- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))

10. IFC Supports IPT PowerTech to Deliver Clean Telecom Power Across Ethiopia, Liberia, and Sierra Leone
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: IFC's March 2026 announcement establishes financing support for IPT's telecom-energy expansion in Ethiopia, Liberia and Sierra Leone. Financing is an expansion indicator, not completed deployment or attributable backup-fee revenue. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing the 2029 market-value input; displayed series and growth include calculations: The financed expansion supports consideration of managed delivery, while global served-site counts and backup-only fees remain assumptions. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
11. Fingrid - How to Participate in the Reserve Markets
    - Evidence informing the 2032 market-value input; displayed series and growth include calculations: Fingrid's participation conditions establish contractual and permission gates for Finnish reserve markets. They support retaining an access constraint rather than assuming every backup asset earns additional energy-market revenue. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Applicable owner permission and market agreements are commercial access gates. They constrain forecast mixed-duty adoption without measuring its Global percentage. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))

12. China Tower announces 2025 annual results - March 18, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Disclosed 2025 physical tower-site stock constrains the regional network pool; destination demand is modeled, not manufacturing-based.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Disclosed 2025 physical tower-site stock constrains the regional network pool; destination demand is modeled, not manufacturing-based.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: China Tower reports xx.xx tower sites at year-end 2025, an installed-stock input rather than annual battery sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: China Tower reports xx.xx tower sites at year-end 2025, an installed-stock input rather than annual battery sales.
13. Government of India, Department of Telecommunications - Telecom Statistics India 2025, international comparison tables
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Country tables constrain the starting connectivity pools; attachment, prices and forecasts remain assumptions.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Country tables constrain the starting connectivity pools; attachment, prices and forecasts remain assumptions.
14. Australian Government - Mobile Network Hardening Program
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Operator-specific battery upgrades and mixed hardening measures support localized Australian procurement, not a regional battery mandate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Operator-specific battery upgrades and mixed hardening measures support localized Australian procurement, not a regional battery mandate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The limited Australian program qualifies extrapolation of resilience funding across Asia-Pacific.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
15. OECD - High-capacity broadband networks gain ground across OECD, October 13, 2026
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: High mature-market fibre adoption is retained as a saturation counterforce to the purchasing forecast.
16. PowerSafe SBS Batteries | EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
17. Vertiv NetSure M Series
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.

18. Ofcom - Network and Service Resilience Guidance for Communications Providers, June 16, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: June 2026 guidance identifies approximately four hours as good practice for active fixed-access cabinets. This supports a conditional Extended purchasing shift, not completed orders or a Global mandate. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/network-and-service-resilience-guidance-for-communications-providerspdf?v=xx.xx))
19. Technology and Tools | First Responder Network Authority
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
20. BT - Digital Voice for Business Service Schedule, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
21. Los Angeles Metro - Board Report 2024-1128, UPS Battery Replacement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.

22. ETSI EN 300 019-1-3 V3.1.1 - Stationary Use at Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
23. ETSI EN 300 019-1-4 V3.1.1 - Stationary Use at Non-Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.
24. DC Power Plant / Rectifiers - UPS Rental
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.

25. Helios Towers - Full Year Results 2025, March 12, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
26. Telecommunications | Aggreko US
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
27. EnerSys PowerSafe SBS Front Terminal Batteries | Alpine Power Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
28. DC Power Services | Vertiv
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.

29. Shuangdeng Group Co., Ltd. - Global Offering Prospectus, August 18, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
30. Amara Raja Crosses 1 GWh Lithium Storage Deployment Powering India's Telecom Networks
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
31. Central Office Power Systems - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

32. PowerSafe OPzV Batteries - EnerSys

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix.
([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix.
([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

33. Bolloré - 2017 Registration Document

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value.
([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value.
([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

34. Bolloré - Business Report 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used.
([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used.
([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal.
([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal.
([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

35. AT&T to Replace U-Verse Cabinet Batteries - Fierce Network, January 15, 2008

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator.
([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator.
([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

36. PowerSafe NiCd Batteries - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
37. FDK Ni-MH Battery Is Chosen for the Cellect 600 Product of Alpha Technologies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
38. Products - Encell Technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
39. Telecom/5G - ZAF Energy Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
40. HORIEN Salt Battery Solutions and Inlyte Energy Announce a Strategic Partnership
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
41. Energy Backup - Phinergy
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))

42. Australian Flow Batteries - RFB40X Series

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))

43. PowerReserve - Verizon Residential Accessories

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))

44. Alkaline Manganese Dioxide Handbook and Application Manual - Energizer

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))

45. ITU-T Work Programme - Aqueous Zinc-Based Battery Systems for Base Station Applications

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The aqueous-zinc base-station work item is Under study with December 2027 timing. It constrains the forecast commercialization assumption but establishes neither approval nor customer purchases. ([itu.int](https://www.itu.int/itu-t/workprog/wp_item.aspx?isn=xx.xx))

46. ITU-T L.1397 - Battery System with Integrated Control and Monitoring Information Model

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))

47. ETSI EN 300 132-1 V2.2.1 - ICT Power Supply Interface: Alternating Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
48. ETSI EN 300 132-2 V2.8.1 - ICT Power Supply Interface: Direct Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
49. Vertiv NetSure Inverter Series - Converged AC and DC Power System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))

50. ETSI EN 302 099 V2.2.1 - Powering of Equipment in Access Network
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))

51. Set Up Your Battery Backup - AT&T G.Fast Service with BGW210

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

52. DNA Tower Offers Battery Capacity in Electricity Reserve Markets with Elisa DES

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

53. Case Elisa: Virtual Power Plant in the Telecom Industry

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company case reports over 2,000 aggregated sites and approximately xx.xx MWh. This is an installed commercial scale check, not annual purchasing value or Global prevalence. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/customer-stories/elisacase))

19.2. Europe

Table 250. Europe Telecom Battery Backup System Market, by Country growth contribution, 2025-2032

Category	2025 value (USD Million)	2032 value (USD Million)	Added value (USD Million)	2025 share (%)	2032 share (%)	Change (pp)	Growth share (%)	CAGR (%)
Austria	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Belgium	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx

Intermediate-Duration Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Short-Duration Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Sources & Evidence

1. China Tower - 2025 Annual Results, March 18, 2026
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosed spending slowdown is a counterforce used in the restrained 2026 purchasing assumption, not an observation of 2026 global revenue. ([ir.china-tower.com](https://ir.china-tower.com/en/ir/presentation/pre260318.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
2. Broadband Commission - The State of Broadband: Our Digital World, 2025
   - Evidence informing the 2032 market-value input; displayed series and growth include calculations: The fixed-broadband pool supports the premises-demand model, with future adoption and replacement assumptions remaining modeled. ([itu.int](https://www.itu.int/dms_pub/itu-s/opb/pol/s-pol-broadband.xx.xx-2025-pdf-e.pdf))

3. Battery Backup - Meriwether Lewis Electric Cooperative
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The provider distinguishes voice-only protection from combined voice-and-internet protection, supporting service-specific rather than universal premises adoption assumptions. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
4. EnerSys 2026 Proxy Statement and Annual Report
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Fiscal 2026 segment growth included data-center and industrial demand and communications mix effects. It is not accepted as a telecom-only global growth rate. ([s206.q4cdn.com](https://s206.q4cdn.com/xx.xx/files/doc_financials/2026/ar/b317caf6-56f8-42fa-bea1-bf685eb4132a.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.

5. Shuangdeng Group Co., Ltd. - Annual Results Announcement for the Year Ended December 31, 2025
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The telecom-specific decline is a counterweight to using broad energy-storage growth as the 2026 market forecast. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))
6. Amara Raja Energy & Mobility - Q2/H1 FY2026 Earnings Presentation, November 6, 2025
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Amara Raja subsequently reported more than xx.xx MWh of telecom volumes in its second quarter of fiscal 2026. This commercial shipment aggregate provides counterevidence to treating lead-acid weakness as disappearance of telecom backup demand. ([amararajaeandm.com](https://www.amararajaeandm.com/Files/FinancialResults/2025/Earningspresentation06112025.pdf))
7. IHS Holding Limited - First-Quarter 2026 Financial Statements
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosure supports a continuing replacement mechanism, but supplies no isolated global battery spending or replacement-cycle measurement. ([ihstowers.com](https://www.ihstowers.com/content/dam/ihs/corporate/documents/investors/earnings-materials/2026/IHS_Holding_Limited_1Q26_Financial_Statements.pdf.downloadasset.pdf))

8. Ofcom - Mobile RAN Power Resilience: Technical Report and CFI Update, February 2025
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom estimated UK-wide one-hour battery-backup alternatives at GBP1.xx.xx-xx.xx in 2024 prices, including capital expenditure and multiple years of operating costs. This is a jurisdictional scenario, not realized annual battery revenue. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
   - Evidence informing the 2032 market-value input; displayed series and growth include calculations: The costed alternatives constrain the commercial significance and limitations of resilience upgrades; their existence does not establish forecast implementation. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Uneven existing UK backup coverage and costed multi-year alternatives constrain adoption and purchasing assumptions.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Uneven existing UK backup coverage and costed multi-year alternatives constrain adoption and purchasing assumptions.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Jurisdiction-specific resilience economics qualify a uniform Europe-wide demand uplift.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

9. Ofcom - Your Landline Is Going Digital: What You Need to Know

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom describes provider-funded backup eligibility for landline-dependent customers lacking a working mobile phone or reliable mobile signal. Eligibility is narrower than the total broadband customer pool. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The eligibility boundary supports conditional premises adoption, not a universal entitlement or a quantified global take-up rate. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))

10. IFC Supports IPT PowerTech to Deliver Clean Telecom Power Across Ethiopia, Liberia, and Sierra Leone
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: IFC's March 2026 announcement establishes financing support for IPT's telecom-energy expansion in Ethiopia, Liberia and Sierra Leone. Financing is an expansion indicator, not completed deployment or attributable backup-fee revenue. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing the 2029 market-value input; displayed series and growth include calculations: The financed expansion supports consideration of managed delivery, while global served-site counts and backup-only fees remain assumptions. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
11. Fingrid - How to Participate in the Reserve Markets
    - Evidence informing the 2032 market-value input; displayed series and growth include calculations: Fingrid's participation conditions establish contractual and permission gates for Finnish reserve markets. They support retaining an access constraint rather than assuming every backup asset earns additional energy-market revenue. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reserve-market permissions and participation agreements establish an access constraint; no telecom-battery reserve-income uplift is included.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Applicable owner permission and market agreements are commercial access gates. They constrain forecast mixed-duty adoption without measuring its Global percentage. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
12. Government of India, Department of Telecommunications - Telecom Statistics India 2025, international comparison tables
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Country connectivity scale and reporting discontinuities constrain European proxy estimates.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Country connectivity scale and reporting discontinuities constrain European proxy estimates.

13. Cellnex - Integrated Annual Report 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Country-specific telecom site portfolios constrain European network-footprint estimates; broadcasting sites are separately identified.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Country-specific telecom site portfolios constrain European network-footprint estimates; broadcasting sites are separately identified.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: French telecom site portfolio anchors part of the modeled national installed footprint.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: French telecom site portfolio anchors part of the modeled national installed footprint.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Italian telecom site portfolio constrains the national network pool.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Italian telecom site portfolio constrains the national network pool.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: UK sites and upgrade activity provide a commercial footprint, not total battery purchasing.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: UK sites and upgrade activity provide a commercial footprint, not total battery purchasing.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Polish site portfolio supports country-specific network activity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Polish site portfolio supports country-specific network activity.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Danish site portfolio constrains the small-country footprint bridge.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Danish site portfolio constrains the small-country footprint bridge.
14. OECD - High-capacity broadband networks gain ground across OECD, October 13, 2026
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Observed mature-market connectivity growth and differing fibre/5G adoption constrain replacement and expansion assumptions.
15. PowerSafe SBS Batteries | EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
16. Vertiv NetSure M Series
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.

17. Ofcom - Network and Service Resilience Guidance for Communications Providers, June 16, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: June 2026 guidance identifies approximately four hours as good practice for active fixed-access cabinets. This supports a conditional Extended purchasing shift, not completed orders or a Global mandate. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/network-and-service-resilience-guidance-for-communications-providerspdf?v=xx.xx))
18. Technology and Tools | First Responder Network Authority
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
19. Mobile Network Hardening Program | Australian Department of Infrastructure
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
20. BT - Digital Voice for Business Service Schedule, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
21. Los Angeles Metro - Board Report 2024-1128, UPS Battery Replacement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.

22. ETSI EN 300 019-1-3 V3.1.1 - Stationary Use at Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
23. ETSI EN 300 019-1-4 V3.1.1 - Stationary Use at Non-Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.
24. DC Power Plant / Rectifiers - UPS Rental
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.

25. Helios Towers - Full Year Results 2025, March 12, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
26. Telecommunications | Aggreko US
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
27. EnerSys PowerSafe SBS Front Terminal Batteries | Alpine Power Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
28. DC Power Services | Vertiv
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.

29. Shuangdeng Group Co., Ltd. - Global Offering Prospectus, August 18, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
30. Amara Raja Crosses 1 GWh Lithium Storage Deployment Powering India's Telecom Networks
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
31. Central Office Power Systems - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

32. PowerSafe OPzV Batteries - EnerSys

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix.
([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix.
([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

33. Bolloré - 2017 Registration Document

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value.
([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value.
([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

34. Bolloré - Business Report 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used.
([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used.
([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal.
([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal.
([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

35. AT&T to Replace U-Verse Cabinet Batteries - Fierce Network, January 15, 2008

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator.
([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator.
([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

36. PowerSafe NiCd Batteries - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
37. FDK Ni-MH Battery Is Chosen for the Cellect 600 Product of Alpha Technologies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
38. Products - Encell Technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
39. Telecom/5G - ZAF Energy Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
40. HORIEN Salt Battery Solutions and Inlyte Energy Announce a Strategic Partnership
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
41. Energy Backup - Phinergy
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))

42. Australian Flow Batteries - RFB40X Series

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))

43. PowerReserve - Verizon Residential Accessories

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))

44. Alkaline Manganese Dioxide Handbook and Application Manual - Energizer

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))

45. ITU-T Work Programme - Aqueous Zinc-Based Battery Systems for Base Station Applications

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The aqueous-zinc base-station work item is Under study with December 2027 timing. It constrains the forecast commercialization assumption but establishes neither approval nor customer purchases. ([itu.int](https://www.itu.int/itu-t/workprog/wp_item.aspx?isn=xx.xx))

46. ITU-T L.1397 - Battery System with Integrated Control and Monitoring Information Model

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))

47. ETSI EN 300 132-1 V2.2.1 - ICT Power Supply Interface: Alternating Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
48. ETSI EN 300 132-2 V2.8.1 - ICT Power Supply Interface: Direct Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
49. Vertiv NetSure Inverter Series - Converged AC and DC Power System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))

50. ETSI EN 302 099 V2.2.1 - Powering of Equipment in Access Network
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))

51. Set Up Your Battery Backup - AT&T G.Fast Service with BGW210

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

52. DNA Tower Offers Battery Capacity in Electricity Reserve Markets with Elisa DES

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

53. Case Elisa: Virtual Power Plant in the Telecom Industry

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company case reports over 2,000 aggregated sites and approximately xx.xx MWh. This is an installed commercial scale check, not annual purchasing value or Global prevalence. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/customer-stories/elisacase))

19.3. North America

Table 271. North America Telecom Battery Backup System Market, by Country growth contribution, 2025-2032

Category	2025 value (USD Million)	2032 value (USD Million)	Added value (USD Million)	2025 share (%)	2032 share (%)	Change (pp)	Growth share (%)	CAGR (%)
Canada	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Mexico	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
United States	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Scope total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 272. North America Telecom Battery Backup System Market Size, by Region, 2017-2032 (USD Million)

Region	2023	2024	2025	2026	2027	2032	CAGR (%)
Canada	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Mexico	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
United States	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 273. North America Telecom Battery Backup System Market Size, by Offering, 2017-2032 (USD Million)

Offering	2023	2024	2025	2026	2027	2032	CAGR (%)
Battery Units and Assemblies	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Complete Backup Systems	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 290. North America Telecom Battery Backup System Market Size, by Backup Duty, 2017-2032 (USD Million)

Backup Duty	2023	2024	2025	2026	2027	2032	CAGR (%)
Backup with Energy Management	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Reserve-Only Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 291. North America Telecom Battery Backup System Market Size, by Backup Autonomy, 2017-2032 (USD Million)

Backup Autonomy	2023	2024	2025	2026	2027	2032	CAGR (%)
Day-Scale Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Extended-Duration Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Intermediate-Duration Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Short-Duration Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Sources & Evidence

1. China Tower - 2025 Annual Results, March 18, 2026
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosed spending slowdown is a counterforce used in the restrained 2026 purchasing assumption, not an observation of 2026 global revenue. ([ir.china-tower.com](https://ir.china-tower.com/en/ir/presentation/pre260318.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
2. Broadband Commission - The State of Broadband: Our Digital World, 2025
   - Evidence informing the 2032 market-value input; displayed series and growth include calculations: The fixed-broadband pool supports the premises-demand model, with future adoption and replacement assumptions remaining modeled. ([itu.int](https://www.itu.int/dms_pub/itu-s/opb/pol/s-pol-broadband.xx.xx-2025-pdf-e.pdf))

3. Battery Backup - Meriwether Lewis Electric Cooperative
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The provider distinguishes voice-only protection from combined voice-and-internet protection, supporting service-specific rather than universal premises adoption assumptions. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
4. EnerSys 2026 Proxy Statement and Annual Report
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Fiscal 2026 segment growth included data-center and industrial demand and communications mix effects. It is not accepted as a telecom-only global growth rate. ([s206.q4cdn.com](https://s206.q4cdn.com/xx.xx/files/doc_financials/2026/ar/b317caf6-56f8-42fa-bea1-bf685eb4132a.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.

5. Shuangdeng Group Co., Ltd. - Annual Results Announcement for the Year Ended December 31, 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: The telecom-specific decline is a counterweight to using broad energy-storage growth as the 2026 market forecast. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

6. Amara Raja Energy & Mobility - Q2/H1 FY2026 Earnings Presentation, November 6, 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: Amara Raja subsequently reported more than xx.xx MWh of telecom volumes in its second quarter of fiscal 2026. This commercial shipment aggregate provides counterevidence to treating lead-acid weakness as disappearance of telecom backup demand. ([amararajaeandm.com](https://www.amararajaeandm.com/Files/FinancialResults/2025/Earningspresentation06112025.pdf))

7. IHS Holding Limited - First-Quarter 2026 Financial Statements

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosure supports a continuing replacement mechanism, but supplies no isolated global battery spending or replacement-cycle measurement. ([ihstowers.com](https://www.ihstowers.com/content/dam/ihs/corporate/documents/investors/earnings-materials/2026/IHS_Holding_Limited_1Q26_Financial_Statements.pdf.downloadasset.pdf))

8. Ofcom - Mobile RAN Power Resilience: Technical Report and CFI Update, February 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom estimated UK-wide one-hour battery-backup alternatives at GBP1.xx.xx-xx.xx in 2024 prices, including capital expenditure and multiple years of operating costs. This is a jurisdictional scenario, not realized annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing the 2032 market-value input; displayed series and growth include calculations: The costed alternatives constrain the commercial significance and limitations of resilience upgrades; their existence does not establish forecast implementation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

9. Ofcom - Your Landline Is Going Digital: What You Need to Know

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom describes provider-funded backup eligibility for landline-dependent customers lacking a working mobile phone or reliable mobile signal. Eligibility is narrower than the total broadband customer pool. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The eligibility boundary supports conditional premises adoption, not a universal entitlement or a quantified global take-up rate. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))

10. IFC Supports IPT PowerTech to Deliver Clean Telecom Power Across Ethiopia, Liberia, and Sierra Leone
- Evidence informing the 2026 market-value input; displayed series and growth include calculations: IFC's March 2026 announcement establishes financing support for IPT's telecom-energy expansion in Ethiopia, Liberia and Sierra Leone. Financing is an expansion indicator, not completed deployment or attributable backup-fee revenue. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
- Evidence informing the 2029 market-value input; displayed series and growth include calculations: The financed expansion supports consideration of managed delivery, while global served-site counts and backup-only fees remain assumptions. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.

11. Fingrid - How to Participate in the Reserve Markets
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: Fingrid's participation conditions establish contractual and permission gates for Finnish reserve markets. They support retaining an access constraint rather than assuming every backup asset earns additional energy-market revenue. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Applicable owner permission and market agreements are commercial access gates. They constrain forecast mixed-duty adoption without measuring its Global percentage. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))

12. Government of India, Department of Telecommunications - Telecom Statistics India 2025, international comparison tables
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Country telecom-connectivity tables constrain customer and installed-network allocation proxies.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Country telecom-connectivity tables constrain customer and installed-network allocation proxies.

13. American Tower Corporation - Annual Report on Form 10-K for 2025
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Mandatory national site inventories provide footprint checks; tower rent and data centers are not included as battery revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Mandatory national site inventories provide footprint checks; tower rent and data centers are not included as battery revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: US owned/operated towers are a disclosed company footprint, not a verified national inventory.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: US owned/operated towers are a disclosed company footprint, not a verified national inventory.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Mexican tower inventory constrains the local network-stock bridge.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Mexican tower inventory constrains the local network-stock bridge.

14. CPUC Requires Wireless Companies to Better Serve Customers in Emergencies - July 16, 2020
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: A location-specific backup obligation supports a compliance purchasing context, not a nationwide battery-only spending percentage.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A location-specific backup obligation supports a compliance purchasing context, not a nationwide battery-only spending percentage.

15. CRTC - Request for Information on Telecommunications Network Resiliency, May 12, 2026
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The information request seeks evidence on possible backup requirements and customer equipment costs; it is not an enacted national procurement program.

16. FCC - Internet Access Services: Status as of December 31, 2024, official state-government-hosted copy
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: National residential/business and fixed/mobile connections constrain the US customer perimeter, but not state equipment-purchasing attribution.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: National residential/business and fixed/mobile connections constrain the US customer perimeter, but not state equipment-purchasing attribution.

17. PowerSafe SBS Batteries | EnerSys
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.

18. Vertiv NetSure M Series
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.

19. Ofcom - Network and Service Resilience Guidance for Communications Providers, June 16, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: June 2026 guidance identifies approximately four hours as good practice for active fixed-access cabinets. This supports a conditional Extended purchasing shift, not completed orders or a Global mandate. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/network-and-service-resilience-guidance-for-communications-providerspdf?v=xx.xx))
20. Technology and Tools | First Responder Network Authority
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
21. Mobile Network Hardening Program | Australian Department of Infrastructure
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
22. BT - Digital Voice for Business Service Schedule, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
23. Los Angeles Metro - Board Report 2024-1128, UPS Battery Replacement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.

24. ETSI EN 300 019-1-3 V3.1.1 - Stationary Use at Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
25. ETSI EN 300 019-1-4 V3.1.1 - Stationary Use at Non-Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.
26. DC Power Plant / Rectifiers - UPS Rental
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.

27. Helios Towers - Full Year Results 2025, March 12, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
28. Telecommunications | Aggreko US
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
29. EnerSys PowerSafe SBS Front Terminal Batteries | Alpine Power Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
30. DC Power Services | Vertiv
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.

31. Shuangdeng Group Co., Ltd. - Global Offering Prospectus, August 18, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
32. Amara Raja Crosses 1 GWh Lithium Storage Deployment Powering India's Telecom Networks
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
33. Central Office Power Systems - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

34. PowerSafe OPzV Batteries - EnerSys

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

35. Bolloré - 2017 Registration Document

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

36. Bolloré - Business Report 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

37. AT&T to Replace U-Verse Cabinet Batteries - Fierce Network, January 15, 2008

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

38. PowerSafe NiCd Batteries - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
39. FDK Ni-MH Battery Is Chosen for the Cellect 600 Product of Alpha Technologies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
40. Products - Encell Technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
41. Telecom/5G - ZAF Energy Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
42. HORIEN Salt Battery Solutions and Inlyte Energy Announce a Strategic Partnership
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
43. Energy Backup - Phinergy
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))

44. Australian Flow Batteries - RFB40X Series

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))

45. PowerReserve - Verizon Residential Accessories

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))

46. Alkaline Manganese Dioxide Handbook and Application Manual - Energizer

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))

47. ITU-T Work Programme - Aqueous Zinc-Based Battery Systems for Base Station Applications

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The aqueous-zinc base-station work item is Under study with December 2027 timing. It constrains the forecast commercialization assumption but establishes neither approval nor customer purchases. ([itu.int](https://www.itu.int/itu-t/workprog/wp_item.aspx?isn=xx.xx))

48. ITU-T L.1397 - Battery System with Integrated Control and Monitoring Information Model

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))

49. ETSI EN 300 132-1 V2.2.1 - ICT Power Supply Interface: Alternating Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
50. ETSI EN 300 132-2 V2.8.1 - ICT Power Supply Interface: Direct Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
51. Vertiv NetSure Inverter Series - Converged AC and DC Power System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))

52. ETSI EN 302 099 V2.2.1 - Powering of Equipment in Access Network
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))

53. Set Up Your Battery Backup - AT&T G.Fast Service with BGW210

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

54. DNA Tower Offers Battery Capacity in Electricity Reserve Markets with Elisa DES

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

55. Case Elisa: Virtual Power Plant in the Telecom Industry

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company case reports over 2,000 aggregated sites and approximately xx.xx MWh. This is an installed commercial scale check, not annual purchasing value or Global prevalence. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/customer-stories/elisacase))

19.4. Africa

Table 292. Africa Telecom Battery Backup System Market, by Country growth contribution, 2025-2032

Category	2025 value (USD Million)	2032 value (USD Million)	Added value (USD Million)	2025 share (%)	2032 share (%)	Change (pp)	Growth share (%)	CAGR (%)
Egypt	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Kenya	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Nigeria	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
South Africa	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Unallocated / remaining scope	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Scope total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Backup Duty	2023	2024	2025	2026	2027	2032	CAGR (%)
Backup with Energy Management	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Reserve-Only Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 312. Africa Telecom Battery Backup System Market Size, by Backup Autonomy, 2017-2032 (USD Million)

Backup Autonomy	2023	2024	2025	2026	2027	2032	CAGR (%)
Day-Scale Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Extended-Duration Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Intermediate-Duration Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Short-Duration Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Sources & Evidence

1. China Tower - 2025 Annual Results, March 18, 2026
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosed spending slowdown is a counterforce used in the restrained 2026 purchasing assumption, not an observation of 2026 global revenue. ([ir.china-tower.com](https://ir.china-tower.com/en/ir/presentation/pre260318.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
2. Broadband Commission - The State of Broadband: Our Digital World, 2025
   - Evidence informing the 2032 market-value input; displayed series and growth include calculations: The fixed-broadband pool supports the premises-demand model, with future adoption and replacement assumptions remaining modeled. ([itu.int](https://www.itu.int/dms_pub/itu-s/opb/pol/s-pol-broadband.xx.xx-2025-pdf-e.pdf))

3. Battery Backup - Meriwether Lewis Electric Cooperative
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The provider distinguishes voice-only protection from combined voice-and-internet protection, supporting service-specific rather than universal premises adoption assumptions. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
4. EnerSys 2026 Proxy Statement and Annual Report
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Fiscal 2026 segment growth included data-center and industrial demand and communications mix effects. It is not accepted as a telecom-only global growth rate. ([s206.q4cdn.com](https://s206.q4cdn.com/xx.xx/files/doc_financials/2026/ar/b317caf6-56f8-42fa-bea1-bf685eb4132a.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.

5. Shuangdeng Group Co., Ltd. - Annual Results Announcement for the Year Ended December 31, 2025

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: The telecom-specific decline is a counterweight to using broad energy-storage growth as the 2026 market forecast. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

6. Amara Raja Energy & Mobility - Q2/H1 FY2026 Earnings Presentation, November 6, 2025

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Amara Raja subsequently reported more than xx.xx MWh of telecom volumes in its second quarter of fiscal 2026. This commercial shipment aggregate provides counterevidence to treating lead-acid weakness as disappearance of telecom backup demand. ([amararajaeandm.com](https://www.amararajaeandm.com/Files/FinancialResults/2025/Earningspresentation06112025.pdf))

7. IHS Holding Limited - First-Quarter 2026 Financial Statements

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosure supports a continuing replacement mechanism, but supplies no isolated global battery spending or replacement-cycle measurement. ([ihstowers.com](https://www.ihstowers.com/content/dam/ihs/corporate/documents/investors/earnings-materials/2026/IHS_Holding_Limited_1Q26_Financial_Statements.pdf.downloadasset.pdf))

8. Ofcom - Mobile RAN Power Resilience: Technical Report and CFI Update, February 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom estimated UK-wide one-hour battery-backup alternatives at GBP1.xx.xx-xx.xx in 2024 prices, including capital expenditure and multiple years of operating costs. This is a jurisdictional scenario, not realized annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing the 2032 market-value input; displayed series and growth include calculations: The costed alternatives constrain the commercial significance and limitations of resilience upgrades; their existence does not establish forecast implementation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

9. Ofcom - Your Landline Is Going Digital: What You Need to Know

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom describes provider-funded backup eligibility for landline-dependent customers lacking a working mobile phone or reliable mobile signal. Eligibility is narrower than the total broadband customer pool. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The eligibility boundary supports conditional premises adoption, not a universal entitlement or a quantified global take-up rate. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))

10. IFC Supports IPT PowerTech to Deliver Clean Telecom Power Across Ethiopia, Liberia, and Sierra Leone
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: IFC's March 2026 announcement establishes financing support for IPT's telecom-energy expansion in Ethiopia, Liberia and Sierra Leone. Financing is an expansion indicator, not completed deployment or attributable backup-fee revenue. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing the 2029 market-value input; displayed series and growth include calculations: The financed expansion supports consideration of managed delivery, while global served-site counts and backup-only fees remain assumptions. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
11. Fingrid - How to Participate in the Reserve Markets
    - Evidence informing the 2032 market-value input; displayed series and growth include calculations: Fingrid's participation conditions establish contractual and permission gates for Finnish reserve markets. They support retaining an access constraint rather than assuming every backup asset earns additional energy-market revenue. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Applicable owner permission and market agreements are commercial access gates. They constrain forecast mixed-duty adoption without measuring its Global percentage. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
12. Government of India, Department of Telecommunications - Telecom Statistics India 2025, international comparison tables
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Wireless and fixed-access customer pools are distinguished in the country model.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Wireless and fixed-access customer pools are distinguished in the country model.

13. American Tower Corporation - Annual Report on Form 10-K for 2025
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: African operating-country inventories provide installed-commercial-footprint anchors.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: African operating-country inventories provide installed-commercial-footprint anchors.

14. IHS Holding Limited - Annual Report on Form 20-F for 2024
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: African maintenance-capex envelopes and differentiated power arrangements support higher purchasing intensity, but do not isolate battery-only revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: African maintenance-capex envelopes and differentiated power arrangements support higher purchasing intensity, but do not isolate battery-only revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Nigerian power-management activity supports a material network-backup purchasing context.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Nigerian power-management activity supports a material network-backup purchasing context.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: South African contractual differences qualify an Africa-wide managed-power assumption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: South African contractual differences qualify an Africa-wide managed-power assumption.

15. PowerSafe SBS Batteries | EnerSys
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.

16. Vertiv NetSure M Series
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.

17. Ofcom - Network and Service Resilience Guidance for Communications Providers, June 16, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: June 2026 guidance identifies approximately four hours as good practice for active fixed-access cabinets. This supports a conditional Extended purchasing shift, not completed orders or a Global mandate. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/network-and-service-resilience-guidance-for-communications-providerspdf?v=xx.xx))
18. Technology and Tools | First Responder Network Authority
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
19. Mobile Network Hardening Program | Australian Department of Infrastructure
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
20. BT - Digital Voice for Business Service Schedule, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
21. Los Angeles Metro - Board Report 2024-1128, UPS Battery Replacement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.

22. ETSI EN 300 019-1-3 V3.1.1 - Stationary Use at Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
23. ETSI EN 300 019-1-4 V3.1.1 - Stationary Use at Non-Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.
24. DC Power Plant / Rectifiers - UPS Rental
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.

25. Helios Towers - Full Year Results 2025, March 12, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
26. Telecommunications | Aggreko US
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
27. EnerSys PowerSafe SBS Front Terminal Batteries | Alpine Power Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
28. DC Power Services | Vertiv
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.

29. Shuangdeng Group Co., Ltd. - Global Offering Prospectus, August 18, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
30. Amara Raja Crosses 1 GWh Lithium Storage Deployment Powering India's Telecom Networks
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
31. Central Office Power Systems - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

32. PowerSafe OPzV Batteries - EnerSys

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix.
([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix.
([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

33. Bolloré - 2017 Registration Document

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value.
([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value.
([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

34. Bolloré - Business Report 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used.
([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used.
([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal.
([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal.
([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

35. AT&T to Replace U-Verse Cabinet Batteries - Fierce Network, January 15, 2008

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator.
([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator.
([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

36. PowerSafe NiCd Batteries - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
37. FDK Ni-MH Battery Is Chosen for the Cellect 600 Product of Alpha Technologies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
38. Products - Encell Technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
39. Telecom/5G - ZAF Energy Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
40. HORIEN Salt Battery Solutions and Inlyte Energy Announce a Strategic Partnership
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
41. Energy Backup - Phinergy
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))

42. Australian Flow Batteries - RFB40X Series

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))

43. PowerReserve - Verizon Residential Accessories

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))

44. Alkaline Manganese Dioxide Handbook and Application Manual - Energizer

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))

45. ITU-T Work Programme - Aqueous Zinc-Based Battery Systems for Base Station Applications

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The aqueous-zinc base-station work item is Under study with December 2027 timing. It constrains the forecast commercialization assumption but establishes neither approval nor customer purchases. ([itu.int](https://www.itu.int/itu-t/workprog/wp_item.aspx?isn=xx.xx))

46. ITU-T L.1397 - Battery System with Integrated Control and Monitoring Information Model

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))

47. ETSI EN 300 132-1 V2.2.1 - ICT Power Supply Interface: Alternating Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
48. ETSI EN 300 132-2 V2.8.1 - ICT Power Supply Interface: Direct Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
49. Vertiv NetSure Inverter Series - Converged AC and DC Power System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))

50. ETSI EN 302 099 V2.2.1 - Powering of Equipment in Access Network
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))

51. Set Up Your Battery Backup - AT&T G.Fast Service with BGW210

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

52. DNA Tower Offers Battery Capacity in Electricity Reserve Markets with Elisa DES

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

53. Case Elisa: Virtual Power Plant in the Telecom Industry

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company case reports over 2,000 aggregated sites and approximately xx.xx MWh. This is an installed commercial scale check, not annual purchasing value or Global prevalence. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/customer-stories/elisacase))

19.5. Latin America

Table 313. Latin America Telecom Battery Backup System Market, by Country growth contribution, 2025-2032

Category	2025 value (USD Million)	2032 value (USD Million)	Added value (USD Million)	2025 share (%)	2032 share (%)	Change (pp)	Growth share (%)	CAGR (%)
Argentina	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Brazil	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Chile	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Colombia	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Peru	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Unallocated / remaining scope	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Scope total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 314. Latin America Telecom Battery Backup System Market Size, by Region, 2017-2032 (USD Million)

Region	2023	2024	2025	2026	2027	2032	CAGR (%)
Argentina	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx

Open-Air Locations	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Sheltered Non-Weather-Protected Locations	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 327. Latin America Telecom Battery Backup System Market Size, by Powering Architecture, 2017-2032 (USD Million)

Powering Architecture	2023	2024	2025	2026	2027	2032	CAGR (%)
Local Powering	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Remote Powering	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 328. Latin America Telecom Battery Backup System Market Size, by Remote Powering, 2017-2032 (USD Million)

Remote Powering	2023	2024	2025	2026	2027	2032	CAGR (%)
Centralized Powering	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Cluster Powering	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Reverse Powering	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 329. Latin America Telecom Battery Backup System Market Size, by Commercial Delivery Model, 2017-2032 (USD Million)

Commercial Delivery Model	2023	2024	2025	2026	2027	2032	CAGR (%)
Leased or Rented Equipment	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Managed Backup Capacity	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Owned Equipment	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 330. Latin America Telecom Battery Backup System Market Size, by Sales Channel, 2017-2032 (USD Million)

Sales Channel	2023	2024	2025	2026	2027	2032	CAGR (%)
Direct Manufacturer Supply	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Distributor and Retailer Supply	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Systems Integrator and Contractor Supply	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Telecom Service Provider Supply	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 331. Latin America Telecom Battery Backup System Market Size, by Grid Availability, 2017-2032 (USD Million)

Grid Availability	2023	2024	2025	2026	2027	2032	CAGR (%)
Off-Grid	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Reliable Grid	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Unreliable Grid	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 332. Latin America Telecom Battery Backup System Market Size, by Backup Duty, 2017-2032 (USD Million)

Backup Duty	2023	2024	2025	2026	2027	2032	CAGR (%)
Backup with Energy Management	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Reserve-Only Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 333. Latin America Telecom Battery Backup System Market Size, by Backup Autonomy, 2017-2032 (USD Million)

Backup Autonomy	2023	2024	2025	2026	2027	2032	CAGR (%)
Day-Scale Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Extended-Duration Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Intermediate-Duration Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Short-Duration Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Sources & Evidence

1. China Tower - 2025 Annual Results, March 18, 2026
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosed spending slowdown is a counterforce used in the restrained 2026 purchasing assumption, not an observation of 2026 global revenue. ([ir.china-tower.com](https://ir.china-tower.com/en/ir/presentation/pre260318.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
2. Broadband Commission - The State of Broadband: Our Digital World, 2025
   - Evidence informing the 2032 market-value input; displayed series and growth include calculations: The fixed-broadband pool supports the premises-demand model, with future adoption and replacement assumptions remaining modeled. ([itu.int](https://www.itu.int/dms_pub/itu-s/opb/pol/s-pol-broadband.xx.xx-2025-pdf-e.pdf))

3. Battery Backup - Meriwether Lewis Electric Cooperative
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The provider distinguishes voice-only protection from combined voice-and-internet protection, supporting service-specific rather than universal premises adoption assumptions. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
4. EnerSys 2026 Proxy Statement and Annual Report
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Fiscal 2026 segment growth included data-center and industrial demand and communications mix effects. It is not accepted as a telecom-only global growth rate. ([s206.q4cdn.com](https://s206.q4cdn.com/xx.xx/files/doc_financials/2026/ar/b317caf6-56f8-42fa-bea1-bf685eb4132a.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.

5. Shuangdeng Group Co., Ltd. - Annual Results Announcement for the Year Ended December 31, 2025

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: The telecom-specific decline is a counterweight to using broad energy-storage growth as the 2026 market forecast. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

6. Amara Raja Energy & Mobility - Q2/H1 FY2026 Earnings Presentation, November 6, 2025

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Amara Raja subsequently reported more than xx.xx MWh of telecom volumes in its second quarter of fiscal 2026. This commercial shipment aggregate provides counterevidence to treating lead-acid weakness as disappearance of telecom backup demand. ([amararajaeandm.com](https://www.amararajaeandm.com/Files/FinancialResults/2025/Earningspresentation06112025.pdf))

7. IHS Holding Limited - First-Quarter 2026 Financial Statements

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosure supports a continuing replacement mechanism, but supplies no isolated global battery spending or replacement-cycle measurement. ([ihstowers.com](https://www.ihstowers.com/content/dam/ihs/corporate/documents/investors/earnings-materials/2026/IHS_Holding_Limited_1Q26_Financial_Statements.pdf.downloadasset.pdf))

8. Ofcom - Mobile RAN Power Resilience: Technical Report and CFI Update, February 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom estimated UK-wide one-hour battery-backup alternatives at GBP1.xx.xx-xx.xx in 2024 prices, including capital expenditure and multiple years of operating costs. This is a jurisdictional scenario, not realized annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing the 2032 market-value input; displayed series and growth include calculations: The costed alternatives constrain the commercial significance and limitations of resilience upgrades; their existence does not establish forecast implementation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

9. Ofcom - Your Landline Is Going Digital: What You Need to Know

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom describes provider-funded backup eligibility for landline-dependent customers lacking a working mobile phone or reliable mobile signal. Eligibility is narrower than the total broadband customer pool. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The eligibility boundary supports conditional premises adoption, not a universal entitlement or a quantified global take-up rate. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))

10. IFC Supports IPT PowerTech to Deliver Clean Telecom Power Across Ethiopia, Liberia, and Sierra Leone
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: IFC's March 2026 announcement establishes financing support for IPT's telecom-energy expansion in Ethiopia, Liberia and Sierra Leone. Financing is an expansion indicator, not completed deployment or attributable backup-fee revenue. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing the 2029 market-value input; displayed series and growth include calculations: The financed expansion supports consideration of managed delivery, while global served-site counts and backup-only fees remain assumptions. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
11. Fingrid - How to Participate in the Reserve Markets
    - Evidence informing the 2032 market-value input; displayed series and growth include calculations: Fingrid's participation conditions establish contractual and permission gates for Finnish reserve markets. They support retaining an access constraint rather than assuming every backup asset earns additional energy-market revenue. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Applicable owner permission and market agreements are commercial access gates. They constrain forecast mixed-duty adoption without measuring its Global percentage. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
12. Government of India, Department of Telecommunications - Telecom Statistics India 2025, international comparison tables
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: National fixed-access and mobile pools constrain the modeled country purchasing footprint.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: National fixed-access and mobile pools constrain the modeled country purchasing footprint.

13. American Tower Corporation - Annual Report on Form 10-K for 2025
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Country-owned and operated tower inventories constrain Latin American commercial activity.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Country-owned and operated tower inventories constrain Latin American commercial activity.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Brazilian tower inventory supports a substantial local wireless-network pool.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Brazilian tower inventory supports a substantial local wireless-network pool.

14. IHS Holding Limited - Annual Report on Form 20-F for 2024
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Different Latin American power and maintenance economics prevent use of tower-wide revenue as backup-system demand.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Different Latin American power and maintenance economics prevent use of tower-wide revenue as backup-system demand.

15. OECD - High-capacity broadband networks gain ground across OECD, October 13, 2026
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Latin American fibre migration supports a conditional fixed-access expansion premise, not automatic battery attachment.

16. PowerSafe SBS Batteries | EnerSys
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.

17. Vertiv NetSure M Series
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.

18. Ofcom - Network and Service Resilience Guidance for Communications Providers, June 16, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: June 2026 guidance identifies approximately four hours as good practice for active fixed-access cabinets. This supports a conditional Extended purchasing shift, not completed orders or a Global mandate. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/network-and-service-resilience-guidance-for-communications-providerspdf?v=xx.xx))
19. Technology and Tools | First Responder Network Authority
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
20. Mobile Network Hardening Program | Australian Department of Infrastructure
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
21. BT - Digital Voice for Business Service Schedule, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
22. Los Angeles Metro - Board Report 2024-1128, UPS Battery Replacement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.

23. ETSI EN 300 019-1-3 V3.1.1 - Stationary Use at Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
24. ETSI EN 300 019-1-4 V3.1.1 - Stationary Use at Non-Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.
25. DC Power Plant / Rectifiers - UPS Rental
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.

26. Helios Towers - Full Year Results 2025, March 12, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
27. Telecommunications | Aggreko US
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
28. EnerSys PowerSafe SBS Front Terminal Batteries | Alpine Power Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
29. DC Power Services | Vertiv
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.

30. Shuangdeng Group Co., Ltd. - Global Offering Prospectus, August 18, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
31. Amara Raja Crosses 1 GWh Lithium Storage Deployment Powering India's Telecom Networks
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
32. Central Office Power Systems - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

33. PowerSafe OPzV Batteries - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))
34. Bolloré - 2017 Registration Document
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))
35. Bolloré - Business Report 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))
36. AT&T to Replace U-Verse Cabinet Batteries - Fierce Network, January 15, 2008
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

37. PowerSafe NiCd Batteries - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
38. FDK Ni-MH Battery Is Chosen for the Cellect 600 Product of Alpha Technologies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
39. Products - Encell Technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
40. Telecom/5G - ZAF Energy Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
41. HORIEN Salt Battery Solutions and Inlyte Energy Announce a Strategic Partnership
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
42. Energy Backup - Phinergy
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))

43. Australian Flow Batteries - RFB40X Series

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))

44. PowerReserve - Verizon Residential Accessories

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))

45. Alkaline Manganese Dioxide Handbook and Application Manual - Energizer

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))

46. ITU-T Work Programme - Aqueous Zinc-Based Battery Systems for Base Station Applications

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The aqueous-zinc base-station work item is Under study with December 2027 timing. It constrains the forecast commercialization assumption but establishes neither approval nor customer purchases. ([itu.int](https://www.itu.int/itu-t/workprog/wp_item.aspx?isn=xx.xx))

47. ITU-T L.1397 - Battery System with Integrated Control and Monitoring Information Model

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))

48. ETSI EN 300 132-1 V2.2.1 - ICT Power Supply Interface: Alternating Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
49. ETSI EN 300 132-2 V2.8.1 - ICT Power Supply Interface: Direct Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
50. Vertiv NetSure Inverter Series - Converged AC and DC Power System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))

51. ETSI EN 302 099 V2.2.1 - Powering of Equipment in Access Network
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))

52. Set Up Your Battery Backup - AT&T G.Fast Service with BGW210

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

53. DNA Tower Offers Battery Capacity in Electricity Reserve Markets with Elisa DES

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

54. Case Elisa: Virtual Power Plant in the Telecom Industry

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company case reports over 2,000 aggregated sites and approximately xx.xx MWh. This is an installed commercial scale check, not annual purchasing value or Global prevalence. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/customer-stories/elisacase))

19.6. Middle East

Table 334. Middle East Telecom Battery Backup System Market, by Country growth contribution, 2025-2032

Category	2025 value (USD Million)	2032 value (USD Million)	Added value (USD Million)	2025 share (%)	2032 share (%)	Change (pp)	Growth share (%)	CAGR (%)
Israel	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Qatar	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Saudi Arabia	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Turkey	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Unallocated / remaining scope	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
United Arab Emirates	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Scope total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 335. Middle East Telecom Battery Backup System Market Size, by Region, 2017-2032 (USD Million)

Region	2023	2024	2025	2026	2027	2032	CAGR (%)
Israel	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Qatar	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx

Sources & Evidence

1. China Tower - 2025 Annual Results, March 18, 2026
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosed spending slowdown is a counterforce used in the restrained 2026 purchasing assumption, not an observation of 2026 global revenue. ([ir.china-tower.com](https://ir.china-tower.com/en/ir/presentation/pre260318.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
2. Broadband Commission - The State of Broadband: Our Digital World, 2025
   - Evidence informing the 2032 market-value input; displayed series and growth include calculations: The fixed-broadband pool supports the premises-demand model, with future adoption and replacement assumptions remaining modeled. ([itu.int](https://www.itu.int/dms_pub/itu-s/opb/pol/s-pol-broadband.xx.xx-2025-pdf-e.pdf))

3. Battery Backup - Meriwether Lewis Electric Cooperative
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The provider distinguishes voice-only protection from combined voice-and-internet protection, supporting service-specific rather than universal premises adoption assumptions. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
4. EnerSys 2026 Proxy Statement and Annual Report
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Fiscal 2026 segment growth included data-center and industrial demand and communications mix effects. It is not accepted as a telecom-only global growth rate. ([s206.q4cdn.com](https://s206.q4cdn.com/xx.xx/files/doc_financials/2026/ar/b317caf6-56f8-42fa-bea1-bf685eb4132a.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.

5. Shuangdeng Group Co., Ltd. - Annual Results Announcement for the Year Ended December 31, 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: The telecom-specific decline is a counterweight to using broad energy-storage growth as the 2026 market forecast. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

6. Amara Raja Energy & Mobility - Q2/H1 FY2026 Earnings Presentation, November 6, 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: Amara Raja subsequently reported more than xx.xx MWh of telecom volumes in its second quarter of fiscal 2026. This commercial shipment aggregate provides counterevidence to treating lead-acid weakness as disappearance of telecom backup demand. ([amararajaeandm.com](https://www.amararajaeandm.com/Files/FinancialResults/2025/Earningspresentation06112025.pdf))

7. IHS Holding Limited - First-Quarter 2026 Financial Statements

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosure supports a continuing replacement mechanism, but supplies no isolated global battery spending or replacement-cycle measurement. ([ihstowers.com](https://www.ihstowers.com/content/dam/ihs/corporate/documents/investors/earnings-materials/2026/IHS_Holding_Limited_1Q26_Financial_Statements.pdf.downloadasset.pdf))

8. Ofcom - Mobile RAN Power Resilience: Technical Report and CFI Update, February 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom estimated UK-wide one-hour battery-backup alternatives at GBP1.xx.xx-xx.xx in 2024 prices, including capital expenditure and multiple years of operating costs. This is a jurisdictional scenario, not realized annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing the 2032 market-value input; displayed series and growth include calculations: The costed alternatives constrain the commercial significance and limitations of resilience upgrades; their existence does not establish forecast implementation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

9. Ofcom - Your Landline Is Going Digital: What You Need to Know

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom describes provider-funded backup eligibility for landline-dependent customers lacking a working mobile phone or reliable mobile signal. Eligibility is narrower than the total broadband customer pool. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The eligibility boundary supports conditional premises adoption, not a universal entitlement or a quantified global take-up rate. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))

10. IFC Supports IPT PowerTech to Deliver Clean Telecom Power Across Ethiopia, Liberia, and Sierra Leone
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: IFC's March 2026 announcement establishes financing support for IPT's telecom-energy expansion in Ethiopia, Liberia and Sierra Leone. Financing is an expansion indicator, not completed deployment or attributable backup-fee revenue. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing the 2029 market-value input; displayed series and growth include calculations: The financed expansion supports consideration of managed delivery, while global served-site counts and backup-only fees remain assumptions. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
11. Fingrid - How to Participate in the Reserve Markets
    - Evidence informing the 2032 market-value input; displayed series and growth include calculations: Fingrid's participation conditions establish contractual and permission gates for Finnish reserve markets. They support retaining an access constraint rather than assuming every backup asset earns additional energy-market revenue. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Applicable owner permission and market agreements are commercial access gates. They constrain forecast mixed-duty adoption without measuring its Global percentage. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
12. Government of India, Department of Telecommunications - Telecom Statistics India 2025, international comparison tables
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Country-specific fixed-access and mobile pools constrain regional demand estimates.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Country-specific fixed-access and mobile pools constrain regional demand estimates.

13. PowerSafe SBS Batteries | EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
14. Vertiv NetSure M Series
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
15. Ofcom - Network and Service Resilience Guidance for Communications Providers, June 16, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: June 2026 guidance identifies approximately four hours as good practice for active fixed-access cabinets. This supports a conditional Extended purchasing shift, not completed orders or a Global mandate. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/network-and-service-resilience-guidance-for-communications-providerspdf?v=xx.xx))
16. Technology and Tools | First Responder Network Authority
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
17. Mobile Network Hardening Program | Australian Department of Infrastructure
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.

18. BT - Digital Voice for Business Service Schedule, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
19. Los Angeles Metro - Board Report 2024-1128, UPS Battery Replacement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
20. ETSI EN 300 019-1-3 V3.1.1 - Stationary Use at Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
21. ETSI EN 300 019-1-4 V3.1.1 - Stationary Use at Non-Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.

22. DC Power Plant / Rectifiers - UPS Rental
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
23. Helios Towers - Full Year Results 2025, March 12, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
24. Telecommunications | Aggreko US
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
25. EnerSys PowerSafe SBS Front Terminal Batteries | Alpine Power Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
26. DC Power Services | Vertiv
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.

27. Shuangdeng Group Co., Ltd. - Global Offering Prospectus, August 18, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
28. Amara Raja Crosses 1 GWh Lithium Storage Deployment Powering India's Telecom Networks
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
29. Central Office Power Systems - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

30. PowerSafe OPzV Batteries - EnerSys

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

31. Bolloré - 2017 Registration Document

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

32. Bolloré - Business Report 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

33. AT&T to Replace U-Verse Cabinet Batteries - Fierce Network, January 15, 2008

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

34. PowerSafe NiCd Batteries - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
35. FDK Ni-MH Battery Is Chosen for the Cellect 600 Product of Alpha Technologies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
36. Products - Encell Technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
37. Telecom/5G - ZAF Energy Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
38. HORIEN Salt Battery Solutions and Inlyte Energy Announce a Strategic Partnership
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
39. Energy Backup - Phinergy
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))

40. Australian Flow Batteries - RFB40X Series

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))

41. PowerReserve - Verizon Residential Accessories

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))

42. Alkaline Manganese Dioxide Handbook and Application Manual - Energizer

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))

43. ITU-T Work Programme - Aqueous Zinc-Based Battery Systems for Base Station Applications

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The aqueous-zinc base-station work item is Under study with December 2027 timing. It constrains the forecast commercialization assumption but establishes neither approval nor customer purchases. ([itu.int](https://www.itu.int/itu-t/workprog/wp_item.aspx?isn=xx.xx))

44. ITU-T L.1397 - Battery System with Integrated Control and Monitoring Information Model

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))

45. ETSI EN 300 132-1 V2.2.1 - ICT Power Supply Interface: Alternating Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
46. ETSI EN 300 132-2 V2.8.1 - ICT Power Supply Interface: Direct Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
47. Vertiv NetSure Inverter Series - Converged AC and DC Power System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))

48. ETSI EN 302 099 V2.2.1 - Powering of Equipment in Access Network
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))

49. Set Up Your Battery Backup - AT&T G.Fast Service with BGW210

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

50. DNA Tower Offers Battery Capacity in Electricity Reserve Markets with Elisa DES

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

51. Case Elisa: Virtual Power Plant in the Telecom Industry

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company case reports over 2,000 aggregated sites and approximately xx.xx MWh. This is an installed commercial scale check, not annual purchasing value or Global prevalence. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/customer-stories/elisacase))

20. Telecom Battery Backup System Market, by Group

Americas supports a documented manufacturer-independent lifecycle route. ▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ Country and site eligibility require confirmation, and the territorial listing does not establish identical commitments for every included battery technology.

▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪ ▪ ▪▪▪▪▪▪▪ ▪▪ ▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪ ▪▪▪▪ ▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ Standardization reduces commercial interfaces only if those schedules are enforceable. The catalog establishes a regional proposition, not stock, local authorization, or service coverage throughout the group.

▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪ ▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ A Singapore-based distributor can preserve eligible origin documentation through that route, but cannot infer ASEAN preference merely from routing batteries through Singapore. Exporters should compare documented preferential supply with ordinary import treatment; eligibility, destination requirements, and customer acceptance remain separate conditions.

GCC customs coordination and product acceptance are related but distinct. The published customs-union framework provides common external-border arrangements and first-entry clearance principles. ▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪

▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ Suppliers should verify the actual battery or system's originating status before choosing a trans-Tasman route; purchasing or warehousing third-country equipment does not itself demonstrate qualification. A common distribution relationship can simplify

coordination, while separate import routes may remain preferable when the claimed origin benefit cannot be substantiated.

[illegible] Infrastructure owners should assess the participant relationship in each country before extending a common service proposition. Shared market infrastructure can support coordinated commercial planning, but does not prove acceptance of a particular telecom battery asset or equivalent access in Iceland.

European Union battery passports create a common preparation timetable for relevant categories from February xx.xx 2027. [illegible] Passport preparation is therefore a product-accountability decision, not proof of telecom buyer qualification.

BRICS cooperation does not establish a common battery purchasing gate. Brazil's July 2025 account of the leaders' declaration describes ICT knowledge and policy exchange. [illegible]

[illegible] Diversification can reduce dependency while introducing renewed acceptance and support obligations. Collective policy does not establish identical implementation by Canadian, US, UK, Japanese, or European purchasing organizations.

[illegible] A continuity-and-support proposition may address more of that requirement than equipment alone, but brings broader contractual exposure. The group framework establishes planning

objectives, not a uniform battery tender, supplier approval, or automatic access to constituent buyers.

■■■■■ ■■■■■■■■■■■ ■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■ ■■■■■■■■■ They are non-additive commercial lenses within the Global market, not additional market perimeters.

Figure 35. Global Telecom Battery Backup System Market Size, by Group, 2025 vs 2026 vs 2032

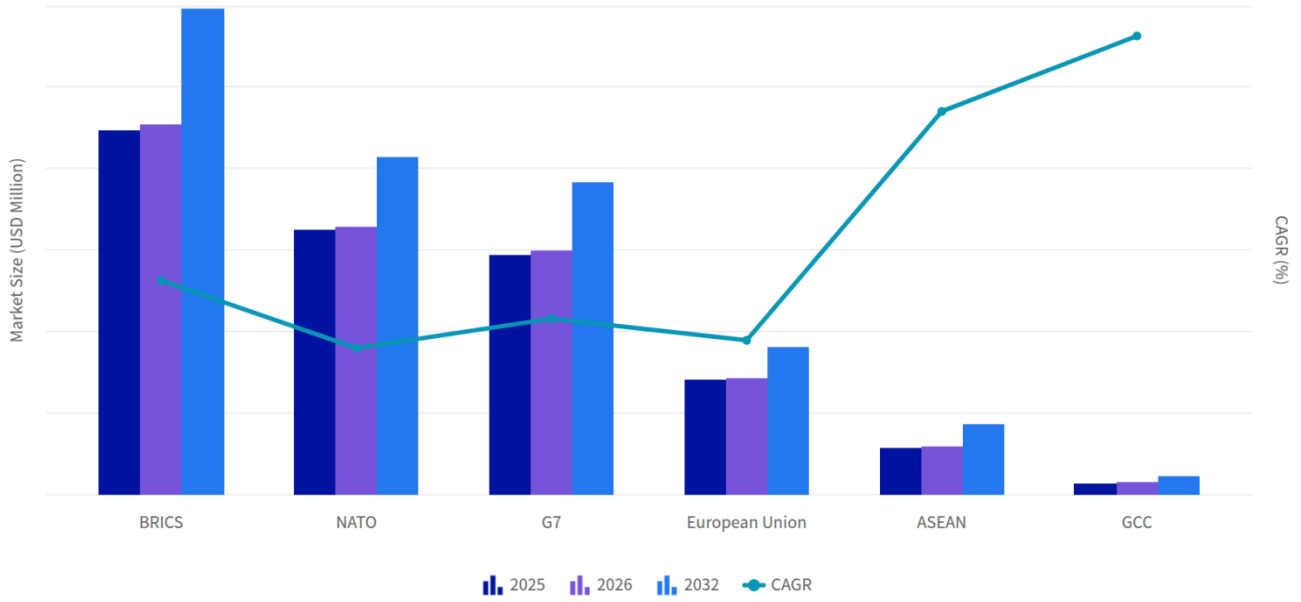

Table 355. Global Telecom Battery Backup System Market Size, by Group, 2017-2032 (USD Million)

Group	2023	2024	2025	2026	2027	2032	CAGR (%)
ASEAN	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
BRICS	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
European Union	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
G7	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
GCC	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
NATO	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx

Sources & Evidence

1. Vertiv NetSure M Series
   - Vertiv's EMEA catalog presents NetSure M Series telecom enclosures with battery options and a sales-contact route; it does not establish destination-specific fulfillment.
2. Recycling | EnerSys
   - EnerSys lists North and Central America and South America and describes spent lead-acid collection regardless of manufacturer, with recycling documentation.
3. Digital Product Passport for Batteries | European Commission
   - Relevant battery passports become mandatory from February xx.xx 2027; finished-battery accountability is distinct from component documentation.

