherited complex-contract valuation but does not disclose the underlying application-use duration. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx

8. 5 easy packages to buy Halo for venues
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
9. Pricing | SaaS Pricing for Ticketing & POS | Venue Manager
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))

10. Digital Signage Software Pricing - ScreenCloud

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))

11. Federal Reserve Board - Foreign Exchange Rates, G.5A, January 5, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))

12. Crowd controls inside the venue - HSE

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))

13. Event Access Control & Management - We are InSite

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))

14. End of Life Announcement: Qmatic Show

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 announcement schedules support cessation for October xx.xx 2027 and says the application can continue running. It supports a conditional renewal-risk mechanism, not an observed migration cohort or compulsory software-purchasing spike. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced October xx.xx 2027 support cessation supports a replacement condition, not a quantified queue purchasing spike.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No affected paid-cohort count or resource-application conversion is disclosed, supporting restraint against adding automatic staffing monetization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued operation and possible hardware requirements qualify the visitor-display replacement opportunity; replacement does not itself establish incremental software demand.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 notice sets Qmatic Show's support cessation for October xx.xx 2027 while stating that the application can continue running. This supports a conditional renewal trigger, not compulsory abandonment of local execution. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated support deadline creates an opportunity to reconsider delivery arrangements, but the notice provides neither affected software revenue nor a required move to Hosted delivery. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))

15. Gentrack Group - FY25 Investor Presentation
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo reports FY2025 recurring growth of xx.xx%, with different project and hardware movements. This provides a broader commercial comparison for the complex-site forecast, not a crowd-specific market growth rate. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed recurring growth supports ongoing commercial demand but does not identify inseparable crowd-suite contracts or verify the modeled suite mix shift. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
16. Traffic Modelling Guidelines v4
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
17. QtracVR Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
18. Xovis Brings Groundbreaking AI-Powered Solution to NRF 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
19. Why Enterprise Retailers Choose RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
20. Multi-Brand Product Showrooms
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.

21. Compare Workplace Utilization Solutions for Smarter Spaces
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
22. Ouster Accelerates Software Adoption in 2025 with Record Bookings and Global Expansion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
23. A Guide to the Passenger Movement Sensor Landscape
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
24. Location Analytics and Footfall Counting
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.

25. About Crowd Connected
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
26. Halo Solutions to Help Keep People Safe at the Belfast Arena
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
27. Our Impact - Halo Solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
28. accesso LoQueue Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
29. UCLA Facilities - Space Optimization Pilot Programs
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.

30. Health and Safety Executive - Monitor the crowd
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
31. Health and Safety Executive - Planning for incidents and emergencies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
32. Thunderhead Engineering - Pathfinder Crowd Movement Simulation and Egress Software
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
33. Port of Seattle - Spot Saver Virtual Queue Program, Commission Agenda Memorandum, September 28, 2021
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.

34. IMDA - In-Store Analytics Pre-Approval Onboarding Guide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
35. Omnivex - Leverage Digital Signage for Crowd Control
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.

36. accesso Technology Group plc - Annual Report and Accounts 2023

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))

37. The Halo System - Halo Solutions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.

38. Retail Analytics Company | Who We Are | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
39. Xovis - Swiss precision measures people flows worldwide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
40. Holiday 2024 Air Travel a Test for Tech Advances at Global Airports
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
41. TO SUPPLY, DELIVER, INSTALL AND TESTING & COMMISIONING OF AN APPOINTMENT AND QUEUE MANAGEMENT SYSTEM (AQMS) - TMC LIFE
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hospital appointment and queue-system invitation opened February xx.xx 2026 and closed March xx.xx 2026. It supports intended hospital purchasing responsibility, not an award or observed revenue.

42. Capitec Makes Banking Easier for Customers with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
43. Queue Management System at the Poltavavodokanal Customer Service Center
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
44. Simulating pedestrian vision and wayfinding with Oasys MassMotion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
45. Pathfinder Partners
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
46. Virtual Queue Management at Applebee's | Waitwhile
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
47. Telecom Company GTA Redefines its Customer Experience with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
48. SenSource Case Study: Grace Family Church
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.

49. Intuitive appointment scheduling at Sgro’s Barbershop | Waitwhile

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.

50. Attendee tracking | Real-time event attendance and session data

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.

51. Scott County Board of Supervisors, May 14, 2020 Agenda and Enclosures - Customer Queueing Application Upgrade

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))

52. Best Cloud-Based Queue Management Software | Qwaiting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))

53. Qwaiting Pricing Plans - Queue Management Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))

54. Jacksonville Aviation Authority, April 28, 2025 Awards Committee Agenda - Xovis AERO Passenger Flow Management System

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))

55. Crowd watch: DASA funded AI and LiDAR innovation helps enhance crowd safety

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

56. Wavetec's Cutting-Edge Implementation of Kubernetes Architecture

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

57. Cloud vs On-Premise Queue Management Systems: Which Is Better? | Wavetec

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: In its April xx.xx 2026 description of its own offering, Wavetec identifies local queue cores combined with cloud analytics and notifications. The substantive local-plus-external application arrangement supports the Hybrid forecast premise; third-party market-research percentages on the page are not used. ([wavetec.com](https://www.wavetec.com/blog/queue-management/cloud-vs-on-premise-queue-management-systems/))

58. The Wait is Over: How Virtual Queuing is Improving Venue Guest Experiences | accesso

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

59. Software Licenses | GSA

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))

60. City and County of Denver-Q-Matic Corporation Agreement, CLERK-201310119-00

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))

61. QueueRite Pricing

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))

62. Pricing & Per-Solution ROI Calculators | Zeour Ltd

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))

63. Smart Retail Counter - People Counting and Queue Analytics Software

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))

64. Pricing and Discounts | Purchasing, Licensing, & Support 2026.1 Docs

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))

65. Bentley Systems, Incorporated - 2025 Form 10-K
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
66. Crowd Connected Pricing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
67. Qminder Terms of Service
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.

68. Business Partnership Opportunities for Queue Management - Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
69. New York City Record - December 23, 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
70. Channel Partner Program | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
71. Become a partner | Xovis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.

72. San Francisco Airport Commission - Minutes, December 2, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
73. Qmatic Welcomes TechConnect as New Solution Partner in Australia
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 Australian solution-partner announcement explicitly combines Qmatic SaaS with partner delivery. It challenges automatic cloud-to-direct attribution without supplying a forecast channel-transfer rate.
74. Partners | WaitTime
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
75. Qmatic Welcomes Corvice AG as New Premier Solution Partner in Switzerland
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2026 announcement assigns Swiss delivery, implementation and support responsibilities to Corvice. It supports continuing intermediary capability, but neither discloses software seller-of-record revenue nor quantifies a channel-share change.
76. OneGov | GSA
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.

77. Zoho Backstage - Terms of Use

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.

78. RetailNext Majority Growth Investment From Battery Ventures

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))

79. RetailNext Integrates Pine59 Mobile Intelligence For A Complete View Inside And Outside Stores

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced integration connects in-store analytics with outside-store mobile intelligence, initially in the United States, with UK coverage planned for early 2027. Availability does not establish eligible crowd-management revenue, an inseparable entitlement or paid adoption; the forecast retains a limited assumed qualifying cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))

80. Assess crowd safety risks and identify hazards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))

81. accesso® Powers Virtual Queue for The Philadelphia Museum of Art Cassatt Exhibit

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))

82. accesso LoQueue Virtual Queuing System

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))

17.12. Brazil

Table 385. Brazil Crowd Management Software Market Size, 2017-2040 (USD Million)

Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Sources & Evidence

1. Customer stories - Alliar Médicos à Frente

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier describes a Brazilian healthcare organization with more than xx.xx care units; licensed-unit count and revenue are not disclosed.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier describes a Brazilian healthcare organization with more than xx.xx care units; licensed-unit count and revenue are not disclosed.

2. Pathfinder Pricing

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))

3. LEGION | Bentley Systems

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))

4. Qmatic Welcomes New CEO and Vice CEO
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate.
   ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate.
   ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))

5. Qmatic | FAQs
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))

6. accesso Technology Group plc - Results for the six months ended 30 June 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts. ([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts. ([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half virtual-queuing revenue fell from USD xx.xx to USD xx.xx, constraining the inherited royalty forecast partly allocated to flow.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed customer-contract-related royalty decline is counterevidence to automatic visitor-software expansion; it does not observe the future purpose mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The royalty decline supports forecast caution despite a broader commercial proposition, without proving the modeled commercial share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half 2026 virtual-queuing revenue was USD xx.xx versus USD xx.xx in first-half 2025, with disclosed contract changes and seasonality. This supports a contraction mechanism, not independent verification of the modeled 2032 royalty amount.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue falls from USD xx.xx in H1 2025 to USD xx.xx in H1 2026 following customer contract changes. This independently supports the inherited royalty contraction as a forecast mix counterforce, not a measured sales-channel percentage.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed royalty change affects the relative economic weight used in the complementary channel forecast. Accesso's separate ticket-distribution revenue is not treated as indirect crowd-software sales.

7. People Counting System Pricing - Nano AI + BoostBI | V-Count

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property monitoring numerator.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property

8. Port of Seattle Commission Agenda Memorandum - Passenger Flow Metrics Project, April 26, 2022
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx ten-year recurring budget. It constrains the inherited complex-contract valuation but does not disclose the underlying application-use duration. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx

9. 5 easy packages to buy Halo for venues
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
10. Pricing | SaaS Pricing for Ticketing & POS | Venue Manager
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))

11. Digital Signage Software Pricing - ScreenCloud

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))

12. Federal Reserve Board - Foreign Exchange Rates, G.5A, January 5, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))

13. Crowd controls inside the venue - HSE

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))

14. Event Access Control & Management - We are InSite

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))

15. End of Life Announcement: Qmatic Show

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 announcement schedules support cessation for October xx.xx 2027 and says the application can continue running. It supports a conditional renewal-risk mechanism, not an observed migration cohort or compulsory software-purchasing spike. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced October xx.xx 2027 support cessation supports a replacement condition, not a quantified queue purchasing spike.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No affected paid-cohort count or resource-application conversion is disclosed, supporting restraint against adding automatic staffing monetization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued operation and possible hardware requirements qualify the visitor-display replacement opportunity; replacement does not itself establish incremental software demand.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 notice sets Qmatic Show's support cessation for October xx.xx 2027 while stating that the application can continue running. This supports a conditional renewal trigger, not compulsory abandonment of local execution. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated support deadline creates an opportunity to reconsider delivery arrangements, but the notice provides neither affected software revenue nor a required move to Hosted delivery. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))

16. Gentrack Group - FY25 Investor Presentation
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo reports FY2025 recurring growth of xx.xx%, with different project and hardware movements. This provides a broader commercial comparison for the complex-site forecast, not a crowd-specific market growth rate. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed recurring growth supports ongoing commercial demand but does not identify inseparable crowd-suite contracts or verify the modeled suite mix shift. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
17. Traffic Modelling Guidelines v4
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
18. QtracVR Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
19. Xovis Brings Groundbreaking AI-Powered Solution to NRF 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
20. Why Enterprise Retailers Choose RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
21. Multi-Brand Product Showrooms
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.

22. Compare Workplace Utilization Solutions for Smarter Spaces
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
23. Ouster Accelerates Software Adoption in 2025 with Record Bookings and Global Expansion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
24. A Guide to the Passenger Movement Sensor Landscape
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
25. Location Analytics and Footfall Counting
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.

26. About Crowd Connected
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
27. Halo Solutions to Help Keep People Safe at the Belfast Arena
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
28. Our Impact - Halo Solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
29. accesso LoQueue Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
30. UCLA Facilities - Space Optimization Pilot Programs
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.

31. Health and Safety Executive - Monitor the crowd
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
32. Health and Safety Executive - Planning for incidents and emergencies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
33. Thunderhead Engineering - Pathfinder Crowd Movement Simulation and Egress Software
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
34. Port of Seattle - Spot Saver Virtual Queue Program, Commission Agenda Memorandum, September 28, 2021
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.

35. IMDA - In-Store Analytics Pre-Approval Onboarding Guide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
36. Omnivex - Leverage Digital Signage for Crowd Control
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.

37. accesso Technology Group plc - Annual Report and Accounts 2023

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))

38. The Halo System - Halo Solutions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.

39. Retail Analytics Company | Who We Are | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
40. Xovis - Swiss precision measures people flows worldwide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
41. Holiday 2024 Air Travel a Test for Tech Advances at Global Airports
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
42. TO SUPPLY, DELIVER, INSTALL AND TESTING & COMMISIONING OF AN APPOINTMENT AND QUEUE MANAGEMENT SYSTEM (AQMS) - TMC LIFE
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hospital appointment and queue-system invitation opened February xx.xx 2026 and closed March xx.xx 2026. It supports intended hospital purchasing responsibility, not an award or observed revenue.

43. Capitec Makes Banking Easier for Customers with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
44. Queue Management System at the Poltavavodokanal Customer Service Center
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
45. Simulating pedestrian vision and wayfinding with Oasys MassMotion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
46. Pathfinder Partners
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
47. Virtual Queue Management at Applebee's | Waitwhile
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
48. Telecom Company GTA Redefines its Customer Experience with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
49. SenSource Case Study: Grace Family Church
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.

50. Intuitive appointment scheduling at Sgro’s Barbershop | Waitwhile

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.

51. Attendee tracking | Real-time event attendance and session data

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.

52. Scott County Board of Supervisors, May 14, 2020 Agenda and Enclosures - Customer Queueing Application Upgrade

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))

53. Best Cloud-Based Queue Management Software | Qwaiting

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))

54. Qwaiting Pricing Plans - Queue Management Software

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))

55. Jacksonville Aviation Authority, April 28, 2025 Awards Committee Agenda - Xovis AERO Passenger Flow Management System

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))

56. Crowd watch: DASA funded AI and LiDAR innovation helps enhance crowd safety

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

57. Wavetec's Cutting-Edge Implementation of Kubernetes Architecture

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

58. Cloud vs On-Premise Queue Management Systems: Which Is Better? | Wavetec

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: In its April xx.xx 2026 description of its own offering, Wavetec identifies local queue cores combined with cloud analytics and notifications. The substantive local-plus-external application arrangement supports the Hybrid forecast premise; third-party market-research percentages on the page are not used. ([wavetec.com](https://www.wavetec.com/blog/queue-management/cloud-vs-on-premise-queue-management-systems/))

59. The Wait is Over: How Virtual Queuing is Improving Venue Guest Experiences | accesso

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

60. Software Licenses | GSA
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
61. City and County of Denver-Q-Matic Corporation Agreement, CLERK-201310119-00
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))
62. QueueRite Pricing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))

63. Pricing & Per-Solution ROI Calculators | Zeour Ltd

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))

64. Smart Retail Counter - People Counting and Queue Analytics Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))

65. Pricing and Discounts | Purchasing, Licensing, & Support 2026.1 Docs

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))

66. Bentley Systems, Incorporated - 2025 Form 10-K
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
67. Crowd Connected Pricing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
68. Qminder Terms of Service
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.

69. Business Partnership Opportunities for Queue Management - Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
70. New York City Record - December 23, 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
71. Channel Partner Program | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
72. Become a partner | Xovis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.

73. San Francisco Airport Commission - Minutes, December 2, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
74. Qmatic Welcomes TechConnect as New Solution Partner in Australia
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 Australian solution-partner announcement explicitly combines Qmatic SaaS with partner delivery. It challenges automatic cloud-to-direct attribution without supplying a forecast channel-transfer rate.
75. Partners | WaitTime
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
76. Qmatic Welcomes Corvice AG as New Premier Solution Partner in Switzerland
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2026 announcement assigns Swiss delivery, implementation and support responsibilities to Corvice. It supports continuing intermediary capability, but neither discloses software seller-of-record revenue nor quantifies a channel-share change.
77. OneGov | GSA
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.

78. Zoho Backstage - Terms of Use

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.

79. RetailNext Majority Growth Investment From Battery Ventures

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))

80. RetailNext Integrates Pine59 Mobile Intelligence For A Complete View Inside And Outside Stores

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced integration connects in-store analytics with outside-store mobile intelligence, initially in the United States, with UK coverage planned for early 2027. Availability does not establish eligible crowd-management revenue, an inseparable entitlement or paid adoption; the forecast retains a limited assumed qualifying cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))

81. Assess crowd safety risks and identify hazards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))

82. accesso® Powers Virtual Queue for The Philadelphia Museum of Art Cassatt Exhibit
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))
83. accesso LoQueue Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))

Sources & Evidence

1. Pathfinder Pricing

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))

2. LEGION | Bentley Systems

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))

3. Qmatic Welcomes New CEO and Vice CEO

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))

4. Qmatic | FAQs
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))

5. accesso Technology Group plc - Results for the six months ended 30 June 2026

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts. ([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts. ([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half virtual-queuing revenue fell from USD xx.xx to USD xx.xx, constraining the inherited royalty forecast partly allocated to flow.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed customer-contract-related royalty decline is counterevidence to automatic visitor-software expansion; it does not observe the future purpose mix.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The royalty decline supports forecast caution despite a broader commercial proposition, without proving the modeled commercial share.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half 2026 virtual-queuing revenue was USD xx.xx versus USD xx.xx in first-half 2025, with disclosed contract changes and seasonality. This supports a contraction mechanism, not independent verification of the modeled 2032 royalty amount.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue falls from USD xx.xx in H1 2025 to USD xx.xx in H1 2026 following customer contract changes. This independently supports the inherited royalty contraction as a forecast mix counterforce, not a measured sales-channel percentage.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed royalty change affects the relative economic weight used in the complementary channel forecast. Accesso's separate ticket-distribution revenue is not treated as indirect crowd-software sales.

6. People Counting System Pricing - Nano AI + BoostBI | V-Count
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property monitoring numerator.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property

7. Port of Seattle Commission Agenda Memorandum - Passenger Flow Metrics Project, April 26, 2022
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx ten-year recurring budget. It constrains the inherited complex-contract valuation but does not disclose the underlying application-use duration. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx

8. 5 easy packages to buy Halo for venues
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
9. Pricing | SaaS Pricing for Ticketing & POS | Venue Manager
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))

10. Digital Signage Software Pricing - ScreenCloud

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))

11. Federal Reserve Board - Foreign Exchange Rates, G.5A, January 5, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))

12. Crowd controls inside the venue - HSE
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
13. Event Access Control & Management - We are InSite
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))
14. End of Life Announcement: Qmatic Show
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 announcement schedules support cessation for October xx.xx 2027 and says the application can continue running. It supports a conditional renewal-risk mechanism, not an observed migration cohort or compulsory software-purchasing spike. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced October xx.xx 2027 support cessation supports a replacement condition, not a quantified queue purchasing spike.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No affected paid-cohort count or resource-application conversion is disclosed, supporting restraint against adding automatic staffing monetization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued operation and possible hardware requirements qualify the visitor-display replacement opportunity; replacement does not itself establish incremental software demand.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 notice sets Qmatic Show's support cessation for October xx.xx 2027 while stating that the application can continue running. This supports a conditional renewal trigger, not compulsory abandonment of local execution. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated support deadline creates an opportunity to reconsider delivery arrangements, but the notice provides neither affected software revenue nor a required move to Hosted delivery. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))

15. Gentrack Group - FY25 Investor Presentation
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo reports FY2025 recurring growth of xx.xx%, with different project and hardware movements. This provides a broader commercial comparison for the complex-site forecast, not a crowd-specific market growth rate. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed recurring growth supports ongoing commercial demand but does not identify inseparable crowd-suite contracts or verify the modeled suite mix shift. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
16. Traffic Modelling Guidelines v4
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
17. QtracVR Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
18. Xovis Brings Groundbreaking AI-Powered Solution to NRF 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
19. Why Enterprise Retailers Choose RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
20. Multi-Brand Product Showrooms
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.

21. Compare Workplace Utilization Solutions for Smarter Spaces
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
22. Ouster Accelerates Software Adoption in 2025 with Record Bookings and Global Expansion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
23. A Guide to the Passenger Movement Sensor Landscape
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
24. Location Analytics and Footfall Counting
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.

25. About Crowd Connected
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
26. Halo Solutions to Help Keep People Safe at the Belfast Arena
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
27. Our Impact - Halo Solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
28. accesso LoQueue Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
29. UCLA Facilities - Space Optimization Pilot Programs
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.

30. Health and Safety Executive - Monitor the crowd
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
31. Health and Safety Executive - Planning for incidents and emergencies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
32. Thunderhead Engineering - Pathfinder Crowd Movement Simulation and Egress Software
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
33. Port of Seattle - Spot Saver Virtual Queue Program, Commission Agenda Memorandum, September 28, 2021
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.

34. IMDA - In-Store Analytics Pre-Approval Onboarding Guide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
35. Omnivex - Leverage Digital Signage for Crowd Control
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.

36. accesso Technology Group plc - Annual Report and Accounts 2023

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))

37. The Halo System - Halo Solutions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.

38. Retail Analytics Company | Who We Are | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
39. Xovis - Swiss precision measures people flows worldwide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
40. Holiday 2024 Air Travel a Test for Tech Advances at Global Airports
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
41. TO SUPPLY, DELIVER, INSTALL AND TESTING & COMMISIONING OF AN APPOINTMENT AND QUEUE MANAGEMENT SYSTEM (AQMS) - TMC LIFE
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hospital appointment and queue-system invitation opened February xx.xx 2026 and closed March xx.xx 2026. It supports intended hospital purchasing responsibility, not an award or observed revenue.

42. Capitec Makes Banking Easier for Customers with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
43. Queue Management System at the Poltavavodokanal Customer Service Center
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
44. Simulating pedestrian vision and wayfinding with Oasys MassMotion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
45. Pathfinder Partners
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
46. Virtual Queue Management at Applebee's | Waitwhile
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
47. Telecom Company GTA Redefines its Customer Experience with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
48. SenSource Case Study: Grace Family Church
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.

49. Intuitive appointment scheduling at Sgro’s Barbershop | Waitwhile

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.

50. Attendee tracking | Real-time event attendance and session data

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.

51. Scott County Board of Supervisors, May 14, 2020 Agenda and Enclosures - Customer Queueing Application Upgrade

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))

52. Best Cloud-Based Queue Management Software | Qwaiting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))

53. Qwaiting Pricing Plans - Queue Management Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))

54. Jacksonville Aviation Authority, April 28, 2025 Awards Committee Agenda - Xovis AERO Passenger Flow Management System

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))

55. Crowd watch: DASA funded AI and LiDAR innovation helps enhance crowd safety

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

56. Wavetec's Cutting-Edge Implementation of Kubernetes Architecture

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

57. Cloud vs On-Premise Queue Management Systems: Which Is Better? | Wavetec

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: In its April xx.xx 2026 description of its own offering, Wavetec identifies local queue cores combined with cloud analytics and notifications. The substantive local-plus-external application arrangement supports the Hybrid forecast premise; third-party market-research percentages on the page are not used. ([wavetec.com](https://www.wavetec.com/blog/queue-management/cloud-vs-on-premise-queue-management-systems/))

58. The Wait is Over: How Virtual Queuing is Improving Venue Guest Experiences | accesso

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

59. Software Licenses | GSA
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
60. City and County of Denver-Q-Matic Corporation Agreement, CLERK-201310119-00
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))
61. QueueRite Pricing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))

62. Pricing & Per-Solution ROI Calculators | Zeour Ltd

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))

63. Smart Retail Counter - People Counting and Queue Analytics Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))

64. Pricing and Discounts | Purchasing, Licensing, & Support 2026.1 Docs

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))

65. Bentley Systems, Incorporated - 2025 Form 10-K
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
66. Crowd Connected Pricing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
67. Qminder Terms of Service
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.

68. Business Partnership Opportunities for Queue Management - Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
69. New York City Record - December 23, 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
70. Channel Partner Program | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
71. Become a partner | Xovis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.

72. San Francisco Airport Commission - Minutes, December 2, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
73. Qmatic Welcomes TechConnect as New Solution Partner in Australia
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 Australian solution-partner announcement explicitly combines Qmatic SaaS with partner delivery. It challenges automatic cloud-to-direct attribution without supplying a forecast channel-transfer rate.
74. Partners | WaitTime
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
75. Qmatic Welcomes Corvice AG as New Premier Solution Partner in Switzerland
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2026 announcement assigns Swiss delivery, implementation and support responsibilities to Corvice. It supports continuing intermediary capability, but neither discloses software seller-of-record revenue nor quantifies a channel-share change.
76. OneGov | GSA
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.

77. Zoho Backstage - Terms of Use

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.

78. RetailNext Majority Growth Investment From Battery Ventures

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))

79. RetailNext Integrates Pine59 Mobile Intelligence For A Complete View Inside And Outside Stores

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced integration connects in-store analytics with outside-store mobile intelligence, initially in the United States, with UK coverage planned for early 2027. Availability does not establish eligible crowd-management revenue, an inseparable entitlement or paid adoption; the forecast retains a limited assumed qualifying cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))

80. Assess crowd safety risks and identify hazards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))

81. accesso® Powers Virtual Queue for The Philadelphia Museum of Art Cassatt Exhibit

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))

82. accesso LoQueue Virtual Queuing System

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))

17.14. Australia

Table 403. Australia Crowd Management Software Market Size, 2017-2040 (USD Million)

Country	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Australia	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 404. Australia Crowd Management Software Market Size, by Software Offering, 2017-2040 (USD Million)

Software Offering	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Capacity and Admission Control Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Crowd Guidance and Communication Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Crowd Monitoring and Analytics Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Crowd Operations Coordination Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Crowd Planning and Simulation Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Integrated Crowd Management Suites	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Queue and Arrival Management Software	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 405. Australia Crowd Management Software Market Size, by Crowd Data Source, 2017-2040 (USD Million)

Crowd Data Source	2017	2024	2025	2026	2027	2032	2040	CAGR (%)
Admission and Queue Records	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Human-Reported Data	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx

Sources & Evidence

1. Pathfinder Pricing

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))

2. LEGION | Bentley Systems

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))

3. Qmatic Welcomes New CEO and Vice CEO

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))

4. Qmatic | FAQs
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))

5. accesso Technology Group plc - Results for the six months ended 30 June 2026

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts. ([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts. ([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half virtual-queuing revenue fell from USD xx.xx to USD xx.xx, constraining the inherited royalty forecast partly allocated to flow.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed customer-contract-related royalty decline is counterevidence to automatic visitor-software expansion; it does not observe the future purpose mix.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The royalty decline supports forecast caution despite a broader commercial proposition, without proving the modeled commercial share.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half 2026 virtual-queuing revenue was USD xx.xx versus USD xx.xx in first-half 2025, with disclosed contract changes and seasonality. This supports a contraction mechanism, not independent verification of the modeled 2032 royalty amount.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue falls from USD xx.xx in H1 2025 to USD xx.xx in H1 2026 following customer contract changes. This independently supports the inherited royalty contraction as a forecast mix counterforce, not a measured sales-channel percentage.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed royalty change affects the relative economic weight used in the complementary channel forecast. Accesso's separate ticket-distribution revenue is not treated as indirect crowd-software sales.

6. People Counting System Pricing - Nano AI + BoostBI | V-Count
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property monitoring numerator.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property

7. Port of Seattle Commission Agenda Memorandum - Passenger Flow Metrics Project, April 26, 2022
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx ten-year recurring budget. It constrains the inherited complex-contract valuation but does not disclose the underlying application-use duration. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx

8. 5 easy packages to buy Halo for venues
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
9. Pricing | SaaS Pricing for Ticketing & POS | Venue Manager
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))

10. Digital Signage Software Pricing - ScreenCloud

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))

11. Federal Reserve Board - Foreign Exchange Rates, G.5A, January 5, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))

12. Crowd controls inside the venue - HSE

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))

13. Event Access Control & Management - We are InSite

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))

14. End of Life Announcement: Qmatic Show

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 announcement schedules support cessation for October xx.xx 2027 and says the application can continue running. It supports a conditional renewal-risk mechanism, not an observed migration cohort or compulsory software-purchasing spike. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced October xx.xx 2027 support cessation supports a replacement condition, not a quantified queue purchasing spike.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No affected paid-cohort count or resource-application conversion is disclosed, supporting restraint against adding automatic staffing monetization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued operation and possible hardware requirements qualify the visitor-display replacement opportunity; replacement does not itself establish incremental software demand.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 notice sets Qmatic Show's support cessation for October xx.xx 2027 while stating that the application can continue running. This supports a conditional renewal trigger, not compulsory abandonment of local execution. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated support deadline creates an opportunity to reconsider delivery arrangements, but the notice provides neither affected software revenue nor a required move to Hosted delivery. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))

15. Gentrack Group - FY25 Investor Presentation
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo reports FY2025 recurring growth of xx.xx%, with different project and hardware movements. This provides a broader commercial comparison for the complex-site forecast, not a crowd-specific market growth rate. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed recurring growth supports ongoing commercial demand but does not identify inseparable crowd-suite contracts or verify the modeled suite mix shift. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
16. Traffic Modelling Guidelines v4
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
17. QtracVR Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
18. Xovis Brings Groundbreaking AI-Powered Solution to NRF 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
19. Why Enterprise Retailers Choose RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
20. Multi-Brand Product Showrooms
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.

21. Compare Workplace Utilization Solutions for Smarter Spaces
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
22. Ouster Accelerates Software Adoption in 2025 with Record Bookings and Global Expansion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
23. A Guide to the Passenger Movement Sensor Landscape
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
24. Location Analytics and Footfall Counting
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.

25. About Crowd Connected
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
26. Halo Solutions to Help Keep People Safe at the Belfast Arena
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
27. Our Impact - Halo Solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
28. accesso LoQueue Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
29. UCLA Facilities - Space Optimization Pilot Programs
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.

30. Health and Safety Executive - Monitor the crowd
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
31. Health and Safety Executive - Planning for incidents and emergencies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
32. Thunderhead Engineering - Pathfinder Crowd Movement Simulation and Egress Software
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
33. Port of Seattle - Spot Saver Virtual Queue Program, Commission Agenda Memorandum, September 28, 2021
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.

34. IMDA - In-Store Analytics Pre-Approval Onboarding Guide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
35. Omnivex - Leverage Digital Signage for Crowd Control
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.

36. accesso Technology Group plc - Annual Report and Accounts 2023

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))

37. The Halo System - Halo Solutions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.

38. Retail Analytics Company | Who We Are | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
39. Xovis - Swiss precision measures people flows worldwide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
40. Holiday 2024 Air Travel a Test for Tech Advances at Global Airports
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
41. TO SUPPLY, DELIVER, INSTALL AND TESTING & COMMISIONING OF AN APPOINTMENT AND QUEUE MANAGEMENT SYSTEM (AQMS) - TMC LIFE
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hospital appointment and queue-system invitation opened February xx.xx 2026 and closed March xx.xx 2026. It supports intended hospital purchasing responsibility, not an award or observed revenue.

42. Capitec Makes Banking Easier for Customers with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
43. Queue Management System at the Poltavavodokanal Customer Service Center
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
44. Simulating pedestrian vision and wayfinding with Oasys MassMotion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
45. Pathfinder Partners
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
46. Virtual Queue Management at Applebee's | Waitwhile
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
47. Telecom Company GTA Redefines its Customer Experience with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
48. SenSource Case Study: Grace Family Church
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.

49. Intuitive appointment scheduling at Sgro’s Barbershop | Waitwhile

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.

50. Attendee tracking | Real-time event attendance and session data

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.

51. Scott County Board of Supervisors, May 14, 2020 Agenda and Enclosures - Customer Queueing Application Upgrade

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))

52. Best Cloud-Based Queue Management Software | Qwaiting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))

53. Qwaiting Pricing Plans - Queue Management Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))

54. Jacksonville Aviation Authority, April 28, 2025 Awards Committee Agenda - Xovis AERO Passenger Flow Management System

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))

55. Crowd watch: DASA funded AI and LiDAR innovation helps enhance crowd safety

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

56. Wavetec's Cutting-Edge Implementation of Kubernetes Architecture

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

57. Cloud vs On-Premise Queue Management Systems: Which Is Better? | Wavetec

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: In its April xx.xx 2026 description of its own offering, Wavetec identifies local queue cores combined with cloud analytics and notifications. The substantive local-plus-external application arrangement supports the Hybrid forecast premise; third-party market-research percentages on the page are not used. ([wavetec.com](https://www.wavetec.com/blog/queue-management/cloud-vs-on-premise-queue-management-systems/))

58. The Wait is Over: How Virtual Queuing is Improving Venue Guest Experiences | accesso

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

59. Software Licenses | GSA
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
60. City and County of Denver-Q-Matic Corporation Agreement, CLERK-201310119-00
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))
61. QueueRite Pricing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))

62. Pricing & Per-Solution ROI Calculators | Zeour Ltd

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))

63. Smart Retail Counter - People Counting and Queue Analytics Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))

64. Pricing and Discounts | Purchasing, Licensing, & Support 2026.1 Docs

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))

65. Bentley Systems, Incorporated - 2025 Form 10-K
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
66. Crowd Connected Pricing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
67. Qminder Terms of Service
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.