4. How to Apply for a Back to Back Preferential Certificate of Origin
   · Singapore Customs describes eligible back-to-back ATIGA certificates based on the first exporting party's preferential certificate and applicable treaty conditions.
5. GCC Customs Union: Procedures and Implementation Steps
   · The GCC's published customs-union framework describes common external-border arrangements, first-entry clearance, and treatment of restricted goods.
6. Certificates of Conformity - SASO
   · SASO identifies Gulf conformity arrangements for covered low-voltage electrical equipment; this does not establish applicability to every telecom backup offering.
7. Saudi Arabia - Standards for Trade
   · The official Saudi Arabia trade guide describes SASO's national authority and Saudi conformity administration alongside GCC standards coordination.
8. Australia-New Zealand Closer Economic Relations Trade Agreement
   · New Zealand Customs describes CER origin requirements, Australia's exporter declaration, and evidence supporting preferential claims in New Zealand.
9. Fingrid Group - Management's Review, January-March 2025
   · Fingrid reports the March 2025 joint mFRR market rollout involving Finnish, Swedish, Norwegian, and Danish transmission system operators.
10. Implementation Guides - Nordic Balancing Model
    · The joint Nordic market materials retain TSO-specific arrangements, supporting limits to treating coordinated infrastructure as uniform participant access.
11. Declaração dos Líderes do BRICS Ressalta Avanço em Tecnologias da Informação e Comunicação
    · Brazil's July 2025 account of the BRICS declaration describes ICT knowledge sharing and policy exchange, not a battery purchasing authorization.
12. EPR Portal for Battery Waste Management - CPCB
    · India's official battery portal describes producer registration and extended producer responsibility under the Battery Waste Management Rules.
13. G7 Call to Action on Enhancing Energy Security
    · The October 2025 G7 call emphasizes supply-chain diversification, traceability, and cooperation, with implementation consistent with domestic priorities.
14. 2026 Resilience Baseline Requirements
    · NATO's September xx.xx 2026 requirements address civil communications continuity, national arrangements, vendor ownership, dependencies, and critical supply-chain oversight.
15. What Obligations Do Battery Producers Have?
    · Germany requires producer registration before batteries are placed on its market.
16. Regras - Qualidade dos Serviços de Telecomunicações
    · Brazil's interruption guidance connects unplanned service loss with proportional consumer redress.
17. China Tower - 2025 Annual Results, March 18, 2026
    · Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosed spending slowdown is a counterforce used in the restrained 2026 purchasing assumption, not an observation of 2026 global revenue.
    ([ir.china-tower.com](https://ir.china-tower.com/en/ir/presentation/pre260318.pdf))
18. Broadband Commission - The State of Broadband: Our Digital World, 2025
    · Evidence informing the 2032 market-value input; displayed series and growth include calculations: The fixed-broadband pool supports the premises-demand model, with future adoption and replacement assumptions remaining modeled. ([itu.int](https://www.itu.int/dms_pub/itu-s/opb/pol/s-pol-broadband.xx.xx-2025-pdf-e.pdf))

19. Battery Backup - Meriwether Lewis Electric Cooperative

    · Evidence informing the 2026 market-value input; displayed series and growth include calculations: The provider distinguishes voice-only protection from combined voice-and-internet protection, supporting service-specific rather than universal premises adoption assumptions. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))

20. EnerSys 2026 Proxy Statement and Annual Report

    · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Fiscal 2026 segment growth included data-center and industrial demand and communications mix effects. It is not accepted as a telecom-only global growth rate. ([s206.q4cdn.com](https://s206.q4cdn.com/xx.xx/files/doc_financials/2026/ar/b317caf6-56f8-42fa-bea1-bf685eb4132a.pdf))

21. Shuangdeng Group Co., Ltd. - Annual Results Announcement for the Year Ended December 31, 2025

    · Evidence informing the 2026 market-value input; displayed series and growth include calculations: The telecom-specific decline is a counterweight to using broad energy-storage growth as the 2026 market forecast. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

22. Amara Raja Energy & Mobility - Q2/H1 FY2026 Earnings Presentation, November 6, 2025

    · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Amara Raja subsequently reported more than xx.xx MWh of telecom volumes in its second quarter of fiscal 2026. This commercial shipment aggregate provides counterevidence to treating lead-acid weakness as disappearance of telecom backup demand. ([amararajaeandm.com](https://www.amararajaeandm.com/Files/FinancialResults/2025/Earningspresentation06112025.pdf))

23. IHS Holding Limited - First-Quarter 2026 Financial Statements

    · Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosure supports a continuing replacement mechanism, but supplies no isolated global battery spending or replacement-cycle measurement. ([ihstowers.com](https://www.ihstowers.com/content/dam/ihs/corporate/documents/investors/earnings-materials/2026/IHS_Holding_Limited_1Q26_Financial_Statements.pdf.downloadasset.pdf))

24. Ofcom - Mobile RAN Power Resilience: Technical Report and CFI Update, February 2025

    · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom estimated UK-wide one-hour battery-backup alternatives at GBP1.xx.xx-xx.xx in 2024 prices, including capital expenditure and multiple years of operating costs. This is a jurisdictional scenario, not realized annual battery revenue. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

    · Evidence informing the 2032 market-value input; displayed series and growth include calculations: The costed alternatives constrain the commercial significance and limitations of resilience upgrades; their existence does not establish forecast implementation. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

25. Ofcom - Your Landline Is Going Digital: What You Need to Know

    · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom describes provider-funded backup eligibility for landline-dependent customers lacking a working mobile phone or reliable mobile signal. Eligibility is narrower than the total broadband customer pool. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))

    · Evidence informing the 2032 market-value input; displayed series and growth include calculations: The eligibility boundary supports conditional premises adoption, not a universal entitlement or a quantified global take-up rate. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))

26. IFC Supports IPT PowerTech to Deliver Clean Telecom Power Across Ethiopia, Liberia, and Sierra Leone
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: IFC's March 2026 announcement establishes financing support for IPT's telecom-energy expansion in Ethiopia, Liberia and Sierra Leone. Financing is an expansion indicator, not completed deployment or attributable backup-fee revenue. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing the 2029 market-value input; displayed series and growth include calculations: The financed expansion supports consideration of managed delivery, while global served-site counts and backup-only fees remain assumptions. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
27. Fingrid - How to Participate in the Reserve Markets
    - Evidence informing the 2032 market-value input; displayed series and growth include calculations: Fingrid's participation conditions establish contractual and permission gates for Finnish reserve markets. They support retaining an access constraint rather than assuming every backup asset earns additional energy-market revenue. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))

Table 375. BRICS Telecom Battery Backup System Market Size, by Backup Duty, 2017-2032 (USD Million)

Backup Duty	2023	2024	2025	2026	2027	2032	CAGR (%)
Backup with Energy Management	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Reserve-Only Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 376. BRICS Telecom Battery Backup System Market Size, by Backup Autonomy, 2017-2032 (USD Million)

Backup Autonomy	2023	2024	2025	2026	2027	2032	CAGR (%)
Day-Scale Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Extended-Duration Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Intermediate-Duration Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Short-Duration Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Sources & Evidence

1. China Tower - 2025 Annual Results, March 18, 2026
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosed spending slowdown is a counterforce used in the restrained 2026 purchasing assumption, not an observation of 2026 global revenue. ([ir.china-tower.com](https://ir.china-tower.com/en/ir/presentation/pre260318.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Infrastructure expenditure and replacement/improvement restraint constrain the purchasing forecast; broader capital expenditure is not battery-only revenue.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Infrastructure expenditure and replacement/improvement restraint constrain the purchasing forecast; broader capital expenditure is not battery-only revenue.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
2. Broadband Commission - The State of Broadband: Our Digital World, 2025
   - Evidence informing the 2032 market-value input; displayed series and growth include calculations: The fixed-broadband pool supports the premises-demand model, with future adoption and replacement assumptions remaining modeled. ([itu.int](https://www.itu.int/dms_pub/itu-s/opb/pol/s-pol-broadband.xx.xx-2025-pdf-e.pdf))

3. Battery Backup - Meriwether Lewis Electric Cooperative
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The provider distinguishes voice-only protection from combined voice-and-internet protection, supporting service-specific rather than universal premises adoption assumptions. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
4. EnerSys 2026 Proxy Statement and Annual Report
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Fiscal 2026 segment growth included data-center and industrial demand and communications mix effects. It is not accepted as a telecom-only global growth rate. ([s206.q4cdn.com](https://s206.q4cdn.com/xx.xx/files/doc_financials/2026/ar/b317caf6-56f8-42fa-bea1-bf685eb4132a.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.

5. Shuangdeng Group Co., Ltd. - Annual Results Announcement for the Year Ended December 31, 2025

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: The telecom-specific decline is a counterweight to using broad energy-storage growth as the 2026 market forecast. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom application revenue provides counterevidence to extrapolating broad energy-storage growth into China's backup forecast.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

6. Amara Raja Energy & Mobility - Q2/H1 FY2026 Earnings Presentation, November 6, 2025

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Amara Raja subsequently reported more than xx.xx MWh of telecom volumes in its second quarter of fiscal 2026. This commercial shipment aggregate provides counterevidence to treating lead-acid weakness as disappearance of telecom backup demand. ([amararajaeandm.com](https://www.amararajaeandm.com/Files/FinancialResults/2025/Earningspresentation06112025.pdf))

7. IHS Holding Limited - First-Quarter 2026 Financial Statements

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosure supports a continuing replacement mechanism, but supplies no isolated global battery spending or replacement-cycle measurement. ([ihstowers.com](https://www.ihstowers.com/content/dam/ihs/corporate/documents/investors/earnings-materials/2026/IHS_Holding_Limited_1Q26_Financial_Statements.pdf.downloadasset.pdf))

8. Ofcom - Mobile RAN Power Resilience: Technical Report and CFI Update, February 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom estimated UK-wide one-hour battery-backup alternatives at GBP1.xx.xx-xx.xx in 2024 prices, including capital expenditure and multiple years of operating costs. This is a jurisdictional scenario, not realized annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing the 2032 market-value input; displayed series and growth include calculations: The costed alternatives constrain the commercial significance and limitations of resilience upgrades; their existence does not establish forecast implementation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

9. Ofcom - Your Landline Is Going Digital: What You Need to Know

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom describes provider-funded backup eligibility for landline-dependent customers lacking a working mobile phone or reliable mobile signal. Eligibility is narrower than the total broadband customer pool. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The eligibility boundary supports conditional premises adoption, not a universal entitlement or a quantified global take-up rate. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))

10. IFC Supports IPT PowerTech to Deliver Clean Telecom Power Across Ethiopia, Liberia, and Sierra Leone
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: IFC's March 2026 announcement establishes financing support for IPT's telecom-energy expansion in Ethiopia, Liberia and Sierra Leone. Financing is an expansion indicator, not completed deployment or attributable backup-fee revenue. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing the 2029 market-value input; displayed series and growth include calculations: The financed expansion supports consideration of managed delivery, while global served-site counts and backup-only fees remain assumptions. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
11. Fingrid - How to Participate in the Reserve Markets
    - Evidence informing the 2032 market-value input; displayed series and growth include calculations: Fingrid's participation conditions establish contractual and permission gates for Finnish reserve markets. They support retaining an access constraint rather than assuming every backup asset earns additional energy-market revenue. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Applicable owner permission and market agreements are commercial access gates. They constrain forecast mixed-duty adoption without measuring its Global percentage. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
12. China Tower announces 2025 annual results - March 18, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: China Tower reports xx.xx tower sites at year-end 2025, an installed-stock input rather than annual battery sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: China Tower reports xx.xx tower sites at year-end 2025, an installed-stock input rather than annual battery sales.

13. American Tower Corporation - Annual Report on Form 10-K for 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Brazilian tower inventory supports a substantial local wireless-network pool.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Brazilian tower inventory supports a substantial local wireless-network pool.
14. IHS Holding Limited - Annual Report on Form 20-F for 2024
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: South African contractual differences qualify an Africa-wide managed-power assumption.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: South African contractual differences qualify an Africa-wide managed-power assumption.
15. PowerSafe SBS Batteries | EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
16. Vertiv NetSure M Series
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
17. Ofcom - Network and Service Resilience Guidance for Communications Providers, June 16, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: June 2026 guidance identifies approximately four hours as good practice for active fixed-access cabinets. This supports a conditional Extended purchasing shift, not completed orders or a Global mandate. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/network-and-service-resilience-guidance-for-communications-providerspdf?v=xx.xx))

18. Technology and Tools | First Responder Network Authority
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
19. Mobile Network Hardening Program | Australian Department of Infrastructure
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
20. BT - Digital Voice for Business Service Schedule, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
21. Los Angeles Metro - Board Report 2024-1128, UPS Battery Replacement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
22. ETSI EN 300 019-1-3 V3.1.1 - Stationary Use at Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.

23. ETSI EN 300 019-1-4 V3.1.1 - Stationary Use at Non-Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.
24. DC Power Plant / Rectifiers - UPS Rental
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
25. Helios Towers - Full Year Results 2025, March 12, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
26. Telecommunications | Aggreko US
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
27. EnerSys PowerSafe SBS Front Terminal Batteries | Alpine Power Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.

28. DC Power Services | Vertiv

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.

29. Shuangdeng Group Co., Ltd. - Global Offering Prospectus, August 18, 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))

30. Amara Raja Crosses 1 GWh Lithium Storage Deployment Powering India's Telecom Networks

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))

31. Central Office Power Systems - EnerSys

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

32. PowerSafe OPzV Batteries - EnerSys

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

33. Bolloré - 2017 Registration Document

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

34. Bolloré - Business Report 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

35. AT&T to Replace U-Verse Cabinet Batteries - Fierce Network, January 15, 2008

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

36. PowerSafe NiCd Batteries - EnerSys

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))

37. FDK Ni-MH Battery Is Chosen for the Cellect 600 Product of Alpha Technologies

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))

38. Products - Encell Technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
39. Telecom/5G - ZAF Energy Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
40. HORIEN Salt Battery Solutions and Inlyte Energy Announce a Strategic Partnership
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
41. Energy Backup - Phinergy
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))
42. Australian Flow Batteries - RFB40X Series
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))

43. PowerReserve - Verizon Residential Accessories
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
44. Alkaline Manganese Dioxide Handbook and Application Manual - Energizer
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))
45. ITU-T Work Programme - Aqueous Zinc-Based Battery Systems for Base Station Applications
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The aqueous-zinc base-station work item is Under study with December 2027 timing. It constrains the forecast commercialization assumption but establishes neither approval nor customer purchases. ([itu.int](https://www.itu.int/itu-t/workprog/wp_item.aspx?isn=xx.xx))
46. ITU-T L.1397 - Battery System with Integrated Control and Monitoring Information Model
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))
47. ETSI EN 300 132-1 V2.2.1 - ICT Power Supply Interface: Alternating Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))

48. ETSI EN 300 132-2 V2.8.1 - ICT Power Supply Interface: Direct Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
49. Vertiv NetSure Inverter Series - Converged AC and DC Power System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))

50. ETSI EN 302 099 V2.2.1 - Powering of Equipment in Access Network
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))

51. Set Up Your Battery Backup - AT&T G.Fast Service with BGW210

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

52. DNA Tower Offers Battery Capacity in Electricity Reserve Markets with Elisa DES

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

53. Case Elisa: Virtual Power Plant in the Telecom Industry

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company case reports over 2,000 aggregated sites and approximately xx.xx MWh. This is an installed commercial scale check, not annual purchasing value or Global prevalence. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/customer-stories/elisacase))

20.2. NATO

Table 377. NATO Telecom Battery Backup System Market, by Country growth contribution, 2025-2032

Category	2025 value (USD Million)	2032 value (USD Million)	Added value (USD Million)	2025 share (%)	2032 share (%)	Change (pp)	Growth share (%)	CAGR (%)

Sources & Evidence

1. China Tower - 2025 Annual Results, March 18, 2026
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosed spending slowdown is a counterforce used in the restrained 2026 purchasing assumption, not an observation of 2026 global revenue. ([ir.china-tower.com](https://ir.china-tower.com/en/ir/presentation/pre260318.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
2. Broadband Commission - The State of Broadband: Our Digital World, 2025
   - Evidence informing the 2032 market-value input; displayed series and growth include calculations: The fixed-broadband pool supports the premises-demand model, with future adoption and replacement assumptions remaining modeled. ([itu.int](https://www.itu.int/dms_pub/itu-s/opb/pol/s-pol-broadband.xx.xx-2025-pdf-e.pdf))

3. Battery Backup - Meriwether Lewis Electric Cooperative
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The provider distinguishes voice-only protection from combined voice-and-internet protection, supporting service-specific rather than universal premises adoption assumptions. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
4. EnerSys 2026 Proxy Statement and Annual Report
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Fiscal 2026 segment growth included data-center and industrial demand and communications mix effects. It is not accepted as a telecom-only global growth rate. ([s206.q4cdn.com](https://s206.q4cdn.com/xx.xx/files/doc_financials/2026/ar/b317caf6-56f8-42fa-bea1-bf685eb4132a.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.

5. Shuangdeng Group Co., Ltd. - Annual Results Announcement for the Year Ended December 31, 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: The telecom-specific decline is a counterweight to using broad energy-storage growth as the 2026 market forecast. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

6. Amara Raja Energy & Mobility - Q2/H1 FY2026 Earnings Presentation, November 6, 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: Amara Raja subsequently reported more than xx.xx MWh of telecom volumes in its second quarter of fiscal 2026. This commercial shipment aggregate provides counterevidence to treating lead-acid weakness as disappearance of telecom backup demand. ([amararajaeandm.com](https://www.amararajaeandm.com/Files/FinancialResults/2025/Earningspresentation06112025.pdf))

7. IHS Holding Limited - First-Quarter 2026 Financial Statements

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosure supports a continuing replacement mechanism, but supplies no isolated global battery spending or replacement-cycle measurement. ([ihstowers.com](https://www.ihstowers.com/content/dam/ihs/corporate/documents/investors/earnings-materials/2026/IHS_Holding_Limited_1Q26_Financial_Statements.pdf.downloadasset.pdf))

8. Ofcom - Mobile RAN Power Resilience: Technical Report and CFI Update, February 2025
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom estimated UK-wide one-hour battery-backup alternatives at GBP1.xx.xx-xx.xx in 2024 prices, including capital expenditure and multiple years of operating costs. This is a jurisdictional scenario, not realized annual battery revenue. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
   - Evidence informing the 2032 market-value input; displayed series and growth include calculations: The costed alternatives constrain the commercial significance and limitations of resilience upgrades; their existence does not establish forecast implementation. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Uneven existing UK backup coverage and costed multi-year alternatives constrain adoption and purchasing assumptions.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Uneven existing UK backup coverage and costed multi-year alternatives constrain adoption and purchasing assumptions.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

9. Ofcom - Your Landline Is Going Digital: What You Need to Know

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom describes provider-funded backup eligibility for landline-dependent customers lacking a working mobile phone or reliable mobile signal. Eligibility is narrower than the total broadband customer pool. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The eligibility boundary supports conditional premises adoption, not a universal entitlement or a quantified global take-up rate. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))

10. IFC Supports IPT PowerTech to Deliver Clean Telecom Power Across Ethiopia, Liberia, and Sierra Leone
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: IFC's March 2026 announcement establishes financing support for IPT's telecom-energy expansion in Ethiopia, Liberia and Sierra Leone. Financing is an expansion indicator, not completed deployment or attributable backup-fee revenue. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing the 2029 market-value input; displayed series and growth include calculations: The financed expansion supports consideration of managed delivery, while global served-site counts and backup-only fees remain assumptions. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
11. Fingrid - How to Participate in the Reserve Markets
    - Evidence informing the 2032 market-value input; displayed series and growth include calculations: Fingrid's participation conditions establish contractual and permission gates for Finnish reserve markets. They support retaining an access constraint rather than assuming every backup asset earns additional energy-market revenue. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reserve-market permissions and participation agreements establish an access constraint; no telecom-battery reserve-income uplift is included.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Applicable owner permission and market agreements are commercial access gates. They constrain forecast mixed-duty adoption without measuring its Global percentage. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
12. American Tower Corporation - Annual Report on Form 10-K for 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: US owned/operated towers are a disclosed company footprint, not a verified national inventory.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: US owned/operated towers are a disclosed company footprint, not a verified national inventory.

13. Cellnex - Integrated Annual Report 2025
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: French telecom site portfolio anchors part of the modeled national installed footprint.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: French telecom site portfolio anchors part of the modeled national installed footprint.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Italian telecom site portfolio constrains the national network pool.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Italian telecom site portfolio constrains the national network pool.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: UK sites and upgrade activity provide a commercial footprint, not total battery purchasing.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: UK sites and upgrade activity provide a commercial footprint, not total battery purchasing.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Polish site portfolio supports country-specific network activity.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Polish site portfolio supports country-specific network activity.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Danish site portfolio constrains the small-country footprint bridge.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Danish site portfolio constrains the small-country footprint bridge.

14. CPUC Requires Wireless Companies to Better Serve Customers in Emergencies - July 16, 2020
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: A location-specific backup obligation supports a compliance purchasing context, not a nationwide battery-only spending percentage.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A location-specific backup obligation supports a compliance purchasing context, not a nationwide battery-only spending percentage.

15. CRTC - Request for Information on Telecommunications Network Resiliency, May 12, 2026
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The information request seeks evidence on possible backup requirements and customer equipment costs; it is not an enacted national procurement program.

16. FCC - Internet Access Services: Status as of December 31, 2024, official state-government-hosted copy
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: National residential/business and fixed/mobile connections constrain the US customer perimeter, but not state equipment-purchasing attribution.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: National residential/business and fixed/mobile connections constrain the US customer perimeter, but not state equipment-purchasing attribution.

17. PowerSafe SBS Batteries | EnerSys
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.

18. Vertiv NetSure M Series
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
19. Ofcom - Network and Service Resilience Guidance for Communications Providers, June 16, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: June 2026 guidance identifies approximately four hours as good practice for active fixed-access cabinets. This supports a conditional Extended purchasing shift, not completed orders or a Global mandate. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/network-and-service-resilience-guidance-for-communications-providerspdf?v=xx.xx))
20. Technology and Tools | First Responder Network Authority
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
21. Mobile Network Hardening Program | Australian Department of Infrastructure
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
22. BT - Digital Voice for Business Service Schedule, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.

23. Los Angeles Metro - Board Report 2024-1128, UPS Battery Replacement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
24. ETSI EN 300 019-1-3 V3.1.1 - Stationary Use at Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
25. ETSI EN 300 019-1-4 V3.1.1 - Stationary Use at Non-Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.

26. DC Power Plant / Rectifiers - UPS Rental
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
27. Helios Towers - Full Year Results 2025, March 12, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
28. Telecommunications | Aggreko US
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
29. EnerSys PowerSafe SBS Front Terminal Batteries | Alpine Power Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
30. DC Power Services | Vertiv
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.

31. Shuangdeng Group Co., Ltd. - Global Offering Prospectus, August 18, 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))

32. Amara Raja Crosses 1 GWh Lithium Storage Deployment Powering India's Telecom Networks

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))

33. Central Office Power Systems - EnerSys

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

34. PowerSafe OPzV Batteries - EnerSys

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix.
([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix.
([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

35. Bolloré - 2017 Registration Document

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value.
([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value.
([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

36. Bolloré - Business Report 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used.
([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used.
([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal.
([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal.
([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

37. AT&T to Replace U-Verse Cabinet Batteries - Fierce Network, January 15, 2008

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator.
([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator.
([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

38. PowerSafe NiCd Batteries - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
39. FDK Ni-MH Battery Is Chosen for the Cellect 600 Product of Alpha Technologies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
40. Products - Encell Technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
41. Telecom/5G - ZAF Energy Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
42. HORIEN Salt Battery Solutions and Inlyte Energy Announce a Strategic Partnership
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
43. Energy Backup - Phinergy
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))

44. Australian Flow Batteries - RFB40X Series

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))

45. PowerReserve - Verizon Residential Accessories

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))

46. Alkaline Manganese Dioxide Handbook and Application Manual - Energizer

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))

47. ITU-T Work Programme - Aqueous Zinc-Based Battery Systems for Base Station Applications

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The aqueous-zinc base-station work item is Under study with December 2027 timing. It constrains the forecast commercialization assumption but establishes neither approval nor customer purchases. ([itu.int](https://www.itu.int/itu-t/workprog/wp_item.aspx?isn=xx.xx))

48. ITU-T L.1397 - Battery System with Integrated Control and Monitoring Information Model

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))

49. ETSI EN 300 132-1 V2.2.1 - ICT Power Supply Interface: Alternating Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
50. ETSI EN 300 132-2 V2.8.1 - ICT Power Supply Interface: Direct Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
51. Vertiv NetSure Inverter Series - Converged AC and DC Power System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))

52. ETSI EN 302 099 V2.2.1 - Powering of Equipment in Access Network
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))

53. Set Up Your Battery Backup - AT&T G.Fast Service with BGW210

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

54. DNA Tower Offers Battery Capacity in Electricity Reserve Markets with Elisa DES

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

55. Case Elisa: Virtual Power Plant in the Telecom Industry

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company case reports over 2,000 aggregated sites and approximately xx.xx MWh. This is an installed commercial scale check, not annual purchasing value or Global prevalence. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/customer-stories/elisacase))

20.3. G7

Table 398. G7 Telecom Battery Backup System Market, by Country growth contribution, 2025-2032

Category	2025 value (USD Million)	2032 value (USD Million)	Added value (USD Million)	2025 share (%)	2032 share (%)	Change (pp)	Growth share (%)	CAGR (%)
Canada	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
France	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx

Sources & Evidence

1. China Tower - 2025 Annual Results, March 18, 2026
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosed spending slowdown is a counterforce used in the restrained 2026 purchasing assumption, not an observation of 2026 global revenue. ([ir.china-tower.com](https://ir.china-tower.com/en/ir/presentation/pre260318.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
2. Broadband Commission - The State of Broadband: Our Digital World, 2025
   - Evidence informing the 2032 market-value input; displayed series and growth include calculations: The fixed-broadband pool supports the premises-demand model, with future adoption and replacement assumptions remaining modeled. ([itu.int](https://www.itu.int/dms_pub/itu-s/opb/pol/s-pol-broadband.xx.xx-2025-pdf-e.pdf))

3. Battery Backup - Meriwether Lewis Electric Cooperative
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The provider distinguishes voice-only protection from combined voice-and-internet protection, supporting service-specific rather than universal premises adoption assumptions. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
4. EnerSys 2026 Proxy Statement and Annual Report
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Fiscal 2026 segment growth included data-center and industrial demand and communications mix effects. It is not accepted as a telecom-only global growth rate. ([s206.q4cdn.com](https://s206.q4cdn.com/xx.xx/files/doc_financials/2026/ar/b317caf6-56f8-42fa-bea1-bf685eb4132a.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.

5. Shuangdeng Group Co., Ltd. - Annual Results Announcement for the Year Ended December 31, 2025
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The telecom-specific decline is a counterweight to using broad energy-storage growth as the 2026 market forecast. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))
6. Amara Raja Energy & Mobility - Q2/H1 FY2026 Earnings Presentation, November 6, 2025
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Amara Raja subsequently reported more than xx.xx MWh of telecom volumes in its second quarter of fiscal 2026. This commercial shipment aggregate provides counterevidence to treating lead-acid weakness as disappearance of telecom backup demand. ([amararajaeandm.com](https://www.amararajaeandm.com/Files/FinancialResults/2025/Earningspresentation06112025.pdf))
7. IHS Holding Limited - First-Quarter 2026 Financial Statements
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosure supports a continuing replacement mechanism, but supplies no isolated global battery spending or replacement-cycle measurement. ([ihstowers.com](https://www.ihstowers.com/content/dam/ihs/corporate/documents/investors/earnings-materials/2026/IHS_Holding_Limited_1Q26_Financial_Statements.pdf.downloadasset.pdf))

8. Ofcom - Mobile RAN Power Resilience: Technical Report and CFI Update, February 2025
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom estimated UK-wide one-hour battery-backup alternatives at GBP1.xx.xx-xx.xx in 2024 prices, including capital expenditure and multiple years of operating costs. This is a jurisdictional scenario, not realized annual battery revenue. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
   - Evidence informing the 2032 market-value input; displayed series and growth include calculations: The costed alternatives constrain the commercial significance and limitations of resilience upgrades; their existence does not establish forecast implementation. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Uneven existing UK backup coverage and costed multi-year alternatives constrain adoption and purchasing assumptions.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Uneven existing UK backup coverage and costed multi-year alternatives constrain adoption and purchasing assumptions.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

9. Ofcom - Your Landline Is Going Digital: What You Need to Know

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom describes provider-funded backup eligibility for landline-dependent customers lacking a working mobile phone or reliable mobile signal. Eligibility is narrower than the total broadband customer pool. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The eligibility boundary supports conditional premises adoption, not a universal entitlement or a quantified global take-up rate. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))

10. IFC Supports IPT PowerTech to Deliver Clean Telecom Power Across Ethiopia, Liberia, and Sierra Leone
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: IFC's March 2026 announcement establishes financing support for IPT's telecom-energy expansion in Ethiopia, Liberia and Sierra Leone. Financing is an expansion indicator, not completed deployment or attributable backup-fee revenue. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing the 2029 market-value input; displayed series and growth include calculations: The financed expansion supports consideration of managed delivery, while global served-site counts and backup-only fees remain assumptions. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
11. Fingrid - How to Participate in the Reserve Markets
    - Evidence informing the 2032 market-value input; displayed series and growth include calculations: Fingrid's participation conditions establish contractual and permission gates for Finnish reserve markets. They support retaining an access constraint rather than assuming every backup asset earns additional energy-market revenue. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Applicable owner permission and market agreements are commercial access gates. They constrain forecast mixed-duty adoption without measuring its Global percentage. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
12. American Tower Corporation - Annual Report on Form 10-K for 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: US owned/operated towers are a disclosed company footprint, not a verified national inventory.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: US owned/operated towers are a disclosed company footprint, not a verified national inventory.

13. Cellnex - Integrated Annual Report 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: French telecom site portfolio anchors part of the modeled national installed footprint.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: French telecom site portfolio anchors part of the modeled national installed footprint.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Italian telecom site portfolio constrains the national network pool.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Italian telecom site portfolio constrains the national network pool.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: UK sites and upgrade activity provide a commercial footprint, not total battery purchasing.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: UK sites and upgrade activity provide a commercial footprint, not total battery purchasing.
14. CPUC Requires Wireless Companies to Better Serve Customers in Emergencies - July 16, 2020
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A location-specific backup obligation supports a compliance purchasing context, not a nationwide battery-only spending percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A location-specific backup obligation supports a compliance purchasing context, not a nationwide battery-only spending percentage.
15. CRTC - Request for Information on Telecommunications Network Resiliency, May 12, 2026
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The information request seeks evidence on possible backup requirements and customer equipment costs; it is not an enacted national procurement program.
16. FCC - Internet Access Services: Status as of December 31, 2024, official state-government-hosted copy
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: National residential/business and fixed/mobile connections constrain the US customer perimeter, but not state equipment-purchasing attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: National residential/business and fixed/mobile connections constrain the US customer perimeter, but not state equipment-purchasing attribution.
17. PowerSafe SBS Batteries | EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
18. Vertiv NetSure M Series
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.

19. Ofcom - Network and Service Resilience Guidance for Communications Providers, June 16, 2026
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: June 2026 guidance identifies approximately four hours as good practice for active fixed-access cabinets. This supports a conditional Extended purchasing shift, not completed orders or a Global mandate. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/network-and-service-resilience-guidance-for-communications-providerspdf?v=xx.xx))

20. Technology and Tools | First Responder Network Authority
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.

21. Mobile Network Hardening Program | Australian Department of Infrastructure
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.

22. BT - Digital Voice for Business Service Schedule, May 2026
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.

23. Los Angeles Metro - Board Report 2024-1128, UPS Battery Replacement
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.

24. ETSI EN 300 019-1-3 V3.1.1 - Stationary Use at Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
25. ETSI EN 300 019-1-4 V3.1.1 - Stationary Use at Non-Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.
26. DC Power Plant / Rectifiers - UPS Rental
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.

27. Helios Towers - Full Year Results 2025, March 12, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
28. Telecommunications | Aggreko US
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
29. EnerSys PowerSafe SBS Front Terminal Batteries | Alpine Power Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
30. DC Power Services | Vertiv
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.

31. Shuangdeng Group Co., Ltd. - Global Offering Prospectus, August 18, 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))

32. Amara Raja Crosses 1 GWh Lithium Storage Deployment Powering India's Telecom Networks

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))

33. Central Office Power Systems - EnerSys

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

34. PowerSafe OPzV Batteries - EnerSys

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix.
([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix.
([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

35. Bolloré - 2017 Registration Document

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value.
([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value.
([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

36. Bolloré - Business Report 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used.
([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used.
([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal.
([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal.
([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

37. AT&T to Replace U-Verse Cabinet Batteries - Fierce Network, January 15, 2008

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator.
([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator.
([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

38. PowerSafe NiCd Batteries - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
39. FDK Ni-MH Battery Is Chosen for the Cellect 600 Product of Alpha Technologies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
40. Products - Encell Technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
41. Telecom/5G - ZAF Energy Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
42. HORIEN Salt Battery Solutions and Inlyte Energy Announce a Strategic Partnership
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
43. Energy Backup - Phinergy
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))

44. Australian Flow Batteries - RFB40X Series

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))

45. PowerReserve - Verizon Residential Accessories

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))

46. Alkaline Manganese Dioxide Handbook and Application Manual - Energizer

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))

47. ITU-T Work Programme - Aqueous Zinc-Based Battery Systems for Base Station Applications

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The aqueous-zinc base-station work item is Under study with December 2027 timing. It constrains the forecast commercialization assumption but establishes neither approval nor customer purchases. ([itu.int](https://www.itu.int/itu-t/workprog/wp_item.aspx?isn=xx.xx))

48. ITU-T L.1397 - Battery System with Integrated Control and Monitoring Information Model

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))

49. ETSI EN 300 132-1 V2.2.1 - ICT Power Supply Interface: Alternating Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
50. ETSI EN 300 132-2 V2.8.1 - ICT Power Supply Interface: Direct Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
51. Vertiv NetSure Inverter Series - Converged AC and DC Power System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))

52. ETSI EN 302 099 V2.2.1 - Powering of Equipment in Access Network
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))

53. Set Up Your Battery Backup - AT&T G.Fast Service with BGW210

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

54. DNA Tower Offers Battery Capacity in Electricity Reserve Markets with Elisa DES

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

55. Case Elisa: Virtual Power Plant in the Telecom Industry

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company case reports over 2,000 aggregated sites and approximately xx.xx MWh. This is an installed commercial scale check, not annual purchasing value or Global prevalence. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/customer-stories/elisacase))

20.4. European Union

Table 419. European Union Telecom Battery Backup System Market, by Country growth contribution, 2025-2032

Category	2025 value (USD Million)	2032 value (USD Million)	Added value (USD Million)	2025 share (%)	2032 share (%)	Change (pp)	Growth share (%)	CAGR (%)
Austria	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Belgium	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx

Sources & Evidence

1. China Tower - 2025 Annual Results, March 18, 2026
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosed spending slowdown is a counterforce used in the restrained 2026 purchasing assumption, not an observation of 2026 global revenue. ([ir.china-tower.com](https://ir.china-tower.com/en/ir/presentation/pre260318.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
2. Broadband Commission - The State of Broadband: Our Digital World, 2025
   - Evidence informing the 2032 market-value input; displayed series and growth include calculations: The fixed-broadband pool supports the premises-demand model, with future adoption and replacement assumptions remaining modeled. ([itu.int](https://www.itu.int/dms_pub/itu-s/opb/pol/s-pol-broadband.xx.xx-2025-pdf-e.pdf))

3. Battery Backup - Meriwether Lewis Electric Cooperative
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The provider distinguishes voice-only protection from combined voice-and-internet protection, supporting service-specific rather than universal premises adoption assumptions. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
4. EnerSys 2026 Proxy Statement and Annual Report
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Fiscal 2026 segment growth included data-center and industrial demand and communications mix effects. It is not accepted as a telecom-only global growth rate. ([s206.q4cdn.com](https://s206.q4cdn.com/xx.xx/files/doc_financials/2026/ar/b317caf6-56f8-42fa-bea1-bf685eb4132a.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.

5. Shuangdeng Group Co., Ltd. - Annual Results Announcement for the Year Ended December 31, 2025
   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: The telecom-specific decline is a counterweight to using broad energy-storage growth as the 2026 market forecast. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))
   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))
   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))
   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))
   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))
6. Amara Raja Energy & Mobility - Q2/H1 FY2026 Earnings Presentation, November 6, 2025
   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Amara Raja subsequently reported more than xx.xx MWh of telecom volumes in its second quarter of fiscal 2026. This commercial shipment aggregate provides counterevidence to treating lead-acid weakness as disappearance of telecom backup demand. ([amararajaeandm.com](https://www.amararajaeandm.com/Files/FinancialResults/2025/Earningspresentation06112025.pdf))
7. IHS Holding Limited - First-Quarter 2026 Financial Statements
   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosure supports a continuing replacement mechanism, but supplies no isolated global battery spending or replacement-cycle measurement. ([ihstowers.com](https://www.ihstowers.com/content/dam/ihs/corporate/documents/investors/earnings-materials/2026/IHS_Holding_Limited_1Q26_Financial_Statements.pdf.downloadasset.pdf))

8. Ofcom - Mobile RAN Power Resilience: Technical Report and CFI Update, February 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom estimated UK-wide one-hour battery-backup alternatives at GBP1.xx.xx-xx.xx in 2024 prices, including capital expenditure and multiple years of operating costs. This is a jurisdictional scenario, not realized annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing the 2032 market-value input; displayed series and growth include calculations: The costed alternatives constrain the commercial significance and limitations of resilience upgrades; their existence does not establish forecast implementation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

9. Ofcom - Your Landline Is Going Digital: What You Need to Know

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom describes provider-funded backup eligibility for landline-dependent customers lacking a working mobile phone or reliable mobile signal. Eligibility is narrower than the total broadband customer pool. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The eligibility boundary supports conditional premises adoption, not a universal entitlement or a quantified global take-up rate. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))

10. IFC Supports IPT PowerTech to Deliver Clean Telecom Power Across Ethiopia, Liberia, and Sierra Leone
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: IFC's March 2026 announcement establishes financing support for IPT's telecom-energy expansion in Ethiopia, Liberia and Sierra Leone. Financing is an expansion indicator, not completed deployment or attributable backup-fee revenue. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing the 2029 market-value input; displayed series and growth include calculations: The financed expansion supports consideration of managed delivery, while global served-site counts and backup-only fees remain assumptions. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
11. Fingrid - How to Participate in the Reserve Markets
    - Evidence informing the 2032 market-value input; displayed series and growth include calculations: Fingrid's participation conditions establish contractual and permission gates for Finnish reserve markets. They support retaining an access constraint rather than assuming every backup asset earns additional energy-market revenue. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reserve-market permissions and participation agreements establish an access constraint; no telecom-battery reserve-income uplift is included.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Applicable owner permission and market agreements are commercial access gates. They constrain forecast mixed-duty adoption without measuring its Global percentage. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))

12. Cellnex - Integrated Annual Report 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: French telecom site portfolio anchors part of the modeled national installed footprint.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: French telecom site portfolio anchors part of the modeled national installed footprint.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Italian telecom site portfolio constrains the national network pool.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Italian telecom site portfolio constrains the national network pool.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Polish site portfolio supports country-specific network activity.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Polish site portfolio supports country-specific network activity.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Danish site portfolio constrains the small-country footprint bridge.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Danish site portfolio constrains the small-country footprint bridge.
13. PowerSafe SBS Batteries | EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
14. Vertiv NetSure M Series
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.

15. Ofcom - Network and Service Resilience Guidance for Communications Providers, June 16, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: June 2026 guidance identifies approximately four hours as good practice for active fixed-access cabinets. This supports a conditional Extended purchasing shift, not completed orders or a Global mandate. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/network-and-service-resilience-guidance-for-communications-providerspdf?v=xx.xx))
16. Technology and Tools | First Responder Network Authority
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
17. Mobile Network Hardening Program | Australian Department of Infrastructure
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
18. BT - Digital Voice for Business Service Schedule, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
19. Los Angeles Metro - Board Report 2024-1128, UPS Battery Replacement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.

20. ETSI EN 300 019-1-3 V3.1.1 - Stationary Use at Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
21. ETSI EN 300 019-1-4 V3.1.1 - Stationary Use at Non-Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.
22. DC Power Plant / Rectifiers - UPS Rental
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.

23. Helios Towers - Full Year Results 2025, March 12, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
24. Telecommunications | Aggreko US
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
25. EnerSys PowerSafe SBS Front Terminal Batteries | Alpine Power Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
26. DC Power Services | Vertiv
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.

27. Shuangdeng Group Co., Ltd. - Global Offering Prospectus, August 18, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
28. Amara Raja Crosses 1 GWh Lithium Storage Deployment Powering India's Telecom Networks
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
29. Central Office Power Systems - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

30. PowerSafe OPzV Batteries - EnerSys

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

31. Bolloré - 2017 Registration Document

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

32. Bolloré - Business Report 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

33. AT&T to Replace U-Verse Cabinet Batteries - Fierce Network, January 15, 2008

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

34. PowerSafe NiCd Batteries - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
35. FDK Ni-MH Battery Is Chosen for the Cellect 600 Product of Alpha Technologies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
36. Products - Encell Technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
37. Telecom/5G - ZAF Energy Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
38. HORIEN Salt Battery Solutions and Inlyte Energy Announce a Strategic Partnership
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
39. Energy Backup - Phinergy
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))

40. Australian Flow Batteries - RFB40X Series

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))

41. PowerReserve - Verizon Residential Accessories

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))

42. Alkaline Manganese Dioxide Handbook and Application Manual - Energizer

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))

43. ITU-T Work Programme - Aqueous Zinc-Based Battery Systems for Base Station Applications

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The aqueous-zinc base-station work item is Under study with December 2027 timing. It constrains the forecast commercialization assumption but establishes neither approval nor customer purchases. ([itu.int](https://www.itu.int/itu-t/workprog/wp_item.aspx?isn=xx.xx))

44. ITU-T L.1397 - Battery System with Integrated Control and Monitoring Information Model

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))

45. ETSI EN 300 132-1 V2.2.1 - ICT Power Supply Interface: Alternating Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
46. ETSI EN 300 132-2 V2.8.1 - ICT Power Supply Interface: Direct Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
47. Vertiv NetSure Inverter Series - Converged AC and DC Power System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))

48. ETSI EN 302 099 V2.2.1 - Powering of Equipment in Access Network
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))

49. Set Up Your Battery Backup - AT&T G.Fast Service with BGW210

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

50. DNA Tower Offers Battery Capacity in Electricity Reserve Markets with Elisa DES

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

51. Case Elisa: Virtual Power Plant in the Telecom Industry

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company case reports over 2,000 aggregated sites and approximately xx.xx MWh. This is an installed commercial scale check, not annual purchasing value or Global prevalence. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/customer-stories/elisacase))

20.5. ASEAN

Table 440. ASEAN Telecom Battery Backup System Market, by Country growth contribution, 2025-2032

Category	2025 value (USD Million)	2032 value (USD Million)	Added value (USD Million)	2025 share (%)	2032 share (%)	Change (pp)	Growth share (%)	CAGR (%)
Brunei	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Cambodia	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Indonesia	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Lao People's Democratic Republic	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Malaysia	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Myanmar	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Philippines	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Singapore	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Thailand	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Vietnam	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Scope total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 441. ASEAN Telecom Battery Backup System Market Size, by Group, 2017-2032 (USD Million)

Group	2023	2024	2025	2026	2027	2032	CAGR (%)

Table 457. ASEAN Telecom Battery Backup System Market Size, by Sales Channel, 2017-2032 (USD Million)

Sales Channel	2023	2024	2025	2026	2027	2032	CAGR (%)
Direct Manufacturer Supply	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Distributor and Retailer Supply	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Systems Integrator and Contractor Supply	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Telecom Service Provider Supply	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 458. ASEAN Telecom Battery Backup System Market Size, by Grid Availability, 2017-2032 (USD Million)

Grid Availability	2023	2024	2025	2026	2027	2032	CAGR (%)
Off-Grid	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Reliable Grid	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Unreliable Grid	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 459. ASEAN Telecom Battery Backup System Market Size, by Backup Duty, 2017-2032 (USD Million)

Backup Duty	2023	2024	2025	2026	2027	2032	CAGR (%)
Backup with Energy Management	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Reserve-Only Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 460. ASEAN Telecom Battery Backup System Market Size, by Backup Autonomy, 2017-2032 (USD Million)

Backup Autonomy	2023	2024	2025	2026	2027	2032	CAGR (%)
Day-Scale Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Extended-Duration Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Intermediate-Duration Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Short-Duration Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Sources & Evidence

1. China Tower - 2025 Annual Results, March 18, 2026
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosed spending slowdown is a counterforce used in the restrained 2026 purchasing assumption, not an observation of 2026 global revenue. ([ir.china-tower.com](https://ir.china-tower.com/en/ir/presentation/pre260318.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
2. Broadband Commission - The State of Broadband: Our Digital World, 2025
   - Evidence informing the 2032 market-value input; displayed series and growth include calculations: The fixed-broadband pool supports the premises-demand model, with future adoption and replacement assumptions remaining modeled. ([itu.int](https://www.itu.int/dms_pub/itu-s/opb/pol/s-pol-broadband.xx.xx-2025-pdf-e.pdf))

3. Battery Backup - Meriwether Lewis Electric Cooperative
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The provider distinguishes voice-only protection from combined voice-and-internet protection, supporting service-specific rather than universal premises adoption assumptions. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
4. EnerSys 2026 Proxy Statement and Annual Report
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Fiscal 2026 segment growth included data-center and industrial demand and communications mix effects. It is not accepted as a telecom-only global growth rate. ([s206.q4cdn.com](https://s206.q4cdn.com/xx.xx/files/doc_financials/2026/ar/b317caf6-56f8-42fa-bea1-bf685eb4132a.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.

5. Shuangdeng Group Co., Ltd. - Annual Results Announcement for the Year Ended December 31, 2025

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: The telecom-specific decline is a counterweight to using broad energy-storage growth as the 2026 market forecast. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

6. Amara Raja Energy & Mobility - Q2/H1 FY2026 Earnings Presentation, November 6, 2025

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Amara Raja subsequently reported more than xx.xx MWh of telecom volumes in its second quarter of fiscal 2026. This commercial shipment aggregate provides counterevidence to treating lead-acid weakness as disappearance of telecom backup demand. ([amararajaeandm.com](https://www.amararajaeandm.com/Files/FinancialResults/2025/Earningspresentation06112025.pdf))

7. IHS Holding Limited - First-Quarter 2026 Financial Statements

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosure supports a continuing replacement mechanism, but supplies no isolated global battery spending or replacement-cycle measurement. ([ihstowers.com](https://www.ihstowers.com/content/dam/ihs/corporate/documents/investors/earnings-materials/2026/IHS_Holding_Limited_1Q26_Financial_Statements.pdf.downloadasset.pdf))

8. Ofcom - Mobile RAN Power Resilience: Technical Report and CFI Update, February 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom estimated UK-wide one-hour battery-backup alternatives at GBP1.xx.xx-xx.xx in 2024 prices, including capital expenditure and multiple years of operating costs. This is a jurisdictional scenario, not realized annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing the 2032 market-value input; displayed series and growth include calculations: The costed alternatives constrain the commercial significance and limitations of resilience upgrades; their existence does not establish forecast implementation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

9. Ofcom - Your Landline Is Going Digital: What You Need to Know

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom describes provider-funded backup eligibility for landline-dependent customers lacking a working mobile phone or reliable mobile signal. Eligibility is narrower than the total broadband customer pool. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The eligibility boundary supports conditional premises adoption, not a universal entitlement or a quantified global take-up rate. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))

10. IFC Supports IPT PowerTech to Deliver Clean Telecom Power Across Ethiopia, Liberia, and Sierra Leone
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: IFC's March 2026 announcement establishes financing support for IPT's telecom-energy expansion in Ethiopia, Liberia and Sierra Leone. Financing is an expansion indicator, not completed deployment or attributable backup-fee revenue. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing the 2029 market-value input; displayed series and growth include calculations: The financed expansion supports consideration of managed delivery, while global served-site counts and backup-only fees remain assumptions. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
11. Fingrid - How to Participate in the Reserve Markets
    - Evidence informing the 2032 market-value input; displayed series and growth include calculations: Fingrid's participation conditions establish contractual and permission gates for Finnish reserve markets. They support retaining an access constraint rather than assuming every backup asset earns additional energy-market revenue. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Applicable owner permission and market agreements are commercial access gates. They constrain forecast mixed-duty adoption without measuring its Global percentage. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
12. PowerSafe SBS Batteries | EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.

13. Vertiv NetSure M Series
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
14. Ofcom - Network and Service Resilience Guidance for Communications Providers, June 16, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: June 2026 guidance identifies approximately four hours as good practice for active fixed-access cabinets. This supports a conditional Extended purchasing shift, not completed orders or a Global mandate. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/network-and-service-resilience-guidance-for-communications-providerspdf?v=xx.xx))
15. Technology and Tools | First Responder Network Authority
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
16. Mobile Network Hardening Program | Australian Department of Infrastructure
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
17. BT - Digital Voice for Business Service Schedule, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.

18. Los Angeles Metro - Board Report 2024-1128, UPS Battery Replacement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
19. ETSI EN 300 019-1-3 V3.1.1 - Stationary Use at Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
20. ETSI EN 300 019-1-4 V3.1.1 - Stationary Use at Non-Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.

21. DC Power Plant / Rectifiers - UPS Rental
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
22. Helios Towers - Full Year Results 2025, March 12, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
23. Telecommunications | Aggreko US
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
24. EnerSys PowerSafe SBS Front Terminal Batteries | Alpine Power Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
25. DC Power Services | Vertiv
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.

26. Shuangdeng Group Co., Ltd. - Global Offering Prospectus, August 18, 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))

27. Amara Raja Crosses 1 GWh Lithium Storage Deployment Powering India's Telecom Networks

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))

28. Central Office Power Systems - EnerSys

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

29. PowerSafe OPzV Batteries - EnerSys

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

30. Bolloré - 2017 Registration Document

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

31. Bolloré - Business Report 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

32. AT&T to Replace U-Verse Cabinet Batteries - Fierce Network, January 15, 2008

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

33. PowerSafe NiCd Batteries - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
34. FDK Ni-MH Battery Is Chosen for the Cellect 600 Product of Alpha Technologies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
35. Products - Encell Technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
36. Telecom/5G - ZAF Energy Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
37. HORIEN Salt Battery Solutions and Inlyte Energy Announce a Strategic Partnership
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
38. Energy Backup - Phinergy
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))

39. Australian Flow Batteries - RFB40X Series

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))

40. PowerReserve - Verizon Residential Accessories

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))

41. Alkaline Manganese Dioxide Handbook and Application Manual - Energizer

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))

42. ITU-T Work Programme - Aqueous Zinc-Based Battery Systems for Base Station Applications

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The aqueous-zinc base-station work item is Under study with December 2027 timing. It constrains the forecast commercialization assumption but establishes neither approval nor customer purchases. ([itu.int](https://www.itu.int/itu-t/workprog/wp_item.aspx?isn=xx.xx))

43. ITU-T L.1397 - Battery System with Integrated Control and Monitoring Information Model

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))

44. ETSI EN 300 132-1 V2.2.1 - ICT Power Supply Interface: Alternating Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
45. ETSI EN 300 132-2 V2.8.1 - ICT Power Supply Interface: Direct Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
46. Vertiv NetSure Inverter Series - Converged AC and DC Power System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))

47. ETSI EN 302 099 V2.2.1 - Powering of Equipment in Access Network
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))

48. Set Up Your Battery Backup - AT&T G.Fast Service with BGW210

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

49. DNA Tower Offers Battery Capacity in Electricity Reserve Markets with Elisa DES

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

50. Case Elisa: Virtual Power Plant in the Telecom Industry

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company case reports over 2,000 aggregated sites and approximately xx.xx MWh. This is an installed commercial scale check, not annual purchasing value or Global prevalence. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/customer-stories/elisacase))

20.6. GCC

Table 461. GCC Telecom Battery Backup System Market, by Country growth contribution, 2025-2032

Category	2025 value (USD Million)	2032 value (USD Million)	Added value (USD Million)	2025 share (%)	2032 share (%)	Change (pp)	Growth share (%)	CAGR (%)
Bahrain	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Kuwait	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Oman	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Qatar	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Saudi Arabia	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
United Arab Emirates	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Scope total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Sources & Evidence

1. China Tower - 2025 Annual Results, March 18, 2026
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosed spending slowdown is a counterforce used in the restrained 2026 purchasing assumption, not an observation of 2026 global revenue. ([ir.china-tower.com](https://ir.china-tower.com/en/ir/presentation/pre260318.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
2. Broadband Commission - The State of Broadband: Our Digital World, 2025
   - Evidence informing the 2032 market-value input; displayed series and growth include calculations: The fixed-broadband pool supports the premises-demand model, with future adoption and replacement assumptions remaining modeled. ([itu.int](https://www.itu.int/dms_pub/itu-s/opb/pol/s-pol-broadband.xx.xx-2025-pdf-e.pdf))

3. Battery Backup - Meriwether Lewis Electric Cooperative
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The provider distinguishes voice-only protection from combined voice-and-internet protection, supporting service-specific rather than universal premises adoption assumptions. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
4. EnerSys 2026 Proxy Statement and Annual Report
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Fiscal 2026 segment growth included data-center and industrial demand and communications mix effects. It is not accepted as a telecom-only global growth rate. ([s206.q4cdn.com](https://s206.q4cdn.com/xx.xx/files/doc_financials/2026/ar/b317caf6-56f8-42fa-bea1-bf685eb4132a.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.

5. Shuangdeng Group Co., Ltd. - Annual Results Announcement for the Year Ended December 31, 2025
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The telecom-specific decline is a counterweight to using broad energy-storage growth as the 2026 market forecast. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))
6. Amara Raja Energy & Mobility - Q2/H1 FY2026 Earnings Presentation, November 6, 2025
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Amara Raja subsequently reported more than xx.xx MWh of telecom volumes in its second quarter of fiscal 2026. This commercial shipment aggregate provides counterevidence to treating lead-acid weakness as disappearance of telecom backup demand. ([amararajaeandm.com](https://www.amararajaeandm.com/Files/FinancialResults/2025/Earningspresentation06112025.pdf))
7. IHS Holding Limited - First-Quarter 2026 Financial Statements
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosure supports a continuing replacement mechanism, but supplies no isolated global battery spending or replacement-cycle measurement. ([ihstowers.com](https://www.ihstowers.com/content/dam/ihs/corporate/documents/investors/earnings-materials/2026/IHS_Holding_Limited_1Q26_Financial_Statements.pdf.downloadasset.pdf))

8. Ofcom - Mobile RAN Power Resilience: Technical Report and CFI Update, February 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom estimated UK-wide one-hour battery-backup alternatives at GBP1.xx.xx-xx.xx in 2024 prices, including capital expenditure and multiple years of operating costs. This is a jurisdictional scenario, not realized annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing the 2032 market-value input; displayed series and growth include calculations: The costed alternatives constrain the commercial significance and limitations of resilience upgrades; their existence does not establish forecast implementation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

9. Ofcom - Your Landline Is Going Digital: What You Need to Know

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom describes provider-funded backup eligibility for landline-dependent customers lacking a working mobile phone or reliable mobile signal. Eligibility is narrower than the total broadband customer pool. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The eligibility boundary supports conditional premises adoption, not a universal entitlement or a quantified global take-up rate. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))

10. IFC Supports IPT PowerTech to Deliver Clean Telecom Power Across Ethiopia, Liberia, and Sierra Leone
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: IFC's March 2026 announcement establishes financing support for IPT's telecom-energy expansion in Ethiopia, Liberia and Sierra Leone. Financing is an expansion indicator, not completed deployment or attributable backup-fee revenue. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing the 2029 market-value input; displayed series and growth include calculations: The financed expansion supports consideration of managed delivery, while global served-site counts and backup-only fees remain assumptions. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
11. Fingrid - How to Participate in the Reserve Markets
    - Evidence informing the 2032 market-value input; displayed series and growth include calculations: Fingrid's participation conditions establish contractual and permission gates for Finnish reserve markets. They support retaining an access constraint rather than assuming every backup asset earns additional energy-market revenue. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Applicable owner permission and market agreements are commercial access gates. They constrain forecast mixed-duty adoption without measuring its Global percentage. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
12. PowerSafe SBS Batteries | EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.

13. Vertiv NetSure M Series
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
14. Ofcom - Network and Service Resilience Guidance for Communications Providers, June 16, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: June 2026 guidance identifies approximately four hours as good practice for active fixed-access cabinets. This supports a conditional Extended purchasing shift, not completed orders or a Global mandate. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/network-and-service-resilience-guidance-for-communications-providerspdf?v=xx.xx))
15. Technology and Tools | First Responder Network Authority
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
16. Mobile Network Hardening Program | Australian Department of Infrastructure
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
17. BT - Digital Voice for Business Service Schedule, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.

18. Los Angeles Metro - Board Report 2024-1128, UPS Battery Replacement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
19. ETSI EN 300 019-1-3 V3.1.1 - Stationary Use at Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
20. ETSI EN 300 019-1-4 V3.1.1 - Stationary Use at Non-Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.

21. DC Power Plant / Rectifiers - UPS Rental
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
22. Helios Towers - Full Year Results 2025, March 12, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
23. Telecommunications | Aggreko US
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
24. EnerSys PowerSafe SBS Front Terminal Batteries | Alpine Power Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
25. DC Power Services | Vertiv
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.

26. Shuangdeng Group Co., Ltd. - Global Offering Prospectus, August 18, 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))

27. Amara Raja Crosses 1 GWh Lithium Storage Deployment Powering India's Telecom Networks

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))

28. Central Office Power Systems - EnerSys

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

29. PowerSafe OPzV Batteries - EnerSys

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

30. Bolloré - 2017 Registration Document

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

31. Bolloré - Business Report 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

32. AT&T to Replace U-Verse Cabinet Batteries - Fierce Network, January 15, 2008

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

33. PowerSafe NiCd Batteries - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
34. FDK Ni-MH Battery Is Chosen for the Cellect 600 Product of Alpha Technologies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
35. Products - Encell Technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
36. Telecom/5G - ZAF Energy Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
37. HORIEN Salt Battery Solutions and Inlyte Energy Announce a Strategic Partnership
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
38. Energy Backup - Phinergy
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))

39. Australian Flow Batteries - RFB40X Series

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))

40. PowerReserve - Verizon Residential Accessories

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))

41. Alkaline Manganese Dioxide Handbook and Application Manual - Energizer

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))

42. ITU-T Work Programme - Aqueous Zinc-Based Battery Systems for Base Station Applications

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The aqueous-zinc base-station work item is Under study with December 2027 timing. It constrains the forecast commercialization assumption but establishes neither approval nor customer purchases. ([itu.int](https://www.itu.int/itu-t/workprog/wp_item.aspx?isn=xx.xx))

43. ITU-T L.1397 - Battery System with Integrated Control and Monitoring Information Model

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))

44. ETSI EN 300 132-1 V2.2.1 - ICT Power Supply Interface: Alternating Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
45. ETSI EN 300 132-2 V2.8.1 - ICT Power Supply Interface: Direct Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
46. Vertiv NetSure Inverter Series - Converged AC and DC Power System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))

47. ETSI EN 302 099 V2.2.1 - Powering of Equipment in Access Network
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))

48. Set Up Your Battery Backup - AT&T G.Fast Service with BGW210

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

49. DNA Tower Offers Battery Capacity in Electricity Reserve Markets with Elisa DES

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

50. Case Elisa: Virtual Power Plant in the Telecom Industry

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company case reports over 2,000 aggregated sites and approximately xx.xx MWh. This is an installed commercial scale check, not annual purchasing value or Global prevalence. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/customer-stories/elisacase))

21. Telecom Battery Backup System Market, by Country

[illegible] Equipment suppliers should establish who controls that continuity budget. The rule supports a purchasing rationale, but does not prescribe a battery chemistry or prove that battery replacement resolves every interruption.

Germany requires a local producer-accountability route before battery market entry. Stiftung ear states that producers must register, foreign companies requiring registration need an authorized representative, and producers must participate in a responsibility organization for each applicable category. [illegible]

India makes extended producer responsibility part of the battery supply relationship. CPCB's producer guidance covers registration, identifies importer and manufacturer roles, and links market introduction to recycling or refurbishing obligations. [illegible]

Finland separates reserve-market access from battery ownership and software acquisition. [illegible] Neither route waives eligibility or establishes compatibility with an individual telecom continuity contract.

[illegible] Permit and tax accountability remain separate from equipment suitability and telecom acceptance. A regional hub can consolidate supply relationships, but does not by itself settle onward-market access or the customer's continuing service obligations.

[illegible] Suppliers should distinguish provider-funded fulfillment from broader household connectivity purchases. A suitable alternative means of emergency contact can narrow the battery requirement, and protection of emergency calling does not establish comprehensive broadband continuity.

Figure 36. Global Telecom Battery Backup System Market Size, by Country, 2025 vs 2032 (%)

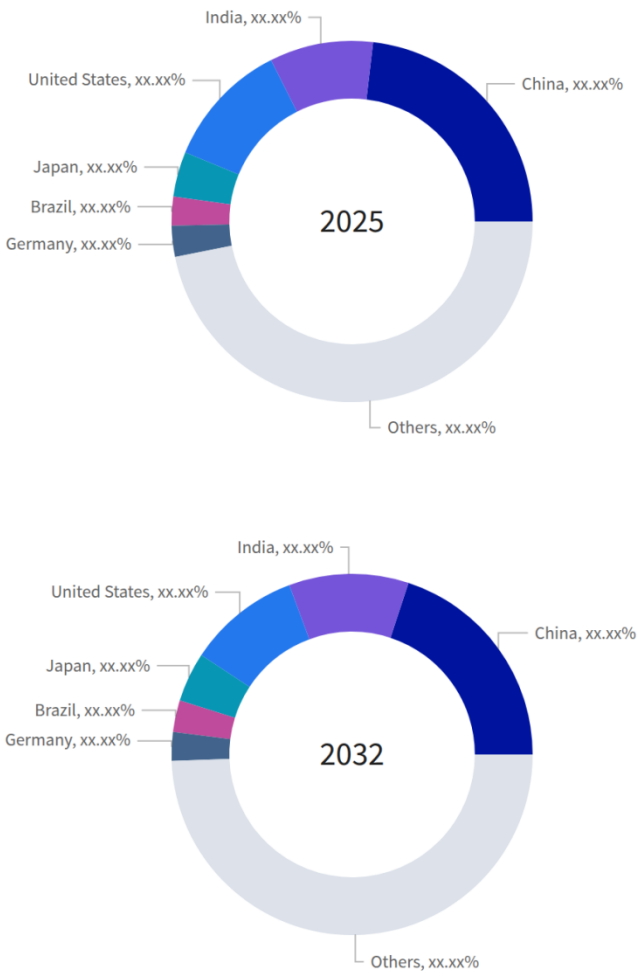

Figure 37. Global Telecom Battery Backup System Market Size, by Country, 2025 vs 2026 vs 2032

Sources & Evidence

1. How to participate in the reserve markets | Fingrid
   - Fingrid requires applicable owner permission, reserve-product agreements, and settlement arrangements, and permits independent or service-provider-assisted entry.
   - Evidence informing the 2032 market-value input; displayed series and growth include calculations: Fingrid's participation conditions establish contractual and permission gates for Finnish reserve markets. They support retaining an access constraint rather than assuming every backup asset earns additional energy-market revenue.
   ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
2. What Obligations Do Battery Producers Have?
   - Stiftung ear describes registration, applicable foreign-producer representation, and participation in a producer responsibility organization for each category.
3. CPCB Guidance for Producers
   - CPCB producer guidance describes registration, importer and manufacturer roles, and recycling or refurbishing obligations associated with market introduction.
4. Import Procedures Overview - Singapore Customs
   - Singapore Customs requires relevant import permits and identifies a local consignee as importer in the described overseas-sale relationship.
5. Commission 111 Contact Code
   - New Zealand requires appropriate no-cost emergency-contact support for qualifying residential landline consumers; the obligation is not a universal free-battery requirement.

6. Regras - Qualidade dos Serviços de Telecomunicações
   - Anatel includes power loss among unplanned interruptions and describes proportional consumer redress; it does not prescribe a battery chemistry.
7. China Tower - 2025 Annual Results, March 18, 2026
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosed spending slowdown is a counterforce used in the restrained 2026 purchasing assumption, not an observation of 2026 global revenue. ([ir.china-tower.com](https://ir.china-tower.com/en/ir/presentation/pre260318.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Infrastructure expenditure and replacement/improvement restraint constrain the purchasing forecast; broader capital expenditure is not battery-only revenue.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Infrastructure expenditure and replacement/improvement restraint constrain the purchasing forecast; broader capital expenditure is not battery-only revenue.
8. Broadband Commission - The State of Broadband: Our Digital World, 2025
   - Evidence informing the 2032 market-value input; displayed series and growth include calculations: The fixed-broadband pool supports the premises-demand model, with future adoption and replacement assumptions remaining modeled. ([itu.int](https://www.itu.int/dms_pub/itu-s/opb/pol/s-pol-broadband.xx.xx-2025-pdf-e.pdf))
9. Battery Backup - Meriwether Lewis Electric Cooperative
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The provider distinguishes voice-only protection from combined voice-and-internet protection, supporting service-specific rather than universal premises adoption assumptions. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
10. EnerSys 2026 Proxy Statement and Annual Report
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Fiscal 2026 segment growth included data-center and industrial demand and communications mix effects. It is not accepted as a telecom-only global growth rate. ([s206.q4cdn.com](https://s206.q4cdn.com/xx.xx/files/doc_financials/2026/ar/b317caf6-56f8-42fa-bea1-bf685eb4132a.pdf))
11. Shuangdeng Group Co., Ltd. - Annual Results Announcement for the Year Ended December 31, 2025
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The telecom-specific decline is a counterweight to using broad energy-storage growth as the 2026 market forecast. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom application revenue provides counterevidence to extrapolating broad energy-storage growth into China's backup forecast.
12. Amara Raja Energy & Mobility - Q2/H1 FY2026 Earnings Presentation, November 6, 2025
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Amara Raja subsequently reported more than xx.xx MWh of telecom volumes in its second quarter of fiscal 2026. This commercial shipment aggregate provides counterevidence to treating lead-acid weakness as disappearance of telecom backup demand. ([amararajaeandm.com](https://www.amararajaeandm.com/Files/FinancialResults/2025/Earningspresentation06112025.pdf))
13. IHS Holding Limited - First-Quarter 2026 Financial Statements
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosure supports a continuing replacement mechanism, but supplies no isolated global battery spending or replacement-cycle measurement. ([ihstowers.com](https://www.ihstowers.com/content/dam/ihs/corporate/documents/investors/earnings-materials/2026/IHS_Holding_Limited_1Q26_Financial_Statements.pdf.downloadasset.pdf))

14. Ofcom - Mobile RAN Power Resilience: Technical Report and CFI Update, February 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom estimated UK-wide one-hour battery-backup alternatives at GBP1.xx.xx-xx.xx in 2024 prices, including capital expenditure and multiple years of operating costs. This is a jurisdictional scenario, not realized annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing the 2032 market-value input; displayed series and growth include calculations: The costed alternatives constrain the commercial significance and limitations of resilience upgrades; their existence does not establish forecast implementation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Uneven existing UK backup coverage and costed multi-year alternatives constrain adoption and purchasing assumptions.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Uneven existing UK backup coverage and costed multi-year alternatives constrain adoption and purchasing assumptions.

15. Ofcom - Your Landline Is Going Digital: What You Need to Know

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom describes provider-funded backup eligibility for landline-dependent customers lacking a working mobile phone or reliable mobile signal. Eligibility is narrower than the total broadband customer pool.
([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))

· Evidence informing the 2032 market-value input; displayed series and growth include calculations: The eligibility boundary supports conditional premises adoption, not a universal entitlement or a quantified global take-up rate.
([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))

16. IFC Supports IPT PowerTech to Deliver Clean Telecom Power Across Ethiopia, Liberia, and Sierra Leone

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: IFC's March 2026 announcement establishes financing support for IPT's telecom-energy expansion in Ethiopia, Liberia and Sierra Leone. Financing is an expansion indicator, not completed deployment or attributable backup-fee revenue.
([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))

· Evidence informing the 2029 market-value input; displayed series and growth include calculations: The financed expansion supports consideration of managed delivery, while global served-site counts and backup-only fees remain assumptions.
([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))

17. China Tower announces 2025 annual results - March 18, 2026

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: China Tower reports xx.xx tower sites at year-end 2025, an installed-stock input rather than annual battery sales.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: China Tower reports xx.xx tower sites at year-end 2025, an installed-stock input rather than annual battery sales.

18. American Tower Corporation - Annual Report on Form 10-K for 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: US owned/operated towers are a disclosed company footprint, not a verified national inventory.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: US owned/operated towers are a disclosed company footprint, not a verified national inventory.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Brazilian tower inventory supports a substantial local wireless-network pool.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Brazilian tower inventory supports a substantial local wireless-network pool.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Mexican tower inventory constrains the local network-stock bridge.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Mexican tower inventory constrains the local network-stock bridge.
19. Cellnex - Integrated Annual Report 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: French telecom site portfolio anchors part of the modeled national installed footprint.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: French telecom site portfolio anchors part of the modeled national installed footprint.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Italian telecom site portfolio constrains the national network pool.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Italian telecom site portfolio constrains the national network pool.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: UK sites and upgrade activity provide a commercial footprint, not total battery purchasing.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: UK sites and upgrade activity provide a commercial footprint, not total battery purchasing.
20. Australian Government - Mobile Network Hardening Program
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Operator-specific battery upgrades and mixed hardening measures support localized Australian procurement, not a regional battery mandate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Operator-specific battery upgrades and mixed hardening measures support localized Australian procurement, not a regional battery mandate.
21. CPUC Requires Wireless Companies to Better Serve Customers in Emergencies - July 16, 2020
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A location-specific backup obligation supports a compliance purchasing context, not a nationwide battery-only spending percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A location-specific backup obligation supports a compliance purchasing context, not a nationwide battery-only spending percentage.
22. CRTC - Request for Information on Telecommunications Network Resiliency, May 12, 2026
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The information request seeks evidence on possible backup requirements and customer equipment costs; it is not an enacted national procurement program.
23. FCC - Internet Access Services: Status as of December 31, 2024, official state-government-hosted copy
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: National residential/business and fixed/mobile connections constrain the US customer perimeter, but not state equipment-purchasing attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: National residential/business and fixed/mobile connections constrain the US customer perimeter, but not state equipment-purchasing attribution.

24. OECD - High-capacity broadband networks gain ground across OECD, October 13, 2026
    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: High mature-market fibre adoption is retained as a saturation counterforce to the purchasing forecast.

21.1. China

Sales Channel	2023	2024	2025	2026	2027	2032	CAGR (%)
Direct Manufacturer Supply	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Distributor and Retailer Supply	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Systems Integrator and Contractor Supply	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Telecom Service Provider Supply	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 501. China Telecom Battery Backup System Market Size, by Grid Availability, 2017-2032 (USD Million)

Grid Availability	2023	2024	2025	2026	2027	2032	CAGR (%)
Off-Grid	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Reliable Grid	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Unreliable Grid	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 502. China Telecom Battery Backup System Market Size, by Backup Duty, 2017-2032 (USD Million)

Backup Duty	2023	2024	2025	2026	2027	2032	CAGR (%)
Backup with Energy Management	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Reserve-Only Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 503. China Telecom Battery Backup System Market Size, by Backup Autonomy, 2017-2032 (USD Million)

Backup Autonomy	2023	2024	2025	2026	2027	2032	CAGR (%)
Day-Scale Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Extended-Duration Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Intermediate-Duration Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Short-Duration Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Sources & Evidence

1. China Tower - 2025 Annual Results, March 18, 2026

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosed spending slowdown is a counterforce used in the restrained 2026 purchasing assumption, not an observation of 2026 global revenue. ([ir.china-tower.com](https://ir.china-tower.com/en/ir/presentation/pre260318.pdf))

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Infrastructure expenditure and replacement/improvement restraint constrain the purchasing forecast; broader capital expenditure is not battery-only revenue.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Infrastructure expenditure and replacement/improvement restraint constrain the purchasing forecast; broader capital expenditure is not battery-only revenue.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.

2. Broadband Commission - The State of Broadband: Our Digital World, 2025

   · Evidence informing the 2032 market-value input; displayed series and growth include calculations: The fixed-broadband pool supports the premises-demand model, with future adoption and replacement assumptions remaining modeled. ([itu.int](https://www.itu.int/dms_pub/itu-s/opb/pol/s-pol-broadband.xx.xx-2025-pdf-e.pdf))

3. Battery Backup - Meriwether Lewis Electric Cooperative
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The provider distinguishes voice-only protection from combined voice-and-internet protection, supporting service-specific rather than universal premises adoption assumptions. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
4. EnerSys 2026 Proxy Statement and Annual Report
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Fiscal 2026 segment growth included data-center and industrial demand and communications mix effects. It is not accepted as a telecom-only global growth rate. ([s206.q4cdn.com](https://s206.q4cdn.com/xx.xx/files/doc_financials/2026/ar/b317caf6-56f8-42fa-bea1-bf685eb4132a.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.

5. Shuangdeng Group Co., Ltd. - Annual Results Announcement for the Year Ended December 31, 2025
   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: The telecom-specific decline is a counterweight to using broad energy-storage growth as the 2026 market forecast. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))
   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom application revenue provides counterevidence to extrapolating broad energy-storage growth into China's backup forecast.
   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))
   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))
   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))
   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))
6. Amara Raja Energy & Mobility - Q2/H1 FY2026 Earnings Presentation, November 6, 2025
   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Amara Raja subsequently reported more than xx.xx MWh of telecom volumes in its second quarter of fiscal 2026. This commercial shipment aggregate provides counterevidence to treating lead-acid weakness as disappearance of telecom backup demand. ([amararajaeandm.com](https://www.amararajaeandm.com/Files/FinancialResults/2025/Earningspresentation06112025.pdf))
7. IHS Holding Limited - First-Quarter 2026 Financial Statements
   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosure supports a continuing replacement mechanism, but supplies no isolated global battery spending or replacement-cycle measurement. ([ihstowers.com](https://www.ihstowers.com/content/dam/ihs/corporate/documents/investors/earnings-materials/2026/IHS_Holding_Limited_1Q26_Financial_Statements.pdf.downloadasset.pdf))

8. Ofcom - Mobile RAN Power Resilience: Technical Report and CFI Update, February 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom estimated UK-wide one-hour battery-backup alternatives at GBP1.xx.xx-xx.xx in 2024 prices, including capital expenditure and multiple years of operating costs. This is a jurisdictional scenario, not realized annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing the 2032 market-value input; displayed series and growth include calculations: The costed alternatives constrain the commercial significance and limitations of resilience upgrades; their existence does not establish forecast implementation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

9. Ofcom - Your Landline Is Going Digital: What You Need to Know

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom describes provider-funded backup eligibility for landline-dependent customers lacking a working mobile phone or reliable mobile signal. Eligibility is narrower than the total broadband customer pool. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The eligibility boundary supports conditional premises adoption, not a universal entitlement or a quantified global take-up rate. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))

10. IFC Supports IPT PowerTech to Deliver Clean Telecom Power Across Ethiopia, Liberia, and Sierra Leone
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: IFC's March 2026 announcement establishes financing support for IPT's telecom-energy expansion in Ethiopia, Liberia and Sierra Leone. Financing is an expansion indicator, not completed deployment or attributable backup-fee revenue. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing the 2029 market-value input; displayed series and growth include calculations: The financed expansion supports consideration of managed delivery, while global served-site counts and backup-only fees remain assumptions. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
11. Fingrid - How to Participate in the Reserve Markets
    - Evidence informing the 2032 market-value input; displayed series and growth include calculations: Fingrid's participation conditions establish contractual and permission gates for Finnish reserve markets. They support retaining an access constraint rather than assuming every backup asset earns additional energy-market revenue. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Applicable owner permission and market agreements are commercial access gates. They constrain forecast mixed-duty adoption without measuring its Global percentage. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
12. China Tower announces 2025 annual results - March 18, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: China Tower reports xx.xx tower sites at year-end 2025, an installed-stock input rather than annual battery sales.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: China Tower reports xx.xx tower sites at year-end 2025, an installed-stock input rather than annual battery sales.

13. PowerSafe SBS Batteries | EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
14. Vertiv NetSure M Series
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
15. Ofcom - Network and Service Resilience Guidance for Communications Providers, June 16, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: June 2026 guidance identifies approximately four hours as good practice for active fixed-access cabinets. This supports a conditional Extended purchasing shift, not completed orders or a Global mandate. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/network-and-service-resilience-guidance-for-communications-providerspdf?v=xx.xx))
16. Technology and Tools | First Responder Network Authority
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
17. Mobile Network Hardening Program | Australian Department of Infrastructure
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.

18. BT - Digital Voice for Business Service Schedule, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
19. Los Angeles Metro - Board Report 2024-1128, UPS Battery Replacement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
20. ETSI EN 300 019-1-3 V3.1.1 - Stationary Use at Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
21. ETSI EN 300 019-1-4 V3.1.1 - Stationary Use at Non-Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.

22. DC Power Plant / Rectifiers - UPS Rental
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
23. Helios Towers - Full Year Results 2025, March 12, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
24. Telecommunications | Aggreko US
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
25. EnerSys PowerSafe SBS Front Terminal Batteries | Alpine Power Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
26. DC Power Services | Vertiv
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.

27. Shuangdeng Group Co., Ltd. - Global Offering Prospectus, August 18, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
28. Amara Raja Crosses 1 GWh Lithium Storage Deployment Powering India's Telecom Networks
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
29. Central Office Power Systems - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

30. PowerSafe OPzV Batteries - EnerSys

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

31. Bolloré - 2017 Registration Document

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

32. Bolloré - Business Report 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

33. AT&T to Replace U-Verse Cabinet Batteries - Fierce Network, January 15, 2008

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

34. PowerSafe NiCd Batteries - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
35. FDK Ni-MH Battery Is Chosen for the Cellect 600 Product of Alpha Technologies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
36. Products - Encell Technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
37. Telecom/5G - ZAF Energy Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
38. HORIEN Salt Battery Solutions and Inlyte Energy Announce a Strategic Partnership
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
39. Energy Backup - Phinergy
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))

40. Australian Flow Batteries - RFB40X Series

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))

41. PowerReserve - Verizon Residential Accessories

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))

42. Alkaline Manganese Dioxide Handbook and Application Manual - Energizer

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))

43. ITU-T Work Programme - Aqueous Zinc-Based Battery Systems for Base Station Applications

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The aqueous-zinc base-station work item is Under study with December 2027 timing. It constrains the forecast commercialization assumption but establishes neither approval nor customer purchases. ([itu.int](https://www.itu.int/itu-t/workprog/wp_item.aspx?isn=xx.xx))

44. ITU-T L.1397 - Battery System with Integrated Control and Monitoring Information Model

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))

45. ETSI EN 300 132-1 V2.2.1 - ICT Power Supply Interface: Alternating Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
46. ETSI EN 300 132-2 V2.8.1 - ICT Power Supply Interface: Direct Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
47. Vertiv NetSure Inverter Series - Converged AC and DC Power System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))

48. ETSI EN 302 099 V2.2.1 - Powering of Equipment in Access Network
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))

49. Set Up Your Battery Backup - AT&T G.Fast Service with BGW210

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

50. DNA Tower Offers Battery Capacity in Electricity Reserve Markets with Elisa DES

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

51. Case Elisa: Virtual Power Plant in the Telecom Industry

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company case reports over 2,000 aggregated sites and approximately xx.xx MWh. This is an installed commercial scale check, not annual purchasing value or Global prevalence. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/customer-stories/elisacase))

21.2. United States

Table 504. United States Telecom Battery Backup System Market Size, 2017-2032 (USD Million)

Country	2023	2024	2025	2026	2027	2032	CAGR (%)

Short-Duration Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Sources & Evidence

1. China Tower - 2025 Annual Results, March 18, 2026
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosed spending slowdown is a counterforce used in the restrained 2026 purchasing assumption, not an observation of 2026 global revenue. ([ir.china-tower.com](https://ir.china-tower.com/en/ir/presentation/pre260318.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
2. Broadband Commission - The State of Broadband: Our Digital World, 2025
   - Evidence informing the 2032 market-value input; displayed series and growth include calculations: The fixed-broadband pool supports the premises-demand model, with future adoption and replacement assumptions remaining modeled. ([itu.int](https://www.itu.int/dms_pub/itu-s/opb/pol/s-pol-broadband.xx.xx-2025-pdf-e.pdf))

3. Battery Backup - Meriwether Lewis Electric Cooperative
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The provider distinguishes voice-only protection from combined voice-and-internet protection, supporting service-specific rather than universal premises adoption assumptions. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
4. EnerSys 2026 Proxy Statement and Annual Report
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Fiscal 2026 segment growth included data-center and industrial demand and communications mix effects. It is not accepted as a telecom-only global growth rate. ([s206.q4cdn.com](https://s206.q4cdn.com/xx.xx/files/doc_financials/2026/ar/b317caf6-56f8-42fa-bea1-bf685eb4132a.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.

5. Shuangdeng Group Co., Ltd. - Annual Results Announcement for the Year Ended December 31, 2025

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: The telecom-specific decline is a counterweight to using broad energy-storage growth as the 2026 market forecast. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

6. Amara Raja Energy & Mobility - Q2/H1 FY2026 Earnings Presentation, November 6, 2025

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Amara Raja subsequently reported more than xx.xx MWh of telecom volumes in its second quarter of fiscal 2026. This commercial shipment aggregate provides counterevidence to treating lead-acid weakness as disappearance of telecom backup demand. ([amararajaeandm.com](https://www.amararajaeandm.com/Files/FinancialResults/2025/Earningspresentation06112025.pdf))

7. IHS Holding Limited - First-Quarter 2026 Financial Statements

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosure supports a continuing replacement mechanism, but supplies no isolated global battery spending or replacement-cycle measurement. ([ihstowers.com](https://www.ihstowers.com/content/dam/ihs/corporate/documents/investors/earnings-materials/2026/IHS_Holding_Limited_1Q26_Financial_Statements.pdf.downloadasset.pdf))

8. Ofcom - Mobile RAN Power Resilience: Technical Report and CFI Update, February 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom estimated UK-wide one-hour battery-backup alternatives at GBP1.xx.xx-xx.xx in 2024 prices, including capital expenditure and multiple years of operating costs. This is a jurisdictional scenario, not realized annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing the 2032 market-value input; displayed series and growth include calculations: The costed alternatives constrain the commercial significance and limitations of resilience upgrades; their existence does not establish forecast implementation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

9. Ofcom - Your Landline Is Going Digital: What You Need to Know

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom describes provider-funded backup eligibility for landline-dependent customers lacking a working mobile phone or reliable mobile signal. Eligibility is narrower than the total broadband customer pool. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The eligibility boundary supports conditional premises adoption, not a universal entitlement or a quantified global take-up rate. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))

10. IFC Supports IPT PowerTech to Deliver Clean Telecom Power Across Ethiopia, Liberia, and Sierra Leone
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: IFC's March 2026 announcement establishes financing support for IPT's telecom-energy expansion in Ethiopia, Liberia and Sierra Leone. Financing is an expansion indicator, not completed deployment or attributable backup-fee revenue. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing the 2029 market-value input; displayed series and growth include calculations: The financed expansion supports consideration of managed delivery, while global served-site counts and backup-only fees remain assumptions. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
11. Fingrid - How to Participate in the Reserve Markets
    - Evidence informing the 2032 market-value input; displayed series and growth include calculations: Fingrid's participation conditions establish contractual and permission gates for Finnish reserve markets. They support retaining an access constraint rather than assuming every backup asset earns additional energy-market revenue. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Applicable owner permission and market agreements are commercial access gates. They constrain forecast mixed-duty adoption without measuring its Global percentage. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
12. American Tower Corporation - Annual Report on Form 10-K for 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: US owned/operated towers are a disclosed company footprint, not a verified national inventory.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: US owned/operated towers are a disclosed company footprint, not a verified national inventory.

13. CPUC Requires Wireless Companies to Better Serve Customers in Emergencies - July 16, 2020
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A location-specific backup obligation supports a compliance purchasing context, not a nationwide battery-only spending percentage.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A location-specific backup obligation supports a compliance purchasing context, not a nationwide battery-only spending percentage.
14. FCC - Internet Access Services: Status as of December 31, 2024, official state-government-hosted copy
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: National residential/business and fixed/mobile connections constrain the US customer perimeter, but not state equipment-purchasing attribution.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: National residential/business and fixed/mobile connections constrain the US customer perimeter, but not state equipment-purchasing attribution.
15. PowerSafe SBS Batteries | EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
16. Vertiv NetSure M Series
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
17. Ofcom - Network and Service Resilience Guidance for Communications Providers, June 16, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: June 2026 guidance identifies approximately four hours as good practice for active fixed-access cabinets. This supports a conditional Extended purchasing shift, not completed orders or a Global mandate. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/network-and-service-resilience-guidance-for-communications-providerspdf?v=xx.xx))

18. Technology and Tools | First Responder Network Authority
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
19. Mobile Network Hardening Program | Australian Department of Infrastructure
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
20. BT - Digital Voice for Business Service Schedule, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
21. Los Angeles Metro - Board Report 2024-1128, UPS Battery Replacement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
22. ETSI EN 300 019-1-3 V3.1.1 - Stationary Use at Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.

23. ETSI EN 300 019-1-4 V3.1.1 - Stationary Use at Non-Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.
24. DC Power Plant / Rectifiers - UPS Rental
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
25. Helios Towers - Full Year Results 2025, March 12, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
26. Telecommunications | Aggreko US
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
27. EnerSys PowerSafe SBS Front Terminal Batteries | Alpine Power Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.

28. DC Power Services | Vertiv

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.

29. Shuangdeng Group Co., Ltd. - Global Offering Prospectus, August 18, 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))

30. Amara Raja Crosses 1 GWh Lithium Storage Deployment Powering India's Telecom Networks

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))

31. Central Office Power Systems - EnerSys

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

32. PowerSafe OPzV Batteries - EnerSys

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

33. Bolloré - 2017 Registration Document

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

34. Bolloré - Business Report 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

35. AT&T to Replace U-Verse Cabinet Batteries - Fierce Network, January 15, 2008

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

36. PowerSafe NiCd Batteries - EnerSys

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))

37. FDK Ni-MH Battery Is Chosen for the Cellect 600 Product of Alpha Technologies

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))

38. Products - Encell Technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
39. Telecom/5G - ZAF Energy Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
40. HORIEN Salt Battery Solutions and Inlyte Energy Announce a Strategic Partnership
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
41. Energy Backup - Phinergy
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))
42. Australian Flow Batteries - RFB40X Series
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))

43. PowerReserve - Verizon Residential Accessories
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
44. Alkaline Manganese Dioxide Handbook and Application Manual - Energizer
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))
45. ITU-T Work Programme - Aqueous Zinc-Based Battery Systems for Base Station Applications
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The aqueous-zinc base-station work item is Under study with December 2027 timing. It constrains the forecast commercialization assumption but establishes neither approval nor customer purchases. ([itu.int](https://www.itu.int/itu-t/workprog/wp_item.aspx?isn=xx.xx))
46. ITU-T L.1397 - Battery System with Integrated Control and Monitoring Information Model
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))
47. ETSI EN 300 132-1 V2.2.1 - ICT Power Supply Interface: Alternating Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))

48. ETSI EN 300 132-2 V2.8.1 - ICT Power Supply Interface: Direct Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
49. Vertiv NetSure Inverter Series - Converged AC and DC Power System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))

50. ETSI EN 302 099 V2.2.1 - Powering of Equipment in Access Network
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))

51. Set Up Your Battery Backup - AT&T G.Fast Service with BGW210

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

52. DNA Tower Offers Battery Capacity in Electricity Reserve Markets with Elisa DES

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

53. Case Elisa: Virtual Power Plant in the Telecom Industry

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company case reports over 2,000 aggregated sites and approximately xx.xx MWh. This is an installed commercial scale check, not annual purchasing value or Global prevalence. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/customer-stories/elisacase))

21.3. India

Table 524. India Telecom Battery Backup System Market Size, 2017-2032 (USD Million)

Country	2023	2024	2025	2026	2027	2032	CAGR (%)
India	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 525. India Telecom Battery Backup System Market Size, by Offering, 2017-2032 (USD Million)

Offering	2023	2024	2025	2026	2027	2032	CAGR (%)
Battery Units and Assemblies	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Complete Backup Systems	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 526. India Telecom Battery Backup System Market Size, by Battery Technology, 2017-2032 (USD Million)

Battery Technology	2023	2024	2025	2026	2027	2032	CAGR (%)
Aqueous Zinc-Based	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Flow Batteries	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Lead-Acid	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx

Commercial Delivery Model	2023	2024	2025	2026	2027	2032	CAGR (%)
Leased or Rented Equipment	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Managed Backup Capacity	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Owned Equipment	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 540. India Telecom Battery Backup System Market Size, by Sales Channel, 2017-2032 (USD Million)

Sales Channel	2023	2024	2025	2026	2027	2032	CAGR (%)
Direct Manufacturer Supply	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Distributor and Retailer Supply	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Systems Integrator and Contractor Supply	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Telecom Service Provider Supply	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 541. India Telecom Battery Backup System Market Size, by Grid Availability, 2017-2032 (USD Million)

Grid Availability	2023	2024	2025	2026	2027	2032	CAGR (%)
Off-Grid	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Reliable Grid	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Unreliable Grid	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 542. India Telecom Battery Backup System Market Size, by Backup Duty, 2017-2032 (USD Million)

Backup Duty	2023	2024	2025	2026	2027	2032	CAGR (%)
Backup with Energy Management	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Reserve-Only Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 543. India Telecom Battery Backup System Market Size, by Backup Autonomy, 2017-2032 (USD Million)

Backup Autonomy	2023	2024	2025	2026	2027	2032	CAGR (%)
Day-Scale Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Extended-Duration Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Intermediate-Duration Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Short-Duration Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Sources & Evidence

1. China Tower - 2025 Annual Results, March 18, 2026
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosed spending slowdown is a counterforce used in the restrained 2026 purchasing assumption, not an observation of 2026 global revenue. ([ir.china-tower.com](https://ir.china-tower.com/en/ir/presentation/pre260318.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
2. Broadband Commission - The State of Broadband: Our Digital World, 2025
   - Evidence informing the 2032 market-value input; displayed series and growth include calculations: The fixed-broadband pool supports the premises-demand model, with future adoption and replacement assumptions remaining modeled. ([itu.int](https://www.itu.int/dms_pub/itu-s/opb/pol/s-pol-broadband.xx.xx-2025-pdf-e.pdf))

3. Battery Backup - Meriwether Lewis Electric Cooperative
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The provider distinguishes voice-only protection from combined voice-and-internet protection, supporting service-specific rather than universal premises adoption assumptions. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
4. EnerSys 2026 Proxy Statement and Annual Report
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Fiscal 2026 segment growth included data-center and industrial demand and communications mix effects. It is not accepted as a telecom-only global growth rate. ([s206.q4cdn.com](https://s206.q4cdn.com/xx.xx/files/doc_financials/2026/ar/b317caf6-56f8-42fa-bea1-bf685eb4132a.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.

5. Shuangdeng Group Co., Ltd. - Annual Results Announcement for the Year Ended December 31, 2025

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: The telecom-specific decline is a counterweight to using broad energy-storage growth as the 2026 market forecast. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

   · Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

   · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

6. Amara Raja Energy & Mobility - Q2/H1 FY2026 Earnings Presentation, November 6, 2025

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: Amara Raja subsequently reported more than xx.xx MWh of telecom volumes in its second quarter of fiscal 2026. This commercial shipment aggregate provides counterevidence to treating lead-acid weakness as disappearance of telecom backup demand. ([amararajaeandm.com](https://www.amararajaeandm.com/Files/FinancialResults/2025/Earningspresentation06112025.pdf))

7. IHS Holding Limited - First-Quarter 2026 Financial Statements

   · Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosure supports a continuing replacement mechanism, but supplies no isolated global battery spending or replacement-cycle measurement. ([ihstowers.com](https://www.ihstowers.com/content/dam/ihs/corporate/documents/investors/earnings-materials/2026/IHS_Holding_Limited_1Q26_Financial_Statements.pdf.downloadasset.pdf))

8. Ofcom - Mobile RAN Power Resilience: Technical Report and CFI Update, February 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom estimated UK-wide one-hour battery-backup alternatives at GBP1.xx.xx-xx.xx in 2024 prices, including capital expenditure and multiple years of operating costs. This is a jurisdictional scenario, not realized annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing the 2032 market-value input; displayed series and growth include calculations: The costed alternatives constrain the commercial significance and limitations of resilience upgrades; their existence does not establish forecast implementation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

9. Ofcom - Your Landline Is Going Digital: What You Need to Know

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom describes provider-funded backup eligibility for landline-dependent customers lacking a working mobile phone or reliable mobile signal. Eligibility is narrower than the total broadband customer pool. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The eligibility boundary supports conditional premises adoption, not a universal entitlement or a quantified global take-up rate. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))

10. IFC Supports IPT PowerTech to Deliver Clean Telecom Power Across Ethiopia, Liberia, and Sierra Leone
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: IFC's March 2026 announcement establishes financing support for IPT's telecom-energy expansion in Ethiopia, Liberia and Sierra Leone. Financing is an expansion indicator, not completed deployment or attributable backup-fee revenue. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing the 2029 market-value input; displayed series and growth include calculations: The financed expansion supports consideration of managed delivery, while global served-site counts and backup-only fees remain assumptions. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
11. Fingrid - How to Participate in the Reserve Markets
    - Evidence informing the 2032 market-value input; displayed series and growth include calculations: Fingrid's participation conditions establish contractual and permission gates for Finnish reserve markets. They support retaining an access constraint rather than assuming every backup asset earns additional energy-market revenue. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Applicable owner permission and market agreements are commercial access gates. They constrain forecast mixed-duty adoption without measuring its Global percentage. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
12. PowerSafe SBS Batteries | EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.

13. Vertiv NetSure M Series
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
14. Ofcom - Network and Service Resilience Guidance for Communications Providers, June 16, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: June 2026 guidance identifies approximately four hours as good practice for active fixed-access cabinets. This supports a conditional Extended purchasing shift, not completed orders or a Global mandate. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/network-and-service-resilience-guidance-for-communications-providerspdf?v=xx.xx))
15. Technology and Tools | First Responder Network Authority
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
16. Mobile Network Hardening Program | Australian Department of Infrastructure
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
17. BT - Digital Voice for Business Service Schedule, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.

18. Los Angeles Metro - Board Report 2024-1128, UPS Battery Replacement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
19. ETSI EN 300 019-1-3 V3.1.1 - Stationary Use at Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
20. ETSI EN 300 019-1-4 V3.1.1 - Stationary Use at Non-Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.

21. DC Power Plant / Rectifiers - UPS Rental
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
22. Helios Towers - Full Year Results 2025, March 12, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
23. Telecommunications | Aggreko US
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
24. EnerSys PowerSafe SBS Front Terminal Batteries | Alpine Power Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
25. DC Power Services | Vertiv
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.

26. Shuangdeng Group Co., Ltd. - Global Offering Prospectus, August 18, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
27. Amara Raja Crosses 1 GWh Lithium Storage Deployment Powering India's Telecom Networks
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
28. Central Office Power Systems - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

29. PowerSafe OPzV Batteries - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))
30. Bolloré - 2017 Registration Document
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))
31. Bolloré - Business Report 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))
32. AT&T to Replace U-Verse Cabinet Batteries - Fierce Network, January 15, 2008
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

33. PowerSafe NiCd Batteries - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
34. FDK Ni-MH Battery Is Chosen for the Cellect 600 Product of Alpha Technologies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
35. Products - Encell Technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
36. Telecom/5G - ZAF Energy Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
37. HORIEN Salt Battery Solutions and Inlyte Energy Announce a Strategic Partnership
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
38. Energy Backup - Phinergy
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))

39. Australian Flow Batteries - RFB40X Series

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))

40. PowerReserve - Verizon Residential Accessories

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))

41. Alkaline Manganese Dioxide Handbook and Application Manual - Energizer

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))

42. ITU-T Work Programme - Aqueous Zinc-Based Battery Systems for Base Station Applications

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The aqueous-zinc base-station work item is Under study with December 2027 timing. It constrains the forecast commercialization assumption but establishes neither approval nor customer purchases. ([itu.int](https://www.itu.int/itu-t/workprog/wp_item.aspx?isn=xx.xx))

43. ITU-T L.1397 - Battery System with Integrated Control and Monitoring Information Model

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))

44. ETSI EN 300 132-1 V2.2.1 - ICT Power Supply Interface: Alternating Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
45. ETSI EN 300 132-2 V2.8.1 - ICT Power Supply Interface: Direct Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
46. Vertiv NetSure Inverter Series - Converged AC and DC Power System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))

47. ETSI EN 302 099 V2.2.1 - Powering of Equipment in Access Network
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))

48. Set Up Your Battery Backup - AT&T G.Fast Service with BGW210
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))
49. DNA Tower Offers Battery Capacity in Electricity Reserve Markets with Elisa DES
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))
50. Case Elisa: Virtual Power Plant in the Telecom Industry
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company case reports over 2,000 aggregated sites and approximately xx.xx MWh. This is an installed commercial scale check, not annual purchasing value or Global prevalence. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/customer-stories/elisacase))

21.4. Japan

Table 544. Japan Telecom Battery Backup System Market Size, 2017-2032 (USD Million)

Country	2023	2024	2025	2026	2027	2032	CAGR (%)

Sources & Evidence

1. China Tower - 2025 Annual Results, March 18, 2026
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosed spending slowdown is a counterforce used in the restrained 2026 purchasing assumption, not an observation of 2026 global revenue. ([ir.china-tower.com](https://ir.china-tower.com/en/ir/presentation/pre260318.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
2. Broadband Commission - The State of Broadband: Our Digital World, 2025
   - Evidence informing the 2032 market-value input; displayed series and growth include calculations: The fixed-broadband pool supports the premises-demand model, with future adoption and replacement assumptions remaining modeled. ([itu.int](https://www.itu.int/dms_pub/itu-s/opb/pol/s-pol-broadband.xx.xx-2025-pdf-e.pdf))

3. Battery Backup - Meriwether Lewis Electric Cooperative
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The provider distinguishes voice-only protection from combined voice-and-internet protection, supporting service-specific rather than universal premises adoption assumptions. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
4. EnerSys 2026 Proxy Statement and Annual Report
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Fiscal 2026 segment growth included data-center and industrial demand and communications mix effects. It is not accepted as a telecom-only global growth rate. ([s206.q4cdn.com](https://s206.q4cdn.com/xx.xx/files/doc_financials/2026/ar/b317caf6-56f8-42fa-bea1-bf685eb4132a.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.

5. Shuangdeng Group Co., Ltd. - Annual Results Announcement for the Year Ended December 31, 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: The telecom-specific decline is a counterweight to using broad energy-storage growth as the 2026 market forecast. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

6. Amara Raja Energy & Mobility - Q2/H1 FY2026 Earnings Presentation, November 6, 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: Amara Raja subsequently reported more than xx.xx MWh of telecom volumes in its second quarter of fiscal 2026. This commercial shipment aggregate provides counterevidence to treating lead-acid weakness as disappearance of telecom backup demand. ([amararajaeandm.com](https://www.amararajaeandm.com/Files/FinancialResults/2025/Earningspresentation06112025.pdf))

7. IHS Holding Limited - First-Quarter 2026 Financial Statements

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosure supports a continuing replacement mechanism, but supplies no isolated global battery spending or replacement-cycle measurement. ([ihstowers.com](https://www.ihstowers.com/content/dam/ihs/corporate/documents/investors/earnings-materials/2026/IHS_Holding_Limited_1Q26_Financial_Statements.pdf.downloadasset.pdf))

8. Ofcom - Mobile RAN Power Resilience: Technical Report and CFI Update, February 2025

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom estimated UK-wide one-hour battery-backup alternatives at GBP1.xx.xx-xx.xx in 2024 prices, including capital expenditure and multiple years of operating costs. This is a jurisdictional scenario, not realized annual battery revenue. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The costed alternatives constrain the commercial significance and limitations of resilience upgrades; their existence does not establish forecast implementation. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

9. Ofcom - Your Landline Is Going Digital: What You Need to Know

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom describes provider-funded backup eligibility for landline-dependent customers lacking a working mobile phone or reliable mobile signal. Eligibility is narrower than the total broadband customer pool. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The eligibility boundary supports conditional premises adoption, not a universal entitlement or a quantified global take-up rate. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))

10. IFC Supports IPT PowerTech to Deliver Clean Telecom Power Across Ethiopia, Liberia, and Sierra Leone
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: IFC's March 2026 announcement establishes financing support for IPT's telecom-energy expansion in Ethiopia, Liberia and Sierra Leone. Financing is an expansion indicator, not completed deployment or attributable backup-fee revenue. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing the 2029 market-value input; displayed series and growth include calculations: The financed expansion supports consideration of managed delivery, while global served-site counts and backup-only fees remain assumptions. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
11. Fingrid - How to Participate in the Reserve Markets
    - Evidence informing the 2032 market-value input; displayed series and growth include calculations: Fingrid's participation conditions establish contractual and permission gates for Finnish reserve markets. They support retaining an access constraint rather than assuming every backup asset earns additional energy-market revenue. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Applicable owner permission and market agreements are commercial access gates. They constrain forecast mixed-duty adoption without measuring its Global percentage. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
12. PowerSafe SBS Batteries | EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.

13. Vertiv NetSure M Series
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
14. Ofcom - Network and Service Resilience Guidance for Communications Providers, June 16, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: June 2026 guidance identifies approximately four hours as good practice for active fixed-access cabinets. This supports a conditional Extended purchasing shift, not completed orders or a Global mandate. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/network-and-service-resilience-guidance-for-communications-providerspdf?v=xx.xx))
15. Technology and Tools | First Responder Network Authority
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
16. Mobile Network Hardening Program | Australian Department of Infrastructure
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
17. BT - Digital Voice for Business Service Schedule, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.

18. Los Angeles Metro - Board Report 2024-1128, UPS Battery Replacement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
19. ETSI EN 300 019-1-3 V3.1.1 - Stationary Use at Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
20. ETSI EN 300 019-1-4 V3.1.1 - Stationary Use at Non-Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.

21. DC Power Plant / Rectifiers - UPS Rental
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
22. Helios Towers - Full Year Results 2025, March 12, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
23. Telecommunications | Aggreko US
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
24. EnerSys PowerSafe SBS Front Terminal Batteries | Alpine Power Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
25. DC Power Services | Vertiv
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.

26. Shuangdeng Group Co., Ltd. - Global Offering Prospectus, August 18, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
27. Amara Raja Crosses 1 GWh Lithium Storage Deployment Powering India's Telecom Networks
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
28. Central Office Power Systems - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

29. PowerSafe OPzV Batteries - EnerSys

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

30. Bolloré - 2017 Registration Document

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

31. Bolloré - Business Report 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

32. AT&T to Replace U-Verse Cabinet Batteries - Fierce Network, January 15, 2008

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

33. PowerSafe NiCd Batteries - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
34. FDK Ni-MH Battery Is Chosen for the Cellect 600 Product of Alpha Technologies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
35. Products - Encell Technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
36. Telecom/5G - ZAF Energy Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
37. HORIEN Salt Battery Solutions and Inlyte Energy Announce a Strategic Partnership
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
38. Energy Backup - Phinergy
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))

39. Australian Flow Batteries - RFB40X Series

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))

40. PowerReserve - Verizon Residential Accessories

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))

41. Alkaline Manganese Dioxide Handbook and Application Manual - Energizer

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))

42. ITU-T Work Programme - Aqueous Zinc-Based Battery Systems for Base Station Applications

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The aqueous-zinc base-station work item is Under study with December 2027 timing. It constrains the forecast commercialization assumption but establishes neither approval nor customer purchases. ([itu.int](https://www.itu.int/itu-t/workprog/wp_item.aspx?isn=xx.xx))

43. ITU-T L.1397 - Battery System with Integrated Control and Monitoring Information Model

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))

44. ETSI EN 300 132-1 V2.2.1 - ICT Power Supply Interface: Alternating Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
45. ETSI EN 300 132-2 V2.8.1 - ICT Power Supply Interface: Direct Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
46. Vertiv NetSure Inverter Series - Converged AC and DC Power System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))

47. ETSI EN 302 099 V2.2.1 - Powering of Equipment in Access Network
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))

48. Set Up Your Battery Backup - AT&T G.Fast Service with BGW210
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))
49. DNA Tower Offers Battery Capacity in Electricity Reserve Markets with Elisa DES
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))
50. Case Elisa: Virtual Power Plant in the Telecom Industry
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company case reports over 2,000 aggregated sites and approximately xx.xx MWh. This is an installed commercial scale check, not annual purchasing value or Global prevalence. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/customer-stories/elisacase))

21.5. Germany

Table 564. Germany Telecom Battery Backup System Market Size, 2017-2032 (USD Million)

Sources & Evidence

1. China Tower - 2025 Annual Results, March 18, 2026
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosed spending slowdown is a counterforce used in the restrained 2026 purchasing assumption, not an observation of 2026 global revenue. ([ir.china-tower.com](https://ir.china-tower.com/en/ir/presentation/pre260318.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
2. Broadband Commission - The State of Broadband: Our Digital World, 2025
   - Evidence informing the 2032 market-value input; displayed series and growth include calculations: The fixed-broadband pool supports the premises-demand model, with future adoption and replacement assumptions remaining modeled. ([itu.int](https://www.itu.int/dms_pub/itu-s/opb/pol/s-pol-broadband.xx.xx-2025-pdf-e.pdf))

3. Battery Backup - Meriwether Lewis Electric Cooperative
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The provider distinguishes voice-only protection from combined voice-and-internet protection, supporting service-specific rather than universal premises adoption assumptions. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
4. EnerSys 2026 Proxy Statement and Annual Report
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Fiscal 2026 segment growth included data-center and industrial demand and communications mix effects. It is not accepted as a telecom-only global growth rate. ([s206.q4cdn.com](https://s206.q4cdn.com/xx.xx/files/doc_financials/2026/ar/b317caf6-56f8-42fa-bea1-bf685eb4132a.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.

5. Shuangdeng Group Co., Ltd. - Annual Results Announcement for the Year Ended December 31, 2025
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The telecom-specific decline is a counterweight to using broad energy-storage growth as the 2026 market forecast. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))
6. Amara Raja Energy & Mobility - Q2/H1 FY2026 Earnings Presentation, November 6, 2025
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Amara Raja subsequently reported more than xx.xx MWh of telecom volumes in its second quarter of fiscal 2026. This commercial shipment aggregate provides counterevidence to treating lead-acid weakness as disappearance of telecom backup demand. ([amararajaeandm.com](https://www.amararajaeandm.com/Files/FinancialResults/2025/Earningspresentation06112025.pdf))
7. IHS Holding Limited - First-Quarter 2026 Financial Statements
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosure supports a continuing replacement mechanism, but supplies no isolated global battery spending or replacement-cycle measurement. ([ihstowers.com](https://www.ihstowers.com/content/dam/ihs/corporate/documents/investors/earnings-materials/2026/IHS_Holding_Limited_1Q26_Financial_Statements.pdf.downloadasset.pdf))

8. Ofcom - Mobile RAN Power Resilience: Technical Report and CFI Update, February 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom estimated UK-wide one-hour battery-backup alternatives at GBP1.xx.xx-xx.xx in 2024 prices, including capital expenditure and multiple years of operating costs. This is a jurisdictional scenario, not realized annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing the 2032 market-value input; displayed series and growth include calculations: The costed alternatives constrain the commercial significance and limitations of resilience upgrades; their existence does not establish forecast implementation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

9. Ofcom - Your Landline Is Going Digital: What You Need to Know

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom describes provider-funded backup eligibility for landline-dependent customers lacking a working mobile phone or reliable mobile signal. Eligibility is narrower than the total broadband customer pool. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The eligibility boundary supports conditional premises adoption, not a universal entitlement or a quantified global take-up rate. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))

10. IFC Supports IPT PowerTech to Deliver Clean Telecom Power Across Ethiopia, Liberia, and Sierra Leone
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: IFC's March 2026 announcement establishes financing support for IPT's telecom-energy expansion in Ethiopia, Liberia and Sierra Leone. Financing is an expansion indicator, not completed deployment or attributable backup-fee revenue. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing the 2029 market-value input; displayed series and growth include calculations: The financed expansion supports consideration of managed delivery, while global served-site counts and backup-only fees remain assumptions. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
11. Fingrid - How to Participate in the Reserve Markets
    - Evidence informing the 2032 market-value input; displayed series and growth include calculations: Fingrid's participation conditions establish contractual and permission gates for Finnish reserve markets. They support retaining an access constraint rather than assuming every backup asset earns additional energy-market revenue. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Applicable owner permission and market agreements are commercial access gates. They constrain forecast mixed-duty adoption without measuring its Global percentage. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
12. PowerSafe SBS Batteries | EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.

13. Vertiv NetSure M Series
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
14. Ofcom - Network and Service Resilience Guidance for Communications Providers, June 16, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: June 2026 guidance identifies approximately four hours as good practice for active fixed-access cabinets. This supports a conditional Extended purchasing shift, not completed orders or a Global mandate. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/network-and-service-resilience-guidance-for-communications-providerspdf?v=xx.xx))
15. Technology and Tools | First Responder Network Authority
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
16. Mobile Network Hardening Program | Australian Department of Infrastructure
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
17. BT - Digital Voice for Business Service Schedule, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.

18. Los Angeles Metro - Board Report 2024-1128, UPS Battery Replacement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
19. ETSI EN 300 019-1-3 V3.1.1 - Stationary Use at Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
20. ETSI EN 300 019-1-4 V3.1.1 - Stationary Use at Non-Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.

21. DC Power Plant / Rectifiers - UPS Rental
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
22. Helios Towers - Full Year Results 2025, March 12, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
23. Telecommunications | Aggreko US
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
24. EnerSys PowerSafe SBS Front Terminal Batteries | Alpine Power Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
25. DC Power Services | Vertiv
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.

26. Shuangdeng Group Co., Ltd. - Global Offering Prospectus, August 18, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
27. Amara Raja Crosses 1 GWh Lithium Storage Deployment Powering India's Telecom Networks
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
28. Central Office Power Systems - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

29. PowerSafe OPzV Batteries - EnerSys

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

30. Bolloré - 2017 Registration Document

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

31. Bolloré - Business Report 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

32. AT&T to Replace U-Verse Cabinet Batteries - Fierce Network, January 15, 2008

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

33. PowerSafe NiCd Batteries - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
34. FDK Ni-MH Battery Is Chosen for the Cellect 600 Product of Alpha Technologies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
35. Products - Encell Technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
36. Telecom/5G - ZAF Energy Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
37. HORIEN Salt Battery Solutions and Inlyte Energy Announce a Strategic Partnership
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
38. Energy Backup - Phinergy
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))

39. Australian Flow Batteries - RFB40X Series

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))

40. PowerReserve - Verizon Residential Accessories

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))

41. Alkaline Manganese Dioxide Handbook and Application Manual - Energizer

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))

42. ITU-T Work Programme - Aqueous Zinc-Based Battery Systems for Base Station Applications

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The aqueous-zinc base-station work item is Under study with December 2027 timing. It constrains the forecast commercialization assumption but establishes neither approval nor customer purchases. ([itu.int](https://www.itu.int/itu-t/workprog/wp_item.aspx?isn=xx.xx))

43. ITU-T L.1397 - Battery System with Integrated Control and Monitoring Information Model

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))

44. ETSI EN 300 132-1 V2.2.1 - ICT Power Supply Interface: Alternating Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
45. ETSI EN 300 132-2 V2.8.1 - ICT Power Supply Interface: Direct Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
46. Vertiv NetSure Inverter Series - Converged AC and DC Power System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))

47. ETSI EN 302 099 V2.2.1 - Powering of Equipment in Access Network
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))

48. Set Up Your Battery Backup - AT&T G.Fast Service with BGW210

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

49. DNA Tower Offers Battery Capacity in Electricity Reserve Markets with Elisa DES

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

50. Case Elisa: Virtual Power Plant in the Telecom Industry

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company case reports over 2,000 aggregated sites and approximately xx.xx MWh. This is an installed commercial scale check, not annual purchasing value or Global prevalence. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/customer-stories/elisacase))

21.6. Brazil

Table 584. Brazil Telecom Battery Backup System Market Size, 2017-2032 (USD Million)

Country	2023	2024	2025	2026	2027	2032	CAGR (%)
Brazil	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Backup Autonomy	2023	2024	2025	2026	2027	2032	CAGR (%)
Day-Scale Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Extended-Duration Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Intermediate-Duration Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Short-Duration Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Sources & Evidence

1. China Tower - 2025 Annual Results, March 18, 2026
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosed spending slowdown is a counterforce used in the restrained 2026 purchasing assumption, not an observation of 2026 global revenue. ([ir.china-tower.com](https://ir.china-tower.com/en/ir/presentation/pre260318.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
2. Broadband Commission - The State of Broadband: Our Digital World, 2025
   - Evidence informing the 2032 market-value input; displayed series and growth include calculations: The fixed-broadband pool supports the premises-demand model, with future adoption and replacement assumptions remaining modeled. ([itu.int](https://www.itu.int/dms_pub/itu-s/opb/pol/s-pol-broadband.xx.xx-2025-pdf-e.pdf))

3. Battery Backup - Meriwether Lewis Electric Cooperative
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The provider distinguishes voice-only protection from combined voice-and-internet protection, supporting service-specific rather than universal premises adoption assumptions. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
4. EnerSys 2026 Proxy Statement and Annual Report
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Fiscal 2026 segment growth included data-center and industrial demand and communications mix effects. It is not accepted as a telecom-only global growth rate. ([s206.q4cdn.com](https://s206.q4cdn.com/xx.xx/files/doc_financials/2026/ar/b317caf6-56f8-42fa-bea1-bf685eb4132a.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.

5. Shuangdeng Group Co., Ltd. - Annual Results Announcement for the Year Ended December 31, 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: The telecom-specific decline is a counterweight to using broad energy-storage growth as the 2026 market forecast. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

6. Amara Raja Energy & Mobility - Q2/H1 FY2026 Earnings Presentation, November 6, 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: Amara Raja subsequently reported more than xx.xx MWh of telecom volumes in its second quarter of fiscal 2026. This commercial shipment aggregate provides counterevidence to treating lead-acid weakness as disappearance of telecom backup demand. ([amararajaeandm.com](https://www.amararajaeandm.com/Files/FinancialResults/2025/Earningspresentation06112025.pdf))

7. IHS Holding Limited - First-Quarter 2026 Financial Statements

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosure supports a continuing replacement mechanism, but supplies no isolated global battery spending or replacement-cycle measurement. ([ihstowers.com](https://www.ihstowers.com/content/dam/ihs/corporate/documents/investors/earnings-materials/2026/IHS_Holding_Limited_1Q26_Financial_Statements.pdf.downloadasset.pdf))

8. Ofcom - Mobile RAN Power Resilience: Technical Report and CFI Update, February 2025

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom estimated UK-wide one-hour battery-backup alternatives at GBP1.xx.xx-xx.xx in 2024 prices, including capital expenditure and multiple years of operating costs. This is a jurisdictional scenario, not realized annual battery revenue. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The costed alternatives constrain the commercial significance and limitations of resilience upgrades; their existence does not establish forecast implementation. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

9. Ofcom - Your Landline Is Going Digital: What You Need to Know

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom describes provider-funded backup eligibility for landline-dependent customers lacking a working mobile phone or reliable mobile signal. Eligibility is narrower than the total broadband customer pool. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The eligibility boundary supports conditional premises adoption, not a universal entitlement or a quantified global take-up rate. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))

10. IFC Supports IPT PowerTech to Deliver Clean Telecom Power Across Ethiopia, Liberia, and Sierra Leone
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: IFC's March 2026 announcement establishes financing support for IPT's telecom-energy expansion in Ethiopia, Liberia and Sierra Leone. Financing is an expansion indicator, not completed deployment or attributable backup-fee revenue. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing the 2029 market-value input; displayed series and growth include calculations: The financed expansion supports consideration of managed delivery, while global served-site counts and backup-only fees remain assumptions. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
11. Fingrid - How to Participate in the Reserve Markets
    - Evidence informing the 2032 market-value input; displayed series and growth include calculations: Fingrid's participation conditions establish contractual and permission gates for Finnish reserve markets. They support retaining an access constraint rather than assuming every backup asset earns additional energy-market revenue. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Applicable owner permission and market agreements are commercial access gates. They constrain forecast mixed-duty adoption without measuring its Global percentage. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
12. American Tower Corporation - Annual Report on Form 10-K for 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Brazilian tower inventory supports a substantial local wireless-network pool.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Brazilian tower inventory supports a substantial local wireless-network pool.

13. PowerSafe SBS Batteries | EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
14. Vertiv NetSure M Series
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
15. Ofcom - Network and Service Resilience Guidance for Communications Providers, June 16, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: June 2026 guidance identifies approximately four hours as good practice for active fixed-access cabinets. This supports a conditional Extended purchasing shift, not completed orders or a Global mandate. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/network-and-service-resilience-guidance-for-communications-providerspdf?v=xx.xx))
16. Technology and Tools | First Responder Network Authority
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
17. Mobile Network Hardening Program | Australian Department of Infrastructure
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.

18. BT - Digital Voice for Business Service Schedule, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
19. Los Angeles Metro - Board Report 2024-1128, UPS Battery Replacement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
20. ETSI EN 300 019-1-3 V3.1.1 - Stationary Use at Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
21. ETSI EN 300 019-1-4 V3.1.1 - Stationary Use at Non-Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.

22. DC Power Plant / Rectifiers - UPS Rental
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
23. Helios Towers - Full Year Results 2025, March 12, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
24. Telecommunications | Aggreko US
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
25. EnerSys PowerSafe SBS Front Terminal Batteries | Alpine Power Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
26. DC Power Services | Vertiv
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.

27. Shuangdeng Group Co., Ltd. - Global Offering Prospectus, August 18, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
28. Amara Raja Crosses 1 GWh Lithium Storage Deployment Powering India's Telecom Networks
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
29. Central Office Power Systems - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

30. PowerSafe OPzV Batteries - EnerSys

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

31. Bolloré - 2017 Registration Document

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

32. Bolloré - Business Report 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

33. AT&T to Replace U-Verse Cabinet Batteries - Fierce Network, January 15, 2008

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

34. PowerSafe NiCd Batteries - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
35. FDK Ni-MH Battery Is Chosen for the Cellect 600 Product of Alpha Technologies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
36. Products - Encell Technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
37. Telecom/5G - ZAF Energy Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
38. HORIEN Salt Battery Solutions and Inlyte Energy Announce a Strategic Partnership
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
39. Energy Backup - Phinergy
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))

40. Australian Flow Batteries - RFB40X Series

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))

41. PowerReserve - Verizon Residential Accessories

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))

42. Alkaline Manganese Dioxide Handbook and Application Manual - Energizer

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))

43. ITU-T Work Programme - Aqueous Zinc-Based Battery Systems for Base Station Applications

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The aqueous-zinc base-station work item is Under study with December 2027 timing. It constrains the forecast commercialization assumption but establishes neither approval nor customer purchases. ([itu.int](https://www.itu.int/itu-t/workprog/wp_item.aspx?isn=xx.xx))

44. ITU-T L.1397 - Battery System with Integrated Control and Monitoring Information Model

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))

45. ETSI EN 300 132-1 V2.2.1 - ICT Power Supply Interface: Alternating Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
46. ETSI EN 300 132-2 V2.8.1 - ICT Power Supply Interface: Direct Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
47. Vertiv NetSure Inverter Series - Converged AC and DC Power System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))

48. ETSI EN 302 099 V2.2.1 - Powering of Equipment in Access Network
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))

49. Set Up Your Battery Backup - AT&T G.Fast Service with BGW210

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

50. DNA Tower Offers Battery Capacity in Electricity Reserve Markets with Elisa DES

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

51. Case Elisa: Virtual Power Plant in the Telecom Industry

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company case reports over 2,000 aggregated sites and approximately xx.xx MWh. This is an installed commercial scale check, not annual purchasing value or Global prevalence. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/customer-stories/elisacase))

21.7. France

Table 604. France Telecom Battery Backup System Market Size, 2017-2032 (USD Million)

Sources & Evidence

1. China Tower - 2025 Annual Results, March 18, 2026
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosed spending slowdown is a counterforce used in the restrained 2026 purchasing assumption, not an observation of 2026 global revenue. ([ir.china-tower.com](https://ir.china-tower.com/en/ir/presentation/pre260318.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
2. Broadband Commission - The State of Broadband: Our Digital World, 2025
   - Evidence informing the 2032 market-value input; displayed series and growth include calculations: The fixed-broadband pool supports the premises-demand model, with future adoption and replacement assumptions remaining modeled. ([itu.int](https://www.itu.int/dms_pub/itu-s/opb/pol/s-pol-broadband.xx.xx-2025-pdf-e.pdf))

3. Battery Backup - Meriwether Lewis Electric Cooperative
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The provider distinguishes voice-only protection from combined voice-and-internet protection, supporting service-specific rather than universal premises adoption assumptions. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
4. EnerSys 2026 Proxy Statement and Annual Report
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Fiscal 2026 segment growth included data-center and industrial demand and communications mix effects. It is not accepted as a telecom-only global growth rate. ([s206.q4cdn.com](https://s206.q4cdn.com/xx.xx/files/doc_financials/2026/ar/b317caf6-56f8-42fa-bea1-bf685eb4132a.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.

5. Shuangdeng Group Co., Ltd. - Annual Results Announcement for the Year Ended December 31, 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: The telecom-specific decline is a counterweight to using broad energy-storage growth as the 2026 market forecast. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

6. Amara Raja Energy & Mobility - Q2/H1 FY2026 Earnings Presentation, November 6, 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: Amara Raja subsequently reported more than xx.xx MWh of telecom volumes in its second quarter of fiscal 2026. This commercial shipment aggregate provides counterevidence to treating lead-acid weakness as disappearance of telecom backup demand. ([amararajaeandm.com](https://www.amararajaeandm.com/Files/FinancialResults/2025/Earningspresentation06112025.pdf))

7. IHS Holding Limited - First-Quarter 2026 Financial Statements

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosure supports a continuing replacement mechanism, but supplies no isolated global battery spending or replacement-cycle measurement. ([ihstowers.com](https://www.ihstowers.com/content/dam/ihs/corporate/documents/investors/earnings-materials/2026/IHS_Holding_Limited_1Q26_Financial_Statements.pdf.downloadasset.pdf))

8. Ofcom - Mobile RAN Power Resilience: Technical Report and CFI Update, February 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom estimated UK-wide one-hour battery-backup alternatives at GBP1.xx.xx-xx.xx in 2024 prices, including capital expenditure and multiple years of operating costs. This is a jurisdictional scenario, not realized annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing the 2032 market-value input; displayed series and growth include calculations: The costed alternatives constrain the commercial significance and limitations of resilience upgrades; their existence does not establish forecast implementation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

9. Ofcom - Your Landline Is Going Digital: What You Need to Know

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom describes provider-funded backup eligibility for landline-dependent customers lacking a working mobile phone or reliable mobile signal. Eligibility is narrower than the total broadband customer pool. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The eligibility boundary supports conditional premises adoption, not a universal entitlement or a quantified global take-up rate. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))

10. IFC Supports IPT PowerTech to Deliver Clean Telecom Power Across Ethiopia, Liberia, and Sierra Leone
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: IFC's March 2026 announcement establishes financing support for IPT's telecom-energy expansion in Ethiopia, Liberia and Sierra Leone. Financing is an expansion indicator, not completed deployment or attributable backup-fee revenue. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing the 2029 market-value input; displayed series and growth include calculations: The financed expansion supports consideration of managed delivery, while global served-site counts and backup-only fees remain assumptions. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
11. Fingrid - How to Participate in the Reserve Markets
    - Evidence informing the 2032 market-value input; displayed series and growth include calculations: Fingrid's participation conditions establish contractual and permission gates for Finnish reserve markets. They support retaining an access constraint rather than assuming every backup asset earns additional energy-market revenue. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Applicable owner permission and market agreements are commercial access gates. They constrain forecast mixed-duty adoption without measuring its Global percentage. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
12. Cellnex - Integrated Annual Report 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: French telecom site portfolio anchors part of the modeled national installed footprint.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: French telecom site portfolio anchors part of the modeled national installed footprint.