68. Business Partnership Opportunities for Queue Management - Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
69. New York City Record - December 23, 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
70. Channel Partner Program | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
71. Become a partner | Xovis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.

72. San Francisco Airport Commission - Minutes, December 2, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
73. Qmatic Welcomes TechConnect as New Solution Partner in Australia
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 Australian solution-partner announcement explicitly combines Qmatic SaaS with partner delivery. It challenges automatic cloud-to-direct attribution without supplying a forecast channel-transfer rate.
74. Partners | WaitTime
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
75. Qmatic Welcomes Corvice AG as New Premier Solution Partner in Switzerland
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2026 announcement assigns Swiss delivery, implementation and support responsibilities to Corvice. It supports continuing intermediary capability, but neither discloses software seller-of-record revenue nor quantifies a channel-share change.
76. OneGov | GSA
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.

77. Zoho Backstage - Terms of Use

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.

78. RetailNext Majority Growth Investment From Battery Ventures

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))

79. RetailNext Integrates Pine59 Mobile Intelligence For A Complete View Inside And Outside Stores

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced integration connects in-store analytics with outside-store mobile intelligence, initially in the United States, with UK coverage planned for early 2027. Availability does not establish eligible crowd-management revenue, an inseparable entitlement or paid adoption; the forecast retains a limited assumed qualifying cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))

80. Assess crowd safety risks and identify hazards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))

81. accesso® Powers Virtual Queue for The Philadelphia Museum of Art Cassatt Exhibit

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))

82. accesso LoQueue Virtual Queuing System

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))

17.15. Mexico

Table 412. Mexico Crowd Management Software Market Size, 2017-2040 (USD Million)

Sources & Evidence

1. Pathfinder Pricing

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual Pathfinder offers of USD xx.xx for node-locked and USD xx.xx for floating licenses constrain professional planning-software unit economics. They support a price comparison for the modeled base and forecast weights, not observed global seats or future prices. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with volume-discount eligibility. These constrain the inherited planning-seat realization; they are not observed 2025 invoices or proof of the 2032 allocation.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-year prices of USD xx.xx node-locked and USD xx.xx floating constrain planning-software realization, not the assumed capacity-versus-emergency purchasing split.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Paid all-feature software licensing supports the planning cohort's economic basis; current list prices do not observe 2025 realizations or future emergency revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder advertises USD xx.xx node-locked and USD xx.xx floating one-year licenses, with single-computer or network licensing and dark-site compatibility. These support local planning-software economics and the distinction between term licensing and Hosted execution. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))

2. LEGION | Bentley Systems

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The LEGION offer starts at USD xx.xx for a xx.xx-month subscription containing one license and training/service credits. This independently challenges a universal low planning-license price and supports separating software entitlement from bundled services; it does not establish the global revenue-weighted price. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises LEGION under a xx.xx-month subscription bundled with training/service credits. Supports term-offering availability and the bundle-adjustment premise, not observed 2025 sales or future share. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION provides a publisher-facing purchase route. Its subscription includes software and training/service credits, supporting separate channel classification and software-only valuation rather than use of the whole advertised bundle as software revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LEGION identifies stations, office complexes and theaters among planning settings. Its subscription bundles one license with training/service credits; these do not represent additional software licenses or observed indoor sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published planning settings also include piazzas, and the product addresses populated spaces before implementation. This establishes outdoor planning relevance without treating planning examples as live monitoring or sales weights. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The package combines Model Builder and Simulator and supports varied physical settings. Actual intended cross-environment use remains an allocation assumption; general capability alone does not establish a combined purchased entitlement. ([bentley.com](https://www.bentley.com/products/legion/))

3. Qmatic Welcomes New CEO and Vice CEO

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic's January xx.xx 2025 announcement reports more than xx.xx systems. This constrains the scale of the inherited queue-deployment model but does not measure active paying installations, software revenue or future adoption. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic reports more than xx.xx systems across more than xx.xx countries. This supports the scale of the institutional queue estate but does not establish active paying installations, software-only revenue or future shares.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 company disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. This constrains overall queue scale and confirms sector participation, not active paying healthcare counts or a disclosed healthcare share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The reported system estate includes finance; it supports a substantial financial-service queue cohort but does not disclose sector billings.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public services are included in the reported 2025 system estate, supporting the public-administration queue model without measuring its exact proportion.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 disclosure reports more than xx.xx systems across finance, healthcare, retail and public services. It supports the scale and indoor-heavy queue premise, not active-license counts, observed environment shares or the forecast adoption rate. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))

4. Qmatic | FAQs
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The modular queue, appointment and analytics offering supports attribution to an arrival-to-service workflow rather than treating every additional feature as a separately purchased software category. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Modular product availability qualifies the suite-allocation premise: portfolio breadth alone cannot establish an inseparable multi-workflow contract or its sales share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes Orchestra as an on-premises platform, supporting the local-execution category premise rather than a measured revenue percentage. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Experience Cloud is identified as multi-tenant SaaS, supporting a Hosted application category and forecast availability premise, not its global share. ([qmatic.com](https://www.qmatic.com/resources/faq))

5. accesso Technology Group plc - Results for the six months ended 30 June 2026

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts. ([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue was USD xx.xx in H1 2026 versus USD xx.xx in H1 2025. This supplies independent counterevidence to uniform royalty growth and supports retaining the inherited contract-loss adjustment; it does not verify the modeled full-year royalty amounts. ([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/accesso-H126-Results-RNS-FINAL.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half virtual-queuing revenue fell from USD xx.xx to USD xx.xx, constraining the inherited royalty forecast partly allocated to flow.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed customer-contract-related royalty decline is counterevidence to automatic visitor-software expansion; it does not observe the future purpose mix.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The royalty decline supports forecast caution despite a broader commercial proposition, without proving the modeled commercial share.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: First-half 2026 virtual-queuing revenue was USD xx.xx versus USD xx.xx in first-half 2025, with disclosed contract changes and seasonality. This supports a contraction mechanism, not independent verification of the modeled 2032 royalty amount.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queuing revenue falls from USD xx.xx in H1 2025 to USD xx.xx in H1 2026 following customer contract changes. This independently supports the inherited royalty contraction as a forecast mix counterforce, not a measured sales-channel percentage.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed royalty change affects the relative economic weight used in the complementary channel forecast. Accesso's separate ticket-distribution revenue is not treated as indirect crowd-software sales.

6. People Counting System Pricing - Nano AI + BoostBI | V-Count
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: BoostBI analytics is published at USD xx.xx-xx.xx per sensor per month, separately from sensor hardware. This supports a recurring software-price range containing the inherited USD xx.xx midpoint assumption, not a verified 2025 global realized price or paid-channel count. ([v-count.com](https://v-count.com/pricing/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 pricing page separates one-time hardware from USD xx.xx-xx.xx monthly analytics. USD xx.xx is an illustrative rate, qualifying the inherited USD xx.xx annual monitoring assumption rather than directly verifying it.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The published software range constrains the common fee-normalized monitoring model; it does not establish the realized price or prevalence of fusion entitlements.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Software pricing of USD xx.xx-xx.xx per sensor per month constrains monitoring value weights; it does not disclose planning-led customer mix.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately stated recurring analytics pricing supports software-only monitoring valuation, not the assumed safety-purpose fraction.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue analytics are selectable commercial features; the USD xx.xx example is illustrative rather than a universal quoted rate.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The software is positioned for staffing decisions, while realized operating savings remain customer-dependent.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Traffic/POS conversion features support commercial-purpose classification, not a measured global revenue fraction.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Published BoostBI software pricing of USD xx.xx-xx.xx per sensor monthly constrains the inherited USD xx.xx annual monitoring realization. USD xx.xx monthly is illustrative, not an observed realized market price.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property monitoring numerator.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate hardware and per-sensor software pricing supports excluding device purchase value from the property

7. Port of Seattle Commission Agenda Memorandum - Passenger Flow Metrics Project, April 26, 2022
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2022 memorandum budgets USD xx.xx over ten years, or USD xx.xx annually, for recurring service, license or maintenance obligations. It provides a complex-site monetary comparison after an explicitly assumed software attribution, not observed software-only revenue. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The annualized mixed-contract budget constrains the scale of the modeled focused-versus-suite fee tiers. It does not establish the suite premium, global contract count or actual contract mix. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 proposal recommends consolidating new and existing information with a USD xx.xx ten-year recurring budget, versus more than USD xx.xx for extensive tracking. This constrains purchasing economics but does not prove implementation, paid fusion adoption or realized software revenue.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2022 passenger-flow procurement estimated USD xx.xx of recurring fees over ten years and included assessment of future construction impacts, constraining the complex-contract planning allocation without observing its global share.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Passenger journey-time measurement and alerts to airport operations support the flow-purpose attribution; the budget is not realized software revenue or a future application-share observation.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The airport memorandum identifies a USD xx.xx ten-year recurring budget and USD xx.xx annual recurring estimate. It supports the inherited annualization and operating-customer attribution; the xx.xx% software share remains assumed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx ten-year recurring budget. It constrains the inherited complex-contract valuation but does not disclose the underlying application-use duration. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2022 memorandum combines software licenses, service and maintenance in an estimated USD xx.xx

8. 5 easy packages to buy Halo for venues
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ticket scanning is offered separately from the core coordination package, from GBP xx.xx. This supports separable admission functionality, not an annual global admission-software price or sales weight. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual coordination tiers include GBP xx.xx and GBP xx.xx while smaller free and paid tiers also exist. These constrain paid venue fee assumptions; bundled training and unrelated operations require exclusion. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately offered modules qualify automatic suite classification and provide component-price context for the explicitly assumed composite venue-suite weight. The document does not disclose inseparable-suite sales. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))
9. Pricing | SaaS Pricing for Ticketing & POS | Venue Manager
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Access Control is separately priced at DKK xx.xx per entrance per month, effective January xx.xx 2026, with setup and hardware listed separately. Five assumed entrances provide a comparable annual subscription near the modeled USD xx.xx price weight after currency conversion. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate subscriptions for access control, ticketing and other products support avoiding attribution of an entire venue platform to a crowd-management suite solely because the supplier offers multiple modules. ([venuemanager.net](https://www.venuemanager.net/pricing/))

10. Digital Signage Software Pricing - ScreenCloud

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Annual-billing Core and Pro prices are USD xx.xx and USD xx.xx per screen per month. Their midpoint and an assumed five-screen footprint constrain the USD xx.xx annual guidance price weight, subject to software-only attribution and exclusion of non-crowd communication uses. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The separately purchasable communication subscription supplies one component-price comparison for the modeled venue-suite weight; it does not establish actual suite pricing or adoption. ([screencloud.com](https://screencloud.com/pricing))

11. Federal Reserve Board - Foreign Exchange Rates, G.5A, January 5, 2026

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is DKK xx.xx per USD, providing the currency bridge for the Danish per-entrance subscription comparison. This is a price-comparison conversion, not a forecast exchange rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official 2025 average is USD xx.xx per GBP, allowing comparison of UK annual coordination tiers with the modeled USD fee weight. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same official currency bridges support component-price calibration of the assumption-led venue-suite weight, not observed suite revenue. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/xx.xx/))

12. Crowd controls inside the venue - HSE
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Public information and visitor directions are identified separately from staff command arrangements. This supports the guidance allocation boundary, not a software-purchase mandate or numerical sales weight. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The guidance separately identifies staff command structures and coordination of information and responses. This supports distinguishing staff-facing coordination from visitor-facing communication without including all general incident software. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-control-inside.htm))
13. Event Access Control & Management - We are InSite
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier links ticket validation with live capacity alerts and capacity-constrained entry decisions. This corroborates the admission attribution boundary, but provides no global revenue or deployment weight. ([weareinsite.com](https://www.weareinsite.com/event-access-control-and-management/))
14. End of Life Announcement: Qmatic Show
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 announcement schedules support cessation for October xx.xx 2027 and says the application can continue running. It supports a conditional renewal-risk mechanism, not an observed migration cohort or compulsory software-purchasing spike. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced October xx.xx 2027 support cessation supports a replacement condition, not a quantified queue purchasing spike.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: No affected paid-cohort count or resource-application conversion is disclosed, supporting restraint against adding automatic staffing monetization.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Continued operation and possible hardware requirements qualify the visitor-display replacement opportunity; replacement does not itself establish incremental software demand.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2026 notice sets Qmatic Show's support cessation for October xx.xx 2027 while stating that the application can continue running. This supports a conditional renewal trigger, not compulsory abandonment of local execution. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The dated support deadline creates an opportunity to reconsider delivery arrangements, but the notice provides neither affected software revenue nor a required move to Hosted delivery. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))

15. Gentrack Group - FY25 Investor Presentation
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo reports FY2025 recurring growth of xx.xx%, with different project and hardware movements. This provides a broader commercial comparison for the complex-site forecast, not a crowd-specific market growth rate. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed recurring growth supports ongoing commercial demand but does not identify inseparable crowd-suite contracts or verify the modeled suite mix shift. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))
16. Traffic Modelling Guidelines v4
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pedestrian guidance identifies layout, demand and proposed-facility assessment inputs, supporting the scenario/design source boundary rather than a sales weight.
17. QtracVR Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The application description identifies service registration, unique call numbers and queue-state events, supporting transaction-record attribution independently of the customer's interface device.
18. Xovis Brings Groundbreaking AI-Powered Solution to NRF 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis identifies stereovision sensors and reports more than xx.xx installed sensors and more than xx.xx airport users. These gross activity proxies support a substantial imaging estate while challenging the smaller frozen combined-stock reference; they are not paid software counts.
19. Why Enterprise Retailers Choose RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The March xx.xx 2026 company article reports nearly xx.xx sensors. This is a later gross-stock comparator, not a dated 2025 paid crowd-software observation, and requires overlap and scope adjustments.
20. Multi-Brand Product Showrooms
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The showroom case describes substantive combination of imaging and radio-source information, supporting a commercial fusion boundary rather than classifying every optical supplier entitlement as imaging-only.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The mixed application provides a countercheck against assigning an entire supplier sensor estate to single-source imaging software.

21. Compare Workplace Utilization Solutions for Smarter Spaces
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Density identifies radar-based offerings and separates hardware from annual data fees; its USD xx.xx monthly Waffle data option constrains value-equivalent conversion and argues against assuming identical physical-device prices or a privacy premium.
22. Ouster Accelerates Software Adoption in 2025 with Record Bookings and Global Expansion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Ouster reports doubled software-attached bookings in 2025 and more than xx.xx contracted Gemini sites. Its broader logistics, security and transportation scope requires deductions and does not establish realized crowd-software revenue or the forecast growth rate.
23. A Guide to the Passenger Movement Sensor Landscape
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Veovo distinguishes venue-detected Wi-Fi/Bluetooth observations from direct people counts and discusses coverage and device-randomization limitations, supporting restrained signal-only substitution assumptions.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's platform description combines signal observations with boarding-pass, counter, camera or LiDAR information, supporting substantive fusion as a commercial source dependency without establishing its paid prevalence.
24. Location Analytics and Footfall Counting
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Crowd Connected describes location analytics through the customer's mobile application, supporting separation from venue radio sensing and limiting the observed population to participating app users.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sponsor, tenant and concession engagement reporting supports commercial-purpose classification of qualifying crowd analytics, without demonstrating sales improvement or the modeled percentage.

25. About Crowd Connected
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports more than xx.xx venues and more than xx.xx deployments since 2022 across a mixed location, tracking and counting portfolio. These constrain commercial plausibility only; they are not annual paid mobile-location licenses.
26. Halo Solutions to Help Keep People Safe at the Belfast Arena
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The February xx.xx 2025 announcement describes a three-year Belfast arena software agreement and mobile incident reporting. It establishes contracted commercial use, but does not disclose the license value or worldwide paid installation count.
27. Our Impact - Halo Solutions
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo offers free software to qualifying small venues and businesses, requiring exclusion of nonpaying deployments from the human-reporting revenue model.
28. accesso LoQueue Virtual Queuing System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso describes reservations and ride events as inputs to virtual-queue dashboards, supporting transaction-record attribution of the inherited software-royalty component rather than inferring mobile-location sensing from mobile delivery.
29. UCLA Facilities - Space Optimization Pilot Programs
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The five-building occupancy pilot identifies space reallocation as an intended use; this supports the planning boundary, not a global sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Flexible custodial deployment to higher-traffic locations supports a distinct resource-decision purpose, without demonstrating purchased software mix or workforce savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: UCLA identifies a five-building occupancy pilot, with planning launched in October 2024 and deployment intended from February 2025. This supports institutional operating demand but not a university-wide paid rollout.

30. Health and Safety Executive - Monitor the crowd
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Monitoring total numbers, distribution and developing crowd problems supports routine safety attribution, but does not establish software spending or emergency-response capability.
31. Health and Safety Executive - Planning for incidents and emergencies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separate emergency-planning and responsibility requirements support restricting emergency attribution to an emergency-specific commercial purpose; the guidance supplies no application sales percentage.
32. Thunderhead Engineering - Pathfinder Crowd Movement Simulation and Egress Software
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The commercial offering includes circulation and entry-planning applications, supporting the planning-purpose mapping without establishing a numerical sales weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Emergency-preparedness and egress applications establish a separately identifiable commercial use within planning software, not the assumed xx.xx% attribution.
33. Port of Seattle - Spot Saver Virtual Queue Program, Commission Agenda Memorandum, September 28, 2021
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Virtual-queue alternatives separately budget recurring software/service obligations and customer-support labor, supporting a software-only queue-purpose allocation rather than total program spending.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Different gate and labor alternatives show why reduced support labor cannot automatically be attributed to software or counted as staffing-software revenue.

34. IMDA - In-Store Analytics Pre-Approval Onboarding Guide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Queue-length and waiting-time insights are linked to checkout-process optimization, supporting the efficiency-purpose boundary rather than an observed purchasing share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Staff allocation is separately identified as a queue-insight use, supporting distinct resource attribution without proving labor savings.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer Queue Insights is marked preferred rather than mandatory. This constrains the model against assuming universal retail queue adoption.
35. Omnivex - Leverage Digital Signage for Crowd Control
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Visitor-facing wait-time information, occupancy messaging and wayfinding support a delivery-based visitor application boundary; no revenue mix is disclosed.

36. accesso Technology Group plc - Annual Report and Accounts 2023

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD xx.xx of 2023 transactional virtual-queuing revenue, excluding staffing reimbursements, anchors the inherited royalty cohort partly attributed to flow.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical guest-experience revenue category provides a monetary input to modeled visitor attribution, not an observed 2025 or 2032 purpose share.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Transaction-based monetization supports the royalty cohort's commercial economic role; the assumed principal-purpose fraction remains unobserved.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2023 filing separately reports USD xx.xx virtual-queuing transactional revenue and USD xx.xx staffing reimbursement. This supports the inherited software-only attraction royalty proxy and exclusion of staffing.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Describes virtual-queuing performance obligations as contracted platform access and reports USD xx.xx of 2023 transactional queuing revenue separately from staffing reimbursement. Supports the inherited royalty component's commercial boundary and modeled term-access attribution; extension to other suppliers remains assumed. ([accesso.com](https://accesso.com/wp-content/uploads/2025/xx.xx/2023-Annual-Report-and-Financial-Statements.pdf))

37. The Halo System - Halo Solutions

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Halo reports xx.xx-plus locations across its broader platform and identifies use at the Abu Dhabi F1 Grand Prix. This is a commercial-scale and operating-role check, not a count of qualifying paid crowd-software venues.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Multi-location operations and the Liverpool ONE customer example support distinguishing property/common-area software customers from tenant retailers; no revenue split is disclosed.

38. Retail Analytics Company | Who We Are | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company describes approximately xx.xx proprietary sensor installations and more than xx.xx retail customers across over xx.xx countries. This supports retail monitoring scale, with an explicit current-to-2025 bridge and paid-software qualification.
39. Xovis - Swiss precision measures people flows worldwide
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 account reports xx.xx Xovis sensors across retail, airports, transport and smart buildings. Its conflict with another official stock disclosure limits monitoring calibration; it is not treated as paid software volume.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Smart-building participation supports the property monitoring boundary, while the unreconciled installed-stock definition prevents precise sector-volume inference.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The November xx.xx 2025 company interview reports xx.xx deployed sensors across airports, retail, transport and smart buildings. It constrains the inherited monitoring stock proxy, while environment attribution, paid conversion and software-only realization remain modeled. ([s-ge.com](https://www.s-ge.com/export/en/articles/success-stories/xovis-swiss-precision-measures-people-flows-worldwide))
40. Holiday 2024 Air Travel a Test for Tech Advances at Global Airports
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 company release reports more than xx.xx installed sensors, conflicting with the later xx.xx account. The unresolved perimeter is retained as a monitoring-allocation limitation rather than averaged into an input.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The release identifies smart-building customers but does not disclose their software billings or paid share of the sensor estate.
41. TO SUPPLY, DELIVER, INSTALL AND TESTING & COMMISIONING OF AN APPOINTMENT AND QUEUE MANAGEMENT SYSTEM (AQMS) - TMC LIFE
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hospital appointment and queue-system invitation opened February xx.xx 2026 and closed March xx.xx 2026. It supports intended hospital purchasing responsibility, not an award or observed revenue.

42. Capitec Makes Banking Easier for Customers with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier case describes a platform managing xx.xx Capitec branch offices, while its overview gives a different xx.xx-plus description. It provides historical banking deployment scale, not an exact current census or global revenue share.
43. Queue Management System at the Poltavavodokanal Customer Service Center
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The supplier reports a September 2024 utility customer-service-center deployment with three licensed operator workstations. This establishes a qualifying people-flow software example rather than generic industrial asset software.
44. Simulating pedestrian vision and wayfinding with Oasys MassMotion
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Oasys identifies Efficiency Lab for Architecture using MassMotion on an educational project. This supports attributing professional planning licenses to the professional user rather than automatically to the building operator.
45. Pathfinder Partners
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The publisher reports a xx.xx-plus design-firm footprint and xx.xx international partners. This constrains professional planning-market scale but does not disclose active paid seats or validate the assumed seat allocation.
46. Virtual Queue Management at Applebee's | Waitwhile
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The restaurant case describes a xx.xx-location rollout across xx.xx states. It supports restaurant operating-customer participation without establishing current paying retention, annual software fees or a global adoption rate.
47. Telecom Company GTA Redefines its Customer Experience with Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The case identifies GTA in Guam, five branches and approximately xx.xx monthly in-store customers. It supports telecom operating-customer attribution, not treating every telecom storefront as a trade-sector customer.
48. SenSource Case Study: Grace Family Church
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: SenSource reports an attendance-analytics relationship covering six Grace Family Church campuses. This establishes an actual religious operating-user example, not global paid-campus or channel counts.

49. Intuitive appointment scheduling at Sgro’s Barbershop | Waitwhile

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Waitwhile reports more than xx.xx appointments booked in 2021 at Sgro's Barbershop and continued application use after restrictions. This supports personal-service application participation, not disclosed subscription revenue or a global paid cohort.

50. Attendee tracking | Real-time event attendance and session data

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company reports xx.xx-plus attendee-tracking deployments, operations in xx.xx countries and xx.xx-xx.xx events weekly. This constrains event commercial scale; mixed hardware/license packages and repeat deployments require software-only attribution and annualization.

51. Scott County Board of Supervisors, May 14, 2020 Agenda and Enclosures - Customer Queueing Application Upgrade

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The May 2020 procurement package proposes an AWS-hosted Orchestra xx.xx arrangement for three locations and xx.xx users with a five-year commitment. Separately quoted software, maintenance, hosting, messaging and services support deployment classification and valuation adjustments; the proposal is not realized revenue. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The hosted Orchestra proposal qualifies any automatic assignment of all Orchestra or legacy-license revenue to On-Premises. ([www3.scottcountyiowa.gov](https://www3.scottcountyiowa.gov/board/pub/enclosures/2020/20200514_Committee_of_the_Whole_AND_Board_Meeting_5PM/00_Agenda_and_Enclosures.pdf))

52. Best Cloud-Based Queue Management Software | Qwaiting

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qwaiting distinguishes its connectivity-dependent cloud offering from local deployment, supporting the Hosted classification premise without measuring adoption. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider describes an alternative that runs queues on the customer's local network for offline requirements, supporting retained local demand as a modeling condition. ([qwaiting.com](https://qwaiting.com/products/cloud-based-software))

53. Qwaiting Pricing Plans - Queue Management Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Current annual SaaS offers of USD xx.xx USD xx.xx and USD xx.xx provide a commercial price comparison for the inherited modern queue-software realization. They are not dated 2025 transactions or a deployment-share census. ([qwaiting.com](https://qwaiting.com/pricing))

54. Jacksonville Aviation Authority, April 28, 2025 Awards Committee Agenda - Xovis AERO Passenger Flow Management System

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April 2025 Xovis AERO renewal submission describes an installed controller/cloud passenger-flow system, USD xx.xx annual renewal and a USD xx.xx five-year potential ceiling. This supports Hosted commercial activity, contract scale and renewal timing, but does not isolate software-only consideration or prove realized spending. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))

55. Crowd watch: DASA funded AI and LiDAR innovation helps enhance crowd safety

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2024 government account describes crowd information sent to cloud servers for analysis and alerts. It supports an externally hosted application component, not a quantified software-revenue share. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local tracking equipment plus external analysis does not establish material application execution in both environments; this constrains the Hybrid numerator against sensor-based overclassification. ([gov.uk](https://www.gov.uk/government/news/crowd-watch-dasa-funded-ai-and-lidar-innovation-helps-enhance-crowd-safety))

56. Wavetec's Cutting-Edge Implementation of Kubernetes Architecture

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wavetec's earlier company announcement states that its customer queue systems encompass cloud, on-premises and Hybrid deployments. This supports commercial availability before the forecast interval, not customer adoption or revenue prevalence. ([wavetec.com](https://www.wavetec.com/news/wavetec-implementation-of-kubernetes-architecture-xx.xx/))

57. Cloud vs On-Premise Queue Management Systems: Which Is Better? | Wavetec

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: In its April xx.xx 2026 description of its own offering, Wavetec identifies local queue cores combined with cloud analytics and notifications. The substantive local-plus-external application arrangement supports the Hybrid forecast premise; third-party market-research percentages on the page are not used. ([wavetec.com](https://www.wavetec.com/blog/queue-management/cloud-vs-on-premise-queue-management-systems/))

58. The Wait is Over: How Virtual Queuing is Improving Venue Guest Experiences | accesso

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: accesso's October xx.xx 2025 account identifies LoQueue as cloud-based, supporting the Hosted emphasis in the inherited usage-royalty cohort. It does not establish the modeled global deployment percentage. ([accesso.com](https://accesso.com/learn/the-wait-is-over-how-virtual-queuing-is-improving-venue-guest-experiences/))

59. Software Licenses | GSA
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supports classifying indefinite application rights separately from the duration of maintenance obligations. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Specified-period application rights establish the term-license classification; billing cadence alone is not the modeled criterion. ([gsa.gov](https://www.gsa.gov/technology/it-contract-vehicles-and-purchasing-programs/multiple-award-schedule-it/software-licenses))
60. City and County of Denver-Q-Matic Corporation Agreement, CLERK-201310119-00
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The historical Denver agreement grants perpetual application-use rights while separately pricing annual software maintenance. This supports a continuing perpetual-associated revenue stream, not the size of the 2025 installed cohort or future retention. ([denver.legistar.com](https://denver.legistar.com/View.ashx?GUID=BE0DF1D5-2EEA-xx.xx-A0E2-FA938EAE297A&ID=xx.xx&M=F))
61. QueueRite Pricing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertises a USD xx.xx perpetual server package with three teller licenses, excluding hardware and including delivery obligations. The modeled xx.xx% nonsoftware deduction and annual purchase/maintenance conversion are assumptions. ([queuerite.com](https://www.queuerite.com/pricing.do))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Basic annual-subscription pricing is USD xx.xx monthly per branch, equivalent to USD xx.xx annually. Used as a relative-price input, not a global realization or historical 2025 observation. ([queuerite.com](https://www.queuerite.com/pricing.do))

62. Pricing & Per-Solution ROI Calculators | Zeour Ltd

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes perpetual queue-management licensing with annual maintenance of xx.xx-xx.xx% and separates hardware obligations. Constrains the model's xx.xx% queue-maintenance assumption; does not establish global contract mix. ([zeour.co.uk](https://www.zeour.co.uk/pricing))

63. Smart Retail Counter - People Counting and Queue Analytics Software

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes same-product monitoring alternatives of USD xx.xx monthly per camera, USD xx.xx perpetual and optional maintenance of xx.xx% annually. Together with assumed xx.xx% annual license purchases, these yield a perpetual-to-term annual realization ratio of xx.xx. Enterprise extrapolation remains modeled. ([arsa.technology](https://arsa.technology/products/arsa-ai-video-analytics-software/smart-retail-counter/))

64. Pricing and Discounts | Purchasing, Licensing, & Support 2026.1 Docs

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder node-locked perpetual pricing is USD xx.xx with USD xx.xx annual maintenance. With the assumed purchase-flow rate, these constrain planning's annual relative realization, not its paid-seat duration mix. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Pathfinder one-year node-locked and floating offers cost USD xx.xx and USD xx.xx. Locally installed or network access therefore does not establish perpetual rights. ([thunderheadeng.com](https://www.thunderheadeng.com/docs/2026-xx.xx/purchasing-licensing/purchasing/volume-license-discount/))

65. Bentley Systems, Incorporated - 2025 Form 10-K
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The filing reports 2025 SELECT subscriptions of USD xx.xx and perpetual-license revenue of USD xx.xx, and describes SELECT as an addition to perpetual licenses. Used to challenge classification of all recurring revenue as term licensing, not as a crowd-market weight. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately identifies enterprise and term-license subscription arrangements. Portfolio mix provides a directional comparison only; it does not verify the forecast crowd-software split. ([sec.gov](https://www.sec.gov/Archives/edgar/data/xx.xx/xx.xx/bsy-xx.xx.htm))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through direct channels. This is the planning-component calibration proxy, not an observed LEGION-specific or global crowd-software share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Bentley reports approximately xx.xx% of 2025 total-company revenue through channel partners, supporting a nonzero intermediary route within the planning proxy. Its future mix is assumed, not disclosed.
66. Crowd Connected Pricing
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Publishes annual positioning contracts, including a USD/EUR 2,000 annual building offer, while event packages can include hardware rental. Supports term-oriented venue economics and software-only scope adjustments, not the modeled global mix. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))
67. Qminder Terms of Service
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Terms updated August xx.xx 2025 identify a publisher-client subscription agreement and fees payable to Qminder. This supports a direct commercial route for modern queue subscriptions, not the assumed global direct fraction.

68. Business Partnership Opportunities for Queue Management - Qmatic
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Qmatic describes partners selling its offerings to their clients and earning recurring cloud and customer-care revenue. This constrains an exclusively direct queue-software assumption; partner counts are not used as monetary weights.
69. New York City Record - December 23, 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2024 City Record reports a USD xx.xx Q-Matic award to Technical Communities. The purchase includes hardware, software upgrades and services, establishing a historical intermediary transaction but not annual software-only revenue or a global allocation weight.
70. Channel Partner Program | RetailNext
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext distinguishes consulting, technology and deployment partners from resellers and acknowledges existing direct customers. Partner involvement therefore does not automatically reclassify software revenue as indirect.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RetailNext explicitly describes resellers selling its solutions to retail customers. This supports an indirect monitoring route, while leaving its value fraction unmeasured.
71. Become a partner | Xovis
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Xovis describes analytics partners providing software that incorporates its sensor technology. This supports classifying software by its own provider-buyer relationship rather than automatically treating a sensor integrator as a software reseller.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The partner framework distinguishes analytics providers, OEM/system partners and value-added resellers. Only qualifying entitlement resale contributes to the modeled indirect software numerator; hardware and partner counts do not.