13. PowerSafe SBS Batteries | EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
14. Vertiv NetSure M Series
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
15. Ofcom - Network and Service Resilience Guidance for Communications Providers, June 16, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: June 2026 guidance identifies approximately four hours as good practice for active fixed-access cabinets. This supports a conditional Extended purchasing shift, not completed orders or a Global mandate. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/network-and-service-resilience-guidance-for-communications-providerspdf?v=xx.xx))
16. Technology and Tools | First Responder Network Authority
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
17. Mobile Network Hardening Program | Australian Department of Infrastructure
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.

18. BT - Digital Voice for Business Service Schedule, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
19. Los Angeles Metro - Board Report 2024-1128, UPS Battery Replacement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
20. ETSI EN 300 019-1-3 V3.1.1 - Stationary Use at Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
21. ETSI EN 300 019-1-4 V3.1.1 - Stationary Use at Non-Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.

22. DC Power Plant / Rectifiers - UPS Rental
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
23. Helios Towers - Full Year Results 2025, March 12, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
24. Telecommunications | Aggreko US
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
25. EnerSys PowerSafe SBS Front Terminal Batteries | Alpine Power Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
26. DC Power Services | Vertiv
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.

27. Shuangdeng Group Co., Ltd. - Global Offering Prospectus, August 18, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
28. Amara Raja Crosses 1 GWh Lithium Storage Deployment Powering India's Telecom Networks
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
29. Central Office Power Systems - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

30. PowerSafe OPzV Batteries - EnerSys

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

31. Bolloré - 2017 Registration Document

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

32. Bolloré - Business Report 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

33. AT&T to Replace U-Verse Cabinet Batteries - Fierce Network, January 15, 2008

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

34. PowerSafe NiCd Batteries - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
35. FDK Ni-MH Battery Is Chosen for the Cellect 600 Product of Alpha Technologies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
36. Products - Encell Technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
37. Telecom/5G - ZAF Energy Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
38. HORIEN Salt Battery Solutions and Inlyte Energy Announce a Strategic Partnership
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
39. Energy Backup - Phinergy
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))

40. Australian Flow Batteries - RFB40X Series

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))

41. PowerReserve - Verizon Residential Accessories

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))

42. Alkaline Manganese Dioxide Handbook and Application Manual - Energizer

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))

43. ITU-T Work Programme - Aqueous Zinc-Based Battery Systems for Base Station Applications

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The aqueous-zinc base-station work item is Under study with December 2027 timing. It constrains the forecast commercialization assumption but establishes neither approval nor customer purchases. ([itu.int](https://www.itu.int/itu-t/workprog/wp_item.aspx?isn=xx.xx))

44. ITU-T L.1397 - Battery System with Integrated Control and Monitoring Information Model

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))

45. ETSI EN 300 132-1 V2.2.1 - ICT Power Supply Interface: Alternating Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
46. ETSI EN 300 132-2 V2.8.1 - ICT Power Supply Interface: Direct Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
47. Vertiv NetSure Inverter Series - Converged AC and DC Power System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))

48. ETSI EN 302 099 V2.2.1 - Powering of Equipment in Access Network
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))

49. Set Up Your Battery Backup - AT&T G.Fast Service with BGW210

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

50. DNA Tower Offers Battery Capacity in Electricity Reserve Markets with Elisa DES

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

51. Case Elisa: Virtual Power Plant in the Telecom Industry

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company case reports over 2,000 aggregated sites and approximately xx.xx MWh. This is an installed commercial scale check, not annual purchasing value or Global prevalence. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/customer-stories/elisacase))

21.8. Russia

Table 624. Russia Telecom Battery Backup System Market Size, 2017-2032 (USD Million)

Country	2023	2024	2025	2026	2027	2032	CAGR (%)
Russia	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Owned Equipment	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 640. Russia Telecom Battery Backup System Market Size, by Sales Channel, 2017-2032 (USD Million)

Sales Channel	2023	2024	2025	2026	2027	2032	CAGR (%)
Direct Manufacturer Supply	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Distributor and Retailer Supply	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Systems Integrator and Contractor Supply	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Telecom Service Provider Supply	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 641. Russia Telecom Battery Backup System Market Size, by Grid Availability, 2017-2032 (USD Million)

Grid Availability	2023	2024	2025	2026	2027	2032	CAGR (%)
Off-Grid	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Reliable Grid	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Unreliable Grid	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 642. Russia Telecom Battery Backup System Market Size, by Backup Duty, 2017-2032 (USD Million)

Backup Duty	2023	2024	2025	2026	2027	2032	CAGR (%)
Backup with Energy Management	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Reserve-Only Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 643. Russia Telecom Battery Backup System Market Size, by Backup Autonomy, 2017-2032 (USD Million)

Backup Autonomy	2023	2024	2025	2026	2027	2032	CAGR (%)
Day-Scale Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Extended-Duration Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Intermediate-Duration Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Short-Duration Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Sources & Evidence

1. China Tower - 2025 Annual Results, March 18, 2026
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosed spending slowdown is a counterforce used in the restrained 2026 purchasing assumption, not an observation of 2026 global revenue. ([ir.china-tower.com](https://ir.china-tower.com/en/ir/presentation/pre260318.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
2. Broadband Commission - The State of Broadband: Our Digital World, 2025
   - Evidence informing the 2032 market-value input; displayed series and growth include calculations: The fixed-broadband pool supports the premises-demand model, with future adoption and replacement assumptions remaining modeled. ([itu.int](https://www.itu.int/dms_pub/itu-s/opb/pol/s-pol-broadband.xx.xx-2025-pdf-e.pdf))

3. Battery Backup - Meriwether Lewis Electric Cooperative
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The provider distinguishes voice-only protection from combined voice-and-internet protection, supporting service-specific rather than universal premises adoption assumptions. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
4. EnerSys 2026 Proxy Statement and Annual Report
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Fiscal 2026 segment growth included data-center and industrial demand and communications mix effects. It is not accepted as a telecom-only global growth rate. ([s206.q4cdn.com](https://s206.q4cdn.com/xx.xx/files/doc_financials/2026/ar/b317caf6-56f8-42fa-bea1-bf685eb4132a.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.

5. Shuangdeng Group Co., Ltd. - Annual Results Announcement for the Year Ended December 31, 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: The telecom-specific decline is a counterweight to using broad energy-storage growth as the 2026 market forecast. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

6. Amara Raja Energy & Mobility - Q2/H1 FY2026 Earnings Presentation, November 6, 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: Amara Raja subsequently reported more than xx.xx MWh of telecom volumes in its second quarter of fiscal 2026. This commercial shipment aggregate provides counterevidence to treating lead-acid weakness as disappearance of telecom backup demand. ([amararajaeandm.com](https://www.amararajaeandm.com/Files/FinancialResults/2025/Earningspresentation06112025.pdf))

7. IHS Holding Limited - First-Quarter 2026 Financial Statements

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosure supports a continuing replacement mechanism, but supplies no isolated global battery spending or replacement-cycle measurement. ([ihstowers.com](https://www.ihstowers.com/content/dam/ihs/corporate/documents/investors/earnings-materials/2026/IHS_Holding_Limited_1Q26_Financial_Statements.pdf.downloadasset.pdf))

8. Ofcom - Mobile RAN Power Resilience: Technical Report and CFI Update, February 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom estimated UK-wide one-hour battery-backup alternatives at GBP1.xx.xx-xx.xx in 2024 prices, including capital expenditure and multiple years of operating costs. This is a jurisdictional scenario, not realized annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing the 2032 market-value input; displayed series and growth include calculations: The costed alternatives constrain the commercial significance and limitations of resilience upgrades; their existence does not establish forecast implementation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

9. Ofcom - Your Landline Is Going Digital: What You Need to Know

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom describes provider-funded backup eligibility for landline-dependent customers lacking a working mobile phone or reliable mobile signal. Eligibility is narrower than the total broadband customer pool. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The eligibility boundary supports conditional premises adoption, not a universal entitlement or a quantified global take-up rate. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))

10. IFC Supports IPT PowerTech to Deliver Clean Telecom Power Across Ethiopia, Liberia, and Sierra Leone
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: IFC's March 2026 announcement establishes financing support for IPT's telecom-energy expansion in Ethiopia, Liberia and Sierra Leone. Financing is an expansion indicator, not completed deployment or attributable backup-fee revenue. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing the 2029 market-value input; displayed series and growth include calculations: The financed expansion supports consideration of managed delivery, while global served-site counts and backup-only fees remain assumptions. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
11. Fingrid - How to Participate in the Reserve Markets
    - Evidence informing the 2032 market-value input; displayed series and growth include calculations: Fingrid's participation conditions establish contractual and permission gates for Finnish reserve markets. They support retaining an access constraint rather than assuming every backup asset earns additional energy-market revenue. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Applicable owner permission and market agreements are commercial access gates. They constrain forecast mixed-duty adoption without measuring its Global percentage. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
12. PowerSafe SBS Batteries | EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.

13. Vertiv NetSure M Series
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
14. Ofcom - Network and Service Resilience Guidance for Communications Providers, June 16, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: June 2026 guidance identifies approximately four hours as good practice for active fixed-access cabinets. This supports a conditional Extended purchasing shift, not completed orders or a Global mandate. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/network-and-service-resilience-guidance-for-communications-providerspdf?v=xx.xx))
15. Technology and Tools | First Responder Network Authority
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
16. Mobile Network Hardening Program | Australian Department of Infrastructure
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
17. BT - Digital Voice for Business Service Schedule, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.

18. Los Angeles Metro - Board Report 2024-1128, UPS Battery Replacement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
19. ETSI EN 300 019-1-3 V3.1.1 - Stationary Use at Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
20. ETSI EN 300 019-1-4 V3.1.1 - Stationary Use at Non-Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.

21. DC Power Plant / Rectifiers - UPS Rental
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
22. Helios Towers - Full Year Results 2025, March 12, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
23. Telecommunications | Aggreko US
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
24. EnerSys PowerSafe SBS Front Terminal Batteries | Alpine Power Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
25. DC Power Services | Vertiv
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.

26. Shuangdeng Group Co., Ltd. - Global Offering Prospectus, August 18, 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))

27. Amara Raja Crosses 1 GWh Lithium Storage Deployment Powering India's Telecom Networks

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))

28. Central Office Power Systems - EnerSys

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

29. PowerSafe OPzV Batteries - EnerSys

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

30. Bolloré - 2017 Registration Document

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

31. Bolloré - Business Report 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

32. AT&T to Replace U-Verse Cabinet Batteries - Fierce Network, January 15, 2008

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

33. PowerSafe NiCd Batteries - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
34. FDK Ni-MH Battery Is Chosen for the Cellect 600 Product of Alpha Technologies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
35. Products - Encell Technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
36. Telecom/5G - ZAF Energy Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
37. HORIEN Salt Battery Solutions and Inlyte Energy Announce a Strategic Partnership
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
38. Energy Backup - Phinergy
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))

39. Australian Flow Batteries - RFB40X Series

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))

40. PowerReserve - Verizon Residential Accessories

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))

41. Alkaline Manganese Dioxide Handbook and Application Manual - Energizer

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))

42. ITU-T Work Programme - Aqueous Zinc-Based Battery Systems for Base Station Applications

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The aqueous-zinc base-station work item is Under study with December 2027 timing. It constrains the forecast commercialization assumption but establishes neither approval nor customer purchases. ([itu.int](https://www.itu.int/itu-t/workprog/wp_item.aspx?isn=xx.xx))

43. ITU-T L.1397 - Battery System with Integrated Control and Monitoring Information Model

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))

44. ETSI EN 300 132-1 V2.2.1 - ICT Power Supply Interface: Alternating Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
45. ETSI EN 300 132-2 V2.8.1 - ICT Power Supply Interface: Direct Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
46. Vertiv NetSure Inverter Series - Converged AC and DC Power System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))

47. ETSI EN 302 099 V2.2.1 - Powering of Equipment in Access Network
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))

48. Set Up Your Battery Backup - AT&T G.Fast Service with BGW210

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

49. DNA Tower Offers Battery Capacity in Electricity Reserve Markets with Elisa DES

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

50. Case Elisa: Virtual Power Plant in the Telecom Industry

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company case reports over 2,000 aggregated sites and approximately xx.xx MWh. This is an installed commercial scale check, not annual purchasing value or Global prevalence. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/customer-stories/elisacase))

21.9. United Kingdom

Table 644. United Kingdom Telecom Battery Backup System Market Size, 2017-2032 (USD Million)

Country	2023	2024	2025	2026	2027	2032	CAGR (%)

Table 647. United Kingdom Telecom Battery Backup System Market Size, by Lead-Acid, 2017-2032 (USD Million)

Lead-Acid	2023	2024	2025	2026	2027	2032	CAGR (%)
Flooded Lead-Acid	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Valve-Regulated Lead-Acid	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 648. United Kingdom Telecom Battery Backup System Market Size, by Valve-Regulated Lead-Acid, 2017-2032 (USD Million)

Valve-Regulated Lead-Acid	2023	2024	2025	2026	2027	2032	CAGR (%)
Absorbent Glass Mat	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Gel	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 649. United Kingdom Telecom Battery Backup System Market Size, by Lithium-Based, 2017-2032 (USD Million)

Lithium-Based	2023	2024	2025	2026	2027	2032	CAGR (%)
Lithium-Ion	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Lithium-Metal	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 650. United Kingdom Telecom Battery Backup System Market Size, by Nickel-Based, 2017-2032 (USD Million)

Nickel-Based	2023	2024	2025	2026	2027	2032	CAGR (%)
Nickel-Cadmium	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Nickel-Iron	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Nickel-Metal Hydride	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Nickel-Zinc	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 651. United Kingdom Telecom Battery Backup System Market Size, by Power Interface, 2017-2032 (USD Million)

Power Interface	2023	2024	2025	2026	2027	2032	CAGR (%)
AC Output	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Combined AC/DC Output	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
DC Output	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 652. United Kingdom Telecom Battery Backup System Market Size, by Network Application, 2017-2032 (USD Million)

Network Application	2023	2024	2025	2026	2027	2032	CAGR (%)
Core Networks & Network Control	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Customer-Premises Connectivity	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Network Interconnection & Peering	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Transport & Backhaul Networks	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Wireless Access Networks	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Wireline Access Networks	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 653. United Kingdom Telecom Battery Backup System Market Size, by Buyer Type, 2017-2032 (USD Million)

Buyer Type	2023	2024	2025	2026	2027	2032	CAGR (%)
Business & Institutional Connectivity Owners	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Equipment Leasing & Rental Providers	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Household Connectivity Purchasers	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Telecom Energy-Service Providers	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Telecom Infrastructure & Tower Operators	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Telecommunications Network Operators	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 654. United Kingdom Telecom Battery Backup System Market Size, by Installation Environment, 2017-2032 (USD Million)

Installation Environment	2023	2024	2025	2026	2027	2032	CAGR (%)
Non-Weather-Protected Locations	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Underground Locations	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Weather-Protected Locations	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 655. United Kingdom Telecom Battery Backup System Market Size, by Weather-Protected Locations, 2017-2032 (USD Million)

Weather-Protected Locations	2023	2024	2025	2026	2027	2032	CAGR (%)
Enclosed Locations Without Temperature Control	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Partly Weather-Protected Locations	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Temperature-Controlled Enclosed Locations	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 656. United Kingdom Telecom Battery Backup System Market Size, by Non-Weather-Protected Locations, 2017-2032 (USD Million)

Non-Weather-Protected Locations	2023	2024	2025	2026	2027	2032	CAGR (%)
Open-Air Locations	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx

Table 657. United Kingdom Telecom Battery Backup System Market Size, by Powering Architecture, 2017-2032 (USD Million)

Powering Architecture	2023	2024	2025	2026	2027	2032	CAGR (%)
Local Powering	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Remote Powering	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 658. United Kingdom Telecom Battery Backup System Market Size, by Remote Powering, 2017-2032 (USD Million)

Remote Powering	2023	2024	2025	2026	2027	2032	CAGR (%)
Centralized Powering	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Cluster Powering	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Reverse Powering	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 659. United Kingdom Telecom Battery Backup System Market Size, by Commercial Delivery Model, 2017-2032 (USD Million)

Commercial Delivery Model	2023	2024	2025	2026	2027	2032	CAGR (%)
Leased or Rented Equipment	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Managed Backup Capacity	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Owned Equipment	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 660. United Kingdom Telecom Battery Backup System Market Size, by Sales Channel, 2017-2032 (USD Million)

Sales Channel	2023	2024	2025	2026	2027	2032	CAGR (%)
Direct Manufacturer Supply	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Distributor and Retailer Supply	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Systems Integrator and Contractor Supply	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Telecom Service Provider Supply	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 661. United Kingdom Telecom Battery Backup System Market Size, by Grid Availability, 2017-2032 (USD Million)

Grid Availability	2023	2024	2025	2026	2027	2032	CAGR (%)
Off-Grid	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Reliable Grid	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Unreliable Grid	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 662. United Kingdom Telecom Battery Backup System Market Size, by Backup Duty, 2017-2032 (USD Million)

Backup Duty	2023	2024	2025	2026	2027	2032	CAGR (%)
Backup with Energy Management	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Reserve-Only Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 663. United Kingdom Telecom Battery Backup System Market Size, by Backup Autonomy, 2017-2032 (USD Million)

Backup Autonomy	2023	2024	2025	2026	2027	2032	CAGR (%)
Day-Scale Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Extended-Duration Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Intermediate-Duration Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Short-Duration Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Sources & Evidence

1. China Tower - 2025 Annual Results, March 18, 2026
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosed spending slowdown is a counterforce used in the restrained 2026 purchasing assumption, not an observation of 2026 global revenue. ([ir.china-tower.com](https://ir.china-tower.com/en/ir/presentation/pre260318.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
2. Broadband Commission - The State of Broadband: Our Digital World, 2025
   - Evidence informing the 2032 market-value input; displayed series and growth include calculations: The fixed-broadband pool supports the premises-demand model, with future adoption and replacement assumptions remaining modeled. ([itu.int](https://www.itu.int/dms_pub/itu-s/opb/pol/s-pol-broadband.xx.xx-2025-pdf-e.pdf))

3. Battery Backup - Meriwether Lewis Electric Cooperative
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The provider distinguishes voice-only protection from combined voice-and-internet protection, supporting service-specific rather than universal premises adoption assumptions. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
4. EnerSys 2026 Proxy Statement and Annual Report
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Fiscal 2026 segment growth included data-center and industrial demand and communications mix effects. It is not accepted as a telecom-only global growth rate. ([s206.q4cdn.com](https://s206.q4cdn.com/xx.xx/files/doc_financials/2026/ar/b317caf6-56f8-42fa-bea1-bf685eb4132a.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.

5. Shuangdeng Group Co., Ltd. - Annual Results Announcement for the Year Ended December 31, 2025
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The telecom-specific decline is a counterweight to using broad energy-storage growth as the 2026 market forecast. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))
6. Amara Raja Energy & Mobility - Q2/H1 FY2026 Earnings Presentation, November 6, 2025
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Amara Raja subsequently reported more than xx.xx MWh of telecom volumes in its second quarter of fiscal 2026. This commercial shipment aggregate provides counterevidence to treating lead-acid weakness as disappearance of telecom backup demand. ([amararajaeandm.com](https://www.amararajaeandm.com/Files/FinancialResults/2025/Earningspresentation06112025.pdf))
7. IHS Holding Limited - First-Quarter 2026 Financial Statements
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosure supports a continuing replacement mechanism, but supplies no isolated global battery spending or replacement-cycle measurement. ([ihstowers.com](https://www.ihstowers.com/content/dam/ihs/corporate/documents/investors/earnings-materials/2026/IHS_Holding_Limited_1Q26_Financial_Statements.pdf.downloadasset.pdf))

8. Ofcom - Mobile RAN Power Resilience: Technical Report and CFI Update, February 2025
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom estimated UK-wide one-hour battery-backup alternatives at GBP1.xx.xx-xx.xx in 2024 prices, including capital expenditure and multiple years of operating costs. This is a jurisdictional scenario, not realized annual battery revenue. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
   - Evidence informing the 2032 market-value input; displayed series and growth include calculations: The costed alternatives constrain the commercial significance and limitations of resilience upgrades; their existence does not establish forecast implementation. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Uneven existing UK backup coverage and costed multi-year alternatives constrain adoption and purchasing assumptions.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Uneven existing UK backup coverage and costed multi-year alternatives constrain adoption and purchasing assumptions.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

9. Ofcom - Your Landline Is Going Digital: What You Need to Know

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom describes provider-funded backup eligibility for landline-dependent customers lacking a working mobile phone or reliable mobile signal. Eligibility is narrower than the total broadband customer pool. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The eligibility boundary supports conditional premises adoption, not a universal entitlement or a quantified global take-up rate. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))

10. IFC Supports IPT PowerTech to Deliver Clean Telecom Power Across Ethiopia, Liberia, and Sierra Leone
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: IFC's March 2026 announcement establishes financing support for IPT's telecom-energy expansion in Ethiopia, Liberia and Sierra Leone. Financing is an expansion indicator, not completed deployment or attributable backup-fee revenue. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing the 2029 market-value input; displayed series and growth include calculations: The financed expansion supports consideration of managed delivery, while global served-site counts and backup-only fees remain assumptions. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
11. Fingrid - How to Participate in the Reserve Markets
    - Evidence informing the 2032 market-value input; displayed series and growth include calculations: Fingrid's participation conditions establish contractual and permission gates for Finnish reserve markets. They support retaining an access constraint rather than assuming every backup asset earns additional energy-market revenue. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Applicable owner permission and market agreements are commercial access gates. They constrain forecast mixed-duty adoption without measuring its Global percentage. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
12. Cellnex - Integrated Annual Report 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: UK sites and upgrade activity provide a commercial footprint, not total battery purchasing.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: UK sites and upgrade activity provide a commercial footprint, not total battery purchasing.

13. PowerSafe SBS Batteries | EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
14. Vertiv NetSure M Series
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
15. Ofcom - Network and Service Resilience Guidance for Communications Providers, June 16, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: June 2026 guidance identifies approximately four hours as good practice for active fixed-access cabinets. This supports a conditional Extended purchasing shift, not completed orders or a Global mandate. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/network-and-service-resilience-guidance-for-communications-providerspdf?v=xx.xx))
16. Technology and Tools | First Responder Network Authority
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
17. Mobile Network Hardening Program | Australian Department of Infrastructure
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.

18. BT - Digital Voice for Business Service Schedule, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
19. Los Angeles Metro - Board Report 2024-1128, UPS Battery Replacement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
20. ETSI EN 300 019-1-3 V3.1.1 - Stationary Use at Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
21. ETSI EN 300 019-1-4 V3.1.1 - Stationary Use at Non-Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.

22. DC Power Plant / Rectifiers - UPS Rental
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
23. Helios Towers - Full Year Results 2025, March 12, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
24. Telecommunications | Aggreko US
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
25. EnerSys PowerSafe SBS Front Terminal Batteries | Alpine Power Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
26. DC Power Services | Vertiv
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.

27. Shuangdeng Group Co., Ltd. - Global Offering Prospectus, August 18, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
28. Amara Raja Crosses 1 GWh Lithium Storage Deployment Powering India's Telecom Networks
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
29. Central Office Power Systems - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

30. PowerSafe OPzV Batteries - EnerSys

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

31. Bolloré - 2017 Registration Document

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

32. Bolloré - Business Report 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

33. AT&T to Replace U-Verse Cabinet Batteries - Fierce Network, January 15, 2008

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

34. PowerSafe NiCd Batteries - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
35. FDK Ni-MH Battery Is Chosen for the Cellect 600 Product of Alpha Technologies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
36. Products - Encell Technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
37. Telecom/5G - ZAF Energy Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
38. HORIEN Salt Battery Solutions and Inlyte Energy Announce a Strategic Partnership
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
39. Energy Backup - Phinergy
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))

40. Australian Flow Batteries - RFB40X Series

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))

41. PowerReserve - Verizon Residential Accessories

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))

42. Alkaline Manganese Dioxide Handbook and Application Manual - Energizer

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))

43. ITU-T Work Programme - Aqueous Zinc-Based Battery Systems for Base Station Applications

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The aqueous-zinc base-station work item is Under study with December 2027 timing. It constrains the forecast commercialization assumption but establishes neither approval nor customer purchases. ([itu.int](https://www.itu.int/itu-t/workprog/wp_item.aspx?isn=xx.xx))

44. ITU-T L.1397 - Battery System with Integrated Control and Monitoring Information Model

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))

45. ETSI EN 300 132-1 V2.2.1 - ICT Power Supply Interface: Alternating Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
46. ETSI EN 300 132-2 V2.8.1 - ICT Power Supply Interface: Direct Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
47. Vertiv NetSure Inverter Series - Converged AC and DC Power System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))

48. ETSI EN 302 099 V2.2.1 - Powering of Equipment in Access Network
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))

49. Set Up Your Battery Backup - AT&T G.Fast Service with BGW210

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

50. DNA Tower Offers Battery Capacity in Electricity Reserve Markets with Elisa DES

    · Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

51. Case Elisa: Virtual Power Plant in the Telecom Industry

    · Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company case reports over 2,000 aggregated sites and approximately xx.xx MWh. This is an installed commercial scale check, not annual purchasing value or Global prevalence. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/customer-stories/elisacase))

21.10. South Korea

Table 664. South Korea Telecom Battery Backup System Market Size, 2017-2032 (USD Million)

Country	2023	2024	2025	2026	2027	2032	CAGR (%)
South Korea	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Sources & Evidence

1. China Tower - 2025 Annual Results, March 18, 2026
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosed spending slowdown is a counterforce used in the restrained 2026 purchasing assumption, not an observation of 2026 global revenue. ([ir.china-tower.com](https://ir.china-tower.com/en/ir/presentation/pre260318.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
2. Broadband Commission - The State of Broadband: Our Digital World, 2025
   - Evidence informing the 2032 market-value input; displayed series and growth include calculations: The fixed-broadband pool supports the premises-demand model, with future adoption and replacement assumptions remaining modeled. ([itu.int](https://www.itu.int/dms_pub/itu-s/opb/pol/s-pol-broadband.xx.xx-2025-pdf-e.pdf))

3. Battery Backup - Meriwether Lewis Electric Cooperative
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The provider distinguishes voice-only protection from combined voice-and-internet protection, supporting service-specific rather than universal premises adoption assumptions. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
4. EnerSys 2026 Proxy Statement and Annual Report
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Fiscal 2026 segment growth included data-center and industrial demand and communications mix effects. It is not accepted as a telecom-only global growth rate. ([s206.q4cdn.com](https://s206.q4cdn.com/xx.xx/files/doc_financials/2026/ar/b317caf6-56f8-42fa-bea1-bf685eb4132a.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.

5. Shuangdeng Group Co., Ltd. - Annual Results Announcement for the Year Ended December 31, 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: The telecom-specific decline is a counterweight to using broad energy-storage growth as the 2026 market forecast. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

6. Amara Raja Energy & Mobility - Q2/H1 FY2026 Earnings Presentation, November 6, 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: Amara Raja subsequently reported more than xx.xx MWh of telecom volumes in its second quarter of fiscal 2026. This commercial shipment aggregate provides counterevidence to treating lead-acid weakness as disappearance of telecom backup demand. ([amararajaeandm.com](https://www.amararajaeandm.com/Files/FinancialResults/2025/Earningspresentation06112025.pdf))

7. IHS Holding Limited - First-Quarter 2026 Financial Statements

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosure supports a continuing replacement mechanism, but supplies no isolated global battery spending or replacement-cycle measurement. ([ihstowers.com](https://www.ihstowers.com/content/dam/ihs/corporate/documents/investors/earnings-materials/2026/IHS_Holding_Limited_1Q26_Financial_Statements.pdf.downloadasset.pdf))

8. Ofcom - Mobile RAN Power Resilience: Technical Report and CFI Update, February 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom estimated UK-wide one-hour battery-backup alternatives at GBP1.xx.xx-xx.xx in 2024 prices, including capital expenditure and multiple years of operating costs. This is a jurisdictional scenario, not realized annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing the 2032 market-value input; displayed series and growth include calculations: The costed alternatives constrain the commercial significance and limitations of resilience upgrades; their existence does not establish forecast implementation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

9. Ofcom - Your Landline Is Going Digital: What You Need to Know

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom describes provider-funded backup eligibility for landline-dependent customers lacking a working mobile phone or reliable mobile signal. Eligibility is narrower than the total broadband customer pool. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The eligibility boundary supports conditional premises adoption, not a universal entitlement or a quantified global take-up rate. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))

10. IFC Supports IPT PowerTech to Deliver Clean Telecom Power Across Ethiopia, Liberia, and Sierra Leone
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: IFC's March 2026 announcement establishes financing support for IPT's telecom-energy expansion in Ethiopia, Liberia and Sierra Leone. Financing is an expansion indicator, not completed deployment or attributable backup-fee revenue. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing the 2029 market-value input; displayed series and growth include calculations: The financed expansion supports consideration of managed delivery, while global served-site counts and backup-only fees remain assumptions. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
11. Fingrid - How to Participate in the Reserve Markets
    - Evidence informing the 2032 market-value input; displayed series and growth include calculations: Fingrid's participation conditions establish contractual and permission gates for Finnish reserve markets. They support retaining an access constraint rather than assuming every backup asset earns additional energy-market revenue. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Applicable owner permission and market agreements are commercial access gates. They constrain forecast mixed-duty adoption without measuring its Global percentage. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
12. OECD - High-capacity broadband networks gain ground across OECD, October 13, 2026
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: High mature-market fibre adoption is retained as a saturation counterforce to the purchasing forecast.
13. PowerSafe SBS Batteries | EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.

14. Vertiv NetSure M Series
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
15. Ofcom - Network and Service Resilience Guidance for Communications Providers, June 16, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: June 2026 guidance identifies approximately four hours as good practice for active fixed-access cabinets. This supports a conditional Extended purchasing shift, not completed orders or a Global mandate. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/network-and-service-resilience-guidance-for-communications-providerspdf?v=xx.xx))
16. Technology and Tools | First Responder Network Authority
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
17. Mobile Network Hardening Program | Australian Department of Infrastructure
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
18. BT - Digital Voice for Business Service Schedule, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.

19. Los Angeles Metro - Board Report 2024-1128, UPS Battery Replacement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
20. ETSI EN 300 019-1-3 V3.1.1 - Stationary Use at Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
21. ETSI EN 300 019-1-4 V3.1.1 - Stationary Use at Non-Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.

22. DC Power Plant / Rectifiers - UPS Rental
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
23. Helios Towers - Full Year Results 2025, March 12, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
24. Telecommunications | Aggreko US
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
25. EnerSys PowerSafe SBS Front Terminal Batteries | Alpine Power Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
26. DC Power Services | Vertiv
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.

27. Shuangdeng Group Co., Ltd. - Global Offering Prospectus, August 18, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
28. Amara Raja Crosses 1 GWh Lithium Storage Deployment Powering India's Telecom Networks
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
29. Central Office Power Systems - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

30. PowerSafe OPzV Batteries - EnerSys

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

31. Bolloré - 2017 Registration Document

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

32. Bolloré - Business Report 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

33. AT&T to Replace U-Verse Cabinet Batteries - Fierce Network, January 15, 2008

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

34. PowerSafe NiCd Batteries - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
35. FDK Ni-MH Battery Is Chosen for the Cellect 600 Product of Alpha Technologies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
36. Products - Encell Technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
37. Telecom/5G - ZAF Energy Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
38. HORIEN Salt Battery Solutions and Inlyte Energy Announce a Strategic Partnership
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
39. Energy Backup - Phinergy
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))

40. Australian Flow Batteries - RFB40X Series

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))

41. PowerReserve - Verizon Residential Accessories

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))

42. Alkaline Manganese Dioxide Handbook and Application Manual - Energizer

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))

43. ITU-T Work Programme - Aqueous Zinc-Based Battery Systems for Base Station Applications

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The aqueous-zinc base-station work item is Under study with December 2027 timing. It constrains the forecast commercialization assumption but establishes neither approval nor customer purchases. ([itu.int](https://www.itu.int/itu-t/workprog/wp_item.aspx?isn=xx.xx))

44. ITU-T L.1397 - Battery System with Integrated Control and Monitoring Information Model

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))

45. ETSI EN 300 132-1 V2.2.1 - ICT Power Supply Interface: Alternating Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
46. ETSI EN 300 132-2 V2.8.1 - ICT Power Supply Interface: Direct Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
47. Vertiv NetSure Inverter Series - Converged AC and DC Power System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))

48. ETSI EN 302 099 V2.2.1 - Powering of Equipment in Access Network
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))

49. Set Up Your Battery Backup - AT&T G.Fast Service with BGW210

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

50. DNA Tower Offers Battery Capacity in Electricity Reserve Markets with Elisa DES

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

51. Case Elisa: Virtual Power Plant in the Telecom Industry

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company case reports over 2,000 aggregated sites and approximately xx.xx MWh. This is an installed commercial scale check, not annual purchasing value or Global prevalence. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/customer-stories/elisacase))

21.11. Italy

Table 684. Italy Telecom Battery Backup System Market Size, 2017-2032 (USD Million)

Sources & Evidence

1. China Tower - 2025 Annual Results, March 18, 2026
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosed spending slowdown is a counterforce used in the restrained 2026 purchasing assumption, not an observation of 2026 global revenue. ([ir.china-tower.com](https://ir.china-tower.com/en/ir/presentation/pre260318.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
2. Broadband Commission - The State of Broadband: Our Digital World, 2025
   - Evidence informing the 2032 market-value input; displayed series and growth include calculations: The fixed-broadband pool supports the premises-demand model, with future adoption and replacement assumptions remaining modeled. ([itu.int](https://www.itu.int/dms_pub/itu-s/opb/pol/s-pol-broadband.xx.xx-2025-pdf-e.pdf))

3. Battery Backup - Meriwether Lewis Electric Cooperative
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The provider distinguishes voice-only protection from combined voice-and-internet protection, supporting service-specific rather than universal premises adoption assumptions. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
4. EnerSys 2026 Proxy Statement and Annual Report
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Fiscal 2026 segment growth included data-center and industrial demand and communications mix effects. It is not accepted as a telecom-only global growth rate. ([s206.q4cdn.com](https://s206.q4cdn.com/xx.xx/files/doc_financials/2026/ar/b317caf6-56f8-42fa-bea1-bf685eb4132a.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.

5. Shuangdeng Group Co., Ltd. - Annual Results Announcement for the Year Ended December 31, 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: The telecom-specific decline is a counterweight to using broad energy-storage growth as the 2026 market forecast. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

6. Amara Raja Energy & Mobility - Q2/H1 FY2026 Earnings Presentation, November 6, 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: Amara Raja subsequently reported more than xx.xx MWh of telecom volumes in its second quarter of fiscal 2026. This commercial shipment aggregate provides counterevidence to treating lead-acid weakness as disappearance of telecom backup demand. ([amararajaeandm.com](https://www.amararajaeandm.com/Files/FinancialResults/2025/Earningspresentation06112025.pdf))

7. IHS Holding Limited - First-Quarter 2026 Financial Statements

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosure supports a continuing replacement mechanism, but supplies no isolated global battery spending or replacement-cycle measurement. ([ihstowers.com](https://www.ihstowers.com/content/dam/ihs/corporate/documents/investors/earnings-materials/2026/IHS_Holding_Limited_1Q26_Financial_Statements.pdf.downloadasset.pdf))

8. Ofcom - Mobile RAN Power Resilience: Technical Report and CFI Update, February 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom estimated UK-wide one-hour battery-backup alternatives at GBP1.xx.xx-xx.xx in 2024 prices, including capital expenditure and multiple years of operating costs. This is a jurisdictional scenario, not realized annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing the 2032 market-value input; displayed series and growth include calculations: The costed alternatives constrain the commercial significance and limitations of resilience upgrades; their existence does not establish forecast implementation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

9. Ofcom - Your Landline Is Going Digital: What You Need to Know

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom describes provider-funded backup eligibility for landline-dependent customers lacking a working mobile phone or reliable mobile signal. Eligibility is narrower than the total broadband customer pool. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The eligibility boundary supports conditional premises adoption, not a universal entitlement or a quantified global take-up rate. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))

10. IFC Supports IPT PowerTech to Deliver Clean Telecom Power Across Ethiopia, Liberia, and Sierra Leone
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: IFC's March 2026 announcement establishes financing support for IPT's telecom-energy expansion in Ethiopia, Liberia and Sierra Leone. Financing is an expansion indicator, not completed deployment or attributable backup-fee revenue. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing the 2029 market-value input; displayed series and growth include calculations: The financed expansion supports consideration of managed delivery, while global served-site counts and backup-only fees remain assumptions. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
11. Fingrid - How to Participate in the Reserve Markets
    - Evidence informing the 2032 market-value input; displayed series and growth include calculations: Fingrid's participation conditions establish contractual and permission gates for Finnish reserve markets. They support retaining an access constraint rather than assuming every backup asset earns additional energy-market revenue. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Applicable owner permission and market agreements are commercial access gates. They constrain forecast mixed-duty adoption without measuring its Global percentage. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
12. Cellnex - Integrated Annual Report 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Italian telecom site portfolio constrains the national network pool.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Italian telecom site portfolio constrains the national network pool.

13. PowerSafe SBS Batteries | EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
14. Vertiv NetSure M Series
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
15. Ofcom - Network and Service Resilience Guidance for Communications Providers, June 16, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: June 2026 guidance identifies approximately four hours as good practice for active fixed-access cabinets. This supports a conditional Extended purchasing shift, not completed orders or a Global mandate. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/network-and-service-resilience-guidance-for-communications-providerspdf?v=xx.xx))
16. Technology and Tools | First Responder Network Authority
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
17. Mobile Network Hardening Program | Australian Department of Infrastructure
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.

18. BT - Digital Voice for Business Service Schedule, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
19. Los Angeles Metro - Board Report 2024-1128, UPS Battery Replacement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
20. ETSI EN 300 019-1-3 V3.1.1 - Stationary Use at Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
21. ETSI EN 300 019-1-4 V3.1.1 - Stationary Use at Non-Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.

22. DC Power Plant / Rectifiers - UPS Rental
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
23. Helios Towers - Full Year Results 2025, March 12, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
24. Telecommunications | Aggreko US
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
25. EnerSys PowerSafe SBS Front Terminal Batteries | Alpine Power Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
26. DC Power Services | Vertiv
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.

27. Shuangdeng Group Co., Ltd. - Global Offering Prospectus, August 18, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
28. Amara Raja Crosses 1 GWh Lithium Storage Deployment Powering India's Telecom Networks
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
29. Central Office Power Systems - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

30. PowerSafe OPzV Batteries - EnerSys

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

31. Bolloré - 2017 Registration Document

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

32. Bolloré - Business Report 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

33. AT&T to Replace U-Verse Cabinet Batteries - Fierce Network, January 15, 2008

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

34. PowerSafe NiCd Batteries - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
35. FDK Ni-MH Battery Is Chosen for the Cellect 600 Product of Alpha Technologies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
36. Products - Encell Technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
37. Telecom/5G - ZAF Energy Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
38. HORIEN Salt Battery Solutions and Inlyte Energy Announce a Strategic Partnership
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
39. Energy Backup - Phinergy
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))

40. Australian Flow Batteries - RFB40X Series

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))

41. PowerReserve - Verizon Residential Accessories

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))

42. Alkaline Manganese Dioxide Handbook and Application Manual - Energizer

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))

43. ITU-T Work Programme - Aqueous Zinc-Based Battery Systems for Base Station Applications

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The aqueous-zinc base-station work item is Under study with December 2027 timing. It constrains the forecast commercialization assumption but establishes neither approval nor customer purchases. ([itu.int](https://www.itu.int/itu-t/workprog/wp_item.aspx?isn=xx.xx))

44. ITU-T L.1397 - Battery System with Integrated Control and Monitoring Information Model

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))

45. ETSI EN 300 132-1 V2.2.1 - ICT Power Supply Interface: Alternating Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
46. ETSI EN 300 132-2 V2.8.1 - ICT Power Supply Interface: Direct Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
47. Vertiv NetSure Inverter Series - Converged AC and DC Power System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))

48. ETSI EN 302 099 V2.2.1 - Powering of Equipment in Access Network
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))

49. Set Up Your Battery Backup - AT&T G.Fast Service with BGW210

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

50. DNA Tower Offers Battery Capacity in Electricity Reserve Markets with Elisa DES

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

51. Case Elisa: Virtual Power Plant in the Telecom Industry

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company case reports over 2,000 aggregated sites and approximately xx.xx MWh. This is an installed commercial scale check, not annual purchasing value or Global prevalence. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/customer-stories/elisacase))

21.12. Mexico

Table 704. Mexico Telecom Battery Backup System Market Size, 2017-2032 (USD Million)

Sources & Evidence

1. China Tower - 2025 Annual Results, March 18, 2026

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosed spending slowdown is a counterforce used in the restrained 2026 purchasing assumption, not an observation of 2026 global revenue. ([ir.china-tower.com](https://ir.china-tower.com/en/ir/presentation/pre260318.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.

2. Broadband Commission - The State of Broadband: Our Digital World, 2025

· Evidence informing the 2032 market-value input; displayed series and growth include calculations: The fixed-broadband pool supports the premises-demand model, with future adoption and replacement assumptions remaining modeled. ([itu.int](https://www.itu.int/dms_pub/itu-s/opb/pol/s-pol-broadband.xx.xx-2025-pdf-e.pdf))

3. Battery Backup - Meriwether Lewis Electric Cooperative
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The provider distinguishes voice-only protection from combined voice-and-internet protection, supporting service-specific rather than universal premises adoption assumptions. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
4. EnerSys 2026 Proxy Statement and Annual Report
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Fiscal 2026 segment growth included data-center and industrial demand and communications mix effects. It is not accepted as a telecom-only global growth rate. ([s206.q4cdn.com](https://s206.q4cdn.com/xx.xx/files/doc_financials/2026/ar/b317caf6-56f8-42fa-bea1-bf685eb4132a.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.

5. Shuangdeng Group Co., Ltd. - Annual Results Announcement for the Year Ended December 31, 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: The telecom-specific decline is a counterweight to using broad energy-storage growth as the 2026 market forecast. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

6. Amara Raja Energy & Mobility - Q2/H1 FY2026 Earnings Presentation, November 6, 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: Amara Raja subsequently reported more than xx.xx MWh of telecom volumes in its second quarter of fiscal 2026. This commercial shipment aggregate provides counterevidence to treating lead-acid weakness as disappearance of telecom backup demand. ([amararajaeandm.com](https://www.amararajaeandm.com/Files/FinancialResults/2025/Earningspresentation06112025.pdf))

7. IHS Holding Limited - First-Quarter 2026 Financial Statements

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosure supports a continuing replacement mechanism, but supplies no isolated global battery spending or replacement-cycle measurement. ([ihstowers.com](https://www.ihstowers.com/content/dam/ihs/corporate/documents/investors/earnings-materials/2026/IHS_Holding_Limited_1Q26_Financial_Statements.pdf.downloadasset.pdf))

8. Ofcom - Mobile RAN Power Resilience: Technical Report and CFI Update, February 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom estimated UK-wide one-hour battery-backup alternatives at GBP1.xx.xx-xx.xx in 2024 prices, including capital expenditure and multiple years of operating costs. This is a jurisdictional scenario, not realized annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing the 2032 market-value input; displayed series and growth include calculations: The costed alternatives constrain the commercial significance and limitations of resilience upgrades; their existence does not establish forecast implementation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

9. Ofcom - Your Landline Is Going Digital: What You Need to Know

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom describes provider-funded backup eligibility for landline-dependent customers lacking a working mobile phone or reliable mobile signal. Eligibility is narrower than the total broadband customer pool. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The eligibility boundary supports conditional premises adoption, not a universal entitlement or a quantified global take-up rate. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))

10. IFC Supports IPT PowerTech to Deliver Clean Telecom Power Across Ethiopia, Liberia, and Sierra Leone
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: IFC's March 2026 announcement establishes financing support for IPT's telecom-energy expansion in Ethiopia, Liberia and Sierra Leone. Financing is an expansion indicator, not completed deployment or attributable backup-fee revenue. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing the 2029 market-value input; displayed series and growth include calculations: The financed expansion supports consideration of managed delivery, while global served-site counts and backup-only fees remain assumptions. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
11. Fingrid - How to Participate in the Reserve Markets
    - Evidence informing the 2032 market-value input; displayed series and growth include calculations: Fingrid's participation conditions establish contractual and permission gates for Finnish reserve markets. They support retaining an access constraint rather than assuming every backup asset earns additional energy-market revenue. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Applicable owner permission and market agreements are commercial access gates. They constrain forecast mixed-duty adoption without measuring its Global percentage. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
12. American Tower Corporation - Annual Report on Form 10-K for 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Mexican tower inventory constrains the local network-stock bridge.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Mexican tower inventory constrains the local network-stock bridge.

13. PowerSafe SBS Batteries | EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
14. Vertiv NetSure M Series
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
15. Ofcom - Network and Service Resilience Guidance for Communications Providers, June 16, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: June 2026 guidance identifies approximately four hours as good practice for active fixed-access cabinets. This supports a conditional Extended purchasing shift, not completed orders or a Global mandate. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/network-and-service-resilience-guidance-for-communications-providerspdf?v=xx.xx))
16. Technology and Tools | First Responder Network Authority
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
17. Mobile Network Hardening Program | Australian Department of Infrastructure
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.

18. BT - Digital Voice for Business Service Schedule, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
19. Los Angeles Metro - Board Report 2024-1128, UPS Battery Replacement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
20. ETSI EN 300 019-1-3 V3.1.1 - Stationary Use at Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
21. ETSI EN 300 019-1-4 V3.1.1 - Stationary Use at Non-Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.

22. DC Power Plant / Rectifiers - UPS Rental
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
23. Helios Towers - Full Year Results 2025, March 12, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
24. Telecommunications | Aggreko US
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
25. EnerSys PowerSafe SBS Front Terminal Batteries | Alpine Power Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
26. DC Power Services | Vertiv
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.

27. Shuangdeng Group Co., Ltd. - Global Offering Prospectus, August 18, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
28. Amara Raja Crosses 1 GWh Lithium Storage Deployment Powering India's Telecom Networks
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
29. Central Office Power Systems - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

30. PowerSafe OPzV Batteries - EnerSys

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

31. Bolloré - 2017 Registration Document

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

32. Bolloré - Business Report 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

33. AT&T to Replace U-Verse Cabinet Batteries - Fierce Network, January 15, 2008

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

34. PowerSafe NiCd Batteries - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
35. FDK Ni-MH Battery Is Chosen for the Cellect 600 Product of Alpha Technologies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
36. Products - Encell Technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
37. Telecom/5G - ZAF Energy Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
38. HORIEN Salt Battery Solutions and Inlyte Energy Announce a Strategic Partnership
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
39. Energy Backup - Phinergy
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))

40. Australian Flow Batteries - RFB40X Series

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))

41. PowerReserve - Verizon Residential Accessories

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))

42. Alkaline Manganese Dioxide Handbook and Application Manual - Energizer

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))

43. ITU-T Work Programme - Aqueous Zinc-Based Battery Systems for Base Station Applications

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The aqueous-zinc base-station work item is Under study with December 2027 timing. It constrains the forecast commercialization assumption but establishes neither approval nor customer purchases. ([itu.int](https://www.itu.int/itu-t/workprog/wp_item.aspx?isn=xx.xx))

44. ITU-T L.1397 - Battery System with Integrated Control and Monitoring Information Model

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))

45. ETSI EN 300 132-1 V2.2.1 - ICT Power Supply Interface: Alternating Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
46. ETSI EN 300 132-2 V2.8.1 - ICT Power Supply Interface: Direct Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
47. Vertiv NetSure Inverter Series - Converged AC and DC Power System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))

48. ETSI EN 302 099 V2.2.1 - Powering of Equipment in Access Network
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))

49. Set Up Your Battery Backup - AT&T G.Fast Service with BGW210

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

50. DNA Tower Offers Battery Capacity in Electricity Reserve Markets with Elisa DES

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

51. Case Elisa: Virtual Power Plant in the Telecom Industry

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company case reports over 2,000 aggregated sites and approximately xx.xx MWh. This is an installed commercial scale check, not annual purchasing value or Global prevalence. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/customer-stories/elisacase))

21.13. Canada

Table 724. Canada Telecom Battery Backup System Market Size, 2017-2032 (USD Million)

Country	2023	2024	2025	2026	2027	2032	CAGR (%)
Canada	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Commercial Delivery Model	2023	2024	2025	2026	2027	2032	CAGR (%)
Leased or Rented Equipment	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Managed Backup Capacity	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Owned Equipment	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 740. Canada Telecom Battery Backup System Market Size, by Sales Channel, 2017-2032 (USD Million)

Sales Channel	2023	2024	2025	2026	2027	2032	CAGR (%)
Direct Manufacturer Supply	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Distributor and Retailer Supply	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Systems Integrator and Contractor Supply	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Telecom Service Provider Supply	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 741. Canada Telecom Battery Backup System Market Size, by Grid Availability, 2017-2032 (USD Million)

Grid Availability	2023	2024	2025	2026	2027	2032	CAGR (%)
Off-Grid	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Reliable Grid	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Unreliable Grid	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 742. Canada Telecom Battery Backup System Market Size, by Backup Duty, 2017-2032 (USD Million)

Backup Duty	2023	2024	2025	2026	2027	2032	CAGR (%)
Backup with Energy Management	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Reserve-Only Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Table 743. Canada Telecom Battery Backup System Market Size, by Backup Autonomy, 2017-2032 (USD Million)

Backup Autonomy	2023	2024	2025	2026	2027	2032	CAGR (%)
Day-Scale Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Extended-Duration Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Intermediate-Duration Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Short-Duration Backup	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx	xx.xx
Total	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Sources & Evidence

1. China Tower - 2025 Annual Results, March 18, 2026
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosed spending slowdown is a counterforce used in the restrained 2026 purchasing assumption, not an observation of 2026 global revenue. ([ir.china-tower.com](https://ir.china-tower.com/en/ir/presentation/pre260318.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
2. Broadband Commission - The State of Broadband: Our Digital World, 2025
   - Evidence informing the 2032 market-value input; displayed series and growth include calculations: The fixed-broadband pool supports the premises-demand model, with future adoption and replacement assumptions remaining modeled. ([itu.int](https://www.itu.int/dms_pub/itu-s/opb/pol/s-pol-broadband.xx.xx-2025-pdf-e.pdf))

3. Battery Backup - Meriwether Lewis Electric Cooperative
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The provider distinguishes voice-only protection from combined voice-and-internet protection, supporting service-specific rather than universal premises adoption assumptions. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
4. EnerSys 2026 Proxy Statement and Annual Report
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Fiscal 2026 segment growth included data-center and industrial demand and communications mix effects. It is not accepted as a telecom-only global growth rate. ([s206.q4cdn.com](https://s206.q4cdn.com/xx.xx/files/doc_financials/2026/ar/b317caf6-56f8-42fa-bea1-bf685eb4132a.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.

5. Shuangdeng Group Co., Ltd. - Annual Results Announcement for the Year Ended December 31, 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: The telecom-specific decline is a counterweight to using broad energy-storage growth as the 2026 market forecast. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

6. Amara Raja Energy & Mobility - Q2/H1 FY2026 Earnings Presentation, November 6, 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: Amara Raja subsequently reported more than xx.xx MWh of telecom volumes in its second quarter of fiscal 2026. This commercial shipment aggregate provides counterevidence to treating lead-acid weakness as disappearance of telecom backup demand. ([amararajaeandm.com](https://www.amararajaeandm.com/Files/FinancialResults/2025/Earningspresentation06112025.pdf))

7. IHS Holding Limited - First-Quarter 2026 Financial Statements

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosure supports a continuing replacement mechanism, but supplies no isolated global battery spending or replacement-cycle measurement. ([ihstowers.com](https://www.ihstowers.com/content/dam/ihs/corporate/documents/investors/earnings-materials/2026/IHS_Holding_Limited_1Q26_Financial_Statements.pdf.downloadasset.pdf))

8. Ofcom - Mobile RAN Power Resilience: Technical Report and CFI Update, February 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom estimated UK-wide one-hour battery-backup alternatives at GBP1.xx.xx-xx.xx in 2024 prices, including capital expenditure and multiple years of operating costs. This is a jurisdictional scenario, not realized annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing the 2032 market-value input; displayed series and growth include calculations: The costed alternatives constrain the commercial significance and limitations of resilience upgrades; their existence does not establish forecast implementation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

9. Ofcom - Your Landline Is Going Digital: What You Need to Know

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom describes provider-funded backup eligibility for landline-dependent customers lacking a working mobile phone or reliable mobile signal. Eligibility is narrower than the total broadband customer pool. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The eligibility boundary supports conditional premises adoption, not a universal entitlement or a quantified global take-up rate. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))

10. IFC Supports IPT PowerTech to Deliver Clean Telecom Power Across Ethiopia, Liberia, and Sierra Leone
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: IFC's March 2026 announcement establishes financing support for IPT's telecom-energy expansion in Ethiopia, Liberia and Sierra Leone. Financing is an expansion indicator, not completed deployment or attributable backup-fee revenue. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing the 2029 market-value input; displayed series and growth include calculations: The financed expansion supports consideration of managed delivery, while global served-site counts and backup-only fees remain assumptions. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
11. Fingrid - How to Participate in the Reserve Markets
    - Evidence informing the 2032 market-value input; displayed series and growth include calculations: Fingrid's participation conditions establish contractual and permission gates for Finnish reserve markets. They support retaining an access constraint rather than assuming every backup asset earns additional energy-market revenue. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Applicable owner permission and market agreements are commercial access gates. They constrain forecast mixed-duty adoption without measuring its Global percentage. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
12. CRTC - Request for Information on Telecommunications Network Resiliency, May 12, 2026
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The information request seeks evidence on possible backup requirements and customer equipment costs; it is not an enacted national procurement program.
13. PowerSafe SBS Batteries | EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.

14. Vertiv NetSure M Series
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
15. Ofcom - Network and Service Resilience Guidance for Communications Providers, June 16, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: June 2026 guidance identifies approximately four hours as good practice for active fixed-access cabinets. This supports a conditional Extended purchasing shift, not completed orders or a Global mandate. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/network-and-service-resilience-guidance-for-communications-providerspdf?v=xx.xx))
16. Technology and Tools | First Responder Network Authority
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
17. Mobile Network Hardening Program | Australian Department of Infrastructure
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
18. BT - Digital Voice for Business Service Schedule, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.

19. Los Angeles Metro - Board Report 2024-1128, UPS Battery Replacement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
20. ETSI EN 300 019-1-3 V3.1.1 - Stationary Use at Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
21. ETSI EN 300 019-1-4 V3.1.1 - Stationary Use at Non-Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.

22. DC Power Plant / Rectifiers - UPS Rental
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
23. Helios Towers - Full Year Results 2025, March 12, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
24. Telecommunications | Aggreko US
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
25. EnerSys PowerSafe SBS Front Terminal Batteries | Alpine Power Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
26. DC Power Services | Vertiv
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.

27. Shuangdeng Group Co., Ltd. - Global Offering Prospectus, August 18, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
28. Amara Raja Crosses 1 GWh Lithium Storage Deployment Powering India's Telecom Networks
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
29. Central Office Power Systems - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

30. PowerSafe OPzV Batteries - EnerSys

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

31. Bolloré - 2017 Registration Document

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

32. Bolloré - Business Report 2025

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

33. AT&T to Replace U-Verse Cabinet Batteries - Fierce Network, January 15, 2008

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

34. PowerSafe NiCd Batteries - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
35. FDK Ni-MH Battery Is Chosen for the Cellect 600 Product of Alpha Technologies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
36. Products - Encell Technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
37. Telecom/5G - ZAF Energy Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
38. HORIEN Salt Battery Solutions and Inlyte Energy Announce a Strategic Partnership
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
39. Energy Backup - Phinergy
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))

40. Australian Flow Batteries - RFB40X Series

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))

41. PowerReserve - Verizon Residential Accessories

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))

42. Alkaline Manganese Dioxide Handbook and Application Manual - Energizer

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))

43. ITU-T Work Programme - Aqueous Zinc-Based Battery Systems for Base Station Applications

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The aqueous-zinc base-station work item is Under study with December 2027 timing. It constrains the forecast commercialization assumption but establishes neither approval nor customer purchases. ([itu.int](https://www.itu.int/itu-t/workprog/wp_item.aspx?isn=xx.xx))

44. ITU-T L.1397 - Battery System with Integrated Control and Monitoring Information Model

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))

45. ETSI EN 300 132-1 V2.2.1 - ICT Power Supply Interface: Alternating Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
46. ETSI EN 300 132-2 V2.8.1 - ICT Power Supply Interface: Direct Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
47. Vertiv NetSure Inverter Series - Converged AC and DC Power System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))

48. ETSI EN 302 099 V2.2.1 - Powering of Equipment in Access Network
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))

49. Set Up Your Battery Backup - AT&T G.Fast Service with BGW210

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

50. DNA Tower Offers Battery Capacity in Electricity Reserve Markets with Elisa DES

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

51. Case Elisa: Virtual Power Plant in the Telecom Industry

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company case reports over 2,000 aggregated sites and approximately xx.xx MWh. This is an installed commercial scale check, not annual purchasing value or Global prevalence. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/customer-stories/elisacase))

21.14. Spain

Table 744. Spain Telecom Battery Backup System Market Size, 2017-2032 (USD Million)

Sources & Evidence

1. China Tower - 2025 Annual Results, March 18, 2026
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosed spending slowdown is a counterforce used in the restrained 2026 purchasing assumption, not an observation of 2026 global revenue. ([ir.china-tower.com](https://ir.china-tower.com/en/ir/presentation/pre260318.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
2. Broadband Commission - The State of Broadband: Our Digital World, 2025
   - Evidence informing the 2032 market-value input; displayed series and growth include calculations: The fixed-broadband pool supports the premises-demand model, with future adoption and replacement assumptions remaining modeled. ([itu.int](https://www.itu.int/dms_pub/itu-s/opb/pol/s-pol-broadband.xx.xx-2025-pdf-e.pdf))

3. Battery Backup - Meriwether Lewis Electric Cooperative
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The provider distinguishes voice-only protection from combined voice-and-internet protection, supporting service-specific rather than universal premises adoption assumptions. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
4. EnerSys 2026 Proxy Statement and Annual Report
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Fiscal 2026 segment growth included data-center and industrial demand and communications mix effects. It is not accepted as a telecom-only global growth rate. ([s206.q4cdn.com](https://s206.q4cdn.com/xx.xx/files/doc_financials/2026/ar/b317caf6-56f8-42fa-bea1-bf685eb4132a.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.

5. Shuangdeng Group Co., Ltd. - Annual Results Announcement for the Year Ended December 31, 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: The telecom-specific decline is a counterweight to using broad energy-storage growth as the 2026 market forecast. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

6. Amara Raja Energy & Mobility - Q2/H1 FY2026 Earnings Presentation, November 6, 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: Amara Raja subsequently reported more than xx.xx MWh of telecom volumes in its second quarter of fiscal 2026. This commercial shipment aggregate provides counterevidence to treating lead-acid weakness as disappearance of telecom backup demand. ([amararajaeandm.com](https://www.amararajaeandm.com/Files/FinancialResults/2025/Earningspresentation06112025.pdf))

7. IHS Holding Limited - First-Quarter 2026 Financial Statements

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosure supports a continuing replacement mechanism, but supplies no isolated global battery spending or replacement-cycle measurement. ([ihstowers.com](https://www.ihstowers.com/content/dam/ihs/corporate/documents/investors/earnings-materials/2026/IHS_Holding_Limited_1Q26_Financial_Statements.pdf.downloadasset.pdf))

8. Ofcom - Mobile RAN Power Resilience: Technical Report and CFI Update, February 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom estimated UK-wide one-hour battery-backup alternatives at GBP1.xx.xx-xx.xx in 2024 prices, including capital expenditure and multiple years of operating costs. This is a jurisdictional scenario, not realized annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing the 2032 market-value input; displayed series and growth include calculations: The costed alternatives constrain the commercial significance and limitations of resilience upgrades; their existence does not establish forecast implementation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

9. Ofcom - Your Landline Is Going Digital: What You Need to Know
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom describes provider-funded backup eligibility for landline-dependent customers lacking a working mobile phone or reliable mobile signal. Eligibility is narrower than the total broadband customer pool. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
   - Evidence informing the 2032 market-value input; displayed series and growth include calculations: The eligibility boundary supports conditional premises adoption, not a universal entitlement or a quantified global take-up rate. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))

10. IFC Supports IPT PowerTech to Deliver Clean Telecom Power Across Ethiopia, Liberia, and Sierra Leone
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: IFC's March 2026 announcement establishes financing support for IPT's telecom-energy expansion in Ethiopia, Liberia and Sierra Leone. Financing is an expansion indicator, not completed deployment or attributable backup-fee revenue. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing the 2029 market-value input; displayed series and growth include calculations: The financed expansion supports consideration of managed delivery, while global served-site counts and backup-only fees remain assumptions. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
11. Fingrid - How to Participate in the Reserve Markets
    - Evidence informing the 2032 market-value input; displayed series and growth include calculations: Fingrid's participation conditions establish contractual and permission gates for Finnish reserve markets. They support retaining an access constraint rather than assuming every backup asset earns additional energy-market revenue. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Applicable owner permission and market agreements are commercial access gates. They constrain forecast mixed-duty adoption without measuring its Global percentage. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
12. PowerSafe SBS Batteries | EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.

13. Vertiv NetSure M Series
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
14. Ofcom - Network and Service Resilience Guidance for Communications Providers, June 16, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: June 2026 guidance identifies approximately four hours as good practice for active fixed-access cabinets. This supports a conditional Extended purchasing shift, not completed orders or a Global mandate. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/network-and-service-resilience-guidance-for-communications-providerspdf?v=xx.xx))
15. Technology and Tools | First Responder Network Authority
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
16. Mobile Network Hardening Program | Australian Department of Infrastructure
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
17. BT - Digital Voice for Business Service Schedule, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.

18. Los Angeles Metro - Board Report 2024-1128, UPS Battery Replacement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
19. ETSI EN 300 019-1-3 V3.1.1 - Stationary Use at Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
20. ETSI EN 300 019-1-4 V3.1.1 - Stationary Use at Non-Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.

21. DC Power Plant / Rectifiers - UPS Rental
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
22. Helios Towers - Full Year Results 2025, March 12, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
23. Telecommunications | Aggreko US
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
24. EnerSys PowerSafe SBS Front Terminal Batteries | Alpine Power Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
25. DC Power Services | Vertiv
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.

26. Shuangdeng Group Co., Ltd. - Global Offering Prospectus, August 18, 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
27. Amara Raja Crosses 1 GWh Lithium Storage Deployment Powering India's Telecom Networks
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
28. Central Office Power Systems - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

29. PowerSafe OPzV Batteries - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))
30. Bolloré - 2017 Registration Document
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))
31. Bolloré - Business Report 2025
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))
32. AT&T to Replace U-Verse Cabinet Batteries - Fierce Network, January 15, 2008
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

33. PowerSafe NiCd Batteries - EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
34. FDK Ni-MH Battery Is Chosen for the Cellect 600 Product of Alpha Technologies
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
35. Products - Encell Technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
36. Telecom/5G - ZAF Energy Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
37. HORIEN Salt Battery Solutions and Inlyte Energy Announce a Strategic Partnership
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
38. Energy Backup - Phinergy
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))

39. Australian Flow Batteries - RFB40X Series

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))

40. PowerReserve - Verizon Residential Accessories

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))

41. Alkaline Manganese Dioxide Handbook and Application Manual - Energizer

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))

42. ITU-T Work Programme - Aqueous Zinc-Based Battery Systems for Base Station Applications

- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The aqueous-zinc base-station work item is Under study with December 2027 timing. It constrains the forecast commercialization assumption but establishes neither approval nor customer purchases. ([itu.int](https://www.itu.int/itu-t/workprog/wp_item.aspx?isn=xx.xx))

43. ITU-T L.1397 - Battery System with Integrated Control and Monitoring Information Model

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))

44. ETSI EN 300 132-1 V2.2.1 - ICT Power Supply Interface: Alternating Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
45. ETSI EN 300 132-2 V2.8.1 - ICT Power Supply Interface: Direct Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
46. Vertiv NetSure Inverter Series - Converged AC and DC Power System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))

47. ETSI EN 302 099 V2.2.1 - Powering of Equipment in Access Network
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))

48. Set Up Your Battery Backup - AT&T G.Fast Service with BGW210

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

49. DNA Tower Offers Battery Capacity in Electricity Reserve Markets with Elisa DES

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

50. Case Elisa: Virtual Power Plant in the Telecom Industry

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company case reports over 2,000 aggregated sites and approximately xx.xx MWh. This is an installed commercial scale check, not annual purchasing value or Global prevalence. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/customer-stories/elisacase))

21.15. Australia

Table 764. Australia Telecom Battery Backup System Market Size, 2017-2032 (USD Million)

Country	2023	2024	2025	2026	2027	2032	CAGR (%)
Australia	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**	**xx.xx**

Sources & Evidence

1. China Tower - 2025 Annual Results, March 18, 2026
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosed spending slowdown is a counterforce used in the restrained 2026 purchasing assumption, not an observation of 2026 global revenue. ([ir.china-tower.com](https://ir.china-tower.com/en/ir/presentation/pre260318.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The xx.xx.149m-site inventory constrains wireless activity; forecast purchasing remains modeled.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Replacement/improvement CAPEX fell from RMB6837m to RMB5474m, qualifying automatic replacement-led growth.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Disclosed tower operations establish a material infrastructure purchasing setting, not a global buyer share.
2. Broadband Commission - The State of Broadband: Our Digital World, 2025
   - Evidence informing the 2032 market-value input; displayed series and growth include calculations: The fixed-broadband pool supports the premises-demand model, with future adoption and replacement assumptions remaining modeled. ([itu.int](https://www.itu.int/dms_pub/itu-s/opb/pol/s-pol-broadband.xx.xx-2025-pdf-e.pdf))

3. Battery Backup - Meriwether Lewis Electric Cooperative
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: The provider distinguishes voice-only protection from combined voice-and-internet protection, supporting service-specific rather than universal premises adoption assumptions. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Separately available replacement batteries support a battery-only replacement route.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The USD100-plus-tax device is a retail comparator, not an observed 2025 first-sale realization.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Customer purchase and replacement responsibilities support household-funded procurement.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Purchased equipment does not automatically include continuing service-plan coverage.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local provider sales establish this route alongside manufacturer-direct purchasing.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises approximately five hours for combined voice and internet, supporting service-specific Extended classification, not an observed 2025 purchase mix. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The same proposition advertises xx.xx-hour voice-only protection, supporting Day-Scale mapping without equating duration with a universally larger purchase basket. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
4. EnerSys 2026 Proxy Statement and Annual Report
   - Evidence informing the 2026 market-value input; displayed series and growth include calculations: Fiscal 2026 segment growth included data-center and industrial demand and communications mix effects. It is not accepted as a telecom-only global growth rate. ([s206.q4cdn.com](https://s206.q4cdn.com/xx.xx/files/doc_financials/2026/ar/b317caf6-56f8-42fa-bea1-bf685eb4132a.pdf))
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Direct customer supply is disclosed within a diversified international business; telecom channel proportions are not disclosed.
   - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.
   - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Distributor supply is disclosed, supporting route occurrence rather than its modeled sales weight.

5. Shuangdeng Group Co., Ltd. - Annual Results Announcement for the Year Ended December 31, 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: The telecom-specific decline is a counterweight to using broad energy-storage growth as the 2026 market forecast. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Audited 2025 telecom revenue of RMB1,xx.xx declined xx.xx%; telecom purchasing weakness is retained as counterevidence to automatic substitution-led aggregate growth. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom-specific results are separated from adjacent data-center and power-storage growth when assessing lithium substitution; the filing does not disclose the modeled Global split. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2026/xx.xx/xx.xx.pdf))

6. Amara Raja Energy & Mobility - Q2/H1 FY2026 Earnings Presentation, November 6, 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: Amara Raja subsequently reported more than xx.xx MWh of telecom volumes in its second quarter of fiscal 2026. This commercial shipment aggregate provides counterevidence to treating lead-acid weakness as disappearance of telecom backup demand. ([amararajaeandm.com](https://www.amararajaeandm.com/Files/FinancialResults/2025/Earningspresentation06112025.pdf))

7. IHS Holding Limited - First-Quarter 2026 Financial Statements

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: The disclosure supports a continuing replacement mechanism, but supplies no isolated global battery spending or replacement-cycle measurement. ([ihstowers.com](https://www.ihstowers.com/content/dam/ihs/corporate/documents/investors/earnings-materials/2026/IHS_Holding_Limited_1Q26_Financial_Statements.pdf.downloadasset.pdf))

8. Ofcom - Mobile RAN Power Resilience: Technical Report and CFI Update, February 2025

· Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom estimated UK-wide one-hour battery-backup alternatives at GBP1.xx.xx-xx.xx in 2024 prices, including capital expenditure and multiple years of operating costs. This is a jurisdictional scenario, not realized annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing the 2032 market-value input; displayed series and growth include calculations: The costed alternatives constrain the commercial significance and limitations of resilience upgrades; their existence does not establish forecast implementation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The evaluated xx.xx-minute alternative supplies a subhour commercial-planning anchor, not observed shipments.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: One-hour and two-hour alternatives anchor the analytical Intermediate band. Aggregate scenarios include multiple years of operating costs and are not annual battery revenue.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The four-hour alternative anchors the Extended band's lower boundary without establishing a Global minimum or purchasing allocation.
([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/mobile-ran-power-resilience-technical-report-cfi-update.pdf?v=xx.xx))

9. Ofcom - Your Landline Is Going Digital: What You Need to Know

- Evidence informing the 2026 market-value input; displayed series and growth include calculations: Ofcom describes provider-funded backup eligibility for landline-dependent customers lacking a working mobile phone or reliable mobile signal. Eligibility is narrower than the total broadband customer pool. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing the 2032 market-value input; displayed series and growth include calculations: The eligibility boundary supports conditional premises adoption, not a universal entitlement or a quantified global take-up rate. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Restricted provider-funded eligibility constrains operator-funded premises attribution and forecast adoption.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility is not universal household funding; purchaser proportions remain assumptions.
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Eligibility-limited provider backup and the one-hour minimum for qualifying customers constrain premises demand and anchor the Intermediate band's lower boundary. They do not establish universal adoption. ([ofcom.org.uk](https://www.ofcom.org.uk/phones-and-broadband/landline-phones/future-of-landline-calls))

10. IFC Supports IPT PowerTech to Deliver Clean Telecom Power Across Ethiopia, Liberia, and Sierra Leone
    - Evidence informing the 2026 market-value input; displayed series and growth include calculations: IFC's March 2026 announcement establishes financing support for IPT's telecom-energy expansion in Ethiopia, Liberia and Sierra Leone. Financing is an expansion indicator, not completed deployment or attributable backup-fee revenue. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing the 2029 market-value input; displayed series and growth include calculations: The financed expansion supports consideration of managed delivery, while global served-site counts and backup-only fees remain assumptions. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: USD45m financing and xx.xx planned site modernizations support an expansion signal, not observed backup-only service revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Energy-service activity supports the role; the modeled provider-as-buyer subcontract share is not established.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: More than xx.xx% weak/off-grid project exposure constrains service-cohort concentration, not the global grid mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The project confirms disconnected-site commercial demand; its weak/off-grid combined statistic does not separate those categories.
11. Fingrid - How to Participate in the Reserve Markets
    - Evidence informing the 2032 market-value input; displayed series and growth include calculations: Fingrid's participation conditions establish contractual and permission gates for Finnish reserve markets. They support retaining an access constraint rather than assuming every backup asset earns additional energy-market revenue. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Applicable owner permission and market agreements are commercial access gates. They constrain forecast mixed-duty adoption without measuring its Global percentage. ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))

12. Australian Government - Mobile Network Hardening Program
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Operator-specific battery upgrades and mixed hardening measures support localized Australian procurement, not a regional battery mandate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Operator-specific battery upgrades and mixed hardening measures support localized Australian procurement, not a regional battery mandate.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed battery enhancements and broader resilience projects provide a delivered regional demand signal, not a global forecast rate.
13. PowerSafe SBS Batteries | EnerSys
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Named telecom batteries support the battery-unit offering boundary; allocation weights are assumed.
14. Vertiv NetSure M Series
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Configured enclosure, power and battery options support broader system classification, not universal bundle inclusion.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A marketed outdoor enclosure supports a protection option; global adoption and configuration proportions remain modeled.
15. Ofcom - Network and Service Resilience Guidance for Communications Providers, June 16, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Core is a distinct, comparatively concentrated function with explicit backup expectations; global spending remains estimated.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The stated xx.xx-xx.xx-fold site-scale distinction motivates lower-value, more numerous transport purchase equivalents.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Peering and non-Internet interconnection are distinct functions; attributable backup purchase values are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: June 2026 guidance identifies approximately four hours as good practice for active fixed-access cabinets. This supports a conditional Extended purchasing shift, not completed orders or a Global mandate. ([ofcom.org.uk](https://www.ofcom.org.uk/siteassets/resources/documents/consultations/category-xx.xx-xx.xx-weeks/xx.xx-resilience-guidance-and-mobile-ran-power-back-up/associated-documents/network-and-service-resilience-guidance-for-communications-providerspdf?v=xx.xx))

16. Technology and Tools | First Responder Network Authority
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Radio access, transport backhaul and core are separate network functions, supporting functional attribution without duplicate facility counting.
17. BT - Digital Voice for Business Service Schedule, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Business customers bear backup-power expense, supporting a distinct institutional/business payer route rather than consumer eligibility extrapolation.
18. Los Angeles Metro - Board Report 2024-1128, UPS Battery Replacement
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Completed and additional UPS battery replacements support continuing underground demand; mixed-load project budgets are not telecom-only revenue.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The transit authority's purchasing program supports an institutional own-use role, not its global spending proportion.
19. ETSI EN 300 019-1-3 V3.1.1 - Stationary Use at Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Weather-protected categories distinguish enclosure from environmental control; the standard does not measure market mix.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Maintained temperature control is a separate classification premise for the modeled conditional allocation.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Enclosed locations without temperature control are distinguished from controlled locations.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Partial weather protection is recognized separately; sales weights and future adoption remain assumed.

20. ETSI EN 300 019-1-4 V3.1.1 - Stationary Use at Non-Weatherprotected Locations, May 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Non-weather-protected locations form a distinct classification regime, not a measured global spending pool.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Sheltered non-weather-protected locations support the named conditional category.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Open-air locations are separately recognized; their purchasing mix remains modeled.
21. DC Power Plant / Rectifiers - UPS Rental
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Battery and complete DC-plant rentals establish delivery-category occurrence; global fees and utilization are not disclosed.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Commercial rental availability is a role premise only; modeled lessor sub-hire procurement remains unverified.
22. Helios Towers - Full Year Results 2025, March 12, 2026
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid-integration investment supplies a connection-improvement counterforce used conditionally in the forecast.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reported xx.xx-hour average daily grid availability supports weak-grid commercial exposure, without a global classification share.
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Grid integration and alternative-power investment qualify assumptions of permanently unchanged disconnected-site exposure.
23. Telecommunications | Aggreko US
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Telecom battery-storage rental for temporary continuity supports delivery occurrence, not the estimated global fee scale.
24. EnerSys PowerSafe SBS Front Terminal Batteries | Alpine Power Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: A named battery distributor supports the intermediary route; its listing is not a global channel-sales observation.

25. DC Power Services | Vertiv

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cross-manufacturer projects and narrower upgrades support integration-prime and supported-replacement routes; numerical route proportions remain assumed.

26. Shuangdeng Group Co., Ltd. - Global Offering Prospectus, August 18, 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company's own five-month 2025 lead-acid realization of RMB520.xx.xx/kWh constrains the relative-price bridge; syndicated industry claims are excluded. Forecast convergence remains assumed. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Own lithium-ion realization of RMB595.xx.xx/kWh is an input to the Lithium-Based value model, not a Global share or a Lithium-Metal sales observation. ([www1.hkexnews.hk](https://www1.hkexnews.hk/listedco/listconews/sehk/2025/xx.xx/xx.xx.pdf))

27. Amara Raja Crosses 1 GWh Lithium Storage Deployment Powering India's Telecom Networks

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The April xx.xx 2026 disclosure reports approximately xx.xx GWh across xx.xx cumulative telecom lithium sites over four years. This is a commercial adoption scale check, not annual Global revenue or a supplier-share input. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The disclosed deployment identifies lithium-ion commercialization at scale, supporting the subtype's established commercial position without directly measuring its conditional Global share. ([amararaja.com](https://amararaja.com/press_release/amara-raja-crosses-xx.xx-gwh-lithium-storage-deployment-powering-indias-telecom-networks/))

28. Central Office Power Systems - EnerSys

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The central-office portfolio identifies Flooded Lead-Acid as a distinct telecom alternative, supporting the legacy-network category mapping but not its purchasing fraction. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The portfolio separately identifies Valve-Regulated Lead-Acid, supporting the within-lead construction boundary used by the model. ([enersys.com](https://www.enersys.com/en/industries/communications-networks/central-office/))

29. PowerSafe OPzV Batteries - EnerSys

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies OPzV as Gel and lists telecom applications. This supports commercial subtype mapping, not the assumed Gel/AGM volume or price mix. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-opzv/))

30. Bolloré - 2017 Registration Document

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The official filing identifies LMP professional outage-protection applications including telecom relays. This is a dated commercial boundary input, not evidence of 2025 telecom shipment value. ([bollore.com](https://www.bollore.com/wp-content/uploads/2018/xx.xx/bollore_ddr_2017_gb_bag-xx.xx-juin.pdf))

31. Bolloré - Business Report 2025

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2025 report establishes continuing Lithium Metal Polymer commercial applications in electricity storage and buses, while omitting separately attributable telecom sales. It constrains the low-access expected-purchase model; no capacity-to-sales conversion is used. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))
- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The report preserves the distinction between LMP and conventional lithium-ion, supporting the exhaustive subtype attribution rule rather than treating polymer packaging as Lithium-Metal. ([bollore.com](https://www.bollore.com/wp-content/uploads/2026/xx.xx/0421a_boll25t40_rapport_activite_gb_2025_mel.pdf))

32. AT&T to Replace U-Verse Cabinet Batteries - Fierce Network, January 15, 2008

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The January xx.xx 2008 report corroborates AT&T's replacement of approximately xx.xx Avestor batteries after the supplier's closure. The obsolete stock is therefore not carried into the 2025 or 2032 purchasing numerator. ([fierce-network.com](https://www.fierce-network.com/telecom/at-t-to-replace-u-verse-cabinet-batteries))

33. PowerSafe NiCd Batteries - EnerSys

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: EnerSys identifies Nickel-Cadmium for central offices and outside plant, supporting the modeled legacy telecom cohort but not its installed attachment or replacement spending. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))

34. FDK Ni-MH Battery Is Chosen for the Cellect 600 Product of Alpha Technologies

- Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))
- Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October xx.xx 2015 announcement identifies NiMH in Alpha's Cellect xx.xx small-cell backup proposition. It supports a historical cohort rather than current fulfillment or assumed surviving stock. ([fdk.com](https://www.fdk.com/whatsnew-e/release20151019-e.html))

35. Products - Encell Technology
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Encell positions its Fused Iron Nickel-Iron battery for telecom. This supports the commercial category lead, while current purchases and attachment remain modeled. ([encell.com](https://encell.com/products/))
36. Telecom/5G - ZAF Energy Systems
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: ZAF positions Nickel-Zinc for telecom/5G. Its supplier proposition supports application mapping, not the modeled annual attachment or threefold forecast value multiplier. ([zafsys.com](https://zafsys.com/telecom-5g/))
37. HORIEN Salt Battery Solutions and Inlyte Energy Announce a Strategic Partnership
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride telecom backup. Its separate partnership announcement is not counted as delivered telecom sales. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
38. Energy Backup - Phinergy
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Phinergy markets Aluminum-Air continuity offerings to telecom operators and tower companies. The source supports category and buyer mapping, not the modeled installed attachment or replacement numerator. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))
39. Australian Flow Batteries - RFB40X Series
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: RFB40X literature identifies telecom among stationary commercial applications. It supports the qualifying project boundary, not delivered projects, revenue or assumed attachment. ([afb.energy](https://www.afb.energy/wp-content/uploads/2025/xx.xx/Australian-Flow-Batteries-RFB40X-Series-2024.pdf))

40. PowerReserve - Verizon Residential Accessories
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Verizon advertises an alkaline-cell voice-backup device at USD39.xx.xx excluding batteries. This supports a qualifying primary-zinc premises route and price comparator, not assumed Global attachment or first-sale realization. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Advertised voice-only protection reaches xx.xx hours; internet and television protection are excluded. This supports service-specific Day-Scale classification. ([verizon.com](https://www.verizon.com/home/accessories/powerreserve/?skuParam=sku190001))
41. Alkaline Manganese Dioxide Handbook and Application Manual - Energizer
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The manufacturer's alkaline manganese-dioxide classification supports the zinc-family mapping for qualifying premises backup. It provides no telecom purchasing weight. ([data.energizer.com](https://data.energizer.com/pdfs/alkaline_appman.pdf))
42. ITU-T Work Programme - Aqueous Zinc-Based Battery Systems for Base Station Applications
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The aqueous-zinc base-station work item is Under study with December 2027 timing. It constrains the forecast commercialization assumption but establishes neither approval nor customer purchases. ([itu.int](https://www.itu.int/itu-t/workprog/wp_item.aspx?isn=xx.xx))
43. ITU-T L.1397 - Battery System with Integrated Control and Monitoring Information Model
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The October 2025 recommendation names lithium-lead, lithium-sodium and sodium-lead combinations. This supports mixed-family classification, not inseparable pricing or Global prevalence. ([itu.int](https://www.itu.int/rec/dologin_pub.asp?id=T-REC-L.xx.xx-xx.xx-I%xx.xx%21PDF-E&lang=e&type=items))
44. ETSI EN 300 132-1 V2.2.1 - ICT Power Supply Interface: Alternating Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard identifies the protected-load AC interface, supporting output-side attribution rather than classification by chemistry or normal utility input. It supplies no sales mix. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013201v020201p.pdf))

45. ETSI EN 300 132-2 V2.8.1 - ICT Power Supply Interface: Direct Current
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The ICT standard separately identifies the DC protected-equipment interface, supporting the DC-output boundary independently of battery chemistry. It is not a purchasing census. ([etsi.org](https://www.etsi.org/deliver/etsi_en/300100_300199/xx.xx/xx.xx.01_60/en_30013202v020801p.pdf))
46. Vertiv NetSure Inverter Series - Converged AC and DC Power System
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: NetSure Inverter Series identifies AC and DC loads supported through a common battery bank. This establishes a combined-output proposition, not its modeled purchasing fraction or future adoption. ([vertiv.com](https://www.vertiv.com/en-us/products-catalog/critical-power/dc-power-systems/vertiv-netsure-inverter-series/))

47. ETSI EN 302 099 V2.2.1 - Powering of Equipment in Access Network
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Local powering uses a colocated source; allocation follows the backed source rather than receiver inventory. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Remote-source backup is distinguished from local backup, supporting the parent commercial boundary but not purchasing weights. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Centralized powering originates at a telecommunications center. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Cluster powering uses a source outside the telecommunications center, supporting separation within Remote Powering. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing base-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))
    - Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: Reverse powering is customer-origin supply, supporting source-level attribution of the battery-backed provider package. ([etsi.org](https://www.etsi.org/deliver/etsi_en/302000_302099/xx.xx/xx.xx.01_60/en_302099v020201p.pdf))

48. Set Up Your Battery Backup - AT&T G.Fast Service with BGW210

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The 2021 provider document names a battery-backed package protecting G.fast customer and distribution equipment through reverse power feed. It establishes a dated source-backup proposition, not current Global quantities. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The provider advertises a xx.xx-hour service window for the particular package, supporting Day-Scale mapping without a universal premises-duration inference. ([att.com](https://www.att.com/idpassets/images/support/pdf/BatterybackupforG.FastservicewithBGW210.pdf))

49. DNA Tower Offers Battery Capacity in Electricity Reserve Markets with Elisa DES

· Evidence informing base-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The June xx.xx 2025 announcement reports DNA Tower batteries connected to Finnish reserve markets while retaining outage continuity. This establishes a specific mixed-duty implementation, not Global attachment or guaranteed returns. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/press-releases/dna-tower-becomes-worlds-first-tower-company-to-offer-battery-capacity-in-electricity-reserve-markets-with-elisa-des))

50. Case Elisa: Virtual Power Plant in the Telecom Industry

· Evidence informing forecast-year allocation inputs; displayed values and growth are calculated: The company case reports over 2,000 aggregated sites and approximately xx.xx MWh. This is an installed commercial scale check, not annual purchasing value or Global prevalence. ([elisaindustriq.com](https://www.elisaindustriq.com/resources/customer-stories/elisacase))

22. Competitive Landscape

22.1. Market Share Analysis, 2025

Commercial positioning in the Global Telecom Battery Backup System market depends on access to a defined purchasing obligation. Battery-focused portfolios such as EnerSys' PowerSafe SBS and Delta Electronics, Inc.'s telecom lithium families can address component procurement, while Vertiv, Huawei, ZTE Corporation, and Ericsson present broader site-power propositions. ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪ ▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪

Qualification and switching conditions constrain that choice. ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ A technically named offering alone does not provide access to an operator account.

Regional integration can create a practical route where the buyer wants local coordination. ▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪ ▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪ The partner contributes coordination of distinct equipment obligations; the trade-off is reliance on the prime's fulfillment and another manufacturer's continuing support.

Mexican and South American routes provide alternatives to a globally marketed package. Solutum de México S de RL de CV, Jaguar de México, and RITMA advertise telecom-oriented power or backup propositions; interberg presents industrial battery alternatives; and Lorain Technologies offers a local backup-power route. ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪ ▪▪▪ ▪▪▪ ▪▪▪ ▪▪▪ ▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪

▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪ ▪▪▪▪ ▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪

■■■■■■■■■■■■■ These alternatives may reduce customer coordination when the local contract includes service, but regional branding does not establish identical terms across countries or islands. The buyer should identify the destination seller and separate equipment resale from installation and continuing care.

Saudi Arabian and neighboring procurement routes are also relationship-specific. ■■ ■■■■■■ ■■■■■■■■■■ ■ ■■■■■■ ■■■■ ■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■ ■■■ ■■■■ ■■ ■■■■■ ■■■■■■■■■ ■■■■■■■ ■■■■■ ■■ ■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■ ■■■■■■■ ■■■■■ ■ ■■■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■■ ■■■■■ ■■■■■ ■■■■ ■■■ ■■■■■■■■■ ■■ ■■■■■■■■ ■■■■■■■■■ ■■■■■ ■■ ■■■■ ■■■ ■■■■■ ■■■■■ ■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■ ■■■■■■■ ■■■■■ ■■■■ ■■■ ■■■■■■ ■■■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■■■■■■■■■ The competitive distinction is whether the counterparty accepts equipment, integration, and support obligations; neither a supplier's customer list nor a legacy brand name settles manufacturer authorization or current contract continuity.

African alternatives span batteries, integration, and wider energy fulfillment. Inala advertises telecom batteries and hybrid-power coordination; BlueNova addresses battery-backed microgrid applications; ASSAD Group presents network-power batteries; and Tele-Serve Engineering Services Limited offers communications backup batteries. ■■■■■■■■■■ ■■■■ ■■■ ■■■■■ ■■■■■■■■■■■ ■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■■■■■ ■■■■■■ ■■■■■■■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■ ■■■■■ ■■■■■■■■■■ ■ ■■■■■■■■ ■■■■■ ■■■■■■■■■■■■ ■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■ ■■■■■■■■■■■■■■■■■ ■■■■■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■ ■■■■■■ ■■■■■■■ ■■■ ■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■■ ■■■■ ■■■■■■■ ■■■■ ■ ■■■■■ ■■■■■■ ■■ ■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■ ■■■■■■■■■■■ ■■ ■ ■■■■■■■ ■■■■■■■■■■■■■■

■■■■■■■■ ■■■■■■■ ■■■■■■ ■■ ■■■■■■■■ ■■ ■■■ ■■■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■■■■■■■ ■■■■■ ■■■■■■■■■■ ■■ ■■■ ■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■ ■■■ ■■■■■■■ ■■■■■■■■■■■ ■■ ■■■■■■ ■■■■■■■■■■■ ■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■ ■■■ ■■■■■■■■■■ This buyer-side example is more specific than a general router or ONT backup catalog. Suppliers seeking ISP accounts should establish the protected devices, service boundary, and continuing-care allocation before relying on retail availability as evidence of provider acceptance.

Figure 38. Global Telecom Battery Backup System Market Share, by Key Player, 2025

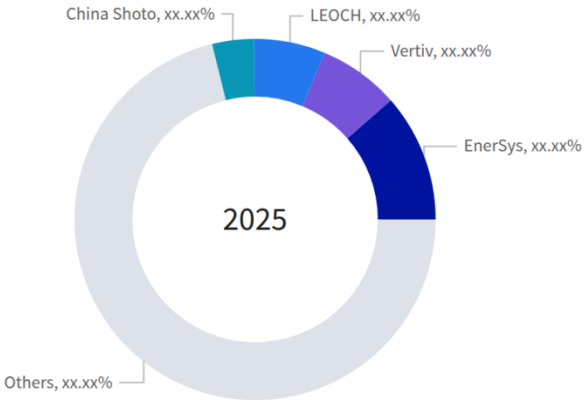

Table 784. Global Telecom Battery Backup System Market Share, by Key Player, 2025

Key Player	Share (%)
Amara Raja Energy & Mobility Limited	xx.xx
ASPİLSAN Enerji	xx.xx
BAE Batterien GmbH	xx.xx
Baterias Pioneiro	xx.xx
Camusat	xx.xx

Sources & Evidence

1. PowerSafe SBS Batteries | EnerSys

   · The PowerSafe SBS catalog establishes a named battery proposition, not buyer-specific qualification or a complete-system obligation.
   ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-sbs/))

   · Evidence informing base-year company-share estimates: The named PowerSafe SBS communications offering supports the standalone telecom-battery attribution premise, but does not measure sales, customer acceptance or the modeled application percentage.

2. DC Power Services | Vertiv
   · Vertiv advertises DC projects regardless of manufacturer and maintenance or upgrades for existing plants. ([vertiv.com](https://www.vertiv.com/en-us/products/services/dc-power-services/))
   · Evidence informing base-year company-share estimates: Cross-manufacturer DC-power projects and upgrades establish a commercial alternative to complete plant replacement. This supports scope separation and the Knowledge lock-in challenge, not the modeled equipment mix or inclusion of standalone maintenance fees.
3. Verizon Supplier Code of Conduct
   · Verizon incorporates ongoing supplier-code compliance into procurement decisions and permits disqualification or termination. Product acceptance remains separate. ([verizon.com](https://www.verizon.com/about/our-company/how-we-lead/policies/supplier-code-of-conduct))
4. Battery Backup | Meriwether Lewis Electric Cooperative
   · MLConnect recommends Precision Power, permits cooperative or direct purchasing, assigns battery care to customers, and excludes backup from its service plan. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
5. Ericsson and Swisscom launch next-gen intelligent power platform
   · The platform provides a broader network-linked site-power proposition rather than a battery-only purchasing object. ([ericsson.com](https://www.ericsson.com/en/press-releases/xx.xx/2026/ericsson-and-swisscom-launch-next-gen-intelligent-power-platform))
   · Evidence informing base-year company-share estimates: The April xx.xx 2026 announcement establishes introduction of the Energy & Enclosure platform in Swisscom's network. It tests the integrated-equipment Knowledge finding but is explicitly not credited as a 2025 sale.
6. Telecommunications - Power solutions | Battery Energy Australia
   · The Australian portfolio supports a conditional regional-prime comparison, not blanket contemporary package availability. ([batteryenergy.com.au](https://www.batteryenergy.com.au/applications/telecommunications))
7. Battery Energy Power Solutions + Enatel Energy
   · Battery Energy's September xx.xx 2020 announcement records a signed strategic partnership with Enatel; current terms are not established by that historical record. ([batteryenergy.com.au](https://www.batteryenergy.com.au/news/strategic-partnership-enatel-battery-energy))
8. Products - Li-ion Battery Backup Systems - Delta
   · The named Delta battery families support component procurement positioning rather than automatic complete-system responsibility. ([deltaww.com](https://www.deltaww.com/en-US/products/telecom-battery-systems))
9. Digitalizing site power for green connectivity and computing - Huawei
   · The 5G Power proposition establishes a broader site-power comparison path, not destination-specific procurement acceptance. ([huawei.com](https://www.huawei.com/en/huaweitech/publication/xx.xx/digitalizing-site-power-green-connectivity-computing))
10. Telecom Power-5G power, hybrid and iEnergy network energy management solutions|ZTE
    · ZTE's portfolio supplies a site-power alternative, while customer and country acceptance remain offering-specific. ([zte.com.cn](https://www.zte.com.cn/global/solutions_latest/smart_energy/powersolution.html))
11. EnerSys PowerSafe SBS EON VRLA Battery - Datasheet & Quote
    · The listing supplies a local access path, not a separate manufacturer or an enforceable site-service contract. ([omansevenstar.com](https://omansevenstar.com/product/enersys-powersafe-sbs-eon/))
12. Solutum de México | Soluciones en respaldo de energía
    · Solutum's official portfolio presents telecom backup and power infrastructure, including battery cabinets; quotation scope must assign actual supply obligations. ([solutum.com.mx](https://www.solutum.com.mx/))

13. Jaguar de México | Telecom engineering, EMS and engineering design
    · Jaguar's official business portfolio identifies its SHIELD telecom-power proposition, supporting a local supply comparison rather than manufacturer authorization inference. ([jaguar.mx](https://www.jaguar.mx/es))
14. RITMA · Sistemas de energía en corriente directa y almacenamiento
    · RITMA publishes telecom-related DC-power and battery-storage propositions; prime and warranty responsibilities remain contractual. ([ritma.mx](https://www.ritma.mx/))
15. interberg - Baterías industriales de níquel-cadmio y plomo-ácido
    · interberg publishes industrial nickel-cadmium and lead-acid battery propositions with telecom context; destination qualification remains separate. (interberg.com.mx)
16. lorain technologies
    · Lorain's official portfolio advertises backup-power and battery propositions, without establishing an individual current telecom contract. (lorain-technologies.com)
17. ICETEL
    · ICETEL advertises telecom power integration and an EnerSys relationship; that supplier statement does not independently establish current authorization. (icetel.cl)
18. BATERÍAS ALLSAI OPzV CFPV Y LFPV - MEE CHILE
    · MEE Chile lists ALLSAI OPzV CFPV/LFPV stationary batteries through a quotation-oriented product page; current fulfillment remains separate. ([mee.cl](https://mee.cl/producto/baterias-allsai-opzv-cfpv-lfpv/))
19. YUASA | CIA UPS DEL PERU SAC
    · CIA UPS DEL PERU SAC publishes a Yuasa battery resale proposition; current manufacturer authority and destination support are not inferred.
    ([upsdelperu.com.pe](https://www.upsdelperu.com.pe/productos/baterias-yuasa/))
20. SONELECTRIC S.A.S. | UPS, Baterías y Respaldo Energético Colombia
    · SONELECTRIC's official portfolio presents battery and backup-system supply, including CSB brand positioning; authorization and current buyer commitments remain separate.
    (sonelectric.com.co)
21. Sistemas de Respaldo de Energía - Duncan
    · Duncan publishes a backup-energy-system portfolio, supporting a regional system-supply comparison without establishing an individual current award.
    ([bateriasduncan.com.co](https://bateriasduncan.com.co/sistemas-de-respaldo-de-energia/))
22. La Casa de las Baterías Guatemala | Somos Energía
    · La Casa de las Baterías' Guatemala-facing portfolio markets DC-energy propositions; it does not establish uniform terms for every regional branch. (guatemala.casabat.com)
23. Productos | SIESA
    · SIESA publishes a battery and replacement-bank purchasing proposition, supporting a regional equipment route rather than automatic managed continuity.
    ([siesapanama.com](https://www.siesapanama.com/soluciones/))
24. DC Power - Batteries - Telenetworks
    · Telenetworks advertises DC-power and battery-bank integration; equipment resale and island-specific fulfillment remain separate questions.
    ([telenetworks.net](https://www.telenetworks.net/services/dc-power-batteries/))
25. Quiénes somos BatteryOnePR
    · BatteryOnePR's company account connects the digital business with Battery Giant de PR and backup-battery customers; present fulfillment is not established by the historical account.
    ([batteryonepr.com](https://www.batteryonepr.com/es/blogs/news/who-we-are-batteryonepr))
26. Site & Power | Al Rashid Technology & Power
    · Al Rashid advertises telecom DC backup and site-power capabilities; named customer relationships remain supplier-reported. ([atp.sa](https://atp.sa/en/our-services/osp-isp/))
27. AWAL Lithium Batteries - Alawal Group
    · Awal markets named lithium batteries for GSM tower backup; that product listing does not establish every operator's qualification. ([ftc.com.sa](https://ftc.com.sa/products/telecom/awal-lithium-batteries/))

28. SUPPLY - Fenda
    - Fenda describes telecom battery and DC-system supply or integration, with seller and service obligations remaining quotation-specific. ([fenda.com.sa](https://fenda.com.sa/s03/))
29. Batteries | Ghad Al Taqat
    - Ghad Al Taqat publishes battery-supply positioning for backup applications, including telecom; sourcing authority and current commitments remain separate. ([ghad-altaqat.com](https://www.ghad-altaqat.com/batteries))
30. Solar Batteries Archives - PEDCO LTD
    - PEDCO lists SONICK-branded batteries, supporting a channel proposition without proving ownership of the manufacturer or current authorization. ([pedco.com.sa](https://pedco.com.sa/products-category/solar-batteries/))
31. Stocking of Sealed Lead-Acid Batteries - Komax
    - Komax publishes a sealed lead-acid battery stocking service for applications including telecom; individual availability and support remain separate. ([komax.com.kw](https://www.komax.com.kw/services/stocking-of-sealed-lead-acid-batteries))
32. Power System Solutions for Telecom Applications - ITEC
    - ITEC publishes telecom power-system solutions involving batteries; customer and destination commitments remain supplier-described rather than independently confirmed awards. ([itec.ps](https://itec.ps/project/power-system-solutions-for-telecom-applications/))
33. Power - DCS
    - DCS publishes a telecom power portfolio with battery-related offerings; exact local contracting and support allocation remain separate. ([dcs-me.com.lb](https://dcs-me.com.lb/solutions/power/))
34. DC Telco Power Solutions | ITG
    - ITG's dedicated DC telecom power page attributes the relevant power proposition to ECOSYS; operating-seller and contract attribution remain separate. ([itgholding.com](https://itgholding.com/solutions/dc-telco-power-solutions/))
35. Solutions | Inala
    - Inala publishes telecom battery and hybrid-power coordination propositions, not a uniform enforceable continuity contract across its footprint. ([inala.com](https://www.inala.com/solutions))
36. Micro-grid Solutions - BlueNova
    - BlueNova's microgrid portfolio includes battery-backed communications applications; wider energy scope must be distinguished from dedicated backup responsibility. ([bluenova.co.za](https://www.bluenova.co.za/solutions/micro-grid-solutions/))
37. Network Power - ASSAD Group
    - ASSAD Group publishes network-power battery offerings, supporting equipment comparison without assuming a transferred operator continuity obligation. ([assadgroup.com](https://assadgroup.com/en/services/network-power/))
38. Batteries | Tele-Serve
    - Tele-Serve advertises communications backup batteries, providing a local equipment-supply comparison with current authorization and site terms left separate. ([tele-serve.com](https://tele-serve.com/Batteries.html))
39. Énergie Solaire Télécom Afrique - Sites BTS | NRJSOLAIRE
    - NRJSOLAIRE markets battery-backed telecom-energy systems; equipment, wider energy, and continuing service boundaries require a specific contract. ([nrjsolaire.sn](https://nrjsolaire.sn/energie-solaire-telecom/))
40. BATPCO Renewable Energy
    - BATPCO publishes a Telecom Energy proposition involving battery and hybrid-energy solutions; exact local fulfillment remains separate. (batpco.co.tz)
41. Chloride Exide Batteries & Power Tanzania | Widala
    - Widala advertises a Chloride Exide battery-distribution route with telecom applications; upstream authorization is not independently established. ([widalagroup.co.tz](https://www.widalagroup.co.tz/distribution/chloride-exide-batteries))

42. Safetech Nigeria - Solid-State Batteries | Avtinac Limited
· The Safetech Nigeria catalog identifies Avtinac Limited and telecom-backup categories; exclusivity and performance claims are not adopted. (safetechenergy.africa)
43. ESCO Panel at Tower & Co. Global Hub 2026: What the Industry Is Discussing
· Evidence informing base-year company-share estimates: The October xx.xx 2026 company account reports approximately xx.xx ESCO sites across seven countries. It anchors operating scale, not observed average 2025 sites or annual revenue.
44. Battery Energy Storage Systems - IPT PowerTech
· Evidence informing base-year company-share estimates: The battery-system page reports more than xx.xx sites reporting data across hybrid telecom activity. This supports a stock proxy; timing, unique-site coverage and annual purchase capture remain assumptions.
45. About IPT PowerTech
· Evidence informing base-year company-share estimates: The corporate history records integration of power systems into outdoor cabinets through Stratum Enclosures, supporting a possible originating finished-system role rather than assuming all transactions are battery resale.
46. Solar & Battery as a Service - IPT PowerTech
· Evidence informing base-year company-share estimates: The service offering assigns installation, ownership and maintenance to IPT and describes consumption-based or fixed-payment contracts. It supports the delivery-role distinction, not the modeled backup-only annual fee.
47. IFC Summary of Investment Information - IPT PowerTech, Project 49095
· Evidence informing base-year company-share estimates: The financing disclosure identifies IPI Group Holding Limited, separates T-ESCO, telecom services and power products, and currently describes more than xx.xx managed sites.
· Evidence informing base-year company-share estimates: It records approval in April 2025, signing in January 2026 and investment in February 2026. These constrain financing timing and prevent treating project approval as realized base-year revenue.
48. IFC Supports IPT PowerTech to Deliver Clean Telecom Power Across Ethiopia, Liberia, and Sierra Leone
· Evidence informing base-year company-share estimates: The March xx.xx 2026 announcement specifies USD45 million of financing and a xx.xx-site modernization, operation and maintenance cohort. Financing and anticipated deployment are excluded from 2025 recognized equipment or fee revenue.
49. EnerSys 2026 Proxy Statement and Annual Report
· Evidence informing base-year company-share estimates: Audited Energy Systems sales of USD1,xx.xx in fiscal 2025 and USD1,xx.xx in fiscal 2026 anchor the calendar bridge. The segment includes communications and excluded adjacent applications; the telecom, eligibility and non-overlap adjustments remain modeled.
50. Vertiv Annual Report 2025
· Evidence informing base-year company-share estimates: 2025 product sales of USD8,xx.xx and the company's approximately xx.xx% Communications Networks revenue classification constrain the modeled communications product wallet. The end-market percentage is rounded to the nearest five percentage points.
51. ZTE reports RMB 121.30 billion in revenue and RMB 8.42 billion in net profit for 2024
· Evidence informing base-year company-share estimates: The 2024 disclosure reports power-supply support for xx.xx 5G base stations globally. It anchors a discounted commercial-footprint model, not observed physical-site stock, battery inclusion or annual delivered revenue.
52. ZTE Corporation - 2025 Annual Report
· Evidence informing base-year company-share estimates: The annual report identifies integrated telecom power/battery activity and reports 2025 carriers' network revenue of RMB62,xx.xx, down xx.xx%. The broad revenue is a boundary and purchasing-cycle check, not the modeled battery-backup numerator.
53. Find out more about our presence in United States - Ericsson
· Evidence informing base-year company-share estimates: Ericsson's current US equipment presence at nearly xx.xx sites constrains the commercial customer footprint. The 2025 backcast, backup attachment and supplier purchasing capture remain assumptions; the source does not count Ericsson-supplied batteries.

54. Ericsson Annual Report 2025
· Evidence informing base-year company-share estimates: The geographically diversified Networks business reported approximately SEK151.xx.xx of 2025 sales. This establishes a broader economic envelope and scope exclusions, not the assumed US backup-wallet percentage or direct battery revenue.
55. Regulamento (UE) 2023/1542 | Baterias - seminar materials including Exide Technologies company overview
· Evidence informing base-year company-share estimates: The publicly hosted Exide company overview reports EUR1.xx.xx prior-fiscal-year turnover and xx.xx% automotive/xx.xx% industrial mix. The slides are dated June 2023; these are historical financial anchors, not observed 2025 revenue.
56. Exide Technologies - Fiscal 2014 Form 10-K
· Evidence informing base-year company-share estimates: The predecessor's fiscal-2014 worldwide industrial sales mix was xx.xx% Network Power. This supplies a historical application-mix proxy, explicitly not the current standalone Exide mix.
57. Exide Technologies ESG Report 2025
· Evidence informing base-year company-share estimates: The 2025 report identifies distinct Energy Solutions and Motion businesses and three versus four corresponding European plants. These establish the retained commercial categories and perimeter, not automatic plant-count revenue weights.
58. Solition Telecom | Exide
· Evidence informing base-year company-share estimates: Solition Telecom establishes a continuing named telecom-battery commercial category. It supports scope mapping, not the assumed xx.xx% telecom attribution, realized sales or destination-specific acceptance.
59. Financial Segment | GS YUASA
· Evidence informing base-year company-share estimates: Reports JPY113,xx.xx of Industrial Batteries and Power Supplies sales for the year ended March xx.xx 2025. This is the financial starting point, not telecom-only revenue.
60. GS Yuasa - Consolidated Financial Results for the First Nine Months Ended December 31, 2025
· Evidence informing base-year company-share estimates: Reports April-December 2025 industrial-segment sales of JPY82,xx.xx, up JPY5,xx.xx. Combined with the prior fiscal-year total, this establishes calendar-2025 segment revenue of JPY118,xx.xx.
61. GS Yuasa Report 2025 - Strategy by Business Segment: Industrial Batteries and Power Supplies
· Evidence informing base-year company-share estimates: Distinguishes emergency backup, regular-use storage and forklift applications within the industrial segment, supporting the need for application attribution rather than counting the complete segment.
62. Polarium sharpens strategic focus after year of transformation
· Evidence informing base-year company-share estimates: Reports 2025 net sales of SEK896 million versus SEK1,xx.xx in 2024. It dates expected distributed-energy-system revenue to the third quarter of 2026, preventing that later activity from being credited to 2025.
63. Contact Us - Polarium
· Evidence informing base-year company-share estimates: Names Polarium Energy Solutions AB and registration number xx.xx-xx.xx and identifies telecom purchasing routes. This supports the retained commercial identity but does not establish entity-only revenue.
64. Investor Relations at Polarium
· Evidence informing base-year company-share estimates: Governance text names Polarium Energy Systems AB while the footer names Solutions AB, preserving a material counterparty-attribution limitation on the modeled commercial-group share.
65. Leoch International Technology Limited - Annual Report 2025
· Evidence informing base-year company-share estimates: Reports 2025 reserve-power revenue of RMB7,xx.xx and describes its mixed data-center, communications and other backup applications. This supports the financial anchor and application exclusions, not the assumed xx.xx% telecom fraction.

66. Telecom Backup Power Solution - LEOCH

· Evidence informing base-year company-share estimates: Identifies telecom battery supply to operators, tower companies and integrators, supporting the relevant commercial role and the need to distinguish finished assemblies from embedded-system sales.

67. 浙江南都电源动力股份有限公司 - 2025 年年度报告

· Evidence informing base-year company-share estimates: Reports communications-storage, lead-acid and lithium-product revenues used in the product-specific attribution model. The filing's qualified audit and going-concern uncertainty limit confidence in these financial inputs.

68. Telecom - Narada Power

· Evidence informing base-year company-share estimates: Describes customers extending beyond telecom operators into internet, finance and other industrial applications, supporting rejection of communications-storage revenue as an automatically telecom-only numerator.

69. Shuangdeng Group Co., Ltd. - Annual Results Announcement for the Year Ended December 31, 2025

· Evidence informing base-year company-share estimates: Discloses RMB1,xx.xx of 2025 telecom-energy-storage revenue and an xx.xx% decline, separately from data-center storage. Operator and equipment-provider relationships support evaluating embedded-system exclusions.

· Evidence informing base-year company-share estimates: Separately disclosed telecom and data-center revenues provide an independent application-mix comparator for LEOCH; the comparator does not directly establish LEOCH's telecom fraction.

70. Federal Reserve Board - Foreign Exchange Rates, G.5A Annual, January 5, 2026

· Evidence informing base-year company-share estimates: Provides the 2025 annual average of JPY149.xx.xx per USD used to translate the attributable calendar-year numerator.

· Evidence informing base-year company-share estimates: Provides the 2025 annual average of SEK9.xx.xx per USD used to translate the attributable numerator.

· Evidence informing base-year company-share estimates: Provides the 2025 annual average of RMB7.xx.xx per USD used to translate attributable reserve-power sales.

· Evidence informing base-year company-share estimates: Provides the 2025 annual average of RMB7.xx.xx per USD used to translate the product-specific telecom numerator.

· Evidence informing base-year company-share estimates: Provides the 2025 annual average of RMB7.xx.xx per USD used to translate disclosed telecom revenue after modeled exclusions.

· Evidence informing base-year company-share estimates: The 2025 annual-average exchange-rate table reports USD1.xx.xx per euro, used to translate Salicru's modeled EUR3,xx.xx numerator into USD3,xx.xx. ([federalreserve.gov](https://www.federalreserve.gov/releases/g5a/current/))

71. 深圳市雄韬电源科技股份有限公司 2025 年年度报告

· Evidence informing base-year company-share estimates: The 2025 filing reports CNY165,xx.xx of communications lead-battery sales, CNY1,xx.xx of lithium batteries and materials, and separate UPS and storage lead-battery revenues. These constrain the application model, not its assumed lithium telecom or materials fractions. ([static.cninfo.com.cn](https://static.cninfo.com.cn/finalpage/2026-xx.xx-xx.xx/xx.xx.PDF))

72. 山东圣阳电源股份有限公司 2025 年年度报告

· Evidence informing base-year company-share estimates: The 2025 annual report separately reports CNY1,xx.xx of communications revenue and distinguishes data/computing-center and storage/power applications. It supports the telecom revenue anchor, not the modeled xx.xx% eligibility factor. ([static.cninfo.com.cn](https://static.cninfo.com.cn/finalpage/2026-xx.xx-xx.xx/xx.xx.PDF))

73. Amara Raja Energy & Mobility Limited - Q4/FY2025 Investor Presentation

· Evidence informing base-year company-share estimates: The FY2025 presentation reports consolidated operational revenue of INR128,xx.xx, used as one endpoint of the calendar-year revenue bridge. Excluded third-party market estimates appearing elsewhere in the presentation are not used. ([amararajaeandm.com](https://www.amararajaeandm.com/Files/FinancialResults/2025/AREandMInvestorPresentation.pdf))

74. Amara Raja Energy & Mobility Limited - May 26, 2026 Earnings Call Transcript
· Evidence informing base-year company-share estimates: Management's May xx.xx 2026 call reports FY2026 consolidated revenue of INR13,xx.xx crore, used with the FY2025 endpoint in an explicitly modeled calendar bridge. Supplier-asserted market-share figures are not used. ([amararajaeandm.com](https://www.amararajaeandm.com/pdf/credit-ratings/Reg30earningscalltranscript.pdf))
75. Amara Raja Energy & Mobility Limited - May 30, 2025 Earnings Call Transcript
· Evidence informing base-year company-share estimates: Management's May xx.xx 2025 call identifies approximately INR100 crore of telecom pack sales in the January-March quarter. This anchors that quarter only; the following quarter's matching amount is an assumption. ([amararajaeandm.com](https://www.amararajaeandm.com/pdf/credit-ratings/AREandMinvestorcalltranscript.pdf))
76. Amara Raja Energy & Mobility Limited - November 7, 2025 Earnings Call Transcript
· Evidence informing base-year company-share estimates: The November xx.xx 2025 call reports more than xx.xx MWh of quarterly telecom pack supplies and approximately INR170 crore of broader New Energy revenue. These support shipment scale and a commercial realization check, not an observed telecom ASP. ([amararajaeandm.com](https://www.amararajaeandm.com/pdf/credit-ratings/AREM-%20Q2FY26%20Concall%20Transcript%20V2.pdf))
77. Amara Raja Energy & Mobility Limited - February 12, 2026 Earnings Call Transcript
· Evidence informing base-year company-share estimates: The February xx.xx 2026 call reports approximately xx.xx MWh of October-December telecom pack supplies, broader New Energy revenue exceeding INR200 crore, and lead telecom revenue below xx.xx% of overall revenue. These constrain the modeled shipment-price and application-mix bridges. ([amararajaeandm.com](https://www.amararajaeandm.com/pdf/credit-ratings/Reg30Earningscalltranscript260211.pdf))
78. HBL Engineering Limited - Annual Report 2024-2025
· Evidence informing base-year company-share estimates: FY2025 customer disaggregation identifies INR73,xx.xx lakh of Telecom/Industry battery revenue and INR35,xx.xx lakh of battery exports. The report describes telecom lead-battery contraction and nonparticipation in telecom lithium packs. Telecom allocation within the combined pools remains modeled. ([hbl.in](https://www.hbl.in/reports/hblannualreport2025.pdf))
79. Internal Revenue Service - Yearly Average Currency Exchange Rates
· Evidence informing base-year company-share estimates: The 2025 annual-average CNY rate of xx.xx per USD supports translation of Vision's modeled attributable revenue. ([irs.gov](https://www.irs.gov/individuals/international-taxpayers/yearly-average-currency-exchange-rates))
· Evidence informing base-year company-share estimates: The 2025 annual-average CNY rate of xx.xx per USD supports translation of Sacred Sun's modeled attributable revenue. ([irs.gov](https://www.irs.gov/individuals/international-taxpayers/yearly-average-currency-exchange-rates))
· Evidence informing base-year company-share estimates: The 2025 annual-average INR rate of xx.xx per USD supports translation of Amara Raja's modeled calendar-year numerator. ([irs.gov](https://www.irs.gov/individuals/international-taxpayers/yearly-average-currency-exchange-rates))
· Evidence informing base-year company-share estimates: The 2025 annual-average INR rate of xx.xx per USD supports translation of HBL's modeled attributable numerator. ([irs.gov](https://www.irs.gov/individuals/international-taxpayers/yearly-average-currency-exchange-rates))
80. Westell Technologies, Inc. and Subsidiaries - Quarterly Report for the Six Months Ended September 30, 2025
· Evidence informing base-year company-share estimates: Note xx.xx reports USD6,xx.xx of IBW revenue for the six months ended September xx.xx 2025 and USD3,xx.xx for the latest quarter. This constrains the modeled business-line scale, not directly observed BBU revenue. ([otcmarkets.com](https://www.otcmarkets.com/file/company/financial-report/xx.xx/content))
· Evidence informing base-year company-share estimates: The segment description includes battery-backup units and adjacent wireless equipment, requiring an explicit product-scope allocation. The xx.xx% paired-purchase mix and assumed prices are not disclosed observations. ([otcmarkets.com](https://www.otcmarkets.com/file/company/financial-report/xx.xx/content))

81. Westell Technologies, Inc. and Subsidiaries - Quarterly Report for the Three Months Ended June 30, 2025

· Evidence informing base-year company-share estimates: Note xx.xx reports USD3,xx.xx of IBW revenue for the three months ended June xx.xx 2025. Comparison with the following quarter supports a seasonality-neutral working annualization, while not establishing full calendar-2025 revenue. ([otcmarkets.com](https://www.otcmarkets.com/file/company/financial-report/xx.xx/content))

82. CS19-BBU-004, BDA Battery Back-Up Unit - Westell Technologies, Inc.

· Evidence informing base-year company-share estimates: The named CS19-BBU-xx.xx BDA Battery Back-Up Unit establishes the finished public-safety communications backup product used in the modeled numerator. It does not disclose 2025 shipments, realized prices or purchasing attachment. ([westell.com](https://www.westell.com/products/cs19-bbu-xx.xx))

83. About Tycon Systems | Utah-Built Remote Power Solutions

· Evidence informing base-year company-share estimates: Tycon reports xx.xx-plus communities served across a broader remote-power and connectivity portfolio. This is the cumulative commercial-footprint input to the assumption-led model, not observed annual telecom revenue or installed backup units. ([tyconsystems.com](https://www.tyconsystems.com/about))

84. Outdoor UPS & Battery Backup Systems | UPSPro | Tycon Systems

· Evidence informing base-year company-share estimates: The inspected supplier catalog lists finished UPSPro systems at USD430.xx.xx USD1,xx.xx and USD2,xx.xx. These current prices constrain the modeled complete-system basket; purchasing weights, 2025 price equivalence and net realization remain assumptions. ([tyconsystems.com](https://www.tyconsystems.com/categories/upspro/xx.xx))

85. Deep Cycle Batteries | Tycon Solar | Tycon Systems

· Evidence informing base-year company-share estimates: The inspected Tycon battery catalog lists standalone battery prices of USD37.xx.xx USD274.xx.xx and USD982.xx.xx. These constrain the replacement-basket price model, not annual quantities or the unresolved first-sale versus finished-battery-resale distinction. ([tyconsystems.com](https://www.tyconsystems.com/categories/batteries/xx.xx))

86. Outdoor UPS Backup for Port WiFi Networks | Tycon Systems

· Evidence informing base-year company-share estimates: Tycon's port-connectivity case identifies eight UPSPro systems protecting a WiFi network. It supports the included commercial application and a multi-unit project comparator; unidentified deployment timing prevents treating it as observed 2025 sales. ([tyconsystems.com](https://www.tyconsystems.com/blogs/post/ensuring-port-connectivity-a-tycon-systems%C2%AE-case-study))

87. Empresa | Tudor Baterias

· Evidence informing base-year company-share estimates: The official company record identifies the Brazilian manufacturing business and more than xx.xx authorized resellers. This supplies the commercial-footprint anchor for the assumed 2025 effective-channel model, not observed telecom turnover. ([tudor.com.br](https://tudor.com.br/pt_br/empresa))

88. Características Estacionária | Tudor Baterias

· Evidence informing base-year company-share estimates: Tudor lists telecommunications applications within its stationary portfolio, alongside unrelated applications. The source supports product eligibility and the need for an application split; it does not disclose the modeled xx.xx% telecom portion or USD85 realization. ([tudor.com.br](https://tudor.com.br/pt_br/produtos/estacionaria/caracteristicas))

89. Relatório de Sustentabilidade 2025 - Pioneiro Baterias

· Evidence informing base-year company-share estimates: Pioneiro reports xx.xx batteries produced in 2025, xx.xx owned distributors and presence in xx.xx Latin American countries. The production quantity anchors the volume model; it is not an observed telecom shipment or revenue total. ([bateriaspioneiro.com.br](https://bateriaspioneiro.com.br/relatorio-de-sustentabilidade-2025/))

90. Tudo o que você precisa saber sobre Baterias Estacionárias - Pioneiro Baterias

· Evidence informing base-year company-share estimates: The company's stationary-battery publication names telephone exchanges and several nontelecom applications. It supports the eligible commercial category but not the assumed xx.xx% stationary mix or xx.xx% telecom attribution. ([bateriaspioneiro.com.br](https://bateriaspioneiro.com.br/tudo-o-que-voce-precisa-saber-sobre-baterias-estacionarias/))

91. Baterias Pioneiro marca presença na 25ª Edição da Exposec - Pioneiro Baterias

· Evidence informing base-year company-share estimates: Pioneiro's Exposec account describes stationary and UPS offerings for security customers. This supports excluding a telecom-only interpretation of the specialist battery line and retaining uncertainty in its application mix. ([bateriaspioneiro.com.br](https://bateriaspioneiro.com.br/baterias-pioneiro-marca-presenca-na-25a-edicao-da-exposec/?utm_source=openai))

92. Intelbras S.A. - 2025 Financial Statements and Administration Report, legal publication dated March 13, 2026

· Evidence informing base-year company-share estimates: The calendar-2025 financial statements report Energy segment net revenue of BRL752,xx.xx versus BRL1,xx.xx in 2024. This is the observed mixed-product financial envelope, not telecom battery-backup revenue. ([s3.glbimg.com](https://s3.glbimg.com/v1/AUTH_63b422c2caee4269b8b34177e8876b93/valorri-uploads/bs/2026/W/xx.xx/LvtYpISRGhUowKHOnrXQ/intelbras1588105113032026.pdf))

· Evidence informing base-year company-share estimates: The legal publication supports the reporting period, currency and consolidated business boundary used in the assumption-led product/end-use/first-sale bridge; it does not disclose or verify the model's attribution fractions. ([s3.glbimg.com](https://s3.glbimg.com/v1/AUTH_63b422c2caee4269b8b34177e8876b93/valorri-uploads/bs/2026/W/xx.xx/LvtYpISRGhUowKHOnrXQ/intelbras1588105113032026.pdf))

93. Intelbras - 4T25 Results Presentation

· Evidence informing base-year company-share estimates: The 4T25 presentation distinguishes UPS and power-supply activity from solar within Energy and reports BRL752,xx.xx annual Energy revenue. It supports using a product-line financial envelope rather than total corporate or communications-equipment revenue. ([api.mziq.com](https://api.mziq.com/mzfilemanager/v2/d/660c9d23-3bb0-4bd4-xx.xx-c9fe5ad308b4/b7d14d26-xx.xx-8f3f-8a77-fc13ded1d08b?origin=xx.xx))

94. Fonte Nobreak 12V 1A EFB 1201 com Bateria Intelbras

· Evidence informing base-year company-share estimates: The company lists the battery-containing EFB xx.xx for network and IP-telephone applications alongside non-telecom uses, supporting an eligible premises-backup role and the need for end-use exclusions. ([loja.intelbras.com.br](https://loja.intelbras.com.br/fonte-nobreak-efb-xx.xx-bateria/p))

· Evidence informing base-year company-share estimates: The current BRL149 retail listing is not treated as a calendar-2025 first-sale price, shipment quantity or observed market share. The page supports portfolio classification only. ([loja.intelbras.com.br](https://loja.intelbras.com.br/fonte-nobreak-efb-xx.xx-bateria/p))

95. BAE Batterien GmbH - Geschichte

· Evidence informing base-year company-share estimates: BAE reports xx.xx employees on an undated company-history page. This constrains the workforce proxy but does not directly establish 2025 headcount or telecom revenue. ([bae-berlin.de](https://www.bae-berlin.de/geschichte))

96. BAE Batterien GmbH - Stationary

· Evidence informing base-year company-share estimates: The stationary portfolio includes telecom and several unrelated stationary applications, supporting an application adjustment rather than attribution of all stationary sales to telecom. ([bae-berlin.de](https://www.bae-berlin.de/en/station%C3%A4r))

97. Monbat AD - Annual Consolidated Report, 31 December 2025

· Evidence informing base-year company-share estimates: Audited 2025 lead-acid revenue after intersegment eliminations is BGN316.xx.xx. Stationary batteries account for xx.xx% of battery-type sales revenue and lead-acid plates for xx.xx%, providing the financial and product-mix anchors; telecom attribution remains modeled. ([monbatgroup.com](https://monbatgroup.com/wp-content/uploads/2026/xx.xx/Annual-Consolidated-report-xx.xx-EN-Full.pdf))

98. TAB Polska - Basic Information

· Evidence informing base-year company-share estimates: The TAB operating-site description reports annual capacity of xx.xx traction and stationary cells at Žerjav, separately from starter-battery factories. Utilization, application mix and realized prices are modeled, not disclosed sales. ([tab-polska.pl](https://tab-polska.pl/en/basic-info/))

99. CE+T Group now obtained the Gold label as Best Managed Companies

· Evidence informing base-year company-share estimates: The May xx.xx 2021 disclosure reports more than EUR40 million CE+T Power turnover and xx.xx worldwide employees, furnishing a historical industrial backup-equipment productivity comparator; its transfer to BAE is modeled. ([cet-power.com](https://www.cet-power.com/nl/news/cet-group-now-obtained-the-gold-label-as-best-managed-companies/))

· Evidence informing base-year company-share estimates: More than EUR40 million historical turnover constrains CE+T Power's operating scale, not its observed 2025 telecom battery-inclusive revenue. ([cet-power.com](https://www.cet-power.com/nl/news/cet-group-now-obtained-the-gold-label-as-best-managed-companies/))

100. Telecom - CE+T Power

· Evidence informing base-year company-share estimates: The telecom portfolio distinguishes modular UPS and battery-backup propositions from conversion and monitoring products, supporting a qualifying-package adjustment rather than counting all power-conversion revenue. ([cet-power.com](https://www.cet-power.com/en/market/telecom/))

101. Shenzhen Kexin Communication Technologies Co., Ltd. - 2025 Annual Report

· Evidence informing base-year company-share estimates: The 2025 subsidiary table reports Fi-Systems Oy revenue of RMB312,xx.xx for communications-power and wireless-network-energy activity. This is the operating-envelope input, not directly observed telecom battery-backup revenue. The filing identifies Efore operating entities within the subgroup. ([static.cninfo.com.cn](https://static.cninfo.com.cn/finalpage/2026-xx.xx-xx.xx/xx.xx.PDF))

102. Telecom Solutions - Efore

· Evidence informing base-year company-share estimates: The portfolio distinguishes custom power supplies, battery-containing backup systems and battery families, and dates ICT battery introduction to 2022. These distinctions constrain the modeled eligible-product fraction but do not disclose its sales percentage. ([efore.com](https://www.efore.com/telecom-solutions/))

103. Your Career Starts Here - Celltech Solutions Oy

· Evidence informing base-year company-share estimates: The official recruitment site reports EUR120 million turnover. Because the statement is not assigned to a financial year, it supports an explicitly undated scale proxy rather than observed calendar-2025 sales. (careers.celltech-group.com)

104. Business Areas - Addtech Q2 2025/2026

· Evidence informing base-year company-share estimates: For the quarter ended September xx.xx 2025, Addtech Electrification reports SEK59 million Data & Telecommunications customer sales and SEK1,xx.xx total sales. Their ratio calibrates the modeled customer exposure; it is not Celltech's directly observed sales mix. ([q22025.reports.addtech.com](https://q22025.reports.addtech.com/financials/business-areas))

105. Infrastructure Energy Storage and Power Supply - Celltech Group

· Evidence informing base-year company-share estimates: The infrastructure portfolio separates telecom battery and tailored-power offerings from transport, general energy storage and data-center applications. It supports the application exclusions and coordination role, not the assumed numerical attribution fractions. ([celltech-group.com](https://celltech-group.com/business-segments/infrastructure/))

106. Sustainability - Celltech Group

· Evidence informing base-year company-share estimates: Celltech identifies Addtech as its parent. This supports using the parent business-area disclosure as a bounded calibration lead without attributing all Addtech revenue to Celltech. ([celltech-group.com](https://celltech-group.com/sustainable-batteries/))

107. Salicru - Estado de Información No Financiera 2024

· Evidence informing base-year company-share estimates: Salicru's 2024 report gives EUR101 million turnover and identifies UPS as xx.xx% of sales, supporting the product-family monetary anchor rather than directly observing 2025 telecom revenue. ([salicru.com](https://www.salicru.com/files/pagina/xx.xx/xx.xx/einf_2024.pdf))

108. SPS NET2 - SAI DC compacto con baterías de Ion-Litio - Salicru

· Evidence informing base-year company-share estimates: SPS NET2 is a battery-containing DC UPS for network-device continuity, supporting the eligible premises-product boundary. The catalog does not disclose its sales quantity or the modeled revenue fractions. ([salicru.com](https://www.salicru.com/sps-net2-xx.xx.html))

109. Statron - Telecom: UPS Systems and Battery Solutions

· Evidence informing base-year company-share estimates: The telecom-specific record reports approximately xx.xx realized systems, more than ten customers and approximately ten countries. It supports a telecom-cohort proxy, not directly observed 2025 annual sales or active stock. ([statron.com](https://www.statron.com/en/segment/telecom/))

· Evidence informing base-year company-share estimates: The listed portfolio includes Statron modular systems and third-party Eaton UPS products, supporting the need for an explicit manufacturer-versus-resale eligibility adjustment. ([statron.com](https://www.statron.com/en/segment/telecom/))

110. Statron - Swiss Quality, Company Brochure, July 2021

· Evidence informing base-year company-share estimates: The 2021 company brochure identifies telecom battery and UPS relationships with Swisscom, Sunrise and Huawei. These dated commercial references support participation, but do not measure 2025 deliveries, prices or current contract continuity. ([statron.com](https://statron.com/wp-content/uploads/2022/xx.xx/Stratron_Image_Broschuere_en_Jul2021_web.pdf))

111. Turkcell ile ASPİLSAN Enerji'den Yerli Batarya Üretiminde Stratejik İş Birliği

· Evidence informing base-year company-share estimates: The June xx.xx 2022 announcement specifies approximately xx.xx telecom battery modules over xx.xx years under a Turkcell agreement spanning 2022-2025. It supports the contract-scale input, not observed 2025 deliveries, realized prices or the final modeled share. ([aspilsan.com](https://www.aspilsan.com/turkcell-ile-aspilsan-enerjiden-yerli-batarya-uretiminde-stratejik-is-birligi/))

112. ASPİLSAN Enerji and ULAK's Strategic Partnership at MWC26

· Evidence informing base-year company-share estimates: The March xx.xx 2026 disclosure describes telecom-network participation with Turkcell and Türk Telekom and export activity. It supports the distinct supplementary customer-business premise, but does not measure the assumed xx.xx annual equivalents or calendar-2025 revenue. ([aspilsan.com](https://www.aspilsan.com/en/aspilsan-enerji-and-ulaks-strategic-partnership-at-mwc26/))

113. Новосибирский завод «Оксид» поставил заказчикам крупную партию промышленных аккумуляторов

· Evidence informing base-year company-share estimates: The September xx.xx 2025 report corroborates a supplier-reported delivery of more than 2,000 Oxide batteries for telecommunications backup and identifies the manufacturer within the Rosel holding. It supports the dated delivery anchor and parent attribution, not audited annual revenue or the assumed unit price. ([mashnews.ru](https://mashnews.ru/novosibirskij-zavod-radiodetalej-oksid-postavil-zakazchikam-krupnuyu-partiyu-promyishlennyix-akkumulyatorov.html))

114. «Росэл» поставил более 2000 аккумуляторов для телеком-оборудования

· Evidence informing base-year company-share estimates: The September xx.xx 2025 report corroborates the same battery-delivery event and reports long-term telecom-operator contracts. It supports continuing commercial activity as a modeling premise; it is not an independent audit or a separate additive shipment quantity. ([ferra.ru](https://www.ferra.ru/amp/news/v-rossii/rosel-postavil-bolee-2000-akkumulyatorov-dlya-telekom-oborudovaniya-xx.xx-xx.xx-2025.htm))

115. Nian Battery Khavaran - About Us

· Evidence informing base-year company-share estimates: The company description states annual production of xx.xx batteries and a subsequent capacity expansion to xx.xx batteries. These undated commercial-scale disclosures anchor the modeled unit scale, not directly observed calendar-2025 sales.