72. San Francisco Airport Commission - Minutes, December 2, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The December xx.xx 2025 minutes award Xovis USA a five-year queue-management system-support contract capped at USD xx.xx. This supports direct supplier contracting in complex sites, but is neither annual realized software revenue nor proof of the assumed direct fraction.
73. Qmatic Welcomes TechConnect as New Solution Partner in Australia
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2025 Australian solution-partner announcement explicitly combines Qmatic SaaS with partner delivery. It challenges automatic cloud-to-direct attribution without supplying a forecast channel-transfer rate.
74. Partners | WaitTime
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: WaitTime describes TD SYNNEX distribution of supporting hardware and services. This does not establish software-entitlement resale, preventing unsupported transfer of publisher software revenue to the indirect numerator.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Supporting hardware and service distribution is excluded as a standalone monetary weight for Indirect Sales; software resale consideration remains undisclosed.
75. Qmatic Welcomes Corvice AG as New Premier Solution Partner in Switzerland
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The August xx.xx 2026 announcement assigns Swiss delivery, implementation and support responsibilities to Corvice. It supports continuing intermediary capability, but neither discloses software seller-of-record revenue nor quantifies a channel-share change.
76. OneGov | GSA
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: OneGov combines direct manufacturer engagement with reseller purchasing access. This is a classification counterexample only; it does not establish crowd-software participation or a direct revenue weight.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reseller access can coexist with manufacturer-negotiated commercial terms, supporting final seller-of-record classification rather than classification by upstream negotiation.

77. Zoho Backstage - Terms of Use

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Zoho's terms identify the publisher-provided service and distinguish third-party services and device obligations. They support a publisher-contracting route and software-only scope for qualifying physical-event functions, not the assumed venue-channel percentage.

78. RetailNext Majority Growth Investment From Battery Ventures

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2025 release reports xx.xx retail brands, coverage in xx.xx countries and an average xx.xx retail-shop installations monthly during 2024. This supplies an indoor commercial-activity anchor and a qualified scale comparison for the forecast monitoring cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-majority-growth-investment-from-battery-ventures))

79. RetailNext Integrates Pine59 Mobile Intelligence For A Complete View Inside And Outside Stores

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The September xx.xx 2026 release reports nearly xx.xx in-store sensors worldwide. This is a current stock proxy bridged into the frozen 2025 monitoring model, not a dated 2025 paying-channel observation. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The announced integration connects in-store analytics with outside-store mobile intelligence, initially in the United States, with UK coverage planned for early 2027. Availability does not establish eligible crowd-management revenue, an inseparable entitlement or paid adoption; the forecast retains a limited assumed qualifying cohort. ([retailnext.net](https://retailnext.net/about/press/retailnext-pine59-a-complete-view-inside-and-outside-the-store))

80. Assess crowd safety risks and identify hazards

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HSE recognizes outdoor spaces whose event boundaries are less well-defined. This supports a distinct physical-coverage category, not a software expenditure weight, price premium or forecast market share. ([hse.gov.uk](https://www.hse.gov.uk/event-safety/crowd-management-assess.htm))

81. accesso® Powers Virtual Queue for The Philadelphia Museum of Art Cassatt Exhibit

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2024 Philadelphia Museum of Art exhibition deployment establishes an indoor LoQueue application. It challenges an outdoor-only classification of the royalty cohort but does not establish 2025 continuation, royalty terms or the modeled indoor percentage. ([accesso.com](https://accesso.com/news/accesso-powers-virtual-queue-for-the-philadelphia-museum-of-art-cassatt-exhibit/))

82. accesso LoQueue Virtual Queuing System

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: LoQueue describes park-wide or single-ride deployment and reports cumulative use across more than xx.xx rides since 2021. This supports a park-oriented royalty cohort, not an observed Outdoor percentage or annual revenue conversion. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Park-wide software coverage can extend across different attraction settings, but the page does not disclose their physical-coverage entitlement mix. The combined royalty allocation remains explicitly modeled. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))

18. Competitive Landscape

18.1. Market Share Analysis, 2025

Positioning in Crowd Management Software depends on access to a matched operating problem and the relationships needed to deliver it. WaitTime's documented Etihad installation illustrates entry through an existing infrastructure ecosystem, while the CVG, Groupe ADP, and Lyon xx.xx records support distinct airport-flow, spatial-monitoring, and institutional-reservation relationships. [redacted]

Latin American monitoring alternatives should not be collapsed into a single retail-analytics peer group. Pogen advertises occupancy control, Getin describes retail saturation information, and Aetherix markets EventMotion for event-area movement and density analysis. [redacted]

Local integration and measurement services create additional routes to those accounts. [redacted] Local delivery may be useful where implementation and ongoing assistance are the purchasing constraint, but it does not establish ownership of the application or eliminate upstream continuity dependencies.

[redacted] SCE INNOVATION's City-V, IBBVision's DLS Intelligence, LalinSoft's edition-based catalog, and ALGI's Algi Edge provide further advertised crowd or

video-analysis propositions. Their public descriptions support different commercial approaches, but not interchangeable local fulfillment or customer-specific approval.

Systems delivery remains separate from application ownership. Technical Arrow Technology Company describes crowd and access systems for Saudi venues, while Samco advertises UAE consultation, deployment, and support around crowd analytics. [redacted]

African service routes are similarly heterogeneous. [redacted] Buyers should require named applications and upstream rights before treating a local integrator, managed-service provider, and software publisher as equivalent contracting alternatives.

Asia-Pacific access also requires a project-specific comparison. [redacted] An institutional data-platform route may suit coordinated hub decisions; a narrower application can be preferable when the buyer lacks authority over the broader information relationships.

[redacted] A channel partner is commercially useful when it contributes documented local implementation, support, and escalation capability that the buyer needs. Direct engagement remains a realistic alternative where those resources are available internally; neither route should be selected before continuity and acceptance responsibilities are explicit.

Figure 30. Global Crowd Management Software Market Share, by Key Player, 2025

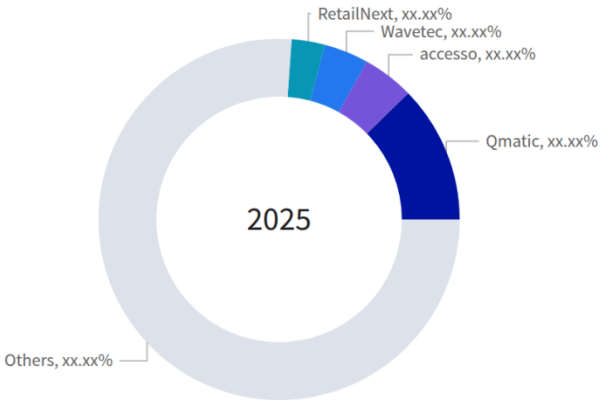

Table 421. Global Crowd Management Software Market Share, by Key Player, 2025

Key Player	Share (%)
accesso	xx.xx
Affluences	xx.xx
Copenhagen Optimization	xx.xx
Crowd Connected	xx.xx
Halo Solutions	xx.xx
Ipsotek Ltd	xx.xx
QLess	xx.xx
Qmatic	xx.xx
Qtrac, Inc.	xx.xx
RetailNext	xx.xx
Thunderhead Engineering	xx.xx
V-Count	xx.xx
VACAN	xx.xx
Veovo	xx.xx
Wavetec	xx.xx
Xovis	xx.xx
Others	xx.xx

Sources & Evidence

1. Partners | WaitTime
   · Supporting channel relationships require separate publisher, device, and service responsibility allocation. ([thewaittimes.com](https://www.thewaittimes.com/partners))

2. Qmatic Welcomes Corvice AG as New Premier Solution Partner in Switzerland
   · Qmatic's August xx.xx 2026 announcement assigns Corvice AG Swiss delivery, implementation, and support roles, not a completed installation. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-corvice-ag-as-new-premier-solution-partner-in-switzerland))
3. Manchester City Collaborates with Cisco to Deploy Crowd Intelligence Solution, WaitTime
   · The dated installation illustrates ecosystem-based account entry, not current qualification of every module or deployment. ([newsroom.cisco.com](https://newsroom.cisco.com/c/r/newsroom/en/us/a/y2022/m12/manchester-city-collaborates-with-cisco-to-deploy-crowd-intelligence-solution-waittime.html))
4. Innovation
   · CVG provides buyer-origin evidence of a named airport-flow relationship. ([cvgairport.com](https://www.cvgairport.com/business/innovation/))
5. Réserver des espaces - BU
   · The university's instructions provide buyer-origin support for an institutional reservation relationship. ([bu.univ-lyon3.fr](https://bu.univ-lyon3.fr/reserver-des-espaces-xx.xx))
6. At the heart of innovation in our airports - Groupe ADP
   · The operator record corroborates a particular spatial-monitoring relationship, not universal deployment suitability. ([essentiel.groupe-adp.com](https://essentiel.groupe-adp.com/en/at-the-heart-of-innovation-in-our-airports/))
7. SCAI - SCAI Motion
   · SCAI Motion advertises crowd applications and local Saudi-hosted cloud delivery; this is not customer-specific clearance. ([scai.sa](https://scai.sa/product/scai-motion))
8. Edge AI & IoT - inq.
   · inq. advertises managed-video and retail analytics including crowd management; its catalog does not settle upstream licensing or a transaction's seller. ([inq.inc](https://inq.inc/edge-ai-iot/))
9. General Terms and Conditions of Sale and Delivery - Version August 2026
   · Qmatic's distributor terms separate the reseller agreement from Q-MATIC AB's provider obligations and deny reseller authority to bind Qmatic. ([qmatic.com](https://www.qmatic.com/hubfs/General%20Terms%20and%20Conditions%20of%20Sale%20and%20Delivery%xx.xx%xx.xx.2026%xx.xx-xx.xx.pdf))
10. Pogen occupancy
    · Pogen markets Occupancy for occupancy monitoring, limits, admission availability, and platform alerts. ([contadores.pogen.com](https://contadores.pogen.com/pogen-occupancy-xx.xx))
11. Conteo de personas: optimiza tu tienda hacia 2026 | Getin
    · Getin's Mexico-facing article describes real-time retail saturation and occupancy applications, distinct from Brazilian Get In's queue proposition. ([getin.mx](https://getin.mx/blog/getin-lanza-semaforo-para-medir-la-saturacion-en-tiempo-real-al-interior-de-las-tiendas/))
12. Aetherix - Visión por computadora y mantenimiento predictivo
    · Aetherix markets EventMotion for event-area movement, dwell, density, and heatmaps. ([aetherix.mx](https://www.aetherix.mx/))
13. CLICR | Know your crowd. Grow your revenue.
    · CLICR advertises synchronized entry and exit counts and occupancy, while distinguishing pilots or testing from uniform paid adoption. ([clicrapp.com](https://www.clicrapp.com/))
14. Análise Avançada de Vídeo | Digifort
    · Digifort offers licensed video analytics including people counts, direction, and crowd-accumulation alerts. ([digifort.com](https://digifort.com/analise-avancada-de-video.php))
15. Defense IA e Defense IA Lite | Intelbras
    · Intelbras markets Defense IA crowd-related analytics and describes licensed acquisition through distributors. ([intelbras.com](https://www.intelbras.com/pt-br/software-defense))

16. Conteo de personas con IA y tus cámaras | KSI Vision
    - KSI Vision markets existing-camera people counts, queues, saturation, heatmaps, and dwell reporting. ([ksivision.com](https://www.ksivision.com/es/producto/conteo-de-personas))
17. Contagem de pessoas e veículos com câmeras e IA | Monuv
    - Monuv advertises camera-based flow counts, heatmaps, reporting, and integration through a subscription proposition. ([monuv.com.br](https://monuv.com.br/contar-fluxo-de-pessoas-e-veiculos/))
18. Control de Aforo y Conteo de Personas | Elipse Chile
    - Elipse advertises a Chile-facing capacity platform with dashboards, thresholds, and historical reporting. ([elipse.cl](https://www.elipse.cl/control-de-aforo/))
19. Regiscenter: conteo de personas y aforo | Registel
    - Registel markets Regiscenter for occupancy and flow information in terminals and high-traffic public spaces. ([registel.co](https://registel.co/productos/regiscenter))
20. Mais Fluxo
    - Mais Fluxo advertises flow measurement for shops and events and concentration heatmaps; proprietary licensing remains a separate question. ([maisfluxo.com.br](https://www.maisfluxo.com.br/))
21. Poken Perú
    - Poken Perú identifies an upstream Tecbrain alliance supporting its counting and capacity-related software-data service. ([poken-peru.com](https://www.poken-peru.com/))
22. Enova Apps - Enova
    - Enova lists capacity-control work within mobile and web software-development services, rather than a settled standalone license offer. ([enovatec.pe](https://enovatec.pe/enova-apps/))
23. Sagr | Crowd Management Platform for Events - Etlaq Company
    - Sagr identifies Etlaq Advanced Technologies Company and advertises participant flow, maps, communications, and analytics. ([sagr.net](https://sagr.net/en))
24. Sabeel | Infinity Solution
    - Infinity Solution's Sabeel page describes pilgrim services, movement heatmaps, density alerts, and capacity-related analytics. ([isolutionjo.com](https://isolutionjo.com/sabeel))
25. City-V - SCE INNOVATION
    - SCE INNOVATION markets City-V crowd analysis through a software-plan and distribution proposition. ([scegrup.com](https://www.scegrup.com/city-v/))
26. DLS Intelligence - IBBVision
    - IBBVision advertises DLS Intelligence crowd analysis, event management, and web dashboards. ([ibbvision.com](https://ibbvision.com/dls-intelligence))
27. Özellikler | LalinSoft
    - LalinSoft's edition-based catalog advertises crowd gathering, movement-direction analysis, and crowding warnings. ([lalinai.com](https://lalinai.com/features))
28. Yapay Zeka Tabanlı Video Analitiği | ALGI
    - ALGI presents Algi Edge with crowd, occupancy, heatmap, and queue-related functions; legal supplier attribution remains unresolved. (algi.ai)
29. Services | ArrowTech Saudi Arabia
    - Technical Arrow Technology Company advertises crowd and access systems for Saudi venues, including occupancy information and dashboards. ([arrowtech.sa](https://www.arrowtech.sa/services/))
30. AI Crowd Analytics Solutions In UAE | People Counting & Queue Monitoring | Samco
    - Samco advertises UAE crowd-analytics consultation, deployment, and support without establishing ownership of every underlying application. ([samco.ae](https://samco.ae/technology/video-analytics-solutions/crowd-analytics/))
31. AerWatch | AerVision Technologies
    - AerVision markets AerWatch as a named video-intelligence product with people-movement and crowd applications. ([aervision.com](https://www.aervision.com/aerwatch/))

32. AvidBeam Showcases AI Analytics at Hajj Conference 2025
    · AvidBeam's Hajj-related announcement establishes promotional activity, not a completed operational Hajj installation.
    ([avidbeam.com](https://www.avidbeam.com/avidbeam-demonstrates-ai-video-analytics-to-enhance-pilgrim-safety-at-hajj-conference-2025))
33. Retail | Secutel Physical Security Technology
    · Secutel markets SecuVue cloud people counting, queue monitoring, and heatmaps using connected cameras. ([secutel.co.za](https://secutel.co.za/retail_2025/))
34. Eluviant: AI Video Intelligence Platform
    · Eluviant presents its current AI Video Intelligence Platform; the page does not settle customer-specific module continuity or contracts. ([eluviant.com](https://www.eluviant.com/))
35. Syrate - Plateforme Africaine d'Intelligence Vidéo par IA Agentique
    · SYRATE SARL advertises ServEYE occupancy, queue, crowd-formation, and public-space applications. ([syrate.org](https://www.syrate.org/))
36. Rading Technologies - Enterprise Technology Solutions for Africa
    · Rading advertises crowd counting within emerging video-analytics and control-room services; a named application and paid deployment are not established.
    ([radingtechnologies.co.ke](https://www.radingtechnologies.co.ke/services))
37. Kipacha Technologies Limited
    · Kipacha advertises crowd-counting CCTV analytics within wider ICT services, not a separately established proprietary license. (kipacha.co.ke)
38. Projects - Knowledge Resources Africa
    · Knowledge Resources Africa reports crowd detection within an unnamed Nigerian public-space integration project; buyer and upstream software attribution remain unresolved.
    ([krafrica.com](https://krafrica.com/projects/))
39. AI Based Video Analytics | SEATech Systems
    · SEATech's Egyptian catalog represents i2V analytics, supporting a channel presence rather than confirmed local sales or manufacturer ownership.
    ([seatech-eg.com](https://www.seatech-eg.com/ai-based-video-analytics))
40. 随申行-大客流保障解决方案
    · The official Shanghai Suishenxing page describes multi-source passenger-flow monitoring, prediction, coordination, and a Hongqiao hub application.
    ([shmaas.cn](https://www.shmaas.cn/solution/massPassengerFlowSolution.html))
41. How Lauretta AI Turns Existing CCTV Into Operational Intelligence
    · Lauretta AI advertises existing-CCTV operational intelligence with crowd counts, density, movement, dashboards, and alerts; current contracts are not established.
    ([lauretta.io](https://lauretta.io/blog/existing-cctv-to-operational-intelligence-lauretta-ai))
42. AI Vision Analytics | V3 Smart Tech Malaysia
    · V3 Smart Tech's Malaysia-facing catalog advertises vision analytics including crowd counting and overcrowding detection. ([v3smarttech.my](https://v3smarttech.my/ai-vision-analytics/))
43. Intelligent Video Analytics & AI-Driven Solutions | Cylix
    · Cylix advertises integrated AI video analytics including crowd management; underlying product rights remain a separate question.
    ([cylix.ph](https://www.cylix.ph/integrated-technology-solutions/intelligent-video-analytics-ai-driven-solutions))
44. Crowd Management System - Solusi Cerdas Kelola Keramaian - GSI Indonesia
    · GSI Indonesia advertises crowd monitoring, dashboards, and alerts; its business article does not establish proprietary application ownership.
    ([gsi-indo.com](https://gsi-indo.com/2026/xx.xx/xx.xx/crowd-management-system-solusi-cerdas-kelola-keramaian/))

45. accesso - 2025 Full Year Results, 30 March 2026

· Evidence informing base-year company-share estimates: The official full-year presentation reports USD xx.xx of 2025 virtual-queuing revenue and a USD xx.xx 2024 comparator, separately from hardware and services. This replaces the seasonal proxy, not the frozen market denominator. ([accesso.com](https://accesso.com/wp-content/uploads/2026/xx.xx/FY2025_Results_Presentation_FinalC-xx.xx-xx.xx.pdf))

46. accesso Technology Group plc - Interim Results for the six months ended 30 June 2025

· Evidence informing base-year company-share estimates: The interim report identifies USD xx.xx of H1 2025 virtual-queuing revenue and describes transactional fee income, supporting the seasonality test and supplier-revenue boundary. It also records a revised major-customer agreement. ([accesso.com](https://www.accesso.com/assets/documents/accesso-H125-Results-RNS-FINAL.pdf))

47. accesso LoQueue Virtual Queuing System

· Evidence informing base-year company-share estimates: The commercial catalog distinguishes LoQueue reservation-led operational information from Qview physical-queue measurement. It supports product-scope attribution, not a second revenue increment or universal customer module coverage. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))

48. Pathfinder Partners

· Evidence informing base-year company-share estimates: The Pathfinder-branded partner page reports a footprint of more than xx.xx leading design firms. This is the model's company-specific commercial scale anchor, not an observed 2025 paying-firm census. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/partners/))

49. Pathfinder Pricing

· Evidence informing base-year company-share estimates: Current one-year Pathfinder prices are USD xx.xx node-locked and USD xx.xx floating, with qualifying multi-license discounts up to xx.xx% and included technical support. These support the annual price-equivalent model, not its assumed license mix or weighted discount. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/pricing/))

50. Video Analytics powered by AI - Ipsotek Ltd

· Evidence informing base-year company-share estimates: Ipsotek's current official footprint reports more than xx.xx completed projects in xx.xx countries. The estimate uses xx.xx only as a cumulative mixed-application activity reference, with explicit retrospective, crowd-attachment and billing adjustments. ([ipsotek.com](https://www.ipsotek.com/))

51. Ipsotek and UTI CFM awarded video analytics contracts for Romanian Airports: Cluj, Sibiu, and Satu Mare

· Evidence informing base-year company-share estimates: The Romanian-airport contract announcement reports more than xx.xx airport deployments and describes a broader analytics portfolio that includes crowd management. This supports the airport/non-airport model distinction but not annual crowd-software revenue or current billing status. ([ipsotek.com](https://www.ipsotek.com/ipsotek-and-uti-cfm-awarded-video-analytics-contracts-for-romanian-airports-cluj-sibiu-and-satu-mare/))

52. Our journey | Xovis

· Evidence informing base-year company-share estimates: Xovis describes more than xx.xx airport users and distinguishes airport software from sensors integrated into retail and building applications. This supports a modeled account footprint, not observed annual software revenue. ([xovis.com](https://www.xovis.com/company/our-journey?utm_source=openai))

53. Jacksonville Aviation Authority Awards Committee, April 28, 2025 - Xovis AERO Passenger Flow Management System

· Evidence informing base-year company-share estimates: Jacksonville's April 2025 award material identifies Xovis AERO annual renewal of USD xx.xx beginning May xx.xx 2025, and distinguishes it from the USD xx.xx five-year commitment. Used as a mixed-contract annual monetary anchor. ([flyjacksonville.com](https://www.flyjacksonville.com/award.pdf?ItemNumber=AC2025-xx.xx&pdfnumber=xx.xx))

54. Gentrack Group FY25 Investor Presentation - 24 November 2025

· Evidence informing base-year company-share estimates: The FY2025 Veovo chart separates approximately NZD xx.xx committed recurring revenue, NZD xx.xx other recurring revenue, NZD xx.xx projects and NZD xx.xx hardware. These constrain the modeled recurring-software numerator, not its crowd-specific allocation. ([gentrack.com](https://gentrack.com/wp-content/uploads/FY25-Investor-Presentation.pdf))

55. About Crowd Connected

· Evidence informing base-year company-share estimates: The company identifies xx.xx-plus deployments since 2022, xx.xx-plus venues and xx.xx-plus tracked delegates, and identifies Crowd Connected Ltd. These are cumulative activity and identity anchors, not annual paid-license observations. ([crowdconnected.com](https://www.crowdconnected.com/about/))

56. Attendee tracking | Real-time event attendance and session data

· Evidence informing base-year company-share estimates: The attendee-tracking offering reports two to three events weekly and describes separate tag-based session attendance activity. This constrains the annual event-equivalent model and qualifies an app-only interpretation of the entire portfolio. ([crowdconnected.com](https://www.crowdconnected.com/solutions/attendee-tracking/))

57. Crowd Connected Pricing

· Evidence informing base-year company-share estimates: Published offers include USD xx.xx plus USD xx.xx per tracked delegate, a USD xx.xx medium event-app package, USD 2,000 annual basic positioning and USD xx.xx/m² annual standard positioning. Hardware and other bundled obligations require modeled exclusion. Current prices are retrospective comparables. ([crowdconnected.com](https://www.crowdconnected.com/pricing/))

58. Crowd Connected Standard Terms and Conditions

· Evidence informing base-year company-share estimates: The 2026 terms establish prior-written-consent conditions for specified surveillance and critical-infrastructure uses. They support a contractual-access limitation, not a measured 2025 revenue deduction. ([crowdconnected.com](https://www.crowdconnected.com/legal/standard-terms-and-conditions.pdf))

59. About Copenhagen Optimization

· Evidence informing base-year company-share estimates: The company expressly places its Better Airport platform at more than xx.xx airports in 2025. This supports commercial account scale, not a virtual-queuing-only customer count or disclosed fee. ([copenhagenoptimization.com](https://copenhagenoptimization.com/company/about-us))

60. Port of Seattle Commission Agenda Memorandum - Passenger Flow Metrics Project, April 26, 2022

· Evidence informing base-year company-share estimates: Seattle's April 2022 proposal provides a USD xx.xx ten-year recurring budget. Annualization and the inherited assumed software fraction constrain a comparable USD xx.xx software fee; this is not Copenhagen Optimization revenue or an award to that company. ([meetings.portseattle.org](https://meetings.portseattle.org/portmeetings/attachments/2022/2022_04_26_RM_8b.pdf))

61. Retail Analytics Company | Who We Are | RetailNext

· Evidence informing base-year company-share estimates: Official company material references xx.xx proprietary sensor installations. This supports installed commercial scale but does not establish active 2025 software subscriptions or their realized fees. ([retailnext.net](https://retailnext.net/about/who-we-are))

62. RetailNext Unveils Traffic 3.0 for In-Store Analytics

· Evidence informing base-year company-share estimates: The January xx.xx 2025 Traffic xx.xx announcement explicitly includes occupancy monitoring and staffing functions alongside broader retail analytics. It supports base-year qualifying product availability and the need for scope attribution. ([retailnext.net](https://retailnext.net/about/press/retailnext-unveils-traffic-xx.xx-xx.xx))

63. Retail Analytics Pricing | RetailNext

· Evidence informing base-year company-share estimates: RetailNext's pricing description bundles hardware sensors, software licensing, warranty and other obligations. This supports excluding hardware and mixed services rather than treating a complete subscription as software-only revenue; no numerical tariff is inferred. ([retailnext.net](https://retailnext.net/pricing?utm_source=openai))

64. Partners - Frontlion

· Evidence informing base-year company-share estimates: The later Frontlion partner page describes deployment across thousands of locations. It supplies a current footprint category requiring an explicit retrospective paid-coverage bridge, not an exact 2025 location observation. ([frontlion.com](https://frontlion.com/partners/))

65. City of North Port - Qtrac Software Subscription Renewal Procurement Packet

· Evidence informing base-year company-share estimates: North Port's January 2025 Qtrac quotation identifies one location, a February 2025-January 2026 term and USD xx.xx annual software subscription, separately from SMS charges. This constrains software-only annual pricing, not company-wide recognized sales. ([content.govdelivery.com](https://content.govdelivery.com/attachments/FLNORTHPORT/2025/xx.xx/xx.xx/file_attachments/xx.xx/SS26-xx.xx%20Notice%20of%20Intent-%20QTRAC%20INC%20ADA%20COMPLETE%20PACKET.PDF?utm_source=openai))

66. Pasadena-Based Startup QLess Hits '100 Million Served' Milestone

· Evidence informing base-year company-share estimates: The October xx.xx 2017 company-issued announcement reports more than xx.xx QLess locations. This is a historical footprint anchor requiring explicit retention, addition and paying-status assumptions. ([prnewswire.com](https://www.prnewswire.com/news-releases/pasadena-based-startup-qless-hits-xx.xx-million-served-milestone-xx.xx.html))

67. Greater Orlando Aviation Authority Procurement Agenda - December 2, 2025

· Evidence informing base-year company-share estimates: The airport authority's 2025 procurement schedule identifies QLess and USD xx.xx for a one-year queuing, appointments and reporting software subscription. Used as a larger institutional-account price comparable, not a global average. ([assets.ctfassets.net](https://assets.ctfassets.net/qiecpoxp4bka/1JYtZ1WGN8te43z2goztqY/ea3f7f5d582eb2de52669c36fc75392b/Procurement-Agenda-xx.xx.pdf))

68. Kootenai County Board of Commissioners Minutes - October 28, 2025

· Evidence informing base-year company-share estimates: October xx.xx 2025 county minutes approve an annual QLess contract for the Sheriff's Driver's License Department. This independently supports continuing physical-service commercial participation, not global revenue or a paid-location count. ([kcgov.us](https://www.kcgov.us/AgendaCenter/ViewFile/Minutes/_10282025-xx.xx))

69. Xovis - Passenger Terminal Expo 2025 Press Release

· Evidence informing base-year company-share estimates: Xovis PTE 2025 material reports more than xx.xx installed sensors. It supports the larger gross-stock disclosure but does not reconcile the predecessor's smaller counting perimeter or establish paid software attachment. ([api.xovis.com](https://api.xovis.com/fileadmin/user_upload/data/press_media/Press_Release_PTE_2025_Final.pdf))

· Evidence informing base-year company-share estimates: The independently retrieved Xovis gross-stock disclosure challenges the inherited combined monitoring-stock calibration. It supports retaining denominator uncertainty, not altering RetailNext's own installation count or assigning Xovis hardware value to RetailNext. ([api.xovis.com](https://api.xovis.com/fileadmin/user_upload/data/press_media/Press_Release_PTE_2025_Final.pdf))

70. Exposants - Association des Bibliothécaires de France

· Evidence informing base-year company-share estimates: The 2025 exhibitor directory contains the supplier's claim of more than xx.xx equipped libraries, used as a conservative footprint proxy rather than an independently verified paid-license count. ([abf.asso.fr](https://abf.asso.fr/xx.xx/xx.xx/xx.xx/ABF/liste-des-exposants-2025))

71. Affluences : découvrez nos différentes offres

· Evidence informing base-year company-share estimates: Affluences separates SaaS flow-management access from counting hardware offered through purchase or rental, supporting the software-only attribution boundary, not the assumed fee levels. ([pro.affluences.com](https://www.pro.affluences.com/offres))

72. The Halo System - Halo Solutions

· Evidence informing base-year company-share estimates: The current platform description reports more than xx.xx locations. The model separately assumes its 2025 equivalent, qualifying crowd scope and paid proportion. ([halosolutions.com](https://www.halosolutions.com/the-halo-system/))

73. 5 easy packages to buy Halo for venues

· Evidence informing base-year company-share estimates: The public venue schedule lists free entry-level access and annual paid tiers of GBP xx.xx xx.xx xx.xx and xx.xx supporting the modeled price blend and explicit free-site deduction. ([assets.applytosupply.digitalmarketplace.service.gov.uk](https://assets.applytosupply.digitalmarketplace.service.gov.uk/g-cloud-xx.xx/documents/xx.xx/xx.xx-pricing-document-2024-xx.xx-xx.xx-xx.xx.pdf))

74. Halo partners with SSE Arena Belfast

· Evidence informing base-year company-share estimates: The February 2025 Belfast arena announcement describes a three-year agreement and initial use, supporting paid venue participation without disclosing contract value or completion of all planned expansion. ([halosolutions.com](https://www.halosolutions.com/halo-sse-arena/))

75. V-Count Launches Ultima AI: The Ultimate People Counting Sensor

· Evidence informing base-year company-share estimates: V-Count's December 2020 issuer release reports more than xx.xx installed sensors and xx.xx locations. The model uses the sensor figure as a historical gross-stock proxy, with explicit paid, scope and period limitations. ([einnews.com](https://www.einnews.com/pr_news/xx.xx/v-count-launches-ultima-ai-the-ultimate-people-counting-sensor))

76. People Counting Camera: 7 Retail Decisions | V-Count

· Evidence informing base-year company-share estimates: The company publishes software pricing of USD xx.xx-xx.xx per sensor monthly. USD xx.xx is the model's midpoint assumption, not a verified 2025 realized tariff. ([v-count.com](https://v-count.com/people-counting-camera-retail-decisions/))

77. Resellers - People Counting - V-Count

· Evidence informing base-year company-share estimates: The reseller program states subscription-license margins of up to xx.xx%, supporting a supplier-net discount allowance while not establishing the model's xx.xx% average realization. ([v-count.com](https://v-count.com/resellers/))

78. 20,000 箇所超に導入された VACAN の技術基盤を活用し、AI トランスフォーメーションに特化した子会社「VACAN Technologies」を設立

· Evidence informing base-year company-share estimates: The 2026 issuer announcement reports more than xx.xx VACAN deployment locations. This supports only a later gross commercial footprint; the period, paid-capture and annual-equivalent adjustments are modeled. ([prtimes.jp](https://prtimes.jp/main/html/rd/p/xx.xx.html))

79. トイレ混雑抑止サービス「AirKnock」｜VACAN（バカン）

· Evidence informing base-year company-share estimates: AirKnock's advertising-funded offer can carry no initial or monthly customer fee, providing material counterevidence to monetizing every deployment as paid software. Advertising receipts are excluded. ([corp.vacan.com](https://corp.vacan.com/throne-airknock/))

80. スマホ 1 つで、利用者の快適性向上を実現！順番待ち予約サービス「VACAN Q ticket」 スマホ完結プランを提供開始

· Evidence informing base-year company-share estimates: The issuer's smartphone Q ticket announcement lists JPY xx.xx per day with no initial fee. It constrains a software price comparison but does not establish the modeled JPY xx.xx monthly recurring realization. ([prtimes.jp](https://prtimes.jp/main/html/rd/p/xx.xx.html))

81. Qmatic Welcomes New CEO and Vice CEO

· Evidence informing base-year company-share estimates: The January xx.xx 2025 company announcement reports more than xx.xx systems across more than xx.xx countries. It anchors commercial scale, not the assumed active paid fraction or legacy-modern software mix. ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-new-ceo-and-vice-ceo))

82. About Wavetec, The Technology Company

· Evidence informing base-year company-share estimates: The company profile reports more than xx.xx customer-experience installations and distinguishes queue systems, kiosks and displays. These broader counts support the gross-stock proxy and the need for scope and paid-software deductions. ([wavetec.com](https://www.wavetec.com/about-us/))

83. Federal Reserve Board - Foreign Exchange Rates - G.5A - January 05, 2026

· Evidence informing base-year company-share estimates: The official 2025 annual exchange-rate table is the currency-period comparator; Halo's USD xx.xx/GBP conversion is an intentionally rounded working assumption rather than an exact quoted rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/current/))

· Evidence informing base-year company-share estimates: The official 2025 annual exchange-rate table is the currency-period comparator; VACAN's JPY xx.xx/USD conversion is an intentionally rounded working assumption rather than an exact quoted rate. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/current/))

18.2. Market Concentration Analysis, 2025

[illegible] Buyers can preserve choice by naming both the required application rights and the party responsible for interface support. Platform breadth alone does not establish exclusive access to the account.

Device-linked portfolios create a different source of bargaining influence. Axis Communications supplies Object Analytics through compatible devices. [illegible] Keenfinity lists Intelligent Insights, but exact present licensing, fulfillment, and jurisdiction-specific contracting remain unsettled. Buyers should establish who controls the rights and obligations relevant to the proposed order before treating these identities as independent alternatives.

[illegible]

[illegible] Otherwise, the bundle relocates coordination rather than eliminating it. Entrants should not assume that supplying one complementary component grants control of the end-customer relationship.

Switching leverage is specific to what the buyer can retain. Tapp's Public Eye record describes both open-source software and subscription access, while CityTraffic offers platform access to measured mobility information. [illegible]

Specialist observation routes create additional information and delivery dependencies. puremat ic markets pure. [illegible]

[illegible] Extending an established relationship can preserve familiar counterparties only when the required crowd function, compatible estate, entitlement, and support party are explicit. A separately supported crowd application remains an alternative where extension would introduce unsuitable scope or leave the operating commitment divided.

Sources & Evidence

1. Partners | WaitTime
   · WaitTime identifies TD SYNNEX distribution for supporting hardware and services. This establishes complementary commercial relationships rather than universal transfer of application, equipment, or interface obligations. ([thewaittimes.com](https://www.thewaittimes.com/partners))
2. Manchester City Collaborates with Cisco to Deploy Crowd Intelligence Solution, WaitTime
   · Cisco's December xx.xx 2022 announcement reports WaitTime at the Etihad Stadium using Cisco infrastructure and Meraki cameras. The historical relationship does not establish one participant's responsibility for the complete customer commitment. ([newsroom.cisco.com](https://newsroom.cisco.com/c/r/newsroom/en/us/a/y2022/m12/manchester-city-collaborates-with-cisco-to-deploy-crowd-intelligence-solution-waittime.html))
3. BriefCam Frequently Asked Questions
   · BriefCam's FAQ distinguishes product variants and expandable user, camera-channel, and real-time response entitlements. These are application-specific rights rather than a portfolio-wide entitlement. ([milestonesys.com](https://www.milestonesys.com/products/briefcam-faq/))
4. Products
   · Awiros describes AppStack as an application-selection and purchasing platform supported by a developer ecosystem. This establishes a platform-and-application commercial relationship, not identical rights across applications. ([awiros.com](https://awiros.com/products))
5. With the acquisition of Videtics, Technis lays the foundation stone for a sovereign European group in AI applied to physical spaces
   · Technis's acquisition announcement establishes an ownership and portfolio relationship with Videtics. It does not establish separately contracting, nonoverlapping competitive supply. ([xx.xx.fs1.hubspotusercontent-eu1.net](https://xx.xx.fs1.hubspotusercontent-eu1.net/hubfs/xx.xx/ENG_19_02_Technis%xx.xx-%20Videtics%20UK%20US%20def.pdf))
6. Videtics platform
   · Technis presents Videtics as a platform within its portfolio. Continued product branding does not itself establish an independent supplier relationship. ([technis.com](https://www.technis.com/en/videtics-platform))
7. In just twelve months, we have built real momentum. | Keenfinity Group
   · Keenfinity identifies July xx.xx 2025 as its independence date following separation from Bosch Group. This establishes corporate separation, not every product's present licensor or support allocation. ([keenfinity-group.com](https://www.keenfinity-group.com/xc/en/news/press-room/in-just-twelve-months-we-have-built-real-momentum/))
8. KEENFINITY Group | Intelligent Insights Base | IGI-BASE
   · Keenfinity's catalog identifies Intelligent Insights Base. The listing does not settle jurisdiction-specific contracting, fulfillment, or continuing customer obligations. ([commerce.keenfinity.tech](https://commerce.keenfinity.tech/xl/en/Intelligent-Insights-Base/p/F.01U.xx.xx/))
9. pure.AIS - purematic
   · purematic markets pure.AIS for attraction visitor flow, occupancy, and waiting information, with operational and guest-facing applications and API integrations. These are advertised functions, not demonstrated buyer outcomes. ([purematic.com](https://www.purematic.com/en/solutions/crowd-control/))
10. How does it work - Crowdscan
    · CrowdScan advertises sensor-linked density counting, analytics, prediction, and integrated-management services with cloud processing. Its described observation route does not require cameras or visitors' mobile devices; deployment-wide privacy and compatibility are not independently established. ([crowdscan.be](https://www.crowdscan.be/how-does-it-work/))
11. Business Intelligence, Insights and Video Analytics | March Networks
    · March Networks markets Searchlight Cloud with video-based queue information, dashboards, occupancy-related alerts, and connected business information. These offering declarations do not establish complete crowd coverage or realized operating benefits. ([marchnetworks.com](https://www.marchnetworks.com/solutions/business-intelligence/))

12. AXIS Object Analytics | Axis Communications
· Axis markets Object Analytics through supported Axis devices and describes integration with video-management systems. Device compatibility and software integration remain distinct purchasing questions. ([axis.com](https://www.axis.com/products/axis-object-analytics))
13. DSS Professional Datasheet
· Dahua's DSS Professional datasheet describes people-counting and related information functions within a broader security-management package. The specification does not establish universal device or application interchangeability. ([software.dahuasecurity.com](https://software.dahuasecurity.com/DSSDesignTool/static/media/DSS%20Pro%xx.xx.0_Datasheet.ff06d565.pdf))
14. HikCentral Professional AE Specification
· The HikCentral Professional AE specification documents a broader security-platform package. It does not independently establish the entitlements or continuing support in a proposed customer order. ([pinfo.hikvision.com](https://pinfo.hikvision.com/hkwsen/unzip/20221117155452_63455_doc/pdf.pdf))
15. Occupancy Monitoring - Cloud-Based - Cisco Spaces
· Cisco markets its own Spaces occupancy-monitoring proposition using an existing network relationship. This is distinct from its infrastructure role in the documented WaitTime deployment. ([spaces.cisco.com](https://spaces.cisco.com/occupancy-monitoring/))
16. Crowd Analytics and Management Technology | Verizon
· Verizon describes Crowd Analytics as SaaS combining applications and devices with professional and support services. The advertised combination does not establish a particular customer's responsibility allocation. ([verizon.com](https://www.verizon.com/business/products/5g-edge/crowd-analytics/))
17. Public Eye - Open Source Crowd Management Solution - Tapp
· Tapp describes Public Eye as an open-source crowd-management solution and separately advertises subscription dashboard access. Software availability and a continuing hosted service are different commercial commitments. ([tapp.nl](https://www.tapp.nl/project-overview/public-eye))
18. How do we measure | CityTraffic
· CityTraffic describes subscription access to measured mobility information through its platform. Access to that information does not itself transfer the underlying measurement relationship. ([citytraffic.nl](https://citytraffic.nl/how-do-we-measure/))
19. Artificial intelligence makes stadiums smarter
· Dallmeier's October xx.xx 2025 stadium article describes Panomera monitoring combined with AI within its stadium-system proposition. The supplier account does not establish suitability or customer-specific obligations for another stadium. ([dallmeier.com](https://www.dallmeier.com/about-us/dallmeier-blog/artificial-intelligence-makes-stadiums-smarter))
20. Pricing - Actuate
· Actuate lists crowd analytics within its subscription offering and directs buyers to security-system integrators or the company. Package selection and integrator engagement do not independently settle the customer's licensed functions and delivery obligations. ([actuate.ai](https://actuate.ai/pricing/))
21. Video analytics - Cathexis
· Cathexis describes CathexisVision queue-length analysis, entry-and-exit counting, occupancy applications, and notifications within its video-analytics suite. These functions do not establish the rights or support obligations in every installation. ([cathexisvideo.com](https://cathexisvideo.com/video-management-software/video-analytics/))

18.3. Recent Developments & Impact Analysis, 2025

Portfolio combinations have changed the ownership of some competitive alternatives without automatically combining customer entitlements. Milestone Systems' March xx.xx 2025 account reports its acquisition of BriefCam and Arcules during 2024. ■■■■■■■ ■■ ■■■■■■■■■ ■■■

[illegible]

Supplier separation creates the opposite attribution risk. [illegible] Buyers relying on transferred or acquired portfolios should obtain the actual seller, application rights, and support commitment before treating the corporate event as continuity assurance.

[illegible] These are support deadlines, not immediate shutdowns or retirement of the entire Qmatic portfolio. Affected institutions should compare the supported successor with replacement offers before their applicable deadline, including migration acceptance and connected-system obligations.

New delivery relationships can widen the practical choice set, but their status matters. [illegible] Buyers should monitor signed delivery scope and accepted service commitments before relying on these arrangements as substitutes for an established application contract.

[illegible] This adds a relevant announced stadium engagement to the comparison, but does not establish continuing operating status, every licensed function, or transferability to another venue. A venue considering that route should require confirmation of the live commercial scope and accountable support party rather than extrapolate from the announcement.

Sources & Evidence

1. Qmatic Welcomes Corvice AG as New Premier Solution Partner in Switzerland
   · The new Swiss partner relationship changes the advertised delivery route without establishing customer-specific service levels.
   ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-corvice-ag-as-new-premier-solution-partner-in-switzerland))
2. End of Life Announcement: Qmatic Show
   · Qmatic's October xx.xx 2026 notice schedules Show support and security-patch cessation for October xx.xx 2027, permits continued operation, and flags possible hardware changes.
   ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-qmatic-show))
3. New beginnings for Milestone
   · Milestone's March xx.xx 2025 article reports its acquisition of BriefCam and Arcules during 2024, not automatic combined customer entitlements.
   ([milestonesys.com](https://www.milestonesys.com/articles/new-beginnings-for-milestone/))
4. Peek Acquires ACME Ticketing and Connect&GO
   · Peek's November xx.xx 2025 announcement reports acquiring Connect&GO and an intention to combine capabilities, not completed contract migration.
   ([peekpro.com](https://www.peekpro.com/blog/peek-acquires-acme-connect-go-raises-70m))
5. End of Life Announcement for Qmatic Orchestra 6
   · Qmatic's June xx.xx 2026 notice schedules Orchestra xx.xx support, updates, maintenance, and bug fixes to end July xx.xx 2027.
   ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-for-qmatic-orchestra-xx.xx))
6. With the acquisition of Videtics, Technis lays the foundation stone for a sovereign European group in AI applied to physical spaces
   · The completed acquisition announcement describes integrating Videtics' video-analysis and flow capabilities; it does not establish combined customer entitlements.
   ([xx.xx.fs1.hubspotusercontent-eu1.net](https://xx.xx.fs1.hubspotusercontent-eu1.net/hubfs/xx.xx/ENG_19_02_Technis%xx.xx-%20Videtics%20UK%20US%20def.pdf))
7. Videtics platform
   · The Videtics platform page corroborates portfolio integration following the acquisition.
   ([technis.com](https://www.technis.com/en/videtics-platform))
8. In just twelve months, we have built real momentum. | Keenfinity Group
   · The supplier separation changes attribution of the transferred portfolio without identifying every product's current contracting entity.
   ([keenfinity-group.com](https://www.keenfinity-group.com/xc/en/news/press-room/in-just-twelve-months-we-have-built-real-momentum/))
9. KEENFINITY Group | Intelligent Insights Base | IGI-BASE
   · The continuing product listing supports portfolio attribution, not automatic support or contract continuity after separation.
   ([commerce.keenfinity.tech](https://commerce.keenfinity.tech/xl/en/Intelligent-Insights-Base/p/F.01U.xx.xx/))
10. BigBear.ai Completes Pangiam Acquisition
    · BigBear.ai announced completion of its Pangiam acquisition on March xx.xx 2024; continuing crowd-specific availability is not established.
    ([bigbear.ai](https://bigbear.ai/newsroom/bigbear-ai-completes-pangiam-acquisition/))
11. ADNEC Group partners with Presight to implement AI-Powered Smart Venue Management
    · Presight's March xx.xx 2026 ADNEC memorandum proposes Intelli-based visitor management and crowd monitoring, not completed implementation.
    ([presight.ai](https://www.presight.ai/news/adnec-group-partners-with-presight-to-implement-pioneering-ai-powered-smart-venue-management-within-its-operations))

12. Digita, CoreGo and Nokia pioneer private 5G solutions to enhance connectivity and safety at major events
    · Digita's February xx.xx 2026 collaboration with CoreGo and Nokia concerns event connectivity, operational information, and situational visibility, not separate crowd-software entitlements for every participant. ([digita.fi](https://www.digita.fi/en/tiedotteet/digita-corego-and-nokia-pioneer-private-5g-solutions-to-enhance-connectivity-and-safety-at-major-events/))
13. How Staqu's Jarvis is securing RCB's home ground for crowd control - BusinessToday
    · The March xx.xx 2026 report records a Staqu-RCB engagement involving JARVIS crowd analytics; it does not establish subsequent operating continuity. ([businesstoday.in](https://www.businesstoday.in/amp/technology/story/how-staqus-jarvis-is-securing-rcbs-home-ground-for-crowd-control-xx.xx-2026-xx.xx-xx.xx))

18.4. Product Portfolio Analysis, 2025

[illegible] Savannah Simulations AG maintains a SimWalk contact route, but that undated record does not settle continuing paid supply. Planning buyers should compare the entitlement, supported design connections, revision rights, and responsibility for the project deliverable-not assume that installation or a common simulation label establishes equivalence.

Purchasing a planning deliverable is also different from acquiring software rights. [illegible] A buyer needing repeated internal revisions should establish continuing application access and file responsibilities; a bounded advisory engagement may be more suitable when the required purchase is an accountable planning deliverable.

Video-management portfolios provide another purchasing route. Milestone Systems markets BriefCam variants that distinguish retrospective review from live response and research functions. [illegible]

Specialist video portfolios overlap on monitoring but differ in their advertised buyer context. Ipsotek Ltd combines crowd counts, queues, heatmaps, and reporting; Evitech's Lynx focuses on video-based crowd management.

SITA's Passenger Intelligent Insights, NEC Corporation's Congestion Management Solution, TAV Technologies' passenger-flow services, Isarsoft's transport analytics, and Ariadne Maps GmbH's airport analytics provide additional commercial approaches. Airports should select broader operating scope only where connected-system owners can support it; a managed measurement package and an airport operating platform answer different responsibility questions.

These offerings can inform journey or public-space decisions, but their observation channels and delivery models should not be equated with complete live venue occupancy. Buyers need to distinguish application access, analytical deliverables, and rights to reuse the resulting information.

Queue portfolios should be grouped by the service being allocated. Qmatic, Qtrac, Inc. through Frontlion, QLess, and Wavetec address physical service queues, remote waiting, and visitor communications.

[illegible]

Restaurant, attraction, and airport queues create different portfolio requirements. [illegible] These are not interchangeable substitutes for an institutional queue application or an airport-wide monitoring contract.

[illegible] GInIEm's tPass and EntryLog address ticketing or guest arrivals, while EEX and ADDtix advertise broader event access and crowd functions. Buyers should specify whether the purchase controls admission inventory, records entry, reconciles presence, or observes activity beyond controlled gates.

[illegible] Crowdcom B.V.'s ShowTwin adds a live visual layer over its Event Dashboard, and ST Engineering's AGIL Digital Twin places crowd and queue information within a spatial operating platform. Visitor publication, operational visualization, and staff coordination remain distinct commitments even when presented together.

European analytics alternatives also differ in how crowd functions sit inside the wider application. [illegible]

[illegible] Comparable procurement requires the named module and delivery responsibility, rather than treating these surrounding platforms as identical crowd suites.

Asia-Pacific portfolios provide additional combinations of observation and operating context. [illegible] Buyers should preserve the distinction between a documented application, its supporting information source, and the party committing to continuing delivery.

Sources & Evidence

1. LEGION | Bentley Systems
   - LEGION is offered for pre-implementation pedestrian planning through a subscription and separately described expert-service options. ([bentley.com](https://www.bentley.com/products/legion/))
2. Daily Operations - Halo Solutions
   - Halo markets shared incidents, tasks, mobile reports, cross-team transfers, and operational oversight. ([halosolutions.com](https://www.halosolutions.com/applications/daily-operations/))
3. Location Analytics and Footfall Counting | Heatmaps, Dwell Time, and Flow Analysis
   - Crowd Connected describes app-derived heatmaps, dwell, flow, dashboards, APIs, and exports. ([crowdconnected.com](https://www.crowdconnected.com/solutions/location-analytics/))
4. MassMotion | pedestrian simulation and crowd modelling software
   - Oasys markets MassMotion for pedestrian simulation, design assessment, operating scenarios, and BIM-linked workflows. ([oasys-software.com](https://www.oasys-software.com/products/pedestrian-simulation-software/massmotion/))
5. BriefCam video analytics software | Milestone Systems
   - Milestone's BriefCam catalog distinguishes review-focused variants from broader response and research capabilities. ([milestonesys.com](https://www.milestonesys.com/products/briefcam))
6. Airport Operations Software | Intelligent Airport Platform | Veovo
   - Veovo combines flow, queue, forecasting, and resource-related functions in its airport platform. ([veovo.com](https://veovo.com/airports))
7. accesso LoQueue Virtual Queuing System | accesso
   - accesso separates LoQueue attraction reservations and dashboards from Qview physical-queue observation. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
8. Software - accu:rate
   - accu:rate offers configurable crowd:it license scope and identifies Vectorworks and Revit connections. ([accu-rate.de](https://www.accu-rate.de/en/software/))
9. Attraction & Theme Parks | Connect&GO
   - Connect&GO markets modular attraction ticketing, admission, capacity, staffing, and operational information. ([connectngo.com](https://www.connectngo.com/solutions/attraction-park))

10. Nommon | Population Insights
    - Nommon offers Population Insights through API access or bespoke projects, with differing information-reuse licenses. ([nommon.es](https://www.nommon.es/products/population-insights/))
11. Affluences : découvrez nos différentes offres
    - Affluences separates licensed SaaS access from counting hardware offered through purchase or rental. ([pro.affluences.com](https://www.pro.affluences.com/offres))
12. Solution de comptage et réservation pour bibliothèque Affluences
    - Affluences advertises library reservations and crowd-information publication alongside occupancy applications. ([pro.affluences.com](https://www.pro.affluences.com/bibliotheques-mediatheques))
13. Platform: Infrastructure Intelligence | Outsight
    - Outsight advertises spatial analytics, occupancy, queues, interfaces, and sensing-related project support. ([outsight.ai](https://www.outsight.ai/platform/))
14. VACAN - Real-time Crowd Visualization & Digital Signage Platform, Japan
    - VACAN describes crowd information distributed through signage, maps, smartphones, and mobile queuing. ([corp.vacan.com](https://corp.vacan.com/signage/en/))
15. Visitor Management System - Qmatic
    - Qmatic advertises visitor-number controls, appointments, check-in, signage, and remote waiting. ([qmatic.com](https://www.qmatic.com/solutions/visitor-management-system))
16. Pedestrian simulation software PTV Viswalk
    - PTV markets Viswalk pedestrian simulation and describes applications connected with wider transport simulation. ([ptvgroup.com](https://www.ptvgroup.com/en-us/products/pedestrian-simulation-software-ptv-viswalk))
17. Pathfinder | Crowd Movement Simulation and Egress Software
    - Thunderhead markets Pathfinder for crowd movement, pedestrian circulation, and egress planning with commercial purchase and evaluation routes. ([thunderheadeng.com](https://www.thunderheadeng.com/pathfinder/))
18. Pedestrian Library - AnyLogic Simulation Software
    - AnyLogic offers a Pedestrian Library within its broader simulation environment and provides a quotation route. ([anylogic.com](https://www.anylogic.com/features/libraries/pedestrian-library/))
19. Partner Program Pedestrian Dynamics - Service Partners
    - InControl's Pedestrian Dynamics service-partner document describes external license sales and associated partner arrangements; current terms are not established. ([support.incontrolsim.com](https://support.incontrolsim.com/en/pd-purchase/xx.xx-pd-service-partner/download.html))
20. SimCrowds
    - uCrowds B.V. advertises monthly SimCrowds subscriptions and an offline-use option. ([ucrowds.com](https://ucrowds.com/simcrowds/))
21. SIMWALK - Pedestrian Simulation for Transport, Aviation and Architecture
    - The undated SimWalk contact page attributes the business to Savannah Simulations AG but does not establish continuing paid fulfillment. ([simwalk.com](https://simwalk.com/contact.html))
22. Architecture | Mott MacDonald
    - Mott MacDonald describes STEPS as a pedestrian-simulation tool within its architecture services, not an external license offer. ([mottmac.com](https://www.mottmac.com/en-us/markets-and-services/engineering/architecture/))
23. Crowd Dynamics | Crowd Modelling and Simulation | LEGION
    - Crowd Dynamics describes in-house Myriad X modeling capability within its crowd-modeling service. ([crowddynamics.com](https://www.crowddynamics.com/crowd-modelling))
24. Movement Strategies | Advisory | GHD
    - GHD identifies SENSE as in-house pedestrian-modeling software in its Movement Strategies advisory offering. ([ghd.com](https://www.ghd.com/en-gb/expertise/advisory/movement-strategies))

25. Security Planning in OnePlan - OnePlan Events
    - OnePlan advertises shared security plans, controlled plan access, security zones, and capacity-planning functions. ([oneplan.io](https://www.oneplan.io/security-planning/))
26. SimTread 2026｜無償提供プラグイン
    - The Japanese Vectorworks catalog presents SimTread as a pedestrian and crowd-flow simulation add-on for qualifying customers. ([vectorworks.co.jp](https://www.vectorworks.co.jp/ct/pages/pdl/2026/simtread2026.html))
27. Crowd estimation: Keeping count with video analytics
    - Genetec describes crowd estimation as part of Security Center, including notifications, dashboards, and historical information. ([genetec.com](https://www.genetec.com/blog/products/crowd-estimation-keeping-count-with-video-analytics))
28. Video Analytics Software & Solutions | AI-Powered Platform
    - Motorola Solutions' Avigilon portfolio includes crowd detection and occupancy-management functions. ([avigilon.com](https://www.avigilon.com/analytics))
29. Crowd Detection - Occupancy Detection - Senstar
    - Senstar markets Symphony Crowd Detection for occupancy estimation, overcrowding identification, and notifications. ([senstar.com](https://senstar.com/products/video-analytics/crowd-detection/))
30. AI people counting software for real-time crowd monitoring
    - AxxonSoft markets Crowd Estimation within Axxon One for crowd monitoring and alerts. ([axxonsoft.com](https://www.axxonsoft.com/ai-video-analytics/video-content-analytics/crowd-estimation))
31. SecurOS Tracking Kit - One Solution, 10 Detectors
    - ISS lists Crowd Detector within SecurOS Tracking Kit and describes separate or packaged supply. ([issivs.com](https://issivs.com/wp-content/uploads/2023/xx.xx/SecurOS_TrackingKit_Datasheet_v.xx.xx.4_EN.pdf))
32. Crowd Density Video Analytics
    - intuVision places Crowd Density in the intuVision VA Security module. ([intuvisiontech.com](https://www.intuvisiontech.com/events/crowd-density))
33. Crowd Management - Ipsotek Ltd
    - Ipsotek advertises crowd counting, overcrowding, heatmaps, queues, and reporting for public spaces and venues. ([ipsotek.com](https://www.ipsotek.com/solutions/crowd-management/))
34. Evitech - Vidéo surveillance intelligente - Lynx
    - Evitech markets Lynx as video-content-analysis software for crowd management, alerts, and statistics. ([evitech.com](https://www.evitech.com/en/products/lynx-en))
35. AI Video Analytics for Hospitality Security and Operations
    - Videonetics advertises hospitality occupancy, queue, movement, and crowd-safety analytics. ([videonetics.com](https://www.videonetics.com/hospitality))
36. Traffic Flow Analysis | Scylla
    - Scylla markets Traffic Flow Analysis with occupancy, people-counting, crowd, and queue functions. ([scylla.ai](https://www.scylla.ai/traffic-flow-analysis/))
37. Vaidio for Stadiums
    - Vaidio's stadium proposition includes live occupancy, crowd direction, concession queues, and staffing-related information. ([vaidio.ai](https://www.vaidio.ai/solutions/stadiums))
38. Video Analytics Solution - AllGoVision.com
    - AllGoVision markets crowd management within its broader commercial video-analytics software portfolio. ([allgovision.com](https://www.allgovision.com/allgovision-analytics.php))
39. Airport software | Xovis
    - Xovis markets AERO as a managed passenger-flow package combining sensors, software, implementation, training, and support. ([xovis.com](https://www.xovis.com/technology/airport-software))

40. Optimising Passenger Flow at Aberdeen International Airport with Beonic's AI-Powered Insights & LiDAR
    - Beonic's Aberdeen account describes its platform using LiDAR-linked information for passenger flow, queues, occupancy, and congestion. ([beonic.com](https://www.beonic.com/blog/optimising-passenger-flow-aberdeen-international-airport?hs_amp=true))
41. SITA | SITA Passenger Intelligent Insights
    - SITA markets Passenger Intelligent Insights for passenger movement, dwell, touchpoint performance, and bottleneck analysis. ([sita.aero](https://www.sita.aero/solutions/sita-at-airports/sita-passenger-processing/sita-passenger-intelligent-journey/sita-passenger-intelligent-insights/))
42. Airport Terminal Operations: Aviation | NEC
    - NEC's airport catalog names a Congestion Management Solution for real-time density, pedestrian-flow information, and alerts. ([nec.com](https://www.nec.com/en/global/solutions/safety/aviation/airportoperation/index.html?nid=aviation_top_2507_2))
43. Services | TAV Technologies
    - TAV Technologies advertises passenger-flow monitoring, congestion identification, and prediction within airport services. ([tavtechnologies.aero](https://tavtechnologies.aero/services))
44. Video Analytics for Transport Operators | Isarsoft Perception
    - Isarsoft markets Perception for public-transport passenger counting, crowd management, and flow analysis. ([isarsoft.com](https://www.isarsoft.com/solutions/industry/public-transport))
45. Airport Passenger Analytics and Passenger Flow | Ariadne
    - Ariadne markets airport passenger analytics and passenger-flow applications. ([ariadne.inc](https://www.ariadne.inc/industries/airports/))
46. Stadium WiFi Marketing and Data Analytics Solution
    - Aislelabs advertises stadium visit, dwell, and movement analytics within a Wi-Fi-oriented proposition. ([aislelabs.com](https://www.aislelabs.com/industries/stadiums/))
47. NFL Draft - Meshh
    - Meshh reports event-zone movement, arrivals, and dwell analysis for the NFL Draft. ([meshh.com](https://www.meshh.com/case_studies/nfl-draft/))
48. コンプレノ | 株式会社 Agoop
    - Agoop markets Kompreno as browser-based people-flow visualization and analysis for Japanese locations and planning applications. ([agoop.co.jp](https://agoop.co.jp/service/kompreno/))
49. 人流解析システム SafeFlow｜株式会社アスペリア
    - 株式会社アスペリア describes SafeFlow people-flow and density analysis for event planning; separate external licensing is not established. ([asperia.jp](https://www.asperia.jp/product/safeflow/))
50. Queue Management Software | Frontlion
    - Frontlion offers remote waiting and visitor communications and identifies itself as a brand of Qtrac, Inc. ([frontlion.com](https://frontlion.com/platform/queue-management/))
51. Upgrade Your Shooting Range Scheduling System Post-COVID - Queue Management Systems by QLess
    - QLess markets virtual queues and appointments for physical facilities, including remote waiting and communications. ([qless.com](https://www.qless.com/upgrade-your-shooting-range-scheduling-system-post-covid/))
52. Wavetec's Toolkit for Black Friday Crowd Management
    - Wavetec's commercial article offers its Queue Management System for physical retail customer flow. ([wavetec.com](https://www.wavetec.com/blog/wavetec-toolkit-for-black-friday-crowd-management/))
53. Software de gestión de filas en tiempo real
    - ZeroQ combines branch operations, virtual tickets, notifications, and real-time analytics. ([zeroq.co](https://zeroq.co/suite-zeroq/))

54. Gestión de filas: Reduce tiempos de espera y optimiza turnos en sucursales | Numia
    · Numia markets physical-service queue organization, multichannel registration, prioritization, appointments, and branch dashboards. ([numia.co](https://numia.co/es/soluciones/gestion-de-filas))
55. Gestión de Filas - Soluciones - Sidesys IT Solutions
    · Sidesys' commercial e-Flow description covers physical service queues, mobile access, notifications, and reporting. ([sidesys.com](https://sidesys.com/gestion-de-filas-soluciones/))
56. Fila Fácil | Itchat Brasil
    · Itchat Brasil markets Fila Fácil for digital queues and reducing physical waiting concentrations. ([itchatbrasil.com](https://www.itchatbrasil.com/filafacil))
57. Filazero | Sistema de gestão de filas com previsão em tempo real
    · Filazero advertises queue management, waiting predictions, and channels allowing customers to wait away from the physical queue. (filazero.net)
58. Qanty | Software de Agendamento e Gestão de Filas
    · Qanty advertises cloud queue management with physical tickets, virtual waiting, notifications, and dashboards. ([proteccion.qanty.com](https://proteccion.qanty.com/pt/))
59. Queue Management System & Appointment Software | Skiplino
    · Skiplino markets queue-management and appointment software; the catalog does not settle a customer-specific operating commitment. (skiplino.com)
60. Qme Solutions
    · Qme Solutions advertises joining physical service queues before arrival and branch-flow management. (qme.solutions)
61. Lista de espera y bitácora digital para restaurantes, bares y antros | JOINLIST
    · JOINLIST markets waiting lists, restaurant and bar administration, and customer table-readiness messages. (joinlist.com.mx)
62. Get In - Soluções Get In: controle de reservas online, filas e marketing
    · Get In advertises restaurant reservations, remote queue entry, SMS progress, and operating reports. ([restaurante.getin.app](https://restaurante.getin.app/solucoes-get-in/))
63. Better Virtual Queuing: Improve the Passenger Experience
    · Copenhagen Optimization markets Better Virtual Queuing for booked airport arrival slots and touchpoint access.
    ([copenhagenoptimization.com](https://copenhagenoptimization.com/better-airport/better-virtual-queuing))
64. CLEAR Mobile - Predictable Airport Security | CLEAR
    · CLEAR Mobile is advertised as a passenger-facing airport-lane service without a required specific arrival time. ([clearme.com](https://www.clearme.com/clear-mobile))
65. CLEAR Mobile Terms | CLEAR
    · CLEAR Mobile's terms describe virtual-queuing services rather than establishing a standalone airport software entitlement. ([clearme.com](https://www.clearme.com/clear-mobile-terms))
66. Sports | Optimize Event Flow - Learn More - Intellitix
    · Intellitix advertises conditional event-zone access and entry-activity reporting. ([intellitix.com](https://www.intellitix.com/sports))
67. Ensure everyone is where they're supposed to be with Howler's RFID access control solution
    · Howler describes RFID zone permissions and live access-movement reporting, not unrestricted spatial observation. ([organisers.howler.events](https://organisers.howler.events/features/access_control))
68. Configuring Capacity Management, Holds & Pass Required Tickets | Gateway Ticketing Systems
    · Gateway's historical Galaxy material identifies capacity-management functions without establishing current live-flow scope.
    ([gatewayticketing.com](https://www.gatewayticketing.com/resources/tuesdaytalks-on-may-xx.xx-2020-configuring-your-timed-entry-event/))