· Evidence informing base-year company-share estimates: The company describes a Shuangdeng/China Shoto licensing relationship, supporting the commercial connection used for the comparable-product calibration. Telecom mix, eligible external first-sale attribution and realized price remain assumptions.

116. Camusat - Environment, Social and Governance Report ESG / 2024

· Evidence informing base-year company-share estimates: Reports xx.xx solar/hybrid sites installed and managed in 2024 and xx.xx Aktivco sites at year-end; these constrain the beginning activity proxy, not observed 2025 backup revenue. ([camusat.com](https://camusat.com/wp-content/uploads/2025/xx.xx/CAMUSAT_ESGReport_2024_EN-c.pdf))

117. Camusat - Rapport Environnement, Social et de Gouvernance / 2025

· Evidence informing base-year company-share estimates: Reports an xx.xx-site solar/hybrid footprint and xx.xx rural or remote telecom deployments in 2025; these provide stock and project-count anchors for the modeled service/equipment attribution, not directly observed backup sales or fees. ([camusat.com](https://camusat.com/wp-content/uploads/2026/xx.xx/CAMUSAT_Rapport-ESG-2025_fr.pdf))

118. Proparco - Supporting access to telecom services in Senegal's rural areas

· Evidence informing base-year company-share estimates: The July xx.xx 2023 project record identifies Aktivco as a Camusat subsidiary financing and operating energy assets under long-term contracts and records a EUR13.xx.xx loan. It corroborates the service and ownership role; financing is not treated as annual backup revenue. ([proparco.fr](https://www.proparco.fr/en/carte-des-projets/aktivco-senegal-2023))

119. Exicom Tele-Systems Limited - Annual Report 2024-25

· Evidence informing base-year company-share estimates: FY2025 consolidated Critical Power revenue was INR570.xx.xx crore; this constrains the segment envelope and the modeled January-March calendar bridge, not the final telecom-only share. ([bsmedia.business-standard.com](https://bsmedia.business-standard.com/_media/bs/data/announcements/bse/xx.xx/47761e2a-d046-4e88-badb-594667ccb1e0.pdf))

120. Exicom Q1 FY26: Navigating a Soft Quarter with Clear Momentum for the Road Ahead

· Evidence informing base-year company-share estimates: The April-June 2025 quarter reported INR205.xx.xx crore of total consolidated revenue and described Critical Power and battery-project delays. This supports a restrained modeled quarter; INR115 crore of Critical Power revenue is an assumption, not a source observation. ([exicom.com](https://www.exicom.com/insights/press-releases/exicom-q1-fy26-navigating-a-soft-quarter-with-clear-momentum-for-the-road-ahead))

121. Exicom Q2 FY26 Quarter Results: Strong Q2 Performance on Solid India Growth

· Evidence informing base-year company-share estimates: The September-2025 quarter reported approximately INR170 crore of consolidated Critical Power revenue and delivered systems for approximately xx.xx BharatNet sites. These are segment and delivered-activity anchors, not battery-only revenue. ([exicom.com](https://www.exicom.com/insights/press-releases/q2fy26-quarter-results-exicom-posts-strong-q2-performance-on-solid-india-growth-charts-a-disciplined-path-for-scale-up))

122. Exicom Strengthens Market Position in Q3 with Growing Order Book and FY27 Expansion Plans

· Evidence informing base-year company-share estimates: The December-2025 quarter reported approximately INR164 crore of Critical Power revenue. Announced DC-system orders are distinguished from realized revenue and are not added as separate 2025 sales. ([exicom.com](https://www.exicom.com/insights/press-releases/exicom-q3-results-fy27-growth-path))

123. Telecom Batteries | Critical Power Solutions by Exicom

· Evidence informing base-year company-share estimates: The named EXTB telecom-battery portfolio supports separating battery sales from broader Critical Power products. It does not establish the modeled product mix or every system quotation's battery inclusion. ([exicom.com](https://www.exicom.com/product-family/telecom-batteries))

124. NED Energy - Telecom Battery

· Evidence informing base-year company-share estimates: NED claims a Global telecom footprint exceeding xx.xx sites. The model uses the xx.xx-site floor as an undated stock anchor, with active-cohort, replacement, retention and price assumptions explicitly separate. ([nedenergy.in](https://www.nedenergy.in/service-details.html?tab=telecom_battery))

125. Time Technoplast Limited - Merger of NED Energy Limited into Power Build Batteries Private Limited

· Evidence informing base-year company-share estimates: The November xx.xx 2024 merger disclosure separately reports NED FY2024 revenue of INR60.xx.xx crore and Power Build Batteries revenue of INR51.xx.xx crore. These constrain legacy-business scale and prevent assigning the successor's entire business to NED. ([timetechnoplast.com](https://www.timetechnoplast.com/wp-content/uploads/2024/xx.xx/merger-of-subsidiary-company.pdf))

126. Time Technoplast Limited - Q1 FY2026 Earnings Conference Call Transcript, August 12, 2025

· Evidence informing base-year company-share estimates: The August xx.xx 2025 company transcript confirms completion of the NED/Power Build merger. The estimate retains identifiable legacy NED telecom activity rather than assuming an independent surviving legal entity or assigning all successor revenue. ([timetechnoplast.com](https://www.timetechnoplast.com/wp-content/uploads/2025/xx.xx/q1-transcript-2025.pdf))

127. Sebang Global Battery Co., Ltd. - 2025 Business Report, Filed March 19, 2026

· Evidence informing base-year company-share estimates: The 2025 filing reports KRW176,xx.xx of manufactured industrial-battery revenue separately from KRW21,xx.xx of industrial merchandise revenue, and a KRW1,xx.xx/USD annual average. The model excludes merchandise and applies explicit telecom and eligibility assumptions. ([kind.krx.co.kr](https://kind.krx.co.kr/external/2026/xx.xx/xx.xx/xx.xx/xx.xx/xx.xx.htm))

· Evidence informing base-year company-share estimates: The filing supplies a period-matched 2025 Korean-won/USD annual exchange-rate comparator of xx.xx, used only for the currency bridge in Hankook's model, not as evidence of Hankook revenue. ([kind.krx.co.kr](https://kind.krx.co.kr/external/2026/xx.xx/xx.xx/xx.xx/xx.xx/xx.xx.htm))

128. Sebang Group - Battery, Manufacturing and Recycling

· Evidence informing base-year company-share estimates: The group identifies telecommunications among industrial-battery applications alongside other uses. This supports an application adjustment rather than treating all industrial revenue as telecom sales; the xx.xx% allocation remains assumed. ([sebanggroup.com](https://www.sebanggroup.com/client/en/business/manufacturing))

129. Hankook & Company - 4Q 2025 Financial Results

· Evidence informing base-year company-share estimates: The 2025 presentation reports KRW1,xx.xx of ES division revenue and a xx.xx% Industrial product-sales mix. These define the narrow industrial proxy envelope; the division figures are internally prepared and unaudited, and the final telecom allocation is modeled. ([cdn.hankook-technologygroup.com](https://cdn.hankook-technologygroup.com/static/assets/down/quarterly-reports/2025/25_4Q_IR_ENG_F.pdf))

130. 2V AGM | Hankook Battery

· Evidence informing base-year company-share estimates: The named industrial 2V AGM offering establishes a stationary-battery comparison boundary. It supports restricting the model to industrial activity but does not measure telecom participation or the assumed xx.xx% application allocation. ([hankook-battery.com](https://www.hankook-battery.com/en/technology/industrial-2v-agm.do))

131. FSP Technology Inc. - FY2025 Results Analyst Meeting, March 30, 2026

· Evidence informing base-year company-share estimates: Reports 2025 net sales of NT$xx.xx and networking application revenue of xx.xx%, constraining the modeled revenue envelope rather than observing telecom battery-backup revenue.

132. FSP Technology Inc. - First-Quarter 2025 Results Analyst Meeting

· Evidence informing base-year company-share estimates: Identifies UPS and 5G power offerings and the historical Voltronic investment; supports participation and the need to separate manufactured finished offerings from investment-related or purchased-product activity.

133. Sunwoda Electronic Co., Ltd. - 2025 Annual Report

· Evidence informing base-year company-share estimates: Discloses CNY2,xx.xx of 2025 energy-storage-system revenue, providing the narrow monetary pool used by the telecom attribution model; does not disclose its telecom percentage.

134. Sunwoda: Quality at the Core, Ensuring Stable AIDC Operations Through Reliable Delivery

· Evidence informing base-year company-share estimates: Identifies telecom backup within network energy alongside data centers and other applications, supporting exclusion of non-telecom network-energy activity rather than treating the entire business as eligible.

135. Pylon Technologies Co., Ltd. - 2025 Annual Report
· Evidence informing base-year company-share estimates: Reports CNY2,xx.xx of storage revenue, identifies base-station backup offerings and discloses CNY56,xx.xx of material sales to ZTE and subsidiaries; constrains the model and challenges reliance on related-party channel prominence.

136. Energywith Sustainability Report 2025
· Evidence informing base-year company-share estimates: Energywith reports approximately JPY135 billion of consolidated sales for March 2025. This supports a predecessor-group scale input, not a telecom revenue percentage or the final modeled share.
([energy-with.com](https://www.energy-with.com/wp-content/uploads/2026/xx.xx/Energywith-Sustainability-Report2025_J.pdf))

137. Energywith - Company Outline
· Evidence informing base-year company-share estimates: Energywith's company outline reports approximately JPY130 billion of consolidated sales for March 2026, used with the March 2025 input in an explicitly modeled fiscal-to-calendar bridge.
([energy-with.com](https://www.energy-with.com/company/outline/))

138. The Furukawa Battery - Financial Results for the Fiscal Year Ended March 31, 2025
· Evidence informing base-year company-share estimates: Furukawa's FY2025 external industrial sales of JPY25.xx.xx and total external sales of JPY84.xx.xx support the industrial-mix calibration and ownership-adjusted acquired-business proxy. Neither amount is telecom-only revenue.
([corp.furukawadenchi.co.jp](https://corp.furukawadenchi.co.jp/en/ir/news/news-xx.xx/main/xx.xx/link/202503_Q4.pdf))

139. Energywith - History
· Evidence informing base-year company-share estimates: Energywith's history identifies Sustainable Battery Holdings as its parent and records the Furukawa tender transaction in 2025. This supports predecessor and group-attribution context rather than retrospective full-year acquired revenue.
([energy-with.com](https://www.energy-with.com/en/company/history/))

140. EneSolve Holdings - Corporate Information
· Evidence informing base-year company-share estimates: The holding-company record states April xx.xx 2026 commencement and identifies the current group scale. It supports retaining a qualified predecessor attribution rather than treating the commencement date alone as proof of zero 2025 economic activity.
([ene-solve.com](https://www.ene-solve.com/company/))

141. Tokyo Century - Notice Concerning Results of AP78's Tender Offer for Shares of Furukawa Battery, September 9, 2025
· Evidence informing base-year company-share estimates: The September xx.xx 2025 transaction notice dates completion of AP78's tender offer to September xx.xx 2025 and describes the subsequent holding-company transaction steps. It constrains the partial-year ownership bridge, not an exact consolidation revenue amount.
([tokyocentury.co.jp](https://www.tokyocentury.co.jp/en/newsroom/news/pdf/02f099aeedf161dc1992b1fcfd7acce46cf63653.pdf))

142. Shindengen - Segment Information
· Evidence informing base-year company-share estimates: The Power Systems segment sales series supplies JPY6.xx.xx for March 2025 and JPY7.xx.xx for March 2026 as the broad segment inputs to the calendar bridge; battery-inclusive and telecom allocations remain assumptions.
([shindengen.co.jp](https://www.shindengen.co.jp/ir/finance/segment/))

143. Shindengen Corporate Profile 2025
· Evidence informing base-year company-share estimates: The corporate profile identifies telecommunications rectifiers, lithium-ion storage, inverters and monitoring in the relevant power business. It supports narrowing the activity boundary rather than allocating total corporate revenue to telecom backup.
([shindengen.com](https://www.shindengen.com/company/files/docs/corporateprofile_20250828.pdf))

144. Shindengen - Telecommunication Power Supplies
· Evidence informing base-year company-share estimates: The telecom power portfolio supports battery-connected commercial systems but does not establish batteries in every sale. This is the premise for the explicit battery-inclusive attribution discount.
([shindengen.com](https://www.shindengen.com/products/eco_energy/electronics/))

145. Schneider Electric - Ensure Business Continuity with APC UPS Solutions, June 2, 2025
    · Evidence informing base-year company-share estimates: The June xx.xx 2025 article describes over xx.xx APC installations. It is used as qualified cumulative commercial scale, not observed active stock or annual shipments.
    ([blog.se.com](https://blog.se.com/datacenter/2025/xx.xx/xx.xx/how-you-can-ensure-business-continuity-during-unstable-power-conditions/))
146. Schneider Electric - A Trusted Partner for All Your IT Infrastructure Needs, September 11, 2025
    · Evidence informing base-year company-share estimates: The September xx.xx 2025 article instead describes over xx.xx APC installations and the brand's multi-decade history. The differing stock statements are retained as a comparability limitation, not averaged into an observed installed base.
    ([blog.se.com](https://blog.se.com/datacenter/2025/xx.xx/xx.xx/schneider-electric-a-trusted-partner-for-all-your-it-infrastructure-needs/))
147. Schneider Electric - Single Phase UPS Basic Life Expectancy: When to Consider a New Unit over a Battery
    · Evidence informing base-year company-share estimates: The company distinguishes approximately xx.xx-xx.xx-year UPS chassis life from xx.xx-xx.xx-year VRLA battery life. These commercial lifecycle ranges constrain the modeled eight-year small-package and mid-cycle battery purchasing cohorts.
    ([apc.com](https://www.apc.com/us/en/faqs/FAQ000265093/))
148. Schneider Electric - APC Symmetra Battery Systems
    · Evidence informing base-year company-share estimates: The Symmetra battery-system portfolio explicitly identifies network and telecommunications protection and separately replaceable battery assemblies. It supports the included equipment and replacement categories, not their modeled quantities or prices.
    ([se.com](https://www.se.com/us/en/product-range/xx.xx-apc-symmetra-battery-systems))
149. Enterprise Development History - Shenzhen Richroc Electronic Co., Ltd.
    · Evidence informing base-year company-share estimates: The October xx.xx 2024 company publication reports aggregate capacity of at least xx.xx sets per day. This is the model's capacity reference, not observed 2025 shipments or revenue; annual realization, application mix and prices remain assumptions.
    ([wgpups.com](https://www.wgpups.com/news/enterprise-development-history/))
150. UPS1202A Mini UPS - Reliable 12V 2A Backup Power for Routers & IoT Devices
    · Evidence informing base-year company-share estimates: The June xx.xx 2025 UPS1202A publication establishes a continuing finished mini-UPS offering for routers, modems and fiber connectivity, with additional noncommunications applications. It supports product eligibility and the need for an application adjustment, not the assumed xx.xx% mix or sales quantity.
    ([wgpups.com](https://www.wgpups.com/news/what-makes-ups1202a-a-trusted-classic%EF%BC%9F/))
151. 科华数据股份有限公司 2025 年年度报告 - Kehua Data Co., Ltd. 2025 Annual Report
    · Evidence informing base-year company-share estimates: Reports 2025 smart-power product revenue of RMB743,xx.xx and data-center product revenue of RMB2,xx.xx. These mixed-application revenues anchor the assumption-led attribution, not an observed telecom numerator.
    ([static.cninfo.com.cn](https://static.cninfo.com.cn/finalpage/2026-xx.xx-xx.xx/xx.xx.PDF))
152. Kehua Data Co., Ltd. - Business Summary, updated September 3, 2025
    · Evidence informing base-year company-share estimates: The business summary updated September xx.xx 2025 identifies telecom UPS, DC UPS, batteries and accessories, supporting telecom participation and the need to distinguish finished backup packages from adjacent products. It provides no telecom revenue split.
    ([static.cninfo.com.cn](https://static.cninfo.com.cn/finalpage/enpage/002335_2.pdf))

22.2. Market Concentration Analysis, 2025

[illegible] Vertiv's cross-manufacturer DC service proposition is a counterexample to automatic original-brand aftermarket exclusivity. Nevertheless, an

advertised cross-vendor service does not establish acceptance of every existing plant or preservation of every manufacturer's warranty.

Completed ownership changes can reduce the independence implied by separate product brands. Stryten Energy LLC completed its acquisition of C&D Technologies and Trojan Battery Company on October xx.xx 2026, while retaining those product brands. ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪

Channel breadth also differs from independent manufacturing alternatives. Telzas lists FIAMM stationary batteries; Tescom lists EnerSys PowerSafe SBS EON; Seven Star LLC offers the same named EnerSys family in Oman; and Kira Power Solutions advertises EnerSys batteries in Egypt. ▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪ ▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪

Some group relationships are established while similarly named businesses remain unresolved. Newmar identifies Mission Critical Electronics as its parent, and Charles Industries identifies itself as an Amphenol company. ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪

Digital and energy-market relationships can create continuing dependencies beyond equipment ownership. ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ Retaining Reserve-Only Backup avoids an additional market relationship, whereas a service-assisted route introduces another counterparty without removing eligibility requirements.

Sources & Evidence

1. DC Power Services | Vertiv
   · Cross-manufacturer service is a counterexample to automatic original-brand aftermarket exclusivity, without proving universal compatibility.
   ([vertiv.com](https://www.vertiv.com/en-us/products/services/dc-power-services/))

2. How to participate in the reserve markets | Fingrid
   · Fingrid requires resource-owner permission where applicable and documents reserve-market participation arrangements separately from software capability.
   ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))
3. Nokia adds Virtual Power Plant to its leading energy efficiency solution portfolio
   · Nokia's February xx.xx 2024 announcement markets VPP software around backup assets and states intended availability later in 2024.
   ([nokia.com](https://www.nokia.com/newsroom/nokia-adds-virtual-power-plant-to-its-leading-energy-efficiency-solution-portfolio/))
4. Telecom & Network | Polarium
   · The cloud-connected proposition creates a separate digital-service comparison beyond hardware ownership.
   ([polarium.com](https://polarium.com/telecom/))
5. Product Datasheets & Ordering Guides - Charles Industries, LLC · An Amphenol Company
   · The catalog supports Amphenol group attribution, not an independent manufacturer interpretation for every Charles product.
   ([charlesindustries.com](https://www.charlesindustries.com/support/resources/product-datasheets-ordering-guides/))
6. Stryten Energy Completes Acquisition of C&D Trojan, Creating a Leading Battery Manufacturing Platform for Transportation, Industrial, Critical Infrastructure, and Military Applications
   · Stryten announced completed acquisition of C&D Technologies and Trojan Battery Company on October xx.xx 2026, retaining their product brands.
   ([stryten.com](https://www.stryten.com/stryten-energy-completes-acquisition-of-cd-trojan/))
7. FIAMM Energy Technologies - AURELIUS
   · AURELIUS identifies FIAMM Energy Technologies as an investment and records 2025 as the acquisition year. Leadership claims are not used.
   ([aurelius-group.com](https://www.aurelius-group.com/investment/fiamm-energy-technologies))
8. Fiamm | Telzas - Power systems for telecommunications
   · Telzas lists FIAMM stationary products including FIT and an inquiry route, supporting channel access rather than a separate underlying manufacturer.
   ([telzas.com](https://www.telzas.com/en/products/stationary-batteries/fiamm/))
9. PowerSafe SBS EON Technology Batteries - Products | Tescom UPS
   · Tescom lists EnerSys PowerSafe SBS EON batteries through its commercial portfolio; current manufacturer-confirmed authority remains separate.
   ([tescom-ups.com](https://www.tescom-ups.com/en/product/powersafe-sbs-eon-technology-batteries-xx.xx))
10. EnerSys PowerSafe SBS EON VRLA Battery - Datasheet & Quote
    · Seven Star lists EnerSys PowerSafe SBS EON through an Oman quotation route; actual fulfillment and authorization require confirmation.
    ([omansevenstar.com](https://omansevenstar.com/product/enersys-powersafe-sbs-eon/))
11. EnerSys PowerSafe Batteries Egypt | OPzV, OPzS, SBS | KPS
    · Kira Power Solutions advertises EnerSys PowerSafe batteries in Egypt; its authorization description is supplier-reported. ([kps-grp.com](https://kps-grp.com/powersafe-batteries-egypt/))
12. About Newmar | Powering the Network
    · Newmar explicitly identifies Mission Critical Electronics as its parent, supporting group attribution rather than separate-parent treatment. ([poweringthenetwork.com](https://www.poweringthenetwork.com/about/))
13. ABOUT SEC UK BATTERIES
    · SEC UK identifies itself as a division of Shield Batteries Limited; this does not establish the separate SEC business's ownership or seller identity. ([secukbattery.co.uk](https://www.secukbattery.co.uk/about-us.html))

22.3. Recent Developments & Impact Analysis, 2025

Stryten Energy LLC's completed acquisition of C&D Technologies and Trojan Battery Company on October xx.xx 2026 changes the ownership relationship behind retained battery brands. For telecom buyers, the immediate consequence is a need to reassess contracting and support independence-not to assume that existing product ranges, warranties, or customer approvals have already been integrated. ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪

Ericsson's April xx.xx 2026 announcement reports introduction of its Energy & Enclosure platform in Swisscom's network. ▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ Buyers should therefore benchmark a reported deployment and an announced delivery obligation differently: the former can inform a comparable account discussion, while the latter requires confirmation of the actual ordered bundle and fulfillment.

Phinergy's first-half 2026 disclosure records a March xx.xx 2026 Swisscom Broadcast agreement and an initial demonstration purchase, with envisaged Swiss distribution and customer-support roles. ▪▪▪ ▪▪▪▪ ▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪ ▪▪ ▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪ Swiss purchasers should resolve seller, warranty, and support responsibilities before relying on the channel, and should monitor a binding follow-on commitment rather than an announcement alone.

IFC's March xx.xx 2026 financing announcement supports IPT PowerTech Group's telecom-energy modernization, operation, and maintenance in Ethiopia, Liberia, and Sierra Leone. ▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ Camusat's AktivCo financing record in Senegal provides another outsourcing comparison, rather than proof that all funded energy arrangements are equivalent dedicated backup contracts.

Supplier-continuity developments can invalidate a simple live-catalog interpretation. Metair's August xx.xx 2026 results publication classifies First Battery Industrial as discontinued operations following the second half of 2025. ▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪ ▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪

Nokia's February xx.xx 2024 VPP announcement stated intended availability later that year, and its March xx.xx 2025 product discussion described additional features and an aggregator interface. ■■■■■ ■■■■■■■ ■■■■■■■■■ ■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■ ■■■■■■■ ■■■■■ ■■■■■■■■■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■ ■■■■■■■■ ■■■■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■■ ■■■■■■ ■■■■■ ■■ ■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■ ■■■■ ■■■■■■■■ ■■■■■■■ ■■■■■■■■■■ ■■ ■■■ ■■■■■■■■■■ ■■■■■■■■ The software proposition can be evaluated without assuming that its marketing supplies participation rights or transfers telecom continuity responsibility.

Sources & Evidence

1. Nokia adds Virtual Power Plant to its leading energy efficiency solution portfolio
   · The intended availability statement does not establish completed destination-specific license delivery or executed reserve-service obligations.
   ([nokia.com](https://www.nokia.com/newsroom/nokia-adds-virtual-power-plant-to-its-leading-energy-efficiency-solution-portfolio/))
2. Ericsson and Swisscom launch next-gen intelligent power platform
   · The April xx.xx 2026 announcement reports introduction of the platform in Swisscom's network; this is account-specific deployment evidence.
   ([ericsson.com](https://www.ericsson.com/en/press-releases/xx.xx/2026/ericsson-and-swisscom-launch-next-gen-intelligent-power-platform))
3. IFC Supports IPT PowerTech to Deliver Clean Telecom Power Across Ethiopia, Liberia, and Sierra Leone
   · IFC's March xx.xx 2026 announcement supports IPT telecom-energy modernization, operation, and maintenance in Ethiopia, Liberia, and Sierra Leone, not completed fulfillment everywhere.
   ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
4. Phinergy Ltd. Report for the First Half Ended June 30, 2026
   · Phinergy's first-half 2026 report discloses the March xx.xx 2026 Swisscom agreement, initial demonstration purchase, envisaged distribution and support, and nonbinding further intentions.
   ([ir.phinergy.com](https://ir.phinergy.com/wp-content/uploads/2026/xx.xx/%D7%xx.xx%D7%xx.xx%D7%xx.xx-%D7%A8%D7%xx.xx%D7%A2%D7%xx.xx%D7%9F-xx.xx%D7%xx.xx%D7%A6%D7%xx.xx-%D7%A9%D7%A0%D7%AA%D7%xx.xx-%D7%9C%D7%A9%D7%A0%D7%AA-2026-.pdf))
5. Phinergy Immediate Disclosure Regarding Swisscom Broadcast AG, July 9, 2026
   · Phinergy's July xx.xx 2026 disclosure describes continuing discussions concerning subsequent Swisscom commercial stages, not a completed broad rollout.
   ([ir.phinergy.com](https://ir.phinergy.com/wp-content/uploads/2026/xx.xx/P1755536-xx.xx.pdf))
6. Exicom Delivers its Strongest Quarter of FY26 as Both Businesses Return to Sharp Growth
   · Exicom's May xx.xx 2026 announcement reports an Indian DC-power-system order for delivery in fiscal 2027; battery inclusion and completed fulfillment are not established.
   ([exicom.com](https://www.exicom.com/insights/press-releases/exicom-delivers-its-strongest-quarter-of-fy26-as-both-businesses-return-to-sharp-growth))
7. Pioneering sustainable innovation with AI and cloud | Nokia
   · Nokia's March xx.xx 2025 discussion describes added VPP features and an aggregator interface, without customer-specific license or activation commitments.
   ([nokia.com](https://www.nokia.com/blog/pioneering-sustainable-innovation-with-ai-and-cloud/))
8. Stryten Energy Completes Acquisition of C&D Trojan, Creating a Leading Battery Manufacturing Platform for Transportation, Industrial, Critical Infrastructure, and Military Applications
   · The completed acquisition changes parent attribution, without establishing immediate customer-contract, warranty, or approval integration.
   ([stryten.com](https://www.stryten.com/stryten-energy-completes-acquisition-of-cd-trojan/))

9. Supporting access to telecom services in Senegal's rural areas | Proparco
   · Proparco's AktivCo Senegal project record establishes development-finance support for the Camusat-related outsourcing comparison, not universal completed continuity fulfillment. ([proparco.fr](https://www.proparco.fr/en/carte-des-projets/aktivco-senegal-2023))
10. Results for the six months ended 30 June 2026 - Metair Investments Limited
   · Metair's August xx.xx 2026 publication classifies First Battery Industrial as discontinued operations following the second half of 2025, not closure of the entire First Battery business. ([metair.co.za](https://metair.co.za/latest_news/results-for-the-six-months-ended-xx.xx-june-2026/))
11. From R565.65 million to zero for South African fibre cable company - MyBroadband
   · The September xx.xx 2026 report describes Dartcom's business rescue and an asset auction scheduled for September xx.xx 2026; it does not establish the completed outcome or successor seller. ([mybroadband.co.za](https://mybroadband.co.za/news/fibre/xx.xx-from-r565-xx.xx-million-to-zero-for-south-african-fibre-cable-company.html))

22.4. Product Portfolio Analysis, 2025

Telecom battery backup portfolios compete at different purchasing boundaries. ■■■■■■■■ ■■■■■■■■■ ■■■■ ■■■■ ■■■■ ■■■■■■■■■■■■■■■ ■■■■ ■■■■■■■■■■■■■ ■■■■■■■■■■ ■■ ■■■■■■■■ ■■■■■■■■■■■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■ ■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■ ■■■■■■■■■■■■ ■■■■ ■■■■■■■■ ■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■ ■■■■■■ ■■■ ■■■■■■■ ■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■■■■■■■■ ■■■■■■ ■■■■■■■ ■■■■■■■■■■■■ These alternatives can support a replacement shortlist, but their coexistence does not establish interchangeable operator acceptance, destination fulfillment, or responsibility for the surrounding power plant.

■■■■■■■■■■ ■■■■■■■ ■■ ■■■■■■■■■■■■ ■■■■■■ ■■■■ ■■■■ ■■■■■■■■■■ ■■ ■■ ■■■■■■■■■ ■■■■■■■■■ ■■■■■ ■■■■ ■■■■■■■ ■ ■■■■■■■■ ■■■■■■■ ■■■■■■■■■■ ■■■■■■■ ■■■■■ ■■■ ■■■■■■■ ■■■■■ ■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■ ■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■■■■■■■ ■■■■■■■■■■■■■ ■■■ ■■■■■ ■■■■■■■■■■■■■ ■■■■■ ■■■■■■■■■■ ■■ ■■ ■■■■■■■■■■■■■■ ■■■■■■■■■ ■■■■■■ HORIEN Salt Battery Solutions and Phinergy introduce Sodium-Based and Metal-Air propositions, respectively. A purchaser considering category substitution should compare the exact continuity obligation, accountable seller, and continuing support-not infer superior performance or replacement eligibility from the technology name.

■■■■■■ ■■■■■■■■■ ■■■■ ■ ■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■ ■■■■■■■■■■■■ ■■■■■ ■■■■■ ■■■■■ ■■■■■■■ ■■■■■■■ ■■■■■■■ ■■■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■ ■ ■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■■■■■ ■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■ ■■■■■ ■■■ ■■■ ■■■■■■■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■ ■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■ ■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■■ These portfolios offer different integration boundaries: an operator retaining its existing plant may prefer battery procurement, while a site-modernization buyer may seek a prime responsible for the quoted package. Battery inclusion and continuing support must be explicit in either route.

CE+T Power, Efore, Celltech Group, and Eaton provide additional power-system or tailored-power comparison paths. ■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■ ■■■■■■■ ■■■■■■■■■■■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■ ■■■■■■■■■ ■■ ■■■ ■■■■■■■■■■■ ■■

[illegible] Buyers should obtain separate equipment and integration boundaries before comparing these propositions with battery-only bids.

North American power portfolios illustrate why interface capability and battery supply need separate treatment. Innovative Circuit Technology Ltd. describes DC backup systems for wireless and communications markets. [illegible]

Enclosure and communications-service boundaries form another peer group. [illegible] Purchasers should distinguish an enclosure, an integrated backup configuration, and a building-level communications obligation before considering these suppliers interchangeable.

Canadian-facing alternatives also require a consistent purchasing object. Canbat Technologies Inc. and Starmax Batteries publish telecom battery portfolios; UPS Battery Center offers telecom replacement batteries through a retail-oriented catalog. [illegible]

Customer-Premises Connectivity has its own portfolio boundary. [illegible] They are not substitutes for institutional site systems merely because both contain batteries.

Regional stationary-battery alternatives broaden equipment choice without establishing uniform service reach. Moura links stationary telecom offerings with regional lifecycle positioning; Tudor Baterias identifies communications applications in its stationary portfolio;

and Baterias Pioneiro connects its stationary line with telephone-exchange use. ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪

Turkish and Gulf portfolios add further equipment alternatives. Orbit Energy advertises a Telecom Series; Yiğit Akü Malzemeleri A.Ş. lists front-terminal batteries for telecom; Eternity Technologies FZ-LLC identifies an ET-LI-ION telecom-backup proposition; and ESİS Enerji ve Elektronik San. ▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪

Battery Energy Power Solutions, Gulf Horizon Telecom, and IPT PowerTech Group address different delivery-model choices. Battery Energy's Australian portfolio combines batteries with turnkey coordination and a documented Enatel partnership. ▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪

Connected services add another commercial layer. Polarium Energy Solutions AB markets Connected Batteries with cellular connectivity and cloud integration, and separately advertises Polarium Care. ▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪

Sources & Evidence

1. PowerSafe SBS Batteries | EnerSys
   · EnerSys markets PowerSafe SBS for telecom applications and provides a quotation route, supporting a component-level comparison. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-sbs/))
2. Vertiv NetSure M Series
   · Vertiv's EMEA NetSure M Series page presents configurable outdoor telecom infrastructure with battery options, not identical inclusion in every quotation. ([vertiv.com](https://www.vertiv.com/en-emea/products-catalog/facilities-enclosures-and-racks/outdoor-enclosures/netsure-m-series/))

3. Nokia adds Virtual Power Plant to its leading energy efficiency solution portfolio
   · The announcement establishes a software proposition around existing backup assets, distinct from equipment ownership. ([nokia.com](https://www.nokia.com/newsroom/nokia-adds-virtual-power-plant-to-its-leading-energy-efficiency-solution-portfolio/))
4. Ericsson and Swisscom launch next-gen intelligent power platform
   · Ericsson's Energy & Enclosure platform combines power systems, storage, enclosures, and centralized site-energy control. ([ericsson.com](https://www.ericsson.com/en/press-releases/xx.xx/2026/ericsson-and-swisscom-launch-next-gen-intelligent-power-platform))
5. Telecom & Network | Polarium
   · Polarium markets Connected Batteries with native cellular connectivity and cloud integration. ([polarium.com](https://polarium.com/telecom/))
6. Polarium Care - Our Services
   · Polarium separately advertises Polarium Care services, supporting separation of hardware purchase and continuing service obligations. ([polarium.com](https://polarium.com/services/))
7. Telecommunications - Power solutions | Battery Energy Australia
   · Battery Energy lists telecom battery products and turnkey capabilities, while its standalone DC Power Solutions entry is labeled coming soon. ([batteryenergy.com.au](https://www.batteryenergy.com.au/applications/telecommunications))
8. Battery Energy Power Solutions + Enatel Energy
   · The partnership supports comparison of coordinated equipment supply with separately contracted batteries and DC equipment. ([batteryenergy.com.au](https://www.batteryenergy.com.au/news/strategic-partnership-enatel-battery-energy))
9. Baterias Estacionárias | Moura
   · Moura's stationary portfolio identifies telecom applications and regional lifecycle positioning; destination terms remain separate. ([moura.com.br](https://www.moura.com.br/produtos/estacionarias))
10. Precision Power Products - Precision Group
    · Precision Group lists Micro UPS, FTTx backup, telecom batteries, and rack-mounted lithium products. ([goprecisiongroup.com](https://goprecisiongroup.com/precision-power-products/))
11. HORIEN Salt Battery Solutions and Inlyte Energy Announce a Strategic Partnership
    · HORIEN's March xx.xx 2025 statement identifies sodium-metal-chloride storage and telecom backup, supporting a Sodium-Based comparison without performance equivalence. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
12. Industrial Battery Rental & Sales in Saudi Arabia | Gulf Horizon Telecom
    · Gulf Horizon advertises telecom battery rental and purchase in Saudi Arabia; the catalog does not establish an executed continuity or return commitment. ([gulfhorizontele.com](https://www.gulfhorizontele.com/battery-solutions-saudi-arabia))
13. Solar & Battery as a Service - IPT Website
    · IPT advertises a service in which it installs, owns, and maintains solar-and-battery energy systems. ([iptpowertech.com](https://iptpowertech.com/solutions/solar-battery-as-a-service))
14. Energy Backup | Phinergy
    · Phinergy markets Aluminum-Air backup for telecom operators and tower companies; comparative acceptance or performance is not established. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))
15. Telecom Batteries | Critical Power Solutions by Exicom
    · Exicom lists named EXTB telecom battery offerings independently of broader DC-system contracts. ([exicom.com](https://www.exicom.com/product-family/telecom-batteries))

16. Products - Li-ion Battery Backup Systems - Delta
    - Delta lists TEB4810, TEB4815, TEB5110, and DUO5128 within its telecom Li-ion Battery Backup Systems portfolio. ([deltaww.com](https://www.deltaww.com/en-US/products/telecom-battery-systems))
17. Telecommunications & 5G Network Backup Batteries - East Penn
    - East Penn lists Deka communications batteries and separately advertises North American support, maintenance, removal, and recycling. ([eastpennmanufacturing.com](https://www.eastpennmanufacturing.com/applications/telecommunications/))
18. Communication Batteries - GSYuasa Energy Solutions
    - GS Yuasa Energy Solutions lists VRLA communication batteries and named communication product series. ([gsyuasa-es.com](https://gsyuasa-es.com/industrial/applications/telecom-batteries/))
19. Energysolutions and batteries for telecommunication
    - HOPPECKE identifies a telecom battery portfolio, including grid | Xtreme VR in a front-terminal variant. ([hoppecke.com](https://www.hoppecke.com/en-us/applications/grid/telecommunication/))
20. Solition Telecom | Exide
    - Exide Technologies markets Solition Telecom modules and describes a Europe and MEA sales-and-service proposition; destination commitments remain separate. ([exidegroup.com](https://www.exidegroup.com/nz/en/product/solition-telecom))
21. Telecom Backup Power Solution-LEOCH BATTERY
    - LEOCH advertises a multi-technology telecom portfolio and connected monitoring or anti-theft products; promotional outcome claims are not adopted. ([leoch.com](https://www.leoch.com/industries/network-power/telecom-backup-power))
22. Telecom - 应用领域 - Narada Power
    - Narada's telecom page lists lithium and lead-acid product families and a purchasing inquiry route. Its leadership assertions are not used. ([en.naradapower.com](https://en.naradapower.com/solution/industry.html))
23. Telecom Battery
    - Vision Group's telecom page advertises remote monitoring, cloud management, GPS tracking, and anti-theft functions. ([vision-batt.com](https://www.vision-batt.com/en/solution/telecombattery.html))
24. Amara Raja Energy & Mobility Limited - Telecom
    - Amara Raja's telecom page identifies AMARON SLEEK and AMARON VOLT as VRLA offerings. ([amararajaeandm.com](https://www.amararajaeandm.com/Industrial/telecom))
25. Telecom | HBL Batteries
    - HBL's telecom catalog advertises lead-acid and nickel-cadmium batteries for communications backup; scale and ranking claims are not used. ([hblbatteries.com](https://hblbatteries.com/Telecom-app.html))
26. FT Series Lead-Acid Batteries for Sale | China Manufacturer | Ritar
    - Ritar publishes an FT Series front-terminal lead-acid battery offering; exact customer acceptance remains separate. ([ritarpower.com](https://www.ritarpower.com/products/ft-series-lead-acid-batteries/))
27. Telecom Battery Solutions | Power-Sonic
    - Power-Sonic maintains a telecom battery-solutions portfolio, supporting a battery-focused comparison rather than universal system equivalence. ([power-sonic.com](https://www.power-sonic.com/telecom/))
28. Digitalizing site power for green connectivity and computing - Huawei
    - Huawei describes 5G Power as a telecom site-power solution incorporating energy storage and management; promotional savings claims are not used. ([huawei.com](https://www.huawei.com/en/huaweitech/publication/xx.xx/digitalizing-site-power-green-connectivity-computing))
29. Telecom Power-5G power, hybrid and iEnergy network energy management solutions|ZTE
    - ZTE describes PadPower, battery, cabinet, and energy-management propositions for telecom sites; historical framework activity is not treated as current universal access. ([zte.com.cn](https://www.zte.com.cn/global/solutions_latest/smart_energy/powersolution.html))

30. Telecom - CE+T Power
    · CE+T Power publishes a telecom power proposition with backup and energy-management functions; the quoted equipment boundary remains important.
    ([cet-power.com](https://www.cet-power.com/en/market/telecom/))
31. Telecom Solutions - Efore
    · Efore maintains a telecom-solutions portfolio containing battery-related propositions; current seller and quotation scope require separate confirmation. ([efore.com](https://www.efore.com/telecom-solutions/))
32. Infrastructure Energy Storage and Power Supply | Celltech Group
    · Celltech's infrastructure portfolio offers batteries and tailored telecom power solutions, supporting a distinct coordination comparison.
    ([celltech-group.com](https://celltech-group.com/business-segments/infrastructure/))
33. Custom power conversion solutions
    · Eaton's custom power-conversion page describes integrated telecom DC-power and battery-backup solutions, without establishing every quotation's battery inclusion.
    ([eaton.com](https://www.eaton.com/us/en-us/catalog/power-conversion/custom-power-conversion-solutions.html))
34. Telecom Power Supply Systems - BENNING
    · BENNING publishes a dedicated telecom power-supply-system portfolio, supporting an infrastructure-supply peer group rather than battery-only equivalence.
    ([benning.de](https://www.benning.de/sbd/BRA/products-us/telecom-power-supply-systems.html))
35. About ICT - Innovative Circuit Technology
    · ICT describes DC backup systems serving fixed-wireless, small-cell, and communications-site markets, alongside other conversion products. ([ict-power.com](https://ict-power.com/about-us/about-ict/))
36. Telecommunications - Analytic Systems Power Conversion Solutions
    · Analytic Systems markets telecommunications power-conversion equipment; this supports a component role rather than automatic battery-inclusive responsibility.
    ([analyticsystems.com](https://analyticsystems.com/markets/telecom/))
37. Power Supply Solutions for Critical Communications | Samlex America
    · Samlex America markets power and backup solutions for critical communications. The source does not resolve the separate model-metadata inconsistency.
    ([samlexamerica.com](https://samlexamerica.com/industries/communications/))
38. DCPS 4RU Telecom System
    · La Marche's DCPS Telecom System advertises intelligent battery management and remote monitoring; those functions do not establish battery inclusion in every sale.
    ([lamarchemfg.com](https://www.lamarchemfg.com/products/dcps-telecom-system.html))
39. Power Supply & Power Distribution
    · Raycap publishes wireless power-supply and distribution propositions, supporting a site-power comparison with battery inclusion left configuration-specific.
    ([raycap.com](https://www.raycap.com/products/power-supply-and-power-distribution-for-wireless/))
40. Telecom & Wireless Power Solutions | SENS
    · SENS maintains a cable, telecom, and wireless power portfolio, distinct from a universally battery-inclusive quotation. ([sens-usa.com](https://www.sens-usa.com/industries/cable-telecom-wireless))
41. DC Power Systems - DC Power Equipment - Telecommunications
    · Eagle Eye Power Solutions publishes telecom DC-power equipment and service positioning, supporting an equipment-and-support comparison rather than monitoring-only treatment.
    ([eepowersolutions.com](https://eepowersolutions.com/dc-power-system-solutions-tailored-for-telecommunications/))
42. Product Datasheets & Ordering Guides - Charles Industries, LLC • An Amphenol Company
    · Charles Industries' catalog lists CUBE battery-backup cabinets and identifies the business as an Amphenol company.
    ([charlesindustries.com](https://www.charlesindustries.com/support/resources/product-datasheets-ordering-guides/))

43. Building Systems - Sabre Industries, Inc.
    · Sabre's enclosure integration capabilities include batteries and DC power systems, without identifying the same contents in every package. ([sabreindustries.com](https://sabreindustries.com/building-systems/))
44. CS19-BBU-004, BDA Battery Back-Up Unit :: Westell Technologies, Inc.
    · Westell identifies a named BDA battery-backup unit within its public-safety communications portfolio, not universal carrier-network equivalence. ([westell.com](https://www.westell.com/products/cs19-bbu-xx.xx))
45. Off-Grid Solar & Backup Power | Tycon Solar | Tycon Systems
    · Tycon's commercial catalog addresses outdoor battery-backup and remote-power systems; exact telecom contractual scope remains separate. ([tyconsystems.com](https://www.tyconsystems.com/categories/tycon-solar/xx.xx))
46. Telecom Lithium Batteries - LiFePO4 Telecom Batteries Canada Supplier
    · Canbat publishes a dedicated telecom lithium-battery portfolio under Canbat Technologies Inc.; customer acceptance and fulfillment are not established by the catalog. ([canbat.com](https://canbat.com/lithium-telecom-batteries/))
47. Telecom - Starmax Batteries
    · Starmax publishes a telecom battery portfolio, supporting a regional battery comparison without establishing current buyer transactions. ([starmaxbatteries.com](https://starmaxbatteries.com/solutions-archives/telecom/))
48. Telecom System Batteries in Toronto, Canada
    · UPS Battery Center maintains a telecom replacement-battery catalog in Canada, distinct from a complete-system service contract. ([upsbatterycenter.ca](https://www.upsbatterycenter.ca/ups-battery/upsbattery-p-u/telecom-lead-acid-batteries))
49. Products | Equinox Power
    · Equinox presents UPS and fault-managed-power propositions for telecom and other critical infrastructure, without establishing a customer-specific orderable package. ([equinoxpowerinc.com](https://www.equinoxpowerinc.com/products))
50. RIC Hybrid UPS System Product Brochure
    · RIC's commercial brochure describes a Hybrid UPS offering, supporting an AC/DC-package comparison with telecom-specific acceptance left unconfirmed. ([ricelectronics.com](https://ricelectronics.com/wp-content/uploads/2025/xx.xx/RIC-HybridUPS-Individual-Product-Brochure.pdf))
51. 2026 PSI Product Catalog
    · PowerTec's 2026 commercial catalog contains ONT backup propositions; a named catalog does not establish every provider's acceptance. ([powertecsolutions.net](https://www.powertecsolutions.net/wp-content/uploads/2026/xx.xx/2026-PSI-Product-Catalog_8.5x11-v5.pdf))
52. Telecom Power - DC UPS | CyberPower
    · CyberPower lists indoor and outdoor FTTx DC UPS categories. ([cyberpower.com](https://www.cyberpower.com/global/en/product/overview/telecom-power/dc-ups))
53. Fonte Nobreak EFB 1201 com Bateria Intelbras
    · Intelbras identifies the EFB xx.xx backup supply with an included battery, supporting a premises-equipment role rather than institutional-system equivalence. ([loja.intelbras.com.br](https://loja.intelbras.com.br/fonte-nobreak-efb-xx.xx-bateria/p))
54. SPS NET2 - O mini UPS CC inteligente e eficiente - Salicru
    · Salicru markets SPS NET2 as a network-device DC UPS; the inspected page does not establish every destination's fulfillment. ([salicru.com](https://www.salicru.com/ao-pt/sps-net2.html))
55. Características Estacionária | Tudor Baterias
    · Tudor identifies communications applications in its stationary-battery portfolio; that listing does not establish uniform local support. ([tudor.com.br](https://tudor.com.br/pt_br/produtos/estacionaria/caracteristicas))

56. Tudo o que você precisa saber sobre Baterias Estacionárias - Pioneiro Baterias
    · Pioneiro's company publication connects its stationary-battery line with applications including telephone exchanges, not a dated customer award. ([bateriaspioneiro.com.br](https://bateriaspioneiro.com.br/tudo-o-que-voce-precisa-saber-sobre-baterias-estacionarias/))
57. BAE Batterien GmbH - Stationary Batteries
    · BAE publishes stationary batteries for applications including telecommunications, supporting equipment comparison without destination-contract equivalence. ([bae-berlin.de](https://www.bae-berlin.de/en/station%C3%A4r))
58. Industrial Batteries - Monbat
    · Monbat's industrial-battery portfolio includes reserve-power and telecom applications; individual current contracts remain separate. ([monbat.com](https://www.monbat.com/product_category/industrial-batteries/))
59. OPzS CELLS & BLOCKS - TAB
    · TAB lists stationary OPzS products for applications including communications equipment, supporting a battery rather than universal complete-system role. ([tab.si](https://www.tab.si/products/opzs-cells/?lang=sl))
60. Telecom Batteries | Victron Energy
    · Victron maintains a dedicated telecom-battery catalog; customer qualification and local support remain offering-specific. ([victronenergy.com](https://www.victronenergy.com/batteries/telecom-batteries))
61. TELECOM - Midac Batteries
    · MIDAC publishes a dedicated telecom stationary-battery portfolio, not uniform destination service terms. ([midacbatteries.com](https://midacbatteries.com/telecom/))
62. MXL 7.2-12 - MERAWEX
    · MERAWEX lists the MXL xx.xx-xx.xx battery, supporting a named component comparison with exact telecom acceptance left separate. ([merawex.com.pl](https://merawex.com.pl/produkt/akumulatory/seria-mxl/mxl-xx.xx-xx.xx-xx.xx/))
63. Производитель аккумуляторов AGM, GEL и OPzV в России | RNB
    · RNB's official business page identifies its regional battery business and stationary technologies; current destination commitments are not inferred. ([rnbat.ru](https://rnbat.ru/company/))
64. Аккумуляторы телеком-оборудования и ретрансляторов
    · Enerdzhi Treyd's commercial page offers telecom battery systems under its regional selling identity; no equivalence with ENERGON is inferred. ([run-power.ru](https://www.run-power.ru/cell/telecom))
65. ЭНЕРГОН - Stationary Batteries
    · ENERGON publishes a stationary-battery portfolio, supporting a separate regional comparison without attributing it to Delta Electronics. ([energon.ru](https://energon.ru/akb/stationary-batteries/))
66. Telecommunication Energy Storage Systems - Orbit Energy
    · Orbit Energy publishes a Telecommunication Energy Storage Systems offering, supporting a named telecom-equipment comparison. ([orbitenerji.com](https://www.orbitenerji.com/en/product-detail/telecommunication-energy-storage-systems))
67. Front Terminal Batteries | Telecom & UPS | Yiğit Akü
    · Yiğit Akü lists front-terminal batteries with telecom applications; this does not establish every buyer's accepted replacement. ([yigitaku.com](https://yigitaku.com/en/product-detail/detail/front-terminal-batteries))
68. ET-LI-ION Battery - Eternity Technologies
    · Eternity markets the ET-LI-ION offering for telecom power and backup; current customer and destination terms are not established by the catalog. ([eternitytechnologies.com](https://eternitytechnologies.com/product/lithium/et-li-ion-battery/))
69. EGE 300K Online UPS - Esis Power
    · ESİS publishes the EGE 300K UPS proposition for applications including telecom, leaving exact procurement scope to the quotation. ([en.esis.com.tr](https://en.esis.com.tr/xx.xx-xx.xx-online-ups/ege-300k-online-ups.html))

70. Türk Telekom ve ASPİLSAN Enerji’den Yerli Lityum Batarya İş Birliği
    · ASPİLSAN's dated Türk Telekom cooperation announcement establishes a supplier-reported operator relationship, not universal ongoing qualification. ([aspilsan.com](https://www.aspilsan.com/en/turk-telekom-and-aspilsan-enerji-domestic-lithium-battery-collaboration/))

22.5. Benchmarking Analysis, 2025

A defensible benchmark compares the purchased obligation before comparing supplier breadth. ■■■■■■■■■■■ ■■■■■■■■■ ■■■■■ ■■■■■■■■■■■■■■ ■■■■■■■■■■■ ■ ■■■■■■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■ ■■■■■■■ ■■■■ ■■■■■■■■ ■■ ■■■ ■■■■■■■■ ■■■ ■■■■■■ ■■■■■■■■ ■■■■ ■■■ ■■■■■■■ ■■■■■ ■■■■■■■■■■■■ ■■■■ ■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■ For Customer-Premises Connectivity, the decisive benchmark is the protected device-and-service boundary together with warranty and continuing care-not a general backup label.

For institutional systems, compare an accepted battery replacement, a supported existing-plant upgrade, and a battery-inclusive package separately. Vertiv's cross-manufacturer service offering supports the upgrade comparison, while Delta Electronics, Inc.'s battery-family catalog supports component-level procurement. ■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■ ■■■■■■■ ■■■ ■■■■■ ■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■■■■■ ■■■■ ■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■ ■■■■■ ■■■ ■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■

Connected-fleet benchmarking should distinguish advertised functions from enforceable obligations. Polarium, Vision Group, and LEOCH describe monitoring or anti-theft capabilities; none of those descriptions establishes a comparative customer outcome. ■■■■■■■■■■ ■■■■■■■ ■■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■ ■■■■■■■■■ ■■■ ■■■■■ ■■■ ■■■■■■■■■■ ■■■■■ ■■■■■ ■■■■■■■■ ■■■■■■ ■■■■■■■■ ■■■ ■■■■■ ■■■■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■ ■■ ■■■■■■■■■■ ■■■ ■■■■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■■ ■■■ ■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■ ■■■■■ ■■■■■■■■■■ ■■ ■■■■■ ■■■■■■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■■■■■■ ■■■■■■■■■■■■■■■■■■

Some battery comparisons require current range and seller confirmation before substitution. For Saft, China Shoto, Sacred Sun, Exide Industries Limited, ZTT Group, UCB Power, Sunwoda, Pylontech, Gospower, NPP Power, Amaxpower International Group, BravaBattery, Eco Power Group, Coslight, Southern Batteries Private Limited, Propow Energy Co., Ltd., Saite Power Source (Vietnam) Co., Ltd., and BSB Power, current named-offering attribution and destination fulfillment remain material conditions. ■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■ ■■■■■■■ ■■■■■■■■■ ■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■ ■■■■■■■■■■ ■■■■ ■■■ ■■■■■■■ ■■■ ■■■■■ ■■■■■■■ ■■■■■■■■■■■■ ■■■■■ ■■■■■■■■■■ ■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■ ■■■■ ■■■■■■■■ ■■■■■■■■■■■■■■ ■■■■■■■■■■■■■

[illegible] Group affiliation or historical application evidence should not be extended automatically to an available destination-specific product. The buyer should obtain the current range, seller, and support commitment before treating a legacy or group-level proposition as an executable alternative.