69. Digital Event Ticketing in Morocco | E-Ticket Pro - Somayar
    - Somayar's E-Ticket Pro describes entrance activity and attendance-flow reporting for Moroccan events. ([somayar.ma](https://somayar.ma/en/digital-ticketing-festival-event-morocco/))
70. Software para negocios turísticos - Niveway
    - Niveway advertises attraction ticket validation and real-time capacity-control functions within tourism software. ([niveway.com](https://niveway.com/soluciones))
71. Dingo AI Solutions - Control de Acceso Inteligente · Costa Rica
    - Dingo AI Solutions advertises club access and capacity functions combined with supporting hardware and services. (dingosolutions.io)
72. Software de gestión para boliches y discotecas | Noctra Argentina
    - Noctra advertises nightclub entry administration and live occupancy views; demonstration material does not establish customer adoption. (noctraarg.com)
73. tPass: Sistema de venta de Tickets online - GInIEm
    - GInIEm identifies tPass as its online event-ticketing system; broader crowd functions are not established by this record. ([giniem.com](https://giniem.com/servicios/sistema-de-venta-de-tickets-online/))
74. EntryLog - Effortless Guest List Management
    - EntryLog advertises guest-list administration, live attendance, and arrival or entrance analytics. ([entrylog.eu](https://www.entrylog.eu/))
75. The Event Operating System | EEX
    - EEX advertises exhibition-hall access control and crowd-density monitoring within an event platform. (eexindo.com)
76. ADDtix Malaysia | Event Ticketing & Crowd Management
    - ADDtix's Malaysia-facing catalog advertises event capacity control and physical entry-queue management. ([addtix.my](https://www.addtix.my/))
77. Crowdmanagement Nijmegen LED displays events | Daylight
    - Daylight describes scenario software, displays, and an event control-room arrangement, with decision authority retained by policy makers. ([crowdmanagement.com](https://crowdmanagement.com/en/cities/nijmegen/))
78. AI 混雑可視化システム「イマコミ」
    - Imakomi advertises congestion and queue visualization, with Shobunsha Holdings identified as an inquiry contact rather than a settled licensor. ([next.mapple.co.jp](https://next.mapple.co.jp/imakomi))
79. Crowd Analytics & People Counting for Events | CrowdSense
    - CrowdSense advertises event crowd dashboards, alerts, and connected displays; its legal contracting supplier remains unresolved. (crowdsense.events)
80. ShowTwin | Crowdcom
    - Crowdcom describes ShowTwin as a live visual layer over its Event Dashboard with connected operational information. ([crowdcom.nl](https://crowdcom.nl/en-gb/solution/showtwin))
81. AGIL Digital Twin - 3D Intelligence for Situational Awareness and Operational Efficiency
    - ST Engineering's AGIL Digital Twin brochure includes crowd analytics and queue management within spatial operations. ([stengg.com](https://www.stengg.com/getmedia/xx.xx-xx.xx-46c9-a71d-eee316615de6/AGIL-Digital-Twin.pdf))
82. Wintics | AI Video Analytics Software
    - Wintics advertises live crowd movement, counting, waiting-time, and overcrowding applications. ([wintics.com](https://wintics.com/en/))
83. Product | XXII
    - XXII presents CORE with physical-space dashboards, events, alerts, and flow-management applications. ([xxiiai.com](https://xxiiai.com/fr/produit))
84. VTrack - TechnoAware
    - TechnoAware markets VTrack as modular analytics covering flow, area counts, occupancy, and hot zones. ([technoaware.org](https://technoaware.org/vtrack/))

85. Smart City | A.I. Tech srl
    - A.I. Tech names crowd-specific applications within its Smart City commercial catalog. ([aitech.vision](https://www.aitech.vision/products/ai-smart/smart-city/))
86. VizioCrowd | Viziosense
    - Viziosense markets VizioCrowd for pedestrian and crowd-density measurement. ([viziosense.com](https://www.viziosense.com/fr/viziocrowd))
87. IRIS+ R2 2024 | IRIS Irisity
    - Irisity's IRIS+ release describes crowd-density events and crowd-statistics functions. ([irisity.com](https://irisity.com/sv/r2/))
88. RTSoft OMGE от ГК РТСофт
    - RTSoft markets OMGE for people counting, movement analysis, and passage through physical zones. ([rtsoft.ru](https://www.rtsoft.ru/catalog/programmnoe-obespechenie/prikladnoe-po-i-prilozheniya/rtsoft-omge/))
89. Модуль распознавания очередей и скоплений людей | NeuroCore
    - NeuroCore advertises queue, crowd-accumulation, overloaded-area, and visitor-flow functions. ([neuro-core.ru](https://neuro-core.ru/modules/congestion))
90. Видеоаналитика для бизнеса Insentry
    - Insentry's catalog advertises crowd accumulation, counterflow, queue analysis, people counts, and heatmaps. ([insentry.io](https://insentry.io/ru/platform/video-analytics))
91. Интеллектуальная видеоаналитика TRASSIR
    - TRASSIR advertises Queue Detector and mapping-related heatmap functions within its analytics portfolio. ([solutions.trassir.ru](https://solutions.trassir.ru/videoanalitika))
92. GV-AI Guard - GeoVision
    - GeoVision lists crowd detection and operator alerts within GV-AI Guard video-management software. ([geovision.com.tw](https://www.geovision.com.tw/product/GV-AI%2520Guard))
93. Surveillance Solution - Sensen
    - SenSen advertises occupancy monitoring, queues, crowd analysis, and public-space crowd management. ([sensen.ai](https://sensen.ai/surveillance/))
94. Pioneering AI-based Video Analytics for Intelligent Cities
    - The historical Intel and iOmniscient brief identifies software-based smart-city crowd applications, not current contract continuity. ([iomni.ai](https://iomni.ai/wp-content/uploads/2022/xx.xx/Intel-and-iOmniscient-on-Smart-Cities.pdf))
95. Products | Trakomatic
    - Trakomatic identifies OCrowd and its Insights Portal within its visitor-analytics portfolio. ([trakomatic.com](https://www.trakomatic.com/products))
96. On-Premise AI for Retail: Footfall, Heatmaps, Loss Prevention
    - Nodeflux markets on-premises retail footfall, checkout-queue, and heatmap functions. ([nodeflux.ai](https://www.nodeflux.ai/solutions/retail/))
97. pure.AIS - purematic
    - purematic markets pure.AIS for attraction visitor flow, occupancy, live waiting information, and guest-facing integrations. ([purematic.com](https://www.purematic.com/en/solutions/crowd-control/))
98. Video security in the stadium thanks to Dallmeier
    - Dallmeier markets stadium software modules alongside Panomera systems for crowd-flow, congestion, and incident-related operations. ([dallmeier.com](https://www.dallmeier.com/solutions/stadium))
99. How does it work - Crowdscan
    - CrowdScan advertises density counting, analytics, prediction, and integrated services through a non-camera observation route. ([crowdscan.be](https://www.crowdscan.be/how-does-it-work/))
100. Business Intelligence, Insights and Video Analytics | March Networks
    - March Networks advertises Searchlight Cloud business intelligence and occupancy-related operating alerts. ([marchnetworks.com](https://www.marchnetworks.com/solutions/business-intelligence/))

101. GSOC/NOC - Solutions - Actuate
    - Actuate markets crowd-behavior video alerts for security operations centers, a different commitment from operational response coordination. ([actuate.ai](https://actuate.ai/gsoc-noc/))
102. Retail - Cathexis
    - Cathexis advertises CathexisVision retail video analytics addressing crowd management and connected operating systems. ([cathexisvideo.com](https://cathexisvideo.com/market-solutions/retail/))

18.5. Benchmarking Analysis, 2025

A defensible benchmark begins with the population observed and the decision supported. ■■■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■ ■■ ■■■ ■■■■■■■■■ ■■■ ■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■ ■■■■■■■ ■■■■■■■■■■■■ ■■ ■■■ ■■■■■■■ ■■■■■■■■■ ■■■■■■■ ■■■■■■■ ■■■■■■■ ■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■■■■■ ■■■■■■■ ■■■ ■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■ A narrower observation route can be appropriate where participation or controlled entry matches the task; it is unsuitable when the buyer requires independently established coverage of unrestricted areas.

For counting-led purchases, the relevant peer comparison is the full software-and-delivery commitment. ■■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■ ■■■■■■ ■■■■■■■■■■■■ ■■■■ ■■■ ■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■ ■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■ ■■■■ ■■■■■■ ■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■■■■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■■■■■■■ ■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■■■ ■■■■■■■■ ■■■■ ■■ ■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■ ■■■■■■ ■■■ ■■■■■■■■■■■■■■ Buyers should compare software access, counting dependencies, publication, and support separately; the historical CountWise brochure requires refreshed supply confirmation before it can support a present replacement decision.

Airport benchmarking should distinguish a broader operating platform from a managed measurement commitment. Veovo's CVG application has buyer-origin support, and Groupe ADP independently describes work with Outsight. ■■■■■■ ■■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■ ■■■■■■■ ■■■ ■■■■■■■■ ■■■ ■■■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■■■ ■■■■ ■■ ■■■■■■■■■■■ ■■■■ ■■ ■■■■■■■ ■■■■■■ ■■■ ■■ ■■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■■■■■■■■■■■ ■■■■■■■■■■■ ■■■ ■■■■■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■ ■■■■ ■■■ ■■ ■■■■■■ ■■■■■■■■■ ■■ ■■■■■■■■■■■■ ■■■■■■■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■ ■■■■■■ ■■■■■ ■■■■■■■■■■ ■■ ■■■ ■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■ ■■■■■■■■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■■■■■■■■ ■■■■■■ ■■■■■■■■■■■■ ■ ■■■■■■■■■ ■■ ■■■■■■■ ■■■■■■■■

Coordination and integration benchmarks require a different acceptance boundary. ■■■■ ■■■■■■■■■■ ■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■■■■ ■■■■■■ ■■■ ■■■■■■■ ■■■■■■■■ ■■■■ ■■■■■ ■■■■■■■■■■■ ■■■■■■■■ ■■■■■■ ■■■■■■■■ ■■■■■■■■■ ■ ■■■■■■ ■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■ ■ ■■■■■■■ ■■■ ■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■ ■■ ■■■■■■■■■■■■■

[illegible] Operators should compare the people entitled to participate, the systems included, and the obligations attached to event-critical support-not treat an integrated screen as a complete monitoring-and-response service.

[illegible] Evenesis and LCP Buildsoft Technology (M) Sdn Bhd describe event-software propositions without sufficiently distinguishing the contracted physical-flow, density, or capacity function from attendance administration. These suppliers remain relevant identities, but buyers should not accept roadmap or umbrella-platform descriptions as delivered functional equivalence.

Historical ownership and project records support narrower conclusions than current supply commitments. [illegible] A present offer identifying the deliverable, licensor, and support obligation would resolve the commercial distinction without requiring a technical reconstruction.

[illegible] For Macroscop and Two-i, present crowd-module scope and delivery terms remain unresolved. These uncertainties prevent a reliable substitution judgment, not a conclusion of inactivity or low significance.

Further regional alternatives need equally specific commercial confirmation. [illegible]

[redacted] The practical trigger is a named, supportable commercial commitment, not promotional visibility.

C&A Systems' current business description establishes a broad technology-services role but does not settle the crowd-specific application under comparison. [redacted] Such a route can be useful when it supplies otherwise unavailable local accountability; it is unsuitable when the application rights and continuity obligations remain fragmented.

The same discipline applies to broader telecommunications and platform portfolios. [redacted] A technically broad platform should not receive an automatic preference over a specialist, and a specialist should not receive an automatic preference where the buyer needs a managed service, institutional integration, or a jurisdiction-specific delivery commitment.

Sources & Evidence

1. Location Analytics and Footfall Counting | Heatmaps, Dwell Time, and Flow Analysis
   · The customer's app is the described observation channel; complete visitor coverage is not established. ([crowdconnected.com](https://www.crowdconnected.com/solutions/location-analytics/))
2. Innovation
   · CVG identifies its use of Veovo's curb-to-flight flow-management system; this does not establish every platform module. ([cvgairport.com](https://www.cvgairport.com/business/innovation/))
3. Smart Access Control | Connect&GO
   · Connect&GO's access catalog distinguishes permissions and admission reporting from independent coverage of unrestricted activity. ([connectngo.com](https://www.connectngo.com/features/access-control))
4. Nommon | Population Insights
   · Nommon describes sample-based population indicators rather than a complete live venue census. ([nommon.es](https://www.nommon.es/products/population-insights/))
5. Réserver des espaces - BU
   · Lyon xx.xx requires attendance confirmation after Affluences reservations, distinguishing a booking from confirmed presence. ([bu.univ-lyon3.fr](https://bu.univ-lyon3.fr/reserver-des-espaces-xx.xx))
6. Platform: Infrastructure Intelligence | Outsight
   · Outsight's platform has sensing and connected-information dependencies relevant to observation comparability. ([outsight.ai](https://www.outsight.ai/platform/))

7. At the heart of innovation in our airports - Groupe ADP
   · Groupe ADP independently describes deployment with Outsight for passenger and baggage-flow monitoring. ([essentiel.groupe-adp.com](https://essentiel.groupe-adp.com/en/at-the-heart-of-innovation-in-our-airports/))
8. Terms of Service - Halo Solutions
   · Halo's terms distinguish authorized-user entitlement, support intake, response, and issue resolution. ([halosolutions.com](https://www.halosolutions.com/terms-of-service-xx.xx/))
9. Airport software | Xovis
   · AERO's advertised managed-delivery elements provide a distinct comparison with broader airport platforms. ([xovis.com](https://www.xovis.com/technology/airport-software))
10. ShowTwin | Crowdcom
    · ShowTwin supplies a shared visual operating picture; this is distinct from entitlement to every connected analytics component. ([crowdcom.nl](https://crowdcom.nl/en-gb/solution/showtwin))
11. People Counting Software & Analytics | SenSource
    · SenSource's Vea catalog separates occupancy reporting, connected sensors, API access, and subscription support. ([sensourceinc.com](https://sensourceinc.com/vea-software/))
12. T.M.A.S. People Counting Software & Analytics | SMS Storetraffic
    · SMS Storetraffic markets T.M.A.S. people-counting software and analytics. ([storetraffic.com](https://storetraffic.com/tmas-people-counting-software/))
13. People Counting Systems & Solutions | V-Count
    · V-Count connects BoostBI crowd and queue alerts and VCare occupancy with its sensor-and-software offering. ([v-count.com](https://v-count.com/people-counting/))
14. VemSpace Occupancy Management Brochure
    · Vemco's VemSpace brochure describes occupancy-management software and its supporting system relationship. ([vemcogroup.com](https://vemcogroup.com/hubfs/ENG_VemSpace%20_Occupancy%20Management_Brochure.pdf))
15. Industry Leading People Counting Software | Traf-Sys
    · Traf-Sys offers VisiCount people-counting reporting and optional data hosting. ([trafsys.com](https://www.trafsys.com/technology/software/))
16. 6 ways occupancy sensors boost space and cut waste | Density
    · Density describes occupancy-information applications for common spaces and airport lounges; the article is not a dedicated crowd-license commitment. ([density.io](https://density.io/resources/xx.xx-ways-occupancy-sensors-change-the-game))
17. Sistema automático de control de aforo en tiempo real | Dinycon
    · Dinycon advertises integrated real-time capacity-control systems for physical spaces. ([dinycon.com](https://www.dinycon.com/es/soluciones/control-de-aforo))
18. People Counting System | People Counter | FootfallCam - Morocco
    · FootfallCam reports Moroccan venue and analytics applications; these remain supplier-origin references rather than independent buyer confirmation. ([footfallcam.com](https://www.footfallcam.com/Home/WhereToBuy/Morocco))
19. People Counters for Concerts and Events by TallyFi
    · TallyFi combines synchronized event counts, supporting devices, an online dashboard, and subscription services. ([tallyfi.com](https://www.tallyfi.com/about/concerts_events))
20. Occupancy Product Brief | RetailNext
    · RetailNext describes occupancy visibility, thresholds, alerts, reporting, and queue or signage integrations. ([retailnext.net](https://retailnext.net/resources/product-briefs/brief-occupancy))

21. CountWise People Counting Solutions: General Overview
    · The historical CountWise brochure identifies counting applications and software; it does not establish continuing paid supply. ([herbert.co.uk](https://herbert.co.uk/wp-content/uploads/2014/xx.xx/CountWise-People-Counting-Solutions-Overview.pdf))
22. Embross Signs Contract with Multiple Greenland Airports
    · Embross' Greenland announcement concerns passenger-processing technology and transaction-point information, not established airport-wide crowd observation. ([embross.com](https://www.embross.com/news/embross-signs-contract-with-multiple-greenland-airports/))
23. Smart Airport - G Element
    · G Element describes NUCLEUS situational management with queue and crowd-related information; current product and licensing continuity remain unresolved. ([cn.gelement.com](https://cn.gelement.com/zh/markets/smart-airport/))
24. Shopping Mall CCTV: Face Recognition & Live Alerts | Sorveo
    · Sorveo distinguishes current presence detection from people-counting, occupancy, and queue analytics on its roadmap. ([sorveo.com](https://www.sorveo.com/industries/malls.html))
25. Servicios | Bingo LR
    · Bingo LR labels Access Control LR forthcoming, rather than establishing commercial release. ([bingolr.com](https://bingolr.com/servicios.php))
26. Swiss Core | AI Offsite Monitoring Software SA | Swiss Systems
    · Swiss Systems presents Swiss Core, but the page does not settle continuity of the previously identified crowd-specific package. ([swisssystems.co.za](https://www.swisssystems.co.za/platforms/core))
27. Baseer | Master Works
    · Master Works markets Baseer, but the inspected catalog does not establish the crowd-specific module needed for comparison. ([master-works.sa](https://master-works.sa/en/baseer))
28. Система VOCORD Tahion
    · VOCORD's Tahion catalog establishes surveillance software, not settled present licensing of a specific crowd application. ([vocord.ru](https://www.vocord.ru/products/vocord-tahion/))
29. Online Event Management Software Malaysia 2026 - Evenesis
    · Evenesis describes an event-software ecosystem, but the inspected material does not isolate the contracted physical crowd function. ([evenesis.com](https://www.evenesis.com/))
30. e-ticketing2u - Your Event Registration & Ticketing Solution
    · e-ticketing2u identifies LCP Buildsoft Technology (M) Sdn Bhd and crowd-management support without settling detailed physical-flow or capacity scope. (eticketing2u.com.my)
31. Artificial intelligence for traffic planning and safer surroundings | AFRY
    · AFRY's historical Flowity announcement identifies people-movement and large-event applications, not continuing external availability. ([afry.com](https://afry.com/en/newsroom/news/artificial-intelligence-traffic-planning-and-safer-surroundings))
32. DEEP SOLUTIONS SOFTWARE, SL at Catalonia Industry Suppliers Directory
    · The historical Catalonia government directory identifies DEEP SOLUTIONS SOFTWARE, SL and crowd monitoring, not a current named supply commitment. ([suppliers.catalonia.com](https://suppliers.catalonia.com/detail/deep-solutions-software-sl/xx.xx))
33. Argentine government publication - computer-program registration entries
    · The Argentine government publication records Urbix Technologies' historical SmartCrowd program ownership, not present external availability. ([argentina.gob.ar](https://www.argentina.gob.ar/sites/default/files/9_decreto_1329_2009.pdf))
34. Sumato Smart Mall | Sumato-Id
    · Sumato ID's historical Smart Mall description includes occupancy, dashboards, and alerts; continuing paid supply remains unestablished. ([sumatoid.com](https://www.sumatoid.com/sumato-smart-mall/))

35. SHIELD4CROWD - Catalogue of solutions for public space protection and crowd management
    · The public-space solutions catalog identifies ITTI's PROCeed crisis-training software and prospective crowd-related use, not established live operational control.
    ([beagle-labs.eu](https://www.beagle-labs.eu/wp-content/uploads/SHIELD4CROWD-Catalogue-of-solutions-for-public-space-protection-and-crowd-management.pdf))
36. Servicios Integrales de TI | Transformación Digital | C&A Systems
    · C&A Systems describes broad technology development and managed services without establishing the crowd-specific application under comparison.
    ([casystem.com.mx](https://casystem.com.mx/es-mx/quienes-somos))
37. AT&T Video Intelligence | Intelligent Video Surveillance Solutions
    · AT&T maintains a Video Intelligence offering; this record does not establish the specific crowd function or commercial responsibility allocation.
    ([business.att.com](https://www.business.att.com/products/att-iot-video-intelligence.html))
38. Dynamic Crowd Measurement - Solutions
    · Dynamic Crowd Measurement advertises density, movement, and occupancy solutions; its catalog alone does not establish repeatable contracted delivery.
    ([dynamiccrowdmeasurement.com](https://www.dynamiccrowdmeasurement.com/solutions))

19. Company Profiles

19.1. Bentley Systems

Bentley Systems supplies LEGION Model Builder and LEGION Simulator for evaluating pedestrian movement and comparing design or operating alternatives before implementation. Its October xx.xx 2026 product article includes construction phasing and temporary layouts, making the offering relevant when infrastructure sponsors are considering changes to entrances, circulation space, or passenger routes. ▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪ ▪▪ ▪▪▪▪▪▪▪ ▪▪ ▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪

Bentley's published purchasing route includes a xx.xx-month Virtuoso subscription with credits redeemable for training or expert services, while enterprise licensing is separately offered. ▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪ ▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ The commercial trade-off is control over repeated planning changes versus the internal resources needed to maintain the analysis.

Sources & Evidence

1. LEGION | Bentley Systems
   - Bentley offers LEGION Model Builder and LEGION Simulator through a direct purchasing route, including a xx.xx-month Virtuoso subscription with credits for training or expert services and separately discussed enterprise options. The credits are not additional software licenses. ([bentley.com](https://www.bentley.com/products/legion/))
   - Company verification: Bentley markets LEGION as pedestrian modeling, simulation, and analysis software.
   - Company verification: The offering addresses crowd management, populated-space planning, safety, and operational scenarios.
2. Improving flow, comfort, and safety: LEGION crowd and pedestrian simulation software explained
   - Bentley's October xx.xx 2026 article describes LEGION for assessing design and operating alternatives before implementation, including construction phasing and temporary layouts. These are planning applications, not evidence of an ongoing monitoring service. ([bentley.com](https://www.bentley.com/en/blog/legion-pedestrian-simulation-software-people-movement/))
   - Company verification: Bentley's October xx.xx 2026 product article confirms continuing commercial activity for LEGION pedestrian and crowd-simulation software.
   - Company verification: The article identifies populated-space capacity, circulation, crowding, and operational planning as LEGION applications.

19.2. WaitTime

WaitTime markets crowd movement, density, occupancy, and queue analytics through an operations dashboard, alerts, and an open API. ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪

RESEARCH SAMPLE REPORT

[redacted] Its proposition therefore combines monitored-area information with separately assigned communication responsibilities; an available data feed is not itself a completed guest-guidance service.

Cisco's December xx.xx 2022 announcement documents WaitTime at the Etihad Stadium using existing Cisco infrastructure and Meraki cameras. It distinguishes installed concourse monitoring from prospective digital-signage integration and wider expansion. [redacted]

Sources & Evidence

1. Manchester City Collaborates with Cisco to Deploy Crowd Intelligence Solution, WaitTime
   - Cisco's December xx.xx 2022 announcement reports WaitTime installed on the Etihad Stadium concourse using existing Cisco infrastructure and Meraki cameras. Digital-signage integration and expansion were prospective; the dated record does not establish continuing service or present contracting identity. ([newsroom.cisco.com](https://newsroom.cisco.com/c/r/newsroom/en/us/a/y2022/m12/manchester-city-collaborates-with-cisco-to-deploy-crowd-intelligence-solution-waittime.html))
   - Company verification: The dated deployment announcement identifies WaitTime as the crowd-intelligence technology used at Etihad Stadium.
   - Company verification: The reported application concerns crowd density, movement, and concourse congestion.
2. WaitTime Products and Services
   - WaitTime advertises live crowd and queue information, an operations dashboard, alerts, an open API, and display or mobile integrations. Its commercial process begins with demonstration and venue-specific scoping. The page does not identify a legal contracting entity. ([thewaittimes.com](https://www.thewaittimes.com/products-and-services))
   - Company verification: WaitTime markets software providing live crowd movement, density, occupancy, and queue information.
   - Company verification: Its offering includes an operations dashboard and guest-facing information integrations.

19.3. Milestone Systems

Milestone Systems offers crowd analytics through BriefCam alongside its video-management portfolio. [redacted] This gives security and operations buyers an option to extend an existing video relationship, but common portfolio ownership does not establish a combined software entitlement.

BriefCam's commercial scope varies materially by product. Investigator and Rapid Review emphasize review, while Protect and Insights include Respond and Research capabilities. [redacted]

[redacted]

Sources & Evidence

1. BriefCam video analytics software | Milestone Systems

   · Milestone markets BriefCam for occupancy and crowd-level monitoring, alerts, historical dashboards, and integration with XProtect and other video-management platforms. Its variant comparison distinguishes review-oriented products from products including response and research modules. ([milestonesys.com](https://www.milestonesys.com/products/briefcam?utm_source=openai))

2. New beginnings for Milestone

   · Milestone's March xx.xx 2025 article reports its acquisition of BriefCam and Arcules during 2024 and describes the resulting video-management, analytics, and surveillance-as-a-service portfolio. This establishes corporate portfolio context, not a combined customer entitlement. ([milestonesys.com](https://www.milestonesys.com/articles/new-beginnings-for-milestone/))

   · Company verification: Milestone Systems' March xx.xx 2025 article reports acquisition of BriefCam and Arcules during 2024.

   · Company verification: Milestone describes the combined offering as including video management software, video analytics, and surveillance as a service.

3. BriefCam Frequently Asked Questions

   · The BriefCam FAQ identifies variant-specific licensing and expandable user, research-user, camera-channel, and real-time response-channel entitlements. It also distinguishes supported video-management integrations, supporting order-specific verification rather than universal compatibility assumptions. ([milestonesys.com](https://www.milestonesys.com/link/534f0cb3e589469d98d6d2474266d99b.aspx?epslanguage=en))

4. BriefCam video analytics software | Milestone Systems

   · Company verification: Milestone's current BriefCam catalog establishes a marketed software portfolio with real-time occupancy and crowd-level monitoring.

   · Company verification: BriefCam is presented within Milestone's product portfolio and integrates with video-management platforms, including XProtect.

   · Company verification: This supplies the substantive current crowd-product support missing from the captured release-index evidence.

5. Releases - Milestone Systems

   · Company verification: Milestone's inspected release index includes BriefCam software releases, including BriefCam 2025 R1.

   · Company verification: The release index is portfolio-continuity evidence, not a substitute for a crowd-specific product catalog.

19.4. Veovo

[redacted] The relevant distinction is the connection between passenger-flow information and airport operating decisions, rather than sensing alone. CVG

Airport independently identifies its use of Veovo's curb-to-flight flow-management system for decision-making, supporting a named buyer application without establishing use of every platform module.

Airport buyers should separate the required flow functions from the broader operating-platform proposal and assign responsibility for connected information and resulting decisions. A platform purchase is more defensible where the airport can coordinate the relevant system owners and operational responses. ▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪ ▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪

Sources & Evidence

1. Airport Operations Software | Intelligent Airport Platform | Veovo
   - Veovo's airport platform includes Flow Management, Queue Management, forecasting, and resource functions. It advertises on-premises and cloud deployment, including SaaS and managed-service options, and connects passenger-flow information with operating decisions. ([veovo.com](https://veovo.com/airports))
   - Company verification: Veovo's airport software platform includes Flow Management and Queue Management.
   - Company verification: The platform connects people-flow information, predictions, and operational decisions and offers cloud and on-premises deployment options.
2. About Us - Veovo
   - Veovo identifies itself as a subsidiary of Gentrack Group Limited. This supports the profile's ownership attribution without implying a parent guarantee of customer-specific obligations. ([veovo.com](https://veovo.com/about-us))
   - Company verification: Veovo's company page identifies it as a subsidiary of publicly traded Gentrack Group Limited.
   - Company verification: The page describes Veovo as an operating airport-product and technology business with international offices.
   - Company verification: This resolves the captured parent-company attribution gap without introducing a separate Gentrack row.
3. Innovation
   - CVG Airport identifies its use of Veovo's curb-to-flight flow-management system to improve decision-making. This is buyer-origin support for a named application, not evidence that CVG purchased every Veovo platform module. ([cvgairport.com](https://www.cvgairport.com/business/innovation/))
4. CVG Airport adopts Veovo's Curb-to-Flight passenger flow management for data-driven passenger enhancements
   - Company verification: CVG Airport announced adoption of Veovo's airport-wide passenger-flow technology on May xx.xx 2021.
   - Company verification: The airport describes using live and historical passenger occupancy and movement information for operational decisions and crowding reduction.

19.5. Crowd Connected

Crowd Connected's location-analytics offering uses the customer's mobile application to provide heatmaps, dwell and flow analysis, a web dashboard, APIs, and exports. This route can

support analysis of participating visitors' journeys and engagement across venue areas. ■■■ ■■■■■■■■■■ ■■■■■■■ ■■■■■■■ ■■ ■■■ ■■■■■■■■■■■■■■ ■■■■■■■■ ■■■ ■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■ ■■■■■ ■■■■■■■■ ■■■■■■ ■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■■

The April 2026 standard terms identify Crowd Connected Ltd, registered in England, and provide plan-dependent licensed access to its services. ■■■ ■■■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■■■■■■■ ■■■■■■■■■■ Venues should establish which commitments apply to their operating organization and app developer rather than treat access to one interface as authority for every use.

Use restrictions can also affect commercial access. The standard terms permit immediate termination for specified surveillance or critical-national-infrastructure uses without prior written consent. ■ ■■■■■ ■■■■■■■■■■■ ■■■■■ ■■■■■■■■ ■■■■■■ ■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■ ■■■■■■ ■■■■■■■ ■■ ■■ ■■■■■■■■ ■■■■■■■■■■■■■ ■■■ ■■■■■■■■■■■ ■■■■■■ ■■ ■■■■ ■■■■■■■■ ■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■

Sources & Evidence

1. Location Analytics and Footfall Counting | Heatmaps, Dwell Time, and Flow Analysis
   - Crowd Connected describes app-derived location analytics with heatmaps, dwell and flow analysis, a dashboard, APIs, and exports. Its described channel depends on visitors having the customer's app; complete visitor coverage is not established by this offering description. ([crowdconnected.com](https://www.crowdconnected.com/solutions/location-analytics/))
2. Customer Terms & Conditions
   - Crowd Connected's customer-terms framework distinguishes typical licensees, web-console users, SDK integrators, enterprise customers, and resellers, with different applicable documents and service-level provisions. ([crowdconnected.com](https://www.crowdconnected.com/customer-terms))
3. Crowd Connected Standard Terms and Conditions, Version 4.0, April 2026
   - The April 2026 standard terms identify Crowd Connected Ltd, registered in England, and grant plan-dependent licensed access. They permit immediate termination for specified surveillance or critical-national-infrastructure uses without prior written consent; a master services agreement may vary the standard terms. ([crowdconnected.com](https://www.crowdconnected.com/legal/standard-terms-and-conditions.pdf))
4. Crowd Connected Platform
   - Company verification: Crowd Connected offers an indoor and outdoor location platform with analytics and integrations.
   - Company verification: The platform includes near-real-time situational heatmaps, device counts, dwell-time reporting, and data outputs.

19.6. accesso

accesso markets LoQueue for virtual queuing at physical attractions, including the Qsmart mobile solution, reservation-fed operational dashboards, and interfaces to ticketing and other systems. Its catalog separately describes Qview for measuring physical queues. ■■■■■■ ■■■■■■ ■■■■■■■■■■■ ■■■■■■■■ ■ ■■■■■■■■■■■ ■■■■ ■■■■■■■■■ ■ ■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■■■

[illegible] Starting with a defined attraction can contain the implementation scope; an enterprise arrangement offers common coordination only if operating processes and responsibilities are agreed. Neither an API description nor an existing accesso relationship establishes that all required modules and support obligations are included.

Sources & Evidence

1. accesso LoQueue Virtual Queuing System | accesso
   - accesso markets LoQueue and Qsmart for virtual queuing, reservation-fed dashboards, and interfaces with ticketing and other systems. Its catalog separately describes Qview physical-queue measurement and implementation services. It allows consideration of a defined attraction or broader deployment. ([accesso.com](https://accesso.com/capabilities/products/loqueue/))
   - Company verification: accesso markets LoQueue for virtual queuing at physical attractions, with live operational dashboards and queue-measurement functions.
2. Client Support | accesso
   - accesso publishes a LoQueue-specific support route separately from other product support routes. This supports distinguishing product escalation arrangements, but does not establish a customer's contracted response or restoration commitments. ([accesso.com](https://accesso.com/contact-us/client-support/))
3. accesso Partners with Parques Reunidos to Serve as Enterprise Provider of Queue Management Services
   - The August 2022 announcement reports a signed five-year enterprise queue-management agreement with Parques Reunidos and planned LoQueue extensions in North America and Europe. It establishes the dated relationship, not continuing implementation at every venue. ([accesso.com](https://accesso.com/news/accesso-partners-with-parques-reunidos-to-serve-as-enterprise-provider-of-queue-management-services/))
4. Investor Information | accesso
   - Company verification: The investor page, updated October xx.xx 2026, identifies accesso Technology Group plc and its English company registration.
   - Company verification: accesso states that it generates revenue from virtual-queuing solutions as well as its other attraction technologies.
   - Company verification: The page identifies active international subsidiaries, supporting group-level reporting of the LoQueue portfolio.