Battery inclusion remains a decisive configuration question for Green Cubes Technology, OmniOn Power Inc., Shindengen Electric Manufacturing Co., Ltd., FSP Technology Inc., Kehua Data Co., Ltd., Schneider Electric, AEG Power Solutions, APS Energia S.A., Borri, Socomec, Statron AG, Sunlight Group, and Helios Power Solutions. [illegible] This distinction affects prime responsibility and prevents conversion-equipment breadth from being treated as complete backup fulfillment.

Regional equipment and integration attribution is also unresolved for A2Z Telecom Solutions Canada, ESPI Corp, Konnec Télécommunication, Arvio Technology, Magellan Power, PT. [illegible] A buyer should not transfer the continuing backup obligation to these counterparties without an explicit equipment-and-service scope.

Premises and channel comparisons require current product and platform attribution for Belkin International, Inc., Voltronic Power, Shenzhen Richroc Electronics Co., Ltd., Nology (Pty) Ltd, and Syntech. [illegible] Buyers should confirm the exact model, responsible seller, protected devices, and battery-care obligation before substituting a retail or private-label proposition for a provider-supported route.

For Mexican and Latin American counterparties, equipment supply must be distinguished from service execution. [illegible] Destination purchasers should obtain the responsible seller and equipment boundary before comparing these relationships with direct manufacturer supply.

ABM Limited and Scanpotec ApS introduce a separate service-coverage question: a stated manufacturer or service relationship does not establish a battery-inclusive telecom award or an enforceable commitment at the buyer's site. ■■ ■■■■■ ■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■■ ■■■■■ ■■■■ ■■■■■■■ ■■ ■■■■■ ■■■■■■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■ ■■■■ ■■■■■■■■ ■■ ■■ ■■■■■■■■■■■ ■■■■■■■■ These distinctions matter when the customer seeks one accountable continuity provider instead of a combination of equipment and separately contracted support.

■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■ ■■■■■ ■■■■■■■■■■■■■■ ■■■■ ■■■■■■■ ■ ■■■■■■■■■■ ■■■ ■■■■ ■■■■■■■ ■■■■■■■■ ■■■■ ■■■■■■■■ ■■■■ ■■■■ ■■■■■■■■ ■■■■■■ ■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■ ■■■■■■■■■■■ ■■■■■ ■■■■■ ■■■■■■■■ ■■■■ ■■■■■■■ ■■■■■■■■■■ ■■■■■■ ■■■■■ ■■■■■■ ■■■■■■ ■■■■■■■■■■■ ■■■■ ■■■■■ ■■■■■■■ ■■■ ■■■■ ■■■ ■■■■■■■■ ■■■■ ■■■■■■■■■■ ■ ■■■■■ ■■■■■■■■■■ ■■ ■■■■■ ■■■■ ■■■■■■■■■■■■■■■ Similar names, general battery activity, or power-system context do not establish the same legal seller or battery-inclusive telecom obligation. Commercial commitments should identify the exact counterparty, currently offered equipment, and continuing support before these businesses are treated as substitutes.

Several African and regional service relationships require a current equipment-versus-service boundary. Balancell, maxwell+spark, Metal Manufacturing Nigeria Limited, acmenetwork.net, EMATEL, United Batteries Co., Africa Global Equipments & Consulting, REVOV, BatteryDC (PTY) LTD, Goscor Lift Trucks, Ashmand, AlanDick East Africa, OTL, Chloride Exide (K) Ltd, Bergerat Monnoyeur Algérie, Redress Technology, Vajra Drill, Energize Lithium, Sewia Mining Ltd, Nextgen Networks Limited, and Traction Battery Services require named telecom equipment, seller, or supply-authority confirmation. ■■ ■■■■■■■■■■■■ ■■■■■■■■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■ ■■■■■■■■■■■■■■■■■■■ ■■■■■ ■■■■■■ ■■■ ■■■■■■■■■■■■■ ■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■ ■■■■■■ ■■■■■■■■■■■■■■■

Tele Service Co., Ltd., Genikos Technologies, Inc., MG EXEO, Lemcon Philippines Inc., and 1WAN require current equipment-supply and contractual-role confirmation before comparison with a manufacturer-owned system package. ■ ■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■ ■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■ ■■■■ ■■■ ■■■■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■ Purchasers should establish who buys the equipment, who approves replacement, and which counterparty remains responsible after handover.

First Battery and Dartcom require a supplier-continuity assessment rather than an ordinary catalog comparison. Metair's classification of First Battery Industrial as discontinued operations does not establish the closure of every First Battery activity or identify a continuing standby seller. ■■■■■■■■■ ■■■■■■■■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■ ■■■■■■■■ ■■ ■■■ ■■■■■■■■■ ■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■ ■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■ ■ ■■■■■■■■ ■■■■■ ■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■ ■■■ ■■■■■■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■ ■■■■■■■ ■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■ ■■■■■■■■■■■■■ ■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■■

Sources & Evidence

1. DC Power Services | Vertiv
   · The offering supports comparison of a supported existing-plant upgrade with a broader package. ([vertiv.com](https://www.vertiv.com/en-us/products/services/dc-power-services/))
2. Battery Backup | Meriwether Lewis Electric Cooperative
   · MLConnect's policy establishes a provider-specific compatibility and responsibility benchmark, not acceptance across all ISPs. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
3. Telecom & Network | Polarium
   · Connected functions are supplier-described capabilities, not independent comparative customer outcomes. ([polarium.com](https://polarium.com/telecom/))
4. Contact | Polarium
   · Polarium's contact record identifies Polarium Energy Solutions AB; it does not reconcile the different governance wording. ([polarium.com](https://polarium.com/contact/))
5. Investor Relations at Polarium
   · Polarium's governance text identifies Polarium Energy Systems AB, leaving a material naming inconsistency with the contact record. ([polarium.com](https://polarium.com/investor-relations/))
6. Products - Li-ion Battery Backup Systems - Delta
   · Delta's specific battery-family catalog supports a component-level procurement benchmark. ([deltaww.com](https://www.deltaww.com/en-US/products/telecom-battery-systems))
7. Telecom Backup Power Solution-LEOCH BATTERY
   · LEOCH's monitoring and anti-theft descriptions establish advertised functions rather than comparative customer outcomes. ([leoch.com](https://www.leoch.com/industries/network-power/telecom-backup-power))
8. Telecom Battery
   · The Vision description is supplier-reported capability positioning, not an independently established comparative outcome. ([vision-batt.com](https://www.vision-batt.com/en/solution/telecombattery.html))
9. Product Datasheets & Ordering Guides - Charles Industries, LLC · An Amphenol Company
   · Battery-backup cabinet listings do not establish battery inclusion in every cabinet quotation. ([charlesindustries.com](https://www.charlesindustries.com/support/resources/product-datasheets-ordering-guides/))
10. Building Systems - Sabre Industries, Inc.
    · The capabilities support an enclosure-versus-battery-inclusive scope benchmark rather than automatic complete-system attribution. ([sabreindustries.com](https://sabreindustries.com/building-systems/))
11. Telecom Power - DC UPS | CyberPower
    · The FTTx catalog establishes equipment positioning, not provider-specific acceptance or an equivalent battery-care obligation. ([cyberpower.com](https://www.cyberpower.com/global/en/product/overview/telecom-power/dc-ups))
12. Arquivos Para sua empresa: Telecom - TS SHARA
    · TS Shara maintains a telecom application page; that page alone does not establish a particular current battery-inclusive configuration. ([tsshara.com.br](https://tsshara.com.br/solucao/telecom/))
13. Aplicações - NHS Soluções em Nobreaks e Inversores Solares Híbridos
    · NHS lists telecom among applications, but the application page does not establish an exact battery-inclusive telecom package. ([nhs.com.br](https://nhs.com.br/aplicacoes/))
14. Construction and Electrical Engineering Contractors | ABM Bermuda
    · ABM states a manufacturer sales/service and turnkey UPS relationship; the record does not establish a particular current battery-inclusive telecom award. ([abm.bm](https://www.abm.bm/))
15. Industrielle Power Løsninger der sikrer dig | Scanpotec
    · Scanpotec describes backup-power and service-partner coverage, without establishing a named telecom battery-system purchase at a particular site. (scanpotec.dk)

16. Results for the six months ended 30 June 2026 - Metair Investments Limited

    · The industrial-business classification qualifies a live-catalog interpretation and leaves the continuing standby seller unresolved. ([metair.co.za](https://metair.co.za/latest_news/results-for-the-six-months-ended-xx.xx-june-2026/))

17. From R565.65 million to zero for South African fibre cable company - MyBroadband

    · The dated account leaves continuing battery fulfillment and successor distribution authority unresolved; no outcome is inferred from the elapsed scheduled date. ([mybroadband.co.za](https://mybroadband.co.za/news/fibre/xx.xx-from-r565-xx.xx-million-to-zero-for-south-african-fibre-cable-company.html))

23. Company Profiles

23.1. EnerSys

EnerSys provides named alternatives for battery-focused telecom procurement. PowerSafe SBS is a lead-based offering for applications including small cells, macro cells, and central offices; PowerSafe NiCd addresses telecommunications, central offices, switching centers, and outside plant. ■■■■ ■■■■ ■■■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■ ■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■■ ■ ■■■■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■ ■■■ ■■■■■■■■■ ■■■■ ■■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■■■■■■■■ ■■ ■■■■■■■■ ■■ ■■■ ■■■■ ■■■■■■■■■

Its lifecycle proposition is separately consequential. ■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■ ■■■■■■ ■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■ ■■ ■■■■■■■■■■■■ ■■■■■■■■■■■ ■■ ■■■■■■■■■ ■■■■■■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■ ■■ ■■■■■■■■■ ■■ ■■■■■ ■■■ ■■■■■■■ ■■■■■■■ ■■■ ■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■ ■■■■■■■■■■■■■■ ■■■■■■■■■■■■■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■ ■■ ■■■■■ ■■■■■ ■■■■ ■■■ ■■■■■■■ ■■■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■ ■■■■ ■■■■ ■■■ ■■■■ ■■■■■■■ The documented lead-acid collection scope should not automatically be extended to PowerSafe NiCd.

For an existing network asset owner, the defensible comparison is an accepted battery replacement with separately assigned service and end-of-life obligations versus a broader infrastructure purchase. ■■■■■■■ ■■■■■■■■■■■■ ■■ ■■■ ■■■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■■■■■■■ ■■■■■■ ■■■■■■ Retaining existing infrastructure can preserve purchasing flexibility, while a broader contract may consolidate responsibility; neither benefit follows from the battery catalog alone.

Sources & Evidence

1. PowerSafe SBS Batteries | EnerSys
   · EnerSys lists PowerSafe SBS for telecom applications, including small cells, macro cells, and central offices or switching centers, and provides a quotation route. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-sbs/))
2. Recycling | EnerSys
   · EnerSys advertises manufacturer-independent spent lead-acid collection and recycling documentation in North and Central America and South America; the UK-facing page states local unavailability. ([enersys.com](https://www.enersys.com/en-gb/products/services/after-market-services/recycling/))
3. PowerSafe NiCd Batteries | EnerSys
   · EnerSys lists PowerSafe nickel-cadmium batteries for telecommunications, central offices or switching centers, and outside plant, with a manufacturer quotation route. ([enersys.com](https://www.enersys.com/en/products/batteries/powersafe/powersafe-nicd/))
4. EnerSys 2026 Proxy Statement and Annual Report
   · Company verification: EnerSys's fiscal 2026 annual report establishes continuing consolidated operations and an Energy Systems business supplying power conversion, distribution, energy storage, and enclosures to telecommunications and broadband customers. ([s206.q4cdn.com](https://s206.q4cdn.com/xx.xx/files/doc_financials/2026/ar/b317caf6-56f8-42fa-bea1-bf685eb4132a.pdf))
5. Communications Network Power Solutions | EnerSys
   · Company verification: EnerSys publicly offers power and energy-storage solutions for communications networks, including central offices, macro cells, and small-cell infrastructure.

6. PowerSafe SBS EON Technology Batteries - Tescom UPS
   · Company verification: Tescom lists EnerSys PowerSafe SBS EON batteries in its Turkish commercial catalog, establishing a regional channel reference rather than a separate manufacturer identity.
7. EnerSys PowerSafe SBS EON VRLA Battery - Seven Star LLC
   · Company verification: Seven Star LLC's specific product listing provides an Omani channel record for EnerSys PowerSafe SBS EON batteries; it establishes offered availability, not completed shipments.

23.2. Vertiv

Vertiv offers a broader procurement object than a battery alone. ■■■ ■■■■■■■ ■ ■■■■■■ ■■ ■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■ ■■■■■■■■■ ■■■■■■■■■ ■ ■■■■■■■■■■■■ ■■■■■■■■ ■■■■ ■■ ■■■■■■ ■■■■■■■■■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■ ■■■■■■■■ ■■■ ■■■■ ■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■■ A buyer must nevertheless identify which options are included in the quoted package rather than assume that every enclosure sale includes complete backup responsibility.

■■■■■■■■ ■■ ■■ ■■■■■ ■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■ ■■ ■■■■■■■■■■■ ■■■■■■■■■ It explicitly describes circumstances in which replacing an entire DC plant may be unnecessary. This supports an upgrade alternative for existing infrastructure without establishing universal compatibility or continuing warranty acceptance.

Network buyers can therefore request comparable bids for a supported upgrade and a battery-inclusive complete-system package. ■■■ ■■■■■■■ ■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■ ■■■■■■■ ■■■■■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■■■ ■■■■■■■■ ■■■■■■■■■■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■■■■■■■■ ■■■■■■■ ■■ ■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■ ■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■■■■■■■■■ EMEA product descriptions and US service offerings should not be treated as one globally enforceable delivery commitment.

Sources & Evidence

1. Vertiv NetSure M Series
   · Vertiv's EMEA NetSure M Series portfolio describes integrated outdoor telecom enclosures with DC power, climate-management, distribution, and lithium-ion or lead-acid battery options. ([vertiv.com](https://www.vertiv.com/en-emea/products-catalog/facilities-enclosures-and-racks/outdoor-enclosures/netsure-m-series/))
2. DC Power Services | Vertiv
   · Vertiv's US DC Power Services page offers projects across manufacturers, maintenance, and upgrade or replacement support, including alternatives to replacing an entire DC plant. ([vertiv.com](https://www.vertiv.com/en-us/products/services/dc-power-services/))
3. Vertiv Annual Report 2025
   · Company verification: Vertiv's 2025 annual report identifies Vertiv and NetSure among its brands, establishes continuing consolidated operations, and identifies communications networks as a principal customer market for its power-management and energy-storage offerings. ([s205.q4cdn.com](https://s205.q4cdn.com/xx.xx/files/doc_financials/2025/ar/Vertiv-2025-Annual-Report.pdf))
4. Integrated Power Management Systems | Vertiv
   · Company verification: Vertiv markets Integrated Power Management Systems specifically for telecom equipment, coordinating grid, battery, and generator energy sources.

5. Lithium Batteries for Telecom
   · Company verification: Vertiv's July 2022 commercial datasheet identifies lithium batteries for telecom applications and compatibility with its NetSure power-system portfolio.

23.3. Ericsson

Ericsson participates through a network-OEM relationship rather than only standalone battery sales. Its Site energy storage portfolio lists lithium-ion battery systems for RAN applications and ancillaries for lithium-ion and VRLA batteries. ■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■ ■■■■■ ■■■■■■■■■■ ■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■ ■■■■■■ ■■■■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■ ■■■■■■■■■■■ ■■■■■ ■■■ ■■■■■■■■■■ ■■■■■ ■ ■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■■■■ ■■ ■■■■■■■■■■■ ■■■■■■■■■■

A dated commercialization example strengthens the equipment proposition. ■■ ■■■■■■ ■■■ ■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■ ■■■ ■■■■■■ ■ ■■■■■■■■■ ■■■■■■■■ ■■■ ■■■■ ■■■■■■■■■■ ■■ ■■■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■ ■■■■■■■■ ■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■ ■■■ ■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■ This is a reported deployment, not merely a future launch target, but it remains a Swisscom-specific example rather than proof of equivalent acceptance elsewhere.

For operators modernizing RAN sites, an Ericsson-led package may align backup purchasing with the network-management relationship. Separate battery procurement offers more supplier choice but leaves the buyer to resolve equipment acceptance and service interfaces. ■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■■ ■■■ ■■■■■■■■■■ ■■■ ■■■■■■■ ■■■ ■■■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■■ ■■ ■■■ ■■■■■■■ ■■■■■ ■■■■■■■■■■■ ■■■■■■ ■■ ■■■■■■■■■ ■■■■■■■■ ■■ ■■■ ■■■■■■■■■■■■ ■■ ■■■■■ ■■■■■■■ ■■■■■■■■

Sources & Evidence

1. Site energy storage - Ericsson
   · Ericsson's Site energy storage portfolio lists lithium-ion systems for RAN sites and ancillaries for lithium-ion and VRLA batteries; it describes Ericsson-approved systems without identifying every battery's manufacturer. ([ericsson.com](https://www.ericsson.com/en/portfolio/networks/ericsson-radio-system/radio-site-system/site-energy-storage2))
2. Managed Network Services: Empowering networks - Ericsson
   · Ericsson advertises multivendor network and field operations and Energy Infrastructure Operations as managed-service offerings. The portfolio description does not assign customer-specific battery purchasing authority. ([ericsson.com](https://www.ericsson.com/en/managed-services))
3. Ericsson and Swisscom launch next-gen intelligent power platform
   · Ericsson's April xx.xx 2026 announcement reports introduction of its Energy & Enclosure platform in Swisscom's network, combining power systems, energy storage, enclosures, and centralized site-energy management. ([ericsson.com](https://www.ericsson.com/en/press-releases/xx.xx/2026/ericsson-and-swisscom-launch-next-gen-intelligent-power-platform))
4. Energy Ancillary - Ericsson
   · Company verification: Ericsson's site-energy portfolio identifies Ericsson battery systems and ancillaries for lithium-ion and VRLA batteries in RAN sites.

5. Ericsson Site Energy Management and Optimization
   · Company verification: Ericsson documents battery-backed site-energy management and a commercial Deutsche Telekom 5G site application.

23.4. Polarium Energy Solutions AB

Polarium Energy Solutions AB's market-facing proposition combines modular telecom battery backup with connected fleet services. Polarium advertises Connected Batteries with native cellular connectivity and Polarium Cloud integration, including remote monitoring, support, updates, and anti-theft functions. ▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪

The related Polarium Care offering adds operations, maintenance, and lifecycle services, including extended-warranty positioning. ▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪ Owners retaining their own monitoring arrangements should establish which services and warranties apply without the broader package; a hardware purchase should not be assumed to include every advertised service.

Contracting attribution remains unresolved. ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪▪ ▪ ▪▪▪▪▪▪▪▪▪ ▪▪ ▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪ ▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪▪▪▪▪▪▪ ▪▪ ▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪ ▪▪▪▪▪ ▪▪▪▪▪▪▪▪▪▪▪▪▪ Before committing a fleet purchase or ongoing cloud relationship, obtain authoritative registration confirmation and identify the entities responsible for equipment warranty and digital services.

Sources & Evidence

1. Telecom & Network | Polarium
   · Polarium markets modular telecom battery backup and Connected Batteries with cellular connectivity and Polarium Cloud integration. These are supplier-described capabilities rather than independent outcome evidence. ([polarium.com](https://polarium.com/telecom/))
   · Company verification: Polarium markets modular battery-backup solutions for telecom networks, including Polarium Battery and Connected Batteries.
2. Connected Batteries - Polarium
   · Polarium advertises cloud-linked Connected Batteries with remote monitoring, support, updates, warranty-management functions, and anti-theft features; the page does not specify a customer's enforceable service terms. ([polarium.com](https://polarium.com/connected-batteries/))
3. Polarium Care - Our Services
   · Polarium Care advertises operations, maintenance, lifecycle management, and extended-warranty services, supporting a distinction between battery ownership and additional service commitments. ([polarium.com](https://polarium.com/services/))

4. Contact | Polarium
   - Polarium's contact page identifies Polarium Energy Solutions AB and offers telecom quotation and partner or reseller routes. It does not reconcile the Systems AB wording elsewhere. ([polarium.com](https://polarium.com/contact/))
   - Company verification: Polarium's official contact page identifies Polarium Energy Solutions AB and registration number xx.xx-xx.xx supporting the retained name without resolving the conflicting Systems AB wording elsewhere on its website. ([polarium.com](https://polarium.com/contact/))
5. Investor Relations at Polarium
   - Polarium's investor-relations governance text names Polarium Energy Systems AB, while its footer names Polarium Energy Solutions AB, leaving a corporate-name inconsistency unresolved. ([polarium.com](https://polarium.com/investor-relations/))
   - Company verification: Polarium's investor-relations page describes its telecom energy-storage business but identifies the legal company as Polarium Energy Systems AB.
   - Company verification: That wording conflicts with the staged Polarium Energy Solutions AB title and the captured May 2025 company announcement; the page does not establish whether a legal rename occurred.
6. Polarium Introduces Connected Batteries: Revolutionizing Fleet Management and Anti-Theft
   - Company verification: The May xx.xx 2025 company announcement identifies Polarium Energy Solutions AB and its Stockholm address.
   - Company verification: The announcement introduces Connected Batteries for telecom fleet management and battery installations.

23.5. Battery Energy Power Solutions

Battery Energy Power Solutions offers an Australian route combining battery supply with communication-power integration. Its telecom portfolio lists PowerLYTE, SunGEL Ultra, and EnerLIFE products alongside turnkey supply, installation, maintenance, project-management, and remote-monitoring capabilities. ■■■■ ■■■■■■■■ ■ ■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■ ■■■■ ■■ ■■■■■■■■■■ ■■■■ ■■■■■■ ■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■■ ■■■ ■■■ ■■■■■■■■■■■ ■■■■■ ■■■■■■■■■■■■■■■

■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■ ■■■■ ■■■■■■■■■■■ ■■ ■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■■■ ■■■■■■■■ ■■■■■■ ■■■■■■■■■ ■ ■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■ ■■■■■ ■■■■■■ ■■■■■■ ■■ ■■■■■■■■■■ ■■■ ■■■■■ ■■■ ■■■■■■■■■■■■■■■■■ ■■■■■■■■■■■■■■ ■■■■■ ■■■■■■■■■ ■ ■■■■■■■■ ■■■■■■■■■■■■■■■■■ ■■■■■■■■ ■■■■■ ■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■ The unnamed customer and undated case do not independently establish contemporary purchasing terms or generalized customer outcomes. Moreover, the telecom portfolio labels its standalone DC Power Solutions entry as coming soon, which cautions against treating every advertised package as immediately available.

Australian infrastructure buyers can request a Battery Energy prime-contract proposal when regional coordination is important, conditional on confirmation of the exact Enatel relationship and available bundle. The bid should identify the responsible seller, battery and DC-system warranty allocation, installation acceptance, and continuing support. ■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■ ■■■■■■■■ ■ ■■■■■ ■■■■■■■■■■■ ■■■■■ ■■■ ■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■ ■■ ■■ ■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■ ■■■■ ■■■ ■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■■■■ ■■■■■■■■■ ■■ ■■■■■■■ ■■■■■■■■■

Sources & Evidence

1. Telecommunications - Power solutions | Battery Energy Australia
   · Battery Energy's telecom portfolio lists PowerLYTE, SunGEL Ultra, and EnerLIFE, alongside turnkey and maintenance capabilities; its standalone DC Power Solutions entry is labeled coming soon. ([batteryenergy.com.au](https://www.batteryenergy.com.au/applications/telecommunications))
   · Company verification: Battery Energy Power Solutions offers telecom batteries and turnkey communication-power solutions in Australia.
   · Company verification: Its telecom portfolio identifies PowerLYTE, SunGEL Ultra, and EnerLIFE battery products.
2. Battery Energy Power Solutions + Enatel Energy
   · Battery Energy Power Solutions announced signing a strategic partnership agreement with Enatel Energy on September xx.xx 2020; that dated record does not establish contemporary contractual terms. ([batteryenergy.com.au](https://www.batteryenergy.com.au/news/strategic-partnership-enatel-battery-energy))
3. Major Mobiles Carrier - Case studies | Battery Energy Australia
   · Battery Energy's unnamed mobile-carrier case describes a combined package involving Enatel power-management equipment and Battery Energy PowerLYTE+ batteries; the account is supplier-authored. ([batteryenergy.com.au](https://www.batteryenergy.com.au/case-studies/5g-network))
4. Battery Energy and Enatel Case Study
   · Company verification: The partnership case study identifies Battery Energy Power Solutions as Enatel's Australian partner serving telecommunications and other infrastructure applications.

23.6. Moura

Moura's stationary-battery portfolio explicitly addresses telecommunications and telephone exchanges, including the MF, MO, and MX ranges. ■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■ ■■■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■■■ ■■ ■■■■ The distinction is commercially useful: battery sourcing, destination service, and end-of-life collection can be evaluated together without assuming they are automatically included in every purchase.

The Argentina-facing catalog provides a separate regional access record. ■■ ■■■■■ ■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■■ ■■■ ■■■■■■■■■■■■ ■■■■■ ■■■■ ■■■■■ ■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■ ■■ ■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■ ■■■■■■■■ ■■ ■■■■■■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■■■■ ■■ ■■■■■■■■ ■■■■■ ■■■■■■■■■■ ■■■■■ ■■■■■■■■■ Regional branding and catalog coverage do not identify every destination's responsible seller.

Buyers considering Moura should obtain a destination-specific commitment covering the selected battery, local support, and PAM eligibility and documentation. Coordinating replacement and collection may reduce separate contracting, but can introduce supplier-specific conditions compared with independent lifecycle services. ■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■ ■ ■■■■■■■■■ ■■■■■■■■■■

Sources & Evidence

1. Baterias Estacionárias | Moura
   - Moura's Brazilian stationary portfolio identifies telecom and telephone-exchange applications, MF, MO, and MX ranges, South American distribution and service positioning, and PAM reverse logistics. ([moura.com.br](https://www.moura.com.br/produtos/estacionarias))
   - Company verification: Moura's official stationary-battery portfolio explicitly includes telecom and telephone-exchange applications.
   - Company verification: The portfolio includes MF, MO, and MX battery ranges.
2. Baterias Estacionarias - Moura Baterías
   - Moura's Argentina-facing stationary catalog lists telecom applications and PAM collection linked to replacement purchasing; its footer identifies Acumuladores Moura S.A., without establishing uniform regional contract terms. ([moura.com.ar](https://www.moura.com.ar/productos/estacionarias))
   - Company verification: Moura's Argentina stationary-battery portfolio expressly includes telecom and telephone-exchange applications.
   - Company verification: This establishes an Argentina-facing commercial offering under the existing Moura identity, not another independent company.

23.7. Precision Group

Precision Group's Precision Power portfolio includes Micro UPS, FTTx backup products, telecom batteries, and rack-mounted lithium batteries. It advertises product-specific warranties and US-based onsite and remote support. ■■■■■ ■■■■■■■■■ ■■■■ ■■■■■■■■ ■■■ ■■■■■■■ ■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■■ ■ ■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■

■■■■■■■■■ ■■■■■■■■ ■ ■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■ ■■■■■■■■■ ■■■■■ ■■■■■ ■■■ ■■■ ■■■ ■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■■■■ ■■■ ■■■■■■■■■■■ ■■ ■■■■■■■■ ■■■■ ■■■■■■■■■ ■■■■■■ Its policy distinguishes phone backup from powering the ONT and residential gateway together. It assigns battery replacement and disposal to the customer and excludes the backup and batteries from the MLConnect Service Plan.

For customers on that platform, seller choice therefore does not transfer continuing battery stewardship to the connectivity provider. Confirm the exact model and protected services before purchasing. ■■■■■ ■■■■ ■■■■■■ ■■■■■■■■■ ■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■ ■■■■ ■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■■■ ■■■ ■■■■■■■ ■■■■■ ■■■■ ■■ ■■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■

Sources & Evidence

1. Battery Backup | Meriwether Lewis Electric Cooperative
   - MLConnect recommends Precision Power for its ONT, permits cooperative or direct purchases, distinguishes protected-device configurations, assigns battery care to customers, and excludes backup from its service plan. ([mlec.com](https://mlec.com/mlconnect/battery-backup/))
   - Company verification: MLConnect identifies Precision Power equipment as its compatible ONT battery-backup purchase option.
   - Company verification: States that units and replacement batteries can be purchased through the cooperative or directly from Precision Power.

2. Precision Power Products - Precision Group
   - Precision Group lists Micro UPS, FTTx products, telecom batteries, and rack-mounted lithium batteries, and advertises product-specific warranties plus US-based onsite and remote support. ([goprecisiongroup.com](https://goprecisiongroup.com/precision-power-products/))
   - Company verification: Identifies Precision Group's Precision Power commercial portfolio.
   - Company verification: Lists Micro UPS, telecom batteries, rack-mounted lithium batteries, and FTTx backup products.

23.8. HORIEN Salt Battery Solutions

HORIEN Salt Battery Solutions provides a commercially identified Sodium-Based alternative for telecom backup. ■■■ ■■■■■■■ ■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■■■■■■■■■■■ ■■■■■■■ ■■■ ■■■■■■■■■■■■■■■■■■ ■■■■■■■ ■■■■■ ■■■■■■ ■■■■■ ■■■■■■■ ■■■■■ ■■■■■■ ■■ ■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■ ■■■■ ■■■■■■■■ ■■■ ■■■■ ■■■■■ ■■■ ■■■■■■■■ ■ ■■■■■■■■■ ■■■■■■■ Together these establish a named supplier and channel proposition, not verified stock, customer acceptance, or superior field performance.

■■■ ■■■■■■■ ■■■■■■■■■■■■ ■■ ■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■ ■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■ ■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■ ■■ ■■■ ■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■ ■■■■■■■■■ ■ ■■■■■■■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■■ ■■■ ■■■■■■■■■■■■ ■■■■■■ ■■■■■■■■■■■ ■■■■■■■ ■■■■A. in Italy. These records support branding and commercial contact attribution, but do not fully establish the Italian and Swiss entities' respective seller, warranty, or ownership roles.

Network buyers can compare a quoted TL Range proposition with accepted Lead-Acid or Lithium-Based alternatives when considering a change in battery category. ■■■■■■ ■■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■ ■■■ ■■■■■ ■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■ ■■■■■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■ ■■■■■■■■ ■■■■■ ■■■ ■■■■■■■■ ■■■■■■■ ■■■ ■■■ ■■■■■■■ ■■■■■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■ ■■■■■■■■■■■■■■ Former branding should not be used to assign contracts to FIAMM Energy Technology or assume common ownership.

Sources & Evidence

1. HORIEN Salt Battery Solutions and Inlyte Energy Announce a Strategic Partnership
   - HORIEN's March xx.xx 2025 company statement describes sodium-metal-chloride storage and telecom backup and identifies the business as formerly FZSoNick. ([horien.com](https://horien.com/wp-content/uploads/2025/xx.xx/Press-Release_HORIEN-Inlyte-International-Version.pdf))
2. HORIEN TL Range | Telecom Batteries | Alpine Power Systems
   - Alpine Power Systems lists HORIEN TL Range sodium-metal-chloride batteries for telecom base stations and core sites and provides a quotation route; this is a reseller proposition, not confirmed fulfillment. ([alpinepowersystems.com](https://alpinepowersystems.com/products/fzsonick-tl-range-batteries))

3. About - HORIEN - Salt Battery Solutions
   - HORIEN describes a Switzerland-based business formerly FZSoNick and part of HORIEN; its commercial footer identifies SoNick S.p.A. in Italy, without resolving all seller or ownership relationships. ([saltbattery.horien.com](https://saltbattery.horien.com/about/))
   - Company verification: HORIEN's specific company page describes HORIEN Salt Battery Solutions as formerly FZSoNick and part of HORIEN; its commercial footer identifies SoNick S.p.A. This supports branding and group continuity without establishing ultimate ownership or common ownership with FIAMM Energy Technology. ([saltbattery.horien.com](https://saltbattery.horien.com/about/))
4. Service - HORIEN - Salt Battery Solutions
   - HORIEN advertises installation, maintenance, repair, remote support, and recycling services; its after-sales description makes maintenance and repair dependent on the signed contract. ([saltbattery.horien.com](https://saltbattery.horien.com/service/))
5. TL Range - HORIEN Salt Battery Solutions
   - Company verification: HORIEN's TL Range page expressly markets telecom backup batteries.
   - Company verification: The commercial footer identifies SoNick S.p.A. in Italy; it does not establish ultimate ownership or a relationship to FIAMM Energy Technology.

23.9. Gulf Horizon Telecom

Gulf Horizon Telecom advertises a Saudi Arabian route to telecom battery rental as well as purchase. ■■■ ■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■■ ■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■ ■■■ ■■■■■■■■■■■ ■■■■■■■■ ■■■■■ ■■■■■■■■ ■■■■ ■■■ ■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■■ ■■■ ■■■■■■■■■■■ ■■■■■■■■■■■ ■■ ■■■■■■■■■ ■■■■■■■■■ ■■■■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■ ■■■ ■■ ■■■■■■■■■ ■■■■■■■■■ ■■ ■■■■■■■ ■■■■■■ ■■■■■■■■■ The undated listings establish an advertised offering rather than equipment availability for a particular maintenance window.

A telecom buyer considering rental should obtain a written commitment covering the registered contracting seller, accepted battery offering, delivery window, servicing, replacement remedies, removal, and return obligations. ■■■■■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■ ■■■■■■■ ■■■■■■■■■■■■ ■■■■■■ ■■■■■■■ ■■ ■■■ ■■■■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■ ■■■■■■ ■■ ■ ■■■■■■■■■■ ■■■■■■ ■■■■ ■■■■■ ■■■■■■■■■■■■ ■■■■■ ■■■■ ■ ■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■ ■■■ ■■■■■ ■■■■■■■ ■■ ■■■■■■ ■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■■ ■■ ■■■■■■■■ ■■■■■■■■■■ ■■ ■■■■■■■■■ ■■■■■■■■■■ ■■■■■■ ■■■■■■■■■■ ■■ ■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■■■■ ■■■■■■ Neither route should be treated as a finance lease or an enforceable continuity service solely because it appears in the catalog.

Sources & Evidence

1. Industrial Battery Rental & Sales in Saudi Arabia | Gulf Horizon Telecom
   - Gulf Horizon Telecom advertises VRLA rental for telecom backup during temporary outages and maintenance windows, and telecom batteries through rental or purchase in Saudi Arabia. These are catalog propositions, not executed customer obligations. ([gulfhorizontele.com](https://www.gulfhorizontele.com/battery-solutions-saudi-arabia))
   - Company verification: Gulf Horizon Telecom offers industrial batteries for rental and purchase across Saudi Arabia.
   - Company verification: Its dedicated offering includes telecom battery backup and VRLA or lithium batteries for telecom sites.

2. VRLA Battery Rental & Sales in Saudi Arabia | Gulf Horizon Telecom
   · The official VRLA listing identifies telecom towers among its applications and directs customers to request availability. It supports the advertised product category, not a dated delivery or servicing commitment. ([gulfhorizontele.com](https://www.gulfhorizontele.com/en/battery-solutions-saudi-arabia/vrla-%28sealed-lead-acid%xx.xx-batteries))
3. Lithium-Ion Battery Rental & Sales in Saudi Arabia | Gulf Horizon Telecom
   · Gulf Horizon Telecom's lithium-ion listing identifies telecom towers as an application and provides an inquiry route for availability. The profile does not adopt its promotional performance claims as independently established outcomes. ([gulfhorizontele.com](https://www.gulfhorizontele.com/en/battery-solutions-saudi-arabia/lithium-ion-batteries))

23.10. IPT PowerTech Group

IPT PowerTech Group offers an energy-service relationship distinct from battery purchase or temporary rental. ■■■ ■■■■■ ■ ■■■■■■■ ■■ ■ ■■■■■■■ ■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■■■■ ■■ ■■■ ■■■■■■ ■■■■■■■ ■■ ■■■■ ■■■■ ■■■■■■■■■■■■■■■■■ ■■ ■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■ ■■■ ■■■■■ ■■■■■■ This can shift equipment ownership and upkeep to the service provider, but the wider energy arrangement must not be equated automatically with a dedicated telecom backup commitment.

IFC identifies IPI Group Holding Limited as the project company in its IPT financing disclosure and distinguishes long-term T-ESCO contracts from telecom contracting and battery-system supply. ■■■■■ ■■■■■ ■■■ ■■■■ ■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■■■■■■■■■ ■■ ■■■■■■■ ■■■■■■ ■■■■■■■ ■■ ■■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■ ■■■■■■ It establishes a financed expansion initiative, not completion of every deployment or a uniform service commitment across those countries.

■■■■■■■■■ ■■■■■■ ■■■■■■■ ■■■■■ ■■■■■■■ ■■■■■ ■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■■■■■■■ ■■■■ ■■■■■■■■■ ■■ ■■■ ■■■■■■■■■■ ■■■■ ■■■■ ■■ ■■■■■■■■■ ■■■■■■■■■■■■■■ ■■■■■■ ■■■■■■■ ■■■ ■■■■ ■■ ■■■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■■■■ ■■■■■■■■■■■■■■■ ■■■■■■■■ ■■■■■■ ■■ ■■■ ■■■■■■■■■■■■ ■■■■■ ■■■ ■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■■■■■ ■■■ ■■■ ■■■■■■■■ ■■■■■■ Before committing to the service route, the buyer should identify the local contracting entity, protected telecom service, outage remedies, asset-control rights, and end-of-contract arrangements. Broader provider accountability comes with a longer commercial relationship and less direct asset control; group financing does not substitute for enforceable local fulfillment.

Sources & Evidence

1. IFC Summary of Investment Information - IPT PowerTech, Project 49095
   · IFC identifies IPI Group Holding Limited as the project company and distinguishes IPT's long-term energy-service contracts, telecom services, and power products including battery systems. Its project description concerns modernization, maintenance, and operation in Ethiopia, Sierra Leone, and Liberia. ([disclosures.ifc.org](https://disclosures.ifc.org/project-detail/SII/xx.xx/ipt-powertech))
   · Company verification: IFC's project disclosure identifies IPI Group Holding Limited and describes IPT PowerTech's battery-system, telecom-service and T-ESCO businesses.
   · Company verification: The disclosure identifies private owners and expansion activity in Ethiopia, Liberia and Sierra Leone.
   · Company verification: The record was last updated June xx.xx 2026.

2. Solar & Battery as a Service - IPT Website
   - IPT advertises installation, ownership, and maintenance of solar and battery systems under its Solar & Battery as a Service proposition. It identifies telecom and other users and advertises consumption-based or fixed-payment agreements. ([iptpowertech.com](https://iptpowertech.com/solutions/solar-battery-as-a-service))
   - Company verification: IPT PowerTech markets Solar and Battery as a Service for telecom users.
   - Company verification: The offering states that the company installs, owns, and maintains the energy systems.
3. IFC Supports IPT PowerTech to Deliver Clean Telecom Power Across Ethiopia, Liberia, and Sierra Leone
   - IFC's March xx.xx 2026 announcement establishes financing supporting modernization, operation, and maintenance of solar-and-battery telecom energy systems in Ethiopia, Liberia, and Sierra Leone. Its anticipated benefits do not establish completed fulfillment at every site. ([ifc.org](https://www.ifc.org/en/pressroom/2026/ifc-supports-ipt-powertech-to-deliver-clean-telecom-power-across-ethiopia-liberia-))
   - Company verification: IFC's March xx.xx 2026 announcement establishes financing for IPT PowerTech's solar-and-battery telecom energy expansion in Ethiopia, Liberia and Sierra Leone.
   - Company verification: The announcement describes supported modernization rather than proving every deployment completed.
4. About IPT PowerTech
   - Company verification: IPT PowerTech's official history describes beginning operations in Lebanon supplying telecom batteries and power systems.
   - Company verification: The profile identifies IPT PowerTech Group's Beirut business address and its later telecom energy-system activities.
5. Battery Energy Storage Systems - IPT Website
   - Company verification: IPT PowerTech offers battery energy-storage systems for telecom backup.
   - Company verification: Its business page reports an African footprint including Nigeria and South Africa.

23.11. Phinergy

Phinergy markets aluminum-air backup systems to telecom operators and tower companies, with remote monitoring included in its proposition. Its distinct contribution is a Metal-Air backup alternative, not established interchangeability with an already accepted rechargeable battery offering. [redacted]

Its first-half 2026 disclosure reports a March xx.xx 2026 agreement and an initial demonstration purchase by Swisscom Broadcast AG. The arrangement envisages Swisscom as a Swiss-market distributor and operator providing customer support; further purchasing intentions are nonbinding. [redacted]

Regional commitment requires separate scrutiny. [redacted]

■■■■■■■■■■ ■■■■ ■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■■ A local partner can coordinate support, but only an agreed service allocation resolves the additional counterparty relationship.

Sources & Evidence

1. Energy Backup | Phinergy
   - Phinergy markets aluminum-air backup to telecom operators and tower companies and describes remote monitoring and control. This supports a named Metal-Air proposition, not independently established equivalence or superior performance. ([phinergy.com](https://phinergy.com/solutions/energy-backup/))
   - Company verification: Phinergy markets aluminum-air backup systems for telecom operators and tower companies.
2. Phinergy Ltd. Report for the First Half Ended June 30, 2026
   - Phinergy's first-half 2026 report discloses the March xx.xx 2026 Swisscom agreement, an initial demonstration purchase, envisaged distribution and support roles, and nonbinding further purchasing intentions. It also references Cellcom service and reduced Indian joint-venture activity following a focus on data centers. ([ir.phinergy.com](https://ir.phinergy.com/wp-content/uploads/2026/xx.xx/%D7%xx.xx%D7%xx.xx%D7%xx.xx-%D7%A8%D7%xx.xx%D7%A2%D7%xx.xx%D7%9F-xx.xx%D7%xx.xx%D7%A6%D7%xx.xx-%D7%A9%D7%A0%D7%AA%D7%xx.xx-%D7%9C%D7%A9%D7%A0%D7%AA-2026-.pdf))
3. Phinergy Immediate Disclosure Regarding Swisscom Broadcast AG, July 9, 2026
   - Phinergy's July xx.xx 2026 mandatory disclosure states that discussions concerning subsequent commercial stages with Swisscom Broadcast AG were continuing. Further Swiss deployment is described as a forward-looking possibility, not a completed rollout. ([ir.phinergy.com](https://ir.phinergy.com/wp-content/uploads/2026/xx.xx/P1755536-xx.xx.pdf))
4. Company - Phinergy
   - Company verification: Phinergy's official profile identifies its Israeli origin and public listing on the Tel Aviv Stock Exchange.
   - Company verification: The company describes metal-air energy-backup systems.
5. Phinergy Announces the Appointment of Emmanuel Levy as CEO
   - Company verification: Phinergy's May xx.xx 2024 announcement explicitly refers to its commercial telecom activities in Israel and Europe.

23.12. Exicom Tele-Systems Limited

Exicom Tele-Systems Limited markets its EXTB lithium telecom-battery family for base stations, edge sites, and FTTx infrastructure. This establishes a named battery proposition distinct from its broader critical-power portfolio. ■■■■■■ ■■■ ■■■■■■■■■ ■■■■■■■ ■■■■■■■ ■■■■■■■■■■■ ■■■■■■■■■ ■■■■ ■ ■■■■■■■■■■■ ■■■■■■■■ ■■■■■■ ■■■■ ■■■■■■ ■■■■ ■■■■■■ ■■■■■■■ ■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■ ■■■■ ■■■■■■■■■

Exicom's May xx.xx 2026 announcement reports an order for DC power systems from an unnamed Indian telecom customer, scheduled for delivery in fiscal 2027, alongside critical-power export activity in Africa, the Middle East, and Southeast Asia. That announcement does not establish battery inclusion or completed delivery of the reported order. ■■■■■■■■ ■■■■■■■■■■■■■■ ■■■■■■■■ ■■■■ ■■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■■■■■■■■ ■■■■■ ■■■■■■■ ■■■■■■■■■■■■

■■■■■■ ■■■■■■ ■■■■■■ ■■■■■■■ ■■■■■■■■ ■■■■■■ ■■■ ■■■■ ■■■■■■ ■■■ ■■■ ■■■■■ ■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■ Battery-only procurement preserves existing plant responsibilities; a broader bundle can consolidate obligations if the contract actually assigns them. Export buyers should

obtain a named local seller and service commitment rather than infer telecom-battery support from the company's wider export activity.

Sources & Evidence

1. Telecom Batteries | Critical Power Solutions by Exicom
   - Exicom lists named EXTB lithium telecom batteries and identifies base stations, edge sites, and FTTx deployments as applications. The portfolio establishes battery participation separately from a broader power-system contract. ([exicom.com](https://www.exicom.com/product-family/telecom-batteries))
   - Company verification: Exicom publicly offers its EXTB telecom-battery family for battery backup at base stations, edge sites, and FTTx infrastructure.
2. Exicom Delivers its Strongest Quarter of FY26 as Both Businesses Return to Sharp Growth
   - Exicom's May xx.xx 2026 announcement identifies Exicom Tele-Systems Limited and reports an Indian telecom DC-power-system order scheduled for fiscal 2027, plus critical-power exports to Africa, the Middle East, and Southeast Asia. It does not specify battery inclusion or establish completed delivery of that order. ([exicom.com](https://www.exicom.com/insights/press-releases/exicom-delivers-its-strongest-quarter-of-fy26-as-both-businesses-return-to-sharp-growth))
   - Company verification: Exicom's May xx.xx 2026 results announcement identifies Exicom Tele-Systems Limited, confirms continuing critical-power operations, and reports an Indian telecom DC-power-system order for delivery in FY2027. ([exicom.com](https://www.exicom.com/insights/press-releases/exicom-delivers-its-strongest-quarter-of-fy26-as-both-businesses-return-to-sharp-growth))
   - Company verification: The announcement reports critical-power export activity in Africa, the Middle East, and Southeast Asia; this is supplier-reported activity, not independent confirmation of particular battery shipments.
3. Exicom Investor Relations: Trusted Growth in EV Industry
   - Company verification: The official investor record uses the English company identity Exicom Tele-Systems Limited.
   - Company verification: The record identifies regional subsidiary financial disclosures without requiring separate company rows.

23.13. Nokia

Nokia presents both site-equipment and backup-asset software roles. ■■■ ■■■■■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■ ■■■■■■■■■ ■■■ ■■■■■■■■■■ ■■■■ ■■■■■■■■■■ ■■■■■ ■■■■■■■■ ■■■■■ ■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■■ ■■■ ■■ ■■■■■■■■ ■■■■■■■■■■■■■ ■■■■■■ ■■■■■■■■ Equipment fulfillment, software licensing, and reserve-market participation are separate commercial obligations, even when offered around the same network infrastructure.

Nokia's February xx.xx 2024 announcement reported completed trials and intended availability later in 2024. ■■■ ■■■■■ ■■■ ■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■ ■■ ■■■■■■■■■■ ■■■■■■■■■■ ■■■ ■■■ ■■■■■■■■■ ■■■■■■■■■ ■■ ■■■■■■■ ■■■ ■■■■■■■■ ■■■■■ ■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■ ■■■ ■■■■■■■ ■■■■■■■■■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■■■■■■■ ■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■ ■■ ■■■■■■■■ ■■■■■■■■■■■■■■■ ■■■■■■■■■■■■■■■■■ The original intended availability date should not be treated as proof of completed commercial delivery.

Finnish infrastructure owners face a separate market-access question: Fingrid requires applicable owner permission, reserve-product agreements, and settlement arrangements. An aggregator interface does not itself establish that Nokia supplies aggregation services or holds

the customer's participation rights. ■■■■■■ ■■■■■■■■■■■■ ■■■■■■■■■■ ■■■■■■ ■■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■■■■ ■■■■■ ■■ ■■■■ ■■■■■■■■■■ ■■■ ■■■ ■■■■■■■■ ■■■■■■■ ■■■■■■■ ■■■■■ ■■■■■■■■■■ ■■■■■■■■ ■■■■■■■■■■ ■■■■■■■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■ ■■■■■■■ ■■■■■■■ ■ ■■■■■■■■■■■■■■ ■■■■■■■■■■■■■■ ■■■■■■■ ■■■■ ■■■■■■■ ■■■■■■■■■■ ■■ ■ ■■■■■■■■■■■■ ■■■■■■■■■■■■ ■■■■ ■ ■■■■■■■■■■■■ ■■■■■■■■■ ■■■■■■■■■■■■ ■■■ ■■■ ■■■■■■■■ ■■■■■■■■■■■■ ■■■■■■■ ■■■ ■■■■ ■■■■■■■■■■■■■

Sources & Evidence

1. How to participate in the reserve markets | Fingrid

   · Fingrid requires applicable resource-owner permission, reserve-product agreements, and specified settlement arrangements. Participants may use service-provider assistance, but that route does not waive the documented commercial prerequisites. This supports the profile's distinction between Nokia software and Finnish market participation.
   ([fingrid.fi](https://www.fingrid.fi/en/electricity-market/reserves/reserve-products/how-to-participate-in-the-reserve-markets/))

2. Nokia adds Virtual Power Plant to its leading energy efficiency solution portfolio

   · Nokia's February xx.xx 2024 announcement describes VPP Controller Software for existing base-station backup batteries, reports completed trials, and states intended availability later in 2024. That intention does not establish completed commercial delivery.
   ([nokia.com](https://www.nokia.com/newsroom/nokia-adds-virtual-power-plant-to-its-leading-energy-efficiency-solution-portfolio/))

3. Zero-emission mobile networks | Nokia

   · Nokia's mobile-network portfolio includes backup batteries, integrated site solutions, and VPP control marketed around mobile-network backup assets. The page establishes portfolio positioning rather than destination-specific contracting or market entitlement.
   ([nokia.com](https://www.nokia.com/mobile-networks/sustainability))

   · Company verification: Nokia's official mobile-network portfolio expressly includes backup batteries and integrated site solutions.

   · Company verification: Battery-related software is presented alongside, rather than substituted for, the evidenced site-equipment role.

4. Pioneering sustainable innovation with AI and cloud | Nokia

   · Nokia's March xx.xx 2025 product discussion describes additional VPP features and an aggregator interface. It provides subsequent product-positioning evidence without specifying customer license terms, activation commitments, or executed aggregation obligations.
   ([nokia.com](https://www.nokia.com/blog/pioneering-sustainable-innovation-with-ai-and-cloud/))

Sources & Evidence

1. EnerSys 2026 Proxy Statement and Annual Report

   • Company verification: EnerSys's fiscal 2026 annual report establishes continuing consolidated operations and an Energy Systems business supplying power conversion, distribution, energy storage, and enclosures to telecommunications and broadband customers. ([s206.q4cdn.com](https://s206.q4cdn.com/xx.xx/files/doc_financials/2026/ar/b317caf6-56f8-42fa-bea1-bf685eb4132a.pdf))

2. Vertiv Annual Report 2025

   • Company verification: Vertiv's 2025 annual report identifies Vertiv and NetSure among its brands, establishes continuing consolidated operations, and identifies communications networks as a principal customer market for its power-management and energy-storage offerings. ([s205.q4cdn.com](https://s205.q4cdn.com/xx.xx/files/doc_financials/2025/ar/Vertiv-2025-Annual-Report.pdf))

3. Delta Electronics, Inc. 2025 Annual Report

· Company verification: Delta Electronics, Inc.'s 2025 annual report, printed March xx.xx 2026, establishes the listed parent identity and continuing telecom-infrastructure business, including telecom power systems, controllers, and cabinets.
([filecenter.deltaww.com](https://filecenter.deltaww.com/IR/download/annual_report/2025annual.pdf))

4. About MCE

· Company verification: The corporate record identifies Mission Critical Electronics LLC and places Newmar Power and DuraComm within its brand portfolio, establishing the group reporting relationship for the captured telecom battery offerings.
([mission-critical-electronics.com](https://mission-critical-electronics.com/about/))

5. FIAMM Energy Technologies - AURELIUS

· Company verification: AURELIUS's current investment record identifies FIAMM Energy Technologies as a portfolio business and records 2025 as its acquisition year.

· Company verification: The record supports acquired operating-business treatment rather than relying solely on the earlier announcement of a proposed transaction.

6. Amara Raja Energy & Mobility Limited - Annual Reports

· Company verification: The official company reporting page identifies Amara Raja Energy & Mobility Limited and publishes its 2025-2026 annual-report and subsidiary-reporting records.

· Company verification: This supplements the captured named telecom-battery portfolio with contemporary corporate reporting; it does not establish telecom-specific revenue.

7. Exicom Delivers its Strongest Quarter of FY26 as Both Businesses Return to Sharp Growth

· Company verification: Exicom's May xx.xx 2026 results announcement identifies Exicom Tele-Systems Limited, confirms continuing critical-power operations, and reports an Indian telecom DC-power-system order for delivery in FY2027.
([exicom.com](https://www.exicom.com/insights/press-releases/exicom-delivers-its-strongest-quarter-of-fy26-as-both-businesses-return-to-sharp-growth))

· Company verification: The announcement reports critical-power export activity in Africa, the Middle East, and Southeast Asia; this is supplier-reported activity, not independent confirmation of particular battery shipments.

8. Investor Relations at Polarium

· Company verification: Polarium's investor-relations page describes its telecom energy-storage business but identifies the legal company as Polarium Energy Systems AB.

· Company verification: That wording conflicts with the staged Polarium Energy Solutions AB title and the captured May 2025 company announcement; the page does not establish whether a legal rename occurred.

9. 融合 发展 共赢 | 科信技术-EFORE 交割仪式成功举行

· Company verification: Kexin's April xx.xx 2024 publication reports a completed acquisition of EFORE Fi-System Oy and identifies Efore Telecom Finland Oy, Efore Telecom Oy, Efore AB, and the Suzhou business within the acquired structure.

· Company verification: This establishes a historical ownership relationship but does not independently establish the complete October 2026 Efore selling structure.

10. Results for the six months ended 30 June 2026 - Metair Investments Limited

· Company verification: Metair's August xx.xx 2026 results publication classifies First Battery Industrial as discontinued operations from the second half of 2025.

· Company verification: This qualifies the continuing-availability interpretation of First Battery's live standby-battery catalog; it does not establish discontinuation of the entire First Battery business.

11. From R565.65 million to zero for South African fibre cable company - MyBroadband
    - Company verification: The September xx.xx 2026 report attributes to Dartcom's business-rescue practitioner a statement that Dartcom SA was being wound down, while the fibre business was being marketed as a going concern.
    - Company verification: The report describes a movable-asset auction scheduled for September xx.xx 2026; it does not establish the completed auction outcome or a successor telecom-battery seller.
    - Company verification: The September xx.xx 2026 report states that Dartcom SA was in business rescue.
    - Company verification: It reports an asset auction scheduled for September xx.xx 2026, including industrial batteries and telecom equipment; it does not establish the auction's completed outcome.
12. Exide Industries Limited Annual Report 2022-2023
    - Company verification: The exchange-hosted Exide Industries Limited 2022-2023 annual report establishes the Indian listed-company identity and a telecom business offering NEPST, NMST, and EP solutions.
    - Company verification: This establishes historical direct participation, not current 2026 availability or ownership of the separately staged Exide Technologies business.
13. NETOGY UPS100-PLUS Brochure
    - Company verification: The manufacturer-hosted NETOGY UPS100-PLUS brochure identifies Nology (Pty) Ltd and a named battery-containing DC UPS for network-device backup.
    - Company verification: The brochure supplies product and company attribution but is a legacy record rather than proof of current shipments.
14. Contact Us - NETOGY
    - Company verification: NETOGY's official contact record states that its products are available through Nology, establishing the brand-to-channel relationship.
    - Company verification: The record does not establish ultimate ownership, upstream OEM sourcing, or completed customer purchases.
15. Which GIZZU Mini Ups is Right for You?
    - Company verification: GIZZU's March xx.xx 2023 commercial publication identifies Syntech as the distributor bringing GIZZU to South Africa.
    - Company verification: The named mini-UPS portfolio expressly includes router, ONU, and VoIP backup, establishing historical telecom-directed customer-premises participation.
16. ICT Introduces Modular Power Series 2 and MPS Ultra 2 DC Power Systems
    - Company verification: ICT's January xx.xx 2026 announcement introduces Modular Power Series xx.xx and MPS Ultra xx.xx DC power systems, supporting continuing product-business activity.
    - Company verification: The announcement does not independently establish battery inclusion, telecom shipments, or ultimate ownership.
17. East Penn Manufacturing History
    - Company verification: East Penn's official corporate-history record establishes its company-level manufacturing identity, supplementing the captured dedicated Deka communications-battery portfolio.
    - Company verification: The corporate record is not evidence of a numerical telecom market share.
18. Communications Network Power Solutions | EnerSys
    - Company verification: EnerSys publicly offers power and energy-storage solutions for communications networks, including central offices, macro cells, and small-cell infrastructure.
19. Integrated Power Management Systems | Vertiv
    - Company verification: Vertiv markets Integrated Power Management Systems specifically for telecom equipment, coordinating grid, battery, and generator energy sources.
20. Lithium Batteries for Telecom
    - Company verification: Vertiv's July 2022 commercial datasheet identifies lithium batteries for telecom applications and compatibility with its NetSure power-system portfolio.
21. Products - Li-ion Battery Backup Systems - Delta
    - Company verification: Delta Electronics lists Li-ion Battery Backup Systems within Telecom Infrastructure, including TEB4810, TEB4815, TEB5110, and DUO5128 products.

22. Digitalizing site power for green connectivity and computing - Huawei
- Company verification: Huawei describes its 5G Power site-energy solution and intelligent energy-storage role for telecom networks.

23. Telecom Power-5G power, hybrid and iEnergy network energy management solutions|ZTE
- Company verification: ZTE markets integrated telecom power solutions containing batteries, including PadPower/Pad battery and one-cabinet site offerings.
- Company verification: ZTE's official page reports a SoftBank power-supply framework award in 2020; this is supplier-reported commercial-event evidence.

24. Energy Ancillary - Ericsson
- Company verification: Ericsson's site-energy portfolio identifies Ericsson battery systems and ancillaries for lithium-ion and VRLA batteries in RAN sites.

25. Ericsson Site Energy Management and Optimization
- Company verification: Ericsson documents battery-backed site-energy management and a commercial Deutsche Telekom 5G site application.

26. Telecom | Exide
- Company verification: Exide Technologies offers telecom batteries and UPS-related storage for mobile network operators, tower companies, and BTS equipment manufacturers.
- Company verification: Its telecom portfolio includes Marathon battery ranges and Solition Telecom.

27. Stryten Energy Completes Acquisition of C&D Trojan, Creating a Leading Battery Manufacturing Platform for Transportation, Industrial, Critical Infrastructure, and Military Applications
- Company verification: Stryten Energy LLC announced completion of its acquisition of C&D Technologies and Trojan Battery Company on October xx.xx 2026.
- Company verification: The combined company operates under Stryten Energy while preserving the C&D Technologies and Trojan Battery product brands.

28. C & D Technologies | Telecom
- Company verification: C&D Technologies' official telecommunications category lists telecom batteries, including Broadband BBG gel and Broadband BBA pure-lead AGM products; this portfolio is mapped to its acquired parent Stryten.

29. Telecommunications & 5G Network Backup Batteries - East Penn
- Company verification: East Penn Manufacturing offers communications batteries for 5G small cells, wireline, and cable broadband.
- Company verification: The portfolio includes Deka Unigy and Deka Fahrenheit products, and the company describes a North American distribution network.

30. Communication Batteries - GSYuasa Energy Solutions
- Company verification: GS Yuasa Energy Solutions markets VRLA communication batteries, with Goldtop, PWL, PXL, PYB, and PYL product series.

31. GS YUASA's Offices & Group Companies | GS YUASA
- Company verification: GS Yuasa's official group-company record identifies GS Yuasa Energy Solutions in the United States and regional group operations in Europe and Asia-Pacific.

32. Energysolutions and batteries for telecommunication
- Company verification: HOPPECKE explicitly offers batteries for telecom backup, including grid | Xtreme VR and grid | power VR X-FT.

33. Telecom & Network □ Secure Uptime and Availability | Polarium®
- Company verification: Polarium markets modular battery-backup solutions for telecom networks, including Polarium Battery and Connected Batteries.

34. Polarium Introduces Connected Batteries: Revolutionizing Fleet Management and Anti-Theft
- Company verification: The May xx.xx 2025 company announcement identifies Polarium Energy Solutions AB and its Stockholm address.
- Company verification: The announcement introduces Connected Batteries for telecom fleet management and battery installations.