19.7. accu:rate GmbH

[illegible] For planners, its distinct commercial proposition is the ability to match the software entitlement to a project's requirements rather than assume that every project needs an

identical package. That flexibility does not independently establish lower total cost or superior planning outcomes.

A December xx.xx 2023 Vectorworks article documents the crowd:it plugin and its connection to a separately identified simulation application. The article was contributed by an accu:rate executive, so it establishes the described integration relationship rather than independent performance validation. ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪ ▪▪▪ ▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪ ▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪

Sources & Evidence

1. Software - accu:rate
   - accu:rate markets crowd:it simulation software with configurable license scope, functional coverage, and user access, and identifies Vectorworks and Revit import connections. These are advertised commercial capabilities, not independent evidence of superior outcomes. ([accu-rate.de](https://www.accu-rate.de/en/software/))
2. Impressum - accu:rate
   - The official imprint identifies accu:rate GmbH and its Munich registration and business location, connecting the exact company identity to the offering. ([accu-rate.de](https://www.accu-rate.de/en/impressum/))
   - Company verification: accu:rate's imprint identifies accu:rate GmbH, its Munich address, and its commercial-register details.
   - Company verification: This resolves the legal identity behind the captured crowd:it license-purchasing and integration evidence.
3. Crowd Simulation with crowd:it & Vectorworks
   - The December xx.xx 2023 Vectorworks article documents the crowd:it plugin and a separately identified simulation application. It is an accu:rate executive's guest contribution, not independent outcome validation, and its promotional access offer ended May xx.xx 2024. ([vectorworks.net](https://www.vectorworks.net/en-US/newsroom/explore-the-crowdit-plugin-in-vectorworks))
   - Company verification: A December xx.xx 2023 Vectorworks article documents accu:rate's crowd:it plugin and commercial access offer for Vectorworks customers.
4. SHIELD4CROWD - Catalogue of solutions for public space protection and crowd management
   - Company verification: Identifies Munich-based accu:rate and its crowd:it pedestrian-flow software.
5. crowd:it download - accu:rate
   - Company verification: accu:rate's crowd:it page offers a starter license and states that users can purchase an appropriate license.
   - Company verification: The page identifies accu:rate GmbH and a Munich address.

19.8. Connect&GO

Connect&GO markets an attraction-management platform combining ticketing, access control, capacity, staffing, and real-time information. Its Smart Access Control offering describes zone and ticket-type rules, reentry permissions, access-point reporting, and integration with Alvarado gates. ▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪ ▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪

[illegible] An integrated purchase can consolidate admission-related workflows, but a buyer needing only additional crowd insight may find a wider platform replacement disproportionate. The advertised transition assistance is not evidence of disruption-free migration.

Peek reported its acquisition of Connect&GO on November xx.xx 2025. This changes the ownership context without establishing that Peek's other products are included or that individual customer contracts have migrated. [illegible]

Sources & Evidence

1. Attraction & Theme Parks | Connect&GO
   · Connect&GO advertises modular attraction management combining ticketing, access control, capacity, staffing, and real-time information, with on-site implementation, training, support, and an on-call protocol. The promotional transition description is not customer-specific evidence of disruption-free migration. ([connectngo.com](https://www.connectngo.com/solutions/attraction-park))
   · Company verification: Connect&GO's attraction-management platform advertises unified ticketing, access control, capacity, staffing, and real-time operational insights.
2. Smart Access Control | Connect&GO
   · Smart Access Control describes zone and ticket-type permissions, reentry rules, access-point reporting, and Alvarado gate integration. Its dashboard distinguishes scans, unique tickets, and admissions, supporting caution against equating scan activity with complete population or density coverage. ([connectngo.com](https://www.connectngo.com/features/access-control))
3. Peek Acquires ACME Ticketing and Connect&GO
   · Peek's November xx.xx 2025 announcement reports its acquisition of Connect&GO and describes an intention to combine capabilities. It does not establish migrated customer contracts, a particular contracting entity for a proposed purchase, or completed product integration. ([peekpro.com](https://www.peekpro.com/blog/peek-acquires-acme-connect-go-raises-70m))
4. Connect&GO Provides Contactless Solutions for Leisure and Entertainment Properties
   · Company verification: Connect&GO identifies itself as Montreal-based and describes virtual queuing, crowd-capacity dashboards, and zone-level capacity monitoring.

19.9. Nommon Solutions and Technologies, S.L.

Nommon Solutions and Technologies, S.L. markets Population Insights for area-level population presence and visitor analysis. [illegible] This is interpreted spatial intelligence rather than merely a raw data feed; sample-based observations should not be equated with a complete live census of everyone inside a venue.

[redacted] Recurring integration and a bounded project deliverable create different obligations. Nommon also invites platform demonstrations, but neither a demonstration nor advertised continuously updated information establishes a contractual live-monitoring commitment.

Sources & Evidence

1. Nommon | Population Insights
   - Population Insights advertises mobile-location-based population maps and visitor indicators, sample-based information, API or bespoke-project delivery, restricted-use through open-data licenses, and visualization on request. These declarations support the profile's distinction between analytical access and a complete live venue census. ([nommon.es](https://www.nommon.es/products/population-insights/))
   - Company verification: Population Insights provides dynamic population maps, visitor-footfall and presence indicators through a licensed API platform or bespoke projects.
   - Company verification: The product page identifies Nommon Solutions and Technologies, S.L. and its Madrid business contact.
2. Privacy policy - Nommon
   - Nommon's privacy notice identifies Nommon Solutions and Technologies SL as the responsible Madrid-based company, grounding the entity attribution without establishing ownership. ([nommon.es](https://www.nommon.es/privacy-policy/))
   - Company verification: Nommon's privacy record identifies Nommon Solutions and Technologies SL as the responsible company based in Madrid, Spain.
3. Nommon | Tourism
   - Nommon describes Population Insights as addressing tourists' public-space use and time spent in different city or regional areas, supporting the planning-buyer context rather than a guaranteed venue census. ([nommon.es](https://www.nommon.es/industries/tourism/))
4. Nommon | Request a demo
   - The Nommon Platform demonstration request includes Population Insights. It establishes an evaluation contact route, not customer-specific availability or a live-monitoring service commitment. ([nommon.es](https://www.nommon.es/platform/))

19.10. Affluences

Affluences connects institutional space management with visitor-facing information and reservations. Its commercial offering separates licensed access to a SaaS flow-management platform from counting hardware available for purchase or rental. [redacted] Université Jean Moulin Lyon xx.xx provides buyer-origin corroboration of the reservation role: its library instructions direct users to Affluences through the website or application and require attendance confirmation through a QR code or library reception. That workflow illustrates why a reservation is not equivalent to confirmed presence. [redacted]

■■■■■■■■ ■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■ ■■■■■■■ ■■■ ■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■ ■■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■■■■ ■ ■■■■■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■ ■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■ ■ ■■■■■■■■■■■ ■■ ■■■■■■■ ■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■ ■■ ■■■■■■ ■■■■ ■■■■ ■■■■ ■■■■■■■■■■ ■■■ ■■■■■ ■■■■■■■■■■■■■■■■ ■■■ ■■■■■■■■

Sources & Evidence

1. Affluences : découvrez nos différentes offres
   · Affluences separates licensed SaaS platform access from integrated counting hardware offered for rental or purchase; software license selection depends on needs and the number of spaces. ([pro.affluences.com](https://www.pro.affluences.com/offres))
   · Company verification: Affluences offers licensed access to its SaaS crowd-flow management software, alongside integrated counting hardware.
2. Solution de comptage et réservation pour bibliothèque Affluences
   · Affluences advertises library occupancy reporting, crowd-information publication through its website, application and institutional channels, and reservations for seats, rooms and activities. These are advertised functions, not proof that every license includes every module. ([pro.affluences.com](https://www.pro.affluences.com/bibliotheques-mediatheques))
3. Réserver des espaces - BU
   · Lyon xx.xx's library instructions direct users to Affluences reservations through the application or website and require attendance confirmation through a QR code or reception. This corroborates the institutional workflow, not complete measurement of physical occupancy. ([bu.univ-lyon3.fr](https://bu.univ-lyon3.fr/reserver-des-espaces-xx.xx))
4. Mentions légales - Affluences
   · Company verification: The legal notice identifies AFFLUENCES SAS, registered in Paris, and describes its crowd measurement, analysis, waiting-time, and occupancy business.

19.11. Outsight

Outsight provides a LiDAR-linked spatial-intelligence route to crowd monitoring. Its platform advertises occupancy, queue and dwell information through dashboards, alerts and documented interfaces, alongside project support involving multiple sensor vendors. ■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■ ■■■■■■■■■ ■■■■■■■ ■■■■ ■■■■■■■■ ■■■■■■ ■■■■■■ ■■■■■■ ■■■■ ■■ ■■■■■■ ■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■ ■■■ ■■■■■■■ ■■■■■■■■■■■

Groupe ADP's own airport-innovation account describes deployment with Outsight at Paris airports, allowing mobile ground staff to monitor passenger and baggage flows. This corroborates an operator relationship beyond the supplier-hosted Charles de Gaulle testimonial, but does not establish coverage or service commitments for another airport. ■■■ ■■■■■■■■■■■ ■■■■ ■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■ ■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■ ■■■■ ■■■■■■■■■■■■■■ ■■■ ■■■■■■ ■■ ■■■

■■■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■■■ ■■■ ■■■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■ ■■■ ■■ ■■■■■■■■ ■■■■■■■■■■■■■ ■■ ■■■■■ ■■■■■■■■■ ■■■■■■■■ Airport buyers should specify sensor delivery, software maintenance, interface ownership and the handling of added information before expanding the deployment. The route offers a distinct observation capability, but adds infrastructure and integration obligations that a software-only comparison would miss.

Sources & Evidence

1. Platform: Infrastructure Intelligence | Outsight
   · Outsight advertises occupancy, queue and dwell analytics, dashboards, alerts, documented APIs and multi-vendor project support. Its platform also accepts complementary camera, wireless and business-system inputs, supporting deployment-specific integration and data-scope checks. ([outsight.ai](https://www.outsight.ai/platform))
2. At the heart of innovation in our airports - Groupe ADP
   · Groupe ADP describes deployment with Outsight at Paris airports and mobile ground staff monitoring passenger and baggage flows. This is buyer-origin corroboration of a specific operator relationship, not a service commitment for another airport. ([essentiel.groupe-adp.com](https://essentiel.groupe-adp.com/en/at-the-heart-of-innovation-in-our-airports/))
3. ADP Group Testimonial at CDG | Insights
   · The supplier-hosted Charles de Gaulle testimonial describes baggage-area flow monitoring and responses by authorized personnel. It supports separating software-provided information from the airport's responsibility to act. ([outsight.ai](https://www.outsight.ai/insights/groupe-adp-testimonial-about-lidar-software-outsight/))
   · Company verification: Outsight's Groupe ADP testimonial describes its software-supported passenger and baggage-flow monitoring at Paris-Charles de Gaulle.

19.12. Halo Solutions

[redacted] Its advertised functions include shared incident records, task scheduling, mobile reporting, cross-team transfers and management oversight for venues, arenas and service providers. The relevant purchase is accountable operational information and task ownership across teams.

Halo's February 2025 Belfast arena announcement reports a contract, initial event use and planned departmental expansion. [redacted] Announced future modules should not be treated as existing contractual functionality.

The service terms identify Halo Solutions Ltd as the supplier and license access to authorized individual users for internal business operations. Operators involving outsourced security or facilities teams should confirm their access entitlement rather than assume a shared dashboard grants unrestricted participation. [redacted]

Sources & Evidence

1. Daily Operations - Halo Solutions
   · Halo advertises shared incident and task management, mobile reporting, cross-team transfers and oversight for venues, arenas and service providers. These functions substantiate an operational-coordination role rather than a crowd-density measurement claim. ([halosolutions.com](https://www.halosolutions.com/applications/daily-operations/))

2. Halo Solutions to help keep people safe at The O2 Arena, Belfast in its 25th anniversary year and beyond
   · Halo's February xx.xx 2025 Belfast arena announcement reports a contract and initial event use while describing broader departmental implementation and additional modules as planned developments. It does not establish completion of the entire roadmap. ([halosolutions.com](https://www.halosolutions.com/halo-sse-arena/))
3. Terms of Service - Halo Solutions
   · Halo's terms identify Halo Solutions Ltd, limit use to licensed authorized users for internal operations, and distinguish continuous support-ticket intake from resolution time. These terms support checking contractor access and event-critical escalation commitments. ([halosolutions.com](https://www.halosolutions.com/terms-of-service-xx.xx/))
4. Sectors - Halo Solutions
   · Company verification: Halo offers a shared operational platform connecting security, safety, facilities, and external teams for complex multi-team environments.
   · Company verification: This establishes an advertised coordination role, not a confirmed crowd-density analytics product.

19.13. Saudi Company for Artificial Intelligence (SCAI)

Saudi Company for Artificial Intelligence (SCAI) markets SCAI Motion for occupancy, pedestrian flow, crowd distribution, congestion and queue-related applications. Its distinctive commercial proposition includes deployment on locally hosted Saudi cloud platforms. ■■■■ ■■■■■■■■■■■■ ■■■■■ ■■■■■■■■ ■■■■■■■■ ■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■ ■■■ ■■■■■ ■■■■■■■■■■■■■■■ ■■■ ■■ ■■■ ■■■■■■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■ ■■ ■■■■■ ■■ ■■■■■■■■■

KAFD's January 2024 announcement establishes a partnership with SCAI for planned smart-traffic and mobility services. It provides a documented district relationship, not confirmation of a completed SCAI Motion crowd-management installation. ■■■ ■■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■ ■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■■ ■■■■■ ■■■■■■■■■■■■■

Saudi buyers with a local-hosting requirement can evaluate Motion against that requirement while obtaining the actual cloud-provider, data-location, application-scope and support commitments in writing. ■■■■■■ ■■■■■■■■ ■■■■ ■■■■■■■■■■■■ ■■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■ ■■■■■■ ■■■■ ■■■■■ ■■■■■■■■ ■■■■■■ The hosting proposition can address a purchasing condition, but cannot compensate for an unsuitable application scope or unclear responsibility for connected systems.

Sources & Evidence

1. SCAI - SCAI Motion
   · SCAI Motion advertises crowd distribution, occupancy, pedestrian-flow, congestion and queue applications and local Saudi-hosted cloud deployment. The catalog establishes these offering declarations, not customer-specific clearance, entitlement or delivery. ([scai.sa](https://scai.sa/product/scai-motion))
   · Company verification: Saudi Company for Artificial Intelligence identifies SCAI Motion as its commercial offering for crowd distribution, occupancy, pedestrian flow, congestion, and queue-related applications.
   · Company verification: The product page advertises local Saudi-hosted cloud deployment and event and sporting-venue use cases.

2. KAFD and SCAI Unveil Transformative Smart City Project
   - KAFD's January 2024 announcement describes its partnership with SCAI for planned smart-traffic and mobility platforms. It does not identify a completed SCAI Motion crowd-management installation. ([kafd.sa](https://www.kafd.sa/en/media-centre/kafd-and-scai-unveil-transformative-smart-city-project?RefID=semik%3FRefId%3Dsemik))
3. SCAI and Publicis Groupe Middle East collaborate to drive digital transformation in the Kingdom
   - Company verification: SCAI's February xx.xx 2024 corporate announcement identifies Saudi Company for Artificial Intelligence as wholly owned by the Public Investment Fund.
   - Company verification: The statement supports ownership attribution for the operating supplier behind the captured SCAI Motion product.

19.14. inq.

inq. advertises crowd functions within a managed video-analytics portfolio. ■■■ ■■■■■ ■■ ■■■■■■■■ ■■■ ■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■■■ ■■■■■■■■■■ ■■■ ■■■■■ ■■■■■■■■■ ■■■■■ ■■■ ■■■■■■■■ ■■■■■■ ■■ ■■■■■■■■■■■ ■■■■■■■■ ■■■ ■■ ■■■■■■■■ ■■ ■■■■■■■■■■■■■ ■■■■■■■■ ■■■■ ■■■■■■■■■■■ ■■ ■■■■■■■■■■ ■■■■■■■■■■■■■■■■ ■■■■■■ ■■■ ■■■■■■■■■ ■■ ■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■

■■■ ■■■■■■■■■■ ■■■■■■■■ ■■ ■■■■■■■ ■■■■ ■■■■ ■■■■■■ ■■■■■■■■■■■■■■ ■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■■■ ■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■■■■■■■ ■■■■■■■■■ ■■■■■ ■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■ ■■■■■■■■■■ ■■ ■■■ ■■■■■■■■ ■■■ ■■■■■■ ■■ ■■■■■■ ■■■ ■■■■■ ■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■ ■■■■ ■■ ■■■ ■■■■ ■■■■■■■■■ ■ ■■■■■ ■■■■■■ ■■■■■■ ■■■ ■■■■■■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■■■■ ■■■■■■■■■■■■ A combined service could simplify accountability only if those obligations are explicit; bundling otherwise leaves the software, camera and integration boundaries unresolved. The public offering descriptions do not settle upstream licensing or customer-specific fulfillment.

Sources & Evidence

1. Edge AI & IoT - inq.
   - inq. advertises managed video analytics and retail crowd-management functions, including aisle heatmaps, and gives South African and Mauritian office references. These establish an offering and contact context, not a deployment's seller of record or upstream license allocation. ([inq.inc](https://inq.inc/edge-ai-iot/))
   - Company verification: inq. markets a Video AI Platform and Retail Analytics offering expressly including crowd management and aisle heatmaps.
   - Company verification: The record provides Johannesburg and Mauritius head-office addresses.
2. Artificial Intelligence - inq.
   - inq.'s Vision AI description advertises use of existing IP surveillance cameras. The procurement implication is conditional: reuse does not itself allocate equipment, application or integration responsibilities. ([inq.inc](https://inq.inc/artificial-intelligence/))
3. EDGE AI et IOT - inq.
   - Company verification: inq.'s Côte d'Ivoire catalog advertises crowd-management video analytics and real-time dashboards.
   - Company verification: The same record provides an Abidjan business address, establishing a local offering and contact path rather than confirmed local sales.

19.15. Awiros

[redacted] Ltd., with a sales contact route and headquarters in Gurugram. Its distinct commercial role is an application ecosystem rather than a single crowd application: AppStack advertises application exploration and purchasing, and Awiros states that independent developers can publish applications to its marketplace.

[redacted] These are platform-level declarations, not assurance that every crowd application has identical deployment support or entitlement. Buyers should identify the selected application, its licensor, required platform rights and the party responsible for application and interface support before ordering or adding functions.

Application selection can keep procurement focused on a specific crowd task, but introduces a dependency on the supporting platform and its application ecosystem. Buyers needing a narrow function should compare the complete application-and-platform commitment with a packaged crowd-software offer. [redacted]

Sources & Evidence

1. Event Management
   - Awiros advertises event crowd estimation, inflow and dwell analytics and a dashboard; the page identifies the brand as a registered trademark of Awidit Systems Pvt. Ltd. ([awiros.com](https://awiros.com/event-management-industry))
   - Company verification: Awiros markets an event-management platform with crowd estimation, crowd-inflow analytics, and operational dashboards.
   - Company verification: The page identifies Awiros as a registered trademark of Awidit Systems Pvt. Ltd.
2. Products
   - Awiros describes AppStack application selection and purchasing, platform deployment on premises, edge-and-cloud or cloud, and inputs from third-party video-management systems. These portfolio declarations do not establish identical entitlement or deployment support for every application. ([awiros.com](https://awiros.com/products))
3. Contact Us
   - Awiros identifies its Gurugram headquarters and sales route and states that independent developers can publish applications to its marketplace. This supports checking application-specific commercial rights and support rather than assuming a single undifferentiated software entitlement. ([awiros.com](https://awiros.com/contact-us.html))
   - Company verification: Awiros provides sales contact details and identifies a Gurugram headquarters address.

19.16. VACAN

[redacted] Its advertised cloud platform combines location-dependent sensor, camera or staff inputs with availability information delivered through signage, web maps, smartphones and mobile queuing. The

purchasing scope therefore extends beyond an internal analytics dashboard to the channels through which visitors receive information.

JR East's 2020 announcement described integration of VACAN availability information and the historical VACAN Noline queue service with Tokyo Station Navi. Gransta's website also links visitors to a VACAN service. ■■■■■ ■■■■■■■ ■■■■■■■ ■ ■■■■■■■■ ■■■■■■■■■■■ ■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■■■■ ■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■

Operators should assign responsibility for destination information, publication updates and channel maintenance before procuring the complete service. ■■ ■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■ ■■■■■■ ■■■ ■■ ■■■■■■■ ■■ ■■■■■■■ ■■■■■ ■■■■■■■■■■■■ ■■■■■ ■■■■■■■■■■ ■■■■■ ■■ ■■■ ■■■■■■■ ■■■■■■ ■■■ ■■■■ ■■■■■■■■■■■■■ ■■■■■■■■■ ■■ ■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■■ Overseas buyers should therefore obtain project-specific delivery confirmation before treating a Japanese reference as a transferable service commitment.

Sources & Evidence

1. VACAN - Real-time Crowd Visualization & Digital Signage Platform, Japan
   - VACAN advertises cloud crowd information distributed through signage, maps, smartphones and mobile queuing, with location-dependent inputs. It identifies Japan as its primary market and makes international projects subject to feasibility discussion. ([corp.vacan.com](https://corp.vacan.com/signage/en/))
   - Company verification: VACAN markets a Japan-origin crowd-visualization platform combining congestion analytics with signage, maps, and mobile queuing.
   - Company verification: Its official page names Japanese retail, station, and arena applications as supplier-reported deployments.
2. スマートフォンアプリ『東京ステーションナビ』8 月 3 日本格運用開始
   - JR East's 2020 announcement describes VACAN availability information and VACAN Noline queuing integration with Tokyo Station Navi. This corroborates a historical visitor-service relationship, not unchanged subsequent operation. ([jreast.co.jp](https://www.jreast.co.jp/press/2020/tokyo/20200730_t01.pdf))
3. サイトマップ | 東京駅 構内のショップ・レストラン グランスタ【公式】
   - Gransta's official website includes a visitor link to its VACAN service. The link establishes a publication route, not uptime, complete coverage or the current configuration behind it. ([gransta.jp](https://www.gransta.jp/sitemap/))

19.17. Qmatic

■■■■■■■■ ■■■■■■■■■■■ ■■■■ ■■ ■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■ ■■■■■■■■■■■■ ■■■■■■■■■■■■■■ ■■■■■■■■ ■■■■■■ ■■■■ ■■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■■ ■■■ ■■■■■■■■■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■ ■■■■■■ ■■■ ■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■■■■■■■■ ■■■■■■■■ ■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■ ■■■■■■■■■ ■■■■■■■ ■■■ ■■■■■ ■■■■ ■■■■■ ■■■■■■■ ■■■■ ■■■■■■■ ■■■■■■■■■■■■ ■ ■■■■■■■■■■ Qmatic Concierge also supports reception staff handling appointments and walk-ins. Buyers should therefore evaluate arrival coordination alongside retained reception and service staffing; advertised functionality does not establish improved crowding, safety, or staffing outcomes.

Deployment alternatives address different purchasing requirements. ■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■■■ ■■ ■■■■■■■■■■■■ ■■■■ ■■■ ■■■■■■■■■■ ■■ ■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■

[redacted] Buyers should require an agreed migration and acceptance scope before retiring an existing installation.

Version-specific support is a separate commitment from platform availability. Qmatic's June xx.xx 2026 announcement schedules Orchestra xx.xx support, updates, maintenance releases, and bug fixes to end July xx.xx 2027, and recommends an upgrade path to Orchestra xx.xx. [redacted]

Ownership and contracting attribution also require separation. Baird's June 2025 transaction record identifies Valsoft Corporation Ireland as the acquirer of Qmatic Group AB. [redacted]

In Switzerland, Qmatic's August xx.xx 2026 Corvice AG announcement establishes an intended local delivery, implementation, and support route, not a completed installation or customer-specific service level. [redacted] The benefit of local delivery must be weighed against the additional contractual dependency; partner appointment alone is insufficient purchasing assurance.

Sources & Evidence

1. Qmatic | FAQs
   · Qmatic describes Experience Cloud as multi-tenant SaaS and Orchestra as a modular on-premises platform for complex requirements, multiple locations, or large premises. These descriptions establish marketed deployment alternatives, not customer-specific equivalence.
   ([qmatic.com](https://www.qmatic.com/resources/faq))
2. Qmatic Welcomes Corvice AG as New Premier Solution Partner in Switzerland
   · Qmatic announced Corvice AG as a Swiss Premier Solution Partner on August xx.xx 2026, assigning delivery, implementation, and support roles. The announcement does not establish a completed customer installation or customer-specific service commitments.
   ([qmatic.com](https://www.qmatic.com/qmatic-insights/qmatic-welcomes-corvice-ag-as-new-premier-solution-partner-in-switzerland))

3. Visitor Management System - Qmatic
   - Qmatic markets visitor-number limits, appointment booking, self-service check-in, digital signage, and Mobile Ticket remote waiting with queue-progress updates. These are advertised functions, not independently established customer outcomes. ([qmatic.com](https://www.qmatic.com/solutions/visitor-management-system))
   - Company verification: Qmatic offers visitor-management software for limiting visitor numbers and managing physical visitor flow.
   - Company verification: Its Mobile Ticket offering permits remote waiting and live queue progress.
4. Queue management | Concierge
   - Qmatic Concierge supports front-line staff issuing queue tickets, checking in scheduled visitors, and booking or rescheduling services for appointment and walk-in arrivals. It documents staff-assisted reception rather than replacement of service personnel. ([qmatic.com](https://www.qmatic.com/products/concierge))
5. Judicial Branch of Arizona in Maricopa County - IT Strategic Plan 2026-2028
   - The Maricopa 2026-2028 IT strategic plan lists a Clerk of Superior Court project to move onsite Qmatic customer queue management to hosting, with planned completion in FY26 and status On Hold. It does not identify the hosted platform or subsequent completion. ([azcourts.gov](https://www.azcourts.gov/Portals/xx.xx/xx.xx/Maricopa_ITSP_26-28_combined.pdf))
6. End of Life Announcement for Qmatic Orchestra 6
   - Qmatic's June xx.xx 2026 announcement schedules Orchestra xx.xx support, updates, maintenance releases, and bug fixes to end July xx.xx 2027, and recommends planning an upgrade to Orchestra xx.xx. ([qmatic.com](https://www.qmatic.com/product-updates/end-of-life-announcement-for-qmatic-orchestra-xx.xx))
7. Qmatic Is Acquired by Valsoft | Baird
   - Baird's June 2025 transaction record states that Valsoft Corporation Ireland acquired Qmatic Group AB and identifies Baird as exclusive financial adviser to Qmatic and Altor on the transaction. ([rwbaird.com](https://www.rwbaird.com/transactions/investment-banking/dealcard/xx.xx/))
8. General Terms and Conditions of Sale and Delivery - Version August 2026
   - The August 2026 terms name Q-MATIC AB as provider, distinguish the customer's separate reseller agreement, deny reseller authority to bind Qmatic, and permit termination of services or licenses following specified uncured distributor defaults. Applicability depends on the customer's contractual framework. ([qmatic.com](https://www.qmatic.com/hubfs/General%20Terms%20and%20Conditions%20of%20Sale%20and%20Delivery%xx.xx%xx.xx.2026%xx.xx-xx.xx.pdf))

Sources & Evidence

1. Improving flow, comfort, and safety: LEGION crowd and pedestrian simulation software explained
   - Company verification: Bentley's October xx.xx 2026 product article confirms continuing commercial activity for LEGION pedestrian and crowd-simulation software.
   - Company verification: The article identifies populated-space capacity, circulation, crowding, and operational planning as LEGION applications.
2. About Oasys | Engineering software for the built environment
   - Company verification: Oasys identifies itself as Arup's commercial engineering-software business.
   - Company verification: Its current company description expressly includes pedestrian-simulation software and confirms that Oasys remains part of Arup.
3. MassMotion - Arup
   - Company verification: Arup identifies MassMotion as software developed in-house and used in its people-movement work.
   - Company verification: The company describes MassMotion applications involving airports, public spaces, and cultural events, supporting a market-specific commercial role beyond a generic software capability.

4. Company Profile | About PTV
   - Company verification: PTV's company profile identifies an operating software business specializing in transportation planning, simulation, and real-time management.
   - Company verification: PTV states that Bridgepoint acquired a majority stake in January 2022 and that PTV Group and Econolite have operated under the Umovity brand since 2023.
   - Company verification: The profile supports retaining PTV Group at its operating-supplier level rather than adding Umovity as another representation of its software portfolio.
5. About Us
   - Company verification: Thunderhead's official company page identifies Thunderhead Engineering Consultants, Inc. as its software-development entity.
   - Company verification: The page provides its Manhattan, Kansas business address and commercial sales contact.
6. Pathfinder | Crowd Movement Simulation and Egress Software
   - Company verification: Thunderhead's current Pathfinder catalog advertises version xx.xx and commercial purchasing and trial access.
   - Company verification: The product expressly addresses event entry, queues, pedestrian circulation, and crowd-movement planning.
   - Company verification: The catalog includes an attributed customer testimonial from Performance Based Fire Protection Engineering, supporting an established professional software role.
   - Company verification: Thunderhead Engineering offers Pathfinder with commercial pricing and trial options.
   - Company verification: Pathfinder is marketed for pedestrian circulation, event entry and queues, emergency preparedness, and egress analysis.
7. General terms and conditions
   - Company verification: The contractual terms identify uCrowds B.V., its Utrecht registered office, and Dutch Chamber of Commerce registration number.
   - Company verification: The terms identify uCrowds as supplier and licensor of crowd-simulation software and establish subscription-based commercial contracting.
8. BriefCam video analytics software | Milestone Systems
   - Company verification: Milestone's current BriefCam catalog establishes a marketed software portfolio with real-time occupancy and crowd-level monitoring.
   - Company verification: BriefCam is presented within Milestone's product portfolio and integrates with video-management platforms, including XProtect.
   - Company verification: This supplies the substantive current crowd-product support missing from the captured release-index evidence.
9. Who We Are - Ipsotek Ltd
   - Company verification: Ipsotek's current company description identifies it as part of Eviden and as the supplier supporting Eviden's Vision AI offering.
   - Company verification: The page identifies current Ipsotek-branded software products and an attributed London Eye customer relationship.
   - Company verification: Ipsotek states that it is part of Eviden.
   - Company verification: Its company description includes crowd management within its video-analytics offering.
10. Atos completes acquisition of Ipsotek - Ipsotek Ltd
    - Company verification: The June xx.xx 2021 transaction announcement states that Atos completed its acquisition of Ipsotek.
    - Company verification: Together with Ipsotek's current Eviden attribution, the announcement supports an operating-subsidiary reporting treatment rather than an independent-parent assumption.

11. Imprint | Xovis
    - Company verification: Xovis' legal notice identifies Xovis AG, its Swiss headquarters, and its business identification number.
    - Company verification: The notice connects the Xovis market-facing identity to a named legal supplier.
12. About Us - Veovo
    - Company verification: Veovo's company page identifies it as a subsidiary of publicly traded Gentrack Group Limited.
    - Company verification: The page describes Veovo as an operating airport-product and technology business with international offices.
    - Company verification: This resolves the captured parent-company attribution gap without introducing a separate Gentrack row.
13. Investor Information | accesso
    - Company verification: The investor page, updated October xx.xx 2026, identifies accesso Technology Group plc and its English company registration.
    - Company verification: accesso states that it generates revenue from virtual-queuing solutions as well as its other attraction technologies.
    - Company verification: The page identifies active international subsidiaries, supporting group-level reporting of the LoQueue portfolio.
14. Impressum - accu:rate
    - Company verification: accu:rate's imprint identifies accu:rate GmbH, its Munich address, and its commercial-register details.
    - Company verification: This resolves the legal identity behind the captured crowd:it license-purchasing and integration evidence.
15. PARTNER PROGRAM PEDESTRIAN DYNAMICS® - SERVICE PARTNERS
    - Company verification: InControl's Pedestrian Dynamics service-partner document explicitly describes third-party software-license sales and associated commercial partner arrangements.
    - Company verification: The document supports external commercialization of Pedestrian Dynamics, although its date and current legal contracting entity remain unresolved.
16. SIMWALK - Pedestrian Simulation for Transport, Aviation and Architecture
    - Company verification: The SimWalk contact page continues to attribute the business to Savannah Simulations AG.
    - Company verification: The undated page offers commercial contact for SimWalk products and services but does not independently establish current registration status or paid availability.
17. With the acquisition of Videtics, Technis lays the foundation stone for a sovereign European group in AI applied to physical spaces
    - Company verification: Technis' February xx.xx 2025 announcement identifies its acquisition of Videtics and integration of Videtics' video-analysis and flow-optimization capabilities.
    - Company verification: The announcement establishes a material ownership and reporting-level relationship between the two staged identities.
    - Company verification: The acquisition announcement identifies Videtics as the acquired business joining Technis.
    - Company verification: Videtics therefore cannot be assumed to represent an independent economic competitor alongside a Technis portfolio that includes its technology.
18. Videtics platform
    - Company verification: Technis currently markets the Videtics platform within its own commercial portfolio.
    - Company verification: The product page identifies Technis SA and describes crowd-related analytics, alerts, and dashboards, corroborating current portfolio integration.
    - Company verification: Videtics remains a marketed platform name on Technis' commercial site.
    - Company verification: Continued product availability does not establish an independent Videtics supplier representation separate from Technis.

19. SCAI and Publicis Groupe Middle East collaborate to drive digital transformation in the Kingdom
    - Company verification: SCAI's February xx.xx 2024 corporate announcement identifies Saudi Company for Artificial Intelligence as wholly owned by the Public Investment Fund.
    - Company verification: The statement supports ownership attribution for the operating supplier behind the captured SCAI Motion product.
20. Video Analytics software company for customized and integrated solutions
    - Company verification: AllGoVision's current company page describes its commercial video-analytics software business.
    - Company verification: The page corroborates continuing supplier activity alongside the captured named crowd-management product and legal-entity documentation.
21. Security Planning in OnePlan - OnePlan Events
    - Company verification: OnePlan's current security-planning page explicitly markets crowd-capacity and flow-control planning functions.
    - Company verification: The page provides commercial access and an attributed event-security customer example, resolving the earlier absence of inspected crowd-specific product content.
22. Contact Us
    - Company verification: Lyntari's contact page provides a Santa Monica, California business-contact address and advertises demonstrations and commercial engagement.
    - Company verification: The page describes predictive venue intelligence but does not establish the registered contracting entity or paid deployments.
23. SenseTime Joins HKSAR Delegation’s Visit to Saudi Arabia
    - Company verification: SenseTime's corporate announcement identifies SenseTime MEA as a joint venture with Saudi Arabia's Public Investment Fund.
    - Company verification: The relationship requires reconciliation before group and regional crowd-software activity can be attributed independently.
    - Company verification: The official announcement establishes a SenseTime-PIF joint-venture relationship behind the SenseTime MEA name.
    - Company verification: It does not establish independent current crowd-software licensing or nonoverlapping competitive economics.
24. In just twelve months, we have built real momentum.
    - Company verification: Keenfinity's July 2026 corporate statement identifies July xx.xx 2025 as its independence date following the Bosch Group spin-off.
    - Company verification: This is a material supplier-attribution change for historical Bosch security-product evidence; it does not establish Bosch Sicherheitssysteme GmbH as the present Intelligent Insights licensor.
    - Company verification: Keenfinity's stated separation from Bosch Group is a material qualification on attributing historical Bosch security-product offerings to Bosch Sicherheitssysteme GmbH today; the statement does not establish that protected entity as the current Intelligent Insights supplier.
    - Company verification: Keenfinity's July 2026 statement dates its independence from Bosch Group to July xx.xx 2025 and identifies a subsequent holding structure with a video-systems business.
    - Company verification: This establishes a separate business representation for the transferred portfolio, without identifying every product's current licensor.
25. Introduction of Intelligent Insights | Keenfinity Group I North America
    - Company verification: Keenfinity hosts the Intelligent Insights commercial announcement originally describing a Bosch software offering.
    - Company verification: The current hosting and historical product attribution do not resolve the exact present owner, licensor, or contracting entity for the staged Bosch identity.

26. CLEAR Acquires Virtual Queuing Company Whyline :: Clear Secure, Inc. (YOU)
    - Company verification: CLEAR's January xx.xx 2022 announcement states that it acquired Whyline.
    - Company verification: The announcement identifies Whyline's virtual-queuing technology and named airport and other customer relationships.
    - Company verification: This resolves historical ownership of the Whyline lead but does not establish current product packaging or availability.
27. BigBear.ai Completes Pangiam Acquisition: Establishes Combined Company as Breakout Leader in Vision AI for National Security, Supply Chain Management, and Digital Identity
    - Company verification: BigBear.ai's March xx.xx 2024 announcement states that its acquisition of Pangiam Intermediate Holdings, LLC was completed.
    - Company verification: The announcement describes Pangiam as a BigBear.ai company serving travel, trade, and digital-identity customers.
    - Company verification: The transaction record does not establish continuing crowd-specific virtual-queuing products or contracts.
28. LEGION | Bentley Systems
    - Company verification: Bentley markets LEGION as pedestrian modeling, simulation, and analysis software.
    - Company verification: The offering addresses crowd management, populated-space planning, safety, and operational scenarios.
29. MassMotion | pedestrian simulation and crowd modelling software
    - Company verification: Oasys offers MassMotion pedestrian simulation and crowd modeling software.
    - Company verification: Named buyer applications include transport hubs, stadiums, events, attractions, and public spaces.
30. Pedestrian simulation software PTV Viswalk
    - Company verification: PTV offers Viswalk pedestrian simulation software.
    - Company verification: The product addresses crowd density, passenger flow, event queues, congestion, and evacuation planning.
31. Pedestrian Library - AnyLogic Simulation Software
    - Company verification: AnyLogic offers a Pedestrian Library within its simulation software.
    - Company verification: The commercial page addresses crowd movement, congestion, queues, evacuation scenarios, and shared-space performance.
32. Resources - InControl
    - Company verification: InControl maintains official resources for the named Pedestrian Dynamics software alongside its other software resources.
    - Company verification: The inspected page establishes a product-support relationship, not current external licensing terms.
33. SimCrowds
    - Company verification: uCrowds B.V. offers SimCrowds for crowd-management experts.
    - Company verification: The product page provides subscription and trial arrangements and identifies the supplier as uCrowds B.V.
34. SimWalk PRO: Pedestrian Simulation for Urban Planning, Architecture and Evacuation
    - Company verification: The official SimWalk PRO document identifies Savannah Simulations AG as the supplier.
    - Company verification: SimWalk PRO is described as software for pedestrian flow and crowd analysis, with related modeling services.
35. Beonic and CrowdVision Accelerate Computer Vision Capabilities
    - Company verification: Beonic describes its acquisition of CrowdVision.
    - Company verification: The narrative describes CrowdVision as a video SaaS offering delivering real-time pedestrian information for venue and transport operations.

36. WaitTime Products and Services
    - Company verification: WaitTime markets software providing live crowd movement, density, occupancy, and queue information.
    - Company verification: Its offering includes an operations dashboard and guest-facing information integrations.
37. Airport Terminal Operations: Aviation | NEC
    - Company verification: NEC's airport portfolio includes a named Congestion Management Solution.
    - Company verification: The offering visualizes crowd density and pedestrian flow and provides crowd-related alerts for airport operations.
38. New beginnings for Milestone
    - Company verification: Milestone Systems' March xx.xx 2025 article reports acquisition of BriefCam and Arcules during 2024.
    - Company verification: Milestone describes the combined offering as including video management software, video analytics, and surveillance as a service.
39. Crowd Management - Ipsotek Ltd
    - Company verification: Ipsotek markets crowd-management solutions for venues, public spaces, and capacity-constrained areas.
    - Company verification: Named functions include crowd counting, overcrowding detection, heatmaps, queue management, and reporting.
40. Measuring Crowds at Indoor and Outdoor Events | Xovis
    - Company verification: Xovis markets crowd measurement and people-flow data for indoor and outdoor events.
    - Company verification: Its event offering supports occupancy visibility, crowd-flow decisions, and prevention of overcrowding, while emphasizing sensor-based delivery.
41. Crowd estimation: Keeping count with video analytics
    - Company verification: Genetec identifies crowd estimation as a built-in video-analytics tool in Security Center.
    - Company verification: The offering includes crowd counts, occupancy notifications, dashboards, historical information, and event-triggered actions.
42. Video security in the stadium thanks to Dallmeier
    - Company verification: Dallmeier markets stadium solutions combining Panomera systems with Hemisphere software modules.
    - Company verification: The offering addresses crowd-flow monitoring, congestion visibility, incident management, and venue operations.
43. Airport Operations Software | Intelligent Airport Platform | Veovo
    - Company verification: Veovo's airport software platform includes Flow Management and Queue Management.
    - Company verification: The platform connects people-flow information, predictions, and operational decisions and offers cloud and on-premises deployment options.
44. CVG Airport adopts Veovo's Curb-to-Flight passenger flow management for data-driven passenger enhancements
    - Company verification: CVG Airport announced adoption of Veovo's airport-wide passenger-flow technology on May xx.xx 2021.
    - Company verification: The airport describes using live and historical passenger occupancy and movement information for operational decisions and crowding reduction.
45. SITA | SITA Passenger Intelligent Insights
    - Company verification: SITA markets Passenger Intelligent Insights as an analytical platform for airports and airlines.
    - Company verification: The offering addresses passenger movements, dwell time, touchpoint performance, and reduction of journey bottlenecks.

46. Crowd Connected Platform
    - Company verification: Crowd Connected offers an indoor and outdoor location platform with analytics and integrations.
    - Company verification: The platform includes near-real-time situational heatmaps, device counts, dwell-time reporting, and data outputs.
47. How does it work - Crowdscan
    - Company verification: CrowdScan describes commercial services covering crowd-density counting, analytics, prediction, and integrated management.
    - Company verification: The offering includes cloud-based processing and visualization for crowd-management decisions.
48. DSS Professional Datasheet
    - Company verification: Dahua's DSS Professional xx.xx.xx.xx software datasheet lists people-counting analytics and crowd-distribution statistics.
    - Company verification: The record establishes crowd-related analytics within a named software platform.
49. AI Video Analytics for Hospitality Security and Operations
    - Company verification: Videonetics markets AI-enabled video analytics for hospitality operations.
    - Company verification: Its offering includes occupancy, queue length, people movement, crowd formation, and crowd-safety analytics.
50. Evitech - Vidéo surveillance intelligente - Lynx
    - Company verification: Evitech markets Lynx as software for crowd management through video-content analysis.
    - Company verification: The offering addresses crowd counts, density, flow-related incidents, alerts, and historical statistics.
51. Crowd Dynamics | Crowd Modelling and Simulation | LEGION
    - Company verification: Crowd Dynamics describes its Myriad X Software Suite within its crowd-modeling service.
    - Company verification: The record establishes a named software-related capability but does not establish external licensing.
52. CrowdSafe | crowddynamics
    - Company verification: Crowd Dynamics describes CrowdSafe as a methodology and software solution for planning and managing large event crowds.
    - Company verification: The page identifies police, local authorities, and private-sector stakeholders as intended users without establishing current commercial deployment.
53. Occupancy Monitoring - Cloud-Based - Cisco Spaces
    - Company verification: Cisco Spaces markets real-time occupancy-monitoring applications.
    - Company verification: The stated use includes identifying hotspots and avoiding overcrowding in facilities and venues.
54. Manchester City Collaborates with Cisco to Deploy Crowd Intelligence Solution, WaitTime
    - Company verification: Cisco announced its collaboration with Manchester City to deploy WaitTime at Etihad Stadium on December xx.xx 2022.
    - Company verification: The announcement establishes Cisco's ecosystem role in a specific crowd-intelligence deployment.
    - Company verification: The dated deployment announcement identifies WaitTime as the crowd-intelligence technology used at Etihad Stadium.
    - Company verification: The reported application concerns crowd density, movement, and concourse congestion.

55. Crowd Analytics and Management Technology | Verizon
    - Company verification: Verizon markets 5G Edge Crowd Analytics as a SaaS solution combining applications, devices, and support services.
    - Company verification: The offering provides crowd-flow, queue, occupancy, density, and visitor-movement insights.
56. intuVision VA Event - Crowd Density
    - Company verification: The official product page identifies Crowd Density as an available intuVision VA Security module function for monitoring crowd levels and generating alerts.
    - Company verification: The page identifies intuVision, Inc. in its copyright notice.
57. intuVision VA in Action
    - Company verification: The official commercial demonstration page lists intuVision crowd-density and queue-related offerings and a Woburn, Massachusetts business address.
58. People Counting Software & Analytics | SenSource
    - Company verification: SenSource markets Vea people-counting software with real-time occupancy monitoring, traffic forecasts, dashboards, and customer-journey analytics.
    - Company verification: The product page describes SaaS subscription support and provides a Youngstown, Ohio address.
59. Crowd Detection - Occupancy Detection - Senstar
    - Company verification: Senstar markets Symphony Crowd Detection for real-time capacity and occupancy estimation, overcrowding identification, and staff notifications.
    - Company verification: The page lists Senstar corporate headquarters in Ottawa, Ontario, Canada.
60. Vaidio for Stadiums
    - Company verification: Vaidio markets stadium software functions covering crowd direction, live occupancy, concession queues, and operational staffing decisions.
61. IronYun Launches 9th Generation AI Vision Platform, Rebrands as Vaidio
    - Company verification: The March xx.xx 2025 company announcement states that IronYun is rebranding as Vaidio.
    - Company verification: The announcement identifies Stamford, Connecticut, as Vaidio's headquarters.
62. Stadium WiFi Marketing and Data Analytics Solution
    - Company verification: Aislelabs markets stadium analytics for visit counts, dwell times, crowd movement, and movement between gates, concourses, concessions, and seating zones.
    - Company verification: The page presents commercial pricing tiers and demo access.
63. T.M.A.S. People Counting Software & Analytics | SMS Storetraffic
    - Company verification: SMS Storetraffic advertises T.M.A.S. as its people-counting software and analytics platform.
64. Traffic Flow Analysis | Scylla
    - Company verification: Scylla markets Traffic Flow Analysis with people counting, occupancy monitoring, crowd and queue management, and congestion-related reporting.
65. Occupancy | Product Brief | RetailNext
    - Company verification: RetailNext markets Occupancy Tracking & Compliance with real-time occupancy visibility, thresholds, reporting, alerts, and integrations with queue and signage tools.
66. CountWise People Counting Solutions: General Overview
    - Company verification: A company-issued CountWise brochure hosted by Herbert identifies CountWise people-counting solutions and application software for analysis and alerts.
    - Company verification: The historical brochure does not establish present commercial availability.
67. More space, less waste: 6 ways occupancy sensors change the game
    - Company verification: Density's official commercial article describes occupancy-data applications for monitoring airport-lounge crowd levels and showing users how busy common spaces are.
    - Company verification: The article supports an occupancy-data adjacency, not a named regional deployment or a dedicated crowd-management license.

68. Queue Management - Frontlion
    - Company verification: Frontlion markets a queue-management platform.
    - Company verification: The page's brand-transition notice identifies Frontlion as a brand of Qtrac, Inc.
69. Terms of Service - Frontlion
    - Company verification: Official terms effective August xx.xx 2026 identify Qtrac, Inc. as the company providing services under the Frontlion brand.
70. Upgrade Your Shooting Range Scheduling System Post-COVID
    - Company verification: QLess explicitly markets its virtual-queue and appointment software as a crowd-management solution for physical facilities.
    - Company verification: The offering allows visitors to wait remotely and receive queue-position and wait-time communications.
71. Pogen occupancy
    - Company verification: Pogen markets Pogen Occupancy for monitoring and limiting occupancy, communicating admission availability, and providing platform alerts.
    - Company verification: Pogen Occupancy is marketed as a system for monitoring and limiting the number of people within a location, with occupancy visibility from connected devices.
72. Conteo de personas: optimiza tu tienda hacia 2026
    - Company verification: Getin's March 2026 commercial article describes real-time saturation and occupancy management for physical retail in Mexico.
73. Getin arranca 2023 con ronda de inversión de US $750K para impulsar al retail
    - Company verification: Getin's January 2023 announcement identifies it as a Mexican startup and describes private investment received in December 2022.
    - Company verification: The announcement describes its platform as analyzing occupancy, density, and dwell in physical stores.
74. Aetherix - Visión por computadora y mantenimiento predictivo
    - Company verification: Aetherix's single-page commercial catalog markets EventMotion for event-aisle traffic, dwell, density, and interactive heatmap reporting.
    - Company verification: The business identifies its location as Monterrey, Nuevo León, Mexico, and provides a quotation contact path.
75. CLICR for Events | You run the event. We prove the count.
    - Company verification: CLICR maintains a specific events-oriented product page.
76. CLICR | Know your crowd. Grow your revenue.
    - Company verification: CLICR's product site advertises synchronized entry and exit counting, live occupancy, multi-area dashboards, and paid plans.
    - Company verification: The site expressly states that displayed venue logos represent pilots, partnerships, or active user testing rather than uniformly established paid deployments.
77. Connect&GO Provides Contactless Solutions for Leisure and Entertainment Properties
    - Company verification: Connect&GO identifies itself as Montreal-based and describes virtual queuing, crowd-capacity dashboards, and zone-level capacity monitoring.
78. Attraction & Theme Parks | Connect&GO
    - Company verification: Connect&GO's attraction-management platform advertises unified ticketing, access control, capacity, staffing, and real-time operational insights.
79. Sports | Optimize Event Flow - Learn More - Intellitix
    - Company verification: Intellitix markets conditional access zones for crowd control and ingress, together with entry-activity and event reporting.
    - Company verification: The page describes North American event activity during 2025.
80. About Intellitix
    - Company verification: Intellitix identifies its founding location as Montreal, Canada.
    - Company verification: The company describes live dashboards for entry flow and an integrated access, payments, and event-insights platform.

81. #TuesdayTalks on May 26, 2020: Configuring Capacity Management, Holds & Pass Required Tickets
    - Company verification: Gateway Ticketing Systems' May xx.xx 2020 announcement identifies capacity-management functionality in Galaxy.
    - Company verification: The page lists a Gilbertsville, Pennsylvania business address; it does not by itself establish present live crowd-flow functionality.
82. Business Intelligence, Insights and Video Analytics | March Networks
    - Company verification: March Networks markets Searchlight Cloud business intelligence and Smart Rules for real-time alerts involving customer occupancy changes and speed of service.
    - Company verification: The page lists corporate headquarters in Ottawa, Ontario, Canada.
83. GSOC/NOC - Solutions - Actuate
    - Company verification: Actuate markets AI video analytics for security operations centers that identifies unusual crowd behavior across locations.
84. Video Analytics Software & Solutions | AI-Powered Platform
    - Company verification: The official Avigilon portfolio markets crowd detection and occupancy management for people-flow monitoring.
    - Company verification: The page identifies Motorola Solutions, Inc. in its corporate copyright notice.
85. People Counters for Concerts and Events by TallyFi
    - Company verification: TallyFi identifies itself as a Waterloo, Canada company supplying people-counting hardware and software services.
    - Company verification: Its event offering includes synchronized venue counts, crowd-flow records, an online dashboard, and subscription plans.
86. Embross Signs Contract with Multiple Greenland Airports
    - Company verification: The May xx.xx 2023 announcement names Embross North America Ltd. and a long-term contract with Nuuk International, Ilulissat, and Qaqortoq airports in Greenland.
    - Company verification: The announced portfolio includes a cloud-based CUPPS platform and passenger-flow data at passenger transaction points; the announcement does not establish current deployment.
87. Advanced Analysis of Video - Digifort
    - Company verification: Digifort markets a licensed video-analytics module covering people counts, movement direction, and agglomeration-related alerts.
88. Digifort
    - Company verification: Digifort identifies itself as a video-surveillance software business with corporate headquarters in São Caetano do Sul, São Paulo.
89. Defense IA e Defense IA Lite | Intelbras
    - Company verification: Intelbras markets Defense IA with people-counting, heatmap, and real-time people-flow analytics.
    - Company verification: The commercial page describes acquisition of licensed versions through distributors.
90. Control de Aforo y Conteo de Personas | Elipse Chile
    - Company verification: Elipse offers a platform combining people counts, live occupancy dashboards, threshold alerts, and historical reporting.
    - Company verification: The offering explicitly addresses facilities in Chile.
91. Sociedad Comercial Elipse | Tecnología Industrial en Chile
    - Company verification: Elipse identifies itself as a Chilean company with proprietary development and integrated software, hardware, and implementation capabilities.
92. Conteo de personas con IA y tus cámaras | KSI Vision
    - Company verification: KSI Vision markets software that converts existing CCTV video into real-time people counts and operational reporting.
    - Company verification: Its product catalog includes queue analysis, saturation monitoring, heatmaps, and dwell-time analytics.

93. PAX Flow y Analítica en Tiempo Real para Aeropuertos | KSI Vision
    - Company verification: KSI Vision maintains a specific commercial page for airport passenger-flow and real-time analytics.
94. Regiscenter: conteo de personas y aforo | Registel
    - Company verification: Registel markets Regiscenter for occupancy and people-flow information in terminals and high-traffic public spaces.
    - Company verification: The offering addresses demand peaks and flow patterns by area and time.
95. RegisData: plataforma de datos de transporte | Registel
    - Company verification: Registel publicly offers RegisData as a transport-data platform, establishing a software-platform role alongside its counting products.
96. Contagem de pessoas e veículos com câmeras e IA | Monuv
    - Company verification: Monuv offers camera-based people-flow counting, hourly reporting, heatmaps, and data integration.
    - Company verification: The commercial page presents recurring subscription contracting and shopping-center occupancy and operational applications.
97. Software de gestión de filas en tiempo real
    - Company verification: ZeroQ markets a queue-management software suite combining branch operations, real-time analytics, and virtual tickets.
    - Company verification: The suite explicitly positions virtual tickets as a means of reducing physical crowding.
98. Poken Perú
    - Company verification: Poken Perú advertises a software-enabled people-counting and capacity-control service.
    - Company verification: The company states that a Tecbrain alliance supports its software-data service, establishing a channel or integrated-service role rather than proven software ownership.
99. Enova Apps - Enova
    - Company verification: Enova Apps identifies mobile and web software development as its business and lists capacity-control projects among its private-sector work.
100. Software de gestión para boliches y discotecas | Noctra Argentina
    - Company verification: Noctra advertises software for Argentine nightclubs and discotheques, including a live occupancy view and event-entry management.
    - Company verification: The commercial landing page offers subscription plans; displayed demonstration figures do not establish customer adoption.
101. Fila Fácil | Itchat Brasil
    - Company verification: Itchat Brasil markets Fila Fácil for digital queue management and explicitly describes avoiding physical crowding.
    - Company verification: The product page identifies a Brazilian business address and company registration number.
102. Filazero | Sistema de gestão de filas com previsão em tempo real
    - Company verification: Filazero markets queue-management software with real-time waiting predictions and physical-queue entry channels.
    - Company verification: Its commercial positioning includes allowing customers to wait away from a crowded corridor or continue shopping.
103. Qanty | Software de Agendamento e Gestão de Filas
    - Company verification: Qanty markets a cloud queue-management platform combining physical tickets, virtual waiting lists, notifications, and operational dashboards.
    - Company verification: Its Portuguese-language offering describes avoiding physical queues; it does not establish a specific local contracting entity.

104. Bingo LR | Especial Halloween | Guayaquil - Ecuador
    - Company verification: Bingo LR describes Access Control LR for event admission and real-time capacity management.
    - Company verification: The record labels the offering forthcoming, rather than establishing marketed availability.
105. Argentine government publication - SMARTCROWD 2 28 2 registration entry
    - Company verification: A historical Argentine government publication lists URBIX TECHNOLOGIES SA as holder of the computer program SMARTCROWD xx.xx xx.xx xx.xx.
    - Company verification: The registration establishes historical ownership, not current licensing or operating status.
106. tPass: Sistema de venta de Tickets online - GInIEm - Consultoría, Desarrollo de Software y Staffing
    - Company verification: GInIEm maintains a specific commercial record for its tPass online event-ticketing system.
107. Dingo AI Solutions - Control de Acceso Inteligente · Costa Rica
    - Company verification: Dingo AI Solutions advertises a Costa Rica-facing access platform with capacity-control and zone-access functions for social clubs.
    - Company verification: Its product presentation combines software with access hardware and related services.
108. Software para negocios turísticos - Niveway
    - Company verification: Niveway's solutions catalog advertises real-time capacity control and admission-ticket validation for attractions.
    - Company verification: The offering is broader tourism software; actual assigned-country operations are not established by the page.
109. Smart City | A.I. Tech srl
    - Company verification: A.I. Tech's Smart City catalog offers AI-CROWD-DEEP and AI-CROWD-COUNTING for crowded public spaces, venues, and passenger-flow monitoring.
110. AI-CROWD-DEEP: crowd estimation based on Deep Learning | A.I. Tech srl
    - Company verification: The March xx.xx 2020 product announcement identifies A.I. Tech's headquarters in Salerno and announces AI-CROWD-DEEP commercial availability.
111. VTrack - TechnoAware
    - Company verification: TechnoAware markets VTrack as modular video-analytics software with flow counting, area counting, occupancy-rate, and hot-zone functions.
112. Contacts - TechnoAware
    - Company verification: The official contact record connects the TechnoAware supplier identity to an Italian business presence.
113. Sistema automático de control de aforo en tiempo real | Dinycon
    - Company verification: Dinycon advertises real-time capacity-control systems for managing occupancy in physical spaces.
114. Empresa de sistemas de conteo y control de aforo | Dinycon
    - Company verification: Dinycon's company page identifies its systems-integration business in people mobility, counting, and capacity control.
115. Nommon | Population Insights
    - Company verification: Population Insights provides dynamic population maps, visitor-footfall and presence indicators through a licensed API platform or bespoke projects.
    - Company verification: The product page identifies Nommon Solutions and Technologies, S.L. and its Madrid business contact.
116. Privacy policy - Nommon
    - Company verification: Nommon's privacy record identifies Nommon Solutions and Technologies SL as the responsible company based in Madrid, Spain.

117. Affluences : découvrez nos différentes offres
    - Company verification: Affluences offers licensed access to its SaaS crowd-flow management software, alongside integrated counting hardware.
118. Mentions légales - Affluences
    - Company verification: The legal notice identifies AFFLUENCES SAS, registered in Paris, and describes its crowd measurement, analysis, waiting-time, and occupancy business.
119. Video Analytics for Transport Operators | Isarsoft Perception
    - Company verification: Isarsoft markets Perception video analytics for public-transport passenger counting, crowd management, and passenger-flow analysis.
120. Airport Passenger Analytics and Passenger Flow | Ariadne
    - Company verification: Ariadne offers airport passenger analytics and passenger-flow capabilities.
    - Company verification: The offering's company information identifies Ariadne Maps GmbH in Munich and a Greek business presence.
121. Imprint - Ariadne
    - Company verification: The imprint identifies Ariadne Maps GmbH as the German business behind the Ariadne offering.
122. ADP Group Testimonial at CDG | Insights
    - Company verification: Outsight's Groupe ADP testimonial describes its software-supported passenger and baggage-flow monitoring at Paris-Charles de Gaulle.
123. Vemco_VemSpace _Occupancy Management_Brochure
    - Company verification: Vemco Group's VemSpace brochure advertises occupancy-management software and identifies a Denmark office.
124. IRIS+ R2 2024 | IRIS Irisity
    - Company verification: Irisity's 2024 IRIS+ R2 release describes crowd-density events and real-time crowd-statistics functionality.
125. AXIS Object Analytics | Axis Communications
    - Company verification: Axis offers Object Analytics for occupancy, visitor counts, queue management, crowd-density insights, and movement flow.
    - Company verification: The application is preinstalled at no extra cost on compatible devices, qualifying its software economics as bundled.
126. Product - Crowd management
    - Company verification: Technis markets crowd monitoring through Technis Spaces, including concentration mapping, congestion information, alerts, and dashboards.
    - Company verification: The page identifies Technis SA in Lausanne and a French business presence, and states a Videtics integration.
127. PRODUCT
    - Company verification: XXII markets CORE as software combining physical-space analytics dashboards, events, alerts, and flow-management applications.
128. VizioCrowd | Viziosense
    - Company verification: Viziosense markets VizioCrowd for measuring people and pedestrian density in crowded environments.
    - Company verification: The supplier reports French station and large-event applications; these are vendor claims, not independently verified deployment totals.
129. Public Eye - Open Source Crowd Management Solution - Tapp
    - Company verification: Tapp's March xx.xx 2021 Public Eye project page describes crowd-count, density, direction, and speed dashboards in Amsterdam.
    - Company verification: The page describes subscription access and freely available open-source software, leaving current commercial packaging unresolved.

130. How do we measure | CityTraffic
    - Company verification: CityTraffic advertises subscription access to its software platform and describes its mobility viewer as usable for real-time crowd management.
    - Company verification: Its stated footfall business includes the Netherlands, Belgium, and Luxembourg.
131. Crowdmanagement Nijmegen LED displays events | Daylight
    - Company verification: Daylight describes scenario software integrated with LED displays for directing event crowd flows in Nijmegen.
132. RTSoft OMGE от ГК РТСофт
    - Company verification: RTSoft's catalog offers RTSoft OMGE software for people counting, movement analysis, and analysis of passage through physical zones.
133. Система VOCORD Tahion - видеонаблюдение и интеллектуальная видеоаналитика любого масштаба
    - Company verification: VOCORD markets Tahion surveillance and video-analytics software and describes public-space applications in Russia and elsewhere.
    - Company verification: This establishes an advertised software role but not separately licensed crowd-flow functionality or current ownership.
134. Модуль распознавания очередей и скоплений людей | ИИ видеоаналитика толпы | AI лаборатория NeuroCore
    - Company verification: NeuroCore advertises a video-analytics module for queues, overloaded zones, crowd accumulation, and visitor-flow statistics.
135. Видеоаналитика для бизнеса Insentry заказать - купить интеллектуальную систему распознавания для бизнеса и производства
    - Company verification: Insentry's Russian-language commercial catalog advertises video analytics covering crowd accumulation, movement against flow, queue analysis, people counts, and heatmaps.
136. Интеллектуальная видеоаналитика TRASSIR
    - Company verification: TRASSIR's commercial analytics portfolio includes Queue Detector and Heat Map on Map for queues and visitor-flow visualization.
137. SHIELD4CROWD - Catalogue of solutions for public space protection and crowd management
    - Company verification: Identifies Munich-based accu:rate and its crowd:it pedestrian-flow software.
    - Company verification: Identifies Paris-based Wintics and describes real-time video crowd/flow analytics.
    - Company verification: Identifies French supplier XXII and its crowd-related software offering.
    - Company verification: Identifies Poznan-based ITTI and PROCeed crisis-training software, with prospective crowd-management use.
138. EntryLog - Effortless Guest List Management
    - Company verification: EntryLog advertises live attendance counts and a paid guest-flow analytics option for event arrivals and entrance usage.
    - Company verification: Its product site identifies a Czech business operator; a separate corporate supplier identity is not established.

139. Digita, CoreGo and Nokia pioneer private 5G solutions to enhance connectivity and safety at major events - Digita
    - Company verification: Digita's February xx.xx 2026 announcement identifies Digita as the private-wireless connectivity participant in an event-operations collaboration with CoreGo and Nokia.
    - Company verification: The collaboration describes predictive crowd management but does not establish Digita as an independently licensed crowd-software supplier.
    - Company verification: CoreGo is named in the February xx.xx 2026 collaboration to develop event operations and safer crowd-management capabilities.
    - Company verification: The announcement does not establish CoreGo's precise crowd-software licensing attribution.
    - Company verification: Nokia is named in the collaboration, with RXRM software supporting real-time situational visibility.
    - Company verification: The announcement does not establish a separately marketed Nokia crowd-management analytics product.
140. SCAI - SCAI Motion
    - Company verification: Saudi Company for Artificial Intelligence identifies SCAI Motion as its commercial offering for crowd distribution, occupancy, pedestrian flow, congestion, and queue-related applications.
    - Company verification: The product page advertises local Saudi-hosted cloud deployment and event and sporting-venue use cases.
141. ADNEC Group partners with Presight to implement Pioneering AI-Powered Smart Venue Management within its operations
    - Company verification: Presight announced a March xx.xx 2026 memorandum with ADNEC Group covering ADNEC Centre Abu Dhabi and ADNEC Centre Al Ain.
    - Company verification: The announced relationship includes use of Presight's Intelli platform for visitor management and crowd monitoring; the announcement does not establish completed implementation.
142. Sagr | Crowd Management Platform for Events - Etlaq Company
    - Company verification: The Sagr commercial page identifies Etlaq Advanced Technologies Company in its copyright statement and provides a Riyadh business address.
    - Company verification: Sagr is advertised for participant-flow monitoring, live crowd information, interactive site maps, event communications, and analytics.
143. Services | ArrowTech Saudi Arabia
    - Company verification: Technical Arrow Technology Company advertises crowd-management and access-control systems for Saudi stadiums, events, amusement parks, and other high-traffic venues.
    - Company verification: The offering includes real-time entry and occupancy monitoring and centralized dashboards; the page identifies a Jeddah business address.
144. AI Crowd Analytics Solutions In UAE | People Counting & Queue Monitoring | Samco
    - Company verification: Samco advertises UAE crowd-analytics solutions addressing occupancy, queue lengths, density, visitor flow, and overcrowding alerts.
    - Company verification: Samco describes consultation, solution design, deployment, and ongoing support, establishing an advertised integration role rather than verified ownership of the underlying analytics software.
145. AerWatch® | AerVision Technologies
    - Company verification: AerVision Technologies markets AerWatch as a video-intelligence offering.
    - Company verification: Advertised functions include people-movement insights, heatmaps, crowd-related anomaly detection, and crowd-management applications.
146. People Counting and Crowd Analytics Qatar | AerWatch | QRTD
    - Company verification: QRTD identifies itself as AerVision's value-added distributor in Qatar and advertises AerWatch demonstrations, licensing, and partner support.
    - Company verification: The regional offering covers occupancy, visitor flow, queues, crowd density, and congestion; it does not establish a completed Qatari customer sale.