35. Telecom Backup Power Solution-LEOCH BATTERY
    - Company verification: LEOCH markets telecom backup batteries for operators, tower companies, and system integrators.
    - Company verification: Its portfolio expressly includes telecom lithium batteries and VRLA-AGM products for core, access, tower, and fixed-broadband infrastructure.
36. Telecom - 应用领域 - Narada Power
    - Company verification: Narada Power publicly identifies telecom energy storage as an established business serving telecom operators and equipment integrators.
    - Company verification: The official application page presents battery categories for this business.
37. Telecom Battery
    - Company verification: Vision Group's official telecom battery page presents backup-battery solutions for communication networks, with connected monitoring and anti-theft features.
38. Li-ion Battery System
    - Company verification: Sacred Sun's commercial datasheet identifies a lithium-ion battery system specifically offered for 5G telecom sites.
39. Sacred Sun won the bid for China Mobile's centralized procurement of lead-acid batteries
    - Company verification: Sacred Sun's September xx.xx 2023 announcement reports an award in China Mobile's 2023-2025 centralized lead-acid battery procurement; the event is supplier-reported.
40. Amara Raja Energy & Mobility Limited - Telecom
    - Company verification: Amara Raja Energy & Mobility Limited markets telecom backup batteries under AMARON SLEEK and AMARON VOLT.
    - Company verification: The official telecom page describes an installed base in emerging-country markets without independently establishing a market rank.
41. Intimation of Change of Name of the Company
    - Company verification: The official stock-exchange notification establishes the change from HBL Power Systems Limited to HBL Engineering Limited effective November xx.xx 2024.
42. HBL Power Systems Limited Annual Report 2019-2020
    - Company verification: HBL's 2019-2020 annual report identifies telecom as a lead-acid battery business and reports historical broadband-connectivity battery supply.
    - Company verification: This record establishes historical activity, not a current named product offering.
43. HBL - Vision & Mission
    - Company verification: HBL's public business description includes telecom among the sectors it serves; it does not identify a current telecom battery range.
44. FT Series Lead-Acid Batteries for Sale | China Manufacturer | Ritar
    - Company verification: Ritar markets its FT front-terminal lead-acid battery series specifically for telecom use.
45. Telecom Base Station Energy Storage Battery | Ritar
    - Company verification: Ritar International Group publicly offers telecom base-station energy-storage solutions.
    - Company verification: The application page reports dated telecom projects in China and historical supply to Ethiopian telecommunications.
46. FIAMM FIT Battery Range
    - Company verification: The manufacturer-authored FIT catalog identifies FIAMM Energy Technology S.p.A. and states that FIT batteries are intended for front-terminal telecom installations.
47. Telecom Power Supply Systems - BENNING
    - Company verification: BENNING offers telecom power systems using TEBECHOP SE or SLIMLINE NG rectifier systems and modular inverters for complete battery-supported backup supplies.

48. UltraCompact DC Power System
- Company verification: Enatel's UltraCompact DC Power System is marketed for telecom access nodes, radio base stations, mobile networks, and central offices.
- Company verification: The product includes battery distribution, and the document identifies New Zealand-made modules.

49. Battery Energy and Enatel Case Study
- Company verification: Enatel documents a commercial partnership with Battery Energy Power Solutions involving Enatel DC systems and Battery Energy batteries for Australian infrastructure applications.
- Company verification: The partnership case study identifies Battery Energy Power Solutions as Enatel's Australian partner serving telecommunications and other infrastructure applications.

50. Telecommunications - Power solutions | Battery Energy Australia
- Company verification: Battery Energy Power Solutions offers telecom batteries and turnkey communication-power solutions in Australia.
- Company verification: Its telecom portfolio identifies PowerLYTE, SunGEL Ultra, and EnerLIFE battery products.

51. Telecom - Green Cubes Technology
- Company verification: Green Cubes Technology markets Guardian Battery Units for telecom backup and compatible Guardian/Aspiro DC systems.
- Company verification: The company describes lithium battery and connected-management offerings and references formerly UNIPOWER-branded software.

52. OmniOn Power BPS System Ordering Guide
- Company verification: OmniOn Power Inc.'s BPS commercial ordering guide identifies battery-supported DC power systems for wireless telecom, cable networks, transmission sites, and customer points of presence.

53. 2026 PSI Product Catalog
- Company verification: PowerTec Solutions International's 2026 catalog markets ONT backup supplies and a 48V Rackmount Battery Series specifically for telecom standby power.

54. Telecom Power - DC UPS | CyberPower
- Company verification: CyberPower's Telecom Power portfolio offers indoor and outdoor DC UPS products for FTTx systems.

55. Fiamm | Telzas - Power systems for telecommunications
- Company verification: Telzas publicly offers stationary FIAMM batteries through its specialized power business and identifies cooperation with FIAMM.
- Company verification: The specialized channel lists FIAMM FIT and other stationary-battery ranges, providing an additional commercial channel path for FIAMM.

56. Baterias Estacionárias | Moura
- Company verification: Moura's official stationary-battery portfolio explicitly includes telecom and telephone-exchange applications.
- Company verification: The portfolio includes MF, MO, and MX battery ranges.

57. Contact Us - Balancell
- Company verification: Balancell's official contact page identifies its battery business and Cape Town address; it does not establish telecom-specific participation.
- Company verification: Balancell publishes a public business contact record for its South African battery business.
- Company verification: The contact record does not establish telecom-specific participation.

58. About ICT - Innovative Circuit Technology
- Company verification: Identifies Innovative Circuit Technology Ltd. and its Langley, British Columbia address.
- Company verification: Describes DC backup systems and other power products for fixed wireless broadband, small-cell, and communications-site markets.

59. Telecom Lithium Batteries - LiFePO4 Telecom Batteries Canada Supplier
    - Company verification: Identifies Canbat Technologies Inc. as the company behind the catalog.
    - Company verification: Publicly offers lithium telecom backup batteries together with battery racks and cabinets for Canadian and export telecom applications.
60. Telecom - Starmax Batteries
    - Company verification: Lists Starmax Batteries' Canadian head-office address in Delta, British Columbia.
    - Company verification: Publishes a telecom battery portfolio for base stations, central stations, and remote communications infrastructure.
61. About - Analytic Systems Power Conversion Solutions
    - Company verification: Identifies Analytic Systems Ware (1993) Ltd. in the company footer.
    - Company verification: Describes Canadian facilities near Vancouver and the company's battery-charger and power-conversion business.
62. Telecommunications - Analytic Systems Power Conversion Solutions
    - Company verification: Markets battery chargers, rack-mounted power supplies, converters, and inverters to telecommunications and cable-communications providers.
    - Company verification: Establishes a telecom component-supply role, but does not itself demonstrate complete battery-backup system supply.
63. HYBRID UPS SYSTEM
    - Company verification: Publicly offers RIC Electronics' custom AC/DC Hybrid UPS systems.
    - Company verification: Describes integrated backup-system offerings, without establishing a particular telecom customer or deployment.
64. Home - RIC Electronics
    - Company verification: Identifies RIC Electronics Ltd. and a Burnaby, British Columbia business location.
    - Company verification: Lists DC and AC UPS systems in its commercial portfolio and telecom among the sectors served.
65. Products | Equinox Power
    - Company verification: Describes Equinox Power UPS solutions for telecom and other critical infrastructure.
    - Company verification: Supports a public portfolio claim, not independently established product shipments or customer purchases.
66. A2Z Telecom Solutions Canada
    - Company verification: Identifies A2Z Telecom Solutions Canada and its Oakville, Ontario address.
    - Company verification: Explicitly advertises lithium-ion battery-backup solutions for telecom.
67. Telecom System Batteries in Toronto, Canada
    - Company verification: Offers telecom and broadband battery replacements under UPS Battery Center's business identity.
    - Company verification: States availability for Toronto pickup and shipping, with named ONT and residential-gateway replacement applications.
68. Power Supply Solutions for Critical Communications | Samlex America
    - Company verification: Markets Samlex America power and backup solutions for critical communications, including telecom and DAS applications.
    - Company verification: Does not establish telecom-specific sales volume or a particular regional customer purchase.
69. 100-240V 11 Amp Switching Power Supply | SEC-1212P | Samlex America
    - Company verification: The product description advertises SEC-HCP systems with integrated battery-backup capability for telecommunications and network infrastructure.
    - Company verification: The retrieved page title references SEC-1212P, creating an unresolved model-metadata inconsistency.

70. About Newmar | Powering the Network | Telecom | Wireless | Public Safety DAS | Oil & Gas | Industrial | Land Mobile | Newmar Powering the Network
    - Company verification: Identifies Mission Critical Electronics as Newmar's parent and states its Costa Mesa, California headquarters.
    - Company verification: Places Newmar and DuraComm within MCE's Network & Industrial business.
    - Company verification: Lists telecom power-system integration and power supplies with built-in battery backup.
71. Batteries | Battery Strings | Telecom | Public Safety | Industrial | Rack Mount | DIN Rail Mount | Newmar Powering the Network
    - Company verification: Newmar markets NPFC-series lithium battery modules for telecom and outside-plant applications.
    - Company verification: Provides product-level support for MCE's battery-supply participation through Newmar.
72. Telecom Battery Solutions | Power-Sonic
    - Company verification: Power-Sonic publicly offers telecom battery systems and replacements for telecom cabinets, shelters, and tower backup.
    - Company verification: Lists front-terminal VRLA, tubular-gel, and other stationary battery categories for telecom networks.
73. Precision Power Products - Precision Group
    - Company verification: Identifies Precision Group's Precision Power commercial portfolio.
    - Company verification: Lists Micro UPS, telecom batteries, rack-mounted lithium batteries, and FTTx backup products.
74. Battery Backup - Meriwether Lewis Electric Cooperative
    - Company verification: MLConnect identifies Precision Power equipment as its compatible ONT battery-backup purchase option.
    - Company verification: States that units and replacement batteries can be purchased through the cooperative or directly from Precision Power.
75. Home | ESPI Corp
    - Company verification: Identifies ESPI's Clay Center, Kansas business presence.
    - Company verification: Markets named Wi-Fi UPS products for ONTs, fixed-wireless CPE, routers, and ISP channels.
    - Company verification: Describes telecom backup applications at customer premises and small-tower deployments.
76. DC Power Systems - DC Power Equipment - Telecommunications
    - Company verification: Eagle Eye Power Solutions publicly offers stationary batteries and battery chargers for telecom backup.
    - Company verification: Describes equipment delivery and installation/service support for telecom infrastructure, establishing more than a monitoring-only role.
77. Telecom Equipment Manufacturer | Telecom Manufacturing Company
    - Company verification: Identifies Charles Industries, LLC as an Amphenol company.
    - Company verification: States Charles' Illinois business location and North American manufacturing footprint.
78. Product Datasheets & Ordering Guides - Charles Industries, LLC • An Amphenol Company
    - Company verification: Charles Industries' telecom and wireless catalog lists CUBE BBU battery-backup cabinets and site-support cabinet ranges.
    - Company verification: Supports dedicated backup-system enclosure participation through Amphenol's Charles business, not an inference that batteries are included in every sale.
79. DCPS 4RU Telecom System (12kW with Distribution)
    - Company verification: La Marche publicly offers the DCPS Telecom System.
    - Company verification: Describes an integrated DC power solution with battery distribution, battery management, and remote monitoring.

80. Power Supply & Power Distribution
    - Company verification: Raycap markets power supplies and power-distribution solutions for wireless network operators.
    - Company verification: Its portfolio includes UPS systems and battery-management functions for telecom-site power.
81. Telecom & Wireless Power Solutions | SENS
    - Company verification: SENS' cable, telecom, and wireless portfolio lists the MicroCab xx.xx outdoor DC UPS.
    - Company verification: Establishes a marketed telecom-related DC backup-system role distinct from its generator-starting and monitoring offerings.
82. CS19-BBU-004, BDA Battery Back-Up Unit :: Westell Technologies, Inc. (WSTL)
    - Company verification: Identifies Westell Technologies, Inc. in its official product-page title.
    - Company verification: Markets the CS19-BBU-xx.xx integrated battery-backup unit for public-safety bi-directional amplifier systems.
83. Building Systems - Sabre Industries, Inc.
    - Company verification: Sabre Industries publicly offers engineered building-system integration that includes batteries and DC power systems.
    - Company verification: Its portfolio includes telecom equipment enclosures and integrated power-management solutions; a named telecom battery-backup configuration is not established by this page.
84. Off-Grid Solar & Backup Power | Tycon Solar® | Tycon Systems®
    - Company verification: Tycon Systems markets UPSPro outdoor UPS and battery-backup systems.
    - Company verification: The commercial catalog also positions RemotePro systems for wireless equipment and remote communications applications.
85. About Tycon Systems | Utah-Built Remote Power Solutions
    - Company verification: Identifies Tycon Systems' Utah business origins and remote-power business.
    - Company verification: Describes battery-backup systems for outdoor network equipment and wireless communications applications.
86. Telecom Power System - Battery Rack System - Telecom Backup
    - Company verification: Pulse Supply publicly offers telecom backup batteries, battery racks, UPS products, and related power-system equipment.
    - Company verification: Describes manufacturer partnerships, establishing a channel role rather than battery manufacturing.
87. Solutum de México | Soluciones en respaldo de energía
    - Company verification: Identifies Solutum de México S de RL de CV as a Mexican backup-system business.
    - Company verification: Publicly offers telecom batteries, AC/DC UPS systems, DC power plants, and integrated telecom power solutions.
88. Jaguar de México | Tailor-made technological solutions | Telecom engineering, EMS and engineering design
    - Company verification: Identifies Jaguar de México as a Mexican technology business.
    - Company verification: Its SHIELD division publicly offers DC power supplies and backup batteries for FTTH, 4G, and 5G infrastructure.
89. RITMA · Sistemas de energía en corriente directa y almacenamiento
    - Company verification: Identifies RITMA as a Mexican DC power and storage business.
    - Company verification: Publicly offers battery banks for telecom backup and integrated DC power systems.
90. interberg® - Baterías industriales de níquel-cadmio y plomo-ácido
    - Company verification: Publishes interberg's stationary industrial battery catalog for the Mexican market.
    - Company verification: Explicitly lists telecommunications, cellular sites, and outdoor cabinets among its backup-battery applications.

91. lorain technologies -
    - Company verification: Describes Lorain Technologies as a Mexican electrical-protection and telecommunications business.
    - Company verification: Advertises telecom batteries and telecom power-backup systems.
92. Fabricación de Baterías de Litio en México - MYADTECH
    - Company verification: MYADTECH advertises custom industrial lithium batteries in Mexico and lists a Mexico City contact address.
    - Company verification: Lists backup systems and telecommunications among applications, without identifying a named telecom-backup deployment.
93. Construction and Electrical Engineering Contractors | ABM Bermuda
    - Company verification: Identifies ABM Limited and its Bermuda business address.
    - Company verification: States an APC sales/service relationship and turnkey UPS offerings for customers that include Bermuda telecom providers.
94. Industrielle Power Løsninger der sikrer dig | Scanpotec
    - Company verification: Identifies Scanpotec ApS and publicly lists battery, DC UPS, and other backup-power offerings.
    - Company verification: States approved service-partner coverage for BENNING, CENTIEL, and GENESAL ENERGY that includes Greenland.
    - Company verification: Does not establish a Greenland telecom battery-backup sale or deployment.
95. Características Estacionária | Tudor Baterias
    - Company verification: Tudor's stationary-battery portfolio expressly identifies telephone exchanges, radio base stations, fiber networks, GSM networks, and other telecom applications.
96. CERTIFICADO DE CONFORMIDADE
    - Company verification: The CPQD conformity certificate identifies Indústrias Tudor S.P. de Baterias Ltda. and a stationary lead-acid product category.
    - Company verification: The certificate is identity and conformity evidence; it is not treated as proof of current telecom sales or final Anatel authorization.
97. Tudo o que você precisa saber sobre Baterias Estacionárias - Pioneiro Baterias
    - Company verification: Baterias Pioneiro identifies its own Pioneiro Tech stationary-battery line and includes telephone exchanges among stationary-battery applications.
    - Company verification: The company page provides a business address in Treze Tílias, Santa Catarina, Brazil.
98. Arquivos Para sua empresa: Telecom - TS SHARA
    - Company verification: TS Shara maintains a telecom-specific commercial application page within its backup-power portfolio.
    - Company verification: The page identifies the TS Shara business, a São Paulo address, and CNPJ xx.xx.xx.xx/xx.xx-xx.xx; current battery-inclusive configurations are not established by that application page alone.
99. Aplicações - NHS Soluções em Nobreaks e Inversores Solares Híbridos
    - Company verification: NHS lists telecom among the commercial applications for its nobreak solutions.
    - Company verification: The official page identifies NHS Sistemas Eletronicos LTDA. in its footer; the application listing alone does not establish a particular battery-inclusive telecom configuration.
100. Fonte Nobreak 12V 1A EFB 1201 com Bateria Intelbras - Intelbras
    - Company verification: Intelbras directly offers the EFB xx.xx backup power supply with an included battery through its Brazilian commercial store.
    - Company verification: The offering expressly includes network and IP-telephone applications, establishing a customer-premises communications-backup role.

101. Entrevista com Pedro Bet, representante da PHB Solar - PHB Solar
    - Company verification: The company's May xx.xx 2021 interview describes PHB's history of developing products for the telecom sector.
    - Company verification: This establishes historical business context, not a currently inspected telecom battery-backup range.
102. :: Acumuladores Arizona ::
    - Company verification: The company's own history and footer identify Acumuladores Arizona S.R.L. and its Argentine business address.
    - Company verification: The page describes communications-energy and turnkey-energy activities and a lithium-battery business for telecom.
    - Company verification: Acumuladores Arizona reports obtaining representation of Brazilian Newpower batteries in 2014.
    - Company verification: This is a historical supplier/channel link; the page does not establish Newpower's current legal identity or continuing telecom commercialization.
103. Sistemas de Respaldo de Energía - Duncan
    - Company verification: Duncan's Colombia-facing backup-system portfolio expressly offers UPS for critical telecom equipment.
104. SONELECTRIC S.A.S. | UPS, Baterías y Respaldo Energético Colombia
    - Company verification: SONELECTRIC S.A.S. identifies a Colombian business supplying and integrating UPS, batteries, and backup-energy systems.
    - Company verification: Its commercial portfolio expressly markets CSB AGM batteries for telecom.
    - Company verification: SONELECTRIC lists Powest/Nicomar among the UPS brands it distributes, providing a Colombian channel record without resolving POWEST's legal-parent identity.
105. Sobre Nosotros - ICETEL
    - Company verification: ICETEL's company record identifies Ingeniería Caro y Caro Limitada and describes a business in energy conversion/storage and telecom services.
106. ICETEL
    - Company verification: ICETEL's commercial page offers battery banks, DC-energy systems, and turnkey supply/integration of conversion and storage systems in Chile.
    - Company verification: The company identifies telecom customers and an EnerSys distribution relationship; these are supplier-reported relationships rather than independently verified awards.
107. BATERÍAS ALLSAI OPzV CFPV Y LFPV - MEE CHILE
    - Company verification: MEE Chile's specific ALLSAI OPzV CFPV/LFPV battery offering identifies telecom equipment among its applications and provides a commercial quotation channel.
108. YUASA | CIA UPS DEL PERU SAC
    - Company verification: CIA UPS DEL PERU SAC markets Yuasa NP-series batteries and expressly includes telecom systems among their applications.
    - Company verification: The page provides the company's Peruvian commercial contact channel.
109. Gerer L'Energie, administración y el tratamiento de la energía
    - Company verification: Gerer L'Energie states that it represents SEC batteries in Peru and distributes batteries for telecom and backup applications.
    - Company verification: The page dates the beginning of that representation to 2009 but does not independently establish current authorization or sales.
110. Electronic Siblings Perú | Baterías, Paneles Solares e Inversores - Energía Renovable en Perú: Electronic Siblings SAC
    - Company verification: Electronic Siblings SAC identifies a Peru-based battery and backup-energy business operating from Lima.
    - Company verification: Its commercial offering expressly includes batteries for telecom applications.

111. BATERIAS - ENERGYSA PERU
    - Company verification: ENERGYSA PERU's battery-business page expressly states that it commercializes batteries for telecom applications.
112. La Casa de las Baterías Guatemala | Somos Energía
    - Company verification: La Casa de las Baterías' Guatemala-facing commercial site markets DC-energy solutions for telecom and industrial applications.
    - Company verification: The record supports a regional channel-facing business identity, not separate manufacturer identities for its branches.
113. Productos
    - Company verification: SIESA's Panama-facing product catalog offers batteries for telecom applications and states that VRLA batteries are held for replacement battery banks.
114. DC Power - Batteries - Telenetworks
    - Company verification: Telenetworks publicly offers DC-power and battery-bank integration for telecom/network infrastructure.
    - Company verification: The service record identifies San Juan, Puerto Rico, and broader Caribbean service positioning; it does not establish equipment resale or availability on each island.
115. Quiénes somos BatteryOnePR
    - Company verification: The May xx.xx 2024 company account identifies BatteryOnePR as the digital branch of Battery Giant de PR in Guaynabo, Puerto Rico.
    - Company verification: It describes a backup-battery customer base including remote telecom sites and identifies Victron Energy as a principal brand used by the business.
116. ABOUT DCPSL
    - Company verification: DCPSL's company brochure advertises AC/DC power-system supply and service and identifies an office/warehouse in Balmain, Couva, Trinidad.
    - Company verification: The inspected business facts do not establish a telecom-specific battery offering.
117. Dada Dada & Cia - Dada Dada & Cia
    - Company verification: Dada Dada & Cia's commercial site describes telecom technology solutions, includes battery banks in its portfolio context, and provides El Salvador and Guatemala contact channels.
    - Company verification: The site-level portfolio does not independently establish a particular telecom battery-system supply contract.
118. Nuestros servicios - Energitel Group Guatemala
    - Company verification: Energitel Group's services page lists battery-bank work and telecom-network services.
    - Company verification: The page provides a Guatemala business address; equipment resale versus service-only participation remains unresolved.
119. EMPRESA | Misitio
    - Company verification: DURAPOWER describes an Ecuadorian import, representation, distribution, and commercialization business covering telecom technology, UPS, and batteries.
    - Company verification: The company description does not identify a specific current telecom battery-backup range.
120. Powest | UPS, Baterías y Soluciones de Energía - POWEST
    - Company verification: POWEST's official commercial portfolio includes UPS and batteries and identifies telecom among its business sectors.
    - Company verification: Its commercial site includes Ecuador-facing business context, but country-specific telecom sales and the Nicomar legal-parent relationship remain unresolved.
121. Registro 001652/2023 | Avaliação da Conformidade
    - Company verification: INMETRO registration xx.xx/2023 identifies UNICOBA INDUSTRIA DE COMPONENTES ELETRONICOS E INFORMATICA S.A. as the manufacturer associated with the UPLFP family.
    - Company verification: The record lists UNIPOWER-branded UPLFP entries and concerns photovoltaic systems/equipment; it does not establish telecom authorization or current telecom sales.

122. Unicoba anuncia novo nome e agora é UCB | Portal Solar
    - Company verification: A June xx.xx 2023 dated business report records Unicoba's adoption of the UCB name as a rebranding event.
    - Company verification: This corroborates group/brand continuity but does not establish the exact current legal selling entity for the saved UCB Power row.
123. Baterias Estacionarias - Moura Baterías
    - Company verification: Moura's Argentina stationary-battery portfolio expressly includes telecom and telephone-exchange applications.
    - Company verification: This establishes an Argentina-facing commercial offering under the existing Moura identity, not another independent company.
124. BAE Batterien GmbH
    - Company verification: BAE markets stationary batteries for UPS and telecommunications installations.
    - Company verification: The commercial page identifies the BAE business at a Berlin, Germany address.
125. Industrial Batteries - Monbat
    - Company verification: Monbat's industrial battery portfolio explicitly includes telecom and reserve-power applications.
126. Contacts - Monbat
    - Company verification: The official contact record identifies MONBAT AD in Montana, Bulgaria and Monbat Group headquarters in Sofia.
127. OPzS CELLS & BLOCKS - TAB
    - Company verification: TAB markets OPzS and OGi stationary batteries for telecommunications equipment.
    - Company verification: The product page identifies the TAB business at Mežica, Slovenia.
128. Telecom - CE+T Power
    - Company verification: CE+T Power offers telecom power solutions with backup and energy-management capabilities.
    - Company verification: The telecom page explicitly includes battery backup for remote network applications.
129. Where we are - CE+T Power
    - Company verification: CE+T Power identifies headquarters in Wandre, Belgium and an R&D center in Troisvierges, Luxembourg.
130. Telecommunications | Dale Power Solutions
    - Company verification: Dale supplies UPS and battery-energy-storage backup solutions for telecommunications.
    - Company verification: The page describes a battery-backed DC UPS supplied to a telecommunications provider.
    - Company verification: The footer identifies Dale Power Solutions Limited, registered in England and Wales, with a Scarborough address.
131. ABOUT SEC UK BATTERIES
    - Company verification: SEC UK is identified as a division of Shield Batteries Ltd.
    - Company verification: The division supplies industrial batteries and complete battery-related solutions and lists telecommunications among its core industries.
    - Company verification: The page identifies Shield Batteries Limited and a United Kingdom head-office address.
132. Telecom Batteries | Victron Energy
    - Company verification: Victron Energy's Telecom Batteries page markets a dedicated AGM battery series designed for telecom systems and rack-based applications.
133. Telecom Solutions - Efore
    - Company verification: Efore offers a telecom power unit with lithium battery backup and battery-containing telecom cabinets.
    - Company verification: Its advertised telecom battery portfolio includes the IBUE and SmartLi families.

134. Infrastructure Energy Storage and Power Supply | Celltech Group
    - Company verification: Celltech Group markets lead-acid and lithium-ion batteries and tailored power systems for telecom backup.
135. TPL VRLA AGM Battery | Celltech
    - Company verification: Celltech's Finnish-facing catalog offers CSB TPL front-terminal batteries for emergency backup in telecommunications and broadband.
136. TELECOM - Midac Batteries
    - Company verification: MIDAC markets OPzV and MFT batteries specifically for telecom cabinets, points of presence, shelters, and energy stations.
    - Company verification: The page identifies MIDAC S.p.A. at Soave, Italy.
137. MXL 7.2-12 - MERAWEX - producent zasilaczy przemysłowych i systemów zasilania
    - Company verification: MERAWEX markets the MXL xx.xx-xx.xx battery for telecom and UPS applications.
    - Company verification: The product page identifies MERAWEX sp. z o.o. at Gliwice, Poland.
138. Производитель аккумуляторов AGM, GEL и OPzV в России| RNB
    - Company verification: The official business page identifies ООО «РНБ» as a Russian battery manufacturer serving telecommunications and backup-power applications.
    - Company verification: The footer identifies the business in Novosibirsk.
139. Аккумуляторы телеком-оборудования и ретрансляторов | Производство литиевых батарей
    - Company verification: The commercial page offers battery systems for telecom cabinets, communications nodes, and base-station backup.
    - Company verification: The footer identifies the legal selling business as ООО «Энерджи Трейд» with Moscow addresses.
140. ЭНЕРГОН
    - Company verification: ENERGON offers stationary batteries under the Russian DELTA brand, including series positioned for telecommunications and communications systems.
141. О компании ЭНЕРГОН
    - Company verification: ENERGON identifies industrial batteries as a principal business and telecommunications and uninterruptible power as commercial applications.
142. Protection products category
    - Company verification: Aunilec markets AUPUS HE redundant backup power systems for telecommunications.
    - Company verification: The advertised DC system includes battery connections and power distribution rather than a standalone rectifier-only offering.
143. SPS NET2 - O mini UPS CC inteligente e eficiente - Salicru
    - Company verification: Salicru markets SPS NET2 as a battery-containing DC UPS for maintaining network-device connectivity during power outages.
    - Company verification: The inspected Portuguese-language product page is Angola-facing and does not independently establish European local availability.
144. BORRI INDUSTRIAL POWER SOLUTIONS
    - Company verification: Borri's corporate record identifies its origin in Bibbiena, Italy and an AC/DC power-system portfolio.
    - Company verification: Telecom is listed among the commercial applications served by that portfolio.
145. AC and DC UPS for industrial power applications - Borri
    - Company verification: Borri's current industrial-power business page advertises AC and DC UPS offerings.
146. Li-Ion Battery UPS | Socomec
    - Company verification: Socomec advertises lithium-ion battery UPS systems and explicitly identifies telecom power availability as an application.
    - Company verification: The inspected product record belongs to its APAC catalog.

147. Custom power conversion solutions
    - Company verification: Eaton advertises complete DC power solutions for telecommunications, including integrated battery-backup and alternative-energy hybrid solutions.
    - Company verification: The inspected record is a US catalog page, not proof of current European country sales.
148. UPS systems, industrial UPS, battery charging systems, battery storage systems and modular power supplies
    - Company verification: Statron's official catalog offers stationary lead, nickel, and lithium batteries, UPS systems, and battery charging systems.
    - Company verification: The catalog includes a telecom segment filter and identifies Statron AG headquarters in Mägenwil, Switzerland; a particular telecom battery-backed configuration is not established by the filter alone.
149. Sunlight Group | Global Leader in Industrial Batteries & ESS
    - Company verification: Sunlight Group's companies record identifies Greek operating facilities.
    - Company verification: The group describes Israeli Industrial Batteries as a business supplying batteries for telecom systems.
150. Contact - Eternity Technologies
    - Company verification: The official contact page identifies Eternity Technologies FZ-LLC at Al Hamra Industrial Zone, Ras Al Khaimah, United Arab Emirates.
151. ET-LI-ION Battery - Eternity Technologies
    - Company verification: Eternity markets the named ET-LI-ION battery module for telecom power and backup systems.
152. Domestic Lithium Battery Collaboration from Türk Telekom and ASPİLSAN Enerji
    - Company verification: ASPİLSAN Enerji's January xx.xx 2022 announcement reports commercial use of its telecom lithium batteries on Türk Telekom's network.
    - Company verification: The announcement connects the named supplier and its Turkish business operations to a telecom-specific battery offering.
153. Telecommunication Energy Storage Systems - Orbit Energy
    - Company verification: Orbit Energy markets Orbit Telecom Series battery systems for telecom infrastructure, outdoor cabinets, and base stations.
    - Company verification: The product page identifies business addresses in İzmir and Manisa, Turkey.
154. Front Terminal Batteries | Telecom & UPS | Yiğit Akü
    - Company verification: Yiğit Akü's official front-terminal battery catalog explicitly lists telecom base stations as an application and identifies named YGY front-terminal products.
155. Yiğit Akü lithium battery and energy-storage product catalog
    - Company verification: The company catalog identifies Yiğit Akü Malzemeleri A.Ş. and its Ankara business address.
    - Company verification: The catalog includes a lithium battery pack explicitly positioned for base stations.
156. PowerSafe SBS EON Technology Batteries - Tescom UPS
    - Company verification: Tescom's official sales catalog offers PowerSafe SBS EON batteries for telecom backup applications.
    - Company verification: The page provides an offer-request route and identifies EnerSys battery catalogs.
    - Company verification: Tescom lists EnerSys PowerSafe SBS EON batteries in its Turkish commercial catalog, establishing a regional channel reference rather than a separate manufacturer identity.
157. EGE 300K Online UPS - Esis Power
    - Company verification: The EGE 300K product page markets a UPS with built-in batteries for telecom among other critical applications.
    - Company verification: The page identifies the company as ESİS ENERJİ ve ELEKTRONİK SAN.TİC.A.Ş.

158. Site & Power - Al Rashid Technology & Power
    - Company verification: Al Rashid Technology & Power offers telecom DC backup solutions comprising batteries, rectifiers, and inverters from its Saudi business.
    - Company verification: The company names STC, Mobily, and Zain as customers; these relationships are supplier-reported.
    - Company verification: The page identifies ARTAR Holding as the organization that introduced the business.
159. About - Alawal Group
    - Company verification: The official corporate profile identifies Awal First Industrial Company and describes its telecom, ICT, and power business.
160. AWAL Lithium Batteries - Alawal Group
    - Company verification: The company markets named AWAL lithium batteries for GSM tower backup.
    - Company verification: The product page identifies Saudi business contact details in Riyadh.
161. FIAMM SONICK 48TL Batteries - PEDCO
    - Company verification: Projects Execution Development Company Limited identifies its Saudi business and offers FIAMM SONICK 48TL batteries specifically for telecom backup.
    - Company verification: The listing supports a named battery-channel role, not ownership of the battery manufacturer.
162. Supply - Fenda
    - Company verification: Fenda states that it supplies and integrates lithium battery systems for telecom operations.
    - Company verification: Its offering includes telecom DC systems and battery-storage cabinets, and the page identifies Riyadh headquarters.
163. Industrial Battery Rental & Sales in Saudi Arabia - Gulf Horizon Telecom
    - Company verification: Gulf Horizon Telecom offers industrial batteries for rental and purchase across Saudi Arabia.
    - Company verification: Its dedicated offering includes telecom battery backup and VRLA or lithium batteries for telecom sites.
164. Batteries - Ghad Al Taqat
    - Company verification: Ghad Al Taqat offers battery supply for telecom and other backup applications across Saudi Arabia.
    - Company verification: The page identifies a Riyadh head office and a third-party battery sourcing role.
165. About Us - Bazy Trading & Contracting Co
    - Company verification: The official corporate profile identifies the Bazy Trading & Contracting Co business name.
166. About Us - ANAA Holding LLC
    - Company verification: The official profile identifies ANAA Holding LLC and its Dubai business locations.
    - Company verification: ANAA describes battery supply, installation, and power-infrastructure services; this record does not by itself establish a current telecom-specific product.
167. About IPT PowerTech
    - Company verification: IPT PowerTech's official history describes beginning operations in Lebanon supplying telecom batteries and power systems.
    - Company verification: The profile identifies IPT PowerTech Group's Beirut business address and its later telecom energy-system activities.
168. Solar & Battery as a Service - IPT PowerTech
    - Company verification: IPT PowerTech markets Solar and Battery as a Service for telecom users.
    - Company verification: The offering states that the company installs, owns, and maintains the energy systems.

169. About ITEC
    - Company verification: ITEC's official profile identifies a Palestinian telecom systems-integrator business and states its affiliation with MOSECO Group.
    - Company verification: The profile includes telecom DC power solutions.
170. Power System Solutions for Telecom Applications - ITEC
    - Company verification: ITEC describes supplying telecom power solutions containing lead-acid, AGM, and lithium batteries.
    - Company verification: The page names customers in Palestine, Jordan, and Iraq and gives a Nablus business address; customer relationships remain supplier-reported.
171. Power - DCS
    - Company verification: DCS's official power portfolio offers batteries for telecom equipment.
    - Company verification: The portfolio also includes telecom inverters and DC power systems and identifies Lebanese business contact information.
172. DC Telco Power Solutions - ITG
    - Company verification: ITG's dedicated DC telecom power page attributes industrial battery, inverter, and rectifier offerings to ECOSYS.
    - Company verification: The page reports telecom infrastructure deployments in Lebanon; these deployments are supplier-reported.
173. Company - Phinergy
    - Company verification: Phinergy's official profile identifies its Israeli origin and public listing on the Tel Aviv Stock Exchange.
    - Company verification: The company describes metal-air energy-backup systems.
174. Energy Backup - Phinergy
    - Company verification: Phinergy markets aluminum-air backup systems for telecom operators and tower companies.
175. Phinergy Announces the Appointment of Emmanuel Levy as CEO
    - Company verification: Phinergy's May xx.xx 2024 announcement explicitly refers to its commercial telecom activities in Israel and Europe.
176. About Us - Tamuz Electronics
    - Company verification: Tamuz Electronics Ltd.'s official profile identifies an Israeli company based in Kfar Saba and describes telecom-sector customers.
    - Company verification: The profile describes battery-backup product lines, but does not establish a named current telecom-network backup deployment.
177. Plant - □□□□□□□□□ □□□□ □□□□□
    - Company verification: Porsoo Electronic markets its Plant telecom charging system and identifies an Iranian business address.
    - Company verification: The offering references a battery rack, but does not establish that batteries are supplied with the system.
178. Oman Solar Systems Major Project Reference List, 1990-2023
    - Company verification: Oman Solar Systems' project-reference list covering 1990-2023 includes battery-supported solar power for microwave repeater stations and a Kuwait Telecom Company customer reference.
    - Company verification: The record supports historical telecom-related system participation, not current local sales.
179. EnerSys PowerSafe SBS EON VRLA Battery - Seven Star LLC
    - Company verification: Seven Star LLC lists EnerSys PowerSafe SBS EON telecom batteries for supply on request from Muscat, Oman.
    - Company verification: Seven Star LLC's specific product listing provides an Omani channel record for EnerSys PowerSafe SBS EON batteries; it establishes offered availability, not completed shipments.

180. Stocking of Sealed Lead-Acid Batteries - Komax
    - Company verification: Komax's official service listing offers sealed lead-acid batteries for telecom applications.
    - Company verification: The listing identifies an Ardiya, Kuwait business address.
181. Solutions
    - Company verification: Inala markets lithium batteries for African telecommunications sites.
    - Company verification: Its portfolio includes custom hybrid power-system engineering, procurement, installation and support.
182. Contact
    - Company verification: Inala publishes corporate and warehouse contacts in South Africa and a Mauritius office.
183. Micro-grid Solutions - BlueNova
    - Company verification: BlueNova markets battery-based micro-grid solutions that include backing up telecommunications infrastructure.
184. About Us - BlueNova
    - Company verification: BlueNova identifies itself as a South African energy-storage business established in 2015.
185. Network Power - ASSAD Group
    - Company verification: ASSAD Group's Network Power portfolio offers stationary batteries for telecommunications and other critical infrastructure.
    - Company verification: The page supplies Tunisian business contacts for the group and its industrial-battery business.
186. We achieve milestone with Vodacom High Security Battery Cabinet (HSBC) Installation! - maxwell+spark
    - Company verification: The October xx.xx 2023 company publication reports installation of a Vodacom High Security Battery Cabinet south of Durban.
    - Company verification: The record establishes a telecom battery-cabinet supply role, not complete battery-pack manufacturing.
187. Connect with us - maxwell+spark
    - Company verification: The contact record identifies Maxwell and Spark Pty Ltd in Durban and Maxwell and Spark B.V. as the Netherlands headquarters.
188. About US - Star Plus Batteries
    - Company verification: The Star Plus website identifies Metal Manufacturing Nigeria Limited.
    - Company verification: Its battery business expressly includes telecom power applications.
189. Metal Manufacturing Nigeria - Star Plus Batteries
    - Company verification: The company profile connects Metal Manufacturing Nigeria Limited to the StarPlus battery brand.
190. Solar and Backup Power Batteries | Reliable Energy Storage
    - Company verification: First Battery offers Solar, Standby & Backup Power batteries and lists microwave stations and radio repeaters among applications.
191. Power Solutions - Dartcom | Fiber Optic Cables
    - Company verification: Dartcom markets reserve and standby batteries for telecommunications.
    - Company verification: The page identifies Narada battery distribution and lithium batteries for telecom base stations, with a Pretoria business address.
192. Our Partnership with EnerSys - Global Leader in Stored Energy - Kira Power Solution (KPS)
    - Company verification: The July xx.xx 2025 company announcement connects Kira Power Solutions to an EnerSys battery portfolio serving Egypt.
    - Company verification: It identifies PowerSafe batteries for telecom and utility applications.

193. EnerSys PowerSafe Batteries Egypt | OPzV, OPzS, SBS | KPS
    - Company verification: KPS offers EnerSys PowerSafe stationary batteries in Egypt, expressly including telecom applications.
    - Company verification: The seller describes itself as an authorized distributor; upstream authorization was not independently corroborated.
194. MBS : A propos de nous - Qui sommes-nous?
    - Company verification: MBS Maroc's company material identifies a business supplying telecom-environment equipment.
195. MBS : Produits - Energie
    - Company verification: MBS Maroc's energy portfolio offers EnerSys industrial batteries.
    - Company verification: The page is undated and does not establish current inventory or sales.
196. Batteries VRLA / AGM / GEL - ENER PLUS -
    - Company verification: ENER PLUS's battery catalog lists telecommunications, telephone exchanges and communication systems among applications.
    - Company verification: The catalog includes stationary battery categories used for backup power.
197. Battery Energy Storage Systems - IPT Website
    - Company verification: IPT PowerTech offers battery energy-storage systems for telecom backup.
    - Company verification: Its business page reports an African footprint including Nigeria and South Africa.
198. 49095 - IPT PowerTech
    - Company verification: IFC's project disclosure identifies IPI Group Holding Limited and describes IPT PowerTech's battery-system, telecom-service and T-ESCO businesses.
    - Company verification: The disclosure identifies private owners and expansion activity in Ethiopia, Liberia and Sierra Leone.
    - Company verification: The record was last updated June xx.xx 2026.
199. IFC Supports IPT PowerTech to Deliver Clean Telecom Power Across Ethiopia, Liberia, and Sierra Leone
    - Company verification: IFC's March xx.xx 2026 announcement establishes financing for IPT PowerTech's solar-and-battery telecom energy expansion in Ethiopia, Liberia and Sierra Leone.
    - Company verification: The announcement describes supported modernization rather than proving every deployment completed.
200. Power Systems & Renewable Energies - Camusat
    - Company verification: Camusat offers turnkey telecom power solutions that combine backup batteries with other energy sources.
    - Company verification: Its portfolio names Classic & Hybrid Power Systems and e.power.
201. Camusat Group access €49.9 M new financing for Aktivco’s further expansion in Africa - Camusat
    - Company verification: The September xx.xx 2023 announcement identifies Aktivco as Camusat Group's InfraCo division.
    - Company verification: It reports financing supporting African expansion and an awarded Senegal ESCO project.
202. Batteries
    - Company verification: Tele-Serve Engineering Services Limited offers lead-acid and lithium backup battery solutions for telecom central stations and BTS sites.
    - Company verification: The commercial page supplies an Accra, Ghana contact.
203. acmenetwork.net
    - Company verification: The commercial service portfolio at acmenetwork.net lists batteries among telecom equipment supplied.
    - Company verification: It reports operations in Kenya, Ethiopia and Madagascar and a Mauritius headquarters.
    - Company verification: These business facts do not resolve the company's registered English name.

204. EMATEL - Entreprise de Materiel Electrique
    - Company verification: EMATEL's supplier-authored references report lead-acid or stationary-battery supply to Côte d'Ivoire Telecom, MTN CI and MOOV CI.
    - Company verification: The references are undated and do not independently establish current contracts.
205. Énergie Solaire Télécom Afrique - Sites BTS | NRJSOLAIRE | NRJ SOLAIRE
    - Company verification: NRJSOLAIRE SARL markets battery-backed DC and solar-hybrid power systems for telecom sites in Senegal.
206. United For Liquid Batteries - EECE EECE
    - Company verification: The Engineering Export Council company record identifies United Batteries Co. in 10th of Ramadan City, Egypt.
    - Company verification: Its featured products include Telecom Battery.
207. AGEC
    - Company verification: AGEC's company brochure identifies Africa Global Equipments & Consulting as a Senegal-based business.
    - Company verification: The commercial offering includes telecom batteries and accessories.
208. BATPCO Renewable Energy
    - Company verification: BATPCO's published business portfolio identifies Basic Association of Technology Projects Company Limited in Tanzania.
    - Company verification: Its Telecom Energy offering includes solar, battery and hybrid-energy solutions.
209. Chloride Exide Batteries & Power Tanzania | Widala
    - Company verification: Widala Group offers Chloride Exide batteries in Tanzania and expressly includes telecom applications.
    - Company verification: Its catalog describes an authorized-distributor relationship; upstream confirmation remains outstanding.
210. Safetech Nigeria - Solid-State Batteries | Avtinac Limited
    - Company verification: The Safetech Nigeria catalog identifies Avtinac Limited as the Nigerian distributor of Safetech (SAFE)-branded batteries and supplies an Abuja address.
    - Company verification: Its product categories include telecom backup; exclusivity, performance and technology claims were not independently verified.
211. Energy Storage | Chloride Exide
    - Company verification: Chloride Exide's energy-storage portfolio offers commercial and industrial battery-backed power solutions.
    - Company verification: This page does not by itself establish a telecom-specific offering.
212. Telecom Batteries | Critical Power Solutions by Exicom
    - Company verification: Exicom publicly offers its EXTB telecom-battery family for battery backup at base stations, edge sites, and FTTx infrastructure.
213. Exicom Investor Relations: Trusted Growth in EV Industry
    - Company verification: The official investor record uses the English company identity Exicom Tele-Systems Limited.
    - Company verification: The record identifies regional subsidiary financial disclosures without requiring separate company rows.
214. Energy Storage Solutions for Sustainable Power | OKAYA Power
    - Company verification: Okaya markets an integrated power unit for mobile telecom operators, including a VRLA-battery configuration.
    - Company verification: The page identifies Okaya Power Private Limited and its New Delhi business address; lithium batteries are not represented as included in the described IPU.
215. Welcome to NED Energy
    - Company verification: NED Energy maintains a dedicated commercial application record for telecom batteries.

216. Lithium Battery Series for Telecom-Product-Kung Long Batteries
- Company verification: Kung Long's official product catalog includes a lithium-battery series expressly positioned for telecom.

217. Company Profile-Kung Long Batteries
- Company verification: The company profile identifies the English legal name Kung Long Batteries Industrial Co., Ltd. and operations in Taiwan and Vietnam.
- Company verification: The company reports VNPT telecom-battery deliveries beginning in June 2017 and Mobifone supply in January 2019; these are dated supplier-reported relationships.

218. Industrial Battery
- Company verification: Sebang's Korean-language industrial-battery catalog lists ES-series standby batteries with communications-equipment applications.
- Company verification: The catalog supports a telecom-related industrial-battery category but does not establish current local sales.

219. Uninterruptible Power System Application | FSP TECHNOLOGY INC.
- Company verification: FSP's official UPS application page expressly includes protection of telecommunications equipment during power interruption.

220. Sunwoda: Quality at the Core, Ensuring Stable AIDC Operations Through Reliable Delivery Sunwoda - Every Battery Carefully Crafted
- Company verification: Sunwoda describes telecom backup power as an application within its network-energy solutions business.
- Company verification: The company reports delivery activity spanning telecom base stations and other network-energy applications; no leadership or share assertion is accepted.

221. 产品列表 - 派能科技 派能科技官网|让储能服务亿万大众
- Company verification: Pylontech's Chinese-language commercial product catalog lists communications backup-power systems and 5G backup-power systems within its ICT reserve-power portfolio.

222. Product center
- Company verification: Gospower's communications-power product catalog includes a base-station battery-module category.

223. NPP | Trusted Battery Manufacturer for UPS, Telecom & Energy Storage
- Company verification: NPP Power's official business record identifies battery operations in China and Vietnam.
- Company verification: The record establishes the observed business identity and regional footprint, not a specific inspected telecom product range.

224. Wholesale Manufacturer from Vietnam - CONTACT - BRAVA
- Company verification: BravaBattery's business record identifies China/Vietnam battery operations and offers AGM, gel, and front-terminal batteries with telecom-system applications.

225. Telecom Base Station Power Supply - Eco Power Group
- Company verification: Eco Power Group markets battery systems specifically for telecom base-station backup.
- Company verification: The company describes a Philippines telecom base-station project; the customer and procurement record are not independently established.

226. PROLINK Technology - PROLINK Technology
- Company verification: PROLINK describes its own Vietnam distribution of industrial batteries for applications including telecom infrastructure.
- Company verification: Its offered brands include BSB Power, GNB/Exide, and GAZ.
- Company verification: PROLINK's Vietnam distribution portfolio identifies BSB Power-branded VRLA and lithium batteries, establishing a channel connection rather than BSB's legal identity or manufacturing ownership.

227. Tele Service Co., Ltd. - Telecom Solutions
   - Company verification: Tele Service Co., Ltd.'s telecom portfolio includes UPS and battery-pack power-supply solutions.
   - Company verification: The business page identifies a Bangkok, Thailand address.
228. home_learn more | GENIKOS TECHNOLOGIES INC.
   - Company verification: Genikos Technologies, Inc. describes its Manila battery-supply business and offers VRLA batteries for telecom base stations and transmitters.
229. Telecom & Fiber Optic Contractor, Philippines | MG EXEO
   - Company verification: MG EXEO's Philippine telecom business includes DC power plants, rectifiers, and batteries.
   - Company verification: The company reports Globe/Huawei core rectifier and battery-replacement work in Visayas and Mindanao during 2011-2015; current equipment sales are not established by that history.
230. ICT Solutions - 1wan
   - Company verification: 1WAN's Philippine ICT offering includes telecom power systems with battery backup and management.
   - Company verification: The page identifies a Makati business address and describes an unnamed US-based parent.
231. Helios_Utility_Catalogue_V1-COMBINED
   - Company verification: Helios markets a SOL-series DC power/UPS system with battery backup and identifies a business footprint including Australia, New Zealand, and Southeast Asia.
   - Company verification: This record does not independently establish a current telecom deployment.
232. Profile 2020_18.3.20
   - Company verification: BASE Technologies' 2020 disclosure identifies its LiGRT lithium telecom-battery offering.
   - Company verification: The company reports historical telecom-battery supply in Bangladesh, Malaysia, Pakistan, Sri Lanka, and Myanmar; current sales are not established.
233. APC Symmetra Battery Systems | Schneider Electric USA
   - Company verification: The official APC Symmetra Battery Systems portfolio expressly positions the named battery systems for networks and telecommunications under Schneider Electric.
234. Learn About Battery Backup - AT&T Internet Customer Support
   - Company verification: AT&T identifies APC Smart UPS-X equipment and battery packs for certain network-termination equipment.
   - Company verification: AT&T identifies PSI battery kits as backup options for named gateways and ONT equipment.
   - Company verification: AT&T identifies the GS Battery GT12080-HG extended-power kit as an ONT backup option.
235. Getting to know the Belkin Residential Gateway Battery Backup REV B, BU3DC001-12V
   - Company verification: Belkin's official support record identifies the BU3DC001-12V Residential Gateway Battery Backup for AT&T U-verse gateway and voice service.
   - Company verification: The record establishes a named legacy communications-backup product, not current new-product availability.
236. 企業情報｜エネソルブホールディングス
   - Company verification: The official corporate record gives the English name EneSolve Holdings, Inc., an April xx.xx 2026 business commencement date, and group-company links to Energywith and Furukawa Battery.
237. Energywith Company Profile 2026
   - Company verification: Energywith's 2026 company profile describes Energywith and Furukawa Battery as members of the common EneSolve holding structure.
238. Energywith Global Catalog: Stationary and E-mobility Batteries
   - Company verification: Energywith's group battery catalog includes named MSJ offerings with telecommunications applications and presents the CSB portfolio within its group catalog.

239. Telecom - CSB Energy Technology Co., Ltd.
   - Company verification: The CSB commercial catalog expressly offers XTV, TPL, MSJ, MSV, and MU battery ranges for telecom or broadband backup.
   - Company verification: The source establishes the operating portfolio; complete holding-company attribution remains qualified.
240. Shindengen Corporate Profile 2025
   - Company verification: Shindengen's 2025 corporate profile identifies telecommunications power supplies and lithium-ion energy-storage systems within its power-systems business.
241. Telecommunication Power Supplies | Shindengen
   - Company verification: The official telecom power portfolio describes battery-supported power-supply systems and lists telecom rectifier and inverter offerings.
   - Company verification: It does not establish battery inclusion in every equipment sale.
242. Zero-emission mobile networks | Nokia
   - Company verification: Nokia's official mobile-network portfolio expressly includes backup batteries and integrated site solutions.
   - Company verification: Battery-related software is presented alongside, rather than substituted for, the evidenced site-equipment role.
243. 3U Series Backup Battery - BYD Singapore
   - Company verification: The Singapore-facing BYD catalog offers the U3A1-50P-A 3U Series lithium battery for telecom equipment backup.
244. Samsung SDI ESS Batteries, March 2017
   - Company verification: Samsung SDI's March 2017 ESS brochure expressly includes telecom applications and a residential-and-telecom module category.
   - Company verification: This is historical portfolio evidence and does not establish a currently marketed telecom range.
245. GEL Battery | KSTAR
   - Company verification: KSTAR's official GEL Battery page names the GEL Series and expressly lists telecommunications among its applications.
246. Company Profile | KSTAR
   - Company verification: KSTAR's specific official corporate-profile page establishes the market-facing supplier identity and its power-equipment business.
247. Great Power Company Introduction, 2026
   - Company verification: Great Power's 2026 company introduction identifies battery packs and racks serving UPS backup for communications stations.
   - Company verification: Shipment rankings and other leadership assertions in the document are not used.
248. Discover AES
   - Company verification: Discover Battery's manufacturer-hosted legacy AES portfolio names lithium battery products and explicitly includes telecom/UPS applications.
   - Company verification: The legacy record does not establish current range availability.
249. Voltronic Power DC & Standby UPS ePower
   - Company verification: Voltronic's named ePower DC UPS includes an integrated lithium battery and targets routers, modems, VoIP equipment, and other telecom devices.
250. UPS1202A Mini UPS - Reliable Backup Power for Routers & IoT Devices
   - Company verification: A June xx.xx 2025 official commercial record identifies Shenzhen Richroc Electronics Co., Ltd. and the WGP UPS1202A.
   - Company verification: The named product is positioned for routers, modems, and fiber ONU backup.
251. Kehua Data Co., Ltd. Business Summary
   - Company verification: The issuer business record identifies Kehua Data Co., Ltd. and lists telecom UPS, DC UPS, batteries, and accessories in its commercial portfolio.

252. Kehua, a Power Enabler of 5G Construction
    - Company verification: Kehua's official 2021 commercial announcement identifies its 125K modular UPS offering and telecom among its reported applications.
    - Company verification: Leadership and market-share statements are not accepted.
253. Battery Storage for Telecom Towers & Data Centres | Arvio Technology
    - Company verification: Arvio Technology's dedicated commercial page offers battery-storage integration for telecom towers and remote communications infrastructure.
    - Company verification: The page establishes an integration offering, not a named completed deployment.
254. Shuangdeng Group Co., Ltd. Global Offering Prospectus, August 18, 2025
    - Company verification: The mandatory prospectus identifies Shuangdeng Group Co., Ltd., connects its business to the Shoto brand, and documents telecom-base-station battery activity.
    - Company verification: Excluded analyst-house rankings and estimates embedded in the prospectus are not used.
255. Telecom Power System - ZTT Group
    - Company verification: ZTT's named Telecom Power System offering expressly incorporates lithium backup and battery-backup units in communications-site systems.
256. Energy Storage and Telecom ESS | EVE Energy
    - Company verification: EVE's specific Telecom ESS portfolio offers backup battery packs for telecom base stations.
    - Company verification: Its reported operator use remains supplier-authored rather than independent procurement confirmation.
257. HBL Engineering Limited Annual Report 2024-2025
    - Company verification: HBL's FY2025 annual report establishes telecom lead-acid battery activity and planned reduction of 2V-VRLA capacity.
    - Company verification: The report states that HBL was not participating in telecom lithium packs during that reporting period.
258. Telecom | HBL Batteries
    - Company verification: HBL's official telecom page advertises lead-acid and nickel-cadmium battery offerings for communications backup.
    - Company verification: Supplier scale and ranking assertions on the page are not used.
259. TL Range - HORIEN Salt Battery Solutions
    - Company verification: HORIEN's TL Range page expressly markets telecom backup batteries.
    - Company verification: The commercial footer identifies SoNick S.p.A. in Italy; it does not establish ultimate ownership or a relationship to FIAMM Energy Technology.
260. BPC PowerStor Battery Catalog
    - Company verification: The manufacturer-hosted PowerStor battery catalog expressly includes telecom equipment among its commercial applications.
    - Company verification: The legacy catalog does not establish current product availability.
261. Contact Us □ Our Locations, Inquiries, Technical support, & Press
    - Company verification: Polarium's official contact page identifies Polarium Energy Solutions AB and registration number xx.xx-xx.xx supporting the retained name without resolving the conflicting Systems AB wording elsewhere on its website. ([polarium.com](https://polarium.com/contact/))
262. Our Battery-Based Energy Storage projects and achievements | TotalEnergies.com
    - Company verification: TotalEnergies identifies Saft Groupe, abbreviated Saft, as its subsidiary and describes its continuing battery-storage business. This establishes ownership context, not telecom-specific commercialization. ([totalenergies.com](https://totalenergies.com/features/our-battery-based-energy-storage-projects-and-achievements))

263. acmenetwork.net

· Company verification: The site's specific company-history page identifies the market-facing business as ACME Network Services Group and describes a 2021 rebranding from its earlier identity. The protected acmenetwork.net row is retained rather than creating another representation. ([acmenetwork.net](https://acmenetwork.net/about))

· Company verification: The company describes telecom infrastructure and managed-services operations in Kenya, Ethiopia, Madagascar, and Saudi Arabia; this page does not establish a current battery-equipment sale. ([acmenetwork.net](https://acmenetwork.net/about))

264. About Us - Green Cubes Technology

· Company verification: Green Cubes' corporate history records its acquisition of stationary-power company Unipower in 2020, strengthening the historical business relationship behind its captured telecom portfolio. ([greencubes.com](https://greencubes.com/about-us/))

265. ABB Completes Power Conversion Division Sale | OmniOn Power

· Company verification: The July xx.xx 2023 announcement establishes completion of AcBel Polytech Inc.'s acquisition of ABB's Power Conversion division and identifies the acquired business's U.S. telecom-infrastructure role. ([omnionpower.com](https://www.omnionpower.com/about/news/press-releases/abb-completes-sale-of-power-conversion-division-to-acbel))

266. Press Release: Introducing OmniOn Power | OmniOn Power

· Company verification: The October xx.xx 2023 announcement connects the acquired former ABB Power Conversion division to its OmniOn Power identity. Only the rebranding and acquisition relationship are used, not the accompanying market-research report. ([omnionpower.com](https://www.omnionpower.com/about/news/press-releases/introducing-omnion-power-decades-of-industry-leading-power-conversion-product-with-a-new-name))

267. Sustainability | Celltech Group

· Company verification: Celltech's specific corporate sustainability page explicitly identifies Addtech as its parent company and Addtech AB as its owner. This establishes group attribution, not telecom sales by individual subsidiaries. ([celltech-group.com](https://celltech-group.com/sustainable-batteries/))

268. About - HORIEN - Salt Battery Solutions

· Company verification: HORIEN's specific company page describes HORIEN Salt Battery Solutions as formerly FZSoNick and part of HORIEN; its commercial footer identifies SoNick S.p.A. This supports branding and group continuity without establishing ultimate ownership or common ownership with FIAMM Energy Technology. ([saltbattery.horien.com](https://saltbattery.horien.com/about/))

269. Discover Battery at CONEXPO - CON/AGG 2026

· Company verification: Discover Battery's March xx.xx 2026 publication identifies it as a SOLV4EX Group company and includes telecom systems and backup power among its battery applications. It does not establish current availability of every legacy AES product. ([blog.discoverbattery.com](https://blog.discoverbattery.com/discover-battery-future-of-construction-conexpo))

25. Key Experts

[redacted]

Organizations including Amara Raja Energy & Mobility, EnerSys, MTN Group, stc Group, industry associations, and universities connect the roster to both supply and buyer contexts across Africa, the Middle East, Asia-Pacific, Europe, and the Americas. These professional identities contextualize the expertise represented without implying uniform views or market-wide representation.

Table 786. Global Telecom Battery Backup System Market, Key Experts

Name	Professional Role	Organization	Country
Abdulla Jehad	Chief Network Officer	Batelco	Bahrain
Ahmad Al-Neama	Group Chief Technology and Information Officer	Ooredoo Group	Qatar
Ahmet Turan Özdemir	General Manager	ASPİLSAN Enerji	Turkey
Akhil Gupta	Vice Chairman	Bharti Enterprises	India
Alaa Malki	Chief Technology Officer	Mobily	Saudi Arabia
Alex Eller	Research Director, Energy Storage	Guidehouse Insights	United States
Alex Holland	Research Director	IDTechEx	United Kingdom
Alex Kovarsky	Chief Technology Officer	Phinergy	Israel
Alison Gillwald	Executive Director	Research ICT Africa	South Africa
Andy Bush	Managing Director	International Lead Association	United Kingdom
Angela Wamola	Head of Sub-Saharan Africa	GSMA	Kenya
Ankit Jain	Vice President and Sector Head, Corporate Ratings	ICRA	India
Anton du Plessis	Co-founder	Freedom Won	South Africa
Anuj Sethi	Senior Director	CRISIL Ratings	India
Arthur Goldstuck	Managing Director	World Wide Worx	South Africa
Ashraf Yehia	Managing Director, Middle East	Eaton	United Arab Emirates
Avik Kumar Roy	Managing Director and Chief Executive Officer	Exide Industries	India
Beverley Ngwenya	Technology Director	Vodacom South Africa	South Africa
Brian Neilson	Chief Executive Officer	BMIT	South Africa
Bruce Cole	Senior Vice President, Industrial Division	East Penn Manufacturing	United States

Contributors

Meet the Experts

Our reports are shaped by experienced analysts and industry specialists whose expertise ensures every insight is backed by rigorous research, deep industry knowledge, and thorough validation.

Shikha Sachan

Chief Executive Officer

A transformational leader with a strong focus on integrating new technology frameworks into market research. She focuses on reshaping business models in line with evolving technologies and geopolitical shifts, while actively engaging with decision-makers and experts to deliver trustworthy insights, strategic clarity, and lasting business value.

Shailesh Sachan

Research Lead

Leads market intelligence projects, guiding research analysts and ensuring accurate, insight-driven deliverables. Specializes in competitive benchmarking, market assessment, research planning, data validation, and execution. Delivers quality outcomes through client coordination, structured workflows, and adherence to project timelines and quality standards.

Ravina Sonawane

Research Analyst

Specializes in market intelligence by conducting industry research, competitor tracking, and trend analysis. Transforms complex datasets into actionable insights that support strategic planning and informed business decision-making across diverse markets.

360iResearch

Founded in 2017, 360iResearch is a market research and business consulting company headquartered in India, with clients and focus markets spanning the globe.

We are a dynamic, nimble company that believes in carving ambitious, purposeful goals and achieving them with the backing of our greatest asset - our people.

Quick on our feet, we have our ear to the ground when it comes to market intelligence and volatility. Our market intelligence is diligent, real-time and tailored to your needs, and arms you with all the insight that empowers strategic decision-making.

Our clientele encompasses about 80% of the Fortune Global 500, and leading consulting and research companies and academic institutions that rely on our expertise in compiling data in niche markets. Our meta-insights are intelligent, impactful and infinite, and translate into actionable data that support your quest for enhanced profitability, tapping into niche markets, and exploring new revenue opportunities.