147. City-V - Ankara Zayıf Akım SCE INNOVATION
    - Company verification: SCE INNOVATION's City-V catalog advertises a real-time crowd-analysis platform for businesses, municipalities, transport-related applications, and public spaces.
    - Company verification: The page presents paid software plans and a Turkish distribution program; advertised availability is not treated as independently verified deployment.
148. DLS Intelligence - IBBVision
    - Company verification: IBBVision's DLS Intelligence page advertises video-intelligence software with crowd analysis, event management, and a web-based dashboard.
    - Company verification: The Turkish-language product record identifies shopping-center crowd analysis as a commercial application; it does not independently establish the supplier's registered legal identity or deployment base.
149. Özellikler · 100+ Yetenek · LalinSoft
    - Company verification: LalinSoft's Turkish-language feature catalog advertises crowd gathering, group formation, movement-direction analysis, and early warnings for dangerous crowding.
    - Company verification: The catalog presents these functions as available across its two product editions; independent commercial adoption is not established.
150. Yapay Zeka Tabanlı Video Analitiği | ALGI
    - Company verification: ALGI's substantive product presentation names Algi Edge and advertises a recurring-payment video-analytics platform.
    - Company verification: The advertised catalog includes crowd analysis, occupancy, heatmaps, and queue-related functions; legal supplier attribution and named customer adoption remain unresolved.
151. Sabeel | Infinity Solution
    - Company verification: The Sabeel product page identifies Infinity Solution and provides an Amman, Jordan business address.
    - Company verification: Sabeel is advertised as a pilgrim-services platform with movement heatmaps, density alerts, location information, and capacity-related analytics.
152. About V-Count - AI People Counting Company Since 2007
    - Company verification: V-Count's corporate record identifies its business as people-counting sensors and visitor-analytics software.
    - Company verification: The record supports a software-and-hardware supplier role, not a software-only revenue assessment.
153. #1 People Counting Systems & Solutions | V-Count
    - Company verification: V-Count advertises BoostBI crowding and queue alerts and VCare live occupancy.
    - Company verification: The product record connects its sensor portfolio to software reporting on occupancy, zones, dwell time, and heatmaps, supporting participation beyond basic footfall measurement.
154. Services | TAV Technologies
    - Company verification: TAV Technologies advertises passenger-flow management among its airport technology services.
    - Company verification: The offering includes real-time passenger movement monitoring, congestion identification, and passenger-flow prediction; the page does not independently establish a named deployment of this specific module.
155. Irisity Annual Report 2022
    - Company verification: Irisity's 2022 annual report includes crowd management within its video-analytics software portfolio.
    - Company verification: The same historical report identifies offices in Israel and the UAE; it does not establish that those offices or product arrangements remain current.
156. Baseer | Master Works
    - Company verification: Master Works maintains a commercial Baseer software portfolio with cloud and on-premises availability.
    - Company verification: The inspected catalog establishes the supplier-product relationship but does not substantiate a current crowd-specific Baseer module.

157. AvidBeam Showcases AI Analytics at Hajj Conference 2025
    - Company verification: AvidBeam maintains an official business announcement concerning its AI video-analytics promotion at Hajj Conference 2025.
    - Company verification: The record supports a regional promotional link, not a verified operational Hajj deployment or current customer count.
158. Queue Management System & Appointment Software | Skiplino
    - Company verification: Skiplino's commercial site identifies queue-management and appointment software.
    - Company verification: This establishes an adjacent software offering but does not by itself verify physical-crowd-control functionality or the current Bahrain contracting entity.
159. Retail - Cathexis
    - Company verification: Cathexis markets CathexisVision software with video analytics expressly addressing retail crowd management.
    - Company verification: The product page identifies an Africa office in South Africa.
160. Retail_2025 | Secutel Physical Security Technology
    - Company verification: Secutel Technologies markets SecuVue cloud analytics for people counting, queue monitoring, and activity heatmaps.
    - Company verification: The record establishes an advertised retail-software offering, not independently verified customer deployment.
161. AvidBeam at FDC Summit 2026: AI Video Analytics in Cairo | AvidBeam
    - Company verification: AvidBeam's September xx.xx 2026 announcement promoted its software portfolio for a September xx.xx-xx.xx event in Cairo.
    - Company verification: The advertised AvidGuard capabilities include crowd-density monitoring; the announcement does not establish attendance or an Egyptian paid deployment.
162. IntelexVision - AI Video Analytics
    - Company verification: IntelexVision directs users to Eluviant as the same team and technology under a new name.
    - Company verification: The inspected site markets video analytics including directional violations and crowd gathering and carries a South African customer testimonial.
    - Company verification: The site identifies Intelex Vision Ltd in its registered-office information.
163. Eluviant: AI Video Intelligence Platform
    - Company verification: The destination identified by IntelexVision presents the current Eluviant AI Video Intelligence Platform identity.
164. Edge AI & IoT - inq.
    - Company verification: inq. markets a Video AI Platform and Retail Analytics offering expressly including crowd management and aisle heatmaps.
    - Company verification: The record provides Johannesburg and Mauritius head-office addresses.
165. EDGE AI et IOT - inq.
    - Company verification: inq.'s Côte d'Ivoire catalog advertises crowd-management video analytics and real-time dashboards.
    - Company verification: The same record provides an Abidjan business address, establishing a local offering and contact path rather than confirmed local sales.
166. Syrate - Plateforme Africaine d'Intelligence Vidéo par IA Agentique
    - Company verification: SYRATE SARL identifies its business location as Dakar, Senegal.
    - Company verification: Its ServEYE platform catalog includes occupancy, queue monitoring, gathering and crowd formation, and public-space crowd applications.
    - Company verification: The site reports an infrastructure deployment in Senegal, without establishing independent corroboration or deployment of specific crowd modules.

167. Qme Solutions
    - Company verification: Qme Solutions advertises a digital queue-management application allowing customers to enter physical service queues before arrival.
    - Company verification: The offering expressly addresses branch traffic flow and identifies a Cairo head office.
168. Digital Event Ticketing in Morocco | E-Ticket Pro - Somayar
    - Company verification: Somayar markets E-Ticket Pro for events in Morocco.
    - Company verification: Its management interface reports attendance velocity and traffic by entrance in real time to support gate staffing and crowd-flow decisions.
169. Ensure everyone is where they're supposed to be with Howler's RFID access control solution | Howler
    - Company verification: Howler advertises RFID access-control software with live reporting of access movements.
    - Company verification: Festival-zone management supports unique and quantity-based access permissions.
170. General Service Terms | Howler
    - Company verification: Howler's service terms associate Howler and Nutickets trading names with one South African event-services supplier.
    - Company verification: The record provides a Johannesburg address and supports avoiding a separate Nutickets alias row.
171. People Counting System | People Counter | FootfallCam
    - Company verification: FootfallCam reports use at Jardin Majorelle in Marrakech to manage crowd flow and prevent overcrowding.
    - Company verification: Its Moroccan catalog identifies Analytic Manager software in a separate local deployment.
    - Company verification: These are supplier-reported deployments, not independent customer confirmations.
172. AI BASED VIDEO ANALYTICS | SEATech Systems
    - Company verification: Egyptian SEATech publicly catalogs i2V video-surveillance software and analytics.
    - Company verification: The catalog includes crowd-formation and occupancy alerts, queue analysis, and people-flow counting, establishing a regional channel representation rather than confirmed sales.
173. Swiss Core | AI Offsite Monitoring Software SA | Swiss Systems
    - Company verification: The inspected Swiss OMS address resolves to Swiss Systems' Swiss Core AI offsite-monitoring software page.
    - Company verification: This supports the current platform-name connection, not confirmation that the previously surfaced crowd functions remain available in the current package.
174. Shopping Mall CCTV: Face Recognition & Live Alerts | Sorveo
    - Company verification: Sorveo's inspected mall catalog states that people counting, occupancy, and queue analytics are not yet available and are on its near-term roadmap.
    - Company verification: Current presence detection is expressly distinguished from counting people.
    - Company verification: The supplier advertises support for malls in Nigeria, South Africa, Kenya, Ghana, Rwanda, and Egypt.
175. Rading Technologies - Enterprise Technology Solutions for Africa
    - Company verification: Rading Technologies advertises AI video analytics including crowd counting, centralized video management, and control-room dashboards.
    - Company verification: The services are presented among emerging capabilities and reference Kenyan business and compliance needs; no specific crowd-software deployment is established.
176. Kipacha Technologies Limited | ICT · Web & App · Solar · Hosting · Kenya
    - Company verification: Kipacha Technologies Limited advertises CCTV analytics including crowd counting within its Kenyan ICT and AI services.
    - Company verification: The record establishes an advertised service capability, not a separately licensed proprietary platform or independently confirmed deployment.

177. Projects - Knowledge Resources Africa
    - Company verification: Knowledge Resources Africa reports designing and implementing a Safe City surveillance and analytics project for an unnamed southwest Nigerian state.
    - Company verification: The reported integration includes crowd detection at public locations such as markets and transit hubs.
    - Company verification: The supplier's project description does not independently establish the buyer, award date, or underlying software ownership.
178. Dynamic Crowd Measurement - Solutions
    - Company verification: Dynamic Crowd Measurement advertises density, movement, and occupancy analytics for events, venues, smart cities, and transport hubs.
179. Measuring the mood of crowds to keep major events safe | Digital Trust Portal
    - Company verification: Sydney Olympic Park Authority identifies DCM as its partner in the Safer Crowded Places pilot.
    - Company verification: The authority describes the activity as a trial using analytics to support crowd safety, not a general commercial rollout.
180. Surveillance Solution - Sensen
    - Company verification: SenSen markets video-analytics software for occupancy monitoring, queue management, crowd analysis, and public-space crowd management.
    - Company verification: The offering page gives a South Melbourne, Australia business address.
181. Pioneering AI-based Video Analytics for Intelligent Cities
    - Company verification: The official-hosted Intel and iOmniscient solution brief identifies iOmniscient's software-based smart-city video analytics and crowd-management applications.
182. AI Powered Crowd Management - Datasheet v4.3
    - Company verification: The July 2021 crowd-management datasheet identifies AllGoVision Technologies Private Limited in Bangalore, India.
    - Company verification: It describes commercial software for crowd counts, overcrowding alerts, crowd-flow analysis, and counterflow detection.
183. Video Analytics Solution - AllGoVision.com
    - Company verification: AllGoVision's business page identifies Bangalore headquarters and markets crowd management within its video-analytics software portfolio.
184. Event Management
    - Company verification: Awiros markets an event-management platform with crowd estimation, crowd-inflow analytics, and operational dashboards.
    - Company verification: The page identifies Awiros as a registered trademark of Awidit Systems Pvt. Ltd.
185. Contact Us
    - Company verification: Awiros provides sales contact details and identifies a Gurugram headquarters address.
186. How Staqu's 'Jarvis' is securing RCB's home ground for crowd control - BusinessToday
    - Company verification: A March xx.xx 2026 report records an RCB partnership with Staqu Technologies involving JARVIS analytics for crowd control at M. Chinnaswamy Stadium.
    - Company verification: The report corroborates a dated engagement announcement, not the current status or scale of all subsequent operations.
187. Products | Trakomatic
    - Company verification: Trakomatic's product catalog identifies OCrowd and its Insights Portal within its visitor-behavior technology offering.
    - Company verification: The catalog describes cloud and on-premises processing options.
188. Shopper Analytics & Footfall Counting System | Trakomatic
    - Company verification: Trakomatic's detailed offering page advertises queue and waiting-time monitoring, occupancy and crowd monitoring, and event crowd-density services.
    - Company verification: OCrowd is presented as a named crowd-counting offering connected to operational insights.

189. About | Trakomatic
    - Company verification: Trakomatic identifies itself as a Singapore-based technology company supplying video analytics and a cloud insights portal.
190. AGIL Digital Twin - 3D Intelligence for Situational Awareness and Operational Efficiency
    - Company verification: ST Engineering markets AGIL Digital Twin as a real-time software platform for spatial operations.
    - Company verification: The brochure identifies people tracking, crowd analytics, and queue management among supported applications.
191. VACAN - Real-time Crowd Visualization & Digital Signage Platform, Japan
    - Company verification: VACAN markets a Japan-origin crowd-visualization platform combining congestion analytics with signage, maps, and mobile queuing.
    - Company verification: Its official page names Japanese retail, station, and arena applications as supplier-reported deployments.
192. 人流解析システム SafeFlow｜株式会社アスペリア
    - Company verification: 株式会社アスペリア advertises SafeFlow as its own people-flow analysis system.
    - Company verification: The product page connects density and movement analysis to event planning, crowd-related decisions, and discussions with authorities.
    - Company verification: The official SafeFlow product page identifies 株式会社アスペリア and uses ASPERIA CO.,LTD. in its English copyright notice, resolving the absence of an official English rendering without changing the protected company title.
    - Company verification: SafeFlow is advertised for people-flow and density analysis and event-planning support; the page describes analytical deliverables but does not establish separate external software licensing. ([asperia.jp](https://www.asperia.jp/product/safeflow/))
193. AI 混雑可視化システム「イマコミ」
    - Company verification: The Imakomi commercial page identifies Shobunsha Holdings as the inquiry contact.
    - Company verification: It advertises congestion and queue visualization for facilities, including restaurants and healthcare settings, to support visitor redistribution.
194. コンプレノ | 株式会社 Agoop
    - Company verification: Agoop markets Kompreno as a browser-based people-flow visualization and analysis tool for locations across Japan.
    - Company verification: Its stated functions include inflow/outflow analysis, congestion comparisons, and event or disaster-planning analysis.
195. About SenseTime
    - Company verification: SenseTime's current corporate page establishes its market-facing company identity and AI-software business.
196. Sela-SenseTime
    - Company verification: SenseTime's legacy Sela case identifies SenseXperience AI Video Analysis System and a crowd-analysis role for event operations.
    - Company verification: The described customer application is in Saudi Arabia and does not establish current Asia-Pacific sales.
197. 随申行-大客流保障解决方案
    - Company verification: The official page identifies the legal entity 上海随申行智慧交通科技有限公司 and publishes its stated unified social credit code.
    - Company verification: It offers passenger-flow monitoring, analysis, prediction, and warnings and describes a Shanghai Hongqiao hub application.
    - Company verification: The candidate title faithfully Romanizes the published Chinese legal name.

198. GV-AI Guard - Video Analytics - Video Management Software - Products - GeoVision
   - Company verification: GeoVision markets GV-AI Guard as video-management software with crowd detection for overcrowding and operator alerts.
199. AI Vision Analytics | Safeguard your assets and premises | V3 Smart Tech Malaysia
   - Company verification: V3's Malaysia-facing product page advertises AI Vision Analytics software with crowd counting and overcrowding detection.
200. On-Premise AI for Retail: Footfall, Heatmaps, Loss Prevention
   - Company verification: Nodeflux markets VisionAIre for live footfall, checkout-queue measurement, and shopper heatmaps.
   - Company verification: The product page explicitly addresses Indonesian and Southeast Asian retail applications.
201. Crowd Management System - Solusi Cerdas Kelola Keramaian - GSI Indonesia
   - Company verification: GSI's September xx.xx 2026 business article advertises a crowd-management system for Indonesian venues and transport facilities.
   - Company verification: Its stated offering includes density monitoring, dashboards, and crowd-related alerts; proprietary software ownership is not established.
202. Intelligent Video Analytics & AI-Driven Solutions
   - Company verification: Cylix Technologies, Inc. advertises integrated AI video-analytics solutions including crowd management.
   - Company verification: The page identifies its Philippine business address and contact details.
203. The Event Operating System | EEX
   - Company verification: EEX's Indonesia-facing software catalog advertises real-time crowd-density monitoring and access control across exhibition halls.
   - Company verification: The catalog supports an advertised platform role but does not resolve the underlying legal supplier.
204. ADDtix Malaysia | Event Ticketing & Crowd Management
   - Company verification: ADDtix's Malaysia-facing platform advertises crowd/capacity control and physical entry-queue management.
   - Company verification: The page promotes Malaysian availability but does not establish completed paid local deployments.
205. Online Event Management Software Malaysia 2026 - Evenesis
   - Company verification: Evenesis lists crowd management within its event-software ecosystem.
   - Company verification: The inspected material does not adequately distinguish physical density or flow management from event check-in and engagement functions.
206. e-ticketing2u - Your Event Registration & Ticketing Solution
   - Company verification: The e-ticketing2u offering identifies LCP Buildsoft Technology (M) Sdn Bhd as its Malaysian builder.
   - Company verification: It advertises software, real-time monitoring, mobile applications, and crowd-management support, without establishing detailed physical crowd functions.
207. Crowd counting - White paper and Installation guide, April 2026 | Hanwha Vision Support Portal
   - Company verification: Hanwha Vision's April 2026 documentation attributes crowd counting to WiseAI software and describes VMS monitoring and alarm integration.
   - Company verification: The documented role includes embedded camera analytics and does not establish separately licensed software revenue.
208. AI people counting software for real-time crowd monitoring
   - Company verification: AxxonSoft markets Crowd Estimation within Axxon One for real-time crowd monitoring and alerts in events, transportation hubs, and retail spaces.

209. SecurOS Tracking Kit - One Solution, 10 Detectors
   - Company verification: ISS identifies Crowd Detector within SecurOS Tracking Kit.
   - Company verification: The catalog offers the modules separately with third-party VMS platforms or packaged with SecurOS.
210. Visitor Management System - Qmatic
   - Company verification: Qmatic offers visitor-management software for limiting visitor numbers and managing physical visitor flow.
   - Company verification: Its Mobile Ticket offering permits remote waiting and live queue progress.
211. Wavetec's Toolkit for Black Friday Crowd Management
   - Company verification: Wavetec's October xx.xx 2023 commercial article offers its Queue Management System for retail crowd management and physical customer flow.
212. SimTread 2026｜無償提供プラグイン
   - Company verification: The Japanese SimTread 2026 catalog advertises pedestrian and crowd-flow simulation.
   - Company verification: The add-on is offered without an additional charge to qualifying Vectorworks commercial subscription or Service Select customers.
213. SimTread 使用許諾条件
   - Company verification: The published SimTread software license identifies Vectorworks, Inc. as a contracting licensor.
214. SimTread 製品版 使用許諾条件
   - Company verification: A separate published SimTread commercial license identifies Vectorworks Japan Co., Ltd.; regional contracting attribution therefore requires clarification.
215. NFL Draft - Meshh
   - Company verification: Meshh reports supplying movement and event-zone analytics for the 2023 NFL Draft, including crowd-flow, arrival, and dwell insights.
216. GHD develops new digital tool in collaboration with NEC to optimise event insights
   - Company verification: GHD's October xx.xx 2023 announcement identifies Show Insights as a digital tool developed with NEC Birmingham.
   - Company verification: The event-organizer dashboard integrates third-party data and provides venue-use and crowd-density insights.
217. Movement Strategies | Advisory | GHD
   - Company verification: GHD's Movement Strategies services identify SENSE as in-house pedestrian-modeling software used in transport and evacuation advisory work.
218. Artificial intelligence for traffic planning and safer surroundings | AFRY
   - Company verification: AFRY's November xx.xx 2019 announcement identifies Flowity as its product for analyzing movement of people and vehicles.
   - Company verification: The announcement identifies large-event crowd-flow and safety applications.
219. DEEP SOLUTIONS SOFTWARE, SL at Catalonia Industry Suppliers Directory
   - Company verification: The Catalonia government supplier directory identifies DEEP SOLUTIONS SOFTWARE, SL as a Barcelona software developer.
   - Company verification: Its listed offerings include crowd monitoring; the entry states that it was last updated in January 2022.
220. How Lauretta AI Turns Existing CCTV Into Operational Intelligence | Lauretta AI
   - Company verification: Lauretta AI's July xx.xx 2026 business article describes B-Sight Depth Perception and crowd count, density, movement, dashboard, and alert applications.
   - Company verification: The article attributes its external product description to a government survey; it does not establish independently verified current sales.

221. Crowd Analytics & People Counting for Events | CrowdSense
    - Company verification: CrowdSense's substantive product landing advertises event crowd analytics, occupancy dashboards, alerts, and connected displays.
    - Company verification: The inspected offering does not resolve the underlying legal contracting supplier.
222. AT&T Video Intelligence | Intelligent Video Surveillance Solutions
    - Company verification: AT&T maintains a specific Video Intelligence commercial offering page.
    - Company verification: This inspected record alone does not establish a crowd-specific software role.
223. Optimising Passenger Flow at Aberdeen International Airport with Beonic's AI-Powered Insights & LiDAR
    - Company verification: Beonic's March xx.xx 2025 Aberdeen International Airport case describes its platform for passenger flow, queues, occupancy, and congestion information.
224. Releases - Milestone Systems
    - Company verification: Milestone's inspected release index includes BriefCam software releases, including BriefCam 2025 R1.
    - Company verification: The release index is portfolio-continuity evidence, not a substitute for a crowd-specific product catalog.
225. Airport software | Xovis
    - Company verification: Xovis markets AERO as a managed airport passenger-flow solution combining its sensors with software, dashboards, queue analysis, and alerts.
226. accesso LoQueue Virtual Queuing System | accesso
    - Company verification: accesso markets LoQueue for virtual queuing at physical attractions, with live operational dashboards and queue-measurement functions.
227. Better Virtual Queuing: Improve the Passenger Experience
    - Company verification: Copenhagen Optimization directly markets Better Virtual Queuing for airport passenger arrivals, queue demand, and peak management.
228. Pedestrian Dynamics Release Notes
    - Company verification: InControl publishes Pedestrian Dynamics release notes identifying version xx.xx and its software release activity.
    - Company verification: The document does not independently establish current external licensing terms.
229. crowd:it download - accu:rate
    - Company verification: accu:rate's crowd:it page offers a starter license and states that users can purchase an appropriate license.
    - Company verification: The page identifies accu:rate GmbH and a Munich address.
230. Explore the crowd:it Plugin in Vectorworks
    - Company verification: A December xx.xx 2023 Vectorworks article documents accu:rate's crowd:it plugin and commercial access offer for Vectorworks customers.
    - Company verification: Vectorworks documents a design-platform integration route for the third-party crowd:it offering; this is not evidence that Vectorworks owns crowd:it.
231. Architecture | Mott MacDonald
    - Company verification: Mott MacDonald's architecture services describe STEPS as its tool for pedestrian simulation in infrastructure planning.
232. Sectors - Halo Solutions
    - Company verification: Halo offers a shared operational platform connecting security, safety, facilities, and external teams for complex multi-team environments.
    - Company verification: This establishes an advertised coordination role, not a confirmed crowd-density analytics product.
233. Wintics | AI Video Analytics Software
    - Company verification: Wintics' inspected portfolio identifies Wintics LIVE and applications including crowd movements, people counting, waiting-time estimation, and overcrowded-zone detection.

234. BEONIC UK LIMITED overview - Find and update company information - GOV.UK

- Company verification: Companies House lists BEONIC UK LIMITED, company xx.xx as active and records CROWDVISION LIMITED and CROWD VISION LIMITED as its previous names. This establishes UK legal continuity, not the entire Beonic group's ownership or current customer contracts. ([find-and-update.company-information.service.gov.uk](https://find-and-update.company-information.service.gov.uk/company/xx.xx))

235. HikCentral Professional AE Specification

- Company verification: The official HikCentral Professional AE Specification lists people-density analysis, queue analysis, occupancy monitoring, capacity limits, and capacity-related alarms within the named software platform. The undated specification does not establish current local sales or present licensing terms. ([pinfo.hikvision.com](https://pinfo.hikvision.com/hkwsen/unzip/20221117155452_63455_doc/pdf.pdf))

236. CLEAR Mobile - Predictable Airport Security | CLEAR

- Company verification: CLEAR currently advertises CLEAR Mobile as an app-enabled airport-lane service with purchasable date-specific passes and named participating airports.
- Company verification: The page states that no specific arrival time is required; CLEAR Mobile therefore should not be represented as proof that the historical RESERVE appointment product continues unchanged. ([clearme.com](https://www.clearme.com/clear-mobile))

237. CLEAR Mobile Terms | CLEAR

- Company verification: CLEAR Mobile's contractual terms identify Secure Identity, LLC and its affiliates as providers and describe the program as virtual-queuing services at participating locations.
- Company verification: The terms establish commercial ordering and payment arrangements, not independently attributable crowd-software revenue or a separately licensed airport software product. ([clearme.com](https://www.clearme.com/clear-mobile-terms))

238. Corporate information | Keenfinity Group I Global

- Company verification: Keenfinity Group's corporate information identifies Keenfinity GmbH in Munich and commercial-register entry HRB xx.xx.
- Company verification: The corporate notice establishes a legal business identity behind the group presentation, not the jurisdiction-specific Intelligent Insights contracting entity.

239. KEENFINITY Group | Intelligent Insights Base | IGI-BASE

- Company verification: Keenfinity's commercial catalog lists Intelligent Insights Base as a software license with crowd-level visualization, occupancy tracking, and flow visualization.
- Company verification: The page contains limited-stock and inconsistent availability indicators; the listing supports portfolio participation but not confirmed current order fulfillment or deployment continuity.

240. Smart Airport - G Element

- Company verification: G Element's Smart Airport page advertises NUCLEUS as a unified situational-management software platform incorporating queue alerts and information supporting passenger-crowd reduction.
- Company verification: The page identifies G Element Pte Ltd in its copyright notice and links a 2015 airport brochure; current licensing, deployment continuity, and contracting attribution remain unresolved.

241. Unified Security Management - G Element

- Company verification: G Element's NUCLEUS application description explicitly includes integration of video-content analytics concerning unusual crowd movement and crowd detection.
- Company verification: This supports an integrated software-platform role, not ownership of every upstream analytics component; third-party analyst claims elsewhere on the page are not used.

21. Key Experts

[redacted] Affiliations include software providers, AIT Austrian Institute of Technology, Delft University of Technology, Event Safety Alliance, and other research, professional, and commercial organizations. The listed professional affiliations span the Americas, Europe, Africa, the Middle East, and Asia-Pacific, providing geographic context for the represented expertise without establishing representative coverage of those regions.

Table 423. Global Crowd Management Software Market, Key Experts

Name	Professional Role	Organization	Country
Alex Bäcker	Co-founder and Former Chief Executive Officer	QLess	United States
Alexandre de Lima Bicho	Professor, Center for Computational Sciences	Federal University of Rio Grande (FURG)	Brazil
Alexei Agratchev	Co-founder and Chief Executive Officer	RetailNext	United States
Allen Chew	Co-founder	Trakomatic	Singapore
Anders Johansson	Professor of Intelligent Transport Systems	University of Bristol	United Kingdom
Andreas Schadschneider	Professor of Theoretical Physics	University of Cologne	Germany
Andrew Farah	Co-founder and Chief Executive Officer	Density	United States
Angelika Kneidl	Co-founder and Managing Director	accu:rate GmbH	Germany
Ankit Raj	Co-founder and Chief Technology Officer	Staqu Technologies	India
Anne Templeton	Senior Lecturer in Social Psychology	University of Edinburgh	United Kingdom
Armin Seyfried	Professor of Computer Simulation for Fire Safety and Pedestrian Traffic	University of Wuppertal	Germany
Arun Nair	Co-founder and Chief Technology Officer	RetailNext	United States
Asaf Birenzvieg	Co-founder and Chief Executive Officer	viisights	Israel
Ashish Verma	Professor of Transportation Systems Engineering	Indian Institute of Science	India
Ashwin Amarapur	Co-founder and Chief Executive Officer	AllGoVision	India

Table 423 - continued

Name	Professional Role	Organization	Country
Atul Rai	Co-founder and Chief Executive Officer	Staqu Technologies	India
Avinash Trivedi	Vice President, Business Development	Videonetics	India
Ben Redfield	Co-founder	Density	United States
Billy Tucker	Chief Executive Officer	Beonic	Australia
Brandon Duffield	Managing Director	Ticketpro	South Africa
Chris Kemp	Founder and Chief Executive Officer	Mind Over Matter Consultancy	United Kingdom
Chris Lord	Co-founder and Chief Technology Officer	Lambent	United States
Christoffer Klemming	Co-founder and Chief Executive Officer	Waitwhile	United States
Claudio O. Dorso	Professor and computational-physics researcher	University of Buenos Aires	Argentina
Claudio Rosito Jung	Professor, Institute of Informatics	Federal University of Rio Grande do Sul (UFRGS)	Brazil
Clifford Stott	Professor of Social Psychology	Keele University	United Kingdom
Cédric Hutchings	Co-founder and Chief Executive Officer	Outsight	France
Daichi Yanagisawa	Associate Professor, Research Center for Advanced Science and Technology	The University of Tokyo	Japan
Daniel Blanc	Co-founder and CEO	Zig	Brazil
Daniel Nilsson	Professor of Fire Engineering	University of Canterbury	New Zealand
Daniel R. Parisi	Professor and pedestrian- and crowd-dynamics researcher	Buenos Aires Institute of Technology (ITBA)	Argentina
Daniel Swenson	Co-founder	Thunderhead Engineering	United States
David Gordon	Co-founder and Chief Executive Officer	Kepler Analytics	Australia
David Mah	Co-founder and Managing Director	Kepler Analytics	Australia
David Studer	Co-founder and Former Chief Executive Officer	Xovis AG	Switzerland
Dinesh Manocha	Professor of Computer Science and Electrical and Computer Engineering	University of Maryland	United States
Dirk Helbing	Professor of Computational Social Science	ETH Zurich	Switzerland

Table 423 - continued

Contributors

Shikha Sachan
Chief Executive Officer

A transformational leader with a strong focus on integrating new technology frameworks into market research. She focuses on reshaping business models in line with evolving technologies and geopolitical shifts, while actively engaging with decision-makers and experts to deliver trustworthy insights, strategic clarity, and lasting business value.

Shraddha Bhirud
Research Manager

With extensive experience in market intelligence, leads complex client engagements by overseeing multiple research projects from initiation to delivery. Strengthens research operations timely through standardized methods, process optimization, and cross-functional collaboration while supporting sales initiatives. Her commitment to quality, and client success ensures the delivery of actionable insights.

Shailesh Sachan
Research Lead

Leads market intelligence projects by guiding research analysts and ensuring accurate, insight-driven deliverables. Specializes in competitive benchmarking, market assessment, research planning, data validation, and project execution. Delivers high-quality outcomes through effective client coordination, structured workflows, and consistent adherence to project timelines and quality standards.

Vivek Paymode
Research Lead

Oversees end-to-end research engagements by mentoring analysts and delivering reliable market intelligence. Specializes in industry analysis, company profiling, trend evaluation, opportunity assessment, and quality assurance. Collaborates closely with clients and internal teams to ensure actionable insights that support informed strategic business decisions.

360iResearch

Founded in 2017, 360iResearch is a market research and business consulting company headquartered in India, with clients and focus markets spanning the globe.

We are a dynamic, nimble company that believes in carving ambitious, purposeful goals and achieving them with the backing of our greatest asset - our people.

Quick on our feet, we have our ear to the ground when it comes to market intelligence and volatility. Our market intelligence is diligent, real-time and tailored to your needs, and arms you with all the insight that empowers strategic decision-making.

Our clientele encompasses about 80% of the Fortune Global 500, and leading consulting and research companies and academic institutions that rely on our expertise in compiling data in niche markets. Our meta-insights are intelligent, impactful and infinite, and translate into actionable data that support your quest for enhanced profitability, tapping into niche markets, and exploring new revenue opportunities.
